Whereas Cordova and Prince William Sound's future prosperity and quality of life depend on intact anadromous habitat and world class scenic beauty,

And, whereas many of the resources and services damaged by the EXXON Valdez oil spill depend on both the marine and upland habitats of the Prince William Sound ecosystem;

We, the undersigned, ask the Trustees Council to support the agreement with Byak Corporation to protect Power Creek and Byak Lake and to negotiate a lease option on all other Byak lands including Orca Narrows, Nelson Bay, Simpson Bay, Sheep Bay, and Olsen Bay.

Whereas Cordova and Prince William Sound's future prosperity and quality of life depend on intact anadromous habitat and world class scenic beauty;

And, whereas many of the resources and services damaged by the EXXON Valdez oil spill depend on both the marine and upland habitats of the Prince William Sound ecosystem;

We, the undersigned, ask the Trustees Council to support the agreement with Eyak Corporation to protect Power Creek and Eyak Lake and to negotiate a lease option on all other Eyak lands including Orca Narrows, Nelson Bay, Simpson Bay, Sheep Bay, and Olsen Bay.

AS OF 1/7/97

October 30, 1994

To: EVOS Trustee Council

We the undersigned strongly support habitat acquisition as an appropriate way to use Exxon Valdez Settlement funds. We are asking you to make COMPREHENSIVE deals for Eyak lands and areas on Afognak Island. We are very concerned that these will be left out of your agreements. BUT WE WANT AFOGNAK AND EYAK DEALS, and we ask that you commit to the protection of these areas.

PETITION
TO THE EXXON VALDEZ OIL SPILL TRUSTEE COUNCIL
TO HOLD ITS UPCOMING OCTOBER 31 MEETING
IN CORDOVA

Whereas, the City of Cordova is situated in Prince William Sound and Prince William Sound was the area most affected by the Exxon Valdez oil spill disaster;

Whereas, most residents of the City of Cordova cannot afford to travel outside of Cordova to attend important meetings of the EVOS Trustee Council;

Whereas, the Trustee Council will be considering many important projects for Fiscal Year 1995 funding (such as the SEA research program and the Eyak habitat acquisition) that directly concern the residents of Cordova;

Whereas, the Trustee Council has not met in Cordova before and has never experienced Cordova's hospitality firsthand;

Therefore, be it resolved that we, the undersigned, hereby request that the Exxon Valdez Trustee Council conduct its upcoming October meeting in the City of Cordova.

PETITION URGING IMMEDIATE ACTION ON A COMPREHENSIVE HABITAT PROTECTION PLAN FOR THE CORDOVA AREA

We, the undersigned, strongly endorse the immediate adoption of a comprehensive plan to protect the coastal rainforest in the Cordova area. The coastal rainforest ecosystem supports fisheries, wildlife resources, tourism, and recreational services all of which play an important role in Cordova's future. Many people live in Cordova because of their enjoyment of wildlands, pristine productive streams, and the opportunities provided by these resources.

The Exxon Trustee Council has engaged in extensive negotiations with the Eyak Corporation in an attempt to come to acceptable terms for the protection of rainforest habitat in the Cordova area. The Council's efforts are greatly appreciated. We are, however, greatly concerned that continued delays in culminating a comprehensive forest protection deal will result in unacceptable loss of critical forest habitat.

WE NEED THE TRUSTEE COUNCIL TO MAKE A CONCENTRATED
FOCUSED EFFORT TO FINALIZE A COMPREHENSIVE DEAL WITH THE
EYAK CORPORATION. WE ESPECIALLY REQUEST THE ASSISTANCE OF
THE UNITED STATES FOREST SERVICE REPRESENTATIVES.

In order to come to closure, we urge the trustee council to accept a proposal offered by the Eyak and Sherstone Corporations that offers the most comprehensive protection to Eyak lands. We feel strongly that some protection is better than no protection at all.

