(1) (Exhibits 3459 3454 3463 and 3462 received)  
 (2) THE COURT Have we sworn the witness?  
 (3) THE CLERK Mr Craig would you stand please and  
 (4) raise your right hand  
 (5) (The Witness Is Sworn)  
 (6) THE CLERK For the record state your full name your  
 (7) address and spell your last name please  
 (8) THE WITNESS Michael Edward Craig last name  
 (9) C R A I G Address Box 1825 Valdez Alaska  
 (10) THE CLERK Thank you sir  
 (11) DIRECT EXAMINATION OF MICHAEL CRAIG (Live)  
 (12) BY MR LYNCH  
 (13) Q Mr Craig do you remember what job you had on the night of  
 (14) March 23 1989?  
 (15) A Yes sir I was supervisor of the night shift  
 (16) Q Where? For whom?  
 (17) A At the Valdez terminal for American Guard and Alert  
 (18) contracted to the Alyeska Pipeline Service Company  
 (19) Q Did you say American Guard and Alert?  
 (20) A Yes  
 (21) Q What job or responsibility did American Guard and Alert  
 (22) have at the Alyeska Pipeline Service Company on March 22  
 (23) 1989?  
 (24) A Specifically access control and Emergency Medical  
 (25) Services  
 (26) Q What do you mean by access control?

Vol 18 2807

- (1) A It's - it's a restricted facility so only people with
- (2) proper - proper Alyeska badge government officials or
- (3) authorized visitors could enter the facility in addition to
- (4) ship's personnel returning to their vessels
- (5) Q Was that access control task of yours did that include
- (6) evaluating whether or not people were bringing in unauthorized
- (7) materials on the Alyeska premises?
- (8) A Yes it did
- (9) Q Let me show you a portion of DX3459 I'll put it up on the
- (10) screen I only have one copy with me
- (11) Reading this note Exhibit 3459 is part of the Alyeska Port
- (12) Information Manual Was it your understanding that possession
- (13) of firearms illegal knives illegal drugs or alcoholic
- (14) beverages was strictly prohibited?
- (15) A Yes
- (16) Q And what was your responsibility with regards to carrying
- (17) out that prohibition?
- (18) A We would search the incoming baggage bags luggage
- (19) that
- (20) sort of thing for the incoming ships personnel
- (21) Q The next line down reads tanker personnel Does that refer
- (22) to people who work on tankers?
- (23) A Yes
- (24) Q Returning to the terminal in such a condition that they
- (25) might require assistance to ensure their safe return to the
- (26) tanker will be detained at the gate until the guard is

Vol 18 2808

- (1) satisfied that a member of the ship's company is with the
- (2) person and will escort them directly to the vessel Did you
- (3) have that responsibility as part of your access security role?
- (4) A Yes
- (5) Q And how did you carry that out?
- (6) A By initial observation of the individual when they
- (7) returned
- (8) from town in a cab or any other mode of transportation
- (9) We'd
- (10) watch them for any of these signs of intoxication until they
- (11) passed through our screening If we felt that this existed
- (12) then we would notify the vessel to provide either one or two
- (13) people to help the individual get to the vessel if the person
- (14) was in such a state that they were argumentative or
- (15) combative
- (16) or that sort of thing, then we would transport them down to
- (17) the - to the gangway ourselves and then the vessel would
- (18) provide people to help them get over
- (19) Q On that night did you say you were supervisor?
- (20) A Yes
- (21) Q And who was working with you that night?
- (22) A Man named Charles Dudley was at the gate for vehicular
- (23) traffic There was a Cary Shoop who was in the CCTV
- (24) monitor
- (25) room and there was a Boyd Norton (ph) who was another
- (26) patrolman
- (27) in addition to myself
- (28) Q This is Exhibit 9030 Can you identify this individual?
- (29) A That's Charles Dudley
- (30) Q What was Mr Dudley's background?

Vol 18 2809

- (1) A He was 20 plus year retired Coast Guard chief petty
- (2) officer
- (3) Q And had he been employed for American - is it guard and
- (4) alert?
- (5) A Yes American Guard and Alert
- (6) Q Had he been employed at the Alyeska terminal for a period
- (7) of time?
- (8) A I believe it was somewhere close to a year at that point
- (9) Q And what was his job assignment that night March 23 1989?
- (10) A That night he conducted the identification process for
- (11) the
- (12) incoming individuals and would also do the vehicular
- (13) searches
- (14) MR LYNCH Excuse me Your Honor I apparently
- (15) misread that That is 9130 and I'd like to offer it as
- (16) 9130 A I have a photo of Officer Craig which I'll offer as
- (17) 9130 B
- (18) (Exhibits 9130 A and 9130 B offered)
- (19) MR O NEILL No objection
- (20) THE COURT 9130 A and B are admitted
- (21) (Exhibits 9130 A and 9130 B received)
- (22) MR LYNCH Thank you Your Honor
- (23) BY MR LYNCH
- (24) Q Now let me show you if I may a page from Exhibit DX3454
- (25) in evidence and ask you if you can identify that
- (26) A That's a copy of our gate register that documents the
- (27) activity through the main gate

Vol 18 2810

- (1) Q Can you looking at your screen identify this signature
- (2) down here?
- (3) A That would be mine
- (4) Q And what is your procedure with reference to keeping this
- (5) gate register or gate log?
- (6) A The log is initiated at just after midnight 001 and runs
- (7) for a 24 hour period
- (8) Q And is it the responsibility of the persons at the gate to
- (9) make entries noting the arrival or departure of anyone who
- (10) passes through the gate?
- (11) A Yes it is
- (12) Q And is it necessarily the same person who makes each of
- (13) those entries?
- (14) A No, it's not People work a six hour shift so four people
- (15) would have access to the log, in addition to anybody who
- (16) might
- (17) provide them a relief situation, and traffic might come
- (18) through
- (19) at that time as well
- (20) Q Let me now refer you if I can to page 9 of Exhibit 3454
- (21) and specifically let me direct your attention to the entries
- (22) at the top of the page where the entries read Roberson J
- (23) Glowacki J and Hazelwood J?
- (24) A Yes
- (25) Q Were you present at the Alyeska security gate on the
- (26) evening of March 23?
- (27) A I was in the security office It was just adjacent to the

Vol 18 2811

Vol 18 2813

- (1) gate at that time  
 (2) Q And did you participate in the process of returning Messrs  
 (3) Roberson, Glowacki and Hazelwood when they returned to the  
 (4) terminal that evening?  
 (5) A Yes I did  
 (6) Q Are you able to tell either from your recollection or from  
 (7) this record at what time they returned?  
 (8) A 2024  
 (9) Q Not even looking?  
 (10) A No it's right there  
 (11) Q Could you point out where that is?  
 (12) A This  
 (13) Q See if the light pen will work  
 (14) A I'm not sure how this works but -  
 (15) Q Let me just - have I highlighted the correct entries?  
 (16) A Yes you have  
 (17) Q Do you have any way to tell from this document how or  
 (18) when - who arrived with them or how they arrived?  
 (19) A They arrived at that time There's a - should be another  
 (20) cab driver entry on another page which would show the time  
 (21) that the cab arrived and was screened and how many people  
 (22) was in  
 (23) the - that were in the cab and what the dispatch -  
 (24) Q Let me show you page 11 of 3454 Can you find that entry  
 (25) there?  
 (26) A It's - I may need your help in

- berth 4 The next one over would represent it went to 5  
 and 4  
 (3) Q Now what does this line entry indicate?  
 (4) A The in would show how many people came in when the  
 driver  
 (5) drove in and how many people went out when the driver  
 drove  
 (6) out  
 (7) Q Out - this is in this is out?  
 (8) A Yes  
 (9) Q So is this the entry that refers to the arrival at 2024?  
 (10) A Yes it is  
 (11) Q And what does that tell you about what Mr French did on  
 (12) that trip out to the Alveska Terminal?  
 (13) A At 2024 he arrived with four people and went to berth 5  
 (14) Q Went to berth 5 and left with zero?  
 (15) A Yes  
 (16) Q Okay Who was the fourth person Do you know or  
 remember?  
 (17) A Fourth person was an Alan McGregor  
 (18) Q And is Alan McGregor was he part of the crew of the Exxon  
 (19) Valdez?  
 (20) A He was on the Arco Independence  
 (21) Q Now you've told us where you were and you've told us  
 where  
 (22) Mr Dudley was Was there anyone else in the security detail  
 (23) on duty that night at the Alveska gate?  
 (24) A We have a monitor communications room that is in the  
 same  
 (25) building that I was in where they monitor you know various

Vol 18 2812

Vol 18 2814

- (1) Q Is that the entry?  
 (2) A Yes it is  
 (3) Q Now could you perhaps interpret for the - is there any  
 (4) way you can - not in the Elmo it doesn't - I'll try to point  
 (5) for you as you recall Mr Craig  
 (6) Could you tell us what the - what these entries are?  
 (7) Let's start here What does that tell us  
 (8) A Okay The 2024 is the time that the vehicle was cleared  
 (9) through the gate  
 (10) Q And that coincides with the time that you told us  
 (11) Messrs Hazelwood, Glowacki and Roberson  
 (12) A Yes it does  
 (13) Q And then?  
 (14) A That's the time the cab departed the facility  
 (15) Q And that's the name of the driver?  
 (16) A Yes it is  
 (17) Q Yellow Cab what does this entry refer to?  
 (18) A That's the cab driver's badge number Alveska badge  
 number  
 (19) Q Alveska issues a badge to cab drivers -  
 (20) A Yes they do  
 (21) Q - who operate in Valdez?  
 (22) A That's the license number of the vehicle  
 (23) Q And what are these entries over here?  
 (24) A The B stands for berth which is the destination of the cab  
 (25) at the time So the 4 would represent that that it went to

- (1) camera I think at that time we had just less than 30  
 cameras  
 (2) throughout the terminal one which would view the security  
 (3) office and Gary Shoop worked there at that time  
 (4) Q And let me see if I understand this Mr Shoop was sitting  
 (5) in a room that had monitors for television cameras these  
 (6) remote cameras that - might be one in here or something?  
 (7) A Yes there was  
 (8) Q That covered the room where incoming personnel tanker  
 (9) people or other people would be - would be observed?  
 (10) A Yes in addition to the gate activity  
 (11) Q What other areas could Mr Shoop observe using these  
 (12) cameras if you or he wished to do so?  
 (13) A In addition to the gate activity at the security office  
 (14) there was cameras throughout the terminal on each berth  
 at  
 (15) the head of the berth and at the end of the berth which  
 would  
 (16) be the shore side and the ship side essentially cameras at  
 (17) different facilities and up in the tank farms variously placed  
 (18) throughout the terminal  
 (19) Q So if Mr Shoop wished to do so he could switch the camera  
 (20) on at berth 5 and watch the cab arrive and people disembark?  
 (21) A Yes We actually maintained a separate monitor for each  
 (22) berth  
 (23) Q I seem to have mislaid my photos again  
 (24) Did you have any procedure or any capability to videotape  
 (25) people who you had on these remote cameras?

Vol 18 2815

- (1) **A There is capability to videotape if the officer is**  
 (2) **monitoring the access and feels that the situation in the**  
 (3) **office is somehow either out of control or could get out of**  
 (4) **control then he would initiate a video process at that time**  
 (5) Q Now do you – do you recall being involved in the  
 (6) screening of the four individuals who were in Mr. French's cab  
 (7) when it arrived at 2024 that is 8 24 –  
 (8) A Yes  
 (9) Q – in normal time reporting?  
 (10) A Yes  
 (11) Q 8 24 p m ?  
 (12) A Yes  
 (13) Q Do you recall being involved in the screening of those  
 (14) individuals?  
 (15) A Yes  
 (16) Q And could you tell the jury what you did? I'm going to try  
 (17) to – let me put a picture up here – not up there. You need  
 (18) it again it's coming in it's coming.  
 (19) Could you identify this picture?  
 (20) A Yes I can  
 (21) Q Could you just describe what we're looking at here?  
 (22) A That's the security office at the Alyeska marine terminal  
 (23) Q And just in terms of when the cab arrives at the Alyeska  
 (24) Terminal it arrives at a gate facility?  
 (25) A Yes

Vol 18 2816

- (1) Q Where would that be in relation to this office space?  
 (2) A Just to the left  
 (3) Q Out here?  
 (4) A Yes  
 (5) Q What about –  
 (6) A Well there's a land – there's an express lane and then you  
 (7) have a main gate guard shack  
 (8) Q We'll get to that in a minute but if you were looking at  
 (9) it from this window it would be out this window?  
 (10) A Yes  
 (11) Q And where were you at the time that you learned the cab  
 (12) arrived?  
 (13) A At the time that the cab arrived I was at the desk just in  
 (14) the foreground of the photo  
 (15) Q This desk?  
 (16) A Yes  
 (17) Q And then what happened?  
 (18) A When I heard that the cab was arriving I went to the other  
 (19) side of the room to get on the other side of the counter  
 (20) Q So you went what out?  
 (21) A Out to the right  
 (22) Q Like this?  
 (23) A Yes and down to the left and back around  
 (24) Q Out here and then what?  
 (25) A Then I observed the cab pull up to the gate and watched  
 the

Vol 18 2817

- (1) individuals get out  
 (2) Q Where were you when you did that?  
 (3) A Back in the corner there's a printer I was just standing  
 (4) next to it  
 (5) Q This printer here?  
 (6) A Yes  
 (7) Q You were standing here?  
 (8) A Yes  
 (9) Q And looking out this window?  
 (10) A Yes  
 (11) Q Could you clearly see the cab when it arrived?  
 (12) A Yes  
 (13) Q And what did you observe?  
 (14) A I observed one individual get out of the back of the cab  
 (15) and then three start to exit the other doors of the cab  
 (16) watched the identification – identification process with the  
 (17) first gentleman and then he walked – you know he did the  
 (18) identification process walked straight past those windows  
 that  
 (19) are in the background  
 (20) Q These windows here?  
 (21) A Yes The entry door to come into the office is –  
 (22) Q Here?  
 (23) A Not that door but just – just a few feet over  
 (24) Q Further off camera?  
 (25) A Yes So I watched him go over to there and come into the

Vol 18 2818

- (1) office  
 (2) Q And could you just – you said the identification process  
 (3) could you just very briefly tell us what you mean by that?  
 (4) A When a ship arrives at the terminal they have to provide  
 (5) a  
 (6) crew manifest listing all the people on the vessel For them  
 (7) to depart that person has to be on the crew list and when  
 they  
 (8) arrive they have to be on the crew list So they must  
 provide  
 (9) photo identification or official identification to return so  
 (10) the officer at the gate actually verifies the identification  
 before they are allowed to come into the office  
 (11) Q Okay So if I understand you you watched out the window  
 (12) you observed one person get out of the cab and walk toward  
 your  
 (13) security checkpoint correct?  
 (14) A He got out of the cab and went to meet with the security  
 (15) officer for the identification process yes  
 (16) Q And then after completing that walked over past these  
 (17) windows and into the security office?  
 (18) A Yes  
 (19) Q What about the other people in the cab?  
 (20) A As I watched they were getting out of the cab this person  
 (21) went right to the officer and – and finished that process and  
 (22) as he walked in I watched him walk over towards the front  
 of  
 (23) the door and then has as he came in I initiated a screening  
 (24) process for him When that was complete I didn't see the  
 (25) other three guys come in the door so I looked back out  
 there

Vol 18 2819

- (1) and they were still standing outside with the security officer  
 (2) at the gate with the identification process  
 (3) Q Now up to this point in time - first of all did you -  
 (4) were you able to identify any of those four individuals by name  
 (5) or did you know them independently?  
 (6) A No, I did not  
 (7) Q They were just four people?  
 (8) A Yes  
 (9) Q Did you see or observe anything which caused you concern  
 (10) from your point of view of security that you either had a  
 (11) problem with someone introducing contraband or that you had a  
 (12) problem with somebody who might be in a state where they  
 (13) wouldn't be safe on the property?  
 (14) A No I did not  
 (15) Q Did you see any stumbling or any other sign that would  
 (16) cause you concern?  
 (17) A No I did not  
 (18) Q None of the four?  
 (19) A No  
 (20) Q Did you have reason to be concerned about Mr French?  
 (21) A Mr French had been reported sometime earlier as being  
 (22) a  
 (23) **conduit to bootleg booze in for seamen We had initiated a**  
 (24) **process sometime before that for a tighter screening of the**  
 (25) **cabs and even hand wand screening of the cab drivers but**  
 (26) **nothing had turned up in any of those searches**

Vol 18 2820

- (1) Q So when Mr French arrived he was someone who at least  
 (2) you  
 (3) had concern might be involved in trying to bring contraband  
 (4) onto the property?  
 (5) A The officer at the gate would have had that concern yes  
 (6) Q I used the you meaning the American guard?  
 (7) A Oh okay yes  
 (8) Q And Mr Dudley was the officer at the gate?  
 (9) A Yes he was  
 (10) Q And his responsibility was to check the cab driver and the  
 (11) cab?  
 (12) A Yes  
 (13) Q And then what next happened with the three individuals who  
 (14) stayed out or who didn't come in with the first person?  
 (15) A Once the identification process was complete then they  
 (16) followed the same route as Mr McGregor walked past  
 (17) those  
 (18) window - those windows excuse me watched them walk by  
 (19) the  
 (20) windows they came into the office door one peeled off to  
 (21) go  
 (22) to the restroom which is farther off to the right down a short  
 (23) hallway The other two presented their baggage onto the  
 (24) counter and I give them separate trays for metal objects  
 (25) that  
 (26) they might have on their person I instructed them in that  
 (27) process and then screened their baggage  
 (28) Q Bear with me just one second while I see if I can get a new  
 (29) picture here  
 (30) Is this an accurate picture of the gate structure as it

Vol 18 2821

- (1) existed on March 23 1989?  
 (2) A Yes it is  
 (3) Q And the arriving cab would come in here?  
 (4) A Yes  
 (5) Q And then you observed the people - the cab was a station  
 (6) wagon or something?  
 (7) A Yes  
 (8) Q And one got out of the back door?  
 (9) A Yes  
 (10) Q Was it one of those back doors that open sideways?  
 (11) A Yes  
 (12) Q And then the others got out of the passenger area?  
 (13) A Yes  
 (14) Q And where would Mr Dudley have been? Here?  
 (15) A He would actually have been out of the - that shack to  
 (16) meet the vehicle  
 (17) Q About here?  
 (18) A Physically outside yes  
 (19) Q And then you observed the first fellow walk over what in  
 (20) through here?  
 (21) A Yes  
 (22) Q And then you watched the other three walk through there?  
 (23) A Yes  
 (24) Q Okay Now did you observe the other three from the time  
 (25) they left the island here until they passed out of your sight

Vol 18 2822

- (1) past those windows?  
 (2) A Yes  
 (3) Q And that was because you were wondering why they were  
 (4) delayed and hadn't come in with the first individual?  
 (5) A Well I would normally try to observe that process  
 (6) Q Now in watching them walk did you see yet any sign to  
 (7) cause concern on your part about whether they might be  
 (8) impaired  
 (9) or a danger to themselves or danger to the property?  
 (10) A No I did not  
 (11) Q So neither the first fellow nor the other three caused you  
 (12) any - gave you any reason up to that point to be concerned?  
 (13) A Correct  
 (14) Q Okay Then they're in the - in the security room Could  
 (15) you describe then what process you went through with the three  
 (16) who came in afterwards?  
 (17) A As I touched on earlier they came in through that door  
 (18) that has the window in it and the crash bar One of them  
 (19) peeled off to the left as they arrived - would be the right on  
 (20) that picture - two of them approached the counter set some  
 (21) baggage and I believe a couple of pizzas on the counter I  
 (22) gave them two small trays to you know put personal metal  
 (23) objects in went through the bags the gentlemen went  
 (24) through  
 (25) the screening which is similar to an airport metal detector  
 (26) They picked up their personal effects on the other side and  
 (27) once I finished screening the baggage then handed that  
 (28) back to

Vol 18 2823

Vol 18 2825

1) them as well and then they stood right in between the two  
 2) counters waiting for the other gentleman to come out of the  
 3) restroom at which time we just initiated some small talk  
 not  
 4) about anything that I can remember just stood there and  
 talked  
 6) Q Did you notice - first of all did you know at this point  
 who any of those three individuals were?  
 8) A No I did not  
 9) Q Did you later learn who those three individuals were?  
 10) A Yes I did  
 11) Q And how did you ascertain that?  
 12) A With the gate register log  
 13) Q That's the log that we looked at before?  
 14) A Yes  
 15) Q 3454?  
 16) A Yes  
 17) Q And do you have any information or any way to ascertain  
 18) where Captain Hazelwood was or who Captain Hazelwood was  
 among  
 19) the three?  
 20) A No  
 21) Q Do you have any way to identify whether he's the individual  
 who went to the restroom?  
 22) A I don't have recollection of which one it was  
 23) Q So the third individual came out of the restroom?  
 24) A Yes

1) people come through who you observed to be and judged to be  
 2) affected by alcohol?  
 3) A Yes  
 4) Q Had you observed people who were - who you observed to  
 5) have had something to drink but were not - were not so  
 6) impaired that they were unsafe?  
 7) A Yes  
 8) Q And had you observed people who were - not only had  
 9) something to drink but impaired and you judged them to be a  
 10) danger to themselves?  
 11) A Yes  
 12) Q Now if you observed someone in that condition was it your  
 13) practice to try to videotape the behavior of the people in  
 14) the - in the security office?  
 15) A Which condition  
 16) Q In a condition where their impairment might present a risk  
 17) to themselves or a risk to the property?  
 18) A Yes  
 19) Q That would have been Mr. Shoop's responsibility?  
 20) A Yes  
 21) Q And he was working under your supervision?  
 22) A Yes  
 23) Q As of that time were you - well strike that  
 24) Approximately how often or how frequent did you observe  
 25) indications of alcohol consumption on incoming tankers?

Vol 18 2824

Vol 18 2826

1) Q What happened then?  
 2) A Then he presented a bag of some sort that I went through  
 3) as well. Provided him a singular tray for his personal metal  
 4) objects. They talked to him at the time you know he was  
 5) going through. He proceeded through. I handed him his  
 personal  
 6) stuff. They all three stood there and waited for him to get  
 7) you know the things out of the tray talked a little bit then  
 8) they proceeded out the door and reentered the cab.  
 9) Q Now from the time you saw them arrive to the time they  
 10) spent with you in the security office to the time they exited  
 11) and went to the cab did you see anything which suggested to  
 12) you if any of them was under the influence or impaired by  
 13) alcohol?  
 14) A No I did not  
 15) Q Did you see anything to indicate that they were in any way  
 16) lacking in coordination stumbling or walking funny?  
 17) A No I did not  
 18) Q Anything about their speech that indicated to you that they  
 19) might be using alcohol?  
 20) A No I did not  
 21) Q Okay Now at that point in time March 1989 was it a  
 22) regular part of your responsibility at the security gate to  
 23) watch for alcohol signs of alcohol on incoming tanker people?  
 24) A Yes  
 25) Q And did you observe that occurring? I mean had you seen

1) A Specifically on the night shift as the night crew later  
 2) say after 10:00 when everything else is pretty much closed  
 3) except for the bars and particularly after midnight it was  
 4) very common  
 5) Q So it was not uncommon for you to observe people and  
 judge  
 6) them to have had something to drink?  
 7) A Yes  
 8) Q And again sometimes they were under control and  
 sometimes  
 9) they weren't?  
 10) A Correct  
 11) Q By either test did you judge these four individuals to  
 12) have had enough to drink to be noticeably affected by what  
 they  
 13) may have drunk?  
 14) A No I did not  
 15) Q Did you ever have occasion to discuss with Mr. Shoop  
 16) whether he should have videotaped what he observed while the  
 17) four individuals were in the - in the office with you?  
 18) A We discussed it the following morning when we learned  
 19) that - that that might have been you know part of the  
 20) problem and none of the three of us either myself Dudley  
 or  
 21) Shoop felt that there was anything that we saw or should  
 have  
 22) done or any other thing that particular night for that  
 23) incident  
 24) Q Could you identify this structure for us Mr. Craig?  
 25) A That's the gangway structure for berth at the Alyeska

Vol 18 2827

- 1 Terminal  
 (1) Q Did you have occasion to use those gangway structures from  
 (2) time to time?  
 (3) A Yes  
 (4) Q How did you find them - well when you used them had you  
 (5) been drinking?  
 (6) A No  
 (7) Q And how did you find them to navigate?  
 (8) A That had to be - your concentration - you couldn't really  
 (9) be thinking of much else than that The first set of stairways  
 (10) wasn't too bad other than just how steep they are but the  
 (11) next set -  
 (12) Q That's these?  
 (13) A Correct The next set depending on you know how  
 (14) loaded  
 (15) the tanker was they have a much narrower step and they  
 (16) are  
 (17) reasonably difficult to navigate  
 (18) Q Are these steps on the down side - let me call it the  
 (19) backside of the gantry Are they fixed in place or do they  
 (20) rotate?  
 (21) A They're fixed  
 (22) Q And when you've - when you've done it without having had  
 (23) anything to drink have you found it necessary to take care  
 (24) for - because of the coordination it takes?  
 (25) A I've found it necessary to hold onto both handrails  
 Q Now when you've been involved in passing through when

Vol 18 2828

- (1) have you had occasion to have to help them use the gantry?  
 (2) A Yes  
 (3) Q And what have you - what was your experience in that  
 (4) connection?  
 (5) A It was a difficult situation to do it by yourself and even  
 (6) more so to help somebody over  
 (7) Q In your opinion is it - would it be possible - from your  
 (8) own experience would it be possible for someone who's been  
 (9) impaired by consumption of alcohol to navigate the gantry  
 (10) without noticeable stumbling or noticeable navigation  
 (11) problems?  
 (12) A I don't think so  
 (13) Q Have you ever - did you need to use the handrails when you  
 (14) used the gantry?  
 (15) A Yes  
 (16) Q Would it be more difficult if you were carrying baggage or  
 (17) something else in your hand?  
 (18) A Yes  
 (19) Q Now on that occasion did you did you try to monitor  
 (20) these individuals when they arrived at the point where they  
 (21) where the cab would let them off at the berth?  
 (22) A I did not The monitor room officer Shoop in my view but I  
 (23) don't recall whether he said he did or not  
 (24) Q Was there anything that indicated to you that it would be  
 (25) necessary to monitor that the disembarkation point?  
 (26) A No there wasn't

Vol 18 2829

- (1) Q Now subsequently have you had occasion to get - be  
 (2) involved in testing arriving tanker men -  
 (3) A Yes  
 (4) Q - for blood alcohol level or breath alcohol level?  
 (5) A Yes I have  
 (6) Q And have you - have you had occasion to see what test  
 (7) results you get with what signs of alcohol consumption that you  
 (8) observe?  
 (9) A Yes  
 (10) Q Let me see if I can follow this Your practice is - is  
 (11) your practice to test every arriving tanker man at present?  
 (12) A The tanker men that depart  
 (13) Q That are coming into the Alyeska Terminal?  
 (14) A Not every one We don't test every one of them, no  
 (15) Q You test them if you see something that leads you to think  
 (16) you should?  
 (17) A For probable cause, yes  
 (18) Q And based on the standards that you would use probable  
 (19) cause standards that you would use do you believe that you  
 (20) would have tested these individuals - that you had any  
 (21) probable cause to test these three individuals on the night of  
 (22) March 23?  
 (23) A No  
 (24) Q One last question Have you ever discussed with Mr French  
 (25) his role or his involvement in the delivery of Captain

Vol 18 2830

- (1) Hazelwood and Messrs Glowacki and Roberson to the Alyeska  
 (2) Terminal that night?  
 (3) A Yes I believe it was the next day or shortly after, I had  
 (4) an interview with him where he provided a statement and I  
 (5) discussed with him the situation At that time he didn't feel  
 (6) like he was the driver who brought the - the particular  
 (7) individuals back He did say that he brought people back  
 (8) that  
 (9) night the time frame wasn't exactly the same as what we  
 (10) had  
 (11) but he didn't think that it was those particular individuals  
 (12) Q And did you - did you check in to determine whether to  
 (13) your own satisfaction you had correctly described identified  
 (14) French as the cab driver who brought -  
 (15) A Yes  
 (16) Q - those three people?  
 (17) A Yes  
 (18) Q What was your conclusion?  
 (19) A That he was the cab driver who brought in those  
 (20) individuals  
 (21) MR LYNCH I have no further questions Your Honor  
 (22) THE COURT You may cross examination  
 (23) MR O NEILL Keep that in your hand  
 (24) THE WITNESS Thank you  
 (25) CROSS EXAMINATION OF MICHAEL CRAIG  
 (26) BY MR O NEILL  
 (27) Q Sir my name is Brian O Neill We met yesterday for about

Vol 18 2831

Vol 18 2833

- (1) ten minutes  
 (2) A Yes we did  
 (3) Q And I even told you what questions I was going to ask you  
 (4) didn't I?  
 (5) A Yes  
 (6) Q Now I am curious I had understood that you had met  
 (7) briefly with the - the Exxon Defendants at some point in time  
 (8) is that a correct statement?  
 (9) A Yes  
 (10) Q Where did you learn how to use the trial link pen that you  
 (11) have in your hand?  
 (12) A Have I - I don't know if I've used it Just previous to  
 (13) arriving here said I might have to point out you know  
 (14) something with it but I don't know  
 (15) Q And you knew how to click twice on the left hand side to  
 (16) bring up the color?  
 (17) A They said something would come up on the side but I  
 (18) haven't been able to figure it out  
 (19) Q You were ready you had the pen in your hand and you knew  
 (20) where the bar codes were on the left hand side and I didn't go  
 (21) into that with you did I?  
 (22) A (Shakes head from side to side )  
 (23) Q You're an Alyeska security guard that's a correct  
 (24) statement isn't it?  
 (25) A I'm a security officer with American Guard and Alert for

- (1) did you?  
 (2) A That's correct  
 (3) Q And if they were unsteady on their feet or their speech  
 (4) were slurred you didn't log that in either did you?  
 (5) A Correct  
 (6) Q Now we talked for a minute that it took two or three  
 (7) minutes this procedure and you don't know who was who  
 (8) which  
 (9) one was Hazelwood which one was Glowacki which one was  
 (10) Roberson just don't know?  
 (11) A Correct  
 (12) Q And one of them went - came in and went immediately to the  
 (13) bathroom?  
 (14) A Yes  
 (15) Q And would it be fair to say at that point in time in March  
 (16) of 1989 when people came in you didn't screen them  
 (17) purposefully as to whether they'd been drinking or not did  
 (18) you?  
 (19) A I'm not sure I understand the question  
 (20) Q Now when somebody goes through you testified that you  
 (21) have these breathalyzers and stuff?  
 (22) A Yes  
 (23) Q And now in 1994 when somebody goes through the terminal  
 (24) you do purposefully check them in and out to see whether  
 (25) they'd  
 (26) been drinking?  
 (27) A Yes

Vol 18 2832

Vol 18 2834

- (1) Alyeska yes  
 (2) Q Who works for Alyeska And Alyeska is a consortium of oil  
 (3) companies and 20 percent of Alyeska is owned by Exxon  
 (4) Pipeline  
 (5) Corporation which is a wholly owned subsidiary of Exxon  
 (6) Corporation that's a correct statement isn't it?  
 (7) A I'm not sure what the percentage breakdown is but I do  
 (8) know that they are one of the owner companies  
 (9) Q You have given a variety of interviews and have been  
 (10) deposed and have testified and I don't recall the subject of  
 (11) the two pizzas coming up in any of your prior testimony do  
 (12) you?  
 (13) A Yes  
 (14) Q It does?  
 (15) A Yes  
 (16) Q Your testimony about this cab going through was a little  
 (17) over 30 minutes In point of fact they were there for two or  
 (18) three minutes isn't that right?  
 (19) A It was a short period of time  
 (20) Q Very brief short period of time And your testimony about  
 (21) it was ten times longer than they were there isn't that a  
 (22) correct statement?  
 (23) A Yes it is  
 (24) Q And with regard to the log the Alyeska log if someone  
 (25) came back in March of 1989 and had a few drinks and you  
 (26) noticed  
 (27) that they had alcohol on their breath you didn't log it in

- (1) Q And that procedure is new since the grounding isn't it?  
 (2) A Yes  
 (3) Q And at the time of the grounding you didn't do that  
 (4) purposefully did you?  
 (5) A We didn't do the actual testing no  
 (6) Q And you didn't regularly and programmatically screen them  
 (7) for whether they'd been drinking or not did you?  
 (8) A Not just for drinking no  
 (9) Q And indeed on the night shift when people came through  
 (10) the night shift they'd come back after drinking and that was a  
 (11) very very common occurrence wasn't it?  
 (12) A Yes  
 (13) Q And they'd go through the gate?  
 (14) A Yes  
 (15) Q And many of these people who had been drinking made it  
 (16) down  
 (17) the long causeway and made it up the gantry over to their  
 (18) vessels like sailors have done for years isn't that right?  
 (19) A Yes it is  
 (20) Q And would it be fair to say sir you talked about your  
 (21) perceptive abilities and recognizing somebody who had been  
 (22) drinking and you have a little more training than most in  
 (23) that don't you?  
 (24) A Little more yes  
 (25) Q And it's harder to tell if someone's - the Coast Guard  
 (26) limit is .04 isn't it?

Vol 18 2835

Vol 18 2837

- (1) A Yes it is  
 (2) Q So if somebody's above the Coast Guard limit but below the  
 (3) 10 drinking limit it's hard to tell isn't it?  
 (4) A Yes it is  
 (5) Q And indeed people have gone through - prior to 1989  
 (6) people have gone through the Alyaska security terminal who  
 had  
 (7) been drinking and nobody smelled alcohol on their breath did  
 (8) they?  
 (9) A Yes  
 (10) Q And I want to go to your specific experience Let's  
 (11) assume if we could that someone who had developed - let's  
 (12) assume an alcoholic who had been drinking that afternoon  
 came  
 (13) through your terminal Would you agree with the proposition  
 (14) that you're an alcoholic then you're going to react at the  
 (15) point - at that point way different than I would I might be  
 (16) drunk I might be I might not be able to carry myself but you  
 (17) very well could and then you'd have to go you know the next  
 (18) step farther with the next amount of drinks maybe an equal  
 (19) amount farther and so although you have the same level of  
 (20) impairment you're used to it your body's used to it you know  
 (21) how to - to - like instead of falling off balance you know  
 (22) how to alter yourself how to change so that you actually are  
 (23) walking straight or talking right or that sort of thing  
 (24) whereas I wouldn't be able to even with the same amount of  
 (25) drinks Would you agree with that statement?

- (1) bunch more questions but I'll just tie it up  
 (2) With regard to whether these men were impaired or not  
 (3) without knowing them you don't know do you?  
 (4) A They did not appear to be impaired  
 (5) Q My question was without knowing them and their past and  
 (6) their habits you don't know whether they were impaired or not  
 (7) do you?  
 (8) A Okay Right  
 (9) MR O NEILL Thank you  
 (10) MR LYNCH Couple more questions Your Honor  
 (11) REDIRECT EXAMINATION OF MICHAEL CRAIG  
 (12) BY MR LYNCH  
 (13) Q Mr O Neill mentioned that you'd had training is that  
 (14) correct?  
 (15) A Yes  
 (16) Q There was a time when you worked in an alcohol  
 (17) rehabilitation center is that correct sir?  
 (18) A Yes I did  
 (19) Q And part of your time there you took a course on  
 (20) identifying and dealing with alcohol problems is that correct  
 (21) sir?  
 (22) A Yes  
 (23) Q Was part of that course - did that involve being able to  
 (24) spot the signs of alcohol consumption in people who otherwise  
 (25) might be trying to mask it?

Vol 18 2836

Vol 18 2838

- (1) A Yes  
 (2) Q Would it be fair to say and you talked about with  
 (3) Mr Lynch's question the fact that you do it different now than  
 (4) you did before?  
 (5) A Yes  
 (6) Q Would it be fair to say that you do it right now and you  
 (7) didn't do it right before?  
 (8) A Both ways were right for the time  
 (9) Q At the time in 1989 March of 1989 you weren't screening  
 (10) for alcohol were you?  
 (11) A We were screening for alcohol intoxication so  
 drunkenness  
 (12) so not just the drinking portion  
 (13) Q And sailors as they have for years come through the  
 (14) terminal after drinking some you smelled some you didn't  
 (15) that's a correct statement?  
 (16) A Yes  
 (17) Q And in light of your experience depending upon their  
 (18) drinking habits their constitution whether they're an  
 (19) alcoholic or not whether they were impaired some you could  
 (20) tell some you couldn't?  
 (21) A I don't have any idea whether they were alcoholics or  
 (22) whatever  
 (23) Q You don't know?  
 (24) A Yeah I don't know  
 (25) Q You don't know - let me just tie this up There's a

- (1) A Yes there was some involvement there  
 (2) Q Now you mentioned that today and Mr O Neill brought out  
 (3) that today you do testing is that correct?  
 (4) A Yes  
 (5) Q And you have observed signs of alcohol consumption that  
 (6) only slightly affect people's demeanor isn't that correct?  
 (7) A Yes  
 (8) Q He asked you for example if it was harder to find someone  
 (9) whose blood alcohol level was .04 than it is to find someone  
 (10) whose alcohol consumption is .10 correct?  
 (11) A Correct  
 (12) Q And you've observed people where you've seen the signs of  
 (13) impairment - rather you've seen the signs of consumption that  
 (14) were sufficient to tip you that maybe you ought to test them  
 (15) for being .04 correct?  
 (16) A That's correct  
 (17) Q And you test if you have the slightest suspicion that  
 (18) someone might be under that low low standard is that correct?  
 (19) A That's correct  
 (20) Q And some of the people that you've submitted for testing  
 (21) have in fact proved to have a blood alcohol level as zero  
 (22) four correct?  
 (23) A Yes  
 (24) Q And even lower?  
 (25) A And even lower

Vol 18 2839

Vol 18 2841

- (1) Q And in this situation you didn't see signs to cause you to  
 (2) test even if you were using the zero four standard is that  
 (3) correct?  
 (4) A That is true  
 (5) Q Now let's assume for purposes of this discussion even if  
 (6) the person had blood alcohol level of .10 based on your  
 (7) training and experience do you believe you would have  
 (8) observed  
 (9) signs of blood alcohol level of .10 in any of these  
 (10) individuals?  
 (11) A Yes I do  
 (12) Q What if the alcohol level of one or more of them were .20  
 (13) do you believe it's possible that someone with a .20 could have  
 (14) walked through that checkpoint and you not observe it?  
 (15) A It would be very unlikely  
 (16) Q And did you see anything - you didn't know who Captain  
 (17) Hazelwood was did you?  
 (18) A I did not  
 (19) Q And you didn't know Mr. Glowacki or Mr. Roberson or what  
 (20) was the - Mr. McGregor?  
 (21) A Yes  
 (22) Q Did you see any reason to differentiate between them?  
 (23) A No I did not  
 (24) Q You didn't have any reason to think that all of them were  
 (25) alcoholics did you?  
 (26) A No I did not

- (1) A ABS yes  
 (2) Q What's the function - this has been mentioned before here  
 (3) by a Mr. Rick Van Hammen What's the function of the  
 (4) American  
 (5) Bureau of Shipping? He described it as kind of the FAA of the  
 (6) maritime industry How would you describe it?  
 (7) A Our role is to set design standards and construction  
 (8) standards for merchant vessels of all types worldwide  
 (9) We're  
 (10) one of about four organizations worldwide recognized to set  
 (11) standards for the design and construction of vessels  
 (12) marine  
 (13) vessels  
 (14) Q All right sir  
 (15) A And also for the main lands  
 (16) Q We're not going to spend anymore time with the American  
 (17) Bureau of Shipping but we are going to a time when you were  
 (18) employed by Exxon But before that could you tell - describe  
 (19) for the Ladies and Gentlemen of the Jury your education  
 (20) background educational backgrounds?  
 (21) A Yes I graduated from the U S Coast Guard Academy in  
 (22) 1959 I sailed aboard Coast Guard vessels for about four  
 (23) years  
 (24) Q Wait a minute When you graduated from the United States  
 (25) Coast Guard Academy - where is that located?  
 (26) A Connecticut New London Connecticut  
 (27) Q New London Connecticut And did you come out of there  
 (28) with a degree or a license or how did you emerge from that

Vol 18 2840

Vol 18 2842

- (1) MR LYNCH Thank you sir  
 (2) THE COURT You may step down sir Thank you  
 (3) Call your next witness - we're through with you aren't  
 (4) we?  
 (5) MR O NEILL They're all my witnesses  
 (6) MR NEAL May it please the Court  
 (7) THE COURT Mr Neal  
 (8) MR NEAL Call Mr. Frank Iarossi  
 (9) THE CLERK Would you raise your right hand sir  
 (10) (The Witness Is Sworn)  
 (11) THE CLERK For the record sir state your full name  
 (12) give us your address and spell your last name please  
 (13) THE WITNESS My name is Frank James Iarossi I'll  
 (14) spell it I A R O S S I I live at 501 San Felipe in Houston  
 (15) Texas  
 (16) THE CLERK Thank you sir  
 (17) DIRECT EXAMINATION OF FRANK IAROSSO (Live)  
 (18) BY MR NEAL  
 (19) Q You're the same Frank Iarossi who's appeared on this silver  
 (20) screen in front of this jury is that correct?  
 (21) A I believe so  
 (22) Q Mr. Iarossi where are you employed now?  
 (23) A I am the chairman and chief executive officer of the  
 (24) American Bureau of Shipping  
 (25) Q Sometimes abbreviated to ABS?

- (1) institution other than tired?  
 (2) A I had an ensign commission I was commissioned as an  
 (3) ensign in the U S Coast Guard I had a bachelor of science  
 (4) degree in engineering I also was a - I was qualified for  
 (5) both deck operation and engineering operation I was - I  
 (6) was  
 (7) what's called a double ender We came out both qualified  
 (8) to  
 (9) handle deck and engine operation of vessels  
 (10) Q Now I came out of Officers Candidate School in the Marine  
 (11) Corps as second lieutenant Is an ensign the same thing?  
 (12) A Yes same thing  
 (13) Q For those who may have been in the Army or Air Force?  
 (14) A Yes same grade  
 (15) Q After you got out of there where did you work?  
 (16) A I had positions afloat on three different vessels over a  
 (17) course of about four years First year as a deck officer  
 (18) deck  
 (19) watch officer the last three years as an engineering watch  
 (20) officer up to equivalent of a first assistant engineer in a  
 (21) merchant type of connotation  
 (22) Q And this was for the United States Coast Guard?  
 (23) A Yes Sailing aboard Coast Guard vessels  
 (24) Q All right sir So you were with the Coast Guard for about  
 (25) nine years?  
 (26) A Yeah, the - after the four years afloat the Coast Guard  
 (27) assigned me to the University of Michigan for two years  
 (28) where  
 (29) I received a master's degree in naval architecture and in

Vol 18 2843

(1) mechanical engineering during that four year period -  
 during  
 (2) that two year period  
 (3) Following the University of Michigan, I was assigned by the  
 (4) Coast Guard to marine technical work for four years  
 primarily  
 (5) federal regulation activity associated with the design and  
 (6) construction of U S merchant vessels I did that for four  
 (7) years  
 (8) Sometime during the course of the last year I enrolled in  
 (9) an evening program at New York University and I continued  
 that  
 (10) evening program for about five years and graduated in 1971  
 with  
 (11) a master's degree in international business  
 (12) In 19 - the end of 1968 which was after about almost ten  
 (13) years on active duty, I resigned my commission And a  
 short  
 (14) time after that I took a position with ESSO International  
 (15) which was an affiliate of Exxon and I was a marine research  
 (16) engineer  
 (17) Q Before we go into that you went into the Coast Guard as an  
 (18) ensign equivalent of a second lieutenant What was your rank  
 (19) when you ten years later or almost ten years later when you  
 (20) resigned from the Coast Guard?  
 (1) A Lieutenant commander which is equivalent in your  
 marine  
 (1) life to a major  
 (2) Q Well I'm not sure it's equivalent but the rank is  
 (3) equivalent  
 (4) All right You became employed by Exxon then in 1968

Vol 18 2844

(1) Very briefly because I want to go through this describe your  
 (2) job experiences with Exxon?  
 (3) A Well I - I was hired -  
 (4) Q Or ESSO International same thing?  
 (5) A I was hired by ESSO International in marine research and  
 to  
 (6) study the safety aspects of transporting liquefied natural  
 (7) gas At that time the company had a big program to  
 develop  
 (8) and build what was known as LNG tankers and they were  
 concerned  
 (9) about the safety of the design of the vessel and they wanted  
 an  
 (10) outside look so I was hired My first project was - was the  
 (11) safety aspects of LNG transportation That lasted about -  
 (12) that particular project lasted about two years and I don't  
 (13) know if you want me to go through -  
 (14) Q Just quick  
 (15) A Okay I - I then moved into a commercial position a  
 (16) little bit later 1971 I was moved to Japan where I headed  
 up  
 (17) a team of about 44 engineers where we reviewed the design  
 and  
 (18) then the construction of a number of large tankers for  
 Exxon  
 (19) I came back to New York in '76 I was in a marketing  
 (20) position and then in a corporate staff position in New York  
 (1) with responsibility for reviewing the overall operational  
 (2) safety of Exxon's fleets worldwide  
 (3) 1979 I was assigned to what was then the Exxon - or Exxon  
 (24) U S A marine department and I was in charge of planning  
 and  
 (1) engineering had a one year assignment assistant manager  
 of

Vol 18 2845

Vol 18 2847

(1) the corporate planning department for Exxon Then in 1982  
I  
(2) became the president of Exxon Shipping Company -  
actually I  
(3) became the general manager of the marine department and  
a few  
(4) months later I became the president of Exxon Shipping  
Company  
(5) Q In 1982 then to get down to it you became president of  
(6) Exxon Shipping Company?  
(7) A Yes sir  
(8) Q And Exxon Shipping Company is the company that owned  
the  
(9) Exxon Valdez as of March 23 1989?  
(10) A That's correct  
(11) Q When did you leave the Exxon companies?  
(12) A I believe it was April 2nd of 1990  
(13) Q And became chairman of the board of ABS?  
(14) A Yes At that time I was chairman president and chief  
(15) executive officer  
(16) Q When you became - and let's expand now We've been  
(17) talking taking little bits of what Exxon Shipping Company was  
(18) or little stories here or there When you became president of  
(19) Exxon Shipping Company what was the mission of Exxon  
Shipping  
(20) Company?  
(21) A It was our role to transport crude oil and refined  
(22) products primarily for Exxon but we also handled some  
smaller  
(23) magnitudes of product for other companies I'd say 95  
percent  
(24) of our job was associated with moving Exxon oil and  
products  
(25) Q When you say oil and products you would transport the

Vol 18 2846

(1) crude oil to a refinery in some of your vessels?  
(2) A Yes  
(3) Q And some of your vessels would come out the other end  
take  
(4) the product from the other end of that refinery gasoline jet  
(5) fuel et cetera and transport those products to some other  
(6) location?  
(7) A Yes Both refined petroleum products and also chemical  
(8) products  
(9) Q And chemicals All right sir How was the company over  
(10) the years you were there Exxon Shipping Company  
organized?  
(11) A Your headquarters unit was in Houston We had four  
field  
(12) offices New York Baton Rouge Baytown Texas and San  
(13) Francisco In each of those field offices we had the people  
(14) that primarily interfaced with the ships Houston was  
(15) primarily corporate function and a lot of our time was spent  
(16) interfacing with our client our customer Exxon Company  
U S A  
(17) The operations were really controlled out of those four  
(18) field offices  
(19) Q And were they different - did you have different fleets?  
(20) A Yes We - we actually divided the operation into a - a  
(21) gulf coast fleet which we managed out of - primarily out of  
(22) Baytown Texas a west coast fleet which we managed  
primarily  
(23) out of San Francisco and we also had an inland fleet which  
was  
(24) managed both out of New York and Baton Rouge Louisiana  
(25) Q And an inland fleet that means a fleet of tugs tugboats

(1) and barges that operate on the inland waterways the  
(2) Mississippi the Ohio and so forth?  
(3) A That's correct That's right  
(4) Q We'll leave that one alone When you said that the west  
(5) coast fleet was operated out of San Francisco the name of  
(6) Benicia has been mentioned here  
(7) A Yes the - Exxon has a large refinery in Benicia and  
(8) that's where our vessels dock to discharge their crude oil to  
(9) the refinery Benicia California And our office the Exxon  
(10) Shipping Company office also was in Benicia  
(11) Q And the headquarters of the shoreside people of the west  
(12) coast fleet be at Benicia?  
(13) A Yes  
(14) Q Now you said the gulf coast fleet was at Baytown?  
(15) A Yes Baytown Texas  
(16) Q Where - tell me something I would recognize that Baytown  
(17) is close to  
(18) A Well it's partway between Houston and Galveston I  
don't  
(19) know if that helps  
(20) Q Well not a lot But down there near Galveston?  
(21) A It's close to the San Jacinto Monument  
(22) Q Not much help but I have read the book What was the size  
(23) of the total fleet now? Leaving out the inland barges and  
(24) tugs but the total of the west coast fleet and the gulf coast  
(25) fleet when you became president?

Vol 18 2848

(1) A I think we had - I don't recall exactly when I became  
(2) president but shortly thereafter we had 20 ocean tankers  
that  
(3) we were operating and we also had 43 chartered vessels  
that  
(4) were under our control but we were not operating those  
with  
(5) our people  
(6) Q So you had 20 vessels you owned and operated and then  
you  
(7) chartered some vessels from other companies?  
(8) A Yes sir  
(9) Q Now when you - how many people were employed when  
you  
(10) first joined Exxon Shipping Company?  
(11) A In both the inland and ocean fleet together was about  
1500  
(12) people I think about 1200 were in the ocean fleet  
(13) Q And when you - when you resigned I guess retired would be  
(14) a good word you'd been there 20 some years hadn't you?  
(15) A Yes but I resigned I did not retire I had to be 55 to  
(16) retire and I was 52 when I left  
(17) Q Good for you When you resigned from Exxon Shipping  
(18) Company what was the size of the - leaving aside the inland  
(19) barges what was the size of the Exxon Shipping Company  
fleet?  
(20) A I believe we still had 20 vessels at that time  
(21) Q And how many people did you employ?  
(22) A I believe it was still around 1200 in the ocean fleet  
(23) Q Okay Mr. Jarossi when you joined Exxon Shipping  
Company  
(24) was there a first principal under which you sought to operate  
(25) the company and the transportation services provided by the

Vol 18 2849

- (1) company?
- (2) A Yeah our - our mission was to move Exxon's product in
- (3) absolutely the safest manner we could so our first objective
- (4) was safe operations
- (5) Q What Mr. Larossi did you do to make sure the company
- (6) operated under that first principal of safety?
- (7) Could I have the - I'd like to show - maybe I'll show it
- (8) before I show -
- (9) MR NEAL There's no objection to this so I'll offer
- (10) Defendants 9131 into evidence Your Honor
- (11) (Exhibit 9131 offered)
- (12) MR O NEILL No objection Your Honor
- (13) THE COURT Defendants 9131 is accepted
- (14) (Exhibit 9131 received)
- (15) MR NEAL While I'm here I also offer Defendants
- (16) Exhibit 3679 and then Plaintiffs Exhibits 798 and 797
- (17) (Exhibits 3679 798 and 797 offered)
- (18) MR O NEILL No objection Judge
- (19) THE COURT Defendants 3679 is admitted Plaintiffs
- (20) 798 and 797 - did I get those right?
- (21) MR SANDERS That's correct
- (22) THE COURT - are admitted
- (23) (Exhibits 3679 798 and 797 received)
- (24) BY MR NEAL
- (25) Q Mr. Larossi you said you tried to operate the vessel under

Vol 18 2850

- (1) safety Does safety make good sense just in a business aspect?
- (2) A Oh, absolutely I think most businesses recognize that a
- (3) safe operation makes a lot of sense from a business
- (4) standpoint The costs of handling problems are very very
- (5) high, so if you were to look at - at operations of any
- (6) business strictly from a cost standpoint you'd come out
- (7) with
- (8) the same answer and that is a safe operation is -
- (9) Q You can't -
- (10) A - is a successful operation
- (11) Q You can't have an efficient practice without having a safe
- (12) operation is that what you're saying?
- (13) A You can't have an efficient operation you also can't have
- (14) a successful operation
- (15) Q What steps did you take to operate the company under this
- (16) principal first principal of safety? And let's go over them
- (17) and then we'll go back and talk about each one
- (18) A Okay The first concept was that we needed to have a
- (19) commitment throughout the organization that safety was its
- (20) number one objective and we needed to have agreement
- (21) that that
- (22) throughout the organization that that commitment was its
- (23) number
- (24) one We needed to have both variable programs and
- (25) awareness
- (1) programs that keyed always in the employee's mind that
- (2) this was
- (3) our objective and to do that we needed to really be dealing
- (4) with permanent employees and that may seem rather
- (5) obvious but
- (6) in the marine industry a lot of times companies deal - do
- (7) not

Vol 18 2851

- (1) deal with permanent employees Within Exxon Shipping
- (2) Company
- (3) all of our seagoing employees were permanent employees
- (4) They
- (5) had the same rights and benefits that any Exxon employee
- (6) had
- (7) Q All right
- (8) A Also, we had to - to deal with in my view it was very
- (9) important to deal not only with permanent employees, but to
- (10) make sure that the crews on our vessels served
- (11) continuously
- (12) In other words we had a continuity within the crew as
- (13) contrast to some companies where every time a seaman
- (14) comes off
- (15) leave he would go to a different ship
- (16) What we were trying to do in Exxon Shipping Company was
- (17) always return the officers and crew members back to the
- (18) same
- (19) ship because we felt that was very important to the safe
- (20) operation of the ship, particularly if anything was to go
- (21) wrong, because in a response situation when there's a lot
- (22) of
- (23) pressure it's very important to know what other people in
- (24) the
- (25) team are doing and how they're responding, and that you
- (1) can
- (2) only get by familiarization by training as a team and by
- (3) having that experience and confidence
- (4) So not only was it permanent employees, but it also was
- (5) continuity of crew members
- (6) Q I was going to come back to this but since we've gone in
- (7) a little bit of depth on permanent employees and continuity of
- (8) crew I take continuity of crew means if you're going to assign
- (9) two masters to the Valdez -

Vol 18 2852

- (1) A Yes
- (2) Q - so that they alternate with each other 60 days on 60
- (3) days off they will stay on the Valdez and not - for a long
- (4) period of time and not go to some other vessel?
- (5) A When they finish - for instance when they would finish
- (6) their 60 days on board they would go on vacation 60 days
- (7) When they would come back from vacation they would go
- (8) back to
- (9) the same ship
- (10) Q Would that be true of the other officers the first second
- (11) and third mate?
- (12) A The chief mate chief engineer, first assistant engineer
- (13) second mate, we had a high degree of continuity When we
- (14) get
- (15) down to third mates and third engineers I'd say we were not
- (16) as
- (17) fully utilizing continuity Maybe 50 60 percent of the time
- (18) you'd go back to the same ship whereas the higher officers
- (19) almost a hundred percent
- (20) Q But you could do it with the higher officers and the
- (21) masters?
- (22) A Yes
- (23) Q Now you talked about permanent employees Mr. Larossi
- (24) During your period of time and up to the grounding where did
- (25) most maritime companies get their employees shipping
- (1) companies?
- (2) A Most of the shipping companies drew their employees
- (3) from
- (4) unions from the maritime unions out of - assigned out of

Vol 18 2853

(1) **union halls or through some agreement**  
 (2) Q Let's take Mr. Kunkel who testified here and your  
 (3) captains such as Captain Stalzer or Captain Hazelwood they  
 (4) were full time employees paid an annual salary is that  
 (5) correct?  
 (6) A Yes They were hired most of them right out of the  
 (7) merchant marine academies and then came up the ranks  
 (8) within  
 (9) **Exxon**  
 (10) Q Let's take these companies that you said where most of the  
 (11) shipping companies who used the national union How did -  
 (12) how  
 (13) would they get a first mate or a second mate or a third mate  
 (14) for example?  
 (15) A They would usually call the union and say they needed a  
 (16) first mate on such and such a ship leaving such and such a  
 (17) day  
 (18) Q In other words if one of these type of companies had a  
 (19) trip to go from Long Beach to Valdez they would go out and  
 (20) call and get a first mate to come from the hiring hall and get  
 (21) on the vessel?  
 (22) A Yes Maybe for one trip or maybe for a period of time  
 (23) whatever he was assigned  
 (24) Q Would the master - would the master for example  
 (25) necessarily know about the qualifications or training of these  
 (26) officers?  
 (27) A Well he would know what their Coast Guard license was  
 (28) or

Vol 18 2854

(1) what their rating was  
 (2) Q In other words he would know they were licensed as a third  
 (3) mate?  
 (4) A Yes sir  
 (5) Q Or licensed as a second mate?  
 (6) A Yes  
 (7) Q But he wouldn't know any more than that necessarily?  
 (8) A Unless he knew the individual personally I don't know  
 (9) whatever information he would have  
 (10) Q How about able bodied seamen who would go on the ship  
 (11) and  
 (12) act as helmsmen would they also be taken from a hiring hall  
 (13) for say one trip or two trips and that sort of thing?  
 (14) A In the case of Exxon Shipping Company no  
 (15) Q No no the other companies?  
 (16) A Other companies I would say for the most part by and  
 (17) large they also drew from union union halls union ranks  
 (18) Q So in the case of an A B able bodied seaman who was going  
 (19) to be a helmsman what would the master know about that A B  
 (20) when he came out from the hiring hall?  
 (21) A He would know he had an able bodied seaman in his  
 (22) papers  
 (23) from the Coast Guard  
 (24) Q Certificate?  
 (25) A Certificate  
 (26) Q And the Coast Guard would say they were an able bodied  
 (27) seaman and that's all they'd know unless he knew the man?

Vol 18 2855

(1) A My understanding is he would know he's an A B certified  
 (2) by  
 (3) the Coast Guard  
 (4) Q We've gone through agreement on the goal of safety  
 (5) permanent employees continuity and motivation What's  
 (6) well trained employees? Talk about that  
 (7) A Well we knew to have a truly safe operation we had to  
 (8) provide proper training and that was our obligation to  
 (9) provide  
 (10) training to our employees so they could do the job safely  
 (11) and -  
 (12) it meant we needed to have a very wide range of training  
 (13) programs  
 (14) Q Let me go back up there to agreement on safe operations  
 (15) and  
 (16) ask to show you Defendants Exhibit Number 1 - number 70 -  
 (17) 170 I believe Yes Defendants Exhibit 170  
 (18) MR NEAL May I approach Your Honor?  
 (19) THE COURT Yes  
 (20) BY MR NEAL  
 (21) Q And ask if you recognize that?  
 (22) A Yes This is the safety credo of Exxon Shipping  
 (23) Company  
 (24) Q Was that something that was your idea?  
 (25) A The idea to create a safety credo was partly mine and  
 (26) partly other managers in the shipping company The words  
 (27) of  
 (28) the credo itself were developed through a -  
 (29) Q Excuse me just a moment I'll put this up so you can see  
 (30) that  
 (31) A The actual words of the credo were developed by a group  
 (32) of

Vol 18 2856

(1) employees both fleet operating employees and shoreside  
 (2) employees They got together and established the wording  
 (3) of  
 (4) the credo and it was a fairly large group and I think they  
 (5) also sent out drafts of the credo fleet wide and asked for  
 (6) suggestions from - from anybody in the company and what  
 (7) came  
 (8) out was -  
 (9) Q Can't come up? Okay Well just hold that up there while  
 (10) you talk there Mr. Larossi  
 (11) A This happens to be the words printed on a steel plate and  
 (12) put on a board and it was the type of thing that hung in all  
 (13) of our offices and all of our ships to remind people There  
 (14) were different versions of this they were printed on posters  
 (15) and -  
 (16) Q What does that - what does that say Mr. Larossi?  
 (17) A It starts out safety credo It says we the management  
 (18) and employees of Exxon Shipping Company believe that  
 (19) while  
 (20) risks exist and then there's a list of six pointed items The  
 (21) first one says accidents and injuries are preventable each  
 (22) of  
 (23) us has a personal responsibility for our safety and the  
 (24) safety  
 (25) of others both on and off the job No business objective is  
 (26) so important that it will be pursued at the sacrifice of  
 (27) safety safe conduct of operations is a condition of  
 (28) employment  
 (29) at Exxon Shipping Company  
 (30) Q What was meant by that is that if you don't carry out your  
 (31) activities safely it was a potential for termination The

Vol 18 2857

- (1) words - I'm trying to explain to you the words say safe  
 (2) conduct of operations is a condition of employment at  
 Exxon  
 (3) Shipping Company The fifth item says a job is well done  
 only  
 (4) if it is done safely And the last one says Exxon Shipping  
 (5) Company should have the best safety performance in the  
 (6) industries in which we do business  
 (7) Q And that was the safety credo that you and others developed  
 (8) when you became president of Exxon Shipping Company?  
 (9) A Yes I - I took part in the idea of creating the safety,  
 (10) credo I did not take part in the words that were actually  
 (11) developed  
 (12) Q What did you do with that?  
 (13) A We gave it very great publicity within the company We  
 (14) made sure that everyone in the company was aware of their  
 (15) safety credo We had plaques made up like this which were  
 (16) posted on all vessels, in all offices We had very big posters  
 (17) made up about it and we actually went over it in safety  
 (18) conferences and shipboard conferences went over the  
 words  
 (19) what they meant how that - how these words pertained to  
 (20) individual activities that different employees carried out  
 and  
 (21) we basically tried to get everybody to understand not only  
 what  
 (22) the credo was but what it meant to them and how they do  
 their  
 (23) jobs  
 (24) Q You mentioned that you would try to - one step you would  
 (25) take for safety was to motivate the employees to follow the

Vol 18 2858

- (1) safety credo or the goal of safety How did you motivate  
 (2) employees?  
 (3) A We had - we had a number of programs programs which  
 (4) recognized the vessels Each year we would recognize at  
 least  
 (5) two vessels one from the gulf coast fleet one from the west  
 (6) coast fleet which had the highest safety record for the year  
 (7) and we would send award plaques to the vessel We would  
 also  
 (8) have - as I recall there was also a cash contribution to the  
 (9) ship's morale fund The ships that received the award for  
 the  
 (10) year would get money to spend whether to buy new books  
 for  
 (11) their library or a new TV or something like that  
 (12) We would also send all of the - to all of the employees  
 (13) that sailed on that vessel for that year that particular year  
 (14) that the vessel received the safety award they would get  
 (15) bronze gold buckles with an inscription of the ship and the  
 (16) time and the safety award for the year  
 (17) We would also have different awards during the course of  
 (18) the year in which we would recognize superior safety for  
 (19) different circumstances and we would award baseball caps  
 with  
 (20) the names of the vessels and jackets with the safety awards  
 (21) embellished on them and we did a whole lot of things to try  
 (22) and keep awareness and attention focused on safety  
 (23) We also had a program to - to try to improve safety at  
 (24) home And once a quarter we would send to all the  
 employees'  
 (25) homes sometimes different gadgets I remember one time  
 we

Vol 18 2859

- (1) sent a fire extinguisher like type thing you should keep in  
 (2) your kitchen Along with it we sent the booklet that  
 described  
 (3) the risks of fire in kitchen and how to handle it And another  
 (4) time we sent a flashlight home and we described what to do  
 when  
 (5) power's out at home Another time we had a few injuries  
 from  
 (6) lawnmowers so we sent the little cartoon booklet home  
 (7) Q We're getting a little far now from the - from the  
 (8) supertankers  
 (9) A You get me started, you have to tell me when to stop  
 (10) Q Let me show you Defendants Exhibit 9118 I won't take a  
 (11) lot of time with this It's in evidence  
 (12) Is this an example of some of your internal awards that you  
 (13) would give to motivate people for safety?  
 (14) A Yes Each of those plaques represents an award  
 assigned or  
 (15) given to a vessel for one year, whether it was the gulf coast  
 (16) fleet or west coast fleet The plaques up on the top there,  
 (17) you see that little rectangular brass plaque, the buckles  
 (18) actually duplicated that award at the top Those were given  
 to  
 (19) each of the employees on the ship  
 (20) Q So the Exxon Valdez the record reflects got the fleet  
 (21) manager's award for 1987 and '88 the employees on that  
 vessel  
 (22) got one of these belt buckles -  
 (23) A Yes  
 (24) Q - as well  
 (25) A Yes

Vol 18 2860

- (1) Q Now Mr O'Neill brings this out I've looked through here  
 (2) and I've looked through here and I don't see the Exxon Valdez  
 (3) on this Why not?  
 (4) A I can only tell you I suspect that may have been taken off  
 (5) the ship with a whole lot of other items and evidence that  
 were  
 (6) taken off the ship  
 (7) Q There's no question however that the Exxon Valdez got the  
 (8) fleet manager's award for 1987 1988?  
 (9) A Yes As I remember it was - there were two vessels who  
 (10) received an award in 1987 in the west coast fleet the Valdez  
 (11) and one other vessel it was decided to recognize both And  
 (12) then in 1988 the Valdez won the award by itself in the west  
 (13) coast fleet  
 (14) Q Now Mr Larossi did you also in order to motivate the  
 (15) employees to the goal of safety did you include this as an  
 (16) item on the evaluation of employees' performances?  
 (17) A Yes safety awareness and safety consciousness is one  
 of  
 (18) the 20 or 25 items that each officer and shoreside employee  
 was  
 (19) graded on on roughly a two year frequency  
 (20) Q Let me see if I can raise this up  
 (21) A Yes Safety awareness  
 (22) Q Now these are in alphabetical order not necessarily order  
 (23) of importance but alphabetical order?  
 (24) A I believe so but I'd have to look at the whole chart again  
 (25) to tell you

Vol 18 2861

Vol 18 2863

(1) Q Well you've got K L M N O that looks like  
 (2) alphabetical order to me  
 (3) A Okay  
 (4) Q Was this - was this an element of evaluation for all the  
 (5) officers then and the crew?  
 (6) A Yes Of all the officers I'm not sure if the crew's form  
 (7) was different  
 (8) Q You also say - you can take that away  
 (9) You say you want a fleet wide clear set of operating  
 (10) instructions how did you attempt to do that?  
 (11) A Well we felt we had to establish safe operations and safe  
 (12) operating procedures for all of what we felt were the critical  
 (13) aspects of ship operation Probably the most important  
 (14) initiative we took was development of what we call the  
 (15) bridge  
 (16) organization and navigation manual which was very  
 (17) extensive  
 (18) undertaking, started back in 1977 as I recall went through  
 (19) a  
 (20) major revision in around 1983 or so but it was a manual  
 (21) which  
 (22) outlined the responsibilities and roles and approach and  
 (23) procedures that needed to be followed for the operation and  
 (24) navigation of our vessels  
 (25) Q And were the masters and officers required to follow the  
 (26) instructions in this manual?  
 (27) A Yes It was - it was put forward as the manner in which  
 (28) the company wanted its vessels operated Certain  
 (29) segments of  
 (30) it were guidance certain segments of it were requirements

Vol 18 2862

(1) Q Now was - did this bridge navigation manual was it  
 (2) required to be read and studied by every officer and was it  
 (3) required to be placed on every vessel?  
 (4) A Yeah there were two copies assigned to every vessel  
 (5) One  
 (6) was to be in the master's cabin and one was to be on the  
 (7) bridge The officers being assigned to the vessel there was  
 (8) a  
 (9) signed sheet in the front of the manual where they had to  
 (10) sign  
 (11) that they read it and understood it  
 (12) Q All right Let us - did this manual have this first  
 (13) principal safety in it?  
 (14) A Yes  
 (15) Q Could we have that 1 1 1 2?  
 (16) I'm going to show you the part of the manual that's already  
 (17) in evidence and ask if you recognize this  
 (18) Go ahead to the section first page Do you recognize  
 (19) that?  
 (20) A Yes  
 (21) Q Is that part of the manual you're talking about?  
 (22) A Yes absolutely  
 (23) Q And what does this say right here?  
 (24) A Purpose of the navigation bridge organization manual is  
 (25) to  
 (26) assist the master and deck officers in planning for safe  
 (27) operation of their vessel  
 (28) Q All right Now look down at the 1 2 Is this a part of  
 (29) the manual?

(1) A Yes sir  
 (2) Q Read that for us please?  
 (3) A Says the prime objective when navigating company  
 (4) vessels is  
 (5) the safety of personnel vessel and cargo Speed and  
 (6) economy  
 (7) while important are secondary to safe operations  
 (8) Q Mr Larossi as long as you were president of Exxon  
 (9) Shipping Company is this something that you personally  
 (10) insisted upon?  
 (11) A Absolutely Without exception  
 (12) Q Mr Larossi you had these - you had these steps to ensure  
 (13) safety including agreement on the goal motivation  
 (14) well trained employees By the way - let's go - we didn't  
 (15) talk about well trained employees was that step to ensure  
 (16) safety?  
 (17) A Yes We recognized it was the company's operation to  
 (18) provide the training necessary so that operating - fleet  
 (19) operating employees could carry out their functions safely  
 (20) and  
 (21) it started - there were many different facets to the  
 (22) training It started with basic skills training for A Bs We  
 (23) had a very extensive firefighting program where all the  
 (24) employees went through two or three days of actual  
 (25) firefighting  
 (26) exercises live fire exercises It went through deck watch  
 (27) officer courses we used simulator many of our courses  
 (28) were  
 (29) simulator based and our navigating officers were required  
 (30) to  
 (31) go through simulator training

Vol 18 2864

(1) We also for senior deck officers sent - sent the senior  
 (2) deck officers especially those slated to be masters to  
 (3) France  
 (4) for a two to three week program in Grenoble France which  
 (5) was  
 (6) a ship maneuvering and ship handling exercise in which  
 (7) they  
 (8) actually were on models of vessels the motions of the  
 (9) vessels  
 (10) duplicate the motions of actual maneuvering characteristics  
 (11) of  
 (12) actual vessels  
 (13) Q Mr Larossi could anyone regardless of whether they had a  
 (14) license as a master or not sail for Exxon Shipping Company  
 (15) without going to this ship handling school in Grenoble France  
 (16) for a week?  
 (17) A I - I don't know that there were any exceptions It was  
 (18) certainly our objective that every master go through the  
 (19) Grenoble training program I can't swear that at some time  
 (20) we  
 (21) might not have had one exception but we - we quickly  
 (22) trained  
 (23) up every one I think with reasonable certainty I could say  
 (24) that every one of our masters went through Grenoble  
 (25) Q All right Let's move to another subject now  
 (26) When you became president of Exxon Shipping Company did  
 (27) the company have an alcohol policy?  
 (28) A Yes, there was a - when I took over the company it was a  
 (29) part of Exxon Company U S A and Exxon Company U S A  
 (30) had an  
 (31) alcohol policy which was created in 1977 When we became  
 (32) Exxon  
 (33) Shipping Company in 1982 that policy was adopted from  
 (34) the

5) first day So we were following the same policy

Vol 18 2865

- (1) Q Did you have AN occasion to read and study that policy when  
(2) you became president?  
(3) A Yes  
(4) Q Would you describe for the Ladies and Gentlemen of the  
Jury  
(5) just the significant features of that policy as it existed when  
(6) you became president?  
(7) A The policy started with - the first premise was that  
(8) alcoholism was a treatable illness If the illness was not  
(9) controlled it could impair job performance that the best  
way  
(10) to - to cure the illness was through enrollment in one of the  
(11) many rehabilitation programs that the company would  
financially  
(12) support and pay for the rehabilitation programs that the  
best  
(13) way to get - and these are all tenets within this program the  
(14) best way to get people to enroll in the program was through  
(15) self identification, by the way, that was more important in  
the  
(16) shipping company than probably any other part of Exxon,  
because  
(17) we had little opportunity to really - on a management side  
to  
(18) really see the employees on their vessels so self  
(19) identification was a very important feature of it  
(20) In order to encourage self identification the same policy  
(21) ensured the individual employee of total confidentiality It  
(22) also ensured the individual that his job security - his or her  
(23) job security or future opportunities would not be in any way  
(24) reduced or affected by self identification and it also stated  
(25) that alcoholism itself was not a reason for termination

Vol 18 2866

- (1) although if that alcoholism led to a reduction in job  
(2) performance or an impairment in job performance that that  
was  
(3) a reason for termination  
(4) Q So it in effect said look if you've got a problem seek  
(5) help and we won't punish you is that correct?  
(6) A Yes sir  
(7) Q Now was that thought - did you think that was a good  
(8) policy when you became president?  
(9) A Yes  
(10) Q Why?  
(11) A Well because particularly in the shipping company we  
had  
(12) very very little activity as managers to observe the  
(13) performance of our people on vessels and therefore it was  
(14) important to the extent we had a problem that the only way  
we  
(15) were going to get at it was if we could encourage self  
(16) identification and we had to - to really get people to  
(17) understand the connection between impairment and job  
(18) performance and vessel safety so it really was associated  
in  
(19) some way to our whole safety effort  
(20) Q Did there come a time Mr. Larossi when you changed or  
(21) modified this policy for your company after 1982?  
(22) A Yes in 1985 I think it was April of '85 a couple things  
(23) were going on One we had started a - a search program of  
(24) our vessels and some of the results of this indicated that  
we  
(25) had on different occasions found marijuana on board So I

Vol 18 2867

- (1) became concerned that job impairment also could come as  
a  
(2) result of drug abuse and therefore we had to - to extend the  
(3) policy or to make the policy in the self identification and the  
(4) rehabilitation also available to employees who had a drug  
abuse  
(5) problem as opposed to an alcohol abuse problem  
(6) Also at the same time because we had started these  
(7) searches on the vessels in 1982, we were beginning to get  
(8) increasing resistance from our unlicensed union and a  
charge  
(9) that what we were doing was illegal So in this policy, in  
(10) this letter - it really wasn't a policy change but it was a  
(11) letter to all employees, I tried to get across the point that  
(12) they may in fact, be inconvenienced from time to time as a  
(13) result of these searches but I asked them to understand  
what  
(14) our objective was that it was very, very important to their  
(15) safety and to the safety of the vessel to the safety of the  
(16) environment that these searches be carried out and we do  
(17) everything we can to ensure that our vessels were alcohol  
free  
(18) and drug free That I wrote in a letter  
(19) Q So you added drugs and you reaffirmed your intent to  
(20) conduct searches of vessels?  
(21) A Yes and I tried to get the employees the seagoing  
(22) employees to understand the reason behind why we had to  
do it  
(23) Q What kind of searches did you mention?  
(24) A We beginning in 1982 -  
(25) Q Wait a minute In your letter did you - did you refer to

Vol 18 2868

- (1) certain type of searches?  
(2) A I think I may have called them random searches  
(3) Q Random searches?  
(4) A Yes  
(5) Q Now what do you mean by random searches?  
(6) A Random random search would come about periodically  
when  
(7) one of the two fleet managers either the gulf coast fleet  
(8) manager or the west coast fleet manager would select a  
vessel  
(9) for whatever reason we had a criteria that was used, we had  
(10) agreed that each fleet would two or three times a year  
randomly  
(11) select a vessel and that we would look at certain criteria  
(12) One of the criteria was whether or not the vessel was  
trading  
(13) in and out of Panama because Panama was reported to be a  
place  
(14) where drugs were easy to get so that was kind of part of the  
(15) targeting  
(16) Q Well would you -  
(17) A Well what happened was the - the fleet manager would  
(18) select a vessel and select a port time He would call me up  
(19) for permission to carry out the search and I would - I would  
(20) always grant that request and usually, the fleet manager  
and  
(21) myself were the only ones other than the agent team that  
knew  
(22) about the selection of the vessel  
(23) Q Is there something called a for cause search?  
(24) A Yes For cause is different to random and a for cause  
(25) search there is some very clear reason either a suspicion

(1) drugs were found or alcohol was found or some suspicion  
 either  
 (2) a tip off of a crew member but some reason to believe we  
 had a  
 (3) problem In that case they didn't have to call me That was  
 (4) automatic They had the - they had the names and numbers  
 and  
 (5) the ability to just call and search themselves  
 (6) Q And with respect to random searches you would just decide  
 (7) to do it because you were trying to enforce your policy there  
 (8) was no particular cause for doing it?  
 (9) A That's right  
 (10) Q All right Now when did you start these random searches?  
 (11) A As I recall it was either late '82 or early '83  
 (12) Q Okay Did you continue those up to the time of the  
 (13) grounding?  
 (14) A For - yes we did with the exception of a period th it  
 (15) maybe was close to about two years  
 (16) Q When was that? When did you have this period that you  
 (17) didn't conduct random searches when did you stop the first  
 (18) time conducting random searches?  
 (19) A As I recall it was late '86 or early '87  
 (20) Q Why did you stop?  
 (21) A The unions had continued to push the legal proceedings  
 that  
 (22) what we were doing was not legal and we kind of got tied up  
 in  
 (23) a couple arbitration cases and it was the opinion of the  
 Exxon  
 (24) law department that until the legal aspects of random  
 searches  
 (25) was defined in the courtroom or through legal proceedings  
 or

(1) through government regulations that we just needed to  
 back off  
 (2) and wait for a legal definition  
 (3) Q All right Did there come a time then when you  
 (4) recommenced these random searches that is before the  
 (5) grounding in this case?  
 (6) A Yes it was late '88  
 (7) Q And were these random searches continuing up to the time  
 of  
 (8) the grounding?  
 (9) A Yes  
 (10) Q Mr Jarossi now between the time of the April you said  
 (11) 85 letter and the time of the grounding was there a further  
 (12) modification of your alcohol policy?  
 (13) A Yes I believe that occurred in 1987  
 (14) Q What were the significant features of this policy?  
 (15) A As I recall the policy change - I'm a little vague on  
 (16) this As I recall the policy change at that time - could I  
 (17) take a look at that policy?  
 (18) Q Sure Let's have Defendants Exhibit 3614 We can either  
 (19) put it up or I can hand it -  
 (20) MR NEAL May I approach the witness Your Honor?  
 (21) THE COURT You got it  
 (22) BY MR NEAL  
 (23) Q I show you what is received in evidence as Defendants  
 (24) Exhibit 3614 and ask you to see if you recognize that  
 (25) A Yes This is a letter I wrote in 1980 - March 11th 1987

which distributed the revised policy on alcohol and drug  
 use  
 (1) This policy reiterated that it was not intended to infringe on  
 (2) employees privacy or off the job activities but it does  
 (3) establish specific standards for on the-job behavior It  
 (4) reemphasized the opportunities available to the employee  
 (5) for  
 (6) both drug and alcohol This - this was the first time that  
 (7) the policy officially the policy itself officially included  
 (8) drugs although my letter for the shipping company my  
 letter  
 (9) in 1985 also extend it but this was the first time the policy  
 (10) of the company included drugs  
 (11) We also initiated pre employment drug testing  
 (12) Q Let top right there Mr Jarossi  
 (13) A Yes  
 (14) Q At this point now you have a policy you promulgate the  
 (15) policy you have random testing?  
 (16) A Yes  
 (17) Q And now you have introduced pre employment drug testing?  
 (18) A Yes  
 (19) Q I mean you've had random searches right?  
 (20) A We had random searches that's right  
 (21) Q And you now introduced pre employment drug testing is  
 that  
 (22) correct  
 (23) A Yes This policy for the first time established that new  
 (24) employees coming into the shipping company would have  
 to go  
 (25) through a pre employment drug test We also established a

(1) training drug awareness program for all of our supervisors  
 all  
 (2) of our fleet officers and shoreside supervisors and we used  
 (3) policemen and consultants who specialized in drug  
 awareness  
 (4) training and our people learned to recognize the smell of  
 (5) marijuana the effects visual effects of drug impairment  
 (6) That was all in a training program they received  
 (7) Q I notice here it says expansion of the employee health  
 (8) advisory EHAP program What was the EHAP program?  
 (9) A Well Exxon itself did not run any rehab programs What  
 (10) was provided to the employee through - what was called the  
 (11) employee health advisory program was in fact advice from  
 the  
 (12) medical department as to where to go to find appropriate  
 (13) rehabilitation programs and then any other counseling the  
 (14) employee decided the medical department through what in  
 each  
 (15) company we called an FHAP counselor So for instance in  
 the  
 (16) shipping company we had one of the managers in this case  
 it  
 (17) was the employee relations manager was identified as the  
 FHAP  
 (18) counselor so any - any employee who felt that - that he had  
 (19) a problem either drug either alcohol or nervous disorder or  
 (20) stress and quite frankly, I think 85 percent of the  
 employees  
 (21) who came forward really were stress related in some way  
 that  
 (22) the employee could go to the EHAP counselor he could go  
 to the  
 (23) Exxon medical department or quite frankly he could seek  
 help

(24) **totally on his own without the knowledge of the company by**  
 (25) **enrolling into a rehab rehabilitation of his choice or her**  
 Vol 18 2873

- (1) **choice**  
 (2) **Q Mr Larossi did this program also reaffirm your right to**  
 (3) **continue random searches?**  
 (4) **A Yes In the program and in my letter of - of March 1987**  
 (5) **we reaffirmed that - that the company - that it was the**  
 (6) **company's right to conduct random searches of its**  
**property of**  
 (7) **its facilities**  
 (8) **Q Did it - did it - did this policy also affirm the right**  
 (9) **to test for drugs and alcohol?**  
 (10) **A Yes We for the first time said that for cause the**  
 (11) **company had the right to initiate testing of individuals**  
**where**  
 (12) **we felt there were cause to carry out that testing**  
 (13) **Q Now you've got a policy - now you've got in place the**  
 (14) **policy you've got random searches you've got**  
**pre employment**  
 (15) **drug testing and now you are saying you are affirming the**  
 (16) **right to test for drugs or alcohol in limited circumstances or**  
 (17) **when there's some cause How would that cause develop?**  
 (18) **A Well many of our - some of our vessels of company**  
 (19) **vessels would uncover a small quantity of marijuana or a**  
**half**  
 (20) **opened bottle of liquor in someplace other than a**  
**stateroom**  
 (21) **of an individual So we then had evidence that there was**  
**some**  
 (22) **abuse of alcohol or drugs on board but we had no way to**  
**find**  
 (23) **out who the individual was**  
 (24) **So at that point we decided that we had to add to our**  
 (25) **program for cause testing of employees primarily urine**

Vol 18 2874

- (1) **analysis**  
 (2) **Q Now did this policy and the guidelines attached to this**  
 (3) **policy have anything to say about how supervisors should**  
 (4) **monitor employees for alcohol or drug problems?**  
 (5) **A Yes We had - we had one the training programs I was**  
 (6) **talking about earlier but also in addition to that we had**  
 (7) **guidelines for supervisors and also fleet officers as to how**  
**to**  
 (8) **recognize signs of alcohol or drug abuse and when to do**  
**when**  
 (9) **there was suspicion of use**  
 (10) **Q Did this - what were they supposed to look for or look at**  
 (11) **in monitoring employees?**  
 (12) **A Well the key was job performance and how the individual**  
 (13) **performed his or her job**  
 (14) **Q All right Let's look to see what - go ahead**  
 (15) **A And was there - was there any sign in the way they**  
**carried**  
 (16) **out their duties that they were in fact impaired**  
 (17) **Q Read what I've just underlined there and explain that**  
 (18) **beginning with -**  
 (19) **A The policy is not intended to infringe on employee**  
**privacy**  
 (20) **or off the job activities but does establish specific**  
 (21) **standards for on the job behavior**  
 (22) **Q Now thinking about that a minute let's go to - let's go**  
 (23) **to the page of the guidelines that say it D paragraph D**  
 (24) **Let me - okay Let's look at this a minute When an**  
 (25) **employee's unsatisfactory performance is believed to be the**

Vol 18 2875

- (1) **result of alcohol and drug dependency - Mr Larossi was that**  
 (2) **what you were talking about when you said they must monitor**  
**job**  
 (3) **performance for drug and alcohol problems?**  
 (4) **A Yeah within Exxon we had a very very rigorous job**  
 (5) **performance appraisal system in which every supervisor**  
**had a**  
 (6) **responsibility to be carefully watching monitoring the**  
 (7) **performance of the people under his - his authority and, in**  
 (8) **fact, had a responsibility that they carry out their**  
 (9) **assignments appropriately**  
 (10) **So what we were really saying is part of that performance**  
 (11) **appraisal system that was ingrained in all of us that at any**  
 (12) **time unsatisfactory performance was evidenced, we needed**  
**to -**  
 (13) **or the individual supervisor needed to - to reflect upon**  
 (14) **whether that unsatisfactory performance could be the result**  
**of**  
 (15) **drug or alcohol abuse**  
 (16) **Q Did you consider - did you intend or consider that your**  
 (17) **supervisors would monitor an employee when he's off duty or at**  
 (18) **home that sort of thing?**  
 (19) **A No I - my personal feeling, I think it was the company's**  
 (20) **position very definitely that we had no business in the**  
 (21) **employee's private life In fact it was probably illegal, and**  
 (22) **therefore all of our activities were associated with**  
 (23) **on the-job performance or time periods when the employee**  
**was on**  
 (24) **Exxon facilities**  
 (25) **Q The policies that you've discussed here - one thing I**

Vol 18 2876

- (1) **didn't ask you about In all of these policies the policy**  
 (2) **that was there when you became president the policy or the**  
 (3) **letter letter policy or policy letter when in '85 and the**  
 (4) **'87 modifications did all of those policies say anything**  
 (5) **about the possession or consumption of alcohol on board**  
 (6) **vessels?**  
 (7) **A Yeah there were - there were tenets of the entire**  
 (8) **policy One was that it was against company policy, a**  
 (9) **violation of company policy to possess or use alcohol and**  
**later**  
 (10) **drugs on company facilities and that included company**  
 (11) **vessels It was against company policy to be carrying out**  
 (12) **company functions while under the influence of drug or**  
 (13) **alcohol**  
 (14) **So it was while carrying out company functions so it was**  
 (15) **associated with use or possession on company facilities or**  
 (16) **being impaired in any way while carrying out company**  
**duties**  
 (17) **Q Regardless of where you got the alcohol huh?**  
 (18) **A Yes**  
 (19) **Q Mr Larossi prior - turning to a different subject prior**  
 (20) **to 1985 were you aware of a captain by the name of Joseph**  
 (21) **Hazelwood?**  
 (22) **A Yes I was aware that Captain Hazelwood was one of the**  
 (23) **members of the Exxon Shipping Company and one of the**  
**captains**  
 (24) **in our fleet**  
 (25) **Q In 1985 did he particularly come to your attention?**

Vol 18 2877

- 1) **A Yes I believe it was late May of 1985**  
 Q How did it come to your attention?
- 3) **A The then the employee relations manager his name was Ben Graves informed me that he had had a discussion with Captain Hazelwood had questioned Captain Hazelwood found out that Captain Hazelwood had voluntarily entered a rehabilitation program near his home in Long Island and that subsequent to Hazelwood's release from that rehabilitation program Graves had had a discussion with Hazelwood about the rehabilitation program and about Hazelwood's status**
- 11) Q Let me have Plaintiff's Exhibit 160 if I may  
 1) Is that something you've got? The Graves report  
 13) MR SANDERS I think it's back here  
 14) MR NEAL Here we go  
 15) BY MR NEAL  
 16) Q Mr Tarossi when Captain Hazelwood was brought to your attention were you aware of this?  
 17) attention were you aware of this?  
 18) **A Yes This is the first -**  
 19) Q Who is this right here?  
 20) **A I believe that's Ben Graves signature I believe it says Ben**  
 21) Q All right Let me go to the next part of this Would you bring up the next part second page  
 4) Okay When you were having the - when you were having the conversation with Mr Ben Graves were you aware that

Vol 18 2878

- 11) Mr Graves had had this conversation with Captain Hazelwood and had been told by Captain Hazelwood that he commented that he occasionally drank aboard the ship but not frequently Hazelwood indicated he came back to ship from port drunk on several occasions Were you aware of this in your conversation with Mr Graves?  
 16) Mr Graves?  
 17) **A Yes I had read - before the conversation Ben Graves had sent me a one page memo outlining his conversation with Captain Hazelwood and the fact that he had entered himself - Captain Hazelwood had entered himself in a rehabilitation program The very last sentence at the bottom of the page and I think that's what this is is the last sentence in the bottom of that memo Ben Graves said in the course of conversation he asked Joe if he ever drank aboard ship and he meaning Hazelwood commented that he occasionally drank aboard ship but not frequently**
- 17) Q Now this is dated May 28 1985 Was your conversation somewhere around that time your conversation with Mr Graves?  
 19) **A Yeah I believe it was within a week of this when I received this memo**  
 21) Q All right At that time you understood that Captain Hazelwood had prior to his conversation with Mr Graves in which he admitted this had prior to that voluntarily entered some sort of rehabilitation clinic?  
 24) **A Yes It was not clear to us what the circumstances were**

Vol 18 2879

Vol 18 2881

(1) We talked about alcohol rehabilitation but I recall Ben at the  
 (2) time telling me that actually the program was associated  
 with  
 (3) some mild depression that Captain Hazelwood apparently  
 had,  
 (4) which was then associated whenever he had these  
 depressive  
 (5) bouts, apparently associated with excessive drinking  
 (6) Q Now when you -  
 (7) A I don't know whether he was being treated for the  
 (8) depression or the drinking  
 (9) Q When you had this discussion with Mr Graves and he s -  
 (10) you have this information about the conversation Mr Graves  
 has  
 (11) with Captain Hazelwood did you have the - did you understand  
 (12) or were you told by Mr Graves that Captain Hazelwood had  
 (13) already gone through this rehabilitation program by the time he  
 (14) had the conversation with Captain Hazelwood?  
 (15) A Yes I recall Ben telling me that he had tried to get hold  
 (16) of Hazelwood earlier but was in inpatient treatment and he  
 (17) really could not carry on an extensive discussion with him  
 (18) until Hazelwood had been released from the program I  
 think he  
 (19) was released sometime around mid May as I recall  
 (20) Q When Mr Graves is telling you and you're having this  
 (21) conversation about Captain Hazelwood did you understand  
 from  
 (22) Mr Graves that the conduct that Mister - that Captain  
 (23) Hazelwood was telling about had occurred some years earlier?  
 (24) A Yeah the - the subject that caused Ben to get in contact  
 (25) with Hazelwood had to do with an incident that occurred

Vol 18 2880

(1) sometime prior to - to '82 and so the whole context of  
 (2) discussion that Ben was relating to me was some years  
 prior to  
 (3) the incident  
 (4) Q All right Now Mr Graves is coming to you and he's  
 (5) telling you all this he's giving you the report he's telling  
 (6) you this what was the purpose of the conversation?  
 (7) A We had to decide now that Captain Hazelwood had self  
 (8) identified what - what do we do  
 (9) Q What do you do about what?  
 (10) A What do we do about his future employment And of  
 course  
 (11) the question we had to face was do we put him back on a  
 (12) vessel  
 (13) Q Did you make the decision to put him back on the vessel?  
 (14) A Ultimately yes  
 (15) Q Would you tell the Ladies and Gentlemen of the Jury how  
 you  
 (16) came about making that decision?  
 (17) A Well my first response very definitely was -  
 (18) Q You're sitting here with Mr Graves you've gotten this  
 (19) information we talked about you've been told that Captain  
 (20) Hazelwood was a self identifier and he's completed  
 (21) rehabilitation right?  
 (22) A Yes  
 (23) Q For some sort of depression or alcohol problem associated  
 (24) with that that's all in your mind correct?  
 (25) A Yes, sir

(1) Q All right Now go ahead  
 (2) A My first emotional response was we couldn't put him back  
 on  
 (3) the ship I sometimes have an emotional response What  
 we  
 (4) then talked a little bit about and -  
 (5) Q It's kind of unusual for an engineer isn't it? Go ahead  
 (6) I'm sorry  
 (7) A We then started talking about and examining what the  
 (8) alcohol policy stated, what the basis of the policy was We  
 (9) went through the fact that if an employee self identified, he  
 (10) was essentially guaranteed as part of the contract that it  
 (11) would be held confidential He was guaranteed that his job  
 (12) security and his future opportunities would not be impaired  
 (13) We then had a discussion as to what that really meant, that  
 (14) that - did that mean we had to give him his exact job back  
 (15) Ben told me that in the seven years of this - this program  
 (16) had been in place, all of the employees throughout Exxon  
 who  
 (17) had so self identified had gotten their exact job back And  
 to  
 (18) Ben's knowledge, there was no exception to that So the  
 (19) interpretation that the company had put upon it, and that  
 the  
 (20) employees had assumed was that the individual who self  
 (21) identified having gone successfully through rehabilitation  
 (22) having been declared fit for duty would then get his job  
 back  
 (23) back  
 (24) We - I still wasn't convinced, and we talked a little bit  
 (25) more, and Ben Graves told me that I had to understand a  
 little

Vol 18 2882

(1) bit of the law associated with disabled persons and how that  
 (2) impacted people with alcohol problems He told me that the  
 (3) Federal Disability Act cover employees with disabilities and,  
 (4) in fact the company was prohibited from denying  
 employment or  
 (5) denying a job to an individual solely on the basis of that  
 (6) disability  
 (7) Q Solely on the basis that he'd sought help and gone through  
 (8) rehabilitation?  
 (9) A Yes, or had been identified as having that disability  
 (10) And in fact, while it had not been tested in the courts, the  
 (11) interpretation of outside legal counsel and the  
 interpretation  
 (12) of Exxon counsel was that an individual with an alcohol  
 (13) problem  
 (14) was considered to be disabled and was considered to fall  
 under  
 (15) the Federal Disability Act  
 (16) And at one point Ben said you know whether you like it  
 (17) or not you really don't have a decision It's spelled out  
 (18) very clearly both in policy that we could not deny Captain  
 (19) Hazelwood his job solely on the basis of the fact that he had  
 (20) an alcohol problem although if his performance was  
 impaired,  
 (21) then we could And he said actually the federal law followed  
 (22) exactly the same way that simply because an individual had  
 an  
 (23) alcohol problem we could not deny him or her a job On the  
 (24) other hand if they could not perform or if their performance  
 (25) was impaired then we had the right to remove them from  
 that  
 position

Vol 18 2883

Vol 18 2885

(1) And we hemmed and hawed and I recall that Ben said to me  
 (2) in the course of the conversation toward the end he said  
 (3) Frank you know what will happen if we deny Captain  
 Hazelwood  
 (4) his job back? And I told him yes Captain Hazelwood would  
 be  
 (5) the last individual we would ever see in Exxon Shipping  
 Company  
 (6) who would self identify  
 (7) And I think more than company policy more than what the  
 (8) law said or didn't say, that last fact that our whole efforts  
 (9) to bring under control or to control alcohol and drug abuse  
 (10) within the company our whole effort was based on self  
 (11) identification of the employee I think that weighed  
 absolutely  
 (12) the most in my decision and I recognized and Ben  
 recognized  
 (13) that we were in a very tough spot No matter what we did  
 (14) there were risks If we put Captain Hazelwood back on the  
 (15) ship, we had a risk If we denied Captain Hazelwood his job  
 (16) we had a totally different kind of risk And being an  
 (17) engineer the logic of the decision was putting Hazelwood  
 back  
 (18) on the ship was a risk it was a risk we knew and  
 understood  
 (19) It was one individual and what we had to do was make sure  
 we  
 (20) did everything possible to ensure that Joe's performance  
 was  
 (21) not in any way impaired We had to look for any signs that  
 he  
 (22) was consuming alcohol or was not following through with  
 his -  
 (23) had not completed his rehabilitation  
 (24) On the other hand the other risk if we denied him the job  
 we would never get anybody to self identify  
 (25) Q Is it -  
 (1) A We didn't know what that risk was It was undefined so  
 we  
 (2) made a choice between a risk we understood and a risk we  
 knew  
 (3) we potentially had but did not know the magnitude of  
 (4) Q So the risk on the one hand was that whatever problem  
 (5) Captain Hazelwood had would reemerge is that correct?  
 (6) A That was a risk  
 (7) Q And on the other hand was a risk that if you don't give him  
 (8) his job back there may be other people unidentified people  
 (9) with alcohol problems out there who may - who were also a  
 (10) risk is that correct?  
 (11) A That's true absolutely correct  
 (12) Q And if you give him his job back and run that risk then  
 (13) maybe you've eliminated this other risk or reduced it?  
 (14) A We will have gone a long way to convincing the  
 employees  
 (15) that we would live by our side of the bargain because after  
 (16) all, that policy was essentially a contract If you identify  
 (17) we will do these things And if we didn't do our part of it  
 (18) that would be - that policy would be over, that contract  
 would  
 (19) be over  
 (20) Q You really weighed this is that correct Mr. Iarossi?  
 (21) A Yeah, it was not an easy decision  
 (22) Q Tough decision for you?  
 (23) A Yes, yes  
 (24) Q But you finally decided to return him to his vessel?

(1) A We decided to return him back to the position of master  
 (2) MR NEAL Your Honor is this a good time?  
 (3) THE COURT We'll take our first recess at this time  
 (4) ladies and gentlemen  
 (5) We'll be in recess for 15 minutes  
 (6) THE CLERK This court is in recess for 15 minutes  
 (7) (Jury out at 10:02 a.m.)  
 (8) (Jury in at 10:17 a.m.)  
 (9) MR NEAL May I proceed Your Honor?  
 (10) THE COURT Yes  
 (11) BY MR NEAL  
 (12) Q Mr. Iarossi having made this decision however torturous  
 (13) or tough what did you do then?  
 (14) A Told Ben that it was important that we watch Hazelwood  
 (15) closely that we make sure he completed the rehabilitation  
 (16) program was fit for duty and that subsequent to that we  
 (17) watched his job performance and any sign that - that he  
 was  
 (18) drinking  
 (19) Q Did you understand that - did you instruct Mr. Graves  
 (20) anything about having his personal - Captain Hazelwood's  
 (21) personal doctor do or say anything?  
 (22) A Well, Ben was the EHAP coordinator so it was his  
 (23) responsibility to keep in touch with the medical department  
 (24) and it was my understanding the medical department kept  
 in  
 (25) touch with the personal physician or whoever was in charge  
 of

Vol 18 2886

(1) the rehabilitation  
 (2) Q Was it your understanding that Captain Hazelwood's  
 personal  
 (3) physician advised the medical department that Captain  
 Hazelwood  
 (4) was fit to return to sea duty?  
 (5) A Sometime after this discussion when I inquired I was told  
 (6) that he was declared fit for duty and that the medical  
 (7) department concurred with that  
 (8) Q All right Now did you have any conversation about - you  
 (9) said you wanted him watched was that the word you used?  
 (10) A I said we had to watch his performance very carefully  
 (11) Q Watch his performance?  
 (12) A Yes  
 (13) Q Did you intend or expect anybody to monitor his private  
 (14) life or the times he was off duty and at home?  
 (15) A No absolutely not  
 (16) Q You said you expected them to monitor him primarily for job  
 (17) performance?  
 (18) A And job performance and any sign - I think I used the  
 term  
 (19) that he was off the wagon was the exact term I used  
 (20) Q Mr. Iarossi are the supervisors or were the supervisors of  
 (21) Exxon Shipping Company trained to monitor people for job  
 (22) performance?  
 (23) A Yes absolutely from - from the time we come into the  
 (24) company the job appraisal and performance appraisal  
 system  
 (25) within Exxon is very rigorous At this time has a couple

Vol 18 2887

- (1) parts The first part is what I call moment of fact appraisal  
 (2) which is -  
 (3) Q What term is that?  
 (4) A Moment of fact, which that's my term What it means is  
 (5) that job performance is an ongoing operation that takes  
 place  
 (6) 24 hours a day If at any time you see things that are  
 (7) exceptionally good it's the responsibility of the supervisor  
 (8) to tell the individual hey that's a good job Don't wait two  
 (9) weeks, don't wait a month or a year When it happens, tell  
 (10) them it's good  
 (11) If, on the other hand, something doesn't go right at that  
 (12) point in time exactly is the time when you take the guy aside  
 (13) and say, look, that one didn't go right, we got to sit down  
 and  
 (14) decide what we learned from that And in my vernacular, I  
 call  
 (15) that moment of fact appraisal There are probably other  
 terms  
 (16) for it But it is a performance appraisal that is ongoing  
 (17) every day, day in day out  
 (18) Then there's another facet of the program which is an - I  
 (19) will call after the fact which occurred one year or maybe  
 two  
 (20) years and you look at performance over a long period of  
 time  
 (21) So there's two aspects, moment of fact and after the fact  
 and  
 (22) that's what we're all trained in being able to do  
 (23) Q Would you have expected that if there was any - by the  
 (24) way you don't -  
 (25) A Takes a little courage by the way because you have to

Vol 18 2888

- (1) look at somebody and say that was not right that did not  
 meet  
 (2) standards now we have to talk about why it happened and  
 how to  
 (3) improve on it  
 (4) Q Well that's what you're paid for isn't it?  
 (5) A That's right We aren't even marines  
 (6) Q That's right Marines weren't paid  
 (7) Back to the time when you were making the decision to  
 (8) return Captain Hazelwood to duty were you aware of the - what  
 (9) we've referred to here as the IDR the individual disability  
 (10) report that contains the diagnosis of Captain Hazelwood?  
 (11) A I was not familiar with the term IDR I've learned that  
 (12) subsequent to the grounding But I do know there was  
 something  
 (13) called a fit for duty slip I think it's the same thing  
 (14) Q And that it's your understanding you mentioned this  
 (15) before your understanding that Captain Hazelwood had some  
 sort  
 (16) of depression and an alcohol problem associated with it? That  
 (17) was your state of mind?  
 (18) A Yes As I recall he was diagnosed as having - I don't  
 (19) remember the medical term but I was told it meant a mild  
 (20) depression and that during those periods of mild  
 depression he  
 (21) was subject to excessive drinking and that was -  
 (22) Q That was your state of mind?  
 (23) A That was my state of mind That's what I was told and  
 (24) understood  
 (25) Q All right Now did you have - in regard to watching or

Vol 18 2889

- (1) monitoring or whatever word you want to use of Captain  
 (2) Hazelwood after he returned did you tell Mr Graves to tell  
 (3) anybody about watching or monitoring?  
 (4) A I told him to make sure John Tompkins who was the - the  
 (5) gulf coast fleet manager to make sure that John was fully  
 (6) aware of the circumstances and Ben and I also talked about  
 the  
 (7) policy position on confidentiality We needed to do this and  
 (8) carry this activity out with a proper element of  
 (9) confidentiality, but we also needed to make sure that his  
 (10) supervisors were fully aware of the circumstance and what  
 their  
 (11) roles were  
 (12) Q All right Did you instruct Mr Graves or Mr Tompkins or  
 (13) anybody to have any meeting with Captain Hazelwood before  
 he  
 (14) returned to duty?  
 (15) A What I had told Ben in that same conversation was that  
 we  
 (16) had to make sure that he was in fact declared fit for duty  
 (17) Some weeks after this discussion, as I recall it was - may  
 (18) have in fact been sometime early September, I learned  
 through a  
 (19) meeting on fleet operations that Captain Hazelwood had  
 been  
 (20) returned to the fleet and was now the master of Exxon  
 (21) Yorktown And I was a little upset at the time that I had not  
 (22) been warned about that so I jumped on Graves and he told  
 me to  
 (23) relax that he had been declared fit for duty and he told me  
 (24) that John Tompkins and Bill Sheehy had personally carried  
 out  
 (25) an interview of Captain Hazelwood

Vol 18 2890

- (1) So I then called John Tompkins and I proceeded to read  
 him  
 (2) out because he didn't keep me informed of what was going  
 on  
 (3) and he told me that they on purpose had flown Captain  
 Hazelwood  
 (4) to Houston that both Bill Sheehy who was the port captain  
 for  
 (5) the gulf coast group and he himself John Tompkins who  
 was  
 (6) the fleet manager had personally interviewed Hazelwood  
 (7) Tompkins told me he personally had warned Hazelwood  
 about the  
 (8) fact that any return to drinking or any evidence that he was  
 (9) drinking on board or violating company policy would -  
 would  
 (10) result in termination And John told me that - that  
 Hazelwood  
 (11) clearly understood this  
 (12) John's evaluation and Bill Sheehy's evaluation both,  
 (13) according to John Tompkins was that Joe Hazelwood  
 clearly  
 (14) understood the situation clearly understood that he in fact  
 (15) was going to be watched very carefully and had to - had to  
 be  
 (16) living within the letter of the Exxon policy  
 (17) Q Did you understand that shortly after - oh I don't know  
 (18) shortly after but sometime after still in 85 that  
 (19) Mr Tompkins - by the way Mr Tompkins was the gulf coast  
 (20) fleet manager?  
 (21) A Yes  
 (22) Q Did you understand that sometime after Captain Hazelwood  
 (23) returned to duty aboard the Yorktown that a Mr Koops was  
 (24) replacing Mr Tompkins as gulf coast fleet manager?

(15) A Yes I was I was aware that John was actually being  
Vol 18 2891

(1) relieved by Dwight Koops Dwight Koops was going to become the  
(2) gulf coast fleet group manager John Tompkins was taking an  
(3) assignment in headquarters as I believe it was fleet services  
(4) manager And I told John specifically to make absolutely sure  
(5) that Dwight Koops was briefed on all of the circumstances and  
(6) that Dwight understood the role he had to play in this  
(7) Subsequent to that I had a discussion directly with Dwight  
(8) Koops and I wanted to make sure he understood the need to watch  
(9) Captain Hazelwood very carefully and what the circumstances  
(10) were  
(11) During this conversation -  
(12) Q This is a conversation with Mr Koops now?  
(13) A Yes And it took place maybe October, November of this  
(14) year, of 1985 I don't recall exactly But it was sometime  
(15) during the course of the conversation in which I was talking to  
(16) him about Hazelwood the need to watch Joe very carefully  
(17) Dwight revealed to me that he had a personal situation in his  
(18) family, his father was an alcoholic and Dwight told me he  
(19) said, Frank don't worry he said I know all the signs I've  
(20) lived with it for years I know all the signs And he said I  
(21) know all the ways they try to hide it he said so I'm going to  
(22) be - I'm going to stick very close to Joe is what he said  
(23) Q Did you have - okay This is your first conversation with  
(24) Mr Koops then regarding Captain Hazelwood?  
(25) A Yeah. And I don't recall exactly when the conversation  
Vol 18 2892

(1) was but it was sometime following the return of Hazelwood to  
(2) the fleet  
(3) Q But this was the first conversation regarding Captain  
(4) Hazelwood? With Mr Koops?  
(5) A As I recall, yes  
(6) Q All right Did you have any occasion to have any further  
(7) conversations with Mr Koops regarding Captain Hazelwood?  
(8) A Yes I - I had a number of conversations with him One  
(9) in the gulf coast fleet office in Baytown when I was visiting  
(10) the office, I asked him particularly about Joe He told me  
(11) that Joe was clean that he was performing very well  
(12) We had another conversation sometime later when I asked  
him  
(13) again how Joe was doing, Dwight told me that he and Joe  
had  
(14) developed - now this is maybe six months or more after  
(15) Hazelwood had gone back to the fleet Mr Koops told me  
that he  
(16) and Joe had developed a very close relationship, that Joe  
(17) really was very open with Dwight and that was somewhat  
(18) surprising, because Joe tended to be not known to be open  
and  
(19) very communicative but Dwight said he felt that he really  
had  
(20) established a very close relationship with Joe And then he  
(21) says, you know Frank I really like the guy  
(22) Q Let me ask you this During the course of these  
(23) conversations with Mr Koops, did the name - did the name of  
(24) Jim Shaw or James Shaw ever come up?  
(25) A I remember Dwight telling me - and he was very  
concerned

Vol 18 2893

(1) that I would hear it from someone else or from rumor and he  
(2) wanted to tell me first that he had Jim Shaw who was -  
(3) worked for Dwight was the gulf coast fleet steward had  
been  
(4) aboard the Yorktown while it was in Baton Rouge  
Louisiana and  
(5) that Jim had subsequently come back to the office and  
mentioned  
(6) to either Dwight or Bill Sheehy I don't remember that Joe  
(7) Hazelwood was acting I think the term he used was kind of  
(8) strange  
(9) Dwight told me he said Frank I immediately sent Sheehy  
(10) to Baton Rouge and Sheehy stayed with Hazelwood for a  
number of  
(11) hours I think he said six or eight hours but I don't recall  
(12) exactly and that Sheehy came back and said that there was  
(13) absolutely no evidence that - that Hazelwood was in any  
way  
(14) acting out of sorts or any sign that he was drinking and  
(15) Dwight said I just - just want to let you know that - that  
(16) that thing did go on  
(17) There was - there was another occasion when I asked  
Dwight  
(18) whether he was watching Hazelwood closely, and he told  
me  
(19) Frank if I can't get on the ship Sheehy gets on the ship and  
(20) we meet him practically every time he comes into port  
Dwight  
(21) told me when he himself went on board he not only talked to  
(22) Hazelwood but he also made it a point to go around to the  
(23) other crew members to try to open up discussions and so  
that if  
(24) they had anything on their mind is there anything they  
wanted  
(25) to tell him or pass on they had plenty of opportunity to do  
Vol 18 2894

(1) that and he made a point to tell me that  
(2) In all of this, the scenario is that they're trying to  
(3) convince me that they're doing the job and they're watching  
(4) very closely So these are all stories or events that they're  
(5) recurring to me that they are giving me  
(6) Q In the course of these conversations did the name of a  
(7) Captain Ivan Mihajlovic come up?  
(8) A Yes In one of these conversations that - between myself  
(9) and Dwight Koops he told me that Captain Mihajlovic had  
heard  
(10) a rumor in the fleet and had personally gone to the  
Yorktown  
(11) and, in Dwight's words, ransacked Captain Hazelwood's  
stateroom  
(12) looking for alcohol and had found none And I don't know  
(13) whether Mihajlovic had then reported back to Koops or  
whether  
(14) he passed it on to Sheehy but Koops had found out about  
this  
(15) for cause search or informal search of Captain Mihajlovic  
(16) That was during the course of another discussion I had with  
(17) Dwight  
(18) Q All right Now Mr Larossi did you yourself have  
(19) occasion to interact or contact or have contact with Captain  
(20) Hazelwood on a person to person basis?  
(21) A I did on two or three occasions and all of the occasions  
(22) were during the course of the once a year senior officer  
(23) conferences that we would have As part of our training and  
(24) system within Exxon Shipping Company, once a year we  
would  
(25) invite all of the fleet managers and all of the ship captains,

Vol 18 2895

(1) the chief engineers chief mates we would invite them to  
 (2) Houston for a one week conference and we would talk  
 about a  
 (3) whole range of subjects during the course of that We  
 would  
 (4) talk about safety program we would talk about Exxon  
 policy,  
 (5) we'd talk about bridge and navigation policies  
 (6) We would also give the officers opportunities to exchange  
 (7) views exchange their experiences If during the course of  
 that year there were any incidents within the fleet that gave  
 (8) us concern we would have what we called lessons learned  
 (9) sessions where we would go over the event and all of the  
 (10) circumstances as we understood it and then we would have  
 (11) sessions to define, okay, what did we learn from this how  
 do  
 (12) we change our policy, how do we adjust to this so we don't  
 ever  
 (13) see this, this type of incident again  
 (14) Q Mr Iarossi, I'm pointing down here now to Defendants  
 (15) Exhibit 9131 under the caption steps to ensure safety It  
 (16) says opportunity for officers to share experiences and lessons  
 (17) learned Was that a safety step?  
 (18) A Oh yeah it was an important step Not only - it was an  
 (19) important step in the safety program not only to look at what  
 (20) you learn from - from specific incidents but also to  
 exchange  
 (21) near misses In fact in a safety program you learn more  
 from  
 (22) near misses because you tend to have more of those than  
 you do  
 (23) incidents so we - part of the program was to get the  
 officers  
 (24) to talk about difficult situations they were in what we called

Vol 18 2896

(1) a near miss and how they handled it and how other officers  
 who  
 might find themselves in the same position could handle it  
 (2) Q I don't want to divert too much on this but is this the  
 (3) opportunity to share experiences and lessons learned was that  
 (4) in effect the purpose of the fleet conferences that we started  
 (5) to talk about?  
 (6) A It was one of the purposes yes  
 (7) Q All right Now then did you at these fleet conferences  
 (8) have occasion to see and be with Captain Hazelwood?  
 (9) A Yes I remember especially subsequent to the  
 (10) rehabilitation  
 (11) Q I'm talking about subsequent to the rehabilitation  
 (12) A Yes I - there was one fleet conference in March of 1988  
 (13) that I recall because of a specific incident related to  
 (14) Hazelwood I then there was another one it was either the  
 (15) 86  
 (16) conference or the 87 conference I don't recall which one  
 and  
 (17) during those times I - I made it a point during those five  
 (18) days to watch Joe not only to see whether - how he was  
 (19) participating in the program one of the things that I was  
 (20) curious about was whether Joe was fully participating in the  
 (21) program how he was behaving during the course of the five  
 (22) days, but also what he was consuming as far as liquid  
 (23) refreshment and I never at any time saw Joe consume any  
 (24) alcohol during that time whether it was during meals - he  
 was  
 (25) not drinking wine was not drinking beer during meals or

Vol 18 2897

(1) anything  
 (2) Q These were over five days each time?  
 (3) A Yes  
 (4) Q Now Mr Iarossi did there come a time that you learned  
 (5) that Captain Hazelwood then had been transferred from the gulf  
 (6) coast fleet and the Yorktown to the west coast fleet?  
 (7) A Yes I believe I learned of that in I believe it was  
 (8) August of 1987  
 (9) Q All right How did you learn about it?  
 (10) A I had called Harvey Borgen Harvey Borgen was the west  
 (11) coast fleet manager I called Harvey and told him that  
 (12) Mrs Margaret McVicker (ph) who was a director of Exxon  
 (13) Corporation and also was the sponsor of Exxon Valdez, she  
 (14) christened the bottle - christened the vessel and broke the  
 (15) bottle of champagne At the time of the christening of the  
 (16) vessel, that she - she and her father wanted to make a  
 voyage  
 (17) on Exxon Valdez from San Francisco - from San Francisco  
 to  
 (18) Valdez and that she - Margaret McVicker was a professor at  
 MIT  
 (19) University and she had a break in late August and wanted  
 us to  
 (20) arrange a trip on the vessel for she and her father  
 (21) And at that time I told Harvey about that we had to make  
 (22) the arrangements and we had to make sure that all the  
 (23) arrangements were made I asked him who the master of  
 the  
 (24) vessel was and he said well let's see by that time  
 (25) Hazelwood will be on vacation and I think he said Stalzer  
 will

Vol 18 2898

(1) be the master  
 (2) I asked him when Hazelwood had become the master of the  
 (3) Exxon Valdez and he told me it was some months earlier, I  
 (4) think April or May Again I was a little surprised that I  
 (5) wasn't informed about it and I asked Harvey how they  
 arrived  
 (6) at that decision, and he told me that they had reviewed all  
 the  
 (7) masters in the fleet They had an opening in the fleet  
 because  
 (8) one master, Captain Bill Greg (ph) had left the company to  
 take  
 (9) up a position with the San Francisco pilot's association and  
 (10) Bill Greg was the previous master of Exxon Valdez so they  
 had  
 (11) to shift some masters around to fill that vacancy  
 (12) They had convened a group of port captains the port  
 (13) captains had reviewed all of the candidates for that job and  
 (14) had selected Hazelwood as the best qualified master for  
 Exxon  
 (15) Valdez and Harvey went on to tell me the reasons for that  
 (16) that, number one Captain Hazelwood had more experience  
 (17) operating big ships in and out of Valdez than any other  
 master  
 (18) in our fleet Captain Hazelwood was the first master in the  
 (19) Exxon fleet and to our knowledge the first master in any -  
 (20) any fleet to qualify as a Prince William Sound pilot and  
 (21) receive his pilot certificate and Harvey told me that thirdly  
 (22) he had been assured by Dwight Koops that Joe Hazelwood  
 was  
 (23) absolutely clean and performing quite well  
 (24) And on that basis he and Dwight Koops together had  
 made  
 (25) the decision to shift Captain Hazelwood from the Exxon

Yorktown

Vol 18 2899

(1) to the Exxon Valdez  
 (2) Subsequent to that decision or hearing that from Harvey I  
 (3) called up Dwight and I asked Dwight what his view of this is  
 (4) and was he sure that this was the right move to make and  
 he  
 (5) told me he concurred totally that he said Joe is absolutely  
 (6) clean There's no reason not to put him on the Valdez He  
 has  
 (7) all the experience and all the background that's the right  
 (8) place for me  
 (9) Q And this is - this occurred more - considerably more than  
 (10) two years after his rehabilitation is that correct?  
 (11) A Yes Dwight told me that he had watched Joe perform for  
 (12) two years and he was convinced Joe was clean and that he  
 did  
 (13) not see any problem In fact he fully endorsed shifting Joe  
 (14) from the Yorktown to the Valdez  
 (15) Q All right Now then Mr Jarossi from the time - from  
 (16) the time Captain Hazelwood returned to duty in something like  
 (17) August of 1985 to the time of the grounding with the  
 (18) exception of this one Shaw thing you've talked about did you  
 (19) ever get any report that Captain Hazelwood was drinking or  
 (20) violating company policy or anything like that?  
 (21) A Absolutely not Never  
 (22) Q And the - the one thing you got you were told it was  
 (23) reported that it was investigated and that even a search by  
 (24) Mister - or Captain Mihajlovic had been carried out is that  
 (25) correct?

Vol 18 2900

(1) A That's correct  
 (2) Q And nothing had been found?  
 (3) A That's correct  
 (4) Q Now I want to go to something I want to be very brief  
 (5) and I'm sure that plaintiffs' counsel will want to go into it  
 (6) and I'll just touch on it  
 (7) Did you terminate Captain Hazelwood as employee some days  
 (8) following the grounding?  
 (9) A Yes I did  
 (10) Q When?  
 (11) A I believe it was on Thursday following the grounding  
 early  
 (12) Saturday morning  
 (13) Q All right There's been some statement made here that you  
 (14) didn't give him a chance or an opportunity to state his case  
 (15) Did you try to give him an opportunity to state his case?  
 (16) A Yes  
 (17) Q And what happened?  
 (18) A We couldn't find him He had - I had - when I - when I  
 (19) got to Valdez Friday afternoon I met Paul Myers and  
 Captain  
 (20) Bill Deppe At that point they - they told me what they knew  
 (21) of the - of the grounding up to that point They told me that  
 (22) Captain Hazelwood was not on the bridge at the time of the  
 (23) grounding And I at that point told Captain Deppe that I  
 (24) wanted him to proceed directly to the vessel to relieve  
 Captain  
 (25) Hazelwood and I also sent a lawyer from Exxon Shipping  
 Company

Vol 18 2901

(1) by the name of Bob Nicholas to proceed to the vessel to  
 (2) question Hazelwood and also the other crew members and  
 to let  
 (3) me know what the circumstances were surrounding the  
 grounding  
 (4) There was a discussion about whether we should leave Joe  
 on  
 (5) the vessel and it was decided at this point he was under  
 such  
 (6) strain and stress from the grounding that it was much  
 (7) preferable to bring him back to Valdez and I felt at that  
 (8) point I would have an opportunity to speak to him directly  
 and  
 (9) also to - to convene a personnel board and allow - to go  
 (10) through a procedure that we had in the shipping company to  
 (11) allow the personnel board to also interview Joe Hazelwood  
 (12) because from my perspective and in my mind if it was  
 confirmed  
 (13) he was not on the bridge then that was grounds for firing  
 (14) Captain Hazelwood It was not the first time I would have  
 (15) faced that decision So it was not a unique situation for me  
 (16) Q Not with Captain Hazelwood?  
 (17) A Not with Captain Hazelwood but there was another  
 (18) circumstance previous to that and I had reacted the same  
 way  
 (19) That - but I clearly wanted an opportunity and I felt  
 (20) strongly that before making that decision I had to - I had to  
 (21) hear from Joe Hazelwood if there was any - any plausible  
 (22) reason in defense as to why he was not on the bridge  
 (23) But before I got to Joe the NTSB had convened its - its  
 (24) hearing and subsequent to the NTSB interview with  
 Hazelwood  
 (25) which I think occurred on Monday morning or something  
 like

Vol 18 2902

(1) that that after that we - NTSB released Hazelwood in the  
 (2) cognizance of his attorney and we did not see or hear from  
 (3) him We could not locate him We did find that he had left  
 (4) Valdez and Anchorage by plane He was somewhere in the  
 Lower  
 (5) 48 but we could not find out where  
 (6) Q Mr Jarossi one more thing I want to clear up then I'm  
 (7) going to turn you over to the tender mercies of Mr O'Neill  
 (8) here  
 (9) There's been some suggestion that Exxon Shipping Company  
 (10) had its masters get a pilotage endorsement for Prince William  
 (11) Sound in order to save money By 1986 87 88 89 was  
 (12) having Exxon masters obtain a pilotage endorsement was that  
 to  
 (13) save money?  
 (14) A No Actually I think it cost us money because we gave  
 (15) them a \$300 bonus Any master traveling in and out of  
 Prince  
 (16) William Sound who had a pilotage certificate received a  
 \$300  
 (17) bonus for the round trip  
 (18) Q The testimony's been 350 would you quarrel with that?  
 (19) A No, I won't 350 On the other hand where we had  
 masters  
 (20) that did not have a pilotage certificate it was the same  
 (21) circumstance The only thing we had to do was to notify the  
 (22) Coast Guard in advance We still had to take a pilot from  
 (23) Rocky Point whether our master had a Prince William Sound  
 (24) pilotage or not There wasn't any savings It clearly was to  
 (25) our benefit to have masters with that experience and with  
 that

Vol 18 2903

- (1) certification And I think at the time of the grounding we  
 (2) only had one master assigned to a Prince William Sound  
 vessel  
 (3) who did not have a pilotage certificate Everybody else did  
 (4) MR NEAL Mr Iarossi thank you very much  
 (5) Look what he's got prepared over here to bring you  
 (6) MR O NEILL It's my biggest stack so far sir  
 (7) MR NEAL Thank you Mr Iarossi  
 (8) You may examine Mr O'Neill  
 (9) MR O NEILL How are you sir?  
 (10) THE WITNESS Fine thank you  
 (11) CROSS EXAMINATION OF FRANK IAROSSO  
 (12) BY MR O NEILL  
 (13) Q We met once before a number of years ago  
 (14) MR NEAL Don't tell him you don't remember Mr  
 (15) Iarossi he'll even be tougher on you  
 (16) BY MR O NEILL  
 (17) Q I have placed in front of you your testimony in this case  
 (18) under deposition your testimony before the National  
 (19) Transportation Safety Board and a number of exhibits and we  
 (20) may want to use those as tools as we proceed here for the next  
 (21) hour or so  
 (22) The first thing I'd like to do is just figure out the chain  
 (23) of command It's going to be on the monitor right next to  
 (24) you This is great  
 (25) Just prior to the grounding you were the president FJI

Vol 18 2904

- (1) that's a correct statement right?  
 (2) A Yes  
 (3) Q And then reporting to you with regard to the west coast was  
 (4) Borgen?  
 (5) A Yes Harvey Borgen  
 (6) Q And he had a ship group coordinator named Myers?  
 (7) A Yes that's correct  
 (8) Q And then there was a Captain Hazelwood is that correct?  
 (9) A Myers actually had an assistant called a port captain but  
 (10) under Myers were a series of masters who - actually pairs  
 of  
 (11) masters who alternately were in charge of vessels and  
 Hazelwood  
 (12) was one of two masters in charge of Exxon Valdez  
 (13) Q And Mr Cousins was on the bridge at the time of the  
 (14) grounding?  
 (15) A Cousins was one of the deck officers assigned to the  
 Valdez  
 (16) at the time of the grounding  
 (17) Q And he was the deck officer who was on the bridge at the  
 (18) time of the grounding?  
 (19) A Yes that's correct  
 (20) Q Now you left Exxon Shipping Company three years before  
 (21) retirement in 1990?  
 (22) A April of 1990  
 (23) Q And Mr Borgen was transferred to special projects in  
 (24) Houston within a month or two after the grounding?  
 (25) A Yes

Vol 18 2905

- (1) Q And Mr Myers was transferred to Houston within a month or  
 (2) two after the grounding?  
 (3) A No actually Myers was assigned first out of San  
 Francisco  
 (4) for the repair of - of Exxon Valdez which took three or four  
 (5) months  
 (6) Q Then he went to Houston?  
 (7) A Then he went to Houston  
 (8) Q And Captain Hazelwood was terminated?  
 (9) A Yes  
 (10) Q And Mr Cousins I guess quit?  
 (11) A I'm not sure of that  
 (12) Q He left?  
 (13) A Yes I guess  
 (14) Q Now you talked a little bit about the safety credo and  
 (15) belt buckles and that topic do you recall that? Do we have  
 (16) the safety credo?  
 (17) A Yes sir  
 (18) Q And the safety credo starts out with the precept that  
 (19) accidents and injuries are preventable?  
 (20) A Yes  
 (21) Q And you believe that?  
 (22) A Absolutely  
 (23) Q And each of us has a personal responsibility for our safety  
 (24) and the safety of others both on and off the job it's a  
 (25) personal responsibility isn't it?

Vol 18 2906

- (1) A Yes sir  
 (2) Q I'm going to keep this  
 (3) Now the Exxon Valdez won the fleet manager - or the fleet  
 (4) award in 1977 and '88?  
 (5) A Yes  
 (6) Q And it didn't win it in '89 did it?  
 (7) A No  
 (8) Q And indeed somehow or another the awards it got were  
 (9) pulled off of the vessel weren't they?  
 (10) A Yes sir  
 (11) Q Now on the bridge manual the bridge manual is an  
 (12) important document isn't that correct?  
 (13) A Yes  
 (14) Q And after the grounding you made the determination that  
 (15) Captain Hazelwood was not on the bridge when he should have  
 (16) been on the bridge?  
 (17) A I was told that Captain Hazelwood had told Paul Myers  
 that  
 (18) he was not on the bridge at the time of the grounding  
 (19) Subsequent to that Exxon lawyer had told me Bob Nicholas  
 had  
 (20) told me that he had asked Hazelwood where he was and  
 Hazelwood  
 (21) had confirmed he was not on the bridge and that other crew  
 (22) members also confirmed that Hazelwood was not on the  
 bridge  
 (23) Q And not being on the bridge at that point in time was such  
 (24) a serious breach of the bridge organization manual that that in  
 (25) and of itself was sufficient reason to terminate him from his

Vol 18 2907

Vol 18 2909

(1) job?  
 (2) **A It was part of the policy that there were certain times**  
 (3) **when the navigation and bridge organization manual stated**  
 (4) **that**  
 (5) **the master had to be on the bridge and there were certain**  
 (6) **circumstances defined In my judgment this particular**  
 (7) **passage**  
 (8) **would have qualified as one of those times**  
 (9) **Q And it was reckless not to be on the bridge wasn't it?**  
 (10) **A No I just said that it was my judgment that - that the**  
 (11) **captain should have been on the bridge at this time**  
 (12) **Q And it was a serious enough breach in your judgment to**  
 (13) **terminate the man's job?**  
 (14) **A He had failed in my view to - to live up to a policy and**  
 (15) **that clearly the - the result of not living up to that policy**  
 (16) **included termination**  
 (17) **Q You stated that with regard to the seagoing employees**  
 (18) **quote there is very little opportunity as managers to observe**  
 (19) **them on vessels and quote we have so little opportunity to**  
 (20) **see the employees on the vessels do you recall that**  
 (21) **testimony?**  
 (22) **A Yes**  
 (23) **Q Those are true statements?**  
 (24) **A Yes Most - you know the opportunity to see a master**  
 (25) **perform really is primarily associated with either in port**  
 (26) **periods while the vessel is discharging or other**  
 (27) **opportunities such as conferences or things like that But**

(1) Q Would you go to page 196 of your deposition transcript  
 (2) A Yes  
 (3) Q And page 196 line 20 and I'm going to go through 197  
 (4) line 6  
 (5) At the time you discussed Captain Hazelwood's condition  
 (6) with Mr. Graves and made the decision then to return him to  
 (7) duty -  
 (8) MR NEAL Excuse me Could we hold on? What page?  
 (9) MR O NEILL 196 line 20  
 (10) BY MR O NEILL  
 (11) Q At the time you discussed Captain Hazelwood's condition  
 (12) with Mr. Graves and made the decision then to return him to  
 (13) duty would it be fair to say that you at that point in time  
 (14) didn't know whether Captain Hazelwood had self-identified?  
 (15) Answer it was my assumption that he had identified his  
 (16) problem to Ben Graves and that he had some contact to the  
 (17) medical department because the medical department had  
 (18) awareness of the problem as I understand it  
 (19) Question do you know?  
 (20) Answer exactly what the contact was no  
 (21) Do you see that?  
 (22) A Yes that was my statement  
 (23) Q Now Captain Hazelwood has testified here on the same  
 (24) topic  
 (25) and the question was you didn't self-identify did you?  
 (26) Answer no no

Vol 18 2908

Vol 18 2910

(1) you can't watch his vessel performance  
 (2) Q Now you talked - I want to go to the topic of self  
 (3) identification  
 (4) A Yes  
 (5) Q You talked at great length about self-identification?  
 (6) A Set the basis of the whole program  
 (7) Q With Captain Hazelwood you opined that he self-identified?  
 (8) A Yes absolutely  
 (9) Q Would it be fair to say that with regard to exactly how  
 (10) Captain Hazelwood's - and how Captain Hazelwood and the  
 (11) subject of alcohol came to the attention of Exxon Shipping  
 (12) Company that specific topic you don't know about you're  
 (13) surmising -  
 (14) A The first -  
 (15) Q - or guessing or putting together what people may have  
 (16) told you including lawyers but you don't know how Captain  
 (17) Hazelwood either brought it to the attention of Exxon Shipping  
 (18) Company or was caught do you one way or the other you  
 (19) don't  
 (20) know?  
 (21) A What I was told first through the memo of May 29th or  
 (22) whatever the date was 1985 from Ben Graves was that he  
 (23) Ben  
 (24) had found out and I don't know how that Hazelwood had  
 (25) turned  
 (26) himself in to a rehabilitation program subsequent to that  
 (27) Ben  
 (28) had had the conversation which was the - the point of the  
 (29) memo  
 (30) that he wrote to me

(1) You got a call from Exxon Corporation through Captain  
 (2) Pierce who said you have a problem I think you ought to get  
 (3) some help or work it out or -  
 (4) Yeah  
 (5) And at the time Mr. Graves was reporting Mr. Graves was  
 (6) investigating instances of drinking prior to going to South  
 (7) Oaks?  
 (8) Judging from the date of the report yeah  
 (9) So you didn't self-identify?  
 (10) Answer no  
 (11) You see that?  
 (12) A I'm reading it yeah  
 (13) Q Are you aware of - were you aware before you came in here  
 (14) today of that testimony?  
 (15) A Absolutely not  
 (16) Q You've also testified that you became aware of the fact  
 (17) that Captain Hazelwood was going through treatment I think it  
 (18) was just by chance? Do you recall that to the NTSB?  
 (19) A Well I found out about it from Graves who informed me of  
 (20) his discussion with Hazelwood after Hazelwood had  
 (21) completed the  
 (22) program and what Ben told me was that - try and recall the  
 (23) exact words Told me that Joe had turned himself in for  
 (24) rehabilitation  
 (25) Q Why don't you go to page 921 of your testimony before the  
 (26) National Transportation Safety Board Your testimony now is

Vol 18 2911

Vol 18 2913

(1) that - well let's read what your testimony was then  
 (2) Beginning on line 19 I'll read the question and then why  
 (3) don't you read the answer  
 (4) Question - how did you become aware of that after he got  
 (5) out? And what was your answer?  
 (6) A I said we learned through I think it was just by chance  
 (7) one - I believe the administrative manager had been trying  
 to  
 (8) get ahold of Captain Hazelwood and as I remember it had  
 (9) learned that he was in the hospital in New York Long Island  
 I  
 (10) believe it was, and tracing it down across this situation  
 (11) Q Now I'm going to state another proposition with regard to  
 (12) how you found out I'm going to tell - I'm going to say that  
 (13) you found out because of an investigation that was going on  
 (14) Okay? Not an investigation that happened after but you found  
 (15) out because of an investigation that was going on Would you  
 (16) agree with that statement or not?  
 (17) MR NEAL Your Honor could we approach the side  
 (18) bar?  
 (19) THE COURT I'll allow the question But simply a  
 (20) straightforward answer to nothing but that question  
 (21) THE WITNESS Yeah there was - Ben Graves was  
 (22) following up on a complaint  
 (23) BY MR O NEILL  
 (24) Q Would it be fair to say that the risk of Captain  
 (25) Hazelwood's continued use of alcohol brought in the question  
 of

(1) A Me personally?  
 (2) Q Yes sir  
 (3) A No  
 (4) Q Do you know or are you aware of whether Captain  
 Hazelwood  
 (5) after his rehabilitation in 1985 received any health advisory  
 (6) services from the medical department of Exxon U S A ?  
 (7) A I do not know  
 (8) Q Now you testified here today that this conversation that  
 (9) took place with Mr Graves dealt with the subject of depression  
 (10) and then some kind of associated drinking do you recall that  
 (11) testimony?  
 (12) A What - what I was told was that the actual symptom, I  
 (13) don't remember the medical term was a mild depression  
 and  
 (14) during the periods of mild depression Joe drank I think the  
 (15) term was excessive drinking  
 (16) Q You were told that he went through alcohol abuse  
 (17) treatment?  
 (18) A I was told he went through rehabilitation  
 (19) Q Alcohol abuse treatment?  
 (20) A I don't recall that  
 (21) Q Okay Let's go to page 76 of your deposition transcript  
 (22) The question is okay And he voluntarily went for alcohol  
 (23) abuse treatment in 1985? This is at line 10  
 (24) And your answer at line 12 was yes I learned that  
 (25) subsequently

Vol 18 2912

Vol 18 2914

(1) safety to the vessel?  
 (2) A I think the risk of anyone using alcohol or drugs while on  
 (3) duty brings in a safety question  
 (4) Q Let me ask - reask the question would it be fair to say  
 (5) that the risks of Captain Hazelwood's continued use of alcohol  
 (6) after 1985 was that it brought into question the safety of the  
 (7) vessel?  
 (8) A If it was on duty yes  
 (9) Q Let's go to your deposition transcript This is going to  
 (10) be a long day Let's go to page 87 of your deposition  
 (11) transcript line 15?  
 (12) A Yes  
 (13) Q And the question was and the risk of the using alcohol  
 (14) were what what were the risks if he continued to use alcohol?  
 (15) Answer well the risk if he continued to use alcohol was  
 (16) that it brought in the question whether he could discharge his  
 (17) responsibilities  
 (18) Question it brought in the question of the safety of the  
 (19) vessel?  
 (20) Answer yes  
 (21) Do you see that?  
 (22) A Yes  
 (23) Q You never received any report from the medical department  
 (24) of Exxon Shipping Company related to Captain Hazelwood up  
 and  
 (25) through the time of the grounding did you?

(1) Do you see that?  
 (2) A No I'm not with you  
 (3) Q Okay Page 76 of the deposition not the NTSB testimony  
 (4) A I'm on page 76  
 (5) Q And the question on line 10 is okay And he voluntarily  
 (6) went for alcohol abuse treatment in 1985?  
 (7) And your answer was yes I learned that subsequently  
 (8) Do you see that?  
 (9) A Yes  
 (10) Q And when you get over to the next page on line 9 now you  
 (11) say you learned of his going for alcohol abuse treatment six to  
 (12) eight weeks after he commenced it?  
 (13) Answer was yes I think it was late May when I first  
 (14) learned of it and I think his treatment started sometime in  
 (15) April  
 (16) Do you see that?  
 (17) A Yes  
 (18) Q I was interested when you said and you were talking about  
 (19) Ivan Mihajlovic and you testified Ivan Mihajlovic here in  
 (20) court said he heard a rumor in the fleet do you recall that?  
 (21) A Yes there are often rumors in the fleet  
 (22) Q But because of this rumor of Mihajlovic he went and did  
 (23) some investigation?  
 (24) A Yeah I believe it was the same rumor of Jim Shaw saying  
 (25) that Hazelwood was acting kind of crazy or kind of strange

Vol 18 2915

- (1) Q You talked at some length about this Shaw matter and I'd like you to go to 961 of your deposition transcript - I'm
- (2) sorry 961 of your NTSB testimony and the NTSB asked you when
- (3) you were under oath before the NTSB about whether you heard of
- (4) any allegations and the question put to you before the National
- (5) Transportation Safety Board was has Exxon Shipping ever been
- (6) made aware of allegations of Captain Hazelwood's drinking or
- (7) abuse or failure to follow any other company policies and your
- (8) answer was subsequent to rehabilitation no Is that what you
- (9) mean subsequent to rehabilitation do you see that?
- (10) **A Yes**
- (11) Q And the question concerned merely allegations of Captain
- (12) Hazelwood's drinking or abuse isn't that right?
- (13) **A Yes**
- (14) Q And that was the answer to the question you gave before the
- (15) National Transportation Safety Board when you were under
- (16) oath
- (17) isn't that correct?
- (18) **A That's correct**
- (19) Q And you did not mention the Shaw situation is that
- (20) correct?
- (21) **A Shaw situation mentioned nothing about alcohol**
- (22) **Somehow**
- (23) **what was reported to me he came back and he said**
- (24) **Hazelwood's**
- (25) **acting kind of strange**
- (26) Q Would it surprise you to know or would you be concerned if
- (27) indeed Mr. Shaw said and to use a term that you used today

Vol 18 2916

- (1) Hazelwood has fallen off the wagon?
- (2) **A That was not reported to me that way**
- (3) Q It wasn't?
- (4) **A No Absolutely not**
- (5) Q If indeed there was a report in the company that Hazelwood
- (6) had fallen off of the wagon that he was drinking on board the
- (7) vessel that there was a party on board the vessel in
- (8) Hazelwood's room those are serious allegations aren't they?
- (9) **A If those were the allegations they were serious**
- (10) **allegations yes**
- (11) Q And the people who were witnesses to that situation
- (12) participants in that situation under your company policy
- (13) should have been brought in and asked about them isn't that
- (14) right?
- (15) **A If it was known by company management yes**
- (16) Q And indeed if it was known by company management and
- (17) those
- (18) people weren't brought in and interviewed that's wrong isn't
- (19) it?
- (20) **A Clearly if anyone knows of drinking on board they**
- (21) **should**
- (22) **make it known to the supervisor yes The policy was clear**
- (23) **as**
- (24) **to that**
- (25) Q Were you aware of the agent - we had testimony from a
- (26) fellow who worked with your agent in Valdez Alamar Were you
- (27) aware that Exxon Shipping Company had an agent in Valdez
- (28) Alamar Alaska maritime agency?

Vol 18 2917

- (1) **A I learned after the grounding**
- (2) Q This fellow came in and testified I can't recall his name
- (3) but he testified that Captain Hazelwood had a reputation at
- (4) least among the Alamar employees as a drinker Are you
- (5) aware
- (6) at all of that?
- (7) **A No**
- (8) Q Now you testified and I - you may have misspoke on this
- (9) because this is not a subject that you know a lot about but in
- (10) the IDR just so you know I can't read this copy
- (11) Can we bring it up the IDR See if this is any better
- (12) Do you know whether on the IDR there's any notation as to
- (13) whether he's fit for duty or not?
- (14) **A I have never seen an IDR**
- (15) Q Okay So when you testified with regard to what in fact
- (16) is on the IDR you'd never seen the IDR Have you ever seen it
- (17) up to today other than the fact that it's before you?
- (18) **A I don't recall ever seeing it but certainly before the**
- (19) **incident I had never seen one**
- (20) Q Captain Hazelwood has testified here that no one from Exxon
- (21) Shipping Company told him not to drink that he resumed
- (22) drinking in 1986 and that he didn't hide it from anybody
- (23) Does that surprise you?
- (24) **A Yes**
- (25) Q Now you testified this morning that you had told your
- (26) subordinates to make sure that Captain Hazelwood completed
- (27) the

Vol 18 2918

- (1) rehabilitation plan?
- (2) **A The program**
- (3) Q The program Captain Hazelwood has testified that after
- (4) about a month or a month and a half he quit his aftercare
- (5) program Is that something that you would - his aftercare
- (6) program as prescribed by South Oaks Is that something that
- (7) you would have expected your subordinates or people under
- (8) their
- (9) control to follow up on to make sure that he completed his
- (10) aftercare program?
- (11) **A What I told Ben was to make sure that he was fit for duty**
- (12) **and that the medical department agreed with that or**
- (13) **concluded**
- (14) **with that evaluation**
- (15) Q My notes and I wrote them right here on my outline You
- (16) can see my outline is not much use to me but my notes this
- (17) morning were that you testified to make sure that he completed
- (18) his rehab plan Is that now not your testimony?
- (19) **A What I meant was that he went fully through the program**
- (20) **and**
- (21) **was declared fit for duty**
- (22) Q Now -
- (23) **A I'm talking about the program leading to a fit for duty**
- (24) **determination**
- (25) Q Do you know whether there is a fit for duty determination
- (26) in any of Exxon Corporation's or Exxon Shipping Company's
- (27) records anywhere?
- (28) **A I was told that he was declared fit for duty by his - by**

Vol 18 2919

Vol 18 2921

(1) his private physician and that the medical department  
concluded

(2) with that conclusion

(3) Q My question is do you know if there is a piece of paper  
(4) anywhere that documents that?

(5) A I do not know I don't know what the files are

(6) Q Do you know if there is a piece of paper anywhere in your  
(7) company or your then company Exxon Shipping Company  
that

(8) details any of this monitoring stuff anywhere?

(9) A I would be surprised if there is because we were trying to  
(10) handle it strictly confidential I didn't write anything  
(11) down

(12) Q You didn't write anything down?

(13) A No

(14) Q Sir was there a rehabilitation plan for Captain  
(15) Hazelwood?

(16) A There were two facets to -

(17) Q My question was was there a plan?

(18) A A written plan that said we do this and do that?

(19) Q That is right

(20) A No

(21) Q I want to if we could - your testimony also today was you  
(22) had directed your employees to make sure that there were no  
(23) signs that he was quote off the wagon lose quote do you  
(24) recall that?

(25) A Yes I told that to Ben Graves

(1) Q You didn't supervise the monitoring either did you?

(2) A I did not supervise the monitoring directly but I kept in  
(3) contact periodically with John Tompkins Dwight Koops,  
later

(4) Harvey Borgen and I left each of those contacts with the  
clear

(5) direction or direction to them that if they came across  
(6) anything of significance on this subject I was to be  
(7) informed

(8) Q Let's just take a look at your - you've been asked the  
(9) question it's deposition transcript

(10) MR NEAL What page?

(11) MR O NEILL I don't know We're going to play it on  
(12) the screen Is that coming up?

(13) (Portion of Video of Frank Iarossi played as follows)

(14) BY VIDEO EXAMINER

(15) Q And is it fair to say that other than the conversations  
(16) that you detailed to us you did not supervise the monitoring?

(17) A I was not a supervisor, I was the president of the  
(18) company

(19) (Portion of Video of Frank Iarossi concluded)

(20) BY MR O NEILL

(21) Q And the conversations you referred to there were  
(22) conversations you had with Harvey Borgen and Dwight Koops?

(23) A And John Tompkins yes

(24) Q Now I'd like to if we could go over some of your  
(25) policies Well let me just ask you while we're on this

Vol 18 2920

Vol 18 2922

(1) Q And -

(2) A Later to John Tompkins

(3) Q And if somebody's off the wagon it means they're drinking  
(4) again isn't that right?

(5) A That's what I meant yes sir

(6) Q So any drinking again he off the wagon you want to  
(7) know about it?

(8) A Yes sir

(9) Q And indeed if your employees Ben Graves Jim Shaw Andy  
(10) Martineau Harvey Borgen Herb Leyendecker if any of those  
(11) people knew or had reason to suspect or heard rumors that this  
(12) man was drinking again they should tell you shouldn't they?

(13) A Well, the management - the people that reported to me  
were

(14) Ben Graves John Tompkins Dwight Koops Harvey Borgen  
They

(15) were the people who communicated to me who reported to  
me and

(16) who I consulted with on this project The other people that  
(17) you talked about I had essentially no contact or very little  
(18) contact and no direct management contact I may have  
seen them

(19) in the halls

(20) Q You didn't actively participate in the monitoring program  
(21) at all yourself did you?

(22) A The two or three occasions during those management  
(23) conferences that I talked about and spoke about where I  
was in

(24) Joe's presence on and off for four or five days at a time

(25) That's the only opportunity I had

(1) subject

(2) Was an incident - did Mr Herb Leyendecker ever make a  
(3) report to you with regard to an incident in the Portland  
(4) Shipyard?

(5) A No

(6) Q With regard to Captain Hazelwood ordering beer over a  
(7) walkie talkie?

(8) A No

(9) Q Did anybody from the west coast fleet ever make a report to  
(10) you that beer was ordered over a walkie talkie and there were  
(11) Henry Weinhard's bottles found on board the Valdez and Henry  
(12) Weinhard's were ordered over the walkie talkie anybody report  
(13) that to you?

(14) A No

(15) Q At the time when Captain Hazelwood was on board the  
vessel

(16) anybody report that to you?

(17) A No First time I heard about it was after the grounding

(18) Q They should have reported it to you shouldn't they?

(19) A If there was any evidence yes

(20) Q And they should have reported it?

(21) A I instructed Harvey Borgen that anything out of the  
ordinary let me know

(22) Q And indeed your policies require that in situations where  
(23) there's allegations of alcohol use that's in violation of a  
(24) company policy drinking on ship that the suspect or the

(1) person in question is supposed to be questioned by two members

(2) of management isn't that right? Do you know what your policies dictate with regard to that?

(3) **A Perhaps I'd have to review it. I knew it required follow up but I can't tell you exactly what the follow up was.**

(4) Q Was a situation ever brought to your attention with regard to San Francisco Bay a week or two before the Valdez - a week before the Valdez started up north on its fateful voyage concerning a Marv Williamson and a Captain Redder?

(5) A No

(6) Q After this -

(7) **A Following subsequent to the grounding I heard about it at NTSB or something like that.**

(8) Q And should have been brought to your attention shouldn't it?

(9) **A If there was anything to it yes.**

(10) Q And it was reckless not to have if there was any substance to it?

(11) **A The instructions that I left with Harvey very clearly would have said that if - if he found out about any - any violation of company policy he had to let me know I had to be informed.**

(12) Q Now I want to go back to the time when you talked to Ben Graves and the concept of a rehabilitation plan. You were of the view that part of Captain Hazelwood's rehabilitation was to

(1) Q It's dated October of 1988?

(2) A Yes I have it

(3) Q And the section of the document that I'm interested in is the section that I've got highlighted on my copy which says post rehabilitation testing not addressed in current policy variation in application across company commonly done in industry aids successful rehabilitation recommendation revise guidelines to incorporate post rehabilitation testing do you see that?

(4) **A I'm not familiar at all with this document.**

(5) Q You've never seen the document before?

(6) A No

(7) Q Well let me ask you another question. Have you ever seen Defendants Exhibit 3683 which I've put up on the screen?

(8) **A I don't believe I ever saw this.**

(9) Q What's the management committee?

(10) **A That's Exxon Company U S A management committee which is the - the president of Exxon Company U S A and three or four senior vice presidents of Exxon Company U S A. I was not a member of the management committee.**

(11) Q With regard to people who violated the company's alcohol policy in 1985 you regularly terminated people who violated the company's alcohol policy didn't you?

(12) **A We had I believe from about 1982 to the time of the grounding**

(1) attend AA meetings when he was at home isn't that right?

(2) **A I - I don't believe I ever was told of any AA meetings or what it was. What I was told is that he was going on 90 day leave of absence during which he was going to attend AA meetings.**

(3) Q Did you tell the National Transportation Safety Board that to your knowledge part of his rehabilitation was to attend AA meetings when he was at home?

(4) **A During this 90 day period.**

(5) MR NEAL Page?

(6) MR O NEILL 926

(7) THE WITNESS The context I remember of Ben Graves discussion of AA was during this same first meeting. He said at that time Hazelwood was already out that he had requested 90 day leave of absence which we had granted and that he was going to be attending AA meetings while he was at home.

(8) BY MR O NEILL

(9) Q Now with regard to your company policies I want you to if you would to take a look at Exhibit 3617 Defendants Exhibit 3617 which is an Exxon document. Do you have that?

(10) And I'm going to -

(11) **A I'm going through.**

(12) Q I'll put the page up on the screen then and we can take a look at it the document so we can put it in date context.

(13) **A I have it.**

(1) Q 55?

(2) **A I was going to say about 37 terminations I think is what I recall. We had another 24 suspensions without pay for certain periods. Those are the statistics I remember over that seven year period.**

(3) Q So if in fact somebody was violating company policies with regard to drinking on vessels or returning to vessels drunk you had the power and in fact you did terminate them?

(4) **A Yeah the - the violations clearly were possessing or using alcohol on board or being impaired in the course of duties. Those were the two company violations. And where we found people drinking on board possessing alcohol on board or being impaired or intoxicated during duty, during a watch, then clearly we were not very easy on people and we terminated a number of people. Some of which by the way, were returned to the fleet after arbitration and arbitrators forced us to take them back.**

(5) Q But you did do it?

(6) **A Yes we were not easy on them.**

(7) Q And indeed it was the company's policy that if an employee's request for rehabilitation is made after the company's discovery of a violation of the policy the company will take disciplinary action which may include termination?

(8) **A That was our policy.**

(9) Q So if you got caught you were going to be subject to some

Vol 18 2927

Vol 18 2929

- (1) kind of disciplinary action and that disciplinary action could include termination?
- (2) A Yes
- (3) Q Does Captain Hazelwood's personnel file or any other company record that you're aware of reflect any adverse personnel action with regard to the Graves report?
- (4) A This occurred - this statement in this conversation between Ben Graves and Captain Hazelwood occurred after Hazelwood's rehabilitation
- (5) Q Could you answer my question?
- (6) A Would you ask it again?
- (7) Q Was there any adverse personnel action taken as a result of this?
- (8) A None was required
- (9) Q None was taken whether it was required or not?
- (10) A None was taken none was required
- (11) Q Now with regard to Captain Hazelwood's assignment to the Yorktown you discussed this anguish about that in point of fact you found out that Captain Hazelwood was assigned to the Yorktown four weeks after he was already on board the vessel didn't you?
- (12) A Yes I think it was in September
- (13) Q And when you found out you were upset?
- (14) A I was upset that I hadn't been told beforehand
- (15) Q And with regard to his reassignment to the Valdez you were

- (1) shipping company to meet with the man and in order to make that determination as to whether he was fit for duty I would get - that would entail a lengthy heart searching conversation to get to the bottom of what happened how he was now his treatment his rehabilitation?
- (2) A I didn't specify
- (3) Q Whether it would be perfunctory or detailed careful or not careful?
- (4) A I think a face to face meeting would have helped us understand whether Joe was clear whether he understood whether he recognized the problems he had and clearly one of the things we were looking for is would he in fact - was he out of the denial phase
- (5) Q Was he clear?
- (6) A Was he clean
- (7) Q Was he clean was he out of the denial phase and that's what - those are the subjects that you wanted your people to go into when they had this face to face with him before he was reassigned to the Yorktown that's what you expected of them?
- (8) A I didn't spell it out in detail
- (9) Q But that's what you expected?
- (10) A Yes
- (11) Q Just good common sense care care for the individual care for the situation carefulness?
- (12) A Yes

Vol 18 2928

Vol 18 2930

- (1) told that after the fact?
- (2) A Yes
- (3) Q After he was on board the vessel?
- (4) A Yes
- (5) Q And you were quote shocked?
- (6) A I was surprised that he had been re assigned without them informing me without either Harvey or Dwight informing me
- (7) Q I want to go back to if we could for a minute our earlier discussion about aftercare Was it your understanding that after the 60 day outpatient period Captain Hazelwood would be evaluated again?
- (8) A I did not know that Other than the fact that - that I wanted somebody in the shipping company to - to interview Joe and make a decision that - that he was fit for duty if that's what you mean clearly that's what I wanted
- (9) Q Let's go - do you know that following the inpatient treatment there would be a 60 day outpatient period and then he would be evaluated at that point?
- (10) A I don't know if there was a medical evaluation or whether his physician - the evaluation I wanted was for somebody in the shipping company before we gave him an assignment was to meet with him and clearly make a decision based on that face to face meeting that he was fit for duty Irrespective of what the doctor said
- (11) Q Okay And what kind of - you wanted somebody from the

- (1) Q What is the denial phase? You used the expression denial phase What is that?
- (2) A I'm not a - I don't have a medical background at all I - the little I know about - about rehabilitation is that the first sign you look for is does the individual acknowledge that he has the problem And it's important - apparently an important outcome of rehabilitation is that the individual acknowledges that there was a problem and that he has to now address it That is what I understand the denial phase - or getting out of the denial phase
- (3) Q Getting out of the denial phase Somebody is open about their problem and is talking about it working on it that's getting out of the denial phase?
- (4) A Yes as I understand it
- (5) Q If it had been brought to your attention that Captain Hazelwood had had a prescribed aftercare treatment program and he had quit going to that would that have given you cause for concern?
- (6) A If I understood it was a mandatory part of his program he wasn't following I think I would have been a little concerned
- (7) yes I would certainly ask some questions
- (8) Q Now you related to us a discussion that you had with Mr. Graves about the Federal Disabilities Act?
- (9) A Yes
- (10) Q You did not go to your lawyers and say hey lawyers with

Vol 18 2931

1 regard to Captain Hazelwood tell me what the law is about  
 2 that did you?  
 3 A No Ben told me he had conferred with the Exxon lawyers  
 4 and that was the opinion of the Exxon lawyers  
 5 Q So we ought to ask Ben then as to whether he conferred  
 6 with them and if neither you nor he conferred with the Exxon  
 7 lawyers about this particular topic and a decision was made on  
 8 this assumed law that nobody ever asked about something  
 9 wrong right? You expected him to take care of it for you?  
 10 A He was my expert on -- on employee relations matters  
 11 including contact with law and if he told me that that was  
 12 the  
 13 opinion of the Exxon lawyers I believed him  
 14 Q And at that point in time while you were having this  
 15 discussion with Mr Graves you knew that if you caught  
 16 somebody in violation of company policy with regard to alcohol  
 17 you could terminate them and you did?  
 18 A If we -- if it was a clear case where we could prove  
 19 violation of the policy we did I believe on 37 occasions  
 20 Q Now I do want to ask you a question or two about the press  
 21 release I wasn't going to ask you about it but after  
 22 Mr Neal's introduction if I don't people will think I'm not  
 23 doing my job  
 24 MR NEAL We won't If you want to just move along  
 25 I'll withdraw that invitation to you I wasn't trying to bait  
 26 you Mr O'Neill

Vol 18 2932

1 MR O NEILL Do we have that? Can you pull that up  
 2 for me?  
 3 MR NEAL Plaintiffs Exhibit 173  
 4 BY MR O NEILL  
 5 Q Here is Plaintiffs Exhibit 173 Is that the press  
 6 release?  
 7 A I believe so  
 8 Q And you cleared the press release didn't you?  
 9 A I authorized its release  
 10 Q And in the press release there is a statement Frank  
 11 Larossi president of Exxon Shipping Company said that the  
 12 decision to terminate the employee was made because he  
 13 violated  
 14 company policy concerning alcohol do you see that?  
 15 A Yes  
 16 Q And that was what you told the world about why you fired  
 17 Captain Hazelwood?  
 18 A It was the press release yes  
 19 Q Now with regard to this topic -- because you talked to the  
 20 core group of Exxon Shipping Company officers in the summer  
 21 of  
 22 fall of 1989 do you recall that?  
 23 A I believe I had a meeting with a group of officers  
 24 Q And it was -- was it to -- among other things address the  
 25 Exxon Valdez situation?  
 26 A We certainly talked about that as part of your lessons  
 27 learned and how to make sure it doesn't happen again

Vol 18 2933

1 Q It has been reported to us here by one of the participants  
 2 in the conference that you made a statement to the following  
 3 effect that you couldn't believe that they had spent the  
 4 afternoon in Valdez at a number of bars Did you make that  
 5 statement?  
 6 A I don't believe I made that statement no  
 7 Q You deny it?  
 8 A I don't recall making that statement  
 9 Q Okay Now were you disappointed and outraged that an  
 10 officer in such a critical position would have jeopardized the  
 11 ship crew and the environment through such actions?  
 12 A I was very angry I guess I could certainly use the word  
 13 outraged Outraged at the fact that the vessel was -- had  
 14 grounded the fact that there were 32 square miles of oil all  
 15 over Prince William Sound the fact that I was spending five  
 16 hours a day in front of the press answering questions I  
 17 was -- I was outraged  
 18 Q You still can't get away from answering questions today  
 19 can you?  
 20 A No  
 21 Q And I'm interested in the second paragraph the last  
 22 paragraph where it says critical position you see that?  
 23 A I -- yes I see critical position  
 24 Q Is a ship captain a critical position?  
 25 A With regard to operation of the vessel he is the most

Vol 18 2934

1 critical member of the crew With regard to operation of  
 2 that  
 3 vessel yes  
 4 Q And indeed he was also part of the management team and  
 5 part of management wasn't he?  
 6 A He was part of the management of that vessel He was  
 7 not  
 8 part of Exxon Shipping Company management He had no  
 9 responsibilities outside of that vessel when he was on  
 10 board  
 11 that vessel  
 12 Q With regard to the vessel wasn't it a major program of  
 13 yours as related in Surrendering the Memories to turn the  
 14 ship captains from people who drove boats into people who  
 15 participated in the management of this vessel as an economic  
 16 unit?  
 17 A Actually went well beyond the ship master It included the  
 18 entire what we call the shipboard management team was  
 19 the --  
 20 the senior officers the four senior officers assigned to the  
 21 vessel at that time and then their counterparts so there  
 22 were  
 23 really eight They formed what we call the shipboard  
 24 management team and their role was to manage the  
 25 activities of  
 26 that vessel  
 27 Q So we had four members of this management team who  
 28 managed  
 29 this vessel as a business unit economic unit safety unit for  
 30 Exxon Shipping Company?  
 31 A They were responsible for the safety and whatever took  
 32 part They weren't responsible -- I have to hedge on

Vol 18 2935

- (1) economics because they weren't responsible deciding what
- (2) cargos they carried or what rates they got for it
- (3) Q No but within the context of safety?
- (4) A Yes They were responsible for the safety of the vessel
- (5) yes
- (6) Q And they were also responsible for within the context of
- (7) safety getting the vessel moving being - being prudent with
- (8) regard to ship stores that were put on - not put on the
- (9) management of the personnel on the vessel all those kinds of
- (10) things?
- (11) A Yes
- (12) Q And one of your contributions as the president of Exxon
- (13) Shipping Company was through the years to upgrade these
- (14) guys
- (15) from ship drivers to this management team?
- (16) A Yes We were trying to give them a broader perspective
- (17) and
- (18) understanding of their - of their role as it related to all
- (19) facets safety safe operation
- (20) Q And at the time of the grounding of the Exxon Valdez you
- (21) had a member of this management team and indeed the key
- (22) manager
- (23) of the vessel who violated his duty under your policy manual
- (24) when he left the bridge?
- (25) A The - yeah the bridge navigation manual in my view
- (26) required his presence there I here are other opinions who
- (27) say,
- (28) no My opinion is -
- (29) Q I understand at that time -

Vol 18 2936

- (1) A - opinion he should have been on the bridge
- (2) MR NEAL Let him finish Mr O'Neill
- (3) BY MR O NEILL
- (4) Q Are you finished sir? I wasn't trying to cut you off
- (5) Are you finished?
- (6) A Yes
- (7) Q So we have a management team member who in your
- (8) opinion
- (9) violated the bridge policy manual by leaving the bridge?
- (10) A In my opinion one of the circumstances - the
- (11) circumstances of the vessel were in - were one of those
- (12) circumstances which required his presence on the bridge
- (13) Q And the reason for that is - to you - can have four eyes on the
- (14) bridge instead of two?
- (15) A That's true
- (16) Q And in fact there weren't four eyes on the bridge instead
- (17) of two?
- (18) A That's correct
- (19) Q And the vessel ran aground without the help and
- (20) assistance of this additional pair of eyes?
- (21) A In my view it was a contributing factor
- (22) MR O NEILL Thank you I'm going to quit while I'm
- (23) ahead okay?
- (24) I could go on for hours but they've heard it before and
- (25) he's heard it before and thank you sir
- (26) THE COURT Mr Neal'

Vol 18 2937

- (1) MR NEAL Well notwithstanding that stack of papers
- (2) that wasn't so bad was it Mr Iarossi?
- (3) THE WITNESS No
- (4) MR NEAL I'm going to be as kind I believe
- (5) REDIRECT EXAMINATION OF FRANK IAROSSI
- (6) BY MR NEAL
- (7) Q You talked about management of the ship management
- (8) team of
- (9) the ship Was Captain Hazelwood a part of the management of
- (10) Exxon Shipping Company?
- (11) A No not at all He took part in no decisions or
- (12) conferences or meetings on anything other than that ship
- (13) Q You're talking about saying you know don't be a driver of
- (14) the vessel think about all aspects of the vessel but only
- (15) that vessel that's what you're talking about?
- (16) A Yes sir
- (17) Q All right Now then you - this press release talked
- (18) about violation of alcohol policy or - what - what was that?
- (19) PX173 could we have that again? Maybe I can read this This
- (20) fine print I believe it may be easier to do this
- (21) Failed - something about termination followed the
- (22) announcement by government investigators that the employee
- (23) had
- (24) failed the blood alcohol test administered on the Exxon Valdez
- (25) last Friday
- (26) Was this press release or the writing of this press release
- (27) relying on these tests that we've discussed in court here for

Vol 18 2938

- (1) so long now to your knowledge?
- (2) A Yes The results of the tests and the public furor
- (3) after - following it in my view prompted the release I had
- (4) no intention of terminating Joe Hazelwood's employment
- (5) until I
- (6) talked to him and that's what I steadfastly held out for
- (7) Q This press release came after the government and
- (8) ChemWest
- (9) and all these people came out with this so called blood alcohol
- (10) test content right?
- (11) A Yes In my view it preempted what I was trying to do
- (12) Q Let me see that transcript page 87 deposition page 87
- (13) You said that in answer to Mr O'Neill's question that you did
- (14) not supervise Captain Hazelwood's monitoring
- (15) Was there any other master in your career at Exxon Shipping
- (16) Company that you told them to give me regular reports on?
- (17) A No
- (18) Q Just Captain Hazelwood?
- (19) A Yes
- (20) Q Now you were also asked by Mr O'Neill to look at page 86
- (21) of your deposition and see if this question wasn't asked and
- (22) these answers given okay?
- (23) Question okay And the risk of his using alcohol were
- (24) what what were the risks if he continued to use alcohol
- (25) continued to use alcohol?
- (26) Answer well the risk if he continued to use alcohol was
- (27) it brought into question whether he could discharge his

Vol 18 2939

Vol 18 2941

- (1) responsibilities  
 (2) Question it brought in the question of safety of the vessel?  
 (3) vessel?  
 (4) And you answered yes  
 (5) What was not read is this  
 (6) Question okay And the risk of - risks of not returning  
 (7) him were that it would be a signal to others who might have a  
 (8) problem not to seek help on their own is that correct?  
 (9) And your answer in a long way was yes that's correct  
 (10) Were you asked those questions and gave those answers?  
 (11) A Yes  
 (12) Q So you were weighing the risk again as you discussed now?  
 (13) A It's the same answer I tried to give earlier about the different risks  
 (14) different risks  
 (15) Q One more question I believe In talking about Joe  
 (16) Captain Joe Hazelwood and - and monitoring and so forth one  
 (17) more time Did you intend that he be monitored while he's at  
 (18) home?  
 (19) A No  
 (20) MR NEAL Thank you Thank you Mr Jarossi  
 (21) THE COURT Thank you sir  
 (22) MR O NEILL You've got to go sir I don't get  
 (23) another chance  
 (24) THE COURT You may step down sir Thank you  
 (25) MR SANDERS May it please the Court our next

- (1) Q Do you remember about what time that was?  
 (2) A I went in oh I guess about six o'clock  
 (3) Q And that would have been six p.m.?  
 (4) A Yeah 1800  
 (5) Q Could you tell me when you were returning did you take a  
 (6) taxicab to return to the ship?  
 (7) A Yes  
 (8) Q About what time was that?  
 (9) A Between eight 2000 and 2013 2030  
 (10) Q Where did you catch the taxicab at?  
 (11) A At the Pipeline Cafe or whatever it is in Valdez  
 (12) Q When you got into the taxi were there already other  
 (13) people fares in the taxi?  
 (14) A Yes  
 (15) Q And do you remember how many there was?  
 (16) A I think there were three I'm not certain It might have  
 (17) been four  
 (18) Q When you - where did you sit in the cab?  
 (19) A Tail end Charlie They have a reverse seat facing aft and  
 (20) I was the only one in that  
 (21) Q Then there were two people just in front of you that would  
 (22) be facing forward?  
 (23) A I think so  
 (24) Q And -  
 (25) A It might have been three

Vol 18 2940

Vol 18 2942

- (1) witness is Mr Alan McGregor and in order to be able to  
 (2) present Mr McGregor we are presenting questions and  
 (3) answers  
 (4) read back and forth a taped interview not a deposition a  
 (5) taped interview and the interview occurred on March the 27th  
 (6) 1989 at 9 30 p.m.  
 (7) THE COURT Go ahead  
 (8) MR SANDERS I think we should still swear the  
 (9) witness  
 (10) THE COURT Do the same drill that he should well and  
 (11) truly read the answers  
 (12) THE CLERK Raise your right hand please  
 (13) (The Witness Is Sworn)  
 (14) THE CLERK For the record state your full name  
 (15) address and spell your last name please  
 (16) THE WITNESS Martin Casey New York New York  
 (17) C A S E Y  
 (18) THE CLERK Thank you  
 (19) DIRECT EXAMINATION OF ALAN MCGREGOR (Read)  
 (20) BY MR SANDERS  
 (21) Q Mr McGregor who do you work for?  
 (22) A Arco Marine Inc  
 (23) Q And what ship are you attached to right now?  
 (24) A Arco Independence  
 (25) Q And on Thursday night did you go into town into Valdez?  
 (26) A Yes

- (1) Q You're not sure where the other three people were sitting?  
 (2) A I think there were three people One in the front seat  
 (3) with the driver and two in the immediately rear seat but I'm  
 (4) not sure It might have been four I don't think so but  
 (5) I'm - I'm not - I'm not trying to get in where I know is a  
 (6) case after the fact  
 (7) Q Right right I want just from your memory not possibly  
 (8) what somebody else said or anything else what you know?  
 (9) A Yeah  
 (10) Q The two people that were sitting in front of you is there  
 (11) anything you remember about them as far as the type of  
 (12) clothes  
 (13) they wore whether they wore glasses were tall short had a  
 (14) beard mustache anything like that? Is there -  
 (15) A Nothing at all It was dark I really couldn't see them  
 (16) that well and I wasn't that interested  
 (17) Q Did you - were they talking among themselves?  
 (18) A Yes  
 (19) Q Did they say anything that you heard?  
 (20) A No I could hear their voices but I wasn't - as I say I  
 (21) was not interested I put my head back and dozed  
 (22) Q How long did it take you to get from Valdez out to the  
 (23) terminal?  
 (24) A Oh I suppose 20 minutes  
 (25) Q The normal ah -  
 (26) A Half an hour I don't know

Vol 18 2943

- (1) Q The normal procedure once you get to the gate here coming  
 (2) out to where the ship is - well why don't you just tell me  
 (3) what happens there  
 (4) A Well, this was - this was a new - it was a new situation  
 (5) to me I - the cab driver got out and opened the back door  
 SO  
 (6) I can get out, and I gave my identification card to the guard  
 (7) and he gave it immediately back Usually in the past we  
 have  
 (8) all given - all the occupants in the cab have given their  
 (9) cards their Z cards or what have you to the driver and gone  
 (10) through the metal detector or what have you and have them  
 given  
 (11) back to the driver This time it was changed We gave our  
 (12) Z cards to the guard and he gave them immediately back  
 Then  
 (13) we went through the metal detector got back in the cab and  
 (14) went on our way  
 (15) Q All - all of you did that?  
 (16) A As far as I can remember yeah  
 (17) Q When you were in the cab was there anything you noticed  
 (18) as far as whether the other people had been drinking?  
 (19) A No  
 (20) Q I'm not saying that they were drunk but had they been  
 (21) drinking?  
 (22) A No I have no occasion to notice any - they - the other  
 (23) people seemed to be perfectly standard type people coming  
 back  
 (24) to the ship I didn't know who they were or I - I had no  
 (25) occasion to remark on their condition one way or the other

Vol 18 2944

- (1) Q So there was nothing that stood out to you as far as any  
 (2) of the other people?  
 (3) A No  
 (4) Q And you didn't talk to any of the other people during  
 (5) this -  
 (6) A Well I think I probably said hello and thank you or one  
 (7) thing or another  
 (8) Q Who did they let out - they let them out first?  
 (9) A No I was first out  
 (10) Q You were out first and they went to -  
 (11) A Yeah I was surprised at that because I was dozing and I  
 (12) thought - I don't know why I thought it but I thought that  
 (13) they were from the other ship that's still here and when the  
 (14) cab stopped I was told it was berth 4 okay I got out  
 (15) Q When they paid for the bill were you in the cab when they  
 (16) paid for their part of the bill?  
 (17) A No  
 (18) Q You paid yours?  
 (19) A Yeah  
 (20) Q Just about when they were in this security building when  
 (21) you were in the security building going through the metal  
 (22) screen or whatnot were you right with the other three guys  
 (23) where you might observe them walking and moving in there ah  
 (24) or were you alone?  
 (25) A I was in their company but not with them

Vol 18 2945

- (1) Q You were in the same general area?  
 (2) A Yes  
 (3) Q The point is did you have an opportunity to see them if  
 (4) they were ah stumbling or whatever or did you not even have  
 (5) the opportunity to see them?  
 (6) A Oh I had the opportunity to see them but I think -  
 (7) but - and I think I'm not sure but I - as I said to the  
 (8) security man last night I had nothing to cause me to notice  
 (9) what they were doing  
 (10) Q Nothing triggered your interest?  
 (11) A No  
 (12) Q You -  
 (13) A They behaved like people coming back to a ship  
 (14) Q You had went off for I believe approximately two hours?  
 (15) A Yeah two two and a half something like that  
 (16) Q Did you - well when you were downtown did you drink?  
 (17) A Oh, yeah  
 (18) Q Did you have anything to drink that night?  
 (19) A Of course  
 (20) Q Did you - would it be like one drink or two drinks?  
 (21) A Oh, I may have had three or four I don't know  
 (22) Q But still there wasn't anything noticeable to you about  
 (23) the other three?  
 (24) A No  
 (25) Q Is there anything that you can think of that you would want

Vol 18 2946

- (1) to say before I turn the tape recorder off?  
 (2) A About their condition or - or -  
 (3) Q Anything? Or if you have a question?  
 (4) A The only thing I can remember that actually had to be  
 (5) brought to my attention last night when the security guys,  
 they  
 (6) had a couple of pizzas with them When I climbed into the  
 (7) backs seat I was careful not to sit on one  
 (8) Q Okay I'm going to conclude the tape at 9:21 p.m.  
 (9) A Fine  
 (10) MR SANDERS Good timing Your Honor  
 (11) THE COURT Good timing and especially when they  
 (12) start discussing pizzas again  
 (13) Ladies and gentlemen -  
 (14) MR NEAL Makes you hungry about 12:00  
 (15) THE COURT We'll take our second recess at this  
 (16) point Would counsel standby at this point? There are a  
 (17) couple things I want to say to counsel  
 (18) (Jury out at 12:02 p.m.)  
 (19) THE COURT When we conclude at 2:00 this afternoon I  
 (20) want to meet briefly in chambers with as few people as possible  
 (21) but enough to cover three subjects One where we're going to  
 (22) go from here with the procedure for finalizing jury  
 (23) instructions  
 (24) Point number two that I want to discuss is a couple of  
 (25) appeals that have been taken from discovery master order 247

Vol 18 2947

Vol 18 2949

1 And then I have a copy of request for Plaintiffs Exhibits  
 2 that s been made by a nonparty and I want to discuss that with  
 3 whoever from you all s sides that will have some information  
 4 about duplicating exhibits  
 5 We ll be in recess now for 15 minutes  
 6 MR NEAL Your Honor could we have that ruling  
 7 again the number of the -  
 8 THE COURT Discovery master 247  
 9 MR NEAL Thank you  
 10 THE COURT We ll be in recess for 15 minutes  
 11 (Recess at 12 03 p m )  
 12 (Jury in at 12 18)  
 13 MR NEAL We call Mr Harry Jack Claar  
 14 THE CLERK Would you raise your right hand please  
 15 (The Witness Is Sworn)  
 16 THE CLERK For the record sir state your full name  
 17 address and spell your last name  
 18 THE WITNESS Harry Lamoyne Claar Box 7673 Incline  
 19 Village Nevada  
 20 DIRECT EXAMINATION OF HARRY CLAAAR (Live)  
 21 BY MR NEAL  
 22 Q Is it Mr Claar or Mr Claar?  
 23 A Claar  
 24 Q Mr Claar I m going to set a record with you on the  
 25 fastest on and of the stand of this trial

1 today?  
 2 A Yes sir  
 3 Q Captain Hazelwood Greg Cousins and you and for a brief  
 4 period of time the pilot is that correct?  
 5 A Yes  
 6 Q The record reflects in this case that the pilot got off  
 7 about around 11 20 okay? Now during the ten - during the  
 8 hour period that you were on the bridge with Captain  
 Hazelwood  
 9 did you see - did he give you orders?  
 10 A Yes  
 11 Q All right Tell us quickly what orders he gave you  
 12 A We had a course change from 219 to 200 and from 200 to  
 13 180  
 14 Q He gave you from 219 he said come to 200?  
 15 A 200 yes  
 16 Q 200 and then he later on said come to 180 degrees?  
 17 A Yes  
 18 Q That s the course you were on right?  
 19 A Yes  
 20 Q Did he give you any other orders?  
 21 A He instructed me when I came steady up on 180 to put it  
 on  
 22 the mike  
 23 Q Put it on the mike what does that mean? We ve talked  
 24 about here the mike the gyro the automatic pilot To put the  
 25 vessel on automatic pilot right?

