JAN 10 1993

Meeting Summary

- A. MEETING:** Exxon Valdez Oil Spill Public Advisory Group
(PAG)
- B. DATE/TIME:** January 6 and 7, 1993
- C. LOCATION:** Anchorage, Alaska
- D. MEMBERS IN ATTENDANCE:**

<u>Name</u>	<u>Principal Interest</u>
Rupert Andrews	Sport Hunting & Fishing
Pamela Brodie	Environmental
James Cloud	Public-at-Large
Richard Eliason	Public-at-Large
Donna Fischer	Local Government
John French	Science/Academic
James King	Conservation
Richard Knecht	Subsistence
Vern McCorkle	Public-at-Large
Mary McBurney (for G. McCune)	Commercial Fishing
John McMullen	Aquaculture
Brad Phillips	Commercial Tourism
John Sturgeon	Forest Products
Charles Totemoff	Native Landowners
Llewellyn Williams	Public-at-Large

E. NOT REPRESENTED:

<u>Name</u>	<u>Principal Interest</u>
Cliff Davidson (<i>ex officio</i>)	Alaska State House
James Diehl	Recreation Users
Paul Gavora	Public-at-Large
Jalmar Kertulla (<i>ex officio</i>)	Alaska State Senate

F. OTHER PARTICIPANTS:

<u>Name</u>	<u>Organization</u>
Mike Barton	Trustee Council Regional Forester, U.S. Forest Service
Bob Baldauf	Dept. of the Interior
Kim Benton	PAG Forest Products Alternate
Pamela Bergmann	Restoration Team Dept. of the Interior
Evelyn Biggs	Cordova Dist. Fishermen United
Irvin Brock	AK Dept. of Fish and Game
Mark Broderson	Restoration Team AK Dept. Envir. Conservation

G. SUMMARY:

The meeting was opened at 9:30 a.m. by Chairperson Brad Phillips. The summary of the December 2, 1992 meeting was approved. Trustee Council member, Curt McVee, commented about his expected retirement on January 21, 1993, and the Department of the Interior's view that emergency and critical needs only be met until a comprehensive restoration plan is completed.

Dave Gibbons provided a summary of the December 11, 1992 Trustee Council meeting (attachment J.2.g). Actions taken by the Trustee Council on the four PAG resolutions are:

- #1--PAG procedures: tabled until 1-19-93 meeting
- #2--Local involvement in restoration: tabled until 1-19-93 meeting
- #3--Wait to decide 1993 projects: accepted, except for time-critical projects
- #4--Approve PAG officer election: accepted

John French reported on the Kodiak work group meeting and their recommendations (attachment J.2.i). Vern McCorkle reported on the Kenai work group meeting (previously mailed). Donna Fischer reported on the Prince William Sound work group meeting (attachment J.2.h).

Bob Spies, Chief Scientist for the Trustee Council, was introduced and he responded to questions about his comments on the proposed 1993 projects. Dave Gibbons noted that the approach to the 1994 work plan would be to present a framework to the public and not ask for public submission of ideas, as was done for 1993. Jerome Montague said that 1993 was the first time the public had a chance to actively submit project ideas for the restoration effort.

Phillips opened discussions on the proposed 1993 work plan. The approach to take and the criteria to use in evaluating the merits of projects were discussed. The administrative line items and individual projects, as proposed in the 1993 work plan, were reviewed and acted upon. The results of voting on individual projects and recommendations (attachment 1), along with amendments and agreed upon comments, were recorded and forwarded to the Trustee Council for their use at the January 19, 1993 meeting. The transcript of this meeting is to be sent to the Trustee Council to give them access to the various comments and opinions PAG members had about the proposed projects. Six new projects were proposed by PAG members--five of which were recommended to the Trustee Council (see attachment 1). Prioritizing projects was discussed but was not completed due to lack of time.

A recurring concern by many members of the PAG was the appearance that agencies are funding ongoing operations, or even double funding activities, and that overhead and administrative costs seem excessive. A recommendation from the PAG is that the Trustee Council have an independent review of the situation in order ensure accountability and to avoid duplicative and/or excessive funding for agencies. Another concern of the PAG was that it have adequate funds budgeted to meet at least six times during the year, not just the minimum required four meetings. The PAG has already held three meetings and has another scheduled for February.

Keith Goltz, Department of the Interior Solicitor's Office, reiterated the caution concerning PAG members debating and voting on proposals before the PAG that could be viewed as providing individual members with a direct economic benefit.

Regina Martinez responded to questions and problems raised by PAG members regarding travel and reimbursements. Dennis MacGuire briefed the PAG on the Coast Guard financial review of Exxon's completion of the cleanup effort (see attachment J.2.j).

