Subject: Re: Rohn Cabin 

Rene,

My historical info I have on the cabin says that the existing cabin (not the original Rohn Cabin) was partially built in October of 1938 by the CCC. I do know that the cabin was actually not completed that year, it was left without a roof. Scott Miluer knows the gentleman that completed the roof. He has spoken to him recently. I will contact Scott and see if I can get a name for you.

Jake

Subject: Rohn Cabin

I got a call from a lady who is writing a book about her father. She had heard that her father is one of those who built the Rohn cabin and was looking for some kind of confirmation. She said her father was working with the Civilian Conservation Corps during the time the cabin was built ('41?). Is there anything either of you have that might help her? Her name is Sally Pollen she didn't say what her dad's name was though. If you have anything that can be emailed to her, her address is sallyp@alaska.net.

Thanks
Renee
