20 REPORT TO THE COURT REGARDING ATTORNEYS' FEES
21 FOR THE CASE MANAGEMENT TEAM

22 In this Court's December 22, 1989 Order establishing the
23 Organization of Plaintiffs' Counsel (Case Management Team), the
24 court ordered plaintiffs' counsel to either agree upon a fee
25 structure for the members of the Case Management Team and advise
the court in camera of the terms of such agreement or, in the

1132

DAVIS WRIGHT TREMAINE
Law Offices
550 WEST 7TH AVENUE - SUITE 1450
ANCHORAGE, ALASKA 99501
(907) 276-4488

1 event no such agreement was reached, to advise the court as to
2 what disagreements have arisen. On January 26, 1990 and again on
3 February 20, 1990, Co-Lead Counsel reported to the court that
4 plaintiffs' counsel had been unable to agree upon a fee structure
5 for the Case Management Team or even to agree as to a coherent
6 list of issues dividing them. In the latter report, Co-Lead
7 Counsel explained to the court that the uncertainty about whether
8 any of the pending cases would be certified as class actions and
9 pursued accordingly was the major stumbling block with respect to
10 coherently addressing the issues. Co-Lead Counsel asked, and the
11 Court Ordered, that the time for advising the court about the
12 parties' positions with respect to attorneys' fees for the Case
13 Management Team was extended to "a reasonable time" after the
14 Court ruled on the then pending motions for class certification.

15 On December 14, 1990 in Order No. 35, the court denied all
16 pending motions for class certification without prejudice to
17 renewal ". . . after the TAPAA claims have been adjusted by the
18 Fund." Id. at 8. On that same date, the Superior Court for the
19 State of Alaska in Case No. 3AN-89-2533 Civil entered Pretrial
20 Order No. 17 certifying (pursuant to Alaska R. Civ. P. 23(a) and
21 (b)) the class of cannery and seafood processor and/or
22 maintenance employees, and Pretrial Order No. 18 denying
23 plaintiffs' Motion for a Mandatory Punitive Damages Class. The
24 Superior Court has indicated informally that it will address the

25 REPORT TO THE COURT REGARDING ATTORNEYS'
FEES FOR THE CASE MANAGEMENT TEAM - 2
27510\1\REPORT

1 remaining motions for class certification before it in the
immediate future, though it has not done so as of this date.

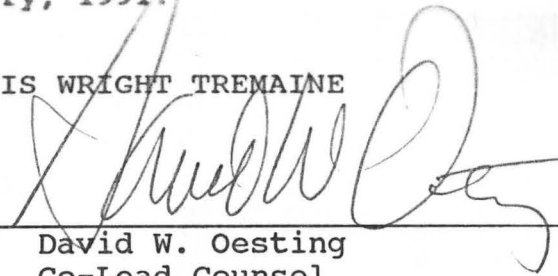

2 At a meeting of the Case Management Team and numerous other
3 counsel on January 8, 1991, different alternative structures for
4 payment of the Case Management Team fees were debated at length.
5 As in the past, this third attempt at achieving a concensus on
6 the question was unsuccessful, though significant progress was
7 made on the areas of disagreement. However, all counsel did
8 agree that decisions by the Superior Court on the motions for
9 class certification pending before it would complete the
10 constellation of court rulings on all such motions and enable
11 counsel to frame the issues of disagreement over compensation of
12 the Case Management Team with clarity.

13 In light of the foregoing, the Case Management Team members
14 have asked Co-Lead Counsel to again seek an extension of the date
15 for advising the court on the terms of a structure for payment of
16 the Case Management Team members' fees until thirty days after
17 the Superior Court has ruled on the remaining class certification
18 motions before it. Therefore, Co-Lead Counsel again request an
19 additional extension of the original January 31, 1990 deadline
20 for submission of an agreed upon fee structure to a date not less
21 than thirty days after the Alaska Superior Court rules on the
22 remaining motions for class certification pending before it.

Supplementing its First Report filed with the Court on January 3, 1991, Defendant D-4, the Trans-Alaska Pipeline Liability Fund ("Fund") respectfully advises the Court as follows:

1. Attachment "A" hereto is a copy of a letter sent out to all persons and entities who filed claims with Exxon Shipping Company, indicating that they may file claims with the Fund by March 25, 1991. The mailing was completed on January 11, 1991.

2. At the suggestion of certain counsel for Plaintiffs and certain fishermen claimants the Fund has placed the advertisement attached to the Fund's First Report (as Attachment "A") in the following newspapers and periodicals, in addition to those specified in the First Report: The National Fisherman -- West Coast Focus, Pacific Fishing, Alaska Commercial Fisherman, Alaska Fisherman's Journal, Fisherman's News, The Aleutian Eagle, The Advocate, The Bristol Bay News, The Borough Post, The Valdez Pioneer, The Bethel Village Voice, The Fairbanks Tribune, The Barrow Sun, and Copper River Country Journal.

3. Consistently with the representations in the First Report, the Fund asked the Honorable John J. Gibbons to serve as claims judge with the title Administrator - Exxon Valdez Claims, and Judge Gibbons has agreed to serve. As the Court is probably aware, Judge Gibbons recently retired as a Chief Judge of the United States Court of Appeals for the Third Circuit, on which

NOTICE TO PERSONS WHO HAVE FILED A CLAIM WITH EXXON

Pursuant to the December 14, 1990 Order of the United States District Court for the District of Alaska, the Trans-Alaska Pipeline Authorization Act, 43 U.S.C. Section 1653 (c) ("TAPAA") and its implementing regulations (43 C.F.R. Part 29), all persons with claims for economic loss sustained from the **EXXON VALDEZ** oil spill which occurred on March 24, 1989, should promptly contact the Trans-Alaska Pipeline Liability Fund (the "Fund") if they wish to file a claim with the Fund.

