Memorandum

To: PM-G
From: Realty Specialist
Subject: Tetlin Transfer

JUN 5 1981

Summary

Tetlin's request for ANILCA title transfer (1437c) to the lands within the original Government survey put PM-G out of business as to that tract of land, though the boundary issues on both sides still remain and does affect the pipeline route (see attached map).

An order, dated May 22, 1981, by ANCAD affirmed that title did transfer May 18, 1981 to all right, title and interest of the U.S. in existence on December 18, 1971 to Tetlin Native Corp.