Vol 18 2948

Vol 18 2950

1 You re a seaman right?  
 2 A Yes  
 3 Q You re now employed by Arco?  
 4 A Yes  
 5 Q As of the date of grounding in this case you were employed  
 6 by Exxon Shipping Company?  
 7 A Yes  
 8 Q And you were on the grounding voyage?  
 9 A Yes  
 10 Q All right From - from 10 50 to approximately 11 50 you  
 11 were on the bridge of the Valdez is that correct?  
 12 A Correct  
 13 Q And you had the - you so called had the helm is that  
 14 right?  
 15 A Yes  
 16 Q And the helm as you re standing right here - I m pointing  
 17 now to Defendants Exhibit 225 correct?  
 18 A Yes  
 19 Q You re standing there with the wheel Okay Who else -  
 20 during that approximate hour period who else was on - who  
 21 else was on the bridge with you?  
 22 A The third mate Greg Cousins pilot and the captain  
 23 Q Captain Hazelwood?  
 24 A Yes  
 25 Q You recognize Captain Hazelwood in the courtroom here

1 A Automatic pilot yes sir  
 2 Q To put a vessel on automatic pilot what do you do?  
 3 A Steady up on the course and there s a couple of buttons  
 on  
 4 the bridge there that - they re on the console there that you  
 5 push  
 6 Q Okay Is it fair to say to put a vessel - when you steady  
 7 up to 180 degrees to put a vessel on the mike or put it on  
 8 automatic pilot you punch this button right here?  
 9 A I don t know I can t read that what s there  
 10 Q Well it s on this - what do you call it up here?  
 11 A Okay That s looks familiar  
 12 Q Any event you punch a button?  
 13 A Yes  
 14 Q And it goes to automatic pilot instantly?  
 15 A Yes  
 16 Q And then you punch a button to take it off?  
 17 A Yes  
 18 Q And it comes off instantly?  
 19 A Yes  
 20 Q Can you read that button right - I can t read it either  
 21 You punch a button take it off?  
 22 A Yes  
 23 Q Were Captain Hazelwood s orders crisp clear?  
 24 A Yes they were -  
 25 Q Authoritative?

Vol 18 2951

- (1) A - clear Yes  
 (2) Q During the time you were on the bridge - during the time  
 (3) you were on the bridge with Captain Hazelwood in addition to  
 (4) issuing orders crisp clear authoritative did you see any  
 (5) sign whatsoever of any impairment?  
 (6) A No  
 (7) Q You had a chance to observe him?  
 (8) A Yes  
 (9) Q All right Matter of fact you were standing here tell  
 (10) me - Captain Hazelwood I believe you said was all around  
 (11) here walking by you coming over to the port radar going to  
 (12) the starboard radar et cetera?  
 (13) A Yes  
 (14) Q All right Did you - did you see any difference  
 (15) whatsoever in captain - strike that  
 (16) Were you with Captain Hazelwood on the way in on - to  
 (17) Valdez on the 22nd March 22nd?  
 (18) A Yes  
 (19) Q Did you see any difference whatsoever in Captain  
 Hazelwood  
 (20) between the time you were with him on March 22nd and the  
 hour  
 (21) you were with him from 10 40 - 10 50 to 11 50 on March 23 on  
 (22) the outward voyage?  
 (23) A No  
 (24) Q At the request of Mr Chalos I will ask you You said you  
 (25) saw no sign of any impairment was his speech slurred in any

Vol 18 2952

- (1) way?  
 (2) A No  
 (3) Q Was his movements unsteady?  
 (4) A No  
 (5) MR NEAL Thank you Mr Claar  
 (6) THE COURT You may cross examine  
 (7) MR O NEILL Thank you Judge  
 (8) CROSS EXAMINATION OF HARRY CLAAAR  
 (9) BY MR O NEILL  
 (10) Q You left the employ of Exxon Shipping Company some  
 months  
 (11) after the grounding?  
 (12) A Yes  
 (13) Q And you work for Arco now?  
 (14) A Yes  
 (15) Q Before you sailed with Captain Hazelwood you knew that he  
 (16) had a reputation as a partier didn't you?  
 (17) A I had heard that  
 (18) Q And this evening when you were on the bridge with him  
 (19) would it be fair to say that at no time did you get close to  
 (20) him?  
 (21) A I don't know what you mean by close to him How close is  
 (22) close?  
 (23) Q I don't know Let's go to your National Transportation  
 (24) Safety Board testimony and see what you meant when you said  
 (25) that?

Vol 18 2953

- (1) A Okay  
 (2) Q They asked you to same question when you appeared before  
 (3) the National Transportation Safety Board It's page 237 and  
 (4) it's at lines 15 and 16 Do you see that?  
 (5) A Yes  
 (6) Q And when you were before the National Transportation  
 Safety  
 (7) Board the question was directly asked to you did you get  
 (8) close to him at any time and you answered no?  
 (9) A Okay  
 (10) Q You see that? And then the question was asked and that was  
 (11) the answer that you gave isn't that right?  
 (12) A That was the answer that I gave  
 (13) Q And you were under oath at that time?  
 (14) A Yes  
 (15) Q Now you testified here today that Captain Hazelwood asked  
 (16) you to put it steady up on 180 and put it on mike is that  
 (17) correct?  
 (18) A Yes  
 (19) Q And when he said put it on mike he meant on the autopilot  
 (20) or the auto gyro?  
 (21) A Right  
 (22) Q And at the time you thought that was a little unusual  
 (23) didn't you?  
 (24) A Yes  
 (25) Q Because in your experience it was unusual to put it on mike

Vol 18 2954

- (1) while -  
 (2) MR NEAL Your Honor if he's going to take him over  
 (3) as his witness he must quit the leading I merely asked him  
 (4) as a fact witness  
 (5) MR O NEILL He testified about the putting it on  
 (6) mike  
 (7) MR NEAL I withdraw the objection I withdraw the  
 (8) objection  
 (9) THE COURT Thank you thank you Go ahead  
 (10) BY MR O NEILL  
 (11) Q You thought it was unusual because from your experience  
 (12) it was unusual to put it on mike while you were still in Prince  
 (13) William Sound is that right?  
 (14) A Yes  
 (15) MR O NEILL Thanks  
 (16) THE WITNESS That's it?  
 (17) MR O NEILL Yes sir  
 (18) THE COURT Unless Mr Neal has something further  
 (19) Mr Neal anything further?  
 (20) MR NEAL Yeah just - just one question  
 (21) Would you put the bridge up - never mind Never mind  
 (22) Never mind  
 (23) No further questions  
 (24) THE COURT Thank you Mr Claar  
 (25) MS STEWART Defense calls -

Vol 18 2955

THE COURT I'm sorry I didn't -  
 MS STEWART - Edward Murphy by deposition  
 testimony  
 THE COURT Thank you  
 THE CLERK Raise your right hand sir  
 (The Witness Is Sworn)  
 THE CLERK For the record sir state your full name  
 your address and spell your last name  
 THE WITNESS Michael Silver S I L V E R and I'm  
 from Houston Texas  
 THE CLERK Thank you  
 DIRECT EXAMINATION OF WILLIAM MURPHY (Read)  
 BY MS STEWART  
 Q Would you please state your full name and spell your last  
 name?  
 A William Edward Murphy M U R P H Y  
 Q Mr Murphy I see you brought a copy of the trip tickets of  
 the Southwest Alaska Pilots used for billing purposes today  
 With the small print is the pilotage clause - what's known as  
 the pilotage clause statement of liability limitations It's  
 hard to read but is that correct? Is it the back of the  
 ticket?  
 A That is the back there Each trip ticket there's a white  
 cover and two - I don't know if you call them carbons  
 anymore  
 we don't actually use carbon Under the white ticket is a

Vol 18 2956

yellow and a pink and we write on the white of course and  
 it  
 goes through to the yellow and the pink After the master  
 signs we deliver the pink copy to him We send or take to  
 our  
 office the white and yellow copies which are used I believe  
 one copy is retained in our records and the other copy is  
 sent  
 along with the bill to the shipper  
 On the back of each of those individual pages is the thing  
 you're referring to  
 Q And this ticket it's signed What are the two  
 signatures?  
 A The upper signature in this case is mine or whomever the  
 pilot would be and the lower signature is the master's  
 signature In this case Captain Hazelwood  
 Q And were they both signed this is the inbound transit  
 3/22/89?  
 A Yes both of those are signed  
 Q Shall I call it the Southwest Alaska Pilots Association  
 ticket would that be correct or what do you call it?  
 A Trip ticket probably  
 Q Okay Trip ticket Okay And that's DX3460 There is a  
 ticket for the outbound transit is that correct?  
 A Yes sir That's correct  
 Q And it's similar to this and - and with your signature and  
 Captain Hazelwood's?  
 A Correct

Vol 18 2957

Q It will be marked DX3461 As to the timing of the signing  
 when and where does it take place on March 22nd?  
 A Well generally speaking when the pilotage is completed  
 and before the pilot disembarks the vessel whether  
 inbound or  
 outbound we ask the master to sign the trip slip In some  
 cases the pilot has filled out the upper part of the trip slip  
 sometime during the transit and the master may just see it  
 laying there and he'll sign it prior to the pilot getting off  
 Sometime during the transit but always before the pilot  
 disembarks the master signs it  
 Q In your recollection as to the outbound transit slip  
 DX3461 when was that signed by Captain Hazelwood?  
 A Well I have to say I think just prior to my getting off  
 but I cannot remember observing him sign the trip slip so I  
 can't say with any precision  
 Q As a professional pilot for Prince William Sound do you  
 feel that it's part of your responsibility to be familiar with  
 the operation of the VTS system?  
 A Yes I do  
 Q Could you tell me sir based on your experience or what  
 your understanding is of the purpose of the VTS system how it  
 works?  
 A My understanding it was established for the purposes of  
 safety It's to advise vessels of traffic and to provide radar  
 surveils and alert them if they stray out of whatever  
 navigable

Vol 18 2958

bounds the Coast Guard has set That's my understanding  
 Q And is there any particular reason why it was the summer of  
 1977 when this system was put into place?  
 A Well it was put into place to coincide or precede by a  
 short time the opening of the TransAlaska Pipeline terminal  
 Q What's your understanding as a pilot of the range of the  
 radar monitors which were in effect as of the time of this  
 accident?  
 A There are two Were I believe and still are two radar  
 scanners One is on the breakwater at the tower of Valdez  
 at  
 the small boat harbor the other is at Potato Point So the  
 entirety of the Port Valdez the green area is monitored and  
 my understanding was and is that the radar at Potato Point  
 monitors vessels down as far as Bligh Reef or possibly a  
 little  
 bit south of that  
 Q Based on your understanding of the VTS system what would  
 you expect the watch standers to do if they viewed a vessel  
 approaching known hazard on their radar?  
 A I would expect that they would transmit their observation  
 to the ship via the VHF radio  
 Q Would you check your position?  
 A Yes  
 MS STEWART Thank you Mr Murphy  
 CROSS EXAMINATION OF WILLIAM MURPHY  
 BY MS HANSON

Vol 18 2959

- (1) Q When did you initially get your pilotage endorsement on
- (2) your federal license for Prince William Sound approximately?
- (3) A I think about sometime in 1974
- (4) Q In order to get that endorsement can you tell us what
- (5) training you underwent? You told us about Cook Inlet Do you
- (6) have a required number of trips you had to make for your
- (7) federal endorsement for Prince William Sound?
- (8) A To obtain federal - the federal -
- (9) Q Yes
- (10) A And Coast Guard endorsement? Yes I can't recall how
- (11) many
- (12) there were, but as is typical with Coast Guard pilotage
- (13) requirements, the applicant is required to document a
- (14) certain
- (15) number of observed trips over the pilotage ground When
- (16) he's
- (17) satisfied that requirement he takes a written examination
- (18) Q Now you have a certain number of trips that you re
- (19) required These trips are they round trips whatever number a
- (20) day?
- (21) A Yes they are
- (22) Q That s up and back and with respect to Prince William
- (23) Sound was it - you tell me where was it from like
- (24) Hinchinbrook all the way into the Port of Valdez or where was
- (25) it from and to?
- (26) A I can't remember with any precision what the Coast
- (27) Guard
- (28) pilotage requirements for Prince William Sound were in
- (29) 1974
- (30) but they required a certain number of round trips into the

Vol 18 2960

- (1) principal ports in the Sound which would be Whittier
- (2) Valdez
- (3) and Cordova and they also required a certain number of
- (4) round
- (5) trips through the ocean entrances to Prince William Sound
- (6) How
- (7) many trips were required I don't remember
- (8) Q Now after you ve made the number of trips that are
- (9) required you have to take a written exam?
- (10) A Yes sir
- (11) Q And can you tell us what that exam consists of generally?
- (12) A Okay After producing evidence that one has made the
- (13) required observed trips there is an examination I believe
- (14) on - a written examination on ship handling perhaps on
- (15) seamanship I don't recall Then there s a chart sketch of
- (16) the area in question
- (17) Q So for Prince William Sound you were saying they make you
- (18) prepare a chart Can you tell us what they make you put on the
- (19) chart?
- (20) A They call it a chart sketch and I haven't written - I
- (21) finished writing my pilotage a number of years ago so it
- (22) may
- (23) have changed but at the time the Coast Guard gives the
- (24) applicant a piece of paper with the land contours of the area
- (25) in question They direct you to take that piece of paper and
- (26) draw in all the principal - mark the principal points of land,
- (27) capes and label them draw in all the dangers usually the
- (28) ten
- (29) fathom curve any draw in sands draw in the main ship
- (30) routes
- (31) with distances off course soundings along those routes
- (32) the

Vol 18 2961

- (1) magnetic variation for the area and so forth Then you turn
- (2) the sheet of paper over On the back of it, you - excuse me,
- (3) as part of the chart sketch you also draw in all the aids to
- (4) navigation
- (5) Q Like for this area Busby Island light you d have to put
- (6) in -
- (7) A Sure
- (8) Q And its characteristics?
- (9) A That's right
- (10) Q And you d have to put in the Bligh Reef buoy?
- (11) A Yes
- (12) Q With its characteristics?
- (13) A That's correct
- (14) Q And when you put it in they have you put in its exact
- (15) location?
- (16) A Yes, they do
- (17) Q Go on What else would you put in?
- (18) A So when you're finished with that chart sketch you turn
- (19) the
- (20) sketch over and on the back of it, you write from memory the
- (21) complete light list for the area The light list is all
- (22) navigation aids in addition to lights buoys day markers
- (23) and
- (24) so forth The location of those devices, the characteristics
- (25) of any lights fog horns and so forth That pretty much
- (26) completes the chart sketch and lists of aids of navigation
- (27) MS HANSON Thank you and that completes the

Vol 18 2962

- (1) cross examination
- (2) MR RUSSO Your Honor the defendants call by
- (3) deposition Paul Radtke
- (4) THE CLERK I m sorry I didn t catch that last name
- (5) MR RUSSO Paul Radtke R A D T K E
- (6) THE CLERK Raise your right hand please
- (7) (The Witness Is Sworn)
- (8) THE CLERK For the record state your full name
- (9) address and spell your last name
- (10) THE WITNESS Malcomb Flynn Justice J U S T I C E
- (11) New Port Beach California
- (12) THE CLERK Thank you
- (13) DIRECT EXAMINATION OF PAUL RADTKE
- (14) BY MR RUSSO
- (15) Q Please state your full name
- (16) A Paul R Radtke
- (17) Q Your home address?
- (18) A 1832 East Fourth Street Superior Wisconsin
- (19) Q What age are you?
- (20) A 34
- (21) Q You also produced a copy of your third mate s license?
- (22) A Yes
- (23) Q And you received this license when?
- (24) A August of '87
- (25) Q Was that upon graduation?

Vol 18 2963

- (1) A Yes  
 (2) Q From where?  
 (3) A Texas Maritime Academy  
 (4) Q You also got a degree when you graduated from Texas  
 (5) Maritime?  
 (6) A That is correct  
 (7) Q What was your degree in?  
 (8) A Bachelor of science in marine science  
 (9) Q And this license this is the first issue?  
 (10) A Yes that is correct  
 (11) Q Now your resume covers your education For the record  
 (12) can you tell us what your formal education has been?  
 (13) A Yes I have a bachelor of arts from Valparaiso University  
 (14) in English I have a bachelor of science from Texas A & M in  
 (15) marine science  
 (16) Q You got your bachelor of arts degree after your graduated  
 (17) from Texas Maritime Academy?  
 (18) A No sir  
 (19) Q I m sorry Vice versa It was - there was quite an  
 (20) interval of time there?  
 (21) A Yes  
 (22) Q You got your BA in 1978?  
 (23) A Correct  
 (24) Q And between 1978 and then graduating from Texas maritime  
 (25) what did you do during the interval between 1978 and going  
 into

Vol 18 2964

- (1) Texas?  
 (2) A I was a junior high English teacher from 1978 until 1981 I  
 (3) believe Then I spent a year of both working part time and  
 (4) going to school part time here in Superior Wisconsin prior  
 (5) to  
 (6) attending Texas Maritime Academy in '83 or '84  
 (7) Q And you were employed by Exxon Shipping to start with in  
 (8) 1987 is that correct?  
 (9) A That is correct  
 (10) Q As an able bodied seaman?  
 (11) A That's correct  
 (12) Q And did you apply with them to become a licensed officer  
 (13) but they just didn't have an opening and they hired you as an  
 (14) A B?  
 (15) A I was hired as an A-B and I believe it was company policy  
 (16) at that time that they were not directly hiring licensed  
 (17) officers They were requiring people to work on the deck for  
 (18) a  
 (19) certain period of time I think for evaluation reasons prior  
 (20) to sailing as an officer  
 (21) Q Just turning for the present to the period of time that you  
 (22) were on the Exxon Valdez and you were in Valdez and then you  
 (23) sailed with the vessel you were aboard at the time of the  
 (24) grounding is that correct?  
 (25) A That is correct  
 (26) Q Prior to the Exxon Valdez grounding had you ever sailed as  
 (27) a licensed officer?

Vol 18 2965

- (1) A No sir  
 (2) Q When you were aboard the Exxon Valdez you had what  
 (3) watches?  
 (4) A I was assigned to the eight to 12 watch  
 (5) Q The morning to 2400 in the evening?  
 (6) A That's correct  
 (7) Q What was your watch partner?  
 (8) A Harry Claar from - from the time I joined the ship to the  
 (9) time I left the ship  
 (10) Q Mr Kagan was aboard while you were aboard?  
 (11) A That's correct  
 (12) Q Did you ever observe him steering?  
 (13) A No sir  
 (14) Q Did you ever hear anything about his ability to steer?  
 (15) A No sir  
 (16) Q Did you ever hear anything about his - about the  
 (17) evaluations he received?  
 (18) A No sir  
 (19) Q You received evaluations while you worked with Exxon?  
 (20) A Yes I did  
 (21) Q And how were they and in what general range?  
 (22) A I believe from very good to exceptional  
 (23) Q Were you ever while you were aboard the Exxon Valdez on  
 (24) watch when Cousins was the mate?  
 (25) A Yes In fact he was the mate on my watch

Vol 18 2966

- (1) Q You had the eight to 12?  
 (2) A Correct  
 (3) Q Was this the first encounter you had had with Cousins  
 (4) during your employ with Exxon?  
 (5) A Yes  
 (6) Q When you get an order as a normal practice when you get  
 (7) an  
 (8) order ten degrees right rudder -  
 (9) A Yes  
 (10) Q - would you repeat the order?  
 (11) A Yes  
 (12) Q After you put the wheel over ten degrees would you tell  
 (13) the mate that your wheel is over ten degrees so that you not  
 (14) only repeated the orders but you tell him again?  
 (15) A Sometimes yes, sometimes no Depending on the  
 (16) circumstances  
 (17) Q Would the mate watch you to - during this process as a  
 (18) matter of routine when you were given an order whether it was  
 (19) by the mate or captain or pilot would they watch what you did?  
 (20) A I believe so  
 (21) Q They'd be watching you wouldn't they? In essence no  
 (22) matter what the order was to make sure number one you put  
 (23) the  
 (24) wheel in the right direction?  
 (25) A Correct  
 (26) Q And number two to see that you put it to the proper number  
 (27) of degrees he's told you to put it so if he gave you a number

Vol 18 2967

- (1) of degrees of the rudder correct?
- (2) **A That's correct**
- (3) **Q** So it doesn't make any difference if you're given a right
- (4) five degree rudder order or a right 15 degree rudder order or a
- (5) right 30 degree rudder order it's important for the mate on
- (6) watch to watch to see that you put that wheel in the right
- (7) direction that is to the right for that order not to the
- (8) left?
- (9) **A Yes**
- (10) **Q** And the second thing he's to see that you put it to the
- (11) number of degrees you've been told to put it to correct?
- (12) **A Correct**
- (13) **Q** What I'm wondering is you're steering a steady course
- (14) whatever it is You're trying to hold it to that course and
- (15) let's say you're quite successful There are times aren't
- (16) there when you're steering you're able to hold it almost
- (17) right on the gyro heading that you're on is that correct?
- (18) **A Yes**
- (19) **Q** Then you're given a rudder order in this example I gave
- (20) you a right rudder order let's say it's right ten degrees
- (21) rudder I would like to know the interval of time from the
- (22) moment you turn your wheel in response wheel - I mean the
- (23) helm in response to the order you're given to turn the wheel
- (24) from that being the starting point the interval of time from
- (25) that point to when you're looking at the gyro and you start to

Vol 18 2968

- (1) see the gyro responding to your moving the wheel over going
- (2) to
- (3) 181 182 so the minute you see it move off 180 what is that
- (4) interval of time?
- (5) **A It's been so long since I have had - had a feel for that**
- (6) **ship that I don't think I can give you a good answer for that**
- (7) **Q** Would you agree that it would only be a matter of seconds?
- (8) In other words it's not a matter of minutes for sure?
- (9) **A Yes, I'd agree with that**
- (10) **Q** Did you find that the Exxon Valdez as compared to other
- (11) vessels you served on to be a more difficult vessel to steer
- (12) easier the same or is there any comparison you can make?
- (13) **A I was aware that she was a much larger ship than I had**
- (14) **steered prior to that time The sheer momentum of the ship**
- (15) **was**
- (16) **something that the helmsman certainly had to bear in mind**
- (17) **in**
- (18) **terms of responsiveness I didn't know that she was any**
- (19) **more**
- (20) **difficult to deal with than let's say a small ship**
- (21) **Q** Did you find that she was an easy ship to steer easy to
- (22) hold onto a course that you were given a steady heading?
- (23) **A In all waters that I happened to be helmsman on Yes I**
- (24) **believe she was an easy ship to steer**
- (25) **Q** You were in the Port of Valdez how many times prior to the
- (1) grounding let's say?
- (2) **A I'll guess five times**
- (3) **Q** So you were there maybe anywhere from two to four times
- (4) within that range?

Vol 18 2969

- (1) **A Yes**
- (2) **Q** With respect to Captain Hazelwood when you were serving
- (3) with him did you ever see him ashore?
- (4) **A No**
- (5) **Q** Did you ever see him when you made a judgment that he was
- (6) impaired from drinking?
- (7) **A No, sir**
- (8) **Q** You said you sailed with Captain Hazelwood for a period of
- (9) about 30 days 35 days?
- (10) **A I think that's correct yes**
- (11) **Q** During that period of time did you ever observe any
- (12) alcohol on Captain Hazelwood's breath?
- (13) **A No, sir**
- (14) **Q** Did you ever see Captain Hazelwood impaired by alcohol?
- (15) **A No, sir**
- (16) **Q** Did you ever see him intoxicated?
- (17) **A No, sir**
- (18) **Q** Do you know based on your own personal experience the
- (19) signs of when one is impaired by alcohol?
- (20) **A I've never gone through any normal training to recognize**
- (21) **the signs, but I think I have a basic idea of when**
- (22) **somebody's**
- (23) **impaired**
- (24) **Q** And would the answer be the same for someone being
- (25) drunk?
- (1) **A Yes**
- (2) **Q** And your answer is at no time did you see Captain
- (3) Hazelwood

Vol 18 2970

- (1) either impaired or intoxicated?
- (2) **A That is correct**
- (3) **Q** Did you ever drink aboard the Exxon Valdez?
- (4) **A No, sir**
- (5) **Q** Did you ever drink aboard any Exxon vessel?
- (6) **A No, sir Outside of a holiday dinner where I believe wine**
- (7) **was served, New Year's Eve and Christmas Eve, I believe,**
- (8) **and**
- (9) **that was some years shortly after I joined as an A B I**
- (10) **believe they discontinued that practice**
- (11) **Q** Before you were employed by Exxon did you undergo any
- (12) testing for drugs or anything of that nature?
- (13) **A Yes, I did**
- (14) **Q** What sort of testing did you undergo?
- (15) **A My interview in Houston I was given a drug test a drug**
- (16) **screening**
- (17) **Q** Now referring to the evening of March 23rd 1989 do you
- (18) recall when you were at the stern that - maybe not necessarily
- (19) at the stern but do you recall that Cousins contacted the
- (20) second mate? Were you aware that there was a - there were
- (21) discussions between Cousins and the second mate concerning
- (22) Cousins staying up on the bridge into part of the second mates
- (23) watch?
- (24) **A Actually, I remember that discussion when I was on the**
- (25) **bridge I overheard Greg talking to the second mate**
- (1) **Q** When was that? About what time?

Vol 18 2971

- (1) **A I believe it was either moments before leaving the dock or**  
 (2) **possibly shortly after leaving the dock The guys would still**  
 (3) **have been down on the deck securing for sea even after we**  
 (4) **departed the dock**  
 (5) **Q That was a radio conversation was it or was the second**  
 (6) **mate on the bridge?**  
 (7) **A It was a radio conversation**  
 (8) **Q Do you recall what was said by Cousins or the essence of**  
 (9) **what was said?**  
 (10) **A As I recall it was just a - I believe Greg offered so he**  
 (11) **initiated the conversation just saying I feel pretty good If**  
 (12) **you want to catch some extra sleep go ahead I'll take part**  
 (13) **of**  
 (14) **your watch**  
 (15) **Q And obviously the second mate must have said yes or do**  
 (16) **you know?**  
 (17) **A Uh-huh I think he did**  
 (18) **Q All right When did you take over the wheel right after**  
 (19) **leaving the dock?**  
 (20) **A I would have been at the wheel shortly before the vessel**  
 (21) **cast off her last few lines**  
 (22) **Q When you went to the bridge who was there? What other**  
 (23) **individuals?**  
 (24) **A The chief mate the captain and the pilot**  
 (25) **Q Okay As far as the chief mate went was he subsequently**  
 (26) **relieved by Cousins?**

Vol 18 2972

- (1) **A Yes**  
 (2) **Q When did that take place?**  
 (3) **A Sometime after leaving the dock**  
 (4) **Q Was it before going through the Narrows?**  
 (5) **A I believe so yes**  
 (6) **Q Further concerning the evening of March 23rd 1989**  
 (7) **And what was the captain's demeanor on the bridge during**  
 (8) **this initial period when you took over the wheel?**  
 (9) **A What do you mean by demeanor?**  
 (10) **Q First of all let me ask you could you see him? It was**  
 (11) **nighttime it was dark?**  
 (12) **A I do recall receiving orders from him and I do recall**  
 (13) **seeing him as we were leaving the dock and I recall seeing**  
 (14) **him**  
 (15) **at the window for some period of time after leaving the**  
 (16) **dock**  
 (17) **Q Was he giving you the orders to the wheel or was the**  
 (18) **pilot?**  
 (19) **A He was relaying orders to the chief mate who was in turn**  
 (20) **relaying orders to me At the time we left the dock the pilot**  
 (21) **and the captain were on the wing relaying orders by radio**  
 (22) **Q Who initiates those orders? Are they initiated by the**  
 (23) **pilot and then relayed through his offices to you?**  
 (24) **A My assumption was that the pilot was initiating those**  
 (25) **orders**  
 (26) **Q Did you notice anything unusual about the captain at all in**  
 (27) **his speech?**

Vol 18 2973

- (1) **A No sir**  
 (2) **Q Did you get close enough to him to smell his breath while**  
 (3) **you were on the bridge?**  
 (4) **A I don't believe so**  
 (5) **Q Did you hear any conversation between the captain and the**  
 (6) **pilot?**  
 (7) **A Yes**  
 (8) **Q What did you hear if you can remember the essence of it?**  
 (9) **A I recall them swapping a sea story leaving Valdez**  
 (10) **together**  
 (11) **and the helmsman making some steering mistakes I recall**  
 (12) **the**  
 (13) **captain on the radio to someone I'm not sure who I do**  
 (14) **recall some inbound traffic I believe it was a ferry And I**  
 (15) **recall some radio traffic with that ferry Again I don't**  
 (16) **remember if it was the pilot or the captain**  
 (17) **Q Would that be within the Port of Valdez?**  
 (18) **A Yeah before the Narrows**  
 (19) **Q Backing up to the conversation with Hazelwood when you**  
 (20) **were**  
 (21) **on the bow was there anything you noticed in the conversation**  
 (22) **that you thought was unusual about his voice?**  
 (23) **A No**  
 (24) **Q When he spoke with you on the walkie talkie when you were**  
 (25) **on the bow did he talk with you slowly then?**  
 (26) **A I did not notice any difference if that's what you're**  
 (27) **getting at no**  
 (28) **Q Now on the night coming out of Valdez that is the evening**

Vol 18 2974

- (1) **of March 23rd you had a chance to observe Captain**  
 (2) **Hazelwood**  
 (3) **walking pacing the bridge?**  
 (4) **A I would not say observe I saw him on the bridge**  
 (5) **Q Did you notice anything unusual about his walk?**  
 (6) **A No sir**  
 (7) **Q Was he stumbling?**  
 (8) **A No sir**  
 (9) **Q Was he weaving?**  
 (10) **A No**  
 (11) **Q When you heard him speaking to the pilot did you observe**  
 (12) **any slurring of his words?**  
 (13) **A No, I didn't**  
 (14) **Q When he spoke to you on the radio at least on one**  
 (15) **occasion did you notice any slurring of his words?**  
 (16) **A No, sir**  
 (17) **MR RUSSO Your Honor that concludes the direct**  
 (18) **examination of Paul Radtke**  
 (19) **MS HANSON A brief cross Your Honor**  
 (20) **CROSS EXAMINATION OF PAUL RADTKE**  
 (21) **BY MS HANSON**  
 (22) **Q Did you ever see any shipboard searches made by the**  
 (23) **captain**  
 (24) **of the ship for alcohol or drugs?**  
 (25) **A None that I can recall**  
 (26) **MS HANSON Thank you Nothing further**  
 (27) **MR CHALOS Good afternoon**

Vol 18 2975

- (1) Your Honor the defendants call Jack Stewart live  
 (2) **THE CLERK** Would you raise your right hand please  
 (3) **(The Witness Is Sworn)**  
 (4) **THE CLERK** For the record state your full name  
 (5) address and spell your last name please  
 (6) **THE WITNESS** Name s Jack Stewart S T E W A R T I  
 (7) live at 1399 Sacramento Avenue West Sacramento  
 (8) **THE CLERK** Thank you sir  
 (9) **DIRECT EXAMINATION OF JACK STEWART (Live)**  
 (10) **BY MR CHALOS**  
 (11) Q Mr Stewart what do you do for a living?  
 (12) A Right now I'm transporting propane  
 (13) Q As a driver?  
 (14) A Right  
 (15) Q How long have you had that job?  
 (16) A About three years  
 (17) Q What did you do before that?  
 (18) A I was a seaman  
 (19) Q How long were you a seaman for?  
 (20) A Almost my life on and off  
 (21) Q How many years would you say?  
 (22) A Oh, 25 30 years  
 (23) Q Did you have a job as a seaman at a specific rank or  
 (24) rating?  
 (25) A Yes I sailed pumpman for Exxon

Vol 18 2976

- (1) Q Did you say pumpman?  
 (2) A Yes  
 (3) Q Is that a rating that the Coast Guard gives?  
 (4) A Yes  
 (5) Q You have a certificate as a pumpman?  
 (6) A Yes I have all engine room endorsement  
 (7) Q What did you do as a pumpman what is your job?  
 (8) A To assist the chief mate in the loading discharging all  
 (9) deck machinery Of course it s chief engineers but I  
 worked  
 (10) under the chief on the deck machinery  
 (11) Q As a pumpman you worked for the engine department of the  
 (12) ship is that right?  
 (13) A Engine and deck I kind of went both of them In the port  
 (14) you'd usually work for the chief mate  
 (15) Q Okay At sea you were working for the chief engineer?  
 (16) A Yes in most cases  
 (17) Q Now you worked for Exxon for a period of time did you  
 (18) not?  
 (19) A Yes  
 (20) Q What years did you work for Exxon?  
 (21) A I worked for them in the early part of '74 and then from  
 (22) '81 to '90 I think  
 (23) Q 1981 to 1990?  
 (24) A Yeah  
 (25) Q When was the first time you met Captain Hazelwood?

Vol 18 2977

- (1) A It was on Exxon North Slope in 1980  
 (2) Q He was captain at the time?  
 (3) A Yes, he was  
 (4) Q When was the next -- and you made a trip with him on that  
 (5) occasion?  
 (6) A Uh huh yes Panama  
 (7) Q Was that for about 30 days?  
 (8) A Yes  
 (9) Q Okay When was the next time you met Captain Hazelwood?  
 (10) A It was a trip I made on the Valdez about -- it was prior to  
 (11) the grounding, a year or so prior to it  
 (12) Q Would that be 1988?  
 (13) A Yes, must have been  
 (14) Q Where did you go on that occasion?  
 (15) A Panama Valdez to Panama  
 (16) Q How long -- how long were you on the ship that time with  
 (17) Captain Hazelwood?  
 (18) A Approximately the same time  
 (19) Q 30 days or so?  
 (20) A 30 days give or take  
 (21) Q During that 30 day period during that 30 day period that  
 (22) we're talking about did you ever observe Captain Hazelwood  
 (23) drinking on the ship?  
 (24) A No  
 (25) Q Did you ever smell any alcohol on his breath?

Vol 18 2978

- (1) A No  
 (2) Q Did you ever see him impaired?  
 (3) A No  
 (4) Q I'm talking now about that 30 day trip?  
 (5) A Yeah  
 (6) Q You got off in Long Beach did you not?  
 (7) A Yes  
 (8) Q Did you drink anything when you got off in Long Beach?  
 (9) A No I didn't  
 (10) Q Did Captain Hazelwood get off with you in Long Beach?  
 (11) A No not with me  
 (12) Q All right When was the next time you saw Captain  
 (13) Hazelwood after that trip?  
 (14) A It was close to a year later, I believe I went back on  
 (15) the Valdez  
 (16) Q Would that have been in February of 1989?  
 (17) A Yes  
 (18) Q And you -- so you were on board about a month before the  
 (19) ship ran aground?  
 (20) A Yes, I joined down in Los Angeles I think  
 (21) Q During that period of time you had occasion to interact  
 (22) with Captain Hazelwood?  
 (23) A Yes quite a bit We were lightering up north  
 (24) Q Okay Now did you ever see Captain Hazelwood drinking  
 (25) on board the ship during that 30 day period before the grounding?

Vol 18 2979

Vol 18 2981

- (1) **A No**  
 (2) **Q Did you ever see him impaired?**  
 (3) **A No**  
 (4) **Q Intoxicated?**  
 (5) **A No**  
 (6) **Q Now you said at sea you were assigned to the engine department Did you work for Chief Glowacki?**  
 (8) **A Yes**  
 (9) **Q Are you familiar with a first assistant by the name of Ray Jones?**  
 (11) **A Yes I am**  
 (12) **Q How about a second assistant named Oldham?**  
 (13) **A Yes**  
 (14) **Q And third assistant named Katie Havens?**  
 (15) **A Yes**  
 (16) **Q Did you ever see any of those three people drinking on the ship?**  
 (18) **A No, I didn't see any drinking on that ship**  
 (19) **Q Did you see any parties on that ship?**  
 (20) **A No**  
 (21) **Q Did you hear any rumors of any parties?**  
 (22) **A No, no**  
 (23) **Q You dealt with these people on a regular basis?**  
 (24) **A Almost every night I worked over time in the engine room**  
 (25) **Q You got close to these three people from time to time?**

- (1) **once when one was going on**  
 (2) **Q They were in your room without you being there you mean?**  
 (3) **A Yeah**  
 (4) **Q And did you see these searches on more than one occasion?**  
 (5) **A I knew they took place on more than one occasion yeah**  
 (6) **Q I'd like to direct your attention to March 23rd now the night that you left Valdez?**  
 (8) **A Yes**  
 (9) **Q Okay Just before you left you were on deck were you not?**  
 (11) **A Right**  
 (12) **Q Did you have occasion to see Captain Hazelwood Chief Engineer Glowacki and Mr Roberson coming on board?**  
 (14) **A I saw the captain I didn't pay attention to the chief**  
 (15) **He may have been a little ways behind but I was at the manifold and the forward line on the manifold and I saw the captain coming on the last leg down to the deck**  
 (18) **Q That's that steep leg?**  
 (19) **A Right**  
 (20) **Q Did you have a chance to observe -**  
 (21) **A I just -**  
 (22) **Q Did you have a chance to observe him coming down?**  
 (23) **A Yeah**  
 (24) **Q Notice him stumbling?**  
 (25) **A No**

Vol 18 2980

Vol 18 2982

- (1) **A All the time**  
 (2) **Q Did you smell any alcohol on their breath?**  
 (3) **A Never**  
 (4) **Q Now you said that you never saw any liquor on board the Exxon Valdez?**  
 (6) **A No I haven't**  
 (7) **Q Now in the period of time that you worked for Exxon did you ever see the ship searched for drugs or alcohol?**  
 (9) **A Yeah a lot of times they'd call it a sanitary inspection and they'd shake down the rooms and it was a search And also**  
 (11) **a sanitary inspection**  
 (12) **Q Well during the sanitary inspection what were they searching for?**  
 (14) **A Anything that was contraband according to their rules and**  
 (15) **regulations**  
 (16) **Q Including liquor?**  
 (17) **A Oh yeah absolutely**  
 (18) **Q Alcohol of any kind?**  
 (19) **A Certainly**  
 (20) **Q Who conducted the search?**  
 (21) **A It was usually an officer chief mate and the captain supposedly Ideally there would be a ship's delegate from the**  
 (23) **union along with them and maybe one other officer**  
 (24) **Q And you saw these searches on more than one occasion?**  
 (25) **A I knew they took place In fact, I think I came in my room**

- (1) **Q Or in any way appear to lose his balance?**  
 (2) **A No**  
 (3) **Q Now did you watch him did you watch him when he came on**  
 (4) **deck?**  
 (5) **A No I didn't sit there and you know watch him I later**  
 (6) **on the air line to the impact gun is on the aft end of the manifold and I walked back from where I was to the aft end and**  
 (8) **as I was walking back I seen the captain going towards the**  
 (9) **spring lines They're on the port side the spring lines**  
 (10) **There's two wings aft and he was going aft**  
 (11) **Q Tell us what's on deck is there any clutter on deck?**  
 (12) **A Oh there's all kinds of clutter**  
 (13) **Q What kind of clutter?**  
 (14) **A Oh there's piping and gas piping cargo piping**  
 (15) **Q Piping you said?**  
 (16) **A Piping, yes**  
 (17) **Q Yes go ahead**  
 (18) **A And then when you tie up on that side you have two winches**  
 (19) **that run lines to the dock Spring lines and there's - you**  
 (20) **got to go around the winches to get around those lines**  
 (21) **usually You're not supposed to climb over these, it's too**  
 (22) **dangerous**  
 (23) **Q Did you observe Captain Hazelwood negotiating his way**  
 (24) **through this clutter?**  
 (25) **A Yes I saw him going back there towards the winches yes**

Vol 18 2983

- (1) Q Did you notice any stumbling on his part?  
 (2) A No  
 (3) Q Any unsteady movements?  
 (4) A No  
 (5) Q Now I'd like to direct your attention to the period of  
 (6) time after the grounding?  
 (7) A Yes  
 (8) Q Did you have occasion to see Captain Hazelwood again?  
 (9) A Yes, later on after the grounding  
 (10) Q Say within an hour hour and a half after the grounding?  
 (11) A Something like that Sometime's pretty murky  
 (12) Q Where did you see Captain Hazelwood at that time?  
 (13) A I was coming back up out of the pump room and he was  
 out on  
 (14) the main deck and I mentioned to him as I went by that the  
 pump  
 (15) room was intact but I'd already informed the mate of this  
 and  
 (16) I'm sure the captain had known, but just in passing I told  
 (17) him  
 (18) Q All right I want to concentrate on your meeting with  
 (19) Captain Hazelwood  
 (20) A Uh huh  
 (21) Q You got close to him at that point?  
 (22) A Yes we were fairly close  
 (23) Q Did he appear to you to in any way be impaired by alcohol?  
 (24) A Not to me he didn't at all  
 (25) Q Did you observe him walking at that period of time?

Vol 18 2984

- (1) A He was still there when I left  
 (2) Q When he - and he spoke to you?  
 (3) A Uh huh  
 (4) Q Did he slur his words at all?  
 (5) A No no  
 (6) Q Did he appear to you to be calm under the circumstances?  
 (7) A I've sailed with Captain Hazelwood and I think he's one of  
 (8) the best captains I've sailed with he's very focused There  
 (9) was no panic among the crew or the captain Everything  
 was in  
 (10) pretty bad shape at that time but everybody seemed to  
 have a  
 (11) good handle on it  
 (12) Q Did you have - at that point in time I take it you were  
 (13) pretty shook yourself?  
 (14) A Oh sure  
 (15) Q Did you have faith that Captain Hazelwood would handle the  
 (16) situation and do the right thing by way of the ship and the  
 (17) crew and the cargo and the environment?  
 (18) A Yeah it's something that you're not going to sit there and  
 (19) articulate, but you have the feeling that what Captain  
 (20) Hazelwood would do would be the right thing, so that's a  
 burden  
 (21) off you, you go about your -  
 (22) Q That's how you felt at that time?  
 (23) A Absolutely  
 (24) MR CHALOS Thank you Mr Stewart  
 (25) THE COURT You may cross examine

Vol 18 2985

- (1) MR O NEILL Thank you Judge  
 (2) CROSS EXAMINATION OF JACK STEWART  
 (3) BY MR O NEILL  
 (4) Q Sir you receive a pension from Exxon Corporation?  
 (5) A Yes, ten year pension  
 (6) Q You're loyal to both Exxon and to Captain Hazelwood aren't  
 (7) you?  
 (8) A I'm not loyal to Exxon I - I admire Captain Hazelwood  
 (9) I respect him  
 (10) Q And you testified here today that you had the opportunity  
 (11) to observe Captain Hazelwood as he came on board the vessel  
 (12) You said I had the opportunity to observe him?  
 (13) A Did I say that?  
 (14) Q Yes you did  
 (15) A Okay I think that question was asked if I had an  
 (16) opportunity to observe him  
 (17) Q Yeah  
 (18) A I didn't say I observed him I saw the captain when he  
 (19) came down the gangway  
 (20) Q You didn't observe him?  
 (21) A I saw him yes  
 (22) Q You had been awake for 39 hours?  
 (23) A 36 off and on  
 (24) Q You had started work you went on duty the morning of the  
 (25) 22nd at six that morning and you worked through and you got  
 no

Vol 18 2986

- (1) sack time in that 36 hours?  
 (2) A Yeah that - but this is not like standing a watch You  
 (3) know, I had breaks in between there  
 (4) Q I'm not -  
 (5) A Yeah, that's right  
 (6) Q I'm talking about your condition at the point in time?  
 (7) A Yeah  
 (8) Q The question was did you observe - I understand that the  
 (9) question was did you observe Captain Hazelwood You're not  
 (10) testifying that you observed Captain Hazelwood are you? You  
 (11) had been up for 36 hours?  
 (12) A No, I - you talk observe like I was sitting there watching  
 (13) him particularly It wasn't I happened to notice him coming  
 (14) down the gangway  
 (15) Q That's my point  
 (16) A Hey I did  
 (17) Q That's my point  
 (18) A Yeah I saw him  
 (19) Q And you were busy?  
 (20) A Yes  
 (21) Q And you were quite a ways away from him?  
 (22) A Yeah 20, 30, 40 feet  
 (23) Q You were doing something else you wave here he comes  
 you  
 (24) wave hi and then you go on with your business?  
 (25) A Yeah

Vol 18 2987

- (1) Q As I turn these pages over it means you re lucky I m not  
 (2) as bad as I seem sir  
 (3) And when you ran into Captain Hazelwood later on again  
 (4) that was just for a moment wasn't it?  
 (5) A Yes it wasn't any length of time no lengthy conversation  
 (6) Q So the two situations that you ve just been questioned  
 (7) about were two very brief moments one in which you were tired  
 (8) 30 to 40 feet away and then the one after the incident you  
 (9) passed him in the hallway?  
 (10) A No it was on deck  
 (11) Q You passed him on deck?  
 (12) A Yeah and talked for a brief moment  
 (13) Q Brief moment five seconds ten seconds?  
 (14) A Yeah something like that  
 (15) MR O NEILL Thank you  
 (16) MR CHALOS No redirect Your Honor  
 (17) THE COURT You may step down sir Thank you  
 (18) MS STEWART Your Honor defendants call Ray Jones to  
 (19) the stand By deposition  
 (20) THE CLERK Was that Ray Jones' Excuse me is that  
 (21) Ray Jones?  
 (22) MS STEWART Ray Jones by deposition  
 (23) THE CLERK Would you raise your right hand please  
 (24) (The Witness Is Sworn)  
 (25) THE CLERK For the record sir state your full name

Vol 18 2988

- (1) your address and spell your last name  
 (2) THE WITNESS Mike Stehle S T E H L E Anchorage  
 (3) Alaska  
 (4) THE CLERK Thank you  
 (5) DIRECT EXAMINATION OF RAY JONES (Read)  
 (6) BY MS STEWART  
 (7) Q There s an interjection at the beginning off the deposition  
 (8) that says this is the deposition of Raymond Jones  
 (9) A Ray  
 (10) Q Ray Jones I take it you have a license?  
 (11) A I do  
 (12) Q Could you describe your license?  
 (13) A It's a chief engineers steam and diesel unlimited  
 (14) horsepower upon oceans  
 (15) Q You graduated from Kings Point?  
 (16) A Yes  
 (17) Q And you had the dual degree engineer and third mate?  
 (18) A Yes I do  
 (19) Q What year did you graduate from Kings Point?  
 (20) A 1976  
 (21) Q You graduated from Kings Point in 1976 What was your  
 (22) first job upon graduation?  
 (23) A My first employment was with Exxon U S A that was the  
 (24) name of the company at that time Exxon Company U S A  
 (25) as a third assistant engineer

Vol 18 2989

- (1) Q You never sailed as a mate did you?  
 (2) A No I did not  
 (3) Q Did you work for anyone besides Exxon?  
 (4) A No I did not  
 (5) Q When did you get a chief's license?  
 (6) A Approximately two years after that  
 (7) Q What year would that be?  
 (8) A 1986 thereabouts  
 (9) Q What was the first vessel you worked on with Exxon U S A ?  
 (10) A The Exxon Chester  
 (11) Q Did you work on quite a few Exxon vessels?  
 (12) A Yes I did  
 (13) Q You were on the Exxon Valdez when she was christened  
 (14) right?  
 (15) A Yes I was  
 (16) Q Were you generally a regular crew member of the Exxon  
 (17) Valdez?  
 (18) A Yes I was  
 (19) Q Well from 1986 until 1989 did you ever work on any other  
 (20) vessels other than the Exxon Valdez?  
 (21) A No I didn't  
 (22) Q Generally what were the duties of a first engineer?  
 (23) A First engineer is responsible for the overall running of  
 (24) machinery plant He's responsible - he's the primary  
 (25) supervisor of all the other engine department personnel  
 and he

Vol 18 2990

- (1) reports directly to the chief engineer under his supervision  
 (2) Q What was your next assignment with Exxon after you left  
 (3) Exxon  
 (4) A I took the SPOSA the early retirement after that  
 (5) Q What s that?  
 (6) A It was a program they were offering money or incentive  
 (7) to retire or terminate employment  
 (8) Q How long had that program been in effect?  
 (9) A It was just being offered They were laying up some ships  
 (10) and they had a surplus of people  
 (11) Q I m not going to hold you to these specific times so you  
 (12) don't necessarily have to refer to that but can you just give  
 (13) us a chronology of the whole time you were in Valdez and when  
 (14) you sailed? And take your time and be as specific as you can  
 (15) A That morning we had had some turbocharger problems  
 (16) when we left San Francisco So my intention that day was to open up  
 (17) the oil sumps up on those and inspect them, which I  
 (18) proceeded to do And that took basically the entire day That  
 (19) afternoon I was in the engine room basically the whole time  
 (20) doing those inspections That afternoon I can't be specific  
 (21) about the time but I was notified that there was a telephone  
 (22) call for the chief engineer in the radio officer's room I  
 (23) went up there to talk to Paul I can't even remember his last  
 (24) name now the port engineer from San Francisco wanted to talk  
 (25) to the chief engineer about this turbocharger problem

Vol 18 2991

(1) I went up, I had a conversation with him I went back  
 (2) below I finished the turbocharger inspections and  
 proceeded  
 (3) to get the plant ready to leave that night  
 (4) Q This is the 23rd now?  
 (5) A This is the 23rd, Thursday, standby leaving the dock was  
 at  
 (6) 2054 That was uneventful Everything proceeded  
 normally  
 (7) Q Had you seen Joe Hazelwood any time that evening?  
 (8) A No I hadn't I talked to him on the telephone After we  
 (9) were clear, it was our usual procedure as a routine to wash  
 the  
 (10) efficiency boosters on the main engine and before I did that,  
 I  
 (11) always informed the bridge that I was going to do it I talked  
 (12) to him I called the bridge to let them know that I was going  
 (13) to proceed to do this Captain Hazelwood answered the  
 phone  
 (14) Informed him of my intentions he said fine, go ahead Then  
 we  
 (15) joked This was - I think Pete Rose had just gone through  
 his  
 (16) problems and I made a comment about that and we laughed  
 I  
 (17) hung the telephone up and I went below and proceeded to  
 wash  
 (18) the turbochargers  
 (19) After this was completed and I was headed up when I got  
 (20) back to the control room the chief engineer was there Mr  
 (21) Glowacki  
 (22) Q Before you get to that did Joe Hazelwood talk about what  
 (23) he had done ashore?  
 (24) A No he didn't  
 (25) Q Did he sound in any way impaired at all?

Vol 18 2992

(1) A No he didn't  
 (2) Q Going to page 49 Ms Haven is asked if there was any  
 (3) liquor on board the Exxon vessels she serves on She testifies  
 (4) that there was - that there was including the Exxon Valdez  
 (5) Do you agree with her that there was liquor on board the Exxon  
 (6) Valdez while you were aboard it?  
 (7) A I never saw it  
 (8) Q Is it your testimony that you've never seen liquor on the  
 (9) Exxon Valdez?  
 (10) A I've never seen liquor on the Exxon Valdez  
 (11) Q Ms Haven testified that she saw on page 50 line 11 she  
 (12) said can you tell me - can you tell me in whose quarters you  
 (13) saw that liquor and she answers the first assistant's second  
 (14) assistant's and the captain's Did you ever have liquor in  
 (15) your room on board the Exxon Valdez?  
 (16) A No I did not  
 (17) Q Do you know whether or not there was ever liquor on board  
 (18) the Exxon Valdez while you were there?  
 (19) A I never saw any liquor  
 (20) Q Did you ever see anyone drink aboard the Exxon Valdez  
 while  
 (21) it was at sea?  
 (22) A No I did not  
 (23) Q You mentioned you received a call from Captain Hazelwood  
 (24) prior to the grounding?  
 (25) A I called him

Vol 18 2993

(1) Q I see to tell him you were washing the turbochargers Do  
 (2) you recall what time that was?  
 (3) A It was just before the vessel began to load program up It  
 (4) was after the pilot was away It has to be that because we  
 (5) can't wash during maneuvering  
 (6) MS STEWART Thank you That concludes defendants  
 (7) direct examination  
 (8) MR O NEILL No questions  
 (9) MR LYNCH I have the honor to call Admiral Clyde  
 (10) Robbins by deposition video deposition Your Honor  
 (11) DIRECT EXAMINATION OF CLYDE ROBBINS  
 (12) BY VIDEO EXAMINER  
 (13) Q Would you state your full name FOR the record please?  
 (14) A I'm Clyde E Robbins  
 (15) Q And by whom are you currently employed?  
 (16) A I'm employed by - I'm active duty Coast Guard officer  
 (17) assigned to the Department of Transportation  
 (18) Q At the time of the Exxon Valdez spill you were commander  
 (19) of the Pacific area?  
 (20) A That's correct  
 (21) Q What were your duties in that post?  
 (22) A Well, they were for the overall supervision of Coast  
 Guard  
 (23) duties west of the Rockies throughout the Pacific, Asia and  
 (24) over to the center line of Africa any responsibilities the  
 (25) Coast Guard had shipbuilding supervision law  
 enforcement

Vol 18 2994

(1) responsibilities in the areas around, for instance, Guam and  
 (2) other fisheries areas that the United States has  
 responsibility  
 (3) for and of course, search and rescue aids to navigation, all  
 (4) of the Coast Guard duties  
 (5) Q In that position did you report directly to the  
 (6) commandant?  
 (7) A Yes  
 (8) Q And how many areas are there for the United States?  
 (9) A There's two areas one on the east coast, one on the west  
 (10) coast  
 (11) Q Admiral how did you first learn that the Exxon Valdez had  
 (12) run aground in Prince William Sound?  
 (13) A I got a phone call at the office that the - actually,  
 (14) the - my chief of staff briefed me upon going to work on  
 (15) Friday morning that we'd had a problem there and - and  
 gave me  
 (16) a rundown on what was going on  
 (17) Q I'd like to show you a memorandum dated August 30 1989  
 (18) from Admiral Robbins to Admirals Yost and Lusk which we'll  
 (19) mark as 46521 This is pre-designated Exhibit 164  
 (20) A Okay  
 (21) Q Did you send Exhibit 46521 to Admirals Yost and Lusk on or  
 (22) about August 30 1989?  
 (23) A I did  
 (24) Q And at about this time Senator Stevens from the State of  
 (25) Alaska was visiting Valdez?

Vol 18 2995

- (1) **A Yes**
- (2) **Q** And did he pose a question to you as to whether the third mate on the Exxon Valdez had broken any regulations in failing to report the movement of the ship on the night of March 23 March 24?
- (3) **A Yes he did - he did ask some questions about it in a general discussion**
- (4) **Q** Did he ask you whether any regulations had been broken when
- (5) the ship did not report that it had gone outside the inbound lane?
- (6) **A I'm - I don't remember you know exactly what the conversation was but I am - I'm sure that he was of - that it concerned him as to whether a regulation had been broken or**
- (7) not, and in my discussions with various people you can't be around an operation such as that and not pick up some sorts of
- (8) information, even though I wasn't deeply involved with it
- (9) **And**
- (10) my answer to that was to the best of my knowledge he did not
- (11) break a regulation
- (12) **Q** Did you have any discussion with Admiral Yost about paragraph three of your memo in which you indicate you got that
- (13) inquiry from the senator and what your response was?
- (14) **A I don't - as far as I recall it that's the only time I broached the issue was right there**
- (15) **Q** Did anyone subsequently tell you that you'd been incorrect in advising the senator that no regulations had been broken

Vol 18 2996

- (1) when the third mate failed to report that the ship had gone outside of the inbound lane?
- (2) **A No one ever did and I still don't know to this day whether that is correct or not**
- (3) **Q** I take it it's still your belief that no violation occurred?
- (4) **A To my knowledge it was no violation**
- (5) **Q** Can you take a look at Exhibit 46521 please
- (6) **A Yes**
- (7) **Q** In particular paragraph three can I just read that into the record? This is the memo from yourself to Admirals Yost and Lusk dated 30 August 1989 I want to read paragraph three
- (8) into the record
- (9) **I also told him that Cousins broke no specific VTS regulation when he failed to report passing through the upbound**
- (10) lane The senator assumed a regulation was broken Not so from what I can determine He may ask you about it
- (11) **Admiral, my only question is with regard to your statement there from what I can determine did you look at any regulations regarding the VTS procedures at all before you'd spoken to the senator?**
- (12) **A I'm sure I had read them over and - and talked to some of the people that were involved that had more expert knowledge of**
- (13) what the regulations were than I did and I was told that he had not broken a regulation by not reporting passing through

Vol 18 2997

- (1) the upbound lane
- (2) **Q** During part of the interrogation yesterday you provided us some comments on navigating in Prince William Sound and I want
- (3) to go back and touch briefly on that
- (4) I believe you gave us a figure yesterday of how many transits had been made of Prince William Sound in the TAPS tanker trade prior to this incident Do you recall how many
- (5) safe passages had occurred -
- (6) **A I believe it was -**
- (7) **Q - prior to this incident?**
- (8) **A - close to 9 000**
- (9) **Q** To your knowledge are there any particularly difficult navigational problems in navigating from the Gulf of Alaska into the port or out?
- (10) **A The one that we were very concerned with from the very beginning was the Narrows as one approaches the Valdez Harbor**
- (11) there's a little rocky island there that's as I recall very near the center of the Narrows and it makes maneuvering difficult There was - there was great concern about that
- (12) **Q** Once a master has taken his ship out of the Port of Valdez and through the Narrows are there any particular great difficulties or navigational problems in taking the ship from Valdez Arm past Hinchinbrook out to the Gulf of Alaska?
- (13) **A Navigating a vessel from after the Narrows out to the Gulf of Alaska has never been considered a great problem**
- (14) There is

Vol 18 2998

- (1) one obstacle that was considered early on in the development of
- (2) the traffic patterns out of Prince William Sound and that was
- (3) the - the growlers that come off the -
- (4) **Q** Columbia Glacier?
- (5) **A** The glacier right The name - the word slipped me for a moment And those small growlers find their way out into the
- (6) in and outbound lanes of the Prince William Sound
- (7) **Q** Well let me ask you this you were twice the district commander correct?
- (8) **A Yes**
- (9) **Q** And as part of those commands you commanded vessels correct?
- (10) **A Right**
- (11) **Q** And you had to be concerned with the safety of those vessels correct?
- (12) **A Right**
- (13) **Q** And I take it you informed yourself as to where there were easier or more difficult passages that your ships would regularly traverse?
- (14) **A Surely**
- (15) **Q** And did you have - when you were Pacific area commander you had ships in your command did you not?
- (16) **A Yes**
- (17) **Q** Did you come to an understanding as to whether there were any places known generally by mariners to be difficult to

Vol 18 2999

Vol 18 3001

(1) transit in the Pacific?  
 (2) A I think if you're looking to my experience in comparison of  
 (3) channels and entries into areas I will - I can only compare  
 (4) it to my duties as captain of the port and responsible for the  
 (5) aids to navigation going in and out of Houston and  
 (6) Galveston,  
 (7) and the navigation problems of going in and out of there  
 (8) were  
 (9) overwhelming in comparison to going in and out of Prince  
 (10) William Sound  
 (11) MR O NEILL We have no cross examination  
 (12) THE COURT Okay  
 (13) MR LYNCH Your Honor may I offer DX3523 which is  
 (14) the paragraph of the August 30 memorandum which was  
 (15) referenced  
 (16) in Admiral Robbins deposition testimony  
 (17) (Exhibit DX3523 offered)  
 (18) MR O NEILL We have no objection  
 (19) THE COURT DX3523 is admitted  
 (20) (Exhibit DX3523 received)  
 (21) MR SANDERS May it please the Court our next  
 (22) witness is Mr Gordon Taylor I have to do a little staging  
 (23) here It is by video but there is a minor problem and I have  
 (24) to put up a chart  
 (25) May it please the Court there was a problem with the  
 (26) videotape in reproducing it or something and the first several  
 (27) lines are missing from the videotape and with your permission  
 (28) and I hope no objection from the plaintiffs I would like to

Vol 18 3000

(1) simply read the introductory questions and answer and then  
 (2) we'll start the tape at the first place where we have  
 (3) something  
 (4) MR O NEILL No objection  
 (5) THE COURT Fine go ahead  
 (6) MR SANDERS The first question is would you state  
 (7) your name for the record please The answer is Gordon Paul  
 (8) Taylor  
 (9) Question what did you do in terms of employment after -  
 (10) immediately after graduating from high school  
 (11) Answer Coast Guard  
 (12) Question and did you go to the Coast Guard as an enlisted  
 (13) man The answer was yes  
 (14) Question and then what did you do  
 (15) Answer then I worked as a civilian watch stander for the  
 (16) Department of Transportation in Valdez Alaska  
 (17) Question that's from '87 until when sir  
 (18) Answer to '89 approximately  
 (19) Question when in 1989 did you leave that job  
 (20) Answer oh about July  
 (21) Now I think we have tape from that point on Your Honor  
 (22) DIRECT EXAMINATION OF GORDON PAUL TAYLOR (Video)  
 (23) BY VIDEO EXAMINER  
 (24) Q Do you recall - what shift did you work on March 23 1989?  
 (25) A Four p m to midnight 1600 to 2400

(1) Q When to your recollection did you report to work at the  
 (2) Vessel Traffic Center the day of March 23rd 1989?  
 (3) A Approximately what time did I get there?  
 (4) Q Yes  
 (5) A 1530 1545, that's just what time you show up  
 (6) Q Who did - who did you relieve as watch stander?  
 (7) A I believe it was Frank Shepard  
 (8) Q Was there a vessel called Arco Juneau that was transiting  
 (9) outbound in the system during your watch on March 23 1989?  
 (10) A I believe there was Outbound at the start of my watch  
 (11) was.  
 (12) Arco Juneau  
 (13) Q Okay have you ever listened to any portion of the March  
 (14) 23 1989 tape recording that deals with communications any  
 (15) communications you may have had with the - with the Arco  
 (16) Juneau?  
 (17) A No, I have not  
 (18) Q Okay Let's continue talking about the Arco Juneau Do  
 (19) you recall receiving an ice report from the Arco Juneau on  
 (20) March 23 1989?  
 (21) A I believe I did  
 (22) Q What was the content of that ice report to the best of  
 (23) your recollection?  
 (24) A Let's see Best I can remember is it was - they said the  
 (25) ice was extending extending down from Point Freemantle  
 (26) across  
 (27) to Glacier Island across to Bligh Reef I believe that's what

Vol 18 3002

(1) they said And I believe they even had to deviate a little  
 (2) bit I don't know if they went - how far out they had  
 (3) deviated but they had to do some course changes and  
 (4) speeds to  
 (5) get down through the ice That's all I remember on that  
 (6) Q Do you recall how many different times you talked to the -  
 (7) to the Arco Juneau on its outbound voyage?  
 (8) A No I don't  
 (9) Q Did you follow the Arco Juneau on radar?  
 (10) A Yes I did  
 (11) Q How far did you follow the Arco Juneau on radar?  
 (12) A I don't recall As far down as I could but I can't tell  
 (13) you exactly where  
 (14) Q You said a moment ago that you recall that the Arco Juneau  
 (15) had to deviate to some extent although you said you couldn't  
 (16) recall the particulars Do you recall whether you were able to  
 (17) follow the Arco Juneau during all or part of its deviation?  
 (18) A I don't think I recall being able to plot them or follow  
 (19) them on any other than just the radio radio calls There's  
 (20) nothing that I - you know no visual or anything like that  
 (21) It was all radio done by the radio  
 (22) Q Are you saying that as you sit here today you didn't see  
 (23) any part of the course of the Arco Juneau that represented a  
 (24) deviation from the outbound lane on radar?  
 (25) A Not that I recall not that I recall  
 (26) Q Okay Do you recall anything further about what the Arco

Vol 18 3003

Vol 18 3005

- (1) Juneau reported to you about its intentions in deviating from  
 (2) its assigned lane?  
 (3) **A No I don't**  
 (4) **Q Mr Taylor at sometime after the transit of the Arco**  
 (5) **Juneau the outbound transit of the Arco Juneau did you pass**  
 (6) **on to the Exxon Valdez the ice report that you had received**  
 (7) **from the Arco Juneau?**  
 (8) **A I believe I did**  
 (9) **Q What did you pass on to the - to the Exxon Valdez?**  
 (10) **A I recall I passed on to them that there was ice extended**  
 (11) **completely across the lanes and that was - and that I had**  
 (12) **gotten a report a lot earlier and that I would request a report**  
 (13) **from them when they got down to there**  
 (14) **Q You testified earlier in this deposition that the Arco**  
 (15) **Juneau told you that the ice was all the way across the lanes**  
 (16) **didn't you?**  
 (17) **A That's what I recalled yeah**  
 (18) **Q And if that's the ice report that you got that's the ice**  
 (19) **report that you should have conveyed to the Exxon Valdez isn't**  
 (20) **it?**  
 (21) **A If that's the ice report I got then that's the ice report**  
 (22) **I should have conveyed**  
 (23) **Q I asked you earlier whether you recalled how far you**  
 (24) **plotted the Arco Juneau on radar and whether you could pick**  
 (25) **up**  
 (26) **the deviation on radar Do you recall that?**

Vol 18 3004

- (1) **A Yes**  
 (2) **Q Do you recall that testimony?**  
 (3) **A I recall**  
 (4) **Q And I believe your testimony was that you did not observe**  
 (5) **the deviation on radar?**  
 (6) **A I don't recall observing the deviation on radar**  
 (7) **Q You're saying now that you don't recall observing it**  
 (8) **A Right**  
 (9) **Q Okay I thought you testified earlier that you recalled**  
 (10) **that you did not observe it?**  
 (11) **A Well I didn't observe it that I recall how's that sound**  
 (12) **Q Okay Turn over to page 499 in the same exhibit starting**  
 (13) **at line 2 down to line 12 question even under - you just**  
 (14) **can't remember whether you plotted it you can't remember**  
 (15) **whether you monitored them at all and this is referring to the**  
 (16) **Arco Juneau?**  
 (17) **A Yes**  
 (18) **Q Okay Answer I monitored it I can remember monitoring**  
 (19) **it yes however I lost this - from what I recall I lost it**  
 (20) **on radar somewhere at the ten to twelve mile range**  
 (21) **Question did you observe the vessel alter course into the**  
 (22) **northbound lane at that point**  
 (23) **Answer the Arco Juneau**  
 (24) **Question yes**  
 (25) **Answer yes I did**

- (1) Now does that change your testimony or refresh your  
 (2) recollection with regard to what you observed the Arco Juneau  
 (3) do and how far you followed it?  
 (4) **A No**  
 (5) **Q Again do you have any reason to doubt the accuracy of this**  
 (6) **transcript as to what you recalled on May 17th 1989 under oath**  
 (7) **to the NTSB?**  
 (8) **A No**  
 (9) **Q Again would you turn to page 522 again in the NTSB**  
 (10) **transcript Were you asked these questions and did you give**  
 (11) **these answers I'm going to read over to line 5 on the next**  
 (12) **page**  
 (13) **Question okay so did you observe the Arco Juneau**  
 (14) **leaving where you figured the traffic lanes were**  
 (15) **Yes I did I saw it make its turn when they said they**  
 (16) **were going to cut over towards Bligh Reef buoy I saw it make**  
 (17) **its turn towards Bligh Reef yeah I saw that**  
 (18) **Question did you see it long enough to see that it had**  
 (19) **actually crossed the northbound line and left the TSS**  
 (20) **entirely**  
 (21) **Answer I do not know if it left the TSS They did not**  
 (22) **pass it on to me**  
 (23) **Now did you give those answers to those questions?**  
 (24) **A I could have**  
 (25) **Q Okay You don't recall?**

Vol 18 3006

- (1) **A No**  
 (2) **Q Any reason to doubt you gave that testimony?**  
 (3) **A No**  
 (4) **Q What did you mean when you said I do not know if it left**  
 (5) **the TSS they did not pass it on to me?**  
 (6) **A That means if they leave the traffic separation scheme**  
 (7) **they're supposed to let you know prior to doing that and**  
 (8) **they**  
 (9) **didn't pass it on to me**  
 (10) **Q Now when you say I do not know if it left the TSS did you**  
 (11) **mean left the TSS entirely outside the -**  
 (12) **A Right**  
 (13) **Q - eastbound lane?**  
 (14) **A Yeah**  
 (15) **Q The northbound lane?**  
 (16) **A Well all of the lanes**  
 (17) **Q All of the lanes okay**  
 (18) **Now did there come a point in your watch when your relief**  
 (19) **Mr Blandford arrived?**  
 (20) **A Yes there did**  
 (21) **Q What time did he arrive?**  
 (22) **A Somewheres around 2330 2335**  
 (23) **Q I'm sorry what did you say?**  
 (24) **A 2330 or 2335**  
 (25) **Q Was Mr Blandford very predictable in his arrival time?**  
 (26) **A Yes**

Vol 18 3007

Vol 18 3009

- (1) Q And what was the predictable time that he arrived?
- (2) A From what I recall about 15 minutes prior to the watch relief, which is a quarter of, so somewhere around 2330
- He
- (4) liked to get there a little bit in advance you know
- (5) Q Did he follow a routine when he came in?
- (6) A Well, yeah, I guess he followed a routine You ask what's going on
- (7) Q Now when Mr Blandford came in to relieve you what did you - what did you tell him?
- (8) A I don't recall my exact words
- (9) Q I'm sorry did you say you -
- (10) A I don't recall my exact words
- (11) Q - don't recall your exact words?
- (12) A Yeah
- (13) Q In words or substance what did you tell him?
- (14) A I told him what was happening as far as the vessels in the system If vessels, gear how the gear what gear was up, what gear was down Who was the OOD Basically that's about it, I would think
- (15) Q And you said - well let me take those in reverse order
- (16) Who was the OOD?
- (17) A I don't recall
- (18) Q Was it John Gonzales?
- (19) A I don't recall
- (20) Q Okay What gear - you said you told him what gear was up

Vol 18 3008

- (1) and what gear was down What - what did you tell him about the gear that was up and gear that was down? What specifically did you tell him?
- (2) A I don't actually know I remember Cape Hinchinbrook site
- (3) was down That's the VHF site
- (4) UNIDENTIFIED SPEAKER Is that radio
- (5) THE WITNESS Yes I believe that was - I think it was down Naked Island there was something wrong with Naked Island also I didn't - that's about it that I can recall
- (6) BY VIDEO EXAMINER
- (7) Q Then you said you told him what was going on with the vessels in the system?
- (8) A Right what vessel inbound what vessels outbound
- (9) Q What vessels did you have in the system at this time?
- (10) A Oh I don't recall exactly which ones they were I think I had four I think I had the Bartlett the Valdez California and another one behind that or ahead of it There was two of them outbound - or inbound outside of Cape Hinchinbrook
- (11) Q All right So including those two vessels that were outside Cape Hinchinbrook but were - let me strike that I
- (12) A I hadn't checked the system yet
- (13) Q Let me - let me establish this a little better Did you consider the two vessels that were outside Cape Hinchinbrook in the system at that point?
- (14) A They call in on a three our precall which is three hours

- (1) outside of Cape Hinchinbrook Then they are in the system and
- (2) then one hour and then at Cape Hinchinbrook
- (3) Q And were those vessels within that time frame after the three hour precall?
- (4) A I believe so yes
- (5) Q So they were in the system in the terminology that was used?
- (6) A Yes
- (7) Q And you had two vessels outbound the Exxon Valdez and the Bartlett?
- (8) A I believe so
- (9) Q Those are the two vessels that you meant?
- (10) A Yes
- (11) Q What did you tell Mr Blandford about those vessels?
- (12) A Just their locations, where they were at, what was going on I don't know what - recall what I told him about the Bartlett I told him Valdez was outbound going through the ice right now and would give me an updated ETA to Naked Island
- (13) as soon as they got through the ice and also give an updated ice report
- (14) Q Did you tell him anything else about the Exxon Valdez?
- (15) A Not that I recall
- (16) Q Did you tell - did you tell him what course the Exxon Valdez was on at that point?
- (17) A I don't recall

Vol 18 3010

- (1) Q Did you know what course the Exxon Valdez was on at that point?
- (2) A I believe the last course they gave me was 200 Now if I passed that on then I did and if I didn't I didn't I don't recall
- (3) Q Now when Mister - I had asked you a minute ago if you had related to Mr Blandford what the Exxon's course was do you recall that?
- (4) A Uh huh
- (5) Q And you say you didn't recall?
- (6) A Right
- (7) Q How long did you and Mr Blandford take to go through your relief procedures before you left that evening?
- (8) A 15 20 minutes
- (9) Q What time did you leave?
- (10) A I don't recall what time I left but I'm just by it usually takes us 15 20 minutes to do it
- (11) Q At the time Mr Blandford arrived at the station and the relief procedures began was the Exxon Valdez visible on radar?
- (12) A I don't recall I don't think it was though I think it had already - I'd already lost it on the screen by the time Skip came in
- (13) Q What happened?
- (14) A It just started getting intermittent readings every other

Vol 18 3011

- (1) sweep and the data data logger would not hold onto it And
- (2) then it just disappeared from the screen
- (3) Q Let me show you this document which has previously been
- (4) marked 24040 to the deposition of Lieutenant Commander
- (5) Falkenstein It s predesignated document 21 for this
- (6) deposition Go past the first page That s the copy of the
- (7) vessel data sheet is that right?
- (8) A Uh huh
- (9) Q And the second page is the vessel data sheet with an
- (10) authentication stamp at the bottom with Mr. DeLozier s name do
- (11) you see that?
- (12) A Uh huh Yes I do
- (13) Q The page after that?
- (14) A Oh the next page
- (15) Q Yeah See next two pages?
- (16) A Yes, I do
- (17) Q That begins at 2044 does it not that s the data logger
- (18) and goes to 2256?
- (19) A Yes
- (20) Q As a matter of routine at this time at the VTC was the
- (21) data logger in its entirety stapled or otherwise attached to
- (22) the vessel data sheet?
- (23) A Yes I believe so
- (24) Q Mr. Taylor what did you tell Mr. Blandford about the radar
- (25) status of the Exxon Valdez?

Vol 18 3012

- (1) A I can't recall what I told him
- (2) Q What did you do with the data logger?
- (3) A What'd I do with it? I just shut it off
- (4) Q And did you do - did you do anything else other than shut
- (5) the data logger off during this period of time between the -
- (6) when the - when the image became intermittent and when you
- (7) saw
- (8) it disappear from the screen?
- (9) A No I switched over to the 12 mile scale trying to pick it
- (10) up and there was nothing on the 12 mile scale So I
- (11) switched
- (12) back do the six mile and this was the time when it was
- (13) intermittent It was still intermittent at the time and I
- (14) could see it better on the six mile because I was getting an
- (15) intermittent - what do you call it there return no return on
- (16) the 12 mile scale So I - it was offset and so I just
- (17) watched it on the offset six miles and - let me see yeah
- (18) because it was no - I couldn't see it on the 12 well that's
- (19) about all I did switch it back and forth that I can recall
- (20) Q When you say switch it back and forth -
- (21) A From the six mile to the twelve mile
- (22) Q From the six to the twelve that s what you meant?
- (23) A Yes
- (24) Q When you say switch it back and forth from the six to the
- (25) twelve how many times did you try the twelve mile scale?
- (26) A Couple of times
- (27) Q Couple times? Why did you try it more than once?

Vol 18 3013

- (1) A I just did I remember switching switching it over it's
- (2) not there bring it back to the six and see a little bit
- (3) Bring it back to the 12 it's just a click of the wrist It's
- (4) no big deal It's not a major evolution
- (5) Q Did you do anything else during that period of time?
- (6) A I messed with the gain a little bit trying to tune up the
- (7) radar as much as possible Sometimes if you turn the gain
- (8) up a
- (9) little bit you ll get a little more power going down little
- (10) better return you might be able to see it you know if you
- (11) turn the gain up but didn t work
- (12) Q Is that a single knob the gain knob?
- (13) A Yes yes
- (14) Q Did you do anything else?
- (15) A As I recall I remember I cursed
- (16) Q Did you describe to Mr. Blandford your efforts to switch
- (17) out to the 12 mile scale?
- (18) A I can't remember if I did or not
- (19) Q Did - do you recall preparing a statement of the events of
- (20) your watch with regard to the Exxon Valdez on March 24 1989
- (21) the day of the grounding?
- (22) A Yes I do
- (23) Q Did you describe in that statement that the Exxon Valdez
- (24) had disappeared from radar before the end of your watch?
- (25) A I don t recall if I did or not
- (26) Q When you say - you told us before as you know that you

Vol 18 3014

- (1) cursed when you lost it?
- (2) A Uh huh
- (3) Q Did - explain to me a little bit more why you cursed when
- (4) you lost it?
- (5) A Because I thought - well it went off a little sooner I
- (6) lost it a little sooner than I usually do Now if that was
- (7) due to a snow storm moving through or whatever you know
- (8) I
- (9) lost it before I usually do
- (10) Q Now a snow storm or a similar kind of squall that could
- (11) cause interference that makes the vessel disappear doesn t it?
- (12) A Yes if it gets - if your vessel's in the snow storm or it
- (13) gets between you and the radar you can definitely lose the
- (14) whole nine yards just gone disappears
- (15) Q Were there snow storms or squalls in the area that evening?
- (16) A I didn't see any I ater I'd heard that - that the tanker
- (17) had reported it or something like that I don't know where I
- (18) got this from but there was a pretty severe snow squall
- (19) down
- (20) in the Potato Point area that I attributed this problem with
- (21) that moved - that moved out and it actually got clear that
- (22) night So -
- (23) Q Now if - if a squall is interfering with radar reception
- (24) that ll improve if the storm moves out -
- (25) A Yes
- (26) Q - isn t that right? I m going do hand you the O Donovan
- (27) report again and it s open to enclosure nine - I m sorry

Vol 18 3015

Vol 18 3017

- (1) enclosure eight which is statement is dated March 24 1989  
 (2) and a - and amendment to that statement dated April 17 89  
 (3) Did you prepare both both the March 24 statement and the  
 (4) April 17 statement?  
 (5) A Yes I did  
 (6) Q Mr Taylor those are your signatures at the bottom?  
 (7) A Yes sir  
 (8) Q Before we get into the March 24 statement let me ask you  
 (9) about the April 17 statement What were the circumstances that  
 (10) led to your preparing the April 17 amendment?  
 (11) A I had my points mixed up, my Rocky Point and my Busby  
 (12) Island  
 (13) Q And you made a correction with regard to that?  
 (14) A Yes, yes  
 (15) Q Did you offer it on your own or did somebody else ask you  
 (16) to do this?  
 (17) A I believe somebody else asked me I they brought it to my  
 (18) attention and I went oops sorry So I made this amendment  
 (19) up  
 (20) Q Who was that somebody else?  
 (21) A I do not recall  
 (22) Q In the March 24 statement - strike that let me ask you  
 (23) this When you prepared this had you reviewed the vessel data  
 (24) sheet for the Exxon Valdez?  
 (25) A I don't believe I did

- (1) traffic lane when the pilot disembarked?  
 (2) A Uh huh yes  
 (3) Q Now there was a - there was an overlay that could be used  
 (4) at that time to be superimposed on the radar screen wasn't  
 (5) there?  
 (6) A Yes  
 (7) Q You were not using that that night though were you?  
 (8) A No, I was not  
 (9) Q Then the statement goes on at approximately 2330 the tank  
 (10) vessel Valdez informed me that they were going to course 200  
 (11) degrees at 12 knots to go into the traffic separation zone and  
 (12) northbound lanes to try to skirt the ice and they will give me  
 (13) a call with an ice report and updated ETA to Naked Island when  
 (14) they get through the ice The radar was on the six mile scale  
 (15) at this time and I watched the vessel until it was in the  
 (16) traffic separation zone abeam the southern tip of Busby  
 (17) Island  
 (18) Now let me take that last sentence a piece at a time and  
 (19) ask you about several things in it  
 (20) Is it your recollection today that as you got the call at  
 (21) approximately 2330 the radar was on the six mile scale?  
 (22) A I believe so  
 (23) Q Okay And is it your recollection today that you watched  
 (24) the vessel until it was in the traffic separation zone?  
 (25) A I don't recall that

Vol 18 3016

Vol 18 3018

- (1) Q Had you reviewed either the tape recording of outbound  
 (2) transit of the Exxon Valdez or a transcript based on that tape  
 (3) recording?  
 (4) A No I did not  
 (5) Q You see at about two thirds of the - I'm sorry about five  
 (6) or six lines down starting on the fourth line let me read  
 (7) this it says at approximately 2200 the pilot on board the  
 (8) vessel asked via channel 13 for an ice report The vessel was  
 (9) still in the port at this time I told him there was ice  
 (10) reported from Point Fremantle and all the way across the Bligh  
 (11) Reef buoy and that the vessel through T V Area Juneau had to  
 (12) deviate in into the northbound lanes to the Bligh Reef buoy  
 (13) and I got a roger out  
 (14) Now in view of the transcript we've reviewed in this  
 (15) deposition would you agree that that statement is in error?  
 (16) A This statement I wrote down is an error?  
 (17) Q Little bit farther down it says - at approximately nine  
 (18) or ten lines down start reading there says I then received a  
 (19) call from tank vessel Exxon Valdez at Rocky Point informing me  
 (20) that the pilot was away and they gave me an ETA to Naked  
 (21) Island  
 (22) to be approximately 0100 The vessel appeared to be on the  
 (23) western edge of the southbound traffic lane when the pilot  
 (24) disembarked  
 (25) Is that your recollection today Mr Taylor that the image  
 (26) of the Exxon Valdez was at the western edge of the southbound

- (1) Q Any reason to doubt that you did that given that you said  
 (2) so in this statement?  
 (3) A No  
 (4) MR SANDERS Your Honor that's a good stopping  
 (5) point  
 (6) THE COURT All right We'll recess now for the day  
 (7) ladies and gentlemen Please remember my instructions about  
 (8) not reading or listening to anything about this case during our  
 (9) recess We'll reconvene at 8 00 tomorrow morning and as I  
 (10) indicated earlier there are some things I need to talk to  
 (11) counsel about in chambers  
 (12) We'll be in recess now subject to call  
 (13) THE CLERK This court is in recess until eight a m  
 (14) tomorrow  
 (15) (Jury out at 2 00 p m )  
 (16) (Proceedings recessed at 2 00 p m )

Vol 19 3027

(1) Q All right Mr Taylor now let me - I m not finished with  
 (2) the March 24 statement but I want to ask you about the April  
 (3) 17th amendment because it deals with this Busby Island Rocky  
 (4) Point  
 (5) A moment ago you said that somebody you didn t recall who  
 (6) asked you to prepare the April 17 statement because you had  
 (7) your - I forget whether you said my islands mixed up or  
 (8) something like that?  
 (9) A My points  
 (10) Q Your points mixed up  
 (11) When you prepared the April 17th statement did you think  
 (12) that you had made a slip of the pen on this point of Busby  
 (13) Island versus Rocky Point a slip of the typewriter?  
 (14) A No I was just wrong It wasn t a slip of anything I was  
 (15) just wrong  
 (16) Q Do you recall being interviewed by Captain Douglas  
 (17) O Donovan?  
 (18) A I don t even - no no I don t  
 (19) Q Do you remember a Coast Guard captain who came up to -  
 (20) came up to Valdez to carry out an internal investigation for  
 (21) the commandant?  
 (22) A No, I do not I can recall about 25 or 30 Coast Guard  
 (23) people standing around at ungodly times and hours asking  
 (24) questions but I don t recall anything - any specific  
 (25) captain There was probably ten of them there

Vol 19 3028

- (1) Q Well is it your testimony as you sit here today that on  
 (2) this point of whether you watched the vessel to abeam the  
 (3) southern tip of Busby Island or watched it to abeam the  
 (4) southern tip of Rocky Point you don't know which is correct?  
 (5) A Right now, no I can't recall I'm just going by what I  
 (6) have here  
 (7) Q On March 24th '89 did you believe that the southern tip  
 (8) of Busby Island was correct?  
 (9) A Well, that's what I put down here I don't know What can  
 (10) I say  
 (11) Q On April 17 '89 do you believe that it was correct that  
 (12) you had watched the vessel only to the southern tip of Rocky  
 (13) Point?  
 (14) A You know, I don't know  
 (15) Q Did you make the April 17 change only because you were  
 (16) asked to?  
 (17) A I was shown on a chart that that's where it was I  
 (18) can't - trying to think Might have been an NTSB guy  
 (19) because  
 (20) I remember he had the chart there and the - the positions  
 (21) that  
 (22) the tank vessel had had, you know, on there that somebody  
 (23) had  
 (24) plotted is on this - the tank vessel plotting machine you  
 (25) know that runs all the time when they're underway And I  
 recall he showed me that and said that this is where they  
 were  
 at the time, so this can't be correct  
 So I said, well, you're absolutely right, I had my points

Vol 19 3029

- (1) mixed up So I made this amendment I think it was a guy  
 from  
 (2) the NTSB I can't be sure, but he had the plots of the tanker  
 (3) and the times and all that he showed me  
 (4) Q Where did this conversation about the plots with the NTSB  
 (5) man take place?  
 (6) A In the traffic center  
 (7) Q In the VTC?  
 (8) A Yes  
 (9) Q Okay Let me just - I think you omitted a word It may  
 (10) not be terribly important but reread the first sentence of  
 (11) that again  
 (12) A Due to a poor radar return, the vessel started blinking on  
 (13) and off the radar screen  
 (14) Q And then the next sentence of what we're reading says I  
 (15) was then relieved by Bruce Blandford at 2340 is that right?  
 (16) A Yes  
 (17) Q Now does this statement say that the vessel was lost to  
 (18) radar?  
 (19) A It doesn't say it was lost to radar It was lost, then it  
 (20) wasn't lost, then it was lost, then it wasn't lost  
 (21) Q And would you open this to page 36 Mr Taylor the  
 (22) context here is that you're describing to the NTSB questioners  
 (23) what occurred at the time at the time that we're talking  
 (24) about close to the watch relief by Mr Blandford  
 (25) Let me start at line 25 at the bottom The questioner says

Vol 19 3030

- (1) right  
 (2) Then you say starting on line one on page 36 So he said  
 (3) he might be going out of the traffic separation scheme into the  
 (4) northbound lanes you know to get through this ice I will  
 (5) give you a call when I get down through there  
 (6) Now at this time you know he is starting to come up and  
 (7) down on my radar screen and I'm starting to lose him and  
 (8) everything So he says he's going to 200 at 12 knots and pick  
 (9) his way through the ice there and he would call me with an  
 (10) updated ETA to Naked Island and an undated ice record And  
 at  
 (11) that time I said Roger out Well that was probably about  
 (12) 2330 somewheres in that vicinity close quote  
 (13) And then the tape gets changed and you say quote so at  
 (14) this time Skip is in there to relieve me and he is putting his  
 (15) stuff away and is getting ready for him to relieve me and takes  
 (16) me aboard to see where everything is at moving the little  
 (17) tanker stickers so it does help me have that stuff in order and  
 (18) the big work in order  
 (19) I'll repeat the question You didn't say anything to the  
 (20) NTSB interviewer at this point about the Exxon Valdez  
 (21) disappearing from radar did you?  
 (22) A Doesn't seem to be, no  
 (23) Q Do you recall speaking by telephone with Matt Kinney within  
 (24) a few days after the Exxon Valdez grounding?  
 (25) A No, I do not

Vol 19 3031

- (1) Q At the time of the Exxon Valdez grounding was Mr Kinney  
 (2) living in Valdez?  
 (3) A I believe so  
 (4) Q I'm going to read you - well let me ask you this Do you  
 (5) recall that you said you don't recall speaking to Mr Kinney by  
 (6) telephone Do you recall ever telling Mr Kinney that at the  
 (7) time you left the MSO Valdez the vessel traffic center on the  
 (8) night of the grounding the Exxon Valdez was still held on  
 (9) radar?  
 (10) A I don't recall no  
 (11) Q You don't recall?  
 (12) A No  
 (13) Q Well question that was put to you earlier quote so as  
 (14) you sit here today is it correct that you don't recall whether  
 (15) Gordon Taylor told you as to whether or not the image of the  
 (16) Exxon Valdez which as he last saw it was a clear image or  
 (17) whether it was unclear or intermittent image close quote  
 (18) You answered quote he told me he had the tanker on radar  
 (19) when he was relieved close quote  
 (20) Now Mr Taylor did you have that conversation with  
 (21) Mr Kinney?  
 (22) A I don't recall  
 (23) Q Mr Taylor isn't it true that the first time you ever told  
 (24) any authority investigating the NTSB accident that the Exxon  
 (25) Valdez went off radar was at the NTSB hearing in Anchorage on

Vol 19 3032

- (1) May 17th 1989 nearly two months after the grounding?  
 (2) **A I don t recall**  
 (3) **Q Mr Taylor** the last question I asked you let me restate  
 (4) it Was it your March 28 interview by the NTSB that you  
 (5) said - didn t you say at that time that you had lost the Exxon  
 (6) Valdez from radar did you?  
 (7) **A I don t recall**  
 (8) **Q All right** When you were interviewed by the state  
 (9) troopers Burke and Grimes on April 10 you didn t tell them  
 (10) the Exxon Valdez was lost from radar did you?  
 (11) **A I don t recall**  
 (12) **Q When you made the amendment to your March 24th**  
 statement on  
 (13) April 17 you didn t add that the vessel was lost from radar  
 (14) did you?  
 (15) **A I don t believe I did**  
 (16) **Q Isn t it a fact sir** that the first time that you ever  
 (17) told any authority investigating the Exxon Valdez grounding  
 (18) that you tried the 12 mile scale was on May 17th 1989 at the  
 (19) NTSB hearings in Anchorage?  
 (20) **A I don t recall**  
 (21) **Q About how big was the target of Bligh Reef buoy?**  
 (22) **A Well, you want me to estimate the target, estimate the**  
 (23) **size?**  
 (24) **Q Yeah**  
 (25) **A I don t know it might be 12 feet across maybe And**  
 maybe

Vol 19 3033

- (1) **10 feet tall, 12 feet tall**  
 (2) **Q Okay**  
 (3) **A Somewhere in that vicinity**  
 (4) **Q And to your knowledge** about how big a target would the  
 (5) stern end of a vessel such as the Exxon Valdez be?  
 (6) **A Could be maybe 75 feet wide Loaded? Talking loaded**  
 now?  
 (7) **Q Sure**  
 (8) **A Maybe 75 feet wide right at the stern and maybe 75 feet**  
 (9) **tall**  
 (10) **Q Okay** So it s fair to say just as a rough approximation  
 (11) four five times as big as the image of the - as the target  
 (12) presented by the Bligh Reef buoy? I m talking the target the  
 (13) size of the actual target Bligh Reef buoy versus the stern of  
 (14) a vessel the size of Exxon Valdez?  
 (15) **A Lots bigger**  
 (16) **Q Given the discussion we have had about the relative sizes**  
 (17) of the Bligh Reef buoy versus the size of the - of a tanker  
 (18) the size of Exxon Valdez 75 by 75 ballpark versus I think  
 (19) you said 10 or 15 - 10 or 15 -  
 (20) **A Sure**  
 (21) **Q - if you can see the image of the Bligh Reef buoy on**  
 (22) **radar and you ve got a tanker stern on same distance or even a**  
 (23) **little closer than where the Bligh Reef buoy is would you**  
 (24) **expect that you would be able to see the image of the stern of**  
 (25) **the tanker?**

Vol 19 3034

- (1) **A I would expect to see it Yes I would**  
 (2) **MS STEWART** Thank you That concludes our direct  
 (3) **MS WAGNER** Your Honor we have about five minutes of  
 (4) video  
 (5) **CROSS EXAMINATION OF GORDON TAYLOR (Video)**  
 (6) **BY VIDEO EXAMINER**  
 (7) **Q Did you ever have any discussion as to whether or not it**  
 (8) **was appropriate for watch standers to give directions to a**  
 (9) **vessel that was standing into danger?**  
 (10) **A You guys have all asked me how come we didn t call this**  
 (11) **vessel and how come we didn t tell the vessel they re**  
 standing  
 (12) into danger You know, if I knew they were standing into  
 (13) danger, I probably would have told them But you don t - as  
 (14) soon as you tell a vessel to do something you take  
 command of  
 (15) that vessel That s not what we re there for  
 (16) **Q I m going to shift gears one last time I think here**  
 (17) **Mr Taylor** It s a subject that you touched on earlier today  
 (18) but to your understanding who has control over the vessels as  
 (19) they participate in the system?  
 (20) **A The master has control over his vessel**  
 (21) **Q Do you have an understanding as to whether the VTC can**  
 (22) **issue specific letter commands to a vessel participating in the**  
 (23) **system?**  
 (24) **A Did you say, specific rudder commands?**  
 (25) **Q Yes sir**

Vol 19 3035

- (1) **A I don t think they can As far as I m concerned or know**  
 (2) **Q Are you aware of any occasions in which the VTC ordered a**  
 (3) **vessel traveling in the arm to take a specific action for any**  
 (4) **reason other than the presence of conflicting traffic?**  
 (5) **UNIDENTIFIED SPEAKER** Are you talking about rudder  
 (6) commands or what do you mean by specific action?  
 (7) **BY VIDEO EXAMINER**  
 (8) **Q What I mean is** where the VTC orders a vessel not  
 (9) necessarily just rudder commands but orders a vessel to take  
 (10) some action specified by the VTC for reasons other than the  
 (11) presence of conflicting traffic?  
 (12) **A It could possibly happen**  
 (13) **Q Are you aware of any occasions where that occurred?**  
 (14) **A No, usually it was conflicting traffic**  
 (15) **Q What I d like to do now Mr Taylor** is refer you back to  
 (16) the O Donovan report enclosure 16 which is the VTS operating  
 (17) manual And I ve opened it up to section 4 7 4  
 (18) **What I d like to do Mr Taylor** is read two sentences in  
 (19) that - that section in the middle of the paragraph 4 7 4  
 (20) right after the close of the parentheses states a vessel  
 (21) without radar in conditions of severely limited visibility  
 (22) would almost always be better off at anchor than underway  
 with  
 (23) or without VTS assistance Skip the next - skip the next  
 (24) sentence and read the following one  
 (25) The VTC does not have the advantage of immediate on scene

Vol 19 3036

Vol 19 3038

- (1) information which the master or pilot has and will not attempt  
 (2) to con the vessel  
 (3) Are you familiar with this provision of the operating  
 (4) manual?  
 (5) **A Fairly familiar yes**  
 (6) Q Do you agree with those sentences that I ve just read that  
 (7) that s the role of the VTS? Well let me - let me focus on  
 (8) the last sentence I read  
 (9) Do you - what is your understanding of the phrase at that  
 (10) time the VTC does not have the advantage of immediate  
 on scene  
 (11) information?  
 (12) **A That s information that is on the scene**  
 (13) Q Okay Do you have an understanding of the portion of the  
 (14) statement that says that the VTC will not attempt to con the  
 (15) vessel?  
 (16) **A Yes I understand what con means**  
 (17) Q And what s your understanding of that?  
 (18) **A Its to navigate the vessel**  
 (19) Q Do you agree with the statement that the VTC does not have  
 (20) the advantage of immediate on scene information?  
 (21) **A Yes I do**  
 (22) Q And do you believe that that is pertinent information that  
 (23) should be considered in the operation of the vessel?  
 (24) **A Yes, I do**  
 (25) Q And do you agree with the statement that the VTC will not

- (1) the grounding?  
 (2) **A Something to that effect yes**  
 (3) Q Now there s a reference to the inbound lane To your  
 (4) understanding would the inbound lane still be within the TSS?  
 (5) **A Yes**  
 (6) Q Do you recall receiving any transmission from the Exxon  
 (7) Valdez when they in fact did cross over the separation zone?  
 (8) **A No I do not**  
 (9) Q To your understanding would that have been a requirement  
 (10) for a vessel operating within the system to in fact contact  
 (11) the VTC and let them know when they were leaving one lane of  
 (12) travel and exiting out of the traffic separation scheme?  
 (13) **A What I recall that s one of the requirements**  
 (14) UNIDENTIFIED SPEAKER I would ask you under Rule 106  
 (15) to - either for you to read it or ask the witness to read the  
 (16) 2330 54 communication from the Exxon Valdez  
 (17) BY VIDEO EXAMINER  
 (18) Q At the present time uh I m going to alter my course to  
 (19) 200 and reduce speed to about 12 knots to uh wend my way  
 (20) through the ice and Naked Island ETA might be a little out of  
 (21) whack but uh once we re clear of the ice out of Columbia Bay  
 (22) we ll give you another shout over  
 (23) Mr Klinckhardt asked you some questions putting in front  
 (24) of you the exhibit that was predesignated document 28 that  
 (25) short transcript of the communications between the Exxon  
 Valdez

Vol 19 3037

Vol 19 3039

- (1) attempt to con the vessel?  
 (2) **A Yes, I do**  
 (3) Q Mr Taylor what I wanted to ask you about is regards to  
 (4) the Exxon Valdez transmissions to the VTC regarding their  
 (5) intentions on the night of the grounding and you have  
 (6) previously this document has previously been identified as a  
 (7) transcript of the vessel radio communications between the  
 Exxon  
 (8) Valdez and the VTC What I d like to do is refer your  
 (9) attention on the first page of the document to where it s  
 (10) marked from vessel time 2325 24?  
 (11) **A I see that**  
 (12) Q Okay The vessel the transcript at least states the  
 (13) vessel communication to be okay I was just about to tell you  
 (14) that uh judging by our radar I will probably divert from  
 (15) uh the TSS and end up in the uh inbound lane if there s no  
 (16) conflicting traffic over  
 (17) And then if you drop down to 2325 53 the vessel says  
 (18) that d be fine yeah we may end up in the uh inbound lane  
 (19) outbound transit We ll notify when we leave the uh and I  
 (20) cross over the separation zone over  
 (21) UNIDENTIFIED SPEAKER (Indiscernible)  
 (22) BY VIDEO EXAMINER  
 (23) Q Okay It s not on my copy Will notify you when we leave  
 (24) the TSS and cross over the separation zone over  
 (25) Do you recall receiving that transmission on the night of

- (1) and - and the VTC Could you put that back back in front of  
 (2) the witness  
 (3) My question is going to be about the passage that I read at  
 (4) the end of that line of questioning That s the 2330 54  
 (5) communication from the vessel the one that begins at the  
 (6) present time I m going to alter my course to 200  
 (7) **A Yes**  
 (8) Q You see that? Now given the time of that transmission  
 (9) 2330 54 you held the vessel on radar at that point did you  
 (10) not sir?  
 (11) **A I believe so**  
 (12) Q Where was the vessel within the TSS at that time?  
 (13) **A It was on, I d say, the eastern side of the outbound lane**  
 (14) Q So it was - it was through the separation zone at that  
 (15) point?  
 (16) **A No It was not**  
 (17) Q Didn t you say east side of the outbound lane?  
 (18) **A East side of the outbound lane which would be on the**  
 (19) **Inboard side closest to the separation zone**  
 (20) Q Just about to cross the boundary of the separation zone?  
 (21) **A Yes from what I recall, yes**  
 (22) MS WAGNER That concludes it Your Honor  
 (23) MR LYNCH Your Honor we ll call Coast Guard Watch  
 (24) Stander Bruce Blandford regrettably by deposition as well  
 (25) Your Honor defendants would like to offer Exhibit 3512

Vol 19 3040

- (1) which is the vessel traffic center manual I understand there  
 (2) is no objection  
 (3) (Exhibit 3512 offered)  
 (4) MR O NEILL No objection  
 (5) THE COURT Defendants Exhibit 3512 is admitted  
 (6) (Exhibit 3512 received)  
 (7) MR LYNCH I m going to display a couple of portions  
 (8) of that manual which will be discussed but not quoted in the  
 (9) testimony if I may This is just the front page indicating  
 (10) that the manual provides instructions for operation of the  
 (11) vessel traffic center Provisions that will be relevant to the  
 (12) testimony and inquiry of Mr Blandford are section 2 3 2 which  
 (13) specifies that there should be positive identification of all  
 (14) radar targets when the watch is replaced or relieved  
 (15) Provision 3 12 17 which was discussed in the Taylor testimony  
 (16) and will also be somewhat discussed in the Blandford testimony  
 (17) relating to what the watch stander should do in a case where a  
 (18) vessel is observed on radar to be standing into danger or  
 (19) heading into a dangerous situation Provision 3 - 4 2 6  
 (20) which relates to plotting the location of the vessel on paper  
 (21) as you heard in the prior testimony that s done by an  
 (22) automatic machine which was shown yesterday by Mr Sanders  
 (23) And provision 4 9 4 c which has to do with advising the  
 (24) officer of the day in any case where a vessel needs to deviate  
 (25) out of the traffic lanes because of the presence of ice and

4 02

Vol 19 3041

- (1) permission to do that is given  
 (2) MR LYNCH These are all excerpts from exhibit  
 (3) Defendants 3512  
 (4) THE CLERK Sir would you stand and raise your right  
 (5) hand  
 (6) (The Reader Is Sworn)  
 (7) THE CLERK For the record sir state your full name  
 (8) address and spell your last name  
 (9) THE WITNESS My name is Wolfgang Johan Konkell My  
 (10) address is 40 Gatehouse Road Holland path  
 (11) THE CLERK Spell your last name  
 (12) THE WITNESS The last name is spelled K O N K E L  
 (13) MR LYNCH One question before we go to deposition  
 (14) Mr Konkell you re not related to Jim Kunkel who testified here  
 (15) earlier?  
 (16) THE WITNESS No I m not  
 (17) DIRECT EXAMINATION OF BRUCE BLANDFORD (Read)  
 (18) BY MR LYNCH  
 (19) Q Okay All right Just for the record Mr Blandford your  
 (20) full name is?  
 (21) A Bruce Leonard Blandford  
 (22) Q Have you finished?  
 (23) A Yes  
 (24) Q And where do you live now?  
 (25) A Valdez

Vol 19 3042

- (1) Q And where are you currently employed?  
 (2) A At the Coast Guard, at the traffic center  
 (3) Q And what is your position?  
 (4) A Vessel traffic controller  
 (5) Q When did you begin your current employment?  
 (6) A August, August 13 I think  
 (7) MR LYNCH And Mr Berns the lawyer from the Coast  
 (8) Guard intervened  
 (9) What year?  
 (10) THE WITNESS 1986  
 (11) BY MR LYNCH  
 (12) Q On March 23 1989 what was your assigned shift?  
 (13) A That would have been the midnight to eight  
 (14) Q Okay What time did you arrive at MSO Valdez that night?  
 (15) MSO stands for marine safety office  
 (16) A As best I can recall, it was about 2335  
 (17) Q Now when you - when you arrived at the MSO Valdez who  
 (18) did you see?  
 (19) A The off-going watch stander whom I was relieving,  
 (20) Mr Taylor  
 (21) Q All right And what did Mr Taylor tell you?  
 (22) A Okay I have not - I have not reviewed any of my previous  
 (23) testimony Okay? I'm just thinking of what I remember that  
 -  
 (24) without reviewing anything that I ve said previously As  
 best  
 (25) I can recall he told me that there was - the Exxon Valdez  
 was

Vol 19 3043

- (1) outbound There was ice in the traffic lanes He told me  
 that  
 (2) the Exxon Valdez had dropped their pilot and that they were  
 (3) altering course to 200 to avoid ice They had given a new -  
 ■  
 (4) new ETA at Naked Island of 0100, but they said that they  
 would  
 (5) call when they were free of the ice, when they had - when  
 they  
 (6) had successfully weaved their way through the ice they  
 would  
 (7) call with an updated ETA for Naked Island He also told me  
 (8) that the ice was reported across both traffic lanes or there  
 (9) was - there was ice I don t recall exactly what he said, as  
 (10) far as the concentration or the size of the ice, but he told me  
 (11) that a couple of hours prior to that or a few hours prior to  
 (12) that that the Arco Juneau had gone out successfully without  
 ■  
 (13) problem They had maneuvered over into the inbound lane  
 in the  
 (14) vicinity over by the buoy and had Bligh Reef buoy, and had  
 not  
 (15) experienced any problems He'd sailed right on through  
 (16) Q I m sorry what else did he tell you?  
 (17) A This is out of order He probably told me this first, that  
 (18) the Exxon Valdez was gone from the scope or had gone from  
 (19) radar  
 (20) Q So are you saying that when you first came in when you  
 (21) first went by the status board -  
 (22) A Uh huh  
 (23) Q - or the board as you call it you probably looked at the  
 (24) status board is that - I m not sure I understand what you re  
 (25) saying

Vol 19 3044

Vol 19 3046

- 1 **A Probably**  
 (2) **Q Okay** When was the first time you looked at the PPI radar screen?  
 (3) **A Probably right after I got there**  
 (4) **Q Do you remember looking at the radar screen?**  
 (5) **A Yes that I remember**  
 (6) **Q Now** you said that Mr Taylor told you that the Exxon Valdez was gone from the scope I think that was the way you put it?  
 (7) **A Okay** He said either gone from the scope or gone from the radar I can't - it was one of the two  
 (8) **Q Now** when he said that to you had you looked at the radar by that time?  
 (9) **A Yes**  
 (10) **Q And what** - and what scale was the - was the PPI scope set on at that time?  
 (11) **A Six mile**  
 (12) **Q Did Mr Taylor** leave immediately after that?  
 (13) **A I think he left somewhere in the neighborhood of 2340 to 2345**  
 (14) **Q All right** After Mr Taylor left what did you then do?  
 (15) **A After I** - I probably spent about five minutes familiarizing myself with what was going on around me the different - looking over the different data sheets and after  
 (16) **I** - after a short period of time when I felt as though I

- (17) **and making the mid watch log entry which included checking the**  
 (18) **bearing and range on middle rocks to make sure that the radars**  
 (19) **were calibrated** This usually took about oh anywhere - well it really depends on how involved the tape changing process could be Those three jobs could take up to 20 minutes  
 (20) **Q Now** was it your - your practice to accomplish those tasks at the same time during your watch as a matter of routine?  
 (21) **A Uh-huh**  
 (22) **Q And when did you usually do that?**  
 (23) **A Right after midnight, started on the tapes**  
 (24) **Q Did the tape** the new 24 hour tape it's a communications tape I guess right?  
 (25) **A Uh-huh**  
 (26) **Q You said** sometimes it started automatically and sometimes it didn't?  
 (27) **A Uh-huh**  
 (28) **Q Why was that?**  
 (29) **A I think it's the way the thing is hooked up** One of them, regardless of how it's set you get an alarm at midnight and you have to physically go over there and turn it off I don't remember which reels was going, but which reel was on standby - and which reel was on standby, but it's always been  
 (30) **a good idea to be there to deal with it at midnight**  
 (31) **Q In case it doesn't start automatically?**

Vol 19 3045

Vol 19 3047

- (1) **had** - was well aware of everything that was going - was happening I went out to get a cup of coffee At that time we had no - there was no kind of coffee There was no coffee facilities or anything like that We had to go downstairs to get a cup of coffee I went down to get a cup of coffee and I stopped at the weather office on the way back to see what the weather was forecast was because we'd had some periods of typically crummy weather and I wanted to apprise myself of what was going on in that regard and I probably got back into the traffic center maybe five minutes to midnight I can't say for sure -  
 (2) **Q How long** -  
 (3) **A** - on the timing  
 (4) **Q All right**  
 (5) **A I do know that I was there at midnight when the tapes** - when the - when the alarm on the tape machine goes off  
 (6) **Q Okay**  
 (7) **A Tells you the reels** - you got to stop the reel, wind it and start the other one  
 (8) **Q All right** Now you said you got back to the VTC sometime before midnight?  
 (9) **A Right**  
 (10) **Q And what did you do then?**  
 (11) **A I started in on my mid watch chores, which at that time were** - or involved changing the tape, filing the day's traffic

- (12) **A Right**  
 (13) **Q On this night** the night of the Exxon Valdez grounding did the tape in fact start automatically?  
 (14) **A I believe it did**  
 (15) **Q Now the other** - in addition to the standard entry including the bearing range range of middle rock -  
 (16) **A Uh huh**  
 (17) **Q** - and seeing that tape starts automatically doing something if it doesn't what else - what else did you attend to in these minutes after midnight? Was there anything else?  
 (18) **A Filing the traffic**  
 (19) **Q Filing the** -  
 (20) **A The day's traffic**  
 (21) **Q All right** That's March 23 traffic?  
 (22) **A Uh huh**  
 (23) **Q And what does that entail?** You have to gather forms?  
 (24) **A We gather the data sheets that have been completed during**  
 (25) **the day and tabulate them as far as the different vessel categories, and then we have another form that we fill out to keep tallies on all the different vessel categories** It gets logged in there, they get stapled together and then filed in a file  
 (26) **Q How long does that take?**  
 (27) **A It all depends on how many** - how many day sheets there are you know It might take three four minutes

Vol 19 3048

- (1) Q Now what was your reason for doing that at the beginning  
 (2) of the shift as opposed to some later time?  
 (3) A Well, again, they go on this completed board and if you  
 (4) start - if you keep going, adding - we'd be adding more  
 (5) vessels to it for the current day, like March 24th, that would,  
 (6) you know, they may get mixed up in there and so you have  
 to do  
 (7) that right away, too. If you've got - particularly if you've  
 (8) got somebody current in the system  
 (9) Q All right. Have we gone through each of the tasks that you  
 (10) performed after you returned to the VTC?  
 (11) A I believe so.  
 (12) Q Okay. How long did all that take?  
 (13) A It probably took me 15 minutes.  
 (14) Q All right. So approximately when then would you have  
 (15) finished those tasks?  
 (16) A Probably at 0015, anywhere from - I'm going to say a  
 (17) minimum of 10 minutes a maximum of 20.  
 (18) Q Okay. What did you do from that point whether it was 0015  
 (19) or plus or minus a few minutes from your estimate what did you  
 (20) do then when you came back - I'm sorry when you finished  
 with  
 (21) those tasks?  
 (22) A I don't - I don't recall exactly what I may have looked at  
 (23) or occupied myself with. All I can remember is that about 20  
 (24) minutes after is that I was beginning to wonder why I hadn't  
 (25) heard from the Exxon Valdez in light of what Mr Taylor told  
 me

Vol 19 3049

- (1) that he would be calling me with a new ETA for Naked  
 Island, I  
 (2) was expecting that call, and shortly after I finished dealing  
 (3) with the - those duties, I was beginning to wonder when I  
 (4) would hear from the tanker with their new ETA  
 (5) Q Okay. I think I asked you what you then did after you  
 (6) finished the routine tasks and you said well I began to  
 (7) wonder when I was going to hear from the Exxon Valdez?  
 (8) A Uh huh  
 (9) Q Did you take any action on that wondering?  
 (10) A No, it was - no, it was just moments later that he called  
 (11) Q When did the Exxon Valdez call you?  
 (12) A I don't know 0028 or something like that  
 (13) Q After Mr Taylor left and up to the time that you got a  
 (14) call from the Exxon Valdez you said earlier that the radar was  
 (15) on the six mile scale when Mr Taylor left?  
 (16) A Uh huh  
 (17) Q What changes did you make to the scale?  
 (18) A At midnight, I had to put the radar with the data logger on  
 (19) it on the three mile scale in order to calibrate it  
 (20) Q Which radar has the data log on it?  
 (21) A I'm having a hard time remembering that  
 (22) Q Whichever radar that was master or slave you shifted it  
 (23) from the six mile to the three mile is that what you're  
 (24) saying?  
 (25) A Uh huh

Vol 19 3050

- (1) Q And you did that as part of your -  
 (2) A Uh-huh  
 (3) Q - routine range and bearing on middle rock?  
 (4) A Uh huh  
 (5) Q Did you make any other changes to the radar?  
 (6) A Not that I recall  
 (7) Q Okay. All right. Tell me about the call you got from the  
 (8) Exxon Valdez  
 (9) A Okay. He called and he said, oh, jeez. He said something  
 (10) to the effect he's fetched up aground north of Goose Island  
 (11) which kind of blew me away because Goose Island is ten  
 plus  
 (12) miles from there and it's not normally used as a reference  
 (13) Okay? If you were in this area, you wouldn't normally use  
 (14) Goose Island as a reference point. Okay?  
 (15) Q What else did he say?  
 (16) A If he were coming from Anchorage, maybe you would use  
 it as  
 (17) a reference, but - and there was some - that he was  
 aground,  
 (18) reference to Goose Island, and that there was oil in the  
 water  
 (19) Q Okay  
 (20) A There was some oil in the water  
 (21) Q All right. What did you do in response to that call?  
 (22) A Okay. I tried to find him on the radar and then I -  
 (23) because of what he said about Goose Island, I was trying to  
 (24) clarify it with what I saw on the scope, with what he said,  
 and  
 (25) it didn't jibe

Vol 19 3051

- (1) Q All right  
 (2) A He was north of Bligh Reef, he wasn't north of Goose  
 (3) Island  
 (4) Q Now when you say I tried to find him on the radar what  
 (5) did you do?  
 (6) A Okay. I turned to the center console again on the center  
 (7) indicator  
 (8) Q Uh huh  
 (9) A And I put it on the 12 mile scale. Now whether it was the  
 (10) slave or the master I don't remember. And what I had to do  
 to  
 (11) get a picture on it, I don't remember  
 (12) Q Is that the first adjustment you made you changed the  
 (13) scale to 12 mile?  
 (14) A Right  
 (15) Q And what - what you did was you changed the scale on the  
 (16) center radar to 12 miles?  
 (17) A That's correct  
 (18) Q And then what happened? What did you see?  
 (19) I guess that's still question. Excuse me  
 (20) Whether the center radar was the master and that - whether  
 (21) the center radar was the master that was the only change you  
 (22) needed to make or whether - or whether the center was the  
 (23) slave and therefore you had to change both the master and the  
 (24) center slave once you made the range change to 12 by either  
 of  
 (25) those two techniques what did you then see?

Vol 19 3052

- (1) **A Okay I saw a - a foreign blip, if you will, which was**  
 (2) **over in the area of - north of Bligh - north of the reef**  
 (3) **which is not normally there**  
 (4) **Q Mr Blandford what else did you do with the radar if**  
 (5) **anything after you acquired the target by shifting up to the**  
 (6) **12 mile scale as you told us?**  
 (7) **A Well, I used it to determine just by sighting relative -**  
 (8) **the relative position that the ship was to the buoy Now**  
 (9) **whether it was to the actual target of the buoy or the circle**  
 (10) **it's unclear, but I do remember that I estimated that it was**  
 (11) **probably a mile, a mile or so north of the area of the buoy**  
 (12) **And then I asked Captain Hazelwood if he was in that**  
 (13) **position**  
 (14) **about a mile or so north of the buoy, and he said, yes So**  
 (15) **that's how I positively identified the Exxon Valdez**  
 (16) **Q Did you at any time from the time you came top the VC -**  
 (17) **VTC that night until after you had gotten a report from the**  
 (18) **Valdez and acquired it on radar**  
 (19) **A Uh-huh**  
 (20) **Q Did you at any time contact the officer of the day?**  
 (21) **A No**  
 (22) **Q Who was the officer of the day?**  
 (23) **A I believe it was petty officer Gonzales**  
 (24) **Q Were you required as a civilian watch stander to notify**  
 (25) **the officer of the day if a vessel was deviating from its**  
 (26) **assigned course?**

Vol 19 3053

- (1) **A I believe we were**  
 (2) **Q Is that requirement in the VTC manual?**  
 (3) **A I believe it is**  
 (4) **Q Did you at any time from the time you came to the VTC that**  
 (5) **night until you received the report from the Exxon Valdez**  
 (6) **attempt to identify the target on the 12 mile scale of radar?**  
 (7) **A Okay You want to say that one more time?**  
 (8) **Q I'll ask it again Did you at any time from the time you**  
 (9) **arrived at the VTC center that night until the time you**  
 (10) **received a report from the Exxon Valdez try to identify the**  
 (11) **target of the Exxon Valdez on radar by using the 12 mile scale?**  
 (12) **A No**  
 (13) **Q Were you required to attempt to identify the Exxon Valdez**  
 (14) **on the 12 mile scale during that time period?**  
 (15) **A I was - as part of relief procedure, I was required to**  
 (16) **identify all of the - along with the off-going watch, all**  
 (17) **targets held on radar Sorry, that's a requirement in the**  
 (18) **VTC**  
 (19) **manual Sorry, that's a requirement in the VTC manual**  
 (20) **Q And then it continues adds an answer**  
 (21) **A I believe so**  
 (22) **Q All right Now did you - are you saying that you don't**  
 (23) **believe that that requirement is in the VTC manual that**  
 (24) **requirement in the VTC manual applied to you?**  
 (25) **A No, I'm saying - what I'm saying is that at the time of**  
 (26) **relief, the target was not held on radar**

Vol 19 3054

- (1) **Q At the time of relief you've testified here today I think**  
 (2) **you said it before you were told that the vessel was gone from**  
 (3) **the scope and gone from the radar isn't that right?**  
 (4) **A Right, one of the two**  
 (5) **Q The radar was on the six mile scale was it not?**  
 (6) **A Uh huh**  
 (7) **Q Have you ever tried to raise the vessel on the 12 mile**  
 (8) **scale?**  
 (9) **A No**  
 (10) **Q Let me ask you about the circumstances With the**  
 (11) **information that Mr Taylor had made available to you on that**  
 (12) **evening did you feel that operations were normal at the time**  
 (13) **that you relieved him with respect to the Exxon Valdez?**  
 (14) **A Okay Prior to that time, it was not unusual for people to**  
 (15) **deviate, if you will, from their traffic lane to avoid ice It**  
 (16) **was not at all unusual It wasn't unusual for them to go into**  
 (17) **the inbound lane In this particular circumstance the**  
 (18) **master**  
 (19) **had outlined exactly what he intended to do, which was**  
 (20) **even -**  
 (21) **probably in most cases you wouldn't even have that**  
 (22) **thorough of**  
 (23) **information In most cases, probably the master would**  
 (24) **have**  
 (25) **said, I'm going to be going into - into the - into the**  
 (26) **inbound lane to skirt this ice That's probably all he would**  
 (27) **have said He wouldn't have given a specific course or a**  
 (28) **specific - specific speed**  
 (29) **Now with that - with that information in hand, I saw no -**

Vol 19 3055

- (1) **nothing out of the ordinary, under those particular**  
 (2) **circumstances with ice in the lanes in the traffic lanes In**  
 (3) **other words, there was no - there was nothing to send up a**  
 (4) **red**  
 (5) **flag, okay Although it wasn't - obviously it wasn't a**  
 (6) **routine transit, if it were routine, the guy would have stayed**  
 (7) **in his lane and, you know, gone the whole course through**  
 (8) **the**  
 (9) **rest of the system You know this is - it was not are you -**  
 (10) **it was not routine in that regard but it still did not raise**  
 (11) **cause for alarm Okay**  
 (12) **Q So it was not routine but it was not unusual?**  
 (13) **A That's correct.**  
 (14) **Q Mr Blandford if on the night of the grounding during your**  
 (15) **shift before you got the report from the Exxon Valdez if you**  
 (16) **had turned the radar scale up to the 12 miles and had seen the**  
 (17) **target of the Exxon Valdez and had gotten a contact that**  
 (18) **indicated to you that the vessel might be standing - steering**  
 (19) **it says into danger what would you likely have done?**  
 (20) **A I probably would have called on the radio if he would have**  
 (21) **been doing something other than what he had related to us,**  
 (22) **he**  
 (23) **had related that to Mr Taylor which was in turn relayed to**  
 (24) **me,**  
 (25) **okay, if the ship had - were doing something other than -**  
 (26) **than what he had told us he intended to do, I probably would**  
 (27) **have told him where he held - where we held him on radar**  
 (28) **if**  
 (29) **we held him on radar and asked him what his intentions**  
 (30) **were**  
 (31) **Q And is that approach consistent with the policies of the**

Vol 19 3056

- (1) VTC and the practices that were in effect during your time as a watch stander?
- (2) **A Yes, it is We can't - we can't on other people's vessels**
- (3) **Q Right**
- (4) **A Nor can we give them course of speeds or anything**
- (5) **MR LYNCH There's a fragment question which I won't read**
- (6) **That concludes our reading of the testimony of Bruce Blandford Your Honor**
- (7) **MR O NEILL Your Honor by way of correction when Mr Lynch read section 3 12 17 and described it he described it as talking about standing in danger and the word standing in danger doesn't appear in that section of the manual**
- (8) **MR LYNCH You want to show it again?**
- (9) **MR O NEILL No We have a short video cross-examination**
- (10) **CROSS EXAMINATION OF BRUCE BLANDFORD (Video)**
- (11) **BY VIDEO EXAMINER**
- (12) **Q You've said today and you've said before I think that the ratio of the returns of the Valdez when broadside viewed broadside in your view would be about ten to one is that right?**
- (13) **A Probably**
- (14) **Q And what would be the relative size of the return of stern**

Vol 19 3057

- (1) **on - viewed stern on Exxon Valdez and the Bligh Reef buoy?**
- (2) **A Maybe three to one**
- (3) **Q Three to one?**
- (4) **A That's just a guess**
- (5) **Q Now if the weather were clear enough to see the end return on 12 mile scale and the Bligh Reef buoy is it then -**
- (6) **A A reasonable assumption**
- (7) **Q - a reasonable assumption that you would get a return from a stern on vessel in the same area?**
- (8) **A That's a - that's a reasonable assumption that one could draw However, there are - this has never been brought out before but since the accident in the intervening years I've watched closely inbound tankers particularly coming in at ballast, which are presenting far more surface area to be - as presented as a target, and in the vicinity of the buoy, which is just maybe five degrees in from the traffic lane particularly when they're making that corner that dogleg in the traffic lane, they'll just disappear**
- (9) **Q At the dogleg?**
- (10) **A Right And it - it doesn't seem to be consistent with any type of weather conditions We do have some interference in the arm if you turn the - the gain up on the - if you overdrive the gain on the 12 mile scale for instance there's interference which is always in the same place going down the outbound lane and it looks like ice but it's not it's not**

Vol 19 3058

- (1) **really ice and we've - it's happened to the extent we've - myself and some of the operators have asked a tanker, you see**
- (2) **ice and they say, no, there's no ice out here, well, we think we see some ice on the radar, well, it's not there**
- (3) **Q Mr Blandford the dogleg is south of Bligh Reef buoy is it not?**
- (4) **A Uh-huh**
- (5) **Q It's past the Bligh Reef buoy?**
- (6) **A Uh huh**
- (7) **Q The Exxon Valdez on the night of the grounding -**
- (8) **A You originally asked me if it was a reasonable assumption that I'd be able to pick up a tanker on the same - at the same time that I was picking up the buoy**
- (9) **Q That's right**
- (10) **A Okay Now what I'm - the point I'm trying to make is maybe not, okay, at the same range as the buoy, maybe not And for conditions unknown**
- (11) **Q Are you saying that during these observations that you made since the time of the grounding that you're seeing the target of an inbound tanker become lost in the area of the dogleg?**
- (12) **A In the vicinity of the buoy, from the dogleg up to the buoy**
- (13) **Q Up to the buoy?**
- (14) **A Uh huh**
- (15) **Q Let me read to you from a transcript of the - this is a**

Vol 19 3059

- (1) **predesignated document number 3 page 11 Starting at line 13 and I'm going to read over to page 14 line five Page 14 line 5 All right**
- (2) **Question this is policy this is stated procedure here once a vessel is not - is not actively maneuvering for ice that you no longer monitor is that correct?**
- (3) **Answer no**
- (4) **Question beyond a certain range?**
- (5) **Answer right**
- (6) **Question I'm confused by that**
- (7) **Answer well -**
- (8) **Question Mr Blandford under what conditions would you watch a ship that has dropped the pilot and is proceeding outbound?**
- (9) **Answer okay Just as a personal watch standing habit I make a practice to if I believe that there's a great deal of ice if the traffic lanes are completely plugged and the - or if the visibility is poor or if we have conflicting traffic those people could use some assistance then I actively watch them as far as I can**
- (10) **Question and about how far can you usually watch?**
- (11) **Answer oh at least past Bligh Reef buoy under the optimal weather conditions If it's snowing hard we are lucky if we can see past Busby Island But if we have clear weather meaning it is not snowing or raining heavily we can see**

Vol 19 3060

- (1) generally down to Bligh Reef buoy That is also providing the  
 (2) equipment is working up to par  
 (3) Question okay You explained the reason you usually watch  
 (4) a vessel based on your own initiative so to speak?  
 (5) Answer right This is not a requirement of the watch  
 (6) standing procedures this is strictly my personal method of  
 (7) operating a watch  
 (8) Question what is the policy - under established policy  
 (9) what must you watch?  
 (10) Answer that we physically plot them and observe them for  
 (11) the transit out of the Narrows  
 (12) Question let me ask this The reason you did not do this  
 (13) why it is not normal watch standing procedure is that it is  
 (14) clear weather is that correct that there is no real reason  
 (15) for you to be attending traffic routinely in that area?  
 (16) Answer I hate -  
 (17) Question we are trying to see why there is a policy  
 (18) Answer I hate to really hypothesize on the whys Can I  
 (19) explain?  
 (20) Question sure  
 (21) Answer the whole purpose of the VTS is to ensure one way  
 (22) traffic through the Narrows This is the area that is the  
 (23) responsibility of the vessel traffic service It is not a  
 (24) vessel traffic control This is a navigation service provided  
 (25) to mariners It is not the responsibility of the VTS to

Vol 19 - 3061

- (1) control the operation of the vessel only to provide service to  
 (2) the vessel to ensure there is only a one way operation that  
 (3) they use the correct speed and to advise them of traffic coming  
 (4) in either direction  
 (5) So once they are outside of this vessel traffic service  
 (6) area the rest of it is purely check in points so that they can  
 (7) advise other ships that will be going through the VTS of the  
 (8) location of other vessels in the system  
 (9) Question so the whole focus of this thing is the Narrows  
 (10) Answer correct And the only reason they check in and you  
 (11) have the traffic separation scheme through the rest of Prince  
 (12) William Sound is to provide - is to maintain spacing adequate  
 (13) enough so that you can allow the one way traffic  
 (14) Question so once they are through the Narrows it's just  
 (15) primarily keeping a rough track of where the vessel is in the  
 (16) system?  
 (17) Answer right Any assistance I can give further down the  
 (18) line whether it be inside or outside the port I figure is  
 (19) more or less of a bonus  
 (20) Now having heard me read and having looked on at the  
 (21) transcript as I did so do you stand by everything you said in  
 (22) that interview?  
 (23) A As far as the way we were - what I said at the time, I'm  
 (24) sure that's what I meant at the time  
 (25) Q I also wanted to try and get a better understanding of the

Vol 19 3062

- (1) relationship between the vessel - vessel traffic center and  
 (2) vessels transiting in the area Could you just tell me briefly  
 (3) your understanding of what the relationship is? And by that I  
 (4) mean does the vessel traffic center have any control over the  
 (5) operation of vessels within the - within the system or is it  
 (6) an advisory system?  
 (7) A It's strictly an advisory system to the extent of apprising  
 (8) the vessels of potential hazards and other traffic and we  
 (9) are  
 (10) not similar at all to air traffic control where there are  
 (11) specific flight levels given courses to steer et cetera In  
 (12) no way do we attempt to give out directions of that nature  
 (13) Q In your years working at the vessel traffic center have  
 (14) you ever directed a vessel to follow a particular course?  
 (15) A No  
 (16) Q Are you aware of any of the watch standers at the vessel  
 (17) traffic center ever directing a vessel to follow a particular  
 (18) course?  
 (19) A No, I'm not aware of and had they been found out, they  
 (20) would have been chastised  
 (21) Q Who's in the best position to navigate a vessel operating  
 (22) within the system?  
 (23) A The person at the con of the ship  
 (24) Q That would be either the master or the pilot?  
 (25) A Or whoever is piloting the vessel at the time  
 (26) Q Why do you say that that individual would be in the best

Vol 19 3063

- (1) position to navigate the vessel?  
 (2) A Because he has a better vantage point We cannot see  
 (3) what  
 (4) he sees nor what his radar sees  
 (5) Q Did you receive any calls from the Exxon Valdez on the  
 (6) night of the grounding indicating to you that the Exxon Valdez  
 (7) was going to deviate outside the northbound lane of travel?  
 (8) A No  
 (9) Q Did you receive any calls from the Exxon Valdez on the  
 (10) night of the grounding indicating that the Exxon Valdez was  
 (11) going to leave the TSS completely?  
 (12) A No  
 (13) Q Did you get any calls from the master of the Exxon Valdez  
 (14) indicating that he was leaving the bridge and that he wanted  
 (15) you to watch over his tanker while he was away?  
 (16) A No  
 (17) UNIDENTIFIED SPEAKER Objection  
 (18) BY VIDEO EXAMINER  
 (19) Q Do you believe that masters transiting in the - in the  
 (20) system know or rather knew that the VTC would not direct a  
 (21) particular course for them to follow?  
 (22) A Yes  
 (23) Q Now what do you base that belief on?  
 (24) A All of the companies, to my knowledge, had copies of our  
 (25) -  
 (26) our VTC manual, the one we have been referring to, and all  
 (27) of  
 (28) the vessels for certain had copies of the user manual and I

Vol 19 3064

- (1) **think it refers to that in the user manual itself**  
 (2) **Q Mr Blandford Mr Klinckhardt asked you whether the VTC**  
 (3) **manual or the - or the users manual provided for a watch**  
 (4) **stander such as yourself to give directions to a vessel Isn t**  
 (5) **it a fact sir that there is a specific example in the VTC**  
 (6) **manual of a vessel being directed to take corrective action for**  
 (7) **being inside the separation zone in the Valdez arm?**  
 (8) **A An example?**  
 (9) **Q Yes sir Open enclosure 16 VTC manual to section**  
 (10) **3 12 17 page 18**  
 (11) **A 3 2 17 Okay**  
 (12) **Q Isn t it true sir this section which is titled VTC**  
 (13) **directions gives a specific example of a specific order to a**  
 (14) **vessel regarding its movement? And I direct your attention to**  
 (15) **the third example would you read the Trenton example Mr**  
 (16) **Blandford?**  
 (17) **A Trenton, this is Valdez traffic, our radar shows you one**  
 (18) **hundred yards to the left of the traffic lane inside the**  
 (19) **separation zone You are directed to take corrective action**  
 (20) **MR O NEILL That concludes our cross-examination**  
 (21) **Your Honor**  
 (22) **MR LYNCH Your Honor I have the honor to invite yet**  
 (23) **another Coast Guard official to testify by deposition**  
 (24) **I think it is Lieutenant Commander Michael Cavett I may**  
 (25) **have his rank wrong**

Vol 19 3065

- (1) **THE CLERK What was the last name?**  
 (2) **MR LYNCH Cavett C A V E T T**  
 (3) **THE CLERK Raise your right hand please sir**  
 (4) **(The Reader Is Sworn)**  
 (5) **THE CLERK For the record sir state your full name**  
 (6) **address and spell your last name**  
 (7) **THE WITNESS It s Kevin Michael Harr It s 1101**  
 (8) **Cordova Anchorage Alaska It s H A R R**  
 (9) **THE CLERK Thank you sir**  
 (10) **MR LYNCH Your Honor defendants will offer DX3495**  
 (11) **which is a letter signed by Commander I now understand**  
 (12) **Cavett dated August 29 1984 And Exhibit 3496 which is an**  
 (13) **undated letter signed by Commander Cavett**  
 (14) **(Exhibits 3495 and 3496 offered)**  
 (15) **MR O NEILL No objection**  
 (16) **THE COURT Defendants Exhibits 3495 and 3496 are**  
 (17) **admitted**  
 (18) **(Exhibits 3495 and 3496 received)**  
 (19) **MR LYNCH I think Your Honor we are going do break**  
 (20) **Mr Neal s shortest time on the stand record but this may**  
 (21) **not - this may get an asterisk in the book**  
 (22) **DIRECT EXAMINATION OF MICHAEL CAVETT (Read)**  
 (23) **BY MR LYNCH**  
 (24) **Q Would you state your name for the record**  
 (25) **A Michael Gary Cavett, C A V E T T**

Vol 19 3066

- (1) **Q Let me ask one preliminary question and then I m going to**  
 (2) **ask you to go over in kind of a summary fashion what your**  
 (3) **career in the Coast Guard has been Were you the**  
 (4) **commanding**  
 (5) **officer for the Coast Guard in Valdez between 1982 and 1985?**  
 (6) **A Yes**  
 (7) **Q Let me return to MSO Valdez when did you receive orders to**  
 (8) **go to MSO Valdez?**  
 (9) **A It was in December of 81**  
 (10) **Q The other end of your tenure in Valdez who was your**  
 (11) **successor as commanding officer?**  
 (12) **A Steve McCall**  
 (13) **Q Now you said I believe that you took over the duty of**  
 (14) **commanding officer on April 1 1982 When did you leave**  
 (15) **Valdez?**  
 (16) **A I left in 1985 And I think it was the last part of June,**  
 (17) **June, July time frame**  
 (18) **Q What was the Columbia Glacier Research Project?**  
 (19) **A Can you more specific?**  
 (20) **Q Well these - these documents are progress reports on**  
 (21) **something called the Columbia Glacier Research Project and**  
 (22) **report certain activities that were engaged in What do you**  
 (23) **recall about this research project as it affected you as CO of**  
 (24) **MSO Valdez?**  
 (25) **A As it affected me, I was the recipient of the information**  
 (26) **As I recall, it was funded by industry folks with the**

Vol 19 3067

- (1) **understanding that any kind of information that was**  
 (2) **developed**  
 (3) **would be available to us in order to enhance and facilitate**  
 (4) **safe transit of the area by tank vessels Essentially, vessels**  
 (5) **that came to Alyeska That s pretty much all I recall about**  
 (6) **it**  
 (7) **Q All right So far as you recall were you provided the**  
 (8) **information that this group was able to gather?**  
 (9) **A I m sure we were given all the information they had**  
 (10) **MR LYNCH Your Honor the next question and answer**  
 (11) **relate to Exhibit 3496 which is a letter to Alyeska Pipeline**  
 (12) **Service Company**  
 (13) **I can t get it all on the screen and have it legible and**  
 (14) **there is one question and answer**  
 (15) **BY MR LYNCH**  
 (16) **Q Did that meeting actually take place?**  
 (17) **A I believe it did**  
 (18) **MR LYNCH The next series of questions relate to the**  
 (19) **Exhibit DX3495 which followed that same meeting**  
 (20) **BY MR LYNCH**  
 (21) **Q Captain you attended this meeting correct?**  
 (22) **A Yes**  
 (23) **Q Who prepared this summary?**  
 (24) **A Looks like Ray Engel did**  
 (25) **Q Did you review it before it was sent out?**  
 (26) **A I m sure I would have, yes**

Vol 19 3068

- (1) Q Having reviewed it and in light of your best recollection  
 (2) today as - as it may be aided by anything else we've looked at  
 (3) today does it appear to you to be an accurate summary of what  
 (4) occurred at that meeting?  
 (5) **A I don't recall everything that happened at the meeting,  
 but**  
 (6) **I have no reason to doubt that this is an - that this is an**  
 (7) **accurate reflection of that**  
 (8) Q On page 2 in the third paragraph down there's some  
 (9) discussion about unpredictability and forecasting the future of  
 (10) the glacier. Then there's a sentence that begins no  
 (11) evidence. Do you see that?  
 (12) **A Yes**  
 (13) Q Would you read that sentence that begins with no evidence?  
 (14) **A No evidence is available for anyone to say that a situation**  
 (15) **is going to be created by the ice where there is a danger to**  
 (16) **the shipping traffic that can't be safely handled under the**  
 (17) **present traffic system structure**  
 (18) Q Now is that a tenet that was voiced either by yourself or  
 (19) somebody else on behalf of the Coast Guard at that meeting?  
 (20) **A That was my ongoing sentiment. Whether that was a**  
 (21) **collection of sentiments at the meeting, I can't say**  
 (22) Q But it's set forth in this and you believed that at the  
 (23) time?  
 (24) **A Yes**  
 (25) Q Would you read into the record on the second to last

Vol 19 3069

- (1) paragraph and last paragraph of the summary just the last  
 (2) paragraph that begins in summary?  
 (3) **A In summary -**  
 (4) MR LYNCH I'll put that on the screen before you  
 (5) start Mr. Harr. I hope I'll put it on the screen before you  
 (6) start.  
 (7) All right, sir, would you read it?  
 (8) **A In summary it was generally agreed that operations will**  
 (9) **continue as at present. Ice reports will be requested from a**  
 (10) **hundred percent of the vessels transiting the area. Vessels**  
 (11) **will be allowed to divert out of the lanes to transit around**  
 (12) **ice plumes. If the situation develops, the lanes will be**  
 (13) **considered close to a specific vessel if the master of that**  
 (14) **vessel feels the transit of the ice field is unsafe. The Coast**  
 (15) **Guard will continue to provide the best information**  
 (16) **available**  
 (17) **and then let the master make his own decisions**  
 (18) Q Is that an accurate summary of what was voiced at the  
 (19) meeting?  
 (20) **A Yes**  
 (21) Q Also during your tenure did you ever develop an opinion  
 (22) as to whether masters should maneuver tankers around ice or  
 (23) slow down and go through them?  
 (24) **A I developed the opinion that the master should take**  
 (25) **whatever course of action they deemed prudent to safely**  
**navigate their vessel through the ice**

Vol 19 3070

- (1) Q But you didn't have an opinion one way or the other what  
 (2) you thought was the best course of action?  
 (3) **A What I thought was the best course of action was to let  
 the**  
 (4) **person on the scene make up his own mind**  
 (5) MR LYNCH I believe we made the record. Your Honor.  
 (6) MS WAGNER Excuse me we have a brief cross.  
 (7) Do you have a copy of the script?  
 (8) THE WITNESS No I don't.  
 (9) CROSS EXAMINATION OF MICHAEL CAVETT (Read)  
 (10) BY MS WAGNER  
 (11) Q Captain I'd like to ask you to look at Exhibit 36105  
 (12) which was number 16. Do you have the exhibit in front of you  
 (13) Captain?  
 (14) **A Yes, I do**  
 (15) Q Paragraph Number 3 the last sentence says quote two oil  
 (16) companies Exxon and Mobile limited their tank vessels to  
 (17) daylight transit of Valdez Arm and one company SOHIO  
 (18) placed a  
 (19) six knot speed limit on their tank vessel transits. Do you see  
 (20) where I'm reading?  
 (21) **A Yes**  
 (22) Q Do you have any recollection of Exxon limiting their tank  
 (23) vessels to daylight transit when ice existed in the traffic  
 (24) separation scheme?  
 (25) **A I recall that daylight transits were common and six knots  
 was a common speed that some vessels slow to when  
 there's ice**

Vol 19 3071

- (1) conditions  
 (2) Q Is it easier to see the ice during the daytime?  
 (3) **A The ice was pretty much undetectable by radar so the  
 daylight was the best time you had to see it. You had to see  
 it visually**  
 (4) Q If you would turn to Exhibit 36114 which you  
 (5) pre-designated document 42. If you turn to what I believe is  
 (6) the fourth page of that exhibit you testified about this  
 (7) exhibit earlier and I believe this is a summary of a  
 (8) conference that was held in August of 1984 regarding the  
 (9) disintegration of Columbia Glacier is that correct?  
 (10) **A That's correct**  
 (11) Q Now on the first page of this document there's a list of  
 (12) attendees to that conference is that right?  
 (13) **A Yes**  
 (14) Q About halfway down the list the name Captain Seth  
 (15) Hargrave Exxon Shipping Company appears. Do you see  
 (16) where  
 (17) I'm referring?  
 (18) **A Yes**  
 (19) Q Do you recall Captain Hargrave being present at that  
 (20) conference?  
 (21) **A No**  
 (22) Q If you turn to the third page of the summary itself about  
 (23) two thirds of the way down there's a paragraph that reads  
 (24) quote Seth Hargrave Exxon Shipping believes the safety  
 (25)

Vol 19 3072

- (1) record and safety precautions of the masters can be relied on  
 (2) He does not foresee the ice causing any problems for shipping  
 (3) and would like to see things continue to operate as they are  
 (4) close quote  
 (5) Do you see where I'm reading?  
 (6) **A Yes, I do**  
 (7) Q Do you recall Seth Hargrave making that comment at the  
 (8) conference?  
 (9) **A No, I don't**  
 (10) Q Do you recall anyone from Exxon making that comment or a  
 (11) similar comment at the conference?  
 (12) **A No, I don't**  
 (13) Q Do you have any reason to believe that Captain Hargrave did  
 (14) not make this comment at the conference?  
 (15) **A I believe that this is a truthful and accurate account of**  
 (16) **what happened by a very responsible officer that says if he**  
 (17) **did - says if he said that, I believe he did**  
 (18) Q You agree with the statement that at least as exhibited to  
 (19) Captain Hargrave in this summary that the safety record and  
 (20) safety precautions of the masters can be relied on?  
 (21) **A Yes**  
 (22) Q What were the safety precautions of the masters that were  
 (23) occurring at the time of this conference?  
 (24) **A From my conversations with the masters and other**  
 (25) **people in the shipping world the safety precautions they're talking**

Vol 19 3073

- (1) **about were their decisions to reduce speed or to make**  
**daylight**  
 (2) **transits or otherwise ensure that they could see what was**  
**going**  
 (3) **on through this area before they made a transit**  
 (4) Q And in your experience those precautions were effective in  
 (5) providing for safe navigation when ice was present in the  
 (6) traffic separation?  
 (7) **A Yes**  
 (8) Q To your knowledge was Exxon involved in the industry study  
 (9) on the retreat of Columbia Glacier?  
 (10) **A It was my impression that each member of the consortium**  
**was**  
 (11) **involved**  
 (12) MS WAGNER Thank you  
 (13) MR SANDERS Your Honor the defendants call Maureen  
 (14) Jones Higgins  
 (15) THE CLERK Is this another deposition?  
 (16) MR SANDERS Yes I'm sorry by deposition  
 (17) THE COURT I thought I had a live one  
 (18) THE CLERK I need you to stand and raise your right  
 (19) hand please Witness  
 (20) (The Reader is Sworn)  
 (21) THE CLERK State your full name address and spell  
 (22) your last name please  
 (23) THE WITNESS Patricia Bailie 2861 West International  
 (24) Airport Road Anchorage B A I L I E  
 (25) THE CLERK Thank you

Vol 19 3074

- (1) DIRECT EXAMINATION OF MAUREEN HIGGINS (Read)  
 (2) BY MR SANDERS  
 (3) Q Could we have your full name for the record?  
 (4) **A Maureen Louise Higgins**  
 (5) Q You also have a United States Coast Guard license Number  
 (6) 664145 issued to Maureen L Higgins which finds you  
 (7) competent  
 (8) to serve as a master on ocean vessels of not more than 1600  
 (9) gross tons and secondly on ocean vessels of any gross  
 (10) tonnage I assume those are on any waters?  
 (11) **A Yes**  
 (12) Q And also as a radar observer?  
 (13) **A Yes**  
 (14) Q When did you first get your Z card?  
 (15) **A In April 1987**  
 (16) Q And when did you first become licensed as a merchant  
 (17) officer?  
 (18) **A In April 1987**  
 (19) Q Was that when you graduated from Maine Marine Academy?  
 (20) **A Maritime Academy**  
 (21) Q You obtained a bachelor's degree at the academy didn't  
 (22) you?  
 (23) **A Yes**  
 (24) Q And what kind of courses do you take besides maritime  
 (25) courses?  
**A You have to get economics English literature, physics and**

Vol 19 3075

- (1) **calculus**  
 (2) Q Kind of a science oriented course?  
 (3) **A Natural science is the degree - is what the degree is in**  
 (4) **but you have to take the regular stuff for a bachelor's**  
**degree,**  
 (5) **history**  
 (6) Q And then do you - if you graduate do you then have to sit  
 (7) for an exam to get a merchant mariner's license?  
 (8) **A Yes**  
 (9) Q You actually shipped on your license the first time in  
 (10) October of 1988 did you on the Exxon Charleston?  
 (11) **A Yes**  
 (12) Q And you shipped with Exxon on the Exxon Boston the  
 (13) Charleston the Baton Rouge the Baytown and the Valdez is  
 (14) that correct?  
 (15) **A Yeah, and the Jamestown**  
 (16) Q Jonestown?  
 (17) **A Jamestown**  
 (18) Q The last discharge I see here from Exxon Shipping Company  
 (19) is the Baytown in February of 1990 Did you then leave the  
 (20) employ of Exxon Shipping Company at that time?  
 (21) **A Yeah I believe it's in March There's a few of them there**  
 (22) **from the Baytown but when I quit I think it was about the**  
 (23) **middle of March**  
 (24) Q You're right 7th of March or sometime around there?  
 (25) **A Sometime around there**

Vol 19 3076

- (1) Q And why did you leave Exxon?  
 (2) A Because I wanted a third mate's job  
 (3) Q And they didn't have one for you?  
 (4) A Well, they were stepping me up, up scaling me third mate  
 (5) then putting me down A B It was nothing permanent and I  
 (6) wasn't promoted to a permanent third mate's position  
 (7) Q You had shipped at third mate on the Baton Rouge and the  
 (8) Baytown?  
 (9) A And the Charleston  
 (10) Q And then you would go up and then back down to A B?  
 (11) A Yes  
 (12) Q So you're kind of a replacement mate when the permanent  
 (13) mate was off the vessel?  
 (14) A Yes, basically when they needed somebody  
 (15) Q You then went to work with the American Trading Transport  
 (16) Company What kind of vessels?  
 (17) A Tankers  
 (18) Q And those discharges are all west coast discharges also  
 (19) right?  
 (20) A One is on the east coast, I believe Well, we started on  
 (21) the east coast We went over to the west coast, though  
 (22) Q You went to work with them as a third mate and then the  
 (23) last discharge I see here is July of 1991 Is that the last  
 (24) vessel you were on the Delaware Trader?  
 (25) A Yes

Vol 19 3077

- (1) Q And that was a second mate?  
 (2) A Yes  
 (3) Q Have you ever - have you been on any other vessels other  
 (4) than tankers?  
 (5) A Yes, sir I was on a container vessel  
 (6) Q What?  
 (7) A Container ship  
 (8) Q And was the largest tanker that you were on the Exxon  
 (9) Valdez?  
 (10) A Yes, sir  
 (11) Q How many voyages into Valdez had you made prior to the  
 (12) grounding in March of 1989?  
 (13) A I believe it was about five  
 (14) Q And how many of those were on the Valdez?  
 (15) A All of them  
 (16) Q Was Hazelwood the master on the vessel at all times or was  
 (17) Stalzer the master on some of the trips?  
 (18) A One trip the other captain was on there for a while  
 (19) Q Had you ever shipped with Hazelwood except on the Exxon  
 (20) Valdez?  
 (21) A No, sir  
 (22) Q Have you ever seen Hazelwood take a drink?  
 (23) A Of water, a drink of what?  
 (24) Q A drink of booze?  
 (25) A No, sir

Vol 19 3078

- (1) Q Beer wine any kind of liquor?  
 (2) A No sir  
 (3) Q How did you learn to steer?  
 (4) A On board vessels as a cadet  
 (5) Q Did you - as part of that did you learn how to use the  
 (6) iron mike the autopilot?  
 (7) A How to use it?  
 (8) Q Yes  
 (9) A How to put a vessel into the autopilot mode, yes, sir  
 (10) Q And how to take it off?  
 (11) A Yes, sir  
 (12) Q Did you ever use that autopilot aboard the Exxon Valdez  
 (13) while you were steering?  
 (14) A Yes, sir  
 (15) Q Did you yourself ever put it into the autopilot or take  
 (16) it off the autopilot?  
 (17) A Yes sir  
 (18) Q Did you ever have any difficulty with that at all?  
 (19) A No, sir  
 (20) Q Is it a fairly simple procedure?  
 (21) A Yes sir  
 (22) Q Was there a set system on the Valdez as to whether the  
 (23) helmsman could put the autopilot on or whether the mate had to  
 (24) do it?  
 (25) A The helmsman could only do it under a direct order from  
 the

Vol 19 3079

- (1) mate and the mate would be right there watching  
 (2) Q Having stood watch with Kagan for quite a while have you  
 (3) come to any opinions or conclusions about his ability to steer  
 (4) prior to the grounding of the Exxon Valdez?  
 (5) A No sir  
 (6) Q How would you - if you had to have a couple of words to  
 (7) describe somebody how would you describe Kagan?  
 (8) A As a person?  
 (9) Q Intelligence quotient?  
 (10) A His intelligence quotient who am I to say? I would  
 (11) consider he's an average guy  
 (12) Q Was he a little slower than average in his ability to  
 (13) understand orders and carry them out?  
 (14) A Not to my knowledge  
 (15) Q What do you do on a watch in port on the Valdez?  
 (16) A Do the few valves that are hand turned valves If a  
 (17) situation arises that they need opened or closed we do that  
 or  
 (18) we walk around the deck, make sure that all the scuppers  
 are  
 (19) in Make sure you're not leaking oil anywhere Just watch  
 the  
 (20) general deck  
 (21) Q The vessel is almost totally automatic loading isn't it?  
 (22) A Yes, sir  
 (23) Q The loading is controlled from a panel?  
 (24) A Yes, sir  
 (25) Q Is that done by the mate?

Vol 19 3080

- (1) **A Yes sir with the help of your A B You verify your fact that the valve is actually open They push the button but**
- (2) **you re out on deck and you tell them if the valve has opened**
- (3) **or**
- (4) **not**
- (5) **Q He pushes a button you check the valve to be sure it s open and you report back?**
- (6) **A Yes, sir**
- (7) **Q You observed Captain Hazelwood return to the vessel didn t you?**
- (8) **A Yes, sir**
- (9) **Q And who came back with him do you remember?**
- (10) **A The chief engineer and the radio reporter**
- (11) **Q You had a brief discussion with him?**
- (12) **A With Captain Hazelwood, yes**
- (13) **Q And then did the vessel leave the dock shortly thereafter?**
- (14) **A That evening we were preparing to leave, securing the deck,**
- (15) **which is the one thing you do before you leave out of there**
- (16) **Q Then after you undocked you then went in and took a nap?**
- (17) **A After we finished undocking and finished securing the deck,**
- (18) **then I went to my room**
- (19) **Q And when you undocked and isn t it - and it isn t on your watch do you get overtime for that?**
- (20) **A Yes, sir**
- (21) **Q You were then called at 11 20?**
- (22) **A Yes, sir**

Vol 19 3081

- (1) **Q Is that the normal time to be called to go up on watch?**
- (2) **A Yes sir**
- (3) **Q You got up dressed go in get a cup of coffee?**
- (4) **A No sir, I went directly to watch from my room**
- (5) **Q Approximately what time did you arrive?**
- (6) **A On the bridge?**
- (7) **Q On the bridge**
- (8) **A 2347 2348**
- (9) **Q And when you went onto the bridge who was present on the bridge?**
- (10) **A Mr Claar Mr Cousins and the captain**
- (11) **Q Where were they located?**
- (12) **A Mr Claar was behind the helm the wheel, and the third mate and the captain were on the starboard side forward**
- (13) **Q You didn t hear - did you hear anything at all that the captain may have said while you were on the bridge between 11 47 - 2347 and the grounding?**
- (14) **A On my way out to the bridge wing he commented on - I have**
- (15) **a big snow suit, all nylon, and it makes a lot of noise when**
- (16) **you walk and reflective stripes made a comment how I couldn t**
- (17) **sneak up on anybody**
- (18) **Q Other than that any conversation at all?**
- (19) **A No sir**
- (20) **Q So you came to the bridge you had the one brief conversation with the captain about the snow suit and then you**

Vol 19 3082

- (1) **went outside?**
- (2) **A It was just said while I was passing It wasn t even a conversation It was a comment**
- (3) **Q And then you went outside?**
- (4) **A Yes**
- (5) **Q Were you aware that the captain left the bridge?**
- (6) **A I wasn t aware, no**
- (7) **Q The next time you came in was he there or not there?**
- (8) **A I wouldn t know for sure**
- (9) **Q Well did you see him when you came in?**
- (10) **A No, sir**
- (11) **Q And between the time of the comment by the captain and the time you came in to report a light did you have any discussion with anybody any talk with anybody?**
- (12) **A No, sir**
- (13) **Q Did you hear anybody talk?**
- (14) **A No, sir**
- (15) **Q Fine When you looked ahead you saw a light?**
- (16) **A Not when I immediately went to the bridge wing**
- (17) **Q How long were you on the bridge wing before you saw a light?**
- (18) **A I don t know**
- (19) **Q Approximately?**
- (20) **A A guess?**
- (21) **Q An estimate**

Vol 19 3083

- (1) **A An estimate I would estimate, guess it was - it was**
- (2) **before midnight, so that would be approximately 13 minutes, in**
- (3) **that time period**
- (4) **Q And was the bearing of that light constant or changing?**
- (5) **A It changes somewhat**
- (6) **Q Where did you first see it?**
- (7) **A Broad on the starboard bow**
- (8) **Q And how did it change was it apparently moving forward or aft?**
- (9) **A It was apparently dead in the water the light**
- (10) **Q Broad on the starboard bow?**
- (11) **A Yes**
- (12) **Q When you first reported the red light that you saw you reported the flashing interval of the light didn t you?**
- (13) **A Yes, sir**
- (14) **Q What did you report it as?**
- (15) **A Every five seconds**
- (16) **Q And did you later change that report?**
- (17) **A Yes, sir**
- (18) **Q To what?**
- (19) **A Every four seconds**
- (20) **Q And why did you make that change?**
- (21) **A When I went back out - when I went back out there -**
- (22) **Q You counted it?**
- (23) **A - I had more time**

Vol 19 3084

- (1) Q When you first saw the light you had been out on the  
 (2) bridge wing how long?  
 (3) **A Somewhere between 2347 and I would guess before  
 midnight,**  
 (4) **so that s 13 minutes, somewhere in that time frame**  
 (5) Q And you went in and reported it to someone?  
 (6) **A Yes, sir**  
 (7) Q To whom?  
 (8) **A Mr Cousins**  
 (9) Q Where was Mr Cousins at the time you reported it?  
 (10) **A Behind the chart table**  
 (11) Q And behind the curtain then?  
 (12) **A Yes**  
 (13) Q Did you go into the chart room to report it?  
 (14) **A I just pulled the curtain back**  
 (15) Q What did you say to him?  
 (16) **A I said, red light flashing, broad on starboard bow,  
 flashing every five seconds**  
 (17) Q Is that exactly what you said?  
 (18) **A In that order, or flashing red light, every five seconds,  
 broad on the starboard That was the content of the words I  
 said to him**  
 (19) Q What did he say?  
 (20) **A He acknowledged my reply**  
 (21) Q How?  
 (22) **A Either he repeated it or he said red flashing light He**

Vol 19 3085

- (1) **just acknowledged my report**  
 (2) Q But whatever he said led you to believe that he understood  
 (3) what you said to him?  
 (4) **A Yes, sir**  
 (5) Q Did you stay there? Did you go immediately back to the  
 (6) bridge wing?  
 (7) **A I went immediately back to the bridge wing**  
 (8) Q What was Cousins doing when you looked in?  
 (9) **A I don t know**  
 (10) Q Well was he at the chart table?  
 (11) **A He was behind the chart table**  
 (12) Q Was he looking at the chart table when you pulled the  
 (13) curtain aside?  
 (14) **A Yes, sir**  
 (15) Q Did he have navigational instruments in his hands?  
 (16) **A I don't know I just saw him, reported it and left I  
 didn t study him**  
 (17) Q When you left did he leave with you?  
 (18) **A No, sir I left and he was still behind the chart table**  
 (19) Q You went back out on the bridge wing?  
 (20) **A Yes, sir**  
 (21) Q Did you have any discussions with the helmsman?  
 (22) **A On the way out to the bridge wing, no, sir**  
 (23) Q Or on the way in?  
 (24) **A No, sir**

Vol 19 3086

- (1) Q When you went back out on the bridge wing what did you  
 do?  
 (2) **A Looked again**  
 (3) Q At the light?  
 (4) **A Yes, sir, and all around**  
 (5) Q Did you see any other lights other than the red light on  
 (6) the starboard bow?  
 (7) **A I don t recall if there were lights abeam or astern The  
 one I definitely remember in my mind is the light I reported**  
 (8) Q You recounted the sequence of the flashes?  
 (9) **A Yes, sir**  
 (10) Q And when you discovered that it was a different sequence  
 (11) than you had reported you decided to report it again?  
 (12) **A Yes, sir**  
 (13) Q When you went back into the bridge your purpose was to  
 (14) report the light again?  
 (15) **A Yes, sir**  
 (16) Q And did you do so?  
 (17) **A Yes, sir**  
 (18) Q To whom?  
 (19) **A To Mr Cousins**  
 (20) Q Where was he?  
 (21) **A On the port side of the bridge behind the radar**  
 (22) Q And what did you say this time?  
 (23) **A I said, the light the flashing every four seconds sir,  
 Greg, or something like that Flashing every four, not every**

Vol 19 3087

- (1) **five**  
 (2) Q What did he say?  
 (3) **A He acknowledged what I told him**  
 (4) Q So you were of the opinion from what he said that he  
 (5) understood what you told him?  
 (6) **A Yes, sir**  
 (7) Q Did you see him do anything about it?  
 (8) **A I walked right back out on the bridge wing**  
 (9) Q When you walked back out on the bridge as far as you  
 know  
 (10) did he remain at the console?  
 (11) **A I had my back to him I wouldn t know what he did**  
 (12) Q When you walked back out on the bridge did you continue  
 to  
 (13) observe the light?  
 (14) **A Yes, sir**  
 (15) Q For how long?  
 (16) **A All the time I was out on the bridge wing I was observing  
 it all along with everything else around me**  
 (17) Q Did that light continue to remain at the same position  
 (18) relative position or did it move in relative position after  
 (19) you went back out on the bridge for the second time?  
 (20) **A For how long?**  
 (21) Q At any time while you were out there  
 (22) **A I noticed the light coming to port after I was out on the  
 bridge, after the second report**  
 (23) Q How long after you got out on the bridge the second time

Vol 19 3088

- (1) did you notice that the relative position of the light had  
 (2) begun to swing toward the bow?  
 (3) **A I don't know**  
 (4) **Q Approximately?**  
 (5) **A Approximately after my second report**  
 (6) **Q Yes**  
 (7) **A I don't know**  
 (8) **Q When you went back out on the bridge the second time you**  
 (9) **continued to watch the light and at some time did the light**  
 (10) **remain relatively stationary for a period of time after you**  
 (11) **went back?**  
 (12) **A For a short period, yes**  
 (13) **Q Do you know how long?**  
 (14) **A No, sir**  
 (15) **Q What's your best estimate of how long the light remained**  
 (16) **fairly stationary in its relative position?**  
 (17) **A A guess would be - a guess would be less than five**  
 (18) **minutes**  
 (19) **Q Ma'am we're talking about the time involved between the**  
 (20) **time you went out on the bridge and the time you saw the**  
 (21) **relative heading of the vessel and the light. You've told us**  
 (22) **that it was in your opinion less than five and more than one?**  
 (23) **A It's a guess less than five and more than one**  
 (24) **Q Were you aware that the vessel went aground?**  
 (25) **A Yes, sir**

1 Hz

Vol 19 3090

- (1) to starboard wouldn't it?  
 (2) **A Correct**  
 (3) **Q Could you give us any idea of the rate of turn of the**  
 (4) **vessel?**  
 (5) **A No, sir**  
 (6) **Q From where you were on the wing of the bridge you didn't**  
 (7) **hear any of the - did you hear any of the orders that were**  
 (8) **given in the bridge between the mate and the helmsman?**  
 (9) **A No, sir**  
 (10) **Q And the two times you went into the bridge the first time**  
 (11) **when Cousins was in the bridge in the chart room and the**  
 (12) **second**  
 (13) **time when he was on the bridge looking at the radar did you**  
 (14) **see the captain present?**  
 (15) **A No, sir I did not see the captain**  
 (16) **Q When is the first time you did see the captain after first**  
 (17) **reporting the light?**  
 (18) **A The first time I saw he was there after the grounding**  
 (19) **Q Do you have any estimate as to how long after?**  
 (20) **Q Did you hear - after the grounding did you go into the**  
 (21) **bridge house?**  
 (22) **A Yes, sir**  
 (23) **Q How soon after? Right away?**  
 (24) **A Soon yes As soon as I verified we were stopped, I went**  
 (25) **into the bridge**

Vol 19 3089

- (1) **Q How did you become aware of that?**  
 (2) **A When we hit the reef**  
 (3) **Q What was the sensation that you had? What did you feel or**  
 (4) **hear or see?**  
 (5) **A I heard a scraping sound I saw a light up around the bow**  
 (6) **and I felt a gradual stopping**  
 (7) **Q You felt the vessel stopping Were the engines continuing?**  
 (8) **A Yes sir**  
 (9) **Q Have you ever figured out what the light was you saw on the**  
 (10) **bow?**  
 (11) **A Did I figure out?**  
 (12) **Q Yes**  
 (13) **A Since the event yes**  
 (14) **Q What was it?**  
 (15) **A The light was Bligh Reef light**  
 (16) **Q When the vessel went aground what did you do?**  
 (17) **A What did I do?**  
 (18) **Q Yes**  
 (19) **A Immediately after the vessel went aground I looked at the**  
 (20) **land around me and verified that we were stopped and I**  
 (21) **went**  
 (22) **into the bridge**  
 (23) **Q Before the vessel ran aground did the relative position of**  
 (24) **the light begin to change?**  
 (25) **A I told you earlier it started swinging towards the bow**  
 (26) **Q And that would indicate to you that the vessel was turning**

Vol 19 3091

- (1) **Q At that point did you hear anybody saying anything?**  
 (2) **A Not that I recall No, sir**  
 (3) **Q Did you see Mr Cousins using the telephone?**  
 (4) **A I believe so**  
 (5) **Q Did you overhear what he said?**  
 (6) **A No, sir**  
 (7) **Q Do you know who he called?**  
 (8) **A No, sir**  
 (9) **Q Did you have any discussion with him at any time before you**  
 (10) **left the bridge?**  
 (11) **A Discussion? No, sir He said a couple of words in**  
 (12) **passing**  
 (13) **Q What were those?**  
 (14) **A When he walked out to the bridge wing, and he also**  
 (15) **verified**  
 (16) **the fact that the vessel was stopped and later when there**  
 (17) **was**  
 (18) **some oil spewing out of the coffer dam, I said to him we**  
 (19) **have**  
 (20) **pulled all the scuppers do you want me to go down and put**  
 (21) **the**  
 (22) **scuppers back?**  
 (23) **Q What did he tell you?**  
 (24) **A He said I think it's useless now, too late**  
 (25) **Q Were you present when the captain returned to the bridge?**  
 (26) **A I was present when the captain came out from behind the**  
 (27) **chart - chart room**  
 (28) **Q And you don't know whether he had been there before or**  
 (29) **not?**  
 (30) **A No sir**

Vol 19 3092

- (1) Q But when he came out from the chart room what did he say?  
 (2) A What did he say?  
 (3) Q Yes  
 (4) A I don't believe he said anything  
 (5) Q He didn't talk to you at all?  
 (6) A I don't believe so no sir  
 (7) Q Didn't talk to Kagan at all?  
 (8) A I didn't overhear any conversation  
 (9) Q Did he talk to Cousins?  
 (10) A At one time, the chief mate came up and he spoke He was speaking with the two of them  
 (11) speaking with the two of them  
 (12) Q With Cousins and -  
 (13) A I believe he was talking with both of them  
 (14) Q Did you overhear any of the conversations?  
 (15) A No, sir  
 (16) Q Where were you?  
 (17) A I was on the bridge  
 (18) Q Do you know whether or not Captain Hazelwood took any steps to sound the area around the perimeter of the vessel prior to initiating rudder orders?  
 (19) to sound the area around the perimeter of the vessel prior to  
 (20) initiating rudder orders?  
 (21) A Sound the water around the vessel?  
 (22) Q Yes  
 (23) A I'm not aware of any  
 (24) Q So do you know if he took any steps to sound the perimeter of the vessel the area around the vessel?  
 (25) of the vessel the area around the vessel?

Vol 19 3093

- (1) A No, I don't know if he took any I don't know how he could  
 (2) could  
 (3) Q Were you given any orders by the captain or Greg Cousins or anyone else for that matter after the grounding?  
 (4) anyone else for that matter after the grounding?  
 (5) A Was I given any orders?  
 (6) Q Yes  
 (7) A Greg had gone down and notified some people and he told me  
 (8) who he did and I went down and notified some other on his suggestions, some other people I was given the order to go  
 (9) suggestions, some other people I was given the order to go  
 (10) out and rig a pilot ladder for the Coast Guard and that's all I can recall  
 (11) can recall  
 (12) Q You mentioned earlier that on the evening of March 23 1989 you had occasion to observe Captain Hazelwood as he came  
 (13) 1989 you had occasion to observe Captain Hazelwood as he came  
 (14) on board the Exxon Valdez Do you recall that?  
 (15) A Yes, sir  
 (16) Q Can you please describe for us approximately where you were  
 (17) and where he was when you first saw him arrive on board the Exxon Valdez?  
 (18) Exxon Valdez?  
 (19) A On the port side of the vessel on the stern alongside the house  
 (20) house  
 (21) Q And did you actually see him come off the gangway?  
 (22) A No, sir, not that I can recall  
 (23) Q Approximately how far from you was he when you first saw him?  
 (24) him?  
 (25) A Well, I just spoke to him I can give you a guess, two or

Vol 19 3094

- (1) three feet  
 (2) Q Now I'm talking now about the first time you saw him when he came on board the vessel I think you may have been a little confused in your last answer as to what I was referring to  
 (3) he came on board the vessel I think you may have been a little confused in your last answer as to what I was referring to  
 (4) little confused in your last answer as to what I was referring to  
 (5) to  
 (6) A Yes, sir  
 (7) Q So let me clarify that again for you I'm talking about the first time you saw Captain Hazelwood come on board the Valdez on March 23 1989 do you recall that?  
 (8) the first time you saw Captain Hazelwood come on board the Valdez on March 23 1989 do you recall that?  
 (9) Valdez on March 23 1989 do you recall that?  
 (10) A Yes I recall him coming on board and I don't know where -  
 (11) how far aft he was I recall seeing him and I made a point of speaking to him as he came back to the house  
 (12) speaking to him as he came back to the house  
 (13) Q Now did you see him come off the gangway at that time?  
 (14) A No sir I don't believe I did I don't recall seeing that  
 (15) that  
 (16) Q Do you recall seeing him being about 40 feet away from you when you first saw him?  
 (17) when you first saw him?  
 (18) A 40 feet? Yes, well, he was away I would say 40 feet  
 (19) Q And at the time you saw him did you observe him walking towards you?  
 (20) towards you?  
 (21) A Yes, sir He was walking aft  
 (22) Q And in addition to Captain Hazelwood did you see anybody else walking with him at that particular point in time?  
 (23) else walking with him at that particular point in time?  
 (24) A In front of him was the chief engineer and the radio operator  
 (25) operator

Vol 19 3095

- (1) Q Did you notice anything unusual about the way Captain Hazelwood was walking during this period of time that you observed him walking towards you?  
 (2) Hazelwood was walking during this period of time that you observed him walking towards you?  
 (3) observed him walking towards you?  
 (4) A No, sir  
 (5) Q Did he stagger?  
 (6) A No sir  
 (7) Q Was there any sway in his walk?  
 (8) A No  
 (9) Q Was there any - was there anything about the way he walked which would indicate to you that he was in any way impaired by alcohol?  
 (10) which would indicate to you that he was in any way impaired by alcohol?  
 (11) alcohol?  
 (12) A No, sir  
 (13) Q Now was he walking towards you?  
 (14) A He was walking to his destination, was where I was working  
 (15) Q And where were you working?  
 (16) A Just by the door on port side The hatch that goes into the house  
 (17) the house  
 (18) Q And was that the door he was walking toward?  
 (19) A Well there's a ladder also right there that goes up to the cargo control room deck or the door, I don't recall which he went into, but he was walking back there for the purpose of getting into the house  
 (20) cargo control room deck or the door, I don't recall which he went into, but he was walking back there for the purpose of getting into the house  
 (21) went into, but he was walking back there for the purpose of getting into the house  
 (22) getting into the house  
 (23) Q Did there come a time when he passed you?  
 (24) A Yes After we spoke in crossing, he crossed  
 (25) Q Before he passed you did he in fact stop and talk to you?

