^a Straight-line distance and direction from the borrow source to the pipeline. The actual distance by road or trail from a borrow source to the pipeline will be longer. N = North, E = East, S = South, W = West.

^b The acreage noted in the table denotes the current estimated total area of the borrow source deposit. [Note: The area that will be developed and mined within a given deposit is being evaluated and additional information will be provided in the Draft Report.]

^c [Note: Possible status categories include: Existing, re-use, closed, etc. The existing status of each borrow area is under evaluation and will be further defined in the Draft Report.]
