To: All Parties of Record - Federal Exxon Trial  
From: Marianne Lindley  
Re: 1) Tapes Played in Court/Transcripts Read in Court  
Exhibits Offered/Received

1) The video tapes played thus far have been very difficult to interpret by the reporter(s), most likely due to the editing and modulation changes, as well as generational degradation. We will continue to do our best in reporting them, but we're encountering several problems:

- the scripts you give us don't match the video;
- sections included in the scripts have been deleted from the video;
- sections included in the videos are missing from the scripts;
- late transcript delivery because we're having to re-read portions of the scripts against the reporter's transcripts since the audio quality is difficult to report.

The read depositions:

- the scripts are sometimes massively paraphrased;
- the readers are paraphrasing while reading quickly (although their words are comprehensible, there is no time to absorb what they're saying, lacking the voice and body inflections of the original proceedings, for our shorthand purposes);
- the scripts contain material deleted from the live reading;
- late transcript delivery because we're forced to re-read portions of the scripts against the reporter's transcripts.

Our requests: Have the readers stay a consistent, reportable speed in their "testimony"  
Have accurate scripts available for us of the videos

2) We're parenthetically noting exhibits as offered and/or received in court, as long as it's explicitly clear in the proceedings that this in fact has been done.

We understand that Tom Murtiashaw has asked all of you to clearly and formally offer exhibits. This would help the reporters out since the words are flying by (220 to 240 pages in six hours) and we have no time to go back a second time to re-review the transcripts before delivery.

Our request: Be sure the word "offered" is used immediately adjacent to the exhibit numbers.  
Read the exhibit numbers distinctly and clearly, remembering we can't see what you are referring to.  
If the Court is not completely clear that an exhibit has been "admitted" or "received", restate the exhibit numbers thus admitted.

Thank you in advance for your cooperation in these matters.

(1) PROCEEDINGS  
(2) (Jury in at 8 00)  
(3) THE CLERK All rise  
(4) (Call to Order of the Court)  
(5) THE COURT Good morning ladies and gentlemen This  
(6) is the continuation in case A89 0095 civil in re the Exxon  
(7) Valdez  
(8) MR JAMIN Let us start if we may by offering certain  
(9) exhibits which have been agreed upon the first is 3793 37 -  
(10) catch up 3793 3794 3795 3796 3799 3804 3805 3807 3808  
(11) and 3811  
(12) (Exhibits 3793 3794 3795 3796 3799 3804 3805 3807  
(13) 3808 and 3811 offered)  
(14) MR SANDERS We have no objection  
(15) THE COURT Thank you The exhibits announced by  
(16) Mr Jamin are admitted  
(17) (Exhibit 3793 3794 3795 3796 3799 3804 3805 3807  
(18) 3808 and 3811 received)  
(19) MR JAMIN At this time with the Court s permission  
(20) the plaintiffs will call Michael A Peat to testify  
(21) THE CLERK Would you raise your right hand  
(22) (The Witness Is Sworn)  
(23) THE WITNESS I do  
(24) THE CLERK Please be seated  
(25) For the record would you state your full name your

(1) address and spell your last name  
(2) THE WITNESS Michael Allen Pete P e a t I reside  
(3) at 8408 Sterling Bridge Road Chapel Hill North Carolina  
(4) THE CLERK Thank you sir  
(5) DIRECT EXAMINATION OF MICHAEL A PEAT  
(6) BY MR JAMIN  
(7) Q Doctor Peat good morning  
(8) A Good morning  
(9) Q How are you currently employed?  
(10) A I am presently employed as an individual consultant  
(11) Q In what field?  
(12) A In the field of toxicology  
(13) Q In March of 89 after the wreck of Exxon Valdez were you  
(14) employed to perform some tests on Joseph Hazelwood s  
blood?  
(15) A Yes, they did  
(16) Q All right Let me take a moment to review your education  
(17) sir  
(18) As background can you tell us about your undergraduate  
(19) education?  
(20) A Yes I have an undergraduate degree in chemistry which  
was  
(21) awarded from in England in 1969, and under graduate  
doctoral in  
(22) pharmacology which was awarded from the University of  
Utah in  
(23) 1982  
(24) Q Can you give us a thumbnail sketch of your employment  
(25) history?

