Subject: Support for Donlin Gold
Date: Tuesday, March 26, 2013 11:13:21 AM

The Donlin Gold project will bring long term benefits to the State of Alaska. We will have 100's of new jobs to fill related to construction and maintenance activities to be filled by Alaskans. Each new job reverberates through the economy supporting other new jobs.

As a former Corporate Controller for an Alaskan Native Corporation I have seen how the natural resource revenue shared among the Alaska Native Corporations and Village Corporations brings a wealth of income to Alaska Natives in need in rural communities. The Donlin Gold project will be a positive impact on these needy communities.

Sincerely,
Rob
