ALASKAN COMPANIES AND PROSPECTORS 1983

The Division of Geological and Geophysical Surveys maintains a list of companies and prospectors that are active in Alaska. All names are taken from Alaska Mining Licenses.

Numbers in parentheses indicate the number of licenses issued to an individual, partnership, or company. In most cases, the licenses were issued automatically because two or more Annual Placer Mining Applications were submitted by the same operator. Only operators whose licenses were received by February 1, 1984, are listed. Note that a mining license is not required until actual production begins.

Name and address	Location	Type and mineral
AB Placer (2) P.O. Box 74528 Fairbanks, AK 99707	Sorrels, Crooked Creek	Placer - Gold
ABJ III Mining Co. Box 776 Sterling, AK 99672	Devils Creek, Sec. 4, T5N, R2W, S.M.	Placer - Gold

Adebe Enterprises Koyle Hatfield General Delivery Fairbanks, AK 99707	Bottom Dollar Creek	Placer - Gold

STATE OF ALASKA
Department of Natural Resources
DIVISION OF GEOLOGICAL &
GEOPHYSICAL SURVEYS

According to Alaska Statute 41, the Alaska Division of Geological and Geophysical Surveys is charged with conducting 'geological and geophysical surveys to determine the potential of Alaska lands for production of metals, minerals, fuels, and geothermal resources; the locations and supplies of ground water and construction materials; the potential geologic and seismic hazards to buildings, roads, bridges, and other installations and structures; and shall conduct other surveys and investigations as will advance knowledge of the geology of Alaska.'

In addition, the Division shall collect, evaluate, and publish data on the underground, surface, and coastal waters of the state. It shall also acquire, process, and file data from well-drilling logs.

DGGS performs numerous functions, all under the direction of the State Geologist—resource investigations (including mineral, petroleum, geothermal, and water), geologic-hazard and geochemical investigations, and information services.

Administrative functions are performed under the direction of the State Geologist, who maintains his office in Anchorage. DGGS offices are at:

.794 University Ave.
