

Donlin Gold Project EIS

Mail-in Comment Form

You can submit comments using the form on the website (www.DonlinGoldEIS.com), in person at a public scoping meeting, or in writing (at a meeting or by mail). If you'd like to mail your comments, please feel free to use this form. Write your comments, questions, and suggestions below, then fold this page in thirds so that the mailing address shows. Remember to affix first-class postage before putting it in the mail.

The following questions may help:

If the project goes forward, how might it affect you and your community?

What is most important to you to know about the proposed project?

What are your concerns about this project?

Are there particular animals, fish, or places that you use that might be affected by the project?

FEB 27 2013

For delivering so much fuel to Donlin Creek, Does the people there are they trained or went thru Hazwoper Course?

People need to understand the meaning of MSDS,

In most cases they ask for where they need to be trained or what they went thru time of trainings.

Most of the traffics going up to mine site, need storages for Congitigis easy plan, have to think about fuel spills, very important steps (need those Yoke & Stem Valves)

There is just too much fuel going to Donlin also natural gas, what about the leaks, how often is it going to be maintained?

One little leak can make a big difference loss of pressure.

How the hiring committee is, from where and how far from home?

Income is important but for this is it a gamble or loss?

piping under the river; impossible, perma-frost is twice a year in Alaska