Dave Gibbons outlined the schedule for the restoration plan and environmental impact statement (see attachment J.2.k). He stated that a habitat protection report on imminent threat would be available in mid-February. The PAG will also get to review the proposed schedule for the 1994 work plan and will be involved in the planning process. PAG members who wish to go to the oil spill symposium in February are approved to do so--travel and reimbursement will be through the regular PAG channels.

The meeting was opened for public comment. The following people were teleconferenced at Cordova: Jeff Guard and Evelyn Biggs, Cordova District Fishermen United, Mark Willette and Sam Sharr, Alaska Department of Fish and Game. Coded wire tagging and herring stock studies in Prince William Sound were supported. Anne Wieland, Kachemak Bay Citizens Coalition supported the proposed acquisition in Kachemak Bay. Ralph Eluska, AKI (Native corporation), supported the archeology museum project in Kodiak. Charles McKee offered comments.

H. ACTION ITEMS:

1. See attached vote record for recommended Trustee Council action on individual proposed 1993 projects. (previously mailed to the Trustee Council)
2. Vice-chairperson, Donna Fischer, will give the status report at the January 19, 1993 Trustee Council meeting.

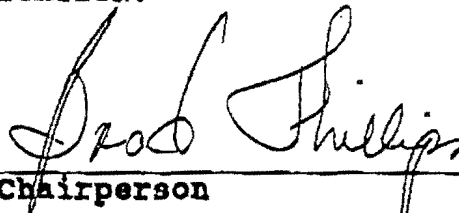

I. NEXT MEETING: Wednesday, February 10, 1993 @ 9:30 a.m.
First floor conference room
645 G Street
Anchorage, Alaska

J. ATTACHMENTS:

1. Vote record for proposed 1993 projects (mailed previously)
2. Handouts attached for those not present:
 - a. Cook Inlet Seiners Assoc. letter (vol. I tab X)
 - b. Municipality of Anchorage letter (vol. I tab X)

- c. Fishery Industrial Technology Center brochure
- d. C.W. Totemoff presentation to PAG (vol. II tab IV)
- e. Chenega Corp. Memorandum of comments on 1993 projects (vol. II tab IV)
- f. Memorandum from Dave Gibbons on initial screening of 1993 projects (vol. II tab IV)
- g. Memorandum from Dave Gibbons on Trustee Council meeting of 12/11/92 (vol. I tab IX)
- h. Meeting Summary for PAG Prince William Sound work group meeting of 1-4-93 (vol. I tab IX)
- i. Meeting Summary of PAG Kodiak work group meeting of 1-5-93 (vol. I tab IX)
- j. Federal On-Scene Coordinator Cleanup Financial Review
- k. Revised Schedule for Restoration Plan and Environmental Impact Statement (vol. II tab II)

PAG Report Notes (1-19-93)

1. The PAG met January 6-7, 1993 to review 1993 work plan--a draft meeting summary is available (handout).
2. The PAG voting record was sent with the Trustee Council package last week, the Trustee Council should have that. This shows how each member voted and what comments and amendments were agreed to as a part of the recommendation.
3. The transcript of the PAG discussion on 1993 projects has been copied for each Trustee Council member, at the request of the PAG, to show the issues, concerns and minority views raised on each project.
4. A recurring concern by many members of the PAG is the appearance that agencies are funding ongoing operations, or even double funding activities, and that overhead and administrative costs seem excessive. A recommendation from the PAG is that the Trustee Council have an independent review of the situation in order ensure accountability and to avoid duplicative and/or excessive funding for agencies.
5. Another concern of the PAG was that it have adequate funds budgeted to meet at least six times during the year, not just the minimum required four meetings. The PAG has already held three meetings and has another scheduled for February 10, 1993 to begin review of the restoration plan and habitat protection plans.
6. For Trustee Council information is Jim Cloud's memo (handout), which is also supported by PAG Chairperson Brad Phillips.

James L. Cloud

Anchorage, Ak. 99520

To: Brad Phillips, Chairman EVOS PAG

Date: January 9, 1993

From: Jim Cloud, Member PAG, Public-at-Large

Subject: Comments on the 1993 Workplan
EXXON Valdez Oil Spill Trustees Council Public Advisory Group

I would like to take this opportunity to make some comments on some important issues concerning the 1993 Workplan and Budget which was the subject of a two day meeting of the EVOS PAG last week. Please keep in mind that these comments are my own and should not be interpreted as a representation of other PAG members. My comments are meant to reflect concerns of members of the group I represent, that is the "public-at-large". If appropriate, please include these comment in your report to the EVOS Trustees Council and distribute copies to the other PAG members.

Public-At-Large

Among the many special interest groups of represented on the EVOS PAG is the "public-at-large". The public-at-large is the broadest of all groups or classes of people that have an interest in the manner in which the EVOS Trustee Council directs the restoration of resources and wildlife damaged by the EVOS and the associated funding of activities related to the restoration process.

