Ms. Clara Johnson  
Director, Interior-Aleutians Campus  
University of Alaska, Fairbanks  
P.O. Box 756720  
Fairbanks, Alaska 99775-6720

Dear Ms. Johnson:

The Exxon Valdez Oil Spill Trustee Council is very interested in and supports your proposal to develop a coastal science technician training program for community members in the Chugach Region. We have long been a supporter of community and citizen involvement in the projects we do, and see this training program as an asset.

The opportunity to train local area residents to assist scientists with technical skills that are required for a scientific project is a goal that many of us have supported through the years. Hopefully, the end results of the training program will not only provide a valuable tool to assist in scientific research, but it will also establish and provide for meaningful employment for the local area citizens in the fields of fisheries research, monitoring and management activities.

As the University and NOAA proceed with the development of the curriculum for this course, if there is any way you think we may be of assistance, please do not hesitate to contact me.

Sincerely,

*Gail Phillips, by P.D. Banks*

Gail Phillips  
Executive Director

RE: 02552/Exchange between Prince William Sound and the Gulf of Alaska.

Dear Shari:

Enclosed are peer review comments regarding Project 02552/Exchange between Prince William Sound and the Gulf of Alaska. We request you to revise your Draft Final Report to address peer review comments and submit your Final Report to the *Exxon Valdez* Oil Spill Trustee Council office for final approval. Once approved by Phil Mundy, Science Director, a letter of approval will be sent to you with instructions on finalizing your report. If you are interested in viewing our reports procedures, it is available on our website at <http://www.evostc.state.ak.us/pdf/admin/reportguidelines.pdf>.

Thank you for your participation and contribution to the EVOS Restoration Program.

Sincerely,

Brenda Hall,  
Administrative Officer

Coowe Walker  
Kachemak Bay Reserach Reserve  
2181 Kachemak Drive.  
Homer, AK 99603

Dear Coowe:

As a person knowledgeable about the *Exxon Valdez* Oil Spill Trustee Council's mission and purpose, I am requesting that you serve on the Trustee Council's Watersheds Work Group for federal FY 2005. As an appointed member of the Watersheds Work Group your travel and per diem to attend meetings would be paid by the Council. The purpose of the Watersheds Work Group is to develop a report on the state of scientific knowledge that will be used to advise the Trustee Council as it considers actions on this important matter in the future.

It is anticipated that you would be asked to attend a maximum of four in-person or conference call meetings during the fiscal year, and that you would be asked to review and comment on no more than three draft work products from the committee over the same time period. Much of the business of the committee is expected to be conducted by e-mail. If you require more details on the scope and purpose of this committee, please contact our Science Coordinator, Richard Dworsky at [Richard\\_Dworsky@evostc.state.ak.us](mailto:Richard_Dworsky@evostc.state.ak.us).

Please advise whether or not you will be able to help us by serving on this work group at your earliest convenience.

Sincerely,

A handwritten signature in cursive script that reads "Gail Phillips". To the right of the signature is a circular stamp containing the letters "BP".

October 13, 2004

Mr. Mark Hamilton  
President, University of Alaska  
P.O. Box 755000  
Fairbanks, Alaska 99775-5000

Dear President Hamilton:

Thank you for your letter of September 7, 2004 regarding both the Trustee Council's process and the project funding results for their FY 2005 Work Plan. The Council has asked me to respond on their behalf.

You have expressed concern that the Council's project selection "bears little resemblance" to their FY 05 Invitation for Proposals or to the priority ranking of the staff and science advisors. In addition, you suggest the Council's decisions appear to have been made without public consultation or open discussion and in violation of science sponsorship.

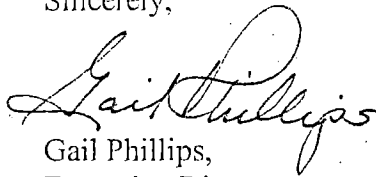

The Council's decisions regarding the FY 05 Work Plan were made pursuant to the Memorandum of Agreement and the Consent Decree governing the use of the funds recovered by the State and Federal governments and the Restoration Plan approved by the Trustee Council in 1994. As these documents point out, the mission of the Council is to restore the natural resources injured by the Exxon Valdez oil spill and to provide for meaningful public participation in the restoration process.