Vol 19 3096

- (1) **A He stopped I don t know if I - if I walked up to him or - I think I walked up to him and he stopped**
- (2) **Q And where was that?**
- (3) **A That was just outside the house**
- (4) **Q And approximately how close to Captain Hazelwood were you**
- (5) **when you walked up to him to talk to him at this particular point in time?**
- (6) **A I guess about two to three feet**
- (7) **Q And did in fact you have a conversation with him at that time?**
- (8) **A I just joked with him**
- (9) **Q Can you recall as best you can what you said to him and what he said to you at that particular point in time?**
- (10) **A Only part It was very short Just in passing, I recall I said to him, asked him if he had a good time, and he had a briefcase, and he showed me his briefcase and I said something**
- (11) **about business and something about him having red suspenders on**
- (12) **and always working even when he was going ashore, you know, a**
- (13) **power tie I asked him if he had a power tie on or something,**
- (14) **just making fun of the fact that he was doing business while he**
- (15) **was ashore**
- (16) **Q And did he respond to your remarks?**
- (17) **A I don t remember what he said or if he just chuckled or what I don t remember**
- (18) **Q Was there anything about your conversation with him at that**

Vol 19 3097

- (1) **time which led you to believe that he was in any way impaired by alcohol?**
- (2) **A No**
- (3) **Q Was his speech slurred when he was - when he was speaking**
- (4) **with you at this time?**
- (5) **A No, sir**
- (6) **Q Was there anything about his demeanor which would indicate**
- (7) **to you that he was intoxicated?**
- (8) **A No sir**
- (9) **Q At approximately**
- (10) **And approximately how long would you say this interchange or this brief conversation with him lasted?**
- (11) **A A guess of maybe 30 seconds, 45 seconds I guess It was**
- (12) **just in passing**
- (13) **Q After this conversation with Captain Hazelwood did you observe where he went?**
- (14) **A No sir**
- (15) **Q Well what did you do after you had this conversation with Captain Hazelwood?**
- (16) **A I was in the process of securing fire hoses and rolling them up and I don t know what step of the process I was in when**
- (17) **I spoke with him Either I finished rolling the hose or I took it into the phone room inside the - right inside the hatch there I was securing fire hoses at the time**
- (18) **Q Did you observe him going into the house?**

Vol 19 3098

- (1) **A I don t recall**
- (2) **Q After this interchange with Captain Hazelwood when was the next time that you saw Captain Hazelwood?**
- (3) **A On my way out to the starboard bridge wing**
- (4) **Q At that time if I recall your testimony you say you passed Captain Hazelwood in the wheelhouse?**
- (5) **A Yes, sir**
- (6) **Q I would like you to describe for us in detail that episode Specifically if you recall where was Captain Hazelwood standing when you passed him in the wheelhouse?**
- (7) **A Captain Hazelwood and the third mate were standing on the**
- (8) **starboard side facing out facing out towards the window, more**
- (9) **over to the starboard side And I walked up to the bridge, went around the port side, and from the aft side of the console**
- (10) **saw the door was closed Then I crossed the console and as I**
- (11) **was walking out to the bridge wing, he was there on the starboard side**
- (12) **Q When you passed him did you pass behind him in front of him or behind him?**
- (13) **A Behind him**
- (14) **Q And when you passed him did he have occasion to turn around?**
- (15) **A Well, he spoke to me I imagine he looked towards me He**
- (16) **spoke how my stripes were reflected in the dark on my snow suit He mentioned that fact, so he looked at me**

Vol 19 3099

- (1) **Q Approximately how close were you to Captain Hazelwood at that particular point in time if you recall?**
- (2) **A Once again I will guess two to three feet**
- (3) **Q Was there anything about his demeanor or anything about him**
- (4) **which would have indicated to you at that time he was in any way impaired by alcohol at that time?**
- (5) **A No, sir**
- (6) **Q Did he appear sober to you at that time?**
- (7) **A Yes, sir**
- (8) **Q When you first encountered him on the deck when he arrived**
- (9) **on the vessel did he appear sober to you at that time?**
- (10) **A Yes, sir**
- (11) **Q Now you ve just stated that you went up to the bridge dressed in this suit this heavy weather suit I suppose**
- (12) **right?**
- (13) **A Yes, sir**
- (14) **Q Now you also testified to what you observed after the grounding of the Exxon Valdez correct?**
- (15) **A Correct**
- (16) **Q I would like to draw your attention to your observations after the grounding during the time that Captain Hazelwood was on the bridge and various engine commands were being given and**
- (17) **also helm commands Were these engine and helm commands being**
- (18) **given at the same time?**
- (19) **A From what I can recall engine command was given and then**

Vol 19 3100

- (1) **hard right or hard left while the engine command was still in process**
- (2) **Q And the commands were being given by whom?**
- (3) **A The captain was giving all commands**
- (4) **Q And who was he giving the commands to?**
- (5) **A Mr Kagan in the helm and Mr Cousins on the telegraph**
- (6) **Q After Captain Hazelwood gave the command did either Mr Kagan or Mr Cousins acknowledge the order?**
- (7) **A I don't remember distinctly, but from sailing, that is always done Every time an order is given you repeat the order as you do it I don't remember in my mind them saying**
- (8) **it**
- (9) **Q At this time you could hear Captain Hazelwood giving these orders?**
- (10) **A When I was - yes**
- (11) **Q And did you hear him give these orders many times while you were in the wheelhouse during this episode?**
- (12) **A All the orders he gave while we were maneuvering I was there for the full time period**
- (13) **Q Did you also observe Captain Hazelwood physically see him while he was giving these orders?**
- (14) **A Yes, sir**
- (15) **Q And approximately how close to him were you at the time?**
- (16) **A I don't recall I believe I was - it was in the wheelhouse in the pilot house I think I was behind the**

Vol 19 3101

- (1) **console but I don't remember exactly where I was seeing him**
- (2) **Q Were you standing in the same place all during this time or were you moving around?**
- (3) **A I was probably moving around**
- (4) **Q And where was he standing at that time?**
- (5) **A I believe he was over on the port side by the helmsman**
- (6) **Q Was there anything about him at that time which indicated to you that he was in any way impaired by alcohol?**
- (7) **A No, sir**
- (8) **Q Did he appear sober to you at that time?**
- (9) **A Yes sir**
- (10) **Q Were his commands clear?**
- (11) **A Yes, sir**
- (12) **Q Did you notice any slurring of his speech during those exchanges?**
- (13) **A No, sir**
- (14) **Q Did he sound normal to you?**
- (15) **A Yes, sir**
- (16) **Q Did he seem to you to be in control of the situation insofar as giving the orders to Kagan and to Cousins?**
- (17) **A In control, I don't know how in control you can be in that situation, but he seemed to be sure of himself and what he was doing He wasn't running around like a chicken with his head cut off, what am I going to do, what am I going to do He seemed sure of himself and completely - handling himself in a**

Vol 19 3102

- (1) **professional manner**
- (2) **Q He never told you what the purpose of the orders were that he was giving up there at that time did he?**
- (3) **A No sir**
- (4) **Q Do you recall whether or not you had observed the ship's heading during the time that these orders were being given?**
- (5) **A I was watching the heading, yes, sir**
- (6) **Q And do you have any recollection at this point in time as to what the heading was?**
- (7) **A Just from reading my reports I believe I said in there 289 I don't remember the number in my head now**
- (8) **Q Do you recall during all of these engine and helm maneuvers whether or not that heading changed?**
- (9) **A What I was watching, the sensors, it's got if your ship's bow is turning to the right or to the left along with your heading, and I was watching the forward one - I don't know You could either set it to the forward or to the aft doppler sounding thing And I don't know - on that ship you could either switch it to the forward or aft one I don't know if it was on the forward one but I was watching that and there was maybe two degrees at the most There was a little change in the heading and I was also looking out and seeing that we didn't go forward or astern I was watching to see if we were moving**
- (10) **Q Well did the heading of the ship change from 289 or did it**

Vol 19 3103

- (1) **remain on 289 as all this was going on?**
- (2) **A If it changed at all, it would have been one or two degrees It didn't change significantly No**
- (3) **Q Now there was also some testimony concerning the VTS system and about what you would think the VTS system would do relative to informing you of the ship's location Do you recall that?**
- (4) **A Yes**
- (5) **Q At the time of the grounding of the Exxon Valdez you were aware in general terms of what the VTS system was supposed to do?**
- (6) **A In general terms, yes**
- (7) **Q Were you aware that one of the purposes of the VTS was to help ships prevent collisions and groundings?**
- (8) **A Yes, sir**
- (9) **Q And you also were under the impression at that time that ships in Prince William Sound were being tracked by radar at VTS?**
- (10) **A Well I'm aware of the fact that there was a radar system that VTS operated and also you have call-in points where every ship calls in and they tell their position and their course and their speed That's another way that VTS keeps track of the vessel**
- (11) **Q Well let me ask you this question In conjunction with the VTS's mission of helping to prevent collisions and**

Vol 19 3104

- (1) groundings were you aware of the fact that the VTS was also  
 (2) tracking ships on radar?  
 (3) **A Would you repeat that, please?**  
 (4) **Q Maybe I'll ask it again. Were you aware of the fact that**  
 (5) **there is a radar facility in VTS?**  
 (6) **A Yes, sir.**  
 (7) **Q And did you think that in conjunction with this radar**  
 (8) **facility ships in Prince William Sound were being tracked by**  
 (9) **radar by VTS?**  
 (10) **A Did I think that they were tracking the vessels on the**  
 (11) **radar system?**  
 (12) **Q Yes.**  
 (13) **A Yes.**  
 (14) **Q Now at the time of the grounding of the Exxon Valdez**  
 (15) **based upon what you were led to believe relative to the VTS**  
 (16) **system would you expect VTS to warn a ship if it was tracking**  
 (17) **it on radar and saw that it was about to have a collision with**  
 (18) **another ship?**  
 (19) **A Do I think it will be the responsibility of the VTS to**  
 (20) **inform a ship if a collision is pending?**  
 (21) **Q Yes?**  
 (22) **A Yes, sir. I believe that would be the VTS's job.**  
 (23) **Q And if you thought that and if the VTS had a ship on radar**  
 (24) **and saw that there was a collision about to occur would you**  
 (25) **expect that they would radio the ship to warn the ship of that**

Vol 19 3106

- (1) **A I asked Mr. Cousins what it was and he told me, yes. It**  
 (2) **was**  
 (3) **ice.**  
 (4) **Q And at that time the ice was somewhere two and three miles**  
 (5) **from the vessel or five miles depending on which testimony**  
 (6) **prior testimony -**  
 (7) **A I never - I don't think I ever gave any miles away. I**  
 (8) **don't know what range the radar was on, what scale**  
 (9) **Q When you first went out on the bridge wing what did you**  
 (10) **do?**  
 (11) **A Looked.**  
 (12) **Q Where did you look?**  
 (13) **A Forward.**  
 (14) **Q Did you look any place else other than forward?**  
 (15) **A Yes.**  
 (16) **Q Where else?**  
 (17) **A Along the sides, you look astern.**  
 (18) **Q When you looked astern did you see any lights?**  
 (19) **A I don't recall.**  
 (20) **Q Are you aware of THE characteristics of the Busby light?**  
 (21) **A Yes, sir.**  
 (22) **Q Do you remember what they are?**  
 (23) **A There's a green sector, I believe. I don't have it**  
 (24) **memorized, no, sir.**  
 (25) **Q But there are two sectors in any event one color and one**  
 (26) **another right?**

Vol 19 3105

- (1) possibility?  
 (2) **A Yes, sir. If the VTS was aware of the collision were going**  
 (3) **to happen they were tracking it on their radar. I would think**  
 (4) **that the VTS would call the ship and notify them of the**  
 (5) **situation and make sure they were aware and see what they**  
 (6) **were**  
 (7) **going to do, yes, sir.**  
 (8) **Q Now let me take this question one step further. If the**  
 (9) **VTS had a ship on radar and saw that it was about to go**  
 (10) **aground**  
 (11) **on Bligh Reef or Bligh Island or any point in Prince William**  
 (12) **Sound would you expect that they would also notify the ship of**  
 (13) **that by radio?**  
 (14) **A From the pamphlets and other VTS systems up in the**  
 (15) **Straits**  
 (16) **of Juan de Fuca, if you go out of the travel lane or you go**  
 (17) **out**  
 (18) **of the southern or northern boundary the VTS calls you up,**  
 (19) **and**  
 (20) **I would definitely think if they saw your vessel heading for**  
 (21) **an**  
 (22) **object in the water they would tell you. That is their job.**  
 (23) **That is what they're there for.**  
 (24) **MR SANDERS: You may ask**  
 (25) **CROSS EXAMINATION OF MAUREEN HIGGINS (Read)**  
 (26) **BY MS WAGNER**  
 (27) **Q Had you ever seen ice on the radar before you looked at the**  
 (28) **radar whenever you did look at it?**  
 (29) **A I'd never encountered ice before on the trip to Valdez.**  
 (30) **Q When you did look at the radar and you saw what you**  
 (31) **thought**  
 (32) **was ice did you talk with somebody and say is that ice?**

Vol 19 3107

- (1) **A Yes, sir.**  
 (2) **Q Are you aware of what it means to go from a white sector**  
 (3) **into a red sector in a light?**  
 (4) **A Yes, sir.**  
 (5) **Q What does it mean?**  
 (6) **A It means that you're in a danger area.**  
 (7) **Q When you looked astern do you recall seeing a red light?**  
 (8) **A No, sir.**  
 (9) **Q Do you recall not seeing a red light?**  
 (10) **A I don't recall what lights I saw what color they were.**  
 (11) **Q You just don't recall either way?**  
 (12) **A Right.**  
 (13) **Q Did you consider yourself friends with Hazelwood before**  
 (14) **this accident?**  
 (15) **A Yes, sir.**  
 (16) **Q Before the captain came up to the bridge were the engines**  
 (17) **stopped?**  
 (18) **A Not that I recall.**  
 (19) **Q Were you present when the engines were stopped?**  
 (20) **A I was present during the time but I don't know when it**  
 (21) **happened. I saw they were full ahead and next time that I**  
 (22) **remember looking at the telegraph it was off, stopped.**  
 (23) **Q Between the time that the vessel was - well there was a**  
 (24) **period of time that's been reported when the captain was**  
 (25) **maneuvering with the engines. He'd used various speeds and**  
 (26) **so**

Vol 19 3108

- (1) on Before that time before the time when the vessel ran  
 (2) aground and the time when the captain commenced to do this  
 did  
 (3) the engines go dead?  
 (4) **A I believe so sir**  
 (5) Q And were you still on the bridge when that happened  
 (6) whether you know how it happened?  
 (7) **A Yes, sir**  
 (8) Q And this is a fully automated vessel You run the engines  
 (9) from the bridge is that what that means?  
 (10) **A You either have bridge control or engine room control It**  
 (11) **can be run from either place**  
 (12) Q So that you can basically like you would on a small boat  
 (13) tell the engines from the bridge what to do without the  
 (14) intervention of an engineer in the engine room?  
 (15) **A If you re on bridge control, yes sir**  
 (16) Q Do you know if that s how the engines were stopped whether  
 (17) there was an engineer in the engine room?  
 (18) **A Someone on the bridge would have to put the telegraph**  
 to  
 (19) **stop It doesn t move automatically**  
 (20) Q But you don t know who did it?  
 (21) **A No, sir**  
 (22) Q Do you know who started the engines again?  
 (23) **A When we were maneuvering, Mr Cousins was on the**  
 telegraph  
 (24) Q Was he receiving orders from the captain?  
 (25) **A Yes, sir**

Vol 19 3109

- (1) Q Were you present while those orders were being given?  
 (2) **A Yes, sir**  
 (3) Q And what of those orders do you remember?  
 (4) **A Dead slow half ahead and full ahead**  
 (5) Q So you remember there was dead slow half ahead full  
 (6) ahead?  
 (7) **A Yes**  
 (8) Q Was someone on the helm at the time those were being  
 given?  
 (9) **A Yes, sir**  
 (10) Q Who was that?  
 (11) **A Mr Kagan**  
 (12) Q And was he also being given orders?  
 (13) **A Yes, sir**  
 (14) Q Did you hear those orders?  
 (15) **A Yes, sir**  
 (16) Q What were those orders?  
 (17) **A Hard right hard left to the best of my recall, and then I**  
 (18) **think they were east to ten, right and ten left**  
 (19) Q Pardon I didn t hear  
 (20) **A I think he eased it to ten right and ten left also**  
 (21) Q At the time he was giving those orders of hard right hard  
 (22) right or ten right ten left were the engines running?  
 (23) **A Yes, sir, I believe so**  
 (24) Q Where were you during this period?  
 (25) **A I was on the bridge**

Vol 19 3110

- (1) Q During the course of maneuvering did the heading of the  
 (2) vessel change?  
 (3) **A Slightly a couple of degrees maybe**  
 (4) Q Is that all?  
 (5) **A As a guess yes sir**  
 (6) MS WAGNER Thanks  
 (7) MR SANDERS May it please the Court we call  
 (8) Mr Lloyd LeCain by deposition  
 (9) THE CLERK Raise your right hand please sir  
 (10) (The Reader is Sworn)  
 (11) THE GLERK For the record sir state your full name  
 (12) address and spell your last name  
 (13) THE WITNESS Robert Hilliard Scott 318 East  
 (14) Broadway Glendale California S C O T T  
 (15) DIRECT EXAMINATION OF LLOYD LECAIN (Read)  
 (16) BY MR SANDERS  
 (17) Q Please state your full name and home address  
 (18) **A Lloyd LeCain 416 Evesham Place Longwood California**  
 -  
 (19) **Longwood Florida**  
 (20) Q Are you aware of the vessel organization manual  
 encouraging  
 (21) masters to conduct training exercises?  
 (22) **A Yes, I believe**  
 (23) Q Did you say you couldn t remember reading that?  
 (24) **A No, I can t recall**  
 (25) Q Well how about if I ask you whether or not you remember

Vol 19 3111

- (1) any master actually conducting training exercises?  
 (2) **A Oh, yes**  
 (3) Q What did they consist of?  
 (4) **A There was firefighting training There was - I used to be**  
 (5) **in charge of giving training in firefighting Sound damage to**  
 (6) **people's ears**  
 (7) Q You mentioned also participating in the EXCEL program?  
 (8) **A Yes**  
 (9) Q Can you explain your participation?  
 (10) **A It was sort of like a problem thing You would solve**  
 (11) **problems by working together as a team A lot of**  
 corporations  
 (12) **use that**  
 (13) Q Did you have a certain amount of training for EXCEL?  
 (14) **A No, no some of the stuff is ridiculous It seemed**  
 (15) **ridiculous Later on when we looked at it, it - like**  
 (16) **everybody would cover themselves with the black hood and**  
 we  
 (17) **would all try to get in a box and it was - like they would**  
 (18) **have these problems you would solve, like people put hoods**  
 over  
 (19) **their heads and - and can i see a little bit and I - I could**  
 (20) **see a little bit, and we would all try to get ropes to do that,**  
 (21) **and another one was we would try to jump over some ropes**  
 We d  
 (22) **have a rope course and you have to figure how to get people**  
 (23) **over these ropes Seemed silly at the time But it was a way**  
 (24) **to work together as a team**  
 (25) Q Was this mandatory training that you went through?

Vol 19 3112

- (1) **A It was mandatory for captains and chief mates I had**  
 (2) **Mr Iarossi tell me As for other officers, they would like**  
 (3) **you to go to it You didn't have to but they would like you**  
 (4) **to**  
 (5) **Q How long did it take?**  
 (6) **A I believe that was a week also**  
 (7) **Q And then was there follow up EXCEL work that you did or**  
 (8) **was**  
 (9) **that it?**  
 (10) **A That was it Oh wait a minute There was an EXCEL**  
 (11) **program on the ship because we did have these**  
 (12) **brainstorming**  
 (13) **ideas for improving the fleet We'd try to implement these**  
 (14) **things on the ship using the resources we have on the ship**  
 (15) **And so some of the stuff was real good on the fleet and**  
 (16) **some of**  
 (17) **it wasn't good It was input from the people below in**  
 (18) **management**  
 (19) **Q I don't want to spend a lot of time on this but could you**  
 (20) **just give me some idea of the brainstorming that you you're**  
 (21) **talking about ideas that you implemented on the ship?**  
 (22) **A One trouble we have when a ship goes alongside the**  
 (23) **dock is**  
 (24) **the lining up with the risers which is where you load the**  
 (25) **ship, with the arms on the dock Okay? It's often hard when**  
 (26) **you're 60 feet up in the air on a loaded ship to see exactly**  
 (27) **where the arm is What we did on the ship I was on we drew**  
 (28) **circles on the side of the ship exactly at the same position**  
 (29) **as**  
 (30) **the arms were on the ship and we put the diameter of the**

Vol 19 3113

- (1) **reducer on it We would paint this on the ship so when we**  
 (2) **came**  
 (3) **alongside the ship the guys down there could see where**  
 (4) **your**  
 (5) **arm was That was one of my ideas and we did try it on the**  
 (6) **ship and it worked pretty good There were other ideas that**  
 (7) **people had I don't recall**  
 (8) **Q And then as part of EXCEL would you communicate your**  
 (9) **good**  
 (10) **ideas to other -**  
 (11) **A Yeah, what you did was you'd come up with the ideas and**  
 (12) **then somebody from management and engineering would**  
 (13) **come or**  
 (14) **engineering would come and talk to you about it and see if it**  
 (15) **was feasible to do that It was nice It was nice to have**  
 (16) **input from the officers It was an interesting program**  
 (17) **Q What sort of training did Exxon have for helmsmen? In**  
 (18) **other words you talked about Kagan before But can you tell**  
 (19) **us how a man ends up being a qualified helmsman?**  
 (20) **A Well Coast Guard document says you're a qualified**  
 (21) **helmsman**  
 (22) **if you're an able seaman an A B you're automatically**  
 (23) **qualified But go back you're a qualified helmsman if you're**  
 (24) **an able seaman**  
 (25) **Q An A B you're automatically qualified but did Exxon have**  
 (26) **any check in addition to that that they went through or any**  
 (27) **type of training they put the A B through if he was a new A B**  
 (28) **or did they just put him on the helm?**  
 (29) **A We would put him on the helm but I want to qualify it I**  
 (30) **know Joe Hazelwood and a number of captains like the**  
 (31) **guys to**

Vol 19 3114

- (1) **steer half an hour in the manual steering at night so they get**  
 (2) **practice at sea and there was no set rule but we always**  
 (3) **tried**  
 (4) **to do it and it helped the guys steer**  
 (5) **Q That was when you were on a steady course at sea?**  
 (6) **A Right**  
 (7) **Q So he could practice trying to hold it on that course?**  
 (8) **A Right And any time I'd change course at sea of course**  
 (9) **we would put it on manual and we would have a quarter**  
 (10) **master on**  
 (11) **the wheel at that time and he would be steering**  
 (12) **Q Was there any pressure put on you that you were aware of**  
 (13) **when I say you I mean the ship to have a fast turn around**  
 (14) **time?**  
 (15) **A Not -**  
 (16) **Q To meet the schedule let's put it that way?**  
 (17) **A I would say no more than normal**  
 (18) **Q Well what do you mean by that?**  
 (19) **A Well, the owners of the ship expect the ship to turn**  
 (20) **around**  
 (21) **with maximum efficiency within safety guidelines, that's it**  
 (22) **I mean we always had safety first in my company**  
 (23) **Q Now you mentioned the safety drills and fire drills?**  
 (24) **A Uh huh**  
 (25) **Q Can you tell me first of all how often these were**  
 (26) **conducted?**  
 (27) **A Well at least once a week We always had them on every**  
 (28) **trip As soon as we got out to sea if the weather was good**  
 (29) **we**

Vol 19 3115

- (1) **would have a fire drill and then an abandon ship drill Test**  
 (2) **the equipment, and then he we would have a demonstration**  
 (3) **afterwards and usually the second or third mate gave a**  
 (4) **demonstration**  
 (5) **Q Do you know whether Exxon had any policy concerning**  
 (6) **fatigue**  
 (7) **or stress?**  
 (8) **A Well, Exxon is always safety first so I mean if you were**  
 (9) **really tired, you could say I'm really tired and they could**  
 (10) **work something out**  
 (11) **Q Mr Blank asked you a bunch of questions about your duties**  
 (12) **and the hours you worked on the 22nd and 23rd I don't want to**  
 (13) **go back through all of that but what I want - what I do want**  
 (14) **to ask you is whether or not the work routine that you**  
 (15) **described is typical of what you would have normally done in**  
 (16) **the Port of Valdez?**  
 (17) **A It could be depending on which watch we tied up at**  
 (18) **What**  
 (19) **I'm saying is some officers would catch it wrong, you know,**  
 (20) **there are only so many hours in a day and you tied up at the**  
 (21) **wrong watch, you got hit That's the way it works**  
 (22) **Q To use your words did you catch it wrong this time in**  
 (23) **Valdez?**  
 (24) **A No I just caught a lot of work that's all I didn't**  
 (25) **feel tired or anything I paced myself**  
 (26) **MS WAGNER Do you have a cross examination script?**  
 (27) **CROSS EXAMINATION OF LLOYD LECAIN (Read)**

Vol 19 3116

Vol 19 3118

- (1) BY MS WAGNER  
 (2) Q You have another document here that s been marked as 20036  
 (3) which is a memorandum to Paul Myers from Captain Stalzer  
 Did  
 (4) you ever sail with Captain Stalzer?  
 (5) A Yes  
 (6) Q Do you know who Paul Myers is?  
 (7) A Yes  
 (8) Q This is dated January 22 1989 and it s entitled safety  
 (9) fatigue concerns And I ll let you look at this but in  
 (10) summary Captain Stalzer points out a period of three days in  
 (11) which a chief officer worked over 60 hours and had only a few  
 (12) hours off in a 60 hour period And Captain Stalzer is  
 (13) complaining about it and then he makes some  
 recommendations  
 (14) And I ll ask you a question about it after you look at it  
 (15) Actually it s 62 hours and he had I believe nine hours  
 (16) off in a 62 hour period  
 (17) Okay The question I have for you did you find this to be  
 (18) common with chief mates in port to be working hours like  
 (19) this?  
 (20) A Not necessarily It depends on the officers on the ship  
 (21) and how everything goes He may have said 62 hours but  
 maybe  
 (22) the second mate relieved him for a while Maybe he rested  
 in a  
 (23) chair That doesn t tell you anything  
 (24) Q Well if you take what s being said here by Captain  
 (25) Stalzer he s complaining about this and he itemizes the

Vol 19 3117

- (1) periods of time In taking Captain Stalzer s calculations as  
 (2) fact all right just for purposes of the question I m asking  
 (3) you did you encounter other chief mates that worked these  
 (4) types of hours in port?  
 (5) A Not that many hours  
 (6) Q This is an unusual situation?  
 (7) A That would be an unusual situation I might add that I  
 was  
 (8) on the Exxon San Francisco and we had a lot of hours  
 sometimes  
 (9) and the chief mate and I would spell each other sometimes  
 cargo officers  
 (10) Q So when you spelled each other how many hours a day  
 were  
 (11) each of you working?  
 (12) A It - I might get an extra hour or two That s purely  
 (13) circumstantial How do you feel, do you feel awake do you  
 (14) feel that you can handle the cargo, good give me a little  
 (15) spell, a little rest, I'm sure you would do it in your job  
 (16) spell each other  
 (17) Q What was Exxon s policy concerning watch officers standing  
 (18) watch leaving port as far as when they are on duty leaving  
 (19) port not having been on duty for six hours out of the required  
 (20) 12 hour period? Do you understand what I m saying? Did you  
 (21) ever hear any regulation?  
 (22) A I heard a Coast Guard regulation, something about it  
 (23) Q Do you know what the regulation is?  
 (24) A No Like I say, I really don t know I don t know about

- (1) that  
 (2) Q Did you ever stand a watch leaving port with Exxon you  
 (3) said you did on occasion where you had not been off duty for  
 (4) more than six hours in the 12 hour period preceding -  
 (5) preceding period?  
 (6) A Many times  
 (7) Q So that was a violation of the regulation as you  
 (8) understand it?  
 (9) A No that s what you re telling me  
 (10) Q Well assuming there is a regulation that says you re not  
 (11) to have been on duty for at least six hours within a 12 hour  
 (12) period when leaving port you either - there were occasions  
 (13) when you had been on duty for more than six hours in a 12 hour  
 (14) period when leaving port isn t that correct?  
 (15) A Occasionally  
 (16) Q And Exxon Shipping Company - does Exxon Shipping  
 Company  
 (17) pay its deck officers for overtime?  
 (18) A No  
 (19) Q Did they ever do so?  
 (20) A Yes but that needs explanation What happened was we  
 had  
 (21) a base salary and we had an overtime company made us  
 managers  
 (22) and incorporated the overtime into the base salary, which in  
 (23) actuality is more when you go to retire because your  
 (24) retirement is based on your base salary  
 (25) Q Okay When did they do this?

Vol 19 3119

- (1) A Oh, I would say - I'm going to be in the ballpark -  
 (2) seven eight years I may be off on that  
 (3) Q Are you aware of the practice of Exxon captains bringing  
 (4) the ships out of Prince William Sound alone to let deck  
 (5) officers sleep?  
 (6) A I don't know It didn't happen when I was on the ship  
 (7) Q So you never heard of that happening?  
 (8) A No, I've heard, like I say, no, I would say no There's  
 (9) usually two officers on the bridge but I don t know what  
 goes  
 (10) on  
 (11) Q Are you trained to recognize the physical and psychological  
 (12) effects of fatigue or chronic fatigue in your own self?  
 (13) A No  
 (14) Q There was never any training about that now I mean just  
 (15) within Exxon Shipping Company?  
 (16) A No  
 (17) Q Did you ever complain about your working conditions?  
 (18) A What do you mean by working conditions?  
 (19) Q Well did you ever complain for example about your  
 (20) working hours?  
 (21) A Yes, you know, there were a lot of hours sometimes  
 That s  
 (22) all  
 (23) Q Who did you complain to?  
 (24) A Just talk between the officers  
 (25) MS WAGNER Thank you

Vol 19 3120

- (1) MR SANDERS Your Honor I m pleased to announce we  
 (2) have a live witness We call Mr Greg Ferrone  
 (3) THE CLERK Would you raise your right hand please  
 (4) sir Witness  
 (5) (The Witness is Sworn)  
 (6) THE CLERK For the record state your full name your  
 (7) address and spell your last name  
 (8) THE WITNESS My name is Gregory John Ferrone I m  
 (9) from North Hampton Pennsylvania My last name is spelled  
 (10) F E R R O N E  
 (11) THE CLERK Thank you sir  
 (12) DIRECT EXAMINATION OF GREGORY FERRONE (Live)  
 (13) BY MR SANDERS  
 (14) Q Mr Ferrone you re employed by Exxon Shipping Company  
 now  
 (15) Sea River Maritime?  
 (16) A That s correct  
 (17) Q And let me take you briefly before we go to our break  
 (18) through your background How long have you worked for  
 Exxon?  
 (19) A 13 and a half years  
 (20) Q And before you started work with Exxon where were you?  
 (21) A College  
 (22) Q All right Where did you go to college?  
 (23) A New York Maritime College, Fort Schuyler  
 (24) Q All right Now I want you the talk a little bit slower so  
 (25) we can all hear you You went to what college?

Vol 19 3121

- (1) A New York Maritime College in Fort Schuyler Bronx, New  
 (2) York  
 (3) Q You don t have to talk as slow as I do And you  
 (4) graduated -  
 (5) A New Yorkers don t do that  
 (6) Q And you graduated from Fort Schuyler in what year?  
 (7) A May of 1981  
 (8) Q And as a graduate did you have a license?  
 (9) A Yes sir  
 (10) Q And what was that license?  
 (11) A Third mate s license  
 (12) Q And then you came to Exxon as a third mate?  
 (13) A That s correct  
 (14) Q How long did you sail as a third mate for Exxon?  
 (15) A Until 1984  
 (16) Q All right And in 1984 what did you become?  
 (17) A Second mate  
 (18) Q And prior to that had you gotten a license sat for a  
 (19) license exam with the U S Coast Guard?  
 (20) A Yes sir  
 (21) Q And how long did you sail for Exxon as a second mate?  
 (22) A For two years until 1986  
 (23) Q And in 1986 had you - by 1986 had you received your  
 (24) license as a chief mate?  
 (25) A Yes sir

Vol 19 3122

- (1) Q And did you then start sailing on that license or sail as a  
 (2) chief mate for Exxon?  
 (3) A Yes sir  
 (4) Q Now you are currently assigned to what ship?  
 (5) A Right now I m assigned to the Exxon Philadelphia Sea  
 River  
 (6) Philadelphia  
 (7) Q And you are currently employed by Exxon?  
 (8) A That s correct  
 (9) Q Now in the Exxon way of doing things the Exxon Shipping  
 (10) Company way of doing things were you called upon over your  
 (11) career to do performance evaluations of people that you were  
 (12) supervising?  
 (13) A Yes, sir  
 (14) Q And you were supervising?  
 (15) A Yes, sir  
 (16) Q And in fact were you by your supervisors?  
 (17) A Yes, sir  
 (18) Q Is that - well how long has that gone on?  
 (19) A As long as I ve been with the company  
 (20) Q All right And in the course - how often were these  
 (21) evaluations done? For example A Bs or people sailing as  
 (22) ordinary seamen or maintenance seamen?  
 (23) A Well, the guidelines were 28 days there was review at  
 (24) least 28 days, be prudent to do evaluation but there were  
 (25) instances where if an individual was with you for a shorter

Vol 19 3123

- (1) period of time, an evaluation or just input for that period of  
 (2) time would not be out of the norm  
 (3) Q Okay And did you use a particular form to do these  
 (4) evaluations?  
 (5) A Yes, sir there s a particular form for the unlicensed  
 (6) individual  
 (7) Q And where did you get that form?  
 (8) A It s in all the officer s files  
 (9) Q Exxon -  
 (10) A Yes correct  
 (11) Q - gave you the form to use to do these evaluations?  
 (12) A That s correct  
 (13) MR SANDERS Your Honor would this be a good time  
 (14) to -  
 (15) THE COURT We ll take our first recess ladies and  
 (16) gentlemen We ll be in recess for 15 minutes  
 (17) THE CLERK This court is in recess for 15 minutes  
 (18) (Jury out at 9 59 a m )  
 (19) (Jury in at 10 16 a m )  
 (20) BY MR SANDERS  
 (21) Q Now Mr Ferrone there has been testimony in this case  
 (22) concerning Mr Bob Kagan and indeed Bob Kagan was at the  
 helm  
 (23) at the time the Valdez ran aground on March 24th 1989 I want  
 (24) to ask you do you know Bob Kagan?  
 (25) A Yes, sir

Vol 19 3124

- (1) Q Have you sailed with Bob Kagan?  
 (2) A Yes sir  
 (3) Q And indeed have you done performance evaluations on Bob Kagan?  
 (4) A Yes sir  
 (5) Q And in the course of doing these performance evaluations or preparing to do performance evaluations did you take care to look at how Mr Kagan was performing various parts of the job that he was performing?  
 (6) A Yes, sir  
 (7) Q All right Let me ask you specifically when did you do performance evaluations on Mr Kagan how many times?  
 (8) A Two times  
 (9) Q When was the first one?  
 (10) A 1984  
 (11) Q And the second one?  
 (12) A 1987  
 (13) Q And in either/or both of those occasions what time frame did those evaluations cover?  
 (14) A Two months or 60 days  
 (15) Q Both times?  
 (16) A Yes sir  
 (17) Q Two times - two months in 84 two months in 1987?  
 (18) A That s correct  
 (19) Q And in those times - those tours of duty let s call it -

Vol 19 3125

- (1) did Mr Kagan steer?  
 (2) A Yes sir  
 (3) Q Was he sailing as an able bodied seaman on either of those two occasions?  
 (4) A No sir  
 (5) Q And generally it is the able bodied seaman who steers correct?  
 (6) A Yes sir  
 (7) Q Why did Mr Kagan steer on those occasions?  
 (8) A Because he had asked permission to do so  
 (9) Q And was that granted?  
 (10) A Yes, sir  
 (11) Q And did Mr Kagan steer with you watching him in 1984?  
 (12) A Yes, sir  
 (13) Q Can you - I know it s a long time ago but can you estimate on how many occasions you watched him steering?  
 (14) A Four times  
 (15) Q All right And in 1987 can you tell us how many times you watched him steer?  
 (16) A Two times  
 (17) Q All right In 1984 can you recall the location or locations where you had Mr Kagan at the helm?  
 (18) A The Mississippi River  
 (19) Q All right Now is the Mississippi River an easy or a hard place to navigate and to steer?

Vol 19 3126

- (1) A Hard  
 (2) Q And was he steering a tanker?  
 (3) A Yes sir  
 (4) Q Which tanker?  
 (5) A The Exxon Huntington  
 (6) Q How did Mr Kagan do steering on the Mississippi River?  
 (7) A Very well  
 (8) Q Now on the occasion that you had him steering in 1987 can you remember where he steered on those occasions?  
 (9) A The Ambrose Channel which is the approach channel to New York Harbor  
 (10) Q Are those pilotage waters?  
 (11) A Yes sir  
 (12) Q Are those within the definition of confined waters?  
 (13) A Yes sir  
 (14) Q And how did Mr Kagan do?  
 (15) A Very well  
 (16) Q Let me ask that two pages of exhibit - Plaintiffs Exhibit Number 69 be brought up please  
 (17) MR SANDERS Your Honor I misspoke and I ve been corrected Plaintiffs Exhibit 69 I don t believe is in evidence What I would like to do is offer the two pages of which Mr Ferrone has knowledge of that exhibit I d like to offer that as an exhibit Can we call that 69 or should I give it a new number?

Vol 19 3127

- (1) MR O NEILL How about 69 Alpha?  
 (2) MR SANDERS Is that all right Mr Murtiashaw? Your Honor?  
 (3) THE COURT Mr Murtiashaw will that confuse things?  
 (4) MR O NEILL Let me - before we get to that Exhibit 69 is Mr Kagan s service record as provided by Exxon Corporation to the National Transportation Safety Board It s his complete service record as produced by Exxon Perhaps we should just offer Exhibit 69  
 (5) MR SANDERS Well it was - it was referenced during the course of his deposition and I have no - I have no objection to putting this in I do want to correct something though I do not believe it is a complete service record It doesn t go back beyond about 1984 or 5 It s not complete but -  
 (6) MR O NEILL It s as provided to the NTSB Why don t we just offer 69?  
 (7) (Exhibit 69 offered)  
 (8) THE COURT Plaintiffs Exhibit 69 is admitted  
 (9) (Exhibit 69 received)  
 (10) BY MR SANDERS  
 (11) Q As I was saying two pages of Exhibit 69 I wish you would look at the first page please - and let me bring it up a little bit You have a screen right to your left or you can use this one over here

Vol 19 3128

- (1) **A I can see that**  
 (2) **Q Now is that your name at the top of this?**  
 (3) **A Yes, sir**  
 (4) **Q And is that the evaluation you did of Mr Robert Kagan in 1987?**  
 (5) **A Yes, sir**  
 (6) **Q And what ship was that on?**  
 (7) **A The Exxon Charleston**  
 (8) **Q And the time frame of that evaluation was from June 10th 1987 to August 4th 1987 is that correct?**  
 (9) **A That s correct**  
 (10) **Q Now this portion that I ve highlighted or brought out this is the evaluation part for the deck department?**  
 (11) **A That s correct**  
 (12) **Q Now there is a section here that s very hard to read I m going to underline it and ask if you from memory or from any other copy that you have up there can tell the ladies and gentlemen of the jury and the Court what that - what is written there?**  
 (13) **A It pertains to his abilities at the helm of the vessel**  
 (14) **Q But what does it actually say?**  
 (15) **A I can't recall from the specific -**  
 (16) **Q Can I help you? Steers in confined waters ?**  
 (17) **A Steers in confined waters**  
 (18) **Q Now there is an X mark in the column opposite steers in**

Vol 19 3129

- (1) **confined waters correct?**  
 (2) **A That s correct**  
 (3) **Q Now let me go up here to this part so we know what that X mark means The third column in from the left does that say above normal ?**  
 (4) **A Yes, sir**  
 (5) **Q Going back then to this block this X mark being the third in from the left you rated him as above normal?**  
 (6) **A That s correct**  
 (7) **Q All right**  
 (8) **Now in your practice or in the practice of the people who do these evaluations like yourself is it appropriate or do you from time to time make comments?**  
 (9) **A Yes, sir**  
 (10) **Q And if the comment has to do with his steering where would you put that comment?**  
 (11) **A To the right of where the box is for boxes for the X are as you can see on this form**  
 (12) **Q I m underlining the comment section opposite steers in confined waters What did you put there?**  
 (13) **A Steers well to pilot s orders**  
 (14) **Q Now you used the word pilot s there Does that have a specific meanings?**  
 (15) **A That s correct**  
 (16) **Q Does that mean that Mr Kagan was steering with a pilot**

Vol 19 3130

- (1) **aboard?**  
 (2) **A That s correct**  
 (3) **Q In pilotage waters?**  
 (4) **A That s correct**  
 (5) **Q In confined waters?**  
 (6) **A Yes, sir**  
 (7) **Q And your comment was that he steered well to pilot s orders?**  
 (8) **A Yes, sir**  
 (9) **Q Now this - this concerns one aspect of the job for which he was being evaluated correct?**  
 (10) **A That's correct**  
 (11) **Q Now let s go to some other aspects because some of your comments were not that favorable and let s bring those out The second item on the list has to do with quantity of work is that correct?**  
 (12) **A That's correct**  
 (13) **Q And opposite that you wrote this comment - would you read that for the ladies and gentlemen of the jury? It s not - doesn t come through very well**  
 (14) **A Volume of his work is borderline**  
 (15) **Q And underneath that you make another comment What is that?**  
 (16) **A Bob must be supervised constantly**  
 (17) **Q And then underneath that another comment is what?**

Vol 19 3131

- (1) **A Tends to detract from productive operations**  
 (2) **Q And then under that you say he acts quickly on counseling correct?**  
 (3) **A That s correct**  
 (4) **Q Let s go to the second page of this evaluation Now this is the page where you talk about the employee s strengths and weaknesses correct?**  
 (5) **A That s correct**  
 (6) **Q And at one point you mention that At times and with supervision Mr Kagan is a productive member of the deck force correct?**  
 (7) **A That's correct**  
 (8) **Q And then on down here you say that he must learn to concentrate to maintain his attention span and then later you say he needs to avoid being a distraction and become more productive?**  
 (9) **A That s correct**  
 (10) **Q Now tell the ladies and gentlemen of the jury what were you referring to here in respect to Mr Kagan s needing supervision maintaining his attention span and avoiding distraction?**  
 (11) **What did Bob Kagan do that caused these comments?**  
 (12) **A Bob tends to like to talk to people, a great deal, as a matter of fact And in his work area, should someone wander through it for any reason he would tend to go off of the job**

Vol 19 3132

Vol 19 3134

- (1) that he was assigned and tend to talk to that individual  
 (2) whether that person wanted to be talked to or not thus not  
 (3) only reducing his productivability [sic], also the person that  
 (4) he was talking to That was basically the gist of that  
 (5) description  
 (6) Q All right Now at this time - in 87 and I think in 84  
 (7) also - Mr Kagan was wanting to be able to sail as an  
 (8) able bodied seaman right?  
 (9) A That s correct  
 (10) Q And for that reason and because of these - well strike  
 (11) that  
 (12) For that reason did you make a comment about whether he  
 (13) was ready to sail as an A B in the summer of 1987?  
 (14) A Yes, I did  
 (15) Q And that comment I m underlining right now you said he s  
 (16) not ready at this time to sail as an A B?  
 (17) A That s correct  
 (18) Q Now what was the reason that you made that comment?  
 (19) A Because I felt that Bob at that time was unable to fulfill  
 (20) the duties as able seaman and he should continue in the  
 (21) position as ordinary seaman continue his training  
 (22) Q All right Now let s talk a little bit about this tour of  
 (23) duty with Mr Kagan and this evaluation and this ship What is  
 (24) the Exxon Charleston?  
 (25) A Exxon Charleston is a clean products carrier carries

- (1) officer and a helmsman relate when they re doing their jobs  
 (2) A All right  
 (3) Q Whose job is it to give the commands?  
 (4) A Whoever has the con and closed - in a channel or narrow  
 (5) channel or a river it would be the pilot  
 (6) Q Either the pilot or the watch officer or let s call him  
 (7) the conning officer - or her the conning officer?  
 (8) A That s correct  
 (9) Q What happens when a conning officer gives a command to  
 (10) the  
 (11) helmsman?  
 (12) A The helmsman repeats back the order to him and then  
 (13) follows  
 (14) out the command  
 (15) Q What is the responsibility then of the conning officer?  
 (16) A Conning officer responsibility, utmost responsibility is to  
 (17) make sure that that order was followed out correctly  
 (18) Q All right  
 (19) Now is that just a good idea or is that a common practice  
 (20) or a necessary practice on board any ship?  
 (21) A That is a vital practice aboard any ship  
 (22) Q Are there helmsmen who make mistakes?  
 (23) A Yes sir  
 (24) Q What kind of mistakes are made?  
 (25) A Misunderstanding the order or going the wrong direction  
 with the wheel or not hearing him  
 Q All right is that the reason then for the

Vol 19 3133

Vol 19 3135

- (1) refined solvents and lubricating oils on the East Coast to  
 (2) ports in the Gulf of Mexico all along the east coast of the  
 (3) United States  
 (4) Q All right And at any given time how many different clean  
 (5) products would the Charleston be carrying say in the summer  
 (6) of 1987?  
 (7) A On average, about 30 and could be as much as 35  
 (8) Q And it makes port calls all up and down the East Coast?  
 (9) A That s correct  
 (10) Q Would you compare the work aboard the Charleston with  
 (11) the - or can you compare the work aboard the Charleston as  
 (12) compared with a crude oil carrier that trades between Valdez  
 (13) Alaska Benicia or San Francisco Long Beach or Panama?  
 (14) A I would say that the work and the workload and the  
 (15) demands  
 (16) on an individual on a clean products carrier are greater than  
 (17) that than on a crude oil carrier  
 (18) Q What about steering?  
 (19) A The demands on a helmsman would be greater on the  
 (20) East  
 (21) Coast, the clean products carrier, due to the fact of the  
 (22) more  
 (23) numerous port calls and the more narrow channels  
 (24) Q Would you compare steering in the Mississippi River with  
 (25) steering on the Pacific runs?  
 A Yes, the Mississippi River demands I feel a greater  
 degree of concentration it is less forgiving of errors  
 Q All right Now let me ask you about the way that a watch

- (1) responsibility being placed on the conning officer to ensure  
 (2) that the order is being carried out?  
 (3) A Yes sir  
 (4) Q Does the helmsman have any say so about that order when  
 (5) to  
 (6) stop when to start when to do it?  
 (7) A No, sir  
 (8) Q Now is that what you would call a close super -  
 (9) supervised activity?  
 (10) A Yes, sir  
 (11) Q In other words when a helmsman when an A B or ordinary  
 (12) seaman is at the helm he is required to be closely supervised  
 (13) -  
 (14) A Absolutely  
 (15) Q - correct?  
 (16) Is there a difference with respect to commands giving -  
 (17) given to a helmsman between a rudder command and a course  
 (18) command?  
 (19) A Yes sir  
 (20) Q What is the difference? What s a - tell us what a rudder  
 (21) command is  
 (22) A A rudder command is simply a order to bring the rudder  
 (23) to a  
 (24) specific angle and hold -  
 (25) Q What is required what do you have to do in order to pull  
 that off?  
 A You give the order to the helmsman of right ten left ten

Vol 19 3136

- (1) whatever it may be He repeats it he goes to that angle as  
 (2) represented on the rudder angle indicator, and then he repeats  
 (3) back that the order has been done, and that is it  
 (4) Q Does the helmsman do anything other than put it on that  
 (5) number that s given him right or left? Is he required to do  
 (6) anything else other than just keep it there?  
 (7) A A good helmsman – and I venture to say it may not be  
 (8) required, but a good helmsman would notify the bridge that  
 the  
 (9) ship is beginning to turn or is passing a certain number on  
 the  
 (10) compass  
 (11) Q Okay I – I beg your pardon I was asking with respect to  
 (12) the helm  
 (13) After say if it s right ten degrees after turning it to  
 (14) the ten does – is he required to do anything else other than  
 (15) just hold it on that ten?  
 (16) A No, sir  
 (17) Q Is he allowed to do anything else?  
 (18) A No, sir  
 (19) Q Other than hold it on that ten?  
 (20) A No, sir  
 (21) Q All right  
 (22) Now a course order though is different What is that?  
 (23) A Course order is when the pilot or the conning officer  
 would  
 (24) direct the helmsman to bring it to a particular number on the  
 (25) compass helmsman would repeat that and depending on  
 how the

Vol 19 3137

- (1) pilot wants that done the pilot would say, Bring it over  
 (2) smartly or easy, which would be, you know, quickly or  
 slowly  
 (3) He would follow through and bring the ship over to that  
 (4) course  
 (5) Q And once having gotten it to that compass heading does the  
 (6) helmsman have further responsibilities?  
 (7) A Just to maintain that course Other than that, no  
 (8) Q And if the current or the wind causes the ship to vary from  
 (9) that course he has to get it back on there right?  
 (10) A That s correct  
 (11) Q On his own?  
 (12) A That s correct  
 (13) Q Now in the situation where Mr Kagan would be at the helm  
 (14) and you were the conning officer do you have an opinion as to  
 (15) whether or not Mr Kagan needed extra supervision in that  
 (16) particular setting?  
 (17) A No sir he did not  
 (18) Q Could you compare Mr Kagan to other helmsmen who  
 sailed  
 (19) with Exxon as far as steering ability?  
 (20) A He was a little above average  
 (21) Q Now could you compare sailors who sailed with Exxon with  
 (22) those who sail for other companies or for other entities like  
 (23) the Coast Guard or the Navy or something like that?  
 (24) A Yes, sir I believe they re above average  
 (25) Q Exxon sailors?

Vol 19 3138

- (1) A Exxon employees are a better breed for lack of a better  
 (2) term, than those I d seen on other companies and other  
 vessels  
 (3) Q Let me ask you one final question  
 (4) Did you come to any sort of conclusion from your time  
 (5) serving with Mr Kagan that there was a better way or a good  
 (6) way to supervise Mr Kagan?  
 (7) A Could you –  
 (8) Q What did he respond to?  
 (9) A Mr Kagan responded to – as I said in my evaluation, he  
 (10) responded well to a good supervisor, a person that would –  
 (11) gave him the respect any person would deserve, positive  
 (12) feedback Treat him like a human being and he'd respond  
 very  
 (13) well  
 (14) MR SANDERS You may ask  
 (15) MR O NEILL Work with me sir and we ll have you out  
 (16) of here in five minutes  
 (17) THE WITNESS I ve got all the time you need  
 (18) CROSS EXAMINATION OF GREGORY JOHN FERRONE  
 (19) BY MR O NEILL  
 (20) Q On your evaluation your 1987 evaluation of Mr Kagan you  
 (21) made the comment Bob always tries his best despite personal  
 (22) discomfort past illness Do you recall that?  
 (23) A Yes, sir  
 (24) Q What kind of past illness did he have?  
 (25) A At the time, I believe he was suffering from contact

Vol 19 - 3139

- (1) dermatitis caused by exposure to paint – paint thinner, I  
 (2) believe  
 (3) Q He had a history of problems including sinus problems  
 (4) allergy problems hay fever vision problems hearing  
 problems  
 (5) isn t that right?  
 (6) A I m unaware of those  
 (7) Q I was interested when you were testifying about your  
 (8) evaluation that you made the comment Kagan must learn to  
 (9) concentrate to maintain his attention span Do you recall  
 (10) that?  
 (11) A Yes, sir  
 (12) Q And Kagan is not ready at this time to sail as an A B?  
 (13) A Yes, sir  
 (14) Q Do you recall that?  
 (15) A Yes, sir  
 (16) Q Now Exhibit 69 which is in front of you is a collection  
 (17) of evaluations?  
 (18) A Yes, sir  
 (19) Q And Mr Kagan was evaluated at various times according to  
 (20) Exhibit 69 by a fellow named McDonald Do you know him  
 (21) Michael G McDonald?  
 (22) A Yes sir  
 (23) Q And he was evaluated by a fellow named George Maynard  
 Do  
 (24) you know him?  
 (25) A Yes, sir

Vol 19 3140

- (1) Q And he was evaluated by a David Witherall Do you know  
 (2) him?  
 (3) A Yes sir  
 (4) Q He was evaluated by a Rafael Rojana (ph) Do you know  
 him?  
 (5) A Yes sir  
 (6) Q He was evaluated by you and evaluated by Bill Regan do  
 you  
 (7) know him William Regan first engineer?  
 (8) A No sir  
 (9) Q And he was evaluated by Michael Stalzer who came here  
 and  
 (10) testified and Stalzer s evaluation didn t have him as  
 (11) above average steerer are you aware of that?  
 (12) A No sir  
 (13) Q Are you aware of any of the evaluations that are in Exhibit  
 (14) 69?  
 (15) A Other than mine, no, sir  
 (16) Q Were the contents of Exhibit 69 or these other evaluations  
 (17) made available to you?  
 (18) A No sir  
 (19) Q Were they kept from you?  
 (20) A Yes, sir  
 (21) Q And indeed do you know why the other evaluations were  
 kept  
 (22) from you?  
 (23) A No, sir, other than proprietary information  
 (24) Q Would it surprise you to find out that the other  
 (25) evaluations with regard to steering were not favorable?

Vol 19 3141

- (1) MR SANDERS I ll object to that both as a  
 (2) mischaracterization and he s already brought out that there s  
 (3) no foundation for asking him that question  
 (4) THE COURT Sustained You can ask specific  
 (5) questions  
 (6) MR O NEILL I ll ask some specific questions  
 (7) BY MR O NEILL  
 (8) Q McDonald rated Kagan as cannot rate in the following  
 (9) areas steering in confined waters were you aware of that?  
 (10) A No, sir  
 (11) Q That isn t consistent with your evaluation was it?  
 (12) MR SANDERS I object to that Your Honor That -  
 (13) the testimony is that he asked Mr Kagan about that at the  
 (14) deposition that he didn t steer in confined waters That s  
 (15) why he couldn t rate him  
 (16) MR O NEILL I ll try another one  
 (17) THE COURT Try another one  
 (18) BY MR O NEILL  
 (19) Q David Witherill said Needs to practice steering in  
 (20) confined waters before steering as A B Were you aware of  
 (21) that?  
 (22) A No sir  
 (23) Q He had an attention span problem?  
 (24) A Yes, sir  
 (25) Q What is the difference between being an ordinary seaman  
 and

Vol 19 3142

- (1) then stepping up to A B or sailing as an A B?  
 (2) A You mean the difference in the positions the  
 (3) responsibilities?  
 (4) Q Yes sir  
 (5) A An ordinary seaman has menial tasks such as cleaning,  
 (6) whatever maintenance may be assigned to him An able  
 seaman  
 (7) has much more responsibility in that he's expected to know  
 a  
 (8) certain amount about the cargo system, be able to operate  
 (9) valves on deck, in the wheelhouse he should be able to  
 maintain  
 (10) a helm provide a good lookout and be dependable in those  
 (11) duties at all times  
 (12) Q And at the time that you were of the view that he was not  
 (13) ready to step up to A B how old was he?  
 (14) A I -  
 (15) Q In his 40s?  
 (16) A I have no idea sir I don't know his age  
 (17) Q He wasn t a young man was he?  
 (18) A No sir  
 (19) Q You ever talk to Captain Stalzer about Bob Kagan and  
 (20) steering?  
 (21) A No sir  
 (22) Q Captain Stalzer s evaluation was within a couple of months  
 (23) of the grounding of the Valdez Are you aware of that?  
 (24) A No, sir  
 (25) MR O NEILL Thank you

Vol 19 3143

- (1) THE WITNESS Thank you  
 (2) REDIRECT EXAMINATION OF GREGORY JOHN FERRONE  
 (3) BY MR SANDERS  
 (4) Q Do you have Exhibit 69 up there with you?  
 (5) A Yes, sir  
 (6) Q Would you look please to the evaluation that is done by  
 (7) Mr Maynard which is I think about the third page down that  
 (8) Mr O Neill asked you about?  
 (9) A Third page down from the front cover?  
 (10) Q Yes sir  
 (11) A One two - yes sir I m there  
 (12) Q All right Do you have that evaluation in front of you?  
 (13) A Yes, sir  
 (14) Q Look please opposite steers in confined waters ?  
 (15) A Yes, sir  
 (16) Q Do you find that?  
 (17) A Yes, sir  
 (18) Q Is there anything written there?  
 (19) A No sir  
 (20) Q No good no bad just nothing right?  
 (21) A That s correct nothing  
 (22) Q And at the bottom of the page is there a place for an  
 (23) overall evaluation by the evaluator?  
 (24) A Yes, sir  
 (25) Q And what does Mr Maynard say?

Vol 19 3144

- (1) **A He s got an X in the box above normal 2 5**  
 (2) **Q What do the other boxes say?**  
 (3) **A At the bottom of the page?**  
 (4) **Q Yeah The general categories reading from left to right?**  
 (5) **A The first box says outstanding 1 0 Next to that to the**  
 (6) **right is high, 2 0 Box that he has checked is above normal**  
 (7) **2 25, followed by normal, 3 0, and below normal 3 5, and**  
 (8) **finally inadequate, 4 0**  
 (9) **Q Okay let s go to the next one**  
 (10) **He asked you about Mr Witherill Would you look in the**  
 (11) **evaluation of Mr Witherill the next one down?**  
 (12) **A I see it, sir**  
 (13) **Q What box does he check under steers in confined waters ?**  
 (14) **A Cannot rate**  
 (15) **Q What does cannot rate mean?**  
 (16) **A That he has not**  
 (17) **Q In the evaluation system at Exxon?**  
 (18) **A That he has not had the opportunity to observe that**  
 (19) **operation**  
 (20) **Q All right**  
 (21) **Go down to the next one He mentioned Mr Rojana**  
 (22) **A Yes, sir**  
 (23) **Q Under steers in confined waters on Mr Rojana s**  
 (24) **evaluation what does it say?**  
 (25) **A There is an X in cannot rate**

Vol 19 3145

- (1) **Q And is there a comment?**  
 (2) **A Yes sir**  
 (3) **Q What does it say?**  
 (4) **A Not observed**  
 (5) **Q And then the next one down is yours right?**  
 (6) **A Yes, sir**  
 (7) **Q And then the one beyond that is by Mr Regan William**  
 (8) **Regan?**  
 (9) **A Yes, sir**  
 (10) **Q Is there a block on this evaluation which says steers in**  
 (11) **varying - various conditions and situations i e confined**  
 (12) **waters heavy weather et cetera?**  
 (13) **A Yes, sir I see it**  
 (14) **Q Have you found that?**  
 (15) **A Yes, sir**  
 (16) **Q Is there anything marked in those blocks?**  
 (17) **A No sir They're all blank**  
 (18) **Q Now you were also asked by Mr O Neill about whether**  
 (19) **evaluations were kept from you correct?**  
 (20) **A Yes, sir**  
 (21) **Q Remember that?**  
 (22) **A Yes sir**  
 (23) **Q Now when you answered that question were you referring**  
 (24) **to**  
 (24) **the time when you were on the vessel?**  
 (25) **A No sir I m talking about at all times**

Vol 19 3146

- (1) **Q Now when you were on a vessel were you given these**  
 (2) **evaluations past evaluations to look at?**  
 (3) **A Absolutely not**  
 (4) **Q Is that what you mean by kept from you ?**  
 (5) **A Yes, sir**  
 (6) **MR SANDERS No further questions**  
 (7) **THE COURT Thank you sir you may step down**  
 (8) **THE WITNESS This Exhibit 69 should I leave it up**  
 (9) **here?**  
 (10) **MR SANDERS Give it to Mr O Neill**  
 (11) **MR O NEILL We ll give it to the jury**  
 (12) **MR SANDERS Give it to Mr O Neill and let him read**  
 (13) **it**  
 (14) **(The Witness Stepped Down )**  
 (15) **MR LYNCH I get to take us back to the deposition**  
 (16) **trail Your Honor Call Commander Steven McCall by**  
 (17) **deposition**  
 (18) **THE CLERK Was that last name McCall or Call?**  
 (19) **MR LYNCH McCall**  
 (20) **THE CLERK Would you raise your right hand please?**  
 (21) **(The Witness is Sworn)**  
 (22) **THE CLERK For the record state your full name**  
 (23) **address and spell your last name please sir**  
 (24) **THE READER My name is Gary Howard Haney spelling is**  
 (25) **H A N E Y Address is 6411 South River Road Tempe Arizona**

Vol 19 3147

- (1) **THE CLERK Thank you sir**  
 (2) **DIRECT EXAMINATION OF COMMANDER MCCALL**  
 (3) **BY MR LYNCH**  
 (4) **Q Commander McCall you like this tie my wife gave me?**  
 (5) **A I would like to have one just like it myself**  
 (6) **Q I had to get that in the record**  
 (7) **THE COURT I was going to comment on it if you**  
 (8) **didn t**  
 (9) **MR LYNCH My wife is in the room Your Honor**  
 (10) **THE COURT Then I won t say what I was going to say**  
 (11) **BY MR LYNCH**  
 (12) **Q Would you state your full name for the record?**  
 (13) **A Steven Alexander McCall**  
 (14) **Q Commander would you describe your education let s say**  
 (15) **beginning with high school?**  
 (16) **A I went to Archbishop Malloy High School in Kew Gardens**  
 (17) **New**  
 (17) **York 1961 to 1965, and then I went, upon graduation of high**  
 (18) **school I went to the State University of New York Maritime**  
 (19) **College at Fort Schuyler from 65 to 69 and then Coast**  
 (20) **Guard**  
 (20) **in 1969 and stayed in the Coast Guard for 22 years**  
 (21) **Q And what was your next assignment after that?**  
 (22) **A Valdez Alaska, commanding officer for the marine safety**  
 (23) **office**  
 (24) **Q All right So do you recall the date of your retirement?**  
 (25) **A July 1st, 1991**

Vol 19 3148

- (1) Q And you retired with what rank sir?  
 (2) A Commander  
 (3) Q What was your position in Valdez when you arrived position  
 (4) or positions?  
 (5) A Okay, I was the commanding officer of the marine safety  
 (6) office, which also included captain of the port and  
 (7) responsibilities for Prince William Sound, the officer in  
 (8) charge of maritime inspection for the Valdez marine  
 (9) inspection zone, and there was various maritime defense zone  
 (10) responsibilities, basically wartime or time of conflict roles  
 (11) Q With regard to the VTS - and I m going to be as I said  
 (12) focused -  
 (13) A Okay  
 (14) Q - in large part on VTS for my questioning Before you  
 (15) came aboard in Valdez other than the career we have traced  
 (16) did you have any other - any specific orientation to the  
 (17) Vessel Traffic Service responsibilities either shortly before  
 (18) you arrived or shortly after you got there in terms of  
 (19) refresher training orientation whatever?  
 (20) A Formal training, no Familiarization training from the -  
 (21) from the prior commanding officer, Mike Cavette, and  
 (22) obviously  
 (23) upon arrival, reporting detailed briefings and various staff  
 (24) as  
 (25) to what their duties were, what their thoughts were on their  
 (26) duties And somewhere along the line, I can't remember  
 (27) exactly, but I did attend a course, I believe down there in

Vol 19 -3149

- (1) Alameda on radar, on radar therapy application  
 (2) Q Theory?  
 (3) A Theory, excuse me, theory application I know that - I  
 (4) know it was after I arrived at Valdez  
 (5) Q What was the overall purpose of the Vessel Traffic Service  
 (6) in Valdez?  
 (7) A The purpose of the VTS in Valdez was to assist the  
 (8) vessels  
 (9) in arriving and parting safely In simplest terms it was to  
 (10) keep two ships from meeting in the Narrows It was well  
 (11) recognized that ships could not see through the mountain  
 (12) and  
 (13) see who was coming through the other side either into the  
 (14) port  
 (15) or out of the port, so a system had to be established to  
 (16) ensure  
 (17) that basically vessels didn t meet in the narrows and take  
 (18) precautions to avoid that from happening  
 (19) Q Now if vessels - by vessels meeting in the narrows do you  
 (20) mean collisions?  
 (21) A Oh, yes, or running aground to avoid a collision or  
 (22) running  
 (23) aground as a result of trying to avoid a collision, put it that  
 (24) way  
 (25) Q Okay recalling the discussion we had about the objectives  
 (26) of preventing groundings on the one hand or collisions on the  
 (27) other what would you say was the principal objective of the  
 (28) Traffic Separation Scheme with respect to groundings versus  
 (29) collisions?  
 (30) A Well, the Traffic Separation Scheme was designed to keep

Vol 19 3150

- (1) the traffic separated, separated vessel traffic separated  
 (2) Q Wasn t then the principal objective of the Traffic  
 (3) Separation Scheme to prevent collisions?  
 (4) A It was to keep the ships a distance apart to avoid them in  
 (5) becoming situations where they would have to take evasive  
 (6) actions to avoid each other which could result in a collision  
 (7) or grounding or near miss  
 (8) Q Okay What were the elements that made up the Vessel  
 (9) Traffic Service in Valdez? What were its parts?  
 (10) A Well, the most-used parts was the radio network, where  
 (11) we  
 (12) spoke to the ships while coming - you know, prior to coming  
 (13) into Prince William Sound They had various check-in times  
 (14) and  
 (15) check in locations to let us know where they were, where  
 (16) they  
 (17) were coming in, and then that was supplemented as the  
 (18) vessels  
 (19) approached the Valdez Narrows with a radar site at Potato  
 (20) Point  
 (21) and a radar site at the spit site in Valdez  
 (22) Q What was the designed range for the radar covering Valdez  
 (23) Arm?  
 (24) A I don t know the technical status of what the radar  
 (25) coverage is  
 (26) Q What was your understanding of what the area was that was  
 (27) actually covered in general?  
 (28) A Before the grounding, routinely, my best answer would be  
 (29) routinely in the vicinity of Bligh Reef  
 (30) Q Okay Are you familiar with the Vessel Traffic Center

Vol 19 3151

- (1) manual?  
 (2) A I was  
 (3) Q In Valdez what was generally the traffic center manual?  
 (4) A It was a publication put together for the personnel in the  
 (5) vessel traffic control center to I guess you d say explain  
 (6) their duties and give them some potential scenarios and  
 (7) situations as to what might go on during their watch, an  
 (8) inhouse document designed for their use  
 (9) Q Would you consider it to be a fair authoritative source  
 (10) for information about something like the operating objectives  
 (11) of the Vessel Traffic System?  
 (12) A In conjunction with the other documents, you know other  
 (13) regulations, the marine safety manual guidance, it was not a  
 (14) stand alone document  
 (15) Q Let me ask that this document be passed to the witness  
 (16) This is enclosure 16 from the O Donovan report and I believe  
 (17) it s Exhibit 101 PX 101 in this case which is the edition of  
 (18) the VTC manual that was in effect at the time of the  
 (19) grounding  
 (20) Commander the first page of that document is a cover  
 (21) letter from yourself isn t it?  
 (22) A Yes, I signed the cover letter yes  
 (23) Q And that s a letter dated November 2 1988?  
 (24) A Correct  
 (25) Q And did that place the manual into effect as of that date?

Vol 19 3152

Vol 19 3154

- (1) **A Yes**
- (2) **Q Was this the edition of the VTC manual that was in effect at the time of the Exxon Valdez grounding in March of 1989?**
- (3) **A I believe so, yes**
- (4) **Q Would you turn to page 21 Would you just read into the record Section 4 3 2 - just the title and the first sentence**
- (5) **would be sufficient**
- (6) **A Section 4 3 2 reads, Operating objectives the principal objectives of the TSS is to prevent collisions The rules themselves are sufficient to control the vessel movement within**
- (7) **the traffic lanes during routine transits Active control should be kept to a minimum unless deviations or potential conflicts are observed**
- (8) **Q When did you first learn of the grounding of the Exxon Valdez?**
- (9) **A I guess a little after midnight I guess the phone rang at home, woke me up**
- (10) **Q Going back to your conversation with Mr Blandford was that basically it in substance what you have told us?**
- (11) **A Yeah, I spoke - he told me we had an exchange about - Are you kidding, I think - I think his phrase was I m as serious as a heart attack, and then I said, All right contact the XO get him up tell him I ll swing by and pick him up on the way in**
- (12) **I may have told him then or after I got to the office to**

- (1) **questions you asked when you first came in the door did you ask Mr Blandford what was happening what was going on?**
- (2) **A I'm sure I did yeah**
- (3) **Q What did he say in response?**
- (4) **A I don t recall his exact words, but he showed me, you know,**
- (5) **It s over there, and I, you know, I was - I was - probably showed surprise and shock at How the heck did he get over there You know, at the time it was - my concern was what kind of situation we had with the ship, you know, how d it - how it got there, how it ended up at the time didn't really, you know cross my mind What crossed my mind was an event,**
- (6) **actually it was - well, it was what s the status on the ship, you know, are we aground or are we hard aground There is a big difference**
- (7) **Q So is it your recollection that - let me withdraw that question**
- (8) **Did you discuss at this time with Mr Blandford whether he had made any observations of the vessel before the grounding?**
- (9) **A I don t recall We talked about it sometime, but at that - you know, prior to contacting the ship and during those initial minutes I don t think I asked too many questions about how it got where it was My main focus was, you know is what s the situation now that - now that it s where it is**
- (10) **Q Commander I m going to read you from a transcript of a press conference in Valdez on March 25 1989 This was Exhibit**

Vol 19 3153

Vol 19 3155

- (1) **notify the other people, Mr Delozier Mark Delozier, I don t know who else but within a fair amount short order most people were contacted either at my direction or at the XO s or**
- (2) **Delozier s direction**
- (3) **Q You are saying that you or either somebody at your direction notified those others And then what did you do next?**
- (4) **A Proceeded into the office myself and Falkenstein I picked him up and we drove in, you know trying to get our thoughts together as to how the heck could a ship end up where it ended up unless something - something drastically was wrong And we got to the office and -**
- (5) **Q What happened when you got to the office?**
- (6) **A Went upstairs probably proceeded directly into the Vessel Traffic Center I don t know my exact words but What s going on what s happening what s up, and - and we, you know looked at the radar and saw the image of the Exxon Valdez in the vicinity of Bligh Reef, you know basically broadside, broadside to the channel or the inbound lane I don t know whether or not Blandford was already on the horn talking to Captain Hazelwood whether or not I - well, it s on the tape I m sure whether I initiated the call to Captain Hazelwood or to the ship at the time I didn t know who the captain of the ship was at that time**
- (7) **Q Before we get to that call with regard to the question or**

- (1) **26808 to the larossi deposition in this case - and it s predesignated document 134 counsel I m going to be looking at page 53 page 53 line 191**
- (2) **Your answer continues but to answer your question specifically once that vessel had cleared the pilot station and was entered into the traffic lanes departing he was not under constant radar coverage as were all the other vessels in the area He was in an area where he has entered - as he dropped the pilot the distance from bank to bank was over three miles and - there s an inaudible entry the sound I m not sure what the next word is looks like stand - standardize or something like that - standardize it over six miles**
- (3) **Speaker Are you saying then that he couldn t see the vessel on radar then commander?**
- (4) **A No**
- (5) **Q No I m reading - no I m not saying that Speaker what are you saying then inaudible inadequate**
- (6) **Commander McCall No the vessel at the point in time after the pilot had departed the radar watch unit did not have the vessel under its constant radar surveillance after he had entered into the traffic stream and was departed Prince William Sound**
- (7) **Speaker May I ask you why?**
- (8) **Commander McCall It s not mandated not mandated according to the EPS I think probably VTS traffic rules**

Vol 19 3156

- (1) **Speaker** If it was under surveillance probably could have  
 (2) avoided this whole situation?  
 (3) **Commander McCall** I wouldn't say that  
 (4) Do you recall making those statements at a press conference  
 (5) in Valdez on March 25 1989?  
 (6) **A** In general terms, this is the first time I have actually  
 (7) seen a transcript of what was said  
 (8) **Q** I want to -  
 (9) **A** I was very tired  
 (10) **Q** Pardon me sir?  
 (11) **A** Never mind nothing  
 (12) **Q** Do you recall making those remarks?  
 (13) **A** I remember the press conference and I remember having  
 (14) exchange of question and answer with an individual sitting  
 (15) out  
 (16) in the audience who I didn't know at the time  
 (17) **Q** Do you have reason to doubt that you said what I read to  
 (18) you?  
 (19) **A** I believe I said words - yeah, I believe I said these  
 (20) words There's some inaccuracies in them  
 (21) **Q** But the thrust of what you said -  
 (22) **A** Given the intensity level of the day, it's not too bad  
 (23) **Q** I'm going to show you another transcript and I would like  
 (24) to have this marked as the next numbered exhibit This is  
 (25) predesignated document 221  
 (26) Before we look at this **Commander** are you saying about the

Vol 19 3157

- (1) previous transcript that we looked at that you misspoke in some  
 (2) way didn't mean to say what you said there?  
 (3) **A** No basically I said what was said there was said I  
 (4) imagine, I'm sure in all honesty But other things were on  
 (5) my  
 (6) mind at the time and I felt I'd answered the individual's  
 (7) question, you know, satisfactory enough at the time without  
 (8) getting into great detail  
 (9) **Q** Up to the time of the Valdez grounding and around that time  
 (10) in March of 1989 - of '89 was it the responsibility of the  
 (11) watch stander to discover that a vessel had gone outside of the  
 (12) boundary of the TSS?  
 (13) **A** That phrase sounds familiar, like it's written in some  
 (14) publication, so I vaguely recall it  
 (15) **Q** Is your answer yes?  
 (16) **A** Yes I recall the phrase you used It triggers a thought  
 (17) that's in either the user's manual or some instruction, so I  
 (18) would say yes, that's correct  
 (19) **Q** Is it the responsibility of the watch stander to discover a  
 (20) vessel that has gone outside the TSS?  
 (21) **A** Within his capabilities, yes  
 (22) **Q** Now if a - if a watch stander should become aware that a  
 (23) vessel within the VTS area is standing into danger what is the  
 (24) responsibility of the watch stander to do in that case?  
 (25) **A** If he's aware that the vessel is standing into danger?  
 (26) **Q** Yes sir or suspects it

Vol 19 3158

- (1) **A** Well, if he suspects it or he's concerned about the  
 (2) progress of any vessel, whether he sees it visually you  
 (3) know,  
 (4) or if he saw it on radar, it would be to inquire what the  
 (5) vessel is up to you know, what are the vessel's intentions  
 (6) **Q** Does the watch stander in that situation have the authority  
 (7) to direct the vessel to get back in the traffic lanes?  
 (8) **A** Authority common sense whatever  
 (9) **Q** Under the provisions of -  
 (10) **A** He should, yes I say he should  
 (11) **Q** How far out was the responsibility of the VTC on the night  
 (12) of the Valdez to attempt to keep the image of the - I'm not  
 (13) sure this is a correct transcription but I'll read it as it's  
 (14) typed How far out with the responsibility of the VTC on the  
 (15) night of the Valdez to attempt to keep the image of the Exxon  
 (16) Valdez on radar?  
 (17) **A** Port Valdez Narrows and Valdez Arm until the vessel -  
 (18) until the image was lost in the arm  
 (19) **Q** As far as you could track it?  
 (20) **A** Well, through the arm I mean, once they got out, even -  
 (21) even if you could cover them further out what was the  
 (22) benefit?  
 (23) **Q** As far as Bligh Reef?  
 (24) **A** Yeah I think the phrase we normally used was the  
 (25) vicinity  
 (26) of Bligh Reef, and again some of that depends on  
 (27) congestion  
 (28) traffic, what's more important If you got traffic in other

Vol 19 3159

- (1) parts of the port, then, depending on the congestion or lack  
 (2) of  
 (3) congestion in Valdez Narrows, Valdez Arm, you may not pay  
 (4) attention to that one because you've got other traffic in  
 (5) Valdez Narrows or in port  
 (6) **Q** Was there any other traffic in the system in the areas  
 (7) you've just referred to during the Exxon Valdez's outbound  
 (8) passage past Potato Point?  
 (9) **A** I don't believe so, no  
 (10) **Q** Well let me ask you this Was Mr Taylor required to  
 (11) continue to attempt to hold the vessel on radar past Rocky  
 (12) Point?  
 (13) **A** Was he required to attempt to hold it on radar? What do  
 (14) you mean to attempt to hold it on radar? You mean make  
 (15) adjustment to the screen to see if it would remain on the  
 (16) scope?  
 (17) **Q** Yes sir  
 (18) **A** Yes  
 (19) **Q** **Commander** you said a few moments ago that your principal  
 (20) focus when you arrived at the VTC was the status of the vessel  
 (21) and in particular you were concerned with whether the vessel  
 (22) was aground or hard aground and that was an important  
 (23) distinction in your mind between the two How long after you  
 (24) arrived at the VTC did you contact the vessel with that in  
 (25) mind?  
 (26) **A** I'd say almost immediately As far as trying to contact

Vol 19 3160

- (1) **the vessel and I did - spoke with Captain Hazelwood**  
 (2) **Q Now what was - what was Captain Hazelwood's demeanor**  
**as**  
 (3) **you spoke to him during this conversation?**  
 (4) **A Not happy**  
 (5) **Q What gave you that impression?**  
 (6) **A Very serious, you know, as expected I mean he came**  
**across to me like a master who was concerned with - with**  
**his**  
 (8) **ship Yeah, that just he was concerned with the ship and**  
**was**  
 (9) **passing the information I didn't you know think much into**  
 (10) **it other than he passed on the information**  
 (11) **Q Did he sound calm to you?**  
 (12) **A Yes**  
 (13) **Q Did he sound like he was in control of himself?**  
 (14) **A Yes Like I said the perception I had was that he was in**  
 (15) **control but something was going on with the third mate I**  
 (16) **didn't know whether the third mate was injured or, you**  
**know,**  
 (17) **getting overly nervous whatever, but something**  
 (18) **Q What was your perception of what Captain Hazelwood was**  
 (19) **attempting to do with respect to the - with respect to**  
 (20) **determining the status of the vessel that is the aground**  
 (21) **versus hard aground?**  
 (22) **A At the time it was kind of like you know he may have**  
 (23) **just been in a situation where he may have been just you**  
**know**  
 (24) **in his mind he may not have felt like he was hard aground**  
**and**  
 (25) **he was trying to assess Well am I on it or am I not am I**

Vol 19 3161

- (1) **going to slide off, if I'm going to slide off the reef I'd**  
 (2) **rather slide off with my hands on the sticks where I still have**  
 (3) **some power before I shut down the engines and worry about**  
 (4) **salvage**  
 (5) **So that was you know my thinking the comment about**  
 (6) **rocking or whatever it was I forgot the particular words**  
 (7) **Basically wanted to make sure of what you've got There's**  
 (8) **nothing worse than thinking you're aground and all of a**  
**sudden**  
 (9) **you know you're FWE and all of the sudden you're finished**  
**with**  
 (10) **the engines and all the sudden the ship starts to shift on**  
**you**  
 (11) **or slip and you've got no - you know no control over the**  
 (12) **events So that's basically when you know at the time that**  
 (13) **kind of - that's all that went through my mind**  
 (14) **Q FWE?**  
 (15) **A Finished With Engines Basically all stopped you know**  
 (16) **Q What would be the problem with having the engines off in a**  
 (17) **situation where the ship was coming off the reef?**  
 (18) **A Well in my opinion it's like if in fact you'd shut down**  
 (19) **the engines or had no one in the immediate vicinity of the**  
 (20) **engines to take positive control and be able to put motion**  
**on**  
 (21) **the vessel then you are basically at the mercy of the**  
 (22) **elements, whatever they may be**  
 (23) **Q Commander McCall my questions are going to relate to**  
**some**  
 (24) **text on page 14 You might want to look at the first couple of**  
 (25) **pages and familiarize yourself with the document I'm just**

Vol 19 3162

- (1) **trying to determine if you recognize this as a transcript -**  
 (2) **A Yes, I do**  
 (3) **Q - of your radio conversation with Captain Hazelwood?**  
 (4) **A Yes**  
 (5) **Q And is this the conversation to which you referred in your**  
 (6) **colloquy with Mr. Carey that you had to determine what the**  
 (7) **ship how the ship was doing?**  
 (8) **A Yes**  
 (9) **Q Is it correct that you concluded as a result of this**  
 (10) **conversation that the captain was attempting to verify that he**  
 (11) **was whether he was merely aground or whether he was hard**  
 (12) **aground?**  
 (13) **A Correct**  
 (14) **Q That - that was your understanding of what the captain**  
 (15) **told you he was doing correct?**  
 (16) **A Yes**  
 (17) **Q Did you consider that to be a reasonable thing in fact a**  
 (18) **prudent thing to do under the circumstances?**  
 (19) **A Yes, I did**  
 (20) **Q My question to you really as you look back on that**  
 (21) **conversation and the efforts of Captain Hazelwood relating to**  
 (22) **that conversation do you have any different view today as to**  
 (23) **what Captain Hazelwood was trying to do?**  
 (24) **A No**  
 (25) **Q This is a February 1990 article from Life Magazine You**

Vol 19 3163

- (1) **were authorized to give at least some interviews in connection**  
 (2) **with your duties with regard to the Valdez grounding?**  
 (3) **A You mean as far as guidance from the Coast Guard?**  
 (4) **Q Yes sir**  
 (5) **A Yes, I was pretty much to fully cooperate with everybody**  
 (6) **Q See there is a numbered - there is a paragraph numbered**  
 (7) **three numbered three about halfway down the page?**  
 (8) **A Yes**  
 (9) **Q And that's entitled the hours after the wreck?**  
 (10) **A Okay**  
 (11) **Q Let me read into the record let me read this into the**  
 (12) **record Number three the hours after the wreck Hazelwood is**  
 (13) **accused of tearing a bigger gash in the ship and making the**  
 (14) **spill worse by running the engines Coast Guard Commander**  
 (15) **Steven McCall backs the captain open quote He was trying to**  
 (16) **assure himself the vessel was hard aground says McCall**  
 (17) **Continuing the quote He didn't do anything reckless**  
 (18) **unquote Do you recall saying these words to a reporter about**  
 (19) **around this time?**  
 (20) **A Yeah, I don't recall talking to this reporter, Pope Brock**  
 (21) **The words and phrases seem similar to something I may**  
**have said**  
 (22) **earlier in - you know, earlier on in the casualty, yes**  
 (23) **Q You have reason to believe you're not being quoted**  
 (24) **accurately here?**  
 (25) **A Do I have reasons to believe? No I don't have any**  
**reasons**

Vol 19 3164

- (1) to believe that I m being quoted accurately either I mean  
 (2) it s a toss up, 50/50 whether I m quoted accurately or not  
 from  
 (3) the reporter  
 (4) Q After looking at this does it refresh your recollection  
 (5) about whether you were quoted back in this time period as  
 (6) saying Captain Hazelwood didn t do anything reckless?  
 (7) A I said words to that effect, yes, early, you know, sometime  
 (8) during this I mean, obviously not February '90 when this  
 was  
 (9) done, I wasn t even there, but during this stage of the  
 (10) casualty, probably yes  
 (11) Q Do you feel any differently today?  
 (12) A No  
 (13) Q Can you recall did you recall expressing the opinion in  
 (14) mid 1989 that the allegation that Captain Hazelwood had been  
 (15) drinking as far as being a cause of the grounding was just  
 (16) smoke?  
 (17) A I may have expressed that, yeah  
 (18) Q Just look at the face of the page of it page one  
 (19) Commander Do you see the date of this record of phone  
 (20) interviews on Monday July 11?  
 (21) A Um hum  
 (22) Q Does that comport with your recollection when this  
 (23) occurred?  
 (24) A That would be about right I left a few days later  
 (25) Q And did you go on to say I mean that s the whole cause of

Vol 19 3165

- (1) the problem this smoke about Hazelwood had been drinking  
 and  
 (2) Hazelwood had done this and Hazelwood had done that  
 period  
 (3) The biggest mistake Hazelwood made was having too much  
 (4) conference in his third mate and leaving the bridge when he  
 (5) thought the third mate could steer it out of port  
 (6) Do you recall saying that?  
 (7) A Yes  
 (8) Q Was that your view at the time?  
 (9) A Yes  
 (10) Q I ve handed the witness a transcript of what appears to be  
 (11) his file of documents produced for this deposition and ask that  
 (12) it be marked as Exhibit 47276 This is a six page transcript  
 (13) that appeared in Captain - Commander McCall s box of  
 documents  
 (14) produced in response to the subpoena  
 (15) Are you ready Commander?  
 (16) A Yes  
 (17) Q Have you seen this transcript before?  
 (18) A This one here?  
 (19) Q Yes How did the creation of this transcript come about?  
 (20) A I don't recall specifically  
 (21) Q You told us yesterday that some transcripts from VTC  
 (22) telephone recordings were made in your office at your  
 (23) direction Is this one such transcript?  
 (24) A Can you repeat that?  
 (25) Q You testified yesterday that some transcripts of telephone

Vol 19 3166

- (1) conversations on the recorded lines in your office were made at  
 (2) your direction by others within the VTC and I m asking you  
 (3) whether this is one such transcript prepared in your office?  
 (4) A I can t say for sure  
 (5) Q If you turn to page six you see there s a - there s what  
 (6) appears to be the beginning of a transcript with a time code  
 (7) over it halfway down the page quote call to GS-9 end quote  
 (8) Taylor  
 (9) A Yes  
 (10) Q Let me ask you this Do you know whether this was the  
 (11) entire six pages of transcript that appeared in your  
 (12) documents? Do you know whether there are more of this  
 (13) particular set of pages?  
 (14) A No I don t know  
 (15) Q Looking at the transcript that appears at the bottom of  
 (16) page six do you recall whether you have ever reviewed it  
 (17) before I mean the one that says call to GS 9 Taylor and what  
 (18) follows?  
 (19) A I can t recall specifically, but I probably did  
 (20) Q Okay Would you read for the record beginning about  
 (21) halfway down beginning with where it says Uh she said she  
 (22) was going slow down to the word lanes about four lines  
 (23) below - I m sorry down to the word did five lines below  
 (24) A Okay I see He starts out by saying, uh, she said she  
 (25) was going slow because she was picking her way through  
 ice

Vol 19 3167

- (1) Yeah And she was - and she way - was going to divert to  
 the  
 (2) northbound lane Right  
 (3) Q And the next two lines?  
 (4) A Oh  
 (5) Did she ever request to leave the lanes? Uh, they said  
 (6) they were going to, yeah, as a matter of fact they did  
 (7) Q Now at the time you reviewed this transcript the one  
 (8) you re looking at now was it your understanding that the  
 (9) speaker for the line uh they said they were going to yeah  
 (10) as a matter of fact they did was Mr Taylor speaking to you?  
 (11) A Yes  
 (12) Q Do you have any reason to doubt the accuracy of this  
 (13) transcript with respect to the lines that we have just read  
 (14) that you ve just read aloud?  
 (15) A No  
 (16) Q Okay I m going to pick up near the bottom of that first  
 (17) page?  
 (18) A Which document?  
 (19) Q I m - only 47276 not the government transcript  
 (20) A Oh, 275 then  
 (21) Q 275 you are right Defendants transcript  
 (22) Taylor quote They said they were going to depart the  
 (23) TSS Those are his exact words end quote  
 (24) McCall quote Oh depart the TSS yeah That s the  
 (25) separation scheme end quote

Vol 19 3168

- (1) Taylor quote But he did not say the lanes he said the  
 (2) TSS He said depart the TSS on 200 I believe was his -  
 (3) inaudible end quote  
 (4) McCall quote On 200 Ends quote  
 (5) Taylor quote Right end quote  
 (6) McCall quote Okay This is when he was in the  
 (7) northbound lane end quote  
 (8) Taylor quote He had just dropped off the pilot when this  
 (9) happened that s when he called me He said he - and says he  
 (10) called me back up and says he s going to divert over uh into  
 (11) the northbound lane and that looks like the way to come  
 (12) through That s what I told him earlier that they d come up  
 (13) through the northbounds That s what the last guy did The  
 (14) southbounders got over in the northbound lane end quote  
 (15) McCall quote Yeah yeah but it sounds like he went out  
 (16) of the northbound lane is what happened  
 (17) Taylor quote Oh okay  
 (18) Okay does that refresh - does that passage refresh your  
 (19) recollection further about your discussion with Mr Taylor  
 (20) about whether the Valdez had requested to depart from the  
 TSS?  
 (21) A Okay, this is not a yes or a no answer This brings back  
 (22) memories, recollections of conversations to this extent I  
 (23) mean, you know, on the subject matter from various  
 sources that  
 (24) I can recall, voice tapes were later, you know - Captain  
 (25) Hazelwood type of thing Simplest way to describe it

Vol 19 3169

- (1) obviously I read the rest of this document while  
 discussions  
 (2) were going on If you imagine three lanes one two and  
 three  
 (3) and four lines one two three and four I m being careful  
 (4) with I m on camera All right separation scheme, TSS,  
 (5) separation, separation The operative word is separation as  
 (6) in - as people used it Separation, the lane in the middle,  
 (7) going down a three lane highway with your car, right lane  
 left  
 (8) lane the left turn lane whatever you want to call it the  
 (9) middle versus lines or lanes  
 (10) But there s no curb in the water If we had a curb out  
 (11) there, he would have felt a bump when he went over the  
 curb  
 (12) Anyway, what he s saying here but he did not say lanes he  
 (13) said the TSS the lanes did not say leave the lanes but  
 leave  
 (14) the TSS separation end up in the inbound lane That is my  
 (15) recollection uh what he meant by this that with everything  
 (16) else that I can recall  
 (17) Q Did you become aware that vessels were deviating in  
 (18) February March 1989 time frame were deviating either within  
 (19) the lanes you know in the - from the southbound lane into  
 (20) the northbound lane into the separation zone or outside the  
 (21) lanes completely because of the ice situation in Valdez Arm?  
 (22) A You re putting a lot of caveats into this To the best of  
 (23) my recollection I can recall that the vessels had deviated -  
 (24) you know crossed the lanes or transited across the lanes  
 you  
 (25) know on occasion during the whole time I was there You  
 know

Vol 19 3170

- (1) I mean, on occasion, vessels - vessels would deviate and  
 go  
 (2) outside lanes to pick up a pilot on the inbound lane So yes  
 (3) it was It was - vessels were known to be crossing  
 throughout  
 (4) the lanes on and off, occasion, yes  
 (5) MR LYNCH I believe the cross will be by video Your  
 (6) Honor  
 (7) MS WAGNER Cross will be by video Your Honor  
 (8) CROSS EXAMINATION OF COMMANDER MCCALL  
 (9) BY PLAINTIFF EXAMINER  
 (10) Q Was there a period of time following the grounding when you  
 (11) were under the impression from looking at the statements of Mr  
 (12) Blandford and Mr Taylor and your interviews with them that one  
 (13) of those two possibilities I mentioned was in fact the case  
 (14) that is that the vessel had gone off the edge of the six mile  
 (15) screen and not disappeared from it?  
 (16) A It is my recollection that's - that the image was - was  
 (17) erratic and irregular on the six mile scale during Mr  
 Taylor s  
 (18) watch, not - not to mention in here was Taylor's comments  
 that  
 (19) he attempted to acquire the target on the 12 mile scale,  
 could  
 (20) not and therefore was not on the screen any longer  
 (21) Q I m not sure that I understand your answer Were you under  
 (22) the impression that the image should not actually disappear  
 (23) from the six mile other than traveling off its edge?  
 (24) A I don t think that thought process about disappearing off  
 (25) the edge or disappearing from the screen came - came into  
 play

Vol 19 3171

- (1) as far as a distinct difference between the two The image  
 was  
 (2) no longer reliable on the radar screen It was fading in and  
 (3) out it was unreliable Whether it was off the edge of the  
 (4) screen or disappeared from the screen, the image was  
 unreliable  
 (5) in Taylor's mind  
 (6) Q Did you ever discuss with Mr Taylor whether he tried to  
 (7) make any adjustments to the - either the six mile scale or the  
 (8) 12 mile scale the radar while he - the scale was turned to  
 (9) either six- or twelve ?  
 (10) A I can t recall whether I did  
 (11) Q Did you ever talk to Mr Blandford about whether he made  
 (12) any adjustments to the radar for turning it up from six mile to  
 (13) twelve mile immediately after he received the report of the  
 (14) grounding?  
 (15) A I can t recall  
 (16) Q And the transcript identifies Captain Deppe as being an  
 (17) employee of Exxon Shipping corporation Did you know  
 Captain  
 (18) Deppe prior to this occasion when he questioned you?  
 (19) A Yes  
 (20) Q And did you know him to be an Exxon Shipping Corporation  
 (21) employee?  
 (22) A Yes Well, I mean backtrack on that I knew him to be a  
 (23) master I believe, you know - I believe he was employed by  
 (24) Exxon  
 (25) Q Okay Captain Deppe asked you the question the following

Vol 19 3172

- (1) question quote Commander McCall the Exxon Valdez is a VLCC  
 (2) a very big beam very high structure Whether it was abeam of  
 (3) the radar or astern to the radar it seems like it should be a  
 (4) pretty big radar target Is it possible that Mr Taylor  
 (5) just - once it got beyond the six mile scale just stopped  
 (6) monitoring the vessel and didn't really lose it on the radar  
 (7) screen?  
 (8) And your answer according to the transcript was no Is  
 (9) that still your view today?  
 (10) **A Yes**  
 (11) **Q** Let me ask you to look at page 1358 of the same  
 (12) transcript At this point in the proceeding you were being  
 (13) questioned by Dr LeResche Dr LeResche asked you down  
 (14) toward  
 (15) the bottom of page 1358 Did Mr Taylor in fact grant  
 (16) permission for the Exxon Valdez to leave the Traffic Separation  
 (17) Scheme entirely?  
 (18) And you answered No he did not It was never requested  
 (19) Is that still your view today as to what the facts are? -  
 (20) **A Yeah**  
 (21) **Q** - in that regard?  
 (22) **A Yes**  
 (23) **Q** Mr Taylor by the way was he - is that the Mr Taylor  
 (24) who is a watch stander at the Vessel Traffic Center?  
 (25) **A Yes**  
 (26) **Q** Let me direct your attention to page 1362 of this

Vol 19 3173

- (1) transcript of your testimony at the National Transportation  
 (2) Safety Board where you were asked by Commander Waldron  
 (3) quote  
 (4) Is there anything in the VTS is there anything that the VTS  
 (5) could have done that would have prevented the grounding?  
 (6) And your answer was No Is that still your view today?  
 (7) **A Yes**  
 (8) **Q** Sitting here today Commander McCall do you believe that  
 (9) anything that the VTC watch standers Mr Blandford and Mr  
 (10) Taylor did or did not do on March 23 1989 contributed in any  
 (11) way to causing the grounding of the Exxon Valdez?  
 (12) **A No**  
 (13) **Q** I want to take you back to the - the morning of the  
 (14) grounding and you previously have testified that after you  
 (15) arrived at the MSO in the morning after being awoken you sent  
 (16) Mr Delozier and Falkenstein to the vessel Is that correct?  
 (17) **A Correct, yes**  
 (18) **Q** Once Mr Delozier and Mr Falkenstein arrived on the  
 (19) vessel did you have any conversations with them?  
 (20) **A Yes**  
 (21) **Q** What was the purpose of that telephone conversation?  
 (22) **A** Again, to I guess update me on the situation, and the  
 (23) only  
 (24) thing I can recall right now is - is the bomb, so to speak,  
 (25) that was dropped when Commander Falkenstein said that  
 (26) apparently the master had been drinking  
 (27) **Q** Okay I want to focus for a minute on - on that

Vol 19 3174

- (1) conversation When Commander Falkenstein informed you of  
 (2) this  
 (3) fact do you recall what he told you about what he observed?  
 (4) **A** Okay As best as I can recall right now, he indicated  
 (5) that in a very deadpan voice that - words to the effect of  
 (6) **Boss, we got another problem And I said, What's that And**  
 (7) **he**  
 (8) **said The master's been drinking And I - probably said, Oh,**  
 (9) **shit or words to that effect**  
 (10) **Q** Did he tell you how he determined that the master had  
 (11) allegedly been drinking?  
 (12) **A** By the aroma of alcohol in the vicinity of Captain  
 (13) Hazelwood The aroma of - at least that he smelled alcohol  
 (14) **Q** Let's go back to Mr Taylor On what was your testimony to  
 (15) Mr Adams based when you said that in your view Mr Taylor  
 (16) had lost the vessel to radar rather than simply stopped  
 (17) following it?  
 (18) **A** On the information that I received from Mr Taylor  
 (19) **Q** What Mr Taylor told you?  
 (20) **A** Um-hum  
 (21) **Q** Okay You believe Mr Taylor?  
 (22) **A** Yes  
 (23) **MS WAGNER** That's it Your Honor  
 (24) **MR LYNCH** Your Honor we'll call Admiral Paul Yost  
 (25) by deposition  
 (26) **THE CLERK** Raise your right hand please  
 (27) (The Reader Is Sworn)

Vol 19 3175

- (1) **THE CLERK** For the record sir state your full name  
 (2) address and spell your last name please  
 (3) **THE READER** My name is Charles Loggie L o-g-g i e  
 (4) I live at 4 Hillshire Grove Lane in Houston Texas  
 (5) **THE CLERK** Thank you sir  
 (6) **DIRECT EXAMINATION OF PAUL YOST (Read)**  
 (7) **BY MR LYNCH**  
 (8) **Q** Would you state your name for the record sir?  
 (9) **A** Paul A Yost, Junior  
 (10) **Q** What is your current business address Admiral Yost?  
 (11) **A** 2000 K Street, Northwest, Washington, D C , Suite 303  
 (12) **Q** Are you the former Commandant of the United States Coast  
 (13) Guard?  
 (14) **A** I am  
 (15) **Q** And what is the correct title by which you are known at  
 (16) present Admiral Yost?  
 (17) **A** I'm known as Admiral Yost, yes  
 (18) **Q** Admiral Yost I wonder if you'd look at - I wonder if you  
 (19) would take a look at Exhibit 40415 which for convenience is  
 (20) predesignated document Number 111 I'd like to specifically  
 (21) refer you to the first sheet under the cover sheet of that  
 (22) document Mr Yost which appears to be a resume or  
 (23) curriculum  
 (24) **Q** Are you acquainted with that document?  
 (25) **A** Yes, that's the - that's a bio and yes, I'm familiar with

Vol 19 3176

- (1) it
- (2) Q Does it accurately describe your education in the military service up to the present up to approximately 1989?
- (4) A I haven't read it recently but I think it does yes
- (5) Q And subsequent to that date subsequent to the date of this document - which for purposes of this discussion we'll assume
- (6) was May 10 1989 which is the cover sheet the date on the cover sheet - what changes have occurred?
- (9) A I finished my four-year term as a commandant at the Coast
- (10) Guard in the end of May 1990 The next day I assumed the responsibilities and position as president of the James Madison
- (11) Memorial Fellowship Foundation here in Washington D C I
- (12) think that's the major change or addition to this bio
- (13) Q That has been your sole employment since the completion of
- (14) your -
- (15) A It has
- (16) Q - your service
- (17) Are you currently an active officer in the United States
- (18) Coast Guard or is your status Retired?
- (19) A I am currently retired
- (20) Q Do you have any current assignments from the Coast Guard in
- (21) your retired position?
- (22) A I've had no official contact with the Coast Guard since my retirement
- (23) Q Admiral Yost I note that on Exhibit 40415 it's indicated

Vol 19 3177

- (1) that you were chief of staff and chief of operations for the
- (2) 17th Coast Guard district in Alaska in 1975 How long did that
- (3) continue?
- (4) A I served in Alaska for three years, one of those as chief
- (5) of operations, two of the remaining two [sic] as chief of
- (6) staff
- (7) Q Sir can you tell me what factors you determined as
- (8) Commandant of the United States Coast Guard to have caused the
- (9) grounding of the Exxon Valdez?
- (10) A I formed the opinion that the causal relationship here -
- (11) I'm not sure I'm using the term word causal in the legal
- (12) sense
- (13) that - that all of you are used to, so not being a lawyer, I'm
- (14) treading on thin ground, but in my view, the primary cause or
- (15) the causal effect of that grounding was a perfectly qualified
- (16) third mate on a bridge of a ship that, through a period of a
- (17) few minutes of inattention to duty or lack of knowledge of
- (18) exactly where he was, ran the ship aground on a clear night
- (19) with all the navigational aids watching him That's the -
- (20) that's the primary cause
- (21) Now, there are a whole bunch of secondary causes and
- (22) everybody's pointing their finger Pilotage a man was on the
- (23) ship who had pilotage and wasn't on the bridge as required,
- (24) that maybe would have kept him from grounding I think
- (25) that -
- (26) you know I'm speculating now And I don't know whether I
- (27) ought to speculate but I'm wondering if there was a proper

Vol 19 3178

- (1) relief of command that when the third mate assumed the
- (2) con of
- (3) the vessel that the commanding officer, if he fully knew
- (4) where
- (5) he was where he was supposed to turn the speed and
- (6) course of
- (7) the vessel, all of those things Did he fully know all of
- (8) those things before he was - the vessel was turned over to
- (9) him
- (10) There's probably some secondary responsibilities there
- (11) There's all kinds of secondary and tertiary responsibilities
- (12) I come back to the primary cause of that grounding was a
- (13) perfectly competent, apparently competent third mate who
- (14) for a
- (15) period of a few minutes, lost track of the ship's position and
- (16) the proximity of Bligh Reef
- (17) Q Sir did you ever look into whether or not the captain was
- (18) on the bridge of the ship at the time of the grounding?
- (19) A Well, I looked into it only from the viewpoint that the
- (20) investigations that were done and the briefings that I was
- (21) given said that the master had turned the con of the ship
- (22) over
- (23) to the third mate and the master had gone below to do his
- (24) paperwork in his cabin He was available, he was on the
- (25) phone
- (26) when called, he came to the bridge as soon as he was
- (27) called et
- (28) cetera So yes, those - that's my understanding
- (29) Q Your understanding is that -
- (30) A That the master was in his cabin doing paperwork at the
- (31) time and had turned the con of the ship over to the third
- (32) mate
- (33) giving him some instruction regarding the turn point and to
- (34) go

Vol 19 3179

- (1) out the inbound lane That's my understanding
- (2) Q Yesterday you testified about your opinion regarding the
- (3) causal effect of this grounding Can do you recall whether -
- (4) do you recall the testimony in which you stated that you
- (5) believe the causal effect to be a third mate who through
- (6) inattention to duty or lack of knowledge of where he was ran
- (7) the ship aground?
- (8) A That - that was my opinion, still is, and when I say
- (9) inattention to duty, I ought to - I ought to categorize that
- (10) with a little explanation I think that - that he was not
- (11) attentive to that part of the duty that required him to know
- (12) exactly where his vessel was regarding, vis a vis shoal
- (13) water
- (14) and other dangers
- (15) I think that he was actively engaged in his duty, which was
- (16) conning the ship and trying to fix his position and doing a
- (17) number of other things, but he obviously wasn't aware that
- (18) he
- (19) had overshot his turn point And so that is where I'm at
- (20) when
- (21) I said inattention to duty
- (22) Q Do you have an understanding as to whether one of the
- (23) reasons for requiring the pilotage endorsement in these
- (24) particular waters is to make sure that you have a pilot on the
- (25) bridge of the vessel who will have knowledge of where the
- (26) vessel is and will understand the shoals and so forth that you
- (27) just mentioned?
- (28) A Well that's - that's the reason for having somebody on

Vol 19 3180

- (1) **the bridge who has – who has pilotage for those waters He would be able to fix his position probably faster than somebody**
- (2) **who didn't have pilotage just because he s more familiar with**
- (3) **the aid and the area and would know what to look for**
- (4) **I also think that the third mate had made several transits He just didn't have his 24 transits I don't know how many he had**
- (5) **Q Following the grounding of the Exxon Valdez in March of 1989 you had occasion from time to time to comment on the accident is that correct sir?**
- (6) **A I did**
- (7) **Q And you testified in Congress –**
- (8) **A Yes, I did**
- (9) **Q – among other places about that?**
- (10) **A I did**
- (11) **Q Let me refer you to what I think was marked as Exhibit 40414 If you look at page eight of that document sir let me first of all refer you to the second sheet of this exhibit which begins with the words the White House Office of the Press Secretary**
- (12) **Have you had a chance to look at that sir?**
- (13) **A (Nodding head up and down)**
- (14) **Q Admiral Yost do you recall giving or taking part in a press briefing given at the White House on or about March 30 1989?**

Vol 19 3181

- (1) **A I do**
- (2) **Q And in connection with that did you have occasion to comment on the navigation existing in the localities where the Exxon Valdez ran aground?**
- (3) **A I did**
- (4) **Q Now I return to – refer you then back to page seven In particular I ask you if you would look at the second paragraph of the statement attributed to you which reads as follows and I m now quoting – I being Admiral Yost will look at the response of the Vessel Traffic Service itself but that s a very wide roadstead Remember we ve got miles of open water here For that vessel to have come over and hit the reef is almost unbelievable It s not something that the Vessel Traffic System is designed to keep vessels from doing You would need vessel traffic systems up and down the coast of the United States if you re going to try to keep every vessel from hitting the beach You can t do that**
- (5) **This is not a treacherous area as you people in the press have called it It is not treacherous in the area they went aground It s ten miles wide Your children could drive a tanker through it**
- (6) **Did you make that statement sir?**
- (7) **A I did**
- (8) **Q The last sentence of that statement your children could drive a tanker through it I think you testified earlier that**

Vol 19 3182

- (1) **you received some feedback from various sources in regards to that comment Is that a fair statement?**
- (2) **A Yes That comment was an overstatement It was an obvious exaggeration and well there should have been laughter as it overstated my position considerably**
- (3) **Q In regards to the remaining portion of that statement do you still stand by what you said there?**
- (4) **A I do**
- (5) **Q Now is it also your belief that a person who had received a license properly issued by the Coast Guard as a third mate on a vessel like the Exxon Valdez should have no difficulty navigating a vessel in that area?**
- (6) **A That was my feeling at the time and it s my feeling at this time as well**
- (7) **Q Did you ever look into whether or not crew fatigue was a factor in the grounding of the Valdez on Bligh Reef?**
- (8) **A Only to the extent that I was briefed on the manning of the bridge at the time of the accident The fact that the crew had been working all day and loading the tanker and getting ready for sea, which is normal, that they had departed Port Valdez in the early evening after dark and had been at sea for – had departed about three or four hours earlier, prior to the accident, three or four, so it s likely that any ship that departs the port in the early morning, that there might be some fatigue in the crew but that is normal operating practice on**

Vol 19 3183

- (1) **every Coast Guard ship, Navy ship, merchant ship in the world, that when the time – when the ship is loaded and it's time to go, you sail Time and tide waits for no man came out of the sea, but I m going away – but I'm not aware that fatigue was a factor in this ship going aground**
- (2) **Q Let me refer you to Exhibit 40414 which was the press release press briefing at the White House on March 30 1989 and specifically page 7**
- (3) **When you gave this answer on March 30 1989 it was your understanding that what you testified here was correct with respect to the nature of Prince William Sound?**
- (4) **A That was at that time and is my opinion of that particular part of Prince William Sound The answer here indicated it s ten miles wide I think at that point, at Bligh Reef, it's something less than ten miles, but it s a very wide roadstead, so the impact of what I said is still my opinion**
- (5) **Q So basically it s my understanding that the area we re talking about here is the area around Bligh Reef the same would apply to the whole of Pnnce William Sound south of Rocky Point and north of Hinchinbrook Entrance is that true?**
- (6) **A All of that area is relatively wide, most of it ten miles or greater Yes**
- (7) **Q And it s your testimony that that s a very very simple place to navigate very wide?**
- (8) **A That part of Prince William Sound is not treacherous I**

Vol 19 3184

- (1) think was my comment not treacherous and by that I meant
- (2) It s very deep, it s very wide, the shores are very steep, so
- (3) that they paint on it, radar set very well It s from that
- (4) point of view that I m talking about
- (5) Q Is it a correct statement that in saying that you re
- (6) really expressing a sentiment that it wasn t a very difficult
- (7) place to navigate and it didn t require any particular
- (8) expertise to steer a tanker in that particular area?
- (9) A That was my opinion A competent mariner, one who is
- (10) qualified and so licensed ought not have any problem
- (11) navigating
- (12) that particular body of water, because it was not
- (13) treacherous
- (14) Q When you say a competent man so licensed would that be
- (15) someone with a Coast Guard issued mate s license?
- (16) A Yes, it s -
- (17) Q Either the third mate second mate chief mate or a master?
- (18) A Yes, yes
- (19) Q And they wouldn t require any particular pilotage
- (20) endorsement?
- (21) A I didn t say that
- (22) Q Well I m saying from the expertise required in that
- (23) particular area didn t require any particular knowledge or
- (24) particular expertise other than what an ordinary mariner would
- (25) have?
- (26) A What I intended there is that this water was not a
- (27) particularly treacherous piece of water, that a competent

Vol 19 3185

- (1) mariner holding a mate s or a master s ticket for a
- (2) supertanker size vessel should not have any trouble
- (3) navigating
- (4) that particular piece of water That was my intention
- (5) Q Let me ask you one more question about this exhibit for
- (6) the time being one more question I ll probably come back to
- (7) it At page 1896 -
- (8) A Okay
- (9) Q 69 excuse me This is a briefing paper from G MV - is
- (10) that P?
- (11) A Yeah, MVP
- (12) Q Marine safety vessel?
- (13) A Probably vessel personnel would be the division that
- (14) would
- (15) have cognizance over manning standards perhaps
- (16) pilotage that
- (17) kind of thing
- (18) Q And the question was quote The Coast Guard has currently
- (19) posed as a quote as current end quote - start over again
- (20) I could have skipped that
- (21) The Coast Guard currently has a proposed rule making which
- (22) if finalized will eliminate the requirement for pilotage on
- (23) PWS - meaning Prince William Sound - quote between the
- (24) high
- (25) seas and Rocky Point
- (26) Why have you made this proposal? In view of the Exxon
- (27) Valdez incident do you feel that this is a good proposal?
- (28) And the major points are first quote statutes require
- (29) the secretary to designate the waters of Prince William Sound

Vol 19 3186

- (1) upon which a vessel will not require a pilot end quote
- (2) Do you have a recollection of that statute sir?
- (3) A Not specifically the statute but I m aware of the impact
- (4) of it, yes
- (5) Q And that was a statute sponsored by Congressman Young of
- (6) Alaska?
- (7) A I don t know whether Congressman Don Young, that was
- (8) his
- (9) statute, what Don - the initiative by Don Young in support of
- (10) the Alaska Pilots was to eliminate pilotage in that particular
- (11) piece of water
- (12) Q And that was the water in which the Exxon Valdez evidently
- (13) ran aground is that correct?
- (14) A I think it was That s a very long piece of water and the
- (15) Exxon Valdez went aground on a rock in a part of it
- (16) Q Okay And that was the part we discussed earlier that was
- (17) ten miles wide and in many places 500 600 feet deep is that
- (18) right?
- (19) A It was at least at least ten miles wide in many places,
- (20) yes
- (21) Q And item two of the major points is quote Opinion of the
- (22) maritime community and Alaska state pilots is that pilotage is
- (23) not necessary seaward of Rocky Point end quote Is that
- (24) statement correct to the best of your knowledge?
- (25) A When you talk about the maritime community I don t
- (26) know
- (27) who all that is But the State pilots went to Don Young, as I

Vol 19 3187

- (1) understand, and asked him to propose this They had
- (2) specific
- (3) reasons for wanting to do so and perhaps valid reasons,
- (4) and
- (5) when it went out as a proposed rule making, the Coast
- (6) Guard put
- (7) it out as proposed rule making, I understand that nobody
- (8) commented on it That means either the maritime
- (9) community
- (10) didn t have any problems with it or didn t take any notice of
- (11) it, it was just not a major issue
- (12) Q Is it accurate to say that the Coast Guard in formulating
- (13) a proposal rule making about pilotage would use its best
- (14) judgment the best judgment of its staff and its experts as to
- (15) whether or not pilotage was objectively required is that -
- (16) A That s correct And the major input would be from the
- (17) captain of the port in the area
- (18) Q Well my point is - but I guess my point is the Coast
- (19) Guard would not simply issue a rule making to eliminate
- (20) pilotage requirements on the ground that the Alaska pilots had
- (21) some reason for wanting to do it that way?
- (22) A No, I think before the Coast Guard would even go out with
- (23) an advance notice or proposed rule making that they would
- (24) have
- (25) to feel that there was some justification and they would
- (26) want
- (27) them to get comments from a much wider group, which they
- (28) did
- (29) Q So the fact that the Coast Guard issued an advanced notice
- (30) of proposal rule making indicates that within the Coast Guard
- (31) taking into account the special local knowledge of the captain
- (32) of the port it was believed that there was no - that there

Vol 19 3188

- (1) were no conditions that mandated the need for pilotage south of  
 (2) Rocky Point  
 (3) Is that a fair statement?  
 (4) **A No, that s probably an overstatement It would indicate**  
 (5) **that within the Coast Guard there was no adamant opinion**  
 (6) **that**  
 (7) **we had to have pilotage in this area A suggestion had been**  
 (8) **made by the pilots association, the Coast Guard was not**  
 (9) **adamantly opposed and, therefore, it decided to get further**  
 (10) **input from a much wider range But the Coast Guard mind**  
 (11) **was**  
 (12) **far from made up**  
 (13) **Q I understand that But I guess my question to you**  
 (14) **Commandant Yost is the standard that the Coast Guard would**  
 (15) **use**  
 (16) **in deciding whether it the Coast Guard was opposed - as to**  
 (17) **whether it was opposed as to whether in it judgments there**  
 (18) **were local conditions that required a pilot to be aboard is**  
 (19) **that right?**  
 (20) **A That s - yeah, that s - that s a fair - probably a fair**  
 (21) **statement**  
 (22) **Q I mean isn t that the service that a pilot or an endorsed**  
 (23) **pilot -**  
 (24) **A Yes**  
 (25) **Q - brings to a ship?**  
 (26) **A Yes**  
 (27) **Q And the fact that the proposed rule making issue would**  
 (28) **indicate that no one in the Coast Guard was aware of local**

Vol 19 3189

- (1) conditions that suggested to them the need for a pilot in the  
 (2) waters below Rocky Point between Rocky Point and the sea?  
 (3) **A It certainly an indication that, in the captain of the**  
 (4) **port's mind, the mind of the office of M at the district level**  
 (5) **and in the much - and in the mind of the office of M at the**  
 (6) **headquarters level there was reason to believe that they**  
 (7) **ought**  
 (8) **to go out with a proposal rule, proposed notice of**  
 (9) **rule making**  
 (10) **and that being that nobody was adamantly opposed within**  
 (11) **the**  
 (12) **Coast Guard and nobody saw a major reason why that**  
 (13) **particular**  
 (14) **piece of water would require pilotage, but they needed a**  
 (15) **much**  
 (16) **wider input and it really means they were vanilla on this at**  
 (17) **this point and their mind was open**  
 (18) **Q Admiral do you recall in April of 1989 giving testimony**  
 (19) **before Congress which you refer - in which you refer to the**  
 (20) **Vessel Traffic System as an advisory system?**  
 (21) **A I don t specifically remember the testimony, but I have**  
 (22) **often described the Vessel Traffic System as an advisory**  
 (23) **system**  
 (24) **Q Would you just explain to us what you mean when you use**  
 (25) **the**  
 (26) **phrase advisory system ?**  
 (27) **A Yes, that the Vessel Traffic System is one more aid to the**  
 (28) **master in safety of navigation It advises him It advises**  
 (29) **him of other traffic in the area It advises him of hazards**  
 (30) **that he may encounter It advises him of weather**  
 (31) **situations,**  
 (32) **conditions, fog, it advises him of navigation aids that may**  
 (33) **be**

Vol 19 3190

- (1) **out, not working properly It advises him of anything that**  
 (2) **they - that the Vessel Traffic Center feels would be an**  
 (3) **assistance to the person on the bridge of the ship**  
 (4) **Q Let me ask to have the next document marked as the**  
 (5) **numbered**  
 (6) **exhibit**  
 (7) **Do you recall making a comparison between the Seattle VTS**  
 (8) **and at Valdez yesterday in your testimony?**  
 (9) **A I do, and I think the thrust of that comment was that the**  
 (10) **Seattle Vessel Traffic System was much more complex and**  
 (11) **the**  
 (12) **reason for that is the Port of Seattle is very busy port**  
 (13) **There will be tens of ships in the system at any one time**  
 (14) **The**  
 (15) **Valdez traffic system is the separation scheme is in very**  
 (16) **open**  
 (17) **water in a very little used body of water where it is**  
 (18) **uncommon**  
 (19) **to have even more than one ship in the system at any one**  
 (20) **time**  
 (21) **let alone tens of ships**  
 (22) **Q Have those differences resulted in differences in the**  
 (23) **design of the two systems?**  
 (24) **A Each system is designed for the port that it s in and the**  
 (25) **systems that were designed for most ports matched the**  
 (26) **complexity of the port**  
 (27) **However, in Valdez the system was mandated by law as a**  
 (28) **part of the vessel - as a part of the oil terminal if**  
 (29) **anything, it was probably an overkill both in coverage and**  
 (30) **complexity**  
 (31) **Take out the word if anything It definitely was an**

Vol 19 -3191

- (1) **overkill in terms of coverage and complexity**  
 (2) **Q In what way was it an overkill?**  
 (3) **A It had a watch system around the clock and radar**  
 (4) **coverage**  
 (5) **of a more dangerous part of the system which was Valdez**  
 (6) **Narrows**  
 (7) **in a system that seldom had more than one major vessel in**  
 (8) **it at**  
 (9) **a time, where you had a three-section watch that sat for**  
 (10) **hours**  
 (11) **and hours and hours with absolutely nothing to do and no**  
 (12) **ships**  
 (13) **in the system It was required by law and that's the reason**  
 (14) **it**  
 (15) **was put in**  
 (16) **Q Would you say that as between groundings and collisions**  
 (17) **there s a higher relative risk of groundings in the Prince**  
 (18) **William Sound VTS when compared to the higher traffic VTSs**  
 (19) **such**  
 (20) **as Seattle?**  
 (21) **A Except in Valdez Narrows, it is very difficult to go**  
 (22) **aground in the rest of the system It s very deep water The**  
 (23) **water falls off precipitously right next to the beach, the**  
 (24) **shore It s very difficult to put a ship aground in open water**  
 (25) **like that, notwithstanding it was done in the Exxon Valdez**  
 (26) **case It s also, when there are almost no other ships in the**  
 (27) **system, very difficult to hit somebody So it's a simple**  
 (28) **piece**  
 (29) **of water where we had an overkill, in my view, of a traffic -**  
 (30) **of a Vessel Traffic System and in which we had a terrible**  
 (31) **incident, accident that caused the biggest oil spill in the**  
 (32) **history of the United States So it's a real - it's a real**  
 (33) **problem and that s why we re all here agonizing about it, I**

Vol 19 3192

Vol 19 3194

- (1) **guess**
- (2) **Q Was it your understanding at the time that you testified**
- (3) **before the House subcommittee on April 6th 1989 that the**
- (4) **watch standers had no duty to observe a vessel after it had**
- (5) **cleared the approach to the Narrows on an outbound voyage?**
- (6) **There s an objection calls for a legal conclusion**
- (7) **When I say duty I mean according to the procedures that**
- (8) **were in effect**
- (9) **A It was my understanding of the procedures that were in**
- (10) **effect in 1989 that, once a vessel arrived at the pilots**
- (11) **station in the vicinity of Rocky Point and discharged the**
- (12) **plot that the procedures of the Vessel Traffic System did**
- (13) **not**
- (14) **require radar tracking from that point on out past Bligh Reef**
- (15) **and on out past Hinchinbrook**
- (16) **Q Now when you say radar tracking what do you mean by**
- (17) **that?**
- (18) **A I mean for the radar to be turned on a scale that would -**
- (19) **that would paint the vessel, would print the vessel s**
- (20) **position**
- (21) **and track it out It certainly wasn t their procedure to plot**
- (22) **it at this point They had an automatic data plotter that**
- (23) **recorded digitally the location of the vessel any time it was**
- (24) **under - whether it was in the narrows or whether it wasn t**
- (25) **Q And when you say radar tracking you mean have the radar**
- (26) **on**
- (27) **a scale so that the target could be painted?**
- (28) **A Yes**

- (1) **A Or if the officer felt that something was so important that**
- (2) **he needed to talk to me directly That wasn t the case I**
- (3) **most**
- (4) **certainly requested this for this to have come to me**
- (5) **Q Let me refer you to the document that Mr Carey referred**
- (6) **you to last week Exhibit 40430 it s predesignated document**
- (7) **100**
- (8) **Now is it your understanding that the procedures followed**
- (9) **by the watch standers on the night of the grounding were in**
- (10) **accord with the requirements Commander McCall sets forth in**
- (11) **his**
- (12) **memorandum?**
- (13) **A The memorandum states hat the watch stander was still**
- (14) **required to track all participating vessels out to the Bligh**
- (15) **Reef buoy area He just did not have to record the six -**
- (16) **minute fixes That is Commander McCall s description of**
- (17) **the**
- (18) **requirements on the watch stander**
- (19) **Q Is it your understanding that that practice was followed on**
- (20) **the night of the grounding from your observation in the Vessel**
- (21) **Traffic System when you were there?**
- (22) **A I m not sure The watch - I m not sure The watch**
- (23) **stander reported that he was unable to track the vessel out**
- (24) **to - out to Bligh Reef and was not tracking the vessel out to**
- (25) **Bligh Reef I think the watch stander said that he didn t**
- (26) **have**
- (27) **the radar even on the scale it was going out there, because**
- (28) **he**
- (29) **didn t have a requirement to plot the vessel out that far**
- (30) **Whether the data plotter was on or not I don t know, and**

Vol 19 3193

Vol 19 3195

- (1) **Q Do you mean painted also so that it could be observed by**
- (2) **the watch stander?**
- (3) **A I think, yes, so that it could be observed which could**
- (4) **also - also say so that the data plotter whatever that piece**
- (5) **of equipment was would in fact record its position**
- (6) **numerically**
- (7) **Q All right Just let me ask this first question Do you**
- (8) **recall getting this document?**
- (9) **A I don t specifically recall getting it It s a document**
- (10) **that came directly from Commander McCall directly to me**
- (11) **It**
- (12) **was probably the result of one of my visits to the Vessel**
- (13) **Traffic Center where I expressed some surprise and**
- (14) **concern at**
- (15) **the change in procedures and, as a result of that asked**
- (16) **Commander McCall if he would write me a memo tracing**
- (17) **through**
- (18) **the changes since I had not had any contact with this**
- (19) **system**
- (20) **since 1977 This appears to be his response to that and it**
- (21) **appears to have come directly to me and I have no doubt but**
- (22) **that I got it because some of the things here are at least**
- (23) **vaguely familiar**
- (24) **Q It s unusual in its form isn t it without any Coast Guard**
- (25) **organization designations at the top?**
- (26) **A It s unusual in that it was a memo directly to me not**
- (27) **through the chain of command and would only have**
- (28) **happened had I**
- (29) **specifically requested it**
- (30) **Q All right**

- (1) **whether the data plotter works when the radar is on a**
- (2) **different**
- (3) **scale, I don t know**
- (4) **Q What about the monitoring requirement that Commander**
- (5) **McCall**
- (6) **sets forth in his memorandum?**
- (7) **A You re asking me to interpret McCall s memo to me I**
- (8) **don t**
- (9) **remember how I interpreted it at the time except to feel that**
- (10) **this wasn t the way that I now wanted to operate the system**
- (11) **He was trying to tell me how the system was operating and**
- (12) **he**
- (13) **seems to be saying that the watch stander did not have to**
- (14) **plot**
- (15) **the vessel but he had to track the vessel because he had a**
- (16) **radar watch on the vessel Tracking is not a term that I fully**
- (17) **understand here particularly when he says in other parts of**
- (18) **the memo that the reason they put in the plotter is so if the**
- (19) **watch officer had to take a radio call, he wouldn t miss any**
- (20) **data points Which indicates that the watch stander had**
- (21) **other**
- (22) **things to do besides watch the radar scope**
- (23) **So what he meant by tracking apparently, does not mean**
- (24) **watching the radar scope He s talking about the radar**
- (25) **tracking the vessel but there was no six minute plot**
- (26) **required That s how I interpret this memo to me**
- (27) **Q You interpreted this to mean that they weren t required to**
- (28) **observe the vessel on radar after Rocky Point is that correct?**
- (29) **A No, I said that s the - my perception of the understanding**
- (30) **of the watch stander McCall s understanding was that the**
- (31) **radar**
- (32) **would be on and the vessel would be tracked, but that there**

Vol 19 3196

- (1) wasn't a requirement to plot it Neither a requirement for the
- (2) watch officer to sit and watch the radar continuously as the
- (3) vessel went out
- (4) Q So it appears there's some discrepancy between what McCall
- (5) is looking for and what the watch standers understood they were
- (6) required to do?
- (7) A I - that may be an appearance
- (8) Q You say that the Vessel Traffic Service did not have a
- (9) plotting requirement but based on McCall's memorandum to you
- (10) they had had a monitoring or tracking requirement correct?
- (11) A His feeling was in his memo as I read it, that they had a
- (12) tracking requirement That term, he doesn't define, and I can
- (13) only assume in the way he uses it and in the context that it
- (14) does not involve manual plotting, that it involves the radar
- (15) tracking the vessel while the watch officer attends to his
- (16) duties, whatever they might be, including watching the radar
- (17) but not solely watching the radar That's how I interpret his
- (18) memo
- (19) Q Admiral let me refer you to enclosure 16 of the O Donovan
- (20) report which is the manual in effect at the time of the
- (21) grounding and specifically to Chapter 4 Section 4 4 1
- (22) That's a part of Exhibit 3512 that we offered this morning
- (23) Your Honor
- (24) Your answer?
- (25) A Well, given that understanding, this - the operative

Vol 19 3197

- (1) sentence in Section 4 1 on page 19 is quote, in certain
- (2) circumstances recommendations will not be sufficient and it
- (3) will be necessary for the Vessel Traffic Center to direct or
- (4) prohibit vessel movement, end quote
- (5) Now, let me explain that a little in context with what I
- (6) just said Most vessel traffic centers do not contemplate
- (7) and
- (8) the United States do not contemplate rudder commands
- (9) What
- (10) they contemplate, as it says here and I quote again to direct
- (11) or prohibit vessel movement, end quote and that's normally
- (12) meant to tell the vessel to Do not proceed into a certain
- (13) area
- (14) that may have a danger in it and that would be the direction
- (15) or
- (16) prohibiting They might even direct the vessel to stop and
- (17) anchor, but it's never been considered that they would give
- (18) rudder commands for the vessel
- (19) I don't know that that's important, but go ahead
- (20) Q Well the preceding sentence says that the VTC should
- (21) recognize potential trouble spots and recommend any practice
- (22) which could result in danger of collision or grounding?
- (23) A Yes, I agree with that
- (24) Q If the watch stander were plotting or tracking the vessel
- (25) while it is in the system and it were to see the vessel were
- (26) standing into danger did the watch stander have an obligation
- (27) to advise the vessel of the fact that it was standing into
- (28) danger?
- (29) A If the watch stander was aware that the vessel was
- (30) standing

Vol 19 3198

- (1) into danger he had an obligation to inform the vessel of the
- (2) situation and even to recommend action If the vessel the
- (3) master or the watch officer on the vessel disagreed he was
- (4) not
- (5) to become argumentative he was to make
- (6) recommendations if he
- (7) became aware that the danger existed He was then to
- (8) inform
- (9) the officer of the day at the Vessel Traffic Center or at the
- (10) MSO that he had made a recommendation, the master had
- (11) not
- (12) agreed and was not taking them
- (13) That's my understanding of the system
- (14) Q Is it also your understanding that the watch stander had an
- (15) obligation to direct the vessel to stand away from that danger
- (16) as opposed to just recommend it?
- (17) A Enlarging the testimony I just gave, the watch stander
- (18) had
- (19) the responsibility to inform the master if he felt the master
- (20) was standing into danger or entering a dangerous situation
- (21) and
- (22) he had the obligation to make recommendations to the
- (23) master how
- (24) to mitigate that danger
- (25) Q The answer continues
- (26) A There's been a discussion an argument from the very
- (27) inception of Vessel Traffic Services in this country what the
- (28) mission of that Vessel Traffic Service was, as far as
- (29) directing
- (30) the master or the vessel It's pretty widely accepted that
- (31) rudder commands are not given by the Vessel Traffic
- (32) Service
- (33) Information is given to avoid hazards, but that the person
- (34) on the bridge of that vessel is far better able to make a
- (35)

Vol 19 3199

- (1) decision on actual maneuvers than the Vessel Traffic
- (2) Service
- (3) MR LYNCH I have about this much Your Honor
- (4) BY MR LYNCH
- (5) Q Okay let's go to page 18 which is the one previous to -
- (6) A I got it I'm there
- (7) Q Okay under VTC directions the third example down it states
- (8) as follows quote Trenton this is Valdez Traffic Our radar
- (9) shows you 100 yards to the left of the traffic lane inside the
- (10) separation zone You are directed to take corrective action
- (11) Over end quote
- (12) Is that the type of recommendation you are referring to?
- (13) Mr Klinckhardt says Let me -
- (14) A It is This is an illustrative example of the kind of
- (15) direction that the Vessel Traffic System might give, and the
- (16) following paragraph is an explanation of the words, quote,
- (17) directive, end quote So this example says, quote, Our
- (18) radar
- (19) shows you a hundred yards to the left, you are directed to
- (20) take
- (21) corrective action, over, end quote
- (22) It doesn't say, quote, You are directed to stop, quote It
- (23) doesn't say You are directed to stop, you are directed to
- (24) take
- (25) right full rudder It doesn't say, You're given direction to
- (26) drop the anchor It tells him to take corrective action
- (27) Now, the direction in the next paragraph is explained,
- (28) quote, Watch standers are not to argue or try to convince a
- (29) master that the orders are necessary However, if the
- (30) master

Vol 19 3200

- (1) **disagrees, no further attempt should be made to justify the action taken and the OD should be contacted end quote**
- (2) **MR LYNCH** This would be a good place to stop Your Honor
- (3) **THE COURT** We'll take our second recess ladies and gentlemen We'll be in recess now for 15 minutes
- (4) **(Jury out at 12 02)**
- (5) **(Recess)**
- (6) **(Jury in at 12 17)**
- (7) **THE COURT** Could I see Mr O Neill and Mr Lynch behind the cabinet please
- (8) **(At side bar off the Record)**
- (9) **THE COURT** We have a couple of questions from one of your jurors One of the questions is in substance and I may be paraphrasing it too grossly but is - basically how come there are so many depositions But believe me these attorneys and I know how difficult it is to be attentive to depositions it's not the best way to take testimony We all know that But there a couple of problems that these people have to deal with one of which is that this court's subpoena powers - that is the power to require someone to come here and testify - in a civil case doesn't reach past the boundaries of the state of Alaska I can't require somebody to come from New York or Washington or whatever if they don't want to come So the attorneys have to go there depose them and

Vol 19 3201

- (1) we wind up reading and you wind up listening to a deposition
- (2) In some instances there are federal regulations that have to do with whether or not you can subpoena Government witnesses That's probably the case that we're up against here there's - I think there's probably a government regulation that precludes Admiral Yost from being here to testify or anybody else from the Coast Guard to testify So we had to use depositions There just wasn't any choice about it
- (3) As to the second question about readers being from out of state Frankly there are a lot of people on both sides of the case who are in town from other places who are working on the case and it's simply people who happen to be handy who are working in some way or another on the case otherwise who are being used as readers
- (4) **Mr Lynch**
- (5) **MR LYNCH** We didn't leave the office early enough Your Honor Pick it up with the examination of Admiral Yost
- (6) **BY MR LYNCH**
- (7) **Q** Okay Are you aware that the Coast Guard in Valdez had been for some years routinely authorizing deviations from the traffic lanes from the assigned traffic lanes?
- (8) **A** Yes
- (9) **Q** As a result of ice coming down into the lanes from the glacier?

Vol 19 3202

- (1) **A** I'm aware that deviations were authorized by the Vessel Traffic Service
- (2) **Q** My question was are you aware that those deviations were authorized routinely?
- (3) **A** Yes
- (4) **Q** The last question I have about your testimony - I have about your testimony to the House committee on April 6th is about your statement quote I am not convinced however that the vessel could not have been tracked had the procedure directed that it be tracked
- (5) **What did you mean by that?**
- (6) **A** I meant by that the area of Bligh Reef and that far out the arm if you will, that far out, the radar tracking is not - my understanding was that it was problematical whether you could be able to track a ship that far out It would depend on how well the radar was picked up It would depend on whether it would
- (7) **It would depend on the aspect of the vessel but it might be possible that, had the watch officer been plotting this vessel all the way out, that he might have been able to track it**
- (8) **When you're plotting a vessel on radar every three minutes you can sometimes pick up a target on radar that, if you haven't been plotting and you just walked over to the radar, you wouldn't see because you wouldn't know about where to look and**
- (9) **that - that little echo you're getting back is that target you**

Vol 19 3203

- (1) **had been tracking**
- (2) **So I wasn't convinced that it could not have been tracked but neither was I convinced that it could have been We're out at the extent of the radar's range and it's going to be very problematical out there That was my understanding**
- (3) **Q** Did you have an understanding whether the vessel was visible immediately after the grounding when the watch stander came back and looked for it?
- (4) **A** It was my understanding, when he got the communications report that the vessel was aground that he walked over to the radar, it was either on the 12 mile scale or the - an upper scale or he flipped it on the upper scale, and it was my understanding he turned it to the upper scale and the vessel was clearly visible on Bligh Reef
- (5) **Q** Now did you not - did that not indicate to you that the vessel could have been seen shortly prior to the grounding had the same maneuver been carried out?
- (6) **A** I was told that it was visible because it was abeam aspect and therefore I would assume had it been going out the channel sideways he certainly would have been able to track it But it wasn't It was going out with an end on stern aspect, and my understanding was that it was very difficult to pick up targets at that range, but that was what was reported to me and I was just kind of regurgitating what my understanding was at that time

Vol 19 3204

- (1) Q All right Are you familiar with a buoy in that area the  
 (2) Bligh Reef buoy?  
 (3) A I am  
 (4) Q Do you know how big it is approximately?  
 (5) A It s very small compared to any aspect of a supertanker  
 (6) It s more the size of a - a fishing vessel  
 (7) Q If the Bligh Reef buoy were visible on radar would you  
 (8) conclude that an end on tanker could be seen on radar?  
 (9) A I would  
 (10) Q In the same area?  
 (11) A Yes I would  
 (12) Q Inasmuch as we have testimony that after the grounding that  
 (13) Lieutenant Blandford rather Mr Blandford at that time  
 (14) switched the scale was able to observe to determine whether or  
 (15) not he could observe the vessel after it was reported to have  
 (16) been grounded he testified that he was able to see the Bligh  
 (17) Reef buoy at that time at that point in time Would it be a  
 (18) safe assumption that if he had been able to see the Bligh Reef  
 (19) buoy he should have been able to - should have been capable  
 (20) of tracking the vessel up to that point in time?  
 (21) A It s my understanding, my feeling, that if you can see a  
 (22) lighted buoy on the radar scope, you would be able to see a  
 (23) supertanker in an end on or any other aspect the same  
 range  
 (24) Q As of 1989 Admiral Yost did the United States Coast Guard  
 (25) have in place any programs for united - for Coast Guard

Vol 19 3205

- (1) officers or enlisted persons who had substance abuse  
 problems?  
 (2) A What year?  
 (3) Q As of 1989?  
 (4) A Yes  
 (5) Q What was that program?  
 (6) A Program for substance abuse within the military  
 personnel  
 (7) within the Coast Guard was broken down into basically two  
 (8) areas, one, alcohol, and that policy was basically to afford  
 (9) the person if he was addicted to alcohol or an alcoholic to  
 (10) attend a substance abuse program to rehabilitate him or  
 her, as  
 (11) the case may be I ve agonized the same way about  
 somebody  
 (12) recovering from alcohol problem and you have - and you  
 (13) rehabilitate them and you bring them back on duty and you  
 sit  
 (14) there as the separate leader and decide do I let this guy go  
 (15) back to his job or do I ruin his life and his career when he s  
 (16) just made a great effort to be rehabilitated, and it s a very  
 (17) difficult corporate decision  
 (18) With drugs, the position of the Coast Guard was not to  
 (19) attempt rehabilitation Anybody who was found using drugs  
 (20) would be discharged from the service  
 (21) Q I assume when you say drugs - well strike that With  
 (22) reference to alcohol what career effect did an individual s  
 (23) obtaining rehabilitation treatment have on their future  
 (24) assignments in the Coast Guard if any?  
 (25) A It was the intention of the top management of the Coast

Vol 19 3206

- (1) Guard that it would have none that there would be no  
 (2) recriminations for a person turning himself in or even being  
 (3) turned in by his CO who then completed rehabilitation and  
 came  
 (4) back and in fact had gotten rid of his abuse problem  
 (5) I can say that at least in most cases, this was in fact  
 (6) the case And there is at least one flag officer who went to  
 (7) the program prior to being selected for flag and so it was -  
 (8) certainly didn t hurt his career  
 (9) Q Was advanced to a flag office after a flag -  
 (10) A Yes  
 (11) Q - what do you call it rank?  
 (12) A Yes yes It was a very successful program in those who  
 (13) successfully completed it but there was some, there was a  
 (14) failure rate as well but the feeling was that in drugs that  
 (15) the failure rate would be so high that it was not worth the  
 (16) rehabilitation effort and so we separated those people from  
 the  
 (17) service  
 (18) Q Did your policy for providing rehabilitation for Coast  
 (19) Guard officers have any provision with regard to respecting the  
 (20) confidentiality of those who elect to take part in the program?  
 (21) A That was the intent to provide confidentiality I would  
 (22) say practically it was very difficult to do that for a person  
 (23) suddenly to disappear from his unit, go into what we will  
 call,  
 (24) quote, the dry dock quote, for several weeks and then to  
 (25) reappear at his unit without somebody saying, Where have  
 you

Vol 19 3207

- (1) been what's going on  
 (2) So though confidentiality was maintained up to a point, it  
 (3) was not - it was not perfect  
 (4) Did the Coast Guard -  
 (5) Q I think that s me  
 (6) A Oh, that s you  
 (7) Q Did the Coast Guard have a policy for random testing of  
 (8) rehabilitated alcoholics?  
 (9) A When a person went through rehabilitation and came  
 back to  
 (10) duty, the Coast Guard did not put them in a separate  
 category  
 (11) so they joined the rest of the forces and the random -  
 (12) randomness of the test put them at risk for tests as well, but  
 (13) I don't remember that we gave them a special increased  
 (14) randomness on the test or anything  
 (15) Q Do you know if any attempts were made to monitor the  
 (16) sobriety of recovering alcoholics while you were Commandant  
 of  
 (17) the Coast Guard?  
 (18) A I don t remember whether we had a program of  
 monitoring the  
 (19) rehabilitated people or not I just don t remember  
 (20) Q Sir? -  
 (21) A We may have had  
 (22) Q - I wanted to clarify something I m through with the  
 (23) report  
 (24) You told Mr - one of the plaintiffs counsel that there  
 (25) was a requirement in the Coast Guard with respect to its own

Vol 19 3208

- (1) personnel for random testing and I believe your testimony was  
 (2) there was a requirement for random testing for drugs and  
 (3) alcohol When did that requirement go into effect?  
 (4) **A Very shortly after I became - very shortly after secretary  
 (5) Samuel Skinner became secretary - well, before that  
 before**  
 (6) **that, must have been very shortly after I became  
 commandant**  
 (7) **Somewhere around 86 is my memory**  
 (8) Q Did the requirement implement random testing for those two  
 (9) different classes of substance and I mean non alcohol drugs  
 (10) and then alcohol at the same time?  
 (11) **A Do you mean were the tests done at the same time, both  
 (12) drugs and alcohol?**  
 (13) Q Let me rephrase the question  
 (14) Did the requirement for random testing for drugs and the  
 (15) requirement for random testing for alcohol go into effect at  
 (16) the same time?  
 (17) **A I don't remember First I don't think - I may have  
 (18) misspoken myself, I don't think that there was ever a  
 random**  
 (19) **testing or alcohol I don't think you can really random test  
 (20) for alcohol It's done on an incident basis**  
 (21) MR LYNCH That completes our deposition examination  
 (22) of Admiral Yost Your Honor  
 (23) MS WAGNER Your Honor our cross will be by  
 (24) videotape  
 (25) CROSS EXAMINATION OF ADMIRAL PAUL YOST (Video)

Vol 19 3209

- (1) BY PLAINTIFF EXAMINER  
 (2) Q What I'd like to do first Admiral is direct your  
 (3) attention to Exhibit 40420 which was pre-designated document  
 (4) 225 I believe it's the rubberband material in the stack of  
 (5) documents you have there in front of you  
 (6) **A Thanks**  
 (7) Q I'd ask you Admiral to turn to page 1751 I've got some  
 (8) questions about that page  
 (9) **A All right**  
 (10) Q Okay Admiral now to put this document in context I  
 (11) believe that you testified that this document is a briefing  
 (12) book that would be prepared for you by your staff for your  
 (13) review prior to your providing testimony is that correct?  
 (14) **A Yes**  
 (15) Q Okay So I'm sure we're on the same page does the page  
 (16) that you're looking at have the heading VTS Control of Course  
 (17) Recommendations?  
 (18) **A Yes**  
 (19) Q Admiral what I'd like to do is refer you to a portion of  
 (20) this page that under the heading major points number one  
 and  
 (21) I'd like to read some of this into the record and then ask you  
 (22) questions about the information here Underneath that  
 (23) paragraph is the heading answer major points no VTS watch  
 (24) standers are prohibited from issuing specific course speed and  
 (25) rudder orders to vessel operators

Vol 19 3210

- (1) In the right hand column I'll just read portions of this  
 (2) it says The Coast Guard policy is VTS is never to make  
 (3) specific course recommendations The VTS radar should be  
 made  
 (4) available to the mariner who is having navigational  
 (5) difficulty VTS making course recommendations is not prudent  
 (6) seamanship The VTS does not take - does not have  
 (7) immediate - let me begin again  
 (8) The VTS does not have advantage of immediate quote  
 (9) on scene info which master and pilot have The VTS only has  
 (10) radar info Ship has that and much more The VTS does not  
 (11) have intimate knowledge of the vessel's design or actual  
 (12) handling characteristics and limitations The responsibility  
 (13) for safe navigation rests with the master  
 (14) Admiral my question to you I understand that this was  
 (15) put together by your staff Are you in agreement with those  
 (16) points that are out - outlined on page 1751 that I've read?  
 (17) **A Yes, I am**  
 (18) Q In specific are you in agreement with those three bullets  
 (19) that I read which give the reasons that the VTS making course  
 (20) recommendations is not prudent seamanship?  
 (21) **A Yes**  
 (22) Q The document continues on point two VTS control vastly  
 (23) different from air traffic control The right hand column it  
 (24) says No comparison valid The VTS may direct a vessel to slow  
 (25) down or wait to avoid congestion and facilitate the flow of

Vol 19 3211

- (1) traffic VTS never issues helm orders Directions given in  
 (2) terms of specific time prior to which the vessel should not  
 (3) arrive at a point of reference And Admiral my question is  
 (4) just again are you in agreement with the statements contained  
 (5) in point two of this paper?  
 (6) **A Yes**  
 (7) Q You have previously testified about your position with the  
 (8) Coast Guard at the time that the VTS was initially accomplished  
 (9) in Valdez and your involvement in that Without going back  
 (10) through that testimony let me ask you Based upon that  
 (11) involvement do you recall whether there was any consideration  
 (12) given at that time for the VTS to exercise further control over  
 (13) vessels participating within the system?  
 (14) **A There's been - at the time of inception of vessel traffic  
 (15) systems including the initial one which was in Seattle  
 (16) mandated by law there has been a discussion of how much  
 (17) quote, control, unquote, the Vessel Traffic Services should  
 (18) have over a vessel And although some systems have been  
 (19) mandatory and some systems voluntary, the amount of  
 control has  
 (20) not changed By mandatory, means the vessel must  
 participate  
 (21) In the system, voluntary means the vessel may participate  
 in  
 (22) the system if the vessel desires  
 (23) But regardless of whether a system is mandatory or  
 (24) voluntary, the control has remained the same, which is you  
 (25) don't give rudder orders you don't give speed changes  
 What**

Vol 19 3212

- (1) **you do is - is give times of arrival and advise - advise of**  
 (2) **hazards and maybe prevent access to certain areas at**  
 (3) **certain**  
 (4) **times**  
 (5) **Q And are the reasons for those limitations on a VTS s**  
 (6) **control of a vessel the same reasons that we had referred to**  
 (7) **earlier on page 1751 of this document that the VTS does not**  
 (8) **have the advantage of immediate on scene information that the**  
 (9) **VTS only has radar information and the ship has much more**  
 (10) **information and that the VTS does not have intimate knowledge**  
 (11) **of the vessel s design and actual handling characteristics?**  
 (12) **A Yes**  
 (13) **Q Are there additional reasons that you can think of as you**  
 (14) **sit here today?**  
 (15) **A I don t think there are additional reasons, however, the -**  
 (16) **all of those reasons are steeped in the tradition that the**  
 (17) **master or the officer of the deck has full responsibility for**  
 (18) **the navigation of his vessel And that no aid to navigation**  
 (19) **or**  
 (20) **pilot or outside radar can relieve him of that responsibility**  
 (21) **it s a - it s a accountability thing that is steeped in the**  
 (22) **maritime tradition**  
 (23) **Q During Mr Carey s questioning last week you testified**  
 (24) **that it was your opinion that neither the Vessel Traffic**  
 (25) **Service or the Coast Guard in general had any negligence in the**  
 (26) **grounding is that correct?**  
 (27) **A That may be the exact of my - of my testimony I think I**

Vol 19 3213

- (1) **was a little more specific in saying I didn t see a causal**  
 (2) **relationship, but maybe I didn t say that but I don t see a**  
 (3) **causal relationship between the grounding and the**  
 (4) **performance**  
 (5) **of the Vessel Traffic Service**  
 (6) **At the time, as I told you, I was very concerned that the**  
 (7) **Vessel Traffic Service may have in some way contributed to**  
 (8) **this**  
 (9) **accident and for that reason, I asked National**  
 (10) **Transportation**  
 (11) **Safety Board to investigate the accident so if the Vessel**  
 (12) **Traffic System had a part in it, that the Coast Guard would**  
 (13) **not**  
 (14) **be investigating itself in a marine board**  
 (15) **But after seeing the investigations seeing O Donovan s**  
 (16) **study, talking to Vessel Traffic Service commanding officer,**  
 (17) **it s my feeling that the Vessel Traffic Service did not in any**  
 (18) **way contribute to the vessel grounding**  
 (19) **Q What facts do you rely on to make that conclusion?**  
 (20) **A That the vessel was in clear water on a clear night with**  
 (21) **all of the aids to navigation watching properly, that it had on**  
 (22) **the - on its bridge a competent third mate who should have**  
 (23) **been able to navigate without any problem in that kind of an**  
 (24) **area, and it had aboard a master who held pilotage in that**  
 (25) **area, and who had a requirement to be on the bridge**  
 (26) **Somebody**  
 (27) **is at fault when a ship goes aground, in this case, it is not**  
 (28) **the Vessel Traffic Service**  
 (29) **MS WAGNER That concludes the cross Your Honor**  
 (30) **MR CHALOS Good afternoon**

Vol 19 3214

- (1) **Good afternoon Your Honor**  
 (2) **THE COURT Mr Chalos**  
 (3) **MR CHALOS I m happy to report to you and to the**  
 (4) **jury I have a live witness Having said that watch me annoy**  
 (5) **him now The defendants called Julius flights to the stand -**  
 (6) **that is your first name isn t it?**  
 (7) **THE WITNESS Yes**  
 (8) **(The Witness Is Sworn)**  
 (9) **THE CLERK Please be seated**  
 (10) **For the record sir state your full name your address and**  
 (11) **spell your last name**  
 (12) **THE WITNESS Full name is Julius Herman Leitz Leitz**  
 (13) **spelled L e i t z I m from Portland Oregon**  
 (14) **DIRECT EXAMINATION OF JULIUS HERMAN LEITZ**  
 (15) **BY MR CHALOS**  
 (16) **Q And I forgot the Herman You go by the name Mick Mick**  
 (17) **Leitz?**  
 (18) **A That s correct**  
 (19) **Q I don t blame you**  
 (20) **What s your occupation?**  
 (21) **A I m a heavy marine salvor**  
 (22) **Q How long have you been a manne salvor?**  
 (23) **A I ve been in the salvage industry for about 35 years**  
 (24) **Q Are you an owner of a company that does salvage work?**  
 (25) **A Two companies that do salvage work**

Vol 19 3215

- (1) **Q What s the name of those two companies?**  
 (2) **A My primary company that I own a hundred percent of is**  
 (3) **J H**  
 (4) **Leitz and Associates Incorporated And then I m also**  
 (5) **co owner**  
 (6) **of Fred Devine Diving and Salvage, Incorporated**  
 (7) **Q What does a manne salvor do?**  
 (8) **A Marine salvor goes to the aid of any kind of a vessel**  
 (9) **that s in trouble It includes groundings sinkings, fires**  
 (10) **all manner and form of distress that floating objects can get**  
 (11) **themselves involved in**  
 (12) **Q You were the salvage master for the Exxon Valdez were you**  
 (13) **not?**  
 (14) **A That s correct**  
 (15) **Q In your career how many vessels have you salvaged from**  
 (16) **groundings collisions strandings?**  
 (17) **A Approximately 150 vessels of consequence I ve done**  
 (18) **many**  
 (19) **many jobs on small vessels**  
 (20) **Q When you say a hundred and fifty vessels of consequence**  
 (21) **what do you mean?**  
 (22) **A Well, the larger-type vessels, freighters and bulk**  
 (23) **carriers, tankers drill rigs, that type of thing**  
 (24) **Q How many - how many tankers have you salvaged in your**  
 (25) **career?**  
 (26) **A Four, including the Exxon Valdez**  
 (27) **Q How many of the vessels that you salvage did you salvage**  
 (28) **from groundings on rocks?**

Vol 19 3216

- (1) **A In excess of 20**
- (2) **Q And how many of those were tankers?**
- (3) **A Two - two of them That s including the Exxon Valdez**
- (4) **Q You - you salvage vessels all over the world parts of the world?**
- (5) **A Well, not all over the world There s an economic limitation as to how far I can go I ve been as far west as Guam I ve done several jobs in Guam, quite a few done work**
- (9) **in Mexico and as far east as Trinidad**
- (10) **Q And have you done work up here in Alaska?**
- (11) **A Quite a bit of work in Alaska**
- (12) **Q Now in the salvage jobs that you were involved with did you ever have occasion to use the vessel s engines?**
- (14) **A Yes, I do use a vessel s engines if the engines are operative and if the vessel in fact has engines**
- (16) **Q And the rudder?**
- (17) **A And the rudder**
- (18) **Q Mr Leitz based on your experience what is the traditional way of removing a vessel from a grounding a vessel that has grounded going ahead?**
- (21) **A About 90 percent of the time vessels that run aground under power are extracted in the same direction that they ran**
- (23) **in in other words they go in forwards they go out backwards**
- (24) **Q So if you re using the vessel s engines and rudder to get the vessel off the ground if you will that has run aground**

Vol 19 3217

- (1) **going forward you would back up?**
- (2) **A That s correct**
- (3) **Q Now in connection with your salvage job on the Exxon Valdez when did you arrive in Alaska for that job?**
- (5) **A On Easter Sunday I believe it was the 26th**
- (6) **Q Where did you go?**
- (7) **A I went to Exxon s office at the hotel there in Valdez**
- (8) **Q When did you first get out to the ship?**
- (9) **A My naval architect arrived on Tuesday and that s when we went out to the ship**
- (11) **Q That would have been the 28th?**
- (12) **A Yes**
- (13) **Q Between the 26th and the 28th what did you do?**
- (14) **A Well after I arrived in Valdez I met with a lot of the Exxon people and reviewed blueprints of the ship and just plain gathered data about a 16 hour a day basis and polished up a salvage plan or made the pretty complete outline of it, you know subject to a little modifications as you learn more about the vessel as time goes on, but that was all - and order equipment and order people to come up to participate**
- (21) **Q All right Was part of the information that you received some soundings that s had been taken at the request of Captain Hazelwood on the 24th of March?**
- (24) **A That s correct**
- (25) **Q Let me show you those soundings**

Vol 19 3218

- (1) **Could I have one of those - I ve lost my license to operate this machine so I m going manually now**
- (2) **I want to show you what we ve marked as Defendants 9171 which I offer into evidence at this time**
- (5) **(Exhibit DX 9171 offered)**
- (6) **MR MONTAGUE No objection**
- (7) **THE COURT Defendants 9171 is admitted**
- (8) **(Exhibit DX 9171 received)**
- (9) **BY MR CHALOS**
- (10) **Q Now I know you didn t get it in this form but you recognize this don t you?**
- (12) **A Yes, I do**
- (13) **Q These were soundings that were taken at 9 45 on March 24th**
- (14) **1989?**
- (15) **A Right**
- (16) **Q Can you tell the jury please what we re looking at here?**
- (17) **A Well, that s a - just a rough sketch of the Exxon Valdez and I believe some of these were taken by the pilot boat up there, and what they did was just made a sketch, recorded the depths of water certain distances out from the side of the ship and I think this particular on the starboard side -**
- (22) **Q So this is - now we re looking at the right side of the ship?**
- (24) **A That s right**
- (25) **Q And I see here these are in feet - right these**

Vol 19 3219

- (1) **soundings?**
- (2) **A Yes**
- (3) **Q Over here looking on the starboard side starting with around number three three tank?**
- (5) **A I would say so**
- (6) **Q Three tank forward?**
- (7) **A Yeah**
- (8) **Q We have 35 feet 46 feet 50 feet 50 feet and 60 feet at the bow?**
- (10) **A Yes**
- (11) **Q That s the place where the vessel was aground?**
- (12) **A That s where it was hardest aground, that s correct**
- (13) **Q The ship - because the ship was drawing something like 57 feet at the time she went aground?**
- (15) **A Yes**
- (16) **Q And the general indication from these soundings here the general indication is that there was shallow water on the starboard side of the ship am I correct?**
- (19) **A That confirms it yes**
- (20) **Q Now let me show you this is - let me find is this the same exhibit this is the second page of the same exhibit 9171 What does this depict?**
- (23) **A The same thing on the port side of the vessel**
- (24) **Q And now we re looking at on the left side of the vessel?**
- (25) **A Yeah, the left side of the vessel**

Vol 19 3220

- (1) Q On this one it looks like it's all pretty good water on the  
(2) left side except near the bow right?  
(3) A That's correct  
(4) Q And the general depth of the water away from the ship is -  
(5) is fairly deep except for some shallow spots here right?  
(6) A That's correct  
(7) Q Okay When you formulated your salvage plan you had this  
(8) information at hand as well?  
(9) A Yes I did  
(10) Q And you took that into account?  
(11) A Yes, I did  
(12) Q Okay Now you got out to the ship on the 28th?  
(13) A Yes  
(14) Q Tell us - tell us what your plan was Tell us how you  
(15) salvaged this vessel  
(16) A Well, the plan basically -  
(17) Q Can I just interrupt I got ahead of myself  
(18) Tell us about the type of damage that you found when you  
(19) went out there before - before you formulated your - and put  
(20) your plan into operation?  
(21) A Okay I was fairly aware of most of the damage to the  
(22) bottom of the vessel even before I went out on - on  
Tuesday  
(23) This information came from diver's reports, they had a diver  
(24) out there early on and I interviewed him and found out what  
(25) part of the ship was actually bearing on the rock We also

Vol 19 3221

- (1) took other soundings besides the ones that were  
mentioned I  
(2) had the ship's crew take the soundings on every frame  
space  
(3) down both sides of the ship and these soundings were all -  
a  
(4) profile was made from them so you could see the  
relationship of  
(5) the bottom of Prince William Sound there in relationship to  
the  
(6) bottom of the ship, and put those two together, the  
(7) descriptions of the divers on the area they can see  
(8) You got to understand that there's a - there was some  
(9) 30 000 square foot of the bottom, bottom of the ship that  
was  
(10) actually in contact with rocks so there was no way for divers  
(11) to take a look at that, and that was all on the - in way of  
(12) number one starboard tank, number two starboard tank,  
and parts  
(13) of one and two center tanks, that's where the ship was  
actually  
(14) resting on the bottom  
(15) Q Let me - if I may approach the witness Your Honor I want  
(16) to bring over a model It's Exhibit 154 into evidence This  
(17) is a model of the ship Maybe if you can just sort of stand up  
(18) and demonstrate for the ladies and gentlemen of the jury  
where  
(19) where the vessel was damaged and while you do that let me  
(20) put up one other exhibit  
(21) This is the one where - the damage exhibit and this way  
(22) they can follow along on the schematic as well I think I'm  
(23) going to have to bring this up a little closer  
(24) Your Honor this is Defendant's Exhibit 35B1 which I offer  
(25) into evidence at this time

Vol 19 3222

- (1) (Exhibit DX 3581 offered)  
 (2) MR MONTAGUE No objection  
 (3) THE COURT Defendants 3581 is admitted  
 (4) (Exhibit DX 3581 received)  
 (5) BY MR CHALOS  
 (6) Q Mr Leitz before you describe the damage can you tell us  
 (7) what 3581 represents?  
 (8) A Yes During the course of the salvage operation we kept  
 a  
 (9) running drawing and this is a copy of it This drawing was  
 (10) manufactured on butcher paper to be honest with you it  
 was  
 (11) eight feet long And each day as the divers did their work  
 (12) down there and reported information back to us my naval  
 (13) architect and I would we would interrogate them at the end  
 of  
 (14) the day and plot the information on the drawing  
 (15) And it was necessary to keep doing this thing, you know,  
 (16) sometimes the divers would get confused about which  
 frame space  
 (17) they were on We d have to erase something we d get the  
 same  
 (18) type of damage described 20 foot from where we seen it  
 before  
 (19) so pretty soon you get this thing you know massaged down  
 to  
 (20) something that s halfway reliable, you know and that s -  
 make  
 (21) a lot of decisions based on the information the divers give  
 you  
 (22) you  
 (23) We also use a rove vehicle which is an  
 underwater operated  
 (24) vehicle to do a lot of the measuring and investigation  
 (25) Q Mr Leitz just so I can help the jury what I m pointing

Vol 19 3223

- (1) to here on the right side of the exhibit is the bow right?  
 (2) A That s right  
 (3) Q And back here is the stern?  
 (4) A No it doesn t quite -  
 (5) Q It doesn t go all the way Where s it go back to number  
 (6) five?  
 (7) A Back to the number five tank  
 (8) Q Is this the house the white structure?  
 (9) A There was no damage after that  
 (10) Q Okay And this area here where you have all the squiggly  
 (11) marks that represents the area of damage?  
 (12) A That s correct  
 (13) Q Am I correct that it looks like there was no damage to the  
 (14) left side or the port side of the center tanks?  
 (15) A Yeah the bottom of the port tanks that port side were  
 (16) untouched  
 (17) Q So the oil that was in the port tanks was still intact?  
 (18) A That s correct  
 (19) Q It remained there What was lost was the oil coming out of  
 (20) the starboard side and the center tanks one two three four  
 (21) and partially five right?  
 (22) A Well all of the center tanks lost oil Number one lost  
 (23) oil Number two is a - is a segregated ballast tank that was  
 (24) empty and it actually took on oil As the oil poured out of  
 (25) number one perhaps or number two center or whatever it

Vol 19 3224

- (1) actually spilled into the empty tanks  
 (2) The same thing is true of the forepeak which is a  
 (3) segregated ballast tank  
 (4) Q Over here?  
 (5) A And number four starboard - yeah Number four  
 starboard  
 (6) is also a designated ballast tank that was empty, and it did  
 (7) take on some oil too  
 (8) Also, underneath the number five slop tank is a void and it  
 (9) was ruptured in the incident and it took on oil also So there  
 (10) was quite a bit of oil trapped in empty tanks in the ship at  
 (11) the time that it collided with the rock  
 (12) Q Could you show the ladies and gentlemen of the jury where  
 (13) the ship was hung up where she was resting aground?  
 (14) A Well, just the area - well, basically on the starboard  
 (15) side over to - not quite the center in an irregular fashion  
 (16) all the way up through number one tank and some up  
 underneath  
 (17) the bow  
 (18) So it would be starting about in - let s see, what have I  
 (19) got here - well, starting at about this area in here on the  
 (20) bottom, going across here and up through in here and out  
 (21) through in here near number one is roughly the affected  
 area  
 (22) that was still bearing on the rock that we couldn t - while it  
 (23) was on Bligh Reef we couldn t get in there to actually take a  
 (24) real look at it you know  
 (25) Q So except for that area where she was resting on the rock

Vol 19 3225

- (1) where she was aground the rest of the ship was floating free  
 (2) in deeper water am I correct?  
 (3) A That s right  
 (4) Q Okay You can put that down Let me move this back  
 (5) Okay tell us about your plan how you got the vessel off  
 (6) the reef  
 (7) A Well, it was pretty obvious that there wasn t any way to  
 (8) patch the bottom of the ship considering the extent of  
 damage  
 (9) to it, so a common salvage practice is to seal up the top of a  
 (10) vessel and inject a gas in it normally it s air In this  
 (11) particular case, we used inert gas out of the ship s - she  
 had  
 (12) a SS system that protects you from explosions and stuff  
 from  
 (13) the oil inside the ship The whole idea was to make  
 adapters  
 (14) that could be fitted to the ship to inject this - this gas  
 (15) from portable salvage equipment and all the stuff was  
 planned  
 (16) and done Equipment was brought up to Alaska and hauled  
 out to  
 (17) the ship  
 (18) Q When you did the salvage job did you have sufficient  
 (19) equipment - was sufficient equipment made available to you?  
 (20) A Absolutely I have access to a lot of salvage equipment  
 (21) Exxon was excellent about bringing things in from god  
 knows  
 (22) where, you know copious quantities If you asked for one  
 you  
 (23) usually got two  
 (24) Q What did you do with the oil - when you first got on  
 (25) there what was being done with the oil that was in the ship?

Vol 19 3226

Vol 19 3228

(1) A The lightering operation was underway I can't remember  
 (2) which ship was there I think it was Baton Rouge the day I  
 went  
 (3) out there  
 (4) Q Yes?  
 (5) A And they were pumping oil off of the Exxon Valdez with  
 (6) portable pumps into the Baton Rouge I observed that  
 (7) operation The only part of the lightering operation I really  
 (8) got into was early on, just some advisory type thing where  
 we  
 (9) had to work out a plan so as to not disturb the equilibrium of  
 (10) the ship on the rock Actually the starboard and center  
 tanks  
 (11) were an easy thing to pump out because you lowered the  
 pump  
 (12) into the oil and start pumping Oil is lighter than water so  
 (13) the water is - sea just brings the oil right up to the pump  
 (14) and the ship doesn't change anything The only effect you  
 have  
 (15) is the tide rocking it up and coming down every six hours  
 (16) The port tanks on the other hand were intact, so therefore  
 (17) a plan had to be developed so that we could pump the oil  
 out of  
 (18) those tanks and at the same time put water back in the  
 spaces,  
 (19) you know for example the number two port segregated  
 ballast  
 (20) tank was empty so it could be ballasted down as oil was  
 pumped  
 (21) out in the adjacent tank  
 (22) Same thing with number four port ballast tank  
 (23) That's basically how it was done until we established a toe  
 (24) hold until we could get something out to pump out water  
 into  
 (25) ~~the actual starboard tanks.~~

Vol 19 3227

(1) Q You talk about the center and the starboard tanks having  
 (2) water in them Was that because the damage was such as that  
 (3) the bottom was ripped up and you had holes in the bottom?  
 (4) A Most of the damage to the bottom of the ship was caused  
 by  
 (5) the initial collision with the rock, sliding up on the rock  
 (6) That's what stopped the ship  
 (7) You got to keep in mind, you got a 214 000 ton deadweight  
 (8) vessel being driven at 11 knots that suddenly comes to an  
 (9) abrupt stop That takes a lot of friction, interference  
 (10) whatever you want to call it, it stops in a very short  
 (11) distance  
 (12) Q The point is that the bottom in this area was open to the  
 (13) sea?  
 (14) A Yes, it was  
 (15) Q All right You got the oil off you got all the oil off  
 (16) before you started your refloating procedure?  
 (17) A Yes The oil was taken off from, I guess - let's see  
 (18) They started the 25th, I believe, and it was completed April  
 (19) the 4th  
 (20) Q All right And then once you got the oil off you said you  
 (21) closed the valves the deck valves and you put inert gas into  
 (22) the ship?  
 (23) A That's right During this period of time adapters were  
 (24) made We had to remove the - let's see, let me back up here  
 a  
 (25) little bit To put the fittings in to inject the gas into the

(1) ship we removed something called the gems (ph) which are  
 the  
 (2) top alarms in the tank There's an alarm system on the top  
 of  
 (3) the tanks that only goes down like 10 or 15 feet It's kind of  
 (4) an emergency alarm when they're filling loading the ship  
 (5) There's other measuring systems but when the oil gets to a  
 (6) certain level the gem systems come in So we removed  
 those  
 (7) and that gave us an orifice or hole in the deck that we could  
 (8) bolt these adapters into  
 (9) So all that kind of stuff was done Equipment was going  
 (10) out, hoses were connected up - there was some 3 000 foot  
 of  
 (11) hoses - or 13 000 foot of hoses used to connect all the  
 (12) systems to make this thing float  
 (13) All that stuff was done prematurely and we had to plan  
 (14) on - April 5th was the date to refloat it and step by step  
 (15) and we had people stationed all over the ship to close  
 valves  
 (16) and do this and do that and we started injecting gas and  
 she  
 (17) floated  
 (18) Q She came up off the reef?  
 (19) A Yes  
 (20) Q On high tide?  
 (21) A No, it was actually planned to refloat at half tide and  
 (22) did exactly that  
 (23) Q And ultimately you towed the ship somewhere to another  
 (24) place in Prince William Sound?  
 (25) A Yeah To Naked Island outside the bay

Vol 19 3229

(1) Q Was this ship towed with the holes in the bottom still?  
 (2) A Yes  
 (3) Q And then there came a time when the ship was taken from  
 (4) Naked Island down to San Diego right?  
 (5) A That's correct  
 (6) Q And she was towed down to San Diego?  
 (7) A Yes  
 (8) Q Again with the holes in the bottom?  
 (9) A Yes  
 (10) Q How come the ship didn't sink?  
 (11) A Because it was floating on this air that was trapped inside  
 (12) of it See the - the thing that - on a ship this size you  
 (13) got so darn much area - you know, a 900 foot ship, 166 foot  
 (14) wide it only takes a relatively little skinny block of  
 (15) buoyancy through here to make the thing float. The hull of  
 (16) the - the hull of the ship weighs roughly 30,000 tons and it's  
 (17) kind of a hydraulic you divide that up to the whole deck and  
 (18) the amount of pressure required to float this thing, it's very  
 (19) very low  
 (20) The actual pressures we used to refloat the Exxon Valdez  
 (21) was about - varied from about, oh, about one pound, in  
 some of  
 (22) the center tanks because they were so large up to five and  
 (23) three quarters pounds was the highest pressure we used  
 And  
 (24) they were all stages the different levels to protect the  
 (25) vessel, you know, the longitudinal bending problem, you  
 know

Vol 19 3230

- (1) **We could actually ease the pressure on the - on the hull**
- (2) **Q You said one and a quarter pound or one and a half pounds**
- (3) **to about five pounds?**
- (4) **A To about five and three quarters was the highest pressure**
- (5) **Q Let me see just out of curiosity I put 32 pounds of**
- (6) **pressure in my car tires?**
- (7) **A Yeah**
- (8) **Q So you re talking about what one tenth of that one sixth**
- (9) **of that?**
- (10) **A Yeah, yeah It was very - actually very, very low pressure**
- (11) **pressure**
- (12) **Another interesting thing if you re interested in it you**
- (13) **could take an air gauge and blow into your mouth and blow**
- (14) **roughly two and a half pounds and if you blow hard into an air**
- (15) **gauge you can check them that way It should read two and a**
- (16) **half pounds**
- (17) **Q That s all it took to refloat it?**
- (18) **A That's right**
- (19) **Q Now Mr Leitz based on what you saw out there based on**
- (20) **the experience you had with this vessel and based on your**
- (21) **previous experience with grounded vessels in your opinion had**
- (22) **this vessel come off the reef at any time after the grounding**
- (23) **do you believe that she would have sunk or capsized?**
- (24) **A No, I don t**
- (25) **Q Why do you say that?**

Vol 19 3231

- (1) **A Well we run some calculations on the thing, my naval**
- (2) **architect and I - I should give him credit his name is Donald**
- (3) **R Hudson, I been using him for about 30 years - but we run**
- (4) **some calculations on that**
- (5) **The PV valves on all the cargo tanks are a Waukeshau type**
- (6) **valve and they re set at set points about two and a half psi**
- (7) **Now when the cargo - after the thing ran aground the**
- (8) **bottom was wiped out and the cargo went out that tripped the**
- (9) **liquid PV system which is a prevention system in the IG**
- (10) **system It s actually water filled and it s designed to**
- (11) **prevent a vacuum from - or an excessive vacuum from**
- (12) **forming in**
- (13) **the tanks**
- (14) **Just basically what I told you a few minutes ago about the**
- (15) **amount of pressure it took to float this ship, we had them**
- (16) **adjust it very selectively to minimize the bending problem with**
- (17) **the ship in the sea wake But the thing - whether it was**
- (18) **still water or whatever probably sea weight would have**
- (19) **stayed**
- (20) **together Two and a half pressure is designed in - the**
- (21) **Waukeshau PV valves is plenty of trapped air to keep the**
- (22) **vessel**
- (23) **from sinking**
- (24) **Now this would require minimum intervention by the crew to**
- (25) **close the slider valves, which is the valve that shuts the IG**
- (26) **system off from the cargo tanks The IG system isn t**
- (27) **hooked to**
- (28) **the segregated ballast tanks so they would have to go out -**
- (29) **they didn t have to worry about the port side they would**
- (30) **have**

Vol 19 3232

- (1) **had to close the sliders on one through five center and one**
- (2) **three and five starboard and that s all on God s green earth**
- (3) **they would have had to have done**
- (4) **The ship would have rolled approximately - the maximum it**
- (5) **would have laid over would have been about 12 degrees**
- (6) **That s**
- (7) **all that needed to be done to keep it afloat They would**
- (8) **have**
- (9) **had more than enough time to go out and do those things**
- (10) **Another interesting twist to all this is I had some -**
- (11) **before we refloated it I had soundings made in a great fan**
- (12) **shape off the port side of the ship to find out exactly what**
- (13) **direction were we going to remove it from the reef in, how**
- (14) **much**
- (15) **water was out there We didn t want to run over another**
- (16) **rock**
- (17) **so we went a thousand foot and took soundings all around**
- (18) **there,**
- (19) **and for as much as a thousand foot away from the ship, that**
- (20) **soundings that they had there kind of indicates a little bit,**
- (21) **only about, oh, 60, 70 - 75 foot of water**
- (22) **It could have went quite a ways sideways, and it didn't**
- (23) **have enough water to stick over because it would have sat**
- (24) **down**
- (25) **and the deck would have stuck out That s 88 foot, so it**
- (26) **could**
- (27) **have sit down in 87 foot of water and still stick out**
- (28) **Q Mr Leitz you ve had an opportunity to read some of the**
- (29) **testimony that s been given in this trial?**
- (30) **A Yes**
- (31) **Q You read Captain Hazelwood s testimony?**
- (32) **A Yes**

Vol 19 3233

- (1) **Q Portions of Captain Hazelwood s testimony?**
- (2) **A Portions**
- (3) **Q Portions of Mr Kunkel s testimony?**
- (4) **A Yes**
- (5) **Q And I think you read some of Mr Van - did you read Mr**
- (6) **Van Hammen s testimony?**
- (7) **A Yes, I did**
- (8) **Q You read that Captain Hazelwood used his rudder and the**
- (9) **engine after the grounding?**
- (10) **A Yes**
- (11) **Q Do you remember that?**
- (12) **A Yes, I do**
- (13) **Q Did you have a chance to review Mr Van Hammen s video?**
- (14) **A Yes I did**
- (15) **Q Let me put this on and ask you some questions about it**
- (16) **You remember Mr Van Hammen testified that while the**
- (17) **engine was shut down from about 12 20 to 12 36 the vessel**
- (18) **was**
- (19) **moving?**
- (20) **A From 12 20 -**
- (21) **Q 12 20 in the morning to about 12 36?**
- (22) **A Yes**
- (23) **Q There was no engine rudder being used at that time the**
- (24) **vessel was swinging do you remember that?**
- (25) **A Yeah**
- (26) **Q I want to show you - can we cue that up? I want to show**

Vol 19 3234

- (1) you the video which starts at 12 30 but Mr Van Hammen states  
 (2) there was movement about four minutes before that - and I m  
 (3) just going the run the first six minutes and show you how the  
 (4) vessel was swinging  
 (5) Can you go back to 12 30?  
 (6) VIDEO TECHNICIAN That s where it starts  
 (7) MR CHALOS At 12 31 okay We ll start at 12 31  
 (8) You can run it a little faster  
 (9) BY MR CHALOS  
 (10) Q You see the vessel swinging?  
 (11) A Yes  
 (12) Q Okay stop  
 (13) Now sir based your experience and based on what you  
 (14) observed with this vessel when you got out there do you  
 (15) believe it to have been unreasonable for Captain Hazelwood to  
 (16) think that his vessel during those 15 minutes when the vessel  
 (17) was moving without the use of the engine or the rudder do you  
 (18) think that it was unreasonable for him to believe that he was  
 (19) not hard aground at that time?  
 (20) A No I don't believe it s unreasonable for him to believe he  
 (21) wasn t hard aground  
 (22) Q You think it was reasonable for him given the testimony  
 (23) and given what I ve just showed you to think that he needed to  
 (24) take some action at that point?  
 (25) A Well, I think that any prudent master needs to if he runs

Vol 19 3235

- (1) aground like in this case he needs to evaluate the situation  
 (2) as best he can with the tools he has available And I think  
 (3) that -  
 (4) Q You heard Captain - or Commander McCall this morning?  
 (5) A Yes  
 (6) Q He said that - he made a distinction between hard aground  
 (7) and just aground Do you remember that?  
 (8) A Right  
 (9) Q And you remember he said you have to - to do something to  
 (10) find out if you re hard aground or just aground?  
 (11) A That s correct  
 (12) Q And he also said that if you re just aground as opposed to  
 (13) hard aground he d rather have the stick in his hand right?  
 (14) A He s exactly right  
 (15) Q Does that mean to you that he wanted to have his engines on  
 (16) and his rudder going to assess the situation?  
 (17) A Yes  
 (18) Q Okay Did you read the testimony of Captain Hazelwood  
 (19) where he said I started my engines at 12 36 brought them up  
 (20) slowly to half ahead maneuvering because I was trying to  
 (21) assess  
 (22) the situation?  
 (23) A Yes, I read that  
 (24) Q And do you agree with that or disagree based on your  
 (25) experience?  
 (26) A Absolutely agree with it

Vol 19 3236

- (1) Q Captain Hazelwood testified that one of the things he took  
 (2) into account he had a rising tide in about an hour hour and a  
 (3) half he was coming up to high water?  
 (4) A Yes  
 (5) Q Would that be one of the factors you would consider in  
 (6) determining whether you were aground just aground as  
 (7) opposed  
 (8) to hard aground?  
 (9) A I think he was trying to determine - where he was  
 (10) aground  
 (11) in the middle of night, it s hard to do much In the dead of  
 (12) night it s hard to take soundings, especially when you got  
 (13) oil  
 (14) coming out of the ship For soundings to be meaningful,  
 (15) they d  
 (16) have to be taken some distance away from the ship so he  
 (17) was  
 (18) justified in being concerned about this thing sliding back  
 (19) off He didn t know what was out any distance from him  
 (20) from  
 (21) the side of the ship so he had to determine that  
 (22) And Commander McCall made a very good point there that  
 (23) you  
 (24) better have your hands on the control if something was  
 (25) going to  
 (26) go haywire than to just sit there and watch  
 (27) Q So I take it that you - you make no criticism of Captain  
 (28) Hazelwood using his rudder and his engines the way he did?  
 (29) A No It was the right thing to do  
 (30) Q You also read I take it that Captain Hazelwood used only  
 (31) full ahead maneuvering speed?  
 (32) A That s right  
 (33) Q You had an opportunity to check the power curves of this

Vol 19 3237

- (1) vessel when you went on board?  
 (2) A Yes I did  
 (3) Q What did you determine was the full available horsepower to  
 (4) him?  
 (5) A You mean at that speed?  
 (6) Q Full ahead full astern whatever  
 (7) A Absolute full ahead, you got about 31 000 32,000  
 (8) horsepower You d have something less than that, certainly  
 (9) have that much horsepower on the engines but the  
 (10) propellers  
 (11) are inefficient going backwards because you got a different  
 (12) thrust There s propellers and thrust going together here  
 (13) Q You had a chance to look at the data logger for this  
 (14) vessel?  
 (15) A Yes  
 (16) Q Did Captain Hazelwood ever put this in reverse?  
 (17) A No, he didn t  
 (18) Q Based on removing this vessel from the reef would you  
 (19) expect he d go in reverse even once?  
 (20) A Yes or more than one time  
 (21) Q He didn t even go in reverse is that right?  
 (22) A That s right  
 (23) Q 85 horse - did you say maneuvering was 8500 or did I say  
 (24) that?  
 (25) A My calculations come up to -  
 (26) Q I said that okay

Vol 19 3238

- (1) **A** - about 9 000 but that s pretty close  
 (2) **Q** You read Captain Hazelwood s testimony he used five and  
 (3) ten-degree rudder when he was maneuvering?  
 (4) **A** Yes  
 (5) **Q** Do you have any opinions as to how much power or how  
 much  
 (6) rudder he was using in terms of what he had available to him?  
 (7) **A** Yeah, the 9,000 horsepower - two things you have to  
 (8) consider is the engine curves and then the propeller curves  
 (9) for the propeller The thing is standing still mode, the  
 (10) propeller on a ship is designed to screw its way through the  
 (11) water at its designed speed if it s designed to go ten knots  
 (12) it s efficient at ten knots not standing still  
 (13) So taking both those things into consideration going  
 ahead  
 (14) at 55 turns, which is full maneuvering, produces something  
 like  
 (15) 112 long tons - now 112 long tons is not very much you  
 know,  
 (16) it s - it s about what a large tug would have as a large  
 (17) assist tug that comes out to assist this about 9 000  
 (18) horsepower That s about what he - that or a little less  
 (19) These are all charts you take this stuff off and there s a  
 (20) little variance  
 (21) **Q** Let me see if I can clear up what you re saying  
 (22) Did you make a determination as to how many tons the ship  
 (23) was aground how heavy it was on the rocks?  
 (24) **A** That s right  
 (25) **Q** What did you find?

