Memorandum

TO: Invited Nearshore Working Group Participants

FROM: Richard Dworsky,
Science Coordinator

DATE: November 23, 2004

Recently you were sent a letter requesting your service on the Trustee Council's Nearshore Working Group for federal fiscal year 2005. We have yet to hear from you but would greatly value your participation in the Nearshore Working Group.

Again, as an appointed member of the FY 2005 Working Group your travel and per diem to attend meetings would be paid by the Council. The purpose of the Nearshore Work Group is to develop a report on the state of scientific knowledge that will be used to advise the Trustee Council as it considers actions on this important matter in the future.

It is anticipated that you would be asked to attend a maximum of four in-person or conference call meetings during the fiscal year, and that you would be asked to review and comment on no more than three draft work products from the committee over the same time period. Much of the business of the committee is expected to be conducted by e-mail. If you require more details on the scope and purpose of this committee, please contact our Science Coordinator, Richard Dworsky at Richard_Dworsky@evostc.state.ak.us.

Please advise whether or not you will be able to help us by serving on this work group at your earliest convenience.

Tylan Schrock
Executive Director
Alaska SeaLife Center
PO Box 1329
Seward AK 99664

Dear Mr. Schrock:

Tylan

We would like to invite the Alaska SeaLife Center to be a co-sponsor along with many other State, Government and local organizations and to help with developing the program for the FY 2005 Annual Marine Science Symposium "Managing Alaska's Marine Resources". Organizations such as North Pacific Research Board, Exxon Valdez Oil Spill Trustee Council, Alaska Oceans Observing System, North Pacific Marine Science Foundation, NOAA/NMFS, and Prince William Sound Science Center, just to name a few have contributed funds and resources toward this effort. A contribution of \$5000 is needed and would be appreciated to meet expenses for this year's Symposium.

Thank you,

Gail Phillips, by Paula Banks

November 20, 2004

Mr. Bob Shavelson
Cook Inlet Keeper
P.O. Box 3269
Homer, Alaska 99603

Dear Mr. *Bob* Shavelson:

Thank you for your letter regarding the Trustee Council's process and the project funding results for their FY 2005 Work Plan. The Council has asked me to respond on their behalf. I hope these remarks will answer your questions.

The Council's decisions regarding the FY 05 Work Plan were made pursuant to the Memorandum of Agreement and the Consent Decree governing the use of the funds recovered by the State and Federal governments and the Restoration Plan approved by the Trustee Council in 1994. As these documents point out, the mission of the Council is to restore the natural resources injured by the Exxon Valdez oil spill and to provide for meaningful public participation in the restoration process.

The FY 05 Invitation and Work Plan underwent a thorough and strenuous review by the Council's staff, the science community, legal advisors and the general public. The Council considered all the comments and recommendations made by the staff, the science community and the public when it made its funding decisions. These decisions were necessarily made with restoration in mind rather than any science sponsorship.

Although the FY 05 funding decisions were made by the Council during an open public meeting, the Council recognizes that its rationale for funding or not funding certain projects may not have been well defined during the meeting or easily understood by the public. The Trustees appreciate your comments in that regard and will work to improve their efforts in this area.

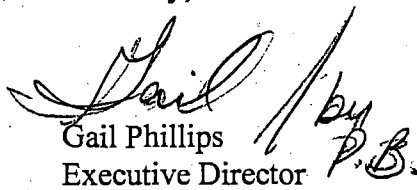

In response to your question, there was no meeting between the Trustees and the liaisons that the public was not a part of. At one time during the meeting, the liaisons gathered together to discuss any last minute details that they could advise the Trustees about before the Trustees took formal action.

As you know, our agendas are well published in an adequate time frame before the meetings. One of the first items of business for any of our meetings is that of public participation. Since the FY 2005 projects were a major part of the agenda, the public was again given the opportunity to speak to these projects at the beginning of the meeting.

We appreciated the efforts put forth in the Cooper proposal. The projects that were approved by the Trustees exhausted available funds and there was not money to fund all the projects that were submitted.

We hope that you will continue to work with us for approving projects such as Joel's in the future. Please consult with Phil and Richard when you have the opportunity in order to prepare a project that can be submitted again to the Trustees for consideration.