The FY 05 Invitation and proposed Work Plan underwent a thorough and strenuous review by the Council's staff, the science community, legal advisors and the general public. The Council considered all the comments and recommendations made by the staff, the science community and the public when it made its funding decisions. These decisions were necessarily made with restoration in mind rather than any science sponsorship.

Although the FY 05 funding decisions were made by the Council during an open public meeting, the Council recognizes that its rationale for funding or not funding certain projects may not have been well defined during the meeting or easily understood by the public. The Trustees appreciate your comments in that regard and will work to improve their efforts in this area.

I hope that the University will continue to play an active role in assisting the Trustee Council in accomplishing its restoration mission.

Sincerely,

A handwritten signature in cursive script, reading "Gail Phillips". The signature is written in dark ink and is positioned above the printed name and title.

Alan Bennett  
NPS  
2525 Gambell St.  
Anchorage, AK 99503

Dear Alan:

As a person knowledgeable about the *Exxon Valdez* Oil Spill Trustee Council's mission and purpose, I am requesting that you serve on the Trustee Council's Nearshore Work Group for federal FY 2005. As an appointed member of the Nearshore Work Group your travel and per diem to attend meetings would be paid by the Council. The purpose of the Nearshore Work Group is to develop a report on the state of scientific knowledge that will be used to advise the Trustee Council as it considers actions on this important matter in the future.

It is anticipated that you would be asked to attend a maximum of four in-person or conference call meetings during the fiscal year, and that you would be asked to review and comment on no more than three draft work products from the committee over the same time period. Much of the business of the committee is expected to be conducted by e-mail. If you require more details on the scope and purpose of this committee, please contact our Science Coordinator, Richard Dworsky at [Richard\\_Dworsky@evostc.state.ak.us](mailto:Richard_Dworsky@evostc.state.ak.us).

Please advise whether or not you will be able to help us by serving on this work group at your earliest convenience.

Sincerely,

  
Gail Phillips,  
Executive Director

Dear Dede:

*Dede -*

As a person knowledgeable about the *Exxon Valdez* Oil Spill Trustee Council's mission and purpose, I am requesting that you serve on the Trustee Council's Nearshore Work Group for federal FY 2005. As an appointed member of the Nearshore Work Group your travel and per diem to attend meetings would be paid by the Council. The purpose of the Nearshore Work Group is to develop a report on the state of scientific knowledge that will be used to advise the Trustee Council as it considers actions on this important matter in the future.

It is anticipated that you would be asked to attend a maximum of four in-person or conference call meetings during the fiscal year, and that you would be asked to review and comment on no more than three draft work products from the committee over the same time period. Much of the business of the committee is expected to be conducted by e-mail. If you require more details on the scope and purpose of this committee, please contact our Science Coordinator, Richard Dworsky at [Richard\\_Dworsky@evostc.state.ak.us](mailto:Richard_Dworsky@evostc.state.ak.us).

Please advise whether or not you will be able to help us by serving on this work group at your earliest convenience.

Sincerely,

Gail Phillips,  
Executive Director

Dear Robert:

*Bob -*

As a person knowledgeable about the *Exxon Valdez* Oil Spill Trustee Council's mission and purpose, I am requesting that you serve on the Trustee Council's Injured Species Work Group for federal FY 2005. As an appointed member of the Injured Species Work Group your travel and per diem to attend meetings would be paid by the Council. The purpose of the Injured Species Work Group is to develop a report on the state of scientific knowledge that will be used to advise the Trustee Council as it considers actions on this important matter in the future.

It is anticipated that you would be asked to attend a maximum of four in-person or conference call meetings during the fiscal year, and that you would be asked to review and comment on no more than three draft work products from the committee over the same time period. Much of the business of the committee is expected to be conducted by e-mail. If you require more details on the scope and purpose of this committee, please contact our Science Coordinator, Richard Dworsky at [Richard\\_Dworsky@evostc.state.ak.us](mailto:Richard_Dworsky@evostc.state.ak.us).

Please advise whether or not you will be able to help us by serving on this work group at your earliest convenience.

Sincerely,

*Gail*