PETITION URGING IMMEDIATE ACTION ON A COMPREHENSIVE HABITAT PROTECTION PLAN FOR THE CORDOVA AREA

We, the undersigned, strongly endorse the immediate adoption of a comprehensive plan to protect the coastal rainforest in the Cordova area. The coastal rainforest ecosystem supports fisheries, wildlife resources, tourism, and recreational services all of which play an important role in Cordova's future. Many people live in Cordova because of their enjoyment of wildlands, pristine productive streams, and the opportunities provided by these resources.

The Exxon Trustee Council has engaged in extensive negotiations with the Eyak Corporation in an attempt to come to acceptable terms for the protection of rainforest habitat in the Cordova area. The Council's efforts are greatly appreciated. We are, however, greatly concerned that continued delays in culminating a comprehensive forest protection deal will result in unacceptable loss of critical forest habitat.

WE NEED THE TRUSTEE COUNCIL TO MAKE A CONCENTRATED
FOCUSED EFFORT TO FINALIZE A COMPREHENSIVE DEAL WITH THE
EYAK CORPORATION. WE ESPECIALLY REQUEST THE ASSISTANCE OF
THE UNITED STATES FOREST SERVICE REPRESENTATIVES.

In order to come to closure, we urge the trustee council to accept a proposal offered by the Eyak and Sherstone Corporations that offers the most comprehensive protection to Eyak lands. We feel strongly that some protection is better than no protection at all.

ABSTRACTS
OF 1996
RESTORATION
PROJECTS

DRAFT

AS OF 1/7/97

We, the undersigned, urge the Exxon Valdez Oil Spill Trustee Council to buy protection of the Eyak Rainforest under the conditions of the Forest Forever plan proposed by the Eyak Rainforest Preservation Fund and the Coastal Coalition. Phase One seeks permanent protection of the forest through the purchase of timber rights. Phase Two sets up a three-year moratorium enabling all parties time to work out management issues.

We, the undersigned, urge the Exxon Valdez Oil Spill Trustee Council to buy protection of the Eyak Rainforest under the conditions of the Forest Forever plan proposed by the Eyak Rainforest Preservation Fund and the Coastal Coalition. Phase One seeks permanent protection of the forest through the purchase of timber rights. Phase Two sets up a three-year moratorium enabling all parties time to work out management issues.

We, the undersigned, urge the Exxon Valdez Oil Spill Trustee Council to buy protection of the Eyak Rainforest under the conditions of the Forest Forever plan proposed by the Eyak Rainforest Preservation Fund and the Coastal Coalition. Phase One seeks permanent protection of the forest through the purchase of timber rights. Phase Two sets up a three-year moratorium enabling all parties time to work out management issues.

URGENT PETITION TO PROTECT EYAK LAKE, EYAK RIVER & POWER CREEK

LAST CHANCE TO PROTECT CORDOVA'S WATERSHED!!!

In response to the plans by Eyak Corporation to harvest 5 million board feet (about 20%) of trees around Eyak Lake, Eyak River and Power Creek starting March 15, we the undersigned have grave concerns about:

- ✓ public safety - helicopter and logging truck operations within city limits and in popular recreational areas,
- ✓ public health - adequate watershed protection for the City's water supply (under Area Meriting Special Attention or AMSA) and noise disturbance from operations,
- ✓ riparian habitat - cutting a large number (61) of trees within the Eyak River stream side buffer may harm Eyak River fish habitat and salmon runs, and
- ✓ road maintenance - the City and State should not be held liable to maintain roads damaged from Eyak Corporation's operations.

Since the proposed Eyak Corporation operations are under City jurisdiction as an annexed and AMSA area, we the undersigned request the City to aggressively advocate a deal between Eyak Corporation and the EVOS Trustee Council to purchase all timber rights in the Core Lands, including Eyak Lake, Eyak River and Power Creek as an alternative and prior to any logging. Further, we urge the City to NOT support acquisition of timber rights or fee simple title to these lands if any logging commences.