UNDER THE REGULATIONS AND THE COURT'S ORDER, CLAIMS MUST BE FILED WITHIN TWO YEARS OF THE DATE OF DISCOVERY OF DAMAGES CAUSED BY AN INCIDENT OR OF THE DATE OF THE INCIDENT CAUSING THE DAMAGE, WHICHEVER IS EARLIER. THIS TO BE VALIDLY ASSERTED, CLAIMS MUST BE FILED WITH THE FUND BY MARCH 25, 1991.

If you wish to file a claim with the Fund, a claim registration form is enclosed for your convenience. Please make sure all information is provided to prevent any delays in the claims evaluation process. Upon receipt of this information, the Fund will promptly advise claimants what further information will be necessary to permit the Fund to evaluate the claim.

THIS NOTICE IS BEING MAILED FOR EACH CLAIM FILED WITH EXXON AS OF DECEMBER 12, 1990. IF YOU HAVE ALREADY FILED A CLAIM WITH THE FUND SINCE SEPTEMBER 13, 1990, IT IS NOT NECESSARY TO RE-SUBMIT A CLAIM REGISTRATION FORM FOR THAT CLAIM.

NOTICE OF TAKING DEPOSITION

BUREAU OF LAND MANAGEMENT

SCHEDULE A

I.

INSTRUCTIONS

1. This Subpoena Duces Tecum ("Subpoena") requires the production of all responsive Documents in the custody, possession, or control of the Agency (as defined below) regardless of whether such Documents concern the Agency, and regardless of whether such Documents were generated by or on behalf of the Agency, or by another Person.

2. For each Document withheld from production on a claim of privilege or work product protection, specify the privilege or work product protection(s) that You claim, and provide the following information: (a) the nature of the Document (e.g., letter, memorandum, contract, etc.) and a description of its subject matter; (b) the author or sender of the Document; (c) the recipient(s) of the Document; (d) the date the Document was authored, sent and received; and (e) the basis for Your privilege claim. If the claimed privilege or work product protection applies only to a particular phrase, sentence, paragraph, or section of a responsive Document, produce the entire Document with the allegedly protected portion redacted and a legend indicating that the withheld portion is a subject of a specified privilege or protection.

3. If any Document that was, or might have been, responsive to this subpoena was destroyed, erased, surrendered, or otherwise removed from Your custody, possession, or control at any time after March 23, 1989, please provide, to the maximum extent possible, the following information: (a) the nature of the Document (e.g., letter, memorandum, contract, etc.) and a description of its subject matter; (b) the author or sender of the Document; (c) the recipient(s) of the Document; (d) the date the Document was authored, sent and received; (e) the circumstances surrounding the removal of the Document from Your custody, possession, or control; and (f) the Identity of the person(s) having knowledge of such removal from Your custody, possession, or control.

4. Each request herein seeks production of responsive Documents in the file and in the order in which each Document was kept in the ordinary course of business.

5. The words "and" and "or" shall be individually interpreted as meaning "and/or" in every instance and shall not be interpreted disjunctively to exclude any Document that would be within the scope of any request if the word "and" were read separately or, alternatively, if the word "or" were read separately. Additionally, the singular shall mean the plural and the plural shall mean the singular throughout these requests.

6. Unless otherwise indicated, the Subpoena calls for Documents prepared during the period from January 1, 1975 to the present.

II.

DEFINITIONS

1. "Agency" means any department, division, office or branch within the Bureau of Land Management, together with all Agency employees, contractors, consultants, and other third parties retained, hired by or working with the Agency, and all predecessor entities of the Agency.

2. "Alaska," "State of Alaska," and "State," except when used as a geographic term, mean the executive branch of the State of Alaska, present or former departments, agencies, corporations, offices, instrumentalities, boards, authorities, commissions, committees, and divisions; the Alaska State Legislature; the Legislative Affairs Agency or other legislative agencies; the Office of the Governor; Office of the Lieutenant Governor; Department of Administration; Department of Commerce & Economic Development; Department of Community & Regional Affairs; Department of Corrections; Department of Education; Department of Environmental Conservation; Department of Fish & Game; Department of Health & Social Services; Department of Law; Department of Labor; Department of Military and Veteran's Affairs; Department of Natural Resources; Department of Public Safety; Department of Revenue; Department of Transportation; the Oil Spill Commission; the Pipeline Coordinator's Office; any official, employee, member, independent contractor, or agent of any of the foregoing entities; and any predecessor in interest of any of the foregoing.

3. "Alaskan Territorial Waters" or "State Territorial Waters" means any waters, Fresh or Marine, over which the State claims police power jurisdiction.

4. "Area Arguably Affected by the Spill" means the lands and waters of Prince William Sound, Cook Inlet, the Kodiak Archipelago, the Kenai Peninsula, the Alaska Peninsula, the Aleutian Chain, and the Gulf of Alaska and adjacent lands and waters.

5. "Baseline Condition" means the condition or conditions that would have existed within the Area Arguably Affected by the Spill had the Spill not occurred, but includes, without limitation, any conditions that You claim are "baseline conditions" for purposes of ascertaining change or injury to any Person, thing, organism or Natural Resource.

6. "Chemical Dispersant" means any chemical agent that is used to emulsify, disperse, or solubilize Oil into water, or promote the surface spreading of Oil to facilitate emulsification of Oil or its dispersion into water.

7. "Clean Up" means all actions, private and public, voluntary, regulatory or mandatory, that have been taken (or will be taken) to contain, control, recover, treat, disperse, burn, manage, remove, respond to, dissipate, clean, or remediate Oil or other contaminants or pollutants resulting from the Spill or from any of the foregoing activities Relating to the Spill, and to restore or rehabilitate Natural Resources injured by the Spill.

