

Donlin Gold Project EIS

Mail-in Comment Form

You can submit comments using the form on the website (www.DonlinGoldEIS.com), in person at a public scoping meeting, or in writing (at a meeting or by mail). If you'd like to mail your comments, please feel free to use this form. Write your comments, questions, and suggestions below, then fold this page in thirds so that the mailing address shows. Remember to affix first-class postage before putting it in the mail.

The following questions may help:

If the project goes forward, how might it affect you and your community?

What is most important to you to know about the proposed project?

What are your concerns about this project?

Are there particular animals, fish, or places that you use that might be affected by the project?

JAN 14 2013

Question 1:

Is there an impact study on the CO₂ / green house gases emission over course of entire project - construction, operation, and reclamation? We see effects of global warming on the plant life of the tundra & diminishing ice cap already.

Question 2:

Where would natural gas from Cooke Inlet come from? Anchorage residents are already on a plan to deal with declining natural gas supplies as needed.

Question 3: Riverbank erosion from wave action of numerous barges - also affecting nests of waterfowl, salmon spawning areas, etc. fish camp locations, etc.
