This is a topographic map of a region featuring the Tyone River and a creek. The map is overlaid with a grid of numbers from 1 to 36. Key features include:

- Topography:** Contour lines indicate elevation, with labels such as 2300, 2400, 2500, 2600, 2700, 2800, and 2900. A prominent peak is labeled 'T 31 N' with an elevation of 2800.
- Water Features:** The Tyone River flows from the upper right towards the lower center. A creek, labeled 'Creek', flows from the lower right towards the center. Several smaller ponds and lakes are scattered throughout the landscape.
- Grid System:** A grid of numbers (1-36) is overlaid on the map, likely for identification or navigation purposes. The numbers are arranged in a roughly rectangular pattern, with some variations in their placement.
- Labels:** The map includes labels for 'TYONE RIVER', 'Creek', and 'SEWARD'. There are also various numerical labels for elevation and grid coordinates.