Vol 13 1724

- (1) **A Yes** From 1969 through 1972 I was employed at the metropolitan police forensic laboratory attached to New Scotland Yard in London From 1972 to 1976 I was with the University of London at one of their medical schools where I held both faculty positions and a staff position directing a clinical forensic toxicology laboratory From 1976 through 1984 I was with the Center for Human Toxicology at the University of Utah Salt Lake City From 1984 through 1986, I was with Chemical Toxicology Institute in Foster City, California And from 1986 through February of this year, I have been with CompuChem Laboratories
- (12) **Q** All right Now two words that you ve used forensic and toxicology Can you give the jury a brief description of what they are and how they work together?
- (15) **A Yes** Is the study the adverse effects of chemicals and drugs on the human body Forensic toxicology deals with the application of toxicology in the field of law, and in particular with the analysis of biological specimens of drugs or toxic chemicals
- (20) **Q** In March of 1989 where were you physically located in your employment?
- (22) **A** In Sacramento, California
- (23) **Q** And what is the name of the outfit specifically you were working for sir?
- (25) **A** It was known as ChemWest Analytical Laboratories

Vol 13 1725

- (1) **Q** We ve heard CompuChem and ChemWest before you testified
- (2) Can you explain the difference or relation?
- (3) **A** ChemWest is a - was a totally owned subsidiary of CompuChem Laboratories
- (5) **Q** And in March and April of 1989 were you employed as director of ChemWest?
- (7) **A** I was employed as director of the drug testing division of ChemWest
- (9) **Q** Now did ChemWest perform tests for the presence of alcohol and drugs in the blood of Joseph Hazelwood shortly after the Exxon Valdez disaster?
- (12) **A Yes, they did**
- (13) **Q** And did they do that for Gregory Cousins?
- (14) **A Yes**
- (15) **Q** And do so for Maureen Jones?
- (16) **A Yes**
- (17) **Q** And did they do so for Robert Kagan?
- (18) **A Yes**
- (19) **Q** At the time the tests were performed Doctor did ChemWest have any type of certification to do chemical testing?
- (21) **A** It was certified by the National Institute on Drug Abuse to perform drug abuse testing in urine specimens
- (22) **Q** All right And are there rigorous standards sir to get such certification?
- (25) **A Yes, they are**

Vol 13 1726

- (1) **Q** What are they?
- (2) **A** The process by which you obtain certification is that you analyze a series of test specimens sent to you by the National Institute Then you undergo an inspection for two days by three inspectors If you pass both those criteria you become certified
- (7) **Q** And are there continuing certification requirements once you get the original approval from NIDA?
- (9) **A Yes**
- (10) **Q** What are they?
- (11) **A** Every six months you undergo another two day inspection by three man team and every two months you analyze test specimens for the presence of drugs
- (14) **Q** Now with respect to your own credentials and certification are you presently certified as a forensic toxicologist?
- (16) **A Yes, I'm board-certified by the American Board of American Toxicology**
- (18) **Q** And are there state certifications as well?
- (19) **A** There are state licensures
- (20) **Q** Licenses And where are you licensed sir?
- (21) **A** In the state of California and the state of New York
- (22) **Q** All right Do you serve a review function at all for the development of national standards in this field?
- (24) **A Yes, I served on the advisory board to the National Institute for the certification of laboratories program**

Vol 13 1727

- (1) **Q** And in connection with that do you train inspectors who actually certify labs?
- (2) **A Yes, I do**
- (4) **Q** All right Can you give us some estimate of how many blood and urine samples you ve been involved with the testing of over the years?
- (7) **A** Either myself or a laboratories that I have directed and they number in the thousands
- (9) **Q** And how about tests for the presence of alcohol or drugs?
- (10) **A** Again, they would be in the thousands
- (11) **Q** All right I want to take a moment to discuss the business practices at ChemWest just a bit Can you describe the general activities of ChemWest?
- (14) **A Yes** ChemWest is split into two divisions One is the environmental testing division, which deals with the analysis of water, sludge, soils, et cetera for environmental toxins
- (17) **The other was the drug testing division which analyze biological specimens including blood and urine for the presence of drugs**
- (20) **Q** All right Now this second part of the lab that dealt with the blood and alcohol issues what sorts of clients were yours during that period?
- (23) **A** They were numerous They included law enforcement agency, federal agencies, state agencies, the state of California and private companies that did drug testing

