

Susitna-Watana Hydroelectric Project Document

ARLIS Uniform Cover Page

Title: Geomorphology study (6.5) : Initial study report. Figures		SuWa 207
Author(s) – Personal:		
Author(s) – Corporate: Prepared by Tetra Tech, Watershed GeoDynamics		
AEA-identified category, if specified: Draft initial study report		
AEA-identified series, if specified:		
Series (ARLIS-assigned report number): Susitna-Watana Hydroelectric Project document number 207		Existing numbers on document:
Published by: [Anchorage : Alaska Energy Authority, 2014]		Date published: February 2014
Published for: Alaska Energy Authority		Date or date range of report:
Volume and/or Part numbers: Study plan Section 6.5		Final or Draft status, as indicated: Draft
Document type:		Pagination: v pages, pages 177-264
Related work(s):		Pages added/changed by ARLIS:
Notes: The following parts of Section 6.5 appear in separate files: Main report ; Figures ; Appendices and attachment.		

All reports in the Susitna-Watana Hydroelectric Project Document series include an ARLIS-produced cover page and an ARLIS-assigned number for uniformity and citability. All reports are posted online at <http://www.arlis.org/resources/susitna-watana/>

**Susitna-Watana Hydroelectric Project