8. "Commercial fishing" means the extraction of Fish from the water for profit.

9. "Commercial Fishermen" means all Persons engaged in Commercial fishing.

10. "Committed Use" means a current public use or a planned public use of a Natural Resource for which there was a documented legal, administrative, budgetary, or financial commitment established before the Spill.

11. "Communication" means any transfer of information whether oral, written or electronic.

12. "Defendants" means the following parties named as defendants in the above-captioned litigation: Alyeska Pipeline Service Company, Amerada Hess Corporation, ARCO Pipe Line Company, Mobil Alaska Pipeline Company, SOHIO Alaska Pipeline Company, BP Pipelines (Alaska), Inc., Phillips Alaska Pipeline Corporation, UNOCAL Pipeline Company, Exxon Shipping Company, Exxon Corporation (including, without limitation, its division Exxon Company, U.S.A.) and Exxon Pipeline Company.

13. "Discuss" or "Discussion" means any communication concerning or Relating to the subject matter specified as the subject of or under such "Discussion."

14. "Document" has the same meaning as "writings or recordings" and "photographs" as specified in Rules 1001(1) and 1001(2) of the Alaska Rules of Evidence, including, without limitation, any data in digital notation of any kind useable by a computer or electronic word processor.

15. "File" means, any procedure, convention or mechanism used to aggregate, group or store Documents or sets of Documents, whether by topic, by date or otherwise.

16. "Fish" means any fin fish, mollusk, shell fish, crustacean or other aquatic animal.

17. "Fisheries" means the taking of Fish of a particular type or species, by particular means or at a particular place or time; the business of catching and selling Fish; or the place where Fish are caught.

18. "Fresh Water" means any non-Marine water environment.

19. "Human Services" means any value that a Natural Resource has for human beings, the loss or reduction of which or the restoration of which is alleged to be recoverable or is alleged to provide a measure of recovery in this action.

20. "Identity" means the name of any Person or entity, the employment and title of any Person and the last known business address and telephone number of the Person or entity.

21. "Intrusive Clean Up Technique" means any technique such as removal of sediment for rock washing, which involves gross movement or surface or subsurface sediment.

22. "Marine" means a saltwater environment.

23. "Natural Resources" means land, Fish, wildlife, vegetation and other biota, air, water, groundwater, drinking water supplies and other such resources belonging to managed by, held in trust by, appertaining to, or otherwise controlled by the United States, the State of Alaska, or any Indian Tribe.

24. "Non-Use Values" means the option, existence or bequest values attributed by the public to the Natural Resource.

25. "NRDA" means any systematic process of collecting, compiling, and analyzing information, statistics, or data to determine damages for injuries to Natural Resources, conducted by the State or federal government or any other Person in connection with the Spill.

26. "Oil" means petroleum, including crude oil, or any fraction thereof, and any other hydrocarbon, together with any and all chemicals or additives contained therein.

27. "Oil spill" means an Oil spill in a Marine environment, unless otherwise provided.

28. "Organism of Any Species" means any or all organisms of a species (animal or plant), other than humans, including microorganisms, wherever or whenever located, if such organism at any time originates in, migrates from, passes through, or returns to any part of the Area Arguably Affected by the Spill.

29. "Person" refers to and includes any natural Person, individual, firm, association, partnership, joint venture, corporation, company, estate, trust, receiver, syndicate, proprietorship, municipal or other governmental corporation or agency, including groups and combinations of the same acting as a unit.

30. "Prespill Condition" means the condition or conditions that existed within the Area Arguably Affected by the Spill before the Spill.

31. "Relate to," "Relates to," "Related to" and "Relating to" means Discussing, recording, analyzing, describing, summarizing, referring to, containing or commenting on the subject matter referred to in each Request.

32. "Restoration" means actions undertaken to return a Natural Resource injured by the Spill to its Baseline condition.

33. "Replacement" means the substitution for a Natural Resource injured by the Spill with a natural resource that provides the same or similar services.

34. "Seafood" means any fin fish, mollusk, shell fish, crustacean or other aquatic animal, vegetation (including kelp) or any other aquatic or Marine flora or fauna, or the products thereof, used or sold for human consumption, ornament or other use.

35. "Spill" means the Oil Spill described on p. 1 of Proposed Probable Cause, Findings & Recommendations of the State of Alaska in National Transportation Safety Board Docket No. DCA 89 MM 040, attached as Attachment "A".

36. "Sport fishing" means the taking or possession of or attempting to take or possess for enjoyment or personal use, not for sale, barter or subsistence, of any Fresh Water, Marine, or anadromous Fish, shellfish, vegetation (including kelp), or any other aquatic or Marine flora or fauna. "Sport fishing" includes the taking of any such Fish, shellfish or other flora or fauna even where such Fish, shellfish or other flora or fauna is released or replanted after such taking.

37. "Statement" means any Document that records declarations, or admissions of a Person, whether or not given by the Person or signed by the Person.

38. "Subsistence Use" means the non-commercial, non-sport, non-recreational customary and traditional uses of Fresh Water, terrestrial, or Marine resources by Persons in the State for direct personal or family consumption as food, shelter, fuel, clothing, tools, or transportation, or the making and selling of handicraft articles out of edible or non-edible by-products of Fish and wildlife resources taken for personal or family consumption or for customary trade, barter or sharing, the proceeds of which are used for personal or family consumption.

39. "Subsistence fishing" means the taking or possession of Fresh Water or Marine Fish, shellfish, or vegetation (including kelp), or any other aquatic or Marine flora or fauna, or the products thereof, by gillnet, seine, fishwheel, longline, hook & line, gill or dip net, or any other means defined by the Alaska Board of Fisheries, for Subsistence Use.