Vol 19 3239

- (1) **A** Well after the oil belched out of the ship and everything,  
 (2) the pressure against the rock was in the neighborhood of  
 9200  
 (3) long tons  
 (4) **Q** So if we were to put a scale under the ship at that moment  
 (5) that s what she would read?  
 (6) **A** Yeah that s the bearing on the rock The rest of the -  
 (7) the rest of the 30 000 tons of ship and the oil that s stacked  
 (8) up higher than the water line outside - which now is only in  
 (9) the port tanks not - all of these are self supporting, by the  
 (10) bottom of the ocean we got 30 000 tons of hull to support  
 (11) About 9200 tons of it is resting on the rocks the rest is  
 (12) being supported by buoyancy on the port side and in the  
 engine  
 (13) room spaces  
 (14) That s what held the ship there but the thing bearing down  
 (15) on the rocks, 9200 tons were long tons worth  
 (16) **Q** Now let me see if I understand this Mr Leitz The  
 (17) engine at 8500 or 9 000 horsepower full ahead maneuvering is  
 (18) only thrusting you said about 160 tons?  
 (19) **A** 112  
 (20) **Q** Hundred and 12 tons?  
 (21) **A** Long tons  
 (22) **Q** Okay Well talking again in layman terms if he wanted -  
 (23) if Captain Hazelwood wanted to remove this ship forward  
 would  
 (24) he have to then thrust 9 201 tons to get it moving?  
 (25) **A** That s an interesting question If - if the surface of

Vol 19 3240

- (1) the rock was - is that a question?  
 (2) **Q** No no I m just patting myself on the back Go ahead  
 (3) **A** If the bottom of the ocean - of that rock was perfectly  
 (4) flat when the ship drove up on it and the ship comes  
 cruising  
 (5) along and starts running on the rocks and the pressure gets  
 (6) more and more still the ship comes to a stop - if that all is  
 (7) perfectly flat, the bottom of the ship was smooth, you d end  
 up  
 (8) with a friction coefficient which means you could extract  
 that  
 (9) thing with something probably less than 9200 tons  
 (10) In the case of the Exxon Valdez when it ran in there, the  
 (11) thing actually slid, slid up on the rock to some extent, but  
 (12) you know they noted it was listed to port and then  
 eventually  
 (13) it came back, I think it was one degree to port In this  
 (14) particular ship it s - in the beam of the ship you re looking  
 (15) at about three foot of - of difference across the deck, you  
 (16) got one degree of list, you got roughly three foot tilt in the  
 (17) ship, so when it slid up over the - actually lifted a little  
 (18) bit, not much, big ships like this don t drive up over rocks  
 (19) particularly, they - the rock either goes through them or  
 move  
 (20) the ship out of the road or move the rock out of the road but  
 (21) it don t just climb up on it  
 (22) What happened on this ship to make it shorter is the bottom  
 (23) of the ship was actually humped up in the area of number  
 one -  
 (24) well bulkhead 13 up between bulkhead 13, bulkhead 23  
 bottom  
 (25) of the ship was humped up about three or four foot  
 irregular

Vol 19 3241

- (1) So the ship was really kind of over the top of the rocks like  
 (2) that, had slid up over it and the structure failed and the  
 (3) thing evidently settled down  
 (4) So it was a mechanical connection so there s no - you  
 (5) can t use a true friction coefficient, it s mechanical The  
 (6) thing can t get loose from it  
 (7) That s a long answer to your question  
 (8) **Q** It s interesting  
 (9) **A** It would have taken way in excess of 9200 tons is what  
 I m  
 (10) saying to get this thing to come out of there because it isn t  
 (11) a one on one friction situation it s an actual mechanical  
 (12) connection  
 (13) **Q** Given the fact that at full ahead maneuvering the thrust  
 (14) was 112 tons?  
 (15) **A** Yes  
 (16) **Q** Is there any way that using the engines on this ship the  
 (17) use of the engines on this ship by Captain Hazelwood that he  
 (18) could have moved this ship even an inch?  
 (19) **A** I doubt it I don t think it - you could rotate it a  
 (20) little bit because of the lever that you have from where it s  
 (21) impaled up here, if you will back to where the engine is like  
 (22) a long handle on a pipe wrench, but as far as moving this  
 thing  
 (23) anywhere I doubt it other than being able to twist it  
 (24) **Q** Okay We saw in this video that I put up that there was  
 (25) swinging during the period of an hour and five minutes that

Vol 19 3242

Vol 19 3244

- (1) Captain Hazelwood was using the engine and the rudder You saw
- (2) the ship at Bligh Reef and you also saw it down in San Diego
- (3) once you got it down there?
- (4) A That s right
- (5) Q You had a chance to observe the bottom?
- (6) A Inside and out yes
- (7) Q Now in your opinion was there any additional damage done by the use of the rudder and the engine that Captain Hazelwood used?
- (8) A I don t think there - no, I don t think there was any
- (9) damage done at all and even if you want to say that if you
- (10) move it, it s got to do something, it would be minuscule I
- (11) mean totally insignificant The damage was darn massive
- (12) You
- (13) couldn t tell a little deal like that is nothing
- (14) Q There s been a suggestion by Mr Van Hammen that the use of
- (15) the rudder and the engine would have put additional stresses on
- (16) the hull of this ship Did you do any stress calculations in
- (17) that regard?
- (18) A Again, it ends up really being an insignificant number
- (19) You're putting 112 tons of load - obviously if you run the
- (20) engine, it's going to push a little bit on the thing But in
- (21) relationship to the structure that s down there, it isn t
- (22) anything This ship s made out of - it s a high tensile
- (23) steel, I think the designation is A-50, which is a very high
- (24) steel Normal is A 36, and it's got a minimum yield of 36,000
- (25)

Vol 19 3243

- (1) pounds per square inch
- (2) This ship, it s in excess of 50 000 pounds per square
- (3) inch In other words 112 tons if you had three square
- (4) inches
- (5) of this material you couldn t - that much force wouldn t
- (6) break it in tensile
- (7) Q Are you saying that the rudder and the engine used by
- (8) Captain Hazelwood whatever stress was put on would be taken
- (9) up
- (10) by three square inches of the hull of the ship?
- (11) A That s just an example It would be taken up by a little
- (12) speck against a rock here and a little speck against a rock
- (13) over there You got lots of area down there
- (14) Q So the bottom line in your opinion was that there was no
- (15) additional or minuscule additional stresses if any?
- (16) A I think the term is minuscule
- (17) MR CHALOS Did I get it wrong?
- (18) MR SANDERS Oh no
- (19) MR CHALOS You got me
- (20) BY MR CHALOS
- (21) Q Mr Lertz okay based on the information that you saw when
- (22) you were on board and based on the testimony that you heard
- (23) and
- (24) based on your experience Mr Lertz do you have an opinion as
- (25) to whether Captain Hazelwood was trying to extract this vessel on the reef by the maneuvers he was making?
- (1) A Yeah, I do have an opinion
- (2) Q What s your opinion?

- (1) A There was - everything that he was doing was trying to
- (2) keep it on the reef not to get it off the reef
- (3) Q Why do you say that? What do you base that opinion on?
- (4) A Well the ship grounded going forward at 64 turns which
- (5) that also - that works out in the neighborhood of about
- (6) 13 000 13 500 horsepower
- (7) Q 64 turns means 64 rpms on the propeller?
- (8) A Yes And it ran aground going frontwards and at this
- (9) time
- (10) had to stop at 211 000 deadweight ton It wouldn't have
- (11) been
- (12) quite that high because they were short loaded, but it was
- (13) still you know 185 000 or something deadweight tons plus
- (14) the
- (15) force of the engines driving it, and it came to a complete
- (16) halt
- (17) so you don t have to be a brain surgeon to figure out that
- (18) you
- (19) can t - I mean, it s like driving a truck against the side of
- (20) a brick wall and decide you re going to go ahead with it
- (21) brick wall has already stopped you and you are going to put
- (22) it
- (23) in drive and drive through it not going to happen
- (24) Ship came up stopped and to operate that engine in a
- (25) forward mode especially at 55 turns or thereabouts or
- (1) actually
- (2) quite of bit of time It was lesser turns than that, dead slow,
- (3) slow, half and so on, lesser powers and all that during that
- (4) period of time there s no way the thing can move forward
- (5) It's illogical
- (6) Q Are you saying that Captain Hazelwood did not use - or the
- (7) power that he used was less than the power that was being
- (8) used

Vol 19 3245

- (1) when the vessel came to a complete stop?
- (2) A That s right
- (3) Q And what do you deduce from that?
- (4) A That there s no - I mean what I can deduce from that is
- (5) you wouldn t have to be very smart that - to figure out
- (6) you re
- (7) not going to drive the thing ahead If you want to get off,
- (8) you're going to have to go backwards, the way you came in
- (9) And
- (10) he never did go backwards
- (11) Q Well let me ask you this Mr O Neil has played a tape
- (12) which was a transmission that Captain Hazelwood made to the
- (13) Coast Guard At 1 07 he was talking to Commander McCall and
- (14) he
- (15) told Commander McCall that I m trying to extract this vessel
- (16) from the reef
- (17) You read those transmissions?
- (18) A Yes
- (19) Q How do you square what you just said with what he s telling
- (20) Commander McCall?
- (21) A Well I think that Captains Hazelwood was still in the
- (22) throes of - I think he was very upset He was still in the
- (23) throes of trying to evaluate the situation Mr Kunkel, the
- (24) chief mate, was busy taking readings in the control room
- (25) which
- (1) tells you, you know, what liquids are coming in and what
- (2) liquids are going out Basically telling you what tanks are
- (3) breached, and looked over the side and he seen lots of oil
- (4) coming out He knew he was losing oil I think that - two

Vol 19 3246

- (1) things, I suppose
- (2) Part is I think he was trying to tell the Coast Guard a
- (3) little bit that - what they wanted to hear or what he thought
- (4) they wanted to hear Other thing, I don't think he had a full
- (5) grasp of the situation I also don't think he knew what the
- (6) full situation or the severity of the situation was right then,
- (7) and I also - you know, kind of wonder if he really had
- (8) accepted it in his own mind that he might be in one hell of a
- (9) pickle out there
- (10) Q Based on your experience you've seen you said a hundred
- (11) and fifty or so strandings Have you seen this kind of
- (12) behavior before -
- (13) A Yes
- (14) Q - after a stranding?
- (15) A Yeah, I've seen - a lot of the hundred and fifty vessels
- (16) I've worked on are large barges or unmanned vessels
- Some of
- (17) them have been abandoned vessels But I've also gone on
- quite
- (18) a few vessels that were still manned, and it depends, the
- (19) condition of the captain - call it a condition - varies
- (20) sometimes If the accident is directly related to weather
- (21) causes or mechanical causes or something like that, you
- don't
- (22) see too much change in him but if the accident is a result in
- (23) of an error in judgment or somebody's judgment then you
- see a
- (24) huge reaction
- (25) You know I've seen - I had a Greek ship one time called

Vol 19 3247

- (1) the Captianos around the mouth of the Columbia River
- Greek
- (2) captain on board He entered the Columbia no navigation
- (3) charts didn't get a pilot didn't - didn't do anything right
- (4) drove up on Clatsop Spit which is south side of the
- entrance
- (5) of Columbia River
- (6) We got on board that ship, coming through the top of it
- (7) what have you This fellow locked himself in his room He
- (8) wasn't violent or anything like that, he locked himself in the
- (9) room After a couple of days had a Coast Guard helicopter
- (10) come out and put a man down there and opened the door
- and
- (11) forcefully removed him He was a nice guy, you know, he
- was
- (12) just was a little upset
- (13) Q This is all because of the shock and stress of the
- (14) grounding?
- (15) A That ship ended up being total loss it was fish meal the
- (16) total cargo was lost I think the fellow didn't have a pilot
- (17) or anything was because he didn't have any money
- (18) Q You heard Commander McCall testify today that he heard the
- (19) same transmission but he didn't believe that Captain
- Hazelwood
- (20) was trying to extract the vessel Do you remember that?
- (21) A Yes, I do
- (22) Q Those were his words But were his deeds consistent with
- (23) those words?
- (24) A No they weren't at all If you're going to - everything
- (25) that he did out there is the type of things that you would do

Vol 19 3248

- (1) if you wanted to keep the ship on the beach
- (2) Q Such as what?
- (3) A Or on the rock Pardon?
- (4) Q Like what such as what?
- (5) A Well, work the engine ahead The ship grounded he
- didn't
- (6) know how well it was ground for sure he wanted to make
- sure it
- (7) didn't slide off by itself on a rising tide He hadn't -
- (8) there was no time to do soundings, it was - high tide was I
- (9) think 0157 or something that - that it was only a hour and a
- (10) half away, so there was precious little he could have done
- away
- (11) from the ship, so you have to do what you can on the ship
- (12) He also talked to Mr Kunkel about ballasting and he -
- (13) really, the thing was pretty well ballasted and ballasting
- (14) itself I don't even know whether that dawned on him, but
- he
- (15) had one tank on the starboard side he could have put water
- in,
- (16) which was number four, segregated ballast tank, also he
- had the
- (17) anchors lowered down - If you're going someplace why
- lower
- (18) the anchors you know
- (19) Q You heard Ms Jones Maureen Jones the lookout state
- (20) today that she was told to rig the pilot ladder for the Coast
- (21) Guard Does that sound to you like something somebody
- would do
- (22) if they were planning to take off?
- (23) A Well probably not I mean the pilot ladder goes when
- (24) you're underway so the pilot can get on and off the ship,
- and
- (25) they do that while the ship's moving so I don't know

Vol 19 3249

- (1) Q You don't attach any significance to that?
- (2) A Not a lot
- (3) MR CHALOS Mr Leitz thank you very much Before I
- (4) let you go let me just confer one second
- (5) Thank you very much
- (6) THE COURT You may cross examine
- (7) MR O NEILL We're both going to get you
- (8) THE COURT No you're not
- (9) THE WITNESS Thank you
- (10) THE COURT One at a time
- (11) MR MONTAGUE We're not going to use all these
- (12) Mr Leitz but just in case
- (13) CROSS EXAMINATION OF JULIUS LEITZ
- (14) BY MR MONTAGUE
- (15) Q You're very proud of the job you did salvaging the Exxon
- (16) Valdez I can see that?
- (17) A Yeah
- (18) Q You did a good job I think everybody's thankful for that
- (19) A We also did it without any serious injuries whatsoever in
- a
- (20) four and a half month operation so that makes you feel
- good to
- (21) itself
- (22) Q That was a four and a half months operation?
- (23) A Yeah From beginning to end
- (24) Q Now let's - did I hear you say correctly that the - one
- (25) of the reasons why you thought Captain Hazelwood may be
- saying

Vol 19 3250

- (1) things different than he was doing was because that the  
 (2) accident was an error in judgment? Is that what I heard you  
 (3) say?  
 (4) **A Yeah you did hear me say that I mean as opposed to  
 the**  
 (5) **steering breaking or something I m not trying to say that -**  
 (6) **I m not somebody else to decide, I m not deciding whether  
 he**  
 (7) **made an error in judgment or not, somebody did**  
 (8) **Q And you used that error in judgment as a basis for**  
 (9) **explaining away why the transmissions and the things that**  
 (10) **Captain Hazelwood said to others as to what he was doing was**  
 (11) **actually different from what you say he intended to do?**  
 (12) **A Yeah everything he did about the safety of the ship and**  
 (13) **the people that were on it was the correct thing to do And  
 on**  
 (14) **the other hand, he s busy telling the Coast Guard that trying**  
 (15) **to get it off or all sorts of things Actually he minimized**  
 (16) **the amount of damage in those transmissions rather than -  
 it s**  
 (17) **like he really wasn't facing reality**  
 (18) **Q Okay Well let s look at what he said okay and that s**  
 (19) **the first transmission through to the captain of the port was**  
 (20) **at - it started at 1 07 in the morning okay?**  
 (21) **A Yes**  
 (22) **Q And let s see what - what was said He says that first -**  
 (23) **well the question was - go back a minute**  
 (24) **The question was This is the captain of the port**  
 (25) **Commander McCall good evening Do you have any more of  
 an**

Vol 19 3251

- (1) estimate as to your situation at this time?  
 (2) And Captain Hazelwood answers Not at the present uh  
 (3) Steve or uh a little problem here with the third mate but  
 (4) uh we are working our way off the reef We ve uh the  
 (5) vessel s been holed uh and we re ascertaining right now  
 (6) we re trying to just get her off the reef And uh we ll get  
 (7) back to you as soon as we can over  
 (8) Do you remember that?  
 (9) **A Yes**  
 (10) **Q And do you recall it s your - excuse me**  
 (11) **it s your opinion is it not that at the time he said**  
 (12) **that in fact he thought he could get the vessel off the reef?**  
 (13) **A No, I don t think he thought that at all I know he said**  
 (14) **that, but you have to - in my business, you know, I got to**  
 (15) **look at real life You got to look at what he did, deeds not**  
 (16) **words if you will And because that s the only concrete -**  
 (17) **Q You have before you - may I approach the witness a**  
 (18) **moment**  
 (19) **Your Honor?**  
 (20) **THE COURT Yes**  
 (21) **BY MR MONTAGUE**  
 (22) **Q - some testimony you gave at a previous proceeding do you**  
 (23) **recall that? Could you turn to page 4902? I want you to make**  
 (24) **sure that that s your testimony under oath you have 4902**  
 (25) **A Oh My testimony okay**  
 (26) **Q And would you look at - there s a question that begins -**

Vol 19 3252

- (1) I don t know how that color got in it - begins at the bottom  
 (2) at line 23 where Mr Chalos asks you So my question to you  
 (3) is Captain Hazelwood is based on your opinion trying to keep  
 (4) the vessel on the reef but he s telling the Coast Guard at  
 (5) about the same time that he s trying to get the vessel off the  
 (6) reef Do you have an opinion as to why there s a difference  
 (7) between those two?  
 (8) Do you see that question?  
 (9) **A Um hum**  
 (10) **Q And your answer is Yeah Well okay the first**  
 (11) **conversation that I think he still thought he could get the**  
 (12) **thing off I don t think the severity of the situation had**  
 (13) **sunk in**  
 (14) **Did you - were you asked that question and did you give**  
 (15) **that answer?**  
 (16) **A That s the answer I gave last time**  
 (17) **Q Now let s go on to the conversations - and this is still**  
 (18) **during the same conversation with - with the commander of the**  
 (19) **port The second - the next statement made by Captain**  
 (20) **Hazelwood is Okay we re uh pretty good shape right now**  
 (21) **stable - stability - wise we re uh just trying to extract**  
 (22) **her off uh the shoal here and uh you can probably see me on**  
 (23) **your radar And once we get underway I ll let you know**  
 (24) **Had you read that?**  
 (25) **A Yeah**

Vol 19 3253

- (1) **Q And then that conversation continues a third - there s a**  
 (2) **third part of Captain Hazelwood s conversation in that**  
 (3) **repartee and he says Yeah I think it s uh major damage has**  
 (4) **kind of been done We kind of rock and rolled over it and uh**  
 (5) **we re just kind hung up in the stern here**  
 (6) **That s the back of the ship -**  
 (7) **A Yes**  
 (8) **Q - for us land lubbers?**  
 (9) **A Yes**  
 (10) **Q Well just uh we ll drift over it I ll get back to you**  
 (11) **Okay did you read that?**  
 (12) **A Yes**  
 (13) **Q Now do you recall that - that after the maneuvering of**  
 (14) **the vessel stopped by Captain Hazelwood there was a further**  
 (15) **communication there was a further communication with the**  
 (16) **captain of the port Do you remember that?**  
 (17) **A Yes**  
 (18) **Q Let s look at that**  
 (19) **Captain of the port - and this is at almost 2 00 in the**  
 (20) **morning right? And the engines stopped around**  
 (21) **1 40 something?**  
 (22) **A 1 41**  
 (23) **Q And the captain of the port says And you re still working**  
 (24) **at trying to get off over?**  
 (25) **And Captain Hazelwood his answer is No our engines are**  
 (26) **stopped right now Uh we re going to wait till there s uh a**

Vol 19 3254

- (1) little more water underneath us  
 (2) Okay did you read that when you reached your conclusion?  
 (3) **A Yes, I did**  
 (4) **Q And are you aware that about half an hour after that or so**  
 (5) **some time around that time Captain Hazelwood received a call**  
 (6) **from Paul Myers of Exxon on the ship? Were you aware of that?**  
 (7) **A Well, I don't know anything about the call from Paul**  
**Myers,**  
 (8) **no**  
 (9) **Q Did you consider what Captain Hazelwood had told Paul**  
**Myers**  
 (10) **during his conversation?**  
 (11) **A No**  
 (12) **MR CHALOS Your Honor may we approach have a side**  
 (13) **bench for just one second?**  
 (14) **(At side bar off the Record)**  
 (15) **BY MR MONTAGUE**  
 (16) **Q I m told that this call with Mr Myers was somewhere**  
 (17) **between around 1 30 between one and 1 30 and Mr Myers**  
**wrote**  
 (18) **down during his conversation with Captain Hazelwood think**  
**he**  
 (19) **can get it off**  
 (20) **Were you aware of that when you made your decision?**  
 (21) **A No, I was not**  
 (22) **Q And are you aware that the next day and the next - I guess**  
 (23) **it was the next early afternoon the early afternoon of the**  
 (24) **24th - that Captain Hazelwood was interviewed by Mark**  
**Delozier**  
 (25) **from the Coast Guard Have you seen that?**

Vol 19 3255

- (1) **A No**  
 (2) **Q And this is what he told Lieutenant Delozier Oh I was -**  
 (3) **I tried the rudder and engines for a few minutes to see if we**  
 (4) **could extract it from the situation but then I got my**  
 (5) **faculties about me I was a little upset of course and then**  
 (6) **I thought just about - I thought about it and driving her off**  
 (7) **might not be the best way to go because it just asserbate**  
 (8) **[sic] the damage so I just stopped the engines**  
 (9) **Have you seen that before?**  
 (10) **A Yeah**  
 (11) **Q You had?**  
 (12) **A Do I eventually get to comment on some of the things**  
**you re**  
 (13) **saying or -**  
 (14) **Q Well wait till I ask you a question I want to ask you a**  
 (15) **question now**  
 (16) **I just want to know that it seems to me there are two**  
 (17) **conclusions that can be drawn there One either by**  
 (18) **maneuvering the vessel the way he was Captain Hazelwood**  
**was**  
 (19) **trying to extract the vessel from Bligh Reef And you ve**  
 (20) **stated that would have been absolutely the wrong thing to do?**  
 (21) **A Well so two things He s better off leaving the ship on**  
 (22) **the reef until professional help comes but then the second**  
 (23) **part of it, probably more important than that, is the fact that**  
 (24) **what he was doing is not the way you go at it It was**  
 (25) **impossible to move the ship forward over the reef**

Vol 19 3256

- (1) **Q What I m saying is he was doing what he said he was doing**  
 (2) **in all those communications that s would have been absolutely**  
 (3) **the wrong thing to do?**  
 (4) **A That's right**  
 (5) **Q And in your view it would have been reckless?**  
 (6) **A No**  
 (7) **Q It wouldn t have been reckless to -**  
 (8) **A Well now, let s get it straight I don t want to be**  
 (9) **misquoted here**  
 (10) **What he was doing was not reckless -**  
 (11) **Q No no wait a second**  
 (12) **A If he had 3200 horsepower on that reef and tried to drive**  
 (13) **her off -**  
 (14) **MR CHALOS Your Honor Your Honor -**  
 (15) **THE COURT I don t want - we re all talking at once**  
 (16) **now**  
 (17) **MR MONTAGUE Let me ask you a question -**  
 (18) **THE COURT And let him finish And let me finish**  
 (19) **too**  
 (20) **MR MONTAGUE It s just that he was unresponsive to**  
 (21) **the question I don t think he heard the answer**  
 (22) **THE COURT Talk one at a time and the reporter will**  
 (23) **be able to report everything because she can t do that when**  
 (24) **you re talking over one another**  
 (25) **BY MR MONTAGUE**

Vol 19 3257

- (1) **Q I want you to listen to the question I said if Captain**  
 (2) **Hazelwood intended to do what he told the VTS he was doing**  
 (3) **through the communications and that he told the others if he**  
 (4) **was intending to do that - that is to remove the vessel from**  
 (5) **the reef - you agree that that was absolutely wrong?**  
 (6) **A It wouldn t be the prudent thing to do, but a minute ago**  
 (7) **you used the word reckless and I wouldn t go nowhere**  
**nears that**  
 (8) **far**  
 (9) **Q So it wouldn t have been reckless to try to remove it from**  
 (10) **the reef is that your testimony?**  
 (11) **A Pardon?**  
 (12) **Q So it would not have been reckless to try to remove it from**  
 (13) **the reef?**  
 (14) **A Well, depends under what circumstances I sat here a**  
**few**  
 (15) **minutes ago and the calculations showed the things, the**  
**ship**  
 (16) **could have been kept afloat If it d have slipped off, there**  
 (17) **would have been plenty of time to take some corrective**  
**action,**  
 (18) **so it wouldn t have laid over or capsized or sunk or any of**  
 (19) **those things So I don't know how reckless it would have**  
 (20) **been**  
 (21) **There was a few things that needed to be done I can t**  
 (22) **help but think an experienced tanker crew would have done**  
 (23) **them**  
 (24) **Q Okay Now if he was telling everybody that he spoke to**  
 (25) **that morning that he really didn t mean what he was doing what**

Vol 19 3258

- (1) he was saying but he was doing something else that s - that s
- (2) what you subscribe to is that correct?
- (3) **A I really do because I ve seen - I ve seen captains act**
- (4) **much like this before where you go out go to the aid of the**
- (5) **thing and the captain refuses to take a towline because I**
- (6) **says**
- (7) **I can handle this thing and I ve got it under control we re**
- (8) **going to have it fixed in a few minutes and none of these**
- (9) **things happen, and, I don t know, imagine shock or**
- (10) **whatever**
- (11) **causes these guys to act that way but they - it does happen**
- (12) **and this isn t really unusual at all It s just a bigger**
- (13) **incident**
- (14) **Q And that s particularly true as you said before when an**
- (15) **error of judgment caused the grounding right?**
- (16) **A When something - yeah, yeah, being blamed, if it s the**
- (17) **weather or something s out of everybody s control and**
- (18) **everybody s kind of half dumb and happy, I guess**
- (19) **Q Now I just have a few other things**
- (20) **The grounding - the soundings that you opened up with**
- (21) **taken by Captain Hazelwood?**
- (22) **A Yes**
- (23) **Q Those were taken at 9 45 in the morning isn t that**
- (24) **correct?**
- (25) **A According to the radio transmissions they were ordered**
- (26) **at**
- (27) **8 44, I believe and the time on them is 9 40 They were**
- (28) **taken**
- (29) **during a period from 8 44 until 9 45 I believe is what it says**

Vol 19 3259

- (1) **on there**
- (2) **Q So the soundings you referred to were ordered to be taken**
- (3) **by someone?**
- (4) **A By Captain Hazelwood**
- (5) **Q With the Coast Guard?**
- (6) **A And it s in the radio transmissions here I think it was**
- (7) **8 44 that he requested the pilot take the soundings, and the**
- (8) **soundings of course say 9 45**
- (9) **Q So that was - okay so that was about eight eight and a**
- (10) **half hours after the grounding is that correct?**
- (11) **A Yeah**
- (12) **Q And he didn t have that information when he was**
- (13) **maneuvering**
- (14) **the vessel?**
- (15) **A No he didn t He was maneuvering the vessel right after**
- (16) **it went aground and the soundings would have become**
- (17) **more**
- (18) **important before high water If he had any intentions of**
- (19) **refloating the ship, that information would be really useful**
- (20) **before high water because, if you re going to refloat, you**
- (21) **want**
- (22) **to do it at high water so once high water passes there s no**
- (23) **great urgency to do these things Once the ship sits there**
- (24) **and**
- (25) **goes through high water, nothing horrible s happened you**
- (26) **can**
- (27) **relax a little bit and do things in a more logical fashion**
- (28) **Q Do you recall what the high water the difference between**
- (29) **the high water mark and the level of the water the tide at the**
- (30) **time of the grounding what that was?**

Vol 19 3260

- (1) **A Well I think high water was about 12 and a half feet**
- (2) **Q Do you know the difference between what it was at the time**
- (3) **of the grounding and what high tide would have been?**
- (4) **A I d just be guessing, probably about two foot maybe two**
- (5) **and a half foot would be the difference I didn t plot it**
- (6) **no But that s roughly what it would be**
- (7) **Q If it was anything less than two feet would that sound**
- (8) **right?**
- (9) **A Could have been**
- (10) **Q Is that significant?**
- (11) **A Two foot s quite a bit of lift that s right**
- (12) **Q Now when the vessel went aground Captain Hazelwood**
- (13) **didn t**
- (14) **know that it was impaled right? He found that out?**
- (15) **A Yeah No he would have had no way of knowing that**
- (16) **Q And by moving the vessel anything could have happened**
- (17) **isn t that correct?**
- (18) **A No, the one - I mean, you have to back up now He knew**
- (19) **one thing, is that ship was heading on - I think it ran**
- (20) **aground on a course on a heading of about 290 degrees,**
- (21) **and**
- (22) **after she hit I think it had hard right rudder so it went to**
- (23) **305 and it came back somewhat I can t remember how far it**
- (24) **came back, but the one thing he did know is that that ship**
- (25) **drove into something strong enough to stop it And so**
- (26) **working**
- (27) **the engine ahead was a low risk, I would say The risk of not**
- (28) **knowing if it could slip back off was a greater risk**

Vol 19 3261

- (1) **Q It was low risk but there was some risk?**
- (2) **A There s always some**
- (3) **Q You agree with that?**
- (4) **A Yeah, sure There s always some risk in doing anything**
- (5) **Q And in fact the vessel between the time that it hit the**
- (6) **rock and the time that it - the engines were turned off and**
- (7) **the engines were on load program up you testified the rpm was**
- (8) **up to what 64 rpm at the time they were shut off?**
- (9) **A That s correct**
- (10) **Q Those engines ran for approximately 11 minutes isn t that**
- (11) **correct? Between the time of the impact on the rock and the**
- (12) **time the engines were shut off they ran for about 11 minutes?**
- (13) **A Yeah, the - the official time for the grounding is 0009,**
- (14) **isn t it, or 10?**
- (15) **Q Well it depends who you talk to - Exxon s expert says 7**
- (16) **minutes after and for my purposes I ll accept that And the**
- (17) **engines started slowing down at 18 after so that s about 11**
- (18) **minutes?**
- (19) **A Yeah**
- (20) **Q And did you calculate anything about the damage or what**
- (21) **was**
- (22) **done during those 11 minutes while that engine was going at -**
- (23) **A 64**
- (24) **Q Up to 64 rpm?**
- (25) **A I just kind of considered that to be part of initial**
- (26) **casualty thing come steaming in there 11 knots and stopped**
- (27) **and**

Vol 19 3262

(1) engine going and rudder hard over and so that damage or the  
 (2) fact that the engine was running would be reflected in the  
 (3) original damage, really part of the original damage  
 (4) Q All right Now do you recall testifying that there wasn't  
 (5) any damage caused by the maneuvering done by Captain  
 (6) Hazelwood?  
 (7) A Yes  
 (8) Q Would you agree that any evidence of damage that was  
 caused  
 (9) by Captain Hazelwood's rotating - that is turning the vessel  
 (10) that morning - very likely would have been lost by the  
 (11) crushing effect that occurred due to subsequent events? Do  
 you  
 (12) agree with that statement?  
 (13) A No, I don't  
 (14) Q Could you turn -  
 (15) A I think that -  
 (16) Q Go ahead  
 (17) A - what you're saying is probably possible, but the  
 (18) crushing would just shove any kind of evidence further up in  
 (19) the hull I mean, if you had some scratches of some kind of  
 (20) significance, they would just merely be pushed up  
 (21) Another thing that happened out there is on the - I don't  
 (22) know who's going to look at the stuff while it was on the  
 rock  
 (23) there was no way for divers or anybody else to get in  
 between  
 (24) the ship and the rock but on - I think it was a Sunday they  
 (25) had something like 60 mile an hour winds and the ship  
 moved 14

Vol 19 3263

(1) degrees and was pushed back by tugs again so the  
 maneuvering  
 (2) that Captain Hazelwood did during that period of time was  
 from  
 (3) one side to the other about 13 degrees you know six and a  
 (4) half degrees both sides of center if you will  
 (5) Also when the ship ran aground, it came in at a heading of  
 (6) 290 degrees went to 305 and then came back and when he  
 (7) straightened the rudder up the thing came back - I don't  
 (8) remember just what number it is but around 290 292 or  
 (9) something So it made a 15 degree sashay on grounding  
 which  
 (10) would have been a rotating motion there too so I don't  
 know  
 (11) how you - how this can be important, important because  
 you're  
 (12) looking for a rotating type damage in a place that's -  
 (13) that's -  
 (14) Q That there's been a lot of rotations?  
 (15) A Lots of rotations yeah  
 (16) Q And that's what you testified to earlier isn't it that  
 (17) you really couldn't tell - and that was my question that you  
 (18) really couldn't tell what damage was done by Captain  
 (19) Hazelwood's maneuvering because there was so much other  
 (20) rotation as well as what he did isn't that correct?  
 (21) A You're talking about evidence of damage but you can  
 (22) look -  
 (23) Q Evidence of damage?  
 (24) A But you can look at this from another standpoint and that  
 (25) is how much horse was being applied and what would the  
 effect

Vol 19 3264

(1) of that be and the effect on that particular structure would  
 (2) have been in my opinion insignificant  
 (3) Q Okay Now one last question  
 (4) All these calculations and the information you got from the  
 (5) divers none of that was available to Captain Hazelwood when  
 he  
 (6) was on the vessel correct?  
 (7) A Not that night, no  
 (8) Q When he was doing his maneuver he didn't have any of that  
 (9) information?  
 (10) A No, he didn't  
 (11) MR MONTAGUE Thank you very much  
 (12) REDIRECT EXAMINATION OF JULIUS LEITZ  
 (13) BY MR CHALOS  
 (14) Q Mr Leitz Captain Hazelwood knew on that night did he  
 (15) not that he was damaged on the starboard side and that he was  
 (16) not damaged on the port side?  
 (17) A Yes, he knew he was damaged in the center tanks, as  
 well  
 (18) Q And he knew that his vessel was moving?  
 (19) A That's right  
 (20) Q Now is there anything that he did the deeds that he did  
 (21) that suggests to you that he was trying to get this vessel off  
 (22) the reef?  
 (23) A He did absolutely nothing that would suggest to me he  
 was  
 (24) trying to get off the reef  
 (25) Q Mr Montague read to you something from the interview that

Vol 19 3265

(1) Captain Hazelwood had with Mr Delozier You remember that?  
 (2) A Yes, yeah Yeah  
 (3) Q The context of that was that - and there's been testimony  
 (4) to this - was that Captain Hazelwood said to Mr Delozier  
 (5) When I ran aground in the first ten minutes I had a fleeing  
 (6) thought to get the vessel off the reef but then I said no no  
 (7) that's not the right thing to do so I shut my engine  
 (8) The engine he shut down was at 12 20 okay? That's the  
 (9) context  
 (10) Based on your experience is it a strange thought that a  
 (11) mariner would have initially after he's grounded to say What  
 (12) am I doing here let me try and get off Is that a strange  
 (13) thought to have?  
 (14) A No, it isn't That's the first thing that would go through  
 (15) the mariner's head  
 (16) Q You would expect that wouldn't you?  
 (17) A Yes, I would  
 (18) Q And what he said to Mr Delozier was After I had that  
 (19) thought I decided I'm not going to do that And that was at  
 (20) 12 20?  
 (21) A Um hum  
 (22) Q Is that something that's consistent with what he was doing  
 (23) then thereafter?  
 (24) A Yes  
 (25) MR CHALOS I have no further questions thank you

Vol 19 3266

- (1) THE COURT You may step down sir thank you  
 (2) (The Witness Stepped Down )  
 (3) MR LYNCH Your Honor we never thought that Mr  
 (4) Chalos would be able to finish this early and I m afraid to say  
 (5) we don t have another examination  
 (6) MR CHALOS Wait a minute wasn t that a signal for  
 (7) me to stop? I had a few more questions I looked over they  
 (8) were signaling  
 (9) THE COURT I think it is time to quit I do need to  
 (10) see counsel for just a minute I will be brief with you  
 (11) Ladies and gentlemen you will recall I assume that  
 (12) Monday is Memorial Day I hope you all enjoy the holiday But  
 (13) please remember my instructions that you not listen to or read  
 (14) anything about our case and we will see you at 8 00 on  
 Tuesday  
 (15) morning You re excused until that time  
 (16) (Jury out at 1 53)  
 (17) THE COURT The one thing that I need to do is call up  
 (18) the motion people again We have a - we have a motion by the  
 (19) Chugach Alaska Corporation et al plaintiffs to remand their  
 (20) case to state court We re - we ve tried to put that on sort  
 (21) of a fast track What I would like to do is - is hear any  
 (22) oral presentation anyone has We ll take ten or 15 minutes  
 (23) from each side at two p m or as soon thereafter as we adjourn  
 (24) for the trial day on Tuesday which is I think the 31st  
 (25) Again that s Tuesday the 31st at two p m

Vol 19 3267

- (1) And Mr Murtiashaw if you would be sure to notify Mr  
 (2) Petumenos who is counsel for the plaintiffs that are involved  
 (3) in this I haven t seen him here today and since he doesn t  
 (4) want to be here he probably isn t here If you d notify him  
 (5) MR JAMIN I ll let him know as well Your Honor  
 (6) THE COURT Fine I appreciate that  
 (7) Is there anything else we need to do?  
 (8) MR O NEILL No sir  
 (9) MR SANDERS No Your Honor  
 (10) THE COURT All of you have a good weekend and we ll  
 (11) see you on Tuesday We re adjourned now  
 (12) (Proceedings recessed 2 02 p m )

(1) PROCEEDINGS  
 (2) (Jury in at 8:01 a.m.)  
 (3) (Call to Order of the Court)  
 (4) THE CLERK All rise  
 (5) THE COURT Good morning ladies and gentlemen  
 (6) This is the continuation of the trial in case A89 0095  
 (7) civil in re the Exxon Valdez Mr Russo?  
 (8) MR RUSSO Judge before we call the first witness  
 (9) may I make a request to have a brief side bar with the Court?  
 (10) (At side bar off the record)  
 (11) MR RUSSO Your Honor the defendants call Jack  
 (12) Mendelson as an expert  
 (13) THE CLERK Raise your right hand please  
 (14) (The Witness Is Sworn)  
 (15) THE CLERK Please be seated  
 (16) For the record sir state your full name your address and  
 (17) spell your last name please  
 (18) THE WITNESS My name is Jack H Mendelson My  
 (19) address is 1010 Memorial Drive Cambridge, Massachusetts  
 My  
 (20) name is spelled M e n d e l - s o n  
 (21) THE CLERK Thank you sir  
 (22) THE COURT Mr Russo  
 (23) DIRECT EXAMINATION OF JACK MENDELSON  
 (24) BY MR RUSSO  
 (25) Q Good morning Dr Mendelson?

Vol 20 3276

(1) A Good morning  
 (2) Q Dr Mendelson what is your present position?  
 (3) A Presently I am professor of psychiatry and neuroscience  
 at  
 (4) the Harvard Medical School and director of the alcohol and  
 drug  
 (5) abuse treatment center and research center at the McLean  
 (6) Hospital in Belmont Massachusetts  
 (7) Q Doctor are you licensed to practice medicine?  
 (8) A Yes I am  
 (9) Q And how long have you been licensed to practice medicine?  
 (10) A I've been licensed to practice medicine since 1956  
 (11) Q And do you have any areas of specialization?  
 (12) A Yes my area of specialization is psychiatry  
 (13) Q Mr Mendelson I'd like you to tell the jury a little bit  
 (14) about your educational background Start off with your  
 (15) college your medical school training please  
 (16) A Yeah a standard undergraduate school at the Johns  
 Hopkins  
 (17) University following my undergraduate education I went  
 to  
 (18) medical school at the University of Maryland I received my  
 (19) doctor of medicine in 1955 Following completion of  
 medical  
 (20) school I had a medical internship at the Boston City  
 Hospital  
 (21) and following completion of my medical internship I  
 undertook a  
 (22) three-year period of residency training in psychiatry at the  
 (23) Massachusetts General Hospital in Boston Massachusetts  
 (24) That three year period of psychiatric residency training  
 (25) was required for certification by the American Board of

Vol 20 3277

- (1) **Neurology and Psychiatry** I received my certificates in 1963
- (2) Q Can you tell the jury what it means to be certified in
- (3) psychiatry?
- (4) A It means that one has to complete a prerequisite amount of
- (5) training, and also pass both written and practical examinations
- (6) which indicate that you're competent to practice the specialty
- (7) of psychiatry
- (8) Q After you completed your residency what did you do?
- (9) A After I completed my residency training I had a tour of
- (10) duty in the United States Navy as a medical officer My
- (11) responsibilities as a medical officer in the Navy were to carry
- (12) out diagnoses and treatment for medical personnel and naval
- (13) personnel who had problems with psychiatric disorders
- (14) Q And in conjunction with your duties and responsibilities in
- (15) the Navy did you also have occasion to treat people with
- (16) alcohol problems?
- (17) A Yes frequently
- (18) Q Subsequent to the Navy tell us what you did
- (19) A Subsequent to my tour of duty in the Navy I began a
- (20) five-year post doctoral training program specializing in the
- (21) diagnosis and treatment of alcohol-related disorders and
- (22) substance abuse related disorder I was sponsorship of a
- (23) special training grant award from the National Institute of Health
- (24) Health
- (25) Q Where did you do that training?

Vol 20 3278

- (1) A I completed that five-year training period at the
- (2) Massachusetts General Hospital in Boston, Massachusetts
- (3) Q During that time that you were doing this post doctoral
- (4) work that you described were you also on the faculty of
- (5) Harvard University Medical School?
- (6) A Yes at what time I was appointed as an associate
- (7) professor
- (8) of psychiatry at the Harvard Medical School
- (9) Q After completing this post doctoral study that you just
- (10) mentioned what did you do next?
- (11) A I then was invited to become the chief of the National
- (12) Center for the Prevention and Control of Alcoholism an
- (13) organization established within the National Institutes of Health
- (14) Q Can you describe this institution a little bit for us?
- (15) A Yes, this institution was the predecessor agency for the
- (16) National Institute on Alcohol Abuse and Alcoholism And it's
- (17) establishment by the National Institutes of Health was
- (18) analogous to the accomplishment of other institutes such
- (19) as the
- (20) cancer institute
- (21) Q When you say you were the chief of this agency does that
- (22) mean that you were the head of the agency?
- (23) A Yes, I was the chief or director of the agency
- (24) Q How long did you remain in that position?
- (25) A I remained in that position for three years
- (26) Q What was the mission of this particular agency?

Vol 20 3279

- (1) A Well the mission of the agency generally was to improve
- (2) our knowledge about the causes and consequences of
- (3) alcoholism
- (4) with the hope that we could improve both prevention and
- (5) control
- (6) of the problem
- (7) Q Did there come a time that you left that position?
- (8) A Yes
- (9) Q Where did you go then?
- (10) A I was appointed as a professor full tenured professor of
- (11) psychiatry at the Harvard Medical School and I also
- (12) concurrently was chief of the department of psychiatry at the
- (13) Boston City Hospital
- (14) Q When you became a full tenured professor of psychiatry at
- (15) the Harvard Medical School did you also receive an honorary
- (16) degree from Harvard Medical School at that time?
- (17) A Yes I received a honorary degree from Harvard at that
- (18) time
- (19) Q Why did you receive that degree?
- (20) A The honorary degree was awarded as a consequence of the
- (21) research which I had reported on the causes of alcohol
- (22) related
- (23) problems
- (24) Q Now as a full tenured professor at Harvard Medical School
- (25) in addition to instructing students what duties and
- (26) responsibilities did you have?
- (27) A My responsibilities included supervision of a department
- (28) which had as its primary goal the diagnosis and treatment
- (29) of

Vol 20 3280

- (1) persons with psychiatric disorders which included
- (2) alcohol related and substance abuse disorders in both
- (3) outpatient and inpatient clinical facility
- (4) Q In conjunction with your duties and responsibilities did
- (5) you have the duties and responsibility to diagnose and treat
- (6) people with alcohol related problems and other psychiatric
- (7) problems?
- (8) A Yes I did Many individuals
- (9) Q Did there come a time that you left City Hospital?
- (10) A Yes when I left the City Hospital I went to the alcohol
- (11) and drug abuse research and treatment center was
- (12) established
- (13) by Harvard Medical School at the McLean Hospital which is
- (14) an
- (15) affiliate of the Massachusetts General Hospital
- (16) Q All right And the McLean Hospital is also affiliated with
- (17) Harvard Medical School is it not?
- (18) A Yes it is a major psychiatric teaching hospital for
- (19) Harvard Medical Hospital
- (20) Q What was your position at the McLean Hospital?
- (21) A I was director of the alcohol and drug abuse research
- (22) center and also director of their substance abuse treatment
- (23) program
- (24) Q And that is your present position today up until today?
- (25) A Yes, my present position which I have held for 20 years
- (26) Q In conjunction with your duties and responsibilities at the
- (27) McLean Hospital do you have occasion to diagnose and treat

Vol 20 3281

- (1) patients who have alcohol related problems?
- (2) **A Yes, we admit approximately 800 patients a year to our inpatient facility, and our outpatient treatment facility has approximately eight to 10 000 outpatient visits**
- (3) **Q Doctor can you estimate for us approximately how many patients you've had occasion to treat and diagnose for alcohol related problems?**
- (4) **A Well, over the past 20 years those patients that I have been intimately involved with - that is I provided the diagnostic evaluations and the treatment recommendations - I would say about two to 3 000 patients**
- (5) **Q Doctor do you belong to any national or international associations?**
- (6) **A Yes**
- (7) **Q Can you name a few of the more significant ones for us?**
- (8) **A American Psychiatric Association which I hold a life fellowship I also am a member of the Society for Clinical Pharmacology and Therapeutics This organization is an organization which consists of physicians from medical - and scientists from many disciplines and the purpose is to improve our knowledge about drug treatment for a variety of conditions including psychiatric facilities**
- (9) **I am a member of the American Society for Pharmacology and Experimental Therapeutics I have been elected to membership in the Psychoneuroendocrinology Society which is a special**

Vol 20 3282

- (1) **organization that consists of physicians who are interested in how hormones function may affect the compromise of an individual's ability to work and to remain well**
- (2) **Q Doctor do you hold any editorial positions on peer review journals?**
- (3) **A Yes I've held editorial responsibilities for a number of journals including the period of time when I was coeditor of the Journal of Studies and Alcohol This journal is one of the oldest and most widely circulated journals of reporting alcohol related studies including studies on treatment and diagnosis throughout the world**
- (4) **Q Can you explain briefly for the jury what a peer review journal is?**
- (5) **A It is a journal in which a person submitting an article to that journal has that article reviewed anonymously by two expert individuals who make judgments about its validity and suitability for publication**
- (6) **Q Have you yourself authored and had articles published in peer review journals?**
- (7) **A Yes I have**
- (8) **Q Approximately how many?**
- (9) **A Well I've had a total of about 400 articles published in a variety of journals as well as in texts**
- (10) **Q Approximately how many of the articles - what percentage of the articles that you have published have to do with**

Vol 20 3283

- (1) alcohol related problems?
- (2) **A Roughly, I'd say about 75 to 80 percent**
- (3) **Q In addition to articles have you also authored books?**
- (4) **A Yes I've authored textbooks on The Diagnosis and Treatment of Alcoholism and I've also contributed chapters to textbooks of internal medicine on this topic**
- (5) **Q The textbook that you have written on alcoholism what is the name of that book?**
- (6) **A The most recent version is the Medical Diagnosis and Treatment of Alcoholism**
- (7) **Q Is that a textbook that's widely used in medical schools?**
- (8) **A It is my understanding that it's a textbook most widely used in medical schools It is the companion volume to a textbook entitled Harrison's Principles of Internal Medicine which is a text that is very widely used in medical schools and throughout the world**
- (9) **Q Just one more short thing about your credentials Have you received any honors or awards?**
- (10) **A Yes, I have**
- (11) **Q Can you tell us what honors and awards you have received related to your experience in alcohol related problems?**
- (12) **A Yes I have received the major award from the American Psychiatric Society their major research prize for studies, which I and my colleagues carried out relating to the diagnosis and treatment of alcohol related problems**

Vol 20 3284

- (1) **I have also received an award from the Research Society on Alcoholism which is the major research institutional group in the United States for investigative work which I have carried out with my colleagues in alcohol related areas**
- (2) **I've received the Jellinek award which is the major international prize given for investigators throughout the world who have conducted work in alcoholism**
- (3) **I have also served as a member of the nominating committee for the Nobel Prize in physiology or medicine**
- (4) **Q Just so the jury is clear on that doctor you haven't received the Nobel Prize?**
- (5) **A No I haven't I've been on the nominating committee**
- (6) **MR RUSSO Your Honor I'd like to offer Dr Mendelson as an expert in psychiatry and the diagnosis and treatment and prevention of alcohol related problems**
- (7) **MR O NEILL No objection**
- (8) **THE COURT The doctor's qualifications are accepted**
- (9) **BY MR RUSSO**
- (10) **Q Dr Mendelson in conjunction with your preparation for testifying in this case have you had occasion to review the document known as the Individual Disability Report?**
- (11) **A Yes I have**
- (12) **Q Have you also had occasion can to review a book or manual known as the DSM III?**
- (13) **A Yes I have**

Vol 20 3285

- (1) Q I d like to have put up on the screen PX10 Plaintiff's  
 (2) Exhibit 10  
 (3) You ll notice there is a video screen right next to you  
 (4) also one here too (indicating) if you prefer to look at this  
 (5) one  
 (6) I d like you to look at this document that s been displayed  
 (7) up on the screen Is that the individual disability report  
 (8) that you reviewed?  
 (9) A Yes it is  
 (10) Q It is your understanding that this is the individual  
 (11) disability report that was sent to Exxon Corporation by  
 (12) Dr Vallury?  
 (13) A Yes  
 (14) Q Is it possible to have that brought up a little bit in the  
 (15) center?  
 (16) Doctor in looking at this particular individual disability  
 (17) report can you see an area here which relates to Captain  
 (18) Hazelwood s diagnosis?  
 (19) A Yes I can  
 (20) Q Can you tell us where that is?  
 (21) A I am sorry I don't have a pointer but it's the line -  
 (22) yes, that is it  
 (23) Q (Indicating) Now what is it that you see here that you  
 (24) say is the diagnosis?  
 (25) A Those are two diagnostic code numbers which are  
 derived

Vol 20 3286

- (1) from the Diagnostic and Statistical Manual III which is in  
 (2) parentheses DSM III  
 (3) Q There s here right this little thing here DSM III in  
 (4) parenthesis?  
 (5) A That's correct  
 (6) Q And those are code numbers?  
 (7) A Those are code numbers  
 (8) Q So if one wanted to determine what Captain Hazelwood s  
 (9) diagnosis was in looking at this form you would look at these  
 (10) code numbers and you would go to the manual DSM III?  
 (11) A That is correct  
 (12) Q And that would tell you correct?  
 (13) A Yes  
 (14) Q Now can you tell the jury what DSM III is?  
 (15) A Diagnostic and Statistical Manual III was a publication  
 (16) compiled by the American Psychiatric Association following  
 (17) contributions by experts in the field for describing the  
 (18) diagnostic criteria for establishment of a diagnosis of an  
 (19) individual who had a psychiatric illness  
 (20) Q Now in 1985 Doctor was DSM III the primary diagnostic  
 (21) manual for individuals in the United States?  
 (22) A It was the - not only primary but I would say the  
 (23) exclusive diagnostic manual which achieved consensus in  
 (24) most  
 (25) inpatient and outpatient settings in the United States  
 (26) Q Now in terms of this diagnosis right here on the

Vol 20 3287

- (1) diagnosis section 300.40 and 305.02 according to the  
 (2) diagnostic manual DSM III what is this diagnosis?  
 (3) A That diagnosis is dysthymia  
 (4) Q That s 300.40?  
 (5) A That's correct  
 (6) Q And this diagnosis 305.02 what is that diagnosis?  
 (7) A That is alcohol abuse episodic  
 (8) Q Now in conjunction with the fact that the dysthymia is  
 (9) listed first and the alcohol abuse episodic is listed second  
 (10) is there any medical significance to that?  
 (11) A Yes the primary diagnosis in any medical record is  
 usually  
 (12) the first listed diagnosis  
 (13) Q So you would conclude then that the primary diagnosis on  
 (14) this form is what?  
 (15) A Dysthymia  
 (16) Q And the second carry diagnosis is what?  
 (17) A It would be alcohol abuse episodic  
 (18) Q And Doctor in terms of DSM III what it says in DSM III  
 (19) the manual is that diagnosis a diagnosis for alcoholism?  
 (20) A It is absolutely not a diagnosis for alcoholism  
 (21) Q Why is that not a diagnosis for alcoholism?  
 (22) A Because in order to achieve the diagnostic criteria for  
 (23) alcoholism the diagnosis would have to include criteria  
 which  
 (24) indicate either alcohol withdrawal or significant alcohol  
 (25) intolerance

Vol 20 3288

- (1) Q In conjunction with that Doctor under the criteria of  
 (2) DSM III if that were the case diagnosis would be alcohol  
 (3) dependency as opposed to alcohol abuse episodic?  
 (4) A That is correct DSM III states explicitly that alcoholism  
 (5) is - alcoholism is alcohol dependency  
 (6) Q As opposed to -  
 (7) A Which is not alcoholism  
 (8) Q Now I d like you to explain as best you can in layman s  
 (9) terms what is dysthymia? What is the primary diagnosis  
 (10) dysthymia? What does that mean?  
 (11) A Well dysthymia is a form of depression It's relatively  
 (12) common, many many individuals have experienced it It's  
 (13) characterized by feelings of sadness at times, by inability to  
 (14) sleep well either sleeping too short a time or sleeping too  
 (15) long a time It's characterized by difficulties that  
 (16) individuals may have in their perception of happiness or  
 (17) sadness in the world about them They may have  
 difficulties  
 (18) eating they may have difficulties sleeping as I mentioned  
 (19) It is not a severe depressive disorder but a relatively  
 (20) common one  
 (21) Q So would you say that it s a mild form of depression?  
 (22) A It's a mild form of depression  
 (23) Q All right Now the secondary diagnosis there alcohol  
 (24) abuse episodic Will you please explain to the members of the  
 (25) jury what that is?

Vol 20 3289

- (1) **A Well alcohol abuse episodic is basically inappropriate use**
- (2) **of alcohol on an episodic basis It is alcohol abuse but not**
- (3) **alcohol dependence or alcoholism**
- (4) Q Now you have testified and noted that there is a primary
- (5) and a secondary diagnosis here the primary being dysthymia
- and
- (6) the secondary being alcohol abuse episodic What is the
- (7) significance of the primary diagnosis being dysthymia and the
- (8) secondary being alcohol abuse episodic?
- (9) **A Well the general significance of a primary and secondary**
- (10) **diagnosis is that the secondary diagnosis is the result of**
- the
- (11) **primary diagnosis**
- (12) Q So in a situation where you have dysthymia and alcohol
- (13) abuse episodic is it your opinion that in that particular
- (14) situation the person would be drinking because they're
- (15) depressed?
- (16) **A That is correct**
- (17) Q Now Doctor you mentioned a term before when you were
- (18) talking about alcohol dependence the term being tolerance
- Do
- (19) you recall that?
- (20) **A Yes I did**
- (21) Q All right Under DSM III how is tolerance defined?
- (22) **A Tolerance is primarily defined as the need of an**
- individual
- (23) **to ingest an increasing amount of ethanol in order to**
- achieve
- (24) **the desired effect**
- (25) Q And in terms of DSM III if a person is diagnosed as

Vol 20 3290

- (1) alcohol abuse episodic as opposed to alcohol dependent that
- (2) means that they do not exhibit signs of tolerance is that
- (3) correct?
- (4) **A That is correct If they did exhibit it they wouldn't**
- (5) **achieve a diagnosis of alcohol abuse episodic**
- (6) Q Now before we leave the term tolerance I would like to
- (7) talk to you just a little bit about the physiological effect or
- (8) the metabolic effect of tolerance
- (9) If a person exhibits tolerance as defined in DSM III does
- (10) their ability to eliminate alcohol from their blood system
- (11) change?
- (12) **A It does significantly**
- (13) Q There has been some testimony in this case about the
- (14) average elimination rate being zero one five?
- (15) **A Yes**
- (16) Q Is that consistent with your perception of what an average
- (17) elimination rate would be?
- (18) **A That's a conservative but a reasonable estimate of an**
- (19) **average elimination rate in a nontolerant individual**
- (20) Q In a person that is tolerant to alcohol and would be
- (21) dependent under the criteria of DSM III what would be the rate
- (22) of elimination in such a person?
- (23) **A It could easily double and there are a variety of studies**
- (24) **which have been carried out under very carefully controlled**
- 
- (25) **that is to determine that they eliminate the alcohol from**

Vol 20 3291

- (1) **their body about twice the rate of a nontolerant person**
- (2) Q So if we assume then that the elimination rate for a
- (3) average person is zero one five what would be the rate for a
- (4) person exhibiting tolerance in accordance with DSM III?
- (5) **A Zero three zero**
- (6) Q Now I'd like you to look at this form a little further
- (7) and I call your attention now to the treatment section Do you
- (8) see that? Do you see these various things listed under one
- (9) two three four and five?
- (10) **A Yes**
- (11) Q Are these listings under the treatment section in your
- (12) opinion consistent with treatment for alcohol Doctor for
- (13) dysthymia and alcohol abuse?
- (14) **A Yes, they are**
- (15) Q Could you look at those particular categories of treatment
- (16) and tell the jury what in your opinion is consistent say
- (17) with treatment of the primary diagnosis dysthymia?
- (18) **A Treatment of the primary diagnosis of dysthymia would**
- (19) **involve individual psychotherapy, group therapy, and, if the**
- (20) **individual were a married person, marital therapy**
- (21) Q Those particular treatments that you have just described
- (22) are in fact treatments number one two and three on this
- (23) treatment section is that not correct?
- (24) **A Yes they would be**
- (25) Q In fact the first treatment is individual psychotherapy

Vol 20 3292

- (1) is that correct?
- (2) **A Yes**
- (3) Q Is individual psychotherapy particularly consistent with a
- (4) diagnosis of dysthymia as a primary diagnosis?
- (5) **A It's the major form of therapy that you utilize for**
- (6) **treatment of dysthymia**
- (7) Q Now looking once again at the overall treatment section
- (8) what categories of treatment in your opinion are consistent
- (9) with treatment for alcohol abuse episodic?
- (10) **A Well item number four AA which is Alcoholics**
- Anonymous**
- (11) **but I think it's only fair to point out that many persons who**
- (12) **have sustained problems psychiatric problems which have**
- never
- (13) **involved alcohol — an alcohol problem have often gained a**
- (14) **great deal of benefit by going to AA There are persons**
- (15) **that — patients that I have known who have held AA**
- membership**
- (16) **who have not had alcohol problems but have felt that**
- (17) **participation in that group activity is very helpful and very**
- (18) **supportive**
- (19) Q Doctor does a patient or person have to be alcohol
- (20) dependent to be referred to AA?
- (21) **A No absolutely not**
- (22) Q And it's consistent with a diagnosis of dysthymia and
- (23) alcohol abuse?
- (24) **A It would be I would say about a 50 percent consistency**
- (25) **yes**

Vol 20 3293

- (1) Q The fifth one there lectures seminars workshops  
 (2) pertaining to alcoholism Is that consistent with a diagnosis  
 (3) of dysthymia and alcohol abuse episodic?  
 (4) A Yes, I think that those - that last item would be  
 (5) perceived at least in my opinion to be an effort to prevent  
 (6) the occurrence of alcoholism  
 (7) Q Now Doctor looking at this treatment section would you  
 (8) say that this treatment would be consistent if the diagnosis  
 (9) were alcohol dependence or alcoholism?  
 (10) A It - no, it would not  
 (11) Q Why not?  
 (12) A Because if an individual or person had alcohol  
 (13) dependence  
 (14) or alcoholism from a medical and psychiatric point of view  
 (15) item one would not be individual psychotherapy  
 (16) Q What would item one be?  
 (17) A Item one would be pharmacotherapy  
 (18) Q What is?  
 (19) A Pharmacotherapy is a medical management for use of a  
 (20) medication, and there are and have been medications  
 (21) available  
 (22) for the treatment of persons who have alcohol dependence  
 (23) in  
 (24) order to prevent the emergence of alcohol withdrawal  
 (25) Q Doctor I'd like you now to look a little further down on  
 (26) this form where it says Mr Hazelwood will complete our 28 day  
 (27) program  
 (28) Do you see that?

Vol 20 3294

- (1) A Yes Yes  
 (2) Q Is a 28 day program that's referred to here is that  
 (3) consistent with treatment for dysthymia and alcohol abuse  
 (4) episodic?  
 (5) A Yes It would be  
 (6) Q Okay Is there anything in your opinion magical about a  
 (7) 28-day program being limited to just treatment for alcoholism?  
 (8) A Absolutely not At our inpatient treatment facilities and  
 (9) in many inpatient treatment facilities throughout the world  
 (10) persons with mild or moderate or severe depression receive  
 (11) 28  
 (12) days of inpatient treatment  
 (13) Q Now following along further on this particular entry you  
 (14) see Mr Hazelwood will be given a leave of absence to get  
 (15) involved in AA and aftercare What is aftercare what is your  
 (16) understanding of aftercare? Why is that relative to someone  
 (17) with a diagnosis of dysthymia and alcohol abuse episodic?  
 (18) A Well, aftercare could vary quite widely It could range  
 (19) from continuation of individual psychotherapy, to  
 (20) occasional  
 (21) attendance at group meetings in which there was no  
 (22) professional  
 (23) personnel at all supervising the treatment  
 (24) Q In your experience Doctor what is the normal length of  
 (25) time that a patient with a - with a diagnosis of dysthymia  
 (26) primary and alcohol abuse episodic would attend an aftercare  
 (27) program?  
 (28) A Period ranging from two to eight weeks

Vol 20 3295

- (1) Q And what would be the - how would it be decided that a  
 (2) patient would stop going to such a program?  
 (3) A Well the basic decision of any patient to either enter or  
 (4) remain in aftercare is based upon the patient's decision  
 (5) And  
 (6) the patients usually continue an aftercare treatment  
 (7) program  
 (8) based upon how they're feeling and how well they have  
 (9) resolved  
 (10) the problem which brought them into the aftercare program  
 (11) Q Doctor do you have an opinion concerning whether or not a  
 (12) person who has been treated for dysthymia and alcohol abuse  
 (13) episodic can resume drinking after treatment resume social  
 (14) drinking after treatment?  
 (15) A Yes I think someone who has had -  
 (16) Q What is your opinion relative to that? What is your  
 (17) opinion relative to that?  
 (18) A Well my opinion would be that an individual who has had  
 (19) dysthymia and episodic alcohol abuse could resume social  
 (20) drinking following completion of treatment  
 (21) Q Why do you believe that? What is the basis of your  
 (22) opinion?  
 (23) A Well, as I mentioned previously, dysthymia is a very, very  
 (24) frequent occurrence in the world And episodic alcohol  
 (25) abuse  
 (26) associated with dysthymia is also a very very frequent  
 (27) occurrence Many persons will drink too much and  
 (28) inappropriately in the context of experiencing dysthymia  
 (29) People drink to alleviate sorrow

Vol 20 3296

- (1) Q So there is no medical reason then that you're aware of  
 (2) why a person who has undergone treatment for dysthymia and  
 (3) alcohol abuse episodic could not after treatment resume  
 (4) social drinking?  
 (5) A That is correct  
 (6) Q Doctor in conjunction with your experience and your  
 (7) research are you familiar with the signs of intoxication in  
 (8) alcohol dependent people?  
 (9) A Yes I am  
 (10) Q And you mentioned before we discussed tolerance  
 (11) something  
 (12) about elimination rates And you said that the elimination  
 (13) rate for an alcoholic person would be double that of an average  
 (14) person?  
 (15) A That is correct  
 (16) Q You are talking about the rate per hour right?  
 (17) A Right Clearances or the disappearance of alcohol from  
 (18) the  
 (19) body over an hour - or over hourly intervals  
 (20) Q Do you have an opinion as to whether - as to whether an  
 (21) alcohol dependent person would show signs of intoxication if  
 (22) they had a high blood alcohol level of say .35 to .4?  
 (23) A Any individual with or without tolerance at a blood  
 (24) alcohol  
 (25) level of zero - I'm sorry?  
 (26) Q .35 to -  
 (27) A .3 to point -  
 (28) Q Four

Vol 20 3297

- (1) A Four yes would probably be either comatose or very close
- (2) to coma The lethal - you're now approaching the - an almost
- (3) lethal dose of alcohol
- (4) Q What about level of 25 to 30?
- (5) A Most individuals would be in incipient coma at that point
- (6) Certainly near coma or just prior to coma at those blood
- (7) alcohol levels
- (8) Q All right And what about at 226?
- (9) A Severely intoxicated
- (10) Q Can you describe what you expect to observe in such a
- (11) person?
- (12) A They would be unable to walk and to move about in a
- (13) coordinated manner Their speech would be drastically
- (14) slurred They would be virtually incapacitated
- (15) Q What about at 241?
- (16) A That's - the phenomena would be relatively similar at that
- (17) point
- (18) MR RUSSO Thank you Dr Mendelson Your witness
- (19) THE COURT You may cross examine
- (20) MR O NEILL Thank you
- (21) CROSS EXAMINATION OF JACK MENDELSON
- (22) BY MR O NEILL
- (23) Q How are you sir?
- (24) A Fine
- (25) Q I took the occasion last night to read your books

Vol 20 3298

- (1) You testified briefly about - well let me ask you a
- (2) question
- (3) What does it mean to be an auditor of a book like the
- (4) diagnosis and treatment of alcoholism which says edited by
- (5) Jack
- (6) Mendelson M D and Nancy Mello Ph D ? What does it mean
- (7) to
- (8) be the coeditor of the book?
- (9) A Well editing that specific text was based upon the
- (10) request
- (11) made by the publisher and I think was - don't recall who the
- (12) publisher was - through Harvard to publish a text on the
- (13) diagnosis and treatment of alcoholism
- (14) Q Now you testified today that you believed that some body
- (15) who suffered from dysthymia and alcohol abuse episodic could
- (16) return to drinking That's a correct statement?
- (17) A They could return to social drinking
- (18) Q Social drinking And indeed at certain times in the past
- (19) you have taken the position that people who suffer from
- (20) alcoholism can return to social drinking haven't you?
- (21) A We have quoted work completed by investigators who
- (22) have
- (23) ascertained that certain persons can return to work
- (24) following
- (25) drinking
- (1) Q And would those be Rand investigators or the Rand
- (2) Corporation investigators among others?
- (3) A The grant to the Rand Corporation for the study that I
- (4) think you're referring to was provided by the National
- (5) Institute on Alcohol Abuse and Alcoholism and the Rand

Vol 20 3299

- (1) Corporation subcontracted the study to faculty from
- (2) Washington
- (3) University School of Medicine, Mt Sinai Hospital, the
- (4) University of California, and the major portion of the study,
- (5) the clinical portion of the study was carried out by
- (6) investigators from Johns Hopkins University
- (7) Q With regard to your book The Diagnosis and Treatment of
- (8) Alcoholism who made possible the preparation of the text was
- (9) there a grant involved?
- (10) A Oh, yes I believe we acknowledged in the preface to the
- (11) text the grant provided to Harvard, to Harvard by a number
- (12) of
- (13) entities, including the Distilled Spirits Council of the United
- (14) States
- (15) Q And the front page of the text there's an acknowledgment
- (16) and the acknowledgment reads Preparation of this text was
- (17) made
- (18) possible by a grant from the Distilled Spirits Council of the
- (19) United States Inc Washington D C
- (20) Who is the distilled spirits Council of the United States
- (21) Inc ?
- (22) A They were a trade organization which provided funds to
- (23) the
- (24) Harvard Medical School for the preparation of the text
- (25) Q They're a trade organization that is essentially the
- (1) industry that makes hard liquor is that correct?
- (2) A They make wine distilled spirits and beer
- (3) Q Okay Now as the coeditor of this book you testified a
- (4) little bit about your expertise with regard to observing

Vol 20 3300

- (1) alcoholics what they can do what they can't do or observing
- (2) people under the influence of alcohol And there were a couple
- (3) of these ranges
- (4) Telling whether somebody is drinking or not drinking is a
- (5) difficult thing to do isn't it?
- (6) A No
- (7) Q Do alcoholics give an accurate histories of how much
- (8) they've had to drink?
- (9) A Sometimes they do and sometimes they don't
- (10) Q What are the NCA criteria for the diagnosis of alcoholism?
- (11) A This is the National Council on Alcoholism?
- (12) Q Out of your book it's table one NCA criteria for the
- (13) diagnosis of alcoholism
- (14) A Well I just responded the NCA stands for the National
- (15) Council on Alcoholism
- (16) Q Would it be fair to say that if you talk about tolerance
- (17) a factor with regard to tolerance is the fact that an
- (18) alcoholic can have a blood alcohol level of greater than 15
- (19) without gross evidence of intoxication?
- (20) A According to the NCA criteria, that is what the NCA has
- (21) stated There is significant disagreement with those
- (22) criteria
- (23) that those are accurate
- (24) Q Would you agree with the statement that the conviction that
- (25) tolerance to alcohol may be linked to development and
- (1) maintenance of abusive consumption patterns is not a new
- (2) one?

Vol 20 3301

- (1) **A I'm sorry?**  
 (2) **Q The conviction that tolerance to alcohol may be linked to**  
 (3) **development and maintenance of abusive consumption**  
 (4) **patterns is**  
 (5) **not a new one?**  
 (6) **A That is correct**  
 (7) **Q Aftercare as you talked about on Exhibit 10 the IDR is**  
 (8) **associated also with alcoholism isn't it?**  
 (9) **A I'm sorry?**  
 (10) **Q Aftercare is a prescription for people who suffer from the**  
 (11) **disease of alcoholism**  
 (12) **A Persons who suffer from a variety of diseases including**  
 (13) **alcoholism**  
 (14) **Q Including alcoholism?**  
 (15) **A Could receive aftercare**  
 (16) **Q And they could have the prescription to attend Alcoholics**  
 (17) **Anonymous?**  
 (18) **A I wouldn't call it a prescription to attend**  
 (19) **Q You wouldn't?**  
 (20) **A I would call it - excuse me I would call it a discussion**  
 (21) **that they would engage in with their therapist, and if both of**  
 (22) **them deemed that that would be helpful and useful, that**  
 (23) **would**  
 (24) **be undertaken**  
 (25) **Q Would you agree with the proposition that abstinence is a**  
 (26) **goal appropriate for all alcoholics one would certainly not**  
 (27) **want one's alcoholic taxi driver pilot or accountant to**

Vol 20 3302

- (1) **aspire to anything else?**  
 (2) **A The problem that I have is the term alcoholic Which is a**  
 (3) **generic - generic term that doesn't really specify alcohol**  
 (4) **abuse or alcoholism**  
 (5) **Q Are you aware that Peter Nathan (ph) a colleague in your**  
 (6) **book published a chapter which states Abstinence - and in**  
 (7) **the chapter that statement is made Abstinence is a goal**  
 (8) **appropriate for all alcoholics One would certainly not want**  
 (9) **one's alcoholic taxi driver pilot or accountant to aspire to**  
 (10) **anything else**  
 (11) **Are you aware of the statement being made in your book?**  
 (12) **A Yes and I know Dr Nathan, and quite well and he would**  
 (13) **define alcoholic as alcoholism**  
 (14) **Q Does Dr Nathan take the position that alcoholics who have**  
 (15) **achieved sobriety must not be lead to believe that they can**  
 (16) **either drink in a controlled fashion no available data suggest**  
 (17) **that we have the means to enable an alcoholic to achieve that**  
 (18) **goal Is that Dr Nathan answer's position in your book?**  
 (19) **A That could be Dr Nathan's position What year was that**  
 (20) **text published, sir?**  
 (21) **Q I'm working on this one and I'll eventually get to the**  
 (22) **other one Is this - 1985 1979 is this the right one?**  
 (23) **A That's right**  
 (24) **Q Psychotherapy is in fact prescribed - you talked about the**  
 (25) **IDR number one psychotherapy Psychotherapy is in fact**

Vol 20 3303

- (1) **prescribed for alcoholism isn't it?**  
 (2) **A Yes but it would not be the primary listing under**  
 (3) **treatment regimen Primary regimen would be formative**  
 (4) **therapy**  
 (5) **Q What is the third tradition of Alcoholics Anonymous do you**  
 (6) **know?**  
 (7) **A I haven't memorized the traditions no**  
 (8) **Q Have you even looked at them?**  
 (9) **A Of course I have**  
 (10) **Q If I were to state that the third tradition was something**  
 (11) **along the lines of the requirement for membership in**  
 (12) **Alcoholics Anonymous - is a desire to stop drinking the only**  
 (13) **requirement? Is the desire to stop drinking would that accord**  
 (14) **with your recollection?**  
 (15) **A That would accord with my recollection but it would not**  
 (16) **accord with my knowledge that persons can attain**  
 (17) **participation**  
 (18) **in Alcoholics Anonymous and never be asked what their**  
 (19) **problem**  
 (20) **is In fact anonymity and the option to remain silent is a**  
 (21) **wonderful and standard procedure in Alcoholics**  
 (22) **Anonymous**  
 (23) **Q Sir I have a book here called Medical Diagnosis and**  
 (24) **Treatment of Alcoholism and I think you mentioned this in your**  
 (25) **direct testimony**  
 (26) **A Yes**  
 (27) **Q This is a book that you wrote?**  
 (28) **A This is a book which I and my colleague friend and wife**  
 (29) **edited**

Vol 20 3304

- (1) **Q This one you edited?**  
 (2) **A Yes**  
 (3) **Q Okay**  
 (4) **A It's an edited text that have contributions by 22 other**  
 (5) **individuals**  
 (6) **Q You're right This text I - as I look at the preface -**  
 (7) **was facilitated a grant from the Licensed Beverage Information**  
 (8) **Council**  
 (9) **A That is correct**  
 (10) **Q What is that?**  
 (11) **A Licensed Beverage Information Council is a trade**  
 (12) **organization that is based in Washington D C Their**  
 (13) **activities include providing a better fund of information to**  
 (14) **individuals in order to reduce the prevalence of**  
 (15) **alcohol-related problems**  
 (16) **Q Who gives them their money -**  
 (17) **A Who gives who their money?**  
 (18) **Q - the Licensed Beverage Information Council?**  
 (19) **A You would have to ask them that**  
 (20) **Q Do you know?**  
 (21) **A I don't know**  
 (22) **Q The text was also facilitated by the Distilled Spirits**  
 (23) **Council of the United States**  
 (24) **A That is correct**  
 (25) **Q Okay**

Vol 20 3305

- (1) A May I add again that these grant funds were provided to  
 (2) Harvard and were not used for payment of anyone who  
 contributed  
 (3) to the text They were for secretarial service and say, for  
 (4) editing  
 (5) And with respect to that particular text there is one other  
 (6) thing that I should add There was a very explicit agreement  
 (7) between Harvard and the royalty funds which are received  
 from  
 (8) the publisher to be used for a very specific purpose That  
 (9) purpose was to provide educational support for women and  
 in  
 (10) particular minority women who had lacking financial  
 resources  
 (11) for their medical training  
 (12) Q You wrote the grant proposal or participated in writing of  
 (13) the grant proposal for the Distilled Spirits Council of  
 (14) America didn't you?  
 (15) A I did not I should add, the grants are not given either  
 (16) by the National Institute of Health or by most  
 organizations,  
 (17) to individuals, they're given to institutions The institution  
 (18) is the recipient to the grant  
 (19) Q With regard to your two books on alcohol you got grants  
 (20) from the liquor industry?  
 (21) A No Harvard Medical School received funds from two  
 (22) organizations plus many other organizations to prepare  
 these  
 (23) texts  
 (24) Q I want to talk for a minute if we could before we get on  
 (25) to the second book about DSM III and about what alcohol  
 abuse

Vol 20 3306

- (1) episodic is  
 (2) Episodic is a form as I understand it in DSM III of  
 (3) alcohol abuse It's one of three kinds of alcohol abuse - at  
 (4) least in DSM III?  
 (5) A That is correct  
 (6) Q And alcohol abuse includes among other things the need  
 (7) for the daily use of alcohol for adequate functioning  
 (8) A It could but doesn't specifically require it  
 (9) Q Okay I'm going to read through what is in DSM III and  
 (10) you tell me whether it's this is your recollection of what's in  
 (11) DSM III  
 (12) The need for the daily use of alcohol for adequate  
 (13) functioning is that in DSM III for alcohol abuse?  
 (14) A Would you read in DSM III -  
 (15) Q I'm going to read the whole thing  
 (16) A Excuse me Would you read the fact that each of the  
 items  
 (17) that you are reciting is not a requirement but that there can  
 (18) be alternate items that are required?  
 (19) Q Okay That's fine  
 (20) A In other words what you're reading implies that everyone  
 (21) with alcohol abuse has to have this particular symptom  
 (22) Q We looked at the diagnosis on the IDR The diagnosis on  
 (23) IDR includes alcohol abuse That's a correct statement?  
 (24) A It is alcohol abuse episodic  
 (25) Q DSM III defines first alcohol abuse in a general format

Vol 20 3307

- (1) doesn't it?  
 (2) A It defines it in a general format but specifies how many of  
 (3) those conditions must be present If you -  
 (4) Q Let's discuss the conditions first -  
 (5) MR RUSSO I object The witness must be allowed to  
 (6) finish the answer He was in the middle of an answer and he  
 (7) was interrupted  
 (8) THE COURT You're going already  
 (9) BY MR O NEILL  
 (10) Q In fact you listed - and you tell me if I'm wrong on a  
 (11) factor DSM III include the need for daily use of alcohol for  
 (12) adequate functioning Is that a factor to look at?  
 (13) A It is a factor that would not be required for all persons  
 (14) who are diagnosed as alcohol abuse  
 (15) Q Is it in the DSM?  
 (16) A Of course it is Hypertension is in there too  
 (17) Q Inability to cut down or stop drinking Is that in the DSM  
 (18) for alcohol abuse?  
 (19) A That is there  
 (20) Q Repeated effort to control or reduce excess drinking by  
 (21) going on the wagon Periods of abstinence or restricting  
 (22) drinking to certain times of the day, is that in there?  
 (23) A That is in  
 (24) Q Binges is that in there?  
 (25) A That's in there

Vol 20 3308

- (1) Q Occasional consumption of a fifth of spirits or its  
 (2) equivalent in wine or beer Is that in there?  
 (3) A That is in there  
 (4) Q What is the equivalent of a fifth of spirits in wine or  
 (5) beer?  
 (6) A I don't know what the equivalent of a fifth of spirits in  
 (7) beer is  
 (8) Q Amnesic periods for events occurring while intoxicated  
 (9) blackouts is that in there?  
 (10) A That's in there  
 (11) Q Continuation of drinking despite a serious physical  
 (12) disorder that the individual knows is exacerbated by alcohol  
 (13) abuse Is that in there?  
 (14) A Yes  
 (15) Q Is drinking of nonbeverage alcohol in there?  
 (16) A That is there  
 (17) Now only one of those entities only one of all of those  
 (18) entities which you read would be required to establish a  
 (19) diagnosis of alcohol abuse A young person consuming  
 (20) mouthwash which is a nonbeverage alcohol, could be  
 diagnosed  
 (21) as alcohol abuse by those criteria  
 (22) Q So your position is that a young person who consumes  
 (23) mouthwash can be diagnosed as an alcohol abuse episodic  
 person?  
 (24) A Yes  
 (25) Q The IDA has on it listed lectures seminars workshops

Vol 20 3309

- (1) pertaining to alcoholism Do you recall that?  
 (2) A Yes  
 (3) Q It has on it under treatment Alcoholics Anonymous or AA  
 (4) Do you recall that?  
 (5) A Yes  
 (6) Q Are you aware of the fact that the Hazelton (ph) model with  
 (7) regard to treatment is often referred to as a 28 day treatment?  
 (8) A I have not seen that in the biomedical literature  
 (9) Q Have you ever heard it among colleagues?  
 (10) A No  
 (11) Q Scuttlebutt?  
 (12) A No  
 (13) Q With regard to the prescription there for aftercare you  
 (14) testified with regard to aftercare that the proper time with  
 (15) regard to the termination of aftercare in part depends upon  
 (16) where the patient thinks that he s done with aftercare Do you  
 (17) recall that?  
 (18) A That's correct  
 (19) Q Do you know in this case whether Captain Hazelwood quit  
 (20) aftercare didn t quit aftercare or were you trying to justify  
 (21) him quitting aftercare?  
 (22) THE WITNESS Your Honor may I ask the question? I  
 (23) believe this pertains -  
 (24) MR RUSSO May we have a brief side bar? I believe  
 (25) the witness read -

Vol 20 3310

- (1) MR O NEILL I believe the testimony from Captain  
 (2) Hazelwood in this courtroom is that he quit going to aftercare  
 (3) because the people in the aftercare sessions were preoccupied  
 (4) with alcohol That is the force and effect of my question  
 (5) BY MR O NEILL  
 (6) Q Did you know that?  
 (7) THE COURT Does that help you answer the question?  
 (8) THE WITNESS Yes it helps me answer the question  
 (9) A If his primary diagnosis was dysthymia and he perceives  
 (10) that the primary in aftercare was alcoholism or alcohol  
 (11) dependence, he may have decided not to continue  
 participation  
 (12) BY MR O NEILL  
 (13) Q Would you agree with the comment made in chapter one of  
 (14) Medical Diagnosis and the Treatment of Alcohol the book that  
 (15) you and your wife edited the acceptance of a commonly  
 (16) recognized term with regard to alcohol related problems has  
 not  
 (17) resulted in commonly accepted diagnostic criteria Would you  
 (18) agree with that comment?  
 (19) A That comment was made in the context of the fact that  
 most  
 (20) medical organizations throughout the world do not ill use  
 the  
 (21) same diagnostic criteria  
 (22) Q Thank you  
 (23) What is ICD 10?  
 (24) A ICD 10 was the international classification of diseases  
 (25) Q That also has a separate classification scheme with regard

Vol 20 3311

- (1) to alcoholism doesn t it?  
 (2) A Yes it is the - it is the format that is used primarily  
 (3) in European and Scandinavian countries  
 (4) Q With regard to may be physical behavioral or psychological  
 (5) is that a correct statement?  
 (6) A That is correct  
 (7) Q A clear example would be the consumption of amounts -  
 (8) e g a quart of vodka that would be sufficient to incapacitate  
 (9) or kill nontolerant drinkers  
 (10) Is that an example of tolerance?  
 (11) A Yes  
 (12) Q Marked tolerance is suggested by little or no impairment  
 (13) even at high blood alcohol concentrations Is that a correct  
 (14) statement?  
 (15) A With the qualification of the word "high" High being in  
 (16) excess of 100 milligrams per decimeter but when one  
 reaches  
 (17) levels of two to 300 milligrams per decimeter or 2 to 3  
 (18) your terminology very few individuals could conceal severe  
 (19) intoxications  
 (20) Q People who go in for treatment for alcoholism often go in  
 (21) because of a precipitating event a life crisis such as an  
 (22) accident increased difficulties with the spouse job or legal  
 (23) problems Is that a correct statement?  
 (24) A That can occur  
 (25) Q There are - in Chapter 11 of the book that you edited

Vol 20 3312

- (1) there s a description of an inpatient treatment program for  
 (2) alcoholism that includes group therapy individual  
 (3) psychotherapy Alcoholics Anonymous and group lectures or  
 (4) discussions concerning alcoholism  
 (5) Are you aware of that?  
 (6) A Yes I was Or I am  
 (7) Q Is it a correct statement to say that because alcohol  
 (8) problems generally go on for a long time before the patient is  
 (9) confronted or confronts the problem that it is not surprising  
 (10) that the recovery process tends to occur over a long difficult  
 (11) period?  
 (12) A For some individuals but not for all  
 (13) Q You had - you re - you were questioned by Captain  
 (14) Hazelwood s lawyer here today?  
 (15) A I beg your pardon?  
 (16) Q The person who put on your direct testimony was one of the  
 (17) lawyers for Captain Hazelwood?  
 (18) A I assume so  
 (19) Q Why didn t you just examine Captain Hazelwood and give  
 him  
 (20) a mass (ph) test?  
 (21) A Because I wasn't asked to examine Captain Hazelwood  
 and I  
 (22) think that a request to do so would be medically - not be  
 (23) medically ethical unless the patient requested it  
 (24) Q Let me talk to you a little bit about medical ethics or  
 (25) ethics common decency Captain Hazelwood was given a  
 90 day

Vol 20 3313

- (1) leave of absence to get involved in AA and aftercare Do you  
(2) recall that?  
(3) A Yes  
(4) Q Did you know he wasn't paid during that leave of absence?  
(5) MR RUSSO I object Judge Beyond the scope  
(6) MR O NEILL He's right  
(7) THE COURT I think so too Sustained  
(8) BY MR O NEILL  
(9) Q Should have waited and see what the answer was  
(10) Definitions - here is a - a statement in general  
(11) Alcoholism alcohol dependencies and alcoholics are used to  
(12) describe the more severe disease forms of this disorder  
(13) specifically repeated harm from drinking Johnson and Clark  
(14) 1989  
(15) Do you recall that statement it's in Chapter 14 of your  
(16) book?  
(17) A I think the description is the statement what is people -  
(18) what terms people use The adequacy or correct use of  
those  
(19) terms is not discussed People talk about heart attacks A  
(20) heart attack can be widely varying from severe myocardial  
(21) infarction to transient pain from which recovery occurs very  
(22) promptly  
(23) Q I don't have - you're going to be disappointed in me on  
(24) this one because I didn't buy the hard paper copy I mean the  
(25) hard bound copy See have we looked at alcohol use and  
abuse

Vol 20 3314

- (1) in America yet?  
(2) A Yes  
(3) Q Have we looked at - is this a book that - is this a book  
(4) that you wrote completely or is this also a collection of  
(5) articles?  
(6) A No this is a book that I wrote with my colleague and wife  
(7) Dr Nancy Mello  
(8) Q I enjoyed reading your books  
(9) Here is page 268 of your book At page 268 the statement  
(10) is made Alcohol addicts also develop tolerance for many  
(11) toxics such as methanol and others that would be fatal to  
(12) others  
(13) Do you see that?  
(14) A That's correct  
(15) Q And then the next paragraph The fact that the alcoholic  
(16) can tolerate blood alcohol levels in a 200 to 400 milligram  
(17) per - is that deciliter or decaliter?  
(18) A Deciliter  
(19) Q - deciliter range that separate him or her from occasional  
(20) social drinkers Alcoholics may show minimal behavioral signs  
(21) of intoxication at these blood alcohol levels whereas social  
(22) drinkers may be severely intoxicated at blood alcohol levels  
(23) above 100 milligrams per deciliter Do you see that?  
(24) A Yes  
(25) Q 200 to 400 milligrams per deciliter which Exxon applies

Vol 20 3315

- (1) as 20 to 40 alcohol level isn't it?  
(2) A That's correct  
(3) Q In here you and/or your wife make the statement that  
(4) Alcoholics may show minimal behavioral signs of intoxication at  
(5) these blood alcohol levels 2 to 4 Isn't that right?  
(6) A We say "may show", but you also didn't read the  
paragraph  
(7) before which says, The alcoholic rarely develops blood  
alcohol  
(8) levels above 450 milligrams per deciliter Respiratory  
(9) depression and death can occur at a concentration above  
500 to  
(10) 600 milligrams per deciliter  
(11) Q But I'm concerned about 2 to 4  
(12) At 2 to 4 in your book your words are that Alcoholics  
(13) may show minimal behavioral signs of intoxication at these  
(14) blood alcohol levels  
(15) A These refer to the term alcoholic or alcohol-dependent  
(16) persons Alcoholism is alcohol dependence  
(17) Q Let's put it up and we'll show everybody in its context so  
(18) that everybody can put it into context because it's an  
(19) important statement  
(20) A If I may just emphasize you're reading the words in the  
(21) middle of the page Alcohol addicts is the reference  
Alcohol  
(22) addicts that is those persons who are addicted to alcohol  
(23) alcoholism  
(24) Q Let's assume that Let's assume that a person is an  
(25) alcohol addict or addicted to alcohol That person can

Vol 20 3316

- (1) function at blood alcohol levels of 2 to 4 and show minimal  
(2) signs of impairment whereas the rest of us cannot Is that a  
(3) correct statement an alcohol addict -  
(4) A An alcohol addict could show tolerance to alcohol  
(5) Q Now with regard to this book there is an acknowledgment  
(6) to the Economic Research Department of the Wine Institute the  
(7) United States Brewers Association and the Distilled Spirits  
(8) Council of the United States and the Brewers Association of  
(9) Canada  
(10) Did they provide assistance in the preparation of this  
(11) text?  
(12) A They did not provide assistance If you read it briefly,  
(13) they provided tables and figures published in one of the  
(14) chapters describing the role of psychiatry and the  
regulators  
(15) Q I'm interested in a statement in your book perhaps alcohol  
(16) first affects the cortical centers believed to be involved in  
(17) cognitive function then progressed to lower brain centers  
(18) involved in motor control then respiration  
(19) Is that a correct statement?  
(20) A That's a supposition  
(21) Q Supposition a supposition that you made?  
(22) A A supposition that we made based upon hypotheses  
which have  
(23) been generated by people examining the field  
(24) Q And the supposition the conclusion at least in layman's  
(25) terms from the supposition that alcohol affects judgment and

Vol 20 3317

- (1) then thereafter affects motor skills Is that a fair  
 (2) conclusion to draw assuming the supposition is right?  
 (3) **A Yes**  
 (4) **Q Alcoholics may develop enormous tolerance for alcohol Is**  
 (5) **that a correct statement?**  
 (6) **A That is correct**  
 (7) **Q There is increasing evidence that alcohol and intoxication**  
 (8) **is associated with a great increase in the risk taking and of**  
 (9) **aggression while driving Is that a correct statement?**  
 (10) **A That is correct**  
 (11) **Q And the chronic alcoholic can assume far higher doses of**  
 (12) **alcohol than the casual social drinker without appearing to be**  
 (13) **intoxicated or exhibiting gross motor discoordination**  
 (14) **Is that a correct statement?**  
 (15) **A That is correct for someone who would be diagnosed a**  
 (16) **alcohol dependent**  
 (17) **Q Now I want to talk for a minute about alcohol and**  
 (18) **depression Okay that's where we're going to a new subject**  
 (19) **Alcohol and depression - alcoholism and depression often**  
 (20) **coexist?**  
 (21) **A That's correct**  
 (22) **Q Indeed chronic heavy drinking may result in depression?**  
 (23) **A For some individuals, yes**  
 (24) **Q And indeed research has shown that repeated - has shown**  
 (25) **repeatedly that alcohol may produce profound dysphoria**  
**anxiety**

Vol 20 3318

- (1) and tension  
 (2) **A That is correct**  
 (3) **Q Statistics show the blood alcohol levels in deceased**  
 (4) **drivers are above .15 The nontolerant individual would**  
 (5) **probably be able - unable to drive at these blood alcohol**  
 (6) **levels**  
 (7) **Is that a correct statement?**  
 (8) **A That's correct**  
 (9) **Q So we have people who have a tolerance able to drive**  
 (10) **automobiles at .15 is that a correct statement?**  
 (11) **A I'm sorry?**  
 (12) **Q Somebody who has a tolerance to alcohol can drive a car**  
 (13) **there are people who have a tolerance to alcohol that can drive**  
 (14) **automobiles at .15?**  
 (15) **A Persons could do that but persons who have intolerance**  
 (16) **for**  
 (17) **alcohol could probably do it, too**  
 (18) **Q What would it take how many drinks would it take over**  
 (19) **three four five hours to get up to a .15?**  
 (20) **A Well, it depends on the body weight of an individual total**  
 (21) **body mass**  
 (22) **Q 160 pounds 170 pounds?**  
 (23) **A 170 pounds male or female**  
 (24) **Q Male?**  
 (25) **A To achieve a blood alcohol level of -**  
**Q About - let's say .15?**

Vol 20 3319

- (1) **A 15' 170 pounds - oh 11 to 12 drinks**  
 (2) **Q Maybe ten?**  
 (3) **A If you want ten you can - you can have ten**  
 (4) **Q Okay thank you That gets us through about six pages so**  
 (5) **I appreciate it**  
 (6) **A Maybe 14**  
 (7) **Q It depends on the person?**  
 (8) **A For you today**  
 (9) **Q Yeah**  
 (10) **Now you talked for a minute about the fact that - let me**  
 (11) **go back to a subject that we talked about**  
 (12) **It is difficult if not impossible to decide if alcoholism**  
 (13) **followed depression or if depression emerged as a**  
 (14) **consequence**  
 (15) **of alcoholism**  
 (16) **A That statement is true within the context of talking about**  
 (17) **depression is major depression And that is depression**  
 (18) **including depression only severe or manic depressive**  
 (19) **episodes**  
 (20) **Q I'm a little bit interested in your comment that people who**  
 (21) **have developed tolerance for alcoholism metabolized at a**  
 (22) **different rate than people who don't have that tolerance**  
 (23) **That's sort of a general statement so we can get into the**  
 (24) **subject matter**  
 (25) **A There is a form of tolerance called metabolic tolerance**  
 (26) **which involves an increased elimination rate of alcohol**  
 (27) **Q But after a period of sobriety if somebody drinks**

Vol 20 3320

- (1) **episodically - drinks for a while doesn't drink for a while**  
 (2) **drinks for a while doesn't drink for a while - during the**  
 (3) **nondrinking periods their metabolism moves back as to where**  
 (4) **a**  
 (5) **normal drinker's are and their rate moves back to where normal**  
 (6) **drinker's rates are**  
 (7) **Isn't that a correct statement?**  
 (8) **A That is correct**  
 (9) **Q In other words what you're saying is that if anyone has**  
 (10) **an alcohol related problem and they abstain from drinking for a**  
 (11) **long enough period of time their ethanol breakdown or**  
 (12) **elimination rate would be more back toward where the norm**  
 (13) **would**  
 (14) **be?**  
 (15) **A That is correct**  
 (16) **MR O NEILL I have nothing further Thank you**  
 (17) **Thank you Doctor**  
 (18) **REDIRECT EXAMINATION OF JACK MENDELSON**  
 (19) **BY MR RUSSO**  
 (20) **Q I just have a few questions for you Doctor just to**  
 (21) **clarify a couple of things**  
 (22) **Mr O Neill went through the - mentioned some of the**  
 (23) **diagnostic criteria of DSM III for alcohol abuse Do you**  
 (24) **recall that?**  
 (25) **A Yes**  
 (26) **Q The diagnosis on the IDR that we've been discussing was**  
 (27) **alcohol abuse episodic Is that correct?**

Vol 20 3321

- (1) **A That's correct**  
 (2) Q Now those items that he read to you were a number of items  
 (3) that are included in - as part of the diagnostic criteria for  
 (4) alcohol abuse correct?  
 (5) **A That's correct**  
 (6) Q You don't have to meet all of those items that he read to  
 (7) you -  
 (8) **A Absolutely not**  
 (9) Q - as to be diagnosed as alcohol abuse?  
 (10) **A That is correct**  
 (11) Q Now one of the things he read to you was need for daily  
 (12) use for alcohol for adequate functioning Do you recall that?  
 (13) **A Yes**  
 (14) Q Now in terms of alcohol abuse episodic would it be your  
 (15) understanding that a person who was diagnosed as alcohol  
 (16) abuse  
 (17) episodic would not meet that criteria?  
 (18) **A By definition they couldn't meet that criterion because**  
 (19) **that refers to episodic not daily**  
 (20) Q Isn't it a fact that in this diagnostic manual DSM III  
 (21) there are categories Episodic is one another one is  
 (22) continuous correct?  
 (23) **A Right**  
 (24) Q So there's significance to the fact that the diagnosis of  
 (25) Captain Hazelwood in the IDR is alcohol abuse episodic as  
 (26) opposed to alcohol abuse continuous correct?

Vol 20 3322

- (1) **A Yes**  
 (2) Q And episodic means that episodically or on occasion that  
 (3) person would abuse alcohol or drink too much?  
 (4) **A That's correct**  
 (5) Q And that would satisfy the diagnosis criteria in and of  
 (6) itself for alcohol abuse episodic correct?  
 (7) **A That is correct**  
 (8) Q Now there's maybe a little confusion about some of the  
 (9) terminology  
 (10) You're using 100 to 200 milligrams per deciliter Do you  
 (11) recall what you said that?  
 (12) **A That's correct**  
 (13) Q We've been using terms like 1 and 2 so could you just  
 (14) define - I'd like you to explain to the jury how 100 to 200  
 (15) milligrams per deciliter translates into blood alcohol levels  
 (16) that we've been discussing in this case -  
 (17) **A I apologize if I've introduced any confusion but the way**  
 (18) **blood alcohol levels are reported in medical literature is**  
 (19) **different than the way they're discussed often is a function**  
 (20) **of**  
 (21) **legal limits of intoxication**  
 (22) **For example a hundred milligrams per deciliter would be**  
 (23) **equivalent to 1 200 milligrams per deciliter would be**  
 (24) **equivalent to 2 300 milligrams per deciliter would be 4**  
 (25) **equivalent to 3 400 milligrams per deciliter would be 4**  
 (26) **and**  
 (27) **500 milligrams per deciliter would be 5**

Vol 20 3323

- (1) Q Mr O'Neill also questioned you about the relationship  
 (2) between depression and alcoholism Do you remember that?  
 (3) **A Yes**  
 (4) Q Okay Now we've discussed what dysthymia is but is there  
 (5) a distinction between dysthymia and depression as used in your  
 (6) book that Mr O'Neill was talking about?  
 (7) **A Yes there is There's a distinction between dysthymia**  
 (8) **and**  
 (9) **major depression in DSM III**  
 (10) Q So in other words depression from a psychiatrist's point  
 (11) of view is a different diagnosis than dysthymia is it not?  
 (12) **A Yes**  
 (13) Q And it's a much more serious diagnosis much more serious  
 (14) problem is it not?  
 (15) **A That is correct**  
 (16) Q Now DSM III in the diagnostic criteria for dysthymia does  
 (17) DSM III not recognize that a person that has dysthymia -  
 (18) meaning mild depression - that that dysthymia or mild  
 (19) depression can cause substance abuse or alcohol abuse?  
 (20) **A It's very specifically stated in DSM III that dysthymia can**  
 (21) **induce or result in substance abuse and can include alcohol**  
 (22) **abuse That's in the text**  
 (23) MR RUSSO Thank you Doctor  
 (24) THE COURT Thank you  
 (25) Doctor you may step down  
 (26) Call your next witness

Vol 20 3324

- (1) MS STEWART Michael Fox to the stand by reading the  
 (2) deposition  
 (3) THE CLERK Raise your right hand  
 (4) (The Witness Is Sworn)  
 (5) THE CLERK For the record sir state your full name  
 (6) address and spell your last name please  
 (7) THE READER James R Baker B a k e r Houston  
 (8) Texas  
 (9) THE CLERK Thank you  
 (10) DIRECT EXAMINATION OF MICHAEL FOX (read)  
 (11) BY MS STEWART  
 (12) Q When did you begin your training as an Alaska state  
 (13) trooper?  
 (14) **A I was hired more or less by accident first summer I was**  
 (15) **here to work on a seasonal basis for the department of**  
 (16) **public**  
 (17) **safety division of fish and wildlife protection I was hired**  
 (18) **to be an aide that was the time of the job, to fish and**  
 (19) **wildlife protection officers as they were called at that**  
 (20) **time I was an assistant maintenance person assistant law**  
 (21) **enforcement guy Just a summer hire**  
 (22) Q And at some point I take it then you were commissioned  
 (23) as a full time?  
 (24) **A I spent a second summer in doing the same work, and**  
 (25) **then**  
 (26) **that fall of '78 I went through the hiring process And I was**  
 (27) **hired and sent to the state trooper academy in Sitka in**  
 (28) **January**

Vol 20 3325

- (1) of 1979
- (2) Q Have you been continuously employed by the department of public safety since January of 1979?
- (3) A Yes
- (4) Q What is your rank in the department at this point?
- (5) A Trooper
- (6) Q Trooper Fox when did you first hear about the grounding of the Exxon Valdez?
- (7) A It was about 2 30 in the morning approximately
- (8) Q How did you hear about it?
- (9) A Phone call from the Coast Guard
- (10) Q Was there another phone call between or phone conversation
- (11) between you and the Coast Guard and the marine safety office
- (12) later that morning?
- (13) A Yes
- (14) Q What was the nature of that call?
- (15) A They wanted me to go out to the ship
- (16) Q Do you recall who you were speaking with in that conversation?
- (17) A That was with Commander McCall
- (18) Q Trooper Fox about what time was it when you made it aboard? I understand there was some problem about actually getting on board the Valdez but what time was it when you arrived on deck on the deck of the Valdez?
- (19) A Just after seven

Vol 20 3326

- (1) Q Who do you recall talking to you once you got on board the Valdez?
- (2) A My first contact was with two seamen who met me at the top of the ladder
- (3) Q Did they take you to Mr Delozier or Mr Falkenstein?
- (4) A They escorted me to near the bridge I think I got kind of near the bridge and they said you know down this hall and through that door-type of thing
- (5) Q Who was on the bridge at that time?
- (6) A If I remember correct there was one of the mates I think was the second mate, the two Coast Guard guys Delozier and Falkenstein, and Mr Lawn of the Alaska Department of Environmental Conservation
- (7) Q Now although you've described what you perceive as your role in cooperating with the Coast Guard officers were you still interested as a state law enforcement officer in developing and preserving evidence of a possible crime?
- (8) A Oh, sure
- (9) Q In other words you never took off your hat as a state law enforcement officer?
- (10) A No
- (11) Q And indeed you took certain steps to investigate the possibility of a crime and to preserve evidence did you not?
- (12) A Yes
- (13) Q Would you tell us what you did?

Vol 20 3327

- (1) A One example is I noticed there was some Moussy or Moussy
- (2) beer don't know the correct pronunciation we'll call it
- (3) Moussy in the refrigerator in the officers' mess and I took some of that
- (4) Q Why did you think that might be significant?
- (5) A Because it was mentioned as something that the Captain had
- (6) consumed on the vessel with alcohol in it It has alcohol in it
- (7) Q Yes- sir When you say that it was mentioned did Captain Hazelwood himself say that he had consumed some Moussy beer?
- (8) A Yes, he did
- (9) Q Before the Cousins interview did you have an encounter with Captain Hazelwood?
- (10) A Yes
- (11) Q Tell us about that
- (12) A I literally bumped into him in the companionway
- (13) Q To Captain Hazelwood?
- (14) A We were face to face
- (15) Q I'm sorry if you already testified to that but were you actually on board the vessel? Where were you exactly on board the vessel?
- (16) A My memory is we were in the companionway between the bridge
- (17) and the stateroom I'm not absolutely certain that's the case
- (18) but I think that's where it was
- (19) Q Were you close enough to smell his breath?

Vol 20 3328

- (1) A Yes
- (2) Q Did his breath have any odor to it?
- (3) A Lots
- (4) Q How would you describe that odor?
- (5) A Bad
- (6) Q When you say bad can you be more specific? I mean what -
- (7) A Bad Sour Bad
- (8) Q Would you describe it or have you described it in the past as morning breath?
- (9) A Sure It could be described as morning breath
- (10) Q At that point were you trying thinking to yourself that you need to look for signs of alcohol impairment?
- (11) A Sure
- (12) Q Did you see any?
- (13) A No
- (14) Q Now at some point Trooper Fox you actually obtained a bottle of the Moussy beer and asked Mr Delozier and Mr Falkenstein to smell it did you not?
- (15) A Yes I did
- (16) Q Do you recall asking both Mr Delozier and Mr Falkenstein to smell the Moussy beer?
- (17) A Yes
- (18) Q How did you present it to them for them to smell it?
- (19) A On my hand

Vol 20 3329

- (1) Q On your hand? Let me ask you this. What prompted you to  
(2) ask them to smell it?  
(3) A What prompted me? My experience that in investigating  
(4) a  
(5) statement or a claim you can investigate a negative as well  
(6) as  
(7) a positive fashion. And if a person claims to have drunk  
(8) Moussy beer to explain the presence of that alcohol breath  
(9) on  
(10) their breath, it would only make sense to have the people  
(11) who  
(12) witnessed that smell to smell the control, which is the  
(13) Moussy  
(14) beer, and either retain it as a possibility, confirm it or  
(15) discard it as not a possibility.  
(16) Q Did you ask both the Coast Guard officers if the Moussy  
(17) beer odor was the odor they had smelled on Captain  
(18) Hazelwood's  
(19) breath?  
(20) A Yes.  
(21) Q Okay, let's take Mr. Delozier first. What did he say?  
(22) A He said that it could be.  
(23) Q Was there any more discussion about it between you and  
(24) Mr. Delozier?  
(25) A Not really, no.  
(26) Q What about Mr. Falkenstein? What did Mr. Falkenstein say?  
(27) A He said it could be.  
(28) Q Again, same question. Was there any more discussion about  
(29) it between you and Mr. Falkenstein that you recall?  
(30) A No, not that I recall.  
(31) Q I take it from your previous testimony that you didn't

Vol 20 3330

- (1) smell any - well, let me just ask it. When you smelled  
(2) Captain Hazelwood's breath that morning, did it smell like any  
(3) alcohol - alcoholic beverage that you could -  
(4) A No.  
(5) Q All right.  
(6) So there wouldn't have been any purpose - so you didn't  
(7) check yourself as to whether the Moussy beer smelled like  
(8) Captain Hazelwood's breath?  
(9) A Correct.  
(10) Q All right. Did you maintain a sample of the Moussy beer  
(11) and take it with you after you left the Valdez?  
(12) A Yes.  
(13) Q Did you observe any part of the actual process of drawing  
(14) Captain Hazelwood's blood?  
(15) A Yes, I did - oh, Captain Hazelwood?  
(16) Q Captain Hazelwood?  
(17) A No, I didn't.  
(18) Q Did you happen to observe any part of the process of  
(19) drawing blood sample of any other crew member?  
(20) A Yes, I did.  
(21) Q Who was that?  
(22) A That was the lady, Maureen Jones, think I her name is.  
(23) Q What did you observe? What did you see about Ms. Jones  
(24) blood drawing?  
(25) A She was seated in the captain's office area. He has his

Vol 20 3331

- (1) suite has a little desk, a little lounge, kind of couch area,  
(2) and then a separate stateroom, and she was at - the desk is  
(3) in  
(4) the little office area in his office. And a corpsman was  
(5) taking the blood out of her arm.  
(6) Q Did you ever see Captain Hazelwood's blood samples?  
(7) A I don't think so.  
(8) Q In addition to Maureen Jones' blood samples, did you ever  
(9) see anybody else's blood samples?  
(10) A Not that I remember.  
(11) Q I would like to explore with you a little bit more this  
(12) procedure that you described relative to Moussy beer that was  
(13) on board the Valdez. I believe you testified this morning that  
(14) you took some of this Moussy beer and placed it on your hand  
(15) and then questioned Lieutenant Commander Falkenstein and  
(16) Mr. Delozier about its odor. Is that correct?  
(17) A Yes.  
(18) Q Do you recall approximately what time of day that - that  
(19) you did this?  
(20) A It had to be after lunch.  
(21) Q After lunch.  
(22) In relation to the interview of Captain Hazelwood, how soon  
(23) after the interview with Captain Hazelwood did you do this?  
(24) A Well, I can just figure that his interview was after lunch  
(25) and I left about 2:30 or three, so it had to be between his  
(26) interview and my departure.

Vol 20 3332

- (1) Q All right.  
(2) A That's a pretty narrow time.  
(3) Q Do you recall where you conducted this experiment?  
(4) A I believe one of them was in the radio operator's office  
(5) right across the hall from the captain's stateroom. I  
(6) remember  
(7) talking with the others there about the Moussy beer, and I  
(8) think that might have been where at least I did one of them.  
(9) Q Was that the first one that you did?  
(10) A I don't remember.  
(11) Q Who were you talking to about the Moussy beer in the radio  
(12) officer's room?  
(13) A I don't remember for sure.  
(14) Q Do you recall where you conducted tests on Lieutenant  
(15) Commander Falkenstein?  
(16) A No, I couldn't say which one was where.  
(17) Q So we have one of them in the radio officer's quarters and  
(18) the other one was conducted at a different location?  
(19) A I don't remember. It could have been right there.  
(20) Q Do you recall if both Lieutenant Commander Falkenstein and  
(21) Mr. Delozier were together when you conducted the test?  
(22) A No, I don't remember.  
(23) Q Can you describe for us in detail exactly how you recall  
(24) performing the test?  
(25) A How I did it?  
(26) Q Yes.

Vol 20 3333

- (1) **A I splashed some on my hand out of the bottle so it would be**
- (2) **warmed, because it's my impression that warm stuff smells**
- (3) **different than cold stuff And then I held the palm of my hand**
- (4) **in front of their face and asked them to smell it**
- (5) **Q And you have a recollection that each of them did that**
- (6) **they did in fact smell the palm of your hand?**
- (7) **A Yes**
- (8) **Q Do you have a recollection if either of them smelled - in**
- (9) **addition to that smelled the Moussy out of the bottle?**
- (10) **A I can't say May have, may not**
- (11) **Q Do you have a recollection of Mr Delozier also smelling**
- (12) **the Moussy out of the bottle?**
- (13) **A I can't remember He may have, he may not have**
- (14) **Q Do you recall whether or not the Moussy that you used for**
- (15) **this test was out of the same bottle for both individuals or**
- (16) **did you use a new bottle for each individual?**
- (17) **A I opened one bottle**
- (18) **Q After this test was completed did you take any action to**
- (19) **remove any of the Moussy beer present on the ship to**
- (20) **safeguard**
- (21) **it?**
- (21) **A Yes I took two bottles**
- (22) **Q What did you do?**
- (23) **A I had one bottle already in my pocket that was unopened**
- (24) **and then Delozier went and got another bottle and gave it to**
- (25) **me, so then I had two bottles, and I took those two bottles**

Vol 20 3334

- (1) **back to Valdez**
- (2) **Q And when you took them back to Valdez what did you do to**
- (3) **safeguard it? Did you did you voucher them?**
- (4) **A One of them I dropped off at the Valdez marine safety**
- (5) **office with instructions that it was from Delozier And the**
- (6) **second one I entered into evidence at the state troopers**
- (7) **office**
- (8) **Q As a result of the conversations with Mr Delozier did you**
- (9) **go down to the captain s quarters to see the blood testing?**
- (10) **A I don't remember It was specifically as a result of that**
- (11) **conversation but he told me while I was in the radio room**
- (12) **and**
- (13) **the captain's quarters were directly across the hall so it**
- (14) **wouldn't have been a long walk or anything**
- (14) **Q So obviously subsequent to this conversation you had**
- (15) **occasion to go across the hall and view what you testified to**
- (16) **earlier here?**
- (17) **A Right**
- (18) **Q Did you actually walk into the room where the blood testing**
- (19) **was being conducted?**
- (20) **A Yes, I did**
- (21) **Q You have already described Maureen Jones sitting at the**
- (22) **desk and having blood drawn in her arm In addition to that**
- (23) **can you describe what else you observed when you walked into**
- (24) **the room?**
- (25) **A There was a number of people in there It was't private**

Vol 20 3335

- (1) **I know that**
- (2) **Q Who was in there?**
- (3) **A I can't say exactly who it was but there was a number of**
- (4) **people in there**
- (5) **Q Were these crew members or Coast Guard people who?**
- (6) **A I just don't remember**
- (7) **Q Approximately how many people would you say were in the**
- (8) **room?**
- (9) **A With the understanding that it's just a complete guess I'd**
- (10) **say six or eight**
- (11) **Q Is this in addition to the medics and Maureen Jones or in**
- (12) **total?**
- (13) **A Yes**
- (14) **Q In addition?**
- (15) **A In addition yes**
- (16) **Q To your knowledge did there come a time when Mr Delozier**
- (17) **searched the captain s quarters?**
- (18) **A Yes**
- (19) **Q How did that come about do you know?**
- (20) **A He searched it**
- (21) **Q Did he consult with you before he searched the captain s**
- (22) **quarters?**
- (23) **A Yes**
- (24) **Q Can you relate to us the nature of the conversation that**
- (25) **you had with him about searching the captain s quarters?**

Vol 20 3336

- (1) **A We talked about what we might find of value we talked**
- (2) **about whether or not he had the authority to conduct that**
- (3) **search and then I was present in the doorway to the main**
- (4) **entrance of the captain's suite when he did the search so I**
- (5) **observed him going about the room and I talked to him**
- (6) **during**
- (7) **the search about what he found or didn't find**
- (7) **Q This conversation that you had with him relative to what**
- (8) **authority he had to conduct the search can you relate to us**
- (9) **what he said about his authority and what you said to him**
- (10) **relative to that?**
- (11) **A He said that he could do it And I said that I thought it**
- (12) **was a good idea that he went ahead and do it**
- (13) **Q Did he say on what authority he could do it?**
- (14) **A No I don't remember that**
- (15) **Q Did he ask you whether you had the authority to do it?**
- (16) **A I don't remember that I don't think so**
- (17) **Q Did you ever tell him - did you ever discuss with him**
- (18) **whether you had the authority to search the captain s room?**
- (19) **A I don't remember**
- (20) **Q Did you ever give him any instructions of what to look for**
- (21) **when he searched the captain s room?**
- (22) **A Yes**
- (23) **Q What types of things did you tell him to look for?**
- (24) **A I asked him if he found any alcohol**
- (25) **Q Just so the record is clear I m talking now about before**

Vol 20 3337

- (1) he searched the captain's room not afterwards Did you give  
 (2) him any instructions or advice as to what to look for?  
 (3) A Before I would say you should look for alcohol or signs of  
 (4) alcohol  
 (5) Q After you had this conversation with him he went into the  
 (6) room and started the search?  
 (7) A Yes  
 (8) Q Where were you standing?  
 (9) A I was right in the doorway by the hall  
 (10) Q And were you watching him do this?  
 (11) A He would disappear, you know there were different  
 rooms in  
 (12) there  
 (13) Q But you were looking in the room?  
 (14) A Sometimes in, sometimes out I was just standing there  
 (15) Q However did you not go into the room - you did not go into  
 (16) the room and search correct?  
 (17) A I didn't search, right  
 (18) Q Why didn't you go there and help him search?  
 (19) A It was his search It was his  
 (20) Q Do you recall whether or not Mr. Delozier came out of the  
 room and you directed him to go back into the room and  
 continue  
 (21) with the search?  
 (22) A Yes  
 (23) Q What did you say to him and what did he say to you when he  
 (24) came out of the room?  
 (25)

Vol 20 3338

- (1) A About what I remember is Did you look in the bathroom?  
 (2) Did you look here there did you look in the waste basket?  
 He  
 (3) said no I said -  
 (4) Q Well let's break it down What did he say about did he  
 (5) look in the bathroom? Did he say he looked in the bath room?  
 (6) A I think he said yes but I don't really remember And I  
 (7) remember asking him if he looked in the waste basket  
 (8) Q What did he say to that?  
 (9) A He said no  
 (10) Q Did you ask him if he looked anywhere else?  
 (11) A I said look in the waste basket  
 (12) Q As a result of that did you direct him to go back in look  
 (13) in the waste basket?  
 (14) A Well he - he was already in there there was -  
 (15) Q Did you ever push him back into the room?  
 (16) A No  
 (17) Q As a result of searching the room did he ever come out with  
 (18) any - did he ever bring anything out of the room as a result  
 (19) of this search?  
 (20) A I didn't see anything that he brought it  
 (21) MS STEWART Thank you that concludes defense  
 (22) direct  
 (23) CROSS EXAMINATION OF MICHAEL FOX (read)  
 (24) BY MS WAGNER  
 (25) Q What else can you tell us that you did either at that -

Vol 20 3339

- (1) the time or as a follow up to your time on board the Valdez in  
 (2) your capacity as a state law enforcement officer?  
 (3) A I was out there for eight or ten hours I don't remember  
 (4) I was there from 7 00 until 2 30 so I did a lot of things I  
 (5) suppose some of the important things I could remember  
 would be  
 (6) that I checked to make sure that the evidence was sealed  
 (7) correctly in the Styrofoam kits that contained the blood  
 (8) samples I thought that I better make sure that the Coast  
 (9) Guard was correctly handling that evidence I  
 tape-recorded  
 (10) the captain's interview without any instructions or approval  
 or  
 (11) help from the Coast Guard I took notes of the - the other  
 (12) two interviews I made phone calls from the  
 communications  
 (13) center to my office - not my office but my supervisor's  
 office  
 (14) in Palmer and recommended some courses of action that  
 we  
 (15) should start moving on  
 (16) Q Did you have any conversation with Captain Hazelwood?  
 (17) A Yes I did  
 (18) Q Tell us then about the conversation you had with the  
 (19) captain  
 (20) A I introduced myself and told him that I was on the boat  
 (21) representing the State of Alaska, and that we were going to  
 be  
 (22) trying to figure out what happened I don't know if I used  
 the  
 (23) word investigator or not And after that I just looked into  
 (24) his eyes and said what the heck is the problem here? And  
 he  
 (25) said You're looking at it

Vol 20 3340

- (1) Q What did the captain - how would you describe his  
 (2) appearance?  
 (3) A Tired red eyes depressed Quiet He was smoking and  
 (4) drinking a soft drink can  
 (5) Q Trooper Fox and you've already made reference to this but  
 (6) I'll ask this anyway Were blood samples finally drawn from  
 (7) Captain Hazelwood and certain of the other crew members?  
 (8) A Yes  
 (9) Q Who finally drew the samples?  
 (10) A A medic from the United States coast guard  
 (11) Q Because the name Scott Conner sound right?  
 (12) A Yeah It sounds familiar  
 (13) Q All right Well how would you describe what you saw your  
 (14) function as at that time relating to the blood testing?  
 (15) A Evidence handler  
 (16) Q Evidence handler all right What does that mean to you?  
 (17) A That it's secured  
 (18) Q So my question to you is What did you do when you went  
 (19) into that room to perform that function that you just  
 (20) described?  
 (21) A I asked the medic how he was securing the kits  
 (22) Q What did he say to you?  
 (23) A He showed me how he was doing it by holding up a  
 package  
 (24) and showing me the seals that he had placed over the crack  
 of  
 (25) the Styrofoam container and how he signed and marked the  
 seals

Vol 20 3341

- (1) Q And you had had training I assume in maintaining a chain  
(2) of custody for physical evidence?  
(3) A Yes  
(4) Q And not just training you had also had experience over the  
(5) course of your employment as a fish and wildlife trooper in  
(6) maintaining and preserving and taking steps to ensure that you  
(7) had a good chain of custody for physical evidence?  
(8) A Yes  
(9) Q Were you interested to see the procedure he was following  
(10) as it related to the chain of custody?  
(11) A Yes  
(12) Q In other words you took a professional interest in how he  
(13) was going about this would that be a fair statement?  
(14) A Sure Yes  
(15) Q Did you see anything about the procedure that he was  
(16) following that in any way troubled you?  
(17) A No  
(18) Q Did it appear that he knew what he was doing?  
(19) A Yes  
(20) Q And then I think you have testified that after lunch  
(21) around 1 00 you participated in an interview of Captain  
(22) Hazelwood?  
(23) A Correct  
(24) Q Who was present at that interview?  
(25) A Me and Delozier

Vol 20 3342

- (1) Q About how long did that interview take?  
(2) A Boy, I just can't guess It wasn't very long  
(3) Q Was that interview tape recorded?  
(4) A Yes  
(5) Q Why was that one tape recorded?  
(6) A Because I tape-recorded it  
(7) Q Do you do so over Mr Delozier's objections or how did  
(8) that come about?  
(9) A I didn't ask him I just did it  
(10) Q Did Mr Delozier know you were taping it?  
(11) A Yes  
(12) Q How would he have known it?  
(13) A I sat the tape recorder on the table on the table in front  
(14) of all three of us turned it on, and then there's a red light  
(15) on it that it was lit  
(16) Q Did Mr Delozier make any kind of protest about  
(17) tape-recording the interview?  
(18) A No  
(19) Q What about Captain Hazelwood?  
(20) A No  
(21) Q Did you capture the entire interview on this tape  
(22) recording?  
(23) A The interview? Yes  
(24) MS WAGNER Thank you Nothing further  
(25) MR SANDERS May it please the Court defendants call

Vol 20 3343

- (1) Captain Mark Pierce  
(2) THE CLERK Raise your right hand  
(3) (The Witness Is Sworn)  
(4) THE CLERK For the record sir state your actual  
(5) full name your address and spell your last name please  
(6) THE WITNESS Mark R Pierce 474 Lake Shore  
(7) Boulevard Incline Village Nevada P i e r c e  
(8) DIRECT EXAMINATION OF MARK PIERCE  
(9) BY MR SANDERS  
(10) Q Good morning Captain  
(11) A Morning  
(12) Q Captain Pierce by whom were you are you employed?  
(13) A Previously by Sea River Maritime  
(14) Q Is Sea River Maritime the successor company or the name  
(15) change from Exxon Shipping Company?  
(16) A That is correct  
(17) Q And as a captain are you assigned to a particular vessel?  
(18) A Yes I am  
(19) Q What is your vessel assignment at this time?  
(20) A The S/R Mediterranean  
(21) Q And that is of course the former Exxon Valdez?  
(22) A Yes  
(23) Q Captain Pierce would you tell a little - a little to us  
(24) about your educational background?  
(25) A I am a graduate from the marine Maritime Academy in  
1971

Vol 20 3344

- (1) Subsequently went to sea with masters mates and pilots  
the  
(2) union organization through '71 and '72 and joined Humble  
Oil  
(3) Company at the time in early '73  
(4) Subsequently that became Exxon subsequently Sea River  
(5) Maritime I started out as third mate sailed second mate  
(6) chief mate and in 1980 began to sail as master  
(7) Q And when did you get your Coast Guard license as a master?  
(8) A 1979  
(9) Q And you began to sail sometime in 1980 as a master or  
(10) captain for Exxon Shipping Company or Exxon Marine?  
(11) A Yes as a relief captain at that time  
(12) Q And as - let me ask you a question I want to take a  
(13) short diversion here  
(14) There's been some testimony in this case that calls into  
(15) question the weather on the trip that the Exxon Valdez took  
(16) from San Francisco which began approximately the 18th of  
March  
(17) and ultimately resulted of course in the grounding on March  
(18) the 24th Is it possible to look at the deck log of a ship for  
(19) a given voyage or trip and tell what the weather conditions  
(20) were?  
(21) A Yes a deck log provides space records, the weather  
hourly  
(22) and then in more severe weather I'm sure every four hours  
for  
(23) the watch- in severe weather we go ahead and record it  
hourly  
(24) MR SANDERS May I approach the witness Your Honor?  
(25) THE COURT You may

Vol 20 3345

- (1) BY MR SANDERS  
 (2) Q Captain I have here what I am told is the deck log of the  
 (3) Valdez - which Your Honor I believe is admitted in evidence  
 (4) on May the 9th first day of trial as Plaintiff's Exhibit  
 (5) 140  
 (6) Now is it customary for there to be a recording of this  
 (7) weather every four hours while on watch?  
 (8) A Yes  
 (9) Q That's a normal thing that is done on a ship at least an  
 (10) Exxon ship?  
 (11) A It's a normal duty of the watch officer  
 (12) Q Would you turn please to the portions of this deck log  
 (13) Plaintiff's Exhibit No 140 which is the deck log for the  
 (14) Valdez in March of 1989 Would you turn to the page that  
 (15) starts the voyage from San Francisco which I believe to be on  
 (16) or about March the 18th  
 (17) A Yes, the deck log indicates that the vessel was anchored  
 in  
 (18) San Francisco on March 18th  
 (19) Q Can you tell -  
 (20) A For the entire day  
 (21) Q For the entire day all right  
 (22) Turn then to the page where the voyage starts  
 (23) A Sorry these are out of order  
 (24) Q Captain I apologize Have you found it?  
 (25) A Not yet Okay starting on the 23rd it says - of

Vol 20 3346

- (1) February I'm sure -  
 (2) Q I think we need to go into - to the middle of March  
 (3) Tell you what if the Court would permit me I take that  
 (4) exhibit back have somebody find the right place and we can  
 (5) talk about something else instead of wasting everybody's time  
 (6) with this  
 (7) A We're in February  
 (8) Q That always happens when I detour  
 (9) Captain Pierce we left off before our detour with the fact  
 (10) that you were a captain from 1980 forward I wanted to ask  
 (11) you Are you a friend of Captain Hazelwood's?  
 (12) A Yes  
 (13) Q And how long have you and Captain Hazelwood been  
 friends?  
 (14) A I met Captain Hazelwood in the early '70s and  
 subsequently  
 (15) our friendship started about the mid 1970s forward  
 (16) Q And has that friendship continued through the years?  
 (17) A Yes it has  
 (18) Q And you're still a friend of Captain Hazelwood's?  
 (19) A I consider him a friend yes  
 (20) Q Would you describe to the ladies and gentlemen of the jury  
 (21) and the Court that friendship what kind of friendship was it?  
 (22) A The friendship started when Captain Hazelwood was in  
 the  
 (23) Valdez trade I believe on the Exxon Baton Rouge as chief  
 (24) mate And I was mate on the Exxon Galveston which was a  
 (25) lighter vessel So it pretty much started as a working

Vol 20 3347

- (1) relationship over the rail Develop -  
 (2) Q What rail is that?  
 (3) A The rail of the two ships as they're side by side in San  
 Francisco Bay, transferring cargo  
 (4) Q Okay  
 (5) A And it started with passing back and forth things to read,  
 (6) primarily our deep interest in maritime industry, and it  
 (7) continued on to - enjoyed sense of humor, and then we had  
 the  
 (8) opportunity to meet at company-sponsored training  
 programs and  
 (9) conferences, so it was pretty much a working relationship  
 and  
 (10) working friendship  
 (11) Q Do you and he correspond?  
 (12) A Yes, we did  
 (13) Q Wrote letters back and forth?  
 (14) A That's correct  
 (15) Q Talk on the phone?  
 (16) A Very rarely  
 (17) Q Talk on the radio?  
 (18) A Again, very rarely  
 (19) Q Did you ever visit in his home?  
 (20) A I have not  
 (21) Q As a matter of fact you ever meet his wife?  
 (22) A I have not  
 (23) Q Has he visited in your home?  
 (24) A On one occasion when I was port captain, he visited us,  
 but

Vol 20 3348

- (1) he's never been to my home in Nevada  
 (2) Q That was your home in Houston?  
 (3) A Yes  
 (4) Q During the time you were port captain?  
 (5) A Correct  
 (6) Q Now you mentioned the time you were port captain When  
 (7) did you become a port captain?  
 (8) A It was in the summer of 1983  
 (9) Q 1983?  
 (10) A Yes  
 (11) Q I didn't hear you I'm not questioning you  
 (12) A Yes, 1983  
 (13) Q And you were port captain where?  
 (14) A In the Baytown office, Baytown, Texas  
 (15) Q And as port captain were there certain ships that you  
 (16) were in the sense of being port captain responsible for?  
 (17) A Yeah I basically liaised with 13 different ships  
 (18) Q Was one of those ships or one of the masters on one of  
 (19) those ships Captain Hazelwood?  
 (20) A Yes he was  
 (21) Q As a matter of fact did you have occasion during your  
 (22) tenure as port captain to make comments in respect to  
 (23) evaluations that were being done for Captain Hazelwood?  
 (24) A On occasion I was asked as a - as part of port captain to  
 (25) come on to comment on strengths and weaknesses of  
 individual

Vol 20 3349

- (1) captains for the fleet manager Again I was considered a peer
- (2) to those captains so it was not a formal type evaluation it
- (3) was more of what were the strengths and weaknesses of that
- (4) master in dealing with me and his crew as I saw them and to
- (5) that job
- (6) Q But in any event did you understand that these comments
- (7) you were making were being -- were part of the evaluation
- (8) process?
- (9) A Yes It was to help the fleet manager make those kind of
- (10) determinations
- (11) Q And the evaluation process had effects as far as I
- (12) suppose promotion some affect on pay and those kinds of
- (13) things right?
- (14) A Yes, it did
- (15) Q Okay And who asked you to do that do you recall?
- (16) A Mr Tomkins, gulf coast fleet manager at the time
- (17) Q Was Mr John Tomkins the gulf coast fleet manager during
- (18) the entire time that you were the port captain?
- (19) A He was
- (20) Q And jumping ahead a bit after you completed this tour of
- (21) duty ashore as a port captain, did you ever go back and be a
- (22) port captain again?
- (23) A No, I did not
- (24) Q You went back to sea and stayed at sea?
- (25) A That's correct

Vol 20 3350

- (1) Q Let me ask you You testified that you had this friendship
- (2) and you described it You described this commenting on
- (3) evaluations Did you find it difficult to make comments about
- (4) Captain Hazelwood's strength and weaknesses knowing that he
- (5) was
- (6) a friend of yours?
- (7) A No I didn't I felt I could divorce the two One was
- (8) professional and one was very much a personal
- (9) relationship
- (10) Q As a matter of fact Captain you made some criticisms of
- (11) Captain Hazelwood in your comments correct?
- (12) A Yes
- (13) Q And what were your criticisms give us the time frame if
- (14) you can recall it?
- (15) A It was 1984 and then again in '85 but the one in '84
- (16) probably the more prevalent one, and criticism basically
- (17) revolved around communications between our shore
- (18) management and
- (19) Captain Hazelwood
- (20) Q What did you say what did you say in your comments? Did
- (21) you make those comments in writing?
- (22) A They were on a blank sheet that I had for all masters all
- (23) 26 that I went to at the time, doing it, and they were on a
- (24) form that then went to Mr Tomkins to be completed
- (25) Q Do you remember what you said what you wrote or the gist
- (26) of it?
- (27) A I remember two parts of it One was the communications
- (28) aspect that I felt that Joe was a bit misunderstood by

Vol 20 3351

- (1) management and vice versa in that he worked there and
- (2) that
- (3) the second part that Joe really needed -- needed a challenge
- (4) and perhaps wasn't at all achieving his potential
- (5) Q Did you use the words did not even remotely approach
- (6) achieving his potential ?
- (7) A I believe those were the words that I used
- (8) MR SANDERS Now Your Honor I'm getting ready to
- (9) change topics would this be a good time or --
- (10) THE COURT Let's take our first recess ladies and
- (11) gentlemen We'll be in recess for 15 minutes
- (12) (Jury out at 9 58 a m )
- (13) (Recess at 10 00 a m )
- (14) (Jury in at 10 15 a m )
- (15) MR SANDERS May I proceed Your Honor?
- (16) THE COURT You may
- (17) BY MR SANDERS
- (18) Q Let's take another look at these deck logs Captain
- (19) Pierce
- (20) Have you located the right deck log? I gave you the wrong
- (21) ones
- (22) A We have March 18th and now so we're in the right month
- (23) any
- (24) way
- (25) Q Would you tell us according to the deck log when the
- (26) voyage started?
- (27) A They departed on the 18th of March 1989

Vol 20 3352

- (1) Q And that's 2 00 in the afternoon?
- (2) A Correct
- (3) Q Where is the first recording of any sort of weather
- (4) information on the deck logs?
- (5) A The weather is recorded on the left hand page in about
- (6) the
- (7) middle and it's recorded again throughout the entire day
- (8) Q So these weather reports what time do you get the first
- (9) weather recordation?
- (10) A 0400 in the morning for that day As I said again unless
- (11) it's severe weather So from the start of the voyage we have
- (12) the first recorded outside weather would be at 1600
- (13) Q Now I'm not going to try to pass the chart around or blow
- (14) it up and put it on the screen or anything but on this -- this
- (15) deck log there is a page for every day Is that correct?
- (16) A That is correct
- (17) Q And there are on the left hand half of the page are
- (18) various columns for information and initials and comments
- (19) correct?
- (20) A Yes
- (21) Q And then on the right half or third of the page are lines
- (22) where written entries are put in and kind of a line form is
- (23) that correct?
- (24) A That is correct
- (25) Q And the weather information is on the left hand side of the
- (26) page about in the middle of these columns correct?

Vol 20 3353

- (1) A Yes
- (2) Q What three types of columns are there that would pertain to weather conditions?
- (3) A The direction the velocity of the wind the weather formula which is the cloud state the visibility the state of sea relating to how rough the sea or smooth the sea would be
- (4) Barometric pressure air temperature and water temperature
- (5) Q And can you as an experienced captain or mariner are you able to look at this information on the deck log and tell the jury what the weather was like whether it was good or bad weather what the state of the sea was those kinds of things?
- (6) A Yes
- (7) Q And more specifically there has been a suggestion in kind of a hypothetical way in this case that if you were in an area where there were 40 foot seas that it would seriously disturb one's ability to sleep and you would be exhausted after a voyage like that?
- (8) A Yes
- (9) Q So -
- (10) A Uncomfortable on those seas
- (11) Q That's the context for these questions
- (12) Now could you look at the weather information that you've just described for the jury for the 18th of March Saturday 1989 and after you have had a chance to look at it could you explain to the jury what the weather conditions were as

Vol 20 3354

- (1) recorded on this deck log?
- (2) A For the 18th of March, leaving - leaving San Francisco so
- (3) this would be on the north coast approximately off of Point Rays (ph) at southerly winds fairly light they're force three so less than ten knots per hour
- (4) Q Let me just stop you a second That has gone beyond what I understand
- (5) Is there a code on this weather for these different columns that gives you a range?
- (6) A Yes in the beginning of the log book we have a code by which these columns are filled out and we're using a Beaufort
- (7) Scale (ph) which is the normal maritime scale for wind velocity
- (8) Q So when you say force three that means something on a Beaufort Scale?
- (9) A Basically a breeze
- (10) Q Okay all right That's good
- (11) And as far as like the cloud conditions is there a letter code for that that tells you if you put an M in there or whatever that is there's a legend at the beginning of the deck log which tells you exactly what that letter means?
- (12) A That's correct
- (13) Q And is there any other code or legend that the ladies and gentlemen of the jury should be aware of when they look at these deck logs?

Vol 20 3355

- (1) A Sea state is also that format
- (2) Q In other words there is a code a number or letter code that you write down in that column and you have to go back to the legend if you're - you don't know the legend and see what that corresponds to?
- (3) A Correct
- (4) Q Okay I'm sorry to interrupt you Go back to the 18th and describe the weather Now I'm going to ask you to do this on a day-to-day basis and I don't want to spend all day, so - I know there's a reading every four hours If there's a change in the weather tell the ladies and gentlemen of the jury of that but if it's pretty constant just tell us a constant weather won't be a forecast, it would be a back-cast, wouldn't it?
- (5) A All right Back-cast would be a moderately high pressure ridge was in evidence in there The winds were southerly but brought about some fog Some overcast And then towards the end of the day the wind came around to the north, northeast,
- (6) which cleared up and the seas were very moderate Some ground swelling
- (7) Q When you say the seas are moderate describe for the jury what you mean by that Quantify that for us
- (8) A Moderate sea would be in the four- to five-foot root range, so it would be comfortable to be out there in a small sailboat,
- (9) provided you didn't get sea sick

Vol 20 3356

- (1) Q And on a tanker the size of the Exxon Valdez would four or five foot seas be noticeable if you were trying to sleep?
- (2) A Be very pleasant day
- (3) Q Would you turn to the 19th?
- (4) A The morning of the 19th, the northwesterly wind continued
- (5) again on a breeze basis The sea state was moderate, and it was blue skies with some clouds, so pretty constant weather
- (6) pretty normal for that time of year
- (7) Q Did that weather stay the same throughout the day on the 19th?
- (8) A No, it came to the southerly and calmed - calmed very much
- (9) down Again, that high pressure still in evidence, but with the wind coming south then you could expect some - pretty soon
- (10) you're going to have fog But the sea state again was very moderate
- (11) Q So it went from moderate to even better -
- (12) A Yes
- (13) Q - during the day?
- (14) A Correct
- (15) Q What about the 19th?
- (16) A That was the 19th
- (17) Q I'm sorry the 20th
- (18) A Again the 20th looks to be exactly the same sort of weather Towards the afternoon the winds started picking up
- (19) and the barometer began to drop slightly

Vol 20 3357

- (1) Q What about the state of the sea?
- (2) A As recorded here it's still, all moderate A little bit of chop, which is a shorter sea, developed in the afternoon
- (3) Q What do you mean by a shorter sea?
- (4) A Pacific has a long swell to it and then when you get the wind progressing, especially over a great period of time it can get choppy So it's - what you see in late afternoon breeze, probably on Cook Inlet breeze comes up it's a real short, choppy sea
- (5) Q Does that affect the way the boat will ride a ship the size of the Valdez? Does a short chop affect the ship as far as going up and down?
- (6) A Not until it gets exasperated and you get up around 15 foot sea, then you'll start to notice it
- (7) Q And what was the - what was the - I don't know how you refer to it but what was the height of the sea on the afternoon of the 20th?
- (8) A We're still seeing moderate sea, so four five feet
- (9) Q Would you turn then to the 21st?
- (10) A Okay The 21st it was starting to get closer to Alaska Wind has come around to the northwest we're up to now a full breeze or a force four So a 15 20 knot wind
- (11) As recorded here, that the sea state is still moderate and the barometer is fairly constant getting a little colder
- (12) weather

Vol 20 3358

- (1) Towards the afternoon - around 1800 1900 the wind does pick up some more and we're starting to see the ground swell
- (2) that comes across from the Asian Continent down off of Canada and Cape Flattery (ph) so we're getting more of a developed swell
- (3) Q All right And what would be the extent of a developed swell in these waters this time of the year how high?
- (4) A Ten to 15 feet Very long So ship would be in motion but it wouldn't be that uncomfortable or unpleasant
- (5) Q And in the late afternoon did the seas then calm back down again on the 23rd?
- (6) A It indicates about midnight then it went back to moderate and the swell was not in evidence
- (7) Q Would you turn please to the 23rd?
- (8) On the 23rd can you tell from the deck log where the ship was?
- (9) A Yes The ship was approaching Hinchinbrook in the morning They were testing gear What time of - they took arrival about 5 30 in the afternoon What we're seeing is the wind is coming back to the west, west northwest and pretty much the same kind of weather
- (10) Q During any time - and then of course on the 22nd you enter Prince William Sound or the ship enters Prince William Sound?
- (11) A That's correct
- (12) Q And the state of the sea and the chop in Prince William

Vol 20 3359

- (1) Sound is less than out in the Gulf of Alaska?
- (2) A On most occasions
- (3) Q On this occasion what was it?
- (4) A On this occasion in particular
- (5) Q Now at any time did the Valdez Sea and the Gulf of Alaska or in the Pacific Ocean be rough any more than that short period where there was perhaps a 10 to 15 foot sea?
- (6) A The indication of my log deck book is it was a pleasant trip for that kind of year and with the exception of the ground swell for at least 12 hours or so pretty nice trip weather wise
- (7) MR SANDERS May I approach Your Honor?
- (8) THE COURT You may
- (9) BY MR SANDERS
- (10) Q Captain in the spring of 1985 were you still the port captain for the gulf coast fleet?
- (11) A Yes I was
- (12) Q In the spring of 1985 did you have a conversation with Captain Joseph Hazelwood?
- (13) A Yes
- (14) Q Was this conversation face to face or some other way?
- (15) A It was a telephone conversation
- (16) Q Who called whom?
- (17) A I called Captain Hazelwood
- (18) Q Why did you call Captain Hazelwood?

Vol 20 3360

- (1) A I had received an anonymous phone call by an officer of a ship showing concern and I called -
- (2) Q Let me stop you just a second Let's take it slowly and one step at a time You said you received an anonymous call?
- (3) A Correct
- (4) Q Was it usual or unusual for you to receive calls from people who didn't want to give their name?
- (5) A On occasion it did happen Not on a daily basis but in the course of a month or so you may have it happen
- (6) Q Obviously the anonymous caller didn't tell you who he or she was Could you tell whether it was a he or a she?
- (7) A I believe was a male
- (8) Q Male Did that person tell you anything about who they were who he was?
- (9) A No all he said he was an officer who had sailed with Captain Hazelwood
- (10) Q Tell the jury as best you can what this caller said
- (11) A As I said before he said before he identified himself as an officer he had sailed with Captain Hazelwood and he wasn't going to give his name but he was calling me as a friend of Captain Hazelwood saying that I needed to talk to him basically of concern that things weren't going well for Joe or things weren't right for Joe He's different than he had been
- (12) Q Did you ask this caller any questions?
- (13) A I don't recall that

Vol 20 3361

- (1) Q Did this caller say to you that what was not right with Joe  
(2) had to do with the way he was doing his job?  
(3) A No it seemed like it was more on a personal level  
(4) Q You said he called you as a friend meaning he called you  
(5) as a friend or the caller was Joe's friend?  
(6) A No that I was Joe's friend  
(7) Q Is there anything else that you can recall of significance  
(8) that the caller told you?  
(9) A No  
(10) Q All right Now at the time that you received this  
(11) information this call had you had any other information  
(12) indicating to you that things weren't right with Joe Hazelwood?  
(13) A I had no concrete incident so to speak I did have a  
(14) feeling or an undercurrent that something wasn't going  
(15) right  
(16) with Joe  
(17) Q Is there anything or any person you can put your finger on  
(18) here to tell the ladies and gentlemen of the jury the source or  
(19) the nature of this what you call an undercurrent?  
(20) A No, I can't Not at this time  
(21) Q I guess it's hard to describe or pull apart an  
(22) undercurrent but did the undercurrent as you perceived it  
(23) have anything to do with Joe's job performance?  
(24) A No that was never mentioned job performance in the  
(25) professional sense It's more on a dealing with people  
Q Captain had you been in the office continuously through

Vol 20 3362

- (1) this period of time? I forgot to ask you Can you fix the  
(2) date of this call from the anonymous caller?  
(3) A I believe it was late March  
(4) Q All right And in a minute we're going to get to the call  
(5) to Captain Hazelwood Was it the same day?  
(6) A Yes it was  
(7) Q So after you got the call from the anonymous caller you  
(8) then called Captain Hazelwood?  
(9) A That's correct  
(10) Q And this was in late March?  
(11) A Yes  
(12) Q Had you been in the office prior to late March? Had you  
(13) been in the office at Baytown continuously going backwards?  
(14) A No I had not  
(15) Q How long had you been in the office when this call came in?  
(16) A Probably less than a week  
(17) Q All right Where had you been?  
(18) A Starting in late fall, '84 we had entered into union  
(19) negotiations with our unlicensed personnel took through  
(20) November December I had taken a holiday at Christmas  
(21) and  
(22) then we reached negotiations in January February right up  
(23) into March So I had just recently come back into the office  
(24) Q Where had these negotiations occurred at least in '85?  
(25) A Like they were split between Texas and New Jersey area  
Q And in the winter and early spring of 1985 had you been in

Vol 20 3363

- (1) New Jersey?  
(2) A Yes  
(3) Q So where you had this call you had come from New Jersey  
(4) back to the office in Baytown Texas Was that your regular  
(5) office as port captain?  
(6) A Yes  
(7) Q And you had been there about a week when you got this  
(8) call?  
(9) A Correct  
(10) Q And this undercurrent that you have told us about when did  
(11) you pick that up?  
(12) A When I came back to the office As a routine, even  
(13) though  
(14) I was checking in with secretaries and shift, I went through  
(15) all the masters, what all the ships were doing And again,  
(16) there was nothing definite, but it just seemed like there was  
(17) something not quite right with Joe, then though he was on  
(18) vacation at that time  
(19) Q All right Now, let's go to the call to Captain  
(20) Hazelwood This is in late March?  
(21) A That's correct  
(22) Q You called him?  
(23) A Yes  
(24) Q Where did you call him?  
(25) A At his home in Huntington, New York  
Q Did you reach him?  
A Yes, I did

Vol 20 3364

- (1) Q Did you have a conversation with him?  
(2) A Yes  
(3) Q Would you tell the ladies and gentlemen of the jury the  
(4) conversation that you had with Captain Hazelwood?  
(5) A Very short conversation He learned that I had received a  
(6) anonymous phone call And basically said, if something is  
(7) troubling you Joe you need to seek help, if it is not, we  
(8) need to understand what is going on  
(9) Q Did you say anything more?  
(10) A No, I did not  
(11) Q What did he say?  
(12) A Said I'll think about it  
(13) Q Did he say anything else?  
(14) A No  
(15) Q Did you say anything else?  
(16) A No  
(17) Q After you had this phone - that ended the call I guess?  
(18) A That ended the call  
(19) Q After you had this call - well let me ask you In your  
(20) anonymous call with the officer the male officer was the word  
(21) alcohol ever used?  
(22) A No it was not  
(23) Q Was there any suggestion that you could detect from the  
(24) anonymous caller that any of this had anything to do with  
(25) alcohol?

Vol 20 3365

Vol 20 3367

- (1) **A No sir**
- (2) **Q In your detection of this undercurrent did it have anything to do with so far as you could perceive it with alcohol?**
- (3) **A No**
- (4) **Q And obviously given your recounting of the conversation with Captain Hazelwood alcohol was not mentioned in that call correct?**
- (5) **A That's correct**
- (6) **Q At the time you called Captain Hazelwood and told him what you told him did you have an opinion to the extent we lay people can have opinions about what was troubling Joe?**
- (7) **A Yes, I did**
- (8) **Q What was that opinion and if you would tell the jury not only what your opinion was, but what you base that on**
- (9) **A Having known Joe as I did through the years, and also having mutual friends with Joe, often talked about him, we all knew that he was given to what we call black moods or dark moods, and he would go into these purple funks and tend to be a little bit more reclusive than normal He could become very sarcastic, not very pleasant to be around So my feeling was that - and it's extremely noticeable in the master's position when all of a sudden gregarious caring persons becomes affected like that, it affects his crew treatment And I felt that's probably what was happening**

- (1) you made to Captain Hazelwood and the call that he made back
- (2) to you all occurred on the same day?
- (3) **A Yes**
- (4) **Q In this next call would you tell the ladies and gentlemen of the jury what the discussion was who said what?**
- (5) **A Again it was a very short conversation and Captain Hazelwood agreed that perhaps he should seek some help**
- (6) **Q Wait a minute Try not to summarize - try to say as best you can - what did he say actually and what did you say actually?**
- (7) **A He called back and said that he was going to seek help and how to go about doing that**
- (8) **Q All right Did he say what kind of help?**
- (9) **A No he didn't**
- (10) **Q Did you ask him what kind of help?**
- (11) **A No I did not**
- (12) **Q Why didn't you ask him?**
- (13) **A I felt it was a private matter Both of us being private people that if he wanted to tell me he would have or he would tell me at the appropriate time**
- (14) **Q You didn't ask him?**
- (15) **A I did not ask him**
- (16) **Q Did you ask any questions kind of designed to slip around the edges of it and try to find out what it was?**
- (17) **A No**

Vol 20 3366

Vol 20 3368

- (1) **Those moods were coming more and more frequently and it was troubling to people that were sailing with him**
- (2) **Q Is that what you thought the anonymous caller was telling you?**
- (3) **A Yes**
- (4) **Q Is that what you thought the undercurrent was?**
- (5) **A Yes**
- (6) **Q Now when you finished the telephone call with Captain Hazelwood did you report either your anonymous call or this undercurrent or your call to Captain Hazelwood to anyone?**
- (7) **A No, I did not**
- (8) **Q Why not?**
- (9) **A Well, I felt that the anonymous caller was calling me to let them know that a friend of mine basically was having problems of some sort And I was calling Joe to let him know that it was becoming prevalent and noticeable Again as a friend**
- (10) **Q Did you have anything to report?**
- (11) **A And I had nothing to report**
- (12) **Q All right Did Captain Hazelwood - did you talk to Captain Hazelwood again after this call?**
- (13) **A Later that afternoon, Captain Hazelwood called me**
- (14) **Q This is the same day now?**
- (15) **A That's - the same day**
- (16) **Q In other words the anonymous call the - the call that**

- (1) **Q When he said that he had decided to seek help he asked you what to do?**
- (2) **A Yes he asked how to go about doing it**
- (3) **Q And what did you take that to mean?**
- (4) **A Well who does he contact within the organization to get approval for the medical process**
- (5) **Q Captain Pierce in the spring of 1985 was there a process or a program in Exxon Shipping Company for a person who had some sort of a medical problem?**
- (6) **A Yes**
- (7) **Q All right And what was the - would you describe briefly what that program was? What benefit was there to the employee?**
- (8) **A In addition to the normal surgical physical dental programs the company had what we called an employee assistance program or help And that revolved around dependency or counseling -**
- (9) **Q When you say dependency what do you mean drugs or alcohol?**
- (10) **A Drugs and alcohol dependency**
- (11) **Q All right Counseling?**
- (12) **A Counseling And for mental health or for a myriad of reasons**
- (13) **Q Was there a specific person at that time in Exxon Shipping Company that was kind of the contact point for an employee who wished to avail himself or herself of such benefits?**

Vol 20 3369

- (1) A That's correct The administrative manager was the  
 (2) contact  
 (3) Q And when he asked you who to contact or how to go about  
 (4) doing it what was your response to him?  
 (5) A I told him to contact a Mr Ben Graves in the Houston  
 (6) office, and he would lay out the paperwork and the process  
 to  
 (7) go about getting help  
 (8) Q By the way, did you make a response to the news that he was  
 (9) going to seek help?  
 (10) A I just remember saying good  
 (11) Q Now did you say anything else in this conversation or did  
 (12) he say anything else in this conversation?  
 (13) A No again it was a very short conversation  
 (14) Q All right You gave him the name of Ben Graves?  
 (15) A Yes  
 (16) Q Did you yourself contact Ben Graves?  
 (17) A Yes, I did I called Ben shortly after, basically make  
 (18) sure he was in the office for Joe's call  
 (19) Q Did you talk to Ben Graves?  
 (20) A Yes  
 (21) Q What did you say to him?  
 (22) A I said one of - one of my masters would be calling him  
 (23) shortly in relation to this EHAP thing  
 (24) Q Did he make a response to that?  
 (25) A He says Does the captain's name start with H

Vol 20 3370

- (1) Q And your response?  
 (2) A Yeah  
 (3) Q Did you ask Mr Graves how he was able to guess the first  
 (4) initial?  
 (5) A No I did not  
 (6) Q Did you have any idea of how he would have come up with  
 (7) that response?  
 (8) A No unless it was associated again with this undercurrent  
 (9) we seemed to be having  
 (10) Q But other than that you don't know why Ben Graves would  
 (11) have asked that question?  
 (12) A No I do not  
 (13) Q But you answered the question?  
 (14) A Yes  
 (15) Q Did you have any further conversation with Mr Graves?  
 (16) A No  
 (17) Q Did you have any further conversation on this date or later  
 (18) on with Captain Hazelwood?  
 (19) A Yes a couple of days later when Captain Hazelwood  
 entered  
 (20) into the medical facility he called me to let me know that he  
 (21) was going in And at that time I initiated his leave for  
 (22) medical purposes  
 (23) Q While we're there how did you - well no Let me back  
 (24) up  
 (25) At the time that Captain Hazelwood told you he was going to

Vol 20 3371

- (1) a hospital did he give you the name of the hospital?  
 (2) A No, I don't recall him giving me that name  
 (3) Q Did he tell you what kind of hospital it was?  
 (4) A No  
 (5) Q Did he tell you what kind of treatment he thought he was  
 (6) going to receive in that hospital?  
 (7) A No  
 (8) Q At that time did he tell you what he perceived to be his  
 (9) problem or problems?  
 (10) A He did not  
 (11) Q Did you ask him?  
 (12) A No  
 (13) Q Did you inquire indirectly to try to determine what kind of  
 (14) problem or what kind of treatment he was going to have?  
 (15) A No, I didn't Again, I felt that was a very private affair  
 (16) and he would tell me when he felt it was appropriate to do  
 so,  
 (17) if ever  
 (18) Q All right As port captain - not as Mark Pierce friend of  
 (19) Joe Hazelwood but as Port Captain Mark Pierce - did you think  
 (20) you should ask him any of those questions at the time that he  
 entered or was going to enter this facility?  
 (21) A Not at that time  
 (22) Q Why not?  
 (23) A Basically taking that giant step, that realizing he may  
 (24) need help I thought that was enough for him to deal with.  
 And

Vol 20 3372

- (1) hopefully that would resolve whatever the problem was  
 (2) Q All right I take it you didn't want to rock the boat?  
 (3) A Correct  
 (4) Q Now up until this time then of course alcohol is not  
 (5) mentioned in any of the conversations you're having with  
 (6) anybody Captain Hazelwood the anonymous caller or Ben  
 Graves?  
 (7) A Yes that is correct  
 (8) Q Did you find out from either Captain Hazelwood or  
 (9) Mr Graves whether or not Captain Hazelwood had called  
 (10) Mr Graves?  
 (11) A No, I didn't  
 (12) Q Okay What is the next contact that you had in respect to  
 (13) Captain Hazelwood?  
 (14) A Talking to him personally?  
 (15) Q Yes  
 (16) A When he -  
 (17) Q Or if anyone else in the company or any friend contacted  
 (18) you What is the next thing that happened?  
 (19) A Well I called shortly thereafter and talked to Mrs  
 (20) Hazelwood Again that conversation revolved more around  
 how  
 (21) she was doing than Joe was doing Then he contacted me  
 either  
 (22) after he had gotten out of the program or shortly thereafter,  
 (23) regarding a leave of absence  
 (24) Q Now let me - I'm going to come back to this in a minute  
 (25) but let's go back to the call to Mrs Hazelwood

Vol 20 3373

- (1) Did Mrs Hazelwood - you asked her how she was doing?  
 (2) A Yes  
 (3) Q And then you asked her - did you ask her if you could get  
 (4) in contact with Captain Hazelwood?  
 (5) A I believe I did She said no he was - some sort of  
 (6) facility  
 (7) Q Did she tell what you kind of facility it was?  
 (8) A No  
 (9) Q Did you ask her?  
 (10) A No  
 (11) Q Did you get any sort of date from her as to when he might  
 (12) be out of the facility or able to be contacted?  
 (13) A She said it was about a month  
 (14) Q Okay Did you have more than one conversation with her  
 (15) over this month period of time?  
 (16) A Yes, I did I think I called her two or three times  
 (17) Q In any of these conversations did she ever tell you  
 (18) exactly where Joe Hazelwood was?  
 (19) A No  
 (20) Q Did she ever tell what you kind of treatment he was  
 (21) receiving?  
 (22) A No  
 (23) Q All right Did you - when did you find out what kind  
 (24) of - or anything about the treatment that Captain Hazelwood  
 (25) was undergoing?

Vol 20 3374

- (1) A Specifically or -  
 (2) Q Well anything about it  
 (3) A - anything about it?  
 (4) Q (Nods head)  
 (5) A When Captain Hazelwood called me in relation to the  
 (6) leave  
 (7) of absence it was - as I recall him saying was to attend  
 (8) meetings, you'd be a patient in meetings like an AA  
 (9) Q And by AA you took that to mean Alcoholics Anonymous?  
 (10) A Yes  
 (11) Q And he said meetings like AA?  
 (12) A Right  
 (13) Q And under the Exxon process let's call it at that time  
 (14) was a person who was receiving medical treatment entitled to  
 (15) be  
 (16) paid during that?  
 (17) A Yes  
 (18) Q All right And if a person was going on a leave of  
 (19) absence would they be paid?  
 (20) A Not necessarily  
 (21) Q Okay In any event Captain Hazelwood was calling you  
 (22) to - he wanted to you help him get this leave of absence is  
 (23) that the gist of it?  
 (24) A The gist of it is he didn't want to go back to see he  
 (25) needed some more time  
 (26) Q Did you in fact intercede on his behalf and see if you  
 (27) could arrange a leave of absence?

Vol 20 3375

- (1) A Yes I did  
 (2) Q Do you remember how long that leave of absence was your  
 (3) best recollection?  
 (4) A My recollection it was two months 60 days  
 (5) Q Did you contact anybody?  
 (6) A Yes I called our fleet manning person in Houston  
 (7) Q Who was that do you remember?  
 (8) A Helen Surret And alerted her that Captain Hazelwood  
 (9) wouldn't be available for another two months  
 (10) Q Captain Pierce when you had the conversation with Captain  
 (11) Hazelwood in which he told you that he was going to attend  
 (12) among other things meetings like AA did he tell you anything  
 (13) else about his treatment?  
 (14) A No he did not  
 (15) Q Did you ask him anything else about his treatment?  
 (16) A No  
 (17) Q Did you infer or deduce anything from the fact that he said  
 (18) he was going to attend meetings like AA?  
 (19) A Well the inference was a support group outside of  
 (20) whatever  
 (21) treatment he had had And the fact that he used AA I may  
 (22) have  
 (23) associated that may have been a component of it also  
 (24) Q You thought that this treatment or this problem did involve  
 (25) alcohol in some way or another?  
 (26) A At that point it may have been a component of that  
 (27) Q Did that change your opinion as to what the problem was

Vol 20 3376

- (1) that he needed help for?  
 (2) A No it didn't  
 (3) Q But you were aware at least that there was some involvement  
 (4) with alcohol at some level in his treatment or program  
 (5) correct?  
 (6) A At that point  
 (7) Q Now if the record in this case and all the other records  
 (8) show that this leave of absence was 90 days would you  
 (9) disagree  
 (10) with that You said your recollection is 60 If it's 90  
 (11) would that -  
 (12) A Could be 90  
 (13) Q Okay  
 (14) Counsel - my friend counsel have said at various times in  
 (15) this case starting from the beginning that the information  
 (16) that you got and the reason you called Captain Hazelwood in  
 (17) the  
 (18) first place had to do with job performance True or untrue?  
 (19) A Untrue I had nothing indicating Captain Hazelwood's  
 (20) performance was any different as it related to the  
 (21) profession  
 (22) he was employed  
 (23) Q Now Captain Pierce when did you leave your job as gulf  
 (24) coast port captain?  
 (25) A Mid June of '85 That same year  
 (26) Q Now this then is about a month or so after you have this  
 (27) call with Captain Hazelwood about the leave of absence?  
 (28) A Yes

Vol 20 3377

- (1) Q And you make the call to Helen Surret to advise her that  
 (2) he is requesting this leave of absence  
 (3) A Yes  
 (4) Q Was the leave of absence granted as far as you know? You  
 (5) can recall?  
 (6) A As far as I know it was  
 (7) Q From the time that you had this conversation with Captain  
 (8) Hazelwood and this conversation with Helen Surret do you  
 (9) recall having any other communication with Captain Hazelwood  
 (10) before you left this job as port captain?  
 (11) A No  
 (12) Q When you left the job as port captain in the middle of June  
 (13) of 1985 did you go straight back to a ship?  
 (14) A No I did not Returned to my home in Nevada and took a  
 (15) lot of accrued time off  
 (16) Q Did you ultimately get back to the ship?  
 (17) A Yes, I did  
 (18) Q What ship?  
 (19) A The Exxon Boston  
 (20) Q And do you remember when that was?  
 (21) A Either be the September time frame of '85  
 (22) Q So from the time that you left the job at port captain in  
 (23) the middle of June through August were you more or less  
 (24) around  
 (25) home?  
 (26) A Yes

Vol 20 3378

- (1) Q Now before you left did you have any occasion to have any  
 (2) discussions about masters in the gulf coast fleet with your  
 (3) successor?  
 (4) A I did  
 (5) Q Who was your successor?  
 (6) A Captain William Sheehy  
 (7) Q And did you have any conversation with Captain Sheehy  
 (8) about  
 (9) Captain Hazelwood?  
 (10) A I did At the time we were going through all our masters  
 (11) and when we came to Captain Hazelwood I told Captain  
 (12) Sheehy  
 (13) that he was on medical leave and would be available  
 (14) sometime  
 (15) later in the summer and he would let them know  
 (16) Q Did you tell Captain Sheehy anything more than that in  
 (17) let's say early June when you had this conversation? Did you  
 (18) tell him anything more than that the captain was on medical  
 (19) leave?  
 (20) A No  
 (21) Q Why?  
 (22) A As I understood the policy at the time there was a  
 (23) confidentiality part to it And again as I previously stated  
 (24) both Captain Hazelwood and I are private people and I  
 (25) respected that very much And tried to abide by it  
 (26) Q Did there come a time however when you did tell Captain  
 (27) Sheehy more about Captain Hazelwood and the medical leave?  
 (28) A Later that day Captain Sheehy called me about a meeting

Vol 20 3379

- (1) that he had had or was requested to have with Captain  
 (2) Hazelwood  
 (3) Q Are - let me ask you about that  
 (4) Did he call you you think before the meeting or after the  
 (5) meeting or do you know?  
 (6) A Well I believed it was after the meeting  
 (7) Q In any event tell the ladies and gentlemen of the jury as  
 (8) best you can recall what he called you about What did he say?  
 (9) A He was a little bit confused why he was meeting with  
 (10) Captain Hazelwood, what the gist was And he was calling  
 (11) to  
 (12) find out if I could impart more of that information to him  
 (13) Q And did you?  
 (14) A I think in a very vague way but I was still under this  
 (15) confidentiality thing, trying to protect that privacy  
 (16) Q Were you also as a friend trying to protect Joe's  
 (17) privacy?  
 (18) A Correct  
 (19) Q Well did you tell Captain Sheehy in vague or otherwise  
 (20) terms that this treatment did involve or this program or this  
 (21) problem whatever words you used involve alcohol?  
 (22) A Not that I'm readily aware of, in those terms That he had  
 (23) been in a counseling program Captain Sheehy may have  
 (24) inferred  
 (25) or maybe I used words that would allow him to infer, but I  
 (26) don't remember again coming right out and saying  
 (27) Q Did you say anything about this being Captain Hazelwood's

Vol 20 3380

- (1) last chance?  
 (2) A I don't recall saying those words  
 (3) Q Did you say anything to him in the way of asking Captain  
 (4) Sheehy to let Captain Hazelwood know something like that?  
 (5) A I think in the discussion we were having, I was a little  
 (6) bit misunderstood why Captain Sheehy was having this  
 (7) discussion It wasn't taking place with somebody from line  
 (8) management and I may have inferred to Captain Sheehy  
 (9) that I  
 (10) hope somebody in that line management position would  
 (11) have told  
 (12) Captain Hazelwood this was his last chance if, in fact,  
 (13) alcohol  
 (14) was involved  
 (15) Q I take it you were somewhat critical of the fact that it  
 (16) was Captain Sheehy having this conversation instead of  
 (17) someone  
 (18) in line management?  
 (19) A I felt that it was really a line management, administrative  
 (20) manager's point to have that discussed and let Captain  
 (21) Hazelwood know what happens from this point forward  
 (22) Q Did you have any further conversations with Captain Sheehy  
 (23) that you can recall concerning Captain Hazelwood?  
 (24) A Not that I recall  
 (25) Q Now did you have further communications after Captain  
 (26) Hazelwood returned to duty with Captain Hazelwood?  
 (27) A Well through the summer and until I returned to sea I  
 (28) called him on occasion just to see how he was doing  
 (29) Q And how was he doing?

Vol 20 3381

- (1) **A He appeared to be doing well**
- (2) **Q All right After he returned to sea and after you returned to sea did you maintain this friendship with him?**
- (3) **A Yes And the - the correspondence continued and the book**
- (4) **exchange between us**
- (5) **Q What kind of books did you all exchange?**
- (6) **A Books like Between the Deep Blue Water and the Devil things like that again maritime history type books**
- (7) **Q Did you have an occasion in this succeeding period of time to see and observe Captain Hazelwood?**
- (8) **A Occasionally we would meet at company sponsored supported**
- (9) **conferences meetings and training session**
- (10) **Q Let's take conferences first Do you have a recollection of seeing Captain Hazelwood at any fleet conferences in '85 '86 '87 '88?**
- (11) **A Don't remember the specific year but I know we attended at**
- (12) **least one of those type of conferences together yes**
- (13) **Q Did you other than these conferences training sessions et cetera did you see him at any other place or any other occasion?**
- (14) **A We were together for an extended period of time in Dallas Texas in -**
- (15) **Q I'm going to get do that That's in '89 Let me stay on this side of 1989 for a second**
- (16) **A Okay**

Vol 20 3382

- (1) **Q Other than fleet conference and say training sessions did you - did you have occasion to see Captain Hazelwood face to face in person?**
- (2) **A I think there was one occasion where I relieved him in Baton Rouge That was a brief exchange over - he was flying**
- (3) **out almost immediately and I got on the - I believe it was the Yorktown or the Princeton one or the other**
- (4) **Q Did you all have time to have dinner?**
- (5) **A No we didn't**
- (6) **Q How did he look to you when you saw him on those occasions**
- (7) **let's say prior to January 1 1989?**
- (8) **A He looked good**
- (9) **Q And from the tone of the conversations that you had with him and from the tone of the letters exchanged and the correspondence how did you think he was doing?**
- (10) **A It seemed that the relationship was as it had been before He had entered into treatment He seemed to be in good spirits**
- (11) **Q At these fleet conferences or meetings did you happen to have occasion to see Captain Hazelwood in a social setting?**
- (12) **A Yes**
- (13) **Q Did you happen to see Captain Hazelwood in a setting where alcohol was either provided or available?**
- (14) **A Yes**
- (15) **Q Do you have a recollection as to whether or not Captain**

Vol 20 3383

- (1) **Hazelwood drank at any of these occasions?**
- (2) **A I can -**
- (3) **Q Drank alcohol?**
- (4) **A Never drank alcohol in my presence yeah His preference**
- (5) **was the tonic water with a piece of lime in it**
- (6) **Q Now let's go to 1989**
- (7) **Did you - you mentioned attending some sort of training session with Captain Hazelwood Would you tell the ladies and gentlemen of the jury what that was?**
- (8) **A A group of masters in '89 in the winter of '89 were sent to Dallas to FCC federal communications course**
- (9) **Q Was Captain Hazelwood in that group?**
- (10) **A And he was part of that group yes**
- (11) **Q How long did that course last?**
- (12) **A Seemed like forever**
- (13) **Q But in fact how long did it last?**
- (14) **A More than two weeks**
- (15) **Q Over two weeks**
- (16) **In Dallas in the wintertime?**
- (17) **A Right**
- (18) **Q Attending a radio course?**
- (19) **A Yes a radio electronics course**
- (20) **Q And how many hours a day would you have to spend in the classroom or in the course?**
- (21) **A Seemed like we were there in the beginning at least eight**

Vol 20 3384

- (1) **hours in a classroom setting Fight to nine hours Towards the end of the second week course shortened we were supposed**
- (2) **to study on our own**
- (3) **Q Did you have a chance to observe Captain Hazelwood on a almost minute by minute basis over this two week period?**
- (4) **A I did We - in fact in the afternoons when we were supposed to be studying usually went to the movie and we also**
- (5) **had dinner**
- (6) **Q Are you trying to tell us you didn't study at the end of this course?**
- (7) **A We passed the course**
- (8) **Q Did you have occasion to go out and socialize?**
- (9) **A Yes we did**
- (10) **Q Did you do that just you and Captain Hazelwood or were other people in the group?**
- (11) **A Usually a large section of the group went out each night to**
- (12) **dinner**
- (13) **Q At these dinners did anyone partake of alcoholic beverages?**
- (14) **A Usually there was a cocktail and then a bottle of wine that we split around**
- (15) **Q Did Captain Hazelwood have any wine or any cocktail?**
- (16) **A No he did not In fact we kiddingly called him the designated driver, and that's what he was**
- (17) **Q Now were you with him at each - at each evening for**

Vol 20 3385

- (1) dinner or were there times when he stayed away or you stayed  
(2) away?  
(3) A Yes, I'm - there were both those over that extended  
period  
(4) of time  
(5) Q All right But did you have a fair number of times where  
(6) you actually went out for an evening and had a meal had a  
(7) cocktail and had a glass of wine or maybe even two glasses of  
(8) wine?  
(9) A Yes  
(10) Q And so during this entire period in early 1989 Captain  
(11) Hazelwood did not drink when others did?  
(12) A That's correct  
(13) MR SANDERS Thank you captain  
(14) THE COURT You may cross examine  
(15) CROSS EXAMINATION OF MARK PIERCE  
(16) BY MR O NEILL  
(17) Q You have said in the courtroom as counsel said that your  
(18) call to Captain Hazelwood was job related and work related  
(19) And I'm going to explore that subject with you right now  
(20) Your understanding of Captain Hazelwood's problems by the  
(21) summer of 1985 the problems that led him to go on medical  
(22) leave was that he was having some family problems marital  
(23) problems depression problems and job problems Is that a  
(24) correct statement?  
(25) A I think with the job portion of it - previous to that

Vol 20 3386

- (1) that is all correct The job portion it was more of an  
(2) administration part of the job not the technical part  
(3) Q You were deposed in this lawsuit civil action on August  
(4) 3rd 1993 Isn't that correct?  
(5) A Yes that's correct  
(6) Q And you took an oath to tell the truth That's a correct  
(7) statement?  
(8) A Yes  
(9) Q And at that deposition you were asked the question Okay  
(10) by the summer of 1985 did you have an understanding as to  
what  
(11) Captain Hazelwood's problems were that led him to go on  
medical  
(12) leave?  
(13) Answer No definitely no  
(14) Okay did you have a general understanding?  
(15) Yes  
(16) What was your general understanding of those problems?  
(17) Answer I think he was having some family problems  
(18) marital problems Again I think there was some depression  
(19) problems job problems I think we could add them all up  
(20) Do you see that testimony?  
(21) A Yes I do  
(22) Q Was that the question asked and was that the answer given?  
(23) A So it's stated here  
(24) Q Let's go to page 87 of your deposition transcript Go to  
(25) line 6 and we'll go all the way through 88 on line 1

Vol 20 3387

- (1) Line 16  
(2) The question was When did you speak to him about his job  
(3) performance?  
(4) And the answer was I believe it was last - the last week  
(5) of March 1985 first week of April 1985  
(6) What caused you to have this conversation with Captain  
(7) Hazelwood?  
(8) Answer I received an anonymous telephone call from an  
(9) officer That's how he identified himself It was a phone  
(10) call of concern that something was troubling Hazelwood to the  
(11) extent it was affecting the way he conducted business on the  
(12) ship  
(13) Do you see that?  
(14) A Yes, I do  
(15) Q And that was the question that was asked you and the  
answer  
(16) that you gave?  
(17) A That's correct  
(18) Q And in your testimony here today would it be fair to say  
(19) that you studiously avoided bringing to the attention of the  
(20) jury the fact that the anonymous caller told you that something  
(21) was troubling Captain Hazelwood to the extent that it was  
(22) affecting the way he conducted business on the ship?  
(23) A I don't believe "avoid" is particularly correct Let me  
(24) clarify that  
(25) As master my opinion is you have to have three spheres

Vol 20 3388

- (1) You have a private sphere behind your closed door, you  
have a  
(2) professional sphere which is operation the safe conduct of  
the  
(3) vessel, and then there's a business sphere which is your  
(4) interaction with people And that's what I inferred from that  
(5) statement -  
(6) Q Is that statement -  
(7) A - is his interaction with people was being affected  
(8) Q My question for you sir is did you studiously avoid  
(9) telling us here today that part of the report from you or the  
(10) report to you from the anonymous caller? Did you avoid telling  
(11) us that?  
(12) A No I did not  
(13) Q Now we have seen at least three times in your deposition  
(14) transcript where you talk about job problems job performance  
(15) and now getting a report that something was troubling  
Hazelwood  
(16) to the extent that it was affecting the way he conducted  
(17) business on the ship Do you see that?  
(18) A Yes  
(19) Q Now after this telephone call you called Captain  
(20) Hazelwood and you told Captain Hazelwood - your testimony  
here  
(21) today was We need to understand what's going on and your  
(22) testimony at the time of your deposition transcript was If he  
(23) didn't feel that there was any problem or he was performing  
(24) his job as he always had then let's talk about that why other  
(25) people perceived that there had been a change

Vol 20 3389

Vol 20 3391

- (1) Those other people were people on the job weren't they?  
 (2) A Yes  
 (3) Q And then after you talked to Captain Hazelwood that same day you called Ben Graves Is that a correct statement?  
 (4) A After Captain Hazelwood had called me back  
 (5) Q I'm sorry you're correct  
 (6) Now Ben Graves is the author of the Graves report you're aware of the Graves report - although you didn't see it at the time is that a correct statement?  
 (7) A Just in conference with counsel the only time I've seen it  
 (8) Q And I won't get into that  
 (9) But this is the same Ben Graves isn't it B C Graves Junior?  
 (10) A Yes  
 (11) Q And Mr Graves report has a date of May 19 and May 28 but your call to him had to be in early April isn't that correct?  
 (12) A Yes  
 (13) Q And Mr Graves said to you when you said I have trouble with a captain Mr Graves said to you Does his name start with H?  
 (14) A That's correct  
 (15) Q And Mr Graves was over the human resources department?  
 (16) A Yes he was in charge of that department  
 (17) Q Now there's another telephone call that takes place

- (1) A That's incorrect  
 (2) Q His ship didn't fall under your responsibility at all?  
 (3) A I wasn't a ship group coordinator  
 (4) Q I'm sorry what were you?  
 (5) A I was a port captain and as such I liaised between the ships and line management  
 (6) Q Including Captain Hazelwood's ship?  
 (7) A Including his ship yes  
 (8) Q And that was part of your duties?  
 (9) A That's correct  
 (10) Q And the anonymous telephone caller who called if in fact he was a ship's officer and working with Captain Hazelwood was  
 (11) a part of his duties?  
 (12) A Yes  
 (13) Q And I want to - you tell this series of events in 1985 but other people have come in here and have said that Captain Hazelwood was the most monitored man in the fleet Okay?  
 (14) You're aware of no monitoring are you?  
 (15) A In what time period?  
 (16) Q Time period that you worked - the time period that you worked with Captain Hazelwood  
 (17) A Well we had contact with Captain Hazelwood as we would any  
 (18) other master during that time frame  
 (19) Q You're aware of no monitoring are you?  
 (20) A No

Vol 20 3390

Vol 20 3392

- (1) sometime thereafter and that is to Mr Tomkins And that's to inform Mr Tomkins that Captain Hazelwood was going on leave or  
 (2) on disability leave?  
 (3) A That was not a phone call  
 (4) Q It was?  
 (5) A It was a conversation with person in the office in Baytown  
 (6) and I informed Mr Tomkins that Captain Hazelwood was going on  
 (7) medical leave  
 (8) Q And Mr Tomkins was your boss and his boss?  
 (9) A That is correct  
 (10) Q And Mr Tomkins had a one word answer or a one word response to this information and his one word was -  
 (11) A As I recall was "good"  
 (12) Q Good  
 (13) And the anonymous caller who - the anonymous caller called you in a situation where you already had full some  
 (14) undercurrent that something was wrong?  
 (15) A That's correct  
 (16) Q And the anonymous caller identified himself as an officer at Exxon - Exxon Shipping Company?  
 (17) A Just said an officer who had sailed with Captain Hazelwood  
 (18) Q An officer who sailed with Captain Hazelwood And you were the - at that time you were the ship group coordinator and as  
 (19) part of your duties Captain Hazelwood's ship was a ship  
 (20) that - whose activities you coordinated?