Vol 13 1728

- (1) Q Did you work at all for the Alaska State Troopers?
- (2) A We did some referral work for the Alaska State Troopers
- (3) Q All right Now when you do these the tests that you ve described how do you generally get the samples to start with?
- (4) A Generally they re delivered by some overnight courier service such as Airborne or Federal Express or UPS
- (5) Occasionally they will be delivered by hand, particularly local
- (6) agency
- (7) Q And once received what s the general process by which the samples are dealt with in the lab?
- (8) A The specimens are first examined to insure the cells are intact, there s been no obvious signs of tampering to the cells
- (9) of the specimens They are then logged in on an internal chain
- (10) of custody document by the receivers who document date and
- (11) condition, general condition of the shipping containers
- (12) The
- (13) receiver s also required to give a general description of the specimen container
- (14) Q All right And how is the actual test for alcohol in blood?
- (15) A The actual test is performed by a technique known as gas chromatography which analyzed for ethanol and also determines
- (16) the amount of ethanol or in the -
- (17) Q We ve had some discussion about test tubes Do you use the
- (18) entire sample from the test tube for one of these blood alcohol tests?
- (19) tests?

Vol 13 1729

- (1) A No only a very small portion of the specimen not in the test tube is used
- (2) Q And can you give me some idea of how much is used for one of these alcohol blood tests?
- (3) A It s less than one milliliter
- (4) Q All right Now can you give me some idea of how much a milliliter actually is?
- (5) A If I can just demonstrate with my pen the pen could represent a test tube At the bottom of the test tube this black portion would be approximately one milliliter
- (6) Q All right
- (7) A And the test tube would be filled to about where the top of the pen sits
- (8) Q All right Good Now just for comparison purposes to check with something we all may know with the change to milliliters and things like that how many milliliters are in a fluid ounce?
- (9) A Approximately 30
- (10) Q And with a 32 ounce quart about how many milliliters would be in a quart?
- (11) A About a liter
- (12) Q About a liter?
- (13) A A thousand milliliters
- (14) Q About a thousand of these milliliters that you ve described with your pen in a quart?
- (15) tests?

Vol 13 1730

- (1) A Yes
- (2) Q All right Now if after one alcohol test has been done in your lab and there s a request for another one do you go to a second tube do you use the first tube is there a particular practice there?
- (3) A We would normally use the first tube the tube that we ve opened, for that retest And if that will leave the second tube or third tube, whatever, sealed, for the donors to retest if requested
- (4) Q All right Now as director of the lab that you ve described for us what were your general duties?
- (5) A I was responsible for management of the laboratory, including the procedures and protocols used, including staff
- (6) and other administration functions
- (7) Q And did you have any duties with respect to maintenance of records sir?
- (8) A I served as the custodian of business records
- (9) Q And what was the purpose within a forensic toxicology lab for maintenance of records?
- (10) A Those records can obviously be requested by various agencies for litigation purposes Therefore they have to be maintained in the appropriate fashion for a period of time
- (11) Q All right And who was ultimately responsible within ChemWest for the maintenance and preparation of records?
- (12) A I was

Vol 13 1731

- (1) Q All right Are you therefore familiar with the record retention system that was set up?
- (2) A Yes I established it when we opened the laboratory in 1986
- (3) Q All right Now when ChemWest gets a sample for testing for example a blood sample how is a file set up and what kinds of documents can we expect to find?
- (4) A A file is set up for a particular individual, so in this particular case a file was established for Joseph Hazelwood,
- (5) and within that file will be documentation of chain of custody,
- (6) documentation on the analytical tests that were performed and
- (7) generally and any other correspondence associated with that particular situation
- (8) Q And looking specifically now at the testing that was done in connection with the Exxon Valdez grounding were samples received in the Sacramento office?
- (9) A Yes they were
- (10) Q And were files opened?
- (11) A Yes
- (12) Q And were tests done?
- (13) A Yes
- (14) Q And were you asked to make available some of those records for copying in this litigation?
- (15) A Yes
- (16) Q And did you do so?