40. "Use Values" means the value to the public of recreational or other public uses of the Natural Resource, any fees or other payments collectable by the government or Indian Tribe for a private party's use of the Natural Resource, and any economic rent accruing to a private party because the government or Indian Tribe does not charge for the use of the Natural Resource.

41. "You", "Yours" and "Yourself" means the responding Agency.

III.

DOCUMENTS REQUESTED

1. All Documents from January 1, 1969 up to and including March 24, 1989 Relating to the actual or potential environmental impacts on any marine environment of a Trans Alaska Pipeline to Valdez, or any alternative to such a pipeline, including, without limitation:
 - a. All Documents Relating to the advantages, disadvantages, risks and contingencies of transporting Alaska North Slope crude oil by vessel;
 - b. All Documents Relating to any environmental impact statements or negative declarations, including without limitation all drafts, comments, evaluations, criticism or endorsement thereof.
2. All Documents Relating to any changes in the shoreline or the bottom of Prince William Sound.
3. All Oil spill contingency plans in effect on or before March 24, 1989 applying to the State or the territorial waters of the State.

4. All Documents Relating to the development, promulgation, review, evaluation, analysis, critique, rejection, approval, or implementation of State or Agency policies or regulations in effect on or before March 24, 1989 concerning compliance with State or federal law requiring Persons owning or operating tank vessels or tank vessel loading facilities to maintain or carry out an approved Oil spill contingency plan with regard to the Marine transport of Oil.

5. All Documents Relating to the Regional Response Team for Alaska, including, but not limited to, all Documents Relating to the pre-approval process by the Regional Response Team for the use of dispersants in the State, State territorial waters, or the waters of the United States.

6. All Documents Relating to the use of scenarios in Oil spill response contingency planning.

7. All Documents Relating to the risk or likelihood of Oil spills, or the likely or possible size or magnitude of such Oil spills, in the State or on State Territorial Waters.

8. All Documents Relating to the Oil spill containment and clean up responsibilities and the readiness of the State, the Agency, the United States (including, without limitation, the U.S. Coast Guard and the U.S. Environmental Protection Agency), Alyeska, Exxon Shipping Co., Exxon Pipeline Co., Exxon Corporation, or any other Person during the period from January 1, 1969 up to and including March 24, 1989, whether under statute, regulation, contingency plan, contract, or otherwise, for any Oil Spill in the State or on State territorial waters including, without limitation:

a. All Documents Relating to any obligation of any of the Defendants to respond to Oil spills in Prince William Sound;

b. All Documents Relating to the readiness of any other Person to respond to any Oil spill under its Oil spill contingency plan;

c. All Documents Relating to whether, in responding to an Oil spill, Alyeska acted, or would act, in its individual capacity or as agent for another party.

- d. All Documents Relating to any planned, considered, expected or actual transfer or non-transfer of operational control over any response to an Oil spill from Alyeska to the spiller or transporter of the Oil, the Coast Guard or any other party.
- e. All Documents Relating to any Oil spill response exercises or drills that occurred up to and including March 24, 1989.
9. All Documents from January 1, 1989 to the present which identify personnel of, and positions in, the Agency whose responsibilities include oil spill response duties.
10. All Documents Relating to any means, methods, techniques or procedures, to prevent, contain, measure, manage, recover, and clean up Oil on bodies of water (whether Fresh or Marine) including, without limitation:
- a. Chemical Dispersants;
 - b. In situ burning;
 - c. Booming;

- d. Skimming;
- e. Chemical beach cleaning agents;
- f. Water washing;
- g. Bioremediation, including chemical stimulation of biological agents;
- h. Intrusive Clean Up Technique;
- i. Weathering;
- j. Non-intervention; and
- k. Natural restoration.

11. All Documents Relating to any request or application to the State, the Agency or the federal government for authorization or approval of the use of any means or method to contain, control, recover or clean up spilled Oil on bodies of water (whether Fresh or Marine), and the State's or federal government's response to such request or application, including, without limitation, any testing or pilot studies done of any of the techniques listed in Request No. 10.

12. All Documents Relating to the actual or predicted effect on the environment (other than the removal, clean up, or dispersal of Oil) of any means, methods, techniques or procedures to prevent, contain, measure, manage, recover, and clean up Oil on bodies of water (whether Fresh or Marine) including, without limitation, any of the techniques listed in Request No. 10.

13. All Documents Relating to the preparation, drafting or negotiation of any guidelines, policies, regulations or procedures in effect up to and including March 24, 1989 for the use of chemical dispersants in connection with the clean up of Oil spills.

14. All Documents Relating to the capability, efficiency, or effectiveness of any equipment or machinery that could be used in cleaning up, recovering, removing, containing, dispersing, or otherwise disposing of an Oil spill.

15. All Documents Relating to the speed or rate at which, or time period within which, any actual or hypothetical Oil spill, or any portion thereof, was or could be cleaned up, recovered, removed or otherwise disposed of by any

spill response means or technology, including, without limitation, any of the techniques listed in Request No. 10.

16. All Documents Relating to any actual, calculated, estimated or assumed recovery rate of any skimmer or other mechanical recovery equipment.
17. All Documents Relating to the State's, the Agency's or the federal government's policies or positions regarding considerations relevant to oil spill response decision-making, including but not limited to:
 - a. Personnel safety;
 - b. Vessel safety;
 - c. Lightering;
 - d. Environmental impacts and trade-offs;
 - e. Federal control of spill response;
 - f. State participation in spill response;

g. Participation in spill response activities by third parties; and

h. Spill response by, and legal responsibility of the spiller.

