<sup>a</sup> E - Existing; N - New; N1 - Facility Access; N\* - will be provided in the final report.

<sup>b</sup> FC - For Construction, will be provided in the final report (P - Pipeline; SF - Shoofly; F - Facility; SY - Storage Yard; WS - Water Source; B - Borrow Source); FI - Field Investigation, will be provided in Final Report (FI - Fault Investigation; FB - Frost Bulb; HR - Horizontal Directional Drilling/River Crossing; L - Longitudinal Slope Investigation; S - Strain-Based Design; AF - Alternate Facility; FF - Future Facility).

<sup>c</sup> Type of Modification will be provided in the final report.

<sup>d</sup> Proposed width - 40 feet is approximate, as shown in typical drawings, some will be wider.

[Note: There are a number of major Alaska Department of Transportation and Public Facilities highways that connect the access roads leading from campsites and storage yards to the construction right-of-way that have not been included in Tables F1-1 and F1-2. Examples of such highways include Dalton Highway, Elliott Highway, Steese Expressway/Highway, Richardson Highway, and Alaska Highway. A complete listing of these existing highways and roads will be updated in the final report.]