The public-at-large includes people that are citizens of the United States of America as well as people who are citizens of other countries; consumers of goods and services as well as consumers of intangible services such as tourism or simply ideals or notions. It will be difficult but not impossible to assure that one class of the public-at-large is not denied utilization or service of a natural resource through the attempt to restore a utilization or service to another class of the public-at large.

Habitat Acquisition

After studying the material provided and listening to the discussions at PAG meetings so far held, I have concluded that there are some very extreme conflicts developing between special interests and the interests of the public-at-large. Central to this conflict is the effort to acquire property or property rights and transfer such property or property rights to government agencies for "habitat protection" as a method of restoring a lost service provided by a resource without recognizing the loss of a service created by the acquisition if the acquisition results in a decrease of natural resources available to the public-at-large.

It is not in the interest of the public-at-large to reduce the amount or quality of natural resources that are accessible to the public-at-large through private ownership. During the past two decades, the public-at-large has lost access to natural resources of unknown utility on literally hundreds of millions of acres of land in Alaska. During the discussion at the recent PAG meeting the Restoration Team was unable to provide answers to Senator Eliason's questions regarding the amount of property under government protection compared with the amount of privately owned property and property rights.

Any further reduction in present or future availability of resources to the public-at-large as a result of actions taken by the EVOS Trustee Council would amount to a loss of a "service" to one class of people in order to restore a "service" to another. I do not believe it is the intent of the Court or the Trustee Council to make such trade-offs to the detriment of the public-at-large.

The withdrawal of private property without replacement has an additional cost to the public-at-large when it causes a reduction in the property tax base for local governments. A lower tax base (present or future) causes extra burden on area taxpayers.

No-Net Loss

I urge the EVOS Trustee Council to apply a principle of "No-Net-Loss" of private property or access to natural resources. If particular habitat is found to be so valuable to the recovery certain wildlife, government landowners should be required to trade some of it's resources in a manner which leaves "no-net-loss" of privately owned property or access to natural resources. Such trades or replacements should be accomplished in a manner that provides for substantially equivalent property or resource availability.

Endowment

This idea has some merit. The council should make a determination of whether it can legally create an endowment with the trust funds and how the endowment funds may be spent. The sooner this can get off the ground the better. Since the University of Alaska already has an endowment program, perhaps there could be some economies by putting such an endowment in with the University of Alaska, limited of course to uses specified by the EVOS Trustee Council. I would recommend a minimum endowment of \$200 million, with one half of the earnings reinvested each year to protect the foundation and the other half used for purposes specified by the EVOS Trustee Council in the creation of the foundation.

Restoration Plan

This is key to future spending plans and priorities. I am frankly amazed it has taken so long. Perhaps the planners are starting with too complicated a document. Nevertheless, I am please to see the EVOS Trustees have ordered a fast track for preparation of the draft plan and related NEPA reports so the drafts may be used to formulate the 1994 Work Plan.

Budgets and Accountability

At our January 6th and 7th meeting there was much discussion about the relatively large budgets for the Administration and Restoration Team. The total of over \$4.6 million is over 30% of the planned work expenditures (excluding the habitat acquisition fund) for 1993. This is in addition to the overhead allocations in each project. The PAG has sent the Trustees some rough recommendations with their approval. However, recent news reports of a General Accounting Office report to Congress critical of lack of financial accountability among federal agencies for program spending and operations has encouraged me to make some addition suggestions to the Trustees.

1. Engage an independent accounting firm to audit the expenditures of the EVOS Trust and recommend a system for financial and accounting controls independent of the agencies.
2. Based on the above recommendations, develop a system for measuring the effectiveness of each project undertaken by the EVOS Trust to assure that inefficiencies are detected rapidly and corrected or discontinued.
3. Engage an independent coordinator or "prime contractor" to manage the restoration effort much like the role of the Coast Guard in the EVOS clean-up phase.

4. Agencies that do not comply with the system of independent accountability should not be allowed to participate in the projects undertaken.
5. Engage an independent accounting firm to provide annual audited financial statements on the EVOS Trust and related expenditures.

Several EVOS PAG participants expressed concern of agency budget featherbedding. If the EVOS Trustee Council will take the time to read the transcripts they will see several comments and questions that try to determine if agencies are augmenting their budgets by trying to use EVOS funding for personnel and work that would be accomplished as part of agency responsibilities. The EVOS PAG does not have the resources or the qualifications to make such a determination. The GAO report only supports such suspicions of the public. Independent accountability is the only way to guard against such charges and assure that expenditures are being carried out efficiently and productively.

Conclusion

Thank you for including my comments with the EVOS PAG report. These comments do not particularly carry the endorsement of the other members of the EVOS PAG or the other representatives of the public-at-large.