18. All Documents Relating to the Oil spill resulting from the grounding of the T.V. Glacier Bay in Cook Inlet on or about July 2, 1987, the cleanup or restoration of natural resources after that spill, or the damages alleged to have resulted from it.
19. All Documents prepared from January 1, 1969 to the present Relating to any Oil spill in the Port of Valdez or in Prince William Sound (whether actual, predicted or hypothetical) or any Person's response to, or plan, capabilities or state of preparedness for, responding to such a spill.
20. All Documents Relating to any Person's response to, or the clean up or environmental impacts of, any Oil spill in excess of 25,000 barrels other than the Spill.
21. All Documents Relating to the training or instruction of employees, members or contractors of any Person concerning the clean-up of any Oil spill in excess of

25,000 barrels, including, without limitation, all manuals, memoranda, and other Communications and Documents Relating to these manuals and memoranda.

22. For every Oil Spill in excess of 25,000 barrels, produce all final reports issued by the federal on-scene coordinators assigned to those spills, together with all "POLREPS" generated by the Agency, or any other federal agency, relating to those spills.
23. All Documents Relating to the wreck of the LEE WANG SIN which occurred near Prince of Wales Island, Alaska on or about December 25, 1989, including but not limited to the Federal On-Scene Coordinator's report and all "POLREPS" generated regarding this incident.
24. All Documents Related to the actual or predicted fate or effects of any Oil spill in excess of 25,000 barrels on any Person or Natural Resource.
25. All Documents Relating to the State's, the Agency's or the federal government's experience with any Oil spill in excess of 25,000 barrels, including, without limitation, any regulatory, administrative or other

governmental action taken or discussed by the State, the Agency or the federal government in response to such oil spill.

26. All Documents Relating to the experience of the Agency with any Oil spill in excess of 25,000 barrels, including, without limitation, any studies of the effects of such spills on any Organism of Any Species.
27. All documents Relating to any advice, assistance, technical support, personnel or consultation provided by the Agency to any other Person Relating to any Oil Spill in excess of 25,000 barrels.
28. All Documents Relating to the cost of acquiring, operating and maintaining marine Oil spill response equipment by Alyeska or its contractors for use in Prince William Sound prior to March 24, 1989.
29. All Documents Relating to any change in, or events, circumstances or conditions causing a change in, Alyeska's Oil spill response capabilities or state of readiness taking place up to and including March 24, 1989.

30. All Documents Relating to the response to the spill including, without limitation, the following subject matters:

a. Clean-up, restoration and containment measures and activities or any other action taken by the Agency or its agents, contractors or consultants in any way Related to the EXXON VALDEZ oil spill.

b. The efforts of any Person besides the Agency in connection with the Spill or Clean Up, including, without limitation, any Defendant, the Coast Guard, and the Regional Response Team;

c. The transfer of Clean Up and containment efforts from Alyeska to Exxon Shipping or other Exxon entities;

d. The organizational relationships among any State or federal agencies, offices or task forces involved in the Clean Up, including, without limitation, the chain of command and the process by which responsibility for various aspects of the Clean Up was assigned;

e. The quantity of Oil originating from the EXXON VALDEZ that exists at the present, or that did exist, in any part of the Area Arguably Affected by the Spill from

March 24, 1989 to the present, including, without limitation, any calculation of the quantity of Oil recovered or dissipated during the Clean Up, and any calculation of the quantity of Oil originating from the EXXON VALDEZ that remains in the environment in the Area Arguably Affected by the Spill;

f. The quantity of Oil or chemicals introduced into the environment as part of the Clean Up;

g. Field surveillance or studies done by any Person in connection with the Clean Up;

h. Tests or other efforts to identify the source of any Oil or other chemical found during 1989 or thereafter within the Area Arguably Affected By The Spill;

i. The collection or preservation of any remains of flora or fauna allegedly killed as a result of the Spill or the Clean Up;

j. Tests, research or studies to determine the effectiveness of the Clean Up or the amount of Oil claimed to be from the Spill that remained in the environment; and

k. The effects of any Oil claimed to be from the Spill on any Organism of Any Species.

31. All Documents Relating to efforts of any Person to control or manage the Spill, including, without limitation, use or application of any of the techniques listed in Request No. 10.
32. All Documents Relating to the content of any Communication involving any officer, employee, or agent of any Defendant Relating to the Spill or Clean Up.
33. All Documents Relating to means, methods or agents for the Clean Up or other remediation of the Spill or restoration of any area or resource allegedly affected by the Spill.
34. All Documents Relating to contracts, receipts or other evidence of payment or charge of any expense alleged to have been incurred by the Agency or any other Person as a result of the Spill or the Clean Up.
35. All Documents Relating to the EXXON VALDEZ oil spill received by your Agency from any Person.

-
36. All incident reports and reports of interviews Related to the EXXON VALDEZ oil spill or Clean-up, and all Documents Related to such reports.

 37. All Documents Relating to any activities by any of the following organizations which are related to the Exxon Valdez oil spill:
 - a. The National Response Team;

 - b. The Alaska Regional Response Team;

 - c. The Multi-Agency Committee (MAC) or the Inter-Agency Department.

 38. All Documents which in any way Relate to the impact upon the environment of the EXXON VALDEZ oil spill and the associated Clean-up and response.

 39. All Documents from January 1, 1985 to the present Relating to the Baseline or Pre-spill Condition of any Organism of Any Species, or of any other Natural Resources, or Human Services within the Area Arguably Affected by the Spill, including, without limitation, the level of Oil in any waters within the Area Arguably Affected by the Spill.

