Subject: Open File Report on Ruby/Poorman mining district

Enclosed is a copy of an Open File Report we recently got back from the printer. Ms. L'Ecuyer completed the work for this report as part of a graduate course in the history department at UAF, and as a BLM volunteer. We think this is an outstanding product, and we hope to continue to produce such documents on other historic mining areas within the district. At present, Ms. L'Ecuyer is working on a more detailed report of the Rampart-Manley-Tanana area, which will serve as her Master's thesis. We are contemplating the printing of that report at some time in the future.

We are currently preparing a mailing list for external distribution of this report. If you know of anyone who would be interested in receiving a copy, please let us know.