Vol 13 1732

- (1) **A Yes, I did**
- (2) **Q All right** Were the records that you looked at for
- (3) **purposes of this litigation from the Sacramento office?**
- (4) **A Yes, they were**
- (5) **Q And did you find them there?**
- (6) **A No, I did not**
- (7) **Q All right** Where did you find them sir?
- (8) **A I found them in CompuChem Laboratories in Research Triangle Park, North Carolina**
- (9) **Q And can you explain to the members of the jury why they were in North Carolina and not Sacramento?**
- (10) **A Yes** In August of 1990 the drug testing division of ChemWest was closed by CompuChem and the records were
- (11) **transferred back to North Carolina for secure and safe keeping**
- (12) **Q All right** Now did you have an opportunity to compare the original file with the various documents we were going to discuss this morning?
- (13) **A Yes, I did**
- (14) **Q All right** Now I'm going to show you sir if I may a series of documents that we're going to talk about
- (15) **May I approach the witness** Your Honor
- (16) **THE COURT** You may
- (17) **BY MR JAMIN**
- (18) **Q Ask if you could just first review those and indicate to us whether or not they are in fact copies from the file**

Vol 13 1733

- (1) **maintained by ChemWest?**
- (2) **A Yes, they are**
- (3) **Q All right**
- (4) **May I approach again** Your Honor?
- (5) **What I'm going to do** Doctor is use the projector to display the documents
- (6) **A Okay**
- (7) **Q I'm first going to refer** Doctor to what's been marked as 3793
- (8) **May we have it on?**
- (9) **Now** let me ask you first 3793 is a three page document
- (10) **What is that** sir?
- (11) **A It's what I would call a leaflet, which contains some information on a blood collection kit marketed by Beckton and Dickson VD (ph) for forensic purposes**
- (12) **Q All right** And did the document contain a consent form as well?
- (13) **A Yes, I believe page 3 of that document is a consent form**
- (14) **Q All right** Let's take a look at the upper left hand corner of page 3 I hope I have that centered on the screen
- (15) **Can you see that there** sir?
- (16) **A Yes, I can**
- (17) **Q All right** Now with respect to this document does it indicate what sorts of tubes were present in the kit that it describes?

Vol 13 1734

- (1) **A Yes, it indicates that it contains two ten milliliter vacutainer blood tubes which contain fluoride and oxide fluoride and disodium**
- (2) **Q All right** Now I'm going to switch you over to the right hand side of that document and let me ask if you can read the top part that appears to be called consent form
- (3) **A There is entry for a date which is 3/24/89 and a time which is 10 35 a m , and below that there is a statement, I have granted permission for blood samples to be taken, signature of**
- (4) **subject, it reads Joseph J Hazelwood**
- (5) **Q All right** And looking farther down on the right hand side of the form once again I will try and get that centered so we can see the whole thing Is there a form that's indicated as blood collection report?
- (6) **A Yes**
- (7) **Q And does it contain the name Joseph J Hazelwood?**
- (8) **A Yes, it does**
- (9) **Q And does it have date and time of incident 0004?**
- (10) **A It does**
- (11) **Q And the date** March 24 1989?
- (12) **A Yes**
- (13) **Q And the place of blood collection listed as Exxon Valdez** 3/24/89 10 35 a m
- (14) **A Yes**
- (15) **Q All right** Now are you able to read any of the signatures

