

Donlin Gold Project EIS

Mail-in Comment Form

You can submit comments using the form on the website (www.DonlinGoldEIS.com), in person at a public scoping meeting, or in writing (at a meeting or by mail). If you'd like to mail your comments, please feel free to use this form. Write your comments, questions, and suggestions below, then fold this page in thirds so that the mailing address shows. Remember to affix first-class postage before putting it in the mail.

The following questions may help:

If the project goes forward, how might it affect you and your community?

What is most important to you to know about the proposed project?

What are your concerns about this project?

Are there particular animals, fish, or places that you use that might be affected by the project?

I feel that the proposed project will have a drastic effect to our river which our community member fear if barging starts up and down the Kuskokwim river it will cause erosion faster to the place which ~~will~~ residents of Kwethluk fear now if that portion of channel that ties with the Kuskokwim and Kwethluk river breaks it will have or have immanent damage to our village or even wipe out ^{the village} most of the which is along side of Kwethluk river, And also emissions from the barges will pollute the air & water as well as plants that are edible which our people gather for food and with barges going up and down will cause disturbance w/ all the species that come seasonally and resident

species also the juvenile fish of all species. Also the other villages up and down the Kuskokwim will face similar issues which I have written. To end my comments I am opposed to the Donlin Gold project. And also who is Barrick Gold and Nova Gold do they have history of their company, where are they from.

Sincerely

Jimmy Andrew