- (1) Q And indeed you had information with regard to Captain Hazelwood and Captain Hazelwood going into a hospital for some  
 (2) kind of treatment and later on that Captain Hazelwood had something to do with Alcoholics Anonymous and you passed that  
 (3) on in one cryptic conversation to Mr Tomkins and you passed it on to nobody else did you?  
 (4) A I'm not aware that I passed it on to Tomkins other than he was going on medical leave  
 (5) Q Thank you  
 (6) REDIRECT EXAMINATION OF MARK PIERCE  
 (7) BY MR SANDERS  
 (8) Q Captain Pierce you left the gulf coast fleet port captain's job in June of 1985 correct?  
 (9) A Yes  
 (10) Q And Captain Hazelwood didn't return to his job as the master of the Yorktown until August of 1985 - 85 isn't that correct?  
 (11) A Yes  
 (12) Q So therefore there was no monitoring that could have happened in the gulf coast that you would have known anything about correct?  
 (13) A That's correct  
 (14) Q Where were you in the fall of 1985 and all through 1986 and all through 1987?  
 (15) A Attending my own ship the Exxon Boston

Vol 20 3393

- (1) Q And what waters were you sailing in?
- (2) A At that time she was sailing from Baytown Texas to Santa Barbara on the Hondo trade and subsequently in '87 tramp trade
- (3) most everywhere including Valdez
- (4) Q Is there any way in this world that you would have monitored Captain Hazelwood aboard the Yorktown while you were sailing on the Exxon Boston in the Hondo trade or in the tramp trade?
- (5) A I had my hands full with my own ship couldn't have monitored his
- (6) Q Now you were asked a series of questions and shown your deposition by Mr. O'Neill and he wants to suggest that you're coming in here and holding your punches and not telling the jury everything. As a matter of fact, Captain Pierce did you not tell them in your deposition exactly what you have told this jury?
- (7) A That's correct
- (8) Q And at page 92 which is two or three pages beyond pages 86, 7 and 8 were you asked this question and did you give this answer?
- (9) Question - I'm reading down from line 21
- (10) Question - Let me begin again just so we're clear. I guess what I'm asking you is, was there something that - something in Captain Hazelwood's job performance, something in his mannerisms, something that Captain Hazelwood had done which

Vol 20 3394

- (1) led to this undercurrent that something was just not right with Joe?
- (2) Answer - No
- (3) Was that question asked and that answer given?
- (4) A That's correct
- (5) Q And then again over at page 234 beginning at line 16 was this question asked and this answer given?
- (6) Question - Now - this is referring to the anonymous caller
- (7) Now why do you think this individual called you?
- (8) Answer - I truly believe he called me because he felt I was a friend of Captain Hazelwood's. The context of the call as I expressed earlier was one of concern for an individual for a human being versus the professional end of it.
- (9) And then - was that question asked you at your deposition the very same day -
- (10) A Yes
- (11) Q - as these other questions and did you give that answer?
- (12) A Yes I did
- (13) Q And then again at page 243 line 24 question
- (14) Did you at any time have any reason to believe that there were issues relating to safety given Captain Hazelwood's job that was involved here?
- (15) Answer - I did not
- (16) And then finally at 246 - excuse me

Vol 20 3395

- (1) Did they ask you that question and did you give them that answer?
- (2) A Yes I did
- (3) Q And then at page 246 - this gets right to the nub of it
- (4) Captain question again at line 22
- (5) Okay well now you're using the word acting. But you did use the word performing in the earlier answer correct?
- (6) Answer - I know I did. That is correct. I had nothing to indicate that his performance as master or doing the job as master had changed.
- (7) Was that question asked and did you give that answer?
- (8) A Yes
- (9) Q Nothing further Your Honor
- (10) THE COURT Captain you may step down
- (11) (The witness stepped down)
- (12) THE COURT You may call your next witness
- (13) MS STEWART Your Honor the defendants call Dan Lawn Dan Lawn by video tape deposition
- (14) DIRECT EXAMINATION OF DAN LAWN (Video)
- (15) BY VIDEO EXAMINER
- (16) Q When did you become the supervisor in the Valdez district office?
- (17) A In the early '80s
- (18) Q Prior to January of 1983?
- (19) A I don't recall

Vol 20 3396

- (1) Q Why don't you look at exhibit 1081 then?
- (2) A Okay
- (3) Q So that indicates that as of July of 1982 you were the district office supervisor in Valdez correct?
- (4) A That's correct
- (5) Q And you remained the supervisor of that office at least up through the approval of the 1987 plan didn't you?
- (6) A I did
- (7) Q When did you cease to be the supervisor in that office?
- (8) A Summer to fall of '89 I don't recall the specific date
- (9) Q Sometime after the grounding of the Exxon Valdez?
- (10) A That's correct
- (11) Q Where did you actually board the pilot boat that went out to the Valdez?
- (12) A I believe it was at the dock that the Coast Guard uses which is an old ferry dock right below the Coast Guard station
- (13) Q How long was the ride out to the Valdez?
- (14) A I - wasn't real long, that - that boat was pretty fast as I recall
- (15) Q Was it two hours?
- (16) A Oh no it was in a matter of minutes
- (17) Q Minutes?
- (18) A Well I mean you know half an hour to an hour
- (19) Something like that is my best recollection I just - you know I don't recall real clearly

Vol 20 3397

Vol 20 3399

- (1) Q Now let's point down who was on the boat with you. I believe it was yourself. It was Delozier from the Coast Guard?
- (3) A Delozier.
- (4) Q Delozier. What's his - what was his title?
- (5) A My recollection, he was in the Mess shop and dealt with oil pollution. He may have dealt with marine inspection too. I just don't recall.
- (8) Q And it was - the XL Falkenstein?
- (9) A Yes. Tom Falkenstein.
- (10) Q Did you find your way to the bridge on your own?
- (11) A I had been on enough vessels that I can find my way to the bridge on my own. I wasn't on my own as I recall. I was in the two Coast Guard people. I don't know whether there was a crewman there or not.
- (15) Q Now you went up to the bridge?
- (16) A I did.
- (17) Q And tell me who you saw as soon as you entered the bridge?
- (18) A My recollection of - the first person I remember is Captain Hazelwood.
- (20) Q What was he doing?
- (21) A As I recall, he was looking - I have a notion that he was looking out over the deck.
- (3) Q You recall that or this is -
- (4) A My - the thing that I remember most is when I saw him. He said Hi Dan. I believe I said Hi captain. I didn't

- (1) A I believe my testimony was my recollection - and my recollection is that he was pensive and - my recollection and my sense of Mr. Hazelwood was that he was pensive and that -
- (4) concerned about what had happened.
- (5) Q Would you consider that to be a normal reaction to -
- (6) A Hell yeah.
- (7) Q - the situation at hand? Sorry?
- (8) A Yes.
- (9) Q Did you can notice any impairment in a physical way on Captain Hazelwood? By that were his motor functions in any way impaired as best as you can tell from that initial meeting?
- (11) A I believe I earlier said that I - that wasn't the focus of what I was doing. I didn't recall anything that came to mind.
- (14) Q Did you notice any unusual speech patterns in the course of speaking with him in your initial -
- (16) A Not that I recall.
- (17) Q - contact?
- (18) Have you ever seen anyone intoxicated or under the influence of alcohol?
- (19) influence of alcohol?
- (20) A I have.
- (21) Q You've seen someone drunk basically?
- (2) A Yes.
- (3) Q Who - where has that happened?
- (4) A Well in the - life.
- (5) Q Did there come a time when you needed to use the MARSAT

Vol 20 3398

Vol 20 3400

- (1) recognize him.
- (2) Q You hadn't recognized him when you first saw him?
- (3) A Yeah.
- (4) Q Didn't you just testify the first person you saw on the bridge was the captain?
- (6) A Well, what I'm saying is I learned that he - you know learned that it was at captain.
- (8) Q Did someone introduce him to you at that time?
- (9) A I don't have a good notion on that.
- (10) Q Now how close did you get to him?
- (11) A A few feet.
- (12) Q Did you shake his hand?
- (13) A I don't recall.
- (14) Q Now my question now related to your meeting on the bridge. That was what I asked you. And I asked you what you had testified at an earlier time I think in response to the question whether you had smelled alcohol on his breath or person and I believe your testimony at that time was that no you did not. Is that correct?
- (20) A That's - I think that's what I said just now too.
- (21) Q The other question I have and this is something I believe you've testified to earlier besides not smelling any alcohol on his breath or person at the time did you notice any unusual - anything else unusual about the captain at that time?

- (1) phone on the vessel?
- (2) A I did.
- (3) Q Did you not?
- (4) A Yes. I have some vague notion that the captain helped or at least made it possible for me to use the phone.
- (6) Q What do you mean made it possible? Did he hand you the phone?
- (8) A I have some notion that there was some instructions given to the radio officer or something of that nature.
- (9) to the radio officer or something of that nature.
- (10) Q Was he there physically when that happened?
- (11) A I have a recollection that I saw Captain Hazelwood in the radio room and on places other than just the bridge.
- (12) Q When you met the captain in the radio room did you smell alcohol on his breath or person?
- (14) alcohol on his breath or person?
- (15) A I don't recall that.
- (16) Q Did you see him acting in any - did you see any physical impairment about any of his actions?
- (17) impairment about any of his actions?
- (18) A I don't recall.
- (19) Q Did you see him speaking in a slurred manner?
- (20) A I don't recall no.
- (21) Q Now that's at least two times we've said that you've seen the captain on board the vessel right? Now you've mentioned a third time or - I'm not trying to suggest it's in this chronology by the way but you did mention passing him by in the stairs or -

Vol 20 3401

- (1) A I have a recollection of - I was either going downstairs  
(2) and he was coming up or vice versa and it's a very narrow  
(3) companionway and that is the first time that I was within a  
(4) foot or so of him  
(5) Q Now how soon after the initial meeting on the bridge was  
(6) that?  
(7) A I think it was sometime afterwards but I don't recall  
(8) the -  
(9) Q Was he going up the stairs or going down the stairs?  
(10) A I don't recall  
(11) Q Well let's see Let's turn to your - were you going up  
(12) and down stairs? By the way -  
(13) A Yes  
(14) Q - someone was going up and someone was going down?  
(15) A That's just what I testified to, yes, sir  
(16) Q Okay Did you see Captain Hazelwood having any difficulty  
(17) going up or down the stairs that you're referring to?  
(18) A I don't recall  
(19) Q Did he fall at any point or stumble that you recall?  
(20) A Not that I recall  
(21) Q By the way that passing in the stairway did that occur  
(22) before or after you were in the radio room with him during your  
(23) efforts to use the MARSAT phone?  
(24) A I don't know  
(25) Q You don't recall You don't recall -

Vol 20 3402

- (1) A I don't recall excuse me  
(2) MS STEWART Your Honor that concludes direct  
(3) examination of Dan Lawn of the Department of Alaska  
(4) Department  
(5) of Environmental Conservation  
(6) MS WAGNER Your Honor we have a short video  
(7) cross examination  
(8) CROSS EXAMINATION OF DAN LAWN (Video)  
(9) BY VIDEO EXAMINER  
(10) Q So is it fair to say that you eventually came to know as  
(11) Captain Hazelwood because you were either told that or you  
(12) had  
(13) that recognition at some point?  
(14) A Yes  
(15) Q One of those two possibly?  
(16) A Yes  
(17) Q And you don't recall which it is right now  
(18) A I don't It's been three years ago  
(19) Q Right  
(20) If it were the fact that you suddenly recognized him do  
(21) you assume that you got pretty close though him [sic] to  
(22) look - did you look him in the face did you look at his face  
(23) when you boarded the bridge?  
(24) A No more so than I would look to somebody's face that I  
(25) was  
(26) saying hello to or saying Hi I'm Dan Lawn or words to that  
(27) effect  
(28) Q Did he stick his hand out to shake your hand?

Vol 20 3403

- (1) A I don't have a good recollection of that  
(2) Q Okay How far apart do you think you were at your closest  
(3) point?  
(4) A I don't recall being closer at that point in time than a  
(5) couple of arm lengths  
(6) Q Okay That is what you meant by a couple of arm lengths?  
(7) A That's my recollection I believe my earlier testimony  
(8) was  
(9) I wasn't real close to him until several hours later or  
(10) sometime later  
(11) Q So if you shook his hand you would not consider that to be  
(12) real close to him is that what your testimony is?  
(13) A I guess the testimony I'm giving had to do with whether I  
(14) had my nose in his - around his breath close enough to  
(15) smell  
(16) alcohol and I testified that no that I didn't at that time  
(17) Q Now you just said you testified You mean at some prior  
(18) time you testified?  
(19) A I believe that in - at court in the Hazelwood matter  
(20) Q And you testified when asked whether you had smelled  
(21) alcohol on his breath or person you answered no that you did  
(22) not?  
(23) A My recollection is that I had two portions of that  
(24) testimony one being I didn't notice it until he and I passed  
(25) in a companionway or in the stairs which was sometime  
(26) later  
(27) when we were very close together  
(28) MS WAGNER That concludes the cross Your Honor

Vol 20 3404

- (1) MR SANDERS May it please the Court the defendants  
(2) call Ms Gabriella Guerra  
(3) THE CLERK Raise your right hand  
(4) (The Witness Is Sworn)  
(5) THE CLERK Please be seated  
(6) For the record please state your full name your address  
(7) and spell your last name please  
(8) THE WITNESS My full name is Gabriella Maria Guerra  
(9) My address is 5811 Valley Forge in Houston Texas My name  
(10) is  
(11) spelled G u e r r a  
(12) DIRECT EXAMINATION OF GABRIELLA GUERRA  
(13) BY MR SANDERS  
(14) Q Miss Guerra where are you employed?  
(15) A I'm with Sea River Maritime Incorporated  
(16) Q And that's Exxon right?  
(17) A That's correct  
(18) Q And before that how long have you been employed by  
(19) Exxon?  
(20) A I joined Exxon September 8th of 1969  
(21) Q Would you tell the ladies and gentlemen of the jury about  
(22) your educational background?  
(23) A I graduated from the University of Houston in secondary  
(24) education with chemistry and math is my teaching fields  
(25) and I  
(26) have some course work after that in computer science  
(27) Q Now in the spring of 19 and 85 what was your job at  
(28) Exxon?

Vol 20 3405

Vol 20 3407

(1) A I was with Exxon Shipping Company in the administrative  
(2) department in human resources section there and I  
coordinated  
(3) the merit compensation program and administered the  
savings and  
(4) investment plan benefits and the disability benefits for the  
(5) ocean fleet  
(6) Q Now I want to ask you some questions today before I ask  
(7) you to put on your disability section hat  
(8) A All right  
(9) Q Okay  
(10) Now as the person who – were you the only person  
(11) responsible for disabilities the disabilities section for  
(12) Exxon Shipping Company?  
(13) A For the ocean fleet yes  
(14) Q What is in the ocean fleet?  
(15) A The deep sea tankers and the men and women that crew  
those  
(16) tankers  
(17) Q All right Was the Exxon Yorktown part of the ocean fleet?  
(18) A Yes sir  
(19) Q And was Captain Hazelwood a person as master of the  
(20) Yorktown that was within your realm there as the disabilities  
(21) person?  
(22) A Yes  
(23) Q Now tell the ladies and gentlemen of the jury what you did  
(24) as disabilities person  
(25) A Well, I, in administering the benefits I would determine

Vol 20 3406

(1) based on employee information or information from one of  
the  
(2) fleet officers whether a person was entitled to receive  
(3) disability benefits Based on initial information I would  
(4) submit the paperwork that would change their pay status  
from  
(5) either being on the ship or being at home on paid leave to  
one  
(6) of receiving disability benefits  
(7) Q Now when we talk about disability benefits is that when  
(8) somebody gets sick or needs help they go in and seek that  
(9) help? Is that what you mean by the disability?  
(10) A That's right They're seeing a doctor for treatment and  
(11) our benefits allow that you don't lose pay status based on  
your  
(12) service You receive pay during the time you're receiving  
(13) treatment  
(14) Q Now in the – and you were in that job in the spring of  
(15) 1985?  
(16) A Yes I was  
(17) Q And in that capacity and in that particular job did you  
(18) have a communication with someone regarding Captain Joseph  
(19) Hazelwood?  
(20) A Yes I did  
(21) Q Do you recall from whom that communication came?  
(22) A Yes that was from Ben Graves  
(23) Q Who was Ben Graves?  
(24) A He was administrative manager of Exxon Shipping  
Company  
(25) Q Is he the person to whom you reported?

(1) A I had a supervisor in between  
(2) Q Who was that?  
(3) A Mel Dravton (ph)  
(4) Q But on this occasion Mr Graves came to you?  
(5) A Came directly to me yes sir  
(6) Q Did he come by telephone or did he come in person?  
(7) A No he asked me to come to his office  
(8) Q All right and what did he tell you?  
(9) A He asked me to come in and close the door and he said  
that  
(10) Captain Hazelwood needed to be placed on disability  
benefits  
(11) I asked for what and as of what day And he said for  
alcohol  
(12) treatment and that – the date – the first day of disability  
(13) would be April 1st  
(14) Q Now I'm going to jump ahead a little bit in order that we  
(15) can put a date on this  
(16) In your job as the disabilities person for the ocean fleet  
(17) do you start a record when a person starts a disability?  
(18) A Yes I do  
(19) Q Could I have Defendant s Exhibit 3471 please?  
(20) And in this particular instance with Captain Hazelwood did  
(21) you in fact start a record?  
(22) A Yes I did  
(23) Q What is that record called?  
(24) A A benefit records card  
(25) Q Snappy name

Vol 20 3408

(1) I'm going to show you Defendant s Exhibit 3471 First I'm  
(2) going to show you the top part so that we can all read it  
(3) A Okay  
(4) Q Is this the benefit sickness record?  
(5) A Yes it is  
(6) Q The record that you started for Captain Hazelwood in 1985?  
(7) A Yes it is  
(8) Q And is this the card that you started as a result of your  
(9) communication with Ben Graves?  
(10) A Yes it is  
(11) Q Can you look on the card and tell the ladies and gentlemen  
(12) of the jury of the approximate date – let me back up  
(13) After you started this record what is the first thing that  
(14) you need to do in order to do your job?  
(15) A The first thing I do is complete a – it's called a  
(16) personnel change notice which is referred to on the card as  
a  
(17) PCN  
(18) Q All right Hold on just a minute  
(19) A That –  
(20) Q (Indicating) Is that PCN?  
(21) A Right  
(22) Q All right And what does a personnel change notice do?  
(23) A It informs the fleet manning group that their pay status  
(24) should be paid to 5105 and that tells them what date to put  
(25) them on that pay status

Vol 20 3409

- (1) Q Now does your record on Captain Hazelwood tell you what  
(2) date you did this very first thing?  
(3) A Yes On April 9  
(4) Q Is this the date I've circled the second circle?  
(5) A Yes and then I initial it  
(6) Q Is that a five there 5105?  
(7) A 5105  
(8) Q What does that mean?  
(9) A That means it's a non industrial disability does not  
(10) commence on a ship  
(11) Q Now let's me go up here to the top part  
(12) A All right  
(13) Q This information here (indicating) where did you get that?  
(14) A Combination of places Ben Graves told me that Joe  
(15) Hazelwood was the person who was being placed on  
(16) alcohol treatment so I got - I had that from Ben Then the  
(17) next to that, M 100 is just the - what we call the rating or  
(18) classification That meant he was a master and then the  
(19) pay  
(20) system That code is 100 for a master and I needed that  
information for the PCN I usually recorded it on the card  
(1) Q I'm going to draw another what might look a little bit like  
(2) a rectangle  
(3) MR NEAL That is a Tennessee rectangle  
(4) MR SANDERS Would you admonish counsel?  
(5) THE COURT He's your buddy no min

Vol 20 3410

- (1) MR SANDERS I want him disciplined  
(2) BY MR SANDERS  
(3) Q Now this other information up here at the top first it's  
(4) hard to read what this block is?  
(5) A All right I did that from my records the microfiche and  
(6) the top line is his social security number  
(7) Q His being Captain Hazelwood?  
(8) A Him being Captain Hazelwood And the PI means paid  
(9) leave  
(10) that means that was the pay status he was on before going  
(11) on  
(12) disability And '85  
(13) Q What about this number on the far right hand side?  
(14) A That's the year 1985  
(15) Q So you filled out on this very - well first let me ask  
(16) you Do you have a specific recollection of when you filled  
(17) this card out?  
(18) A Well I - it would have been on April 9th That's the  
(19) date I put on there  
(20) Q And what information did you put in all this information  
(1) that I have just asked you about the PCN and the what -  
(2) what is in these two Tennessee rectangles is that the  
(3) information you put on the card at first?  
(4) A That plus the 4/1 date on the lower - that one right  
(5) there  
(6) Q That number?  
(7) A That number That would have been the start date of the

Vol 20 3411

- (1) disability  
(2) Q What about this next number did you have that number  
(3) then?  
(4) A No, I did not  
(5) Q Okay So the information you got as to alcohol treatment  
(6) came from Mr Graves on or about April the 9th 1985?  
(7) A That is correct  
(8) Q Now we want to spend a little bit more time on this card  
(9) but is this a card that you kind of keep as a running record?  
(10) A Right I kept all of the active disability cases together  
(11) and that - I use them to record what was going on with him  
(12) Q Is there any particular reason that you keep those  
(13) together?  
(14) A Well I needed to know who was on disability, and I  
(15) needed  
(16) to monitor to make sure that they were seeing their  
(17) physician  
(18) and that I was receiving physician's reports doctor's  
(19) reports  
(20) Q With these kinds of records do you take any special care  
(1) with respect to these records?  
(2) A They were considered confidential because I did record  
(3) the  
(4) sort of - my interpretation of the diagnosis on it  
(5) Q Okay And - well let me back up since you said that  
(6) Did Mr Graves tell you that that was the diagnosis?  
(7) A I don't know that he used the word diagnosis He just  
(8) said  
(9) that Captain Hazelwood was entering an alcohol treatment  
(10) facility  
(11) Q Okay

Vol 20 3412

- (1) Or had entered?  
(2) A Or had entered that's right  
(3) Q As a matter of fact you had to backdate that to start the  
(4) benefits is that correct?  
(5) A Yes I did have to backdate that  
(6) Q So can you recall whether Mr Graves said this is the  
(7) diagnosis or he simply said he's going into an alcohol  
(8) treatment center?  
(9) A I think he just said he's going into an alcohol treatment  
(10) center  
(11) Q But you did put this in the block where it says diagnosis?  
(12) A I did  
(13) Q While we're on that can I have the IDR please  
(14) Plaintiff's Exhibit 10?  
(15) I have before you Plaintiff's Exhibit 10 which has been  
(16) admitted into evidence as the Hazelwood individual disability  
(17) report or the IDR Do you recognize that?  
(18) A I do  
(19) Q Let me ask you if there is a place where the diagnosis is  
(20) put?  
(1) A It's supposed to be put in the lower part of what you're  
(2) showing there The first part is history the second part is  
(3) diagnosis  
(4) Q Okay And is this the diagnosis (indicating) on the IDR?  
(5) A It's supposed to be

Vol 20 3413

Vol 20 3415

- (1) Q Ms Guerra do you know what that is?
- (2) A I do not
- (3) Q Are you familiar with the DSM?
- (4) A I am not
- (5) Q And you don't know what those numbers means?
- (6) A I do not
- (7) Q Is there any other place from which you got any information as to the diagnosis?
- (8) A No
- (9) Q And from this form you don't know what that diagnosis was?
- (10) A That's correct
- (11) Q All right Now after you started your - leave the 3471 Back up please
- (12) After you started your benefit sickness record for Captain Hazelwood and you - and you had changed the - what's called the PCN?
- (13) A That's correct I completed that PCN uh huh
- (14) Q What did you do next?
- (15) A I complete the PCN and I mail the person - and I mailed to Joe Hazelwood the individual disability report form
- (16) Q Why do you do that?
- (17) A So that they can authorize a doctor to release information to Exxon Shipping Company and for them to give that to the doctor so that we will get a report of the treatment
- (18) Q And what is the purpose of this individual disability

- (1) is information you took off the IDR?
- (2) A That's correct
- (3) Q Do you keep the IDR?
- (4) A No I forwarded that to Dr Montgomery
- (5) Q Do you make a copy of it?
- (6) A I do not
- (7) Q Keep a copy?
- (8) A No
- (9) Q Why is that?
- (10) A Because that is confidential medical information and I had -
- (11) all the information I needed for my job
- (12) Q All right I'm not sure whether I asked you this or not but do you - because it's medical confidential information even on this benefit sickness form do you take steps to make sure that people don't have access to that but you?
- (13) A I did
- (14) Q All right and how did you do that?
- (15) A Well it stayed in my office in a closed box in my office
- (16) Q My office?
- (17) A If I left the office I closed the door and it locks and at night I would lock it up in a cabinet
- (18) Q All right Do you recall getting the individual disability report back from Dr Vallury taking down what information you needed from it and sending it on to the medical department?
- (19) A I would have done that

Vol 20 3414

Vol 20 3416

- (1) report IDR which is Plaintiff's Exhibit 10?
- (2) A To validate that the person is seeing a physician is in treatment and to get an idea of how long the length of that treatment will be
- (3) Q Did you in fact send a blank IDR to Captain Hazelwood?
- (4) A I did
- (5) Q And did you get back what was up on the screen a while ago a filled out portion of the IDR from Dr Vallury?
- (6) A I did
- (7) Q Now when you got that what do you do with it?
- (8) A I record anything that I consider pertinent information as far as how long their length of treatment will be and sometimes if there was a diagnosis I could read I would - I had something to add to my section then I would -
- (9) Q In this case you didn't do that?
- (10) A No I did not
- (11) Q Do you put any other information down from the IDR?
- (12) A No the date that the doctor completed it and any notes Which is on the part there
- (13) Q Hold on a second there
- (14) A Below Tennessee
- (15) Q This part right there (indicating)?
- (16) A That - right
- (17) Q So this information that you put on your benefit sickness record for Captain Hazelwood which is Defendant's Exhibit 7674

- (1) Q Do you recall doing it?
- (2) A Yes
- (3) Q Do you recall to whom in the medical department you sent it?
- (4) A Dr Charles - Dr Hunter Montgomery
- (5) Q And at that time was he the primary contact in the medical department for Exxon Shipping Company?
- (6) A Yes he was our medical director
- (7) Q Did you have any conversation with Dr Montgomery about this IDR?
- (8) A I would have - I don't remember exactly when but it - I did have a conversation with Montgomery
- (9) Q Do you recall why you had that conversation or the - what prompted you to have the conversation?
- (10) A I had received a call from Captain Pierce to extend Captain Hazelwood's disability benefits to May 15
- (11) Q Let me stop you just a second
- (12) Had you talked to Captain Pierce prior to this time that you got this call?
- (13) A I - not - no
- (14) Q All right So this is the first time that you had talked to Captain Pierce in regard to Captain Hazelwood?
- (15) A Right
- (16) Q Do you know do you recall when Captain Pierce called you?
- (17) A I didn't write the date down so I don't remember exactly

Vol 20 3417

- (1) It would have been probably prior to April 29th  
 (2) Q But in any event whatever that date is you didn't write  
 (3) it down on your form?  
 (4) A That's right  
 (5) Q And this form has down at the remarks section starts out  
 (6) saying per Mark Pierce  
 (7) A Per Mark Pierce extend to 5/15 then check on SA shore  
 (8) assignment or LOA which is leave of absence  
 (9) Q All right Do you have a recollection of your conversation  
 (10) with Captain Pierce?  
 (11) A Yes I do  
 (12) Q You mention in here and I'll put a little circle around  
 (13) it SA what is that?  
 (14) A That's a shore assignment  
 (15) Q What did Captain Pierce ask you about in regard to a shore  
 (16) assignment?  
 (17) A That we were to look for and I think they were involved in  
 (18) looking for an assignment for Captain Hazelwood in a - in  
 (19) one of the offices versus one of the ships so that's what we  
 (20) called shore assignment  
 (21) Q For what period of time?  
 (22) A For about 90 days  
 (23) Q In other words a shore assignment during this leave of  
 (24) absence correct?  
 (25) A Right

Vol 20 3418

- (1) Q Were there any limits on where this shore assignment could  
 (2) be?  
 (3) A Well later it was - it needed to be near where he could  
 (4) continue getting his individual and group therapy  
 (5) Q So it had to be somewhere around Long Island?  
 (6) A Right  
 (7) Q Did you look into whether or not there was such a -  
 (8) assignment near Long Island for Captain Hazelwood for 90  
 (9) days?  
 (10) A I discussed it with Ben Graves I believe  
 (11) Q Did you all find one?  
 (12) A No  
 (13) Q Now then the next part is LOA Does that mean leave of  
 (14) absence?  
 (15) A Yes sir  
 (16) Q Now I'm going to lean up here a little bit and go back  
 (17) The second line is a note which had a little bit of Guerra  
 (18) code on it Can you interpret that for us?  
 (19) A Checked with B Duke which is Bob Duke regarding sick  
 (20) leave or sick leave is the term I use sometimes to mean  
 (21) disability benefits  
 (22) Q Now what does that note mean?  
 (23) A Well typically for treatment only the in hospital time  
 (24) was considered eligible for payment of disability benefits  
 (25) Mark had asked me to extend it beyond the hospital  
 (26) treatment  
 (27) time So I was checking with Bob Duke who was at that time

Vol 20 3419

- (1) kind of a benefits expert with Exxon USA He was an  
 (2) advisor to  
 (3) the field units where I could extend it to May 15th  
 (4) Q As a result of your conversation or after your  
 (5) conversation with Mr Duke did you in fact extend the leave  
 (6) for 15 more days?  
 (7) A Right I did  
 (8) Q All right Now in regard to the - to the conversation  
 (9) you had regarding the leave of absence for 90 days with  
 (10) Captain  
 (11) Pierce you were - I think you were mentioning that in the  
 (12) context of talking to Dr Montgomery and I kind of sidetracked  
 (13) you there Why did that prompt you to call Dr Montgomery?  
 (14) A Then I needed to find out from the doctor the information  
 (15) I  
 (16) then got from - Bob Dukes said if you're medical director  
 (17) and  
 (18) management people like he's still not able - not able to  
 (19) return to work then he can continue to receive disability  
 (20) benefits So I checked with Dr Montgomery to see if that  
 (21) was  
 (22) indeed the situation should he still be on disability  
 (23) Q Is there also under your pay system and benefits system  
 (24) is it necessary to end a disability period before you can start  
 (25) a leave of absence?  
 (26) A Yes  
 (27) Q Okay  
 (28) A Can't -  
 (29) Q Was that also part of your call to Dr Montgomery to  
 (30) determine that when - whether the disability period was up

Vol 20 3420

- (1) and so therefore you could start a leave of absence?  
 (2) A Right  
 (3) Q Now that's kind of hyper technical but you're changing  
 (4) pay scales correct?  
 (5) A Right - well in other words yes because now if -  
 (6) during disability he is receiving pay because he is unable to  
 (7) do his job After April - May 15th he - was no longer  
 (8) eligible for disability benefits not considered disabled and  
 (9) therefore if he needed more time off it was leave of absence  
 (10) Q Didn't get paid for that?  
 (11) A No he did not get paid for that  
 (12) Q Under the system is that was in force at that time?  
 (13) A That's right  
 (14) Q But in order to end the disability period you had to have  
 (15) something from Dr Montgomery to say Well the disability  
 (16) period is over?  
 (17) A That's right  
 (18) Q And you called Dr Montgomery?  
 (19) A That's right  
 (20) Q Did you make a request of him?  
 (21) A Well I called for advice and - from him and that's the  
 (22) information he gave me  
 (23) Q Did you ask him to get in touch with Dr Vallury?  
 (24) A I don't know whether I asked him to do that or whether he  
 (25) had already done that

Vol 20 3421

Vol 20 3423

- (1) Q Okay In any event were you able to at least for pay  
(2) purposes for disabled benefits purposes were you able to  
(3) terminate this disability?  
(4) A Yes  
(5) Q And is there a specific form that you use or as in -  
(6) A Yes  
(7) Q - all other things in life are there some initials you  
(8) use to do that?  
(9) A It's a DTR disability termination report form  
(10) Q And I'm circling DTR issued and there's a date beside  
(11) that  
(12) A May 20th 1985  
(13) Q Does that show the date that you terminated the disability  
(14) termination - or let me start again  
(15) The initials have gotten me confused  
(16) Is that the date on which the disability termination report  
(17) was done by you?  
(18) A Yes sir  
(19) Q All right Now down here at the bottom let me clean this  
(20) up  
(21) Down here at the bottom after it says come off leave of  
(22) absence around 8/15/85 you've written something else here  
(23) What is that?  
(24) A Come back through send medical reported to Dr CHM  
(25) [sic]  
(26) Q Are those two related?

- (1) or -  
(2) A I went to his office  
(3) Q All right And did you tell him that you were reminding  
(4) him?  
(5) A Right  
(6) Q What did he tell you?  
(7) A That he would call Hazelwood tomorrow which was  
(8) 8/1/85  
(9) Q Did you make a note of your reminding Mr Graves?  
(10) A I did  
(11) Q Is that note this last thing at the bottom of the benefit  
(12) sickness record?  
(13) A It is  
(14) Q And after you did that and filled that out did you then  
(15) put this - did you close this file out?  
(16) A Well I - yes I moved the card over to the inactive  
(17) Q All right Are those kept confidential?  
(18) A Yes  
(19) Q Did you have any further involvement with Captain  
(20) Hazelwood  
(21) or his treatment or his disability period from then on?  
(22) A I did not  
(23) MR SANDERS Your Honor I move the admission of  
(24) Defendant Exhibit 3471 and I have no further questions  
(25) MR O NEILL That's already in as a plaintiff's  
(26) exhibit but we have no objection to it coming in a second  
(27) time

Vol 20 3422

Vol 20 3424

- (1) A The first one was from Ben Graves He had asked me -  
(2) when  
(3) I told him we were going to put Joe on leave of absence he  
(4) wanted me to let him know two weeks in advance so that he  
(5) could  
(6) have him come back through Houston  
(7) Q Now the second one what is that?  
(8) A I - that was - I think that was in my conversations with  
(9) Dr Montgomery if I got any more medical reports to be sure  
(10) and send them to him  
(11) Q Then finally at the very - now what time period - by  
(12) May the 20th you have completed the period of disability and  
(13) all the paperwork that goes with it for Captain Hazelwood am I  
(14) correct?  
(15) A Right  
(16) Q And in the normal situation or in your usual situation  
(17) that would be the end of it would it not be?  
(18) A That's right  
(19) Q But in this case it's not and the question is Why not?  
(20) A Because I - I wanted to keep it in my suspense file to  
(21) remember to tell Ben Graves when Joe was due back He  
(22) asked me  
(23) to tell him about two weeks before he was due back from  
(24) leave  
(25) of absence  
(26) Q Did you in fact let Ben Graves know two weeks before  
(27) Captain Hazelwood was to return?  
(28) A On July 31  
(29) Q When you - did you call up Ben Graves or go to his office

- (1) (Exhibit 3471 offered)  
(2) THE COURT Defendant Exhibit 3471 is admitted  
(3) (Exhibit 3471 received)  
(4) MR SANDERS Thank you Your Honor  
(5) THE COURT And we'll take our recess Be back in 15  
(6) minutes  
(7) (Jury out at 12:01 p.m.)  
(8) (Recess at 12:01 p.m.)  
(9) (Jury in at 12:17 p.m.)  
(10) THE CLERK All rise  
(11) THE COURT Cross examine?  
(12) MR O NEILL Thank you Judge  
(13) CROSS EXAMINATION OF GABRIELLA GUERRA  
(14) BY MR O NEILL  
(15) Q Ma'am?  
(16) A Yes  
(17) Q Let's take a look on this form if we could for a moment  
(18) We'll go the same thing we did before?  
(19) A All right  
(20) Q Where it says diagnosis it says alcohol treatment You  
(21) testified that you got that information from Ben Graves who  
(22) told you that the captain was entering an alcohol treatment  
(23) facility or center?  
(24) A That's correct  
(25) Q So the company's state of mind at the time you made this

Vol 20 3425

- (1) entry was the captain was entering an alcohol treatment  
 (2) facility or center?  
 (3) **A That's what I understood from Ben Graves**  
 (4) **Q Okay and you dutifully made the entry in the company**  
 (5) **record the best you could?**  
 (6) **A Yes sir**  
 (7) **Q And then this says 4 16 85 through hospital through**  
 (8) **4/20/89 and then leave of absence for group - and then what**  
 (9) **does that say?**  
 (10) **A IND for individual**  
 (11) **Q Yes**  
 (12) **A And then marital therapy**  
 (13) **Q I want to admit I once thought that was marital axe?**  
 (14) **A Marital**  
 (15) **Q Marital therapy So the records reflect he would be**  
 (16) **hospitalized through 4/29 and then after 4/29 he would be in**  
 (17) **for group - he would have a leave of absence for group**  
 (18) **individual and marital therapy and Alcoholics Anonymous and**  
 (19) **lectures?**  
 (20) **A I copied that from the individual disability report**  
 (21) **Q You testified that these records are confidential**  
 (22) **A Yeah**  
 (23) **Q And just so we know it is possible to commit things to**  
 (24) **writing on subjects like alcohol treatment and those kinds of**  
 (25) **things within the records of the company and keep them**

Vol 20 3426

- (1) **confidential isn't it?**  
 (2) **A Yes**  
 (3) **Q And in your business you do it all the time?**  
 (4) **A At that - uh huh yeah In it it - yeah**  
 (5) **Q And then there's a notation come back through right there**  
 (6) **(indicating)?**  
 (7) **A Right**  
 (8) **Q And that's for Captain Hazelwood to come back through**  
 (9) **right?**  
 (10) **A That's correct**  
 (11) **Q Then the next thing is send medical report to Dr**  
 (12) **Montgomery?**  
 (13) **A That's correct**  
 (14) **Q Do you have an understanding of why you were to do that or**  
 (15) **were you just supposed to send it to him?**  
 (16) **A Well I always did that**  
 (17) **Q Did you know what Dr Montgomery did it with or not do with**  
 (18) **it?**  
 (19) **A He was to review all of them**  
 (20) **Q He was to review them okay Wasn't so bad was it?**  
 (21) **A No**  
 (22) **MR O NEILL I have no further questions Thank**  
 (23) **you**  
 (24) **MR SANDERS You may come down Miss Guerra**  
 (25) **THE COURT You may call your next witness**

Vol 20 3427

- (1) **MS STEWART Defendants call Ben Graves by video**  
 (2) **deposition**  
 (3) **DIRECT EXAMINATION OF BEN GRAVES (Video)**  
 (4) **BY VIDEO EXAMINER**  
 (5) **Q Mr Graves for the record would you state your full name**  
 (6) **please?**  
 (7) **A Benjamin Carter Graves Junior**  
 (8) **Q Sir where do you currently reside?**  
 (9) **A I reside in Kingwood Texas**  
 (10) **Q Could you tell us by whom you're currently employed?**  
 (11) **A Exxon Company USA**  
 (12) **Q Just generally could you give us an idea of what your**  
 (13) **educational background is?**  
 (14) **A Graduated from College of William and Mary in 1963 with**  
 (15) **a**  
 (16) **bachelor degree in economics**  
 (17) **Q Any postgraduate work?**  
 (18) **A No**  
 (19) **Q And also generally could you give us a rundown on what**  
 (20) **your employment history has been?**  
 (21) **A Came to work for Exxon in 1963 out of college Worked**  
 (22) **various assignments in the marketing organization, until -**  
 (23) **in**  
 (24) **and around Virginia and West Virginia until 1975 I guess**  
 (25) **and**  
 (26) **transferred again with the marketing operation to region**  
 (27) **office**  
 (28) **in Baltimore Maryland Was there for a couple of years and**  
 (29) **-**  
 (30) **then came to Houston in 1977**

Vol 20 3428

- (1) **Worked in Exxon Shipping Company from 1977 through**  
 (2) **1979**  
 (3) **I then had employee relation assignment in Houston before**  
 (4) **transferring to Norwalk Connecticut Human resources job**  
 (5) **for**  
 (6) **the marketing department 1983, transferred to the**  
 (7) **corporation's headquarters in Manhattan And then in 1984**  
 (8) **transferred back to Houston with the Exxon Shipping**  
 (9) **Company I**  
 (10) **think that was in August or -**  
 (11) **Q What was the title you were to assume in 1984 with Exxon**  
 (12) **Shipping Company?**  
 (13) **A Administrative manager**  
 (14) **Q What were your duties as administrative manager with Exxon**  
 (15) **Shipping Company in 1984 through 1986?**  
 (16) **A It was basically the human resource organization for**  
 (17) **Exxon**  
 (18) **Shipping Company**  
 (19) **Q Could you be a little more specific about what your duties**  
 (20) **with human resource would entail at that time?**  
 (21) **A Well it involved the labor relations activities**  
 (22) **compensation and benefit administration general**  
 (23) **personnel**  
 (24) **activity man power accounts - let's see**  
 (25) **That was personnel staff that was involved in some safety**  
 (26) **and environmental issues I think that's about it**  
 (27) **Q Preceding page to this memo is your memo dated May 28**  
 (28) **1985**  
 (29) **concerning your discussion with Joseph Hazelwood on May 19**  
 (30) **1985?**  
 (31) **A That's it**

Vol 20 3429

Vol 20 3431

(1) Q This was the first opportunity you had to speak with  
 (2) Captain Hazelwood?  
 (3) A Yes  
 (4) Q Was this a face to face or was this over the telephone?  
 (5) A Telephone  
 (6) Q You don't recall reporting any of your findings to the  
 (7) medical department for instance?  
 (8) A I had a conversation with Dr Montgomery about Captain  
 (9) Hazelwood's hospitalization Now whether you call that  
 (10) reporting or not -  
 (11) Q So that conversation would have just been in regards to  
 (12) Captain Hazelwood's alcohol rehabilitation?  
 (13) A That's correct That's my recollection of that  
 (14) conversation  
 (15) Q You talked before about your belief that the medical  
 (16) department would have known because of the way the  
 (17) company does  
 (18) things and I - I didn't touch on that comment at the time Do  
 (19) you recall making that statement?  
 (20) A Yes  
 (21) Q What did you mean by that?  
 (22) A Well subsequent to - I mean initiation is in any number  
 (23) of ways If it's a serious illness or something like  
 (24) rehabilitation sometime during that process and generally  
 (25) before the employee is out of the hospital the medical  
 (26) department will have some type of form that routes through  
 (27) them

(1) Frank hack a complete story  
 (2) Q Could you just tell us generally what the substance of your  
 (3) conversation was with Dr Montgomery?  
 (4) A Generally the substance was was a medical department  
 (5) aware that Hazelwood had been in rehabilitation And the  
 (6) answer was yes to that and that - he told me that Hazelwood  
 (7) had completed his rehabilitation successfully That he was  
 (8) attending an - and that Joe was attending AA meetings on a  
 (9) regular basis Don't remember I think he said three times a  
 (10) week or something like that  
 (11) I think I said he's successfully completed the program and  
 (12) that was about the sum and substance of the conversation  
 (13) Q Did you report the findings from your conversation with Mr  
 (14) Duke as well as Dr Montgomery back to Frank Larossi?  
 (15) A I believe so I know I reported back to Duke the  
 (16) conversation and I'm pretty sure I reported - yes Yes  
 (17) Q Okay Was that by way of verbal communication or was that  
 (18) a written document?  
 (19) A Verbal  
 (20) Q Did Mr Larossi ask you to do anything else in regards to  
 (21) follow up on the issue of Captain Hazelwood's alcohol  
 (22) rehabilitation?  
 (23) A I don't remember whether it was at that particular time or  
 (24) subsequent to that but Frank asked me to ensure that John  
 (25) Tomkins the gulf coast fleet manager counseled with Joe

Vol 20 3430

Vol 20 3432

(1) or to them about the employee disability They may not  
 (2) necessarily know in advance what was going on but they  
 (3) would be  
 (4) advised sometime along the way  
 (5) Q Did you ever speak with anyone in the medical department  
 (6) who indicated to you that in fact that process had occurred in  
 (7) the case of Captain Hazelwood's hospitalization?  
 (8) A Yes  
 (9) Q Who did you speak with if you recall?  
 (10) A Dr Hunter Montgomery  
 (11) Q When was the conversation with Dr Montgomery?  
 (12) A Few things I wish I had kept better notes on I don't know  
 (13) exactly when it took place It was obviously sometime after  
 (14) I  
 (15) knew he was in the hospital and sometime - and I hate to be  
 (16) so vague as before he went back on the vessel or a vessel  
 (17) in  
 (18) August My recollection is that it's sometime in the June  
 (19) kind  
 (20) of time frame  
 (21) Q That same time frame did you have any conversations with  
 (22) Frank Larossi regarding Captain Hazelwood's alcohol  
 (23) rehabilitation?  
 (24) A Well I think he - I think shortly after the May 28th  
 (25) letter I think Frank asked me to reconfirm again what the  
 (26) company policy was on employees completing  
 (27) rehabilitation And  
 (28) I think as a result of that request of Frank's and the ordinary  
 (29) follow up that you do in a situation like this I contacted the  
 (30) HR department and contacted the medical department to  
 (31) give

(1) before he went back aboard a ship as a master  
 (2) Q Did you ask Gabriel (ph) Guerra to notify you two weeks  
 (3) before Captain Hazelwood was due to come back from his  
 (4) leave of  
 (5) absence?  
 (6) A I could have I mean I don't really recall that but I  
 (7) very well could have  
 (8) Q Do you know why you would have made that request if you  
 (9) did?  
 (10) A Well it would seem fairly logical that if Frank wanted to  
 (11) ensure that Hazelwood was talked to before he went back  
 (12) aboard  
 (13) the vessel we wanted to be sure we could in fact  
 (14) orchestrate  
 (15) that and make it happen  
 (16) Q And I'm just not clear You were the one responsible for  
 (17) coordinating that to make sure that Tomkins spoke with Captain  
 (18) Hazelwood?  
 (19) A I'm not sure whether I was the original one or not but  
 (20) certainly Frank reminded me to be sure, you know Don't  
 (21) forget  
 (22) that somebody tells Tomkins to talk to Hazelwood before he  
 (23) goes  
 (24) back aboard the ship He may have had similar discussions  
 (25) with  
 (26) Revere (ph) or anybody else for that matter I think it was  
 (27) Frank's clear intent that Joe get the benefit of some  
 (28) conversation before he went back aboard the vessel  
 (29) Q And it's your understanding that that conversation and  
 (30) counseling did occur?  
 (31) A Yes

Vol 20 3433

(1) Q And do you get that understanding – did Tomkins tell you  
 (2) he had a conversation with Hazelwood?  
 (3) A Yes and he also told me that Sheehy had talked with  
 (4) Hazelwood  
 (5) Q Did Tomkins tell you what it was he had discussed with  
 (6) Captain Hazelwood?  
 (7) A He didn't given me all the specifics. He generally I  
 (8) think said that he told Joe that – the company hoped that he  
 (9) would do a good job and that he would continue with a  
 (10) rehabilitation program and looked forward to him having a  
 (11) long, successful career and that he was going to be  
 (12) watched  
 (13) pretty closely  
 (14) Q Did you tell John Tomkins about the desire to have close  
 (15) monitoring of Captain Hazelwood?  
 (16) A Yes, I think that's one of the things that Frank asked me,  
 (17) to remind – to ensure that John talked to Hazelwood about  
 (18) when  
 (19) he came through Houston on the way to assignment after  
 (20) his  
 (21) vessel  
 (22) MS STEWART Your Honor that concludes defendants  
 (23) direct examination  
 (24) MS WAGNER There's a short video for cross  
 (25) CROSS EXAMINATION OF BEN GRAVES (Video)  
 (26) BY VIDEO EXAMINER  
 (27) Q Would you read this last paragraph for the record please?  
 (28) A I asked Joe if he ever drank aboard the ship. He  
 (29) commented

Vol 20 3434

(1) that he occasionally drank aboard the ship but not  
 (2) frequently  
 (3) He also indicated that he came back to the ship from port  
 (4) drunk  
 (5) on several occasions  
 (6) Q Let me ask you Mr. Graves. Did Captain Hazelwood say to  
 (7) you that he, Captain Hazelwood, had come back to the ship  
 (8) from  
 (9) port drunk on several occasions?  
 (10) A Yes  
 (11) Q I took the initiative – your understanding was he took the  
 (12) initiative to go into rehabilitation. Did you speak with  
 (13) anyone in an attempt to discover generally what's involved with  
 (14) alcohol rehabilitation?  
 (15) A No. Again – I don't consider myself an expert in that  
 (16) It's like whether I know whether the ship is being navigated  
 (17) properly or not. I mean it's doctor's prerogative as far as  
 (18) I'm concerned  
 (19) MS WAGNER That concludes the cross Your Honor  
 (20) MR SANDERS May it please the Court the next live  
 (21) witnesses we have all respond to various portions of Mr. Shaw's  
 (22) testimony. Thankfully three of them are live but  
 (23) unfortunately the first two we call by videotape deposition  
 (24) and the first of those Mr. Jose DeOliveira  
 (25) MR SANDERS He's coming from a long way  
 (26) DIRECT EXAMINATION OF JOE DeOLIVEIRA (Video)  
 (27) VIDEOGRAPHER This is case number A 89 095 entitled  
 (28) Exxon Valdez oil spill litigation and the witness Mr. Jose

Vol 20 3435

(1) P DeOliveira. The video deposition is requested by  
 (2) plaintiff  
 (3) BY VIDEO EXAMINER  
 (4) Q Are you currently employed by  
 (5) A I'm retired  
 (6) Q When did you retire?  
 (7) A First of '89 January 1st  
 (8) Q And who were you working for before your requirement?  
 (9) A Exxon  
 (10) Q What was the specific company if you know that you were  
 (11) working for?  
 (12) A That – before I retired?  
 (13) Q Yes  
 (14) A Exxon Company  
 (15) Q Exxon Company  
 (16) A Yes  
 (17) Q What was your last position with Exxon Company before you  
 (18) retired?  
 (19) A Fleet chef  
 (20) Q Could you tell me what a fleet chef does?  
 (21) A Does all the cooking for the – on the ships  
 (22) Q Does he cook for more one ship at a time?  
 (23) A One ship at a time  
 (24) Q How long had you been working for Exxon before your  
 (25) retirement?

Vol 20 3436

(1) A 19 years and a half  
 (2) Q Was there a policy that Exxon would allow wine at certain  
 (3) holidays to be served with meals?  
 (4) A Yes  
 (5) Q And what was that?  
 (6) A For Thanksgiving Christmas and New Years  
 (7) Q And how did that work Exxon provided wine and –  
 (8) A Yes  
 (9) Q – it was served?  
 (10) A Yes  
 (11) Q And how long did that – was that policy still in effect  
 (12) when you retired?  
 (13) A No it was stopped in '88  
 (14) Q Do you remember when in '88?  
 (15) A That's the New Year's and the Thanksgiving Christmas in  
 (16) '88  
 (17) Q That was the last time?  
 (18) A Yes that's when they stopped  
 (19) Q And how did that wine get ordered?  
 (20) A It came by cases  
 (21) Q Did the mess person or the cook order it or did Exxon just  
 (22) send it?  
 (23) A The port steward used to order the wine for the holidays  
 (24) Q Okay would it be fair to say then when you were serving  
 (25) on the Exxon Valdez that this policy was still in effect?

Vol 20 3437

Vol 20 3439

- (1) A Until - until 1988  
 (2) Q So on your last voyage on the Exxon Valdez wine was served?  
 (3) A No  
 (4) Q Your last voyage was in 1988?  
 (5) A '88 Was no more wine that year  
 (6) Q Let me just clarify with him because I understood you to previously say and I may have misunderstood you that the practice ended at the end of 1988 and at the beginning of 1989?  
 (7) A No no  
 (8) Q That's not right?  
 (9) A No that was the year that they stop  
 (10) Q So the last time -  
 (11) A It was '87  
 (12) Q It was in '87?  
 (13) A Right  
 (14) Q And then new year's eve 1987 '88?  
 (15) A For the '88 on was no more  
 (16) Q Okay  
 (17) A No more wine  
 (18) Q Did you ever serve on the Exxon Valdez during the time that this policy was in effect?  
 (19) A I was there but was no more wine served that year  
 (20) Q That was the 1988 run?  
 (21) A '88 right

- (1) Q West coast or gulf?  
 (2) A Just - east coast  
 (3) Q East coast?  
 (4) A Yeah Back here from here to -  
 (5) Q Okay And?  
 (6) A New York  
 (7) Q What was your - what was your - did you meet with Mr. Shaw from time to time?  
 (8) A Well when he comes aboard  
 (9) Q And how often did he come aboard?  
 (10) A If he comes to Baytown he will come aboard If it's Baton Rouge maybe once once in a while He didn't go there too often  
 (11) Q Do you recall ever drinking with Captain Hazelwood now?  
 (12) A No sir  
 (13) Q I asked you earlier about meeting with Mr. Thomas yesterday  
 (14) A Uh huh  
 (15) Q For this deposition  
 (16) A Uh huh  
 (17) Q Did he show you any papers or documents?  
 (18) A This (indicating)  
 (19) Q What are you referring to?  
 (20) A The question is in here about Mr. Jim Shaw made a statement  
 (21) that I drink with Mr. Hazelwood

Vol 20 3438

Vol 20 3440

- (1) Q And you never were on the Exxon Valdez before that?  
 (2) A No I was only one time I was there  
 (3) Q That was the first time?  
 (4) A Yeah  
 (5) Q Okay First and last?  
 (6) A First and last  
 (7) Q When you sailed on board the Exxon Valdez in 1988 was Captain Hazelwood the captain of the vessel?  
 (8) A Yes  
 (9) Q So is it fair to say that you sailed with him on the Valdez in 1988?  
 (10) A Yes sir 30 days or 33 days Somewheres in there  
 (11) Q 33 days?  
 (12) A Somewheres in there I'm not exactly sure one day or more It was just -  
 (13) Q That was your last voyage for Exxon?  
 (14) A Right  
 (15) Q If I've got that straight  
 (16) A (Nods head)  
 (17) Q Do you know a gentleman named James Shaw?  
 (18) A Oh yes  
 (19) Q Who is he?  
 (20) A He used to be the port steward  
 (21) Q For which fleet?  
 (22) A Exxon fleet

- (1) Q Well let me interject I have handed the witness a copy of the - or the documents that were predesignated for this deposition  
 (2) Thank you  
 (3) And that's what you reviewed with him that's what - okay that's what you looked at?  
 (4) A Yeah  
 (5) Q So I take it you have read the - the reference to yourself in Mr. Shaw's deposition?  
 (6) A Right Right  
 (7) Q Without recasting it what do you recall Mr. Shaw saying?  
 (8) A James Shaw said that I had a drink the night before with Hazelwood which he is a liar The only time I -  
 (9) Q Let him finish the sentence  
 (10) A The only time I saw Mr. Jim Shaw he was on the Exxon Galveston tied up next to Exxon Valdez I was in the gallery around 10:00 before noontime meal and they sent one of the  
 (11) A B's on the Exxon Valdez he wants talk to me I went on the deck I saw Mr. Jim Shaw and he says, I'm low in eggs and something else Can you supply me with some eggs  
 (12) I says sure So I went back and I got the second cook they carried half a dozen - it was five six sheets of eggs and left them on the deck  
 (13) I asked one of the A B's on the other side to call Jim Shaw to come pick it up He didn't show up so I left the eggs on

Vol 20 3441

- (1) the deck and whatever was the other item And that's the only
- (2) time I saw Mr Shaw And he made a statement that he saw me
- (3) next day on Exxon Valdez that I made that statement about that
- (4) I had a drink with the - Joe Hazelwood on which Mr Jim Shaw
- (5) was not - he did not come aboard that morning
- (6) I remember it was Mary Williamson that came in I was helping her the fleet chef in the morning before 6 00 She says you got your relief to take your shower and after the lunch pick you up
- (7) So I wait until 8 00 and I did see Mr Jim Shaw Period
- (8) Q You were sailing with Captain Hazelwood in 1988 on the Valdez right?
- (9) A Right, uh huh
- (10) Q And did Mr Shaw ever come on board the Valdez while you were sailing with Captain Hazelwood?
- (11) A No sir
- (12) Q In 1988
- (13) Now during the time that you sailed on the Valdez in 1988 with Captain Hazelwood was it common for people to bring alcohol on board the vessel?
- (14) A No sir
- (15) Q Did anybody ever tell you they did that
- (16) A No sir
- (17) Q Did you hear any rumors about people bringing alcohol aboard?

Vol 20 3442

- (1) A No sir
- (2) Q And you yourself never drank on board that vessel?
- (3) A No sir
- (4) MS STEWART Your Honor that concludes defendants direct examination
- (5) MS WAGNER We have another short video cross
- (6) CROSS EXAMINATION OF JOSE DO OLIVEIRA (Video)
- (7) BY VIDEO EXAMINER
- (8) Q Do you know of anybody who was ever fired for having alcohol on board an Exxon vessel while you were there?
- (9) A No
- (10) Q Do you know of anybody being caught with alcohol on board a vessel while you were serving on an Exxon vessel?
- (11) A No
- (12) Q Did you hear about anybody having alcohol found or being caught drinking by an officer or by Exxon management on board a vessel?
- (13) A No sir
- (14) Q Never heard about that in all the time you -
- (15) A No
- (16) Q - sailed aboard the vessels
- (17) In 1988 you knew that if you had alcohol or drank on board you'd be fired?
- (18) A Right
- (19) Q Now you said earlier that you came to learn that alcohol

Vol 20 3443

- (1) was being brought on commonly back before the policy was directly enforced?
- (2) A Right
- (3) Q Okay Because people told you that right?
- (4) A Uh huh
- (5) Q And now that the policy was supposed to be strictly enforced your understanding is that if he told you that you were required to report to them right?
- (6) A Right
- (7) Q Okay Did you ever ask any of those people you worked with after the conversation with Shaw about the strict enforcement of the policy -
- (8) A Uh huh
- (9) Q - whether they continued to bring alcohol on board?
- (10) A No, sir
- (11) Q Did you want to know?
- (12) A Yeah
- (13) Q Okay if you wanted to know why then didn't you ask any of these people whether they continued to bring alcohol on board?
- (14) A I don't know I'm not going to ask them if they bring or not alcohol If they tell me that they have it I have to report it but they never told me that they bring it If they did if I ever find out I'd have to report yeah
- (15) Q In your 19 years of employment are you aware of any Exxon Shipping Company employee ever reporting that another employee

Vol 20 3444

- (1) had used alcohol in violation of the company's policies?
- (2) A No
- (3) MS WAGNER That concludes the cross Your Honor
- (4) MR SANDERS May it please the Court we call
- (5) Mr Jesse Watts by video deposition
- (6) DIRECT EXAMINATION OF JESSE WATTS (Video)
- (7) BY VIDEO EXAMINER
- (8) Q How long have you been with Exxon Shipping Company?
- (9) A A total of 23 years one month and a few days I started February 7th - 9th 1970
- (10) Q Okay Why don't we have you state your full name for the record and your residence address also?
- (11) A Jesse Ray Watts
- (12) Q And your residential address?
- (13) A 1035 Charlotte Street that's Roanoke Rapids
- (14) Roanoke Rapids North Carolina 27870
- (15) Q Have you ever testified before in a case?
- (16) A No sir
- (17) Q Would you give us a brief description of your educational background?
- (18) A I've - I finished grammar school eighth grade and went into the ninth I quit several times and decided I didn't need no more education and then went back in 1991 early part of '91 and got GED 31 years later
- (19) Q And through what program did you do that?

Vol 20 3445

- (1) A I went through the local community college in Halifax  
 (2) County near Roanoke Rapids where I live  
 (3) Q That's at your home?  
 (4) A Yes sir  
 (5) Q And you indicated that you've been with Exxon for 23  
 (6) years. Has that been your only employer or have you had other  
 (7) employers?  
 (8) A No sir. I was with the Roanoke Rapids textile mills from  
 (9) 1959 till about 1966 off and on - give or take - and -  
 (10) Q And I'm sorry?  
 (11) A And then I was in the cigarette factory for a couple of  
 (12) months and then I done odd jobs in food lines - I mean food  
 (13) service  
 (14) Q What did you do in the textile factory?  
 (15) A I run - I operated tanners, dryers and loop dryers which  
 (16) is drying tiles and so forth - running - basically I had to do  
 (17) with tiles  
 (18) Q And approximately what year did you first become involved  
 (19) with activities involving the sea or shipping company?  
 (20) A 1967 or '8 - I believe it was '68 - Decided to leave cotton  
 (21) mill and cigarette factory and all that stuff and go and find a  
 (22) job. And I did. I found a position I wanted and I stayed with  
 (23) it. And that with the U.S. Department of Commerce which  
 (24) was  
 (25) NONOR - NORA. I believe it was at the time  
 (26) Q Do you know what that stands for?

Vol 20 3446

- (1) A Yeah. National Ocean Graphic - I forgot all the names to  
 (2) it. It was out of Rockville, Maryland. It was still part of  
 (3) the government.  
 (4) Q It was part of the federal government?  
 (5) A The federal government, yes.  
 (6) Q And what were you doing with NORA?  
 (7) A I was on mess man part time in the steward's department  
 (8) and I was also a wiper part time in the engine room.  
 (9) Q So NORA had a fleet of vessels I assume?  
 (10) A Yes sir, and at the time they did research.  
 (11) Q And you were sailing?  
 (12) A Yes sir, ah, all research.  
 (13) Q And type of vessels were these?  
 (14) A They were all research.  
 (15) Q And for what period of time did you sail with -  
 (16) A I stayed with them until February of 1970.  
 (17) Q I was asking you how long I think you were sailing with  
 (18) vessels that were run by NORA.  
 (19) A Well, approximately two and a half years.  
 (20) Q Did you have any qualification requirements to get this  
 (21) job, any kind of licensing requirements?  
 (22) A No, sir. Sorry, no sir.  
 (23) Q Was this your first sea experience?  
 (24) A Yes sir.  
 (25) Q Okay. Had you ever sailed before, either as a hobby or for

Vol 20 3447

- (1) remuneration prior to your job with NORA?  
 (2) A No sir.  
 (3) Q And where did you go after the two and a half years between  
 (4) February 1970 and 1972, 1973, you joined Exxon in February  
 (5) 1970?  
 (6) A Yes sir.  
 (7) Q And what was your position with them at that time?  
 (8) A I was mess man.  
 (9) Q And who - what company was your employer, if you recall  
 (10) in 1970? Who did you work for?  
 (11) A Exxon, oh, ESSO. I'm sorry.  
 (12) Q It was called ESSO then?  
 (13) A Right.  
 (14) Q Do you remember when the name changed?  
 (15) A I believe it was '77, '78 or somewhere along there, '76  
 (16) maybe. I don't remember for sure.  
 (17) Q What kind of vessel did you sail for ESSO when you first  
 (18) started working for them?  
 (19) A All tankers.  
 (20) Q What size tankers?  
 (21) A I started with the T2s. I believe that's right.  
 (22) Q And what is your current position?  
 (23) A I'm retired as of right now. I'm on medical disability.  
 (24) Q Okay. Let me ask what the disability is?  
 (25) A Yes sir. Right knee replacement didn't take and I could

Vol 20 3448

- (1) not work on the ships any more because of it.  
 (2) Q And when did you retire?  
 (3) A The official retirement, April 1st of this year, of 1993.  
 (4) Q And what were you before you retired?  
 (5) A Fleet chef.  
 (6) Q Do you remember the time frame during which you sailed on  
 (7) the Yorktown?  
 (8) A Yes, I do.  
 (9) Q When was that?  
 (10) A That would have been December the 21st of 1984 till the  
 (11) middle of February of 1985.  
 (12) Q Why is it that you recall so specifically those dates?  
 (13) A I - my baby hit me in the eye with a Christmas card and  
 (14) scarred the cornea about 95 percent of it. They were trying  
 (15) to push me into going back to work before I was ready. And I  
 (16) had  
 (17) about four days off because of it. And I was still not  
 (18) completely well. I mean the eye was not completely healed  
 (19) when  
 (20) I went back and I remember very well. That's what brought  
 (21) it  
 (22) out.  
 (23) Q Do you remember sailing on the Yorktown before 1985?  
 (24) A No sir, I never sailed on it again.  
 (25) Q You sailed with Captain Hazelwood at various times, did you  
 (26) not?  
 (27) A Twice.  
 (28) Q And could you tell us those two times?

Vol 20 3449

- (1) A Yes sir The Yorktown which I just mentioned and also  
 (2) on the Valdez in October of 1988 to November of 1988  
 (3) Q And could you tell us specifically the time frame you  
 (4) sailed with Captain Hazelwood on the Yorktown? Was it the  
 time  
 (5) that you gave us before?  
 (6) A Yes sir  
 (7) Q So he was the captain of the Yorktown during that whole  
 (8) period?  
 (9) A Yes sir  
 (10) Q And then you also sailed with him on the Valdez through  
 (11) October 88 to November 88?  
 (12) A Yes, sir  
 (13) Q Now during the time that you were on the Valdez with  
 (14) Captain Hazelwood did you ever observe him drinking?  
 (15) A No sir  
 (16) Q Did you ever observe - did you ever have a - did you ever  
 (17) smell alcohol on his breath?  
 (18) A No sir  
 (19) Q Did you ever see him with alcohol?  
 (20) A No sir  
 (21) Q Did you ever give him any alcohol?  
 (22) A No sir  
 (23) Q Did you see anybody drinking on board the Valdez in 1988?  
 (24) A No sir I did not  
 (25) Q Did you drink with anybody on board?

Vol 20 3450

- (1) A No sir  
 (2) Q Okay Did anybody ever tell you that there was alcohol on  
 (3) board the Valdez when you were sailing in 88?  
 (4) A Not to my knowledge no sir  
 (5) Q Getting back to the period that you were on the Yorktown  
 (6) did you - were you permanently assigned to that vessel or how  
 (7) did you get assigned to it? Let me rephrase the question  
 (8) because that was two questions  
 (9) How did you end up getting assigned to that vessel?  
 (10) A It was Christmas and they needed somebody on there I  
 was  
 (11) elected to go And I was the first one available from paid  
 (12) leave so I was the one elected to go  
 (13) Q Do you remember where you got on board the vessel?  
 (14) A Yes sir I sure do  
 (15) Q Where was it?  
 (16) A In Bayway New Jersey  
 (17) Q Please let me rephrase that  
 (18) A Bayonne New Jersey I believe it was  
 (19) Q Bayonne?  
 (20) A Yes sir  
 (21) Q Now to your knowledge was there alcohol on board the  
 (22) Yorktown during the time you were sailing?  
 (23) A None that I saw no sir None that I saw  
 (24) Q You didn't see any alcohol -  
 (25) A No sir

Vol 20 3451

- (1) Q - on board  
 (2) Who was the port steward during that period if you  
 (3) remember?  
 (4) A Yes sir Jim Shaw  
 (5) Q And who was the fleet chef?  
 (6) A Warren Adams  
 (7) Q Did you read the deposition of Mr Shaw?  
 (8) A Yes, sir, I did  
 (9) Q Did you read the part about Mr Shaw having observed  
 (10) Captain Hazelwood with alcohol smell on his breath according  
 (11) to Mr Shaw?  
 (12) A Yes, sir I did  
 (13) Q Did you ever smell alcohol on Captain Hazelwood's breath  
 (14) while you were on the Yorktown?  
 (15) A No, sir  
 (16) Q Were you ever asked by Captain Hazelwood to buy alcohol  
 (17) bring it on board the vessel?  
 (18) A No, sir  
 (19) Q Well did you read what Mr Shaw said?  
 (20) A Yes sir I sure did  
 (21) Q And what do you think about that?  
 (22) A I don't think he told the truth to be honest with you  
 (23) Q So did you have a discussion with Mr Shaw about it at the  
 (24) time?  
 (25) A No sir Not at the time he said I did

Vol 20 3452

- (1) Q Do you remember talking to Mr Shaw about alcohol at all  
 (2) during that time?  
 (3) A Yes sir I sure do  
 (4) Q Tell us the best you can recall about that conversation?  
 (5) A Yes sir Let me go back from the beginning, okay?  
 (6) I joined the ship in New Jersey okay We went from there  
 (7) back to Texas From Texas we went back to New York  
 From New  
 (8) York we went up to Chalmette Louisiana Mr Shaw met the  
 ship  
 (9) in Chalmette Louisiana There's a walk way about almost a  
 (10) mile that you have to get from the shore to the ship Me and  
 (11) two other guys I can't recall the name the one was a utility  
 (12) and I don't remember who the other guy was, but two or  
 three of  
 (13) us was walking ashore to go out and have a beer or  
 whatever we  
 (14) wanted  
 (15) And Mr Shaw approached me and the other two guys went  
 on  
 (16) ahead and kind of slowed down and waited for me They  
 kept on  
 (17) walking and I told them I'd catch up with them and Mr Shaw  
 (18) said Jesse there will not be anymore drinking on the ships  
 (19) and if I do hear of you drinking you will not sail fleet chef  
 (20) again  
 (21) And I told him yes sir do whatever you have to do And  
 (22) that was the discussion as far as I'm concerned That I  
 (23) remember  
 (24) Q But you spoke to Jesse - to James Shaw directly about  
 (25) drinking, right cause -

Vol 20 3453

Vol 20 3455

(1) A No sir James Shaw spoke to me directly about it  
 (2) Q And was Captain Hazelwood's name ever mentioned in that  
 (3) conversation?  
 (4) A Not that I recall sir No  
 (5) Q Do you know who Leslie Pennington is?  
 (6) A Yes sir very well I do  
 (7) Q Who is she?  
 (8) A She was a manning's assistant at the time handling the  
 (9) steward department  
 (10) Q Do you know anything about Mr Shaw talking to Leslie  
 (11) Pennington about this conversation you just described for us?  
 (12) A No sir because I feel like Miss Pennington would have  
 (13) told me if there was a problem with it  
 (14) Q Okay Let me just make sure it's clear With Mr Shaw's  
 (15) testimony in mind is it your testimony that Captain Hazelwood  
 (16) never asked you to bring alcohol on board the vessel?  
 (17) A Definitely yes He would never ask that question He  
 (18) would never have asked anybody to do something like that  
 (19) That's stupid any way  
 (20) Q Now going back to the Shaw conversation again did this  
 (21) conversation that you had with Mr Shaw occur on your way  
 (22) back  
 (23) to the vessel from that restaurant that you're referring to?  
 (24) A No sir It happened on the way to the restaurant He was  
 (25) coming from the shore I was going ashore  
 (26) Q Okay

(1) A True  
 (2) Q And one of the mess men stepped up to your job as cook?  
 (3) A Right  
 (4) Q When you stepped up to relieve Adams?  
 (5) A (Nods head)  
 (6) Q All right Is that right?  
 (7) A Yes sir  
 (8) Q And that was in February of 1985?  
 (9) A Right  
 (10) Q Now this conversation that you had with Mr Shaw that  
 (11) occurred where?  
 (12) A In Chalmette Louisiana  
 (13) Q All right was this before or after you had relieved Warren  
 (14) Adams?  
 (15) A Before  
 (16) Q Do you know how long before?  
 (17) A Somewhere in the neighborhood of January 20th to  
 (18) February  
 (19) 10th Somewhere in that neighborhood  
 (20) Q Okay And again that occurred in Chalmette Louisiana?  
 (21) A Yes sir  
 (22) Q All right Now after February the 21st 1985 did you ever  
 (23) sail with Captain Hazelwood on the Yorktown ever again?  
 (24) A No sir  
 (25) Q And the only time you sailed with Captain Hazelwood again  
 (26) on any ship was in October and November of 1988 is that right?

Vol 20 3454

Vol 20 3456

(1) A And he was coming to the ship I was going back the  
 (2) other  
 (3) way  
 (4) Q Now when you joined the Yorktown your job was what?  
 (5) A Ship's cook  
 (6) Q Ship's cook And there was on board a fleet chef?  
 (7) A Yes sir  
 (8) Q Do you remember his name?  
 (9) A Yes sir Warren Adams  
 (10) Q And there came a time did there not when you relieved  
 (11) Warren Adams?  
 (12) A Yes sir Warren had his 60 days off approximately four  
 (13) days before I had mine over and he was getting off at Ft  
 (14) Lauderdale so I relieved him in Ft Lauderdale  
 (15) Q So you left on February the 21st 1985  
 (16) A Somewhere basically around that time yes  
 (17) Q All right So are you saying that it was within four or  
 (18) five days of that that Warren Adams left in Ft Lauderdale?  
 (19) A Yes  
 (20) Q So that would have been in February?  
 (21) A Right  
 (22) Q Of 1985?  
 (23) A '85 uh huh  
 (24) Q And you stepped up as fleet chef?  
 (25) A Right  
 (26) Q When you relieved Warren Adams?

(1) A Yes sir  
 (2) Q And that was on the Exxon Valdez?  
 (3) A Yes sir  
 (4) MR SANDERS Your Honor that concludes the direct  
 (5) examination  
 (6) MS WAGNER Your Honor until the moment Mr Sanders  
 (7) said video deposition I believed this was a read deposition  
 (8) Mr Jamin is going to help me with this We'll have a short  
 (9) cross  
 (10) THE CLERK Raise your right hand  
 (11) (The Witness Is Sworn)  
 (12) THE CLERK Please be seated  
 (13) For the record state your full name address and spell your  
 (14) last name please  
 (15) THE WITNESS Matthew D Jamin 323 Carolyn Street  
 (16) Kodiak Alaska  
 (17) CROSS EXAMINATION OF JESSE WATTS (read)  
 (18) BY MS WAGNER  
 (19) Q Tell me what your understanding was of the alcohol policy  
 (20) around the time of the Valdez spill before the spill like in  
 (21) 88 '89?  
 (22) A It was the same policy supposed to be the same policy it  
 (23) was in 1970 when I joined the ship but it was not enforced  
 (24) Q Do you recall while you were sailing at any time between  
 (25) 1970 and today any discussions with Exxon personnel about

Vol 20 3457

- (1) alcohol policy on board their vessels?
- (2) **A Yes sir and about 1986 is when - I'm sorry 85 '86**
- (3) **somewhere in the neighborhood is when it all started about the drinking yes sir**
- (4) **Q And could you tell us what you're referring to when you mentioned that something - something started or something happened in 1985 or '86**
- (5) **A There was rumors of the company cracking down on the drinking They had already started cracking down on drugs and this is about the time it started**
- (6) **Q Okay What do you mean by rumors? Is it that - is that something that you heard?**
- (7) **A It was going all over the fleet I can't give you a specific person or specific answer All you hear is they're cracking down on so and so for drinking**
- (8) **Q By cracking down what did you understand that to mean?**
- (9) **A Well that meant that there would be no more drinking on the ship eventually Before that it was overlooked**
- (10) **Q So there was drinking on board the ship before that?**
- (11) **A I'm sure there was I don't know about the rest of them but I know I did before and there was nothing that was said okay?**
- (12) **MS WAGNER Thank you**
- (13) **MR SANDERS May it please the Court we call Ms Leslie Pennington**

Vol 20 3458

- (1) **THE CLERK Raise your right hand**
- (2) **(Witness sworn)**
- (3) **THE CLERK For the record please state your full name your address and full your last name**
- (4) **THE WITNESS Leslie Denise Pennington 30636 John Drive Dunham Springs Louisiana My last name is spelled Pennington**
- (5) **DIRECT EXAMINATION OF LESLIE PENNINGTON BY MR SANDERS**
- (6) **Q I'm going to ask you to speak up so we can all hear you okay?**
- (7) **I think the silver one is the most operative one so if you could point that towards you a little bit?**
- (8) **A (Indicating)**
- (9) **Q Good By whom are you employed?**
- (10) **A Sea River Maritime**
- (11) **Q And where do you work now**
- (12) **A In Baton Rouge Louisiana**
- (13) **Q And how long have you worked for Sea River or for Exxon?**
- (14) **A About 13 years**
- (15) **Q And tell us a little bit about your educational background**
- (16) **A I graduated from Michigan State University with a bachelors degree in general business administration in 1980**
- (17) **Q And then in what year did you start with Exxon?**

Vol 20 3459

- (1) **A 1981**
- (2) **Q Right -**
- (3) **A May**
- (4) **Q Right after school?**
- (5) **A Right**
- (6) **Q Now I want to ask you about your job in the time period of 85 '86 and '87**
- (7) **What was your job then?**
- (8) **A I was fleet manning assistant**
- (9) **Q Okay And where were you located?**
- (10) **A In Houston Texas**
- (11) **Q And were you fleet manning assistant for Exxon Shipping Company?**
- (12) **A Correct**
- (13) **Q And what does a fleet manning assistant do or did one do in those - in those days?**
- (14) **A Our job was to crew the oceangoing tankers When someone was due off the vessel we would find a relief for them and the relief basically get them to the joining port**
- (15) **Q Now in the time frame of 1985 '86 '87 did you have responsibility at your desk for crew assignments for fleet charts and ship's cooks?**
- (16) **A At one point in time yes**
- (17) **Q Was that one point in time during this time frame?**
- (18) **A Yes it was**

Vol 20 3460

- (1) **Q And in that job did you know a man by the name of Jesse Watts?**
- (2) **A Yes I did**
- (3) **Q And did you know a man by the name of Jim Shaw?**
- (4) **A Yes I did**
- (5) **Q Now I want to get right to the point Miss Pennington Mr Shaw testified in this trial by way of video deposition to a - an incident let's call it alleged incident in which he said that Mr Watts told him that he was bringing booze a couple of bottles of booze back to the ship for Captain Hazelwood and he would drink and that Mr Watts invited Mr Shaw to join them And Mr Watts - Mr Shaw has further testified that following that conversation that he made a call to you and told you that you should not assign - or he would request that you not assign Mr Watts to any vessel involving Captain Hazelwood You got that?**
- (6) **A Uh huh Yes**
- (7) **Q And my question to you is did Jim Shaw ever call and you tell you anything like that about Jesse Watts and Captain Hazelwood?**
- (8) **A No he did not**
- (9) **Q He further testified that he told you that the reason for that was that Captain Hazelwood had asked him - asked Mr Watts to get booze for him and that's where he was making that long recommendation to you did he tell you that?**

Vol 20 3461

- (1) A No he did not  
 (2) Q Is that something you would recall if you had been told  
 (3) that by Mr Shaw?  
 (4) A Yes  
 (5) MR SANDERS No further questions You may ask  
 (6) CROSS EXAMINATION OF LESLIE PENNINGTON  
 (7) BY MR O NEILL  
 (8) Q This is your deposition transcript Let's see how quick we  
 (9) can do this  
 (10) At your deposition you testified on page 62 of - page 68  
 (11) and page 62 that in fact you may have had a conversation with  
 (12) Jim Shaw about Jesse Watts and Captain Hazelwood You  
 (13) don't  
 (14) particularly recall it Was that a fair statement?  
 (15) A Yes I may have had a - I had conversations with Jim  
 (16) Shaw I had conversations with Jim Shaw on a regular basis  
 (17) about the steward's department So I could have had a  
 (18) conversation about one or the other with him I don't  
 (19) remember  
 (20) any specific conversation  
 (21) Q You don't remember one way or the other and you could  
 (22) have  
 (23) had a conversation with Shaw about Watts and Hazelwood?  
 (24) A I may have  
 (25) Q Okay  
 (26) A Not one that I -  
 (27) MR O NEILL Thank you  
 (28) REDIRECT EXAMINATION OF LESLIE PENNINGTON

Vol 20 3462

- (1) BY MR SANDERS  
 (2) Q Miss Pennington the question is Did you have a  
 (3) conversation in which Mr Shaw told you that Jesse Watts was  
 (4) bringing booze back to Captain Hazelwood and that therefore  
 (5) you  
 (6) shouldn't assign Mr Watts to Mr Hazelwood's ship again? Did  
 (7) you have that conversation?  
 (8) A No sir I did not  
 (9) MR SANDERS No further questions  
 (10) THE COURT You may step down  
 (11) MR SANDERS Your Honor we call Ms Ellen Share  
 (12) THE CLERK Raise your right hand  
 (13) (The Witness Is Sworn)  
 (14) THE CLERK For the record state your full name your  
 (15) address and spell your last name please  
 (16) THE WITNESS My name is Ellen Share I live at 14914  
 (17) Barboula (ph) Houston Texas Spell my last name is  
 (18) S h a r e  
 (19) DIRECT EXAMINATION OF ELLEN SHARE  
 (20) BY MR SANDERS  
 (21) Q Ms Share I'm going to ask you to speak right out okay  
 (22) you have kind of a little voice quite unlike mine  
 (23) Ms Share by whom are you employed now?  
 (24) A Exxon Company USA  
 (25) Q And how long have you been with Exxon USA?  
 (26) A 21 years all told

Vol 20 3463

- (1) Q And before that did you go to school?  
 (2) A High school little college  
 (3) Q And did you go from a little college on into Exxon  
 (4) directly or were you -  
 (5) A No sir  
 (6) Q Did you work for other people?  
 (7) A I had other employment - life before Exxon yes  
 (8) Q You did have a - life before Exxon all right  
 (9) And let me take you straight to the time frame of 1985 -  
 (10) like the last half of 1985 or the year 1986 or the first half  
 (11) of 1987  
 (12) Do you recall where you were working in that time frame?  
 (13) A 85 - 84 and '85 I was in the gulf coast fleet office  
 (14) '86 I left I left Exxon Shipping in 1986 August to go to  
 (15) Exxon Company USA  
 (16) Q But in January through August of 1986 you did work for  
 (17) Exxon Shipping Company?  
 (18) A Yes  
 (19) Q And then in 1985 you worked for Exxon Shipping Company?  
 (20) A Yes  
 (21) Q Now in that time frame were you in the same job?  
 (22) A During that time yes I was in the gulf coast fleet  
 (23) office  
 (24) Q And what was your job in the gulf coast fleet office?  
 (25) A I was sent there basically as an extension of the benefits

Vol 20 3464

- (1) office to serve as a closer contact with Exxon employees  
 (2) ease  
 (3) coming on the vessels to do benefit related work  
 (4) Q Did you also have any function in terms of safety?  
 (5) A Attended safety meetings when they had them  
 (6) Q All right Where was your office?  
 (7) A In the Baytown office in the Baytown refinery  
 (8) Q Do ships come in to Baytown and dock there?  
 (9) A Yes sir  
 (10) Q Did you visit the ships?  
 (11) A Yes sir that was part of my responsibility to be there  
 (12) when - when possible to answer questions and help  
 (13) employees  
 (14) when the ships came?  
 (15) Q So do I understand you to say that you visited the ships  
 (16) every time the ships came in?  
 (17) A Yes sir  
 (18) Q And in visiting the ships did you happen to know a man by  
 (19) the name of Jim Shaw?  
 (20) A Yes sir  
 (21) Q What was Jim Shaw's job at that time?  
 (22) A He was at port steward He worked with stowing the  
 (23) vessels  
 (24) Q Did you have a lot of dealings with Mr Shaw?  
 (25) A Indirectly His office was located across from mine  
 (26) We - we visited when the ships weren't in And but  
 (27) basically  
 (28) his responsibility was totally different from mine

Vol 20 3465

Vol 20 3467

(1) Q Did you have occasion to visit the ships at the same time  
 (2) that Mr. Shaw did?  
 (3) A Quite often.  
 (4) Q All right. Now let me ask you about a specific occasion.  
 (5) Sometime in this time frame - and if it's you, the Ellen  
 (6) Share that he's talking about, it has to be in '85 or up until  
 (7) August of 1986, correct?  
 (8) A Uh-huh.  
 (9) Q Mr. Shaw has testified that - let me just read it.  
 (10) Was any - counsel, I'm reading in the trial transcript  
 (11) page 1011 or 1011.  
 (12) The question: Was anybody with you that fourth time when  
 (13) you went aboard?  
 (14) Answer: When I went aboard the vessel, I had an assistant  
 (15) that would do several things with me. That person was Sam  
 (16) Pierpoint. Ellen Share was also in the company at that time.  
 (17) She had something to do with safety. She may have gone  
 (18) aboard  
 (19) with me at that time. Frank Pasolca (ph) worked for Ellen  
 (20) Mitchell, may have been may have gone aboard with me also.  
 (21) Question: Can I ask you to do something for me, Mr. Shaw?  
 (22) When you say she may have, it doesn't really give us your  
 (23) best recollection. Is your best recollection that she went  
 (24) aboard with you on that occasion?  
 (25) Answer: I think she did, yes.  
 (26) Then I'm going to skip a few lines, and go to line 21. On

(1) A No, sir, I do not.  
 (2) MR. SANDERS: You may ask.  
 (3) CROSS EXAMINATION OF ELLEN SHARE  
 (4) BY MR. O'NEILL  
 (5) Q Ma'am, would it be fair to say that you and Jim Shaw went  
 (6) on board Exxon vessels numerous times?  
 (7) A Yes.  
 (8) Q And would it be fair to say, with regard to this  
 (9) conversation that you don't recall this conversation one way  
 (10) or the other so that you can not realistically deny that the  
 (11) conversation took place?  
 (12) A I can not recall the conversation.  
 (13) Q You don't recall it one way or the other?  
 (14) A No.  
 (15) Q My statement - we have a double negative problem here.  
 (16) I'm not trying to badger you or anything. I just want to make  
 (17) sure that reads right on here, and I used a double negative.  
 (18) Let me, if I'm a good enough grammarian to figure this out,  
 (19) You can't - your recollection isn't such that you can  
 (20) recall one way or the other that this conversation took place.  
 (21) Is my statement correct?  
 (22) A Yes.  
 (23) Q Can't recall one way or the other?  
 (24) A I can't recall one way or the other, yes.  
 (25) Q Thank you very much.

Vol 20 3466

Vol 20 3468

(1) that occasion did you go see Mr. Hazelwood?  
 (2) Answer: Yes, I did.  
 (3) Question: Could you see him?  
 (4) Answer: Not then. The door was locked on this occasion.  
 (5) Question: Was he aboard?  
 (6) Answer: To the best of my knowledge, he was. I don't know  
 (7) because the room was locked. I wasn't aware.  
 (8) Question: Did you find out why the room was locked?  
 (9) Answer: Well, the personnel aboard the vessel were making  
 (10) remarks to the point that there was a female companion or  
 (11) something in the room with him. And they were having a party  
 (12) and Joe was busy.  
 (13) Question: Okay, then did you finally see him that day?  
 (14) Answer: Yes, I did.  
 (15) Question: All right. And at that time, did you smell  
 (16) anything on his breath?  
 (17) Answer: Yes, I did.  
 (18) Question: What?  
 (19) Answer: Here again, I got the distinct odor of alcohol.  
 (20) Skipping down to page 1013. Question: Did you discuss  
 (21) this with Ellen Share?  
 (22) Answer: We had a conversation about it, yes.  
 (23) Now, my question to you, Ms. Share, is simply this:  
 (24) Do you have any recollection of that occurring while you  
 (25) were on board the Yorktown with Mr. Jim Shaw?

(1) And with regard to Mr. Shaw, you got to review Mr. Shaw's  
 (2) deposition testimony -  
 (3) A Yes.  
 (4) Q - when you were deposed.  
 (5) And you consider Mr. Shaw to be an honest man, don't you?  
 (6) A In my dealings with him, yes.  
 (7) Q And you consider him to be an honest man, and you do not  
 (8) doubt the truthfulness of his deposition testimony, do you?  
 (9) A During the dealings with me, I have no reason to doubt  
 (10) his  
 (11) honesty.  
 (12) MR. O'NEILL: Thank you, ma'am.  
 (13) REDIRECT EXAMINATION OF ELLEN SHARE  
 (14) BY MR. SANDERS  
 (15) Q Ms. Share, your answer about Mr. Shaw's honesty, that was  
 (16) based on your deposition - and in response to Mr. O'Neill  
 (17) based upon your own personal dealings with Mr. Shaw, is that  
 (18) correct?  
 (19) A That's correct, yes.  
 (20) Q And in your dealings with him, you didn't ever have an  
 (21) occasion to find that he was dishonest?  
 (22) A No.  
 (23) Q Let me take this a step further.  
 (24) If Mr. Shaw has testified in this case that Mr. Jesse Watts  
 (25) was bringing booze back to Captain Hazelwood after Captain  
 (26) Hazelwood returned from alcohol rehabilitation, which would

Vol 20 3469

Vol 20 3471

(1) have occurred in August of 1985 and said that Mr Jesse Watts  
 (2) was doing that after Captain Hazelwood returned and if the  
 (3) records show that Mr Jesse Watts never even sailed with  
 (4) Captain Hazelwood -  
 (5) MR O NEILL Object to this question as being  
 (6) speculative invading the province of the jury and without  
 (7) foundation  
 (8) MR SANDERS I m following up on his question as to  
 (9) the honesty  
 (10) THE COURT You better get to it real quick it sounds  
 (11) to me like its pretty far out  
 (12) BY MS SANDERS  
 (13) Q If Mr Shaw made a claim like that would that be the claim  
 (14) of an honest man?  
 (15) MR O NEILL Same objection  
 (16) THE COURT I ll sustain the objection You may be  
 (17) able to approach the subject other way but not with a  
 (18) convoluted question like that  
 (19) BY MR SANDERS  
 (20) Q Is your opinion as to Mr Shaw s honesty based on anything  
 (21) other than your own personal dealings with him?  
 (22) A Absolutely no  
 (23) Q One final question Do you remember any description to you  
 (24) or my reading to you from the record of what Mr Shaw said?  
 (25) A Yes

(1) BY MR SANDERS  
 (2) Q There you are Ms Shorts where are you employed?  
 (3) A I m employed with Sea River Maritime Incorporated  
 (4) Q That is a good idea Stay close to that silver one and  
 (5) we ll be able to hear you  
 (6) How long have you been employed by Sea River or by Exxon?  
 (7) A 17 years  
 (8) Q Tell us your educational background?  
 (9) A Attended the University of Houston with approximately 86  
 (10) hours towards a degree  
 (11) Q Now what is your job with Sea River this time?  
 (12) A At this time my job assignment is a commercial assistant  
 (13) with the business development and commercial group  
 (14) Q And in that job are you the custodian of records of Sea  
 (15) River Maritime which concern assignment histories deck logs  
 (16) port logs that kind of information?  
 (17) A Yes  
 (18) MR SANDERS Your Honor may I approach the witness?  
 (19) THE COURT Yes  
 (20) BY MR SANDERS  
 (21) Q I am handing you what is a part of Plaintiff s Exhibit  
 (22) No 1 and this part is in four pages and it is the assignment  
 (23) history for Captain Joseph Hazelwood  
 (24) The page that I have opened up is the page that covers a  
 (25) time period Would you tell the ladies and gentlemen of the

Vol 20 3470

Vol 20 3472

(1) Q If that had occurred do you think that is something you  
 (2) would remember?  
 (3) A Yes I would  
 (4) MR SANDERS No further questions  
 (5) THE COURT Thank you you may step down  
 (6) MR SANDERS Your Honor we call Ms Marsha Shorts  
 (7) (The Witness Is Sworn)  
 (8) MR SANDERS I seem to have inherited all the  
 (9) problems with documents today  
 (10) Our Exhibit 3476 A which is an assignment history for  
 (11) Jesse Watts was missing every other page I would like to -  
 (12) MR O NEILL I object to it as incomplete  
 (13) MR SANDERS And I join in that objection but I have  
 (14) a complete version here and I d like to move that into  
 (15) evidence  
 (16) MR O NEILL I have no objection to the complete one  
 (17) or the incomplete one for that matter  
 (18) (Exhibit 3476 A offered)  
 (19) THE COURT 3476 A is admitted  
 (20) (Exhibit 3476 A received)  
 (21) THE CLERK Would you state your full name your  
 (22) address and spell your last name  
 (23) THE WITNESS Marsha Renee Shorts 9110 Tavastock  
 (24) Drive in Houston Texas My last name is spelled S h o r t s  
 (25) DIRECT EXAMINATION OF MARSHA SHORTS

(1) jury what time period that covers?  
 (2) A The time period that s covered is from October 6th 1981  
 (3) through March 24th 1989  
 (4) Q All right What information is contained on this  
 (5) assignment history from Plaintiff s Exhibit No 11?  
 (6) A It contains the vessel s name the vessel code the  
 (7) rating - called the rating scale I m sorry The start date  
 (8) the stop date and the total days  
 (9) Q Can you look at that assignment history and find out when  
 (10) Captain Hazelwood was sailing aboard an Exxon ship?  
 (11) A Yes  
 (12) Q Can you tell what dates he sailed?  
 (13) A That is correct  
 (14) Q And how many days -  
 (15) A That s correct  
 (16) Q And does it give you the name of the ship?  
 (17) A Yes  
 (18) Q All right Would you start in about I guess halfway down  
 (19) the page and 1985 start with August of 1985 - well start  
 (20) with January of 1985  
 (21) How many ships did Captain Hazelwood sail on from 85  
 (22) through 89?  
 (23) A A total of two  
 (24) Q What were those two ships?  
 (25) A The Exxon Yorktown and the Exxon Valdez

Vol 20 3473

- (1) Q And the Exxon Yorktown the first - strike that  
 (2) Whether does - when is the last date on which Captain  
 (3) Hazelwood served aboard the Exxon Yorktown?  
 (4) A April 17th 1987  
 (5) Q What is the first date on which he sailed on the Exxon  
 (6) Valdez?  
 (7) A July 30th of 1987  
 (8) Q I ask you just kind of put that aside  
 (9) Did you also at my request consult with deck logs and  
 (10) port logs?  
 (11) A Yes  
 (12) Q And which port logs did you review for me?  
 (13) A I reviewed the Exxon Yorktown as it - and in Baytown  
 (14) Q Now the port log would have what information?  
 (15) A The port logs would have the information as to the time  
 (16) the vessel arrived in port all of the operations that occurred in  
 (17) port the product loaded or discharged  
 (18) Q All right Now you also mentioned and I also mentioned  
 (19) deck logs  
 (20) A That's correct  
 (21) Q What - where did the deck logs - which ships did I ask  
 (22) you to check on deck logs?  
 (23) A On the Exxon Yorktown and Valdez  
 (24) Q So the port logs were for what port?  
 (25) A Baytown Texas

Vol 20 3474

- (1) Q And the deck logs were for the - what ship?  
 (2) A For the Yorktown and the Valdez  
 (3) Q Is it possible to tell comparing those two - or using  
 (4) those two is it possible to tell when the Exxon Yorktown  
 (5) called at Baytown when Captain Hazelwood was the master of  
 (6) the vessel - using the assignment history the deck logs and the  
 (7) port logs?  
 (8) A Yes it is  
 (9) Q All right Is there - would the deck log of the Yorktown  
 (10) say when it was in York - when it was in Baytown?  
 (11) A Yes  
 (12) Q And would the port log from Baytown show when the  
 (13) Yorktown  
 (14) came into Baytown?  
 (15) A That's correct  
 (16) Q All right And in comparing those two was there - was  
 (17) there an agreement between the two or were there any  
 (18) disparities?  
 (19) A There was an agreement  
 (20) Q Now did I also ask you to double check that?  
 (21) A Yes  
 (22) Q And how did you double check that?  
 (23) A That was double checked by running an extracted report  
 (24) from  
 (25) our STAR System which is our Statistical and Revenue  
 (26) System for  
 (27) Sea River Maritime which would indicate all port calls that a  
 (28) vessel makes at port

Vol 20 3475

- (1) Q All right Did I ask you to then give me a listing of all  
 (2) the times that the Exxon Yorktown was in Baytown Texas with  
 (3) Captain Hazelwood as master of the Yorktown?  
 (4) A Yes  
 (5) Q And s Defendant Exhibit 7420 a blowup of your work on that?  
 (6) A That's correct  
 (7) Q Now you have on this information start thing August of  
 (8) 1985 through April of 1987  
 (9) The first time that the ship was in Baytown ship being the  
 (10) Yorktown at Baytown with Captain Hazelwood aboard or - this  
 (11) date right here August the 28th 1985 Correct?  
 (12) A That's correct  
 (13) Q And how long did the ship stay?  
 (14) A It stayed till April 30th of 1985  
 (15) Q To - see I lured you into an error?  
 (16) A Same thing you are -  
 (17) Q August -  
 (18) A August 30 1985  
 (19) Q All right And then from then on these are the dates  
 (20) through the 30th of March 1987 when the Yorktown was at  
 (21) Baytown with Captain Hazelwood aboard?  
 (22) A That's correct  
 (23) Q Now Mr Shaw has testified that there were three or maybe  
 (24) four times when the - the Yorktown was at Baytown they were  
 (25) all seven to 14 days apart

Vol 20 3476

- (1) What is the shortest interval of time between visits that  
 (2) was found by your research?  
 (3) A 26 days  
 (4) Q And this was the last one right before Captain Hazelwood  
 (5) left the ship in 1987 correct?  
 (6) A That's correct  
 (7) Q All right And then of course the next shortest is 51  
 (8) days and then the rest of them are a whole lot of days?  
 (9) A That's correct  
 (10) MR SANDERS Move the admission of defendant exhibit  
 (11) 7420  
 (12) (Exhibit 7420 offered)  
 (13) MR O NEILL No objection  
 (14) THE COURT Defendant 7420 is admitted  
 (15) (Exhibit 7420 received)  
 (16) BY MS SANDERS  
 (17) Q I also have here - and if I may approach the witness Your  
 (18) Honor I have Defendant Exhibit 3476 A?  
 (19) THE COURT 3476?  
 (20) MR SANDERS 76 A alpha That's in evidence  
 (21) BY MS SANDERS  
 (22) Q And that is the assignment history for Jesse Watts Is  
 (23) that right?  
 (24) A That's correct  
 (25) Q Now you have in front of you the assignment history for

Vol 20 3477

Vol 20 3479

1) Captain Hazelwood?  
 2) **A That's correct**  
 3) Q Let me ask you to compare those two assignment histories  
 4) for the period starting with 1985  
 5) **A Okay**  
 6) Q And first let me ask you if those two sailed together in  
 7) January or February of 1985?  
 8) **A Yes**  
 9) Q And on what ship was that?  
 10) **A The Exxon Yorktown**  
 11) Q All right Now in 1985 after February did - do those  
 12) records reflect that Jesse Watts ever sailed on the Yorktown  
 13) when Captain Hazelwood was master again?  
 14) **A No they - they do not**  
 15) Q All right So I'm having Mr O'Neill's problem Is there  
 16) any evidence in those records that he ever sailed on the  
 17) Yorktown with Captain Hazelwood again? I've got a double  
 18) negative Not you me  
 19) Did he or didn't he?  
 20) **A He did not**  
 21) Q Thank you  
 22) Now do the records reflect that Mr Watts did sail with  
 23) Captain Hazelwood on board another ship in 1988?  
 24) **A Mr Watts did sail with Captain Hazelwood on board the**  
 25) **Exxon Valdez in 1988**

1) BY MR SANDERS  
 2) Q And this of course goes from August the 14th 1985 to the  
 3) date of the grounding in 1989?  
 4) **A Yes**  
 5) Q Is that correct?  
 6) And the total number of different people who sailed with  
 7) Captain Hazelwood during that time period was what?  
 8) **A 269**  
 9) Q Did I also ask you if it was possible to look at the deck  
 10) logs for the ships on which Captain Hazelwood was sailing to  
 11) determine how many visitors were recorded as having visited  
 12) the  
 13) vessel when Captain Hazelwood was aboard?  
 14) **A Yes**  
 15) Q Now to the deck - to the - excuse me  
 16) Do the deck logs - I'll get it right in about a half an  
 17) hour  
 18) Do the deck logs contain that sort of information?  
 19) **A That's correct**  
 20) Q Do you have an understanding as to why that information is  
 21) put in the deck logs?  
 22) **A It's required These are not normally Exxon employees**  
 23) **so**  
 24) **there needs to be a record as to who boards the ship that is**  
 25) **not an employee**  
 26) Q Did you go through the deck logs for the Yorktown during  
 27) the appropriate time period and the deck logs for the Exxon

Vol 20 3478

Vol 20 3480

1) Q Can you tell the month there or is that -  
 2) **A Sure Mr Watts was on board the Exxon Valdez from**  
 3) **September 30th through October 25th**  
 4) Q Of 1988?  
 5) **A Of 1988**  
 6) Q Thank you Now I also asked you to do two other things  
 7) for me  
 8) Is it possible to take the information in your records and  
 9) determine how many crew - crew members - sailors - were on  
 10) board with Captain Hazelwood during a period of time?  
 11) **A Yes**  
 12) Q And in doing so did I give you any instructions about  
 13) making sure you didn't count anybody twice?  
 14) **A Yes**  
 15) Q And at my request did you go through the records and  
 16) compile a total number by year by time period for the total  
 17) number of different people who served on Exxon vessels with  
 18) Captain Hazelwood when he was a master?  
 19) **A Yes**  
 20) **MR SANDERS I move the admission of Defendant**  
 21) **Exhibit 7419**  
 22) (Exhibit 7419 offered)  
 23) **MR O NEILL No objection**  
 24) **THE COURT 7419 is admitted**  
 25) (Exhibit 7419 received)

1) Valdez during the appropriate time period and come up with a  
 2) number by year of visitors who came aboard those ships when  
 3) Captain Hazelwood was the master?  
 4) **A Yes**  
 5) Q And did you - does Defendant Exhibit 7424 accurately  
 6) portray your summary of that work?  
 7) **A That is correct**  
 8) **MR SANDERS I move the admission of Defendant**  
 9) **Exhibit 7424**  
 10) (Exhibit 7424 offered)  
 11) **MR O NEILL No objection**  
 12) **THE COURT Defendant Exhibit 7424 is admitted**  
 13) (Exhibit 7424 received)  
 14) **BY MS SANDERS**  
 15) Q And the total number of visitors is?  
 16) **A 272**  
 17) **MR SANDERS Thank you very much You may ask**  
 18) **CROSS EXAMINATION OF MARSHA SHORTS**  
 19) **BY MR O NEILL**  
 20) Q Got a couple of questions for you  
 21) Now Baytown is in Texas?  
 22) **A That's correct**  
 23) Q And ships come in to Baytown and this ship came in to  
 24) Baytown on these days (indicating) isn't that correct?  
 25) **A That's correct**

Vol 20 3481

- (1) Q Now the Baytown is one of several ports that are serviced  
 (2) by or were serviced by at this point in time the gulf coast  
 (3) fleet office isn't that right?  
 (4) A That's correct  
 (5) Q And there was - and listening to Mr DeOliveira testifying  
 (6) earlier today I heard him say that Shaw Jim Shaw the port  
 (7) steward not only visited ships at Baytown but they he visited  
 (8) them when they came in to Baton Rouge? Do you know that?  
 (9) A I'm - no I have no recollection of that  
 (10) Q The Baton Rouge is down in the general geographic area  
 near  
 (11) Baytown they're in adjoining states aren't they?  
 (12) A Baton Rouge is in Louisiana  
 (13) Q And where is Texas City?  
 (14) A I'm sorry  
 (15) Q Do you know where Texas City is?  
 (16) A I've heard of Texas City yes  
 (17) Q Do gulf fleet coast ships come in to Texas City too don't  
 (18) they?  
 (19) A I'm quite sure they do  
 (20) Q And this chart doesn't cover Baton Rouge when the Yorktown  
 (21) came in to Baton Rouge does it?  
 (22) A No it does not  
 (23) Q And it doesn't cover when the Yorktown came in to Texas  
 (24) City does it?  
 (25) A No it does not

Vol 20 3482

- (1) Q And you didn't purport to try to put on this chart you  
 (2) didn't try to put on this chart the number of times that  
 (3) Mr Shaw would have visited the Exxon Yorktown when the  
 Exxon  
 (4) Yorktown was in and around the gulf coast?  
 (5) MR SANDERS Object to that Assumes a fact not in  
 (6) evidence  
 (7) MR O NEILL I asked her whether they tried to -  
 (8) MR SANDERS I'm objecting to whether Mr Shaw would  
 (9) have visited those places There's certainly no proof of  
 (10) that  
 (11) MR O NEILL Mr DeOliveira has already testified to  
 (12) that  
 (13) THE COURT That's something the jury will have to  
 (14) decide  
 (15) BY MR O NEILL  
 (16) Q You didn't try to put that on this chart did you?  
 (17) A I was not asked to put that information on the chart  
 (18) Q You were not asked to put that information on the chart?  
 (19) A No  
 (20) Q Okay  
 (21) And we talked a little bit about Mr Watts vessel  
 (22) assignments and Captain Hazelwood's vessel assignments  
 Okay?  
 (23) Remember we talked about that?  
 (24) A Uh huh  
 (25) Q And I'm just about to get you off the stand

Vol 20 3483

- (1) You couldn't tell from the records or you weren't asked to  
 (2) tell from the records whether Captain Hazelwood and Mr Watts  
 (3) were in the same port together assuming they came in on  
 (4) different ships? Nobody asked you to do that did they?  
 (5) A I'm sorry could you repeat the question?  
 (6) Q Mr Watts and Captain Hazelwood - I'm going to try it with  
 (7) a couple of questions - could be in the same place and time  
 (8) because they came in on the same ship That's a correct  
 (9) statement? Or they could be in the same place at the same time  
 (10) because they came in on different ships that's a correct  
 (11) statement isn't it?  
 (12) A (Nods head)  
 (13) Q Two ships come in to Baytown at the same time two friends  
 (14) see each other they're at the same place at the same time Do  
 (15) you understand?  
 (16) A Yes, I understand  
 (17) Q You didn't attempt to investigate all of the times that  
 (18) Shaw and Hazelwood - I'm sorry all of the times that Watts  
 (19) and Hazelwood were at the same time in the same place  
 because  
 (20) they came in on different ships?  
 (21) MR SANDERS Object to that as assuming facts not in  
 (22) evidence  
 (23) THE COURT It's a fair cross exam You may answer  
 (24) it  
 (25) BY MR O NEILL

Vol 20 3484

- (1) Q I think it's a fair -  
 (2) A The information that I - reviewed indicated that Jesse  
 (3) Watts was assigned what his assignments were And in  
 comparing  
 (4) those assignments with the assignments of Captain  
 Hazelwood  
 (5) Jesse Watts and Captain Hazelwood sailed together on the  
 (6) Yorktown in 1985 and also on the Exxon Valdez  
 (7) Q In 88?  
 (8) A That's correct  
 (9) Q But I'm asking the question one step beyond that  
 (10) Let's assume I wanted to see whether they were together in  
 (11) Baytown or Texas City or Baton Rouge and came in on different  
 (12) ships Did you go and do any analysis of the possibility that  
 (13) they came in on different ships and were together? Was that  
 (14) something that you looked at as part of this analysis? Do you  
 (15) understand what I'm saying?  
 (16) A I understand what you're saying  
 (17) Q Do you want me to try it again?  
 (18) A According to the assignment masters they were not  
 They  
 (19) were on the same ship  
 (20) Q But I'm talking about times when they weren't on the same  
 (21) ship Let's take the second half of 1985 or the first half of  
 (22) 1986 Now we know they're not on the same ship Did you  
 (23) try - and I - maybe it's obvious You didn't try to figure  
 (24) out whether the ships that they were on came into the same  
 (25) port different ships came into the same port? That was not

Vol 20 3485

- (1) something that you analyzed was it?  
 (2) **A No it was**  
 (3) **MR O NEILL** Okay Thank you very much ma'am  
 (4) **REDIRECT EXAMINATION OF MARSHA SHORTS**  
 (5) **BY MR SANDERS**  
 (6) **Q Ms Shorts** I guess this is obvious also You don't know  
 (7) if it is so that those two people arrived at the same port on  
 (8) different ships?  
 (9) **A No I do not**  
 (10) **Q All right**  
 (11) **MR SANDERS** No further questions  
 (12) **THE COURT** Thank you you may step down  
 (13) **MS STEWART** Your Honor defendants call Lieutenant  
 (14) Commander Falkenstein by video deposition  
 (15) **THE COURT** I'm sorry the name again?  
 (16) **MS STEWART** Lieutenant Commander Falkenstein )  
 (17) **DIRECT EXAMINATION OF THOMAS FALKENSTEIN**  
 (18) **BY VIDEO EXAMINER**  
 (19) **Q** For the record commander would you identify yourself?  
 (20) **A** My name is Thomas G Falkenstein I'm a lieutenant  
 (21) commander in the United States Coast Guard  
 (22) **Q** When in 1987 did you arrive in Valdez?  
 (23) **A** I reported in on July 31st 1987  
 (24) **Q** And who was the commanding officer in Valdez at that time?  
 (25) **A** Steven McCall

Vol 20 3486

- (1) **Q** Did you remain in the position of executive officer during  
 (2) the entire time that you were stationed in Valdez?  
 (3) **A** Yes sir  
 (4) **Q** Can you describe what your duties were as executive officer  
 (5) in Valdez?  
 (6) **A** The executive officer runs the administration or  
 (7) administers the operation of the unit The commanding  
 (8) officer  
 (9) dictates what's to be done and the executive officer sees to  
 (10) it that it's carried out by the appropriate departments within  
 (11) the unit  
 (12) I was assigned as the alternate captain of the port and in  
 (13) the captain's absence or the commanding officer's absence  
 (14) I  
 (15) would be the acting officer in charge of marine inspection  
 (16) as  
 (17) well as acting commanding officer  
 (18) My duties required me to be fully aware of anything the  
 (19) commanding officer was aware of so that in the event of his  
 (20) inability to command or his absence that I would be able to  
 (21) step in and carry out his duties  
 (22) **Q** Did you have responsibility for the operation of the Vessel  
 (23) Traffic Service?  
 (24) **A** Not directly  
 (25) **Q** Did you have indirect responsibilities then?  
 (26) **A** The head of the department the division was  
 (27) responsible  
 (28) for the direct supervision and operation of the Vessel  
 (29) Traffic  
 (30) Center reported to me

Vol 20 3487

- (1) **Q** And who was that commander?  
 (2) **A** That was Lieutenant Rice  
 (3) **Q** When - when were you first notified of the grounding?  
 (4) **A** Approximately 12 30 in the morning  
 (5) **Q** Who called you?  
 (6) **A** Mr Blandford  
 (7) **Q** What did Mr Blandford tell you?  
 (8) **A** He informed me the Exxon Valdez had gone aground on  
 (9) Bligh  
 (10) Reef  
 (11) **Q** Now about what time did you arrive at the Vessel Traffic  
 (12) Center?  
 (13) **A** Approximately 12 40  
 (14) **Q** And who was present when you arrived?  
 (15) **A** Mr Blandford radio operator I believe that's all  
 (16) **Q** And was Commander McCall with you?  
 (17) **A** Yes sir  
 (18) **Q** On what - onto what part of the Exxon Valdez did you  
 (19) eventually board?  
 (20) **A** We boarded from the starboard side near midships  
 (21) **Q** And what did you do upon boarding the vessel?  
 (22) **A** The - the seaman at the head of the ladder directed us to  
 (23) the bridge We asked him where the captain was I believe  
 (24) and  
 (25) he indicated the bridge and we proceeded immediately to  
 (26) the  
 (27) bridge  
 (28) **Q** Now when you say we who - who else was with you?

Vol 20 3488

- (1) **A** Mr Lawn and Mr Delozier  
 (2) **Q** What did you do then?  
 (3) **A** We got up on the bridge I arrived on the bridge I  
 (4) believe there were three people on the bridge at the time  
 (5) the  
 (6) best of my memory One was near center line of the ship  
 (7) pacing There was another one in the corner and I believe  
 (8) the  
 (9) third was standing at the helm position  
 (10) I asked the one near the center line of the ship if he was  
 (11) the captain And he directed me toward the port corner -  
 (12) port  
 (13) forward corner of the pilot house  
 (14) **Q** And did you come upon the captain at that point?  
 (15) **A** Yes sir I went over and spoke to the captain  
 (16) **Q** All right Who was with you when you went over and spoke  
 (17) to the captain?  
 (18) **A** No one  
 (19) **Q** How long did this conversation last?  
 (20) **A** Three - five minutes maximum Probably about three  
 (21) minutes  
 (22) **Q** Did Mr Delozier come over and join you at some point?  
 (23) **A** No sir  
 (24) **Q** Was he continuing to talk to Mr Lawn?  
 (25) **A** Yes sir I believe so  
 (26) **Q** Then how did the conversation end? Did you walk away or  
 (27) did the captain walk away what happened?  
 (28) **A** I walked away sir

Vol 20 3489

- (1) Q You walked away. What did you do then?
- (2) A I went over to explain to Mr. Lawn what I had been told.
- (3) We discussed the situation a little bit between us.
- (4) Mr. Delozier. I believe then went and got into a discussion with the captain briefly.
- (5) Q And commander, did you – did you say anything to either Mr. Lawn or to Mr. Delozier when you first came over to them about smelling alcohol anywhere near Captain Hazelwood?
- (6) A No, sir.
- (7) Q Now, what happened next?
- (8) A After my discussion with Mr. Lawn, Mr. Delozier returned and indicated he wanted to talk to me on the bridge wing and we went outside.
- (9) Q And did you – what occurred then out on the bridge wing?
- (10) A Mr. Delozier asked me if I'd smelled the captain's breath.
- (11) And I indicated I had. I said yes. He said that we needed to – something along the lines of we needed to do blood test for drugs, alcohol.
- (12) Somewhere in there I – I suggested to him that maybe the captain had just seen his career go down the tubes and gone down do get a drink afterwards. I know that he pointed out that we had to consider the other possibility that he had been drinking before the ship went aground that we had to cover the – all possibilities by ordering the test.
- (13) And we then went back inside after that discussion and

Vol 20 3490

- (1) notified the commanding officer.
- (2) Q Now, you were Mr. Delozier's superior, correct?
- (3) A Yes, sir.
- (4) Q Who actually made the decision to proceed with the alcohol testing?
- (5) A I made the phone call to the commanding officer to request that we get the chemical tests or breathalyzer, if possible, the equipment out to the ship to make the tests.
- (6) Q What was the authority under which you were proceeding in making that recommendation?
- (7) A Under – I don't recall the number in the code of federal regulations under Title 46 which authorizes the Coast Guard to conduct chemical tests or to have the employer conduct the chemical test.
- (8) Q When did you make that phone call to Commander McCall?
- (9) A I don't recall the exact time. It was within one hour after we got aboard the ship.
- (10) Q Was it fairly immediately after this bridge wing conversation you described with Mr. Delozier?
- (11) A Yes, sir.
- (12) Q When you had this conversation with him relative to the blood test, under what authority were you thinking about taking this blood test at that time?
- (13) A Under the provision of the law which I can't quote exactly which permit the Coast Guard to order a test or have a

Vol 20 3491

- (1) test conducted after a major marine casualty.
- (2) Q So if I understand this correctly, this is a test that would be administered to all of the crew members that were on watch during that particular casualty, is that correct?
- (3) A Yes, sir.
- (4) Q It is clear in your mind that the suggestion for this test, then, came from Mr. Delozier, is that correct?
- (5) A Yes, sir. I think you could say that.
- (6) Q If Mr. Delozier had not spoken to you on the bridge wing at that particular point in time, would you have considered ordering a blood alcohol test at that particular point in time?
- (7) A Probably not.
- (8) Q Now, in your observation of Captain Hazelwood when you spoke to him in the wheelhouse, did you see any signs which led you to believe that he was intoxicated or under the influence of alcohol?
- (9) A Other than the odor of alcohol in and around the area of Captain Hazelwood alone, no.
- (10) Q Did he appear lucid to you?
- (11) A Yes, sir.
- (12) Q Was there anything about his – was there anything about him standing there which would lead you to believe he was unsteady or unable to stand properly?
- (13) A No, sir.
- (14) Q So there was nothing other than this alleged smell that you

Vol 20 3492

- (1) smelled to lead you to believe that the – that Captain Hazelwood had been drinking?
- (2) A No, sir. I smelled what I smelled and I did smell the odor of alcohol in and around the area of Captain Hazelwood and only Captain Hazelwood. But other than that, no, sir, there was no other indication that would lead me to believe he had consumed alcohol or was under the influence of alcohol.
- (3) Q You had not seen anything in Captain Hazelwood's behavior or demeanor to suggest that he was intoxicated, had you?
- (4) A From my observations, no.
- (5) Q Let me ask you specifically, at the time that you spoke to Captain Hazelwood aboard the vessel, did he appear to you in any way to be either in shock or incapacitated?
- (6) A When I initially spoke with him on the bridge right after I got aboard, he looked a little shocked or stunned or – understandably upset about the condition that he – his ship had come into.
- (7) Q Now, did he appear to be incapacitated?
- (8) A No, sir.
- (9) Q You, as the Coast Guard on scene investigator, had the authority to relieve the captain that you – if you felt that he was intoxicated or in any other way unable to command the vessel, is that correct?
- (10) A Yes, sir.
- (11) Q And it is also a fact that you did not relieve Captain

Vol 20 3493

- (1) Hazelwood of his command of the Exxon Valdez on that night is  
 (2) that correct?  
 (3) A Yes sir  
 (4) Q In fact Captain Hazelwood remained in command of the  
 Exxon  
 (5) Valdez until he was relieved by another Exxon master I believe  
 (6) it was Capt Deppe later on?  
 (7) A Friday evening yes, sir  
 (8) Q Right When you spoke with Captain Hazelwood regarding  
 his  
 (9) instructions to Cousins as to where to turn the vessel did  
 (10) either you or Captain Hazelwood indicate the position with  
 (11) reference to the chart?  
 (12) A Yes, sir, pointed it out with his finger  
 (13) Q And to what did he point to?  
 (14) A Pointed toward Busby Island  
 (15) Q Now do you recall what point if any Captain Hazelwood  
 (16) pointed to with regard to Busby Island?  
 (17) A No sir Busby Island is a very small island I  
 (18) understood that - you know abeam of Busby Island seemed  
 very  
 (19) clear to me So there was no point that I specifically asked  
 (20) him to point to  
 (21) Q As you sit here today commander what s your best  
 (22) recollection as to what Mr Delozier told you that Hazelwood  
 (23) had told him regarding Hazelwood s instructions to - to  
 (24) Cousins to turn the vessel?  
 (25) A To my best memory, Mr Delozier indicated that the  
 captain

Vol 20 3494

- (1) had directed the third mate Cousins to commence a turn  
 back  
 (2) into the shipping lanes at a mark and he indicated a - a 38  
 (3) fathom mark and Mr Delozier I believe said that Captain  
 (4) Hazelwood circled that particular mark That mark is abeam  
 (5) of - roughly abeam of Busby Island  
 (6) Q Now just to make it clear when you asked Captain  
 (7) Hazelwood where he had instructed Cousins to turn would it be  
 (8) correct to say that he did not point to that 38 fathom mark but  
 (9) he pointed to Busby Island?  
 (10) A He pointed toward Busby Island The island itself has a  
 (11) light on it That's an easy reference to figure out when  
 (12) you're abeam of Busby Island He didn't specifically point  
 to  
 (13) a 38 fathom mark he didn't circle anything when he was in  
 (14) discussion with me  
 (15) MS STEWART Your Honor it s that time We have  
 (16) about ten more minutes We can continue tomorrow  
 (17) THE COURT Ladies and gentlemen we will adjourn for  
 (18) the day Please remember my instructions not to read or listen  
 (19) to anything about the case We ll see you at 8 00 tomorrow  
 (20) morning Counsel remain for a few minimums please  
 (21) (Proceedings recessed at 2 00 p m )

(1) PROCEEDINGS  
 (2) THE COURT We'll be back on the record at this time  
 (3) Court is ready to take up the motion of Chugach Alaska  
 (4) Corporation and certain others for remand of their case or  
 (5) cases to state court  
 (6) Mr. Petumenos are you going to lead the charge?  
 (7) MR. PETUMENOS I am Your Honor thank you  
 (8) THE COURT I wish in addressing this that you'd  
 (9) focus if on nothing else the matter that's of most concern to  
 (10) me which is the status of the stipulation that you all entered  
 (11) into in state court about the involvement of federal law  
 (12) Beyond that I think that needs to be the main focus of the  
 (13) thing. If you'd each take about 15 minutes to sum up your  
 (14) position.  
 (15) MR. PETUMENOS Very well Your Honor I'd like to  
 (16) address the stipulation certainly I'd also like to thank the  
 (17) Court for its handling of this matter in expedited review and  
 (18) its sensitivity to the calendaring issues that the motion  
 (19) presents and as you will hear I think at the end of my  
 (20) argument our rush to get these briefs to you if I do run over  
 (21) a few minutes we have by submittal today found out a few more  
 (22) things about the removal that we weren't aware of before  
 (23) THE COURT Don't run over Mr. Petumenos It's been  
 (24) a long day  
 (25) MR. PETUMENOS First of all quickly the standard of

(1) review is of course any doubt about this motion for remand  
 (2) that you have to remand. One of the things I wanted to state  
 (3) as a complete answer to Exxon's contentions is that we do not  
 (4) bring in the state court a negligence per se claim under a  
 (5) federal statute. We do not bring in the state court an implied  
 (6) cause of action under ARPA. We simply do not assert one. The  
 (7) context of the record the time that the April 15th paper was  
 (8) filed which Exxon contends creates the remand was this. We  
 (9) had a compensatory damages claim pending and a  
 (10) compensatory  
 (11) damages trial only pending in the State Superior Court  
 (12) Order Number 40 further restricted the issues and legal  
 (13) issues to be tried in that case. The motion for summary  
 (14) judgment that was brought by Exxon asserted that the  
 (15) defendants' claim for archaeological damages insofar as it  
 (16) purported to claim for artifacts that were not yet stolen -  
 (17) THE COURT Defendants or plaintiffs?  
 (18) MR. PETUMENOS The defendants' motion for summary  
 (19) judgment.  
 (20) THE COURT On whose claim your claim?  
 (21) MR. PETUMENOS On our claim for artifacts that  
 (22) weren't stolen yet was speculative and premature. The  
 (23) plaintiffs were responding that their claims under state law  
 (24) should be regarded as having asserted a property interest in  
 (25) confidentiality cited to ARPA and to the state statute  
 relating - regulating archaeological artifacts to persuade the

(1) Court in - under state law that there was a property interest  
 (2) that the Court should recognize under public policy and we  
 (3) stand or fall under state law on that motion for summary  
 (4) judgment  
 (5) If Judge Shortell determines under state law that claim of  
 (6) damages is too remote or too speculative we are prepared to  
 (7) lose the motion We do not rest upon negligence per se or an  
 (8) implied cause of action under ARPA to resist the motion You  
 (9) will find no cause of action like that in our state  
 (10) complaints You have reviewed our state complaints on a  
 number  
 (11) of occasions and have determined that those state complaints  
 (12) assert only state law and we have done nothing to change that  
 (13) Now one of the things that I wanted the Court to be sure  
 (14) of is that when the Court examines the record before it on a  
 (15) motion for remand you may also rely upon the representations  
 (16) of counsel who are here before you when we argue the motion  
 (17) This is not like a Groucho Marx comedy routine where a duck  
 (18) falls out of the sky and says you said the magic word you get  
 (19) a free trip to federal court if we are able to assert here  
 (20) today that we are not bringing negligence per se claims are  
 (21) bound by it are not bringing claims under ARPA  
 (22) I would cite the Court to follow the language from Coardus  
 (23) where the court heard similar argument to this and said  
 (24) likewise the court is unpersuaded that plaintiffs claim is in  
 (25) reality a claim under federal law Before the hearing

(1) plaintiffs had assured the state court that they were not  
 (2) urging a cause of action based upon the federal statute and  
 (3) reiterated this position at oral argument in this court  
 (4) Indeed counsel for defendant conceded that plaintiffs would  
 be  
 (5) bound by the representation to both the state and federal  
 (6) court  
 (7) We deny that we violated the stipulation or had any intent  
 (8) to do so We are - we feel bound and welcome the Court's  
 (9) order extinguishing any cause of action under ARPA and  
 (10) extinguishing any cause of action for negligence per se  
 (11) This is the complete answer to Exxon's motion for remand  
 (12) The rest of the briefs that go on at some length describing  
 (13) whether negligence per se creates a federal question and  
 (14) describing whether or not ARPA even allows for an implied  
 cause  
 (15) of action are totally unnecessary if this court comes to the  
 (16) conclusion that we are simply not bringing a claim under the  
 (17) federal statute  
 (18) The brief that was filed on April 15th was succeeded by  
 (19) another pleading In between the April 15th pleading the  
 (20) opposition the motion for summary judgment brought by the  
 (21) defendants there was a motion in limine that was brought by  
 (22) the defendants over a similar issue I've been looking forward  
 (23) to doing this all day Could I have the Elmo please? I could  
 (24) probably have handed this to you but this is just way too  
 (25) important

(1) There's a footnote here I don't know how to bring this  
 (2) down to a size you can see it but we dropped a footnote that  
 (3) said see the Archaeological Resources Protection Act ARPA  
 (4) Plaintiffs are not making a claim for damages under ARPA but  
 (5) rather refer to it as an example of proper archaeological  
 (6) damage assessment methodology This footnote was  
 presented in  
 (7) a pleading served on Exxon after the opposition for the motion  
 (8) for summary judgment and before the removal  
 (9) The point is I'm prepared to file an affidavit I am  
 (10) prepared to represent as an officer of the court we said it to  
 (11) Exxon and to the world we are not bringing a claim under  
 ARPA  
 (12) nor are we bringing a claim for negligence per se at all  
 (13) In the stipulation that was signed by the parties there  
 (14) was a letter that was sent with it and it said to Exxon we  
 (15) don't want to see in essence the Groucho Marx duck fall from  
 (16) the ceiling and have us removed to federal court If we wish  
 (17) to assert under state law that a federal statute relates to  
 (18) some of the things we do that is not removal and we made it  
 (19) clear We did no more than that in this instance  
 (20) Remember that this Court must remand if there is a doubt  
 (21) and in this instance Exxon even points to a footnote contained  
 (22) right in the pleading that they contend creates the removal in  
 (23) which we say we're not relying on federal law and federal law  
 (24) is not controlling here But it may help you Judge in terms  
 (25) of the issues that are before you under state law

(1) Exxon says that the footnote is ambiguous Well remember  
 (2) that you must remand if there is a doubt And there is no  
 (3) ambiguity certainly now that we are not asserting either  
 (4) negligence per se or an implied cause of action  
 (5) There are so many layers to what is wrong with this removal  
 (6) that it would take more than 15 minutes to describe them but  
 (7) the fact of the matter remains that if you go through all these  
 (8) cases and go through all this tortuous process even if we were  
 (9) doing what Exxon is saying it's still not removal and the  
 (10) reason for that is there is no substantial federal question  
 (11) presented Substantial federal questions of this nature you  
 (12) first look to the complaint to determine if anything there is  
 (13) alleged There's no dispute here that there's nothing in the  
 (14) complaint  
 (15) Exxon points to the other paper rule and makes a very  
 (16) disingenuous argument If you recall at the time that the  
 (17) stipulation was entered into we were given 48 hours to sign  
 (18) the stipulation or we would be removed and remember also that  
 (19) the grounds for the - for the alleged removal were briefs that  
 (20) we'd filed in front of the TAPA fund Exxon here contends  
 (21) well Judge that's not another paper filed in a state court  
 (22) that couldn't have triggered removal which raises the  
 (23) question why then were these plaintiffs subjected to a 48 hour  
 (24) demand that they sign a stipulation when there was no paper in  
 (25) the state court from which to bring the removal It's a bit

(1) inconsistent isn't it?  
 (2) But we signed the stipulation for the reason that once  
 (3) you're removed it can take you a bit of time to get back to  
 (4) state court and it can be very disruptive and the other reason  
 (5) is we weren't bringing a claim in that area. We were giving up  
 (6) nothing by signing the stipulation.  
 (7) Turning to the issue of Merrill Dow, Exxon concedes  
 (8) essentially that if Merrill Dow applies to this case and even  
 (9) if all of their arguments about bringing negligence per se  
 (10) claim were correct, they lose. And the reason that they say  
 (11) Merrill Dow doesn't apply, they state a couple of other reasons  
 (12) which are unpersuasive. Like maritime law applies that's a  
 (13) defense as you know and have ruled and you can't plead that  
 (14) as removal. Your Honor.  
 (15) They say it's because ARPA provides us with an implied  
 (16) cause of action under federal law. Well, it does no such  
 (17) thing. It does no such thing because ARPA doesn't apply to  
 (18) lands that are owned by a native corporation. ARPA by its  
 (19) terms says nothing in this chapter shall be construed to  
 (20) effect any land other than public land or Indian land or to  
 (21) effect the lawful recovery, collection or sale of  
 (22) archaeological resources from land other than public land or  
 (23) Indian land.  
 (24) THE COURT: What does the term Indian land mean  
 (25) there?

(1) MR. PETUMENOS: Section 470(b)(4) defines the term  
 (2) Indian land and it provides that it means land which has a  
 (3) restriction on alienation which is turned over. And now you  
 (4) have other cases I know where that issue has come up.  
 (5) THE COURT: That's why I asked.  
 (6) MR. PETUMENOS: Native corporation, the native  
 (7) corporation lands about which we claim in state court have no  
 (8) such restriction on alienation. It's been clear in other  
 (9) contexts that Indian lands are not native corporation lands  
 (10) and those are the lands over which we seek recovery. So we  
 (11) could go through together the Cort factors as we do in the  
 (12) brief as to whether there's a legislative intent and whether  
 (13) we're a class that's protected under the ARPA statute and so  
 (14) forth but it's unnecessary because the statute does not even  
 (15) purport to control the lands about which we claim.  
 (16) In the Cort case you will remember stockholders sued  
 (17) their corporation because their corporation was providing  
 (18) financing to a federal election and they went through the Cort  
 (19) factors to determine if there was an implied cause of action.  
 (20) It would be as if those stockholders had sued their corporation  
 (21) for giving money to a municipal school board election and they  
 (22) would have been out of court quick because the statute that  
 (23) was involved didn't even purport to cover anything other than a  
 (24) federal election. The ARPA statute does not cover the lands  
 (25) about which the claims are being brought in state court and

(1) Exxon should be out of court quick on the issue of the implied  
 (2) right of action under ARPA.  
 (3) So if the Merrill Dow case applies then one can take a  
 (4) look at the dissent in Merrill Dow and it reads just like  
 (5) Exxon's brief fairly well reasoned but in a stare decisis  
 (6) dissent before this court negligence per se necessarily  
 (7) includes a determination of federal law about which the  
 (8) plaintiffs' claims succeed or fail is the argument.  
 (9) Remember also under Merrill Dow that when you are talking  
 (10) about federal question jurisdiction and the complaint is only  
 (11) state law and there is some underlying principle of federal  
 (12) law behind the state law that is the basis for the  
 (13) jurisdiction Merrill Dow teaches that you are now Judge on  
 (14) the outer limits of the removal statute. In addition to having  
 (15) a doubt you - you find words and opinions like, now the Court  
 (16) is to be cautious now the Court is - has got sensitive issues  
 (17) of federal/state relations and the burden goes even higher.  
 (18) And there's more. Even if you were to find an implied  
 (19) cause of action somehow under these circumstances for a  
 (20) federal  
 (21) statute which doesn't concern these lands which has no  
 (22) legislative intent suggesting a private cause of action  
 (23) because there are criminal statutes, civil penalties all at  
 (24) the behest of the secretary even if all that were true the  
 (25) remedy in the implied cause of action has to be the same  
 (26) remedy  
 (27) as the remedy that's being sought in the underlying state

(1) case  
 (2) The remedy that we're speaking in the underlying state case  
 (3) is excavation of the sites because they've been discovered and  
 (4) there's a confidentiality property interest. How can ARPA  
 (5) serve a remedy of excavation on lands that ARPA doesn't  
 (6) cover?  
 (7) If that were true there'd be an implied cause of action on  
 (8) private lands. State of Alaska land, the house next door.  
 (9) Can't be.  
 (10) Finally even if there was a private right of action the  
 (11) Zeck case teaches that absent clear case law that that  
 (12) statute, existing case law intended to preempt the state  
 (13) court, the party's over and remand is to be granted.  
 (14) This distinguishes the situation you had in Order 61 where  
 (15) the plaintiffs remember actually pled in their complaint a  
 (16) negligence per se claim and lo and behold the federal  
 (17) statute that was underlying the negligence per se claim was  
 (18) TAPA itself a strict liability statute governing the very oil  
 (19) spill and that's the situation that the cases are talking  
 (20) about.  
 (21) Here by contrast we're talking about one damages remedy  
 (22) as to one part of a complaint remembering that the bulk of the  
 (23) native corporation complaint is for land claims unrelated to  
 (24) archaeology that most of the archaeological claims are related  
 (25) to direct impacts as opposed to secondary impacts that this  
 (26) one relates to secondary impacts and the paper that is alleged

Page 13

(1) to create the jurisdiction is an opposition paper responding to  
 (2) a defense and that sounds familiar Like Papadopoulos if you  
 (3) respond to something raised by the defense it's not  
 (4) removable  
 (5) As to an attempt to convince the state judge of a public  
 (6) policy grounds to recognize the property right under state law  
 (7) and if that is in fact what the plaintiffs are doing the case  
 (8) is virtually indistinguishable from the holding - I'll have it  
 (9) here in a minute in Donofrey (ph) which was cited in our  
 (10) opening brief  
 (11) The defendants quote from a case called Salvason which  
 (12) before discussing timeliness here I will quote from As the  
 (13) foregoing discussion shows the plaintiff's right to control  
 (14) his pleadings is firmly established and could not be curtailed  
 (15) by binding him to the characterization others may have placed  
 (16) on the same claims  
 (17) And what Salvason was about was a case in which the  
 (18) plaintiffs the ones that didn't get remanded had previously  
 (19) filed in federal court had suffered summary judgment and  
 (20) tried to recharacterize their claims in anti trust law as state  
 (21) claims and the court didn't allow it The case here couldn't  
 (22) be more different And the Salvason court was careful to note  
 (23) that the defendants cannot recharacterize the plaintiffs  
 (24) claims They are the masters over their claims  
 (25) And finally I'd like to tell the Court that there is yet

Page 14

(1) another ground and that would have to assume that everything  
 (2) I've just said to you just now is total nonsense that you  
 (3) don't believe me that you think that we're trying to raise  
 (4) negligence per se when we say we're not that you think we're  
 (5) trying to do a sort of implied cause of action when we say  
 (6) we're not and all of the rest If Exxon were right this  
 (7) removal petition is untimely because despite what they say in  
 (8) their papers they were served with the TAPA briefs as you  
 (9) will see in the submittals that were filed today fully years  
 (10) before or at least the year before they say they were served  
 (11) with them and after the stipulation which they say was entered  
 (12) into which they are so concerned that we violated In a  
 (13) pleading filed in March of 1994 before the discovery master  
 (14) they said indeed it is the alleged disclosure of such  
 (15) information in violation of ARPA that forms the basis of  
 (16) Mr Fortier's client's 45 million dollar claim for  
 (17) archaeological damage in this litigation  
 (18) Exxon made that statement in March of 1994 before the  
 (19) discovery master And if they thought it was true then it was  
 (20) time to get on their horse and file a petition for removal and  
 (21) as we learned I think last Friday the other paper rule  
 (22) insofar as it occurs for timeliness purposes is a double edged  
 (23) sword and it applies to the defendants as well That's  
 (24) another paper March of 1994 that would make this removal  
 (25) timely

Page 15

(1) I think that this is not a close question and the  
 (2) defendant's removal should be not sustained and our motion  
 (3) should be granted Thank you  
 (4) THE COURT Mr Daum?  
 (5) MR DAUM May it please the Court John Daum for  
 (6) Exxon Corporation We removed this case Your Honor for the  
 (7) very simplest of reasons Plaintiffs brought a claim which so  
 (8) far as we are aware cannot possibly be valid under state law  
 (9) and when they realized that state law did not support them  
 (10) they chose to rely on a provision of federal law the  
 (11) Archaeological Resources Protection Act We think federal law  
 (12) issues belong in federal court  
 (13) Now Mr Petumenos said at considerable length that the  
 (14) plaintiffs weren't asserting a claim based on negligence per  
 (15) se they weren't asserting a claim based on ARPA What he  
 (16) proved to mean by that was that there was no claim called that  
 (17) in the plaintiffs complaints and that's true But there was  
 (18) such a claim in the document on the basis of which we  
 (19) removed  
 (20) Mr Petumenos didn't talk about that document  
 (21) Now he quoted a great New Yorker Groucho Marx Let me  
 (22) quote another one Al Smith Let's look at the record Page  
 (23) 37 of their document Exhibit 4 says under Alaska law  
 (24) violation of a regulation or statute state or federal  
 (25) constitutes negligence per se and then they say a few lines  
 later below plaintiffs discuss the appropriate statutory and

Page 16

(1) regulatory standards of care as applied to archaeological sites  
 (2) and disturbance of those sites And then on the next page  
 (3) their heading says state law incorporated the appropriate  
 (4) standard of care and then they go on to talk about ARPA And  
 (5) then on page 39 toward the bottom of the page they say an  
 (6) examination of ARPA's statutory scheme as it is incorporated in  
 (7) the state law and then they go on  
 (8) So the proposition that there's nothing about negligence  
 (9) per se that there's no claim based on ARPA in this pleading  
 (10) in this memorandum is just not true And the fact that it's  
 (11) not in the complaint doesn't make any difference under Section  
 (12) 1446(b) The question is is it in another paper and if you  
 (13) read that paper it's there  
 (14) Now the second thing Mr Petumenos seemed to say is that  
 (15) he can stand up here and say oops we're sorry we didn't  
 (16) intend to make such a claim if you'll send us back we'll give  
 (17) it up We're sorry about that  
 (18) Well you can't do that It is absolutely clear that  
 (19) jurisdiction is judged at the time of removal that if there is  
 (20) jurisdiction at that moment there is jurisdiction and the  
 (21) fact that a plaintiff may give up a federal claim later on  
 (22) doesn't deprive the Court of jurisdiction once acquired and  
 (23) there are excellent policy reasons why that should be so  
 (24) Your Honor asked me to address the stipulation and let me  
 (25) do that The plaintiffs entered into a stipulation saying that

Page 17

(1) they would not make claims under ARPA in this litigation They  
 (2) have done that They said that they would not assert that ARPA  
 (3) was incorporated in the State law They have done that They  
 (4) said they would not assert that ARPA governed or controlled the  
 (5) damages they could recover They have done that They said  
 (6) that they would not argue that ARPA provided the appropriate  
 (7) standard of care and they have done that They have - we  
 (8) leaned over backwards Your Honor not to remove those cases  
 (9) When the materials came in from the TAPS fund those  
 (10) materials did not standing alone - Mr Putumenos is quite  
 (11) correct - standing alone the TAPA briefs did not provide a  
 (12) basis for removal but they certainly raised a concern in our  
 (13) mind that the plaintiffs were making these claims in the state  
 (14) court litigation That s why we proposed to them the  
 (15) stipulation They signed it they agreed to that We thought  
 (16) the claims were out of the state court litigation we relied on  
 (17) that We had every right to rely on that We had every reason  
 (18) to rely on that  
 (19) They have breached their word their stipulation and Judge  
 (20) Shortell s order It seems to me that ought not to be taken  
 (21) very lightly  
 (22) Now what the plaintiffs say is that they re entitled to  
 (23) breach their stipulation they re entitled to make this claim  
 (24) under ARPA and then they can come in here and say well we  
 (25) did agree to it but when we breached the stipulation you re not

Page 18

(1) entitled to remove your only remedy is to ask the state court  
 (2) to strike our pleading  
 (3) Well I submit to Your Honor that the statute says if a  
 (4) federal claim is made in another paper the defendant has a  
 (5) right to remove and it cannot be the case that a stipulation or  
 (6) even a state court order can deprive a defendant of a right  
 (7) provided by a federal statute and it cannot be equity that  
 (8) someone who makes an agreement who violates it who  
 (9) violates a  
 (10) court order is entitled to come in and say I m sorry  
 (11) defendants we get to choose what remedies you have for our  
 (12) breaches of our conduct That isn t right  
 (13) Now let me talk if I may for a moment about the real  
 (14) issue and that s whether their opposition to our motion in  
 (15) state court shows that they re making a claim which is in the  
 (16) original jurisdiction of this court because it arises under  
 (17) federal law We think it does Order 61 is squarely on  
 (18) point Plaintiffs say in their opposition to our motion the  
 (19) paper that gave rise to removal that they rely on the Alaska  
 (20) version of negligence per se and the statutory violation is a  
 (21) violation of ARPA Not every state treats negligence per se in  
 (22) the same way And that s important to understand in reading  
 (23) the cases But in Alaska negligence per se isn t a matter of  
 (24) evidence or a rebuttal presumption In Alaska all you have to  
 (25) show is a statutory violation and causation And in Order 61  
 (26) Your Honor held quite correctly that the Alaska version of

Page 19

(1) negligence per se is a form of strict liability and that when a  
 (2) plaintiff relies in whole or in part on a federal statute as  
 (3) negligence per se that the claim is a variety of strict  
 (4) liability under federal law and creates federal jurisdiction  
 (5) However you slice it the plaintiff whose sole claim is  
 (6) you violated a federal statute and that caused my harm I can  
 (7) recover that plaintiff in the most simple and direct sense  
 (8) is making a claim that s based on and arises under federal law  
 (9) there s federal jurisdiction That s what the Court held in  
 (10) Order 61 That s right  
 (11) Now let me move on from Order 61 because even apart from  
 (12) that there is federal jurisdiction here We cite Franchise  
 (13) Tax Board for the proposition that if a substantial proposition  
 (14) of federal law must be decided in order for the plaintiff to  
 (15) recover there is jurisdiction The plaintiffs principal  
 (16) argument in opposition to that is that the claim is not  
 (17) substantial and they rely on Merrill Dow which they  
 (18) mischaracterize but even on their theory the argument  
 (19) collapses if ARPA provides a private right of action and they  
 (20) don t really argue why it doesn t  
 (21) Congress passed ARPA precisely to provide protection to  
 (22) archaeological resources on federal land and Indian land It  
 (23) included native corporations in the definition of Indian tribes  
 (24) contrary to the usual rule that Section 470(b)(b)(5) of the  
 (25) statute specifically required federal land managers to consult

Page 20

(1) with native corporations  
 (2) Congress purpose was broad and sweeping It s almost  
 (3) inconceivable that congress intended that a tribe or a native  
 (4) corporation whose sites were desecrated by someone acting  
 (5) without the requirements created by ARPA would be left without  
 (6) the remedies if any are provided by state law We cited Cort  
 (7) versus Ash Your Honor works through that I think you ll  
 (8) find that the test for implication of a private right of action  
 (9) are clearly met  
 (10) But I do want to say in passing on this point that this is  
 (11) an extremely important point of issue for this state and all  
 (12) states that have substantial archaeological resources I m not  
 (13) going to say to Your Honor and it would not be proper for me  
 (14) to say that Exxon represents the interests of Native  
 (15) corporations or all the Indian tribes who aren t here today we  
 (16) don t But the odd rules of removal law put us in the position  
 (17) of defending that side of the argument and the zeal of  
 (18) plaintiffs counsel to avoid this court at all costs puts them  
 (19) in a position of acting against what I think any objective  
 (20) observer would see as the long term interests of their clients  
 (21) of every Native corporation in Alaska and of Indian tribes  
 (22) So I simply remind Your Honor that on the issue of whether  
 (23) there s a private remedy under ARPA you re making law for all  
 (24) Alaska on a matter of great potential importance and you need  
 (25) to consider the interests of all parties not just those who

Page 21

(1) are here but those who someday may be here and who are  
 (2) similarly situated who have valuable archaeological resources  
 (3) Now Mr. Petumenos did make one argument that I need to  
 (4) respond to. He says at some length that their lands are not  
 (5) Indian lands and therefore they are not entitled to sue under  
 (6) ARPA. Now I don't think that's right in terms of the specific  
 (7) definition of native corporations as a tribe under Section  
 (8) 470(b)(5) but even if they were right that wouldn't change  
 (9) the rule here. Under Merrill Dow the test is whether the  
 (10) statute provides a private remedy not whether a particular  
 (11) plaintiff has a valid claim.  
 (12) To take an example there's clearly a private remedy under  
 (13) Rule 10(b)(5) of the Securities Exchange Act and there's  
 (14) federal jurisdiction for that claim. That rule limits the  
 (15) private remedy to people who are purchasers or sellers but if  
 (16) someone who is not a purchaser or seller sues under Rule  
 (17) 10(b)(5) there's clearly jurisdiction even if later on the  
 (18) court has to say that there's no cause of action or at least no  
 (19) successful cause of action.  
 (20) So if there's a private right private remedy under ARPA  
 (21) even if plaintiffs don't fit within it there is still federal  
 (22) jurisdiction for the purposes of the Merrill Dow ruling and  
 (23) the reason for that brings me to the plaintiffs  
 (24) mischaracterization of that rule  
 (25) The plaintiffs oversimplify it. They say it's about

Page 22

(1) whether a private remedy exists. Well it's not. It's about  
 (2) the intent of congress. What Merrill Dow says is that when  
 (3) congress has affirmatively excluded a private remedy that  
 (4) decision is tantamount to a direction that only state courts  
 (5) should construe a particular statute and therefore the  
 (6) federal courts should not do so. When there is a private  
 (7) remedy that analysis doesn't follow even if the particular  
 (8) plaintiff may not be within the scope of the private remedy.  
 (9) That's why when there is a private remedy federal jurisdiction  
 (10) exists in this circumstance and Merrill Dow doesn't apply.  
 (11) And that's also relevant because this is a maritime case.  
 (12) Merrill Dow was not. We point out in our papers plaintiffs  
 (13) papers don't say otherwise that the rationale of Merrill Dow  
 (14) doesn't apply at all in a maritime case because in that kind of  
 (15) case the plaintiff can always come into federal court. In a  
 (16) maritime case a determination by congress not to provide a  
 (17) federal statutory remedy can't possibly be taken as a  
 (18) congressional directive that only state courts should interpret  
 (19) a particular federal statute. Quite the contrary congress  
 (20) intended that all such suits could be in federal court and the  
 (21) Merrill Dow exception to the general rule that there's  
 (22) jurisdiction when a federal statute is called into play simply  
 (23) doesn't apply in a maritime case.  
 (24) We ask that Your Honor - unless Your Honor has some  
 (25) questions I'll sit down. We ask that Your Honor deny the

Page 23

(1) motion to remand.  
 (2) THE COURT Thank you sir.  
 (3) MR. DAUM Let me point out just one brief thing.  
 (4) Excuse me Mr. Petumenos. They did file this last - last  
 (5) minute paper. Most of it is addressed to the TAPA fund  
 (6) documents. As I say nobody contends that the TAPA fund  
 (7) documents themselves created a right to remove. They  
 (8) weren't.  
 (9) in the paper. They also rely on one document of ours from  
 (10) March of this year. A defendant's document cannot create is  
 (11) not another paper for purposes of creating a right to remove.  
 (12) They don't suggest that at any time prior to April 15 they  
 (13) asserted a cause of action under ARPA and they haven't shown  
 (14) anything that suggests that the removal was untimely.  
 (15) Thank you.  
 (16) THE COURT Mr. Petumenos save your breath. I am  
 (17) going to grant the motion to remand. I'll give some thought to  
 (18) whether or not we should give a written decision on this or  
 (19) not because there are some aspects - there are some aspects  
 (20) of this situation that are a complete mystery to me and while  
 (21) it might be interesting to explore them I'm not sure it's  
 (22) worthwhile but I'll think about it.  
 (23) What I would have you understand is that I was totally  
 (24) perplexed by the position that the plaintiffs have taken here.  
 (25) It seems to me that the plaintiffs have been all over the yard  
 on their - their position about the federal statute. Had I

Page 24

(1) been a private attorney in Exxon's shoes faced with what they  
 (2) were faced with I surely would have removed this case also and  
 (3) tried as hard as I could to make it stick.  
 (4) But when all is said and done it's my view of this matter  
 (5) that the plaintiffs who are seeking remand entered into an  
 (6) agreement bound themselves not to assert a claim on federal  
 (7) law and I'm going to take the plaintiffs literally at their  
 (8) word on that. I take the position that you have no federal  
 (9) claim because you gave it up that you have no negligence per  
 (10) se claim in state court because you've disavowed it. All the  
 (11) talk about that kind of claim all the talk about the  
 (12) involvement of ARPA in your case to the contrary  
 (13) notwithstanding you've got no claim for either the federal  
 (14) statute or any theory based upon it. You've got no negligence  
 (15) per se claim based on federal law and on that basis I'm going  
 (16) to send you all back to state court with if nothing else a  
 (17) summary order that relates to Judge Shortell what I've said  
 (18) just now and quite frankly if you start talking about a claim  
 (19) based on ARPA or negligence per se based on ARPA again  
 (20) these  
 (21) folks are going to remove your case again and they may have  
 (22) you if it happens again because at this point I take the  
 (23) position that you're still bound by that stipulation. Even  
 (24) though it appears to me that you violated I think you're bound  
 (25) by it and because you're bound by it you're going back to  
 state court.

(1) PROCEEDINGS  
 (2) (Jury in at 8 00 a m )  
 (3) THE CLERK All rise  
 (4) (Call to Order of the Court)  
 (5) THE COURT Good morning ladies and gentlemen This  
 (6) is the continuation of trial in case A89 0095 civil in re the  
 (7) Exxon Valdez  
 (8) MR NEAL May it please the Court before we commence  
 (9) I d like to introduce to the Court and Jury Mr Lee Raymond  
 (10) who s testified here by deposition and who is the chairman of  
 (11) the board of Exxon Corporation  
 (12) THE COURT Good morning Mr Raymond  
 (13) MR RAYMOND Good morning  
 (14) MS STEWART Your Honor at this time we re ready to  
 (15) continue with the video deposition of Lieutenant Commander  
 (16) Falkenstein  
 (17) CONT D DIRECT EXAMINATION OF THOMAS FALKENSTEIN  
 (Video)  
 (18) BY VIDEO EXAMINER  
 (19) Q Who was present during that conversation?  
 (20) A To the best of my memory, just myself and Captain  
 (21) Hazelwood  
 (22) Q All right Mr Delozier was not present during that  
 (23) conversation?  
 (24) A I don t believe so no sir  
 (25) Q You also testified that there came a time when Mr Delozier

Vol 21 3503

(1) told you something about the captain saying he had told the  
 (2) third mate to turn near or on a 38 fathom mark do you  
 remember  
 (3) that?  
 (4) A Yes sir  
 (5) Q When did Mr Delozier tell you that?  
 (6) A I don't remember whether it was very late during our stay  
 (7) on the ship or at sometime later the next week I don't  
 (8) remember when he told me that  
 (9) Q All right When you say late during your stay on the ship  
 (10) about what dates are we talking about?  
 (11) A Maybe Sunday Saturday night at the earliest, but maybe  
 (12) Sunday I think it was more later, the next week after we  
 were  
 (13) both back at the office but I don't remember for sure  
 (14) Q Okay And how did he come to tell you that?  
 (15) A He came and asked me if I'd had a conversation with the  
 (16) captain about where he had told the mate to turn, and I told  
 (17) him yes And he specifically asked me did he ever circle or  
 (18) mark that number I believe I think that's how it happened  
 (19) Q He asked you whether the captain had circled the 38 fathom  
 (20) mark?  
 (21) A Yes sir  
 (22) Q And you told him that he didn t?  
 (23) A Yes, sir  
 (24) Q Did you also tell him that the captain did not mention the  
 (25) 38 fathom mark to you?

Vol 21 3504

- (1) A Yes, sir, I believe so
- (2) Q You re aware of Mr Blandford s prior testimony and his
- (3) statements that he had a number of mid watch duties to
- (4) accomplish during this changeover period on the 23rd and
- (5) 24th?
- (6) A Yes, sir vaguely Vaguely
- (7) Q Are you aware of the – beyond what we ve already
- (8) discussed are you aware of any housekeeping tasks that he
- (9) needed to accomplish during that – in the neighborhood of that
- (10) changeover period that couldn t have waited until a later time?
- (11) A Not to my knowledge
- (12) Q Now commander these – these three tapes represent
- (13) March 23 24 and 25 is that right?
- (14) A Yes, sir, apparently
- (15) Q What about the March 22 1989 tape? Was that preserved?
- (16) A No, sir
- (17) Q And why was it not?
- (18) A The tapes are cycled through every 30 days and erased
- (19) and
- (20) reused They are preserved for 30 days and erased and
- (21) reused
- (22) If I remember correctly the tape for March 22nd was
- (23) requested
- (24) on April 21st and it was on the machine and in use at the
- (25) time
- (1) I got the request
- (2) Q Commander can you – do you recall seven to ten days
- (3) before the grounding of the Exxon Valdez getting – getting a
- (4) call from a Captain Andre Martineau?
- (5) A The office got a call I don't remember who got the call

(25) sure And I don't recall how I came to know about this

Vol 21 3505

- (1) though
- (2) Q Who is Captain Martineau?
- (3) A Captain Martineau is the master of another Exxon tanker
- (4) Q Now tell me what you recall about Captain Martineau s call
- (5) and how you know him?
- (6) A Let me preface it by saying Captain Martineau and I do
- (7) not
- (8) exactly have a good relationship so his call was over the
- (9) telephone I believe he was using satellite communications
- (10) phone to the office, talking about the extent of ice out into
- (11) Prince William Sound He was suggesting complete closure
- (12) of
- (13) port because of what he perceived as a significant ice
- (14) hazard
- (15) Of all the tanker captains coming in and out of there that
- (16) time
- (17) of year, he was the only one to give us that kind of report
- (18) that I recall Others would report heavy ice, but none went
- (19) so
- (20) far as to suggest closure They seemed to indicate that it
- (21) was
- (22) possible to – for a vessel to work its way through the ice
- (23) without any difficulty you just had to pay attention to what
- (24) you were doing
- (25) Captain Martineau I believe suggested closure of the
- (1) port And I believe we had one or two other Exxon tank
- (2) ships
- (3) either in the port at that time or shortly thereafter, shortly
- (4) before, who agreed there was heavy ice but didn't seem to
- (5) think
- (6) it was necessary to close the port down, which is something
- (7) I
- (8) believe Commander McCall spoke to them about, but I can't
- (9) be

Vol 21 3506

- (1) information But I don't - I don't know who talked to Captain  
 (2) Martineau  
 (3) Q Did you discuss the matter with Commander McCall?  
 (4) A I don't remember exactly, something like that ordinarily  
 (5) would have been discussed with the captain, commanding  
 officer,  
 (6) but I don't remember exactly whether I did or not  
 (7) Q One of the things you said was that as you recall one or  
 (8) more other Exxon tankers were in port and that Commander  
 McCall  
 (9) had discussed this request with them did I understand your  
 (10) testimony correctly?  
 (11) A Okay Generally speaking, Commander McCall would  
 have  
 (12) asked about that He may have had Lieutenant Rice or  
 someone  
 (13) else talk to the tanker masters to get their view of it I  
 (14) know other ships - the way I remember it, other ships'  
 masters  
 (15) were asked what they thought of the situation, and none  
 went so  
 (16) far as to suggest port closure, but they did agree that it was  
 (17) heavy  
 (18) Q Now you said other ships masters just now Do you  
 (19) know - do you know whether other Exxon tankers masters were  
 (20) consulted?  
 (21) A It was a question I believe asked of masters of any of  
 (22) the tankers that were available in port and I know - I do  
 (23) recall around that time, besides Captain Martineau's ship  
 which  
 (24) was the Exxon North Slope, that there were one or two other  
 (25) Exxon ships either before or immediately after him his  
 arrival

Vol 21 3507

- (1) and departure that discussed this so -  
 (2) Q Commander have you - is that something that you check on  
 (3) at the time the other Exxon vessels that were in before or  
 (4) shortly after Captain Martineau?  
 (5) A No sir There's several vessels that come in and out and  
 (6) they all run a similar schedule The Exxon North Slope had  
 (7) gotten held up because it experienced some storm damage  
 and had  
 (8) to undergo repair which is why Captain Martineau did not  
 have  
 (9) an amiable relationship The Exxon ships that come in and  
 out  
 (10) were Exxon North Slope, Exxon Baton Rouge, Exxon San  
 Francisco,  
 (11) Exxon Baytown All the Exxon ships would run in and out on  
 a  
 (12) periodic schedule Sometimes we'd have one or two in port  
 (13) sometimes we'd have none in port but they would all seem  
 to be  
 (14) on a consistent schedule and there'd always be an Exxon  
 ship in  
 (15) and out of there That's why I remember that there was  
 Exxon  
 (16) ships in between the time Captain Martineau made his  
 phone call  
 (17) and the Exxon Valdez went aground which would be - you  
 know  
 (18) Captain Martineau's report was early third part - the early  
 (19) part of March, and the Exxon Valdez went aground on the  
 23rd or  
 (20) 4th, whichever day you're looking at  
 (21) Q Did you or anybody else in the MSO give Captain Martineau  
 (22) an answer to his request?  
 (23) A It wasn't a request sir It was a suggestion And I

- (4) believe the answer was you know thanks for your input  
 But I  
 (25) don't know what exactly was said

Vol 21 3508

- (1) Q No - no change in procedures resulted from Captain  
 (2) Martineau's suggestion as you put it?  
 (3) A No sir  
 (4) Q Who made the decision not to take any action on Captain  
 (5) Martineau's suggestion?  
 (6) A Well, action was taken in that other captains were asked  
 (7) the same thing about how heavy is the ice. Their feeling  
 (8) was - is that it was heavy, but not such an impediment to  
 (9) navigation that they couldn't get through. So I believe the  
 (10) action was - the action was that other captains were asked the  
 (11) same question what did they think about is it necessary to  
 (12) close to port. And based on the input of several masters  
 (13) who  
 (13) navigate that area that no change was deemed necessary  
 (14) Q Did you write any report about this?  
 (15) A No, sir  
 (16) Q During the period of time that you were in the Port of  
 (17) Valdez and involved in this vessel traffic system had you ever  
 (18) known the traffic system to be shut down because there was too  
 (19) much ice in the system for the vessels to transit the area?  
 (20) A No, sir  
 (21) Q Within your experience in Prince William Sound have there  
 (22) been occasions when the ice would extend all the way across  
 (23) Valdez Arm and Columbia Bay to cover the - both the outbound  
 (24) lane the separation zone and the inbound lane?  
 (25) A Chunks of ice have drifted all the way cross I wouldn't

Vol 21 3509

- (1) use the word cover but there has been ice blown across in  
 (2) both  
 (3) lanes  
 (4) Q Are you familiar with vessels that have deviated on  
 (5) occasion outside the traffic lanes because of ice extending  
 (6) across those lanes?  
 (7) A Yes, sir They have deviated  
 (8) MS STEWART Your Honor that concludes defendants  
 (9) direct  
 (10) MS WAGNER Plaintiffs have a video cross  
 (11) CROSS EXAMINATION OF THOMAS FALKENSTEIN (Video)  
 (12) BY VIDEO EXAMINER  
 (13) Q Now were you - were you present during either the first  
 (14) or the second visits to the Vessel Traffic Center? Were you  
 (15) present during any radio communications between the Exxon  
 (16) Valdez and the Vessel Traffic Center?  
 (17) A Yes, sir  
 (18) Q How many?  
 (19) A I recall one for sure probably two or three  
 (20) Q And the one for sure that you recall between whom was that  
 (21) conversation?  
 (22) A It was between Commander McCall and Captain  
 (23) Hazelwood  
 (24) Q And what was the nature of their conversation?  
 (25) A Captain Hazelwood relayed that they were hard aground  
 (26) or  
 (27) aground, I believe He didn't use the words hard aground I  
 (28) believe he said something about having some problems  
 (29) with the

Vol 21 3510

- (1) third mate but he didn't elaborate and that he was going to  
 (2) try to get it off the reef  
 (3) Q And what did you do upon - upon boarding the vessel?  
 (4) A The seaman on - at the head of the ladder directed us to  
 (5) the bridge We asked him where the captain was I believe  
 (6) and  
 (7) he indicated the bridge and we proceeded immediately to  
 (8) the  
 (9) bridge  
 (10) Q Did you come upon the captain at that point?  
 (11) A Yes, sir I went over and spoke with the captain  
 (12) Q Do you recall what you said?  
 (13) A I introduced myself and asked him what the situation was  
 (14) Q And what did he tell you?  
 (15) A I believe he indicated that the ship was hard aground  
 (16) they  
 (17) were unsuccessful in - the engine was amid - engine was  
 (18) off  
 (19) shut down was amidships He may have given me the  
 (20) vessel's  
 (21) heading and told me that they were unsuccessful in trying  
 (22) to  
 (23) get it off the rock at high tide  
 (24) Q Commander you said when you went out on the bridge wing  
 (25) with Mr Delozier that he asked you if you - if you smelled  
 (26) alcohol and you said that you answered yes?  
 (27) A He asked me if I smelled the captain's breath, and I said  
 (28) yes  
 (29) Q Commander when you - when you say that you smelled  
 (30) alcohol what - can you be anymore specific than that?  
 (31) A No sir

Vol 21 3511

- (1) Q You just smelled alcohol?  
 (2) A I smelled like an alcoholic beverage had been consumed,  
 (3) yes  
 (4) sir  
 (5) Q Did that alcohol smell fresh?  
 (6) A No sir  
 (7) Q Did it smell stale?  
 (8) A Yes sir  
 (9) Q Didn't Trooper Fox ask you if the Moussy beer on his hand  
 (10) smelled similar to what Captain Hazelwood's breath -  
 (11) A He asked me if that smelled like the smell on the captain's  
 (12) breath not did I smell the captain's breath And I told him  
 (13) to the best of my recollection, it could be, but I didn't think  
 (14) so  
 (15) Q Why didn't you think so?  
 (16) A Just didn't smell the same way, exactly But that was  
 (17) poured freshly on the back of his hand so we're talking two  
 (18) different circumstances  
 (19) Q What was the smell up on the bridge when you were  
 (20) standing  
 (21) next to Captain Hazelwood?  
 (22) A Smelled like the captain had been consuming an  
 (23) alcoholic  
 (24) beverage  
 (25) Q Now I believe you testified that you were aware that there  
 (26) came a point in time when the Exxon Valdez notified the Vessel  
 (27) Traffic Center that it was leaving or intended to leave the  
 (28) outbound lane in the traffic separation scheme is that

Vol 21 3512

Vol 21 3514

- (1) correct?
- (2) A Yes, sir
- (3) Q And I believe you also indicated that you were aware that
- (4) they informed the Vessel Traffic Center that they were changing
- (5) their heading to 200 degrees is that correct?
- (6) A Yes, sir
- (7) Q Now did it come to your attention that the Exxon Valdez
- (8) changed its heading at a point prior to the grounding from 200
- (9) degrees to 180 degrees?
- (10) A Not until after I got off the ship on Sunday
- (11) Q To your knowledge did the Exxon Valdez inform the Vessel
- (12) Traffic Center of any change in its heading from 200 degrees to
- (13) 180 degrees?
- (14) A If I remember correctly, after the Exxon Valdez indicated
- (15) that it was going to go out of the southbound traffic lane
- (16) that was the last communication from it until it called to
- (17) inform us it was aground
- (18) Q Okay I'd like to refer you to page six of the user's
- (19) manual section Roman numeral four sub 5 A
- (20) A All right, sir
- (21) Q Do you have that before you?
- (22) A Right
- (23) Q And could you just read what that provides?
- (24) A Radio equipped vessel may join cross or leave a traffic
- (25) lane only after the VTC has been notified of the point at
- which

- (1) designated traffic lanes which would be the southbound
- Prince
- (2) William Sound traffic lane on this chart it would be the
- (3) northern - northwestern traffic lane
- (4) Q If the vessel desires to deviate from that traffic lane is
- (5) there any requirement for reporting to the Coast Guard?
- (6) A Any deviations from the traffic lane or crossing of the
- (7) traffic lane must be reported to the Vessel Traffic Service
- (8) MS WAGNER That's the end Your Honor
- (9) MR NEAL May it please the Court Members of the
- (10) Jury we call Mr Charles Cushing
- (11) Your Honor I like Mr Chalos I like exhibits that I can
- (12) touch and feel so we cannot worry about the electronic gear
- (13) for this witness
- (14) THE CLERK Would you raise your right hand please
- (15) (The Witness Is Sworn)
- (16) THE CLERK Please be seated
- (17) MR NEAL May it please the Court Before I start I
- (18) have checked with Mr Montague and I now offer in evidence
- (19) Defendants Exhibits 1733 Able Defendants Exhibit 1736 Able
- (20) Defendants 1734-Able, and according to my record keeping
- (21) system Defendants Exhibit 1735 Able has been admitted
- (22) (Exhibits 1733 A 1736-A and 1734 A offered)
- (23) THE COURT Are there objections to any of these
- (24) exhibits Mr O'Neill?
- (25) MR MONTAGUE No Your Honor no objection

Vol 21 3513

Vol 21 3515

- (1) the vessel will join cross or leave the traffic lane
- (2) Q And to your knowledge did the Exxon Valdez comply with
- (3) that requirement when it left the shipping lanes?
- (4) A No, sir
- (5) Q And is every tank vessel that loads in the Port of Valdez
- (6) required to have aboard it a manual for the use of that system
- (7) in the Port of Valdez?
- (8) A Yes, sir
- (9) Q And does that manual outline the relationship between the
- (10) Coast Guard and those vessels as they transit into and out of
- (11) the port?
- (12) A I believe it does, yes, sir
- (13) Q The - now does the Coast Guard ever tell any of those
- (14) vessels what courses to steer?
- (15) A No, sir
- (16) Q Does it tell them what speeds to run and elsewhere than in
- (17) the Narrows?
- (18) A No, sir they do not
- (19) Q And then as it continues outbound there are on the chart
- (20) various lines of zones marked southbound Prince William
- Sound
- (21) traffic lane sprays zone and northbound Prince William Sound
- (22) traffic lane Are the vessels going to the traffic separation
- (23) scheme supposed to remain within those - within a proper track
- (24) in those areas?
- (25) A Vessels that are outbound are supposed to stay within
- the

- (1) THE COURT Thank you Mr Montague Let me see as
- (2) to 17 -
- (3) MR NEAL 35 A able -
- (4) THE COURT Yeah my notes show that that's been
- (5) admitted also
- (6) MR NEAL Thank you Your Honor
- (7) THE COURT The first three exhibits 1733 A 1736 A
- (8) and 1734 A are also admitted
- (9) (Exhibits 1733-A 1736 A and 1734-A received)
- (10) MR NEAL Thank you Your Honor
- (11) DIRECT EXAMINATION OF CHARLES CUSHING (Live)
- (12) BY MR NEAL
- (13) Q You're Mr Charles Cushing?
- (14) A Yes, sir
- (15) Q Robert Charles Cushing?
- (16) A Charles Robert Cushing
- (17) Q Charles Robert all right What is your present
- (18) occupation?
- (19) A I'm President of C R Cushing and Company firm of
- naval
- (20) architects and marine engineers
- (21) Q Where is your business located?
- (22) A Our offices are in New York City
- (23) Q How long have you been in this present position as
- (24) president of Cushing Associates?
- (25) A The firm is a little over 26 years old

Vol 21 3516

- (1) Q Have you been there throughout that time?
- (2) A Yes, sir, I've been president of the company for that period of time
- (3) Q What is the business of this company?
- (4) A Our firm designs and supervises the construction and tests
- (5) vessels, cargo ships of all types tankers oil carriers gas carriers
- (6) carriers
- (7) Q Now prior to this 26 year career with your firm would you give us your educational background?
- (8) A Yes sir I'm a graduate of U S Merchant Marine Academy
- (9) at Kings Point bachelor of science degree in marine transportation, where I also obtained a U S Coast Guard third
- (10) officer's license and a commission in the naval reserve
- (11) I'm a graduate of the Massachusetts Institute of Technology
- (12) with a degree in naval architecture and marine engineering, and
- (13) also the State University of New York, the Maritime College at Fort Schuyler with a master of science degree
- (14) Q Before you - 26 years ago when you formed and joined your firm tell us your work experience
- (15) A Well, part of my work experience has been going to sea
- (16) I - before the Merchant Marine Academy, I sailed as an ordinary seaman on a Danish flagged vessel And then as a cadet midshipman I sailed as a deck cadet on ships of Pharaoh
- (17) Lines, U S Lines and Grace Lines then after graduation -
- (18) Q After graduation from the maritime academy?

Vol 21 3517

- (1) A Merchant Marine Academy I joined the masters mates and
- (2) pilots and sailed as a deck officer with U S Lines Steamship
- (3) and Pan Atlantic Steamship Companies In addition to that,
- (4) I've - on the ships that we've designed and supervised the construction of of which there's been a couple hundred many
- (5) of them have had sea trials where I've participated in the sea
- (6) trials of the ships
- (7) Q Have you done any work in or around Anchorage Alaska in the past?
- (8) A Yes, sir When I joined - after I went to sea and obtained the naval architecture degree I worked for Sea Land
- (9) Service starting in around 1961, and one of my assignments early on was to come up here to Anchorage to determine whether
- (10) Sea Land would be able to operate a year round service through the ice in Cook Inlet and I'm happy to say that the report was
- (11) and the decision was to operate that weekly service here into Anchorage
- (12) We also did other work up here relating to the port and also feeder ships for Dutch harbor and Bristol Bay and other
- (13) other small vessels operating in the Alaskan waters
- (14) Q Are you a member of any professional associations or organizations?
- (15) A Yes, sir I'm a member of the Society of Naval Architects and Marine Engineers, a fellow in the Royal Institute of

Naval

- (16) Architects a member of the Royal Institute of Navigation a

Vol 21 3518

- (1) member of - a fellow in the Society of Mechanical Engineers  
 (2) and many other organizations  
 (3) MR NEAL Your Honor I m not sure that the witness  
 (4) was sworn  
 (5) THE COURT That what?  
 (6) MR NEAL Not sure the witness was sworn in  
 (7) THE CLERK The witness was sworn I just never got  
 (8) his name on record but I think he probably clarified that  
 (9) unless the court reporter needs that information  
 (10) THE COURT To tell you the complete truth I have a  
 (11) complete blank on it I was doing some other things first  
 (12) thing this morning and was sort of on autopilot here  
 (13) MR O NEILL Aha  
 (14) MR NEAL Well I don t want you on autopilot when  
 (15) I ve got the con Your Honor  
 (16) THE COURT Point well taken  
 (17) MR NEAL Would it hurt to swear him in and I ll ask  
 (18) him if everything he said at this point was the truth  
 (19) THE CLERK I already administered the oath Your  
 (20) Honor we just never got his name on record  
 (21) MR NEAL Oh would you give us your name then  
 (22) THE WITNESS Yes My name is Charles Robert Cushing  
 (23) C U S H I N G  
 (24) THE COURT I heard that part because he corrected you  
 (25) on the order of his name

Vol 21 3519

- (1) BY MR NEAL  
 (2) Q All right Let s see if we can put this thing on helm now  
 (3) and move forward Where were we  
 (4) A You were asking me if I had any experience in Alaska, and  
 (5) then I think you asked what organizations I belonged to and  
 (6) I said many  
 (7) Q And you ve given us some of those?  
 (8) A Yes sir  
 (9) Q Are you or have you been a member of the United States  
 (10) Naval Reserves?  
 (11) A Yes sir, for a period of about 30 years  
 (12) Q Have you represented the United States Government on any  
 (13) technical committees?  
 (14) A Yes sir I've been a member of a number of U S Coast  
 (15) Guard safety committees been part of the U S delegation  
 (16) to the U N 's solace conventions, been a U S delegate to  
 (17) I S O ,  
 (18) International Standards Organizations and a number of  
 (19) other committees  
 (20) Q I have noticed in talking to you before that you are a  
 (21) fairly modest man but I m going to ask you not to be so modest  
 (22) here  
 (23) Have you won any awards?  
 (24) A Yes sir a number of awards The Admiral I and award for  
 (25) excellence in naval architecture at the Merchant Marine  
 Academy awards of also alumnus of the ye ir marine man  
 of the

Vol 21 3520

- (1) year, professional achievement award and a number of  
 other  
 (2) awards  
 (3) Q Have you published articles Mr Cushing?  
 (4) A Yes, sir over 50 articles and professional journals and  
 (5) trade publications  
 (6) Q On naval architecture?  
 (7) A On naval architecture  
 (8) Q And related subjects and safety on tank vessels?  
 (9) MR NEAL May it please the Court I tender this  
 (10) witness as an expert  
 (11) MR MONTAGUE Your Honor I have no objection as  
 (12) long as the expertise is limited to the area of his expert  
 (13) report  
 (14) THE COURT Which was?  
 (15) MR MONTAGUE Well I could read it  
 (16) THE COURT No what was the specialty naval  
 (17) architecture?  
 (18) MR MONTAGUE No the specialty was analyzing the  
 (19) track of the Exxon Valdez and certain other vessels  
 (20) MR NEAL That s what he s going to testify about,  
 (21) Your Honor  
 (22) THE COURT The track what does that mean?  
 (23) MR MONTAGUE The track line how it -  
 (24) reconstructing the voyage the track of the voyage  
 (25) BY MR NEAL

Vol 21 3521

- (1) Q Getting right to -  
 (2) THE COURT Well just a minute I m taken a bit by  
 (3) surprise here because I thought we were in for something about  
 (4) naval architecture about which this witness seems to have all  
 (5) kinds of wonderful qualifications but I didn t hear anything  
 (6) that relates to the subject of his report Can you help me  
 (7) with that?  
 (8) MR NEAL Sure I can  
 (9) BY MR NEAL  
 (10) Q Mr Cushing you have sailed a number of years as a deck  
 (11) officer?  
 (12) A Yes, I have  
 (13) Q In the merchant marine?  
 (14) A Yes sir  
 (15) Q You have also I gather had an occasion to review and  
 (16) study course recorders of vessels?  
 (17) A I've both studied and reviewed them and installed them  
 (18) on  
 (19) the ships, too  
 (20) Q And have you had occasion using those course recorders  
 (21) to  
 (22) determine track lines OF vessels at various times?  
 (23) A Yes sir I have In France and Mexico in the U S Gulf  
 (24) Copenhagen a number of places around the world  
 (25) MR NEAL Should I go further Your Honor?  
 (26) THE COURT Have you testified previously in a court  
 (27) proceeding on this subject?

Vol 21 3522

- (1) THE WITNESS Yes sir I have  
 (2) THE COURT And have been qualified as an expert to  
 (3) offer opinions as to the track or tracks of vessels?  
 (4) THE WITNESS Yes sir I have  
 (5) THE COURT I'll accept the witness qualifications  
 (6) BY MR NEAL  
 (7) Q Mr Cushing at my request have you conducted a study to  
 (8) determine the track line of the Exxon Valdez on the night of  
 (9) March 23 March 24 1989 and prepared a chart to demonstrate  
 (10) the course of your study?  
 (11) A Yes, sir, I have  
 (12) MR NEAL I'd like to have put up Exhibit 1733-Able  
 (13) if I could  
 (14) BY MR NEAL  
 (15) Q Mr Cushing I show you what is now in evidence as  
 (16) Defendants Exhibit 1733 Able and ask if you would explain to  
 (17) the Court and the Ladies and Gentlemen of the Jury what this  
 (18) represents?  
 (19) A This exhibit is a portion of the government NOAA chart  
 (20) showing Valdez Arm in Prince William Sound The blue  
 (21) trace on  
 (22) the chart represents the track of the vessel or the track line  
 (23) or the course that the vessel followed during that portion of  
 (24) the voyage  
 (25) MR NEAL Your Honor could the witness come down and  
 (26) now go through this chart with my pointer I brought with me?