If negotiations to purchase the intact Core Lands are unsuccessful, we the undersigned expect the City to charge the full sales tax of 6% on all timber sales. Further, we request the City to have Eyak Corporation post a Restoration Bond sufficient to mitigate potential damage to the City's watershed, riparian habitat, City roads, State roads, and USPS trails.

URGENT PETITION TO PROTECT EYAK LAKE, EYAK RIVER & POWER CREEK

LAST CHANCE TO PROTECT CORDOVA'S WATERSHED!!!

In response to the plans by Eyak Corporation to harvest 8 million board feet (about 20%) of trees around Eyak Lake and Eyak River starting March 18, we the undersigned have grave concerns about:

- ✓ public safety - helicopter and logging truck operations within city limits and in popular recreational areas,
- ✓ public health - adequate watershed protection for the City's water supply (under Area Requiring Special Attention or ARSA) and noise disturbances from operations,
- ✓ riparian habitat - cutting a large number (60) of trees within the Eyak River stream side buffer may harm Eyak River fish habitat and salmon runs, and
- ✓ road maintenance - the City and State should not be held liable to maintain roads damaged from Eyak Corporation's operations.

Since the proposed Eyak Corporation operations are under City jurisdiction as an annexed and ARSA area, we the undersigned request the City to aggressively advocate a deal between Eyak Corporation and the EYOS Trustees Council to purchase all timber rights in the Core Lands, including Eyak Lake and Eyak River, as an alternative and going in any logging. Further, we urge the City to NOT support acquisition of timber rights or the simple title to these lands if any logging commences.

If negotiations to purchase the Inland Core Lands are unsuccessful, we the undersigned expect the City to charge the full sales tax of 9% on all timber sales. Further, we request the City to have Eyak Corporation post a Restoration Bond sufficient to mitigate potential damage to the City's watershed, riparian habitat, City roads, State roads, and USFS trails.

Since the proposed Eyak Corporation operations are under City jurisdiction as an annexed and AMSA area, we the undersigned request the City to aggressively advocate a deal between Eyak Corporation and the EVOS Trustee Council to purchase all timber rights in the Core Lands, including Eyak Lake, Eyak River and Power Creek as an alternative and prior to any logging. Further, we urge the City to **NOT** support acquisition of timber rights or fee simple title to these lands if any logging commences.

If negotiations to purchase the intact Core Lands are unsuccessful, we the undersigned expect the City to charge the full sales tax of 6% on all timber sales. Further, we request the City to have Eyak Corporation post a Restoration Bond sufficient to mitigate potential damage to the City's watershed, riparian habitat, City roads, State roads, and USFS trails.

URGENT PETITION TO PROTECT EYAK LAKE, EYAK RIVER & POWER CREEK

LAST CHANCE TO PROTECT CORDOVA'S WATERSHED!!!

In response to the plans by Eyak Corporation to harvest 5 million board feet (about 20%) of trees around Eyak Lake, Eyak River and Power Creek starting March 15, we the undersigned have grave concerns about:

- ✓ public safety - helicopter and logging truck operations within city limits and in popular recreational areas,
- ✓ public health - adequate watershed protection for the City's water supply (under Area Meriting Special Attention or AMSA) and noise disturbance from operations,
- ✓ riparian habitat - cutting a large number (61) of trees within the Eyak River stream side buffer may harm Eyak River fish habitat and salmon runs, and
- ✓ road maintenance - the City and State should not be held liable to maintain roads damaged from Eyak Corporation's operations.

Since the proposed Eyak Corporation operations are under City jurisdiction as an annexed and AMSA area, we the undersigned request the City to aggressively advocate a deal between Eyak Corporation and the EVOS Trustee Council to purchase all timber rights in the Core Lands, including Eyak Lake, Eyak River and Power Creek as an alternative and prior to any logging. Further, we urge the City to NOT support acquisition of timber rights or fee simple title to these lands if any logging commences.

