

Donlin Gold Project EIS

Mail-in Comment Form

You can submit comments using the form on the website (www.DonlinGoldEIS.com), in person at a public scoping meeting, or in writing (at a meeting or by mail). If you'd like to mail your comments, please feel free to use this form. Write your comments, questions, and suggestions below, then fold this page in thirds so that the mailing address shows. Remember to affix first-class postage before putting it in the mail.

The following questions may help:

If the project goes forward, how might it affect you and your community?

What is most important to you to know about the proposed project?

What are your concerns about this project?

Are there particular animals, fish, or places that you use that might be affected by the project?

THE MOST CONCERNING ISSUE WITH THE PROJECT IS THE WASTE TAILINGS POND AND THE CHEMICALS CONTAINED WITHIN. THE POND WILL BE A PERMANENT DANGER AFTER THE ~~WELL~~ MINE IS CLOSED. IF SOMETHING HAPPENED TO THE WASTE TAILINGS POND, THE ENTIRE KUSKOKWIM RIVER COULD BE IMPACTED BEING THAT SALMON ARE A MAJOR SUBSISTENCE FOOD SOURCE FOR MORE THAN 15,000 RESIDENTS IN THE AREA, THE ECONOMIC IMPACT WOULD FAR EXCEED THE GOLD MINED IF THE SALMON WERE AT RISK.

SMALL SCALE MINES ARE A BETTER ALTERNATIVE TO MASSIVE OPEN PIT MINES.

Layout of Proposed Mine Site

The image to the right illustrates the eventual layout of a proposed gold mine, ten miles north of the community of Crooked Creek on the Kuskokwim River in southwestern Alaska, for which the US Army Corps of Engineers is preparing an EIS. The project, proposed by Donlin Gold, LLC, includes transportation and power components. You may use this mail-in form to submit comments.