Vol 21 3523

- (1) THE COURT Certainly  
 (2) MR NEAL I think the Court may want to see it  
 (3) Could you - would you stand over here?  
 (4) THE COURT It's okay  
 (5) BY MR NEAL  
 (6) Q Mr Cushing would you now go through what you testified as  
 (7) the track line of the Valdez for a certain portion of its  
 (8) voyage on the night of March 23 and the first few minutes of  
 (9) March 24 1989?  
 (10) A Yes, sir The - the course begins up with a position  
 (11) marked 2339 or 11 39 at night, where a fix had been taken  
 (12) and  
 (13) marked on the Exxon Valdez's chart The course continues  
 (14) in a  
 (15) southerly direction changing course to 180 degrees moving  
 (16) southward, where it moves out of the traffic separation zone  
 (17) and traffic lanes to a point at 2352  
 (18) Q Now it's on a course then of 180 degrees from what -  
 (19) from what point to 2352?  
 (20) A Well, from the point up about - about here where it's  
 (21) moving through the northbound - northbound lane  
 (22) Q All right Now stop at 2352 Why do you note 2352 there  
 (23) or 11 52 in the evening?  
 (24) A The vessel at this point, 2352, commenced a - an  
 (25) operation  
 (26) in its automation system called load program up  
 (27) Q Explain to the Members of the Jury what load program up  
 (28) was  
 (29) on this vessel

Vol 21 3524

- (1) A There is a - a system that's part of the engine control  
 (2) that will gradually increase the revolutions of the engine  
 (3) and  
 (4) gradually increase the speed of the engine from its normal  
 (5) maneuvering speed to its sea speed At the point at which  
 (6) the  
 (7) ship was traveling south here, she was traveling at full -  
 (8) full maneuvering speed about 55 rpms or about 11 knots  
 (9) Q Now just a moment Let's make sure the record indicates  
 (10) what a knot is Can you relate that to miles per hour of an  
 (11) automobile? What is a knot first?  
 (12) A A knot is one nautical mile per hour  
 (13) Q What does that translate to or relate to in miles on the  
 (14) ground roughly?  
 (15) A Well a nautical mile is about 15 percent more than a  
 (16) statute or a land mile so one knot is about 15 percent  
 (17) greater  
 (18) than a mile per hour  
 (19) Q All right So if it's going 11 knots what would be the  
 (20) speed on land miles then?  
 (21) A Maybe about 15 miles an hour  
 (22) Q About 15 miles an hour?  
 (23) A Oh, sorry, sorry, no, about 12 miles an hour  
 (24) Q About 12 miles an hour So going 11 knots it puts load  
 (25) program up and you said that gradually increased the speed of  
 (26) the vessel up to sea speed?  
 (27) A That's correct  
 (28) Q On this - you've said that full maneuvering speed was

Vol 21 3525

- (1) about around 11 knots and that's what he was going?  
 (2) A That's correct  
 (3) Q What is full sea speed or what was full sea speed on this  
 (4) vessel?  
 (5) A About 15.9 knots  
 (6) Q And then if it's about 12 you said about 12 land miles  
 (7) what would 15.9 knots be?  
 (8) A Be a little over 16 miles an hour  
 (9) Q Little over 16 miles per hour?  
 (10) A About  
 (11) Q So to go from 12 to 16 or 17 miles an hour, with load  
 (12) program up how long does it take to reach that five or six  
 (13) more miles per hour?  
 (14) A The system is - is adjusted to take about three-quarters  
 (15) of an hour to do - to step up that half an hour to do - to  
 (16) step up that five miles an hour  
 (17) Q So it increases that vessel about five or six miles per  
 (18) hour over 45 minutes?  
 (19) A Yes sir  
 (20) Q Would you consider that putting the pedal to the metal?  
 (21) A No, sir  
 (22) Q All right And load program up, then, was put on at 11 52?  
 (23) A Yes, sir  
 (24) Q Go ahead  
 (25) A At this position She was steaming south due south at  
 (26) 180

Vol 21 3526

- (1) degrees traveling up to this point at about 11 knots and 55  
 (2) rpm or 56 rpm once she put the load program up  
 (3) As she continued south she came to a point abeam of  
 Busby  
 (4) Island light at 2355  
 (5) Q Or about five minutes till midnight?  
 (6) A Five minutes to midnight  
 (7) Q All right sir  
 (8) A And she was a distance off of about one mile due west  
 At  
 (9) this point the vessel had increased speed because of load  
 (10) program up and she was now doing 11.1 knots The vessel  
 (11) continued moving south 180 degrees until at midnight,  
 almost  
 (12) precisely at midnight she crossed a sector known as the red  
 (13) sector, crossed into the red sector of Busby Island light  
 (14) Busby Island light shines white around most of its sector,  
 but  
 (15) at a certain portion, it's called a red sector or caution zone  
 (16) in here, and the vessel moved into that - that zone where  
 the  
 (17) light would change from white to appear to be red  
 (18) Q Now as I understand that if I may approach here when you  
 (19) get - as the vessel is traveling here along this line would  
 (20) you follow me?  
 (21) A Yes sir  
 (22) Q Along this line if it looked over to the Busby Island  
 (23) light it would see white is that correct?  
 (24) A That's correct  
 (25) Q Now if it moved along here to something after midnight or

Vol 21 3527

- (1) 0000 as you have there and looked at Busby Island light what  
 (2) would it see?  
 (3) A It would see red  
 (4) Q And that is a cautionary?  
 (5) A Yes  
 (6) Q Now 2355 to midnight in that five minutes there did you  
 (7) see any indication that there was any turn of the vessel?  
 (8) A No, sir The course recorder which is one of the  
 (9) documents we used showed that the vessel was moving  
 due south  
 (10) 180 degrees  
 (11) Q Continue on Mr Cushing  
 (12) A All right At this point the vessel had increased its  
 (13) speed even further now because of the load program up  
 The  
 (14) vessel was at this point traveling at 11.3 knots  
 (15) Q 11.3 It had increased then three tenths of a knot over  
 (16) that period of time over something like ten minutes?  
 (17) A Seven about seven minutes  
 (18) Q Seven minutes?  
 (19) A Yes sir or eight minutes  
 (20) Q All right  
 (21) A All right Just after midnight, then at about two minutes  
 (22) past midnight the vessel's head started to swing to the  
 right,  
 (23) and the vessel followed a -  
 (24) Q Now before you do that how would you know that at two  
 (25) minutes after midnight the vessel begins to swing to the right?

Vol 21 3528

- (1) A The vessel is equipped with a course recorder, and the  
 (2) course recorder which has a clock in it indicates the time  
 and  
 (3) it indicates that the direction of the vessel was pointed at  
 all times It's tied into the gyro system of the ship  
 (5) Q All right The vessel began to swing to the right or now  
 (6) as we've all learned swing to starboard at about two minutes  
 (7) after midnight is that correct?  
 (8) A That's correct, yes, sir  
 (9) Q All right Now if the bow - if the course recorder  
 (10) reflects the two minutes after midnight the bow begins to swing  
 (11) to the right okay when would the rudder have to be put on?  
 (12) Let's say it's ten degrees When would you have to put on the  
 (13) rudder on the helm ten degrees to get an indication on the  
 (14) course recorder that the vessel is beginning to swing to the  
 (15) right at two minutes after midnight?  
 (16) A That would have to have been done between 20 and 30  
 seconds  
 (17) before that  
 (18) Q All right So the rudder then was moved to right rudder  
 (19) at some degree about a minute and a half after midnight, is  
 (20) that correct?  
 (21) A That's correct  
 (22) Q And that is the first indication you have seen that the -  
 (23) that there was any rudder put on this vessel?  
 (24) A Yes, sir  
 (25) Q All right Now then - now then at that time were you

Vol 21 3529

- (1) able to determine the degree of right rudder that was put on  
 (2) the vessel?  
 (3) A Yes, sir, we have been  
 (4) Q All right What degree of right rudder was put on the  
 (5) vessel as you say a minute and a half after midnight so that  
 (6) you can see the bow turn on the course recorder at two minutes  
 (7) after midnight?  
 (8) A Well, we have determined that that rudder angle was ten  
 (9) degrees  
 (10) Q Ten degrees?  
 (11) A Yes, sir  
 (12) Q So according to your - in your opinion in your work  
 (13) rudder angle was put on of ten degrees right at a minute and a  
 (14) half after midnight and the vessel began to show some turn at  
 (15) two minutes after midnight?  
 (16) A Yes, sir  
 (17) Q All right Now, were you able to - how long did the ten  
 (18) degree right rudder continue in effect?  
 (19) A That continued at least through the period of - period of  
 (20) five minutes, at which point the vessel struck a pinnacle in  
 (21) Bligh Reef  
 (22) Q And is that represented by seven minutes after midnight on  
 (23) your chart?  
 (24) A Yes, sir, it is, at this point here  
 (25) Q Okay What happened at that point then in terms of the

Vol 21 3530

(1) rudder angle?  
 (2) A Well the trace on the course recorder shows an indication  
 (3) of an abrupt change in direction which could have been  
 (4) caused - I say abrupt, but very slight but abrupt change which  
 (5) could have been caused either by the vessel passing over the  
 (6) pinnacle off center causing the ship to skew as it passed over  
 (7) the pinnacle or by the application of additional rudder such  
 (8) as a 20 degree right rudder or a combination of both of those  
 (9) Q So you cannot determine whether 20 degree rudder right  
 (10) rudder was applied at seven minutes after midnight although  
 (11) that is a possibility?  
 (12) A That's a possibility  
 (13) Q All right What happened then?  
 (14) A Well the ship as it followed its track around had slowed  
 (15) from 11.4 at the point of which it started to turn and the  
 (16) ship when it goes into a turn does slow down, just naturally  
 (17) for hydrodynamic reasons When it passed over this  
 (18) pinnacle at seven minutes past it further slowed down because the  
 (19) sliced a long slice in the bottom of the ship and she came off  
 (20) the pinnacle about a minute later at eight minutes past and at  
 (21) that point she had slowed down from about 10.4 knots to about  
 (22) 7 knots as she came off the pinnacle She was still moving  
 (23) ahead though  
 (24) Q All right And then what happens?  
 (25) A Then the vessel continued moving along this course here  
 (1) about 248 degrees was her course at that point until she  
 (2) struck the - struck the reef at about nine minutes past,  
 (3) traveling at a speed of about 7 knots and then about a  
 (4) minute later her forward motion stopped when she was up on the  
 (5) reef at ten minutes past  
 (6) Q And so that is the track line of the Valdez as you  
 (7) determined it from 11.39 in the evening until ten minutes after  
 (8) midnight on the 24th?  
 (9) A Yes sir  
 (10) Q Mr Cushing I want you to assume - you have stated that  
 (11) ten degrees right rudder was applied at about a minute and a  
 (12) half after midnight so that the turn would begin to show at two  
 (13) minutes after midnight correct?  
 (14) A Yes sir  
 (15) Q All right Now I want you to assume certain facts for me  
 (16) that I believe are facts in the record in this case but you  
 (17) assume them okay? Let's assume that there was a lookout on  
 (18) the starboard bow of the vessel, as it moved down your track  
 (19) line okay?  
 (20) A On the starboard bow?  
 (21) Q On the starboard wing  
 (22) A All right  
 (23) Q Starboard wing And let's assume that that lookout came in  
 (24) and told Mr Cousins red light flashing every five seconds  
 (25) broad on the starboard bow Will you assume that?

Vol 21 3532

(1) A Yes sir  
 (2) Q Let's further assume that that lookout went back to the  
 (3) starboard wing looked again came back in and said red light  
 (4) flashing every four seconds broad on the starboard bow  
 (5) Now given the facts you have described here and assuming  
 (6) those facts do you have an opinion - oh one more fact to  
 (7) assume Assume that when the lookout on the bridge wing came  
 (8) in the second time and said red light flashing every four  
 (9) seconds broad on the starboard bow and assume that at that  
 (10) time that is the time Mr Cousins testified during that  
 (11) conversation he gave the order ten degrees right rudder You  
 (12) with me?  
 (13) A Yes sir  
 (14) Q Do you have an opinion then where that vessel was when  
 (15) the first order of ten degrees right rudder was given?  
 (16) A Yes sir I do  
 (17) Q Where was the vessel when the first order of ten degree  
 (18) right rudder was given?  
 (19) A The vessel was about a half a minute north of this point  
 (20) where the vessel actually started to swing at two minutes  
 (21) past In other words one and a half minutes after midnight  
 (22) Q And do you have an opinion then assuming the order to  
 (23) first be given at that time do you have an opinion whether  
 (24) that rudder order was properly carried out by the helmsman?  
 (25) A Yes I do

Vol 21 3533

(1) Q And what is that opinion?  
 (2) A That the vessel actually followed a course of ten degrees  
 (3) right rudder  
 (4) Q So the helmsman when given a ten degree right rudder put  
 (5) on a ten degree right rudder and what we have is the result is  
 (6) that correct?  
 (7) A Yes sir  
 (8) MR NEAL Can we take this one down for the time  
 (9) being Your Honor?  
 (10) Mr Cushing I show you what is in evidence now as  
 (11) Defendant's Exhibit - what have I got there?  
 (12) MS STEWART 1736 Alpha  
 (13) MR NEAL I'm sorry?  
 (14) MS STEWART 1736 Alpha  
 (15) BY MR NEAL  
 (16) Q And I'm going to ask you if what you see right now is  
 (17) simply the track line of the Valdez you've just described  
 (18) without the time entries?  
 (19) A Yes sir it is  
 (20) Q All right At my request did you prepare a chart or  
 (21) overlays showing what this vessel would have done had it  
 (22) started to come into - back to the lanes at abeam Busby Island  
 (23) light?  
 (24) A Yes sir we did  
 (25) Q All right And what is the rudder turn that you assumed on

Vol 21 3534

- (1) the first overlay?  
 (2) A The first overlay was ten degrees right rudder  
 (3) Q All right Let s show the Ladies and Gentlemen of the Jury  
 (4) that Now explain to the Members of the Jury and the Court  
 (5) what they re seeing here  
 (6) A Well the initial part of the track is the blue track we've  
 (7) just described, but at a point just south of abeam of Busby  
 (8) light, in other words 2355 30 We've shown a track where  
 the  
 (9) bow of the ship would have - the track the vessel would  
 have  
 (10) followed where the bow of the ship would have started to  
 swing  
 (11) at 25 - 2355.30, or five minutes, four minutes and 30  
 seconds  
 (12) before midnight  
 (13) Q All right Now you have said that the vessel was abeam  
 (14) Busby Island light at 2355?  
 (15) A Yes, sir  
 (16) Q Why do you have 2355 30 on there?  
 (17) A Because if the vessel were to have followed this - this  
 (18) red course here, the order would have had to have been  
 given at  
 (19) 2355 to cause the vessel to start swinging at this point  
 (20) Q So you re assuming this assumes a ten degree order was  
 (21) given and executed at 2355?  
 (22) A Yes, sir  
 (23) Q And what you re showing here is what the course - on the  
 (24) course recorder it would be approximately 30 seconds later  
 (25) before you d see the bow begin to swing?

Vol 21 3535

- (1) A Yes sir  
 (2) Q All right Now go ahead And the red line there what  
 (3) does that show?  
 (4) A Well, that is the track of the vessel if that ten degree  
 (5) right order, right rudder order had been given abeam of  
 Busby  
 (6) Island light and executed and you can see that the course  
 (7) actually curves well north of the - the track that the vessel  
 (8) actually took  
 (9) Q If that - if that had been carried out if a ten degree  
 (10) right rudder had in fact been carried out at abeam Busby Island  
 (11) light how much would the vessel have missed the grounding  
 (12) point?  
 (13) A By over a mile  
 (14) Q All right You re aware are you not that the testimony  
 (15) in this case is that Captain Hazelwood asked Mr Cousins to  
 (16) come back into the lanes at abeam Busby Island light?  
 (17) A Yes, sir  
 (18) Q Now at my request did you do something else did you  
 (19) assume a five degree turn?  
 (20) A Yes sir we did  
 (21) Q At abeam Busby Island light?  
 (22) A Yes sir we did  
 (23) Q Now would you explain to the Court and the Members of the  
 (24) Jury what you re demonstrating here?  
 (25) A Well the yellow - the yellow trace shows the track that

Vol 21 3536

- (1) the vessel would have followed if a five degree -  
 (2) Q Is that yellow?  
 (3) A Well dayglow or whatever  
 (4) Q All right  
 (5) A If a five degree order had been given and executed  
 abeam of  
 (6) Busby light, it would have followed this yellow track, just  
 (7) slightly, curving just slightly further south than the ten  
 (8) degree course  
 (9) Q Okay And if even a five degree turn had been put on at  
 (10) abeam Busby Island light, how far would the vessel have  
 missed  
 (11) the grounding spot?  
 (12) A By a little over eight-tenths of a mile  
 (13) Q Now I m going to ask one other - I m going to ask you to  
 (14) assume one other thing Let s assume that Mr Cousins went  
 (15) outside to the port wing, took a fix he s abeam Busby Island  
 (16) light at 11 55 He looks at his watch it has a second  
 (17) indicator on it but he can t see that so he s abeam Busby  
 (18) Island at 11 55 by his watch or somewhere between 11 55 and  
 (19) 11 56 He comes back he stops briefly at the port radar, then  
 (20) goes into the chart room plots that fix and just briefly for  
 (21) the Ladies and Gentlemen of the Jury for my benefit, you take  
 (22) a fix by either sight or instruments and then you come in and  
 (23) plot that fix What does plotting that fix mean?  
 (24) A Well that means taking a set of dividers and stepping off  
 (25) the distance and putting a position mark on the chart and  
 the

Vol 21 3537

- (1) time  
 (2) Q All right Let s assume then that the turn wasn't made  
 (3) at - or there was something that prevented the turn being made  
 (4) at precisely 2355 Have you constructed what would have  
 (5) happened given a turn of ten degrees right at say 11 58?  
 (6) A Yes, sir, I have  
 (7) Q All right Could we see that? Now would you explain what  
 (8) we re seeing here Mr Cushing?  
 (9) A The dark blue - the dark blue trace assumes the order -  
 (10) an order was given at 11 58 and was executed at 11.58, and  
 the  
 (11) bow starts to swing at 11 58 30 it would follow this dark  
 blue  
 (12) trace south of the other two traces we just described, but  
 (13) north of the actual trace of the ship  
 (14) Q And how much would that a ten degree right rudder at  
 (15) 11 58 have missed the grounding site?  
 (16) A A little over 45 miles  
 (17) Q Let s do one other thing Let s assume that there is -  
 (18) it s two minutes after midnight and let s - when the bow  
 (19) begins to turn correct according to your testimony?  
 (20) A Yes sir  
 (21) Q Let s assume that a 20 degree right rudder was put on  
 (22) rather than a ten degree Do we have that now?  
 (23) A Yes sir Orange I believe orange in color 20 degrees  
 (24) right rudder at two minutes after midnight would cause the  
 (25) vessel to follow this - this orange trace here

Vol 21 3538

- (1) Q And would it have missed the reef?  
 (2) A Yes sir by - close to it but by a tenth of a mile  
 (3) Q Mr Cushing the record in this case reflects that two  
 (4) other vessels went out of the - two other tankers went out of  
 (5) the Port of Valdez on March 23, preceding the Exxon Valdez  
 (6) Are you aware of that?  
 (7) A Yes, sir  
 (8) Q At my - and those vessels were the Brooklyn and the Arco  
 (9) Juneau At my request did you prepare a track line of the  
 (10) Brooklyn and the Arco Juneau as they exited Prince William  
 (11) Sound on the night or - day or night of March 23 1989?  
 (12) A Yes, sir, we did  
 (13) Q Would you looking at Defendants Exhibit 1735 Able A or  
 (14) Able, would you explain to the Court and the Jury what they re  
 (15) seeing there?  
 (16) A The orange trace again is the - a track of the tanker  
 (17) Brooklyn as she travels southward through Prince William  
 Sound,  
 (18) first in the traffic lane and then leaving the traffic lane to  
 (19) avoid reportedly or what I understand to be ice in the traffic  
 (20) lane  
 (21) Q Now is she - she is the Brooklyn totally outside of the  
 (22) traffic lanes itself?  
 (23) A She is at this point here  
 (24) Q And she continues on further out?  
 (25) A Yes, sir she does

Vol 21 3539

- (1) Q Or farther out? Okay  
 (2) A Until she's abeam of Bligh Island, Bligh Reef light  
 (3) Q How close does the Brooklyn come to Bligh Reef? Were you  
 (4) able to figure that out?  
 (5) A Yes, sir, we were  
 (6) Q And what is the distance?  
 (7) A The closest point of approach to Bligh Reef was about  
 (8) eight tenths of a mile  
 (9) Q Eight tenths of a mile?  
 (10) A Yes, sir  
 (11) Q All right sir And you testified that had the order been  
 (12) carried out on the Valdez you d been over a mile away on a ten  
 (13) degree right rudder?  
 (14) A Yes, sir  
 (15) Q All right By the way were you able to determine the  
 (16) times what times of the day do these tracks - let s start  
 (17) with the Brooklyn what times of the day are represented by the  
 (18) track line of the Brooklyn?  
 (19) A Well the Brooklyn left Port Valdez early in the morning  
 (20) around 8 00 in the morning and she was up - up at this point  
 (21) here about 10 47 in the morning, and her - her charts from  
 (22) which we got this information show the times at which she  
 was  
 (23) at the various points along the track and she arrived down  
 at  
 (24) this point here at about 11 26  
 (25) Q So you are representing on your chart here a time for the

Vol 21 3540

- (1) Brooklyn that begins at about 11 47 and ends up at - I mean  
 (2) 10 47 and ends up at what?  
 (3) A 11 26  
 (4) Q All right And let s take the Arco Juneau then What  
 (5) color represents the Arco Juneau then?  
 (6) A That's this kind of yellowish green dayglow color  
 (7) Q And does it go entirely out of the traffic separation  
 (8) scheme?  
 (9) A Yes sir The Arco Juneau was traveling southbound in  
 the  
 (10) northbound lane in this portion of the track, and she exits  
 (11) the lane also and obviously travels further, further away  
 from  
 (12) the traffic lane, curving back and then finally reentering the  
 (13) traffic lanes down here  
 (14) Q All right What time is represented - what time period is  
 (15) represented on your chart by the track line of the Arco Juneau?  
 (16) A The Arco Juneau left Port Valdez in the afternoon of the  
 (17) 23rd about 4 00 in the afternoon  
 (18) Q Okay And what time is represented there?  
 (19) A She arrives at this point here about 6 53 in the evening  
 (20) and travels through this course arriving down here at about  
 (21) 7 22 in the evening  
 (22) Q Now was the Arco Juneau put on a direct line to Bligh Reef  
 (23) at some point?  
 (24) A Well when she left the traffic lanes she was pointed  
 (25) directly at Bligh Reef on a course directly at Bligh Reef

Vol 21 3541

- (1) Q How close did the Arco Juneau come to Bligh Reef?  
 (2) A She came to within six tenths of a mile  
 (3) Q Six tenths of a mile?  
 (4) A Right  
 (5) Q Now Mr Cushing a Mr Jerry Aspland of Arco Marine  
 (6) testified in this case and I want to read you a question and  
 (7) answer Question did you have - was there ever - were there  
 (8) ever any rules as to what speed would be considered a prudent  
 (9) speed in transiting through ice in Prince William Sound and  
 (10) the answer I don t recall having put out a written memo but I  
 (11) do recall having discussed that we could go - if there was ice  
 (12) in the area we could go up to five knots  
 (13) Was there ice in the area when the Arco Juneau was  
 (14) transiting this part of the Prince William Sound you ve  
 (15) discussed?  
 (16) A That's my understanding, yes, sir  
 (17) Q Were you able nevertheless to determine the speed of the  
 (18) Arco Juneau as it transited that portion of Prince William  
 (19) Sound?  
 (20) A Yes sir we were  
 (21) Q And what was that speed?  
 (22) A That was 12 - sorry, 12 96 knots  
 (23) Q 12 96 knots?  
 (24) A Yes sir  
 (25) Q Now as a matter of curiosity did you ever determine the

Vol 21 3542

- (1) speed of the Brooklyn as it is transiting transiting this part  
 (2) of Prince William Sound?  
 (3) **A Yes, sir** Because we had the -- the positions and the  
 (4) **fixes and the times of both vessels, we were able to**  
**determine**  
 (5) **that the Brooklyn was traveling at 11.7 knots through this**  
 (6) **region**  
 (7) **Q Okay** Now another chart Mr Cushing I show you now  
 (8) **what is defense exhibit -- Mr Serdahely would you help me out**  
 (9) **there Defense Exhibit 1734 A?**  
 (10) **MR SERDAHELY 1734 A**  
 (11) **BY MR NEAL**  
 (12) **Q 1734 A** And to move things along a little bit that  
 (13) **reflects without any other notations the track line of the**  
 (14) **three vessels that left the Port of Valdez on March 23?**  
 (15) **A Yes, sir**  
 (16) **Q All right** Now let's put over the overlay reflecting a  
 (17) **ten degree turn at abeam Busby Island light Mr Cushing**  
 (18) **assume that Captain Hazelwood ordered Mr Cousins to**  
**commence**  
 (19) **this turn back into the traffic lanes abeam Busby Island light**  
 (20) **and considering the track lines of all three do you have an**  
 (21) **opinion as to which of these courses of the three vessels**  
 (22) **carried the least amount of risk as to the plan for exit?**  
 (23) **A Yes, sir I do**  
 (24) **Q Which one?**  
 (25) **A The Exxon Valdez**

Vol 21 3543

- (1) **Q And why do you say that?**  
 (2) **A Well for several reasons** First the Exxon Valdez in  
 (3) **traveling southward and executing her turn was in deep**  
**water**  
 (4) **with more -- more room to maneuver especially should**  
**anything**  
 (5) **go wrong with the -- the equipment on the ship, as compared**  
**to**  
 (6) **the Brooklyn and the Arco Juneau who were pointed right**  
**at**  
 (7) **Bligh Reef and came very close and had to maneuver at a**  
**later**  
 (8) **time or when they were closer**  
 (9) **The second thing is that the Exxon Valdez in making her**  
 (10) **turn up here would have been aligned in a more parallel**  
 (11) **direction earlier on to run between what was reportedly the**  
**ice**  
 (12) **in this region and the Bligh Reef so she would have been**  
**able**  
 (13) **to adjust herself and get herself lined up with a straight**  
 (14) **course earlier on rather than to maneuver between the ice**  
**and**  
 (15) **the reef at the last minute**  
 (16) **Q All right** I'm going to have one more chart put up there  
 (17) **let's leave that one up**  
 (18) **Mr Cushing I show you what is in evidence as Defendants**  
 (19) **Exhibit 1729 okay?**  
 (20) **A Yes sir**  
 (21) **Q Could I have my pointer back here? I'm going to ask you to**  
 (22) **assume -- can everyone see this? I'll go around this way**  
 (23) **I'm going to ask you to assume or I'm going to point out**  
 (24) **that the evidence in this case by Captain Hazelwood is that the**  
 (25) **leading edge of the ice when he left the bridge or when he was**

Vol 21 3544

- (1) **planning to leave the bridge was as I'm drawing here now Do**  
 (2) **you see?**  
 (3) **A Yes, sir**  
 (4) **Q Okay** Now you see Busby Island you see nobody's tried to  
 (5) **make this to scale but the letter D there represents the**  
 (6) **approximate location of the vessel All right Now I want**  
 (7) **you to consider where Captain Hazelwood saw the ice you got**  
 (8) **it?**  
 (9) **A Yes, sir**  
 (10) **Q And I want you to consider the planned course, according to**  
 (11) **Defendants Exhibit 1734-A and ask you if that was an**  
 (12) **appropriate course considering where Captain Hazelwood saw**  
**the**  
 (13) **ice?**  
 (14) **A I believe so, yes**  
 (15) **Q And why do you say that?**  
 (16) **A Well, the point at which he picked -- the point at which he**  
 (17) **picked to make the turn was the point at which the ice was**  
 (18) **closest to Busby -- Busby Island In other words, he came to**  
**a**  
 (19) **point of just about halfway between the two, as a point to**  
 (20) **commence his turn The ten degree right rudder turn would**  
**have**  
 (21) **started to align him with a course that would have brought**  
**him**  
 (22) **parallel to the ice and parallel to the edge of the reef at a**  
 (23) **point halfway between the two and he would have been able**  
**to**  
 (24) **bring himself back into the traffic lanes on a straight**  
 (25) **course**

Vol 21 3545

- (1) **MR NEAL** Excuse me just a moment Your Honor  
 (2) **MR NEAL** Thank you Mr Cushing  
 (3) **You may examine** Do you want me to leave Mr Montague  
 (4) **some of these up here?**  
 (5) **MR MONTAGUE** Yes sir  
 (6) **MR NEAL** Which one?  
 (7) **MR MONTAGUE** Both  
 (8) **CROSS EXAMINATION OF CHARLES CUSHING**  
 (9) **BY MR MONTAGUE**  
 (10) **Q We're going to have to just wait a second until the charts**  
 (11) **come up Mr Cushing**  
 (12) **Can you see this Mr Cushing?**  
 (13) **A Yes, sir, I can**  
 (14) **Q By the way I'm Laddie Montague we haven't met**  
 (15) **I'd like to just ask you a couple things about this chart**  
 (16) **This is the chart that -- your course line of the Exxon Valdez?**  
 (17) **A Yes sir it is**  
 (18) **Q Okay** And the 2355 is when the vessel was abeam Busby  
 (19) **Island light?**  
 (20) **A Yes, sir**  
 (21) **Q And do you recall that Captain Hazelwood left the bridge**  
 (22) **about two minutes before that about 2353?**  
 (23) **A Yes sir**  
 (24) **Q Now you say that the turn you agree that the turn was**  
 (25) **made the order was given around one and a half minutes after**

Vol 21 3546

- (1) midnight?  
 (2) A Approximately, yes  
 (3) Q Okay And that would be about six and a half minutes after  
 (4) Busby Island light was passed?  
 (5) A Yes, sir  
 (6) Q And about eight and a half minutes after Captain Hazelwood  
 (7) left the bridge?  
 (8) A Approximately Approximately  
 (9) Q And it was that time that after Captain Hazelwood left the  
 (10) bridge to the time of the turn, that was - that - over that  
 (11) eight and a half minutes there was no communication between  
 (12) Captain Hazelwood and Mr Cousins until Mr Cousins called  
 (13) him  
 (14) telling him that he had made the turn is that correct?  
 (15) A I'm not qualified to answer that  
 (16) Q You're not familiar with that information?  
 (17) A No, sir  
 (18) Q Okay Now these are your various hypotheticals that you  
 (19) made, right? The red the yellow the blue and the orange?  
 (20) A Yes, sir They are  
 (21) Q Okay Did anybody tell you that Lieutenant Delozier  
 (22) testified that when he interviewed both Mr Cousins and Captain  
 (23) Hazelwood that when they were asked where the turn was to be  
 (24) made they both circled the 38 fathom mark?  
 (25) A I had heard that  
 (26) Q Did you make any determination as to turns at that mark?

Vol 21 3547

- (1) A No, sir  
 (2) Q Now am I correct that for each of these hypothetical turns  
 (3) that you've indicated here there would have to be a counter  
 (4) rudder command in order to successfully complete the  
 (5) maneuver?  
 (6) A Not necessarily a counter rudder The rudder could have  
 (7) been brought back gradually to amidships  
 (8) Q There would have to be some work done on the rudder?  
 (9) A Yes, sir  
 (10) Q In other words it couldn't stay on ten degrees or five  
 (11) degrees forever, right?  
 (12) A That's correct  
 (13) Q And that is a navigator's job to determine how to handle  
 (14) that rudder?  
 (15) A Yes, sir, the person conning the ship  
 (16) Q How would you determine what to do?  
 (17) A Well, you would determine what your next course is going  
 (18) to be First determine where you're going to make your turn  
 (19) you then determine what your next course is going to be from  
 (20) that  
 (21) point, and then you bring the ship around to that course,  
 (22) and  
 (23) then you steady up on that course  
 (24) Q Have you made that determination with any of these?  
 (25) A No, sir, we haven't  
 (26) Q And that takes a little bit of thinking doesn't it to  
 (27) figure out how to get back on the right line?  
 (28) A Yes, it does

Vol 21 3548

- (1) Q Okay Now you testified that each of these four spots had  
 (2) a turn been made or each of these three spots had a turn been  
 (3) made in two different degrees there ten degrees here ten  
 (4) degrees there each of those times had the turn been made  
 (5) this - this wreck would have never happened is that correct?  
 (6) A That's correct yes, sir  
 (7) Q And am I correct that all during these three the times of  
 (8) these three dots we've established Captain Hazelwood was not  
 (9) on the bridge isn't that correct?  
 (10) A I'm not qualified to -  
 (11) Q Well we just said he was off the bridge from 12 53 to  
 (12) after - after the grounding?  
 (13) A Yes, sir that's what you told me  
 (14) Q Okay So it's possible then that had there been another  
 (15) person on the bridge like the master these turns might have  
 (16) been made and the whole wreck would have been avoided  
 (17) isn't that correct?  
 (18) A I'm not sure I understand your question You're saying if  
 (19) another person had been on the bridge they would have  
 (20) been made but they weren't because -  
 (21) Q No What I'm saying had someone else been on the bridge  
 (22) that was alert they might have caught this and those turns  
 (23) would have been made?  
 (24) A That's possible  
 (25) Q Okay Now lastly let's just look at the - one thing you

Vol 21 3549

- (1) didn't discuss at all with respect to the Valdez track line is  
 (2) the fact that once the course went to 180 the vessel was on  
 (3) autopilot?  
 (4) A Yes There were - yes, sir  
 (5) Q Did you make any determination as to whether these vessels  
 (6) were on autopilot?  
 (7) A No, sir we didn't We couldn't in fact All we had was  
 (8) the positions from the chart  
 (9) Q Okay Next - I'm sorry for these vessels what did you  
 (10) look at?  
 (11) A We looked at the copies for each of the charts from each  
 (12) of  
 (13) those two ships  
 (14) Q What do you mean the charts?  
 (15) A Each ship has a navigation chart on which they plot their  
 (16) fixes We were provided with copies of the navigation chart  
 (17) for the Arco Juneau and for the Brooklyn, which showed the  
 (18) positions that they had plotted and the times  
 (19) Q Okay By the way what did you look at to determine the  
 (20) speeds of the various times that you testified to for the Exxon  
 (21) Valdez? What did you look at what records did you look at to  
 (22) get those speeds?  
 (23) A Well, we had the - the engine bell logger, which is an  
 (24) automatic printout that shows the revolutions of the ship  
 (25) and  
 (26) at each time There was a sea trial conducted after the  
 (27) accident and repair of the ship that showed, and they  
 (28) simulated

Vol 21 3550

- (1) the - went through an entire sea trial and simulated both  
 (2) moving in straight directions and in various rudder curves  
 what  
 (3) the speed of the vessel would be, what tracks the vessel  
 would  
 (4) follow and what turning rates and what drift angles the ship  
 (5) would have for various revolutions  
 (6) Also it showed what the speeds of the vessel would be for  
 (7) the load program up, so that we were able to use the  
 identical  
 (8) conditions and data to establish what the speeds and tracks  
 (9) were  
 (10) Q Okay So you used all that in order to determine the  
 (11) speeds of the Exxon Valdez?  
 (12) A Yes, sir  
 (13) Q Did you have that information available for the Juneau or  
 (14) the Brooklyn?  
 (15) A No, but we had something even better We had the  
 position  
 (16) of the ship and we had the time of the ship, and knowing the  
 (17) position and the time, you can determine the speed  
 (18) Q So you - that was a calculation that you used, something  
 (19) different than what you used to determine the speed of the  
 (20) Exxon Valdez?  
 (21) A Yeah Well, there are many ways to determine speed  
 (22) Q I understand I just want to see that there were different  
 (23) methods used  
 (24) A Yes, sir  
 (25) Q Now one last question Are you aware that in both of the

Vol 21 3551

- (1) testimonies here in both of these cases has been that the  
 (2) captain or the master was on the bridge at all times?  
 (3) A I've heard that  
 (4) MR MONTAGUE Thank you very much  
 (5) MR NEAL No questions Your Honor  
 (6) THE COURT Thank you sir You may step down  
 (7) MR LYNCH Call Dr Gary Richardson Your Honor  
 (8) THE CLERK Would you raise your right hand please  
 (9) sir  
 (10) (The Witness Is Sworn)  
 (11) THE CLERK For the record sir state your full name  
 (12) your address and spell your last name please  
 (13) THE WITNESS Gary S Richardson The last name  
 (14) Richardson is spelled R I C H A R D S O N and I live at 94  
 (15) Wendell Street, W-E N D E-L-L in Cambridge Massachusetts  
 (16) THE CLERK Thank you sir  
 (17) MR LYNCH Your Honor may I approach the witness  
 (18) DIRECT EXAMINATION OF GARY RICHARDSON (Live)  
 (19) BY MR LYNCH  
 (20) Q Dr Richardson you've been employed by the defendants in  
 ( 1) this case to evaluate certain issues relating to the issues in  
 ( 2) this trial?  
 ( 3) A I have  
 ( 4) Q And what is your present employment?  
 (25) A I'm the director of the Sleep Disorder Service the clinic

Vol 21 3552

- (1) and the laboratory at Brigham and Women's Hospital in  
 Boston,  
 (7) Massachusetts  
 (3) Q Could you tell us a little bit about what Brigham and  
 (4) Women's Hospital is?  
 (5) A Brigham and Women's Hospital is one of three or four  
 (6) teaching hospitals in Boston, Mass It's a general medical  
 (7) hospital  
 (8) Q Are you a medical doctor?  
 (9) A I am  
 (10) Q And as director medical director of the Sleep Disorders  
 (11) Clinic at Brigham and Women's Hospital what's - what do you  
 (12) do when you go to work?  
 (13) A My duties as in that position involve both research and  
 (14) clinical care for patients with sleep disorders  
 (15) Q Could you - the word clinical care means actually treating  
 (16) patients?  
 (17) A That's correct I see patients in clinic, evaluate,  
 (18) diagnose and treat disorders  
 (19) Q And what does research basically consist of doing?  
 (20) A Our research interests are broad but much - all of our  
 (21) research is clinical research, meaning research on human  
 (22) subjects, and it covers a variety of subjects involving  
 (23) endocrinology, sleep disorders sleep, physiology  
 (24) Q Does it involve doing experiments?  
 (25) A Yes, it does

Vol 21 3553

- (1) Q Under controlled conditions and carefully recording those  
 (2) results?  
 (3) A The experiments we do are both in the laboratory,  
 (4) controlled conditions, and also worked on in the field  
 (5) Q Dr Richardson how long have you been at sleep disorder  
 (6) research or study?  
 (7) A I've been involved in this field for a very long time,  
 (8) since 1978 actually  
 (9) Q And how did you first get involved?  
 (10) A I did my undergraduate training and my medical training  
 at  
 (11) Stanford Medical School in California, and that facility is  
 one  
 (12) of the leading institutions in the evaluation of sleep,  
 (13) sleepiness and performance, and I first became involved as  
 a  
 (14) student in that laboratory  
 (15) Q And have you been working in that field continuously since  
 (16) that time?  
 (17) A Yes I have  
 (18) Q What professional degrees or educational degrees have you  
 (19) attained sir?  
 (20) A Well, I have my bachelor's degree in science from  
 Stanford  
 (21) and a medical degree and M D from Stanford, as well  
 (22) Q And for how long have you been practicing medicine?  
 (23) A My degree was granted in 1983 I was licensed at  
 Brigham  
 (24) and Women's Hospital the year after that and I've been  
 (25) practicing uninterrupted since that time

Vol 21 3554

- (1) Q Do you teach?  
 (2) A Yes, I do I'm an instructor in medicine at Harvard  
 (3) Medical School  
 (4) Q And what subjects - on what subjects do you teach?  
 (5) A I teach both endocrinology, which is my formal specialty,  
 (6) and sleep disorders medicine  
 (7) Q And at what schools? Harvard only or -  
 (8) A I teach at Harvard Medical School I've done lecturing  
 and  
 (9) brief teaching elsewhere  
 (10) Q Have you published in the field of sleep or sleep  
 (11) disorders?  
 (12) A Yes, I have  
 (13) Q And did that publication involve what was described  
 (14) yesterday as peer reviewed articles?  
 (15) A Yes, it does  
 (16) Q Without taking up a lot of time or without taking up as  
 (17) much time as it might otherwise take let me just display your  
 (18) resume for a second And I realize that this is hard for us  
 (19) all to see Are these a list of your publications?  
 (20) A That's a partial list, yes  
 (21) Q Do they include books that you've edited or authored sir?  
 (22) A In this case, the screen is focused on books that I've been  
 (23) involved in the preparation of either as an editor or  
 (24) contributor  
 (25) Q Then for the next several pages are lists of the articles

Vol 21 3555

- (1) abstracts and other learned materials that you've published  
 (2) sir?  
 (3) A Yes I apologize for the arcane organization of the  
 (4) curriculum vitae Harvard University requires that it be  
 (5) organized in that way  
 (6) MR LYNCH Well rather than run through the list I  
 (7) just thought it would be faster if we could show them but I'll  
 (8) offer Dr Richardson as an expert on the subjects of sleep  
 (9) disorders and sleep research Your Honor  
 (10) MR GERRY No objections Your Honor  
 (11) THE COURT Doctor's qualifications are accepted  
 (12) MR LYNCH Thank you Your Honor  
 (13) BY MR LYNCH  
 (14) Q Were you asked by counsel for the defendants to evaluate  
 (15) whether there's a scientific basis to conclude that lack of  
 (16) sleep affected the actions of third mate Gregory Cousins in the  
 (17) 30 minutes prior to the grounding of the Exxon Valdez?  
 (18) A I was  
 (19) Q And in that connection what procedure or steps did you  
 (20) follow to advise yourself about the facts and circumstances  
 (21) relating to Mr Cousins' sleep history and sleep situation at  
 (22) the time of the grounding of the Exxon Valdez?  
 (23) A I principally - I reviewed principally depositions  
 (24) testimony available from individuals involved,  
 reconstructing  
 (25) his schedule I also reviewed documents provided to me,

Vol 21 3556

- (1) including deck logs and other documents that provided  
 (2) quantitative estimates of his work schedule  
 (3) Q Now what technique do you use from your point of view in  
 (4) trying to analyze whether sleep or lack of sleep may have been  
 (5) a factor in various performance issues as they relate to  
 (6) Gregory Cousins?  
 (7) A Well, our - our take on sleep and sleepiness makes use of  
 (8) extensive data that we've collected using an objective test  
 of  
 (9) sleepiness One of the important components I think is to  
 try  
 (10) -  
 (11) and objectify, try and be objective about what is inherently a  
 (12) very subjective quantity We use a test called a Multiple  
 (13) Sleep Latency Test which is an objective test of sleepiness  
 (14) that measures how quickly someone can fall asleep The  
 (15) assumption underlying this is that the sleeper someone is  
 the  
 (16) faster they will fall asleep under standardized conditions  
 we  
 (17) put them in bed, turn out the lights and ask them to try and  
 (18) fall asleep, and then we can precisely measure the time it  
 (19) takes in minutes for them to actually fall asleep This test  
 (20) has been used now and is in widespread use and allows us  
 to  
 (21) make certain quantitative estimates about levels of sleep in  
 different conditions  
 (22) Q By whom was the Multiple Sleep Latency Test developed?  
 (23) A I was involved in its development along with Dr Bill  
 (24) Dement and Mary Carskadon  
 (25) Q Is that test used only in experimental purposes or

Vol 21 3557

- (1) practical purposes?  
 (2) A No As I mentioned, that test is now in very widespread  
 (3) use It's considered part of the standard approach to the  
 (4) diagnosis of sleep disorders so for example patients with  
 (5) sleep apnea insomnia or narcolepsy who complain of being  
 (6) excessively sleepy during the day are given this test as a  
 (7) means of objectively showing that they are sleepy  
 (8) Q Now if that little beep I heard is accurate we'll have a  
 (9) chart here  
 (10) MR MONTAGUE Excuse me  
 (11) MR LYNCH Excuse me Your Honor I failed the test  
 (12) here What it put up is Exhibit DX1744  
 (13) BY MR LYNCH  
 (14) Q Dr Richardson I wonder if you could explain to the jury  
 (15) what this chart depicts as it relates to the multiple sleep  
 (16) latency test?  
 (17) A Now, can I use this pointer? Which screen can I use this  
 (18) Okay Can I do that? Doesn't really show up well Can you  
 (19) see that?  
 (20) Q I can see it and I'll try and follow the bouncing ball  
 (21) A This is a study I did some years ago using this Multiple  
 (22) Sleep Latency Test to estimate how sleepy people are at  
 (23) different times of the day And if we can just orient the jury  
 (24) first to what we're showing here Along the horizontal axis  
 at  
 (25) the bottom if you will is the time of day, and you can see

Vol 21 3558

- (1) the times noted there, so it's an entire 24 hour a full day in  
 (2) the life of these individuals Along the vertical axis are the  
 (3) minutes that it takes someone to fall asleep and you can see  
 (4) about where we are right at the moment Normal adult  
 (5) individuals here, I guess it's roughly what 10 11 a m in the  
 (6) morning would take something on the order of 15 minutes -  
 now  
 (7) I can't see my pointer either, there we are - 15 minutes or so  
 (8) to fall asleep Older individuals differ somewhat from the  
 (9) young adults, but for the most part the pattern is the same  
 (10) Q Now these lines that are depicted on the exhibit what -  
 (11) where did you get the information that led to plotting those  
 (12) lines?  
 (13) A Okay This was a study that we did some years ago in  
 (14) which  
 (15) we actually performed the Multiple Sleep Latency Test and  
 (16) measured sleep latency at regular intervals across the  
 (17) entire  
 (18) day  
 (19) Q And when you talk about sleep latency you mean the time it  
 (20) takes people to fall asleep?  
 (21) A Exactly  
 (22) Q And your research indicates that by measuring that time you  
 (23) can determine how alert or sleepy they are?  
 (24) A Exactly, exactly  
 (25) Q Now you -  
 (26) A The longer it takes someone to fall asleep, the more alert  
 (27) they are

Vol 21 3559

- (1) Q You used the term sleepy I used the term tired Is there  
 (2) a correlation of those?  
 (3) A Well, I feel strongly that the term sleepy and alert, at  
 (4) least in the scientific arena, is a much more precise term  
 (5) than  
 (6) tired or fatigued or other terms that are in colloquial use,  
 (7) common use but don't have the same precise meaning that  
 (8) sleepiness does We use the term sleepiness to denote the  
 (9) state when an individual has inadequate sleep The other  
 (10) terms although they are in general use have much  
 (11) different  
 (12) definitions  
 (13) Q These lines were used to test people more or less sleepy  
 (14) more or less lacking in sleep?  
 (15) A Exactly  
 (16) Q If they were not sleepy then they were alert?  
 (17) A Right  
 (18) Q And on this chart the higher the number the higher the  
 (19) what?  
 (20) A The alertness  
 (21) Q And the lower - the more sleepy?  
 (22) A Exactly  
 (23) Q Now what - does this W shaped pattern have any  
 (24) significance?  
 (25) A This was a very important study I believe in that it was  
 (26) the first to describe the normal course of sleepiness across  
 (27) the day There are a couple of features that I think are

Vol 21 3560

- (1) important The first is that you can see at about two in the  
 (2) afternoon that all individuals undergo a decrease in  
 (3) alertness,  
 (4) a nap phase, where sleepiness increases and there's a  
 (5) tendency  
 (6) to fall asleep Then there's a rebound, so that in the late  
 (7) evening, really, sleepiness decreases and alertness peaks  
 (8) People are most alert and most functional in this regard at  
 (9) about eight to nine in the evening, actually Sleepiness  
 (10) then  
 (11) increases more or less linearly across the night and  
 (12) sleepiness, and with it problems performing, sleepiness is  
 (13) maximal actually well into the morning, between five and six  
 (14) in  
 (15) the morning typically for most individuals  
 (16) Q Is that pattern according to your research related to any  
 (17) biological processes?  
 (18) A Yes We've since been focused on in the years since this  
 (19) study is the role the body's internal clock has in fixing this  
 (20) pattern This is a remarkably consistent pattern from  
 (21) individual to individual, and that's because this pattern is  
 (22) fixed by a clock that we all have inside our heads, a  
 (23) circadian  
 (24) or biological clock that fixes this pattern in time and orients  
 (25) us to the external world  
 (26) Q Now looking at this chart alone if I were trying to  
 (27) predict what level of alertness or what level of sleepiness  
 (28) a - a nominal individual John Q Public would have at say,  
 (29) midnight what would this chart say about the probable level of  
 (30) alertness or sleepiness of an individual if that's all you

Vol 21 3561

- (1) knew was a hypothetical man?  
 (2) A We should step back one moment and say these data  
 (3) were  
 (4) collected on the assumption that individuals were sleeping  
 (5) reasonably well There are no patients, for example, with  
 (6) sleep disorders in this mixture, but if we can assume our  
 (7) John  
 (8) Q Public fit into that category alertness at midnight is  
 (9) actually fairly high As I mentioned the minimum of alertness  
 (10) the peak of sleepiness doesn't occur until many hours later  
 (11) MR LYNCH Your Honor one moment  
 (12) Your Honor may I approach? I'll just hand the witness a  
 (13) paper copy This is DX3495 Alpha [sic] For record keeping  
 (14) purposes Your Honor I will offer the exhibit on the screen  
 (15) (Exhibit 2495 offered)  
 (16) MR GERRY No objection Your Honor  
 (17) MR LYNCH Offer DX1744  
 (18) (Exhibit 1744 offered)  
 (19) THE COURT DX1744 is admitted  
 (20) (Exhibit 1744 received)  
 (21) MR LYNCH And I will offer - I believe Mr Gerry  
 (22) has no objection to 2495 Alpha  
 (23) (Exhibit 2495 offered)  
 (24) MR GERRY No objection Your Honor  
 (25) THE COURT Is it 24 or 34?  
 (26) MR LYNCH 2495 I misspoke Your Honor  
 (27) THE COURT Okay Defendants Exhibit 2495-A is also

Vol 21 3562

- (1) admitted
- (2) (Exhibit 2495 received)
- (3) BY MR LYNCH
- (4) Q Dr Richardson I put up on the screen another chart and
- (5) maybe you could try to help us make some sense out of it
- (6) First of all what - what are the axes what is portrayed on
- (7) the vertical axis?
- (8) A Well, here again, what we've attempted to do is - is
- (9) summarize the normal sequence of alertness in an
- individual, so
- (10) on the vertical axis, again, we have estimated sleep latency
- (11) which is the time it would take them to fall asleep under
- (12) standardized conditions
- (13) Q So this is the Multiple Sleep Latency Test time to fall
- (14) asleep?
- (15) A That's right
- (16) Q Ranging from zero minutes to 20 minutes?
- (17) A Exactly
- (18) Q And the longer it would take?
- (19) A More alert the individual would be that's correct
- (20) Q And then along the horizontal axis what have we presented?
- (21) A Here we've expanded the scale somewhat representing
- the
- (22) days in question, March 22 and 23 of 1989 and we have
- time
- (23) marked midnight, noon and then midnight again on the
- 24th
- (24) Q Have you made any specific assumptions about the
- (25) geographical location of the individual?

Vol 21 3563

- (1) A Yes, as I mentioned we've since learned that the body's
- (2) biological clock is important in fixing this pattern in time
- (3) determining when the peaks are going to occur and when
- the
- (4) troughs are going to occur We also know that the body's
- clock
- (5) is oriented by sunlight and recognizing that Mr Cousins
- was
- (6) in a fairly far northern latitude at the time this all
- (7) occurred, we attempted to ascertain whether the unusual
- (8) sunlight pattern at the far northern latitude should require
- (9) some adjustment in his sleepiness pattern What's I
- depicted
- (10) is nautical twilight and sunrise, and end of nautical twilight
- (11) at the latitude approximating the Valdez on the day in
- (12) question, and what we've done is adjust - using our
- (13) simulations, we've adjusted the position of this curve to fit
- (14) that sunlight pattern
- (15) Q This blue line what does the blue line represent?
- (16) A The blue line is an average of our data on young and old
- (17) individuals Mr Cousins is a little older than our younger
- (18) subjects and much younger than our older subjects, so we
- (19) weighted the two curves as an average to produce an
- estimate of
- (20) his normal alertness
- (21) Q This is an attempt to portray the probable alertness based
- (22) on generalized study?
- (23) A That's correct
- (24) Q Of a person who had normal rest is that correct?
- (25) A That's correct

Vol 21 3564

- (1) Q And trying to adjust for age because you didn't have
- (2) subjects who exactly matched Mr Cousins age -
- (3) A That's correct
- (4) Q - as of these dates? What are these red bars?
- (5) A Well the red bars encompass the period of relevant
- (6) sunlight meaning the twilight the twilight period between
- the
- (7) onset of nautical twilight and sunrise and the onset of
- sunset
- (8) and the end of nautical twilight in the evening
- (9) Q Now in this gray bar down here on the bottom there are
- (10) these boxes and would you explain what those represent?
- (11) A From the depositions testimony that I reviewed, we've
- (12) obtained the estimated times at which Muster - or the times,
- (13) rather, at which Mr Cousins worked and slept The first
- box,
- (14) then, is his p m watch from 2000 hours to midnight on the
- (15) night before the incident in question
- (16) Q So this would be from 8 00 p m to midnight on March 22nd?
- (17) A That's correct Midnight would be on the morning of the
- (18) 23rd Then his reported nocturnal sleep or nighttime sleep
- (19) episode when he reports that he went to sleep that night
- (20) Q How much sleep did you -
- (21) A Did we allow him?
- (22) Q Did you understand that he had then?
- (23) A He reported that he went to bed at approximately one and
- (24) was called for duty the next morning at 7 20 so we gave him
- (25) six and a third hours of sleep

Vol 21 3565

- (1) Q What's the next entry?
- (2) A The next entry is his morning watch on the 23rd,
- beginning
- (3) at eight in the morning and running until noon
- Subsequently,
- (4) the nap that he reported taking at roughly 1 00 in the
- (5) afternoon and lasting until he was called at 1700 hours
- (6) Q Now can you tell the jury what if any conclusions you
- (7) drew from the data represented on this exhibit?
- (8) A Yes The conclusions we drew was that based on this
- these
- (9) data we had every reason to expect that Mr Cousins
- should be
- (10) very alert Sleepiness was clearly not relevant in the
- (11) description of his behavior at the time, specifically for
- (12) several reasons, but briefly, because the - the nocturnal
- (13) sleep episode The nighttime sleep episode you'll note,
- (14) corresponds precisely with the optimal time of sleep, it
- (15) occurred right in the minimum of alertness and brackets
- that
- (16) minimum on either side in almost an ideal fashion
- (17) Q Let me just interrupt you for a second Is there a point
- (18) on this 20 to zero minutes spectrum where you begin to judge
- (19) people as being quite sleepy or very prone to go to sleep?
- (20) A The point at which someone can sleep is actually a very
- (21) individual issue Sleep becomes possible and sense of
- (22) sleepiness becomes real in most people somewhere below
- ten
- (23) minutes Performance real serious performance errors are
- (24) described in individuals below five minutes
- (25) Q So if I understand you correctly unless you get into the

Vol 21 3566

- (1) gray area which the line doesn't get into a person is able to
- (2) perform even if they may wish they could get to sleep?
- (3) A Well, we have to be careful there. The data on this
- (4) particular point are based on the facts that severely sleepy
- (5) individuals almost routinely will show sleep latency below
- (6) five minutes, and that has become a kind of marker. For
- (7) example, if
- (8) we have a patient who tells us that they're severely sleepy
- (9) because they have narcolepsy or sleep apnea syndrome, we
- (10) would
- (11) define sleepiness of a degree sufficiently severe to impair
- (12) their ability to drive a car, for example, as that sleepiness
- (13) which occurs below a Multiple Sleep Latency Test of five
- (14) minutes.
- (15) Q And in this time frame here, if - assuming that the
- (16) standard curve applied, the sleep latency would have gone
- (17) down
- (18) to a low about what, about five in the morning or something?
- (19) A That's correct.
- (20) Q And then gone up and now the same is true here, is
- (21) there - is there any cultural significance to the biological
- (22) fact that people have a tendency to sleep in the afternoon?
- (23) A Well, that's the origin, of course, of the siesta. Siesta
- (24) cultures make use of that increase in sleepiness in the
- (25) afternoon and routinely nap at that time. The interesting
- (26) aspect I think for western cultures, maybe a cautionary
- (27) lesson
- (28) is that that biology occurs in all of us, we all develop an
- (29) increase in sleepiness in the early afternoon hours. We as
- (30) a

Vol 21 3567

- (1) society have elected to ignore it.
- (2) Q Dr. Richardson, you made the comment that you don't
- (3) typically get into the five-minute sleep latency range unless
- (4) you've been deprived of sleep. Did you consider whether there
- (5) was any evidence that Third Mate Cousins was chronically
- (6) deprived of sleep as of March 23, 1989?
- (7) A We did. We reviewed the deck logs. The depositional
- (8) testimony on the days leading up to these days is limited.
- (9) There is little data, direct data on whether or how much he
- (10) slept. Inferring from his own testimony about how he was
- (11) doing
- (12) and his deck logs and his discussion of a typical day, we
- (13) were
- (14) able to conclude that it was reasonable to expect that he
- (15) was
- (16) sleeping a normal amount for the days leading up to the
- (17) time in
- (18) question.
- (19) Q Did you find any evidence from which you could conclude on
- (20) the basis of a scientific probability that he was - that he
- (21) was chronically deprived of sleep as of daybreak?
- (22) A No, sir.
- (23) Q Even March 23?
- (24) A No, sir, there was no reason to conclude that.
- (25) Q In your own opinion, is it appropriate to use the blue line
- (26) measuring the sleep latency of a person who has an adequate
- (27) history of sleep?
- (28) A We feel it is, yes.
- (29) Q Now, could you explain the eyebrow on the second pump of

Vol 21 3568

- (1) the -
- (2) A Yes, sir, the eyebrow is an attempt to - most of the data
- (3) that - or the data that we used in this model, in the
- (4) development of this estimate, were based on an individual
- (5) who
- (6) was sleeping at night but not napping for a long period of
- (7) time
- (8) during the day. So what we did in this case is we took data
- (9) actually that Dr. David Dinges and others have collected
- (10) showing that the nap occurring at that time will increase
- (11) alertness subsequent to the nap. So actually, napping for a
- (12) long period of time in the early afternoon will raise your
- (13) alertness levels beyond what they would normally be in the
- (14) early evening.
- (15) Taken from data by David and others, taking a conservative
- (16) estimate of what that increment would be, the top of the
- (17) eyebrow, the top of the yellow portion describes what we
- (18) would
- (19) conservatively estimate Mr. Cousins' alertness to be for the
- (20) hours following his nap.
- (21) Q Dr. Richardson, in connection with the analysis of
- (22) Mr. Cousins' situation that you did, were there other factors
- (23) which, in your professional judgment, would have contributed
- (24) to
- (25) an alertness on Mr. Cousins' part in the period from, say, ten
- (26) of 12 until ten after 12, around midnight of March 23?
- (27) A Well, I think it's significant to try and examine those
- (28) events in detail. We spend a lot of time working with shift
- (29) workers who are working much - in a much more - a much
- (30) later

Vol 21 3569

- (1) time of the night, helping them identify things that they can
- (2) do to minimize sleepiness. Many of those were inherent in
- (3) the
- (4) actions that Mr. Cousins took. From what we were able to
- (5) ascertain, for example, he was physically and mentally
- (6) active
- (7) during that entire period. The tasks he describes and which
- (8) others describe him performing include going out onto the
- (9) bridge wing into what really was rather bracing cold arctic
- (10) air
- (11) to take his sighting, his bearing on the Busby Island light.
- (12) This is something that we teach shift workers can result in a
- (13) significant improvement in alertness. The physical
- (14) movement
- (15) that he made around the bridge, all of that contributes to
- (16) alertness. We all know that sleepiness is more of an issue
- (17) when you're sitting rather than standing or walking around
- (18) and
- (19) physically active.
- (20) Q Would you recommend that the jury stand when watching
- (21) deposition?
- (22) A I was just going to say that actually some of this might be
- (23) relevant today.
- (24) THE COURT: Certainly relevant to what happens to me
- (25) after 12:00.
- (26) THE WITNESS: I think there are other aspects that
- (27) need to be considered about the alerting influence that
- (28) occurred at that time, allowing for the moment that sleepiness
- (29) might conceivably have been a factor, and I don't believe that
- (30) it was.

Vol 21 3570

- (1) The other thing to consider is that it is clear from the  
 (2) **depositional testimony** that this was not a boring situation for  
 (3) **Mr Cousins** Having responsibility lone responsibility for  
 (4) the ship was not something that he did routinely It was  
 (5) something that he clearly had to regard as a novel situation  
 (6) and under those circumstances it is reasonable to expect that  
 (7) the task itself would have some alerting impact just being  
 (8) in an unusual situation  
 (9) And then finally, there is a great deal of social  
 (10) interaction the idea that there were people coming and going  
 (11) the woman coming in to report the position of the - of the  
 (12) buoy the calls to the captain the interaction with the  
 (13) helmsman a fair degree of social interaction which is  
 (14) something we also teach shift workers can be alerting  
 (15) interacting with other individuals makes it much less likely  
 (16) that any sleepiness that might have been present would have  
 (17) impaired his performance  
 (18) Q Is there - you mentioned that you recommend getting fresh  
 (19) air and maybe stepping outside Is there a biological  
 (20) advantage or biological factor related to cold coldness the  
 (21) outside temperature?  
 (22) A Well, the mechanism whereby cold air alerts an individual  
 (23) is not entirely clear, but it is known that cold or stimulating  
 (24) air directly inhibits sleep and sleepiness that's been shown  
 (25) in several studies

Vol 21 3571

- (1) Q Did you see evidence that Mr Cousins like me was a heavy  
 (2) coffee user?  
 (3) A I have - I did come across that in the testimony, yes  
 (4) Q And what significance if any, did you see to that fact?  
 (5) A Well, coffee - we've studied a large number of shift  
 (6) workers and have heard very, very impressive accounts of  
 (7) coffee consumption, and there are several things that need to be  
 (8) considered about that rather limited description One of the  
 (9) things we found for example, is that when an individual  
 (10) reports drinking, particularly a shift worker, someone who's  
 (11) physically active and moving around as part of his job if he  
 (12) reports drinking five or six or ten or 20 cups of coffee a day,  
 (13) one has to be careful to question them about how much of a  
 (14) cup they actually get through The typical cup of coffee on a  
 (15) shift work situation gets thrown away half full or even more  
 (16) than that So being - one has to be very careful about  
 (17) extrapolating, about moving from a description of cups of  
 (18) coffee to any sort of estimate about how much caffeine they  
 (19) consumed  
 (20) More important, caffeine consumption on a regular day in,  
 (21) day out basis is very, very different than the individual who  
 (22) rarely drinks coffee and then has a large cup of coffee right  
 (23) before going to bed The adverse or the disruptive impact  
 (24) that coffee will have on sleep is significantly, even dramatically  
 (25) reduced in an individual who is used to that kind of caffeine

Vol 21 3572

- (1) consumption  
 (2) And finally, one of the things we've gone back and forth  
 (3) with shift workers is that it is possible that coffee can be a  
 (4) disruptive influence if it's alerting, but it's also a  
 (5) countermeasure It's also something you can do to improve  
 (6) alertness when sleepiness occurs So to the extent that  
 (7) Mr Cousins was drinking coffee at the time in question we  
 (8) would expect that to be yet another reason not to worry  
 (9) about  
 (10) sleepiness in this particular setting  
 (11) Q On the whole Dr Richardson do you believe there is a  
 (12) scientific basis to conclude that it is probable that any  
 (13) mistakes made by Third Mate Cousins on the night of March 23  
 (14) 24 were attributable to a lack of sleep?  
 (15) A No, sir, I don't think there's a basis for that  
 (16) MR LYNCH I have no further questions Your Honor  
 (17) THE COURT You may cross-examine  
 (18) Fine Okay Let's take our first recess rather than break  
 (19) things up We'll be in recess for 15 minutes  
 (20) THE CLERK This court is in recess for 15 minutes  
 (21) (Jury out at 9 56 a m )  
 (22) (Jury in at 10 13 a m )  
 (23) MR GERRY May I proceed Your Honor?  
 (24) THE COURT You may cross-examine Mr Gerry  
 (25) CROSS EXAMINATION OF GARY RICHARDSON (Live)  
 BY MR GERRY

Vol 21 3573

- (1) Q Dr Richardson my name is Dick Gerry and I represent the  
 (2) plaintiffs in this case I don't think we've ever met, have  
 (3) we?  
 (4) A We have not  
 (5) Q I understand that you're an instructor at the medical  
 (6) school in -  
 (7) A That's correct  
 (8) Q - Harvard, and you experiment in sleepiness lab Most of  
 (9) your experiments deal in your - in the relationship between  
 (10) sleepiness and your specialty of endocrinology, do they not?  
 (11) A I'm sorry, I couldn't understand your question  
 (12) Q Most of your experiments in - experiments in your  
 (13) laboratory deal with the relationship between sleepiness and  
 (14) your specialty of endocrinology is that correct?  
 (15) A No, sir, I wouldn't say that Most of the work we've been  
 (16) doing looks at the relationship between sleep and  
 (17) sleepiness in  
 (18) normal individuals  
 (19) Q Okay As it applies to the body then?  
 (20) A That's correct  
 (21) Q The exhibits that were on the board, they do not reflect  
 (22) any examination that you ever did of Mr Cousins do they?  
 (23) A I've never examined Mr Cousins  
 (24) Q And you do not have any personal knowledge of whether or  
 (25) not he is a normal individual, as far as sleep is concerned a  
 normal individual or whether he has any kind of abnormalities,

Vol 21 3574

- (1) is that correct?
- (7) A Beyond the depositions testimony that describes him as reporting that he feels well rested no sir, I do not
- (3) reporting that he feels well rested no sir, I do not
- (4) Q And what you have done is to take a series of experimental data which you have put up on the first exhibit and constructed another exhibit which is a hypothetical of what Mr Cousins may be like if he is a normal individual right?
- (6) another exhibit which is a hypothetical of what Mr Cousins may be like if he is a normal individual right?
- (7) be like if he is a normal individual right?
- (8) A That's a reasonable statement of a hypothetical situation, yes
- (9) yes
- (10) Q And it also does not take into account any variation in the fact that it may be caused by the fact that he doesn't work an eight hour day but works a split shift does it?
- (11) fact that it may be caused by the fact that he doesn't work an eight hour day but works a split shift does it?
- (12) eight hour day but works a split shift does it?
- (13) A On the contrary We did attempt to include that aspect of his day into the model and, as I mentioned, one consequence of
- (14) his day into the model and, as I mentioned, one consequence of
- (15) the split shift was the nap, and we attempted to add just the model for the sleep he obtained during the nap
- (16) model for the sleep he obtained during the nap
- (17) Q Dr Richardson you do not know of any studies of split shift workers do you?
- (18) shift workers do you?
- (19) A There are limited data on split shift workers I am aware of reports, actually, having to do with that shift
- (20) of reports, actually, having to do with that shift
- (21) Q And you - so what you did was to as you did with the entire model you attempted to determine without facts from studies what the situation would be with a split shift worker like Mr Cousins isn't that correct?
- (22) like Mr Cousins isn't that correct?
- (23) studies what the situation would be with a split shift worker like Mr Cousins isn't that correct?
- (24) like Mr Cousins isn't that correct?
- (25) A To the extent that we adjusted the model to fit his

Vol 21 3575

- (1) sleep/wake schedule and I think that's the relevant part of his shift work schedule We did extrapolate from data, from facts most of them provided in articles written by Dr Dinges
- (2) his shift work schedule We did extrapolate from data, from facts most of them provided in articles written by Dr Dinges
- (3) facts most of them provided in articles written by Dr Dinges
- (4) Dr Dinges
- (5) Q And Dr Dinges is an expert in the field of napping is he not?
- (6) not?
- (7) A I would consider him that yes
- (8) Q And he is also an expert in the field of fatigue?
- (9) A As I've mentioned I have trouble with that term He describes himself as an expert in the field of fatigue
- (10) describes himself as an expert in the field of fatigue
- (11) Q And you are not an expert in the field of fatigue are you?
- (12) A I would consider myself an expert in the field of sleepiness
- (13) sleepiness
- (14) Q And a person may be fatigued without being sleepy may they not?
- (15) not?
- (16) A Well now you're asking me to use what I consider to be a colloquial and imprecise term I say a person may describe themselves as being fatigued without being sleepy I would agree with that statement
- (17) now you're asking me to use what I consider to be a colloquial and imprecise term I say a person may describe themselves as being fatigued without being sleepy I would agree with that statement
- (18) themselves as being fatigued without being sleepy I would agree with that statement
- (19) agree with that statement
- (20) Q Is it a colloquial term when it is used by the governmental bodies who study fatigue for which Dr Dinges does his work?
- (21) bodies who study fatigue for which Dr Dinges does his work?
- (22) A It's a term like many others I mean when we use terms in research, we like to have them have very precise meanings The government also uses a term like rest or activity two things which also have very imprecise meanings I think the issue is
- (23) research, we like to have them have very precise meanings The
- (24) government also uses a term like rest or activity two things
- (25) which also have very imprecise meanings I think the issue is

Vol 21 3576

- (1) less whether the term is precise or not but simply that, in my view, the situation here is better described as a question of whether or not the individual was sleepy
- (2) view, the situation here is better described as a question of whether or not the individual was sleepy
- (3) whether or not the individual was sleepy
- (4) Q Would you - is it colloquial then if it is used by the governmental bodies in naming themselves? Is that what you mean by colloquial? That's the question
- (5) governmental bodies in naming themselves? Is that what you mean by colloquial? That's the question
- (6) mean by colloquial? That's the question
- (7) A I think we are forced to - we can't simply ignore the term and I'm not suggesting that we do We routinely, for example,
- (8) and I'm not suggesting that we do We routinely, for example,
- (9) ask our shift workers or our patients do you feel sleepy, do you feel fatigued, do you feel tired, because we know that individuals in general may use any one of those terms, and we have to be ready for a very broad and very general use of a concept that we're trying to get to, so that's what I mean by the term colloquial, forces us to address and use the term
- (10) you feel fatigued, do you feel tired, because we know that individuals in general may use any one of those terms, and we have to be ready for a very broad and very general use of a concept that we're trying to get to, so that's what I mean by the term colloquial, forces us to address and use the term
- (11) individuals in general may use any one of those terms, and we have to be ready for a very broad and very general use of a concept that we're trying to get to, so that's what I mean by the term colloquial, forces us to address and use the term
- (12) have to be ready for a very broad and very general use of a concept that we're trying to get to, so that's what I mean by the term colloquial, forces us to address and use the term
- (13) concept that we're trying to get to, so that's what I mean by the term colloquial, forces us to address and use the term
- (14) the term colloquial, forces us to address and use the term
- (15) Q My question -
- (16) A And the government used - I would just say that the government is being imprecise, something that I think they might not object to
- (17) government is being imprecise, something that I think they might not object to
- (18) might not object to
- (19) Q Not colloquial?
- (20) A Imprecise
- (21) Q But imprecise when they name their bodies to study fatigue okay Do people vary in their circadian clocks that you were talking about the clocks that are in their head?
- (22) okay Do people vary in their circadian clocks that you were talking about the clocks that are in their head?
- (23) talking about the clocks that are in their head?
- (24) A Individuals vary with regards to the precise parameters of those clocks
- (25) those clocks

Vol 21 - 3577

- (1) Q And isn't it a fact that you do not know whether or not Mr Cousins has a clock which fits within your norm or whether he has a clock that may be outside your norm?
- (2) Mr Cousins has a clock which fits within your norm or whether he has a clock that may be outside your norm?
- (3) he has a clock that may be outside your norm?
- (4) A I - before I left for Alaska, I stopped in to the laboratory where I work and asked them to estimate the total number of individuals of all ages in whom we have precisely characterized the circadian clock, and we've studied roughly 280 individuals and the variance around that, around those parameters is remarkably small in people who don't have severe neurologic problems So I think it's a reasonable assumption that although individuals vary from individual to individual, that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (5) laboratory where I work and asked them to estimate the total number of individuals of all ages in whom we have precisely characterized the circadian clock, and we've studied roughly 280 individuals and the variance around that, around those parameters is remarkably small in people who don't have severe neurologic problems So I think it's a reasonable assumption that although individuals vary from individual to individual, that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (6) number of individuals of all ages in whom we have precisely characterized the circadian clock, and we've studied roughly 280 individuals and the variance around that, around those parameters is remarkably small in people who don't have severe neurologic problems So I think it's a reasonable assumption that although individuals vary from individual to individual, that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (7) characterized the circadian clock, and we've studied roughly 280 individuals and the variance around that, around those parameters is remarkably small in people who don't have severe neurologic problems So I think it's a reasonable assumption that although individuals vary from individual to individual, that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (8) 280 individuals and the variance around that, around those parameters is remarkably small in people who don't have severe neurologic problems So I think it's a reasonable assumption that although individuals vary from individual to individual, that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (9) parameters is remarkably small in people who don't have severe neurologic problems So I think it's a reasonable assumption that although individuals vary from individual to individual, that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (10) neurologic problems So I think it's a reasonable assumption that although individuals vary from individual to individual, that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (11) that although individuals vary from individual to individual, that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (12) that that variance is small and that Mr Cousins, who I am presuming to be a normal individual would fall well within those parameters
- (13) presuming to be a normal individual would fall well within those parameters
- (14) those parameters
- (15) Q A person can be a normal individual and have a circadian clock that doesn't fall within your parameters can't they?
- (16) clock that doesn't fall within your parameters can't they?
- (17) A I would find that surprising
- (18) Q Well normal in all other aspects besides having this -
- (19) A As I mentioned the only severe deviations we've seen from our understanding of the clock, occur in very old individuals and in individuals with neurologic disease
- (20) our understanding of the clock, occur in very old individuals and in individuals with neurologic disease
- (21) and in individuals with neurologic disease
- (22) Q Does that explain why I tend to doze off here when I'm supposed to be widest awake according to your clock?
- (23) supposed to be widest awake according to your clock?
- (24) A There may be several explanations for that, sir, but I don't think any of them have to do with your clock
- (25) don't think any of them have to do with your clock

Vol 21 3578

- (1) Q I see
- (2) THE COURT Show stopper wasn't it?
- (3) MR GERRY These young people don't contradict me that much
- (4) BY MR GERRY
- (5) Q It's interesting to me to note that you've increased
- (6) Mr Cousins' alertness. Is that what happens with your
- (7) eyebrow?
- (8) A The intention of the yellow portion of this figure is to
- (9) make use of data provided by Dr. Dinges and others to
- (10) estimate
- (11) what the increment in the Multiple Sleep Latency Test would
- (12) be
- (13) with a nap of this duration
- (14) Q But you don't know what the duration of the nap was, do
- (15) you?
- (16) A We know the reported duration of the nap, sir
- (17) Q In fact, you do not know how much sleep Mr. Cousins got
- (18) that day?
- (19) A We know the reported duration of sleep, sir
- (20) Q And it is - in your experience, those reports are not
- (21) totally accurate, isn't that correct?
- (22) A I think it is common for individuals to not precisely
- (23) estimate sleep. The error can vary from individual to
- (24) individual.
- (25) Q The - you are not an expert in the alerting factor of
- thermoregulation, are you?

Vol 21 3579

- (1) A My principal field of research is not thermoregulation. I
- (2) wouldn't describe myself as an expert in that area.
- (3) Q And you recall in your deposition you were asked whether or
- (4) not you were an expert. You said, well, I'm not an expert in
- (5) how thermoregulation is accomplished, is that correct?
- (6) A I have a very - I did say that in my deposition, yes, sir.
- (7) I have a very precise -
- (8) Q You want to contradict it now?
- (9) A No, I would only say that I - I did my undergrad honors
- (10) work for a man who is probably the leading expert in
- (11) thermoregulation and alertness, Dr. Craig Heller, and I'm
- (12) more
- (13) than passingly familiar with the principal, that I discussed
- (14) the relationship between cold and alertness.
- (15) Q Do you know whether or not Mr. Cousins drank any coffee
- (16) during the 15 or 20 minutes, half hour on the bridge that day?
- (17) A I do not know that, sir, no.
- (18) Q From what study did you get the fact that half of the
- (19) coffee that is poured on a ship is thrown out?
- (20) A I didn't say on a ship, sir. I said studies have shown
- (21) and our studies of shift workers where the amount of coffee
- (22) consumption was a very important issue, as we followed
- (23) shift
- (24) workers around typically, and then asked them the next day
- (25) to
- report how much coffee they would consume, our own
- people would
- report them throwing away cups that were more than half
- full
- and they would report that as, quotes, a cup of coffee

Vol 21 3580

- (1) Q You have no study or data at all as to whether or not that
- (2) is true of ships or, in particular, of Mr. Cousins, do you?
- (3) A No, sir, I do not.
- (4) Q Thank you. It's interesting to note on your chart here
- (5) that following the eight p.m. watch when he goes on watch, his
- (6) alertness is at the highest level of the day, right? According
- (7) to your chart?
- (8) A That's correct.
- (9) Q And it begins to fall from then until the vessel runs
- (10) aground, doesn't it?
- (11) A That's correct, it does.
- (12) Q And you were asked to determine whether or not sleepiness
- (13) was one of the causes of the - was one of the causes of any
- (14) errors that might have been made by Mr. Cousins, were you
- (15) not?
- (16) A It's one of the things I was asked to do, yes, sir.
- (17) Q And I'd like to read to you from page 293, 94 of your
- (18) deposition, 293, at page - at line 19 is your answer to - as
- (19) I mentioned repeatedly, these terms developed in the
- (20) laboratory
- (21) are extremely hard to apply in the real life setting, and
- (22) that's one of the reasons I feel so strongly that one cannot
- (23) infer that sleepiness was a cause of these errors because
- (24) they're not easily categorized as the type of error
- (25) characteristic of sleepiness.
- Q A Strictly speaking, the error simply is that a very complex
- task wasn't performed correctly and it's impossible in my
- view

Vol 21 3581

- (1) to dissect that task adequately and identify errors of
- (2) omission
- (3) that would have been characteristic of sleepiness. That's
- (4) your
- (5) conclusion, is it not?
- (6) A That's one of the conclusions. The specific context -
- (7) MR GERRY Thank you, sir. That's all.
- (8) REDIRECT EXAMINATION OF GARY RICHARDSON (Live)
- (9) BY MR LYNCH
- (10) Q Did you want to explain the context of the passage that
- (11) Mister -
- (12) A Yes, actually I did. The question I was asked to, which
- (13) that was the answer, was whether errors of omission,
- (14) sleepiness
- (15) related errors were committed. The problem I found was
- (16) that
- (17) Dr. David Dinges, in attempting to prove that point,
- (18) described
- (19) various actions taken by Mr. Cousins as errors of omission
- (20) which he failed to act. And in my view, one cannot look at
- (21) something as complex as piloting a ship and conclude that
- (22) anything that was done or wasn't done was an error of
- (23) omission.
- (24) Q Now, Mr. Gerry asked you some questions about whether you
- (25) had examined Third Mate Cousins, do you remember that
- question?
- A I do
- Q And whether you had information about his circadian clock
- and how it related to those that have been calibrated for other
- people, do you remember those questions?
- A Yes, I recall that

Vol 21 3582

- (1) Q Now first of all in science the process of the research  
 (2) you do is designed to enable you to apply or establish rules  
 (3) that you can apply to other people when they come in the door?  
 (4) A That's a fair statement  
 (5) Q And when you treat people you apply these general insights  
 (6) that you've learned from research to the people who come in for  
 (7) treatment?  
 (8) A Yes  
 (9) Q And they get better?  
 (10) A That's correct, when we're lucky, I would say they get  
 (11) better  
 (12) Q We hope they get better As a scientist are you satisfied  
 (13) that on the data available from the records that exist the  
 (14) conclusion that you testified to that there - that there's no  
 (15) basis to infer that sleepiness was a cause of any errors Third  
 (16) Mate Cousins may have committed is a scientifically accurate  
 (17) answer?  
 (18) A Yes, I believe that it's consistent and accurate to the  
 (19) best of our ability to do that  
 (20) MR LYNCH I have no other questions Your Honor  
 (21) THE COURT Thank you sir You may step down  
 (22) MR SANDERS May it please the Court we call  
 (23) Mr John Tompkins  
 (24) THE CLERK Raise your right hand please  
 (25) (The Witness is Sworn)

Vol 21 3583

- (1) THE CLERK For the record sir state your full name  
 (2) your address and spell your last name please  
 (3) THE WITNESS My name is John Tompkins it's  
 (4) T O M P K I N S I live at 2327 Willow Pass Kingwood Texas  
 (5) DIRECT EXAMINATION OF JOHN TOMPKINS (Live)  
 (6) BY MR SANDERS  
 (7) Q Mr Tompkins let me ask you to speak into that silver  
 (8) microphone or lean forwards so we can hear you a little bit  
 (9) better  
 (10) I'd like you to tell the jury your educational background  
 (11) first?  
 (12) A I'm a graduate of the United States Merchant Marine  
 Academy  
 (13) in 1965 I got a bachelor of science degree in engineering I  
 (14) then got a masters in business administration from Adelphi  
 (15) University in 1976  
 (16) Q The last university was Adelphi?  
 (17) A Adelphi University on Long Island  
 (18) Q Long Island Now when did you start working for Exxon?  
 (19) A In 1965  
 (20) Q All right And do you work for Exxon now?  
 (21) A I work for an affiliate of Exxon  
 (22) Q Sea River?  
 (23) A Sea River Maritime  
 (24) Q And from '65 to the present have you worked continuously  
 (25) with Exxon or one of Exxon's affiliates?

Vol 21 3584

- (1) A That's correct  
 (2) Q All right Would you briefly describe the jobs that you've  
 (3) had at Exxon and I'm going to stop you at about the time you  
 (4) get to 1983  
 (5) A In 1965, I sailed on the vessels of Exxon - or actually  
 (6) ESSO tankers, and I sailed until 1968, at which time I came  
 to  
 (7) Exxon International in New York, and I was there until 1976  
 and  
 (8) with various positions  
 (9) In 1976, I transferred to Exxon - or actually it was Exxon  
 (10) Company U S A Marine Department in Houston, and I  
 worked as an  
 (11) assistant to the operations manager at that time  
 (12) In 1977, I became the gulf coast fleet manager in that  
 (13) department, and I had that job until 1985  
 (14) Q Didn't get to stop you at 83 Roared right by me You  
 (15) were then the gulf coast fleet manager for the marine  
 (16) department of Exxon U S A and then for Exxon Shipping  
 Company  
 (17) between 1977, is that correct and 1985?  
 (18) A That's correct  
 (19) Q And as - what was - what were your duties as the fleet  
 (20) manager for the gulf coast during that time frame?  
 (21) A I had the overall responsibility for the operation of that  
 (22) fleet which included various aspects, safe operation, safety  
 (23) personnel, and cost control associated with that fleet  
 (24) Q All right And in doing that job did you have a staff  
 (25) under you to assist you in performing that job?

Vol 21 3585

- (1) A Yes, I did  
 (2) Q Now in the - in the years that you were the fleet manager  
 (3) for the gulf coast did you have two principal liaisons between  
 (4) you and the vessels?  
 (5) A Yes I did  
 (6) Q And they were what?  
 (7) A One was the port captain and the other one was the port  
 (8) engineer, both of which were people from the fleet  
 (9) Q Okay Now were they in the line of management or  
 (10) authority between you and the ship captains or were they kind  
 (11) of out to the side?  
 (12) A They were kind of out to the side Ship captains reported  
 (13) to myself  
 (14) Q In other words you were the direct supervisor of the  
 (15) captains in the gulf coast fleet during the time that you were  
 (16) the gulf coast fleet manager?  
 (17) A That's correct  
 (18) Q And in this time frame that we're talking about were you  
 (19) the supervisor for Captain Joe Hazelwood?  
 (20) A Yes, I was  
 (21) Q Do you remember the year or the approximate date which  
 (22) he - in which he came to the gulf coast as a captain?  
 (23) A He came to my fleet at the end of 1982 very, very early in  
 (24) '83  
 (25) Q Did he remain under your supervision from that time until

Vol 21 3586

- (1) the time you left the job of gulf coast fleet manager?  
 (2) **A Yes, he did**  
 (3) **Q All right And do you recall the exact date that you left**  
 (4) **as gulf coast fleet manager?**  
 (5) **A It was about September of 1985, I took on a new assignment**  
 (6) **Q What was your new assignment?**  
 (7) **A New assignment was to manage a special project for Exxon**  
 (8) **Shipping Company**  
 (9) **Q And what was that called?**  
 (10) **A That project was called EXCEL**  
 (11) **Q And I think there s been some testimony from Second Mate**  
 (12) **Lloyd LeCain that that involved exercises where people put**  
 (13) **hoods on, and is that part of your program at EXCEL?**  
 (14) **A Well, the design of the program was to enhance the**  
 (15) **leadership capability of our organization and to improve the**  
 (16) **teamwork and the decision making process**  
 (17) **Q How long did this EXCEL program last? How long did you**  
 (18) **head that up?**  
 (19) **A Until about 1986, the latter part of '86**  
 (20) **Q So this was a program to enhance and promote leadership**  
 (21) **and**  
 (22) **teamwork that consumed over a year of your life?**  
 (23) **A Yes, maybe a little more**  
 (24) **Q All right And in doing this program is that something**  
 (25) **that was used exclusively with the ships and ship personnel or**  
 (26) **was that for shoreside also?**

Vol 21 3587

- (1) **A That was all people that - employees of Exxon Shipping**  
 (2) **Company, including shoreside and seagoing**  
 (3) **Q Let me take you back to the spring of 1985 You were of**  
 (4) **course gulf coast fleet manager in the spring of 1985?**  
 (5) **A That's correct**  
 (6) **Q And Captain Hazelwood was a captain under your direct**  
 (7) **supervision in the spring of 1985 was he not?**  
 (8) **A Yes, he was**  
 (9) **Q Did you become aware in the spring of 1985 that Captain**  
 (10) **Hazelwood went on medical leave?**  
 (11) **A Yes, I did**  
 (12) **Q And did you become aware - do you know about when you**  
 (13) **found that out?**  
 (14) **A It was sometime in the latter part of March that I**  
 (15) **understood that, when I received a phone call**  
 (16) **Q Okay And from whom did you receive a call?**  
 (17) **A I received that call from Mister - Captain Hazelwood**  
 (18) **telling me that he was checking himself into rehabilitation**  
 (19) **Q Did he tell you what kind?**  
 (20) **A I'm sorry, I didn't hear the question**  
 (21) **Q I m sorry Did he tell you what kind of rehabilitation?**  
 (22) **A Yes, I do - I think I recall him saying for alcoholism**  
 (23) **Q In any event at some point thereafter you did understand**  
 (24) **that his treatment did involve alcohol is that correct?**  
 (25) **A Yes, I did**

Vol 21 3588

- (1) **Q So by the late spring of 1985 you knew that one of your**  
 (2) **captains that you supervised had gone into some sort of a**  
 (3) **treatment program which did involve alcohol am I right?**  
 (4) **A That's correct**  
 (5) **Q All right Now did Captain Hazelwood return to work while**  
 (6) **you were still his supervisor?**  
 (7) **A Yes, he did**  
 (8) **Q Prior to his returning to work did you do anything?**  
 (9) **A Yes I did I arranged to have a meeting with Captain**  
 (10) **Hazelwood**  
 (11) **Q Do you recall getting a phone call about having such a**  
 (12) **meeting?**  
 (13) **A Well I recall that - I believe it was Ben Graves had**  
 (14) **called me and suggested that I have a meeting with Captain**  
 (15) **Hazelwood before he returns He suggested that I make**  
 (16) **sure he**  
 (17) **understands that he only has one more chance when he**  
 (18) **comes**  
 (19) **back, and he also suggested that I should have some kind of**  
 (20) **way**  
 (21) **to keep an eye on him, make sure I monitor him when he is**  
 (22) **back**  
 (23) **in the fleet**  
 (24) **Q All right Did Mr Graves tell you that that - those**  
 (25) **suggestions came from someone else or did he just simply tell**  
 (26) **you I suggest this?**  
 (27) **A I don't recall I don't recall**  
 (28) **Q Okay Now had you had the experience and I'm not -**  
 (29) **don t want to ask you any names but had you had the**  
 (30) **experience**

Vol 21 3589

- (1) **by this time in the summer of 1985 of having someone who had**  
 (2) **some sort of a chemical problem chemical problem involving**  
 (3) **either abuse or dependency go away to treatment and then**  
 (4) **come**  
 (5) **back to work?**  
 (6) **A Yes I did**  
 (7) **Q All right Now based on that is the prompting that you**  
 (8) **got - was the prompting that you got from Mr Graves was that**  
 (9) **necessary?**  
 (10) **A Not really I had intended to meet with Captain**  
 (11) **Hazelwood I wanted to make sure that I had my own**  
 (12) **evaluation,**  
 (13) **that I knew that - I felt comfortable that he was in pretty**  
 (14) **good shape, how he looked, how he chatted**  
 (15) **I had some other things that I wanted to talk to him**  
 (16) **about I also wanted to make sure that he understood that**  
 (17) **he**  
 (18) **had his opportunity for rehabilitation and that he cannot**  
 (19) **afford to have any further problem with alcohol or he would**  
 (20) **be**  
 (21) **disciplined**  
 (22) **Q All right Now when you say you intended to do these**  
 (23) **things, did you form that intention sometime in the summer of**  
 (24) **1985?**  
 (25) **A Yes, that was -**  
 (26) **Q Or late spring?**  
 (27) **A I don't know about late spring, but I would say that would**  
 (28) **be my normal activity and I was planning on doing that**  
 (29) **Q In fact Mr Tompkins were arrangements made to have**

Vol 21 3590

- (1) Captain Hazelwood come through Houston on his way to his next  
 (2) assignment?  
 (3) A Yes, they were  
 (4) Q Did you make those arrangements or did you have somebody  
 (5) do that?  
 (6) A I can't recall I think I made those arrangements myself,  
 (7) but I could have asked someone to do them on my behalf  
 (8) Q Did there come a time when Captain Hazelwood actually came  
 (9) to Houston Texas, and you had a meeting with him?  
 (10) A Yes, there was  
 (11) Q All right Now at the time that this occurred your  
 (12) office as the gulf coast fleet manager was where?  
 (13) A In Baytown Texas  
 (14) Q Okay And do you recall where you met Captain Hazelwood?  
 (15) A Yes, I do  
 (16) Q Where is that?  
 (17) A That was at the Windham Hotel near the airport, Houston  
 (18) Intercontinental Airport  
 (19) Q Now prior to going to the Windham Hotel did a problem  
 (20) arise with respect to whether or not you thought you could make  
 (21) that meeting?  
 (22) A Yes, it did  
 (23) Q And as a result of that problem arising did you have a  
 (24) conversation with Captain Sheehy?  
 (25) A Yes I did

Vol 21 3591

- (1) Q Would you tell the Ladies and Gentlemen of the Jury as best  
 (2) you can recall what that conversation was or the gist of it?  
 (3) A Well, as mentioned, I was concerned that I may not be able  
 (4) to - to meet Captain Hazelwood so I asked Captain Sheehy who  
 (5) was my port captain to meet with him in case I can't get  
 (6) there And what I asked him to do was similar to what I  
 (7) mentioned to you before was that how does he act how does he  
 (8) look, how does he feel is he ready to come back make sure we  
 (9) kind of have the idea that - make sure he knows that he's -  
 (10) he's had his opportunity, he's had his chance and that he can't  
 (11) have any further problems in that type of area is what we  
 (12) talked about  
 (13) Q Mr Tompkins do you recall where you had this conversation  
 (14) with Captain Sheehy?  
 (15) A I believe it was in the Baytown office my office  
 (16) Q Were you on your way to go somewhere when you had this  
 (17) meeting?  
 (18) A Yes I -  
 (19) Q If you can recall  
 (20) A I was not too far away from going to this other activity  
 (21) that I was asked to come to  
 (22) Q Was there any sort of a rush in this meeting that you  
 (23) recall?  
 (24) A I think there may have been I can't recall totally, but I  
 (25) think so

Vol 21 3592

- (1) Q In any event did it turn out that you were able to meet  
 (2) with Captain Hazelwood?  
 (3) A Yes, I did  
 (4) Q Do you recall whether or not Captain Sheehy met with  
 (5) Captain Hazelwood that night also or that afternoon, whenever  
 (6) it was?  
 (7) A He did meet with him  
 (8) Q Do you recall who met with Captain Hazelwood first, you or  
 (9) Captain Sheehy?  
 (10) A I met with Captain Hazelwood first  
 (11) Q All right Do you recall what time of day this was?  
 (12) A Yes, it was in the very, very early evening of that  
 (13) particular day  
 (14) Q All right What time would that be in your -  
 (15) A I'd say it was around six, 6.30 something like that  
 (16) Q Mr Tompkins when you met with Captain Hazelwood, did you  
 (17) meet with him in a bar?  
 (18) A No, I didn't  
 (19) Q Where did you meet with him?  
 (20) A I met him in one of the conference rooms that was being  
 (21) used at that time, I think, if my recollection is correct, it  
 (22) was on the second floor in the Windham Hotel  
 (23) Q The potential conflict that you thought you might have that  
 (24) would have made you either late for the meeting with Captain  
 (25) Hazelwood or make you miss it do you recall what that was?

Vol 21 3593

- (1) A Yes, it - I don't recall exactly the details, but it had  
 (2) to do with a union related issue that I was called to - to get  
 (3) involved with  
 (4) Q Do you recall where that meeting was?  
 (5) A I think it was at the Woodlands which is a little ways  
 (6) away from the Windham Hotel  
 (7) Q Okay But fairly close?  
 (8) A Yeah I mean it's not too long, half hour  
 (9) Q All right You had - you then met with Captain Hazelwood  
 (10) in a conference room on the second floor of the Windham Hotel  
 (11) in Houston Texas near the airport Would you tell the Ladies  
 (12) and Gentlemen of the Jury, as best you recall it, what your  
 (13) conversation was with Captain Hazelwood?  
 (14) A Well again, what I wanted to do and what we did was to  
 (15) talk with each other, and my intent in the initial  
 (16) conversation  
 (17) was to see how Joe was, how he responded how'd he feel,  
 (18) and  
 (19) he - I thought he did quite well I asked him, I remember,  
 (20) was he ready to go back to work or something to that effect,  
 (21) and he was I also mentioned to him that - brought him up to  
 (22) date a little bit on the activities associated with the Exxon  
 (23) Yorktown, the ship he was going back to, and some of the  
 (24) things  
 (25) that had been going on in the fleet, and also my expectations,  
 (26) one of which was that he needs to understand that he's had his  
 (27) opportunity and that he cannot have any further problems with  
 (28) alcohol or he would have - he would be subject to discipline

Vol 21 3594

- (1) I also recall that we had a discussion about what type of  
 (2) support he may have or he may have planned was he  
 planning on  
 (3) going to any meetings when he got into port in order to  
 (4) continue to support his activity  
 (5) I don't recall all the details of the conversation but in  
 (6) general, that was what we talked about  
 (7) Q Well you just mentioned something about support Do you  
 (8) recall what his response was when you inquired about what  
 (9) support or meetings he intended?  
 (10) A Not really I really don't  
 (11) Q Now at the time that you had this meeting with Captain  
 (12) Hazelwood did you discuss with him what his diagnosis was?  
 (13) A No, I didn't  
 (14) Q Did you - at this time did you know what his diagnosis  
 (15) was?  
 (16) A Well, my understanding is he was treated for alcoholism  
 (17) Q All right But my question is did you know what the  
 (18) diagnosis was? I'm not asking your operating assumption  
 (19) A No, no I didn't know what the technical diagnosis was,  
 (20) no  
 (21) Q Had you discussed with the medical department anything  
 (22) about Captain Hazelwood?  
 (23) A No, I did not  
 (24) Q Had you seen any sort of a piece of paper like an  
 (25) individual disability report on which there was a diagnosis?

Vol 21 3595

- (1) A No, not that I can recall  
 (2) Q So then your - your assumption was that here was a guy who  
 (3) was an alcoholic right?  
 (4) A I would normally not see that kind of form, my assumption  
 (5) was he was treated and he was ready to come back to work  
 (6) Q And with that assumption did you have any sort of a plan  
 (7) to watch Captain Hazelwood?  
 (8) A Well I had a plan that when he comes into port, I would  
 (9) try to visit the ship as much as I could, recognizing that I  
 (10) was - very short period of time, I was transferring out of  
 (11) that job, but I had planned to do that and my recollection is  
 (12) I got to visit, I believe, on one occasion before I left my  
 (13) position  
 (14) Q Now I asked you about your plan or your intention Did  
 (15) you think that was adequate for the job?  
 (16) A Yes, if -  
 (17) Q Why do you think that your plan, your intent with respect  
 (18) to Captain Hazelwood was adequate to deal with the situation  
 (19) that you thought you had?  
 (20) A Well, if - if Captain Hazelwood, assuming he was an  
 (21) alcoholic, which that was my understanding, then if he  
 started  
 (22) to drink again, he wouldn't be able to - I don't believe he  
 (23) could control that So my visiting the ship, I would clearly  
 (24) learn that he had a problem and I most likely would have a  
 high  
 (25) probability of seeing that and talking with him

Vol 21 3596

- (1) Q All right Now would you rely solely upon your own  
 (2) observations?  
 (3) A Well I had planned primarily to do that I didn't ask  
 (4) anyone else to do that kind of thing  
 (5) Q But whether or not you asked them did you think that you  
 (6) would be able to detect other than from your own observations  
 (7) of him any sort of problems that might crop up?  
 (8) A Clearly When I go aboard the vessel I would be chatting  
 (9) with other folks and I know that I felt that I had the respect  
 (10) of others in the organization, that if there was a problem  
 that  
 (11) I would have - that I would be made aware of that  
 (12) Q You think it's realistic to expect that people in the  
 (13) fleet - was it realistic for you to expect that people in the  
 (14) fleet would let you know if they saw a problem with Captain  
 (15) Hazelwood?  
 (16) A I think so  
 (17) Q What's your basis for thinking that?  
 (18) A Because I have been told in the past when there was an  
 (19) individual that I referred to before that I had a - that had a  
 (20) problem, I was notified  
 (21) Q I want you to speak up a little bit more I'm having  
 (22) trouble hearing you and maybe some other people are too  
 (23) A Sorry  
 (24) Q My question is not your understanding of the disease of  
 (25) alcoholism My question is what basis did you have for

Vol 21 3597

- (1) believing that people that worked under you would let you know  
 (2) if they saw something amiss?  
 (3) A Well, I believe that I had the respect to the organization  
 (4) and the rapport with the folks that they would tell me  
 (5) Q How long had you been working with these people?  
 (6) A Quite some time I mean I had been in this job for -  
 since 1977  
 (8) Q All right You mentioned that you were transferring to  
 (9) your new job with project EXCEL and you mentioned that that  
 (10) occurred sometime in September of 1985 Do you recall the  
 (11) months in which you met with Captain Hazelwood at the  
 Windham  
 (12) Hotel?  
 (13) A Yes, I believe it was in August, very early August  
 (14) Q All right Now when you were being replaced by Mr Dwight  
 (15) Koops was there an opportunity for you and Mr Koops to have  
 (16) some sort of a transition?  
 (17) A Oh, clearly there was We did that  
 (18) Q And in the course of having that transition did you have  
 (19) an occasion to talk to Mr Koops about the masters that you had  
 (20) been and were supervising?  
 (21) A Yes, I did  
 (22) Q Did you talk about Captain Hazelwood?  
 (23) A Yes I did  
 (24) Q Did you tell Mr Koops anything about Captain Hazelwood?  
 (25) A Well, I told him what I knew about Captain Hazelwood,  
 that

Vol 21 3598

- (1) he was in rehabilitation and that he -  
 (2) Q Let me stop you You said rehabilitation Did you tell  
 (3) him what kind of rehabilitation?  
 (4) A I think I did, yes, for alcoholism That was my  
 (5) understanding  
 (6) Q All right And - and what else did you tell him?  
 (7) A Well, I told him that what my plans were, I was going to  
 (8) try to visit the vessel and he may - he may want to consider  
 (9) that type of follow up, and visit the vessel as much as I  
 (10) possibly could when Captain Hazelwood is on  
 (11) Q Now after you told Mr Koops about your understanding of  
 (12) what the treatment had been and - did you tell him when that  
 (13) treatment had occurred?  
 (14) A I probably did, but I don't really recall  
 (15) Q After you told him that Captain Hazelwood was treated for  
 (16) problems relating to alcohol and you had this transition then  
 (17) you went into the project EXCEL job is that correct?  
 (18) A That's correct In fact, I was actually doing a little bit  
 (19) of that at the time  
 (20) Q Now after that did you ever have any occasion to see  
 (21) Captain Hazelwood?  
 (22) A Yes, I did  
 (23) Q Where would you see him or where did you see him?  
 (24) A I remember seeing him at least at - at our officers'  
 (5) conferences that we had

Vol 21 3599

- (1) Q Did you take the trouble to make any observations about  
 (2) Captain Hazelwood and drinking?  
 (3) A I did  
 (4) Q And what did you observe?  
 (5) A I did not ever observe him drinking  
 (6) Q Drinking alcohol?  
 (7) A Drinking alcohol  
 (8) MR SANDERS May I have just a moment Your Honor?  
 (9) I don't have anything else Your Honor  
 (10) THE COURT You may cross examine  
 (11) MR O NEILL Thank you judge  
 (12) CROSS EXAMINATION OF JOHN TOMPKINS (Live)  
 (13) BY MR O NEILL  
 (14) Q My name is Brian O Neill sir we've never met before And  
 (15) it is my custom - let me give you a copy of your deposition  
 (16) transcript if I may approach  
 (17) You picked up the story with regard to Captain Hazelwood in  
 (18) the spring of 1985 but you left out the first step in the  
 (19) story didn't you?  
 (20) MR SANDERS I object to that  
 (21) A I don't understand what you mean  
 (22) Q Well would it be fair to say in February - in February of  
 (23) 1985 you knew that Captain Hazelwood was under some kind  
 (24) of  
 (24) investigation and you either caused Captain Hazelwood to be  
 (25) notified that he was under investigation or that you notified

Vol 21 3600

- (1) himself that he was under investigation and that indeed the  
 (2) date was about February 11th of 1985?  
 (3) A Yes, I - I knew that he had some - he was under  
 (4) investigation I had no idea what the investigation was  
 (5) about  
 (6) Q And you caused him to be notified or you notified him  
 (7) yourself with regard to the investigation at or about February  
 (8) 11th of 1985?  
 (9) A I was advised - requested by Mr Ben Graves to let  
 (10) Captain  
 (10) Hazelwood know that he, Mr Graves, was conducting an  
 (11) investigation, and I thought that's - and that Captain  
 (12) Hazelwood be aware that there may be some questions  
 (13) asked of  
 (13) other folks which he may hear about that associated with an  
 (14) investigation  
 (15) Q And Captain Hazelwood was given that information?  
 (16) A Best of my knowledge, yes  
 (17) Q So as of about February 11th of 1985, Captain Hazelwood  
 (18) knew that his company was investigating him for something?  
 (19) A Well, my understanding, it was some activity that took  
 (20) place in the past I don't know, but that's - yeah, he knew  
 (21) some investigation was taking place  
 (22) Q And this is the same Mr Ben Graves who appears in what we  
 (23) refer to as the Graves report?  
 (24) A That's Ben Graves' signature yes  
 (25) Q Did you know why he was under investigation?

Vol 21 3601

- (1) A No, I did not  
 (2) Q Did you ever acquaint yourself as to why he was under  
 (3) investigation?  
 (4) A Well because it was an issue that took place in the past,  
 (5) I understand, and nothing to do with my activities  
 (6) Q So would it be fair to say that you his direct supervisor  
 (7) knew he was under investigation by your company and you did  
 (8) nothing to acquaint yourself with regard to the facts of the  
 (9) investigation?  
 (10) A That's true I might add I - I asked that question and I  
 (11) recall that Mr Graves suggested that I didn't really need to  
 (12) know, it had nothing to do with my activities, so I left it at  
 (13) that  
 (14) Q Now I listened to your testimony as you started off today,  
 (15) and you testified that Captain Hazelwood told you that he was  
 (16) in treatment for alcoholism do you recall testifying to that  
 (17) today?  
 (18) MR SANDERS I object to that as a  
 (19) mischaracterization of his testimony  
 (20) THE COURT The jury will decide whether it is or  
 (21) isn't a mischaracterization of his testimony but you may  
 (22) inquire  
 (23) MR O NEILL Thank you Judge  
 (24) BY MR O NEILL  
 (25) Q That was your testimony today wasn't it?

Vol 21 3602

- (1) **A I think what I said was, what I recall is that I got a**  
 (2) **phone call from Captain Hazelwood that he told me he was**  
 (3) **checking into a rehabilitation for alcoholism as I recall it**  
 (4) **Q He was checking into a rehabilitation for alcoholism?**  
 (5) **A That's my understanding**  
 (6) **Q And that's what he told you over the telephone?**  
 (7) **A That's what I recall**  
 (8) **Q So at this point in time you were on notice that he in**  
 (9) **February was under some kind of investigation and now you**  
 (10) **were**  
 (11) **on notice that he had checked into a rehabilitation center for**  
 (12) **alcoholism?**  
 (13) **A That's correct**  
 (14) **Q And you were his supervisor?**  
 (15) **A That's correct**  
 (16) **Q Now prior to 1985 you had not received any training in**  
 (17) **the supervision of rehabilitated alcoholics?**  
 (18) **A No, I did not**  
 (19) **Q And when you received the call that Hazelwood was ready to**  
 (20) **come back to duty, you assumed that Hazelwood would be**  
 (21) **seen by**  
 (22) **the Exxon medical people before he came back to work?**  
 (23) **A That's the normal procedure, as I knew it**  
 (24) **Q But you never spoke with anybody in the medical department**  
 (25) **to make sure that they indeed interviewed him saw him**  
 (26) **touched**  
 (27) **him?**  
 (28) **A No, I was advised by the human resources group, who**  
 (29) **would**

Vol 21 3603

- (1) **be the direct contact with - with the medical department**  
 (2) **not**  
 (3) **myself Those are confidential issues and I did not get**  
 (4) **involved in the medical department**  
 (5) **Q And you didn't speak with anybody in the medical**  
 (6) **department**  
 (7) **about any special accommodations that might be made for**  
 (8) **Captain**  
 (9) **Hazelwood so that he could pursue an AA program or some**  
 (10) **other**  
 (11) **form of aftercare while he was at sea, did you?**  
 (12) **A Not that I can recall**  
 (13) **Q And indeed you as a supervisor made no provision for**  
 (14) **support or aftercare for Captain Hazelwood while he was at sea**  
 (15) **did you?**  
 (16) **A No, I did not I queried as to what his plans were, as I**  
 (17) **mentioned before, and -**  
 (18) **Q This was at the meeting in August?**  
 (19) **A That's correct**  
 (20) **Q I'm puzzled about the meeting in August Your partner was**  
 (21) **that Sheehy that met with him that same day?**  
 (22) **A Captain Sheehy was the port captain for me, yes**  
 (23) **Q And where did Sheehy meet with him do you know?**  
 (24) **A To the best of my knowledge, if I recall, it was in the**  
 (25) **Windham Hotel**  
 (26) **Q Down in the cocktail lounge?**  
 (27) **A I have no idea**  
 (28) **Q You don't know?**  
 (29) **A Not that I can recall that kind of comment**

Vol 21 3604

- (1) **Q Now what I'm puzzled about this is Captain Hazelwood's**  
 (2) **trial testimony we're going to go through his trial testimony**  
 (3) **for a minute and I'm trying to figure out who said what to**  
 (4) **who**  
 (5) **He's describing the conversation and he's - and I'm**  
 (6) **interested in - I want to ask you a series of questions about**  
 (7) **whether these topics were discussed at this meeting with**  
 (8) **Mr Tompkins Very well was AA discussed? No Was**  
 (9) **aftercare**  
 (10) **discussed? No Was the subject of your personal drinking**  
 (11) **discussed? No Was the subject of drinking on board vessels**  
 (12) **or returning to vessels after having drunk discussed? No**  
 (13) **Were you told not to drink - and then the testimony**  
 (14) **continues - with the exception of the parameters of the**  
 (15) **alcohol policy? No**  
 (16) **Were you told you were going to be monitored?**  
 (17) **Well in his inimitable fashion Mr Tompkins kind of**  
 (18) **indicated to me that I was going to be watched Did he tell**  
 (19) **you you were going to be watched? He didn't verbalize that**  
 (20) **no So he did not tell you that you were going to be watched?**  
 (21) **No**  
 (22) **Now Captain Hazelwood as he testified here said you**  
 (23) **didn't ask about AA you didn't ask about aftercare you didn't**  
 (24) **talk to him about his personal drinking Is that consistent**  
 (25) **with your story or do we have two different stories about the**  
 (26) **same event?**

Vol 21 3605

- (1) **A I don't think so because what I - I did not talk to him**  
 (2) **about what he did in the past I felt it was more important**  
 (3) **for us to look forward, and I also felt that I would close out**  
 (4) **that issue by just stating that - that he's had his chance and**  
 (5) **that he's had his opportunity and now he needs to take care**  
 (6) **of**  
 (7) **himself**  
 (8) **Q So you didn't discuss AA or aftercare?**  
 (9) **A So I didn't - well, I did not discuss him drinking in the**  
 (10) **past I did not discuss any reference to aftercare I don't**  
 (11) **recall that I do recall that I believe I discussed - asked**  
 (12) **him about what kind of monitoring he was - or what kind of**  
 (13) **support he was going to have or was he going to participate**  
 (14) **in**  
 (15) **any support efforts, whether I used AA - I think I did, but I**  
 (16) **can't a hundred percent recall**  
 (17) **Q So you don't recall?**  
 (18) **A I don't recall what I said at that time**  
 (19) **Q Would it be fair to say that with regard to the issues of**  
 (20) **past drinking AA aftercare personal drinking off the job**  
 (21) **that those were the subjects that you did not directly discuss**  
 (22) **with him?**  
 (23) **A I would say that that is fair to say, because I felt that**  
 (24) **they were in the past And that by giving him the comment**  
 (25) **that**  
 (26) **he had - he has his chance, I felt that was all we needed to**  
 (27) **do**  
 (28) **Q But there wasn't a detailed discussion about his care his**

Vol 21 3606

- (1) progress with regard to rehabilitation you just said Joe  
 (2) this is your last chance?  
 (3) A Yeah, it was a little more than that, but I just - I did  
 (4) not get into an aftercare program, no, sir  
 (5) Q And at the time you said Joe this is your last chance  
 (6) would it be fair to say that you as his manager were on  
 (7) notice it was your understanding that he had been treated for  
 (8) alcoholism and that the company had conducted some kind of  
 (9) investigation with regard to the man?  
 (10) A Could you repeat that again? I'm not quite sure exactly  
 (11) what you said  
 (12) Q At the time you said Joe this is your last chance you a  
 (13) management official with Exxon Shipping Company were  
 (14) aware  
 (15) that he had undergone treatment for alcoholism and that the  
 (16) company had conducted some kind of an investigation with  
 (17) regard  
 (18) to the man?  
 (19) A Well, the purpose of my statement was that he had  
 (20) undergone, the best of my knowledge, treatment for  
 (21) alcoholism  
 (22) and that once he's had that opportunity, which was the  
 (23) policy  
 (24) we had at the time then he could come back to work  
 (25) assuming  
 (26) he was classified as fit and he - best of my understanding  
 (27) he  
 (28) was, and then - but then he had no longer any chance If he  
 (29) had any further problems, then he would be disciplined  
 (30) Q Any further problems disciplined?  
 (31) A Associated with alcohol, yes

Vol 21 3607

- (1) Q Any association with alcohol on or off the job?  
 (2) A I didn't get into differentiating between the two I was  
 (3) primarily concerned about the general term on board the  
 (4) ship  
 (5) Q You knew that attending aftercare would be difficult for  
 (6) Captain Hazelwood because of the nature of his job didn't  
 (7) you?  
 (8) A Well, again I didn't get involved with discussions if I  
 (9) recall concerning aftercare  
 (10) Q My question was did you know that attending aftercare  
 (11) would be difficult because of the nature of his job?  
 (12) A Well certainly if - if he was to attend an AA meeting, he  
 (13) could only do that when he was in port, so I knew that  
 (14) Q With regard to Captain Hazelwood you were of the view that  
 (15) Captain Hazelwood could not drink period isn't that right?  
 (16) A Probably so yes  
 (17) Q You did cogitate come up with the idea of some kind of a  
 (18) monitoring plan isn't that correct?  
 (19) A My intent was to visit the vessel when he's on board as  
 (20) often as I could  
 (21) Q And you don't recall whether you in fact made a trip or  
 (22) two to his vessel before you turned the mantel over to  
 (23) Mr Koops?  
 (24) A I think I made one occasion, but I cannot be a hundred  
 (25) percent sure, but I think I did  
 (26) Q And with regard to implementing any monitoring plan with  
 (27) Captain Hazelwood you didn't get the chance to implement the

Vol 21 3608

- (1) plan or formalize the plan did you?  
 (2) A I didn't get to use it very long because -  
 (3) Q You were moving on to another assignment?  
 (4) A - I was moving on to another job  
 (5) Q I think Mr Koops is going to testify next so what happens  
 (6) there on out I should ask - I should spare you your time and  
 (7) ask Mr Koops questions, would that be a fair statement?  
 (8) A That would probably be more appropriate  
 (9) Q I do though, at the end of my outline want to ask you  
 (10) about your meeting with Mr Koops And would it be fair to say  
 (11) that you didn't have any special meeting about Captain  
 (12) Hazelwood with Koops but you had one meeting in which you  
 (13) discussed your ship's officers and the subject of Captain  
 (14) Hazelwood came up at that meeting?  
 (15) A My recollection, we had a couple of opportunities to get  
 (16) together and the time that we got together concerning the  
 (17) personnel of the gulf coast fleet, we pretty much reviewed  
 (18) all  
 (19) of the senior officers, captain and chief engineers At that  
 (20) time, I included the discussion with Captain Hazelwood or  
 (21) about  
 (22) Captain Hazelwood  
 (23) Q And when you discussed that with Mr Koops, you put Mr  
 (24) Koops on notice that Captain Hazelwood had gone through  
 (25) treatment for alcoholism?  
 (26) A I - yes, I did  
 (27) Q So Mr Koops knew this now too?

Vol 21 3609

- (1) A Yes, he did, best of my knowledge  
 (2) MR O NEILL Thank you sir  
 (3) THE WITNESS May I leave sir?  
 (4) THE COURT You're not quite through yet I suspect  
 (5) REDIRECT EXAMINATION OF JOHN TOMPKINS (Live)  
 (6) BY MR SANDERS  
 (7) Q Mr Tompkins other than the telephone call that you had  
 (8) with Captain Hazelwood do you have any sort of knowledge  
 (9) whatsoever as to what sort of treatment Captain Hazelwood  
 (10) had?  
 (11) A No, I never really discussed it  
 (12) Q And I think you've already testified you had no idea what  
 (13) the actual medical diagnosis for Captain Hazelwood was isn't  
 (14) that right?  
 (15) A That's correct I didn't see anything official  
 (16) Q Do you know or did you know then - let me ask you did you  
 (17) know then that there was a medical difference between alcohol  
 (18) abuse and alcoholism?  
 (19) A No, sir  
 (20) Q Do you know now that there is a difference between  
 (21) alcoholism - between -  
 (22) A No, sir  
 (23) Q - alcohol abuse and alcoholism?  
 (24) A No, sir  
 (25) Q And if somebody said they had an alcohol problem do I take  
 (26) it then that you simply assume that's alcoholism?

Vol 21 3610

- (1) **A** If you're sent to rehabilitation yes
- (2) **Q** So when you heard alcohol in the call with Captain Hazelwood you assumed alcoholism right?
- (3) **A** Yes
- (4) **Q** Because you don't draw any distinction?
- (5) **A** No, sir, I don't
- (6) **Q** Do you remember the exact words that Captain Hazelwood used
- (7) when he described the kind of treatment he was going in for?
- (8) **A** Not that I can recall, no, sir
- (9) **Q** Do you know whether he said alcohol problem? Do you know
- (10) whether he said alcohol abuse? Do you know whether he said
- (11) alcoholism or alcoholic?
- (12) **A** No, sir
- (13) **MR SANDERS** I have no further questions
- (14) **THE COURT** Thank you sir
- (15) Call your next witness
- (16) **MR SANDERS** May it please the Court we call
- (17) **Mr Dwight Koops**
- (18) **THE CLERK** Would you raise your right hand please
- (19) sir
- (20) (The Witness Is Sworn)
- (21) **THE CLERK** For the record sir state your full name
- (22) your address and spell your last name please
- (23) **THE WITNESS** My name is Dwight H Koops I live at
- (24) 692 Snapdragon Place in Benicia California My last name is
- (25)

Vol 21 3611

- (1) spelled K O O P S
- (2) **DIRECT EXAMINATION OF DWIGHT KOOPS (Live)**
- (3) **BY MR SANDERS**
- (4) **Q** Good morning Mr Koops Mr Koops where are you now
- (5) employed?
- (6) **A** I'm employed by Sea River Maritime
- (7) **Q** And what is your job at Sea River Maritime today?
- (8) **A** I'm the ocean fleet manager
- (9) **Q** All right And where is your office located?
- (10) **A** In Benicia, California
- (11) **Q** And as the ocean fleet manager what are your duties and
- (12) responsibilities?
- (13) **A** My primary duties are the safe and efficient operation of
- (14) the ocean fleet vessels that Exxon owns U S flagged, and
- (15) of
- (16) course supervisory responsibility for the people that man
- (17) those
- (18) vessels
- (19) **Q** Does the ocean fleet include oil tankers?
- (20) **A** Yes, it does
- (21) **Q** Does it include anything but oil tankers?
- (22) **A** Primarily oil tankers
- (23) **Q** Okay Now would you tell the Ladies and Gentlemen of the
- (24) Jury a little bit about your educational background?
- (25) **A** I graduated from the U S Merchant Marine Academy in 1962
- (26) I have a degree in marine engineering, and I went on for a
- (27) masters at night, a masters in engineering from the city

Vol 21 3612

- (1) **University of New York** I have further studies at NYU for an
- (2) **MBA masters in business**
- (3) **Q** Where did you grow up Mr Koops?
- (4) **A** I grew up in Brooklyn, New York
- (5) **Q** Thought we ought to clear that up Mr Koops when did you
- (6) start working for - or where did you start working when you
- (7) got out of school?
- (8) **A** When I graduated from Kings Point I had a license in the
- (9) **Coast Guard as an engineer and I sailed in the merchant**
- (10) **marine, I sailed for other than Exxon for approximately a**
- (11) **year,**
- (12) **and then I came ashore to continue my education at night**
- (13) **And**
- (14) **I worked for a - the naval shipyard right in New York for**
- (15) **about two to three years and from there, I moved to a small**
- (16) **naval architectural firm in downtown New York I was a**
- (17) **ship**
- (18) **surveyor for them and a marine designer and supervisor**
- (19) **My late 20s I joined ESSO International which eventually**
- (20) **became Exxon International I was with the tanker**
- (21) **department**
- (22) **of the international group for 13 years I held various**
- (23) **positions, construction and design, operations, research**
- (24) **and**
- (25) **development, and I transferred in 1980 down to Texas, to**
- (26) **Exxon**
- (27) **Company U S A**
- (28) **My last job with the international group was for about**
- (29) **three years, I was the administrative head for the fleet**
- (30) **which**
- (31) **numbered about 70 vessels And I moved down to Houston**
- (32) **with**
- (33) **Exxon Company then in the marine departments**

Vol 21 3613

- (1) **Q** All right And what job did you have with the marine
- (2) department or with what then became Exxon Shipping
- (3) Company in
- (4) the early 80s?
- (5) **A** I was the engineering manager for about five and a half
- (6) years
- (7) **Q** All right And as engineering manager did you participate
- (8) in the construction of some new vessels that were going to sail
- (9) for Exxon Shipping Company?
- (10) **A** Yes My primary duties as the engineering manager was
- (11) design and contracting and delivery of a number of vessels
- (12) that
- (13) we currently operate
- (14) **Q** Would you give the Ladies and Gentlemen of the Jury some
- (15) of
- (16) the names of those vessels that came on line in the 80s that
- (17) you worked on?
- (18) **A** Ones we built in the '80s included the Charleston, the
- (19) Wilmington, the Baytown and the Valdez and the Long
- (20) Beach, as
- (21) well In addition to a number of towboats and tugs that we
- (22) built for the inland fleet
- (23) **Q** Did there come a time when you took over the job of gulf
- (24) coast fleet manager for Exxon Shipping Company?
- (25) **A** Could you say that again, please?
- (26) **Q** Yes Did there come a time when you took on the job of
- (27) gulf coast fleet manager for Exxon Shipping Company?
- (28) **A** Yes, I transferred from the engineering manager's
- (29) position
- (30) to the gulf coast fleet manager position October 1st, 1985

Vol 21 3614

- (1) Q And who was your replacements - I mean who was your predecessor? Excuse me
- (2) A I replaced John Tompkins
- (3) Q All right Now, John Tompkins of course just testified (4) you were in the room when he testified?
- (5) A I was
- (6) Q Let s go straight to the transition period Did you in fact have a discussion with Mr Tompkins concerning Captain Hazelwood when you were in this transition period?
- (7) A Yes During the overlap period, primarily September, we reviewed of course all the business of the fleet and we talked
- (8) about each of the senior personnel, which of course included
- (9) the masters and that included Captain Hazelwood
- (10) Q All right And in discussing Captain Hazelwood did John Tompkins advise you that Captain Hazelwood had somewhat recently undergone treatment that included treatment for alcohol problems?
- (11) A Yes When we discussed Captain Hazelwood, Mr Tompkins
- (12) told me that Captain Hazelwood had been through alcohol rehabilitation in the spring of '85
- (13) Q All right Now at that time did you ask Mr Tompkins what Captain Hazelwood s diagnosis was?
- (14) A I did not
- (15) Q Did you ask him what his treatment regimen was?
- (16) A I did not

Vol 21 3615

- (1) Q Did you have any discussion with anybody in the medical department?
- (2) A No
- (3) Q Did you have any access to an actual diagnosis?
- (4) A No
- (5) Q What - am I correct in assuming that you take on this new job and you find out that one of the masters that you re going to directly supervise has recently been in some sort of treatment program or rehabilitation program for alcohol is that good news or bad news for you?
- (6) A Well it's bad news but I make the assumption that when I hear alcohol rehabilitation I assume that I have a captain that has a drinking problem and that assumption leads me to
- (7) the thought process that if he starts drinking again things will probably go pretty bad pretty fast and that's what I really needed to know
- (8) Q All right At the time 1985 did you think you needed to know more than that?
- (9) A No, because I was really assuming the worst case scenario
- (10) for the situation that Captain Hazelwood was in
- (11) Q All right And right or wrong you assumed that he had an alcoholism problem that would manifest itself in some sort of loss of control correct?
- (12) A That is correct
- (13) Q All right Now you don t know whether that s in accord

Vol 21 3616

- (1) with the diagnosis or treatment but you took the worst case scenario correct?
- (2) A I did
- (3) Q Given the fact that you had this problem and you had this assumption as to what the scope of the problem was, what did you do about it?
- (4) A Well, when John mentioned it to me, I - I really looked at the network of people that I have in my organization, I had then and I have now, and I knew I had to stay close to Joe -
- (5) Q Well now first - I ve jumped a little ahead of you Did you plan to watch Captain Hazelwood?
- (6) A Absolutely
- (7) Q And what were you watching for?
- (8) A To see if there were any signs that essentially Joe fell off the wagon, if he started drinking again
- (9) Q Okay Now having formed that intent or plan did you - I take you back to where you were before I so rudely interrupted you, but what did you plan to do to set that in motion? How were you going to do this?
- (10) A As I was saying, I started to look at the network of people that I have in my organization and as I said, I had it then and I have it today, if I start with myself and I go down through my organization which probably helps if - what my thought process was at that time, but I have line functional managers,
- (11) which I guess people refer to them as port engineers and port

Vol 21 3617

- (1) captains which in the primary reporting function to me, and then I have in the office personnel, people who handle personnel issues I have agents who deal with the ships seven
- (2) days a week, 24 hours a day, all sorts of questions and interface with them I have contractors running around the ships constantly, particularly when they're in our ports and even riding the ships We also have unannounced searches, we
- (3) did them with dogs and did them with people on a fairly frequent basis As part of the administrative load for managing the fleet, you have an awful lot of reports, performance reports that come in off the ships, and if you look
- (4) at them very closely you can tell an awful lot about them The
- (5) cost reports, requisitions performance of the vessel, and if you start to see things going a little bit screwy on them, then you start to become suspicious So I had really a multifaceted
- (6) organization that could reach out and stay close with the situation, I felt
- (7) Q All right Well let me ask you the obvious question At the time that you were following this plan of yours did you think you had the situation covered?
- (8) A Yes
- (9) Q Now looking back on it now did your plan work?
- (10) A I feel very strongly that it did If I look at the year and a half that I had Joe with me I only had one single report That report came to me very quickly and in enough

Vol 21 3618

- (1) detail that I was able to follow up on it which we did
- (2) Q Okay Let me stop you there What was this report that
- (3) you got?
- (4) A The report that I'm speaking about, it had come from the
- (5) port steward, which was Jim Shaw and Bill Sheehy, which
- (6) was my
- (7) port captain at the time, said that he had heard from Jim
- (8) Shaw
- (9) that Captain Hazelwood was acting a little weird
- (10) Q What did you think when you heard that?
- (11) A My immediate thought was that perhaps Joe's started
- (12) drinking again, and of course Captain Sheehy and I had
- (13) talked
- (14) about it previously when I first came into the job and so our
- (15) thoughts ran pretty much parallel
- (16) Q So you both had this thought or maybe even a fear that this
- (17) translated into Joe's drinking?
- (18) A Absolutely
- (19) Q Did you act on that?
- (20) A Yes
- (21) Q What did you do?
- (22) A I asked Captain Sheehy - I had spoken to Jim Shaw and
- (23) he
- (24) became a little evasive He didn't say alcohol, he became a
- (25) little more evasive so I said Bill, I said I really want you
- (26) to go over and catch the Baton - the Yorktown in Baton
- (27) Rouge
- (28) which, if you know, is fairly close I said, go over there
- (29) unannounced, and that was the next port of arrival for the
- (30) vessel, and I want you to spend as much time as possible on

Vol 21 3619

- (1) board the ship and see if things are okay
- (2) Bill, being a captain in the fleet, knows exactly what that
- (3) meant That meant to talk to a lot of people, to see Joe
- (4) himself and spend as much time as possible That's what
- (5) Bill
- (6) did and he came back to me, I recollect a phone call from
- (7) Bill
- (8) that told me that everything was in order based on his
- (9) evaluation and then he returned to the office And we had
- (10) some further conversations about the issue
- (11) Q All right In these further conversations did you ask or
- (12) suggest to him to do anything else?
- (13) A I asked Bill to talk to - on a low key basis, talk to
- (14) Captain Hazelwood's friends and associates and -
- (15) Q Let me interrupt you just a second Why would you ask -
- (16) why would you ask a guy's friends to find out if the guy was -
- (17) had fallen off the wagon?
- (18) A I knew - I knew Joe well enough, that there are enough
- (19) people that care about Joe and people who do know Joe, I
- (20) think
- (21) I had a strong enough reading on the situation that people
- (22) who
- (23) do care enough and who do know Joe would certainly say
- (24) something to - to Bill
- (25) Q Did you know who his friends were?
- (26) A Yes, I knew who many of his close associates were
- (27) Q Did you know those people?
- (28) A Yes
- (29) Q In fact were they employees of yours?

Vol 21 3620

- (1) A A lot of them were masters in the fleet and engineers
- (2) Q Did Captain Sheehy make those kinds of contacts?
- (3) A He did
- (4) Q Do you know specifically who he talked to or did you know
- (5) at the time?
- (6) A He spoke to a number of people When I spoke to Bill,
- (7) and
- (8) of course our offices physically were just a couple of doors
- (9) away from each other, and we would speak from time to time
- (10) about Joe Hazelwood and many indications I got from Bill
- (11) was
- (12) that Captain Hazelwood was fit he was working out he was
- (13) in
- (14) good shape
- (15) He did speak with one individual specifically, that I
- (16) found out after the grounding that was Captain Ivan
- (17) Mihajlovic
- (18) Q Let's make sure we don't get things muddled up here You
- (19) asked him to talk to Captain Hazelwood's friends and he did
- (20) and reported back to you?
- (21) A Yes
- (22) Q And later on after the grounding occurred some three
- (23) four years - well let me back up Strike all that
- (24) Do you know when this - when this report came from
- (25) Mr. Shaw and when this visit Captain Sheehy made to the
- (26) Yorktown at Baton Rouge do you know when that was?
- (27) A The time frame, based on my best recollection, is '86, '87
- (28) time frame
- (29)
- (30)

Vol 21 3621

- (1) Q Okay And so therefore the conversation you had with
- (2) Captain Mihajlovic was some couple or three years later?
- (3) A Yes, I - in speaking with Captain Mihajlovic, would you
- (4) like me to go into the details?
- (5) Q Wait a minute I want to back up though But at the time
- (6) that you asked Captain Sheehy to make these contacts he had
- (7) reported back to you the thoughts and observations of Captain
- (8) Hazelwood's friends?
- (9) A That's correct
- (10) Q But you didn't talk to Captain Mihajlovic at that time
- (11) correct?
- (12) A I did not
- (13) Q You did talk to him later?
- (14) A Yes
- (15) Q What did he tell you later?
- (16) A I was visiting Ivan's ship, the San Francisco down in
- (17) Baytown, and that was July of '89 This is after the
- (18) grounding
- (19) where I'm looking after the gulf coast fleet, but - and also
- (20) watching the west coast fleet So I was visiting the San
- (21) Francisco and Ivan and I go back a number of years, and I
- (22) knew
- (23) Ivan when he was a chief mate
- (24) It was my recommendation for him for a captain, so we had
- (25) a
- (26) close relationship and a great deal of respect for Ivan, and I
- (27) know that Ivan is a close friend of Captain Hazelwood's, in
- (28) fact, they live in the same area, and we talked about it

Vol 21 3622

(1) before  
 (2) And we were talking about the grounding and - and there  
 (3) were allegations, of course, in the newspapers about alcohol  
 (4) and so forth, and as I was speaking to Ivan I remember like  
 (5) it was yesterday We were having lunch on the ship at a table,  
 (6) and I said to Ivan I says, it is a shame you know And when  
 (7) he was - when Joe was with me for a year and a half in the  
 (8) gulf, I says, I had no indications, in fact, to the contrary  
 (9) I said, it was just one indication that we followed up on, and  
 (10) Captain Sheehy had come back and said it was okay, but then I  
 (11) asked him to talk to friends  
 (12) And Ivan said, yes, he says, I was one of those guys And  
 (13) he says - and you have to know Ivan to understand this, but he  
 (14) says, you know what I did, and Ivan, I think, has a very, very  
 (15) close and fond affection for Captain Hazelwood and very  
 (16) concerned about him and his family Captain Mihajlovic's ship,  
 (17) the San Francisco went down to Chiriqui Grande in Panama, this  
 (18) is where we used to pick up crude on the Atlantic side And he  
 (19) looked over and saw the Exxon Yorktown in anchor and Ivan got  
 (20) in a launch and went over to the Yorktown and went storming  
 (21) right up to Joe's quarters is the way Ivan relates it to me,  
 (22) and literally tore the place apart He was - he was looking  
 (23) for booze Didn't find any, checked Joe, Joe looked okay, and  
 (24) I think Joe probably had his mouth open by now and Ivan walked

(25) off the ship, got back on the launch and went back to his ship  
 (1) Q Did Captain Mihajlovic tell you at that time that he had  
 (2) reported that to Captain Sheehy at the time that it occurred?  
 (3) A I believe he said he mentioned it to Bill and that was part  
 (4) of his overall report to me I would assume when Bill reported  
 (5) back to me  
 (6) Q All right Now you've mentioned this but I want to make  
 (7) it clear and ask you the direct question Other than this one  
 (8) report which you and Captain Sheehy reacted to was there any  
 (9) other report during the time that Captain Hazelwood was on the  
 (10) gulf coast fleet in the gulf coast fleet that you got any sort  
 (11) of report about Captain Hazelwood drinking alcohol?  
 (12) A None  
 (13) Q Did you get any sort of sign or signal or any inkling from  
 (14) any sort whatsoever that there was any problem with Joe  
 (15) Hazelwood returning to drinking?  
 (16) A No As a matter of fact it would probably be worthwhile  
 (17) to the testimony here in speaking with Joe Joe and I  
 (18) developed a - I got to know Joe probably more than most  
 (19) skippers in the gulf coast fleet at the time I was the new  
 (20) kid on the block, I had come from engineering management and  
 (21) taking over gulf coast fleet I was the new kid on the block  
 (22) And Joe of course, being Joe was going to put me through my  
 (23) paces but coming from New York I was up to the challenge,  
 (24) so  
 (25) I took him on and we got to know each other pretty well We  
 (25) were fairly direct with each other as New Yorkers are and so

Vol 21 3624

(1) I - I asked him about a lot of things procedures and  
 (2) policies Being a little bit new to the game I asked him  
 (3) some  
 (4) thoughts, and of course he always volunteered his thoughts  
 (5) about some of the policies that were in place It was a good,  
 (6) frank relationship, and I liked Joe Joe was well read I  
 (7) liked his intellect I liked his frankness He was a good  
 (8) sounding board and so we -  
 (9) Q Did you form any - from this relationship did you form  
 (10) any opinion as to how he was doing with respect to this problem  
 (11) for which he had been treated?  
 (12) A Yeah, by talking the way we did, I got to know the man  
 (13) pretty well and I wouldn't - I wouldn't diminish the  
 (14) relationship by saying I was there to watch his eye/hand  
 (15) coordination, but obviously as I talked to him and got to know  
 (16) him a little bit better, I started to understand the man, I  
 (17) also understood his behavior So it became pretty easy for me  
 (18) or a little bit easier with him to see any aberrations or any  
 (19) changes in the behavior for the next year and a half  
 (20) Q Did you see any?  
 (21) A None In fact, if anything, I counseled Joe on some of his  
 (22) performance characteristics that are reported in his  
 (23) performance report and he was working on those, and in my  
 (24) estimation, in the year and a half, I saw a great deal of  
 (25) improvement, at least an effort to improve in those areas  
 (25) Q You were kind of tough on him though weren't you, on the

Vol 21 3625

(1) rankings?  
 (2) A I was Joe is a seaman and probably one of the finest that  
 (3) we had His seamanship skills were very, very good Some  
 (4) of  
 (5) his dislike for some of the paperwork and such, I needed to  
 (6) see  
 (7) some more improvement I didn't have a long enough  
 (8) running  
 (9) time on Joe You don't like to make major movements in  
 (10) seriatim rankings unless you're sure Worst you can do is  
 (11) move  
 (12) people out on the list, you want them to steer you out so I  
 (13) needed a little bit more running time on Joe I had seen him  
 (14) a  
 (15) year year and a half and you figure he's only on the vessel  
 (16) half that time, so before I made any major moves on Joe on the  
 (17) seriatim, I felt comfortable with where he was, which was  
 (18) the - the bottom third kind of in the upper part of the bottom  
 (19) third And I could see if we stayed together probably if he  
 (20) continued his progress, moving him a little bit more  
 (21) Q Now you have described for the Ladies and Gentlemen of  
 (22) the  
 (23) Jury the relationship that you had with Captain Hazelwood  
 (24) when  
 (25) you would visit the ship Did you try to visit his ship often?  
 (1) A Yes, I did My style of management in running a fleet is  
 (2) to visit ships as much as possible You need to smell and  
 (3) feel  
 (4) and touch, and I enjoy that part of the job I especially  
 (5) enjoyed visiting Joe and obviously with this knowledge, I  
 (6) tried  
 (7) to spend more time with Joe than the others  
 (8) Q When you say with this knowledge, what are you talking

(25) about?

Vol 21 3626

- (1) **A The fact that Joe had been through alcohol rehabilitation**  
 (2) **and I really wanted him not to start drinking again because**  
 of  
 (3) **the consequences and him as a human being**  
 (4) **Q All right Now did you ever ask him in these**  
 (5) **conversations did you ever ask him about how he was doing**  
 with  
 (6) **his alcohol problem?**  
 (7) **A I asked him how he was, but he gave me no indications**  
 that  
 (8) **he had fallen off the wagon, and at that point in time, I saw**  
 (9) **no reason to take the man's dignity away He was behaving**  
 (10) **himself, he was improving, he was fit, so why? There's just**  
 no  
 (11) **reason to do that**  
 (12) **Q I take it you didn't ask him specifically about his alcohol**  
 (13) **problem?**  
 (14) **A I did not**  
 (15) **Q Did you ask him anything about AA?**  
 (16) **A I did not**  
 (17) **Q Did you ask him anything about marital problems?**  
 (18) **A No**  
 (19) **Q I think you've answered this but let me just ask you**  
 (20) **directly why not?**  
 (21) **A These were private matters I was concerned about Joe's**  
 on  
 (22) **the job performance He gave me no indication that he'd**  
 (23) **started drinking again and I saw no reason to break that**  
 (24) **confidence and take the man's dignity**  
 (25) **Q If you had seen some sort of a problem some change**

Vol 21 3627

- (1) **whether it involved drinking or not would you then have**  
 (2) **followed up and asked those direct questions?**  
 (3) **A In a New York minute I would have been very direct**  
 (4) **with - with Joe Because then you're getting into not only**  
 (5) **Joe, but the very safety of that vessel and that's the primary**  
 (6) **concern to me**  
 (7) **Q By 1987 Captain Hazelwood had been with you some year**  
 and  
 (8) **a half Did you have a view on Captain Hazelwood and the past**  
 (9) **alcohol problem?**  
 (10) **A Could you try that on me again please?**  
 (11) **Q By 1987 say the spring of 1987 during which then you had**  
 (12) **been with Captain Hazelwood over a year and a half did you**  
 (13) **have a view or an opinion about how Captain Hazelwood was**  
 doing  
 (14) **in terms of this past alcohol problem?**  
 (15) **A Yes, I did A distinct feeling, a different feeling I had**  
 (16) **inside when I - when I first got introduced to the issue and**  
 (17) **Joe I felt a year and a half later he had made a great deal**  
 (18) **of progress, and since I only had one report that proved**  
 (19) **spurious, that I thought that the situation was very well**  
 under  
 (20) **control and hardly a problem at all if at all**  
 (21) **Q Mr Koops at that time did you know anything about**  
 (22) **alcohol problems?**  
 (23) **A Yes Unfortunately, growing up in Brooklyn, New York,**  
 and  
 (24) **I grew up in a tenement section, I guess polite people call**  
 (25) **them apartment houses we lived on top of each other and I**

Vol 21 3628

- (1) **don't want to give you the poor boy story, but I guess there**  
 (2) **wasn't a week that didn't go by that we didn't see families**  
 (3) **destroyed by alcohol People tended to lose themselves in**  
 (4) **alcohol and I have a very dear person in my life who had an**  
 (5) **alcohol problem I wasn't -**  
 (6) **Q Who was that?**  
 (7) **A That was my dad**  
 (8) **Q So you thought you had some basis for the opinion that you**  
 (9) **had about Captain Hazelwood in the spring of 1987?**  
 (10) **A I had a great deal of sensitivity to the issue**  
 (11) **Q Now in 1987 did you have any occasion to discuss the**  
 (12) **transfer of Captain Hazelwood?**  
 (13) **A Yes Port captain for the west coast Andy Martineau,**  
 and  
 (14) **my port captain, Captain Bill Sheehy discussed moves**  
 frequently  
 (15) **and they had a vacancy on the west coast The Exxon**  
**Valdez**  
 (16) **master - one of the masters resigned from the shipping**  
 (17) **company to become a San Francisco harbor pilot so they**  
 needed a  
 (18) **master to replace him They looked over the slate of**  
**masters**  
 (19) **that we had in the fleet and Captain Hazelwood was their**  
 (20) **recommendation to me I looked it over and based on what**  
 I  
 (21) **viewed as the appropriate background for the job spoke**  
 with  
 (22) **Harvey Borgen who was my counterpart on the west coast**  
 to  
 (23) **effect that transfer**  
 (24) **Q You agreed with the recommendation?**  
 (25) **A I did You know I looked at the - the background of**

Vol 21 3629

- (1) **Joe He was a skipper on a 160 - 165,000 ton ships, which**  
 is  
 (2) **our second largest He had traded into Valdez He was a**  
**good**  
 (3) **seaman I watched him for a year and a half and he had**  
**Prince**  
 (4) **William Sound pilotage, which - which was an asset And**  
 so it  
 (5) **looked like the right fit and the talent balance for the**  
**fleet**  
 (6) **Q All right Now you mentioned that you had**  
 (7) **conversations - a conversation or conversations with Harvey**  
 (8) **Borgen What job did Harvey Borgen have at the time of this**  
 (9) **conversation?**  
 (10) **conversation?**  
 (11) **A Harvey was my counterpart on the west coast He was**  
 the  
 (12) **west coast fleet manager and obviously, when we're**  
**transferring**  
 (13) **people throughout the fleet, we talk with each other on a**  
 (14) **regular basis, and so I purposely made a phone call on this**  
 (15) **transfer**  
 (16) **Q In the course of your conversation - excuse me for**  
 (17) **interrupting In the course of your conversation with**  
 (18) **Mr Borgen, did the subject of Captain Hazelwood and alcohol**  
 (19) **come up?**  
 (20) **A Yes, it did**  
 (21) **Q How did it come up?**  
 (22) **A Harvey asked me if Captain Hazelwood was having any**  
 (23) **problems with - with drinking, and I said, no, Harvey I**  
 (24) **said, for the past year and a half I've been observing Joe I**  
 (25) **might have even mentioned the one incident that we**  
**investigated**

Vol 21 3630

- (1) that proved to be nothing, and I said, as far as I'm concerned
- (2) he's clean, he hasn't fallen off the wagon and he's doing fine
- (3) Q Did you tell Mr Borgen what you knew as far as Captain Hazelwood receiving treatment involving alcohol back in the spring of 1985?
- (4) A No, since he mentioned had Captain Hazelwood had any problems with drinking, I assumed that he knew about the situation
- (5) Q Is it fair to say that you gave Mr Borgen a clean bill of health as far as Joe Hazelwood was concerned and the drinking issue?
- (6) A Yes
- (7) Q Did you give him any sort of a run down on how Captain Hazelwood had been performing as a ship captain?
- (8) A Yes
- (9) Q What did you tell him?
- (10) A Yes, obviously as a professional courtesy to Harvey, I felt it prudent on me to advise him of my observations of Joe for that year and a half I pointed out some of the good operations that Joe had had, some tricky operations with his vessel did an excellent job, and that he - he was good for the seamanship skills and I would recommend the move
- (11) Q Did you pass along any of the criticism that you had about Captain Hazelwood and his paperwork and his love of shoreside management?
- (12) management?

Vol 21 3631

- (1) A Absolutely Harvey and I know each other pretty well and Harvey and I both know Joe and we deal with Joe on that
- (2) Q Now in fact Captain Hazelwood was transferred from the gulf coast fleet to the west coast fleet in 1987 correct?
- (3) A The last time I saw Joe was from my fleet was at an officer's conference April '87 and then he went on leave and
- (4) joined the vessel in July of '87
- (5) Q All right From that point to the time of the grounding did you remain as the fleet manager for the gulf coast fleet?
- (6) A Yes I did
- (7) Q Located - your office was located in Baytown Texas?
- (8) A Baytown Texas
- (9) Q Now notwithstanding the fact that he was in another fleet did you have occasion to run into Captain Hazelwood be able to
- (10) and see and observe him at any functions?
- (11) A Yes I saw Joe at officer conferences As a matter of fact, Joe had called me, it was one of the nicest phone calls I've ever gotten, he had called me in fall of '87 his vessel was going north to Alaska and he had called just to tell me that he enjoyed the relationship he liked - he liked my style and we got along well and he'd miss the relationship
- (12) Q You think that was because he was a New Yorker don't you?
- (13) A Direct yes
- (14) Q Did you have a chance to observe him though at any of the conferences after he left your fleet?
- (15) conferences after he left your fleet?

Vol 21 3632

- (1) A I did
- (2) Q Did you notice whether or not Captain Hazelwood was drinking at these conferences?
- (3) A Only he had a passion for Perrier and ice tea, as I remember, and those are the only two drinks I ever saw him drunk
- (4) Q Did you take particular note of that?
- (5) A Yes
- (6) MR SANDERS You may ask
- (7) CROSS EXAMINATION OF DWIGHT KOOPS (Live)
- (8) BY MR O NEILL
- (9) Q This is your deposition transcript in case you need it
- (10) You have - you testified here today some knowledge with regard to alcoholism isn't that a correct statement?
- (11) A Yes
- (12) Q And you realize that alcoholics have to admit that they're alcoholics in order to move forward with their treatment?
- (13) A Yes
- (14) Q And you understand that alcoholics are in fact never cured?
- (15) A Yes
- (16) Q And you understand that the relapse rate for alcoholics is better than 50 percent?
- (17) A Yes
- (18) Q And you testified a little bit about these officer conferences that you'd go to and see Captain Hazelwood
- (19) You re

Vol 21 3633

- (1) aware of the fact that individuals who have an alcohol dependency problem attempt to hide that fact don't they?
- (2) A Yes
- (3) Q It's called masking isn't that right?
- (4) A That's correct
- (5) Q And at some point in time you were put on notice that Captain Hazelwood had gone through alcohol rehabilitation?
- (6) A Yes
- (7) Q And you don't know or you didn't follow up and ask when he'd been in rehabilitation did you?
- (8) A I was told that it was the spring of '85
- (9) Q Did you know the details of his program?
- (10) A I did not
- (11) Q Did you know the details of his aftercare program?
- (12) A I did not
- (13) Q Did you know whether he was attending AA or not?
- (14) A No
- (15) Q Did you know why he went into alcohol rehabilitation?
- (16) A No
- (17) Q Did you ever speak to anybody in your human relations department Dan Paul who came in here testified he was the -
- (18) the company officer charged with responsibility for this particular topic did you ever talk with Dan Paul about the subject of Captain Hazelwood and alcohol rehabilitation?
- (19) A No, I did not

Vol 21 3634

- (1) Q Now you testified here today you started off by saying it might help the testimony here and then you launched into a discussion in which you said we were direct with each other as New Yorkers are it was a good frank relationship Do you recall testifying to that today?
- (2) A Yes
- (3) Q Now did the two New Yorkers talk about, between each other the captain's alcohol rehabilitation?
- (4) A We did not
- (5) Q Did you talk about the subject of alcohol?
- (6) A No
- (7) Q Did you talk about the subject of AA or aftercare?
- (8) A No
- (9) Q Through the summer of 1987 you never spoke to Frank Iarossi about Hazelwood and alcohol did you?
- (10) A That is incorrect
- (11) Q When did you - when is your view now that you spoke to him?
- (12) A My recollection is that I spoke with Iarossi in the spring of '87 when we gathered together as managers and we were talking about transfers
- (13) Q Okay So let's focus on the spring of 1987 And you talked to Mr Iarossi in the spring of 1987 about the captain and the subject of alcohol?
- (14) A Yes

Vol 21 3635

- (1) Q Prior to that conversation had you ever spoken to Frank Iarossi about the subject of Joe Hazelwood and alcohol?
- (2) A No, other than I may have spoken to him about the - the trip that I asked Captain Sheehy to make to Baton Rouge and I believe I've been deposed on that and said I may have spoken to him about it That's my only recollection of a conversation
- (3) Q You were deposed on this subject do you recall that?
- (4) A Yes
- (5) Q And the question was fairly asked to you Prior to that conversation with Frank Iarossi that's the discussion in early to mid '87, had you had any discussions with Mr Iarossi about Joseph Hazelwood and drinking, and your answer to the question at that time was no
- (6) A If you look at the November - I had two separate days of deposition If you look at the November date of deposition in November, I believe my words were that I may have
- (7) Q You may have?
- (8) A Yes
- (9) Q So we have a version that started off with no and then we have a second version that started off with I may have?
- (10) A Yes We're talking about five years of time and probably a few years before that, and I was questioned one month and then, as human beings do, they start to think about their recollections and certainly five years later, perhaps I had a different recollection and I may have had a conversation when I

Vol 21 3636

- (1) gave my deposition in November of '92 I think
- (2) Q Now you testified here today that - I'm going to come back to that conversation in a minute but I want to put a couple of conversations together before I move on You testified here today and your words were I remember it like it was yesterday and this is a post grounding conversation that you had with Ivan - how do you pronounce his last name?
- (3) A Mihajlovic
- (4) Q Mihajlovic in which Mihajlovic told you about going aboard the vessel?
- (5) A Yes-
- (6) Q And that was the first time Mihajlovic told you about going aboard the vessel?
- (7) A Yes
- (8) Q So up to the time of the grounding you and Mihajlovic had never had a discussion about him going aboard the vessel?
- (9) A Right
- (10) Q Never? Ever?
- (11) A That is correct
- (12) Q Okay Here's what I don't understand Mr Iarossi has testified here that you did have such a conversation And he recalls it very specifically And I put it up on the screen for you And my question for you is who's right and who's wrong?
- (13) A I guess, after five years both of us think we're right,

Vol 21 3637

- (1) and I think probably both of us are trying our very sincerest to recollect conversations I feel that I did not have that conversation with Mr Iarossi based on what I just previously testified, that I had the conversation with Ivan Mihajlovic for the first time in July of '89
- (2) Q Now Mister - I don't want you to comment on what Mr Iarossi says but when you have two different versions of the story would you agree with that?
- (3) A From what you tell me yeah, I'm trying to read it and decide what you're after but obviously we do and I'm sure Mr Iarossi thinks his response is as sincere and honest as I do
- (4) Q Now we had talked for a minute about conversations with Mr Iarossi and you had - we'd gone through your no and then you'd gone through well maybe I had a conversation with him and maybe I didn't This is Mr Iarossi's version of the conversation that took place in October or November of 1985 with you in which he told you the need to watch Joe very carefully and then you related to him about your father
- (5) Now, when we got - did the conversation take place as Mr Iarossi said or did it not take place as you first said or did it maybe take place as you second said Or what is the story?
- (6) A My thoughts are very, very clear on this That's a fairly personal issue to me and I remember when I had a conversation

Vol 21 3638

- (1) like that with an individual my recollection I think  
 (2) Mr Iarossi is right I think the conversation did take  
 (3) place But the time frame we disagree on I spoke with  
 (4) Mr Iarossi about that issue and mentioning my dad It was  
 (5) either during the transfer time which was spring of '87 or it  
 (6) could have even been after the grounding, itself, when we  
 were  
 (7) talking about issues of monitoring and follow up that I  
 (8) mentioned my dad But it was clearly not the beginning of  
 my  
 (9) assignment  
 (10) Q So Mr Iarossi's testimony as we've just looked at it  
 (11) doesn't comport with your memory?  
 (12) A Mr Iarossi's testimony, I'm sure, is as honest and sincere  
 (13) as I think mine is  
 (14) Q If you had had a report to you I don't want to talk about  
 (15) the standards to which you bring to this situation you  
 (16) testified here today if there was any indication that Captain  
 (17) Hazelwood had resumed drinking you would have yanked him  
 in a  
 (18) New York minute do you recall that?  
 (19) A Yes  
 (20) Q What if it was reported to you that he was ordering beer  
 (21) over a walkie talkie at for example Portland Shipyard would  
 (22) you have yanked him in a New York minute?  
 (23) A Assuming that the facts that you cite are true what you  
 (24) need to do and what I'd do and what I would always do is  
 (25) investigate the situation I'd talk to the people involved,

Vol 21 3639

- (1) check the context in which that - that radio conversation or  
 (2) whatever you said it was took place I'd look at the whole  
 (3) situation  
 (4) Q Let's discuss that a little bit Talk to the people  
 (5) involved You'd talk to among other people the suspect  
 (6) because you're a direct and forthright individual you'd say I  
 (7) have a report that this incident happened what's up is that a  
 (8) good first step?  
 (9) A Absolutely You'd confront the individual directly  
 (10) Q Always confront the individual directly isn't that right?  
 (11) A Sir?  
 (12) Q Always confront the individual directly?  
 (13) A Well as part of the investigation I think that's an  
 (14) integral part of any question you have  
 (15) Q It's both good management and part of being a decent  
 human  
 (16) being?  
 (17) A That's correct  
 (18) Q Did you confront Captain Hazelwood about the Shaw  
 incident  
 (19) directly?  
 (20) A I did not  
 (21) Q Okay Now with regard to this hypothetical I've given you  
 (22) about the Portland Shipyard let's assume that you got a report  
 (23) not only that beer was ordered over the walkie talkie by for  
 (24) example Captain Hazelwood but there were - and the beer  
 was  
 (25) Henry Weinhard's but there was empty Henry Weinhard beer  
 cans

Vol 21 3640

- (1) in one or two locations on the ship heightened sense of  
 (2) awareness?  
 (3) A Yes  
 (4) Q Go talk to the man?  
 (5) A Part of the investigation  
 (6) Q Do you know with regard to the Jim Shaw incident whether  
 (7) other potential witnesses with regard to the situation as to  
 (8) Captain Hazelwood acting weird were interviewed? Do you  
 know?  
 (9) A I asked - I do not know specifically  
 (10) Q Now Mr Shaw testified here by deposition and he says  
 (11) that he reported - and I don't recall to who in management so  
 (12) I'm not going to say it was you or I'm not going to say it was  
 (13) your port captain, but Shaw says that the report consisted of  
 (14) Joe had fallen off of the wagon Joe was drinking was that  
 (15) ever reported to you?  
 (16) A Captain Sheehy reported what I testified, and I'm afraid  
 (17) I'm misleading the jury in my eagerness to try and give you  
 a  
 (18) response in that last question  
 (19) Captain Sheehy told me - when he came back he talked to a  
 (20) lot of people Now, Captain Sheehy and I know each other  
 very  
 (21) well and he knows what I require, as does everybody else in  
 the  
 (22) fleet, and he knows exactly what I'm looking for, so the  
 (23) response well were other people talked to or interviewed, I  
 (24) feel quite certain that Captain Sheehy talked to a number of  
 (25) people on the ship like I asked him to

Vol 21 3641

- (1) Q Let me ask you a question about that Captain Sheehy's  
 (2) testified here If Captain Sheehy did not investigate the  
 (3) people who were involved in the incident that Mr Shaw related  
 (4) witnesses participants would Captain Sheehy have been  
 remiss  
 (5) in his duties?  
 (6) A I don't know that he did that but the answer to your -  
 (7) Q Assume he didn't would he have been remiss in his duties?  
 (8) A The answer is yes  
 (9) Q That would have been a reckless act wouldn't it?  
 (10) A He would have been remiss in his duties  
 (11) MR O NEILL I'm about to move on to another subject  
 (12) can we take a break?  
 (13) THE COURT Take our second break ladies and  
 (14) gentlemen We'll be in recess now for 15 minutes  
 (15) THE CLERK This court is in recess for 15 minutes  
 (16) (Jury out at 11:58 a.m.)  
 (17) (Jury in at 12:15 p.m.)  
 (18) BY MR O NEILL  
 (19) Q Would it be a fair statement that no one from above no one  
 (20) from Exxon told you to monitor Hazelwood between 1985 and  
 1987?  
 (21) A Yes  
 (22) Q And that was a - to the extent that you performed that  
 (23) duty that was self-generated?  
 (24) A It was generated based on information that I got from my  
 (25) predecessor

Vol 21 3642

- (1) Q Okay And if Mr Iarossi came in here and said that he  
 (2) told you to that is at least not consistent with your  
 (3) recollection is it?  
 (4) A It's not consistent with my recollection, yes  
 (5) Q Now, you talk about visiting Hazelwood's vessel Would it  
 (6) be fair to say that you visited Hazelwood's vessel  
 (7) approximately six times a year?  
 (8) A Yes If you consider Baytown and the other ports where I  
 (9) also visit ships, which would be Baton Rouge and New York  
 (10) primarily  
 (11) Q Baton Rouge how about is there a place called Texas City?  
 (12) A There is  
 (13) Q Did you visit him at Texas City sometimes too?  
 (14) A I may have  
 (15) Q And with regard to the other masters vessels you visited  
 (16) them about five times a year?  
 (17) A Yes, approximately  
 (18) Q And when you visited the other vessels you also checked to  
 (19) see if those masters had been drinking?  
 (20) A I check everything when I'm on the vessels  
 (21) Q And you did not instruct anyone to make day to day  
 (22) observations of Hazelwood?  
 (23) A I did not  
 (24) Q And you're aware of no piece of paper that exists any place  
 (25) at Exxon Shipping Company that deals with this monitoring

Vol 21 3643

- (1) situation are you?  
 (2) A I'm not aware of a piece of paper for the - relative to  
 (3) monitoring for the period that is of immediate concern to  
 (4) this discussion, which was '85 to '87  
 (5) Q That's right You don't know of any paper?  
 (6) A I don't know, I'm not aware of one  
 (7) Q And prior to the transfer you yourself never asked  
 (8) anybody who interfaced if I can use a computer term with  
 (9) Captain Hazelwood people on the vessel or shoreside, you  
 (10) never  
 (11) asked anyone directly whether Hazelwood had resumed  
 (12) drinking  
 (13) did you?  
 (14) A Could you reframe that for me, please?  
 (15) Q Sure At no time prior to the transfer did you ask anyone  
 (16) interfacing with Captain Hazelwood people on vessel or  
 (17) shoreside whether Hazelwood had resumed drinking?  
 (18) A I hesitate to answer you because I had a number of  
 (19) discussions, obviously many discussions with Captain Bill  
 (20) Sheehy  
 (21) Q Exclude Sheehy  
 (22) A I may have heard - I can't answer you absolutely I may  
 (23) have had other discussions with peers, other managers,  
 (24) Harvey  
 (25) Borgen  
 (26) Q Okay Would you go to Page 304 of your deposition line 12  
 (27) to line 17 Are you on Page 304?  
 (28) A 304

Vol 21 3644

- (1) Q And I'm going to read the question at line 12 and I'm  
 (2) going to go through line 17 and you tell me if you were asked  
 (3) this question and you gave this answer Well at any time  
 (4) before this conversation with Borgen in 1987 did you ask  
 (5) anyone who was interfacing with Hazelwood be they people on  
 (6) the vessel or people on the shoreside whether Hazelwood had  
 (7) resumed drinking? And your answer was no  
 (8) Is that a fair reading?  
 (9) A My answer is no  
 (10) Q Now when Captain Hazelwood was transferred to the west  
 (11) coast you did not tell Borgen that he had to monitor Captain  
 (12) Hazelwood did you?  
 (13) A I did not  
 (14) Q And captain - Mr Borgen did not indicate to you that he  
 (15) was going to monitor Captain Hazelwood for alcohol use that's  
 (16) a correct statement isn't it?  
 (17) A That's a correct statement  
 (18) Q Now with regard to your observations of Captain  
 (19) Hazelwood  
 (20) you have testified here today that you got to know the man  
 (21) pretty well I got to understand him do you recall that?  
 (22) A Yes  
 (23) Q You car-pooled with a fellow named Ellenwood?  
 (24) A I did  
 (25) Q On a daily basis from October of 1985 to April of 1987  
 (26) isn't that a correct statement?

Vol 21 3645

- (1) A Yes I missed the days but I car-pooled with the  
 (2) gentleman  
 (3) Q On a daily basis you? May have missed a day here or there  
 (4) out of town?  
 (5) A Yes  
 (6) Q You had much more contact with Ellenwood than you had  
 (7) Captain Hazelwood?  
 (8) A On a day to-day basis yes  
 (9) Q And you were a friend of Ted Ellenwood?  
 (10) A As I am a friend of Joe Hazelwood  
 (11) Q Captain Hazelwood And it turned out that Ellenwood had an  
 (12) alcohol problem isn't that right?  
 (13) A In 1988, it was reported he turned himself in for a  
 (14) program  
 (15) Q You had daily contact with Ted Ellenwood and made no  
 (16) observations at all with regard to Ted Ellenwood's problems?  
 (17) A Made no observations of Ted Ellenwood because there  
 (18) was no  
 (19) knowledge, prior knowledge that he may have had a  
 (20) problem,  
 (21) where as there was that knowledge that I had of Hazelwood  
 (22) Q You were on notice with regard to Captain Hazelwood?  
 (23) A That is correct  
 (24) Q With regard - let's go to the Shaw incident and I didn't  
 (25) quite catch your testimony with regard to this today but when  
 (26) Sheehy came back to report to you about the individuals that he  
 (27) talked to he didn't tell you who those individuals were did

Vol 21 3646

- (1) he?
- (2) **A He did not**
- (3) **Q Now you spoke to Shaw?**
- (4) **A I did**
- (5) **Q And was Sheehy in the room when you spoke to Shaw?**
- (6) **A We may have been - all three of us may have been together,**
- (7) **but I remember talking to Jim about the issue**
- (8) **Q And where does Mr Shaw fit on the chain of command with regard to you and Sheehy?**
- (9) **A The port steward reported directly to me in the - in the office And physically, he's - he's located a couple doors down from where I was, Baytown Texas office**
- (10) **Q With regard to this Mihajlovic incident that we've talked to you didn't know about it until after the grounding we're clear on that?**
- (11) **A That is correct**
- (12) **Q With regard to the transfer of Captain Hazelwood from the Gulf Coast fleet to the West Coast fleet, was Mr Iarossi in agreement with the decision to transfer Captain Hazelwood?**
- (13) **A When he came up at the meeting that I testified to just a few minutes ago, he was**
- (14) **Q Did this meeting occur at the time of transfer?**
- (15) **A It occurred in the springtime It was after - on or about but I would say it was after April '87, perhaps May, June, early July time frame**

Vol 21 3647

- (1) **Q Had the decision been made to transfer Captain Hazelwood at that period in time or was the discussion with Mr Iarossi a decision making meeting or did it predate or postdate a decision making meeting? Do you understand what I'm talking about?**
- (2) **A Yes It was a meeting, I think the primary reason for the meeting was to discuss rankings of senior officers but at that point in time Harvey Borgen and myself advised Mr Iarossi of the transfer**
- (3) **Q Did Mr Iarossi tell you he was shocked?**
- (4) **A He did not**
- (5) **Q You testified about the Captain's job performance and that was something that you monitored in 1986 do you recall that?**
- (6) **A Yes You talking generally?**
- (7) **Q Yes sir**
- (8) **A Yes yes**
- (9) **Q And would it be fair to say and this is Exhibit 155 for identification that in 1986 at least with regard to the rankings that was his worst year?**
- (10) **A Yes**
- (11) **MR O NEILL I'm just about done**
- (12) **MR SANDERS I was trying to look at your chart**
- (13) **MR O NEILL Thank you sir**
- (14) **REDIRECT EXAMINATION OF DWIGHT KOOPS (Live)**
- (15) **BY MR SANDERS**

Vol 21 3648

- (1) **Q Mr Koops let me go to a couple of things that Mr O'Neill asked you about One thing he asked you about was whether you monitored other captains or whether you looked at all things on all ships do you remember that testimony?**
- (2) **A Yes**
- (3) **Q Now when you went to Captain Hazelwood did you look for things with Captain Hazelwood that you didn't look for in other masters?**
- (4) **A I think the issue is - is one of quality versus quantity I'm just one human being, and I spread myself as thin as I possibly can, but when it comes to, say, visiting Captain Hazelwood, although the numbers may be fairly close, the way I spread myself**
- (5) **Q You mean number of visits?**
- (6) **A Number of visits, frequency of visits to ships that I can physically get around to, that I would say my visits to Captain Hazelwood had an aspect of quality I was looking for something perhaps a little bit different with Captain Hazelwood**
- (7) **than I was with the other masters, and that's how I explain the difference**
- (8) **Q In that sense did you watch Captain Hazelwood differently than you watched other masters?**
- (9) **A I would say so**
- (10) **Q And in that sense did you watch him more closely than other masters?**

Vol 21 3649

- (1) **A In a sense, yes**
- (2) **Q Now Mr O'Neill has asked you about a couple of conversations with Mr Iarossi And the first one had to do with - with Captain Mihajlovic I want to make sure that we're clear on this Did you have a conversation sometime with Mr Iarossi in which you told him what Captain Mihajlovic had told you?**
- (3) **A Yes**
- (4) **Q Difference is you think your recollection is - your belief is that it happened after the grounding and Mr Iarossi's recollection is that it happened before correct?**
- (5) **A That's correct**
- (6) **Q No doubt that the conversation occurred?**
- (7) **A Yes**
- (8) **Q All right And the conversation that you had with him in which you mentioned your father is there any doubt in your mind that you had that conversation with Mr Iarossi at some time?**
- (9) **A That's correct**
- (10) **Q The only difference is when did it happen?**
- (11) **A Yes**
- (12) **Q Now you were - you were asked a couple of questions about whether you were told to monitor The point is did you monitor Captain Hazelwood in terms of alcohol use?**
- (13) **A Absolutely**

Vol 21 3650

- (1) Q So regardless of who or whether you were told something  
 (2) you did it?  
 (3) A Yes  
 (4) Q And did you do it the entire time that Captain Hazelwood  
 (5) was within your supervision that is from October 1 1985  
 (6) until the end of April 1987?  
 (7) A The entire period  
 (8) MR SANDERS I have no further questions  
 (9) THE COURT Thank you You may step down sir  
 (10) Call your next witness  
 (11) MR NEAL Call Captain Ivan Mihajlovic and I think  
 (12) Your Honor that this is one where I have a few brief  
 (13) questions but Mr Chalos I think will take us back  
 (14) THE COURT I understand I got your message about it  
 (15) yesterday which I appreciate  
 (16) THE CLERK Raise your right hand please  
 (17) (The Witness Is Sworn)  
 (18) THE CLERK For the record sir state your full name  
 (19) your address and spell your last name please  
 (20) THE WITNESS My name is Ivan S Mihajlovic It's  
 (21) M I H A - J - L O V I C I live at 31 Seaspray Drive in  
 (22) Centerport New York  
 (23) DIRECT EXAMINATION OF IVAN MIHAJLOVIC (Live)  
 (24) BY MR CHALOS  
 (25) Q Captain Mihajlovic are you the brute we've been hearing

Vol 21 3651

- (1) about?  
 (2) A I guess so, huh?  
 (3) Q You don't look so tough in person  
 (4) By whom are you employed?  
 (5) A Sea River Maritime  
 (6) Q How long have you been employed by Sea River?  
 (7) A Just under 20 years  
 (8) Q Sea River being the successor of Exxon?  
 (9) A Exxon, that's correct  
 (10) Q You hold a master's license?  
 (11) A That is correct  
 (12) Q What is your present ship?  
 (13) A Present ship is the Sea River Mediterranean, the "ex"  
 Exxon  
 (14) Valdez  
 (15) Q That's the former Exxon Valdez?  
 (16) A That's correct  
 (17) Q How long have you been the master of that ship?  
 (18) A About three and a half years, since it came out of San  
 (19) Diego  
 (20) Q Now prior to that you were a master of other ships for  
 (21) Exxon?  
 (22) A That's correct  
 (23) Q When did you first obtain your master's license?  
 (24) A 1983  
 (25) Q 83?

Vol 21 3652

- (1) A 1983 yes  
 (2) Q And when did you first start sailing as master?  
 (3) A In 1984  
 (4) Q Prior to that I take it you were a chief mate?  
 (5) A That's correct  
 (6) Q How long were you a chief mate?  
 (7) A I got my chief mate's license in 1978 and from about '78  
 (8) to '83 beginning of '84 I sailed chief mate  
 (9) Q And I take it prior to that you were second mate for a  
 (10) number of years?  
 (11) A That's correct  
 (12) Q And before that you were a third mate?  
 (13) A That is correct  
 (14) Q Now where did you go to school?  
 (15) A I went to school at the United States Merchant Marine  
 (16) Academy at Kings Point  
 (17) Q And you graduated there when?  
 (18) A 1974 In June  
 (19) Q How many times have you sailed with Captain Hazelwood in  
 (20) your career?  
 (21) A In my career two or three  
 (22) Q What was the last time you sailed with him?  
 (23) A About 19 - 1981 1982  
 (24) Q And you were chief mate at the time?  
 (25) A That's correct

Vol 21 3653

- (1) Q Now you - do you consider Captain Hazelwood to be a  
 (2) friend of yours?  
 (3) A Yes I do  
 (4) Q You live close to him?  
 (5) A Yes, next town  
 (6) Q I'd like to ask you some questions about your experience in  
 (7) Prince William Sound  
 (8) A Okay  
 (9) Q When did you first start sailing up there  
 (10) A I believe it was 1977 Back then as third mate  
 (11) Q Okay And did you continue for a period of time going up  
 (12) there on a regular basis?  
 (13) A Yes, I did  
 (14) Q Until when?  
 (15) A I was on the west coast trade until end of 1984 beginning  
 (16) of 1985  
 (17) Q So I take it you made trips up there as a third mate?  
 (18) A That's correct  
 (19) Q As a second mate?  
 (20) A That's also correct  
 (21) Q As a chief mate?  
 (22) A Yes  
 (23) Q And up till 1985 as a master?  
 (24) A Yes, I did  
 (25) Q Did you hold a pilotage endorsement for Prince William

Vol 21 3654

- (1) Sound?
- (2) A No, I do not have it
- (3) Q Do you have a pilotage endorsement today for Prince William Sound?
- (4) Sound?
- (5) A No, I do not
- (6) Q How many trips – incidentally, where did you go in 1985?
- (7) A In 1985, I went to the Houston office to work as an assistant marine advisor for Bill Duncan
- (8) Q How long – how long were you there?
- (9) A Six months
- (10) Q What does an assistant marine advisor do?
- (11) A Basically, it's port approvals for different ports for our charter vessels and anything that may come up, a little bit maybe on the bridge organization manual a little bit on other stuff, pilotage, federal regulations used to come by my desk and I'd have to read them
- (12) Q Let me ask you about that During your tenure in Houston in 1985 did you have occasion to see a proposed rule making by the Coast Guard relating to pilotage in Prince William Sound?
- (13) A I believe I did, yes
- (14) Q What do you recall about the proposal rule making that you saw?
- (15) A I recall that they were talking about abolishing pilotage in Prince William Sound completely
- (16) Q Had you heard talk to that effect that pilotage was going

Vol 21 3655

- (1) to be abolished in Prince William Sound?
- (2) A Yes I did And I heard talk about reasons for not abolishing would be some of the captains there that were getting extra money going in and out obviously they wouldn't want it abolished but there was a discussion period on it
- (3) Q Did you hear the reasons as to why they wanted to abolish it?
- (4) A I assume that they just felt that it wasn't necessary anymore
- (5) Q When you say you assume what do you mean? You assume it wasn't necessary? Why not?
- (6) A Well, there were a lot of captains running up there without pilotage
- (7) Q You being one?
- (8) A Me being one yes sir
- (9) Q Let me ask you something Where did you go when you left the office in 1985 or 1986?
- (10) A I went on the Exxon Benicia
- (11) Q And where did that ship trade?
- (12) A That ship traded into Alaska I only made one trip or so on it
- (13) Q Did you have occasion to go to the far east at some point before you went to Alaska?
- (14) A That's correct about 1986 After that Benicia I was transferred to the east coast and was on the Exxon San

Vol 21 3656

- (1) Francisco We were running between Baytown, Baton Rouge and Chiriqu Grande and about 1987, 1988, I can't remember exactly when, we went around – actually went around the world, just about, to Singapore up to the shipyard period for transfer to the west coast
- (2) Q Okay Did you come back to Alaska after Singapore?
- (3) A Yes, I did
- (4) Q Before we get to Alaska let me ask you this What was your understanding of the pilotage regulations in 1985 and 1986 for Prince William Sound?
- (5) A In 1985 and in 1986, they were going out the door They were going to be no more pilotage That's what I understood it to be
- (6) Q Now, when you came back from Singapore did you have occasion to ask anyone what the status of the pilotage regulations was for that time?
- (7) A When I left Singapore, I called up – well, let me clarify 1984, before, it used to be daylight only passages, referring –
- (8) Q What does that mean?
- (9) A That means that you could only, with non pilotage, go from Cape Hinchinbrook all the way to the dock at daylight and same thing going out, it was very, very rigid In 1986, when I went up to Singapore, I went to see if did that change or what, and basically they told me that, yes, you know, that's applicable

Vol 21 3657

- (1) anymore
- (2) Q Well let's slow down a second
- (3) A Okay
- (4) Q You were coming back from Singapore?
- (5) A Right
- (6) Q Going to Alaska?
- (7) A That's correct
- (8) Q To Prince William Sound this is your first trip back in what two years?
- (9) A Yes
- (10) Q And you said you made an inquiry to find out what the pilotage regulations were?
- (11) A That's correct
- (12) Q Who did you make that inquiry to?
- (13) A Alaska Maritime Agency
- (14) Q And who was Alaska Maritime?
- (15) A Alaska Maritime Agency was our agents in Valdez
- (16) Q How did you contact them?
- (17) A I believe I contacted them first by telex and then by telephone
- (18) Q And did Alaska Maritime respond?
- (19) A Yes
- (20) Q How did they respond?
- (21) A They responded by sending me a fax or a telex of a letter
- (22) Q Okay Let me put up what we previously marked as DX2476

Vol 21 3658

- (1) that s the Alamar letter  
 (2) MR CHALOS I misidentified the exhibit Your Honor  
 (3) It s 3483 DX3483 Not only have they taken the machines away  
 (4) from me now I can t get the exhibits right  
 (5) Your Honor I ve been told that this exhibit hasn t been  
 (6) offered  
 (7) THE COURT I m sorry give me that number again?  
 (8) MR CHALOS 3483 DX  
 (9) THE COURT That s a memo FROM Martineau to the  
 (10) masters of Exxon Shipping  
 (11) MR CHALOS This is the second page of that memo  
 (12) THE COURT It s not from Alamar  
 (13) MR CHALOS The cover sheet is from Martineau the  
 (14) second page is the Alamar letter I thought I offered it into  
 (15) evidence If I haven t I ll do that at this time No  
 (16) problem  
 (17) MR O NEILL Offer  
 (18) THE COURT My notes show that 3483 has been admitted  
 (19) MR CHALOS I ll offer it at this time Your Honor  
 (20) MR O NEILL You don t need to  
 (21) MR CHALOS Oh it s in?  
 (22) THE COURT It s in you got it  
 (23) BY MR CHALOS  
 (24) Q Let me ask you this Is this the letter that you got? Do  
 (25) you recognize this?

