

**RUSSIAN LITERATURE
IN THE
NATIONAL MARINE MAMMAL LABORATORY
LIBRARY**

Submitted to the
National Marine Mammal Laboratory
in fulfillment of Contract No. 43ABNF601962

Marinka International
S. Pearson (Srnstik), compiler
Seattle, Washington

February 1997

INTRODUCTION

This bibliography of Russian literature represents the collection of works, either published or unpublished, for individual Russian scientists who have done research on marine mammals.

The information for the compilation of this list came from entries in the NMML Library card catalog and the on-line Papyrus data base of current NMML holdings.

The Russian materials in the library were gathered from various sources: journal articles, reports from VNIRO (All-Union Scientific Research Institute of Fisheries and Oceanography) and TINRO (Pacific Scientific Research Institute of Fisheries and Oceanography). The annual reports from the Russian side in connection with Project 02.06-61 "Marine Mammals", US-USSR (Russia) Agreement of Protection of the Environment are valuable data which document the ongoing cooperative research between the United States and the Russian Federation of States.

The author's names are alphabetized according to the English spelling of the name. There are variations in spellings for the same name because there are different transliteration systems.

In order to facilitate the usefulness of the citations the language is indicated or the presence of an English abstract where ever it was possible to verify that information. Standard abbreviations were used in journal citations. The translator's name or affiliation is also included when available.

Approximately one-fourth of the citations were actually verified as to being available in the reprint file or on the book shelves. For the list to represent the actual holdings of Russian literature in the NMML Library, the location all of the citations should be checked. This latter step was not done due to lack of additional funding.

I would like to express my gratitude to Sonja Kromann and Scott McClelland of the NMML laboratory for their help in formatting the Subject Index section.

RUSSIAN LITERATURE IN THE NATIONAL MARINE MAMMAL LABORATORY LIBRARY

Listed below are works by Russian scientists published in Russian or English which are available in the NMML Library. Russian names which have different English transliterations for the same author are alphabetized according to the English spelling of the name. Individual author's files have not been verified.

Abdullabekov, A. 1967. Obrabotka mekhovogo syr'ya iz Kaspiiskogo tyuleny na dobyvayushchikh sudakh (Processing of the raw fur skin of Caspian seals aboard catching vessels. Ryb. Khoz. no.6: 59-61. REPRINT FILE

Afnas'ev, V.N. 1941. Parasitofauna of the commercial mammals of the Kommander Islands. Uchenye zapiski no. 74. Seriya biologicheskikh nauk.v.18, p. 94-117. REPRINT FILE.

Agafonov, A.V. 1987. Analysis of possible existence in dolphins of a developed communicative system *In*: V.M. Bel'kovich, editor, Povedeniya i bioakustika kitoobraznykh, p. 197-209. Moscow. P.P. Shirshov Institute of Oceanography. 218p. Transl. NOSC. 11p. 1988. REPRINT FILE.

Agafonov, A.V. and V.V. Kaznadzey. 1987. Experimental ethological-acoustic study of a local population of Black Sea bottlenosed dolphins *In*: V.M. Bel'kovich, editor, Povedeniya i bioakustika kitoobraznykh, p. 55-68. Moscow. P. P. Shirshov Institute of Oceanography. 218p. Transl. NOSC. 13p.1988. REPRINT FILE.

Agarkov, G.B.1975. Morskie mlekoopitayushchie (Marine mammals), part II. Proceedings of the sixth All-Union conference on the study of marine mammals, Kiev, 1-3 October 1975. Transl.of Table of contents, JPRS, 16p. 1976. REPRINT FILE.

Agarkov, G.B. and B.G. Khomenko. 1984. Sravnitel'naya morfologiya cherepnomozygovykh nervov i probleme proiskhozhdeniya kitoobraznykh (The comparative morphology of craniocerebral nerves and the problem of origin of cetaceans). Zool. Zh. 63(5):760-766. In Russian. REPRINT FILE.

Agarkov, G.B. and V. Ia. Lukhanin. 1970. Propulsive tail musculature of the Atlantic common dolphin (K voprosy o dvigatel'noi muskulature khvostovogo otdela del'fina belobochki). Bionika (4):61-64. Transl. by JPRS, 1971, p.77-81 *In*: Hydrodynamic problems of bionics. 157p. REPRINT FILE.

Agarkov, G.B. and V.F. Sych. 1974. Morphofunctional analysis of the epaxial musculature of the propulsive complex of the porpoise. Bionika (8): 122-127. Transl. by JPRS, Nov. 1974. REPRINT FILE.
