

# Donlin Gold Project EIS

## Mail-in Comment Form

You can submit comments using the form on the website ([www.DonlinGoldEIS.com](http://www.DonlinGoldEIS.com)), in person at a public scoping meeting, or in writing (at a meeting or by mail). If you'd like to mail your comments, please feel free to use this form. Write your comments, questions, and suggestions below, then fold this page in thirds so that the mailing address shows. Remember to affix first-class postage before putting it in the mail.

The following questions may help:

If the project goes forward, how might it affect you and your community?

What is most important to you to know about the proposed project?

What are your concerns about this project?

Are there particular animals, fish, or places that you use that might be affected by the project?

When permits are obtained, veteran miners will  
replace Alaska Natives. No Native title Agreement  
your pictures finally showed the method of  
proposed mining. The secret of Donlin creek Fluv.  
Tulksak Mining Kill all fish and Donlin water  
Release will do same. Obtain pictures show  
whether fresh water finfish will be  
contaminated and that part of River closed  
should be your findings.

Sunshine will NOT Reduce Contamination  
and unregulated timing of water Release  
will be harmful.

Whether subsistence fish Harvest is  
priority and water use, you have to  
decide —

Layout of Proposed Mine Site

The image to the right illustrates the eventual layout of a proposed gold mine, ten miles north of the community of Crooked Creek on the Kuskokwim River in southwestern Alaska, for which the US Army Corps of Engineers is preparing an EIS. The project, proposed by Donlin Gold, LLC, includes transportation and power components. You may use this mail-in form to submit comments.