Vol 21 3659

- (1) A I recognize the letter yes  
 (2) Q Okay Do you recognize it as the letter that you received  
 (3) from Alaska Maritime?  
 (4) A Yeah Yes  
 (5) Q Now when you received this letter did you read it?  
 (6) A Yes, I did read it  
 (7) Q What did you conclude from reading this letter?  
 (8) A Well, I concluded basically that pilotage was no longer an  
 (9) issue, using this letter and stuff that I had seen before It  
 (10) wasn't the issue that it once was  
 (11) Q So your belief in 1988 - by the way, when did you come  
 (12) back to Alaska in 1988?  
 (13) A I believe it was September  
 (14) Q Of 88?  
 (15) A Yeah  
 (16) Q So your belief in September of 1988 was that pilotage had  
 (17) been waived in Prince William Sound?  
 (18) A Basically, yes  
 (19) Q Incidentally you said you didn t have a pilotage  
 (20) endorsement?  
 (21) A No  
 (22) Q Right Where did you pick up and drop off the pilot in  
 (23) Prince William Sound?  
 (24) A I dropped off the pilot either above Busby or just below  
 (25) Busby

Vol 21 3660

- (1) MR CHALOS Excuse me one second Your Honor just  
 (2) going to put up a chart I m going to use this chart because  
 (3) it has all of Prince - oh I guess not I ll use this that s  
 (4) fine  
 (5) BY MR CHALOS  
 (6) Q Captain can you see this?  
 (7) A Yes I can  
 (8) Q When you picked up the pilot and dropped off the pilot  
 (9) where did you pick him up? Can you - can you tell me? I ll  
 (10) point to it so you don t have to come down  
 (11) A Just above Busby in that little area between Busby and  
 (12) Rocky Point  
 (13) Q That s Rocky Point there?  
 (14) A So in there  
 (15) Q Just in there?  
 (16) A In there that's right, or just below Busby in that area  
 (17) Q What would that depend on?  
 (18) A That would depend on weather  
 (19) Q Mainly?  
 (20) A Mainly weather, yes  
 (21) Q As you understood the situation in 1988 where was the  
 (22) pilot station?  
 (23) A In 1988 Rocky Point  
 (24) Q Rocky Point being up here -  
 (25) A Yes

Vol 21 3661

- (1) Q - in this area? Before I put this up I just want to ask  
 (2) you something I want to put this off to the side for a  
 (3) second Oh I trapped myself Can we get the first paragraph  
 (4) blown up? You can look at it Can we make it a little bigger  
 (5) first paragraph? That s good  
 (6) Captain the first paragraph says and I ll read it  
 (7) effective September 1 1986 the U S Coast Guard requirement  
 (8) for daylight passage in Prince William Sound for vessels  
 (9) without pilotage has been waived see that?  
 (10) A Yes I do  
 (11) Q All non pilotage vessels will be able to transit from Cape  
 (12) Hinchinbrook to the pilot station and that we said was Rocky  
 (13) Point right?  
 (14) A Yes  
 (15) Q At all hours as long as visibilities remain at two miles  
 (16) or greater The same remains true for the outbound leg from  
 (17) the pilot station to Cape Hinchinbrook You see that?  
 (18) A Yes, I do  
 (19) Q Then there s some requirements for reporting in the last  
 (20) couple of paragraphs Those requirements for reporting can  
 (21) we  
 (22) go back to the - see where it says about notifying the Coast  
 (23) Guard and it says here number three yeah  
 (24) It talks about a bridge navigation team consisting of an  
 (25) extra watch stander under the direction of the deck officer  
 other than the one on watch must report the vessel s position

Vol 21 3662

- (1) every ten minutes while navigating from Cape Hinchinbrook to  
 (2) Montague Point you see that?  
 (3) A Yes, I do  
 (4) Q What did you understand that third requirement to be?  
 (5) A I don't understand  
 (6) Q What did you understand when they re talking about two  
 (7) officers on the bridge and reporting every ten minutes?  
 (8) A Well, just two officers  
 (9) Q Now is that in a specific area that they re talking about  
 (10) there?  
 (11) A Just in that area, just from Cape Hinchinbrook, Cape  
 (12) Hinchinbrook up to Montague Island, about 13 miles  
 (13) Q We don't have that but Cape Hinchinbrook is down here  
 (14) down here right?  
 (15) A I guess so, Mike  
 (16) MR CHALOS Do we have the other one?  
 (17) MR NEAL Don't you have it behind you there?  
 (18) MR CHALOS No that's the small one too  
 (19) BY MR CHALOS  
 (20) Q Let me ask you to assume that Cape Hinchinbrook is down  
 (21) here  
 (22) A Okay  
 (23) Q Is that right?  
 (24) A Yes  
 (25) Q And Montague Point is down there too?

Vol 21 3663

- (1) A That's correct  
 (2) Q And that's a short stretch about ten miles or so?  
 (3) A That's correct  
 (4) Q So what they re talking about there is having two watch  
 (5) standers on the bridge in that ten mile stretch isn't that  
 (6) correct?  
 (7) A That is correct  
 (8) Q Now there's nothing in this that talks about having two  
 (9) watch standers in all of Prince William Sound does it?  
 (10) A No  
 (11) Q Above that point?  
 (12) A No there's not  
 (13) MR CHALOS Oh look at this Your Honor I offer at  
 (14) this time DX9172 It's the chart of Prince William Sound  
 (15) (Exhibit 9172 offered)  
 (16) MR O NEILL No objection  
 (17) THE COURT DX9172 is admitted  
 (18) (Exhibit 9172 received)  
 (19) BY MR CHALOS  
 (20) Q Okay Captain the area that we re talking about is -  
 (21) here's Cape Hinchinbrook right?  
 (22) A That's correct  
 (23) Q And Montague Straits is right here?  
 (24) A Just the top piece here  
 (25) Q Right here?

Vol 21 3664

- (1) A Move your hands to the left  
 (2) Q To the left?  
 (3) A There you go  
 (4) Q So it's this area right in here?  
 (5) A That's correct  
 (6) Q That's the only area that that regulation or that letter  
 (7) said you had to have two officers?  
 (8) A That is correct  
 (9) Q Bligh Reef is way up here right?  
 (10) A That is correct  
 (11) Q Rocky Point is up here?  
 (12) A That's right  
 (13) Q Okay Now prior to the grounding, you operated on the  
 (14) principle that pilotage had been waived right?  
 (15) A That is correct  
 (16) Q And that just to recap, that you only needed one officer  
 (17) on the bridge in that area above Montague Point?  
 (18) A That's correct  
 (19) Q Now, Captain, going back to - to the letter from Alaska  
 (20) Maritime can we go back to the first paragraph that paragraph  
 (21) says - refers to non pilotage vessels right?  
 (22) A That's correct  
 (23) Q It doesn't refer to pilotage vessels does it?  
 (24) A No it does not  
 (25) Q Well did you assume that pilotage was waived also for

Vol 21 3665

- (1) pilotage vessels or just non pilotage vessels?  
 (2) A For both vessels  
 (3) Q Why do you say that?  
 (4) A Well you can't hold a pilotage vessel to a stricter  
 (5) compliance than a non pilotage vessel You know, if a  
 (6) person  
 (7) has the extra training, you would think that he would be let  
 (8) off easier  
 (9) Q Well let's see if I understand this right As you were  
 (10) interpreting this - as this letter is written, it talks about  
 (11) non pilotage vessels right?  
 (12) A That's correct  
 (13) Q And you re saying - you re saying what that pilotage  
 (14) vessels didn't have to comply either with the pilotage  
 (15) requirements?  
 (16) A That's correct  
 (17) Q And what's the basis of that?  
 (18) A I just feel that a pilotage vessel can't be held to a  
 (19) higher standard than a non-pilotage vessel  
 (20) Q Well it would be true wouldn't it the way you'd get  
 (21) around if you were a pilotage vessel and the fellow with the  
 (22) pilotage didn't want to stand the pilotage watch all he had to  
 (23) do under this regulation is declare his vessel a non pilotage  
 (24) vessel right?  
 (25) A That is correct  
 (26) Q Is that the basis for what you re talking about?

Vol 21 3666

- (1) **A That is correct**  
 (2) **Q Now subsequent to the grounding there was a chief mate assigned to your ship that had the pilotage endorsement?**  
 (3) **A After the grounding?**  
 (4) **Q Yeah subsequent?**  
 (5) **A Yes**  
 (6) **Q That means after?**  
 (7) **A Yes**  
 (8) **MR NEAL Your Honor could we approach the bench a moment?**  
 (9) **MR O NEILL They re objecting to each other This is great**  
 (10) **(At side bar off the Record)**  
 (11) **THE COURT The last question has been withdrawn and the jury will ignore it**  
 (12) **BY MR CHALOS**  
 (13) **Q Captain when you were operating in Prince William Sound -**  
 (14) **A Yes**  
 (15) **Q - with one officer on the bridge above Cape - above Montague Point?**  
 (16) **A Yes**  
 (17) **Q Did you believe that you were in compliance with the Exxon bridge organization manual having one officer on the bridge?**  
 (18) **A Yes**  
 (19) **Q You did?**

Vol 21 3667

- (1) **A Yes**  
 (2) **Q Have you ever gone below in Prince William Sound?**  
 (3) **A Yes, I have**  
 (4) **Q And left your mate in charge of the -**  
 (5) **A That's correct**  
 (6) **Q Have you ever gone below in a place above Bligh Reef?**  
 (7) **A Yes, I did once**  
 (8) **Q Have you ever gone below in the Narrows?**  
 (9) **A That's what I'm talking about, yes, sir**  
 (10) **Q How long did you stay off the bridge when you were in the Narrows?**  
 (11) **A It was just about the whole transit**  
 (12) **Q Of the Narrows?**  
 (13) **A That's correct**  
 (14) **Q You had something to do?**  
 (15) **A Yes, it was after the grounding**  
 (16) **Q This was after the grounding?**  
 (17) **A Yes**  
 (18) **Q Well my question to you is did you have something to do on that occasion that caused you to leave the bridge?**  
 (19) **A Yes, I did**  
 (20) **Q And you felt - you felt at that time confident enough to leave your mate and the pilot on the bridge?**  
 (21) **A Yes, I did**  
 (22) **Q Captain based on your experience is it the master s**

Vol 21 3668

- (1) **discretion as to when he should be on the bridge or when he should be off the bridge?**  
 (2) **A Yes**  
 (3) **Q He makes that decision?**  
 (4) **A Yes**  
 (5) **Q Is there any regulation that you re aware of in Prince William Sound that requires the master to be on the bridge at any time?**  
 (6) **A No**  
 (7) **Q Is that a no?**  
 (8) **A That's a no**  
 (9) **Q Is it a halfhearted no or do you know that to be true?**  
 (10) **A I haven't been there in three and a half years so -**  
 (11) **Q Based on the experience that you had up there did you know of any regulation -**  
 (12) **A No**  
 (13) **Q - that required the captain to be on the bridge?**  
 (14) **A No, I didn't**  
 (15) **Q Captain you ve sailed in areas other than Prince William Sound have you not?**  
 (16) **A Yes, I have**  
 (17) **Q How do you compare Prince William Sound in terms of navigational hazards to other areas that you might have sailed in where you would encounter restricted waters?**  
 (18) **A I would have to say that areas such as the Red Sea now**

Vol 21 3669

- (1) **Gibraltar, English Channel, I mean, there is no comparison to - for those areas than compared to Prince William Sound**  
 (2) **Q In what way?**  
 (3) **A Amount of traffic fishing boats just a lot closer traffic**  
 (4) **Q Just so I m clear are you saying those other areas that you re talking about are much more hazardous in terms of navigating than Prince William Sound?**  
 (5) **A Oh, yes, yes, the other areas are more hazardous than Prince William Sound**  
 (6) **Q There s been testimony by the commandant of the Coast Guard Admiral Yost that he believes this area to be a very easy area to navigate Do you agree or disagree with that?**  
 (7) **A I would agree**  
 (8) **Q Based on your experience are the navigational hazards in this area well-known?**  
 (9) **A Yes**  
 (10) **Q And well marked?**  
 (11) **A Yes they are**  
 (12) **Q Well lit at night? Well marked in the daytime?**  
 (13) **A Yes**  
 (14) **Q Captain have you ever used the autopilot in Prince William Sound?**  
 (15) **A I may have once**  
 (16) **Q Are you aware of any regulations that prohibit its use in**

Vol 21 3670

- (1) Prince William Sound?  
 (2) A At that time?  
 (3) Q Yes when you were there?  
 (4) A No  
 (5) Q And prior to the grounding is what I'm talking about  
 (6) A Prior to the grounding, no  
 (7) Q The use of the autopilot is in the discretion of the  
 (8) master is it not?  
 (9) A That's correct  
 (10) Q I'd like to ask you now about your relationship to the  
 (11) Vessel Traffic Center while you were up there  
 (12) A Yes  
 (13) Q You had occasion to communicate with them?  
 (14) A Yes, I did  
 (15) Q Okay What did you understand the function of the vessel  
 (16) traffic system to have been while you were up there?  
 (17) A The Vessel Traffic Center or any vessel traffic system is  
 (18) basically to keep the vessel in a safe condition, to assist the  
 (19) vessel  
 (20) Q Assist in what way?  
 (21) A Assist in the safety, safe transit of the vessel  
 (22) Q Did you believe while you were up there that you were being  
 (23) monitored by the Coast Guard?  
 (24) A Yes  
 (25) Q Let's stick to an area above Bligh Reef starting at Bligh

Vol 21 3671

- (1) Reef and above Did you believe you were monitored in that  
 (2) area?  
 (3) A Yes, I did  
 (4) Q What did you expect of the Coast Guard in respect to their  
 (5) monitoring you? Did you expect anything from them?  
 (6) A Well, I expected them to keep me informed if they were  
 (7) tracking me and I was standing into danger or something  
 (8) Q We've used that term before can you explain what standing  
 (9) into danger means?  
 (10) A Well standing into danger is a term that - let's say I'm  
 (11) proceeding towards oh I don't know  
 (12) Q Let's say Bligh Reef  
 (13) A Okay Bligh Reef  
 (14) Q Why not?  
 (15) A And I continue to proceed towards that course the traffic  
 (16) system would turn and explain to me captain you are  
 (17) standing into danger in other words captain you better do  
 (18) something  
 (19) you might want to change course or you're going to cause a  
 (20) grounding or whatever  
 (21) Q Would you expect - or did you expect while you were up  
 (22) there that they would call you and give you a helm order?  
 (23) A No  
 (24) Q You wouldn't expect that?  
 (25) A No  
 (26) Q That's up to you that's your discretion what helm to use

Vol 21 3672

- (1) right?  
 (2) A That's correct  
 (3) Q They're not going to call you up and say captain come  
 (4) right ten degrees?  
 (5) A That's correct  
 (6) Q Now there's been some testimony that the Coast Guard  
 (7) never  
 (8) gave speed orders either Did you have occasion up there to  
 (9) get a speed order or hear a speed order from them?  
 (10) A We were coming down once, and we had come into the  
 (11) northbound lane to avoid ice and the Coast Guard called the  
 (12) overseas Juneau, I believe, and it was - and told them to  
 (13) slow  
 (14) down and proceed towards the anchorage to allow me time  
 (15) to get  
 (16) back into my southbound lane And then the Valdez was  
 (17) behind  
 (18) that and told them to slow down  
 (19) Q I see You were on another ship at the time?  
 (20) A I was on the Exxon San Francisco outbound, yes  
 (21) Q I see So they ordered the two ships that were coming  
 (22) inbound to slow down to let you get back in the lanes?  
 (23) A That's correct, they told them to slow down  
 (24) Q Now Captain I want to ask you one last area There's  
 (25) been some testimony here by chief warrant officer -  
 (26) Mr Montague calls him Lieutenant Delozier but he was really a  
 (27) chief warrant officer - Delozier had said that when he  
 (28) interviewed Captain Hazelwood and Third Mate Cousins that  
 (29) they  
 (30) both told him that Captain Hazelwood ordered the mate to  
 (31) make

Vol 21 - 3673

- (1) his turn at the 38 fathom mark just below Busby over here  
 (2) okay I want you to assume that as a hypothetical Are you  
 (3) with me so far?  
 (4) A Yeah I can just hardly see that chart, though  
 (5) Q Right here Lieutenant Commander Falkenstein says no  
 (6) nobody ever told him that when he asked Captain Hazelwood  
 (7) he  
 (8) told him that he instructed the mate to turn at Busby Island  
 (9) light okay I want you to assume that fact as well  
 (10) A Okay  
 (11) Q In your - how many years did we say you're sailing 20  
 (12) years?  
 (13) A Close to 20 years, yeah  
 (14) Q Did you ever receive an order from a captain to make a turn  
 (15) at a fathom mark?  
 (16) A No  
 (17) Q Did you as a master or senior officer ever instruct a  
 (18) mate to turn your vessel at a fathom mark?  
 (19) A No  
 (20) Q Have you ever heard of anybody that you've sailed with give  
 (21) an order to turn at a fathom mark?  
 (22) A No  
 (23) MR CHALOS Thank you Captain  
 (24) Mr Neal? Your witness  
 (25) EXAMINATION OF IVAN MIHAJLOVIC (Live)  
 (26) BY MR NEAL

Vol 21 3674

- (1) Q Captain Mihajlovic I m Jim Neal I represent the Exxon  
 (2) defendants You and I have met?  
 (3) A Yes  
 (4) Q There s been some testimony here about a time down in  
 (5) Chiriqui Grande is that the way you pronounce it?  
 (6) A That's correct  
 (7) Q When you had occasion to search Captain Hazelwood s  
 (8) quarters - did you conduct such a search?  
 (9) A Yes, I did  
 (10) Q Would you tell us before we get to the search itself tell  
 (11) us how that came about  
 (12) A I was in Baton Rouge on the Exxon San Francisco  
 (13) Q You want to speak up just a little bit in what Mr Sanders  
 (14) calls the silver microphone?  
 (15) A Sure  
 (16) Q Use the silver microphone with your silver voice  
 (17) A Okay I was on the Exxon San Francisco in Baton Rouge  
 (18) Captain Sheehy had made one of his visits down to the  
 vessel  
 (19) Captain Sheehy is also a classmate of mine, so we were  
 talking  
 (20) about just what was going on on the ship and everything  
 else,  
 (21) just very casual, friendly And he had told me there that he  
 (22) knew I was friends with Captain Hazelwood and that he had  
 heard  
 (23) rumors there, predominantly from a guy by the name of Jim  
 Shaw,  
 (24) that Captain Hazelwood was drinking again and am I  
 familiar  
 (25) with the company policy, that if you get caught with alcohol  
 on

Vol 21 3675

- (1) the ship, you're going to get canned So I said, you know,  
 (2) I - I never heard anything, I was just curious how these  
 (3) rumors get started And he said, well, you know, if you  
 come  
 (4) across him, would you look into it And that's basically how  
 (5) Captain Sheehy talks  
 (6) Q Now you were in Baton Rouge and Captain Sheehy was the  
 (7) port captain?  
 (8) A That's correct  
 (9) Q His superior - well let me back that up because it may  
 (10) depend on the time Do you know approximately when this  
 (11) conversation with Captain Sheehy occurred?  
 (12) A I'd have to say summer of '86 It's been a long time  
 (13) Q Okay Summer of '86 When you had the conversation with  
 (14) Captain Sheehy he was the port captain of your fleet, the gulf  
 (15) coast fleet?  
 (16) A That's correct  
 (17) Q And you were a captain in that fleet and Captain Joseph  
 (18) Hazelwood was a captain in that fleet?  
 (19) A That is correct  
 (20) Q And Mr Sheehy s immediate superior was a man by the  
 name  
 (21) of Dwight Koops?  
 (22) A That's correct also  
 (23) Q You have a conversation with port Captain Sheehy he tells  
 (24) you about a rumor that Joe is drinking again or something like  
 (25) that, and he mentions a man named Shaw a Jim Shaw is that

Vol 21 3676

- (1) correct?  
 (2) A That is correct  
 (3) Q And he asked you to look into it when you get the chance  
 (4) or words to that effect?  
 (5) A Words to that effect yes  
 (6) Q All right Now then tell us then about from that point  
 (7) on how the search took place that is where did you find  
 (8) Captain Hazelwood and so forth?  
 (9) A All right I was on the San Francisco, once again, and we  
 (10) were at the loading buoy in Chiriqui Grande Loading  
 buoys,  
 (11) just one buoy, you tie up one line and they have a hose that  
 (12) comes around and they lift it up and put it on a manifold,  
 very  
 (13) simple system Captain Sheehy, Captain Hazelwood's ship  
 had  
 (14) just took arrival and had anchored at Chiriqui Grande it's a  
 (15) nice like bay I know the pilots we been running down  
 there  
 (16) quite often, so I said could I get a launch there and go over  
 (17) and see Joe Said no problem, you know, so they took me  
 over  
 (18) there When I went over there, I talked to Joe I said, hey  
 (19) Joe you know, I heard about this rumor This rumor's not  
 (20) good, you know this company is very adamant about this  
 and  
 (21) they're going to can you And Joe, figuring it's just another  
 (22) rumor and here we go again and all that, said something,  
 and  
 (23) people that know me know that I have occasional temper  
 (24) Q Occasional temper?  
 (25) A Occasional yeah

Vol 21 3677

- (1) Q That s good Occasional?  
 (2) A Occasional I'm not quite the beast you all heard before  
 (3) but I went over there, I talked to him and I started to get -  
 (4) you know, this is serious, you could lose your job And he  
 (5) said, hey, if you don't believe me, you're welcome to take a  
 (6) look in my room which I did  
 (7) Q A look in your room let s talk about that On the - he  
 (8) was on the Yorktown that s a smaller vessel than the Valdez  
 (9) is that correct?  
 (10) A That is correct  
 (11) Q On the Yorktown was there a - by the way something that  
 (12) may be not clear here most of us we go to work in the  
 (13) morning, we come home at night we have a workplace and a  
 place  
 (14) to come home and eat and sleep and have a drink or whatever  
 we  
 (15) do and when you re on board a vessel your workplace and  
 your  
 (16) home place is the same place is it not?  
 (17) A That is correct  
 (18) Q Now on the Valdez we ve learned there was a living  
 (19) room - or what do you call it stateroom?  
 (20) A They have a stateroom and they have your bedroom  
 (21) Q A bedroom?  
 (22) A Yeah, and then an office  
 (23) Q Okay So you have a little sitting room and a bedroom?  
 (24) A It would be the office, and a sitting room would be on the  
 (25) Yorktown, for example Then the bedroom is adjoined, but  
 just

Vol 21 3678

- (1) off to the side, that's your bedroom  
 (2) Q So you have two rooms?  
 (3) A Right  
 (4) Q You have what we'll call the office and what we'll call a  
 (5) bedroom?  
 (6) A Exactly  
 (7) Q Now did you search the office?  
 (8) A Yes, I did  
 (9) Q Did you look in drawers?  
 (10) A Yes, I did  
 (11) Q Did you look in refrigerators?  
 (12) A Yes, I did  
 (13) Q All right Did you then go into the bedroom?  
 (14) A Yes, I did  
 (15) Q Did you search the bedroom?  
 (16) A Yes, I did  
 (17) Q Did you find anything of alcoholic beverage at all?  
 (18) A No, I did not  
 (19) Q How did Joe look?  
 (20) A Kind of surprised  
 (21) Q Pardon me?  
 (22) A I said he looked kind of surprised  
 (23) Q Otherwise - I mean did he look like he might have been  
 (24) drinking?  
 (25) A No, not at all

Vol 21 3679

- (1) Q Anything like that?  
 (2) A No  
 (3) Q Good shape?  
 (4) A Good shape  
 (5) Q You think this was about the summer of 1986?  
 (6) A That is correct  
 (7) Q Now following this did you make any report on your what  
 (8) I'll call investigation?  
 (9) A I wouldn't call it investigation  
 (10) Q Well on your search?  
 (11) A On my search all right I went up - back to Baton Rouge,  
 (12) that was our regular run Chiriqui Grande up to Baton  
 (13) Rouge  
 (14) and Captain Sheehy happened to be up there again I can't  
 (15) recall whether it was the very next trip or the trip after but  
 (16) any way it was in Baton Rouge He came on and I said, you  
 (17) know that's a lot of baloney and, you know I just went on  
 (18) the  
 (19) ship there, and I don't know whether we're still friends or  
 (20) not, but there's nothing on here, there's nothing I've seen I  
 (21) mean he didn't know I was in port, we don't - can't keep in  
 (22) touch with each other so it was totally by surprise And  
 (23) that  
 (24) was it  
 (25) Q So you told him that this Shaw report rumor whatever  
 (26) you're talking about was a bunch of baloney?  
 (27) A In those words  
 (28) MR NEAL You may examine

Vol 21 3680

- (1) CROSS EXAMINATION OF IVAN MIHAJLOVIC (Live)  
 (2) BY MR O'NEILL  
 (3) Q You are a friend of Captain Hazelwood's?  
 (4) A That is correct  
 (5) Q And indeed you both live in the same part of the country  
 (6) in adjoining towns?  
 (7) A That's also correct  
 (8) Q And you've testified on his behalf before haven't you?  
 (9) A That's correct also  
 (10) Q Now, with regard to the pilotage endorsement of Prince  
 (11) William Sound you testified about a proposal rule making that  
 (12) you found out about and you used the expression proposed  
 (13) rule  
 (14) making isn't that right?  
 (15) A That's correct  
 (16) Q And a proposal rule making is when the government  
 (17) publishes  
 (18) in the federal register its intent to either come out with a  
 (19) new rule or change a rule but the notice with regard to the  
 (20) proposed rule making is not the rule is it?  
 (21) A That's correct also  
 (22) Q They put it out into the public and they say here, public,  
 (23) comment on this?  
 (24) A That's right  
 (25) Q And as you sit here today you know that that proposed rule  
 (26) was never adopted as the final rule don't you?  
 (27) A I don't know

Vol 21 3681

- (1) Q You don't know?  
 (2) A No, I been out of Alaska since 1990, after the accident I  
 (3) haven't been back there, sir  
 (4) Q Well you know through 1990 that that proposed rule was  
 (5) never adopted don't you?  
 (6) A That's correct  
 (7) Q So did - when you found out about the proposed rule  
 (8) through 1990 the proposed rule was never adopted?  
 (9) A That's correct  
 (10) Q And with regard to the notice that you got from Alamar can  
 (11) we bring that up, second page?  
 (12) MR CHALOS You need some help Mr O'Neill?  
 (13) MR O'NEILL Got it  
 (14) BY MR O'NEILL  
 (15) Q The Alamar document in point of fact only deals with  
 (16) non pilotage vessels isn't that correct?  
 (17) A That's correct  
 (18) Q And with regard to pilotage vessels it doesn't address the  
 (19) subject is that not correct?  
 (20) A That's also correct sir  
 (21) Q And with regard to your testimony about pilotage vessels  
 (22) those are assumptions that you made you didn't get that from  
 (23) this notice did you?  
 (24) A That's correct  
 (25) Q And you're aware of course that as - as - as the master

Vol 21 3682

- (1) of a vessel if in fact pilotage is required chapter 46 of the  
 (2) United States Code requires that the pilot be in direction and  
 (3) control of the vessel you re aware of that aren t you?  
 (4) A I guess I am now, yes, sir  
 (5) Q With regard to the Exxon bridge manual your employer you  
 (6) know takes the position - do you know that your employer  
 (7) takes the position that at or about the time of the accident  
 (8) the grounding of the Exxon Valdez that there was a  
 requirement  
 (9) that there be two officers on the bridge you know that s what  
 (10) your employer s position is don't you?  
 (11) A You were asking me what I did?  
 (12) Q My question is do you know what your employer s position  
 (13) is?  
 (14) A I don't remember, sir  
 (15) Q Your employer has stipulated binding stipulation on this  
 (16) jury, in this court that Captain Hazelwood was negligent in  
 (17) leaving the bridge of the Exxon Valdez at or about 11 53 and  
 (18) that such negligence was a proximate cause of the spill are  
 (19) you aware of that?  
 (20) A That's the first time I've seen it, sir  
 (21) Q Who's Mr Duncan?  
 (22) A Captain Duncan is - was the marine advisor and he was  
 the  
 (23) gentleman that I worked for  
 (24) Q You worked for Captain Duncan and Captain Duncan was  
 the  
 (25) author of the bridge manual wasn t he?

Vol 21 3683

- (1) A Yes, he was  
 (2) Q Captain Duncan has testified here about the question of  
 (3) discretion And this is Captain Duncan  
 (4) (Portion of Video of Captain Duncan played as follows)  
 (5) BY VIDEO EXAMINER  
 (6) Q The watch conditions as they are set forth in the manual  
 (7) are they absolute mandates in which the master is obligated to  
 (8) comply with?  
 (9) A They're Exxon guidelines  
 (10) Q So given the conditions as a master understanding them to  
 (11) be and the situation the vessel is in is it fair to say the  
 (12) master has the discretion as to what watch condition he would  
 (13) invoke for any given time period?  
 (14) A Yes, he can certainly increase as appropriate  
 (15) Q Captain did I just understand you to say that the watch  
 (16) types are only guidelines and that the master can increase  
 (17) them as appropriate?  
 (18) A Yes  
 (19) Q Can t decrease them?  
 (20) A No, sir  
 (21) Q Okay so Captain Hazelwood didn t have the discretion to  
 (22) decrease the watch (indiscernible) on the night of the  
 (23) grounding?  
 (24) A Yes  
 (25) BY MR O NEILL

Vol 21 3684

- (1) Q Now that is the man who wrote the bridge manual and that is  
 ( ) the man who is your boss?  
 (3) A That's correct  
 (4) Q And you re the designated hitter coming in here to muddy  
 (5) the water with regard to that subject?  
 (6) A Sir I -  
 (7) MR NEAL Objection Your Honor whose designated  
 (8) hitter?  
 (9) THE COURT I ll take that as an objection I ll  
 (10) sustain the objection Ask another question  
 (11) MR O NEILL Thank you Judge  
 (12) BY MR O NEILL  
 (13) Q Let s talk for a minute about the relationship of the VTC  
 (14) okay There is a VTC manual isn t that right?  
 (15) A That's correct  
 (16) Q And you re familiar with the VTC manual as it was in 1988?  
 (17) A I was sir I don't know whether I am now  
 (18) Q And I have two paragraphs of the VTC manual and are you  
 (19) aware of the paragraph in the VTC manual paragraph 4 which  
 (20) says nothing in this manual is intended to relieve any person  
 (21) from complying with any other laws and regulations? The  
 (22) manual s purpose is not to let you off of the hook with regard  
 (23) to other laws and regulations you re aware of that aren t  
 (24) you?  
 (25) A Yes

Vol 21 3685

- (1) Q But more specifically with regard to the subject that  
 (2) we re talking about here today the manual addresses that  
 (3) doesn t it? In paragraph 6 of the manual the manual states  
 (4) responsibility of the master or pilot for safe navigation and  
 (5) prudent maneuvering of his vessel is in no way lessened or  
 (6) relieved by this regulation The master is responsible isn t  
 (7) he?  
 (8) A Responsibility of the master or pilot for safe - or pilot  
 (9) for safe navigation and prudent maneuvering of his vessel  
 is in  
 (10) no way lessened or relieved by this regulation, yes  
 (11) Q And that s in the manual Its purpose in the manual is to  
 (12) make sure that people don t use the manual with regard to  
 (13) getting them off the hook with regard to responsibilities  
 (14) isn t that right?  
 (15) A I don't know The person who wrote the manual will have  
 to  
 (16) answer that  
 (17) Q Now with regard to your conversation with Captain  
 (18) Hazelwood when you boarded the vessel his reaction was  
 here  
 (19) we go again? When you boarded the vessel when you raised  
 the  
 (20) subject of these rumors it was here we go again?  
 (21) A Yes  
 (22) Q It was cavalier wasn t it?  
 (23) A No, I believe that rumors, both Captain Hazelwood and  
 (24) myself agree with that that rumors are started by - by just  
 (25) people, and they can get out of hand It's happened before  
 to

Vol 21 3686

- (1) a lot of good people and I think that was what he meant by  
 (2) that  
 (3) Q And he invited you in to search didn't he? You testified  
 (4) he said go ahead and search?  
 (5) A That's right  
 (6) Q So with regard to the search he knew the answer to the  
 (7) question didn't he when he invited you in and said go ahead  
 (8) and search he knew whether or not he had alcohol there?  
 (9) A I don't know what he thought or - he didn't know my ship  
 (10) was going to be in He didn't know I would be on that day,  
 so  
 (11) I don't understand what you mean by that sir  
 (12) Q Now with regard to your knowledge of Captain Hazelwood  
 (13) drinking, from '85 to '89 then we have this one search that  
 (14) you conducted for one brief point in time and that's it isn't  
 (15) it?  
 (16) A That's correct  
 (17) Q And whether there was two years after that or two years  
 (18) before that and what went on during those periods of time you  
 (19) just don't know do you?  
 (20) A I don't understand Could you kind of rephrase that?  
 (21) Q Were there other searches that you conducted?  
 (22) A No that was just the only one for me  
 (23) MR O NEILL Okay thank you I have nothing  
 (24) further  
 (25) REDIRECT EXAMINATION OF IVAN MIHAJLOVIC

Vol 21 3687

- (1) BY MR CHALOS  
 (2) Q Captain you are familiar are you not that the captain of  
 (3) the port in a port like Valdez or any other port in the United  
 (4) States has the authority to vary regulations by a local captain  
 (5) of the port order?  
 (6) A That is correct  
 (7) Q And did you believe, when you saw that Alamar letter that  
 (8) that was a local variance of the pilotage regulations?  
 (9) A That's correct  
 (10) Q I want to give you an example that I've used before I  
 (11) want you to assume two ships coming into Hinchinbrook at the  
 (12) same time Let me put up the chart I want you to assume two  
 (13) ships coming into Hinchinbrook at the same time One has  
 (14) pilotage meaning someone with a pilotage endorsement and  
 the  
 (15) other one does not have someone with a pilotage okay  
 (16) The first vessel with the pilotage endorsement if pilotage  
 (17) is not waived would have to have the person holding the  
 (18) pilotage endorsement on the bridge all the way up to Rocky  
 (19) Point right as you understood the pilotage requirements?  
 (20) A That is correct  
 (21) Q The second vessel doesn't have anybody with pilotage I  
 (22) want you to assume further has never been in Prince William  
 (23) Sound before that vessel would only need two people on the  
 (24) bridge through this strait right here and then from then on  
 (25) one person who may or may not know Prince William Sound at  
 all

Vol 21 3688

- (1) right?  
 (2) A That's exactly correct  
 (3) Q The hazards to navigation in Prince William Sound are the  
 (4) same are they not whether you're a pilotage vessel or  
 (5) non pilotage vessel?  
 (6) A That's correct  
 (7) Q Does it make any sense to you after reading that Alamar  
 (8) letter that the person who has the most knowledge of the area  
 (9) has to be on the bridge but someone who's never been there  
 (10) before doesn't have to be there?  
 (11) A Exactly That's what I tried to state before  
 (12) Q And that's why you believe that regulation waived pilotage  
 (13) for all vessels?  
 (14) A That's correct  
 (15) Q Captain you were asked about the - the bridge  
 (16) organizational manual?  
 (17) A Yes  
 (18) Q The Exxon bridge organizational manual I want you to know  
 (19) that Captain Hazelwood did not stipulate that Watch Condition  
 C  
 (20) applied on the night of the accident okay I want you to  
 (21) assume that  
 (22) A All right  
 (23) Q The bridge organization manual is a guide is it not to  
 (24) the masters?  
 (25) A That is correct

Vol 21 3689

- (1) Q And it's the captain who sets the watch conditions is it  
 (2) not?  
 (3) A Right  
 (4) Q That's in his discretion?  
 (5) A That is correct  
 (6) Q I want to put up for you - I want to put up an excerpt -  
 (7) can I have this thing whatever you call it? It's from DX  
 (8) Exhibit 3450 Okay let's go to the first paragraph This is  
 (9) section 8 I 3 okay? See what it says? Watch conditions are  
 (10) to be set by the master according to the actual or anticipated  
 (11) steaming situation You see that?  
 (12) A Yes, I do  
 (13) Q Okay Here's the definition of Watch Condition A and the  
 (14) one that applies is the second one in restrictive waters with  
 (15) clear visibility and little or no traffic you see that?  
 (16) A Yes, I do  
 (17) Q Now when you were in Prince William Sound Captain prior  
 (18) to the grounding you set Watch Condition A did you not?  
 (19) A That is correct  
 (20) Q Now Watch Condition C is this one here and it says - and  
 (21) this is what Exxon is relying on it's in restricted waters  
 (22) with clear visibility and high density traffic I want you to  
 (23) assume Captain -  
 (24) A Yes  
 (25) Q - for the moment that there were no other ships in the

Vol 21 3690

- (1) VTS system above Bligh Reef or even in Prince William Sound at  
 (2) the time that the Exxon Valdez was there Does the  
 (3) high density traffic portion apply in Watch Condition C?  
 (4) **A No, it does not**  
 (5) **Q** How about the next item here when entering or leaving  
 (6) port with clear visibility regardless of traffic Now let me  
 (7) put up this chart for you okay?  
 (8) **A Sure**  
 (9) **Q** Captain where is this Port of Valdez is it right up here?  
 (10) **A That's it up there, little circle**  
 (11) **Q** Once you get through the Narrows aren't you out of that  
 (12) port?  
 (13) **A That's it, you're out**  
 (14) **Q** Mr O Neill read to you from the bridge organization  
 (15) manual - sorry from the Prince William Sound user's manual  
 (16) second edition Let me read you the part that he didn't read  
 (17) to you okay? The purpose and applicability says this manual  
 (18) describes procedures to be followed by vessels operating in the  
 (19) Prince William Sound Vessel Traffic Service area parenthesis  
 (20) VTS area The purpose of the Prince William Sound traffic  
 (21) service - who's that? Who's the traffic service? Isn't that  
 (22) the VTS?  
 (23) **A VTS, that is correct**  
 (24) **Q** Is to enhance the safety of navigation in the VTS area -  
 (25) that's this whole area right? By reducing the potential for

Vol 21 3691

- (1) collisions and groundings see that?  
 (2) **A Yes, I do**  
 (3) **Q** And to protect the waters of the VTS area from  
 (4) environmental harm resulting from those mishaps see that?  
 (5) **A Yes I do**  
 (6) **Q** How does the VTS - let me use their words - reduce the  
 (7) potential for collisions and groundings? They do that by  
 (8) monitoring don't they?  
 (9) **A That's correct**  
 (10) **Q** And you told us that you expected if your ship is standing  
 (11) into danger of a collision or a grounding that they should warn  
 (12) you?  
 (13) **A That's right**  
 (14) **Q** Isn't that right?  
 (15) **A That's right**  
 (16) **Q** Is there any other purpose for them to be up there?  
 (17) **A No**  
 (18) **MR CHALOS** No further questions  
 (19) **THE COURT** I think that's it sir You can step  
 (20) down  
 (21) **MR NEAL** Judge while the next witness is coming up  
 (22) could Mr O Neill and I have a brief moment at the side bar?  
 (23) (Sidebar conference off the record)  
 (24) **MR CHALOS** I got so excited I forgot I had the next  
 (25) witness I'm back

Vol 21 3692

- (1) Your Honor the defendants call Mr Guy Kleess I should  
 (2) say Captain Guy Kleess  
 (3) **THE CLERK** Would you raise your right hand please?  
 (4) (The Witness Is Sworn)  
 (5) **THE CLERK** For the record sir state your full name  
 (6) your address and spell your last name please  
 (7) **THE WITNESS** My name is Guy G H Kleess That's  
 (8) **K L E E S S** I reside at 4100 Teton View Lane Jackson  
 (9) Wyoming  
 (10) **DIRECT EXAMINATION OF GUY KLEESS (Live)**  
 (11) **BY MR CHALOS**  
 (12) **Q** Guy Kleess sounds like a movie star name  
 (13) **A That's my real name, but nobody spells it right**  
 (14) **Q** That's a good one Better than Julius Herman  
 (15) **MR O NEILL** I object to that on behalf of Julius  
 (16) Herman  
 (17) **MR CHALOS** He's been tied up all weekend but that's  
 (18) another story  
 (19) **THE COURT** I'm not going to tell you what my H  
 (20) stands for You guys will make fun of me too  
 (21) **MR CHALOS** You're right you're right Your Honor  
 (22) I don't know  
 (23) **BY MR CHALOS**  
 (24) **Q** Captain Kleess who are you employed by?  
 (25) **A** Currently on contract Louisiana Offshore Oil Port I'm a

Vol 21 3693

- (1) mooring master  
 (2) **Q** You're a mooring master?  
 (3) **A Yes**  
 (4) **Q** You dock ships?  
 (5) **A** It's another term for pilot  
 (6) **Q** How big are the ships?  
 (7) **A** VLCC, ULCC, up to the largest in the world, 560 000 dead  
 (8) weight  
 (9) **Q** How long you been doing that?  
 (10) **A** I been doing that since - part-time since 1990 full time  
 (11) since 1991  
 (12) **Q** Prior to that were you employed by Exxon?  
 (13) **A Yes, I was**  
 (14) **Q** For how long?  
 (15) **A** Approximately 13 and a half years from 1976 to 1990  
 (16) **Q** Now you hold a masters license do you not?  
 (17) **A Yes, I do**  
 (18) **Q** You also hold an engineer's license?  
 (19) **A Yes, I do, second engineer's license**  
 (20) **Q** How long have you held - have you had the masters license?  
 (21) **A** I can't recall an exact date It would be the mid '80s,  
 (22) 1985 or so  
 (23) **Q** And prior to that I take it you sailed as a chief mate?  
 (24) **A Yes, I did**  
 (25) **Q** Second mate?

Vol 21 3694

- (1) **A Second mate third mate and I started off as a third engineer with Exxon in 1976**
- (2) **Q You're a graduate of Kings Point?**
- (3) **A I graduated from the U S Merchant Marine Academy, Kings Point, 1976**
- (4) **Q And you were one of those rare birds right? You came out with two two licenses?**
- (5) **A I graduated, yes, a bachelor of science degree in marine engineering and a bachelor of science degree in marine transportation and third engineer's license and a third mates license**
- (6) **Q Now you've sailed with Captain Hazelwood in your career have you not?**
- (7) **A Yes, I did**
- (8) **Q How many times?**
- (9) **A Just once**
- (10) **Q When was that?**
- (11) **A It was on the Exxon Valdez from approximately February to March of 1989**
- (12) **Q What length of time?**
- (13) **A Prior -**
- (14) **Q About three weeks you say?**
- (15) **A About three weeks**
- (16) **Q Okay Now when did you leave the Exxon Valdez?**
- (17) **A I departed the vessel March 13th 1989 in San Francisco**

Vol 21 3695

- (1) **Bay**
- (2) **Q And you were on for about three weeks with Captain Hazelwood before that?**
- (3) **A Correct**
- (4) **Q And prior to that you were on with Captain Stalzer for a period of time?**
- (5) **A Correct I joined the vessel I believe it was in January**
- (6) **Q In the three week period that you were on there with Captain Hazelwood did you ever see any alcohol aboard the vessel?**
- (7) **A No I didn't**
- (8) **Q Did you ever see Captain Hazelwood drinking aboard the vessel?**
- (9) **A No I didn't**
- (10) **Q Did you ever drink with Captain Hazelwood whether it was aboard or ashore?**
- (11) **A No I didn't**
- (12) **Q Did you ever see Captain Hazelwood intoxicated?**
- (13) **A No I did not**
- (14) **Q Did you ever see him impaired during that period?**
- (15) **A No I did not**
- (16) **Q Did you ever see any officers or crew drinking on the Exxon Valdez at all while you were there?**
- (17) **A No I did not**

Vol 21 3696

- (1) **Q I'd like to direct your attention to what we've called here as the launch incident the Mary Williamson launch incidents?**
- (2) **A Yes**
- (3) **Q This would have been around a couple days before you got off?**
- (4) **A The incident in question I think, took place on the evening of March 12th, approximately 11.30 p m**
- (5) **Q Okay So we'll set the date of March 12th Let me ask you some questions You have a recollection of that of that evening?**
- (6) **A Yes, I do**
- (7) **Q You have a recollection of seeing Captain Hazelwood that evening?**
- (8) **A I - I arrived at the launch terminal about 15 minutes prior to the launch leaving That would have been about 11 15 I can't recall whether Captain Hazelwood was at the terminal at the time or came in shortly afterwards, but -**
- (9) **Q Okay The terminal is that a warehouse or house?**
- (10) **A It's a warehouse, housing office of the Westar launch**
- (11) **Q And it had benches that you could sit there or you had to stand?**
- (12) **A I don't even think it had benches Think you just stood there**
- (13) **Q You have a recollection of talking with Captain Hazelwood on that occasion?**

Vol 21 3697

- (1) **A Yes Captain Hazelwood was there I believe this third engineer, Katie - Katie - Katie Havens was there The second mate I believe was Nathan Carr was there and I believe A-B Maureen Jones may have been - may have been there**
- (2) **Q Were they there when you arrived or did they come in -**
- (3) **A I can't recall if we were - but I do know we were all talking together for approximately 10 to 15 minutes prior to boarding the launch**
- (4) **Q How close were you to Captain Hazelwood during this period?**
- (5) **A About two to three feet**
- (6) **Q You were standing close to him?**
- (7) **A Yes**
- (8) **Q Were you talking with him?**
- (9) **A Yes, I was**
- (10) **Q And he talked to you?**
- (11) **A Yes he did**
- (12) **Q What were you talking about?**
- (13) **A Music I had just bought a bunch of tapes at the store in San Francisco and we were just talking about the tapes I bought**
- (14) **Q When Captain Hazelwood spoke to you did he slur his words?**
- (15) **A No, he did not**
- (16) **Q Did he appear to you to be impaired?**
- (17) **A No, he seemed fine**

Vol 21 3698

- (1) Q Seemed normal to you?  
 (2) A Seemed in good shape yes normal  
 (3) Q You had occasion to watch him walk from the office to the launch?  
 (4) launch?  
 (5) A Yes it - I guess about 20 feet from the door to the terminal to the ladder leading down to the launch I walked with him, about 20 feet  
 (6) terminal to the ladder leading down to the launch I walked with him, about 20 feet  
 (7) with him, about 20 feet  
 (8) Q You notice him stumbling?  
 (9) A No, I did not see him stumbling  
 (10) Q Unsteady in any way?  
 (11) A No seemed normal  
 (12) Q Climbed down the ladder onto the launch?  
 (13) A Yes  
 (14) Q Got onto the launch?  
 (15) A Yes sir  
 (16) Q Did that okay?  
 (17) A Yes, sir  
 (18) Q As far as you remember?  
 (19) A Yes, sir  
 (20) Q Now when you got onto the launch did you have occasion to see Captain Hazelwood?  
 (21) see Captain Hazelwood?  
 (22) A I don't recall seeing Captain Hazelwood after the launch departed the dock I stayed on deck I don't know where  
 (23) departed the dock I stayed on deck I don't know where  
 (24) Captain Hazelwood went I assume he went down below but I'm  
 (25) not sure

Vol 21 3699

- (1) Q Did you see Mary Williamson there that evening?  
 (2) A I remember some people from the Galveston there and I subsequently learned that Mary Williamson was there but I don't specifically recall her but I remember there was people from the Galveston there  
 (3) subsequently learned that Mary Williamson was there but I don't specifically recall her but I remember there was people from the Galveston there  
 (4) specifically recall her but I remember there was people from the Galveston there  
 (5) the Galveston there  
 (6) Q Did you see do you have any recollection of seeing Captain Hazelwood speaking with Mary Williamson?  
 (7) Hazelwood speaking with Mary Williamson?  
 (8) A No, I don't I don't recall  
 (9) Q Did you hear any raised voices on the launch?  
 (10) A On the launch, no, or in the terminal, no There was nothing untoward in the whole evening  
 (11) nothing untoward in the whole evening  
 (12) Q Now the launch took off from the pier went out to the ships did it not?  
 (13) ships did it not?  
 (14) A Yes  
 (15) Q Mary Williamson's ship was the Galveston?  
 (16) A I believe so  
 (17) Q And your ship and Captain Hazelwood's ship was -  
 (18) A Exxon Valdez  
 (19) Q - was the Valdez Did the launch go to the Galveston first?  
 (20) first?  
 (21) A Yes  
 (22) Q Did dropped off people there?  
 (23) A Yes  
 (24) Q Did you see anything untoward going on there at that time?  
 (25) A No, I did not

Vol 21 3700

- (1) Q After the launch dropped people at the Galveston you went over to the Valdez?  
 (2) over to the Valdez?  
 (3) A Yes  
 (4) Q Was the Valdez light at this point in time? In other words had it discharged most of its oil?  
 (5) words had it discharged most of its oil?  
 (6) A It had discharged most of the oil yes and it was the end of the port call and -  
 (7) of the port call and -  
 (8) Q Was he riding high in the water?  
 (9) A Yes  
 (10) Q Do you remember the companionway?  
 (11) A The accommodation ladder yes  
 (12) Q The accommodation ladder?  
 (13) A It was steep It was a long climb It was a long climb I remember it was a steep -  
 (14) I remember it was a steep -  
 (15) Q You have a recollection of the steepness?  
 (16) A Yes I can't recall the number of feet that the - you know, that her free board, the height of the deck above the water, I can't recall how high that was but it was very - the ship was very light  
 (17) know, that her free board, the height of the deck above the water, I can't recall how high that was but it was very - the ship was very light  
 (18) water, I can't recall how high that was but it was very - the ship was very light  
 (19) ship was very light  
 (20) Q Just so the Ladies and Gentlemen of the Jury understand when you're standing on this launch the launch is sort of going like this?  
 (21) going like this?  
 (22) A Uh huh  
 (23) Q And this -  
 (24) Q And this -  
 (25) A There's a little platform at the base of the accommodation

Vol 21 3701

- (1) ladder approximately three feet by three feet and you jump up  
 (2) ladder approximately three feet by three feet and you jump up  
 (3) onto that and you climb up the ladder  
 (4) onto that and you climb up the ladder  
 (5) Q You kind of have to stand on the rail of the launch and then jump?  
 (6) then jump?  
 (7) A Time your jump and everything  
 (8) Time your jump and everything  
 (9) Q You got to time it?  
 (10) You got to time it?  
 (11) A Yeah  
 (12) A Yeah  
 (13) Q Captain Hazelwood do that?  
 (14) Captain Hazelwood do that?  
 (15) A Yes, sir, he did  
 (16) A Yes, sir, he did  
 (17) Q You did it?  
 (18) You did it?  
 (19) A I did it  
 (20) A I did it  
 (21) Q Everybody else did it that was on the ship?  
 (22) Everybody else did it that was on the ship?  
 (23) A There were no incidents yeah  
 (24) There were no incidents yeah  
 (25) Q And Captain Hazelwood I assume went up the accommodation ladder or the gangway?  
 (1) ladder approximately three feet by three feet and you jump up  
 (2) onto that and you climb up the ladder  
 (3) Q You kind of have to stand on the rail of the launch and then jump?  
 (4) then jump?  
 (5) A Time your jump and everything  
 (6) Q You got to time it?  
 (7) A Yeah  
 (8) Q Captain Hazelwood do that?  
 (9) A Yes, sir, he did  
 (10) Q You did it?  
 (11) A I did it  
 (12) Q Everybody else did it that was on the ship?  
 (13) A There were no incidents yeah  
 (14) Q And Captain Hazelwood I assume went up the accommodation ladder or the gangway?  
 (15) ladder or the gangway?  
 (16) A Yes I didn't see him go up the ladder, but everybody got on the main deck in good order and there were no incidents  
 (17) on the main deck in good order and there were no incidents  
 (18) Q Nobody slipping?  
 (19) A No  
 (20) Q Nobody stumbling?  
 (21) A Nothing like that  
 (22) Q Now I know three weeks isn't a long time but you had a chance to observe Captain Hazelwood?  
 (23) chance to observe Captain Hazelwood?  
 (24) A Yes, sir  
 (25) Q You watched him operate at sea?

Vol 21 3702

- (1) A Yes, sir
- (2) Q You believe he was a good captain?
- (3) A Yes, I think Joe was - Captain Hazelwood is a very good captain
- (4) captain
- (5) Q You find him to be an even tempered fellow?
- (6) A I - yes, I don't recall any - any incidents where he lost his temper or raised his voice or anything like that, very calm, cool and collected
- (7) MR CHALOS Thank you Mr Kleess Your witness
- (8) MR NEAL Could we just hold one second Your Honor?
- (9) CROSS EXAMINATION OF GUY KLEESS
- (10) BY MR O NEILL
- (11) Q With regard to Captain Hazelwood and drinking which you ve
- (12) testified about here today when you came on to the Valdez your first assignment on the Valdez you knew that Captain Hazelwood had a reputation as a drinker didn t you?
- (13) A I had heard - you know when I joined the fleet in the early '80s that Captain Hazelwood had a - was a drinker, yes
- (14) I had also heard that - that he had gone through rehabilitation
- (15) Q So you knew also that he had gone through rehabilitation?
- (16) A Yes, I had heard that
- (17) Q That was widely known throughout the fleet wasn t it?
- (18) A Yes, sir it was
- (19) Q Thank you The Westar launch incident let me see if we

Vol 21 3703

- (1) can do this real quick and you can get out of here and I can
- (2) get out of here You were on the top of the vessel the
- (3) launch Hazelwood and Mary Williamson were not up there with
- (4) you that s a correct statement?
- (5) A I don't recall them on the deck
- (6) Q So whatever transpired between Captain Hazelwood and Mary
- (7) Williamson is something that you didn t see?
- (8) A Correct
- (9) Q So you can t testify one way or the other about what went on between the captain and Mary Williamson because you just don t know?
- (10) A Well I know that nothing happened in the terminal
- (11) Q But with regard to the ride over on the launch you don t know? It s sort of like trying to prove a negative isn t it?
- (12) A On the launch, you're correct I do not recall seeing Captain Hazelwood
- (13) MR O NEILL Thank you that s all there is
- (14) MR CHALOS No further questions Your Honor
- (15) THE COURT Thank you sir
- (16) I have the impression at this point that everybody wanted to get out of here today
- (17) MR NEAL Judge I m not - I m not - matter of fact I may be one of the authors of that
- (18) MR O NEILL And I think I m the co author of that
- (19) THE COURT We ll adjourn now for the day ladies and

Vol 21 3704

- (1) gentlemen Please enjoy the sunshine outside It s a
- (2) beautiful day, although we wouldn t know it in here Please don t read or look at anything about the trial of this case and we ll see you at 8 00 in the morning
- (3) Counsel stay for just a moment please
- (4) (Jury out at 1 40 p m )
- (5) THE COURT Do we happen to have the jury instruction people with us today or -
- (6) MR NEAL Judge? I couldn t - I didn t hear you
- (7) MR LYNCH Not here at the moment Your Honor
- (8) THE COURT Maybe the best thing to do is to simply say I want to see the people on each side who are working on your jury instructions at 2 00 or whenever we suspend tomorrow
- (9) okay?
- (10) MR O NEILL Yes sir
- (11) THE COURT Enjoy the afternoon
- (12) THE CLERK This court is now adjourned until eight a m tomorrow morning
- (13) (Recess at 1 43 p m )

Vol 22 3712

(1) PROCEEDINGS

(2) (Jury in at 8:00 a.m.)

(3) THE CLERK All rise

(4) (Call to Order of the Court)

(5) THE COURT Good morning ladies and gentlemen This

(6) is the continuation of trial in case A89 0095 Civil in re the

(7) Exxon Valdez

(8) Before we start this morning ladies and gentlemen we re

(9) going to have something just a little bit out of the ordinary

(10) happen this morning At somewhere around 8:30 this morning

(11) I'm going to need to excuse myself from you all in the

(12) courtroom and therefore things will have to stop for just a

(13) few minutes so that I can take care of something else

(14) It does involve this case although not what we re doing

(15) right now And I'll want to see three of you Mr Neal,

(16) Mr Lynch and Mr Chalos, I'll want to come with me It will

(17) just take three or four minutes, and we'll be back

(18) MR O'NEILL You want me to come too?

(19) THE COURT Neal See I did what the newspaper did

(20) MR O'NEILL I am hurt

(21) THE COURT You aren't supposed to be reading the

(22) newspaper You don't know what I'm talking about O'Neill

(23) Lynch and Chalos

(24) MR NEAL You got the wrong Neal Your Honor but if

(25) that's your wish then we've got a commitment to keep today

Vol 22 3713

(1) So shall I start?

(2) THE COURT You shall start

(3) MR NEAL We call Mr Harvey Borgen

(4) THE CLERK Would you raise your right hand please

(5) sir

(6) (The Witness Is Sworn)

(7) THE CLERK For the record state your full name your

(8) address and spell your last name please

(9) THE WITNESS My full name is Harvey Jensen Borgen B

(10) like in boy O R G E N 309 Sugar Berry Circle Houston

(11) Texas

(12) THE CLERK Thank you sir

(13) DIRECT EXAMINATION OF HARVEY BORGEN (Live)

(14) BY MR NEAL

(15) Q Mr Borgen how are you employed sir?

(16) A I'm employed by Sea River Maritime, Inc

(17) Q How long have you been employed by Sea River or Exxon

(18) Shipping Company or one of the Exxon entities?

(19) A It'll be 31 years this month

(20) Q So you first became employed by Exxon in 1963?

(21) A That's correct

(22) Q Prior to becoming employed by Exxon in 1963 give us your

(23) formal educational background

(24) A I went to New York State Maritime Academy, college, and

(25) graduated in 1963 with a bachelor of science degree in  
marine

Vol 22 3714

- (1) transportation an ensign commission United States Naval  
 (2) Reserve and a U S Coast Guard issued third mate's license  
 (3) Q All right sir Any other formal education?  
 (4) A Yes Between 1964 and 1969 I went to University of  
 (5) Houston night school to get my master's degree in business  
 with  
 (6) a major in management and finance  
 (7) Q And that was while you were employed by Exxon or one of  
 the  
 (8) Exxon companies?  
 (9) A Yes  
 (10) Q Who paid for that education for you Mr Borgen?  
 (11) A At that time the company paid 75 percent of my tuition  
 and  
 (12) books and costs  
 (13) Q Now then would you just very briefly describe your  
 (14) positions with Exxon or Exxon companies from 1963 and let s  
 (15) stop at 1982?  
 (16) A I was employed initially as an economic analyst in our  
 (17) planning group I was in the position for about five years I  
 (18) then moved into your labor relations group where I worked  
 as a  
 (19) labor relations analyst for two years I then moved to New  
 (20) Jersey and became our operations manager for our tug and  
 barge  
 (21) fleet that operated along the east coast of the United States  
 (22) Did that for a couple of years, and then transferred to the  
 (23) parent corporation in their long range marine worldwide  
 (24) planning group for two years  
 (25) I then moved back to Houston, and I worked in the group

Vol 22 3715

- (1) that was a support group for the management committee of  
 Exxon  
 (2) U S A and did that for about a year and a half, and then after  
 (3) that went back into the marine group as the repair manager  
 for  
 (4) the tanker fleet of Exxon at the time Did that for two years,  
 (5) and then I became maintenance and services manager for  
 the next  
 (6) five years and had responsibility for repairs, fleet manning,  
 (7) marine benefits And in August of 1982, I moved to the west  
 (8) coast to become the fleet manager  
 (9) Q In August of 1982 you moved to the west coast to become  
 (10) fleet manager of the Exxon Shipping Company west coast fleet?  
 (11) A Yes, sir  
 (12) Q All right Now I m going to ask you specifically about  
 (13) some conversation I m going to ask you what you said to  
 (14) somebody and what somebody said to you in substance okay?  
 (15) A Yes, sir  
 (16) Q In 1987 did there come a time when you were asked to  
 (17) consider Captain Hazelwood, who was on the gulf coast fleet at  
 (18) the time for a transfer to the west coast fleet and become  
 (19) what you call alternate captain of the Exxon Valdez?  
 (20) A Yes.  
 (21) Q With whom did you have the first conversation?  
 (22) A First conversation with Captain Andy Martineau, who was  
 my  
 (23) port captain  
 (24) Q You might lean forward a little bit so everybody can hear  
 (25) you

Vol 22 3716

- (1) A First conversation I had was with Captain Andy  
 Martineau  
 (2) Q Describe that conversation in substance I know it s a  
 (3) long time but in substance  
 (4) A We had a vacancy on the Exxon Valdez and I asked Andy  
 to  
 (5) get with the respective port staff from the gulf coast fleet to  
 (6) make a recommendation to me as to who the individual  
 ought to  
 (7) be to fill that position  
 (8) Q All right And did he later on come back to you and you  
 (9) have another conversation with him?  
 (10) A Yes He came back to me at a later time and said that the  
 (11) two port captains had gotten together  
 (12) Q Did he mention who the other port captain was?  
 (13) A Captain Sheehy  
 (14) Q All right He told you he and Captain Sheehy had gotten  
 (15) together and he was back to you to make a recommendation?  
 (16) A Yes, sir  
 (17) Q Go ahead  
 (18) A And he said between the two of them they felt the best  
 (19) qualified individual for this position ought to be Captain  
 (20) Hazelwood  
 (21) Q Did they tell you - go ahead just with the conversation  
 (22) but was there more to the conversation? Did he tell you why?  
 (23) A They said - I asked them why, and they said that they felt  
 (24) that because of his prior big ship experience his prior  
 (25) experience at Prince Wilham Sound and being - having an

Vol 22 3717

- (1) endorsement on his license for Prince Wilham Sound  
 pilotage,  
 (2) he was known as a fine seaman his navigational skills were  
 (3) well known, beyond reproach he had a good rapport with  
 the  
 (4) crew, and they felt that because of those qualifications he  
 (5) was the best one to fill that slot at the time  
 (6) Q Now you were speaking to Captain Martineau presumably  
 he  
 (7) was talking for both himself and Captain Sheehy but you re  
 (8) speaking to Captain Martineau is that correct?  
 (9) A Yes, sir  
 (10) Q What did you say to Captain Martineau in response?  
 (11) A I said that I would get back to him on that  
 (12) recommendation  
 (13) Q All right Did you then have a conversation with someone  
 (14) regarding Captain Hazelwood?  
 (15) A Yes  
 (16) Q Who was that?  
 (17) A I had a conversation with my counterpart, the gulf coast  
 (18) fleet manager, Dwight Koops  
 (19) Q And would you tell us in substance what Mr Koops said to  
 (20) you and what you said to Mr Koops and in substance what he  
 (21) said to you in this conversation?  
 (22) A I had known that Captain Hazelwood had gone through  
 some  
 (23) type of alcohol rehabilitation program, so I asked Dwight  
 Koops  
 (24) about Captain Hazelwood's performance, and he said he  
 was  
 (25) performing extremely well in the gulf coast fleet, he was

Vol 22 3718

- (1) not - they had been monitoring him they hadn't any indication
- (2) that he was drinking and he was clean And on that basis I said, thank you
- (3)
- (4) Q And then did you - was it your decision then to transfer
- (5) or to agree to the transfer of Captain Hazelwood to the west
- (6) coast?
- (7) A It was a joint decision between myself and Dwight and we agreed to it
- (8)
- (9) Q Now do you know a - do you know an individual by the name
- (10) of Doug Larsen?
- (11) A Yes sir
- (12) Q Who was at that time - now we're talking about 1987
- (13) July August 87 who was Doug Larsen? What position did he
- (14) have at that time?
- (15) A Doug Larsen was our operations supervisor for an office
- (16) that we had in Long Beach, California This office was the
- (17) office responsible for doing agency work for any of our vessels
- (18) that came into the Los Angeles, Long Beach area
- (19) Q While we're on that it's been stated in the record that at
- (20) this time the trade of the Valdez was to pick up North Slope
- (21) crude take it to Panama stop back at Long Beach and then go
- (22) back to Valdez Port of Valdez that is correct?
- (23) A That is correct
- (24) Q All right So the vessel would stop at Long Beach on the
- (25) way back from Panama?

Vol 22 3719

- (1) A Yes
- (2) Q All right Did you have a - did you happen to have a
- (3) conversation with Mr Doug Larsen about the time of the
- (4) transfer of Captain Hazelwood to the west coast?
- (5) A Yes
- (6) Q Would you tell us again now in substance what you said to
- (7) Mr Larsen and what he said to you?
- (8) A I told Mr Larsen that Captain Hazelwood was joining the
- (9) Exxon Valdez as an alternate master that he had had presumed
- (10) a drinking problem at one time I wanted Doug, each time the
- (11) ship came into port when he boarded the ship, to make an
- (12) observation as to how Captain Hazelwood's job performance was
- (13) how his paperwork was, just generally observe his behavior and
- (14) report back to me if he saw anything that warranted reporting
- (15) back
- (16) Q And did he make reports back to you?
- (17) A Yes
- (18) Q What were those reports?
- (19) A Reports were all very very good He said that Captain
- (20) Hazelwood's paperwork was impeccable he was a real team
- (21) player During a turn around time of that nature there's a
- (22) lot of activity goes on When the ship comes in the agent
- (23) Doug Larsen would board the vessel along with U S Customs
- (24) personnel U S Immigration personnel would come aboard We're
- (25) storing provisions food items on the ship we have repair work

Vol 22 3720

- (1) that may be going on We have bunkers of fuel oil being  
 (2) delivered so it's a very active time a lot of involvement,  
 (3) and it takes a real team effort to make that all come together  
 (4) smoothly  
 (5) Q Now what were the reports back from Mr Larsen other than  
 (6) that that he was doing well no problem et cetera?  
 (7) A That's correct  
 (8) Q Now then I want to direct your attention to a third  
 (9) thing There s been something in the testimony here about  
 (10) so called Henry s or somebody said to be Captain Hazelwood  
 (11) ordering Henry s aboard a walkie talkie - or through a  
 (12) walkie talkie You understand what I m talking about?  
 (13) A Yes sir  
 (14) Q Did you happen to have a conversation with a Mr Herb  
 (15) Leyendecker regarding this matter?  
 (16) A Yes, I did  
 (17) Q Was that in person or by phone?  
 (18) A By phone  
 (19) Q All right Again tell the Ladies and Gentlemen of the  
 (20) Jury and the Court in substance what Mr Leyendecker said to  
 (21) you and what you said to him?  
 (22) A Mr Leyendecker said that while he was aboard the Exxon  
 (23) Valdez at the Portland Shipyard -  
 (24) Q And by the way the Valdez was in dry dock at that time  
 (25) correct?

Vol 22 3721

- (1) A Yes  
 (2) Q All right Go ahead with the conversation  
 (3) A That he overheard on the walkie-talkie Captain  
 Hazelwood  
 (4) ordering beer Herb then the next day, confronted Captain  
 (5) Hazelwood and said he had overheard ordering beer and we  
 do not  
 (6) allow beer on our ships and Captain Hazelwood said, no it  
 (7) wasn't for the ship, I was ordering the beer for a crew party  
 (8) ashore and reassured Herb at that time that that's what he  
 was  
 (9) doing  
 (10) Q Did Mr Leyendecker say anything to you about whether he  
 (11) asked Captain Hazelwood if he were drinking or not?  
 (12) A Well I asked Herb if in his observations of Captain  
 (13) Hazelwood - because he had been there, this was a second  
 trip  
 (14) to the shipyard to visit, see how things were going, any  
 (15) indication in his eyes that Captain Hazelwood was drinking  
 or  
 (16) appeared to be impaired in any way, shape or form, and  
 Herb  
 (17) assured me that in his judgment, he was not  
 (18) Q Okay Following this conversation did you have occasion  
 (19) to meet or to talk to Mr Paul Myers your ship group  
 (20) coordinator regarding this?  
 (21) A We did have a discussion after about this specific  
 (22) incident  
 (23) Q Do you remember the - that conversation?  
 (24) A Well, I'm - I don't recall all the specifics of the  
 (25) conversation, but what I do recall telling Paul was as far as I

Vol 22 3722

- (1) was concerned, Herb's investigation of this particular  
 incident  
 (2) was satisfied - satisfactory  
 (3) MR NEAL You may examine  
 (4) Excuse me just a moment Your Honor Hold on just a  
 (5) moment Your Honor  
 (6) CROSS EXAMINATION OF HARVEY BORGEN  
 (7) BY MR O NEILL  
 (8) Q I am going to cover with you because of the rules of the  
 (9) game that we play with exactly the subjects that Exxon just  
 (10) covered with you okay?  
 (11) Now the first conversation that you just talked about was  
 (12) the 1987 conversation between Martineau and Sheehy  
 regarding  
 (13) Captain Hazelwood s proposed transfer to the west coast that s  
 (14) the first thing you talked about right?  
 (15) A Yes, sir  
 (16) Q Let s talk about that for a minute You stated that you  
 (17) had known that Captain Hazelwood had been through alcohol  
 (18) rehabilitation?  
 (19) A Correct  
 (20) Q And you learned that at a fleet conference sometime in 85  
 (21) or 86?  
 (22) A I want to say '86  
 (23) Q 86? And you don t specifically recall how you found out  
 (24) about it but it was in any event a subject of conversation  
 (25) between you and somebody else at a fleet conference in 1986?

Vol 22 3723

- (1) A Well, it would have been - I would have heard it from  
 (2) someone, yes  
 (3) Q Okay And then you had this conversation with your  
 (4) counterpart on the gulf coast and he said he was not drinking  
 (5) and clean Is that a correct statement?  
 (6) A That's correct  
 (7) Q So it was important to both of you I assume that he was  
 (8) not drinking and that he was clean?  
 (9) A Yes  
 (10) Q And then there was a joint decision made between you and  
 (11) Mr Koops to reassign Captain Hazelwood?  
 (12) A Yes, sir  
 (13) Q I want to talk briefly about that decision and what you  
 (14) did or didn t do with regard to that particular decision  
 (15) okay?  
 (16) You didn t talk to the human resources department about the  
 (17) rehabilitation did you?  
 (18) A I did not  
 (19) Q You didn t talk to the medical department about the  
 (20) rehabilitation did you?  
 (21) A I did not  
 (22) Q You didn t talk to the human resources department or the  
 (23) medical department with regard to what a proper monitoring  
 (24) program might be for this captain in this situation did you?  
 (25) A I did not

Vol 22 3724

- (1) Q You didn't go back and find out the details of his rehabilitation or the details of any of any aftercare program did you?
- (2) **A I did not. Other than the monitoring that Dwight Koops said that they had done.**
- (3) Q And you didn't talk to the man in person about how he was doing, how he was doing with regard to his recovery or that subject, the man in person, I mean, Captain Hazelwood?
- (4) **A No.**
- (5) Q In any event, you were on notice that he had gone through an alcohol rehabilitation program?
- (6) **A Yes.**
- (7) Q Second conversation, the Doug Larsen conversation, your instructions to Mr. Larsen were to take a look at job performance and paperwork when the ship came in?
- (8) **A Correct.**
- (9) Q And that was the sum and substance of your direction to him?
- (10) **A I also told him to observe him to see whether or not Captain Hazelwood appeared to have been drinking at all.**
- (11) Q While - but - okay, Thank you, Thank you, This was while the ship, though, came into the harbor?
- (12) **A And - yes, while it came into the harbor.**
- (13) Q Okay, And I listened to your testimony, you didn't have him check the captain or you didn't tell him to check the

5/24/94

Vol 22 3725

- (1) captain when the captain came back from leave or came back from shore to get on the ship, you were talking about when the ship came in?
- (2) **A And while it was in port.**
- (3) Q Do you know, is this in Long Beach?
- (4) **A Yes, sir.**
- (5) Q Do you know of a place in Long Beach called the Yankee Clipper or the Yankee Sailor, somewhere near where the terminal is?
- (6) **A I don't recall.**
- (7) Q Do you know if, in fact -
- (8) **A But it's not - the ship is not at a terminal, it's actually at anchor.**
- (9) Q Then they bring a launch in?
- (10) **A The launch comes in.**
- (11) Q And where the launch gets off, are you aware of a bar called the Yankee Clipper or Yankee Sailor, are you aware at all that your crew members get together there and have a couple of beers?
- (12) **A No.**
- (13) Q You're not aware of that?
- (14) **A No.**
- (15) Q And he reported to you that the paperwork was impeccable and that the captain was a team player and doing well?
- (16) **A Yes, sir.**

Vol 22 3726

- (1) Q But he never reported to you that he talked to the captain about his emotional health, emotional well-being, recovery, whether he was drinking or not drinking, did he?
- (2) **A That's correct.**
- (3) Q Now, I want to talk about the Henry's incident, briefly, and then we'll get you out of here, okay?
- (4) **A Fine.**
- (5) Q At the time of the Henry's incident, Steve Day worked for you or worked in the same area?
- (6) **A He - yes, he did.**
- (7) Q And -
- (8) **A Not directly for me, though.**
- (9) Q Sort of a different chain of command but co-located?
- (10) **A Yes.**
- (11) Q And Mr. Leyendecker was from what you guys call Mecca or Houston?
- (12) **A Yes.**
- (13) Q That is right?
- (14) **A Yes.**
- (15) Q He was there, too, in the Portland Shipyard?
- (16) **A Correct, He's the repair manager.**
- (17) Q And with regard to the report by Mr. Leyendecker to you, you testified today that Mr. Leyendecker reported to you that Mr. Leyendecker overheard Captain Hazelwood ordering beer?
- (18) **A Correct.**

Vol 22 3727

- (1) Q And was this done over the telephone?
- (2) **A Walkie-talkie.**
- (3) Q No, I mean, not the ordering but the Leyendecker report to you, was that done over the telephone?
- (4) **A Yes.**
- (5) Q And then Mr. Leyendecker - was there a second call with Mr. Leyendecker?
- (6) **A I believe it was only one.**
- (7) Q One call, so Mr. Leyendecker said, I heard Captain Hazelwood ordering beer, I followed up, and the captain told me that it was being ordered for a crew party ashore?
- (8) **A Correct.**
- (9) Q And then counsel for Exxon asked, did Mr. Leyendecker report to you that he'd talked to Captain Hazelwood about drinking, and your answers were that he made an observation of Captain Hazelwood?
- (10) **A Yes.**
- (11) Q And I assume because of your answer to the question that Mr. Leyendecker did not report to you that he, in fact, talked to Captain Hazelwood about whether he was drinking again or not?
- (12) **A I don't recall that.**
- (13) Q So with regard to the Henry's incident, the sum and substance of your investigation as the west coast fleet manager was fielding the call from Mr. Leyendecker and passing on the substance of what Mr. Leyendecker told you, and then coming to

Vol 22 3728

- (1) the conclusion that this is enough I m going to move on to something else?
- (2) A Correct
- (3) Q Now was Mr Steve Day - then there was a conversation with Myers Myers came in and reported this to you and then you told Mr Myers that it had been taken care of?
- (4) A What I told Mr Myers was that I knew about the incident and Herb had investigated that incident and I was satisfied with the investigation that he had undertaken
- (5) Q And then that was - and then that s it all of the conversations on the topic?
- (6) A Yes sir
- (7) Q Did Mr Steve Day s name come up -
- (8) A No sir
- (9) Q - at all in the reports to you?
- (10) A No
- (11) Q Now does Mr Leyendecker still work for Exxon?
- (12) A Yes, he does
- (13) Q Does Mr Day still work for Exxon?
- (14) A Yes
- (15) MR O NEILL Thank you sir
- (16) MR NEAL Just one question I didn t quite understand
- (17) REDIRECT EXAMINATION OF HARVEY BORGEN
- (18) BY MR NEAL

Vol 22 3729

- (1) Q Did you ask Mr Leyendecker if he had talked to Captain Hazelwood?
- (2) A Yes he had talked to Captain Hazelwood
- (3) Q Did you ask Mr Leyendecker if he d asked Captain Hazelwood whether he was drinking? I don t remember what you said about that
- (4) A I don t recall whether I asked that specific question at this time I can remember that, but -
- (5) Q Did you come away - excuse me
- (6) A But I do remember asking Herb, was there any indication in your eyes that Captain Hazelwood had been drinking at all at the times that you were aboard and observed and talked to him, and he said no
- (7) Q Did you get the impression from that conversation that as far as you re concerned Captain Hazelwood wasn t - had not been drinking?
- (8) A That s correct
- (9) MR NEAL Thank you
- (10) THE COURT Thank you sir
- (11) MR NEAL You want to stop now or -
- (12) THE COURT I m going to get a signal when -
- (13) MR NEAL We ll call the next witness then
- (14) THE COURT We can just go ahead
- (15) MR NEAL We call Mr Doug Larsen
- (16) THE CLERK Please raise your right hand

Vol 22 3730

- (1) (The Witness Is Sworn)
- (2) THE CLERK For the record sir state your full name
- (3) your address and spell your last name
- (4) THE WITNESS Douglas Paul Larsen Last name is Larsen L A R S E N Address is 1712 Coral Place C O R A L in Seal Beach California
- (5) DIRECT EXAMINATION OF DOUG LARSEN (Live)
- (6) BY MR NEAL
- (7) Q Mr Larsen did anybody ever tell you - I remember a quarterback named Jim Plunkett Anybody ever tell you you look -
- (8) a lot like Jim Plunkett?
- (9) A No sir
- (10) MR SANDERS No further questions
- (11) MR NEAL You may examine
- (12) MR O NEILL How well did you know Jim Plunkett?
- (13) MR NEAL Somebody told me one time that with my cigar in my mouth I looked like - what s his name?
- (14) MR CHALOS George Burns
- (15) MR NEAL George Burns I m not that old and I resented it too But Jim Plunkett was a great football player Moving on
- (16) BY MR NEAL
- (17) Q Mr Larsen where are you employed sir at the present time?
- (18) A I m employed by Wilmington Transportation Company, San

Vol 22 3731

- (1) Pedro California
- (2) Q Pardon me?
- (3) A Wilmington Transportation Company, San Pedro California
- (4) Q What is your position with Wilmington Transportation Company?
- (5) A I m president, chief executive officer
- (6) Q Mr Larsen were you ever employed by Exxon Corporation Exxon Shipping Company?
- (7) A I sure was
- (8) Q From what date to what date?
- (9) A From June of 1976 until February, March of 1991
- (10) Q All right Now in order to move on here let me say that you graduated from the California Maritime Academy in 1976?
- (11) A That is correct
- (12) Q With third mate license?
- (13) A That s correct
- (14) Q And then you sailed with Exxon as a third mate from 76 to 78?
- (15) A That is correct
- (16) Q And from - sailed as a second mate then, with Exxon from 78 to 79?
- (17) A That is correct
- (18) Q And then from 79 to 80 you were a temporary port captain?
- (19) A That s correct assistant port captain staff officer in

Vol 22 3732

- (1) **Houston**
- (2) **Q And what position did you assume in or around 1982?**
- (3) **A Following approximately a one to one and a half year period**
- (4) **of working in Ventura County area with production department, I**
- (5) **was transferred down promoted to position of operations**
- (6) **supervisor managing southern California operation for shipping**
- (7) **Q Where was that located?**
- (8) **A Located in Long Beach**
- (9) **Q Long Beach California?**
- (10) **A That's correct**
- (11) **Q What was the function of that office?**
- (12) **A When I was transferred, it was twofold, was to handle the**
- (13) **scheduling of the ships calling in Santa Barbara area which**
- (14) **were running on a shuttle to Baytown, Texas, but primarily,**
- (15) **which was the reason the office was originally opened, was to**
- (16) **attend to vessels calling in ports of Los Angeles and Long**
- (17) **Beach**
- (18) **Q Los Angeles and Long Beach?**
- (19) **A That is correct**
- (20) **Q All right sir Now let me direct your attention to the**
- (21) **year 1987 late summer early fall Were you still the**
- (22) **operations manager there located in Long Beach?**
- (23) **A Operations supervisor yes**
- (24) **Q Operations supervisor? All right sir And did you**
- (25) **have - how long did you stay in that position?**

Vol 22 3733

- (1) **A From July '82 until July August of '89 approximately**
- (2) **seven years**
- (3) **Q So you were there then during the entire period of time**
- (4) **that Captain Hazelwood was the master of the Long Beach from**
- (5) **July August '87 up to the date of the grounding the master**
- (6) **of the Exxon Valdez?**
- (7) **A That's correct**
- (8) **Q From July August of '87 up to the day of the grounding?**
- (9) **A That's correct**
- (10) **Q In that regard did you happen around July or August 1987,**
- (11) **happen to have a conversation with a Mr Harvey Borgen?**
- (12) **A I did**
- (13) **Q Did you recognize Mr Borgen as the west coast fleet**
- (14) **manager who just left the stand?**
- (15) **A I do**
- (16) **Q Would you tell us in substance the conversation you had**
- (17) **with Mr Borgen?**
- (18) **A Mr Borgen advised me that the - one of the alternate**
- (19) **positions of master of the Exxon Valdez was open was being**
- (20) **replaced by Mister - Captain Hazelwood He would be coming**
- (21) **out working on the west coast coming out from the gulf coast**
- (22) **further to that he advised me that Captain Hazelwood had a -**
- (23) **effectively, a substance abuse problem in the past and it**
- (24) **was indicated it was alcohol related and that he requested me**
- (25) **to monitor him while he was - while his vessel came into port to**

Vol 22 3734

- (1) **notify him if there was any problems, behavioral cues, his**
- (2) **paperwork was out of sync, if his arrivals were off his**
- (3) **performance was other than the normal expected of the position,**
- (4) **if I noted if he had been drinking on any occasion, along those**
- (5) **lines, again, just generically any problems**
- (6) **Q You understood what you were supposed to do?**
- (7) **A Yes, sir**
- (8) **Q All right Following that conversation did you undertake**
- (9) **to perform the task of monitoring Captain Hazelwood as**
- (10) **requested by Mr Borgen?**
- (11) **A I did**
- (12) **Q How would - what did you do to fulfill that role?**
- (13) **A Follow through with all aspects of his request I first**
- (14) **met Captain Hazelwood when he was - met with him when he**
- (15) **joined the west coast I don't know if he was already on the**
- (16) **ship or he was about to join the ship I had a lunch - a**
- (17) **lunch with him at a shoreside facility in Long Beach I met**
- (18) **with him and another captain from another ship, who was going**
- (19) **on a paid leave or leaving, and we had lunch That was a**
- (20) **Saturday I believe, Saturday afternoon**
- (21) **I had lunch with him I had a beer I think one of the**
- (22) **other captains had a beer possibly Captain Hazelwood had**
- (23) **Perrier As follow up, as an example, I notified Mr Borgen of**
- (24) **the lunch welcome to the west coast, and just told him that we**
- (25) **had lunch and he wasn't drinking, he was having Perrier**

Vol 22 3735

- (1) **During subsequent meetings during that roughly one and a**
- (2) **half year period the Valdez called into port roughly a dozen**
- (3) **times**
- (4) **Q Roughly how many times?**
- (5) **A A dozen Roughly on a one month cycle, the Valdez went to**
- (6) **Panama and stopped in Long Beach on the northbound trip for**
- (7) **ballast and coming from a foreign port customs clearance**
- (8) **needed to be taken care of, immigration work for the crew**
- (9) **leaving, being repatriated, crew that were joining and what**
- (10) **have you, had a close interface with Captain Hazelwood**
- (11) **preceding the actual arrival of the vessel, both in exchange of**
- (12) **telex communications, discussions on the MARSET radio about**
- (13) **the upcoming port call, attending to the - advising us of what**
- (14) **port requirements he was going to need repairs stores, fuel,**
- (15) **et cetera Boarded the vessel either myself or the agent who**
- (16) **reported to me his name was Rou Kelly the two of us went -**
- (17) **one or the other of us would attend to the entry of the vessel**
- (18) **seven days a week, 24 hours a day didn't matter what time it**
- (19) **was, one in the morning or whatever**
- (20) **Q Speak up just a little bit**
- (21) **A I'm sorry It could have been any time of the day We**
- (22) **boarded the ship with the customs and immigration personnel**
- (23) **Proceeded to the bridge and spent roughly one to two hours on**

- (4) board the ship in the master's office and stateroom area  
 (5) During that time I had - I was in close proximity the  
 Vol 22 3736  
 (1) occasions that I boarded personally boarded the vessel for  
 (2) customs entry I had - I was within inches or a foot of  
 (3) Captain Hazelwood Never had any odor of alcoholic  
 beverage on  
 (4) him at all completely control of his vessel always on time  
 (5) paperwork was absolutely impeccable the best I've ever  
 seen  
 (6) very well organized very well laid out quick turn around  
 (7) quick entries although I think Harvey Borgen mentioned  
 it's a  
 (8) real team - teamwork between all the - the agent the repair  
 (9) gangs, and everybody else that was attending the ship and  
 the  
 (10) ship's personnel trying to get the ship in attend to the  
 (11) various aspects that were going on, he managed his ship  
 very  
 (12) well in port  
 (13) Q Did you - so there are a number of occasions then when  
 (14) you spent a good bit of time with Captain Hazelwood in close  
 (15) contact?  
 (16) A That's correct  
 (17) Q And this is when the vessel was coming into port?  
 (18) A That is correct  
 (19) Q Would the vessel be in port at times several - several  
 (20) days at a time?  
 (21) A Typically the ship would come and spend between 12, 12  
 (22) hours unless there was extended repairs On occasion I  
 (23) believe the ship was in port up to maybe a week  
 (24) Q A week?  
 (25) A Correct

Vol 22 3737

- (1) Q On any of those occasions you were with Captain  
 Hazelwood  
 (1) did you see any sign of any untoward conduct any sign of  
 (3) drinking any sign of anything like that?  
 (4) A Absolutely not  
 (5) Q Did you report your observations to Mr Borgen?  
 (6) A I did  
 (7) Q And did you report that you had seen no sign that Captain  
 (8) Hazelwood was what you've just testified?  
 (9) A I reported thoroughly, yes  
 (10) Q Now I gather that you had an assistant by the name of Ron  
 (11) Kelly?  
 (12) A That's correct  
 (13) Q Did you talk to - did you inform Mr Ron Kelly about the  
 (14) fact that Hazelwood Captain Hazelwood had had some sort of  
 (15) rehabilitation in the past?  
 (16) A I was unaware that Captain Hazelwood had any  
 rehabilitation  
 (17) at all They just told me that he had a problem in the past  
 (18) and that he was out on the west coast at this time and keep  
 an  
 (19) eye on him As regards my discussion with Ron Kelly, no I  
 did  
 (20) not tell him specifically that Captain Hazelwood had - or I  
 (21) was informed or aware that he had a problem with alcohol,  
 what  
 (22) have you, but I did review with Ron Kelly, the agent, each  
 and  
 (23) every port call I made a point of looking at the paperwork  
 (24) and the voyage file It always came by me any ways as a  
 matter  
 (25) of recourse standard operating procedure I would review  
 the

Vol 22 3738

- (1) files before they would be put among the central files I  
 (2) would discuss with Ron each port call albert 12 hours or 7  
 (3) days, any problems not just with Captain Hazelwood but  
 any  
 (4) other ship that came into port as a matter of fact but for  
 (5) the Valdez probably a little bit closer than other ships yes  
 (6) Q Did Mr Kelly ever report to you that he saw anything  
 (7) untoward for lack of a better word unprofessional untoward  
 (8) any conduct that would - out of the way about Captain  
 (9) Hazelwood?  
 (10) A Absolutely not Just to the opposite of that We had  
 (11) discussions that the Valdez with both Captain Hazelwood  
 and  
 (12) Captain Stalzer were enjoyable to have come into port  
 because  
 (13) everything worked on clockwork it was well organized  
 (14) Q Did you ever inquire of anybody about Captain Hazelwood's  
 (15) conduct or performance?  
 (16) A Yes, I did  
 (17) Q With whom did you inquire?  
 (18) A Various pilots Long Beach pilots  
 (19) Q Did you inform them hey I understand that Captain  
 (20) Hazelwood may have had a problem with alcohol in the past  
 and  
 (21) therefore I want you to do anything or tell me anything?  
 (22) A No I did not  
 (23) Q Pardon me?  
 (24) A No, I did not  
 (25) Q Why not?

Vol 22 3739

- (1) A Well the discussion I had with Mr Borgen, it was treated  
 (2) in a very sensitive manner it was confidential information I  
 (3) felt that Mr Borgen passed on to me and the questions that  
 I  
 (4) directed or just talking casually with the various pilots the  
 (5) people in the port that I had acquaintances with that might  
 (6) have had dealings with Captain Hazelwood were very  
 generic, and  
 (7) discussion in text the reaction I got from the pilots along  
 (8) the lines was that they thought he was an excellent ship  
 (9) handler, great command of the vessel, very comfortable,  
 knew  
 (10) how the vessel handled very comfortable working with him  
 (11) Q Is it fair to say then you talked to these pilots and  
 (12) people about Captain Hazelwood's performance and asked  
 them  
 (13) about it without being so indelicate as to mention that your  
 (14) understanding he might have had some alcohol problem in the  
 (15) past?  
 (16) A That is correct  
 (17) Q Did you ever get any bad report from anybody about Captain  
 (18) Hazelwood in any of these pilots that you talked to?  
 (19) A No, I did not  
 (20) Q By the way on occasion was Mr Borgen down at the vessel  
 (21) also?  
 (22) A He boarded occasionally I know of -  
 (23) Q In Long Beach?  
 (24) A That's correct  
 (25) Q Thank you

Vol 22 3740

- (1) A Or outside Long Beach yes  
 (2) THE COURT Mr Neal this is the time  
 (3) MR O NEILL Oh time out  
 (4) THE COURT This is time out  
 (5) MR O NEILL Darn it  
 (6) THE COURT You ll get your chance I don t know  
 (7) whether you heard or not we have to take just a few moments  
 (8) Would everyone just please stand by be at ease for a few  
 (9) minutes and we ll be back just as quickly as we can  
 (10) (Recess taken at 8 44 a m to 8 55 a m )  
 (11) THE CLERK Court is back on the record  
 (12) THE COURT You may cross examine Mr Neal - oh I  
 (13) did it again I m sorry O Neill  
 (14) CROSS EXAMINATION OF DOUG LARSEN  
 (15) BY MR O NEILL  
 (16) Q Did you have anything to do at all with San Francisco? Did  
 (17) you ever go up to San Francisco and help the ships in San  
 (18) Francisco?  
 (19) A In what time frame, sir?  
 (20) Q 87 to 89?  
 (21) A No Late in '89, I was - I was promoted and transferred  
 (22) up to the San Francisco to operations supervisor for the  
 (23) entire  
 (24) west coast so at the tail end of 1989 yes, I did  
 (24) Q I m concerned about March of 1989  
 (25) A No

Vol 22 3741

- (1) Q In Long Beach the vessels are tied up out in the harbor  
 (2) and then there s a launch that comes to shore and shuttles back  
 (3) between the shore and the vessel is that right?  
 (4) A Roughly yeah They're at anchor they re secured by  
 (5) their  
 (6) own anchors  
 (7) Q And are you familiar with a bar called the Yankee Whaler or  
 (8) the Yankee Clipper at or near where the launch comes in?  
 (9) A I'm aware of it  
 (10) Q And are you aware that on occasion crew members when  
 (11) they re departing from a tour of duty would get together there  
 (12) and have a couple of beers?  
 (13) A (Shakes head from side to side)  
 (14) Q You re not aware of that at all?  
 (15) A Yankee Whaler Clipper is in a line of restaurants and  
 (16) boutiques called the San Pedro Ports of Call and crew  
 (17) members  
 (18) do get off with other visitors and tourists and they will go  
 (19) through the area do some shopping stop have lunch or  
 (20) dinner  
 (21) stop for beer or whatever I m sure they did I'm sure  
 (22) There's no general meeting spot for crew if that's the  
 (23) question no That I didn't know  
 (24) Q Here you were the monitor and you didn t know that?  
 (25) A That's correct  
 (26) Q Did you ever ask Chuck Kimtis the chief engineer on the  
 (27) Valdez if he ever drank with Captain Hazelwood at the Yankee  
 (28) Whaler or the Yankee Clipper?

Vol 22 3742

- (1) A No, I did not  
 (2) Q How about Nate Carr?  
 (3) A No, I did not  
 (4) Q How about Pat Enright?  
 (5) A No, I did not  
 (6) Q How about Katherine Haven?  
 (7) A No, not Katherine Haven  
 (8) Q How about Carlos Hogan?  
 (9) A No  
 (10) Q So as the monitor you were unaware that these crew  
 (11) members  
 (12) and the captain would go over to the Yankee Whaler and have a  
 (13) couple of beers?  
 (14) A I was unaware of that  
 (15) Q He wasn t hiding the fact that he had a couple of beers  
 (16) with anybody and indeed he s testified he openly did it you  
 (17) weren t aware of that?  
 (18) A I didn't follow Captain Hazelwood around if he came  
 (19) ashore,  
 (20) no, I did not  
 (21) Q Now was Kevin Dick or Bob Sturgis were they assigned to  
 (22) the Valdez when you had this 87 to 89 duty?  
 (23) A I don't recollect It's possible they did  
 (24) Q Did you ever ask them whether they drank with Captain  
 (25) Hazelwood?  
 (26) A No I did not  
 (27) Q How about Mr Kunkel did you ever ask Mr Kunkel if he

Vol 22 3743

- (1) drank with Captain Hazelwood?  
 (2) A No sir  
 (3) Q Did you ever receive any training in monitoring people  
 (4) who d been through alcohol rehabilitation?  
 (5) A I have had certain background training at the Merchant  
 (6) Marine Academy as far as general awareness of substance  
 (7) abuse  
 (8) problems Further to that when I first became employed  
 (9) with  
 (10) Exxon, was in the marine with Exxon Company U S A , at the  
 (11) time  
 (12) we had a one week orientation when I first came on board  
 (13) for  
 (14) anyone that was coming aboard in a sailing capacity  
 (15) During  
 (16) that orientation they had an overview of company policy  
 (17) and  
 (18) what was allowed what was not allowed and beyond that  
 (19) there  
 (20) was a - one - had a one week management course that we  
 (21) had  
 (22) with officers, engineers and deck officers to discuss in part,  
 (23) not specifically for that but part of that was to deal with  
 (24) identifying and how to handle problematic situations  
 (25) Q So you have had training?  
 (26) A Some Videos on board the vessels general awareness  
 (27) more  
 (28) than anything else  
 (29) Q So you re aware that with regard to alcoholics who have  
 (30) been through rehabilitation there s a high rate of relapse?  
 (31) A I was unaware that Captain Hazelwood had been through  
 (32) rehabilitation  
 (33) Q My question for you is are you aware of the fact that  
 (34) alcoholics who have been through rehabilitation have high rates

Vol 22 3744

- (1) of relapse?  
 (2) A Yes  
 (3) Q And you re aware that alcoholics learn to mask and that s  
 (4) the technical term used mask both their drinking and the  
 (5) effects of their drinking?  
 (6) A I assume so yes  
 (7) Q And now I want to come back to what you said in response to  
 (8) my question two or three questions back You said I was  
 (9) unaware of the fact that Captain Hazelwood had been through  
 (10) rehabilitation So you were the monitor and nobody told you  
 (11) that Captain Hazelwood had been through alcohol  
 rehabilitation?  
 (12) A I might -  
 (13) Q Is that a correct statement?  
 (14) A - take exception in stating that I was the quote  
 (15) unquote monitor  
 (16) Q You weren t the monitor -  
 (17) MR NEAL Let him finish  
 (18) MR O NEILL Go ahead Are you finished?  
 (19) THE WITNESS What was the question again if you want  
 (20) to rephrase it  
 (21) MR O NEILL I m happy to rephrase the question  
 (22) Could you go back and read what he was saying right before  
 (23) counsel s objection?  
 (24) (The last question and answer were read back)  
 (25) BY MR O NEILL

Vol 22 3745

- (1) Q Your statement was I take exception to stating that I was  
 (2) the quote unquote monitor She just read that back did you  
 (3) hear that?  
 (4) A Okay  
 (5) Q You were not the monitor were you?  
 (6) A Words in my mouth I was asked by Mr Borgen given the  
 (7) backdrop that Captain Hazelwood had a problem didn't go  
 into  
 (8) detail to it other than just to tell me there was a problem  
 (9) associated with alcohol and to keep a close surveillance,  
 (10) report anything concerning his performance if there was  
 any  
 (11) relapse or if there was a problem, whether it was drinking or  
 (12) the performance of bringing the ship in and out of port  
 (13) Q So you didn t consider yourself to be the monitor did you  
 (14) or a monitor and you weren t trained to be a monitor for  
 (15) somebody who had been through alcohol rehabilitation were  
 you?  
 (16) A That's kind of a vague question I don't know if I can  
 (17) answer that question  
 (18) Q Then don t  
 (19) A I was asked to monitor oversee to report and I did  
 (20) that  
 (21) Q You were - one of the things you looked at was his  
 (22) paperwork okay? Do you recall that?  
 (23) A Uh-huh  
 (24) Q And you said his paperwork was exceptional?  
 (25) A Uh huh

Vol 22 3746

- (1) Q Were you aware of the fact that Captain Hazelwood had been  
 (2) regularly rated at the bottom of the scale or level of masters  
 (3) in major part because he wasn't good at things like paperwork?  
 (4) A I was not privy to his performance evaluations, no, sir  
 (5) Q Okay  
 (6) A But as I indicated earlier, his paperwork relative to  
 (7) completing the required Coast Guard and immigration  
 forms, the  
 (8) various paperwork associated with his port call, telexes,  
 (9) exchange of communications was without - was flawless  
 (10) Q Now with regard to boarding these vessels that you did in  
 (11) Long Beach and checking the paperwork and coming on with  
 the  
 (12) customs and immigration agents that's something that you did  
 (13) for all of the vessels isn't it?  
 (14) A That is correct, the required paperwork  
 (15) Q So the number of times that you visited Captain Hazelwood's  
 (16) vessel when it was in port was something that you did for all  
 (17) of the vessels, that's a correct statement isn't it?  
 (18) A That's correct I probably boarded - I boarded his vessel  
 (19) more than was required, though  
 (20) Q How many more times? One? Two?  
 (21) A A few  
 (22) Q One or two times more?  
 (23) A Possibly one or two times  
 (24) MR O NEILL Okay thank you  
 (25) REDIRECT EXAMINATION OF DOUG LARSEN

Vol 22 3747

- (1) BY MR NEAL  
 (2) Q Mr Larsen in your activities and observations - did your  
 (3) activities and observations of Captain Hazelwood and your  
 (4) interaction with him differ from that with other masters?  
 (5) A I don't understand the question I'm sorry  
 (6) Q Maybe I don't either You had certain duties with respect  
 (7) to all masters?  
 (8) A That's correct  
 (9) Q Were you given an additional duty with respect to Captain  
 (10) Hazelwood that you were not given with respect to other  
 (11) masters?  
 (12) A Yes, sir  
 (13) Q That's the point  
 (14) A Yes sir I was  
 (15) Q And what was that duty?  
 (16) A To oversee to evaluate the effectiveness of his turn  
 (17) around in the port and report any abnormalities actually  
 (18) proceed to the west coast fleet  
 (19) Q Were you asked to do that with respect to any other master  
 (20) other than Captain Hazelwood?  
 (21) A No I was not  
 (22) THE COURT Thank you sir You may step down  
 (23) MR SANDERS May it please the Court defendants call  
 (24) Mr Tom Shearer  
 (25) THE CLERK Would you raise your right hand please

Vol 22 3748

- (1) sir  
 (2) (The Witness Is Sworn)  
 (3) THE CLERK For the record state your full name your  
 (4) address and spell your last name please  
 (5) THE WITNESS Grady T Shearer, S H-E A R E R 3768  
 (6) Grove Street Sonoma California  
 (7) THE CLERK Thank you sir  
 (8) DIRECT EXAMINATION OF GRADY T SHEARER (Live)  
 (9) BY MR SANDERS  
 (10) Q Good morning, Mr Shearer?  
 (11) A Good morning  
 (12) Q Let me guess you work for Sea River Maritime?  
 (13) A You got it  
 (14) Q How long have you worked for Sea River Maritime or Exxon  
 (15) Exxon Shipping Company?  
 (16) A Approximately 27 years  
 (17) Q All right And before coming to Exxon did you receive any  
 (18) formal education?  
 (19) A I have a business degree from Lamar Tech in Beaumont,  
 (20) Texas  
 (21) Q Did you grow up in Texas?  
 (22) A Yes  
 (23) Q And when you were employed with - by Exxon 27 years ago,  
 (24) where did you go to work?  
 (25) A I started in Baytown Texas, and worked there about  
 seven

Vol 22 3749

- (1) months  
 (2) Q And then where did you go?  
 (3) A Norfolk, Virginia  
 (4) Q And how long were you in Norfolk?  
 (5) A About seven, eight years, then I transferred to the west  
 (6) coast in about 1978  
 (7) Q All right Now when you transferred to the west coast  
 (8) fleet office where was it located?  
 (9) A At the time, it was located in Concord, California  
 (10) Q All right And at some time subsequent it moved to  
 (11) Benicia?  
 (12) A Yes, Benicia refinery  
 (13) Q And there was a break when it was in Emeryville?  
 (14) A Yes, it went to Emeryville in '90 or something like that  
 (15) Q Now it's back in Benicia?  
 (16) A Right  
 (17) Q Have you served continuously in that office since 1978  
 (18) wherever it happened to be located?  
 (19) A Yes sir I did  
 (20) Q What was your job?  
 (21) A I'm a personnel specialist and primarily handle employee  
 (22) relations labor relations issues for the ocean fleet  
 (23) Q And in the 1987 time frame did you have an office in the  
 (24) same location that the port captain's office was?  
 (25) A Yes, sir, I did

Vol 22 3750

- (1) Q And was it in the same location with the west coast fleet manager?
- (2) **A Yes**
- (3) Q And Mr Borgen was the west coast fleet manager correct?
- (4) **A Correct**
- (5) Q And then for a part of the year in 1987 Captain Andre Martineau was port captain correct?
- (6) **A That's correct**
- (7) Q All right Now you kind of were with the west coast fleet office ever since there was a west coast fleet office almost right?
- (8) **A That's - that's fair to say**
- (9) Q West coast fleet office was started up in around what 77 78?
- (10) **A Yes sir**
- (11) Q And you've been out there all that time?
- (12) **A I have**
- (13) Q Now I want to change sports here for a second I want to go way out in left field and ask you a question Are you familiar with the Exxon North Slope?
- (14) **A Yes**
- (15) Q Is the Exxon North Slope a west coast fleet ship?
- (16) **A Yes sir she is**
- (17) Q Do you have any recollection of there ever being a time when the North Slope was not in the west coast fleet?

Vol 22 3751

- (1) **A No**
- (2) Q Do you have any recollection of the North Slope ever sailing around and going to the port of Baytown?
- (3) **A Not that I'm aware of**
- (4) Q All right Mr Shearer let me take you to - or return you to 1987 and ask you if you remember a time when there was a
- (5) discussion in the west coast fleet office concerning the replacement of a master for the Exxon Valdez?
- (6) **A Yes I do**
- (7) Q And let me ask you a step further Was there a conversation that you had concerning Captain Hazelwood in that regard?
- (8) **A Yes**
- (9) Q Who was that conversation with?
- (10) **A Captain Martineau**
- (11) Q And Captain Martineau was the port captain?
- (12) **A He was**
- (13) Q And would you tell the Ladies and Gentlemen of the Jury as best you can recall what that conversation was?
- (14) **A Captain Martineau called me into his office and informed me that he and Captain Sheehy, who was the port captain of the east coast, were contemplating a move of Captain Hazelwood to the - to the Exxon Valdez and he said that Harvey Borgen, who was the fleet manager wanted him to check out make sure Joe was - was clean was doing a good job and wasn't drinking or**

Vol 22 3752

- (1) **anything**
- (2) Q Excuse me you dropped your voice What was the last part?
- (3) **A That he wasn't drinking**
- (4) Q That he was not drinking?
- (5) **A That he wasn't drinking**
- (6) Q And he told you that Mr Borgen asked him to check that out?
- (7) **A Yes**
- (8) Q Did he tell you anything further about how he was asked to check it out or how he was going to check it out?
- (9) **A Yes- He was going to talk to Captain Sheehy and get a good background from the east coast fleet and -**
- (10) Q Did he ask you any questions?
- (11) **A Yes**
- (12) Q What did he ask you?
- (13) **A He wanted to know if I'd heard anything because I dealt with a lot of different people and what I'd heard about Joe was, was he doing a good job was there any indication that I'd picked up that he was having a problem And I told him no, that everything I'd heard about him was good**
- (14) Q Okay Now this was in - this was in 87?
- (15) **A Right**
- (16) Q Do you know the time of the year? Can you remember now?
- (17) **A It was a few months before Joe came over I'm not sure I think it was spring or a few months before then**

Vol 22 3753

- (1) Q Now did you in that conversation or in a later conversation with Captain Martineau did he mention to you that he had in fact checked with Captain Sheehy?
- (2) **A Yes, just shortly after that conversation, the same day, he came down and said don't worry about making any calls I've checked with Captain Sheehy and Joe's doing a real good job and he doesn't drink anymore**
- (3) Q Now I want to ask you about one other conversation Do you happen to recall the time that - well strike that Did you have a conversation with Mr Borgen concerning Captain Hazelwood somewhere around the time that Captain Hazelwood came back out to the west coast?
- (4) **A I had many conversations with Mr Borgen like that**
- (5) Q Yeah but you know which one I'm going to ask you about Did you have a conversation about Captain Hazelwood as Captain Hazelwood was coming out to the west coast or just before?
- (6) **A Yes**
- (7) Q Okay Do you happen to recall the date that would have been?
- (8) **A No I don't recall**
- (9) MR SANDERS Your Honor might I approach the witness?
- (10) **BY MR SANDERS**
- (11) Q I'm going to hand you a page Captain Hazelwood's assignment history that comes out of Plaintiffs Exhibit

Vol 22 3754

- (1) Number 11 I believe it's already admitted in evidence and
- (2) I'm going to ask you to look down here at the first entry for
- (3) the Exxon Valdez Captain Hazelwood's assignment history,
- (4) and
- (5) does that indicate the first date that he joined the Exxon
- (6) Valdez?
- (7) A Yeah, July 30th, '87
- (8) Q Is that roughly the time frame in which you had this
- (9) conversation that I'm getting ready to ask you about?
- (10) A Yes
- (11) Q All right Now Mr Shearer this conversation was about
- (12) Captain Hazelwood?
- (13) A Correct.
- (14) Q With Mr Borgen?
- (15) A Right
- (16) Q And can you recall today the exact words of the
- (17) conversation?
- (18) A No
- (19) Q Did you have an understanding of what Mr Borgen wanted,
- (20) based on that conversation?
- (21) A Yes
- (22) Q What did he want?
- (23) A He wanted me to pay particular attention to Joe and make
- (24) sure that he was not drinking and that he -- he stayed
- (25) straight
- (26) Q Now as the personnel specialist in the west coast fleet

Vol 22 3755

- (1) office did you have an opportunity to talk to a lot of people
- (2) that were involved with the ships and with the masters of the
- (3) ships?
- (4) A Yes
- (5) Q And did you have a lot of -- in the '90s we called it
- (6) interface with people who boarded the ships who serviced the
- (7) ships who came from the shoreside office to the ships, as
- (8) well?
- (9) A Yes
- (10) Q Did you in fact pay particular attention to
- (11) Mr Hazelwood Captain Hazelwood in response to Mr
- (12) Borgen's
- (13) request?
- (14) A Yes
- (15) Q All right Did you ever notice anything that was -- that
- (16) would indicate to you that Captain Hazelwood was drinking
- (17) alcohol?
- (18) A None whatsoever
- (19) Q Did you go around asking people that question?
- (20) A No, I don't recall what I asked them, but I didn't --
- (21) probably wasn't that blunt, but I looked for signs, I didn't
- (22) see anything but good
- (23) Q Did you get any signs?
- (24) A Positive that he was doing a good job signs and people
- (25) were --
- (26) Q Did you get any signs that he was drinking?

Vol 22 3756

- (1) A None
- (2) Q All right Now from time to time would Mr Borgen ask you
- (3) about your observations of Captain Hazelwood?
- (4) A Yes
- (5) Q And would you give him the report that you just gave the
- (6) Ladies and Gentlemen of the Jury?
- (7) A Yes, I did, I did
- (8) MR SANDERS No further questions You may ask
- (9) CROSS EXAMINATION OF GRADY T SHEARER
- (10) BY MR O'NEILL
- (11) Q How are you sir?
- (12) A All right
- (13) Q Were you here for Mr Borgen's testimony?
- (14) A I was
- (15) Q You were sitting in the back, and in the conversations that
- (16) Mr Borgen related to us today I didn't hear your name come
- (17) up, did you?
- (18) A No, I didn't
- (19) Q So Mr Borgen didn't come in and tell us today about these
- (20) conversations that you and he -- that you've just testified to?
- (21) A That's correct
- (22) Q Let's talk about Captain Sheehy contemplating the move to
- (23) the Exxon Valdez that core set of conversations And you
- (24) testified that you were asked what you had heard, was there any
- (25) indication -- now at the time that this conversation takes

Vol 22 3757

- (1) place you're on the west coast aren't you?
- (2) A Yes
- (3) Q And you're the personnel director on the west coast and
- (4) Captain Hazelwood is over on the gulf coast isn't that right?
- (5) A That's correct
- (6) Q So he's asking somebody on the west coast about
- (7) somebody on
- (8) the gulf coast?
- (9) A That's correct
- (10) Q Okay Just so we're clear And with regard to any calls
- (11) that you were going to make you were going to make some
- (12) calls
- (13) and then that was cut off because Sheehy came in and said
- (14) don't worry about making any calls Joe doesn't drink anymore
- (15) so you didn't make any calls did you?
- (16) A I'm really not sure what -- it's been so long ago, whether
- (17) I didn't make calls or he stopped me from making more, I'm
- (18) not
- (19) sure about that, but I was convinced that everything was
- (20) okay
- (21) Q But in any event you were on one coast he was on the
- (22) other coast and you don't recall making any calls?
- (23) A That's correct
- (24) Q And at this point in time would it also be fair to say
- (25) that Sheehy, Borgen and you all knew that there was a potential
- (26) problem with regard to this captain and the subject of alcohol?
- (27) A That's correct
- (28) Q So you were on notice?
- (29) A That's correct

Vol 22 3758

- (1) Q And would it be fair to say that you and Sheehy and Borgen  
 (2) are all management level officials that were at that time  
 (3) management level officials with Exxon Shipping Company?  
 (4) A I think it's incorrect to say I'm management level I'm a  
 (5) staff person with the ocean fleet office  
 (6) Q How about Sheehy and Borgen?  
 (7) A Yes  
 (8) Q Are you aware of one piece of paper anywhere in the world  
 (9) that deals with the subject of monitoring Captain Hazelwood?  
 (10) I m sure they told you I d ask you that question  
 (11) A No, I'm not aware of any  
 (12) Q Now with regard to the - is it a July 87 conversation  
 (13) with Harvey Borgen is that about when it was?  
 (14) A Right  
 (15) Q You don t recall the details of the conversation?  
 (16) A No, I don't  
 (17) Q Then you testified that you had a lot of opportunity to  
 (18) talk to people and you don t recall any signs do you recall  
 (19) that testimony here today?  
 (20) A Yes  
 (21) Q Have you ever been trained in the monitoring of people who  
 (22) have been through alcohol rehabilitation or the monitoring of  
 (23) people who have alcohol problems?  
 (24) A At that time I - I have recently had some training in  
 (25) that, yes

Vol 22 3759

- (1) Q How about at that point in time?  
 (2) A Not specifically  
 (3) Q So it would be fair to say that at that point in time you  
 (4) were untrained with regard to the techniques used methods  
 (5) used  
 (6) in order to help somebody who had gone through alcohol  
 (7) rehabilitation stay clean that s a fair statement isn t it?  
 (8) A That's correct  
 (9) Q Now you re responsible for the whole west coast so  
 (10) you re - unlike your colleague who was a here a minute ago  
 (11) whose responsibilities were limited to Long Beach your  
 (12) responsibilities included Long Beach San Francisco Valdez?  
 (13) A Correct  
 (14) Q Now did your responsibilities span from the summer of 87  
 (15) through the grounding?  
 (16) A Yes  
 (17) Q In your talking to people and investigating, did an  
 (18) incident with regard to Henry s in Portland ever come up?  
 (19) A I - I heard about that today I didn't get involved in  
 (20) that  
 (21) Q Okay And did an incident with regard to a launch and a  
 (22) Mary Williamson and a Captain Reeder in San Francisco ever  
 (23) come  
 (24) to your attention?  
 (25) A After - after the grounding that came to my attention  
 (26) Q I m talking - let s just stick with the period 87 to 89  
 (27) at about the time it happened did it come to your attention?

Vol 22 3760

- (1) A Shortly after the grounding  
 (2) Q Let me try it again so the record - I m not trying to give  
 (3) you a hard time We re two ships passing in the night to use  
 (4) the right analogy  
 (5) At or about the time of the San Francisco launch incident  
 (6) Mary Williamson Steve Day Captain Reeder Captain  
 (7) Hazelwood  
 (8) did your activities turn up the fact that that incident  
 (9) occurred?  
 (10) A No  
 (11) Q Okay And I m going to mention a list of names of people  
 (12) and I m going to ask you with regard to each of those names  
 (13) were they on the west coast when you were on the west coast  
 (14) and then I ll ask you some questions about them just like I  
 (15) did with your colleague Chuck Kirtis?  
 (16) A Yes  
 (17) Q Did you ever ask Kirtis about Captain Hazelwood and  
 (18) alcohol?  
 (19) A No  
 (20) Q Nate Carr?  
 (21) A I don't recall  
 (22) Q Were you aware that crew members on occasion would  
 (23) gather  
 (24) at a place called the Yankee Clipper or the Yankee Whaler  
 (25) have  
 (26) a couple of beers?  
 (27) A No  
 (28) Q Captain Hazelwood would go over there and have a couple

Vol 22 3761

- (1) beers with them?  
 (2) A No  
 (3) Q Did so openly?  
 (4) A No  
 (5) Q Katherine Haven?  
 (6) A No  
 (7) Q Butch Ogren Butch Ogran or Ogren is that a new name to  
 (8) you?  
 (9) A I think you're pronouncing it wrong I know - but, no  
 (10) Q How should I pronounce it?  
 (11) A I think it's Ogen (ph), isn't it?  
 (12) Q It says here Ogen on my notes and -  
 (13) A I don't know  
 (14) Q You ever talk to him about the captain and drinking?  
 (15) A Not that I recall  
 (16) Q How about Jim Kunkel?  
 (17) A Not that I recall  
 (18) Q How about William Masciarelli? You ever talk to him?  
 (19) A No  
 (20) Q How about Joel Roberson?  
 (21) A No, I don't recall him  
 (22) Q You don t recall talking to him or you don t recall him?  
 (23) A I don't - no, I didn't talk to him about that  
 (24) Q But he was assigned to the Valdez during your watch?  
 (25) A Right, I don't recall talking to him

Vol 22 3762

- (1) Q How about Katie Haven you ever talk to her about the  
 (2) captain and alcohol?  
 (3) A No  
 (4) Q You mentioned that you d recently gotten some training on  
 (5) alcohol and alcoholism do you recall that a couple of minutes  
 (6) ago?  
 (7) A Yes  
 (8) MR SANDERS Your Honor if we re going to pursue  
 (9) this I think we ought to object This is after the grounding  
 (10) MR O NEILL I was - I give up  
 (11) THE COURT Sustained  
 (12) MR O NEILL You re a lucky man  
 (13) MR SANDERS It was going to be devastating wasn t  
 (14) it?  
 (15) MR O NEILL Thank you sir  
 (16) REDIRECT EXAMINATION OF GRADY T SHEARER  
 (17) BY MR SANDERS  
 (18) Q Are you familiar with a bar or restaurant called the Yankee  
 (19) Clipper or the Yankee Whaler?  
 (20) A No  
 (21) Q I was hoping we were going to get that straightened out  
 (22) whether it s clipper or whaler  
 (23) Now Mr O Neill asked you some questions about training  
 (24) Mr Shearer have you ever drunk any alcohol?  
 (25) A I have on occasion

Vol 22 3763

- (1) Q You ever been around anybody that drank alcohol while you  
 (2) were present?  
 (3) A Yes  
 (4) Q Would that be a usual or an unusual occurrence in your  
 (5) life?  
 (6) A Usual  
 (7) Q And in 1987 88 and 89 would that have been a usual  
 (8) occurrence in your life?  
 (9) A It would have been usual  
 (10) Q Have you ever ever had the occasion to see anybody that  
 (11) had too much to drink?  
 (12) A Yes  
 (13) Q Would that be unusual?  
 (14) A It would be - no, it would not be unusual I've seen  
 (15) people who've had too much to drink  
 (16) Q You know how to recognize -  
 (17) A Certainly  
 (18) Q - people who ve had too much to drink can t you?  
 (19) A Certainly  
 (20) Q You can recognize a bottle of wine you know what that  
 (21) looks like?  
 (22) A Certainly do  
 (23) Q You know what a can of beer looks like?  
 (24) A Yes  
 (25) Q You know what a bottle of liquor looks like?

Vol 22 3764

- (1) A I do  
 (2) Q Do you know what alcohol smells like?  
 (3) A I know what alcohol products smell like  
 (4) Q Did you ever see Captain Hazelwood on your visits with him  
 (5) any meetings, any other place, look like what some of these  
 (6) people you ve seen in your life who ve had too much to drink  
 (7) looked like?  
 (8) A No  
 (9) Q Have you ever been close enough to Captain Hazelwood to  
 (10) smell his breath?  
 (11) A Certainly  
 (12) Q Have you ever smelled alcohol on his breath?  
 (13) A No  
 (14) Q Have you ever been on a ship -  
 (15) A Yes  
 (16) Q Have you ever been in his cabin?  
 (17) A Yes  
 (18) Q Have you been in his stateroom?  
 (19) A Yes  
 (20) Q Have you been in his office?  
 (21) A Yes  
 (22) Q Did you ever see anything that looked like to you a  
 (23) container that contained alcohol?  
 (24) A No  
 (25) Q Did you ever see Captain Hazelwood take a drink of what you

Vol 22 3765

- (1) believed to be alcohol?  
 (2) A Never  
 (3) MR SANDERS No further questions  
 (4) THE COURT You may step down sir Thank you  
 (5) MR LYNCH Your Honor call James Rouse to testify  
 (6) Tempted to say he s an adverse witness but -  
 (7) THE CLERK Would you raise your right hand please  
 (8) sir  
 (9) (The Witness Is Sworn)  
 (10) THE CLERK For the record sir state your full name,  
 (11) your address and spell your last name please  
 (12) THE WITNESS My name is James J Rouse that s  
 (13) spelled R-O U S E My address is 14927 Cindy Wood  
 (14) Texas  
 (15) THE CLERK Thank you sir  
 (16) DIRECT EXAMINATION OF JAMES ROUSE (Live)  
 (17) BY MR LYNCH  
 (18) Q Mr Rouse you re employed by Exxon?  
 (19) A Yes, sir, I am  
 (20) Q How long have you been with Exxon?  
 (21) A Joined Exxon 32 years ago this week  
 (22) Q And what is your current job, sir?  
 (23) A I am the manager of Exxon's public affairs department  
 (24) Q As of March 23, 1989 what was your job title?  
 (25) A I was the manager of the human resources department

Vol 22 3766

- (1) Q How long had you held that job prior to March 23 1989?
- (2) A I moved back into human resources and I had a human
- (3) resources background in the company as the assistant
- (4) manager of
- (5) the department in May of 1980, and took over general
- (6) management
- (7) responsibilities for the department in May of 1981
- (8) Q So you were manager from May of 1981 up to and including
- (9) the time of this accident?
- (10) A Yes, sir
- (11) Q And I think you said you had a human relations resources
- (12) background in the company what did you mean by that?
- (13) A Well, my degree is a bachelor of science in industrial
- (14) management and industrial engineering, and I joined the
- (15) company
- (16) in 1962 in a human resources capacity I worked in that
- (17) capacity for a year I had an Army commission went on
- (18) active
- (19) duty as a lieutenant in the Army for two years on military
- (20) leave from the company, returning in 1965 in human
- (21) resources
- (22) I worked in human resources then for another three or four
- (23) years at which time I joined the marketing department and
- (24) had
- (25) a series of management assignments in the marketing
- (26) department
- (27) over the next, oh, I'd say eight or nine years
- (28) I was then in what we call our supply or logistics function
- (29) for a couple of years, and then obviously returned to human
- (30) resources in 1980
- (31) Q Could you give the jury a very brief description of what
- (32) human resources included?

Vol 22 3767

- (1) A Yes sir
- (2) Q I might say that someone else from human resources has
- (3) been
- (4) here before you so you don't have to give the full nine yards
- (5) A My responsibilities included collective bargaining, which
- (6) is involvement with our unions, we have about 35 or 40
- (7) unions
- (8) at Exxon U S A They included professional recruiting
- (9) program We had a management training group we had a
- (10) compensation group that deals with pay and wages and
- (11) compensation We had a benefits group that had
- (12) responsibility
- (13) for administering our hospitalization plan, our retirement
- (14) plan, those kinds of benefit plans We had a group that was
- (15) responsible for what we call equal employment opportunity
- (16) and
- (17) diversity to ensure that we were bringing all types of people
- (18) from all types of backgrounds into the organization We
- (19) had a
- (20) group opportunity, part of the time I held this position that
- (21) had to do with safety, it was a staff group having to do with
- (22) safety, and we developed personnel policies in that group
- (23) Q Now you kept saying we had a group These were groups of
- (24) people who specialized in these various areas?
- (25) A Yes, sir, that's correct And then they ultimately
- (26) reported into the human resources department
- (27) Q And I think among the groups that you mentioned was a
- (28) group
- (29) or groups responsible for developing personnel policies?
- (30) A Yes, sir, that's correct
- (31) Q And did that include the alcohol policy of Exxon?

Vol 22 3768

- (1) A Yes sir indeed it did
- (2) Q Now Mr Paul was here earlier and testified that Exxon
- (3) Shipping Company relied on the expertise of the Exxon U S A
- (4) human relations department for policy development Could
- (5) you
- (6) explain how the work that your group did would find its way to
- (7) Exxon Shipping Company?
- (8) A Yes Exxon U S A at the point in time we're talking
- (9) about, had overall responsibility for developing personnel
- (10) policies on behalf of the corporation, and then if the
- (11) corporation adapted those policies they would be spread
- (12) out or
- (13) sent down to all the various regions and affiliates across
- (14) the
- (15) United States, and Exxon Shipping being one of those
- (16) organizations
- (17) Q Being an affiliated organization?
- (18) A Yes sir that's correct
- (19) Q You would develop the policy and that would be provided to
- (20) Exxon Shipping?
- (21) A Yes, sir, that's correct
- (22) Q And if they needed to make some changes or adjustments
- (23) for
- (24) their corporation they would do that?
- (25) A Certainly they could
- (26) Q On the assumption that the policies we're talking about
- (27) were substantially the same and I think the record reflects
- (28) that they were, my questions will relate for the period from
- (29) January 1 - could I have just a blank screen - January 1

Vol 22 3769

- (1) 1965 - 1985 excuse me until the date of the - the day
- (2) before the accident March 23 1989?
- (3) A Yes, sir
- (4) Q And I'd like to start with that January 1 1965 date just
- (5) for - I said it again
- (6) A 1985
- (7) MR LYNCH Thank you Your Honor I didn't even get
- (8) it out of the newspaper
- (9) BY MR LYNCH
- (10) Q January 1 1985 date and could you just briefly describe
- (11) the overall alcohol policy of Exxon Corporation Exxon
- (12) Company
- (13) U S A as it existed on that date?
- (14) A Well, if you - I guess you'd have to go all the way back
- (15) if we want to work it that way, we have had the issue of
- (16) drug - or rather alcohol - certainly alcohol and
- (17) subsequently
- (18) drugs and alcohol in our management systems, in our
- (19) management
- (20) philosophies for decades If you go back to the early '60s,
- (21) in
- (22) our union contracts we had provisions in there that had to
- (23) do
- (24) with possession use distribution of alcohol on company
- (25) premises
- (26) We have a comprehensive management training program at
- (27) Exxon U S A and in Exxon Corporation, and that involved
- (28) monitoring employee's job performance In our
- (29) organization and
- (30) our philosophy, the way people get paid the pay raises they
- (31) get, their promotions, their transfers are all tied to their

Vol 22 3770

- (1) job performance, so supervisors are trained extensively in how
- (2) to reevaluate job performance how to work with employees on a
- (3) day to-day basis in their development and in their
- (4) performance So in that regard, supervisors would be trained
- (5) in monitoring or observing or working with day-to-day
- (6) behavior
- (7) Now, in about 1977, to supplement those activities, we had
- (8) what we call the employee policy on alcoholism, and that was
- (9) just a sheet of paper that supplemented the things I've already
- (10) described
- (11) Q So those things were in place as of January 1, 1985?
- (12) A Yes, sir, they were
- (13) Q And as we understand it, that same set of principles, were
- (14) they applicable to Exxon Shipping Company?
- (15) A Yes, sir, they were
- (16) Q If I may approach Your Honor I'd like to hand - let me
- (17) show you Defendants Exhibit 9182 and ask you if you could
- (18) identify that for the record, sir?
- (19) A Yes, sir This is a letter that was dated March 20th,
- (20) 1984, to headquarters, department managers and
- (21) presidents of
- (22) affiliated companies, Exxon Shipping would be an affiliated
- (23) company and it's signed by me
- (24) Q And the purpose of this letter?
- (25) A Purpose of this letter is to outline for them a policy of progressive discipline that we would have for employees that

Vol 22 3771

- (1) were - they were called the progressive disciplinary
- (2) guidelines Again, these are guidelines that were in many of
- (3) our union contracts for many years but this was just kind of a
- (4) codification, if you will, of some practices that were already
- (5) in place
- (6) Q So taking the January 1 1985 start date that we've been
- (7) talking about this is the - does this document express the
- (8) list of rules and regulations that you had relating to alcohol
- (9) in part?
- (10) A Yes, sir, it does
- (11) Q And the procedures that management was given for
- (12) enforcement of those rules?
- (13) A Yes sir it does
- (14) Q Now let me direct your attention specifically to this
- (15) language Can you read that on your screen Mr Rouse?
- (16) A Yes, I can
- (17) Q On a screen?
- (18) A Right
- (19) Q Seems to be a little out of focus to me I can never tell
- (20) whether it's my glasses or if - are you able to read it Your
- (21) Honor?
- (22) THE COURT Don't worry about me
- (23) BY MR LYNCH
- (24) Q Mr Rouse you see the highlighted language there
- (25) A Yes

Vol 22 3772

- (1) Q Could you just expand on how it was that managers were
- (2) expected to watch for alcohol or watch for substances in the
- (3) workplace to the extent that they might pose a risk or danger
- (4) to employees of Exxon or employees of the public?
- (5) A Obviously what the words say - to begin with, it's
- (6) impractical to try to spell out every single thing you try to
- (7) do in this regard in some kind of printed rules If you did
- (8) that, you'd have a rule book that none of us would be able to
- (9) carry in this courtroom What it goes on to say is that even
- (10) though we can't cover all situations, the list attached is an
- (11) illustration of the kinds of violations that may result with
- (12) discipline without warning
- (13) Q Even though you had a process that called for gradual
- (14) warning to the employee the chances to clean up his act, if it
- (15) were, there were certain offenses that were automatically
- (16) subject to permanent discipline, is that -
- (17) A Yes, sir, that's correct
- (18) Q And referring to Exhibit A, among those were possession and
- (19) use of alcohol?
- (20) A Yes, sir Possession and use of alcohol or reporting for
- (21) work in an unfit condition, including under the influence of
- (22) intoxicants, narcotics or drugs
- (23) Q Let me just ask you if you can comment further This is in
- (24) the page preceding Exhibit A under the title important notes
- (25) Was the - was the policy of the Exxon human resources

Vol 22 3773

- (1) department personnel department that managers had no
- (2) discretion that if an employee stumbled or took a drink or had
- (3) an alcohol problem that he must be terminated in every case?
- (4) A No, sir And in fact as these guidelines state,
- (5) management has discretion, either to terminate the
- (6) employee or
- (7) employ lesser discipline based on the severity of the
- (8) deference, timing and other mitigating factors
- (9) Q And continuing on that I see that one of the
- (10) recommendations is that where - where it's a manager's
- (11) conclusion that it's not necessary on the spot to terminate the
- (12) employee that it's recommended that the employee be sent to
- (13) medical for evaluation?
- (14) A That's correct
- (15) Q Could you explain how that process was supposed to work?
- (16) A Well, what would happen there is if the supervisor had an
- (17) employee who he or she suspected that alcohol may have -
- (18) job
- (19) performance deteriorated and perhaps alcohol was an
- (20) issue, then
- (21) what they should do is send that employee to medical for an
- (22) evaluation
- (23) Q What was the purpose of sending them to medical?
- (24) A Medical could help determine whether it really was an
- (25) alcohol problem or some other type of situation
- (26) Q Now you mentioned that in 1977 - well first of all are
- (27) these - these the rules that you were referring to that went
- (28) back prior to the existence of an alcoholism policy?

Vol 22 3774

- (1) A Yes sir, that's correct
- (2) Q And in 1977 the company adopted an alcoholism policy And
- (3) I'll put up Plaintiffs Exhibit 158 in evidence ask you if
- (4) that's in substance the policy you were talking about?
- (5) A Yes, sir, that's correct That was our 1977 policy
- (6) Q And this problem relates to employees who have a problem
- (7) with alcoholism is that correct?
- (8) A That's correct, sir
- (9) Q Now suppose an employee thought that he had a problem and
- (10) went to a doctor for advice and it turned out the doctor didn't
- (11) diagnose him as having alcohol - in other words as being an
- (12) alcoholic was this policy available to that employee?
- (13) A Well, it would have been available, but I suppose if he was
- (14) not diagnosed as being an alcoholic you wouldn't be working
- (15) with him on a policy of alcoholism
- (16) Q Well if the employee went for alcohol treatment -
- (17) A Yes, sir
- (18) Q - but the doctor concluded you have an alcohol abuse
- (19) problem how would you deal with that?
- (20) A Well, then it would come under this policy as I would see
- (21) it
- (22) Q Even if it's not diagnosed as strict alcoholism is that
- (23) correct?
- (24) A That could be the case
- (25) Q Now in formulating this policy, that's when you were in

Vol 22 3775

- (1) marketing is that correct?
- (2) A The policy was actually formulated and released when I was
- (3) still in marketing that's correct
- (4) MR LYNCH Your Honor I don't believe I offered
- (5) 9182 and I do so at this time
- (6) (Exhibit 9182 offered)
- (7) THE COURT Is there objection?
- (8) MR O NEILL No objection
- (9) THE COURT Defendants 9182 is admitted
- (10) (Exhibit 9182 received)
- (11) BY MR LYNCH
- (12) Q When you became manager of the human resources department
- (13) you had a group that was involved with formulation of this
- (14) policy, among others?
- (15) A That's correct
- (16) Q And did you - as manager did your duties include
- (17) informing yourself on the state of the policy and whether it
- (18) was up to date and satisfactory?
- (19) A Yes, sir, it did
- (20) Q And was the - was this aspect of the overall alcohol
- (21) policy based on safety considerations?
- (22) A Yes, it was What we were really trying to do here in this
- (23) issue of alcoholism, is you're trying to balance the rights of
- (24) the employee and the public safety It's a very serious thing
- (25) to accuse somebody of - of having an alcohol problem if, in

Vol 22 3776

- (1) fact they do not At the same time you're trying to balance
- (2) that with the safety for the public We're not trying to be
- (3) big brother here Exxon has no responsibility and wouldn't want
- (4) to take on responsibility of monitoring an employee's personal
- (5) life When it affects job performance, when that job
- (6) performance could indeed affect the public safety, then
- (7) obviously it is an issue
- (8) Q Now I've highlighted the language which has been
- (9) discussed at length in this case which reads employees who
- (10) suspect that they may have an alcoholism problem are encouraged
- (11) to seek diagnosis and follow through with prescribed
- (12) treatment No employees with alcoholism will have their job
- (13) security or future opportunities jeopardized due to a request
- (14) for help or involvement in a rehabilitation effort
- (15) First of all what as the manager of the program the
- (16) policy what did that mean to the employee who went to an
- (17) alcohol treatment facility and admitted himself for
- (18) rehabilitation or treatment?
- (19) A Well, what it meant to that employee was if they self
- (20) referred themselves for alcohol treatment and we found out
- (21) about it, we weren't going to fire them, we were going to more
- (22) than likely return them to their job That was the norm at
- (23) that time, and certainly we were not going to hold that against
- (24) them, in terms of future promotion opportunities
- (25) We were trying to encourage people to come forward

Vol 22 3777

- (1) Q Now what about something like - you probably were sitting
- (2) in court when Mr O Neill asked the preceding witnesses well
- (3) did you ask him about how he was doing on his rehab was that
- (4) something that Exxon wanted its managers to do if someone
- (5) returned to the job after having treatment?
- (6) A No, sir, I don't think that we asked them to have a
- (7) specific responsibility to monitor just the activities that
- (8) related to rehabilitation Certainly on a day to-day basis
- (9) they interact with those people and they should be looking at
- (10) job performance The key to what that supervisor should be
- (11) looking at is how the individual is performing on the job
- (12) Q Now how in your opinion did telling the employee that if
- (13) he went out to rehab he would get his job back or be assured of
- (14) employment and I guess future status on the job wouldn't be
- (15) jeopardized how did that contribute to the safety of coworkers
- (16) and the public?
- (17) A Well, the view was that if you did not offer them the
- (18) opportunity to come back to their job, if in fact you penalized
- (19) them for coming forward and saying they had a problem then
- (20) they wouldn't come forward, then you got a situation where you
- (21) have somebody with a serious problem that you don't know about,
- (22) and that has a very, very deep concern for us from a safety
- (23) standpoint
- (24) Q Did you and the people in your department - Mr Rouse did
- (25) you reach that conclusion on your own or did you seek advice

Vol 22 3778

- (1) about this subject?
- (2) **A All the way through as we worked drug and alcohol issues,**
- (3) **we have had a number of advisors, resources that we depended on**
- (4) **to provide us information**
- (5) **Q Okay And with reference to the status of the policy as of**
- (6) **January 1 1985 could you just give us a general description**
- (7) **of how you went about determining where this policy fit in the**
- (8) **industry generally?**
- (9) **A Well obviously we had input from our medical department,**
- (10) **and I'm aware of the fact that they reached out to other**
- (11) **medical departments and other companies to see how they were**
- (12) **doing I'm personally involved in several groups, a group**
- (13) **called the Business Round Table Employer Relations Committee, a**
- (14) **business round table made up of perhaps a hundred CEOs of major**
- (15) **companies in the country I was on a committee called Employee**
- (16) **Relations and we frequently talked about substance abuse**
- (17) **policies, problems and that sort of thing I was chairman of**
- (18) **that committee in 1986 I'm in an organization of - Labor**
- (19) **Policy Association, and it does research on labor and personnel**
- (20) **policy issues had many discussions about drug and alcohol**
- (21) **policies so I was I think, generally familiar - my view would**
- (22) **be I was generally familiar with drug and alcohol policies of**
- (23) **other companies, as well as advice from medical experts and**
- (24) **others in the field**

(25) ~~Q Now a Dr. Masters has come into this court and he~~

- (1) testified that in the mid 80s there was a recognized standard
- (2) that employees who went out to rehab if they held a job in a
- (3) safety sensitive position that the employer should get
- (4) directly involved in supervising aftercare
- (5) In your research as of 1985 was it a standard in industry
- (6) that employers get involved in aftercare of employees who held
- (7) jobs in safety-sensitive positions?
- (8) **A I would say not I would say that this is - you're almost**
- (9) **saying shouldn't we be monitoring what they do on their**
- (10) **personal time which - should we be monitoring their**
- (11) **personal**
- (12) **lives and I don't view that as a responsibility of the**
- (13) **company The responsibility of the company is to ensure**
- (14) **that**
- (15) **their job performance is not deteriorating because they**
- (16) **have**
- (17) **those kind of problems and if it becomes a job performance**
- (18) **issue then yes I think it would involve the company I**
- (19) **respectfully disagree with the doctor's view on what was**
- (20) **state**
- (21) **of the art at that time**
- (22) **Q Well could you address what you did to learn what others**
- (23) **thought about this? In other words were these practices being**
- (24) **followed in other companies?**
- (25) **A My - my view would be that they were not in the**
- (26) **companies**
- (27) **that I'm familiar with**
- (28) **Q And that included the 150 plus companies that participated**
- (29) **in the business round table?**
- (30) **A Yes sir that's correct**

Vol 22 3780

- (1) **Q And were you making an effort to determine what the state**
- (2) **of the art was?**
- (3) **A Yes, sir We did from time to time run surveys to see what**
- (4) **the state of the art was**
- (5) **Q I'd like to address your attention if I can find my**
- (6) **highlighter to the language in this part of the policy Now,**
- (7) **did you have medical or professional advice at the Exxon**
- (8) **human**
- (9) **resources department concerning this provision of the**
- (10) **alcoholism policy as it existed in 1985?**
- (11) **A Yes, sir And I think our human resources advice was**
- (12) **similar, which was the policy didn't require or should not**
- (13) **result in any special privileges, if you will for people that**
- (14) **have problems with - with substances**
- (15) **Q Nor special requirements?**
- (16) **A Nor special requirements, that's exactly right**
- (17) **Q Now if you followed what apparently is Mr O Neill or**
- (18) **Dr Masters advice you would say when an employee came**
- (19) **back**
- (20) **from rehab well you have to come in and check in with us that**
- (21) **you've been going to see your doctor that you've been going to**
- (22) **AA meetings Did you ever consider doing that?**
- (23) **A At that point in time, no, sir**
- (24) **Q Did you know of companies in your industry who were doing**
- (25) **it?**
- (26) **A No, sir I don't think any of them were**
- (27) **Q Do you know of any professional advice you received to do**

Vol 22 3781

- (1) that?
- (2) **A No, sir In fact, I think we probably received**
- (3) **professional advice that was the opposite, from our law**
- (4) **department, for example, who would have probably**
- (5) **counseled us**
- (6) **and did counsel us that that could result in charges of**
- (7) **discrimination**
- (8) **Q Did you consider - did you make studies to determine what**
- (9) **the proper way to handle the employee who had returned from**
- (10) **rehabilitation was as of the time in 1985 about midway**
- (11) **through the period of time that we're talking about?**
- (12) **A Our view was when they returned from rehabilitation, we**
- (13) **should put them back on the job that they came from, using**
- (14) **good**
- (15) **solid management judgment and then use our normal**
- (16) **supervisory**
- (17) **oversight of their job performance**
- (18) **Q Did you have experience in Exxon that is to say did the**
- (19) **corporate experience give you assurance that that method and**
- (20) **procedure was adequate to identify problems with an employee**
- (21) **who resumed or possibly resumed the use of alcohol or any**
- (22) **other**
- (23) **substance after returning to work?**
- (24) **A At that point in time, as the senior human resources**
- (25) **official in Exxon U S A , I was very comfortable that we had a**
- (26) **policy that did what it needed to do to balance the rights of**
- (27) **those individuals, as well as do the most we could to protect**
- (28) **the safety of the public**
- (29) **Q And you've heard some questions this morning about**
- (30) **whether**

Vol 22 3782

- (1) people were trained and I think the question was put to  
 (2) Mr Larsen a few minutes ago were you trained to monitor a  
 (3) person who had returned from rehab?  
 (4) Did you have procedures to train managers at Exxon to deal  
 (5) with substance abuse problems whether they be alcohol or  
 other  
 (6) substances of employees who were working in Exxon  
 premises?  
 (7) A Yes, sir, I think we did We put all of our young  
 (8) supervisors as they'd become supervisors through a  
 program I  
 (9) think Mr Larsen called it management one indeed today we  
 call  
 (10) it leadership one It's an 11 day course on supervision how  
 (11) you coach employees how you monitor their performance,  
 how you  
 (12) counsel employees, how you help those employees develop  
 and  
 (13) improve on the job and to that extent I would have to say  
 that  
 (14) our supervisors were well versed in examining employee  
 (15) behavior  
 (16) Q Now that supervision does it include that 11 day course  
 (17) does it include the issue of monitoring for substance abuse  
 (18) knowing - knowing what to watch for?  
 (19) A There is a segment in that course that speaks to  
 substance  
 (20) abuse in the workplace  
 (21) Q And what has Exxon's experience been in actual practice  
 (22) with the success of its managers in identifying problems - in  
 (23) identifying people who have problems and either moving them  
 out  
 (24) of the job or getting them to help or whatever is necessary to  
 (25) resolve the problem?

Vol 22 3783

- (1) A My view is that we have been successful in that regard  
 (2) Q Now as of 1985 you overall - and referring to all the  
 (3) sources that you consulted were you satisfied that the Exxon  
 (4) drug - excuse me Exxon alcohol policies that then existed was  
 (5) consistent with the standard of the industry in other companies  
 (6) like Exxon that had - that included safety-sensitive jobs?  
 (7) A I would say yes and I suppose I should say that we just  
 (8) were not relying on that - on that policy at that point in  
 (9) time in 1985 For example, in - in 1984, we initiated an  
 (10) employee health advisory program which was a free  
 service that  
 (11) employees could come to to receive counseling if they had  
 (12) marital problems or family problems or problems with  
 substance  
 (13) abuse  
 (14) We had very broad awareness training on - on drugs and  
 (15) alcohol in the work place in fact, in 1984, we initiated that  
 (16) and I personally took a fellow to our management  
 committee,  
 (17) which is our very senior managers call them the three or  
 four  
 (18) star generals, using a military term and we started with a  
 (19) drug awareness program with them and then we began to  
 cascade  
 (20) that out throughout the organization So the point I'm trying  
 (21) to make is as we did these studies and understood what  
 (22) companies were doing, then of course we brought our  
 policies  
 (23) along, as well  
 (24) Q As of approximately April 1985 the record indicates that  
 (25) Captain Hazelwood admitted himself for treatment at South  
 Oaks

Vol 22 3784

- (1) Hospital for a treatment that involved at least some aspect of  
 (2) an alcohol diagnosis I'd like to ask you a few questions  
 (3) about as the person responsible for the policy about how that  
 (4) policy was meant to apply to the facts that exist in this  
 (5) record  
 (6) First of all do you understand the term self identifying?  
 (7) A Yes sir I think I do  
 (8) Q Was the term self identifier relevant to the Exxon alcohol  
 (9) policy as it existed at that time?  
 (10) A Yes sir I think it was  
 (11) Q What was its relevance?  
 (12) A Well, the relevance was that a person could self identify,  
 (13) that is they could go to rehab on their own, through the  
 (14) suggestion or urging of a family member or perhaps a peer  
 or  
 (15) someone like that or the supervisor because there were  
 severe  
 (16) job performances could in effect order them to go to the  
 (17) medical department and find out what the problem was  
 (18) Q You've confused me there Are both of those self  
 (19) identifiers?  
 (20) A Oh, absolutely not The first one is self identifier the  
 (21) second one would be a supervisory referral  
 (22) Q What's the difference under the policy versus a supervisory  
 (23) referral?  
 (24) A Well, a self identifier would be someone who identified  
 (25) someone said you had a problem, you ought to do  
 something about

Vol 22 3785

- (1) your problem you'd go to work on that problem versus a  
 (2) supervisor referral that I would best describe this way from  
 (3) personal experience I have where we call an individual in  
 (4) said your job performance is deteriorated, your attendance  
 has  
 (5) deteriorated and I think you have a problem and I'm going to  
 (6) send you to medical to find out what that problem might be  
 and  
 (7) let them make a diagnosis and if you don't do that, your  
 (8) option is to clean out your desk and leave the company  
 (9) Q And you described the distinction but what effect does it  
 (10) have under the policy? Does the employee have a different  
 (11) right if he's a self identifier versus if he's referred by  
 (12) supervisor?  
 (13) A If he's a self identifier, he's not going to be subject to  
 (14) discipline, and obviously in the case of supervisory referral  
 (15) there's going to be heavy discipline if he doesn't take the  
 (16) action  
 (17) Q We spoke about the provision of the policy that told the  
 (18) employee if you seek help and get rehabilitation your job  
 (19) position will be returned to you and your future opportunities  
 (20) will not be jeopardized?  
 (21) A Yes, sir  
 (22) Q Is there a difference under that provision of the policy  
 (23) between a self identifier and a supervisory referral?  
 (24) A I absolutely think so because if you were supervisory  
 (25) referral then I don't think there would be any obligation

Vol 22 3786

- (1) necessarily, to put you back in the position you were in
- (2) You're in a - when you have a supervisor referral, you're in a
- (3) disciplinary mode at that point
- (4) Q Now with reference to Captain Hazelwood - well let's -
- (5) as you understood the policy if an employee admitted himself
- (6) for rehabilitation and shortly prior to that, someone in his
- (7) management chain had advised him that there was an
- (8) investigation underway relating to him that much no more
- (9) would that make the individual a supervisory referral?
- (10) A No, sir, it would be -
- (11) Q How would you classify it?
- (12) A That would be a self referral
- (13) Q Even though the employee possibly made the decision to seek
- (14) help because he heard about an investigation?
- (15) A Absolutely, because you didn't have the supervisor saying,
- (16) in effect, go to medical and get some help or you're going to
- (17) have to clean out your desk and go home
- (18) Q Did being a self identifier require that the employee go to
- (19) his manager and tell the manager I'm going into rehab?
- (20) A No, sir
- (21) Q Did the - was self identification necessarily a formal
- (22) identification to management of the company that the individual
- (23) had chosen to go to rehab?
- (24) A No, sir
- (25) Q Under this policy was it permissible and applicable for an

Vol 22 3787

- (1) employee to go to a rehab facility and tell the company nothing
- (2) at all about it?
- (3) A Quite possible An employee could take vacation, say I'm
- (4) going to Palm Springs to play golf, put themselves in
- (5) rehabilitation program go through that rehabilitation
- (6) program,
- (7) come out and go back to work and no one would have been
- (8) the
- (9) wiser
- (10) Q Let me ask you if you could slow down a little bit
- (11) A Yes, sir
- (12) Q Maybe they can write it down that fast but I can't listen
- (13) to it that fast
- (14) -A Okay
- (15) Q In the case of an employee who did that would the
- (16) provision of the policy that we talked about that assured the
- (17) employee that he would return to his job would that provision
- (18) apply to the employee even though he never told the company
- (19) anything about the rehab?
- (20) A Well in the hypothetical you're giving me if he never
- (21) told anyone anything about rehab certainly he would go
- (22) back to
- (23) the job that he had when he went off on vacation or on
- (24) leave
- (25) Q Because the company wouldn't know anything about it?
- (26) A Absolutely
- (27) Q But if it subsequently learned about it that would be
- (28) rehab covered by the policy?
- (29) A Yes sir I think so

Vol 22 3788

- (1) Q And what about the provision of the policy that said no
- (2) special requirements and no special restrictions will apply
- (3) when the employee returns to work?
- (4) A To me that's not applicable I think the employee could
- (5) come back to that job and continue in that position
- (6) Q It is applicable?
- (7) A Excuse me, yes, the reverse, it is applicable
- (8) Q And again under the policy as you understood it would it
- (9) have been permissible for an Exxon manager to say to the
- (10) employee when he comes to work, you can have your job back
- (11) but
- (12) only if you bring me in slips from your AA sponsor to show that
- (13) you've been going to three meetings a week would that have
- (14) been a permissible requirement?
- (15) A If the person was on medical leave, that could have been
- (16) a
- (17) permissible requirement
- (18) Q I'm talking about under the provision of the policy that
- (19) says, when you come back you won't be subject to any special
- (20) requirements or any special privileges
- (21) A Then that would not have been permissible under our
- (22) policy
- (23) as it was
- (24) Q So if the employee went to rehab and came back the policy
- (25) assured him that he was not going to be subjected to special
- (26) medical requirements is that -
- (27) A That's correct, sir
- (28) Q Now you said that the ordinary - the general rule was

Vol 22 3789

- (1) that an employee who had been out to rehab when he returned
- (2) he'd be given the same job back?
- (3) A Yes, sir
- (4) Q By that do you mean the same job assignment?
- (5) A That's correct I described that as the norm It would
- (6) not have to happen in every case, certainly, but I would say
- (7) that was the norm
- (8) Q Suppose in a situation that an employee -
- (9) MR LYNCH Maybe this is a good time to break, Your
- (10) Honor
- (11) THE COURT Take our initial recess Ladies and
- (12) gentlemen we'll be in recess for 15 minutes
- (13) THE CLERK Court is in recess for 15 minutes
- (14) (Jury out at 10 00 a m )
- (15) (Jury in at 10 16 a m )
- (16) BY MR LYNCH
- (17) Q Mr Rouse we were talking about the employee who goes
- (18) out
- (19) and commits himself or herself for a rehabilitation program
- (20) involving alcohol and the application of this policy insofar as
- (21) it includes a provision that the employee may return to his or
- (22) her job You said I believe that your department at Exxon
- (23) U S A was also responsible for the benefits program?
- (24) A Yes, sir, that's correct
- (25) Q Now in addition to - well I think the policy says it I
- (26) won't put it back up but under the Exxon policy as it existed

Vol 22 3790

- (1) in 1985 was an employee entitled to benefits if the employee  
 (2) self identified or self admitted into an alcohol rehabilitation  
 (3) program?  
 (4) **A Yes sir, that would have been covered under our medical  
 -**  
 (5) **our hospital medical plan**  
 (6) **Q What about disability benefits salary - substantiation of**  
 (7) **salary?**  
 (8) **A If he went to a rehabilitation facility and that was known**  
 (9) **to the company, in other words he took medical leave to do**  
 (10) **that then he would be subject based on the years of**  
 (11) **service**  
 (12) **he had, or she had, to receive pay while on disability**  
 (13) **Q And in this case there's some evidence that - that the**  
 (14) **employee admitted had himself admitted into a hospital - in**  
 (15) **hospital in house hospitalization program and then there was**  
 (16) **some time off afterwards for the opportunity to attend**  
 (17) **meetings. If that kind of treatment post hospitalization**  
 (18) **treatment were prescribed were prescribed by the doctor did**  
 (19) **the Exxon disability benefits cover that?**  
 (20) **A Would have depended on the type of leave the individual**  
 (21) **was**  
 (22) **on whether they were then on at that point a medical leave**  
 (23) **or**  
 (24) **just on personal leave**  
 (25) **Q Well my question is could they go on medical leave if the**  
 (26) **doctor prescribed that kind of treatment?**  
 (27) **A I think that would depend on the circumstances**  
 (28) **Q What would the - what would make the difference?**

Vol 22 3791

- (1) **A If that was part of the formal rehabilitation program then**  
 (2) **it would be possible I suppose, for our doctors, our - HR**  
 (3) **doesn't decide this our doctors decide whether they're on**  
 (4) **medical leave or not. The doctor could say they were on**  
 (5) **medical leave. However I think in many cases if they were**  
 (6) **just attending meetings that would not be a medical leave**  
 (7) **Q If their own doctor prescribed time off for them?**  
 (8) **A Yes**  
 (9) **Q And did not declare them fit for duty would they be**  
 (10) **entitled to continuing disability benefits?**  
 (11) **A I don't think so, if their doctor said they were fit for**  
 (12) **duty**  
 (13) **Q Not?**  
 (14) **A They were not fit for duty**  
 (15) **Q That's what I said sir**  
 (16) **A They were not fit for duty. Again, I'm not being vague**  
 (17) **here. I think it would depend on the circumstances,**  
 (18) **perhaps,**  
 (19) **that would be a judgment call by the medical department**  
 (20) **Q In the case of the employee who had taken disability**  
 (21) **benefits your medical department would determine whether**  
 (22) **and**  
 (23) **when the employee returned fit for duty status?**  
 (24) **A When you come off medical leave you need to supply the**  
 (25) **medical department some evidence that your doctor says**  
 (26) **you're**  
 (27) **fit to come back whether that would be problem with**  
 (28) **alcohol**  
 (29) **heart attack broken leg whatever it might be**

Vol 22 3792

- (1) **Q Now when an employee comes back to work after having**  
 (2) **gone**  
 (3) **through such a program the medical department is the one that**  
 (4) **verifies the employee's qualification to return for duty is**  
 (5) **that correct?**  
 (6) **A I wouldn't state it quite like that. I think the way it**  
 (7) **would really happen is our medical department would**  
 (8) **contact or**  
 (9) **the individual's doctor would contact the medical**  
 (10) **department,**  
 (11) **they would have an interaction our medical department and**  
 (12) **the**  
 (13) **employee's physician and if the employee's physician said**  
 (14) **thus**  
 (15) **the person is ready to return to work then our doctor would so**  
 (16) **note that and they'd return to work**  
 (17) **Q And is that insofar as disability benefits are concerned**  
 (18) **under the - under the Exxon program as it existed in 1985 is**  
 (19) **that what determines whether or not the employee receives**  
 (20) **disability benefits?**  
 (21) **A Yes sir**  
 (22) **Q Now when - you testified that as of 1985 you believed**  
 (23) **that the policy that was then in effect which had these three**  
 (24) **basic elements that you describe the rules against use of**  
 (25) **alcohol the procedure for encouraging self identification and**  
 (26) **the - and the procedures that the employee had available to**  
 (27) **him when he returned to work was that policy changed**  
 (28) **between**  
 (29) **January 1 1985 and March 23 1989?**  
 (30) **A Yes sir it was**  
 (31) **Q Okay Could you just take us through as you recall the**

Vol 22 3793

- (1) **major changes that occurred over that period of time?**  
 (2) **A Well, the first change that occurred was in - in 1985, we**  
 (3) **decided to initiate a program of pre-employment drug**  
 (4) **screening. We were concerned enough about managing the**  
 (5) **people**  
 (6) **who belonged to the company who were company**  
 (7) **employees, and**  
 (8) **managing their activities as safely as we could for the**  
 (9) **public. We didn't find ourselves wanting to add additional**  
 (10) **people to the roles who came to us with basically the**  
 (11) **problem**  
 (12) **And so we initiated pre-employment drug screening for all**  
 (13) **of**  
 (14) **our people who were hired whether that would be a blue**  
 (15) **collar**  
 (16) **wage earner or if it was a matter of a young engineer**  
 (17) **coming**  
 (18) **off the college campus**  
 (19) **Q That occurred in 1985?**  
 (20) **A That occurred in 1985**  
 (21) **Q Any other changes in 1985?**  
 (22) **A Well, we also had, in 1985, we had expanded - our EHAP**  
 (23) **program started out as a test in 1984, and we expanded that**  
 (24) **broadly across the company in 1985 and our drug**  
 (25) **awareness**  
 (26) **training that I mentioned for supervisors took place in '84**  
 (27) **and**  
 (28) **'85, the year of '85**  
 (29) **Q And this drug awareness did that include training**  
 (30) **supervisors on identification of alcohol abuse on the job?**  
 (31) **A Yes, sir Drug and alcohol abuse**  
 (32) **Q How extensive was that? Was that provided to people at**  
 (33) **Exxon Shipping Company?**

Vol 22 3794

- (1) A Yes sir We intended for all of our supervisors to  
 (2) receive that, what we call drug awareness training program  
 (3) I'm sure that probably if you took the role of every  
 supervisor  
 (4) we had at that time in the company, perhaps a thousand or  
 more,  
 (5) there might have been someone who missed that training  
 because  
 (6) they were off on duty someplace or had - had - on vacation  
 or  
 (7) something, but the norm or the expectation was all  
 supervisors  
 (8) would receive that training  
 (9) Q Including supervisors at Exxon Shipping Company?  
 (10) A That's correct, sir  
 (11) Q Now have you identified the changes that occurred in 1985  
 (12) to the alcohol policy?  
 (13) A Yes, that would be basically it in 1985 Now, in 1986 -  
 (14) Q Well, let me ask the question Did you make any changes in  
 (15) 1986?  
 (16) A Yes, sir, we did We -  
 (17) Q What were those changes?  
 (18) A Okay We were in the process, throughout the year of  
 1986,  
 (19) doing a complete reevaluation of our alcohol and - our  
 alcohol  
 (20) policy, and that resulted in early 1987 in the introduction of  
 (21) a new drug and alcohol policy  
 (22) Q Okay Now before I ask you about the reevaluation could  
 (23) you just give the jury a quick summary of what the differences  
 (24) were between the '87 policy and the one that had existed at the  
 (25) start of 1985?

Vol 22 3795

- (1) A Yes sir The 1987 - the new '87 policy added drugs to  
 (2) the equation for the first time because previously we had  
 just  
 (3) an alcohol policy It provided for search for cause, it  
 (4) provided for tests for cause, and then it continued to have  
 the  
 (5) things we already had, pre-employment drug screening,  
 (6) supervisory awareness training, substance abuse is a  
 treatable  
 (7) condition, encourage people to come forward for  
 (8) rehabilitation  
 (9) Q Now you indicated that through 1986 you were engaged in a  
 (10) reevaluation of the policy that we have described through 1985?  
 (11) A Yes, sir  
 (12) Q And did you come across Dr Masters standards for how you  
 (13) deal with employees after they return from rehab if they're in  
 (14) a safety sensitive position?  
 (15) A No, sir, I did not personally come across those standards  
 (16) Q Did anybody report to you in your department that they had  
 (17) learned that there was this well established standard out there  
 (18) that applied to safety sensitive positions?  
 (19) A No, sir they did not  
 (20) Q What did you do to try to find out what was going on in  
 (21) industry and what academics and government were  
 recommending to  
 (22) companies in Exxon's position?  
 (23) A Well when we wrote our 1987 policy we had a number of  
 (24) outside resources we used outside and inside resources  
 We  
 (25) used to help us design that policy

Vol 22 3796

- (1) For example, we used human affairs international these  
 (2) were the trained counselors that our employees could go to  
 if  
 (3) they had personal problems, including problems with drugs  
 and  
 (4) alcohol, so we used their input  
 (5) Q I think you assumed a lot of us I've spent a lot of time  
 (6) on this you've spent a lot of time on this and we jump over  
 (7) things These were the EAP providers?  
 (8) A Yes, sir, that's correct  
 (9) Q And Human Affairs International was a different  
 (10) corporation not a division or affiliate or department of  
 (11) Exxon?  
 (12) A That's correct, they're just a contractor of Exxon They  
 (13) don't work - they're not a department of Exxon, their  
 (14) employees are not Exxon employees  
 (15) Q Why was the EAP or EHAP program kept separate from  
 Exxon  
 (16) itself?  
 (17) A Because we wanted to maintain confidentiality, for one  
 (18) thing, and, secondly, we didn't want to have that an  
 in house  
 (19) program We thought we could get better counseling  
 across the  
 (20) nation for our employees by using a contractor  
 (21) Q You consult that company?  
 (22) A Yes, sir, we did  
 (23) Q And the people in that company work full-time in the  
 (24) employee assistance field?  
 (25) A Yes, sir, they do

Vol 22 3797

- (1) Q What else did you do?  
 (2) A Well, we obviously worked with our own medical  
 department,  
 (3) and it's my understanding that they reached out to other  
 (4) medical departments to find out what - in other companies  
 to  
 (5) find out what they were about in the area of drug and  
 alcohol  
 (6) Q And what else if anything did you take into account?  
 (7) A Well, we had - we had a survey that was done by  
 business  
 (8) round table group that I mentioned of about a hundred and  
 fifty  
 (9) companies, interesting to note that about half of those  
 (10) companies had no drug and alcohol policy and were not  
 planning  
 (11) one at that point in time The 70 or so that did have policies  
 (12) basically had policies that included education of  
 supervisors,  
 (13) pre-employment drug screening, a rehabilitation EHAP type  
 (14) program and tests and searches for cause  
 (15) Q Is it fair to say that what you saw from other companies  
 (16) were policies very similar to your own?  
 (17) A Yes, sir that's correct  
 (18) Q Did you look beyond what people were already doing and  
 see  
 (19) what there might be out there that you could do to improve your  
 (20) policy?  
 (21) A Yes, sir we did  
 (22) Q What are some of the things you considered?  
 (23) A Well for example, we considered random screening  
 Should  
 (24) we move forward in random drug screening where you just  
 call

(5) somebody in and say it's time to have a drug and alcohol test

Vol 22 3798

(1) just totally random After a lot of consideration gathering a  
(2) lot of data we rejected that concept  
(3) Q What led you to reject it?  
(4) A We rejected it for a number of reasons We rejected it  
(5) because our unions that we want to work with we have a  
good  
(6) relationship with Our unions were very opposed to random  
(7) screening at that point They heard all the horror stories  
(8) about chain of custody where employees were falsely  
accused of  
(9) having problems they didn't have confidence in the tests  
and  
(10) so they were very concerned  
(11) We were concerned about the - what had happened to  
several  
(12) companies in our industry who were trying - decided they  
might  
(13) try random screening in a place or two, and what basically  
(14) happened was either the courts or their own unions  
enjoined  
(15) them from going forward with random screening and  
stopped them  
(16) cold  
(17) In the states I don't have all of them committed to  
(18) memory, but states like Tennessee New York, Ohio,  
(19) Massachusetts these were states where the state officials  
(20) stated they would random screen police officers and the  
local  
(21) courts stopped them from doing that The federal  
government  
(22) our own federal government put forth some regulations to  
random

~~(23) screen Department of Transportation workers and they~~  
were

Vol 22 3799

(1) And so our concern was that we put random screening in  
(24) immediately stopped from doing that or enjoined from doing  
(25) that and went out with that, we might get an injunction that  
(1) would leave us with no policy at all and that was not in the  
(2) best interest of protecting the public And so we took the  
(3) decision that we would go with - with tests for cause which  
(4) our own union official we went and talked to him and we -  
(5) they said we can support tests for cause because  
something's  
(6) happened and you have a reason to do the screening  
(7) Q Now did you focus at any time during the reevaluation of  
(8) the drug policy drug and alcohol policy in 1986 1987 on  
(9) safety sensitive or critical skills positions?  
(10) A Yes, sir That was another aspect of testing that we  
(11) looked at and we rejected that one at that point in time, as  
well  
(12) Q Why was that sir?  
(13) A Well, we rejected it really for three reasons The first  
(14) reason being that it's very difficult to define what a  
(15) safety-sensitive position is It may sound easy, but if you're  
(16) going to say, for example a truck driver is a safety sensitive  
(17) position how about the guy that fixes the brakes on the  
truck,  
(18) is that a safety sensitive position as well, so we were  
(19) concerned about that definition  
(20) We were concerned that safety sensitive jobs would appear  
(21) to be discriminatory from a racial standpoint We worked  
very,  
(22) very hard to have diversity in our work force and many of  
our

Vol 22 3800

(1) blue collar operating jobs would - which one might classify  
as  
(2) safety sensitive were populated by minorities and we were  
(3) afraid people would say I see what you've done you've just  
(4) got a drug testing program here for your minorities and we  
(5) didn't think that was fair  
(6) And the other reason was we were advised by our legal  
(7) department that perhaps there would be some challenges to  
this  
(8) kind of activity So when you rolled all that together  
(9) combined with the fact that other companies - many other  
(10) companies in our industry were not trying that kind of an  
(11) approach we felt that the prudent thing to do was to go with  
(12) testing for cause  
(13) MR LYNCH Your Honor may I approach the witness?  
(14) THE COURT Uh huh  
(15) BY MR LYNCH  
(16) Q This is my only copy at the moment at least  
(17) Mr Rouse I'm putting in front of you Defendants Exhibit  
(18) 9181 Could you describe that for the record please?  
(19) A Yes sir This is really - this inch or so document of  
(20) papers represented the training program the supervisory  
(21) training program that we used when we introduced the 1987  
(22) policy That was prepared by the training and safety group  
in  
(23) my department  
(24) Q And to whom was that program given?  
(25) A Well in Exxon we have kind of a unique concept perhaps  
we

Vol 22 3801

(1) call it the train - the trainer program and what we do is we  
(2) bring people in from all over the company and we train them  
on  
(3) the policy and then it is then their responsibility to take  
(4) these materials and go back and train all the supervisors in  
(5) their work area  
(6) Q So the bottom line is all supervisors received this  
(7) training?  
(8) A Yes, sir that's correct  
(9) Q And did just the trainers get these materials that I've  
(10) handed you 9181 I believe?  
(11) A No, sir, the - everybody that attended the training was  
(12) given a copy of these materials  
(13) MR LYNCH Offer Exhibit DX9181 Your Honor  
(14) (Exhibit 9181 offered)  
(15) MR O NEILL No objection  
(16) THE COURT Defendants Exhibit 9181 is admitted  
(17) (Exhibit 9181 received)  
(18) BY MR LYNCH  
(19) Q Now I'd like to call your attention to some material on  
(20) pages six and seven of these training materials which I've  
(21) highlighted together - in the interest of legibility I'll  
(22) take the - only part of it  
(23) The phrase Exxon is committed to providing a safe healthy  
(24) and productive workplace to all employees for all employees  
(25) our new alcohol and drug policy is aimed at ensuring this

Vol 22 3802

- (1) environment With reference to the specific issue that s been  
 (2) focused on in this case did you re examine the question of  
 (3) whether providing an assurance to employees that if they  
 sought  
 (4) rehabilitation they could have their job back did you  
 (5) re examine whether that was something that tended to promote  
 (6) safe healthy and productive workplace for all employees?  
 (7) A Yes, sir, we did  
 (8) Q Did you ask for professional advice on that subject?  
 (9) A Yes, sir, we did  
 (10) Q Did you explore what other companies in the industry were  
 (11) doing?  
 (12) A Yes, sir, we did  
 (13) Q Including companies that had safety sensitive jobs?  
 (14) A Yes, sir  
 (15) Q Okay And did you reach the conclusion that continuing  
 (16) that part of the Exxon alcohol policy into the now Exxon drug  
 (17) and alcohol policy was in the interest of safety?  
 (18) A Yes, sir  
 (19) Q What was the basis for that conclusion?  
 (20) A Well, we just felt like returning those people to the job  
 (21) was the correct thing to do We felt that if we did not return  
 (22) them to the job, if it appeared that they were going to lose  
 (23) their jobs, they would go underground and, therefore we  
 would  
 (24) have a problem that we didn't even know about and that we  
 felt  
 (25) was a greater risk, greater safety risk than having the

Vol 22 3803

- (1) employee in the job with appropriate supervisory  
 monitoring  
 (2) Q I d like to go on to the next paragraph of these materials  
 (3) which says now that we ve told you what we are about here's  
 (4) what we are not about in implementing the policy We are not  
 (5) trying to police the moral behavior of our employees nor are  
 (6) we trying to tell you what to do or not do away from work We  
 (7) especially do not want to infringe on your rights  
 (8) With reference to that provision of the policy did you  
 (9) seek professional advice?  
 (10) A Yes, we did  
 (11) Q I should say these are the training materials?  
 (12) A Yes, sir that's correct  
 (13) Q This was what the policy was intended to accomplish is  
 (14) that correct?  
 (15) A That's correct  
 (16) Q Now again focusing you on the specific issue that s been  
 (17) raised in this case how a corporation should deal with an  
 (18) employee who had voluntarily sought treatment for a problem  
 (19) when he came back to work did you seek professional advice  
 on  
 (20) how you ought to deal with that employee when he returned to  
 (21) work?  
 (22) A Yes we did  
 (23) Q Did you receive advice that you should - that the  
 (24) supervisor should get involved in making sure that the  
 (25) employee s attending AA meetings?

Vol 22 3804

- (1) A No, sir we did not receive advice that it is our  
 (2) responsibility or it would be appropriate I don't like to use  
 (3) that word responsibility, would be appropriate for Exxon to  
 be  
 (4) involved in whether that individual attended AA on their own  
 (5) time  
 (6) Q Did you receive advice that Exxon ought to set up some  
 (7) procedure to make sure that the supervisors are inquiring about  
 (8) employee s emotional well being?  
 (9) A No, sir, we did not  
 (10) Q Or how the family life was going?  
 (11) A That's right We felt that the best advice we could get,  
 (12) that that was inappropriate for the company at this point in  
 (13) time  
 (14) Q In the case of an employee who, prior to or pursuant to  
 (15) this policy went out and received treatment what were you -  
 (16) what was your conclusion as to the appropriate role for a  
 (17) supervisor?  
 (18) A Well, our view was that supervisors, because of their  
 (19) extensive background and training in day-to-day  
 supervision of  
 (20) employees, working with those employees on job  
 performance,  
 (21) that what we should focus on is how the employee's  
 performing  
 (22) the job, and so the supervisory monitoring would take place  
 on  
 (23) day-to day review and analysis of how the employee was  
 doing  
 (24) that job  
 (25) Q Now under the procedures and training that you had if a

Vol 22 3805

- (1) supervisor was aware that an employee had received treatment  
 in  
 (2) the past for an alcohol problem was the supervisor supposed  
 to  
 (3) ignore that information?  
 (4) A No I don't think they were supposed to ignore it  
 (5) Q What place did that kind of information have in the  
 (6) definition of the supervisor s responsibility?  
 (7) A It would just be another piece of information that he knew  
 (8) about that employee and he would factor in or she would  
 factor  
 (9) into the day to-day monitoring of that employee  
 (10) Q Okay There have been a lot of questions here this morning  
 (11) about a bar that was - or restaurant that was either called  
 (12) the Yankee Whaler or the Yankee Clipper First of all have  
 (13) you been to Long Beach?  
 (14) A I've been to Long Beach  
 (15) Q Do you know what the name of the place is?  
 (16) A No, I do not Unfortunately, I've never been there  
 (17) Q Was it required by this policy or intended by this policy  
 (18) that supervisors should determine whether employees in their  
 (19) off duty time were consuming alcohol?  
 (20) A No sir, they were - the policy did not intend that  
 (21) supervisors would do that  
 (22) Q Let s assume that the supervisor believes that the employee  
 (23) has been through a rehabilitation program for alcoholism  
 (24) A Yes  
 (25) Q Was it - did this policy contemplate that the supervisor

Vol 22 3806

- (1) should determine whether the employee is going to a bar or a  
 (2) restaurant in his off duty time and having a glass of wine or a  
 (3) glass of beer?  
 (4) A No, sir it did not  
 (5) Q Okay Why not?  
 (6) A Because we felt that the supervisor should monitor the  
 (7) individual's job performance and if there was a problem  
 with  
 (8) substance abuse that would be reflected in that job  
 (9) performance  
 (10) Q Now you have heard have you not the -- the common  
 saying  
 (11) that once a person s an alcoholic always an alcoholic?  
 (12) A Yes sir  
 (13) Q And have you heard it said by people who ve been to AA or  
 (14) otherwise that even one drink for a person who s an alcoholic  
 (15) is a relapse?  
 (16) A Yes sir, I've heard that  
 (17) Q Now if a supervisor under the 1987 policy were to have  
 (18) learned that someone who went to alcohol rehabilitation  
 (19) treatment had at their home or at a private restaurant had a  
 (20) drink under that policy and the supervisory guidelines and the  
 (21) training that you gave your supervisors what should they have  
 (22) done?  
 (23) A Well I can only speculate about what I would have done,  
 (24) and first I would have had some concern if the employee  
 had  
 (25) been through a rehabilitation and in fact was rumored to  
 have

Vol 22 3807

- (1) started drinking again I think what I would do is perhaps  
 try  
 (2) to check that rumor out and find out if it's valid  
 (3) Q Would the -- did this policy provide that if an employee  
 (4) who had been to alcohol rehabilitation had had a drink on  
 (5) private time that the supervisor could take job action?  
 (6) A No sir it did not  
 (7) Q Could you reassign that employee?  
 (8) A It's always management's discretion to reassign an  
 (9) employee  
 (10) Q If you learned that an employee had been drinking off the  
 (11) job would you consider that an appropriate basis under this  
 (12) policy?  
 (13) A To reassign someone?  
 (14) Q To reassign someone  
 (15) A Not that in and of itself no, sir  
 (16) Q I m trying to get it clear You said you d go check if  
 (17) somebody went to the Yankee Clipper and had a glass of wine  
 or  
 (18) beer with co workers you said you d check into that?  
 (19) A I said I might check into that as personal management  
 (20) style  
 (21) Q What use would you make of that information?  
 (22) A If I found the employee was drinking, that the rumor in  
 (23) fact was true, then I might be monitoring that job  
 performance  
 (24) just a little bit closer  
 (25) Q But the job you would have the policy and the rules that

Vol 22 3808

- (1) you set for your supervisors would be what?  
 (2) A That the supervisor monitors that job performance It's  
 (3) not we feel appropriate for our supervisors to follow  
 around  
 (4) and see if a fellow even one who has had an alcoholism  
 (5) problem has a glass of wine at his daughter's wedding we  
 (6) don't think that that's our -- the appropriate thing for us to  
 (7) do  
 (8) Q Now this -- these training materials also included this  
 (9) provision is that correct?  
 (10) A Yes sir  
 (11) Q Now insofar as your safety organization had studied for  
 (12) over a year in advance of the 87 policy what was going on in  
 (13) the drug and alcohol field do you know of any professional  
 (14) advice that you received that suggested that it would be an  
 (15) appropriate thing for Exxon to instruct supervisors that they  
 (16) should take job action on the basis of an employee who was  
 (17) drinking in his private time in a legal and lawful way?  
 (18) A Absolutely not There was nothing in our policy to that  
 (19) effect As you pointed out in America it's not illegal to  
 (20) drink  
 (21) Q Now we ve I think gotten as far as the 1987 alcohol policy  
 (22) announcement and the training that occurred in connection with  
 (23) that  
 (24) MR LYNCH Your Honor have I offered 9181?  
 (25) (Exhibit 9181 offered)

Vol 22 3809

- (1) MR O NEILL No objection  
 (2) THE COURT I don t think you did 9181 is admitted  
 (3) without objection  
 (4) (Exhibit 9181 received)  
 (5) MR LYNCH Thank you Your Honor  
 (6) BY MR LYNCH  
 (7) Q Were there additional or subsequent changes made to the  
 (8) Exxon alcohol policy between 1987 and the time of the  
 accident?  
 (9) A No actual changes In the late summer, August kind of  
 time  
 (10) frame in 1988 our senior management asked us to take a  
 look at  
 (11) our drug and alcohol policy along these lines They said  
 (12) you've had it in place for about 18 months Let's take a look  
 (13) and see if it's still state of the art let's see if it's still  
 (14) up to speed with regulations, requirements, social changes,  
 and  
 (15) come back to us and give us some recommendations about  
 any  
 (16) changes you'd recommend  
 (17) Q And what -- what did you do pursuant to that directive?  
 (18) A We looked at various studies that we had It was about  
 (19) this time frame or certainly that fall when the government  
 (20) passed the Drug Free Workplace Act Our 1987 policy fully  
 (21) complied with every aspect of that act We looked to see  
 what  
 (22) other companies were doing and their various policies  
 came up  
 (23) with several things, issues if you will, that we brought to  
 (24) the attention of our management and they agreed that  
 some of  
 (25) the things we ought to go forward with and some we should  
 not

Vol 22 3810

- (1) Q Now, let me ask you one item you didn't refer to Under  
(2) these policies that you as manager of human resources were  
(3) responsible for was - were the local managements of Exxon  
(4) facilities or Exxon operations free to augment these policies?  
(5) A Yes We had situations where local managers, during  
(6) this  
(7) time, would have supplemented, if you will, the policy with  
(8) various ideas  
(9) Q And in connection with this case are you acquainted with a  
(10) letter that Mr Larossi wrote to the people of the Exxon  
(11) Shipping Company in 1985?  
(12) A Yes, sir, I am  
(13) Q And the effect of that - what was the effects of that  
(14) letter?  
(15) A Well, his 1985 letter, as I recall it, really took them  
(16) from a policy on just alcohol to one that included searches  
(17) and  
(18) some of the things that we had in the 1980, ultimately put in  
(19) the 1987 policy for the company  
(20) Q So in that case the Exxon Shipping Company adopted some  
(21) procedures in 1985 that the corporation ended up adopting  
(22) corporation wide in 1987?  
(23) A Yes, sir, that's correct  
(24) Q Now in connection with your update or whatever it was in  
(25) 1988 did you look at what local elements of Exxon were doing  
(26) and see if they had any good ideas?  
(27) A Yes, sir, we did

Vol 22 3811

- (1) Q And what if anything did you find about that?  
(2) A One that came up as a result of that examination was the  
(3) concept of post rehabilitation testing, has to do with when  
(4) an  
(5) employee comes back from rehabilitation should you do  
(6) periodic  
(7) testing of that individual, unannounced testing  
(8) Q That would be testing for such things as alcohol in the  
(9) system?  
(10) A Yes, sir, it would Although, I got to tell you, those  
(11) kinds of tests are not really too effective with alcohol,  
(12) because alcohol metabolizes through a system fairly  
(13) quickly, so  
(14) post rehab testing is most effective with drugs like cocaine  
(15) and marijuana that may stay in the bloodstream as long as  
(16) 24  
(17) days or so depending on the individual  
(18) Q Now we talked earlier about whether you had considered  
(19) testing of rehabbed people people who had returned and  
(20) indicated that that was thought to be inconsistent with the  
(21) provision that people who took advantage of the policy would  
(22) not be subjected to special requirements?  
(23) A That's correct  
(24) Q What changed - or how did that develop in Exxon  
(25) organizations given that provision of the policy?  
(26) A Well, this whole thing is an evolutionary process You're  
(27) moving along with how society's changing, you're moving  
(28) along  
(29) with how laws are changing, and so what we were looking at  
(30) in  
(31) 1987 in terms of post rehabilitation testing, we found more

Vol 22 3812

and

(..5) alcohol policy

(1) activity in that area more acceptance of that by unions  
more

(2) acceptance of that by the courts in this period of the fall of  
(3) 1988

(4) Q Now did you take any action as a result of the study that  
(5) you did in late 1988?