-
40. All Documents from January 1, 1985 to the present Relating to the habitat, life patterns or populations of any Organism of Any Species in or around the Area Arguably Affected by the Spill.
41. All Documents from January 1, 1985 to the present Relating to the causes or possible causes of any variations in the population of any Organism of Any Species, or in the level of any Natural Resource or Human Service in or around the Area Arguably Affected by the Spill, including, without limitation, such causes as low temperatures, storms, predators, disease, reproductive failure, drift netting, otter expansion, increased development or tourism, the Spill or the Clean Up.
42. All Documents from January 1, 1985 to the present Relating to events or circumstances other than the Spill or Clean Up that are, have been, may have been or may be detrimental to any Organism of Any Species, or to the level of any other Natural Resource or any Human Service in the Area Arguably Affected by the Spill, including, without limitation, such events or circumstances as climatic variations, other Marine and non-Marine oil spills, pollution attributable to the development of Valdez or other areas, ocean drift net operations,

predators, diseases, changes in breeding patterns or nesting patterns, the development or operation of Fish hatcheries, human use or development or the like.

43. All Documents Relating to any research protocols, sampling, testing or analytical methodologies, and quality control/quality assurance methodologies and other means and methodologies used in any study, survey or research concerning any Natural Resource or Human Services within the Area Arguably Affected by the Spill at any time after March 24, 1989, or the results of such study, survey or research.
44. All Documents from January 1, 1985 to the present Relating to samples or specimens of any Natural Resource taken from the Area Arguably Affected by the Spill, together with all Documents and Communications that Relate to such samples or specimens or the information derived therefrom.
45. All Documents Relating to the post-Spill viability of any Organism of any Species within the Area Arguably Affected by the Spill including, without limitation, incubation success, egg to fry survival, or other information relating to successful or unsuccessful regeneration of individual members of any Organism of Any Species.

46. All Documents Relating to the projected or forecasted duration of any effect of the Spill or the Clean Up, including, without limitation, any prediction of the time during which the presence of Oil or other substance originating from the EXXON VALDEZ will have an effect, favorable or unfavorable, on Natural Resources in the Area Arguably Affected by the Spill.
47. All Documents from January 1, 1985 to the present Relating to the chemistry of waters in the Area Arguably Affected by the Spill, including, without limitation, the presence or absence of Oil, toxins, contaminants, or hazardous substances, the salinity, oxygenation, turbidity or temperature of such waters, or any colloids in suspension in such waters.
48. All Documents from January 1, 1985 to the present Relating to the sources--natural or man-made--of any Oil in the waters, subsurface sediments, air or uplands of the Area Arguably Affected by the Spill.
49. All Documents from January 1, 1985 to the present Relating to the source of any Oil or other chemical found prior to 1989, and separately after January 1, 1989, within the Area Arguably Affected by the Spill,

including, without limitation, any tests of sheens, oil, tar, mousse, or tar balls to "fingerprint" the character of the source Oil.

50. All Documents Relating to the chemistry of, or pollutants or contaminants contained on or in, water (Fresh and Marine), sediment, land, or shoreline surface within the Area Arguably Affected by the Spill at any time after March 24, 1989.
51. All Documents Relating to the involvement of any Person in the assessment of alleged Natural Resource damages resulting from the Spill or Clean Up, including, without limitation, all Documents and Communications furnished to the Persons purporting to act as trustees for Natural Resources under federal or State law, all Documents related to the agreement between Exxon Shipping, the State and federal trustees dated April 13, 1989 regarding participation in the NRDA process and all other understandings or agreements between Exxon Shipping and the Natural Resource Trustees, written or oral.
52. All Documents Relating to the issuance of permits to scientists or investigators for research concerning changes in the state or condition of Natural Resources within or about the Area Arguably Affected by the Spill

subsequent to the Spill, including, without limitation, Documents Relating to the terms and conditions imposed or to be imposed in such permits, and reports submitted to the State or federal government in compliance with such permits.

53. All Documents Relating to permits, licenses, or other authorizations, of any type, issued since January 1, 1980, to any person or entity for any project, development or activity, in Alaska, State territorial waters, or in federal waters adjacent to Alaska, that involves the consumption, destruction, impairment, pollution, of, or injury to, any Natural Resource other than a Natural Resource that is actually traded in a commercial market.
54. All Documents related to the 1990 State/Federal Natural Resource Damage Assessment and Restoration Plan for the EXXON VALDEZ Oil Spill and the 1989 State/Federal Natural Resource Damage Assessment Plan for the EXXON VALDEZ oil spill.
55. All Documents Relating to any study, survey or research concerning any Natural Resource within the Area Arguably Affected by the Spill at any time after the Spill.

56. All Documents Relating to actual or potential methods for establishing contingent valuation of any alleged damage to any Natural Resource or Human Service including, without limitation, alleged damage within the Area Arguably Affected by the Spill.
57. All Documents Relating to any contingent valuation surveys conducted by any person or entity since January 1, 1980.
58. All Documents Relating to the validity, accuracy or reliability of contingent valuation as a method of determining the value of any Natural Resource or any non-market good.
59. All Documents Relating to the validity, accuracy, or reliability of any contingent valuation survey.
60. All Documents Relating to any valuation of, or effort to place a value on, any Natural Resource, whether or not involving the contingent valuation method, except valuations "based solely on the commercial value of Natural Resources that are actually traded in a commercial market.

61. All Documents from January 1, 1985 to the present Relating to the price at which any resource or mineral good or commodity (including, without limitation, timber, forest products, minerals, animal pelts and products, or other organic or mineral goods or commodities) produced in any part of the Area Arguably Affected by the Spill was or could have been sold and all Documents Relating to markets for such resource, mineral good or commodity.
62. Any Documents from January 1, 1985 to the present relating to the price or valuation of any real property located in the Area Arguably Affected by the Spill.
63. All Documents Relating to any public opinion poll, focus group, random intercept survey or other survey, poll, device or procedure used by the State, the Agency, the federal government or the State or federal Resource Trustees for ascertaining the views of any segment of the population of the United States concerning the Spill, Defendants, the Clean Up, the market for Seafood, Alaska tourism or Natural Resources within the Area Arguably Affected by the Spill or any other matter Related to the Spill.