Vol 13 1735

- (1) **farther down?**
- (2) **A I believe that one of the signatures, the one to the right of the slash, M J Delozier**
- (3) **Q And to the left** are you able to make out any of that?
- (4) **A No** I cannot make that signature out
- (5) **Q All right** Now going back to the left hand side at the bottom of the form does it also have the name Joseph J Hazelwood?
- (6) **A Yes, it does**
- (7) **Q And the same date and times?**
- (8) **A The same information is included**
- (9) **Q All right** And once again can we read the signature of M J Delozier?
- (10) **A Yes, I can read that one**
- (11) **Q And up above that we have the signature that's a little bit tough to read** but can you read after that USCG?
- (12) **A I can**
- (13) **Q All right** Thank you
- (14) **Now** did this document sir accompany the samples when they were received in the lab?
- (15) **A Yes it did**
- (16) **Q All right** Now let me show you next what's been marked 3794 and ask you - change the zoom on this a little bit Get a better feel for the whole document and then we'll come into the whole

Vol 13 1736

- (1) All right Now I'm going to scan in so that we can see  
 (2) the language more precisely but what is this sir?  
 (3) **A This is the requisition form from the American Institute  
 for Drug Detection, indicating a client name of Exxon U S A**  
 (4) **Q All right And did this too accompany the samples as they  
 (5) were received in ChemWest?**  
 (6) **A Yes, they did**  
 (7) **Q Let me see if I can work the zoom buttons right And we'll  
 (8) focus in on the portion of the form that seems to be a block  
 (9) called specimen change of custody?**  
 (10) **A Correct**  
 (11) **Q All right Can you read it looks as if with the xerox  
 (12) is - we may have lost the S from specimens and came out  
 (13) specimens but can you read that as best you can sir?**  
 (14) **A Yes It reads, specimen provided by Joseph J  
 (15) Hazelwood**  
 (16) **Q All right And again to the extent that you're able to  
 (17) can you read the rest of the writing on the form and the dates?**  
 (18) **A There are two sets of numbers both over the date 24  
 (19) March 89 The second set below the set is M J D, the first  
 (20) set appears to be an S followed by initial I cannot read and  
 (21) then a C**  
 (22) **Q All right Now let's take a look at a third document  
 (23) which has been marked 3795 Once again I'm going to get a  
 (24) feel  
 (25) for the whole of the document Can you tell me sir whether  
 this is a document that came along with the samples when they**

Vol 13 1737

- (1) were received at ChemWest?  
 (2) **A Yes, it did**  
 (3) **Q And what is this sir?**  
 (4) **A This is labeled a chain of custody card and I believe it  
 (5) originated with the Coast Guard office in Alaska**  
 (6) **Q All right And let's take a zoom on this focus on the top  
 (7) part at the beginning Does it indicate case title T/V Exxon  
 (8) Valdez?**  
 (9) **A Yes, it does**  
 (10) **Q And does it indicate for the item description sealed blood  
 (11) samples for Joseph Hazelwood?**  
 (12) **A Yes**  
 (13) **Q And is there some indication as to the custody chain ending  
 (14) with Ms Metcalf apparently receiving them and can you  
 (15) indicate the date for that sir and the time?**  
 (16) **A Yes, this form indicates that Ms Metcalf received them  
 (17) on  
 (18) March 28th, 1989, at 10 14**  
 (19) **Q All right Now let me ask if we can take a look at the  
 (20) second page of the same document using the zoom again get a  
 (21) feel for the whole  
 (22) is this another chain of custody card that came along with  
 (23) the samples?**  
 (24) **A Yes This chain of custody card covered six sets of  
 (25) specimens which include J Hazelwood**  
**Q All right Let me zoom in so we can take a closer look at**

Vol 13 1738

- (1) that So this involved six people and did they include sir  
 (2) Mr Kagan Mr Hazelwood Mr Cousins and Ms Jones?  
 (3) **A Yes, they did**  
 (4) **Q All right Now does this indicate when Ms Metcalf  
 (5) received this particular portion of the chain of custody form?**  
 (6) **A Yes, it indicates she received it at 9 30 on March 28th,  
 (7) 1989**  
 (8) **Q All right So between the two are we able to tell that  
 (9) apparently between 9 30 and 10 14 in the morning of March  
 (10) 28th  
 (11) Ms Metcalf was processing this group of samples?**  
 (12) **A Yes**  
 (13) **Q All right Now let me ask you next to take a look at  
 (14) what's been marked 3811 and we'll use the zoom again get a  
 (15) feel for the whole  
 (16) What is this sir?**  
 (17) **A It's a copy of the internal chain of custody relating to  
 (18) Joseph Hazelwood, blood specimen**  
 (19) **Q All right Now we talked about the previous chain of  
 (20) custody Would you use the term external chain of custody for  
 (21) that?**  
 (22) **A That's how we would describe that chain of custody card  
 (23) yes**  
 (24) **Q All right And then the internal chain of custody how  
 (25) does that differ?**  
**A It's an internal ChemWest document that documents  
 transfer**

