

Zones of Restricted Activity for Protection of Key Fish Areas Along the Trans-Alaska Pipeline System on Federally Administered Lands

Third Edition

Mission Statement

The Bureau of Land Management (BLM) sustains the health, diversity and productivity of the public lands for the use and enjoyment of present and future generations.

Cover

This pond, adjacent to the upper Atigun River drainage north of the Brooks Range, is ice-free all winter because of the pipeline's thermal regime. It is used by Arctic grayling for rearing and overwintering. Alyeska Pipeline Service Company constructed a channel between the pond and the Atigun River so fish can freely use the pond all year. Photo by Dennis Gnath.

Open File Reports

Open file reports present the results of inventories or other investigations published outside the formal BLM-Alaska technical publication series. These reports can include preliminary or incomplete data and are not published and distributed in quantity.

Reports are available while supplies last from BLM External Affairs, 222 West 7th Avenue, #13, Anchorage, Alaska 99513 (907) 271-5555 and from the Juneau Minerals Information Center, 100 Savikko Road, Mayflower Island, Douglas, AK 99824, (907) 364-1553. Copies are also available for inspection at the Alaska Resource Library and Information Service (Anchorage), the United States Department of the Interior Resources Library in Washington D.C., various libraries of the University of Alaska, the BLM National Business Center Library (Denver), and other selected locations.

A complete bibliography of all BLM-Alaska scientific reports can be found on the Internet at: http://www.ak.blm.gov/affairs/sci_rpts.html

Related publications are also listed at: <http://juneau.ak.blm.gov>.

Zones of Restricted Activity for Protection of Key Fish Areas Along the Trans-Alaska Pipeline System on Federally Administered Lands

Third Edition

BLM Open Report 104
December 2005

U.S. Department of the Interior
Bureau of Land Management
Alaska State Office
222 W. 7th Ave., #13
Anchorage AK 99513

This preface (next page) had been duplicated from a different document: Fish Streams Along the Trans-Alaska Pipeline System. Third edition.

ARLIS is keeping this page in this volume to maintain how this report was originally issued.

Preface to the Third Edition

This third edition of the *Fish Streams Along the Trans-Alaska Pipeline System* (previously titled TAPS Fish Streams) has been prepared and will be maintained by the Office of Pipeline Monitoring to facilitate the administration of environmental provisions of the Federal Agreement and Grant of Right-of-Way for the Trans-Alaska Pipeline System. Specifically, this report is intended to serve as the source document for periodically updating a list of areas under Federal administration where pipeline activities may have to be restricted to protect fish breeding, spawning and major migration. However, this report is not the Federal Authorized Officer's list required under the Agreement and Grant of Right-of-Way for Trans-Alaska Pipeline, Stipulation 2.5.3, Zones of Restricted Activities. The Stipulation 2.5.3 list will only include streams in areas of Federal pipeline administration and will be separately prepared and issued to the Permittees' agent, Alyeska Pipeline Service Company.

The open file format was chosen to facilitate additions or corrections resulting from any future State, Federal, Alyeska Pipeline Service Company or other studies of pipeline streams. Please direct all correspondence concerning additions/corrections or document requests to:

Jerry Brossia
Joint Pipeline Office
U.S. Bureau of Land Management
Office of Pipeline Monitoring

MP = The distance in miles from Pump Station 1; * Prefix denotes extrapolated mileage not field checked.

AS = Alyeska Pipeline Service Company (G-100 as-builts) alignment sheet number.

STREAM NAME = Adapted from Johnson and Rockwell, 1981. For example: YUKON RIVER denotes a name recognized by the U.S. Geological Survey; (Small or Jackie's CK) denotes a non-USGS recognized popular name; [Snowpad CK denotes a new name used in this list.

COMMENTS = TAPS A/G denotes above-ground pipe mode; TAPS B/G denotes below-ground mode; CMP is a corrugated-metal-pipe or culvert; LWC is a low water crossing; BLOCKPOINT is a physical barrier to vehicle passage; CAUSEWAY, BRIDGE, and PARALLEL are self-explanatory.

FISH SPECIES = see Page ii of iv for explanation of codes.

ADAD = "YES" denotes anadromous fish stream designated by Alaska Dept. Fish and Game.

PERIOD OF SENSITIVITY = C denotes Critical period of fish usage; S denotes Sensitive period of fish usage.

NOTE: UNDERLINING of a stream's period of sensitivity denotes the recommended sensitivity period if fish return in the future.

FIELD STATION = Distance in feet from Pump Station No 1 as estimated in field; * Prefix denotes an extrapolated stationing not field checked.

G-5 = Obtained from selected references (see Page iii of iv) and refers to construction drawings.

MER = Meridian – U is Umiat; F is Fairbanks; C is Copper River.

T = Tier or Township; R = Range; Sec. = Section.

REFERENCE = see page iii of iv.