64. All Documents from January 1, 1985 to the present

Relating to the number of Persons who took any Organism of Any Species for sport--whether by hunting, trapping, fishing or otherwise--in the Area Arguably Affected by the Spill, and the number of Organisms of Any Species taken under any license or permit covering the taking for sport within the Area Arguably Affected by the Spill.

65. All Documents from January 1, 1985 to the present

Relating to actual use of or Committed Use of any Natural Resource in the Area Arguably Affected by the Spill, including, without limitation, actual or planned use of Seafood, timber, minerals, forest products, pelts, bodies of water, tracts of land or any mineral, flora or fauna found in the Area Arguably Affected by the Spill.

66. All Documents relating to the management of the Area

Arguably Affected by the Spill, including but not limited to, management of timber, solid minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species, recreation and cultural values, wild and scenic rivers, and designated conservation and wilderness areas.

67. All Documents from January 1, 1985 to the present
Relating to recreational activities in the Area Arguably
Affected by the Spill, including, without limitation, the
number of Persons visiting the Area in any season, the
average expenditures by each visitor, the projected
increases or decreases in recreational uses, the
environmental impacts of recreational uses and the
amounts expended for recreational uses.
68. All Documents from January 1, 1985 to the present
Relating to businesses in the Area Arguably Affected by
the Spill, including, without limitation, the nature of
businesses operating in the Area, the income of such
businesses, any forecast for the growth or decline of
activities by such businesses, or contingencies affecting
the growth or decline of such businesses.
69. All Documents from January 1, 1985 to the present
Relating to any Subsistence Use or recreational,
personal, or commercial uses of the Area Arguably
Affected by the Spill at any time prior to the Spill.
70. All Documents from January 1, 1985 to the present
Relating to the Use or Non-Use value of any Natural
Resources in the Area Arguably Affected by the Spill.

71. All Documents Relating to the catch, collection or other taking or harvesting of any Organism of Any Species in any part of the Area Arguably Affected by the Spill, including commercial, sport or subsistence taking or harvesting.
72. All Documents Relating to historic, actual or forecasted quantities (at any stage of development), survival rates, survival assumptions, non-harvest depletions of population, harvest or catch, escapement, growth rate, spawner and recruit estimates or other such population data for any Organism of Any Species.
73. All Documents Relating to historic, actual or forecasted revenues, costs, or earnings from capture, harvest or other taking of any Organism of Any Species in any part of the Area Arguably Affected by the Spill, including, without limitation, such data as it pertains to primary harvesters, processors, buyers, brokers, wholesalers, distributors, canners, exporters, or fish farmers.
74. All Documents Relating to forecasts or projections of recreational activities in the Area Arguably Affected by the Spill at any time after March 24, 1989, including, without limitation, the number of Persons expected to visit such Area in any season, average expenditures,

projected increases or decreases in recreational uses, environmental impacts of recreational uses and amounts expended for recreational uses, and revenues, costs and income from projected recreational activities.

75. All Documents Relating to the identification or quantification of any injuries or damages allegedly caused by the Spill or the Clean Up, including, without limitation, the following categories:

a. injuries or damages to the public and private economies of the State or specific geographic areas within the State;

b. injuries or damages to goodwill;

c. injuries or damages to private businesses;

d. injuries or damages, personal or economic, to individuals;

e. injuries or damages to trade organizations;

f. injuries or damages to commercial, scientific, educational, charitable, cultural or subsistence institutions or activities generating direct or indirect economic benefits to the State;

g. injuries or damages to real property;

h. injuries or damages to personal property;

i. injuries or damages to Natural Resources due to losses in Use and Non-Use values of such Natural Resources;

j. loss of governmental revenues sustained by the federal government, the State or any municipality, municipal subdivision or other governmental organization other than the State, including, without limitation, alleged loss of Oil and gas production tax revenue, corporate income tax revenue, and Oil production royalties; and

k. costs of Restoration or Replacement.

76. All Documents Relating to the economic effects of the Clean Up upon:

- a. workers employed in the Clean Up effort;
 - b. communities within the Area Arguably Affected by the Spill;
 - c. communities outside the Area Arguably Affected by the Spill;
 - d. the economy of the State.
77. All Documents Relating to economic benefits resulting from the Clean Up, including, without limitation, numbers of Persons employed, businesses supported by Clean Up wages, cash recirculation factors, visits to the State generated by the Clean Up (including visits by contractors or others working on the Clean Up, press and scientific visitors, tourists and governmental visitors), income to travel and hotel industries from Clean Up-Related visits and other such effects.
78. All Documents Relating to the movement of the EXXON VALDEZ at any time during its voyage from the Port of Valdez to San Diego, and all activities of any Person associated with that voyage, including, without limitation, its grounding, its rupture, or the loss of Oil therefrom, on or after March 23, 1989.

79. All Documents Relating to the performance of the Alyeska Marine Terminal, Alyeska management, or Alyeska personnel in connection with the loading or departure of the EXXON VALDEZ on March 23, 1989.
80. All Documents Relating to any Communications on or after March 22, 1989 with any Person who was on the EXXON VALDEZ at any time during the period March 22, 1989 through June 23, 1989, including, without limitation, any Communication with the master, officers or crew of the EXXON VALDEZ, or with any Agency, federal or state officers or agents aboard the EXXON VALDEZ.
81. All Documents from January 1, 1985 to the present Relating to the weather or the conditions or patterns of tides, currents or floating ice in the Area Arguably Affected by the Spill.
82. All Documents Relating to mapping of the Area Arguably Affected by the Spill, including, without limitation, any maps purporting to show the location, quantity or condition of any Oil or other chemical resulting from the Spill or the Clean Up at any point in time.