Vol 13 1739

- (1) of specimens between either individuals or between storage  
 and  
 (2) individuals  
 (3) **Q All right Now Doctor at the top of this form zooming  
 (4) there is a section that we've already had some testimony about  
 (5) where it says specimen and do you see a three that's crossed  
 (6) out after ten milliliter red stoppered tubes of blood and then  
 (7) a notation above then and one on next line below that and two  
 (8) ten milliliter gray stoppered tubes?**  
 (9) **A Yes, I do**  
 (10) **Q Now are you able to tell us explain to us what was going  
 (11) on with that portion of the form?**  
 (12) **A Yes, I can**  
 (13) **Q Would you do so sir?**  
 (14) **A When the specimens were received, the initial blood  
 (15) specimens were received in March, the stoppers were  
 (16) covered  
 (17) extensively with red evidence tape And it was impossible  
 (18) to  
 (19) see the color of the stopper under that red evidence tape  
 (20) Ms  
 (21) Metcalf indicated that they were in fact three red stoppered  
 (22) tubes of blood because she could not ascertain the true  
 (23) color  
 (24) of the stopper**  
 (25) **Q All right And subsequent to the original receipt of the  
 tubes was a clerical correction made sir?**  
**A A correction was made to the clerical error May 1st, 1989**  
**Q And could you explain the circumstances for the correction?**  
**A Yes On the May 1st, 1989 Judy Peat my wife was**

Vol 13 1740

- (1) preparing the specimens for retesting at the center for  
 (2) toxicology in Salt Lake City She noticed there were in fact  
 (3) two gray-stoppered, one red-stoppered tubes of blood and  
 asked  
 (4) Karen and instructed Karen to correct the clerical error on the  
 internal chain of custody Karen performed that correction  
 by  
 (6) slashing through the three, indicating one and dating that  
 and  
 (7) initialing that She then added the statement two ten  
 (8) milliliter gray stoppered tubes of blood again initialed and  
 (9) dated  
 (10) That is the normal procedure for correction of clerical  
 (11) errors with our laboratory  
 (12) MR CHALOS I move to strike that testimony as being  
 (13) hearsay unless this gentleman can tell us personal knowledge  
 of  
 (14) that  
 (15) THE COURT Ask the question  
 (16) BY MR JAMIN  
 (17) Q Do you have personal knowledge of the events you just  
 (18) described Doctor?  
 (19) A Yes  
 (20) Q Thank you Let me ask you to take a look at 3796 just for  
 (21) a moment You mentioned that Ms Peat - I think it was Judy  
 (22) Peat sir?  
 (23) A Yes  
 (24) Q All right Let me just ask you a question about her  
 (25) Did your wife work in the lab with you?

Vol 13 1741

- (1) A Yes she did  
 (2) Q And how was she employed?  
 (3) A She was employed by ChemWest as a manager  
 (4) Q All right And had she training in the area?  
 (5) A Yes  
 (6) Q What was that sir?  
 (7) A She has a bachelors degree in medical technology and is  
 (8) licensed as a medical technologist and had worked in the  
 field  
 (9) of toxicology for approximately eight years at that time  
 (10) Q All right Now let's take a look just for a moment at  
 (11) 3796 before we come back further to - the previous exhibit  
 (12) And what is 3796?  
 (13) A 3796 is a copy of a chain of custody which documents the  
 (14) shipment of the specimen to Salt Lake City for retesting  
 (15) Q All right And was it in connection with the transfer of  
 (16) another sample to Salt Lake City that the clerical error was  
 (17) discovered?  
 (18) A Yes  
 (19) Q All right Now did you consider the error that was made a  
 (20) serious one sir?  
 (21) A No, I did not It is purely a clerical error and it did  
 (22) not impact the testing results that were reported to the  
 Coast  
 (23) Guard and to other agencies  
 (24) Q All right Do you know what color the tubes the stoppers  
 (25) were on the tubes actually as received as they were received?