Sincerely,

Gail Phillips
Executive Director

Re: January 2005 Marine Science Symposium

Dear Carol:

The Marine Science in Alaska, 2005 Symposium will be held in Anchorage on January 24-26, 2005. As part of your contract agreement, this is to remind you that you are required to participate in the annual Symposium by making a presentation on your GEM project(s).

You may register for the Symposium and submit proposal abstracts for your presentation at the following web site: <http://www.gem.state.ak.us/symposium/registration.cfm>. You will be given the option of making a presentation to the general session, presenting a poster, or doing both. Abstracts for presentations must be submitted by December 1, 2004 and will be selected by December 8, 2004.

Thank you for your time, and we look forward to viewing your presentation at the Symposium. If I can be of any assistance, please let me know.

Regards,

Dear Stanley:

The Marine Science in Alaska, 2005 Symposium will be held in Anchorage on January 24-26, 2005. As part of your contract agreement, this is to remind you that you are required to participate in the annual Symposium by making a presentation on your GEM project(s).

You may register for the Symposium and submit proposal abstracts for your presentation at the following web site: <http://www.gem.state.ak.us/symposium/registration.cfm>. You will be given the option of making a presentation to the general session, presenting a poster, or doing both. Abstracts for presentations must be submitted by December 1, 2004 and will be selected by December 8, 2004.

Thank you for your time, and we look forward to viewing your presentation at the Symposium. If I can be of any assistance, please let me know.

Regards,

Re: January 2005 Marine Science Symposium

Dear William:

The Marine Science in Alaska, 2005 Symposium will be held in Anchorage on January 24-26, 2005. As part of your contract agreement, this is to remind you that you are required to participate in the annual Symposium by making a presentation on your GEM project(s).

You may register for the Symposium and submit proposal abstracts for your presentation at the following web site: <http://www.gem.state.ak.us/symposium/registration.cfm>. You will be given the option of making a presentation to the general session, presenting a poster, or doing both. Abstracts for presentations must be submitted by December 1, 2004 and will be selected by December 8, 2004.

Thank you for your time, and we look forward to viewing your presentation at the Symposium. If I can be of any assistance, please let me know.

Regards,

Re: January 2005 Marine Science Symposium

Dear Ken:

The Marine Science in Alaska, 2005 Symposium will be held in Anchorage on January 24-26, 2005. As part of your contract agreement, this is to remind you that you are required to participate in the annual Symposium by making a presentation on your GEM project(s).

You may register for the Symposium and submit proposal abstracts for your presentation at the following web site: <http://www.gem.state.ak.us/symposium/registration.cfm>. You will be given the option of making a presentation to the general session, presenting a poster, or doing both. Abstracts for presentations must be submitted by December 1, 2004 and will be selected by December 8, 2004.

Thank you for your time, and we look forward to viewing your presentation at the Symposium. If I can be of any assistance, please let me know.

Regards,

A handwritten signature in cursive script, appearing to read 'Dick', written in dark ink.

RE: Project 99154: Authorization to Proceed with Phase III,
Construction, for Traveling Exhibits

DATE: October 21, 2004

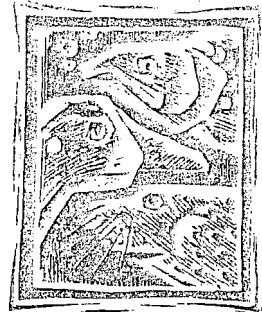

In accordance with Appendix B, Section 4.2.1, of the grant agreement between the Alaska Department of Natural Resources and Chugachmiut, Inc., executed on October 14, 1999, I authorize you to proceed with Phase III, Construction, for Traveling Exhibits. For the following reasons, I find that all requirements for this approval have been met:

1. The Traveling Exhibits Program Detailed Design and Implementation Plan, dated September 15, 2004, satisfies the requirements of the National Environmental Policy Act (NEPA) according to a letter from Joe Meade, Chugach National Forest Supervisor, to me dated October 21, 2004;
2. The Detailed Design satisfies the requirements of Appendix B, Section 4.1.1, because it includes a description of each of the eight proposed exhibits, specifications for cases or other necessary equipment, requirements for the receiving institution, plans for rotation of exhibits, and procedures for shipping, insuring and installing the exhibits; and
3. The Implementation Plan satisfies the requirements of Appendix B, Section 4.1.2, because it includes a detailed budget, identifies the source and types of artifacts to be included in the exhibits, and proposes a rotation schedule for the exhibits.