If negotiations to purchase the intact Core Lands are unsuccessful, we the undersigned expect the City to charge the full sales tax of 6% on all timber sales. Further, we request the City to have Eyak Corporation post a Restoration Bond sufficient to mitigate potential damage to the City's watershed, riparian habitat, City roads, State roads, and USFS trails.

Postcard Campaign

Forest Forever/Eyak Rainforest Preservation Fund

Dear Exxon Valdez Oil Spill Trustees Council,

I want to save up to 70,000 acres of ancient rainforest in Prince William Sound by supporting a timber buyback of Eyak Corp. land in imminent threat of clearcut in Orca Narrows. I support a timber rights purchase plan proposed by the Eyak Rainforest Preservation Fund and the Coastal Coalition. I want this Forest Forever deal negotiated and signed **NOW** to prevent logging on this land in perpetuity.

Phase One of this deal would empower the trustees council to purchase timber rights from the Eyak Corp. so that logging never occurs in this ancient rainforest. Phase Two of the deal would create a three-year moratorium on current land-use rules to negotiate the finer details of the Forest Forever plan; allowing the federal government, concerned citizens, and the Eyak shareholders a chance to iron out the legal terms (i.e. conservation easements) for how the land would be protected and managed.

Forest Forever/Eyak Rainforest Preservation Fund

Dear Exxon Valdez Oil Spill Trustees Council,

I want to save up to 70,000 acres of ancient rainforest in Prince William Sound by supporting a timber buyback of Eyak Corp. land in imminent threat of clearcut in Orca Narrows. I support a timber rights purchase plan proposed by the Eyak Rainforest Preservation Fund and the Coastal Coalition. I want this Forest Forever deal negotiated and signed NOW to prevent logging on this land in perpetuity.

Phase One of this deal would empower the trustees council to purchase timber rights from the Eyak Corp. so that logging never occurs in this ancient rainforest. Phase Two of the deal would create a three-year moratorium on current land-use rules to negotiate the finer details of the Forest Forever plan, allowing the federal government, concerned citizens, and the Eyak shareholders a chance to iron out the legal terms (i.e. conservation easements) for how the land would be protected and managed.

Respectfully,

Forest Forever/Eyak Rainforest Preservation Fund

Dear Exxon Valdez Oil Spill Trustees Council,

I want to save up to 70,000 acres of ancient rainforest in Prince William Sound by supporting a timber buyback of Eyak Corp. land in imminent threat of clearcut in Orca Narrows. I support a timber rights purchase plan proposed by the Eyak Rainforest Preservation Fund and the Coastal Coalition. I want this Forest Forever deal negotiated and signed NOW to prevent logging on this land in perpetuity.

Phase One of this deal would empower the trustees council to purchase timber rights from the Eyak Corp. so that logging never occurs in this ancient rainforest. Phase Two of the deal would create a three-year moratorium on current land-use rules to negotiate the finer details of the Forest Forever plan; allowing the federal government, concerned citizens, and the Eyak shareholders a chance to iron out the legal terms (i.e. conservation easements) for how the land would be protected and managed.

Forest Forever/Eyak Rainforest Preservation Fund

Dear Exxon Valdez Oil Spill Trustees Council,

I want to save up to 70,000 acres of ancient rainforest in Prince William Sound by supporting a timber buyback of Eyak Corp. land in imminent threat of clearcut in Orca Narrows. I support a timber rights purchase plan proposed by the Eyak Rainforest Preservation Fund and the Coastal Coalition. I want this Forest Forever deal negotiated and signed NOW to prevent logging on this land in perpetuity.

Phase One of this deal would empower the trustees council to purchase timber rights from the Eyak Corp. so that logging never occurs in this ancient rainforest. Phase Two of the deal would create a three-year moratorium on current land-use rules to negotiate the finer details of the Forest Forever plan; allowing the federal government, concerned citizens, and the Eyak shareholders a chance to iron out the legal terms (i.e. conservation easements) for how the land would be protected and managed.