Vol 13 1742

- (1) A I know that they contained two gray and one red stopper  
 (2) Q How do you know that Doctor?  
 (3) A I have personally examined those tubes and I have taken  
 (4) photographs or had photographs taken of the tubes  
 (5) Q All right And why did you have photographs taken of the  
 (6) tubes?  
 (7) A We took - photographs were taken prior to transfer of the  
 (8) specimens to the FBI  
 (9) Q All right Now was there any attempt made to cover up the  
 (10) clerical error that Ms Metcalf made?  
 (11) A There was no attempt made to cover up the clerical error  
 (12) Q Now let's get back to the - to the issue of the samples  
 (13) just a bit and the testing  
 (14) Was testing done on Captain Hazelwood's samples and the  
 (15) other samples that we've described?  
 (16) A Yes, it was  
 (17) Q All right And sir can you tell me exactly what the  
 (18) results led to for Mr Cousins?  
 (19) A No alcohol was detected in Mr Cousins' blood specimen  
 (20) Q And for Ms Jones?  
 (21) A The same result  
 (22) Q All right And for Mr Kagan?  
 (23) A The same result, no alcohol detected  
 (24) Q And for Captain Hazelwood?  
 (25) A Blood alcohol was detected in the blood specimen at a

Vol 13 1743

- (1) concentration of .06 one percent weight per volume  
 (2) MR JAMIN All right May I have just a moment Your  
 (3) Honor?  
 (4) Your Honor if you'll excuse me I seem to have misplaced  
 (5) what I was going to use I apologize for the delay Your  
 (6) Honor  
 (7) BY MR JAMIN  
 (8) Q Now what I'm going to do Doctor is show you Exhibit  
 (9) 3797 Now is 3797 - and we'll do the zoom again the report  
 (10) that was actually prepared by CompuChem laboratories  
 dealing  
 (11) with Mr Hazelwood's blood sample?  
 (12) A Yes  
 (13) Q All right Let me do a zoom if I may Was this  
 (14) particular document on the first page prepared at the request  
 (15) of the United States Coast Guard?  
 (16) A Yes, it was  
 (17) Q All right And are the results indicated down at the  
 (18) bottom portion of the page that you've already described for  
 (19) us?  
 (20) A Yes  
 (21) Q And what are those sir?  
 (22) A That the blood contained .061 percent ethanol  
 (23) Q All right The little W to V what does that refer to?  
 (24) A It's weight per volume  
 (25) Q And can you explain just a bit what that means?

Vol 13 1744

- (1) **A It's the weight of ethanol per certain volume of blood**  
 (2) **And that is the common unit that is used to report ethanol**  
 (3) **specimens**  
 (4) **Q Very well Let me turn to the second page if I may of**  
 (5) **3797 Now on this page was another report made to the**  
 (6) **National Transportation Safety Board sir?**  
 (7) **A Yes**  
 (8) **Q And did that involve separate testing at all of the**  
 (9) **captain's blood?**  
 (10) **A No, it was the same testing as reported to the U S Coast**  
 (11) **Guard**  
 (12) **Q All right And down at the bottom of the page then the**  
 (13) **same reference is indicated to the 061?**  
 (14) **A Yes**  
 (15) **Q All right And if we were to look further at 3797 would**  
 (16) **we see the similar reports for the other persons you've**  
 (17) **described?**  
 (18) **A Yes, you would**  
 (19) **Q All right Thank you**  
 (20) **Now did there come a time sir where you took some**  
 (21) **pictures of the samples that were received at ChemWest?**  
 (22) **A Yes**  
 (23) **Q All right And what were those pictures that were taken?**  
 (24) **A They were a number of pictures taken of the shipping**  
 (25) **container and specimen tubes for Captain Hazelwood**