(6) A Well we went to the management committee with several  
(7) recommendations that had to do with whether we should  
relax our

(8) drug testing standards because we have about the  
toughest drug

(9) testing standards of anyone in the industry and issue was  
(10) whether we ought to move marijuana from 20 nanograms up  
to a

(11) hundred and we concluded we should leave it

(12) Q Move it up means to a less strict test?

(13) A Yes, sir, that you would not be considered positive of  
(14) marijuana, construed positive if you were 99 or below, and  
(15) right now it's 19 or below you're construed as having  
marijuana

(16) in your bloodstream We concluded our testing, as we  
(17) discussed We told the management committee we felt we  
needed

(18) to continue our education programs we had We suggested  
to the

(19) management committee that - a couple of other areas that  
don't

(20) come immediately to mind

(21) What our management committee said to us these are just  
(22) concepts There are some - we think you ought to do the  
final

(23) analysis terms of implementation what's that involve, well,  
(24) you got to check and work out the details as to how it  
relates

~~(25) how you're going to bargain these with your unions because~~  
you

(1) don't slam dunk these with the unions We want to bargain  
(2) these and do it correctly, what changes that would make to  
our

(3) supervisory training what materials we would have to  
develop

(4) for employees and supervisors to do these things So we  
were

(5) in that staff process up to March 23rd, 1989

(6) Q So as of March 23rd these proposed changes or proposed  
(7) updates of the policy had not been put into effect?

(8) A They had not been The mechanics and the details were  
(9) being finalized to go back to the management committee for  
one

(10) last here's-how it-will all play-out kind of review before we  
(11) implemented them and the accident occurred before we got  
back

(12) to it

(13) Q Now Mr Rouse as of March 23, 1989 based on the  
(14) information available to you was the Exxon overall alcohol  
(15) policy as you've discussed it today deficient in - in failing  
(16) to have that post rehab testing provision?

(17) A No, sir I would not think so, because the federal law that  
(18) was passed a few months before in 1988 did not have any  
comment

(19) requirements about post rehabilitation testing As we  
looked

(20) at other companies, there were some doing that, but it was  
not

(21) yet a widely adopted concept, so I would have to say my  
(22) testimony would be at that time our 1987 policy was still  
state

(23) of the art versus what other companies had Understand  
there

(24) are many companies at this point that didn't have a drug

Vol 22 3814

- (1) Q Was in your view based on the information that you had  
 (2) available was the Exxon overall alcohol policy that existed  
 (3) in - on March 23 1989 deficient insofar as it dealt with the  
 (4) monitoring of employees who had been through rehabilitation?  
 (5) A Again I would say it was not, and I would base that on the  
 (6) fact that the federal drug and alcohol - work free drug -  
 (7) Drug Free Workplace Act that was put into place at that  
 point  
 (8) in time made no comments at all about post rehabilitation  
 (9) monitoring  
 (10) Q Well putting that statute aside  
 (11) A Right  
 (12) Q Was it common in industry based on your research for  
 (13) companies to have procedures for mandatory post  
 rehabilitation  
 (14) monitoring of employees who had been through rehab for  
 alcohol  
 (15) abuse?  
 (16) A I would testify that it was not common We were seeing  
 (17) some movement in that area, and that's why we were  
 recommending  
 (18) to our management committee the concept of post  
 rehabilitation  
 (19) testing, but it was still not common in industry at that time  
 (20) Q Okay Now are you familiar with the procedures that were  
 (21) used in the airline industry through that period for pilots who  
 (22) were flying under an exemption because of the diagnosis of  
 (23) alcoholism?  
 (24) A I'm not really familiar with that but my limited  
 (25) understanding of the -

Vol 22 3815

- (1) MR O NEILL Objection foundation He's  
 (2) disqualified himself from testifying about the subject  
 (3) MR LYNCH Well I don't -  
 (4) THE COURT You can try again but - but it sounded  
 (5) like a good objection  
 (6) MR LYNCH Well I think he was about to give his -  
 (7) what -  
 (8) BY MR LYNCH  
 (9) Q Did you have any familiarity with that procedure?  
 (10) A I had some, sir  
 (11) Q What was the basis of that familiarity?  
 (12) A Just what I had heard from our experts  
 (13) Q And what had you heard from your experts?  
 (14) MR O NEILL Objection foundation speculation  
 (15) MR LYNCH I think Your Honor that this has been  
 (16) offered by the plaintiffs as -  
 (17) MR O NEILL I'll withdraw I'll withdraw the  
 (18) objection  
 (19) THE COURT You had a winner but you withdrew it  
 (20) MR O NEILL No let's let it go  
 (21) THE COURT Okay Okay  
 (22) THE WITNESS Your question sir?  
 (23) BY MR LYNCH  
 (24) Q What had you been told by your experts about the nature of  
 (25) the program that existed in the airline industry?

Vol 22 3816

- (1) A My understanding of the airline industry program was  
 they  
 (2) had special legal considerations from the government that  
 would  
 (3) permit them to have that kind of program considerations  
 that  
 (4) my industry does not have  
 (5) Q In your - your evaluation through the business round table  
 (6) committee and through other professional organizations that  
 you  
 (7) belong to had you determined whether procedures such as  
 (8) mandatory counseling mandatory participation in Alcoholics  
 (9) Anonymous were common in companies situated in the same  
 (10) position as Exxon?  
 (11) A I would testify they were uncommon at that point  
 (12) Q Had you determined whether such provisions were common  
 (13) among oil companies?  
 (14) A They were not common among oil companies In fact, in  
 my  
 (15) recollection, I don't believe there was a single one of the  
 (16) majors, the majors being the top 12, that was doing that at  
 (17) that point in time  
 (18) Q Were such procedures common for holders of  
 safety sensitive  
 (19) jobs?  
 (20) A Again that would - I would not think that was common at  
 that point in time  
 (21) that point in time  
 (22) MR LYNCH Your Honor I have no further questions  
 (23) THE COURT You may cross examine  
 (24) MR O NEILL Thank you Judge  
 (25) CROSS EXAMINATION OF JAMES ROUSE

Vol 22 3817

- (1) BY MR O NEILL  
 (2) Q Sir you came in here and testified about the airline  
 (3) industry today and you don't know about the airline industry?  
 (4) A I testified what my understanding was that's correct  
 (5) Q Do you know about the regulatory structure for the airline  
 (6) industry yes or no?  
 (7) A No I do not  
 (8) Q You don't know do you?  
 (9) A I do not that's correct  
 (10) Q Now I also was interested and I read during your testimony  
 (11) the big supervisor's volume and I want to go over some of the  
 (12) pages with you  
 (13) A Fine  
 (14) Q Could we have the Elmo please  
 (15) On page five of the supervisor's volume it states that of  
 (16) a hundred million people in the nation's work force the ten  
 (17) million or so who are the drug and alcohol abusers cost  
 (18) companies between 40 to 60 billion dollars a year in lost  
 (19) productivity medical expenses lost or damaged equipment  
 and  
 (20) rehabilitation do you see that?  
 (21) A Yes I do  
 (22) Q It's a serious problem isn't it?  
 (23) A There's no question about that  
 (24) Q And your company if an employee - back in 85 86 87  
 (25) if an employee is found with or is under the influence of drugs

Vol 22 3818

- (1) or alcohol on company property disciplinary action will be  
 (2) taken and is grounds for termination isn't that a correct  
 (3) statement?  
 (4) **A That is a correct statement**  
 (5) **Q So if somebody is under the influence of alcohol on company**  
 (6) **property there is a requirement for disciplinary action?**  
 (7) **A Could I check your dates again? I believe you said 1986**  
 (8) **You're reading from a supervisory manual from 1987**  
 (9) **Q 1987?**  
 (10) **A 1987 that was the case**  
 (11) **Q And it was the case in 1985 wasn't it?**  
 (12) **A Not in Exxon U S A**  
 (13) **Q At Exxon Shipping Company if an employee was found**  
 (14) **under**  
 (15) **the influence of alcohol on company policy disciplinary action**  
 (16) **had to be taken isn't that right?**  
 (17) **A I would have to go back and look at the shipping's policy,**  
 (18) **I'm not certain of that**  
 (19) **Q You don't know one way or the other?**  
 (20) **A I know that that language was not used because that**  
 (21) **language wasn't written then**  
 (22) **Q Doesn't make any sense to have drunken employees on**  
 (23) **company**  
 (24) **property is that right?**  
 (25) **A That's right**  
 (26) **Q It's a bad practice?**  
 (27) **A Yes**

Vol 22 3819

- (1) **Q Something should be done about it?**  
 (2) **A I would say it was a bad practice**  
 (3) **Q In 1985 it was a bad practice?**  
 (4) **A I would say it was a bad practice**  
 (5) **Q Are you aware that there were reports and Captain**  
 (6) **Hazelwood**  
 (7) **admitted he occasionally drank aboard the ship?**  
 (8) **A I was aware of that**  
 (9) **Q And he came back from the ship - came back to the ship**  
 (10) **from port drunk?**  
 (11) **A Let me say it this way I was not personally aware of that,**  
 (12) **I have seen that document**  
 (13) **Q You see it now?**  
 (14) **A Yes sir**  
 (15) **Q Bad practice don't you think?**  
 (16) **A Yes sir Terrible is your word I said bad practice**  
 (17) **Q Disciplinary action should be taken?**  
 (18) **A It would depend on the circumstances**  
 (19) **Q Do you know if any disciplinary action was taken?**  
 (20) **A I do not**  
 (21) **Q The effects of alcohol are well documented includes slowed**  
 (22) **reaction reduced level of interest abrupt increase in**  
 (23) **frustration frequent drop in moods that's a correct**  
 (24) **statement?**  
 (25) **A Yes, sir I'd say that's correct**  
 (26) **Q You showed your employees a movie Everything Looks So**

Vol 22 3820

- (1) **Normal didn't you?**  
 (2) **A In 1987 indeed we did in our drug and alcohol training**  
 (3) **Q And if you had an employee who was suspected of having an**  
 (4) **alcohol or drug problem at least this manual says what we can**  
 (5) **do is observe changes and confront the employee with our**  
 (6) **observations isn't that what the manual says?**  
 (7) **A As of 1987 that's correct sir**  
 (8) **Q So in 1988 if we had a drinking incident on the west**  
 (9) **coast say San Francisco or at the Portland Shipyard and**  
 (10) **there were observations that caused something to be brought to**  
 (11) **our attention we should have confronted the individual isn't**  
 (12) **that right?**  
 (13) **A We should have investigated the circumstances and if**  
 (14) **appropriate confronted the individual If the allegations**  
 (15) **were untrue I sure wouldn't confront him wouldn't have**  
 (16) **anything to confront him for**  
 (17) **Q And your manual says that if an employee is found violating**  
 (18) **the company policy he or she cannot avoid disciplinary action**  
 (19) **by requesting treatment?**  
 (20) **A That's correct**  
 (21) **Q And that makes good sense doesn't it?**  
 (22) **A I think it does**  
 (23) **Q If you're caught you're caught?**  
 (24) **A I think that's correct**  
 (25) **Q Good And any drug related problem as far as your**  
 (26) **company**

Vol 22 3821

- (1) **is concerned is a performance problem isn't that right?**  
 (2) **A Any substance abuse problem is a performance problem**  
 (3) **Q So alcohol problems are not performance problems but**  
 (4) **drug**  
 (5) **problems are?**  
 (6) **A No sir I didn't say that I said any substance abuse**  
 (7) **problem is a - is a performance problem We've said that in**  
 (8) **this testimony going way back decades and decades**  
 (9) **Q That's right Somebody with an alcohol problem has a**  
 (10) **performance problem don't they?**  
 (11) **A That does not necessarily follow I suppose people could**  
 (12) **have an alcohol problem on their own time and not have it**  
 (13) **affect their job performance and, as we've testified, what we**  
 (14) **were concerned about is their job performance**  
 (15) **Q We'll get to that in a minute**  
 (16) **A Good**  
 (17) **Q And indeed you show your employees a chart as part of the**  
 (18) **training that talks about confronting the employee if you think**  
 (19) **a problem exists?**  
 (20) **A That's correct, 1987, that's what we told our employees**  
 (21) **Q And if somebody thought a problem exists they should have**  
 (22) **gone to the medical department?**  
 (23) **A We said - told our employees our supervisors that if they**  
 (24) **thought a problem existed they should send the employee**  
 (25) **to the**  
 (26) **medical department, in 1987**  
 (27) **Q And serious misconduct should normally lead to**

Vol 22 3822

- (1) termination?  
 (2) **A That's correct**  
 (3) **Q Is coming back to ship drunk serious misconduct?**  
 (4) **A It depend on the circumstances**  
 (5) **Q How drunk you were?**  
 (6) **A Or if you were indeed drunk what basis you say they're**  
 (7) **drunk Did you run a test did you not run a test was it**  
 (8) **based on the smell of alcohol on somebody's breath or**  
**whatever**  
 (9) **Q I was very interested in your manual on these the three**  
 (10) **highlighted comments abuse in the workplace is not committed**  
 (11) **to your stereotypical imbalanced staggering person do you**  
**see**  
 (12) **that comment?**  
 (13) **A Yes sir I do**  
 (14) **Q And alcoholics seldom ever drink on the job do you see**  
 (15) **that concept that comment right there?**  
 (16) **A Well, it was not because I think -- put the whole**  
 (17) **comment --**  
 (18) **Q Put it up?**  
 (19) **A Or says, takes barbiturates for the same effect**  
 (20) **Q Monitoring alcoholic on the job is sort of a non event**  
 (21) **because as you say there alcoholics seldom drink on the job?**  
 (22) **A Oh I would disagree with that completely I think**  
 (23) **monitoring is a very major event I don't know where you**  
**come**  
 (24) **up with the non event concept**  
 (25) **Q My question is do alcoholics seldom ever drink on the job?**

Vol 22 3823

- (1) **A I ve had experiences where alcoholics drank on the job**  
**and**  
 (2) **experiences where they did not**  
 (3) **Q Is this your manual?**  
 (4) **A Yes it is**  
 (5) **Q Thank you Now you came in here and you talk in your**  
 (6) **direct testimony at the beginning part of your direct**  
 (7) **testimony very very carefully and your words were very very**  
 (8) **careful You said that when somebody comes out of**  
 (9) **rehabilitation it was the norm to return them to the same job?**  
 (10) **A Yes sir that is what I said**  
 (11) **Q And I m interested in the second half of that statement**  
 (12) **A Okay**  
 (13) **Q The half you didn t say**  
 (14) **A All right**  
 (15) **Q Let s take a look if we could at the half you didn t**  
 (16) **say Page 212 lines 4 through line 23**  
 (17) **MR LYNCH His deposition?**  
 (18) **MR O NEILL Yes**  
 (19) **(Portion of Video of James Rouse played as follows)**  
 (20) **BY VIDEO EXAMINER**  
 (21) **Q Mr Rouse previously we discussed the issue of an**  
 (22) **individual coming back from drug or alcohol rehabilitation and**  
 (23) **what would happen to that person**  
 (24) **In or around 1985 when a person came back from alcohol**  
 (25) **rehabilitation did that person enjoy job security but not**

Vol 22 3824

- (1) necessarily the job that that person once had? We ll start  
 (2) out with an Exxon U S A employee  
 (3) **A Regarding Exxon U S A , 1985 we would have been under**  
**the**  
 (4) **1977 policy on alcoholism And as I've previously testified**  
 (5) **I think our norm would have been to put them back into their**  
 (6) **previous assignment We would have put them back in their**  
 (7) **previous assignment**  
 (8) **Q Okay**  
 (9) **A Since the policy were silent on that, if a manager for some**  
 (10) **reason had certain concerns I'm sure he was not obligated**  
**to**  
 (11) **put him back in that assignment necessarily**  
 (12) **(Portion of Video of James Rouse concluded)**  
 (13) **MR O NEILL Let s take a look at it again in another**  
 (14) **part of the deposition on page 213 lines 11 through 21**  
 (15) **(Portion of Video of James Rouse played as follows)**  
 (16) **BY VIDEO EXAMINER**  
 (17) **Q Does that mean that in 1985 people returning from an**  
 (18) **alcohol rehab program were subject to extra scrutiny with**  
 (19) **respect to the job they -- they went back to?**  
 (20) **A No As I've testified all along, the norm would be to put**  
 (21) **them back on the -- on the existing position But if the**  
 (22) **person looked like they were not having a very good**  
**recovery or**  
 (23) **there were safety concerns there's nothing that obligated**  
**that**  
 (24) **manager to put him straight back in that job There's to be**  
 (25) **some management judgment in that (End of video)**

Vol 22 3825

- (1) **MR O NEILL And on page 214 of your deposition**  
 (2) **transcript lines nine through 14**  
 (3) **(Portion of Video of James Rouse played as follows)**  
 (4) **BY VIDEO EXAMINER**  
 (5) **Q Meaning that the manager based solely on safety concerns**  
 (6) **could determine in 1985 not to put that individual back into**  
 (7) **the position he or she once held?**  
 (8) **A I think I'll just repeat the same answer I've been giving**  
 (9) **I'll give it one more time which is the norm was to put them**  
 (10) **back in the job That would not prevent management**  
**judgment**  
 (11) **which would do something different than that**  
 (12) **(Portion of Video of James Rouse concluded)**  
 (13) **BY MR O NEILL**  
 (14) **Q So there was no requirement they go back to the same job?**  
 (15) **A I have testified here this morning that was the norm and**  
 (16) **as I said in my deposition very clearly management has the**  
 (17) **right to manage We train our supervisors and our**  
**managers**  
 (18) **very carefully and we do not take their ability to make**  
 (19) **individual decisions away from them with our drug and**  
**alcohol**  
 (20) **policy**  
 (21) **Q Now I m going to use Defendants Exhibit 3683**  
 (22) **MR O NEILL Offer 3683**  
 (23) **(Exhibit 3683 offered)**  
 (24) **BY MR O NEILL**  
 (25) **Q Defendants Exhibit 3683 appears to be some charts Have**

Vol 22 3826

- (1) you ever seen these chart?  
 (2) **A Yes I do** This was a draft of a management committee  
 (3) review that we were planning in November of - a copy of  
 that  
 (4) review I believe on November 21st 1986 which was part of  
 the  
 (5) presentation we later used to get approval for the '87 policy  
 (6) I've mentioned earlier  
 (7) **Q** And you asked the question what are other companies  
 doing  
 (8) in this area?  
 (9) **A Yes, sir,** that was one of the things we discussed with our  
 (10) managers  
 (11) **Q** And other companies test for cause among other situations  
 (12) for employees that occupy high risk positions?  
 (13) **A Yes sir** that's correct  
 (14) **Q** And your policy -  
 (15) **MR LYNCH** Brian page?  
 (16) **MR O NEILL** Here  
 (17) **BY MR O NEILL**  
 (18) **Q** At the time policy violations call for disciplinary action  
 (19) and cannot be avoided by a request for rehabilitation?  
 (20) **A Yes, sir** The context that's in let's make sure we get  
 (21) these things in appropriate context, was if an employee  
 drove a  
 (22) pickup truck into a tree and then rolled out of the smoking  
 (23) wreckage and said, I've got a problem our policy is that you  
 (24) can't avoid discipline by asking for rehabilitation at that  
 (25) point in time

Vol 22 3827

- (1) **Q** Now let me go back to the same page will you? With  
 (2) regard to the page other companies typically test for cause  
 (3) where - and it has four items, and the last of which is  
 (4) employees occupy high risk positions do you see that?  
 (5) **A Yes, sir**  
 (6) **Q** And then the recommendation you recommended the first  
 (7) three but you didn't recommend the fourth did you?  
 (8) **A Well,** if you go back and read our policy, indeed we did  
 (9) because what our policy says  
 (10) **Q** What does the piece of paper in front of you say?  
 (11) **A** That is one document I think we ought to show them the  
 (12) whole presentation if we're going to do that What the  
 policy  
 (13) says in terms of test for cause is the manager in any  
 (14) safety sensitive situation has the right to call for a test or  
 (15) search for cause That's what the policy says  
 (16) **MR O NEILL** I am interested in a document  
 (17) Defendants Exhibit 3918 it's dated September 25 1985  
 (18) Offer 3918  
 (19) (Exhibit 3918 offered)  
 (20) **MR LYNCH** Yes No objection Your Honor  
 (21) **THE COURT** 3918 is admitted  
 (22) (Exhibit 3918 received)  
 (23) **THE COURT** Did you wish to offer 3683 also?  
 (24) **MR O NEILL** Yes sir I did  
 (25) (Exhibit 3683 offered)

Vol 22 3828

- (1) **THE COURT** Is there objection?  
 (2) **MR LYNCH** No objection  
 (3) **THE COURT** Defendants 3683 is also admitted  
 (4) (Exhibit 3683 received)  
 (5) **BY MR O NEILL**  
 (6) **Q** I'm interested in the last page of the exhibit Do you  
 (7) recognize the last page of this exhibit next steps it's from a  
 (8) document dated December 15th 1985?  
 (9) **A** I honestly don't recall that one Is that a - I don't  
 (10) recall that  
 (11) **Q** It's an Exxon Corporation document?  
 (12) **A** Okay I work for Exxon U S A so I might not be familiar  
 (13) with that as far as Exxon Corporation  
 (14) **Q** It says it was presented to the Exxon Corporation  
 (15) management committee on 9/11/85 do you see that?  
 (16) **A** Yes sir I was not working in the corporation at that  
 (17) time  
 (18) **Q** Were you working in the medical department?  
 (19) **A** No, sir I was not  
 (20) **Q** Do you know if as this documents states in September of  
 (21) 1985 the medical department was supposed to be finalizing  
 (22) rehabilitation aftercare programs and procedures?  
 (23) **A** I do not know, sir  
 (24) **MR O'NEILL** I am interested in - exhibit 3617, did I  
 (25) offer 3617?

Vol 22 3829

- (1) **MR LYNCH** The one that you used before? You've  
 (2) offered two  
 (3) **MR O NEILL** I offer Defendants Exhibit 3617 which  
 (4) is a memorandum dated October 5 1988  
 (5) (Exhibit 3617 offered)  
 (6) **MR LYNCH** No objection  
 (7) **THE COURT** Defendants 3617 is admitted  
 (8) (Exhibit 3617 received)  
 (9) **BY MR O NEILL**  
 (10) **Q** This is a memo and I'll put a copy in front of you that  
 (11) you've copied on Do you see that memo?  
 (12) **A** Yes, sir, I do  
 (13) **Q** At least in 1988 this document indicates on chart seven  
 (14) that post rehabilitation testing was not addressed in your  
 (15) current policy and was commonly done in the industry, do you  
 (16) see that?  
 (17) **A** Yes, I do  
 (18) **Q** And is that what the - is that a fair restatement of what  
 (19) the piece of paper says?  
 (20) **A** I would testify that - that that is what the paper says  
 (21) I would not necessarily agree with what the paper said  
 (22) **Q** Comes out of your company, doesn't it?  
 (23) **A** It was a draft put together by one of my subordinates,  
 (24) that's correct A draft I should emphasize, a draft  
 (25) **Q** And on the next page the statement is made by somebody  
 who

Vol 22 3830

- (1) works for Exxon U S A that Exxon is in the minority of  
 (2) companies which do not specify abatement rehabilitation  
 (3) following first positive test is that a correct statement?  
 (4) A Yes, that's correct that's what that draft says  
 (5) Q You didn't want Exxon to be out on the leading edge with  
 (6) regard to any alcohol policies did you?  
 (7) A I wanted Exxon to have a policy we could implement and I  
 (8) didn't want to be enjoined by the Court so I wound up with  
 (9) an  
 (10) empty bag and had no policy to protect the safety of the  
 (11) public  
 (11) Q Now I am puzzled by what this page is in the document  
 (12) A This was simply a rundown of our pre-employment drug  
 (13) testing results for the year  
 (14) Q By race?  
 (15) A 1987, by race, that's correct  
 (16) Q Now this document has at the end of it some assessment of  
 (17) the competitive situation with regard to post rehab testing and  
 (18) you compare yourself to two oil companies Shell and Amoco  
 (19) do  
 (19) you see that?  
 (20) A Yes, sir, I do  
 (21) Q Post rehab testing Exxon no Shell post rehab Amoco  
 (22) post rehab Do you see that?  
 (23) A Yes sir I do  
 (24) Q 3M post rehab DuPont post rehab Allied Signal post  
 (25) rehab IBM post rehab So you and the soap manufacturer are

Vol 22 3831

- (1) the two that don't Proctor and Gambel is that right?  
 (2) A No sir What that is that's the companies doing post  
 (3) rehab out of the 150 doing the survey I believe the number  
 (4) was about six or seven at that point So that meant a  
 (5) hundred  
 (6) and 43 were not doing it  
 (6) Q Now I'm a little interested in - see if we can clean this  
 (7) up Union Oil in the early 1980s had a very specific follow up  
 (8) program with regard to its employees that went through  
 (9) rehabilitation didn't they?  
 (10) A I have no data on that  
 (11) Q You don't know?  
 (12) A No sir I don't know  
 (13) Q Have you ever been informed of that?  
 (14) A No sir  
 (15) Q Ever been shown any Union Oil documents on that?  
 (16) A I saw a Union Oil document yesterday that said you were  
 (17) going to use this morning  
 (18) Q Union Oil you know as you sit here today that Union Oil  
 (19) had a very careful follow up program with regard to post rehab  
 (20) employees?  
 (21) A No, sir, I did not know that And in fact the document  
 (22) you provided was a dear to nobody letter signed by nobody  
 (23) Appeared to me to be a draft by the way  
 (24) Q Or a form letter?  
 (25) A Looked to me like a draft

Vol 22 3832

- (1) Q You've been deposed in various cases on behalf of Exxon  
 (2) ten to 15 times that's a correct statement?  
 (3) A In my 32 year career, that would be correct, sir  
 (4) Q And you know that the nature of alcoholism is such that it  
 (5) goes abstinence relapse abstinence relapse that's a correct  
 (6) statement isn't it? You know that don't you?  
 (7) A Well, I really - I do and I don't and let me testify to  
 (8) what I do know  
 (9) Q Let's take a look at your deposition transcript  
 (10) A Well let me testify what I do know because I know  
 (11) exactly  
 (11) what I said in my deposition I said early on I was of the  
 (12) impression that employees who went to rehabilitation  
 (13) tended to  
 (13) be cured when they came out of there and if they stuck with  
 (14) their aftercare, then there was not a problem  
 (15) I have subsequently learned that the relapse rate was a  
 (16) great deal higher than I probably realized that it was and, in  
 (17) fact, I was shocked, as some people in this courtroom might  
 (18) be  
 (18) shocked, in a substance like cocaine it's as high as 90  
 (19) percent  
 (19) and frankly, I did not know that  
 (20) Q Couldn't tell whether you agreed with me or not?  
 (21) A I told you what I testified to in my deposition Or what I  
 (22) recall testifying in my deposition  
 (23) Q Let's go to page 48 of your deposition  
 (24) A Okay  
 (25) Q The questions on page 47 Would this be the case for

Vol 22 3833

- (1) example the alcohol and breath everyone - well if an  
 (2) individual reported for work with alcohol on his or her breath  
 (3) and it was the first time would that person - was the policy  
 (4) that that person regardless of the number of times it happened  
 (5) be sent for treatment?  
 (6) That's a crazy question but your answer was again that  
 (7) would depend on the circumstances If you look into the  
 (8) subject of alcoholism you find the nature of alcoholism is  
 (9) abstinence relapse abstinence relapse abstinence relapse  
 (10) and  
 (10) somebody can be having a very successful recovery and still  
 (11) have a situation where they have a relapse And that's the  
 (12) answer that you gave  
 (13) A Absolutely in that context that's right We were talking  
 (14) about a period much more recent than the one that you  
 (15) seemed to  
 (15) be talking about  
 (16) Q Now do you have an understanding that over 50 percent of  
 (17) alcoholics have relapses?  
 (18) A I - that's not a number that I'm familiar with I would  
 (19) have said it would have been something less than that, but  
 (20) you  
 (20) may be correct I just don't have the data committed to  
 (21) memory  
 (22) Q Go to page 67 of your deposition testimony  
 (23) A Okay  
 (24) Q Take a look and read along with me  
 (25) A Sure

Vol 22 3834

- (1) Q The question on line 18 is your testimony is that your  
 (2) understanding is it's well over half answer that's correct  
 (3) A Excuse me sir you said what page we're on?  
 (4) Q 67  
 (5) A Mine only goes to 58  
 (6) Q I'm sorry Here's 67  
 (7) A Okay Thank you  
 (8) Q And if you would why don't you read to the jury line 18 to  
 (9) line 20  
 (10) A Line 18 says, question your testimony is that your  
 (11) understanding is it's well over half?  
 (12) That's correct  
 (13) What I was understanding between - was that your  
 (14) understanding between 1977 and 1987 And I'm saying are  
 (15) you  
 (16) asking me to give you the date at which I really became  
 (17) familiar with the illness and I can't do that because I don't  
 (18) know when that was It's been an evolutionary process  
 (19) much  
 (20) like I just said and I've learned a lot about that process as  
 (21) we worked through it  
 (22) Q Are you ignorant now? You're more knowledgeable now  
 (23) than  
 (24) you were in 1985?  
 (25) A No question about that sir  
 (26) Q Did you know what relapse rates were in 1985?  
 (27) A No I did not  
 (28) Q Should you because of your position at Exxon U S A have

Vol 22 3835

- (1) known that information? You were writing an alcohol policy  
 (2) weren't you?  
 (3) A No sir I don't necessarily think I needed to be familiar  
 (4) with relapse rates at that point in time  
 (5) Q You were writing alcohol policies for the company in 1983  
 (6) 84 and 85 and you don't think you should have been familiar  
 (7) with relapse rates?  
 (8) A I didn't write a policy in '83 I didn't write one in '84  
 (9) and I didn't write one in '85  
 (10) Q Did you approve them?  
 (11) A And I did not approve them I was involved in writing one  
 (12) as I testified in 1986 which was put out to our employees in  
 (13) the year 1987  
 (14) Q And it wasn't necessary to know about relapse rates?  
 (15) A We were dealing with our medical department and  
 (16) certainly  
 (17) the medical department was familiar with that and I would  
 (18) have  
 (19) depended on them to provide me that advice if they thought  
 (20) it  
 (21) was a significant issue  
 (22) Q Apparently it wasn't was it because they didn't provide  
 (23) you with that advice?  
 (24) A They did not provide me with that data  
 (25) Q So it's their fault?  
 (26) A I'm not saying it's anybody's fault I'm just saying they  
 (27) didn't provide me with that data  
 (28) Q Would you agree with the proposition that at least the

Vol 22 3836

- (1) society outside of Exxon Corporation and Exxon Shipping  
 (2) Corporation that a supertanker captain presents more of a risk  
 (3) to the public than for example a secretary or a clerk?  
 (4) A Yes sir I'd agree with that  
 (5) Q With regard to Exxon Shipping Company you don't know  
 (6) what  
 (7) kind of training was provided to Exxon Shipping Company  
 (8) supervisors with regard to monitoring employees who had been  
 (9) through alcohol rehabilitation?  
 (10) A Sir, you're going to have to put that in a time context  
 (11) You talking about '77 '87  
 (12) Q 85 '86  
 (13) A '85 '86 We did drug awareness training in 1984 and '85,  
 (14) and Exxon supervisors were allowed to participate in that  
 (15) training  
 (16) Q Did Exxon Shipping Company ever seek your advice on how  
 (17) to  
 (18) go about monitoring an alcohol or drug abuser who had been  
 (19) through rehab and come back to work?  
 (20) A I don't recall if they ever sought my advice on that  
 (21) Q Proper investigation of a report of alcohol use would  
 (22) include interviewing the suspect interviewing the accuser and  
 (23) interviewing people that were aboard the vessel and  
 (24) documentation?  
 (25) A I testified in my deposition that I personally would have  
 (26) documented and investigated an occurrence in that  
 (27) manner  
 (28) Certainly it's up to the individual manager on how they do

Vol 22 3837

- (1) that That was just my personal view of what I would have  
 (2) done  
 (3) Q Makes good common sense and it is an honest way to deal  
 (4) with people?  
 (5) A I would say that I would have done that, yes sir  
 (6) Q You testified that with regard to these discussions over  
 (7) alcohol policies you were trying to balance the rights of the  
 (8) employee against the public safety?  
 (9) A Yes, sir  
 (10) Q And putting somebody who had gone through alcohol  
 (11) rehabilitation in charge of a supertanker presents a risk to  
 (12) the public doesn't it?  
 (13) A It would depend on why they went through alcohol  
 (14) rehabilitation I have a fellow, people I'm aware of that went  
 (15) through alcohol rehabilitation because their son was going  
 (16) through and they wanted to go through it so they could  
 (17) experience it with them So first question I'd ask in that  
 (18) case is what were the circumstances of the individual going  
 (19) Q Let me reask the question  
 (20) A All right, sir  
 (21) Q And I want to get your position Putting somebody who has  
 (22) gone through alcohol rehabilitation because of problems with  
 (23) alcohol in charge of a supertanker presents a potential risk to  
 (24) the public yes or no?  
 (25) A I would say there would be some risk to the public

Vol 22 3838

Vol 22 3840

- (1) Q And if you had a supertanker accident a supertanker  
(2) grounding a supertanker mishap the risks can be catastrophic  
(3) can it?  
(4) A No question about that  
(5) Q I m going to try to summarize your direct testimony and  
(6) you can come along with me if you would but you re aware  
that  
(7) Captain Hazelwood it was reported to him that he was under  
(8) investigation in February of 1985 by Mr Tompkins?  
(9) A That is my understanding  
(10) Q And that Mr Pierce had a conversation with him as a result  
(11) of an anonymous phone call after the Captain already knew he  
(12) was under investigation you re aware of that aren t you?  
(13) A That is my understanding  
(14) Q And the captain went through an alcohol rehabilitation  
(15) program you re aware of that?  
(16) A I am  
(17) Q And the captain held a safety sensitive position?  
(18) A That's your description, but yes I'll accept that  
(19) Q And the company s policy with regard to taking care of this  
(20) captain was such that the only thing you were going to look at  
(21) was job related performance you weren t going to look at off  
(22) duty drinking whether he was drinking again that s the  
(23) company s policy isn t that right?  
(24) A Our policy was to monitor the individual based on their  
job  
(25) performance as I testified that s correct sir

- (1) was a problem  
(2) Q We ll get to that in just a minute  
(3) A All right  
(4) Q A relapse - so the company policies would allow - the  
(5) company policies would allow a relapsed alcoholic to be in  
(6) charge of a supertanker so long as nobody knew so long as  
his  
(7) relapsed nature didn t affect his job performance?  
(8) A Are you speaking of Captain Hazelwood?  
(9) Q No I m talking generally a relapsed alcoholic can work  
(10) who has gone through treatment can work for Exxon  
Corporation  
(11) and drive a supertanker according to Exxon Corporation s  
(12) policies?  
(13) A That's correct, sir, with appropriate monitoring  
(14) Q So your policies knowing the risk to the public of the  
(15) catastrophic results of a supertanker accident allow a  
(16) relapsed alcoholic to command a supertanker?  
(17) A Yes, sir, that's possible under our policy  
(18) Q And you write your policies you can change your policies  
(19) the management committee can change your policies that s all  
a  
(20) correct statement isn t it?  
(21) A Yes, sir, it is  
(22) MR O NEILL Nothing further  
(23) REDIRECT EXAMINATION OF JAMES ROUSE  
(24) BY MR LYNCH  
(25) Q Mr Rouse you were shown this document by Mr O Neill?

Vol 22 3839

Vol 22 3841

- (1) Q So if you had Captain Hazelwood who had gone through  
(2) alcohol rehabilitation and he was drinking again so long as he  
(3) didn t drink on company property or come back to ship drunk  
(4) his drinking again was hunky dory with regard to company  
(5) policy?  
(6) A Well I m sorry I don t understand what you mean by  
hunky  
(7) dory  
(8) Q Wasn t it a violation of company policy for the captain to  
(9) be drinking again even though he went through alcohol  
(10) rehabilitation?  
(11) A It was not a violation of company policy for him to  
consume  
(12) alcohol on his own time and as long as it didn t interfere  
with  
(13) his job performance that s right  
(14) Q And the policies did not require anything with regard to  
(15) making sure that he was not relapsing there was nothing in the  
(16) policy that said we got to follow up with regard to the  
(17) general subject of relapse off duty personal life problems  
(18) drinking that kind of thing except with a strict area of job  
(19) performance?  
(20) A Well I would not accept your - your definition as you ve  
(21) laid that out I would say that in a normal supervisory  
(22) employee relationship, that that supervisor be working with  
(23) that employee frequently, would have a good understanding  
of  
(24) how they were getting along, how they felt how they were  
(25) performing their job and they would see a deterioration if  
that

- (1) A Yes  
(2) Q There seemed to be some confusion at the conclusion of  
your  
(3) dialogue What did the 1987 policy ultimately provide with  
(4) reference to for cause testing of safety sensitive positions?  
(5) A What the 1987 policy said was that if a manager had  
reason  
(6) to believe or had safety concerns he had the right to test in  
(7) those situations if he had reason to believe there was a  
(8) problem or had safety concerns under our test for cause  
policy,  
(9) he or she had the right to conduct for cause testing  
(10) Q And I believe you testified that you considered giving or  
(11) providing for testing even without concern just because the  
(12) person held a job and concluded that would not be a good  
idea?  
(13) A Yes sir that is my testimony  
(14) Q Now in connection with this document Mr O Neill saw fit  
(15) to show you for some reason a page that had to do with  
(16) breakdown of pre employment test results by race?  
(17) A Yes sir  
(18) Q I don t know what that has to do with this case but why  
(19) did you prepare that breakdown?  
(20) A Because as I ve already testified we re very very  
(21) interested and concerned about the issue of embracing  
diversity  
(22) in our company and we wanted to make sure that in no way  
our  
(23) testing policy was adversely affecting our fine minority  
(24) employees and the only way we knew to do that was to go  
get  
(25) some data

Vol 22 3842

- (1) Q Now Mr O Neill asked you about this page of the 1987  
 (2) training materials and particularly the underlined phrase  
 (3) that disciplinary action will be taken Would you read the  
 (4) next sentence?  
 (5) A Yes, sir As you will see later in the program we must  
 (6) try to keep - we must try to get all the facts in a situation  
 (7) carefully evaluate those issues and use good judgment in  
 making  
 (8) our decision  
 (9) Q Now I d like to refer you then to page 24 and ask you  
 (10) if this is the later part of the program which is referred to  
 (11) there as the - as an indication of how good judgment is to be  
 (12) used in a situation where information of a possible employee in  
 (13) violation comes to light?  
 (14) A Yes, sir, that's correct What this says is, you'll find  
 (15) that there are not always cut and dried solutions to these  
 (16) cases Our intent in this section will not be to give you a  
 (17) school book solution but rather to learn a process for  
 making  
 (18) decisions on alcohol and drug cases The key points in this  
 -  
 (19) in this decision making process are clarify the situation  
 (20) investigate by gathering relative or relevant information,  
 (21) analyze your information decide on a course of action and  
 (22) follow up  
 (23) Q Then I d like to take you to page 32 and direct your  
 (24) attention to the second sentence reading for cases involving  
 (25) an employee in an unfit condition at work under the influence

Vol 22 3843

- (1) of drugs or alcohol?  
 (2) A Yes, sir  
 (3) Q Management has discretion to either terminate the employee  
 (4) or impose lesser discipline based upon severity of the  
 (5) deference timing and other mitigating factors This is the  
 (6) 87 guideline correct?  
 (7) A Yes sir that's correct  
 (8) Q And in 87 the advice you gave to management was that they  
 (9) should invariably impose some discipline for violation of the  
 (10) alcohol policy?  
 (11) A That's correct sir  
 (12) Q Prior to that time management had the discretion not to  
 (13) impose discipline in the case?  
 (14) A That's correct it was unspoken or unwritten in our  
 (15) previous policy so the manager had total discretion to use  
 his  
 (16) or her best judgment  
 (17) Q Let me ask you about the case that Mr O Neill asked you  
 (18) about If in a situation where an employee where information  
 (19) came to management's attention that indicated a possible  
 (20) violation by an employee some years back  
 (21) A Yes, sir  
 (22) Q And in the mean time the employee went through  
 (23) rehabilitation and when talking to the management admitted  
 this  
 (24) prior activity several years back did your guidelines as you  
 (25) understand them require the company to punish the employee  
 for

Vol 22 3844

- (1) telling the manager?  
 (2) A Absolutely not As far as -  
 (3) Q That after having undergone rehabilitation and admitting  
 (4) some prior problem he now has to be punished?  
 (5) A Absolutely not He does not need to be punished We  
 (6) encourage our people to seek help He sought help and I  
 think  
 (7) it would have been a terrible thing to go back and discipline  
 (8) him retroactively after he'd gone and sought help and gone  
 (9) through rehabilitation  
 (10) Q Now one last item You were shown a list of companies  
 (11) which as of 1988 were doing some rehab testing post rehab  
 (12) testing?  
 (13) A Yes sir  
 (14) Q And you were asked about whether Exxon was the odd man  
 out  
 (15) in that list This is that draft document that you were asked  
 (16) about  
 (17) A Yes sir  
 (18) Q Now what did you say about how those companies were  
 (19) selected?  
 (20) A Well, that was a broad potpourri of companies As I  
 (21) testified, we looked at as many as 150 different companies  
 in  
 (22) our policy and what that draft document did was just speak  
 to  
 (23) those that were doing that type of testing, it didn't speak to  
 (24) those who were not doing that type of test  
 (25) Q In other words it picked just the pace setters?

Vol 22 3845

- (1) A That's what we did  
 (2) Q And of how many companies were on that list that were doing  
 (3) that?  
 (4) A My recollection was the BRT survey had 150 companies  
 in it,  
 (5) perhaps and so these were the pace setter companies out  
 of  
 (6) that group  
 (7) Q Seven?  
 (8) A There were seven  
 (9) MR LYNCH No further questions Your Honor  
 (10) THE COURT Sir you may step down  
 (11) MR CHALOS Your Honor I m happy to report to you  
 (12) and to the Jury that this is our last witness We re almost  
 (13) there  
 (14) The defense calls Captain Jay Bolton  
 (15) THE CLERK Raise your right hand please, sir  
 (16) (The Witness Is Sworn)  
 (17) THE CLERK For the record state your full name, your  
 (18) address and spell your last name, please  
 (19) THE WITNESS Yes sir My name is Captain Jay D  
 (20) Bolton that s B O L T O N I live at Browns Lane Old Lyme  
 (21) Connecticut  
 (22) THE CLERK Thank you sir  
 (23) DIRECT EXAMINATION OF JAY BOLTON (Live)  
 (24) BY MR CHALOS  
 (25) Q Captain Bolton how old are you?

Vol 22 3846

- (1) **A 51, sir**  
 (2) **Q 51 You look good 51? By whom are you employed?**  
 (3) **A I am presently self employed serving as a consultant**  
 (4) **Q Consulting on what?**  
 (5) **A At the present time I am consulting with a company that**  
 (6) **manufactures ship handling simulation and training**  
 (7) **equipment**  
 (8) **Q Tell us a little bit about that**  
 (9) **A My job in the last few months has been to survey**  
 (10) **merchant**  
 (11) **marine academies from around the world to determine their**  
 (12) **training requirements, learn of the training methods and to**  
 (13) **advise them as to what kind of equipment they can most**  
 (14) **effectively use to implement their training objectives**  
 (15) **Q Now when you talk about training are you talking about**  
 (16) **training officers to go on board vessels?**  
 (17) **A Yes, sir**  
 (18) **Q Now tell us a little bit about your educational**  
 (19) **background**  
 (20) **A I attended the State University of New York Maritime**  
 (21) **College and graduated in 1967**  
 (22) **Q Prior to that you were at the naval academy for a couple**  
 (23) **of years?**  
 (24) **A Yes sir**  
 (25) **Q Since your graduation from the - from Fort Schuyler can**  
 (26) **you tell us a little bit about your employment history?**  
 (27) **A Immediately upon graduation in 1967 I was deployed to a**

Vol 22 3847

- (1) **tanker that was serving in the Vietnam Persian Gulf waters**  
 (2) **and**  
 (3) **I served on that ship for approximately ten months Since**  
 (4) **then I've been serving continuous duty as a junior officer,**  
 (5) **rising through the ranks from third mate to second mate to**  
 (6) **chief mate**  
 (7) **Q Let's slow down a little bit How long were you - you got**  
 (8) **a third mate's license when you graduated right?**  
 (9) **A Yes sir**  
 (10) **Q How long did you sail as a third mate?**  
 (11) **A I sailed for six months as a third mate and then started**  
 (12) **sailing as a second mate on a waiver because of the**  
 (13) **Vietnam**  
 (14) **war**  
 (15) **Q Which war?**  
 (16) **A And I obtained my true second mate's license in early**  
 (17) **1969**  
 (18) **Q You were sailing through Vietnam you say?**  
 (19) **A Yes sir**  
 (20) **Q What type of ships were you on as a third mate and then a**  
 (21) **second mate?**  
 (22) **A Essentially tankers although as I rose to second mate I**  
 (23) **served aboard general cargo ships as well**  
 (24) **Q And eventually you became a chief mate?**  
 (25) **A Yes sir**  
 (26) **Q When did you obtain that license?**  
 (27) **A I obtained my chief mate's license in 1972**

Vol 22 3848

- (1) **Q And how long did you sail on that license?**  
 (2) **A I served in a capacity as chief mate from 1972 through the**  
 (3) **middle of 1977**  
 (4) **Q What type of ship?**  
 (5) **A Tankers**  
 (6) **Q Then I take it you - you received your master's license?**  
 (7) **A I received - I took the examination for my master's**  
 (8) **license and received it in 1974**  
 (9) **Q Okay When was your first job as a master?**  
 (10) **A My first command was in the fall of 1977**  
 (11) **Q What type of ship?**  
 (12) **A That was a 40 000 ton tanker**  
 (13) **Q When did you retire? You said you retired - or you left**  
 (14) **the seagoing career Sorry you're only 51 I'm sorry Go**  
 (15) **ahead**  
 (16) **A Too young to retire I left the company that I was working**  
 (17) **for as a master of tankers in 1980 - late 1987**  
 (18) **Q Did you work for the same company from 1977 to 1987?**  
 (19) **A Yes, sir**  
 (20) **Q As a master?**  
 (21) **A Yes sir**  
 (22) **Q And this company was who?**  
 (23) **A This was a company, Maritime Overseas Corporation**  
 (24) **Q And did they operate tankers in the Valdez trade?**  
 (25) **A Yes sir**

Vol 22 3849

- (1) **Q Was that your primary trade between 1977 and 1987?**  
 (2) **A It was part of our trade It wasn't primary I was**  
 (3) **involved in the Alaskan oil transportation scheme, but I**  
 (4) **spent**  
 (5) **a great deal of my time down in the Gulf of Mexico in the**  
 (6) **U S**  
 (7) **Gulf and east coast**  
 (8) **Q Have you been up to Valdez?**  
 (9) **A Yes sir**  
 (10) **Q On tankers?**  
 (11) **A Yes sir**  
 (12) **Q As a master?**  
 (13) **A Yes, sir**  
 (14) **Q How many trips did you make up there as a master?**  
 (15) **A It's an estimate but I would guess about 20 trips**  
 (16) **Q In your deposition you said 20 22 trips is that a fair**  
 (17) **estimate?**  
 (18) **A That's an estimate yes sir**  
 (19) **Q Trips are what we call round trips right?**  
 (20) **A Correct**  
 (21) **Q Okay So you would have been in and out of Valdez 40 to 44**  
 (22) **times?**  
 (23) **A If you included each passage that's correct**  
 (24) **Q As a master?**  
 (25) **A Yes sir**  
 (26) **Q What size tankers did you work on?**  
 (27) **A I was primarily engaged aboard a 90 000 ton tanker That**

Vol 22 3850

Vol 22 3852

- (1) ship had almost the same length as the Exxon Valdez She was
- (2) about 900 feet in length but she was much narrower and was not
- (3) as deep, so she was much smaller in size by tonnage
- (4) Q You've been on ships bigger than 90,000 tons?
- (5) A Yes, sir
- (6) Q As a master?
- (7) A Yes, sir
- (8) Q Also tankers?
- (9) A Yes, sir
- (10) Q Let me ask you this. In respect to your coming up to the
- (11) Valdez trade, did you hold the pilotage endorsement for Prince
- (12) William Sound?
- (13) A No, I did not
- (14) Q So all those trips that you made, 40 to 44 trips, you had
- (15) no pilotage endorsement?
- (16) A That is correct
- (17) Q Okay. Do you presently hold a master's license?
- (18) A Yes, sir
- (19) Q Is that an unlimited license?
- (20) A Yes, it is
- (21) Q You can go on any - any ship, any size, any ocean?
- (22) A Correct
- (23) Q Did you do any postgraduate studies after you left Fort
- (24) Schuyler?
- (25) A Yes, I did

- (1) master?
- (2) A Well, in 1987, I formed a nonprofit organization. I formed
- (3) it for the purpose of advancing the cause of marine safety
- (4) and
- (5) promoting the U.S. flagged merchant marine and promoting
- (6) U.S.
- (7) commerce and trade. The name of that organization is the
- (8) United States Maritime Foundation.
- (9) Q Is that the one that you're working for now?
- (10) A I am. That is still presently an active organization,
- (11) yes.
- (12) Q Now, have you ever qualified as an expert witness in a case
- (13) involving collisions or grounding?
- (14) A Once.
- (15) Q When was that?
- (16) A It was about a few months ago, three or four months ago.
- (17) Q Was that in federal court?
- (18) A Yes, sir.
- (19) Q In Newark, New Jersey?
- (20) A Yes, sir.
- (21) Q And were you accepted by the court as an expert in marine
- (22) operations, navigation and duties of a captain overall?
- (23) A Yes, sir.
- (24) Q Those were the subjects that you were accepted as an expert
- (25) on?
- (26) A In substance, yes.
- (27) Q Have you been to sea lately?

Vol 22 3851

Vol 22 3853

- (1) Q What type of studies?
- (2) A I attended various professional courses of study at an
- (3) organization called the Maritime Institute of Technology
- (4) and
- (5) Graduate Studies.
- (6) Q What was that in?
- (7) A Various topics, from admiralty law, ships medicine, cargo
- (8) operations and various courses like that. I also attended a
- (9) simulator, ship handling simulator course.
- (10) Q For tankers?
- (11) A For VLCC.
- (12) Q What is a VLCC?
- (13) A VLCC is what they call a very large crude carrier, and
- (14) those are ships that are generally judged by size of being
- (15) 265,000 tons up to about 300,000 tons.
- (16) Q Did you participate in a simulator project as a subject?
- (17) A Yes, I did.
- (18) Q That was over at Kings Point?
- (19) A Yes, sir.
- (20) Q And you had an opportunity to work the simulator and they
- (21) gauged your performance, is that the subject of the test?
- (22) A I was a test subject doing runs going up into the Valdez
- (23) Narrows.
- (24) Q They could simulate that?
- (25) A Yes, sir.
- (26) Q What have you done since you left going to sea as a tanker

- (1) A My last command was 19 - or last summer.
- (2) Q What was that?
- (3) A I was captain of a tall ship called the HMS Bounty.
- (4) Q Sailing ship?
- (5) A Yes, sir.
- (6) Q The Bounty?
- (7) A Yes, sir.
- (8) Q Like the mutiny on the Bounty, same Bounty?
- (9) A Yes, sir.
- (10) Q Did you leave that job voluntarily, or in a life boat?
- (11) A No, but they changed my name to "Captain Blighton".
- (12) MR CHALOS: Your Honor, I offer Captain Bolton as an
- (13) expert in the overall duties as a captain and navigable duties
- (14) particularly in respect to Prince William Sound.
- (15) MR MONTAGUE: No objection.
- (16) THE COURT: Captain's qualifications are accepted.
- (17) You may inquire.
- (18) BY MR CHALOS:
- (19) Q Captain, let's start generally. Can you tell us what the
- (20) duty of a master is on a ship? And let's do it on tankers.
- (21) A A captain's job or ship master's job is perhaps one of the
- (22) most unusual jobs in the United States. At first blush, one
- (23) could say he has to be the chief executive officer or the
- (24) chairman of his own company. More importantly, he has
- (25) areas of responsibility that transcend maybe more than 20 different

Vol 22 3854

- (1) areas of expertise He's expected to have working knowledge
- (2) and discharge his responsibilities in areas and in such topics
- (3) as nautical astronomy navigation naval architecture marine
- (4) engineering He must also be a paramedic level skilled individual so he can discharge his medical responsibilities
- (5) and the list goes on and on and on
- (7) The thing that makes this job perhaps really different is the fact that first he has this responsibility 24 hours a day
- (9) It never goes away while he's on board the ship or while the ship is at sea, and the other thing that makes his job somewhat
- (11) unique is the fact that up until most recently and even now, once a ship is at sea he has no umbilical cord of support He
- (13) is the sole decision maker and he lives with the responsibility
- (14) that he's got to discharge under various adverse and varied
- (15) conditions calling upon these levels of expertise at moments
- (16) and when he's least expecting it
- (17) Q What is the captain's role let's say in relation to his junior officers as far as teaching them as far as guiding them?
- (20) A I view that one of the most important jobs a master has is the education of all of his crew members Bear in mind if you're in the middle of the ocean on a small ship, and even ships like the Exxon Valdez, as big as she may appear here when you're at sea it becomes a very small island and we have
- (25) 25 people on board We're all dependent upon one another for

Vol 22 3855

- (1) our own survival and our well being and our happiness So the
- (2) most important job a captain has therefore is to develop those people professionally and assure that they have the professional skills and competency level such that they can discharge their responsibilities in an effective manner
- (6) Q How does he do that?
- (7) A Well, every captain has different ways of discharging that educational responsibility they're responsible to be a teacher So I couldn't speak to how they do it but typically it's done by encouraging them to assume responsibility to guide
- (11) them as they grow in their ability to accept and discharge consequential responsibility and I think that that's the key
- (13) Every crew member be it ordinary seaman or cook has got to be
- (14) able to accept and discharge his own consequential responsibility so that's the guide of a captain to a coach a teacher, and a cheerleader at the same time
- (17) Q Does the captain discharge that responsibility by giving his officers on the job training giving them responsibility to let them do it by themselves?
- (20) A Well it varies In my situation I did not have the luxury of having permanent officers or crew members so I would
- (22) be having to work immediately with people whom I did not know
- (23) did not know what their background was only the fact that they
- (24) had a Coast Guard license and were qualified So the first chore that I had was to assess the individual assess their own

Vol 22 3856

- (1) abilities at that point in time and then to grow that capability within each person
- (3) Q Let me get a little bit more specific now You've read the testimony of Captain Hazelwood in this case?
- (5) A Yes, sir
- (6) Q You read the testimony of Chief Mate Kunkel?
- (7) A Yes, sir
- (8) Q You've read the testimony of Third Mate Cousins?
- (9) A Yes, sir
- (10) Q Did you read the testimony of Mr LeCain?
- (14) A I don't remember the name LeCain
- (12) Q He was the second mate?
- (13) A No, I did not
- (14) Q Now, with respect to the testimony that you read you read about Captain Hazelwood's management style and the way he dealt
- (16) with his junior officers?
- (17) A Yes
- (18) Q You remember that?
- (19) A Yes, sir
- (20) Q How do you describe his management style vis a vis that you're talking about here what a captain needs to do to train his officers?
- (23) A Well I think that in the trial you may have heard or witnessed different management styles everybody has a different style I think one captain testified he does

Vol 22 3857

- (1) everything Doesn't trust anybody to do everything, he does
- (2) everything himself that way he doesn't -
- (3) Q I'm sorry to interrupt That particular captain that you're talking about was the plaintiff's expert Captain Clark?
- (5) A I think the name was Clark
- (6) Q You read his testimony as well?
- (7) A Yes
- (8) Q Go ahead
- (9) A That's an individual who doesn't trust himself enough to trust other people in my view Captain Hazelwood, in listening to or reading the deposition I think specifically of Mr Cousins and Mr Kunkel Mr Kunkel being close to being a
- (13) master having had a broad base of experience they indicated
- (14) to me that they had a very active or proactive master with respect to training and developing his management team if you
- (16) will between the levels of officers
- (17) So I would interpret Captain Hazelwood's modus operandi as
- (18) being one of - being very didactic and being very interested in the development of his junior officers
- (20) Q What was that word?
- (21) A Sorry very much of a teacher he's very educationally oriented Excuse me
- (23) Q When a captain does that when you have the style of Captain Hazelwood where he's teaching his junior officers what is the reward for him? I mean what can he expect in

Vol 22 3858

(1) return for doing that?  
 (2) A I think the reward of any teacher is to see their students  
 (3) go on to be successful and I think the biggest reward I've  
 had  
 (4) is to see people I've had opportunity working with as third  
 (5) mate to learn that they are someday a captain That's the  
 most  
 (6) rewarding The instant gratification or benefit is the fact  
 (7) that the ship manning infrastructure was not designed to be  
 a  
 (8) one man dog and pony show it was designed that lots of  
 (9) professionals would work different departments  
 engineering,  
 (10) steward and deck performing their tasks so by  
 emphasizing the  
 (11) educational level by developing the professional  
 competency  
 (12) it assured that the ship had a better overall sense of - or  
 (13) capability of being operated safely  
 (14) Q A captain can I be on the bridge 24 hours a day can he?  
 (15) A That's a good question There are many many  
 documented  
 (16) cases whereby a captain has tried to live on the bridge day  
 in  
 (17) and day out Most recently there was a captain who - no  
 (18) offense it was a Greek ship was coming into -  
 (19) Q They love these Greeks I'm telling you take it easy  
 (20) will you?  
 (21) Go ahead  
 (22) A The captain was making landfall coming into I think  
 Rhode  
 (23) Island a couple of years ago, and he had been on the bridge  
 for  
 (24) 24 48 hours or something and he missed the buoy and ran  
 aground because he was trying to do it all himself. So  
 (1) that's - that's the disaster of trying to do everything by  
 (2) yourself and exhausting yourself beyond any realm of  
 (3) reasonability  
 (4) Q Do you have an opinion as to Captain Hazelwood's  
 management  
 (5) style? Was it good had based on your experience and based  
 on  
 (6) your experience in training officers?  
 (7) A Well the testimony has been that he's the best -  
 (8) Kunkel - I think Mr Kunkel said he's the best captain I've  
 (9) ever sailed with Bear in mind that the junior officers  
 (10) Mr Kunkels of the world who are looking at becoming a  
 master  
 (11) they're looking for a role model what kind of captain are  
 they  
 (12) going to be when they get to sit in that chair So that  
 (13) meaning he's the best captain I ever sailed with doesn't  
 mean  
 (14) he's the nicest guy in the world, but it does mean he's  
 (15) probably the most effective individual that that individual  
 has  
 (16) sailed with so I'd rather say that based on that input that  
 (17) Captain Hazelwood must have been a very effective ship's  
 (18) master  
 (19) Q You mentioned Captain Clark Let me ask you a few  
 (20) questions about him He testified - Captain Clark again was  
 (21) the plaintiffs expert he testified that in I think 20 years  
 (22) or so at sea he never came close to making a mistake or having  
 (23) an accident What do you think about that?  
 (24) A Boy, was he lucky  
 (25) Q You think he was just lucky?

Vol 22 3860

(1) A I - going to sea is a hazardous occupation It's a  
 (2) hazardous business by its very nature In my 20 some odd  
 years  
 (3) of going to sea I don't think there's been a tour that I have  
 (4) not witnessed some form of mishap or an accident That's  
 the  
 (5) nature of the business And the nature of our training is to  
 (6) try to cope with that - that mishap or accident as best we  
 can  
 (7) to minimize the danger  
 (8) Q I take it in your career you've had some close calls  
 (9) yourself?  
 (10) A Yes sir  
 (11) Q Now you read did you not that the Exxon Valdez in 1987  
 (12) and 1988 under Captain Stalzer and Hazelwood won the fleet  
 (13) manager's safety award?  
 (14) A Yes sir I did  
 (15) Q What does that indicate to you?  
 (16) A It indicates two things to me The company that I worked  
 (17) for was not an oil company fleet it was a company that  
 (18) operates many tankers and that's their primary business  
 The  
 (19) company that I work for and many other companies that I  
 worked  
 (20) for did not have a safety awards program so that tells me  
 one  
 (21) thing, that from the administration perspective the  
 company  
 (22) was interested in higher level or consistent level of safety  
 (23) From the instant performance perspective it indicates that  
 (24) during those two years, the people who - and the crew who  
 were  
 (25) on board that ship were achieving a high level of safety in  
 all

Vol 22 3861

(1) areas, perhaps from the galley to down in the engine room  
 and  
 (2) up to the bridge  
 (3) Q You started to say something before and I jumped in  
 (4) Accidents and mishaps in the marine transportation field and  
 (5) the seagoing field are common occurrences aren't they?  
 (6) A Yes sir  
 (7) Q I mean that's part and parcel of the business isn't it?  
 (8) A Right I believe that in the Lloyd's list which is a  
 (9) publication out of London I think they record something at  
 (10) least one maritime casualty a day  
 (11) Q Serious maritime casualty?  
 (12) A Yes  
 (13) Q As opposed to somebody cutting their finger?  
 (14) A Correct, groundings, drowning, collisions, fire  
 (15) Q Captain Bolton did you ever have the occasion to visit the  
 (16) Exxon Valdez?  
 (17) A Once  
 (18) Q When was that?  
 (19) A I was on my tanker, I say loosely I was aboard a ship in  
 (20) Valdez and I saw this new ship, I knew it was an Exxon ship,  
 (21) never been on board an Exxon ship and I wanted to - I was  
 very  
 (22) interested to see what it was like to - to be on a brand new  
 (23) ship like that operated by an oil company so I went over to  
 (24) have a tour  
 (25) Q Who was the captain at the time?

Vol 22 3862

- (1) A It was Captain Hazelwood  
 (2) Q Did you meet Captain Hazelwood in town or did you go over  
 (3) to his ship?  
 (4) A I don't remember I think I may have met him at the agent  
 (5) office, Alamar or someplace I don't remember But either  
 he  
 (6) invited me over or I marched over myself, and I don't  
 (7) remember  
 (8) Q Okay When you went on board did Captain Hazelwood  
 give  
 (9) you a tour?  
 (10) A Yes, he did  
 (11) Q What did you find?  
 (12) A Well obviously I was very impressed with regard to the  
 (13) ship It was new The equipment that they had on the ship  
 far  
 (14) and away exceeded industry standard which a marine  
 industry  
 (15) standard from all the ships I have ever been on, especially  
 (16) impressive was the firefighting capability The extra gear  
 (17) that is put on that was not required by Coast Guard, and I  
 went  
 (18) away thinking that I checked off the wrong box  
 (19) Q What box is that?  
 (20) A Well, I wish I'd worked for Exxon  
 (21) Q Well let me ask you this Did you at my request review  
 (22) some of the Exxon safety manuals -  
 (23) A I -  
 (24) Q - and procedures?  
 (25) A - reviewed the bridge organization guide and I think that

Vol 22 3863

- (1) that's the only Exxon publication that I reviewed  
 (2) Q How did that - what you read how did that compare to the  
 (3) industry standard?  
 (4) A Bear in mind my frame of reference in my going to sea,  
 I'd  
 (5) worked for maybe 15 different companies there are always  
 duty  
 (6) instructions sometimes outdated old sometimes no  
 (7) instructions The last ship that I was in command of not the  
 (8) Bounty but the last big ship had literally no instructions to  
 (9) the master  
 (10) I found in reading those instructions or guides, guidelines  
 (11) I guess they call them they were comprehensive in my  
 sense  
 (12) they were a good and excellent guide especially for what I  
 (13) perceived to be like a first time master or a first time  
 (14) employee because it lays out very specifically what's  
 expected  
 (15) of him and what's expected of him without taking away his  
 (16) authority and I thought it was from that respect extremely  
 (17) well written and authored from my experience  
 (18) MR CHALOS Okay I'd like to - Your Honor I can  
 (19) start a new subject now or we can take our break whatever you  
 (20) like  
 (21) THE COURT Let's take our break We'll be in recess  
 (22) for 15 minutes  
 (23) THE CLERK Court is in recess for 15 minutes  
 (24) (Jury out at 11 57 a m )  
 (25) (Jury in at 12 16 p m )

Vol 22 3864

- (1) BY MR CHALOS  
 (2) Q Mr Bolton I want to cover a subject very quickly  
 (3) There's been testimony in this trial that the sailing board -  
 (4) you're familiar with the sailing board on the ship?  
 (5) A Yes, sir  
 (6) Q That's to advise crew members going ashore what time the  
 (7) vessel would sail?  
 (8) A Correct  
 (9) Q There's been testimony here that the sailing board was set  
 (10) for 9 00 originally it was later changed And Captain  
 (11) Hazelwood and his two shipmates found out it was changed to  
 (12) 10 00 and then unbeknownst to them was moved back up to  
 (13) 9 00 What I want to ask you is based on your experience  
 (14) sailing up to Valdez have you ever seen that situation where a  
 (15) sailing board was put back to 10 00 - or back to any time and  
 (16) then moved back up?  
 (17) A It cannot  
 (18) Q It cannot?  
 (19) A It cannot be changed the other direction  
 (20) Q Why not?  
 (21) A The sailing board - the purpose of the sailing board was  
 (22) set up such that if the ship is in port and sailors go ashore,  
 (23) and the ship decides to sail that they would leave seamen  
 (24) destitute, that's the basic idea You can't leave a guy on the  
 (25) beach looking for a ship So there are rules or regulations

Vol 22 3865

- (1) that many maritime unions have set up, and I don't know if it  
 (2) applies to Exxon but in principle, it says that there are very  
 (3) distinct rules that you must tell the crew members what  
 time  
 (4) you're going to sail and you cannot leave earlier because of  
 (5) the fact you would leave somebody destitute so you never  
 (6) advance the sailing board to an earlier time You can  
 postpone  
 (7) it but never advance it  
 (8) Q Was it unreasonable for Captain Hazelwood and his two  
 (9) shipmates to believe that once they found out the sailing board  
 (10) was set at 10 00 was it unreasonable for them to believe that  
 (11) the ship would sail at 10 00 or later?  
 (12) A No, that's a reasonable assumption  
 (13) Q All right I want to speak to you now about the transit  
 (14) the vessel's transit through the Narrows There's been  
 (15) evidence presented in the trial that the captain Captain  
 (16) Hazelwood was off the bridge during the transit of the  
 (17) Narrows  
 (18) A Yes  
 (19) Q And appears that he was off for about 30 minutes 35  
 (20) minutes There's also evidence that during that period of  
 (21) time he came up once stood in the back took a look around  
 (22) okay and there's further evidence that the mate called him  
 (23) while he was in his office and advised him what was going on  
 (24) Okay I want you to assume all that Are there any  
 (25) regulations that you're aware of prior to the grounding that

Vol 22 3866

- (1) required the master to be on the bridge at any time in Prince  
 (2) William Sound?  
 (3) A No  
 (4) Q That includes the narrows is that correct?  
 (5) A Correct  
 (6) Q It's true is it not that it's in the master's discretion  
 (7) as to when he should be on the bridge and when he should be  
 (8) off the bridge?  
 (9) A Right  
 (10) Q He decides that doesn't he?  
 (11) A Yes sir  
 (12) Q Now Captain Clark testified here on behalf of the  
 (13) plaintiffs that in his opinion Captain Hazelwood exercised poor  
 (14) judgment by being off the bridge during the transit of the  
 (15) Narrows okay?  
 (16) A I remember reading that  
 (17) Q Do you agree or disagree with that opinion?  
 (18) A I disagree  
 (19) Q Why?  
 (20) A As I said earlier the captain is a CEO and he has many  
 (21) responsibilities including the safe navigation of the vessel  
 (22) and that's not a minimal responsibility He has many  
 (23) responsibilities The captain has got to use his discretion  
 (24) and look at the risk analysis or perform a risk analysis if  
 (25) you will of the -- of the potential dangers or non dangers

Vol 22 3867

- (1) that a ship would be encountering to determine where he  
 should  
 (2) or should not be so he's got to make that decision himself  
 (3) Q Let me ask you this With respect to the transit through  
 (4) the Narrows of any tanker going through  
 (5) A Yes  
 (6) Q What are the things that a captain sees knows is  
 (7) confronted with? I mean what are the factors?  
 (8) A The factors that he would use in performing his risk  
 (9) analysis?  
 (10) Q Right  
 (11) A Sure In the Narrows, there are perhaps two kinds of  
 (12) factors, one are ship factors and the other are  
 environmental  
 (13) factors Let's look at the ship factors first Any ship  
 (14) that's navigate in a restricted waterway, narrows or any  
 river  
 (15) or any port the two most common ship factors are loss of  
 your  
 (16) rudder your steering capability, and the second is a loss of  
 (17) your engine Would you like me to go through what that  
 means?  
 (18) Q Yeah yeah yeah I'm not ignoring you I was looking for  
 (19) an exhibit Go ahead  
 (20) A As far as this ship is concerned, in modern day tankers  
 (21) safety systems and backup systems are installed to  
 minimize  
 (22) that risk For example there are two steering -  
 independent  
 (23) steering systems on the ship so if one fails, it's a matter of  
 (24) pushing a button or a lever and you instantaneously within  
 two  
 (25) seconds can be working on your backup system Very  
 similar

Vol 22 3868

- (1) like an airplane they have backup systems  
 (2) If for any reason that system were to fail there is a  
 (3) third system which bypasses all the electronics on the  
 bridge  
 (4) and gives a direct stimulus or signal to the steering gear  
 (5) which is back in the back part of the ship so there's three  
 (6) systems for backup on the steering  
 (7) So in the Narrows where there is no current or minimal  
 (8) current, where the ship is steadied on course, if the rudder  
 (9) were to fail once, twice, or maybe altogether, then the next  
 (10) back up that is available is the assistant tug, and they have  
 a  
 (11) tugboat that goes out with the shipper per chance that  
 (12) emergency, so at the speed that the ship is traveling, which  
 is  
 (13) about seven miles per hour six knots that tug is close  
 enough  
 (14) to come alongside the ship and steer it until such time that  
 (15) either the steering system can be restored  
 (16) With regard to the engine, the problem with when you lose  
 (17) the engine or you lose the plant as they sometimes say, is  
 (18) that you would lose electricity and you would lose your  
 (19) steering and everything else So they have a backup  
 system for  
 (20) that and they have what they call an emergency generator,  
 and  
 (21) the emergency generator on the ship is designed to trip on  
 (22) almost instantaneously within a few seconds When you  
 lose the  
 (23) engine's generation system and that generator supplies  
 (24) electricity for the steering so at the very least you would  
 (25) steer yourself through the Narrows at a slower speed So  
 those

Vol 22 3869

- (1) are the two ship risks  
 (2) The environmental risks that need to be considered are in  
 (3) any port any - any channel what kind of current do you  
 (4) have Well in some places like in the Mississippi River the  
 (5) current can be running at maybe five or six miles per hour  
 and  
 (6) so that is very much of a factor that could push the ship into  
 (7) another ship or push the ship under the - onto the shore  
 (8) The other factor is wind On a loaded tanker wind is  
 (9) really not a factor On an empty tanker it is because most  
 of  
 (10) it's out of the water A loaded tanker that is not a factor  
 (11) So those are the two key environmental factors  
 (12) The third would be how much water is under the ship In  
 (13) some places it's not uncommon to navigate a ship where  
 there is  
 (14) minimal clearance between the bottom of the ship and the  
 bottom  
 (15) of the channel maybe three or four feet sometimes less  
 and  
 (16) that becomes very much a factor In the case of the Valdez,  
 (17) the Narrows that was not the factor  
 (18) Q Let me ask about that The water in the Narrows is very  
 (19) deep is it not?  
 (20) A Yes sir  
 (21) Q Over 600 feet?  
 (22) A Something like that  
 (23) Q There's no current running through there or negligible  
 (24) current?  
 (25) A Correct

Vol 22 3870

- (1) Q And the wind is not a factor?  
 (2) A Correct  
 (3) Q He didn't have any of the environmental factors to  
 (4) consider?  
 (5) A His factors were technical And there's one other factor  
 (6) that needs to be assessed, and that is the human factor and  
 the  
 (7) potential for human error And on board a tanker or a ship,  
 (8) when you have a pilot, you have a licensed deck officer and  
 you  
 (9) have an experienced qualified helmsman there are  
 basically  
 (10) three people on the bridge that are checking and cross  
 checking  
 (11) one another for the human error factor So it's like a triple  
 (12) redundant type of a situation on board the bridge of any  
 (13) merchant ship  
 (14) Q You read the testimony in this case that Captain Murphy was  
 (15) the pilot on board?  
 (16) A Yes  
 (17) Q You know Captain Murphy?  
 (18) A I don't know him personally I believe I've - may have  
 (19) had him - I'm sure I've had him during one of my transits but  
 (20) I do not know him personally  
 (21) Q You have any doubt - he's been described as a very  
 (22) competent pilot, you have any doubt about that?  
 (23) A In my experience coming into Valdez, the - all of the  
 (24) pilots had a uniform standard of excellence that I wish many  
 (25) other ports in the world had the same standard Good pilots

Vol 22 3871

- (1) and - and by virtue of the fact that myself I was up here  
 (2) about 20 times, the captain gets to know the pilot, know his  
 -  
 (3) his technique, and generally, there's a bond of trust that  
 (4) develops once you know how they - how they operate  
 (5) Q Captain Bolton let me get to the bottom line on this  
 (6) inquiry The testimony here was that the trip through the  
 (7) Narrows was uneventful?  
 (8) A Yes  
 (9) Q No problems?  
 (10) A Correct  
 (11) Q Okay and Captain Clark testified that in his opinion the  
 (12) fact that Captain Hazelwood may have been off the bridge  
 during  
 (13) that period of time played no role in the grounding do you  
 (14) have any reason to dispute that?  
 (15) A No, I don't  
 (16) Q You agree with that?  
 (17) A I agree  
 (18) Q Now let me ask you this you've sailed in Prince William  
 (19) Sound made 20 trips 40 passages How do you compare  
 (20) navigating in Prince William Sound to other areas of the world  
 (21) that you've operated in let's say the Mississippi or down in  
 (22) Galveston Houston?  
 (23) A I think by way of comparison is perhaps one of the  
 easiest  
 (24) ports in the world My last VLCC, which was a ship that was  
 (25) 1100 feet long, I was transiting something called the  
 Malacca

Vol 22 3872

- (1) Straits going by the Straits of Singapore and through that  
(2) straits which is a much narrower body of water going in and  
(3) out of the port they average 270 ships each day 270 ships  
(4) each day plus the other traffic so probably somewhere in  
(5) the neighborhood of three to four hundred ships are transiting  
(6) an area that is much more confined with heavy current than  
(7) Prince  
(8) William Sound  
(9) Q Did you find it to be an easy place to navigate?  
(10) A Yes  
(11) Q The hazards whatever hazards there are are they  
(12) well known?  
(13) A They're very well defined  
(14) Q And well marked?  
(15) A Yes  
(16) Q I'm showing to the jury now Defendants Exhibit 9172 which  
(17) is in evidence This is the Prince William Sound that we're  
(18) talking about right? Fairly wide open roadstead?  
(19) A Yes, sir  
(20) Q Little or no traffic most of the time?  
(21) A I don't know what the statistics are but in - very rarely  
(22) do we pass another ship in the safety lanes very rarely  
(23) Q Okay Now Admiral Yost said - just one more question on  
(24) this and we'll leave it alone Admiral Yost said that this  
(25) was in his opinion a very very easy area and the third mate  
(26) could navigate in this area with no problem at all Do you

Vol 22 3873

- (1) agree or disagree?  
(2) A Admiral Yost as you remember was the commandant of  
(3) the  
(4) U S Coast Guard and as such I would consider him to be  
(5) one  
(6) of the leading authorities on vessel safety qualifications  
(7) and  
(8) probably one of the most knowledgeable people in the  
(9) United  
(10) States He made a comment that even a child could  
(11) navigate  
(12) Well, I wouldn't go so far as saying a child could navigate,  
(13) but certainly with a professionally licensed and qualified  
(14) individual, this was perhaps a textbook area of - of a place  
(15) where any officer could and should be able to navigate  
(16) successfully  
(17) Q Captain Bolton while we have the chart out when you came  
(18) up to Valdez without your pilotage endorsement -  
(19) A Yes  
(20) Q - where did you pick up and drop off the pilot?  
(21) A A little south of Rocky Point  
(22) Q Up here?  
(23) A Yes, sir  
(24) Q In this area?  
(25) A Correct  
(26) Q Okay I'd like to ask you about the communications that  
(27) you had with the Vessel Traffic Center when you were up there?  
(28) A Yes  
(29) Q Okay did you report to them from time to time?  
(30) A Yes, that was a requirement

Vol 22 3874

- (1) Q Okay there's been - when you were up there you deviated  
(2) out of the lanes for ice?  
(3) A Yes  
(4) Q And you gave them certain reports when you did that?  
(5) A We deviated for ice on one occasion for vessel traffic  
(6) Q There's been testimony here by Captain Clark and Captain  
(7) Clark criticized the communications that Captain Hazelwood  
(8) had  
(9) with the VTS where he told them that he was leaving the lanes  
(10) so on so forth okay? Are you with me so far?  
(11) A Yes  
(12) Q What Captain Clark said - well let me back up What  
(13) Captain Hazelwood said he made a transmission to them after  
(14) -  
(15) after the pilot came off - let me put up a chart This way I  
(16) can read from it  
(17) At 11 24 this is after the pilot got off within a minute  
(18) after the pilot got off Captain Hazelwood told them that he  
(19) departed the pilot and is hooking up to sea speed and he gave  
(20) them an ETA at Naked Island Now was that the standard  
(21) phrase  
(22) that was used up there when you were up there?  
(23) A Yes, sir  
(24) Q Okay Then he's telling them I will probably divert in  
(25) from the TSS and end up in the inbound lane and if there's no  
(26) conflicting traffic What does the TSS mean to you?  
(27) A That means traffic separation scheme  
(28) Q I'm looking at Defendants Exhibit 9172 - finally I got

Vol 22 3875

- (1) him to do something for me Thank you The TSS is the  
(2) southbound lane the separation zone and the northbound  
(3) lane  
(4) right?  
(5) A Yes, sir  
(6) MR CHALOS Thank you Mr Neal  
(7) MR NEAL You're welcome  
(8) MR CHALOS You're very good I may use you again  
(9) BY MR CHALOS  
(10) Q When he's telling them he's diverting from the TSS he's  
(11) telling them he's going right out of the lanes correct?  
(12) A Yes  
(13) Q Now at 11 30 - you read Captain Hazelwood's testimony,  
(14) did you not?  
(15) A Yes I did  
(16) Q He said that when he made this transmission at 11 24 he  
(17) was still assessing the situation you remember?  
(18) A Yes  
(19) Q And he was over at the radar looking at the ice situation  
(20) and that he changed his mind and he decided not to go to sea  
(21) speed at that point all right you remember that?  
(22) A Yes  
(23) Q So then he calls back at 11 30 and says at the present  
(24) time I am going to alter my course to 200 and reduce speed to  
(25) about 12 knots and to wend - wend means to maneuver  
(26) doesn't  
(27) it in nautical talk?

Vol 22 3876

- (1) A Yes
- (2) Q And wend my way through the ice and then he tells them
- (3) about what he s going to do with his ETA Is that a lot of
- (4) information to give to the VTS?
- (5) A In my opinion, it is perfectly more than ample
- (6) Q And when he told them he was going about 12 knots that s
- (7) his full ahead maneuvering speed isn t it or thereabouts?
- (8) A I believe that is, yes
- (9) Q So when you read this do you take it as Captain Hazelwood
- (10) revising his previous - his previous advice to them that he
- (11) was hooking up to sea speed to tell them that he was
- (12) maintaining his speed at around 12 knots?
- (13) A I believe the sea speed on that ship is something around
- (14) 15
- (15) or 16 knots
- (16) Q Right
- (17) A So his second transmission where it says, reduce speed
- (18) to
- (19) about 12, that means he's not going to go up to the sea
- (20) speed
- (21) That's how I would interpret that
- (22) Q Okay There s been some criticism by Captain Clark that
- (23) eventually Captain Hazelwood put the vessel on a course of
- (24) 180
- (25) on a course of 180?
- (26) A Yes
- (27) Q And that he didn t report that?
- (28) A Correct
- (29) Q You remember he said that?

Vol 22 3877

- (1) A (Nods head up and down)
- (2) Q And that was against what he said the rules you agree or
- (3) disagree with that?
- (4) A I disagree
- (5) Q Tell us why?
- (6) A At that point in time the captain is concerned with
- (7) determining how he s going to direct his vessel how he's
- (8) going
- (9) to get through the ice That's the key thing He's made his
- (10) initial report to VTC, in my view That tells VTC he's doing
- (11) something that's totally different than the normal and at
- (12) that
- (13) point the captain's got other things on his mind in my view
- (14) than to be providing excess communications to VTC
- (15) And with regard to VTC having received a transmission
- (16) from
- (17) a ship saying, I'm doing something that's different that to
- (18) me
- (19) is a tip-off to VTC they should start to monitor that
- (20) situation and so the transmissions - any other
- (21) transmissions
- (22) would not be necessary
- (23) Q I m going to ask you about the monitoring in a second I d
- (24) like to just stick to this In your experience up there
- (25) you ve had a chance to use the users manual up there?
- (26) A Yes
- (27) Q Is there any requirement in the users manual that says you
- (28) have to tell them every time you change course?
- (29) A No
- (30) Q Okay Let s take a look at the communications by the

Vol 22 3878

- (1) Brooklyn and the Arco Juneau You re aware that they also
- (2) went
- (3) outside the TSS?
- (4) A Correct
- (5) Q Have you had a chance to compare the communications that
- (6) Captain Hazelwood made to the ones that were made by the
- (7) Brooklyn and the Arco Juneau in terms of the amount of
- (8) information that was given?
- (9) A Yes
- (10) Q Who gave the most information?
- (11) A Well, it's clear by the chart that Captain Hazelwood was
- (12) giving them far more information than the other two vessels
- (13) were
- (14) Q Did either one of the other vessels give a speed or a
- (15) course that they were steering?
- (16) A I don't believe so
- (17) Q I want to show you something I m going to put this up
- (18) This is Defendants Exhibit 1735 Alpha Your Honor in
- (19) evidence
- (20) The yellow dayglow yellow is the Arco Juneau you see
- (21) this? And the orange is the Brooklyn okay you with me? Can
- (22) you see?
- (23) A Yes
- (24) Q The Arco Juneau made one course change two course
- (25) changes
- (26) three course changes you see this?
- (27) A Yes

Vol 22 3879

- (1) Q And the Brooklyn made one course change two course -
- (2) also
- (3) three course changes right?
- (4) A Correct
- (5) Q Is there any indication any indication on the
- (6) communications that they had with VTC where they advised of
- (7) any
- (8) course change?
- (9) A No
- (10) Q But Captain Hazelwood told them that he was changing
- (11) course he gave them a course?
- (12) A Yes, sir
- (13) Q Okay I want to go to another subject now so we can move it
- (14) along There s been some testimony here about the use of the
- (15) autopilot?
- (16) A Yes
- (17) Q Captain Hazelwood has testified that he put it on for
- (18) anywhere from five to eight minutes?
- (19) A Yes
- (20) Q You remember that?
- (21) A Yes
- (22) Q And he also testified that the reason he did that was so he
- (23) could get a clear picture of the ice he wanted a steady course
- (24) and it was at a time when the helmsmen were changing?
- (25) A Yes
- (26) Q So he didn t want to have to look at the helmsman keep an
- (27) eye on the helmsman while he concentrated on the ice with

Vol 22 3880

Vol 22 3882

- (1) Cousins?
- (2) A Yes
- (3) Q You remember all that?
- (4) A Yes I do
- (5) Q With respect to the use of the autopilot are there any regulations that you re aware of that prohibit the use of the autopilot in Prince William Sound?
- (6) A There are no regulations that I'm aware of
- (7) Q It s up to the captain to decide that isn t it?
- (8) A Yes
- (9) Q And depending on what he wants to do he can use it anywhere?
- (10) A Correct
- (11) Q And you yourself have used autopilot in Prince William Sound have you not?
- (12) A I've used it in Prince William Sound and in congested maneuvering areas
- (13) Q More congested than this area?
- (14) A Yes
- (15) Q Now I told you what Captain Hazelwood testified and that comports with your recollection?
- (16) A Yes
- (17) Q Do you find anything unreasonable in what Captain Hazelwood did or was thinking about when he used the autopilot?
- (18) A No

- (1) together and they assessed the situation and stood there for about ten minutes talking the situation over You remember that?
- (2) A Yes I do
- (3) Q And that Captain Hazelwood was asking for input from Mr Cousins?
- (4) A Correct
- (5) Q And giving input to Mr Cousins?
- (6) A Yes
- (7) Q How does that - that exchange that ten minute exchange where they were both gathering information and talking it over and so on and so forth how does that fit into this training thing that you re talking about the training of officers?
- (8) A I think that that maybe is a perfect example whereby the captain is giving certain bits of information what do you think about it getting the officer to become an active participant in the job at hand So that's a very excellent way of developing the training
- (9) More importantly it develops a bond of trust between the junior officer and the captain which in many cases is totally absent So it bolsters the confidence of the junior officer that he can have this dialogue with the senior captain and not be criticized for it So in my view this is a very excellent kind of opportunity to - to conduct call it training exercise but to continue this philosophy

Vol 22 3881

Vol 22 3883

- (1) Q Do you agree that that was a good maneuver that he made under the circumstances?
- (2) A Well I don't know what was in Captain Hazelwood's mind It was good for his management decision based upon the information that he provided in the deposition or trial testimony It was a good - a good decision sure
- (3) Q Assume the facts I just gave you -
- (4) A Yes
- (5) Q - that he said I was looking at the ice I wanted a steady course I wanted a clear picture on my radar -
- (6) A Sure
- (7) Q - and I don t want to have to watch a helmsman Are those two good reasons for what he did?
- (8) A Very good reasons
- (9) Q Do you agree or disagree with Captain Clark s opinion that the autopilot played no role in the grounding the use of the autopilot?
- (10) A Yes I do It played no role in the grounding
- (11) Q Okay I want to talk a little bit about the communications that Captain Hazelwood had with Third Mate Cousins?
- (12) A Yes
- (13) Q Do you remember the testimony on that?
- (14) A Yes
- (15) Q Just so we put it into perspective both Captain Hazelwood and Third Mate Cousins testified that they stood at the radar

- (1) Q You read that Mr Cousins said that the captain elicited from him his advice?
- (2) A Yes
- (3) Q Is that good or bad?
- (4) A Excellent
- (5) Q Now in terms of - of the maneuver that they were contemplating -
- (6) A Yes
- (7) Q - was this discussion the overall discussion a good or a bad thing?
- (8) A The discussion?
- (9) Q Yeah In other words Captain Hazelwood didn t just say to the mate okay I m leaving, it s yours?
- (10) A No it was an - an excellent or outstanding interchange between junior officer and senior officer
- (11) Q And what was the purpose in your mind? I mean what was the purpose of this discussion?
- (12) A Well the purpose I believe number one, was from the educational perspective it appears that at some point to continue that educational process or for some reason, the captain, as I've learned subsequent to my earlier deposition, had a reason for leaving the bridge He was well preparing that officer to continue in the performance of his duties, so he was preparing that gentleman to be able to successfully conduct the navigation and pilotage of the vessel

Vol 22 3884

- (1) Q Based on what you read in terms of Captain Hazelwood's  
 (2) testimony and Mr Cousins' testimony, did the captain give on  
 (3) the basis of this discussion that they had, did the captain  
 (4) give that mate enough information for the mate to carry out the  
 (5) contemplated maneuver?  
 (6) A Yes  
 (7) Q Now, did you conclude whether or not they came to a mutual  
 (8) agreement about the contemplated maneuver?  
 (9) A They did come to a mutual agreement.  
 (10) Q What do you base that on?  
 (11) A I base it primarily on the trial testimony of Mr Cousins  
 (12) and also the testimony of Captain Hazelwood. And in both  
 (13) cases, Mr Cousins basically sent a loud and clear signal to  
 (14) Captain Hazelwood, I understand what's at hand. I'm  
 comfortable  
 (15) with it, and I can do it.  
 (16) Q Was it unreasonable for Captain Hazelwood, given this  
 (17) discussion that they had, given the situation that they were  
 (18) looking at and given Cousins' assurance to him that he was  
 (19) confident, comfortable with the situation, was it unreasonable  
 (20) for him to rely on what Mr Cousins told him?  
 (21) A No.  
 (22) Q One factor we didn't throw in, Captain Hazelwood has  
 (23) testified that he knew Mr Cousins and he knew him as a good  
 (24) mate, remember that?  
 (25) A Yes.

Vol 22 3885

- (1) Q Does that go into the planning and thinking process?  
 (2) A All of the factors go - yes. That's one of many factors  
 (3) that goes into play, as far as determining when and under  
 what  
 (4) circumstances you turn the con over to a deck officer.  
 (5) Q In your opinion, based upon the testimony that you read  
 (6) could Mr Cousins have said no to Captain Hazelwood if he  
 (7) wasn't confident?  
 (8) A Most definitely. That's a duty responsibility of any  
 (9) junior mate or any deck officer.  
 (10) Q Was there anything in what you read that indicated to you  
 (11) that Mr Cousins was afraid to say no to Captain Hazelwood?  
 (12) A No, to the contrary.  
 (13) Q Why do you say that?  
 (14) A Because of the dialogue, there's one statement that he  
 was  
 (15) one of the easiest going captains I've ever sailed with and  
 (16) because of this ongoing, long term or relatively long term  
 (17) professional relationship where they knew one another,  
 they  
 (18) could have this bond of trust that I spoke about, was so  
 (19) important.  
 (20) Q In reading Mr Cousins' testimony, did you discern anything  
 (21) that - that said to you that Mr Cousins was in doubt that  
 (22) Captain Hazelwood would stay on the bridge if he told him  
 (23) look, Captain, I can't handle this.  
 (24) A I think he testified to the fact that at any time if he'd  
 (25) asked the captain to remain on the bridge or come back to  
 the

Vol 22 3886

- (1) bridge, the captain certainly would have done so.  
 (2) Q So he had that option available to him at any time, didn't  
 (3) he?  
 (4) A Yes.  
 (5) Q Including saying, Captain, don't leave the bridge, I'm not  
 (6) comfortable?  
 (7) A Most definitely, and that's a very common request of a  
 (8) junior officer. I deal with it perhaps more because I have  
 (9) officers I don't sail with all the time. But at any time that  
 (10) they're not comfortable, the first one to say, Captain, you  
 (11) better stay here because I'm not comfortable with this, I  
 (12) haven't done this before, that's a tradition of - I won't say  
 (13) tradition of the sea, but certainly is well within the working  
 (14) relationship between junior and senior officer.  
 (15) Q And based on your experience, there's no repercussion, is  
 (16) there, if the mate says no, Captain, I want you to stay with  
 (17) me?  
 (18) A No, never. At least not to my - my experience level.  
 (19) Q I mean, in dealing with your mates, if a mate asked you to  
 (20) stay up there, you would have stayed, wouldn't you?  
 (21) A Correct.  
 (22) Q And that's what Cousins said about Captain Hazelwood  
 (23) right?  
 (24) A Right, and what that's saying to the captain is, I need  
 (25) some more instruction, I need some more guidance or I  
 need your

Vol 22 3887

- (1) experience, and that's the reason why the captain would  
 (2) remain.  
 (3) Q Okay, I want to put up the - what I referred to as the  
 (4) ice chart, and I want to talk about the maneuver, the  
 (5) contemplated maneuver. This is Defendant's Exhibit 1729.  
 This  
 (6) is a chart that was prepared during Captain Hazelwood's  
 (7) deposition. Captain Hazelwood has testified that the apex of  
 (8) the ice - let me get a pointer.  
 (9) MR SANDERS: Here, Mike.  
 (10) MR CHALOS: I'm going to use the plaintiffs'  
 (11) pointer. It's a better pointer.  
 (12) BY MR CHALOS:  
 (13) Q Captain Hazelwood testified that the apex of the ice was up  
 (14) here, see this?  
 (15) A Yes.  
 (16) Q And that was almost directly opposite of Busby Island,  
 (17) light?  
 (18) A Correct.  
 (19) Q And what he was doing by coming to 180, he was trying to  
 (20) get the vessel an equidistant between the apex of the ice and  
 (21) Busby Island?  
 (22) A Correct.  
 (23) Q In your opinion, is that a good or a bad maneuver?  
 (24) A Excellent maneuver.  
 (25) Q He's also testified that - and now just to put the whole

Vol 22 3888

Vol 22 3890

(1) thing in perspective Mr Cousins says - by the way this  
 (2) thing here that I'm drawing with the pointer is what Captain  
 (3) Hazelwood saw as the leading edge of the ice Mr Cousins  
 (4) testified that when he and Captain Hazelwood were at the radar  
 (5) together he saw the ice in approximately the same area except  
 (6) he thought the leading edge was slightly further to the east as  
 (7) represented by these red circles okay?  
 (8) A Okay  
 (9) Q All right So the instructions that Captain Hazelwood gave  
 (10) to the mate was when you come abeam of Busby Island I want  
 YOU  
 (11) to start turning back towards the lanes okay? Now there was  
 (12) some criticism from Captain Clark that Captain Hazelwood  
 should  
 (13) have given him given the mate a course to steer Do you agree  
 (14) or disagree with that?  
 (15) A In that situation I would disagree  
 (16) Q Why?  
 (17) A Because they - they were skirting ice of an unknown  
 (18) definition not knowing exactly where it is and they were  
 (19) coming through like a channel or a - between two barriers  
 one  
 (20) land barrier and the ice barrier which is not defined The  
 (21) objective would be to pass midway between those two  
 barriers  
 (22) if you will to be somewhat in the middle So to set a course  
 (23) a specific course right at Busby Island would not  
 necessarily  
 (24) put the ship midway between the two areas of danger that  
 they  
 (25) would discover as they get closer and the radar picks up  
 more

(1) of ice toward the eastern end and appeared to be larger bits  
 of  
 (2) ice chunks of ice sporadically towards the northwestern  
 side  
 (3) Q That's up here?  
 (4) A So there's no definite wall as such but the bigger ice  
 (5) appeared to be further to the northwest or up to that corner  
 (6) Q What you're talking about is the video that Mr Lawn took  
 (7) where we saw bits of ice?  
 (8) A Yes  
 (9) Q Has that been your experience that is when you have ice  
 (10) going across the lanes that the bigger pieces tend to be over  
 (11) here to the west closer to Columbia Glacier and the smaller  
 (12) pieces to the east?  
 (13) A I don't remember how many times I've actually  
 encountered  
 (14) ice during my transits I know I've encountered it two or  
 (15) three times So I think that logic would dictate that the  
 (16) larger pieces would be up there up to the - closer to the  
 (17) glacier itself and that the wind would drive the smaller  
 (18) pieces across, potentially  
 (19) Q Okay Now at my request did you measure the distance  
 (20) between Bligh Reef buoy and the leading edge of the ice at the  
 (21) closest point of approach as Captain Hazelwood saw?  
 (22) A Yes I did  
 (23) Q And what did you find?  
 (24) A It was about two miles  
 (25) Q How about from where Cousins drew it?

Vol 22 3889

Vol 22 3891

(1) of the ice  
 (2) Q So was the captain giving discretion to the mate to look at  
 (3) the situation and decide what course he wanted to steer?  
 (4) A Discretion to the mate as far as the numerical course but  
 (5) they both came to an agreement I believe and the  
 testimony  
 (6) states that they both agreed that they would go right down  
 the  
 (7) middle That's my recollection So they - that was very  
 (8) precise or very definite they're going to go down the  
 middle  
 (9) Q So we all understand when you say down the middle you  
 (10) mean -  
 (11) A Between the two barriers, the ice and the land going  
 down,  
 (12) the reef  
 (13) Q That would be Bligh Reef buoy?  
 (14) A Yes  
 (15) Q He wanted to stay equidistant between the ice and Bligh  
 (16) Reef buoy?  
 (17) A Yes  
 (18) Q Let me ask you this we've been talking about the leading  
 (19) edge of the ice -  
 (20) A Yes  
 (21) Q - and the image that I conjure up in my mind is this big  
 (22) sheet of ice with an edge you know almost like a glacier Is  
 (23) that what you see out there?  
 (24) A No As a matter of fact I looked at a videotape that was  
 (25) taken the morning of the grounding and there were small  
 bits

(1) A Can you point to Cousins' -  
 (2) Q This would be the leading edge  
 (3) A Something like maybe one and a half or one and  
 (4) three-quarter miles perhaps  
 (5) Q Based on what Captain Hazelwood saw the moment he left  
 the  
 (6) bridge and what Cousins saw in your opinion was there plenty  
 (7) of room if the turn had been started at Busby for them to  
 (8) navigate safely through where the ice was and where the buoy  
 (9) was?  
 (10) A Yes  
 (11) Q Now you've heard testimony yesterday that if Captain  
 (12) Hazelwood's orders were followed the vessel would have  
 missed  
 (13) Bligh Reef by a comfortable margin do you agree or disagree  
 (14) with that?  
 (15) A I agree  
 (16) Q Incidentally what was the distance - did you measure the  
 (17) distance between Bligh Reef buoy and the apex as Captain  
 (18) Hazelwood saw it?  
 (19) A Yes I think it was in the magnitude of three and a half  
 (20) to three and three-quarter miles  
 (21) Q Was it unreasonable when Captain Hazelwood when he left  
 (22) the bridge to believe that he had given instructions for a  
 (23) simple maneuver and there was plenty of room to make that  
 turn  
 (24) in?  
 (25) A Yes

Vol 22 3892

- (1) Q It was unreasonable?
- (2) A No, it was reasonable
- (3) Q The maneuver that he asked the third mate to make that is
- (4) when you come abeam of Busby turn the vessel back towards the
- (5) lanes go right up the middle is that a maneuver within the
- (6) capabilities of the licensed third mate?
- (7) A Definitely
- (8) Q Tell me about that That particular – that particular
- (9) task that was asked of the mate how do you compare that in
- (10) terms of difficulty?
- (11) A One needs to look at all of the tasks of a deck officer and
- (12) if you get in all the technical things, even non navigation
- (13) whereby the officer is in a control room all by himself,
- (14) loading cargo, it may be 80 000 barrels per hour
- (15) manipulating
- (16) maybe 20 valves that's a fairly complex skill required of an
- (17) officer to do by himself
- (18) With regard to navigation there are many instances where
- (19) one would be at sea with ten or 15 ships converging in
- (20) different angles with nobody able to communicate with one
- (21) another where two ships might be passing within a mile of
- (22) another with a cruising speed of maybe 35 or 40 miles an
- (23) hour,
- (24) not knowing exactly what the other ship is going to do there
- (25) are many areas of navigation around the world where one has got
- (26) to encounter traffic and current putting all that into
- (27) context, as far as a skill required to make a simple course

Vol 22 3893

- (1) change with no traffic no current good visibility it's got
- (2) to be on a scale of difficulty, minimal, minimal requirement
- (3) for a third officer
- (4) And I believe that that was attested to by Admiral Yost
- (5) commandant of the Coast Guard
- (6) Q I forgot about visibility Captain Hazelwood said the
- (7) visibility and Mr Cousins conferred that the visibility was
- (8) ten miles Is that pretty good visibility?
- (9) A Yes
- (10) Q Captain Hazelwood has testified that the reason he went
- (11) below at that particular moment – which incidentally I want
- (12) you to comment on something he was coming up to a course
- (13) change at 2355 11 55
- (14) A Yes
- (15) Q He left the bridge at 11 53 and he said the reason he did
- (16) that was to go down and check do some weather calculations
- (17) Do you have an opinion as to whether or not he should have
- (18) stayed up and waited for that turn to commence given the
- (19) totality of the situation?
- (20) A Remember before I said risk analysis needs to take place
- (21) before a captain leaves the bridge or whatever he does
- (22) regardless of what he does risk analysis is very key Based
- (23) on the training that he apparently had been conducting with
- (24) all
- (25) his officers based on the skills of the third officer any
- (26) requirement that would take the captain off the bridge he

Vol 22 3894

- (1) should have had a hundred percent expectation that that
- (2) command that was a very explicit command would have
- (3) been
- (4) carried out and carried out successfully
- (5) Q Do you have any criticism of the fact that he left two
- (6) minutes before the turn started?
- (7) A No
- (8) Q What do you base that on?
- (9) A Before I said the captain has many responsibilities My
- (10) reading of the – of the depositions and trial transcript, the
- (11) captain had something on his mind, apparently, with regard
- (12) to
- (13) vessel safety, and that is he had to make a decision as to
- (14) whether or not to proceed to sea out through Hinchinbrook
- (15) or to
- (16) take the ship to Knowles Head and anchor and the factor
- (17) that I
- (18) understand was on his mind had to do with – with high wind,
- (19) 70
- (20) knot winds or a low, and he was apparently concerned
- (21) about
- (22) having to make the decision, what course of action he was
- (23) going
- (24) to do after he was through the ice
- (25) Q When you gave that opinion did you put yourself on the
- (26) bridge of the ship that night as opposed to the courtroom five
- (27) years later?
- (28) A Well that – excuse me'
- (29) Q Let me rephrase that
- (30) A You lost me
- (31) Q When you were making that analysis in your own mind
- (32) A Just now'

Vol 22 3895

- (1) Q Yeah When you say I don't criticize Captain Hazelwood
- (2) for leaving two minutes before the turn
- (3) A Right
- (4) Q Did you try and put yourself in the ship that night and put
- (5) yourself in Captain Hazelwood's position?
- (6) A Of course One has to – to try to understand what was in
- (7) his mind what's were the pressures what were the
- (8) concerns
- (9) what was his overall thinking process at that point in time
- (10) Q And how much confidence he had in the mate and the
- (11) navigation factors that he looked at?
- (12) A All factors have got to go together All factors
- (13) Q It's fairly easy to say five years after the fact isn't it
- (14) that hey maybe he should have stayed up there two more
- (15) minutes after you know that you've had an accident?
- (16) A In retrospect, that would be the obvious conclusion
- (17) Q And Captain Hazelwood – you read did you not he said
- (18) knowing what I know now knowing that that turn wasn't done
- (19) as
- (20) I wanted I would have stayed up there Do you remember that?
- (21) A Yes I do
- (22) Q Is that a normal reaction under the circumstances?
- (23) A Most definitely
- (24) Q Okay Let me talk a little bit about this weather that you
- (25) mentioned You heard testimony from Mr Leitz did you not
- (26) that on Sunday the 26th two days after this there was a big
- (27) storm that came through?

(1) A Yes  
 (2) Q In Prince William Sound 70 mile an hour winds that moved  
 (3) the ship a little bit do you remember that?  
 (4) A Correct  
 (5) Q Based on your experience up there in March you get these  
 (6) big lows coming through do you not?  
 (7) A Yes, sir  
 (8) Q Those lows sweep across and go in the Gulf of Alaska?  
 (9) A They go various places  
 (10) Q And they can be very dangerous can they to a ship  
 (11) especially a ship with slack tanks?  
 (12) A Yes  
 (13) Q So was it unreasonable at that time for Captain Hazelwood  
 (14) to be concerned about an approaching low?  
 (15) A No That's a major factor because the preservation of the  
 (16) safety of the vessel in a different element now not from a  
 (17) navigation but from a structural perspective is an important  
 (18) thing he was looking at or obviously considering at that  
 (19) point  
 (20) in time  
 (21) Q Okay I want to talk about the things that Third Mate  
 (22) Cousins did Third Mate Cousins testified as to all the things  
 (23) he did do you remember he - turn this towards the jury  
 (24) Third Mate Cousins testified that when Captain Hazelwood left  
 (25) and he wanted to plot his position at 2355 he came out of the  
 (26) wheelhouse walked all the way down to the end of the wing

(1) here right and using an azimuth bearing sighted Busby Island  
 (2) light then he walked all the way back into the wheelhouse  
 (3) went over to the radar swung an arc on the radar got a range  
 (4) then walked all the way back to the chart room and plotted it  
 (5) Remember that?  
 (6) A Yes  
 (7) Q Okay And he said that took him about two minutes or so?  
 (8) A Okay  
 (9) Q Remember that?  
 (10) A Yes I do  
 (11) Q Based on your experience did Mr Cousins have to do all  
 (12) that?  
 (13) A It was totally unnecessary  
 (14) Q Why do you say that?  
 (15) A There are two other very simple ways of finding out or  
 (16) determining your position and determining what course you  
 (17) are  
 (18) going to steer that he could have used and should have  
 (19) used  
 (20) that he chose - for whatever reason chose not to use  
 (21) Q What could he have done that would have assessed his  
 (22) position or given him a fix without having to walk all the way  
 (23) to the end of the bridge wing come back in go to the chart  
 (24) room go to the radar then the chart room?  
 (25) A The best thing and the thing we're all familiar with, and  
 (26) that is simply using your own two eyes and looking out the  
 (27) window the light was visible to him okay, Bligh Reef light

(1) was visible  
 (2) Also the light of Busby Island was visible to him so all  
 (3) he really had to do was stand in the middle of the - can you  
 (4) point to the middle of the bridge wing the bridge  
 (5) wheelhouse  
 (6) middle stand and look out one of those windows and all he  
 (7) had  
 (8) to do is look to the left see that the light is almost abeam  
 (9) and actually in fact he should have started his turn when  
 (10) the  
 (11) light was a little forward of the ship because it takes a while  
 (12) for the ship to start to turn and he simply had to turn the  
 (13) ship watching that light until the light was on the left hand  
 (14) side of the ship That's all he had to do  
 (15) Q The maneuver that Captain Hazelwood wanted him to do was  
 (16) that simple?  
 (17) A Yes  
 (18) Q Now you recall Third Mate Cousins called Captain  
 (19) Hazelwood  
 (20) after he laid down the fix on the chart you remember him  
 (21) saying I went over to the phone and I called Captain  
 (22) Hazelwood?  
 (23) A Yes  
 (24) Q And he - Captain Hazelwood asked him what s going on  
 (25) what  
 (26) rudder arc you using and he told him ten degrees right rudder  
 (27) do you remember that?  
 (28) A Yes  
 (29) Q Was captain - was that a good rudder to use ten degrees?  
 (30) A Not having been on the ship it would be wrong for me to  
 (31) second guess I think I probably would have started off with  
 (32) a

(1) right 15 degree rudder to start the swing and then eased,  
 (2) eased  
 (3) the swing a little bit to ten degrees but it would be  
 (4) inaccurate for me to judge but that's a minimum amount of  
 (5) rudder that I would have used  
 (6) Q Okay You heard Mr Cushing yesterday say that ten  
 (7) degrees  
 (8) right rudder would have brought her comfortably past?  
 (9) A Yes  
 (10) Q So they have this exchange the captain asked him is  
 (11) everything okay He said everything s fine so on so forth  
 (12) Was it unreasonable for Captain Hazelwood to rely on that call  
 (13) from the mate to put his mind at ease that the orders were  
 (14) being carried out?  
 (15) A It was a very reasonable expectation  
 (16) Q At that point if Third Mate Cousins felt uncomfortable  
 (17) what should he have done?  
 (18) A As I indicated before it's an every day occurrence for a  
 (19) mate to call the captain and advise him of information and  
 (20) to  
 (21) send the signal either I need you on the bridge or I'm doing  
 (22) something I don't need you on the bridge, that happens all  
 (23) the  
 (24) time, all the time So the signals that Cousins sent to  
 (25) Captain Hazelwood was very clear I don't need you on the  
 (26) bridge, I've done what you told me to do  
 (27) Q And Captain Hazelwood could rely on that?  
 (28) A If you can't rely on that, then there's a major problem on  
 (29) board a vessel where you have qualified officers

Vol 22 3900

- (1) Q Okay I want to change subjects for a moment You had  
 (2) dealings over the years with the Vessel Traffic Center?  
 (3) A Yes  
 (4) Q And yesterday we read into the record Plaintiffs Exhibit  
 (5) 101 the function of the VTS which is to prevent collisions  
 (6) and groundings?  
 (7) A Yes  
 (8) MR CHALOS Your Honor if PX101 is not in evidence  
 (9) I would offer it at this time My feeling is that it is  
 (10) THE COURT It is admitted  
 (11) MR CHALOS Thank you  
 (12) MR MONTAGUE This is a document that is dated after  
 (13) the captain stops - after he stopped sailing in Prince William  
 (14) Sound  
 (15) MR CHALOS But it was the same principle carried  
 (16) over from the previous one  
 (17) BY MR CHALOS  
 (18) Q Okay I'm not going to show you that document but you  
 (19) understood their mission up there the VTS mission?  
 (20) A Yeah  
 (21) Q Was to prevent collisions and groundings?  
 (22) A That's stated in the statement of purpose in the Prince  
 (23) William Sound VTS user's manual  
 (24) Q Okay How did you believe they were going to do that? I  
 (25) mean what means do they have available to them to prevent

Vol 22 3901

- (1) collisions and groundings?  
 (2) A VTS systems are common becoming more common  
 worldwide  
 (3) They're primarily designed to be an advisory system In this  
 (4) specific instance they deployed or used a radar to track the  
 (5) position of the vessels to track them as they go and then  
 (6) they had a communications system to communicate with the  
 (7) vessels to - to obtain information from the vessels and to  
 (8) disseminate information to the ships  
 (9) Q Let me ask you directly When you were up there did you  
 (10) believe you were being monitored above Bligh Reef?  
 (11) A Most definitely  
 (12) Q Did you ever have occasion to get a rudder or a speed  
 (13) command - let me strike that  
 (14) Did you have occasion to get a navigation or a speed  
 (15) command from them?  
 (16) A I've received both from them at different times  
 (17) Q Where they told you to slow down speed up move here  
 move  
 (18) there?  
 (19) A They told us to slow down  
 (20) Q Let me ask you this If your ship was standing into danger  
 (21) above Bligh Reef based on your experience did you expect  
 that  
 (22) they would call you and tell you captain do something  
 (23) anything avoid the danger?  
 (24) A Not expressly written in the purpose but it does say that  
 (25) their goal or their mission is to prevent groundings  
 Knowing

Vol 22 3902

- (1) that they were tracking - or thinking that they're tracking a  
 (2) ship on the radar anybody would have the duty to advise  
 (3) somebody if they thought they were standing into danger  
 That  
 (4) goes without saying So I would have every expectation  
 that,  
 (5) A, they would be watching our progress and B that if they  
 (6) saw us going in a very abnormal way that they would call  
 the  
 (7) ship and at least alert them to the fact by a brief  
 (8) communication  
 (9) Q I take it you didn't expect a rudder command from them you  
 (10) didn't expect them to say use ten degrees right rudder or 20  
 (11) degrees right rudder?  
 (12) A No, no  
 (13) Q But you expected the warning?  
 (14) A I would only think that they would say, captain, we have  
 (15) you plotted at half a mile off such and such a point headed  
 in  
 (16) this direction, is everything okay, or something to that  
 (17) effect What we see you doing is not exactly what we think  
 is  
 (18) going to wind up in a positive vein  
 (19) Q You read the testimony in this case where Mr Blandford  
 (20) said he came on watch never turned the radar on the 12 mile  
 (21) range just kept it on the three and the six mile range?  
 (22) A Yes  
 (23) Q Were you surprised when you read that?  
 (24) A I guess I was shocked  
 (25) Q Why do you say that?

Vol 22 3903

- (1) A Well, here is a gentleman coming on watch with a - with a  
 (2) responsible task to monitor a ship that was within radar  
 range  
 (3) and for this guy to go down and have a ham sandwich and  
 not  
 (4) monitor it I find unbelievable  
 (5) Q Was it unreasonable for Captain Hazelwood when he left the  
 (6) bridge at 2353 to believe that his vessel as an added measure  
 (7) of safety if his vessel was standing into danger that there  
 (8) would be a call from the VTS?  
 (9) A That's not an unreasonable assumption I would doubt  
 that  
 (10) that was - that that was foremost in the captain's mind  
 (11) because I don't think that he had any indication or any  
 thought  
 (12) that he was going to be standing into danger so I don't  
 think  
 (13) that came into his thought process, but if you would ask him  
 as  
 (14) to what he expected I would think yes certainly  
 (15) Q Okay Let's talk now about the post grounding and then  
 (16) we're done Have you been involved in any major casualties in  
 (17) your career?  
 (18) A Yes  
 (19) Q Tell us about the major casualty  
 (20) A Well, I've been - throughout my career I've been  
 involved  
 (21) in various kinds of casualties I've come under rocket attack  
 (22) twice in Vietnam I've seen ship fires experienced ship  
 fires,  
 (23) suicides massive human injuries that resulted in  
 mechanical  
 (24) failures on board a ship so I've seen a lot of -  
 (25) Q Give us a big one

Vol 22 3904

- (1) A The biggest one or the most devastating to me was happening
- (2) in 1972 when I was second mate of a ship and - can I use that
- (3) model?
- (4) Q This one here?
- (5) A Please The ship that I was second officer on was a cargo
- (6) ship so it didn't look like this but I need to use this for
- (7) point of illustration A cargo ship carries general cargo
- (8) does not carry oil and instead of having a flat deck has
- (9) cargo booms usually higher than the house big steam
- (10) shovel
- (11) cranes for lifting out heavy steel and all kinds of
- (12) superstructure up here
- (13) The accident happened in January of 1972 We were
- (14) southbound in something called the Chesapeake Delaware
- (15) canal
- (16) It's a canal that divides the Delaware peninsula if any of
- (17) you
- (18) are from that area It's about 800 foot wide the canal
- (19) itself We were going through with about four knot current
- (20) pushing us along and after we entered the canal in the
- (21) early
- (22) morning hours fog set in and our visibility was no more
- (23) than
- (24) maybe half a mile ahead of us The ship was empty and
- (25) because
- (26) the ship was empty the ship had an attitude of something
- (27) like
- (28) this
- (29) Now, the ship I was on was about half the size, much
- (30) smaller, only 500 feet Let's assume this is a small ship
- (31) Almost the same kind of thing happened here with regard to
- (32) VTS
- (33) that canal was controlled by the Army Corps of Engineers.
- (34) And
- (35) there was a watch change and at the watch change the guy
- (36) forgot to tell the other guy that we were in the canal So 20
- (37) minutes later the canal operator Army Corps of Engineers
- (38) got
- (39) a phone call from a railroad bridge operator There's a
- (40) railroad bridge that spans this 800 foot canal it's a lift
- (41) railroad bridge, said I'm going to lower, I have a freight
- (42) train coming through
- (43) Well they lowered the bridge and we saw it, it came out of
- (44) the fog with maybe less than half a mile The bridge, corner
- (45) of the bridge hit right here and it proceeded to knock away
- (46) the
- (47) anchor windlass All the cargo came down, like a lawn
- (48) mower,
- (49) and everything's crashing And finally, the bridge impacted
- (50) the house nearly killed us all nearly decapitated the house
- (51) We're lucky or fortunate only one person was killed, was a
- (52) lookout forward And as a result of that accident of that
- (53) accident the ship was a total loss
- (54) Q Were you - were you on watch at the time?
- (55) A I was a second officer I had come off watch, but I
- (56) returned to the - to the bridge to help the captain and the
- (57) third mate, so I was standing by the radar at the time of
- (58) the - of the collision or the impact
- (59) Q So you witnessed this thing?
- (60) A Yes sir
- (61) Q And the captain was there?
- (62) A Yes

Vol 22 3906

- (1) Q And couple other mates were up there?
- (2) A The mate the pilot the A B and myself
- (3) Q Tell us - tell us your state of mind after this accident
- (4) immediately thereafter and for several hours after
- (5) MR MONTAGUE Your Honor object on relevance
- (6) MR CHALOS Your Honor this is the state of mind of
- (7) sailors after a major casualty
- (8) THE COURT I'll allow the testimony
- (9) MR CHALOS Thank you
- (10) THE COURT You may answer
- (11) THE WITNESS With the initial impact to the house or
- (12) the bridge I was one deck - we had just gotten one deck
- (13) below the captain fell on top of me and there was a shock
- (14) wave like lights or something Unbelievable experience We
- (15) thought we were potentially killed I guess from that point
- (16) on it was acting mostly on nerve I guess instinct The
- (17) captain had been going to sea since he was a child or 15 or 16
- (18) years old He was 65 it was his last - supposed to be his
- (19) last voyage and it was Basically the captain became
- (20) although one could speak to him he lost his decision making
- (21) capability Other people had to step in and make decisions for
- (22) him and he would shake his head and that was okay
- (23) Q Let me ask you this In contrast to that you read the
- (24) testimony about how Captain Hazelwood reacted after the
- (25) casualty?

Vol 22 3907

- (1) A Yes
- (2) Q The grounding you remember the testimony of what he did
- (3) when he came up on the bridge the orders he gave?
- (4) A Yes
- (5) Q The discussions that he had with his mate?
- (6) A Yes
- (7) Q How do you compare that to what you experienced? With your
- (8) captain?
- (9) A Well I believe the stress probably was every bit as great
- (10) or perhaps - it's every bit as great as what the captain was
- (11) that I experienced But whatever that level was not
- (12) measurable, but Captain Hazelwood at that point in time
- (13) had
- (14) some very instant responsibilities that he carried out with
- (15) exceptional amount of calm and judgment especially in
- (16) view of
- (17) the - like this is something that we never prepare for We
- (18) never expect to have a casualty of such magnitude so I've
- (19) got
- (20) to say that he - because of his own personal fortitude was
- (21) able to function miraculously in spite of this tragedy
- (22) Q Well I want to shortcut this You've read about
- (23) everything that he did in the course of about an hour?
- (24) A Yes
- (25) Q All the orders he gave what he was thinking about how he
- (26) was trying to get the ship to settle down you remember all
- (27) that?
- (28) A Yes

Vol 22 3908

- (1) Q Do you have any criticism at all of what he did?
- (2) A No I don't
- (3) Q Did you find it to be the decisions that he made to be
- (4) good decisions under the circumstances?
- (5) A Excellent decisions
- (6) Q Do you think based on your experience someone that's
- (7) impaired by alcohol could make the decisions that Captain
- (8) Hazelwood made under the circumstances?
- (9) MR MONTAGUE Objection no foundation
- (10) THE WITNESS I don't know sir
- (11) THE COURT Just a moment
- (12) MR CHALOS Okay Let me approach it from a
- (13) different standpoint
- (14) BY MR CHALOS
- (15) Q You've read the testimony of the crew members?
- (16) A Yes
- (17) Q That Captain Hazelwood was not impaired at any time after
- (18) the grounding?
- (19) A That's what I read
- (20) Q You have any reason to quarrel with that?
- (21) A No
- (22) Q Were his actions consistent with someone being alert and
- (23) dealing with a horrible situation at that moment?
- (24) A Most definitely You heard the tape
- (25) Q You heard the tape where Captain Hazelwood called the VTS

Vol 22 3909

- (1) at 12 28 to report the grounding?
- (2) A Yes
- (3) Q Let me ask you this You've had experience with
- (4) transmissions back and forth to the VTS?
- (5) A Yes
- (6) Q Did you find in your experience any - any distortion of
- (7) your voice when you were away from the VTS as opposed to
- (8) someone being right there with a monitor?
- (9) A Well if there's a recording device in the room where
- (10) somebody is transmitting as opposed to when they're
- (11) receiving,
- (12) there's a very different sound in the voice in all cases
- (13) Q And that depends on the distance that you're away from that
- (14) device doesn't it?
- (15) A It depends on factors of which I know not but it depends
- (16) There is a difference in sounds I know that
- (17) MR MONTAGUE Your Honor
- (18) MR CHALOS I'm done
- (19) BY MR CHALOS
- (20) Q You heard Captain Hazelwood's voice?
- (21) A Yes
- (22) Q At that moment giving that information?
- (23) A Yes
- (24) Q What is your opinion of the voice? Does that sound to you
- (25) as someone impaired?
- (26) THE COURT Wait a minute

Vol 22 3910

- (1) MR MONTAGUE Your Honor  
 (2) MR CHALOS I'll back off  
 (3) THE COURT There's an objection and I sustain the  
 (4) objection  
 (5) BY MR CHALOS  
 (6) Q Now there's been a suggestion that Captain Hazelwood was  
 (7) trying to free this vessel from the reef and you read  
 (8) Mr Leitz's testimony that -  
 (9) A Yes  
 (10) Q - that he didn't believe he was doing that and all the  
 (11) actions were consistent with keeping it on the reef?  
 (12) A Yes  
 (13) Q And you read Commander McCall's testimony?  
 (14) MR MONTAGUE Your Honor I thought we were not  
 (15) having cumulative testimony here  
 (16) MR CHALOS I just want to ask him opinion  
 (17) MR MONTAGUE Mr Leitz testified about this at  
 (18) length and was examined and now you're going to go into it  
 (19) again  
 (20) MR CHALOS All right I'm satisfied with what  
 (21) Mr Leitz said  
 (22) BY MR CHALOS  
 (23) Q Okay Captain Bolton given everything that you've read  
 (24) and heard and testified to do you have an opinion as to what  
 (25) caused the grounding in this case?

Vol 22 3911

- (1) A Yes  
 (2) Q What is your opinion?  
 (3) A There are dynamics that have come together apparently  
 (4) that  
 (5) have led to this accident Not technical not environmental  
 (6) It's people In my view there are perhaps three causes of  
 (7) this accident The first is that Captain Hazelwood relied on  
 (8) the professional competency of his third officer He trusted  
 (9) that third officer That in retrospect was his mistake  
 (10) The second mistake in my view was the third officer who  
 (11) acted for that period of time most unprofessionally for  
 (12) whatever reason  
 (13) And I think the third mistake and perhaps this is the nail  
 (14) in the coffin is the fact that the third mate gave the captain  
 (15) misinformation and that misinformation gave the captain  
 (16) the  
 (17) wrong sense as to where he needed to be to discharge his  
 (18) responsibilities  
 (19) Q Do you agree or disagree with this statement made by  
 (20) Admiral Yost in testimony here The primary cause of the  
 (21) grounding was a perfectly qualified third mate on the bridge of  
 (22) a ship that through a period of a few minutes of inattention  
 (23) to duty or lack of knowledge of exactly where he was ran the  
 (24) ship aground on a clear night with all the navigational aids  
 (25) watching him a person who had received a license properly  
 (26) issued by the Coast Guard on a vessel like the Exxon Valdez  
 (27) should have no difficulty navigate a vessel in the area around

Vol 22 3912

- (1) Bligh Reef  
 (2) Do you agree or disagree with that opinion?  
 (3) A I agree with - with that opinion  
 (4) MR CHALOS I have no further questions Your Honor  
 (5) THE COURT You may cross examine  
 (6) We're going to take five minutes or two or three or  
 (7) whatever We'll be off the record for a moment  
 (8) (Recess from 1:20 p.m. To 1:23 p.m.)  
 (9) THE COURT Back on the record  
 (10) You may cross examine  
 (11) CROSS EXAMINATION OF JAY BOLTON  
 (12) BY MR MONTAGUE  
 (13) Q Captain Bolton good afternoon  
 (14) A Good afternoon sir  
 (15) Q I'm Laddie Montague  
 (16) A Yes sir  
 (17) Q We met once before  
 (18) A Yes  
 (19) Q I just want to start out - I was going to start out by  
 (20) asking you if on the morning of the 24th of March 1989 the  
 (21) Exxon Valdez ended up on Bligh Reef but you finally got  
 (22) around  
 (23) I just want to talk about this chart for a second okay?  
 (24) You talked about the communications between Mr Cousins and  
 (25) Captain Hazelwood?

Vol 22 3913

- (1) A Yes  
 (2) Q How they communicated with each other? By the way this  
 (3) line which is Mr Cousins' line of the edge of the ice do you  
 (4) remember that Mr Cushing testified that that was a lot closer  
 (5) to Bligh Reef than Mr Chalos represented?  
 (6) A Yes  
 (7) Q Now as he identified them in his measurements there was a  
 (8) fairly wide discrepancy between those two isn't that correct?  
 (9) A Yes  
 (10) Q And if they were communicating as has been represented  
 (11) would you expect that type of a discrepancy to arise as to how  
 (12) they viewed the ice?  
 (13) A That communication if I remember correctly, they agreed  
 (14) that there was roughly a two mile slot and it was my  
 (15) recollection from Mr Cousins' testimony that that area of  
 (16) the  
 (17) ice being much further south was after the fact, not at the  
 (18) point where they're abeam Busby Island.  
 (19) Q So you place no significance in this divergence in their  
 (20) view of the ice?  
 (21) A Well judging by the film that I saw Mr Law's film, I  
 (22) believe the morning following there appeared to be small  
 (23) bits  
 (24) of ice down as far as what Mr Cousins said but at the  
 (25) moment  
 (26) they were abeam of Busby Island I don't think that they saw  
 (27) that  
 (28) Q Just answer my question

Vol 22 3914

- (1) **A I thought I did**  
 (2) **Q It will go faster**  
 (3) **A I'll do my best**  
 (4) **Q That is did you give any significance to the fact that**  
 (5) **Mr Cousins and Captain Hazelwood drew these divergent**  
**leading**  
 (6) **edges of the ice yes or no?**  
 (7) **A Significance with regard to that point in time?**  
 (8) **Q Yeah As to how they - does the fact that they had**  
 (9) **different perceptions -**  
 (10) **A Mr Cousins -**  
 (11) **Q - perceptions of where the ice is?**  
 (12) **A Mr Cousins perception of this is not consistent with his**  
 (13) **testimony**  
 (14) **Q He drew that you know?**  
 (15) **A Was not consistent with what he said to Captain**  
**Hazelwood**  
 (16) **at the time**  
 (17) **Q Are you aware that he drew that line?**  
 (18) **A In the trial, yes**  
 (19) **Q Now as the vessel was coming down this area I think you**  
 (20) **described it in your testimony that it was skirting ice of an**  
 (21) **unknown definition is that correct?**  
 (22) **A Correct**  
 (23) **Q And it also had - it was a lookout for ice right?**  
 (24) **A They had a lookout**  
 (25) **Q And for ice ice was one of the hazards that was involved**

Vol 22 3915

- (1) **in that -**  
 (2) **A The only way of accurately detecting ice at nighttime is by**  
 (3) **use of radar unless you have full moon night or daytime or**  
 (4) **visible My assumption is their detection of ice based on**  
 (5) **Hazelwood's testimony was by use of radar**  
 (6) **Q How long is it once you get to Bligh Reef or you pass**  
 (7) **Bligh Reef how long is it until you get to Cape Hinchinbrook?**  
 (8) **A Mileagewise?**  
 (9) **Q No timewise**  
 (10) **A Depends on the speed of the vessel Maybe five hours**  
 (11) **60**  
 (12) **some odd miles I believe**  
 (13) **Q So after they passed Bligh Reef it took five hours to get**  
 (14) **to Cape Hinchinbrook which is something like that?**  
 (15) **A Something in that magnitude**  
 (16) **Q You're saying that it was proper for Captain Hazelwood to**  
 (17) **leave the bridge and not wait two more minutes before he**  
 (18) **looked**  
 (19) **at a weather report?**  
 (20) **A I did not say that**  
 (21) **Q Have you seen the weather report?**  
 (22) **A No I haven't**  
 (23) **Q For that?**  
 (24) **A No, I haven't**  
 (25) **Q So you don't know what - what was brewing in the**  
 (26) **Aleutians right?**  
 (27) **A Correct**

Vol 22 3916

- (1) **Q And you don't know whether or not that was something that**  
 (2) **was sufficient to take the captain off the bridge when he had**  
 (3) **five more hours before he got out of Prince William Sound?**  
 (4) **A As I stated earlier, sir, it was not that he had five**  
 (5) **hours, but that he had to make a decision as to whether or**  
 (6) **not**  
 (7) **he was going to go to Knowles Head which was just literally**  
 (8) **around the corner**  
 (9) **Q Didn't he have to make a decision as to whether or not he**  
 (10) **was going to make it through this transit first and get past**  
 (11) **Bligh Reef wasn't that the first order of business?**  
 (12) **A Yes**  
 (13) **Q Okay Now the last command was - other than a tall ship**  
 (14) **was in 1987?**  
 (15) **A No, my last command was 1991 '2 I was captain of a**  
 (16) **VLCC**  
 (17) **Q Your last command in Prince William Sound was 1987?**  
 (18) **A About 1987, I believe**  
 (19) **Q Did you hear any of the testimony from the captains of**  
 (20) **Exxon that appeared here?**  
 (21) **A Yes**  
 (22) **Q Did you hear Captain Martineau testify?**  
 (23) **A I don't - I don't remember Captain Martineau**  
 (24) **Q Did you hear Captain Stalzer testify?**  
 (25) **A No, I missed his testimony**  
 (26) **Q Did you hear Captain Duncan testify?**  
 (27) **A No**

Vol 22 3917

- (1) **Q Did you hear Captain Sheehy testify?**  
 (2) **A No**  
 (3) **Q How about Captain Deppe?**  
 (4) **A No**  
 (5) **Q You must have heard Captain Mihajlovic?**  
 (6) **A I'm glad you pronounced the name for me**  
 (7) **Q I may have mispronounced the name for you but I heard him**  
 (8) **yesterday**  
 (9) **A Yes**  
 (10) **Q And did you hear Captain Pierce?**  
 (11) **A I don't believe so**  
 (12) **Q Now I don't mean to be - sound disrespectful but with**  
 (13) **all those captains in the Exxon fleet coming here and**  
 (14) **testifying do you feel you're better qualified to comment on**  
 (15) **captaining a tanker vessel through Prince William Sound than**  
 (16) **they are?**  
 (17) **A I don't think that's a reasonable question to ask me, sir**  
 (18) **because we're looking at people whom I don't even know, I**  
 (19) **don't**  
 (20) **know what their background is and captaining of a ship is**  
 (21) **command, it's a responsibility, it's not - it's not a motor**  
 (22) **function as you're describing, so I cannot answer that**  
 (23) **question sir**  
 (24) **Q We don't know who you are either?**  
 (25) **A That's correct**  
 (26) **Q Are you aware that those other than Captain Mihajlovic**

Vol 22 3918

Vol 22 3920

(1) but of those captains that were asked they said that they  
 (2) would stay on the bridge they would not have left the  
 (3) bridge -  
 (4) **A What's the question?**  
 (5) **Q - during this transit?**  
 (6) **A But what is the question sir? Am I aware -**  
 (7) **Q Yeah Are you aware of that?**  
 (8) **A I just told you I did not hear those captains testify**  
 (9) **Q Oh okay Now you've used often in your - in your**  
 (10) **testimony on direct you used the word discretion or**  
 (11) **Mr Chalos used it with you do you recall that it's in the**  
 (12) **captain's discretion?**  
 (13) **A Yes**  
 (14) **Q And would you agree that that's the same as judgment it's**  
 (15) **in the captain's judgment?**  
 (16) **A Yes**  
 (17) **Q And just because it's in the captain's discretion or**  
 (18) **judgment that doesn't mean that the captain might not have**  
 (19) **exercised poor judgment or poor discretion isn't that**  
 (20) **correct?**  
 (21) **A Sometimes captains exercise poor judgment sometimes**  
 (22) **good**  
 (23) **judgment and sometimes not so good judgment**  
 (24) **Q Now let's go to the voyage Can everybody see that? We**  
 (25) **went through this yesterday with Mr Cushing so I'm going to**  
 (26) **not repeat it but you will recall that the captain left the**

(1) right?  
 (2) **A Yes**  
 (3) **Q And it's nighttime?**  
 (4) **A Yes**  
 (5) **Q Okay Now do you - do you have any criticism of Captain**  
 (6) **Hazelwood leaving the bridge two minutes approximately two**  
 (7) **minutes before the vessel was abeam Busby Island light as**  
 (8) **described in the facts as I've set them out in that chart?**  
 (9) **A I believe I just testified a few moments ago that I did**  
 (10) **not**  
 (11) **Q Okay Do you recall being asked that question at your**  
 (12) **deposition?**  
 (13) **A I do**  
 (14) **Q And if you would if you'd turn to page 132 of your**  
 (15) **deposition that's that big fat -**  
 (16) **A I have page 132**  
 (17) **Q And do you see the question do you have any criticism of**  
 (18) **Captain Hazelwood?**  
 (19) **A Yes**  
 (20) **Q And did you give this answer If I had been on the bridge**  
 (21) **myself I would not have left the bridge?**  
 (22) **A I see that**  
 (23) **Q Did you give that answer?**  
 (24) **A For that specific question yes**  
 (25) **Q Well that's the question I just asked**

Vol 22 3919

Vol 22 3921

(1) bridge at 2353?  
 (2) **A Yes**  
 (3) **Q Right?**  
 (4) **A Yes**  
 (5) **Q And that the turn that he asked Cousins to make was at**  
 (6) **2355 right?**  
 (7) **A He said make the turn when you're abeam He did not**  
 (8) **specify the time**  
 (9) **Q No but that's what - we established that's when the**  
 (10) **vessel was abeam Busby Island light?**  
 (11) **A Correct**  
 (12) **Q And let's see And the vessel during this time was**  
 (13) **outside of the TSS?**  
 (14) **A Correct**  
 (15) **Q And it was as you said skirting the ice?**  
 (16) **A I don't know that I used that term but they were going**  
 (17) **between the ice and Bligh Reef**  
 (18) **Q And there was some danger possibly ice could come up**  
 (19) **here?**  
 (20) **A I beg your pardon?**  
 (21) **Q There was a possibility that some ice could come up here a**  
 (22) **piece of ice?**  
 (23) **A I don't know that**  
 (24) **Q You don't know that one way or the other?**  
 (25) **A No**  
 (26) **Q And of course they're headed towards a known hazard**

(1) **A No it's not**  
 (2) **Q Let me ask this question as it's given**  
 (3) **A Sure**  
 (4) **Q The question was do you have any criticism of Captain**  
 (5) **Hazelwood leaving the bridge two minutes approximately two**  
 (6) **minutes before the vessel was abeam Busby Island light as**  
 (7) **described in the facts that I've given you to assume and you**  
 (8) **said if I had been on the bridge myself I would not have left**  
 (9) **the bridge**  
 (10) **A When I gave the deposition I had just returned from**  
 (11) **Singapore I had only maybe 24 hours to look at some**  
 (12) **depositions I had not had any opportunity to review the**  
 (13) **material that I have read and listened to subsequent to this**  
 (14) **-**  
 (15) **this statement So this was based on a different set of**  
 (16) **isolated circumstances and my answer today was based on**  
 (17) **what**  
 (18) **I've learned throughout the trial**  
 (19) **Q Now your deposition was taken on the 5th of May - correct?**  
 (20) **A Correct**  
 (21) **Q Now if you look see the next answer -**  
 (22) **THE COURT Excuse me 5th of May when?**  
 (23) **MR MONTAGUE 5th of May 1994 Your Honor Sorry**  
 (24) **Thank you**  
 (25) **THE WITNESS Recently**  
 (26) **MR MONTAGUE I'm trying to hurry**  
 (27) **BY MR MONTAGUE**

Vol 22 3922

- (1) Q Do you see your next answer you say you don't know all the  
 (2) facts why Captain Hazelwood decided to leave the bridge it  
 (3) could have been a very compelling reason I don't know And  
 (4) then you say but I myself would have stayed on the bridge  
 (5) until I was clear of the ice Did you give that answer?  
 (6) A To that question yes  
 (7) Q Now I'm confused about something maybe you can clarify  
 (8) it but you stated if I can find it when you were asked about  
 (9) whether the captain should have reported this course change  
 (10) from 200 to 180 degrees remember you were asked that  
 question?  
 (11) A Yes  
 (12) Q And the answer that I got was at that point in time the  
 (13) captain was concerned how he's going to get through the ice  
 (14) At that point the captain has other things on his mind other  
 (15) than call the VTC Do you remember that answer?  
 (16) A Yes  
 (17) Q All right Well wouldn't he have the same concern down  
 (18) here?  
 (19) A I don't think so  
 (20) Q Now let's do this again Captain leaves the bridge at  
 (21) 2153  
 (22) A 2353  
 (23) Q I'm sorry 2353 And he tells Mr Cousins when he leaves  
 (24) make the turn when you re beam Busby light right?  
 (25) A They came to a consensus as to what they were going to  
 do

Vol 22 3923

- (1) yes  
 (2) Q But that's what he told Cousins?  
 (3) A Correct  
 (4) Q Then he told Cousins to call him when he made the turn?  
 (5) A Correct  
 (6) Q And he knew at that time where his location was with  
 (7) respect to Busby Island light right?  
 (8) A Correct  
 (9) Q And he knew that the turn was going to be about two  
 (10) minutes?  
 (11) A Yes  
 (12) Q And he didn't receive a call at 2355 did he?  
 (13) A I don't know when he received a call  
 (14) Q Okay Well I'm going to ask you to assume that he  
 (15) received a call eight and a half to nine minutes later between  
 (16) 01 50 and 02 okay one and a half minutes after midnight and  
 (17) two minutes after midnight sometime in that range I want you  
 (18) to assume that and given those facts shouldn't Captain  
 (19) Hazelwood have known there was a serious problem when he  
 failed  
 (20) to receive the telephone call from Cousins around two or three  
 (21) minutes after he left the bridge?  
 (22) A I - I want to reiterate I have no information as to when  
 (23) that call was made so if this is a hypothetical  
 (24) Q It's a hypothetical  
 (25) A And this is taken in isolation and if you're asking me

Vol 22 3924

- (1) that if a captain were expecting a course change in two  
 minutes  
 (2) and he did not receive a phone call for eight minutes if  
 (3) that's an assumption then I would say that that would  
 probably  
 (4) be a tip-off to the captain that maybe something needs to  
 (5) happen sooner  
 (6) Q And when you were asked that question in your deposition  
 (7) and you said if you were in - read the question it's on page  
 (8) 176 The last question on the page Have it page 176?  
 (9) A Okay  
 (10) Q You were asked the question and if you were in the cabin  
 (11) in Hazelwood's shoes wouldn't you after two or three minutes  
 (12) have either called the bridge on the telephone and checked  
 with  
 (13) Cousins to see that the turn started or go up to the bridge  
 (14) wouldn't you have done one or the other? And your answer is I  
 (15) think I would have Is that correct?  
 (16) A Yes, but I - I need to add that this was in response to a  
 (17) hypothetical question as you are asking me today and as a  
 (18) hypothetical  
 (19) Q Yes exactly Same hypothetical  
 (20) A Right  
 (21) Q Okay Now let's turn to the VTC for a minute okay? Do  
 (22) you have Exhibit 101 in front of you Plaintiffs Exhibit 101?  
 (23) A Yes sir  
 (24) Q That's the - the user's manual of 1988?  
 (25) A Yes sir

Vol 22 3925

- (1) Q And you had stopped going to Prince William Sound when  
 that  
 (2) came - this particular version came out correct?  
 (3) A Yes  
 (4) Q But it is predicated on an earlier version?  
 (5) A That would be my understanding  
 (6) Q Were you familiar with the earlier version?  
 (7) A Yes  
 (8) Q Have you checked to see if there are any changes between  
 (9) that one and this one?  
 (10) A No I have not  
 (11) Q Now you've also reviewed the transmissions between the  
 VTC  
 (12) and Captain Hazelwood?  
 (13) A Yes  
 (14) Q Okay Would you agree that Captain Hazelwood did not  
 (15) advise the VTC that he was going to his cabin and leaving Third  
 (16) Mate Cousins on the bridge?  
 (17) A He did not so advise  
 (18) Q And I think you've already agreed that he didn't tell them  
 (19) that he had made a course change of 200 to 180 degrees?  
 (20) A Correct  
 (21) Q And did that cause him to leave the lanes a lot earlier  
 (22) can you tell from that? Did that course change cause the  
 (23) vessel to leave the traffic lanes earlier?  
 (24) A The course to 180?  
 (25) Q Uh huh

Vol 22 3926

- (1) **A Yes sir**  
 (2) **Q** Than it would have if it stayed on 200?  
 (3) **A Yes**  
 (4) **Q** So he didn't do that and he didn't tell the VTC where he  
 (5) left the lanes is that correct?  
 (6) **A That's correct**  
 (7) **Q** And he didn't tell them where he planned to turn back?  
 (8) **A That's correct**  
 (9) **Q** Okay And he didn't tell them that he was on auto gyro?  
 (10) **A Correct**  
 (11) **Q** And he didn't tell them that he was putting the load  
 (12) program up on as he got out of the traffic lanes is that  
 (13) correct?  
 (14) **A Correct**  
 (15) **Q** And he never asked the VTC if they had the radar on and  
 (16) they were tracking him is that correct?  
 (17) **A Correct**  
 (18) **Q** Now I think you've correctly stated in your direct  
 (19) testimony that the VTC operations is advisory  
 (20) **A Correct**  
 (21) **Q** And that one of the things that they rely on is -- is the  
 (22) materials the communications they have with the vessels?  
 (23) That's one of the components that they rely on?  
 (24) **A Yes communications is a part of that system**  
 (25) **Q** And -- and another component is radar?

Vol 22 3927

- (1) **A Correct**  
 (2) **Q** And they all work together?  
 (3) **A Correct**  
 (4) **Q** And do you recall that there's a provision boldly stated in  
 (5) the user's guide the VTC user's guide expressing the  
 (6) importance of having accurate information from the vessels?  
 (7) **A You'll have to show it to me sir**  
 (8) **Q** If you want to turn to the manual you can but this is the  
 (9) first intro -- introductory page and it states the mariner is  
 (10) cautioned that information provided by the Vessel Traffic  
 (11) Center is to a large extent based upon reports of participating  
 (12) vessels and can be no more accurate than the information  
 (13) received  
 (14) Were you aware of that?  
 (15) **A** I can't say if I was aware of it but I can certainly read  
 (16) it as you are I understand what it's saying  
 (17) **Q** Okay And then it goes on if you look at the next  
 (18) highlighted section the efficient operation of the Prince  
 (19) William Sound Vessel Traffic Service and safe navigation in the  
 (20) service area depend upon mariners observing these operating  
 (21) procedures day and night in all weather Were you aware of  
 (22) that?  
 (23) **A** I'm aware of that  
 (24) **Q** Were you aware of it when you testified earlier?  
 (25) **A** I can't say -- I was not acutely aware of it no I did

Vol 22 3928

- (1) **not enter it into my thought processes**  
 (2) **Q** Then I would like to show you again if you want to turn  
 (3) this is to Page 3 a statement which says the responsibility  
 (4) of the master or pilot for safe navigation and prudent  
 (5) maneuvering of his vessel is in no way lessened or relieved by  
 (6) this regulation Were you aware of that?  
 (7) **A** When?  
 (8) **Q** Were you aware of that when you testified earlier?  
 (9) **A** At the deposition?  
 (10) **Q** No today  
 (11) **A** No--  
 (12) **Q** You also testified -- you also testified that there was no  
 (13) obligation on the part of Captain Hazelwood to advise the VTC  
 (14) of the change in the course from 200 to 180?  
 (15) **A** If I had been the captain of the ship I would not have so  
 (16) advised  
 (17) **Q** No no that's not what you said You said there was no  
 (18) requirement in the VTC user's manual  
 (19) **A** I'm not aware of any requirement But I know there is I  
 (20) can see it coming  
 (21) **Q** Would you like to see it?  
 (22) **A** Oh yes please  
 (23) **Q** Actually that's the color I used there It says movement  
 (24) reports while navigate in the VTC area the master of a vessel  
 (25) shall report the following information to the VTC by radio

Vol 22 3929

- (1) telephone you see that?  
 (2) Then it says if you look at three when the vessel clears  
 (3) the TSS after crossing right?  
 (4) **A** Well I read that and I -- and I can read the words I  
 (5) think it's taken out of context in the way you're presenting  
 (6) it  
 (7) **Q** You'd agree would you not that if after the grounding  
 (8) Captain Hazelwood had attempted to remove the vessel from the  
 (9) reef that would have endangered the vessel's safety?  
 (10) **A** In broad scope I agree  
 (11) **Q** And that would have been a serious error in judgment if he  
 (12) had done that?  
 (13) **A** If he had done so?  
 (14) **Q** Yeah  
 (15) **A** To just blatantly pull back off the reef and hope to go in  
 (16) the merry way, is that the suggestion?  
 (17) **Q** Try to get it off the reef?  
 (18) **A** Totally That would be an error of judgment  
 (19) **Q** One last little thing You mentioned that Mr Cousins  
 (20) activities on the bridge after Captain Hazelwood left I think  
 (21) you used the words totally unnecessary Mr Chalos running  
 (22) out  
 (23) to the wing and going to the radar?  
 (24) **A** Yes unnecessary and unprofessional  
 (25) **Q** Okay And -- and you also -- and unprofessional And your  
 (26) opinion was that that unprofessional conduct was a cause for

Vol 22 3930

- (1) this wreck is that correct?  
 (2) A It was one of the causes of the wreck  
 (3) Q You gave the three?  
 (4) A Yes  
 (5) Q Now would you agree that if Captain Hazelwood had been on  
 (6) the bridge like you said you would have been on the bridge  
 (7) that that unprofessional conduct on the part of Third Mate  
 (8) Cousins would have been avoided?  
 (9) A It - it's a strong likelihood that it would have been,  
 (10) yes  
 (11) MR MONTAGUE Thank you very much Captain  
 (12) REDIRECT EXAMINATION OF JAY BOLTON  
 (13) BY MR CHALOS  
 (14) Q Mr Bolton did you read anything with respect to Captain  
 (15) Hazelwood's actions that suggested that he was trying to get  
 (16) this vessel off the reef?  
 (17) A To the contrary  
 (18) Q He was trying to keep it on?  
 (19) A Correct  
 (20) Q Now Mr Montague read to you from the VTS user's manual  
 (21) about reporting course changes when you're crossing the VTS?  
 (22) A Yes  
 (23) Q That's talking about a situation where you're here and you  
 (24) want to - let's say you're in Cordova and you want to go over  
 (25) to Whittier right you got to cross the TSS?

Vol 22 3931

- (1) A Correct  
 (2) Q That's what they talk about there don't they? Isn't that  
 (3) correct?  
 (4) A Correct  
 (5) Q And you read Captain Clark's testimony that he said he  
 (6) didn't report every course change that he made do you  
 (7) remember  
 (8) that?  
 (9) A I believe I do  
 (10) Q Now Mr Montague gave you a list of things that Captain  
 (11) Hazelwood didn't do he didn't tell them he was going to his  
 (12) cabin he didn't tell them he was taking his coat off he  
 (13) didn't tell them - you remember all that?  
 (14) A Yes  
 (15) Q Is there any requirement in the VTS manual that required  
 (16) him to make any of those reports that Mr Montague suggested  
 (17) to  
 (18) you?  
 (19) A No sir  
 (20) Q You remember he told you he didn't tell them this that  
 (21) there's no requirement for any of that?  
 (22) A No sir  
 (23) Q Now Mr Montague asked you some question about when  
 (24) Captain Hazelwood got the call from Mr Cousins  
 (25) A Yes  
 (26) Q Do you remember Captain Hazelwood's testimony that he  
 (27) received a call within two minutes after he expected it?

Vol 22 3932

- (1) A Correct  
 (2) Q And you remember Mr Cousins' testimony that he made the  
 (3) call within a minute or so after he laid the fix down?  
 (4) A Yes  
 (5) Q And he laid the fix down at 2356 or 57?  
 (6) A Correct  
 (7) Q Isn't that within the realm of time that the captain should  
 (8) have expected the call?  
 (9) A Yes  
 (10) Q Now you said that in response to the question that you  
 (11) wouldn't have left the bridge on that night that was before  
 (12) you heard what Captain Hazelwood had to say the reasons that  
 (13) he left?  
 (14) A Correct  
 (15) Q And you yourself have left the bridge of your ships above  
 (16) Bligh Reef on a number of occasions have you not?  
 (17) A Yes  
 (18) Q Okay When you leave the bridge of the ship, you don't  
 (19) leave the ship do you?  
 (20) A No  
 (21) Q You're only ten seconds away at most correct?  
 (22) A Correct  
 (23) Q And you got a telephone?  
 (24) A Right  
 (25) Q You can be called any time?

Vol 22 3933

- (1) A Correct  
 (2) Q Now Mr Montague gave you a list of Exxon captains who  
 (3) said they wouldn't have left the bridge under the  
 (4) circumstances right? Are you surprised that Exxon captains  
 (5) would come in here after the fact and say golly gee I would  
 (6) have never left the bridge?  
 (7) A If I was an Exxon captain or a company employee the  
 (8) safest  
 (9) answer is to say I'd never leave the bridge  
 (10) MR NEAL Objection Your Honor  
 (11) THE WITNESS With all the bosses in the room  
 (12) MR NEAL Objection Your Honor Move that it be  
 (13) stricken  
 (14) MR CHALOS You just got me in trouble  
 (15) THE COURT Just a second  
 (16) MR CHALOS Last question Your Honor last  
 (17) question  
 (18) MR NEAL There's an objection  
 (19) MR CHALOS I'll withdraw It's my own teammate  
 (20) I'll withdraw the question  
 (21) THE COURT Okay The question is withdrawn The  
 (22) Ladies and Gentlemen of the Jury will ignore the question and  
 (23) the answer and give it no consideration in deciding this case  
 (24) THE WITNESS Excuse me for being facetious It's a  
 (25) long week  
 (26) THE COURT Glad I didn't do it

Vol 22 3934

Vol 22 3936

(1) BY MR CHALOS  
 (2) Q Okay Last question here Mr Montague showed you the ice  
 (3) chart and he asked you about this line here that he said  
 (4) Mr Cousins drew?  
 (5) A Yes  
 (6) Q I want to clear this up You remember the testimony of  
 (7) Mr Cousins and Captain Hazelwood gave Captain Hazelwood  
 (8) said  
 (9) this is the way he saw the ice when they were at the radar?  
 (10) A Yes  
 (11) Q Right here where I'm pointing?  
 (12) A Yes  
 (13) Q And Mr Cousins said he saw the ice as depicted in this red  
 (14) when they were standing at the radar you remember that?  
 (15) A Yes  
 (16) Q That's roughly about the same isn't it? I mean they're  
 (17) looking about the same ice in the same area?  
 (18) A Correct I think the important thing is they both came to  
 (19) a mutual agreement  
 (20) Q Right Now this line down here that Mr Montague referred  
 (21) to was what Mr Cousins said was the leading edge that he saw  
 (22) as he was - as he got down beyond - beyond Busby Island  
 (23) light you remember that?  
 (24) A Yes  
 (25) Q That's not the ice that he and Captain Hazelwood saw?  
 (26) A Correct

(1) BY VIDEO EXAMINER  
 (2) Q Do you recall any conversations with Frank Larossi where  
 (3) you told him that it was your understanding that alcoholism was  
 (4) considered a disability under federal law and as a result  
 (5) Captain Hazelwood had to be assigned back to sea aboard a  
 (6) vessel?  
 (7) A That conversation did not take place  
 (8) Q If Frank Larossi said it did take place he's wrong?  
 (9) A One of us is wrong I don't recall it I remember Frank  
 (10) specifically asking me to check on the company policy and  
 (11) I do  
 (12) -  
 (13) not recall any conversation or me doing anything about any  
 (14) federal investigation of federal statutes  
 (15) Q And in your mind a shoreside assignment for Captain  
 (16) Hazelwood would not have violated company policy nor federal  
 (17) regulation?  
 (18) A No I don't think so Neither would his seagoing  
 (19) assignment  
 (20) (Portion of Video of Ben Graves concluded )  
 (21) MR JAMIN I believe there's no cross Your Honor  
 (22) MR SANDERS That is correct  
 (23) THE COURT Thank you  
 (24) MR JAMIN Your Honor at this time plaintiffs would  
 (25) move Exhibit 3809 as redacted into evidence  
 (26) (Exhibit 3809 offered)  
 (27) THE COURT That's Exhibit 3809?

Vol 22 3935

Vol 22 3937

(1) MR CHALOS I have no further questions Your Honor  
 (2) THE COURT Sir you may step down  
 (3) MR CHALOS I have one more thing and then we're  
 (4) done  
 (5) THE COURT Good We're through with -  
 (6) MR CHALOS Yes This witness is finished Thank  
 (7) you  
 (8) THE COURT Thank you sir You may step down  
 (9) MR CHALOS I would like to offer into evidence now  
 (10) Defendants Exhibit 2478  
 (11) (Exhibit 2478 offered)  
 (12) MR O NEILL We have no objection  
 (13) THE COURT Defendants Exhibit 2478 is admitted  
 (14) (Exhibit 2478 received)  
 (15) MR CHALOS Thank you  
 (16) MR LYNCH Looks like defendants rest Your Honor  
 (17) THE COURT Thank you  
 (18) Ladies and gentlemen this concludes the defense side of  
 (19) the case  
 (20) Mr Jamin I guess  
 (21) MR JAMIN Very brief rebuttal Your Honor I think  
 (22) we'll make 2 00  
 (23) First Your Honor we have very brief videotape of  
 (24) Mr Graves again  
 (25) (Portion of Video of Ben Graves played as follows)

(1) MR JAMIN Yes that's correct sir  
 (2) MR CHALOS No objection  
 (3) THE COURT Plaintiffs 3809 is admitted  
 (4) (Exhibit 3809 received)  
 (5) MR JAMIN And as promised we rest our rebuttal  
 (6) case Your Honor  
 (7) THE COURT Thank you very much  
 (8) Ladies and gentlemen this completes the taking of the  
 (9) evidence in this case There is one thing counsel that we  
 (10) didn't talk about behind the console a minute ago and we  
 (11) better do it right now before we do anything else  
 (12) (At side bar off the Record)  
 (13) THE COURT Ladies and gentlemen we are now at the  
 (14) point in the case where counsel need to do some work and I  
 (15) need  
 (16) to do some work They need to get ready to make their closing  
 (17) arguments and there's a great deal of material that they've got  
 (18) to put together and marshal and assess in order to have it  
 (19) properly organized to present their theory of their case to  
 (20) you I have to finalize the jury instructions that we will be  
 (21) using What I'm leading to is that you get a day off  
 (22) tomorrow We get to work We get to work but you all get the  
 (23) day off Friday We will reconvene with you at 8 00 on Monday  
 (24) morning at which time we will have closing arguments followed  
 (25) by my jury instructions  
 (26) Over this second long weekend that you'll get please do

Vol 22 3938

(1) remember my instructions that you not read any newspaper  
 (2) articles about the case or listen to any reports about the  
 (3) case Don t let anyone discuss the case with you Don t  
 (4) listen to anybody discussing the case and furthermore even  
 (5) though you ve heard all of the evidence at this point don t  
 (6) start making even tentative decisions about where you think  
 (7) you re going to go with the case  
 (8) I know it s hard not to make those kind of judgments but  
 (9) you really will be better off if you stay in neutral over the  
 (10) weekend Wait until you ve heard the arguments wait until  
 (11) you ve heard my instructions and then it will be plenty of  
 (12) time for you to be making decisions Have a good weekend  
 (13) We  
 (14) will see you on Monday morning  
 (15) Counsel will please stay a moment  
 (16) (Jury out at 2 02 p m )  
 (17) **THE COURT** They didn t seem the least bit offended  
 (18) **Mr Lynch?**  
 (19) **MR LYNCH** Your Honor on behalf of the Exxon  
 (20) defendants and I believe that Mr Chalos will join me in part  
 (21) of this motion I move pursuant to Rule 58 for judgment as a  
 (22) matter of law on the ground that the record taken as a whole  
 (23) and by the proper legal standards is insufficient to establish  
 (24) a claim of recklessness as against the Exxon defendants and I  
 (25) ask for entry of judgment against the plaintiffs claims for  
 punitive damages

Vol 22 3939

(1) Separately would ask the Court to rule that there is not  
 (2) sufficient evidence in this record and judged by the  
 (3) appropriate legal standard for a jury to find that a claim of  
 (4) recklessness could be based on the allegation that the  
 (5) assignment of Robert Kagan as a helmsman aboard the Exxon  
 (6) Valdez was a reckless act or could be a predicate for an award  
 (7) of punitive damages  
 (8) Similarly and separately we ask for a judgment that there  
 (9) is insufficient evidence on this record judged by the  
 (10) appropriate legal standard for a jury to conclude that the  
 (11) grounding of the Exxon Valdez resulted from the fatigued state  
 (12) of Gregory Cousins or inattention or demanding practices of  
 (13) Exxon relating to deck officers  
 (14) On the same standard we do - we submit that it is  
 (15) appropriate for the Court to direct entry of judgment as a  
 (16) matter of law on the ground that the evidence taken as a whole  
 (17) and by the appropriate legal standard is not sufficient to  
 (18) establish that Captain Hazelwood was impaired by alcohol at  
 (19) the time of the grounding or that the impairment - that the  
 (20) consumption of alcohol rather was a proximate cause of the  
 (21) grounding and accordingly that judgment is permissible and  
 (22) proper as a matter of law and it would be improper for the jury  
 (23) to return a verdict based on claims relating to Exxon s alcohol  
 (24) policy or Captain Hazelwood s actions because there is no  
 (25) adequate proof of impairment or proximate causation

Vol 22 3940

(1) We make the same motion separately as to the claims  
 (2) relating to - claims of recklessness and claims for punitive  
 (3) damages relating to actions of Captain Hazelwood on the  
 (4) ground  
 (5) that on the evidence presented and that by the appropriate  
 (6) legal standard any actions of Captain Hazelwood with  
 (7) reference  
 (8) to leaving the bridge cannot be attributed to Exxon Corporation  
 (9) for purposes of punitive damage liability because those actions  
 (10) were not in a requisite degree of direct complicity and as the  
 (11) record indicates were contrary to the direct practices of Exxon  
 (12) Shipping Company  
 (13) Lastly and separately we move for judgment as a matter of  
 (14) law on the ground that the evidence taken as a whole and by  
 (15) the  
 (16) appropriate legal standard would not permit a jury verdict of  
 (17) recklessness with regard to the Exxon Shipping Company  
 (18) alcohol  
 (19) policy, either in general or as applied to the case of Captain  
 (20) Hazelwood  
 (21) I believe Your Honor that we can better support this  
 (22) motion with a brief which we would like to submit to the Court  
 (23) tomorrow As the Court knows you have the discretion and we  
 (24) are invited to suggest to you that some or all parts of this  
 (25) motion might be reserved for consideration at a later time It  
 is our view that particularly the first two grounds of the  
 motion that I mentioned that is the claim of impairment - I m  
 sorry the claim of Kagan was unqualified to serve as helmsman  
 and that that had some involvement in this action and the claim

Vol 22 3941

(1) that fatigue or deck officer manning practices were a proximate  
 (2) cause of this accident are matters which - which it would be  
 (3) constructive to resolve before submission of the case to the  
 (4) jury  
 (5) We believe that those two points in particular are clearly  
 (6) unsupported and that it would simplify the jury deliberation  
 (7) process to resolve those matters and instruct the jury  
 (8) accordingly I don t say that in derogation of the other  
 (9) points that I ve made but those two points in particular would  
 (10) tend to simplify the consideration of the case by the jury  
 (11) **MR CHALOS** Your Honor on behalf of Captain  
 (12) Hazelwood we also move for a directed verdict on the issue of  
 (13) negligence We do not believe that the evidence that s been  
 (14) presented supports a finding that Captain Hazelwood was  
 (15) negligent on the night of the grounding particularly in his  
 (16) leaving the bridge under the circumstances that have been  
 (17) presented  
 (18) We also move for a directed verdict on the issue of  
 (19) recklessness in that Captain Hazelwood s actions on the  
 (20) evening  
 (21) of the grounding do not rise to the level of the legal standard  
 (22) of recklessness  
 (23) We join in Exxon s motion with respect to the impairment  
 (24) issue as outlined by Mr Lynch We would also like to reserve  
 (25) for Captain Hazelwood the opportunity to submit a brief on the  
 two - on the motions that we have made on the issues of

Vol 22 3942

(1) recklessness and negligence  
 (2) THE COURT You all sure like to write briefs  
 (3) MR O NEILL I don't think we need briefs We were  
 (4) all here and saw the same evidence The Rule 50 standard is  
 (5) that there is no legally sufficient evidentiary basis for a  
 (6) reasonable jury to find for the non moving party on the issue  
 (7) And a jury sitting here in this courtroom for the last three or  
 (8) four weeks can believe or disbelieve the testimony of almost  
 (9) anybody it chooses to because most of the witnesses have  
 (10) deviated from past deposition testimony  
 (11) I want to clear up one matter with regard to Mr Kagan and  
 (12) their motion concerning Mr Kagan The plaintiffs don't  
 (13) contend that the assignment of Mr Kagan per se onto the  
 (14) vessel provides in and of itself a ground for the award of  
 (15) punitive damages Just so we're clear about that  
 (16) Mr Kagan's role as far as we're concerned is a piece of  
 (17) evidence that at the time the captain made the decision to  
 (18) leave the bridge he left it in charge of Cousins and Kagan  
 (19) and Kagan's history was relevant to that decision So Kagan  
 (20) per se is a piece of evidence and to shortcut the legal jargon  
 (21) is not a cause of action I guess he's a person but he isn't a  
 (22) cause of action  
 (23) Our theory with regard to Exxon is that it is liable for  
 (24) punitive damages because Exxon was reckless with regard to  
 (25) Hazelwood and secondly because Exxon was reckless  
 because

Vol 22 3943

(1) Hazelwood was its managing agent and his acts his reckless  
 (2) acts were attributable to Exxon  
 (3) So those are the two theories on the basis of the  
 (4) stipulated facts on the basis of statutory violations  
 (5) including the four hour rule the six hour rule the pilotage  
 (6) requirement in 46 USC 8502(a) on the basis of Exxon's general  
 (7) admissions including those of its president and chairman of  
 (8) the board Mr Rawl Mr Raymond Mr Stevens Mr LeGrange  
 (9) In light of the admissions that we presented to the Court  
 (10) and in light of the proof presented to the Court there is more  
 (11) than sufficient evidence to consider that Exxon with regard to  
 (12) either of those theories was reckless  
 (13) With regard to Mr Hazelwood a jury could conclude based  
 (14) upon the evidence presented to it in this courtroom that he  
 (15) drank that his drinking caused impaired judgment at or about  
 (16) the time he left the bridge that his leaving the bridge was  
 (17) cause of the accident and indeed Exxon has stipulated that it  
 (18) was a proximate cause of the accident He had a 06  
 (19) afterwards There is evidence that can put him up to 14 drinks  
 (20) that afternoon if you listen to the bartenders  
 (21) With regard to manning there is evidence with regard to  
 (22) the fact that there was violations to the six on six off  
 (23) statute We went through that in great detail with that big  
 (24) board There's evidence that such violations occurred  
 (25) regularly There's evidence that Exxon did not have a system

Vol 22 3944

(1) in place to ensure compliance with the six on six off  
 (2) requirements  
 (3) With regard to alcohol proof there's alcohol proof for  
 (4) three and a half weeks So all of the motions with the  
 (5) exception of the Kagan motion are in our view after what  
 (6) we've heard for the last three and a half weeks ill founded  
 (7) and we oppose the motion on the basis of the record and the  
 (8) law  
 (9) With regard to our record and I'm moving on to a new  
 (10) subject we move on both of our theories for judgment as a  
 (11) matter of law under Rule 50 and criteria the record  
 (12) I'll move on  
 (13) THE COURT Thank you  
 (14) MR O NEILL I want to address one question on the  
 (15) verdict form in some detail  
 (16) THE COURT On the what?  
 (17) MR O NEILL One question that may be on the verdict  
 (18) form in some detail I am going to move for judgment as a  
 (19) matter of law under Rule 50 that Captain Hazelwood was a  
 (20) managing agent of Exxon Corporation And I cite the Protectus  
 (21) Alpha case which we've all looked at more times than we care  
 (22) to have looked at and the testimony of Paul Myers Lloyd  
 (23) LeCain Frank Iarossi Mr Iarossi's piece of work surrendering  
 (24) the memories Daniel Paul's testimony Mitch Stalzer's  
 (25) testimony Captain Andre Martineau's testimony and the

Vol 22 3945

(1) testimony of expert Bolton who today described the master of a  
 (2) chief - as a chief executive officer and chairman of his own  
 (3) company and described him as a CEO So we move under Rule  
 (4) 50  
 (5) for judgment as a matter of law that Captain Hazelwood was the  
 (6) managing agent of Exxon and we don't believe there's any  
 (7) evidence to the contrary in the record  
 (8) So I've moved for judgment as a matter of law under Rule 50  
 (9) based upon the record and the applicable law against Exxon  
 (10) Corporation Exxon Shipping Company under both theories on  
 (11) claims of recklessness I move against Captain Hazelwood with  
 (12) regard to negligence and Captain Hazelwood with regard to  
 (13) recklessness and I think my record's complete  
 (14) Thank you Judge  
 (15) THE COURT Mr Lynch?  
 (16) MR LYNCH Your Honor we oppose that motion  
 (17) MR CHALOS I join in the opposition  
 (18) MR LYNCH I really hadn't prepared to meet it but I  
 (19) would like to say one thing with regard to the fatigue aspect  
 (20) of Mr O'Neill's comments and that is that his claim in this  
 (21) case is necessarily a claim based on recklessness conscious  
 (22) disregard of the known risks  
 (23) The six hour rule a Coast Guard regulation put in at the  
 (24) turn of the century as Mr O'Neill has said as part of a labor  
 (25) issue relating to the loading activities of mates in port I  
 think the evidence on that issue does not by any stretch of

Vol 22 3946

- (1) the imagination rise to the level of recklessness but  
 (2) moreover it doesn't seem to me to have anything to do with the  
 (3) question of whether the - the activities and actions of Third  
 (4) Mate Gregory Cousins on the night of the grounding were or  
 were  
 (5) not caused by a state of fatigue That statute doesn't -  
 (6) doesn't guarantee rest The plaintiffs own expert indicated  
 (7) that you could be in full compliance with that rule and in a  
 (8) very advanced state of fatigue  
 (9) The absolutely uncontradicted testimony of everybody who  
 (10) saw Mr Cousins and Mr Cousins himself was that he was well  
 (11) rested The record is that he had ten hours of sleep in the  
 (12) preceding 23 more than the amount that the plaintiffs expert  
 (13) says is necessary to meet the adequate sleep needs of the  
 (14) average person So there's no testimony other than pure  
 (15) speculation that fatigue played any role in this grounding  
 (16) Now whether the plaintiffs agree with the procedures that  
 (17) were used for the six hour rule or not the six hour rule is  
 (18) basically a red herring I go into that because as I said  
 (19) that is one issue which we do strongly feel would well be out  
 (20) of the case before the matter is submitted to the jury  
 (21) As to the other matters we do wish to submit a brief  
 (22) although I gather that Your Honor is not particularly anxious  
 (23) to have one and I'd like to defer a more detailed discussion  
 (24) on the record on the other points to something we could submit  
 (25) in writing

Vol 22 3947

- (1) MR O NEILL I don't want to write another brief  
 (2) THE COURT I don't want to read another brief right  
 (3) now Now the time -  
 (4) MR LYNCH Point well taken Your Honor  
 (5) THE COURT The time may very welcome when I will both  
 (6) need and want briefs from you all on the kinds of things you  
 (7) are talking about now I think it will be more profitable for  
 (8) all of us for you to defer writing that brief until you have  
 (9) some additional information that these 12 people will probably  
 (10) provide us And I suggest you wait to write your briefs until  
 (11) we see what happens  
 (12) MR O NEILL Thank you Judge  
 (13) MR LYNCH Louisville slugger on my forehead but I  
 (14) finally got the point Your Honor  
 (15) THE COURT That probably suggests to you that it -  
 (16) at this point I'm going to deny all of these Rule 50 motions  
 (17) I think in some respects some of you have got good points but  
 (18) really what it gets down to is that you're arguing the evidence  
 (19) to me at this point and I believe that there is at least some  
 (20) fair room for argument about all of these things that all of  
 (21) you have talked to me about So it's not appropriate for me to  
 (22) take this case or any part of it I don't believe away from  
 (23) the jury at this point  
 (24) Now some of the things that you've talked about were  
 (25) going to have to hash out thrash out in terms of jury

Vol 22 3948

- (1) instructions but - but basically what I mean to do is to  
 (2) leave all of these issues for the jury to deal with hopefully  
 (3) with proper instructions  
 (4) MR LYNCH Thank you Your Honor I think one minor  
 (5) point that doesn't have to be dealt with now but I think it is  
 (6) important that we confirm that that's on the understanding that  
 (7) Mr O'Neill's concession that there is no claim made with  
 (8) relation to the assignment of Mr Kagan is - is included in  
 (9) your comment  
 (10) THE COURT Oh well I -  
 (11) MR O NEILL I meant what I said  
 (12) THE COURT I heard that but - but -  
 (13) MR LYNCH I had made a motion on that ground and you  
 (14) were technically denying it and Mr O'Neill I think had  
 (15) conceded that there's no claim for punitive damages made as to  
 (16) the assignment of Robert Kagan  
 (17) THE COURT Well I guess I'm denying it because I  
 (18) expect you all to talk about the role that Mr Kagan played in  
 (19) this thing and I don't mean - I don't wish to by ruling on  
 (20) the motion to preempt anyone from talking about Mr Kagan's  
 (21) role in the case So I don't think I should grant a motion on  
 (22) it  
 (23) MR O NEILL Thank you Judge  
 (24) THE COURT But I understand what you're saying that  
 (25) there is no claim cause of action based upon the assignment

Vol 22 3949

- (1) of Kagan to the vessel per se  
 (2) MR O NEILL Per se that's correct but we are going  
 (3) to talk about Mr Kagan  
 (4) MR LYNCH Similar to the Coast Guard - thank you  
 (5) Your Honor  
 (6) THE COURT Anything else we need to talk about now?  
 (7) MR O NEILL No sir  
 (8) THE COURT Okay You all are going to take a close  
 (9) look at your - your exhibit lists so that you know that when  
 (10) you are arguing you're talking about exhibits that have been  
 (11) admitted and not multiple many many things that you've got  
 (12) that were identified but not admitted  
 (13) MR O NEILL Yes sir  
 (14) MR LYNCH Even more importantly the ones that we  
 (15) have are the same ones that were admitted by those numbers  
 (16) THE COURT That would be nice too  
 (17) We'll be in recess now for this case until 8:00 Monday  
 (18) morning but I will be seeing counsel on instructions  
 (19) (Recess at 2:20 p m)

Vol 22 3950

Vol 22 3952

(1) INDEX	
(1) DIRECT EXAMINATION OF HARVEY BORGEN (Live)	
3713	
(3) BY MR NEAL	3713
(5) CROSS EXAMINATION OF HARVEY BORGEN	
3722	
(6) BY MR O NEILL	3722
(8) REDIRECT EXAMINATION OF HARVEY BORGEN	
3728	
(9) BY MR NEAL	3728
(11) DIRECT EXAMINATION OF DOUG LARSEN (Live)	
3730	
(12) BY MR NEAL	3730
(14) CROSS EXAMINATION OF DOUG LARSEN	
3740	
(15) BY MR O NEILL	3740
(17) REDIRECT EXAMINATION OF DOUG LARSEN	
3746	
(18) BY MR NEAL	3747
(20) DIRECT EXAMINATION OF GRADY T SHEARER (Live)	
3748	
(1) BY MR SANDERS	3748
(3) CROSS EXAMINATION OF GRADY T SHEARER	
3756	
(4) BY MR O NEILL	3756

(1) EXHIBITS	
(1) 9182 offered	3775
(3) 9181 offered	3801
(4) 9181 offered	3808
(5) 3683 offered	3825
(6) 3918 offered	3827
(7) 3683 offered	3827
(8) 3617 offered	3829
(9) 2478 offered	3935
(10) 3809 offered	3936
(12) 9182 received	3775
(13) 9181 received	3801
(14) 9181 received	3809
(15) 3918 received	3827
(16) 3683 received	3828
(17) 3617 received	3829
(18) 2478 received	3935
(19) 3809 received	3937

Vol 22 3951

Vol 22 3953

(1) REDIRECT EXAMINATION OF GRADY T SHEARER	
3762	
(1) BY MR SANDERS	3762
(4) DIRECT EXAMINATION OF JAMES ROUSE (Live)	
3765	
(5) BY MR LYNCH	3765
(7) CROSS EXAMINATION OF JAMES ROUSE	
3816	
(8) BY MR O NEILL	3817
(10) REDIRECT EXAMINATION OF JAMES ROUSE	
3840	
(11) BY MR LYNCH	3840
(13) DIRECT EXAMINATION OF JAY BOLTON (Live)	
3845	
(14) BY MR CHALOS	3845
(16) CROSS EXAMINATION OF JAY BOLTON	
(17) BY MR MONTAGUE	3912
(19) REDIRECT EXAMINATION OF JAY BOLTON	
3930	
(20) BY MR CHALOS	3930

(1) STATE OF ALASKA )	
(2) Reporter s Certificate	
(3) DISTRICT OF ALASKA )	
(6) I Joy S Brauer a Registered Professional	
(7) Reporter and Notary Public	
(8) DO HERBY CERTIFY	
(9) That the foregoing transcript contains a true and	
(10) accurate transcription of my shorthand notes of all requested	
(11) matters held in the foregoing captioned case	
(12) Further that the transcript was prepared by me	
(13) or under my direction	
(14) DATED this day	
(15) of 1994	
(21) JOY S BRAUER RPR	
Notary Public for Alaska	
(22) My Commission Expires 5 10 97
