245 West 5th Avenue, Suite 110
Anchorage, AK 99501

Dear Bob:

A Public Advisory Committee (PAC) teleconference is scheduled for Friday, March 18, at 10:00 a.m. to discuss with and make recommendations to the Executive Director on FY 2005 Lingering Oil and Herring proposals that are expected by March 15. The Scientific and Technical Advisory Committee (STAC) is meeting March 17, to evaluate and make their recommendations to the Executive Director. The STAC's recommendations will be provided to the PAC as soon as possible following their teleconference. Additionally, Brenda Norcross a member of the STAC and PAC will participate in both teleconferences and be available to answer STAC related questions from the PAC. The concept for the request for lingering oil and herring proposals was discussed at the January 27, 2005 PAC meeting.

Please contact me at the *Exxon Valdez* Oil Spill Trustee Council office on my direct line 269-9339, the receptionist line 278-8012, or via email at cherri_womac@evostc.state.ak.us with your current contact information. I have tried unsuccessfully to contact you by phone (not in service) and email (mailbox is full).

I have enclosed a copy of the January 27, PAC meeting summary. The meeting was short but quite informative, I am sorry you were unable to attend.

Sincerely,

Cherri Womac
Administrative Officer
