**Submission Text:**

I am against the approval of the donlin gold project as it is just a catastrophe waiting to happen.having a huge dam of toxic water that nobody seems to know what to do with is just too risky in my opinion.the fear pf eventual leaks into creeks and waterways will create a mess.it is just passing on a huge burden to future generations and as always it is the taxpayers that will foot the bill.there are just some areas in the world that need to be left alone just like God made them.man will just \*\*\*\* it up.