83. All maps, charts, diagrams, photographs, aerial photographs, computer images, or any other depictions of the geography, topography or conditions of the Area Arguably Affected by the Spill, made or created from January 1, 1985 to the present, including, without limitation, trajectories or other depictions, whether projected or actual of the Spill, and Documents relating thereto.
84. All Documents prepared from January 1, 1969 to the present Relating to the preparation, negotiation, drafting or approval of the federal Agreement and Grant of Right of Way ("Federal Right of Way"), dated January 23, 1974, the State Right-of-Way Lease ("State Right of Way"), dated May 3, 1974, or any Exhibit, stipulation, addendum or amendment Relating to these Documents.
85. All written orders or notices made or given by the Secretary of the Interior or his authorized officer and directed to any one or more of the permittees of the Federal Right of Way pursuant to Federal Right of Way Stipulation 1.6.1.

86. All Documents prepared from January 1, 1969 to the present that record or Discuss any Communication, Statement or representation made up to and including March 24, 1989 by any Defendant, any party to the litigation (including the State), the Agency, any federal agency, or any other Person referring to the Federal Right of Way, State Right of Way or any exhibit, stipulation, addendum or amendment Relating to these Documents.

87. All Documents Relating to any Statement (whether or not authorized) made by or on behalf of any Person, in a public setting concerning Alyeska's or Exxon's legal rights and obligations under State or federal Oil pollution statutes or regulations.

88. All Documents Relating to any activities by any person to influence or attempt to influence State or federal policies, procedures, statutes or regulations Relating to the discharge of Oil, the clean up of Oil, or restoration of the environment for the discharge of Oil, including, without limitation, harm to any Organism of Any Species.

89. All Documents from January 1, 1977 to the present
Relating to any State or federal statutes or regulations
in effect before or after March 24, 1989 pertaining to
liability for or assessment of Natural Resources damages.
90. All Documents Relating to all press releases prepared or
distributed by the Agency or any other Person Relating
to the Spill.
91. All Documents Relating to, or containing any information
given to, the Exxon Valdez oil spill investigation
conducted by the National Transportation Safety Board,
Docket No. DCA 89 MM 040.
92. All Documents Relating to, or containing any information
given to, the Alaska Oil Spill Commission or the
investigation it conducted.
93. All Documents, including drafts, Relating to the report
jointly submitted to President Bush on or about April 30,
1990 by the U.S. Department of Transportation and the
U.S. Environmental Protection Agency regarding the Spill
or Clean Up.

94. All Documents Relating to the content of any Communication involving any officer, employee, or agent of any Defendant that took place during the period March 23, 1989 through March 30, 1989 Relating to the Spill or Clean Up.
95. All reports, and Documents Relating to such reports that the Agency or any other Persons have submitted to any governmental entity or other Person from March 24, 1989 to the present that Relate to the Spill.
96. All Documents relating to any information requests received or promulgated by the Agency concerning the Spill, including but not limited to Freedom of Information Act (FOIA) requests, requests for disclosure of public records under AS 09.25.110, and other formal or informal letter requests, together with:
- a. Any and all lists, indices, receipt or intake logs, or summaries of said requests.
 - b. Any and all documents that have been produced in response to said requests; and

C. Any and all lists, indices, or summaries of the documents that have been produced in response to said requests.

97. All Documents that state, set forth or Discuss any alcohol or drug policies that have been proposed, considered or implemented by the Agency.

98. All Documents Relating to archaeological, historical, or cultural sites or artifacts in the Area Arguably Affected by the Spill, including, without limitation, all Documents that:

a. Discuss, list, describe, or locate such sites or artifacts;

b. Discuss ownership or selection of such sites pursuant to 43 U.S.C. § 1613(h)(i);

c. Discuss damage to such sites or artifacts by the Spill or any other event.

99. All Documents Relating to ownership of and title to the Area Arguably Affected by the Spill, including but not limited to, public land records indicating title to

realty, easements, rights-of-way, Native corporation selections, interim conveyances, patents, and mineral locations.

100. All Documents indicating, the exact location of oil alleged or believed to have come from the Spill, including without limitation:

a. Public land records; and

b. Documents that reference United States Coast Guard monuments, natural landmarks or survey markers.

101. All of the documents on Attachment B, which are drawn from the Agency's index of pipeline records and which are identified using the Agency's numbering system.

102. All Documents Related to any Organism of any Species which was killed, injured, sacrificed or otherwise harmed or damaged as part of any research, studies or investigation Related to the Spill or the Cleanup.

103. All documents relating to a report prepared by or for the Minerals Management Service of the Department of the Interior entitled "Alaska Outer Continental Shelf Oil-Response Measures for Offshore Oil and Gas Operations," including but not limited to a draft of that report dated

July, 1986 entitled "Oil--Spill--Response Memoranda on Alaskan Offshore Oil and Gas Operations," any and all other drafts of that report (regardless of precise title of the drafts), and any and all correspondence or memoranda relating to that report.

ATTACHMENT B

140. Comptroller General (General Accounting Office). Trans-Alaska Oil Pipeline Operations; More Federal Monitoring Needed [Paper]. [Letter to Congress]. Washington, D.C. Washington, D.C.; January 8, 1981. 6 pages. Yes; Office of Pipeline Monitoring, Anchorage, AK.
150. Comptroller General (GAO). Lessons Learned from Constructing the Trans-Alaska Oil Pipeline. [Paper]. [Letter to Congress]. Washington, D.C., Washington, D.C.; June 15, 1978. 1 page. BLM; Office of Pipeline Monitoring, Anchorage, AK.