Vol 13 1745

- (1) **Q All right I'm going to see whether the Elmo works for**  
 (2) **some of these The first one to which I'd like to refer is**  
 (3) **3808 Let's see if this works I guess it gives us a little**  
 (4) **bit of a feel**  
 (5) **Can you indicate to us what that picture represents?**  
 (6) **A It is a picture of a blood tube I cannot see it clearly**  
 (7) **I have to look**  
 (8) **Q May I approach the witness with the exhibit and what I'll**  
 (9) **be doing let the jurors look at them because the Elmo does not**  
 (10) **work particularly well**  
 (11) **A This is a picture of the blood tube, and if you look**  
 (12) **closely you can see a slit underneath the stopper You can**  
 (13) **see**  
 (14) **the red evidence tape around the stopper with a break in it**  
 (15) **showing the gray stopper underneath and at the bottom of**  
 (16) **tube you can see the initial CW 78**  
 (17) **Q All right May I approach Your Honor?**  
 (18) **And Your Honor may I show this to the jury?**  
 (19) **UNIDENTIFIED No objection**  
 (20) **THE COURT Objection 3708 is admitted**  
 (21) **(Exhibit 3708 received)**  
 (22) **BY MR JAMIN**  
 (23) **Q The pictures that we're going to talk about and we've**  
 (24) **already begun to talk about when were they taken sir?**  
 (25) **A In between August and October of 1990 I do not**  
**remember**  
 (26) **the exact dates**

Vol 13 1746

- (1) **Q Okay And what was the reason they were taken?**  
 (2) **A They were taken to maintain evidence of the specimens**  
 (3) **within Compuchem prior to shipment to the FBI**  
 (4) **Q All right Now had the FBI requested that the samples be**  
 (5) **transferred to them?**  
 (6) **A Yes, they had, in late August of 1990**  
 (7) **Q And prior to that time had the state of Alaska asked that**  
 (8) **the samples be maintained in the lab?**  
 (9) **A Yes**  
 (10) **Q And how were they maintained?**  
 (11) **A They were stored in a long term freezer storage**  
 (12) **Q All right I'm going to show you next two together which**  
 (13) **may have been pre admitted 3804 and 3805 - if I may**  
 (14) **approach**  
 (15) **Your Honor**  
 (16) **And can you tell us what those are sir?**  
 (17) **A These are two photographs of the white poly styrene box**  
 (18) **in**  
 (19) **which the specimens were received 3804 is a front-on**  
 (20) **photograph showing the label on front of the box, labeled**  
 (21) **Joseph Hazelwood, dated incident 24 March, '89, date blood**  
 (22) **drawn**  
 (23) **24 March, 89, 10 50 a m, location Exxon Valdez, blood**  
 (24) **drawn**  
 (25) **by Scott M Conner And then below that there's two lines**  
 (26) **of a**  
 (27) **chain of possession, one of which reads received from**  
 (28) **Joseph**  
 (29) **Hazelwood, slash, and then there's the initials J J H**  
 (30) **Next line is by Scott Conner Initial S something C, 24**  
 (31) **March, 89**

Vol 13 1747

- (1) **And then below that there's a received from Scott Conner**  
 (2) **again with the initials, by Lieutenant Gary Stock on the 25th**  
 (3) **of March, 89**  
 (4) **At either end of the white polystyrene box there is a red**  
 (5) **integrity seal, as it's called, and then on the left side of**  
 (6) **the box on the label is the CW 78-89 label with the initials**  
 (7) **K.L.M on it**  
 (8) **Q All right**  
 (9) **A 3805 is the same box but a side arm view showing an**  
 (10) **off-white seal that has been broken**  
 (11) **Q Very well I'm going to see if we can display these on the**  
 (12) **Elmo and get an overview of what they look like**  
 (13) **All right So the one that I'm pointing to right now is**  
 (14) **sort of the front on view from which you read**  
 (15) **A Yes, it is**  
 (16) **Q And the second photograph describes the seal that you were**  
 (17) **talking about?**  
 (18) **A Yes**  
 (19) **Q Is there a bit of blood on the styrofoam box there sir?**  
 (20) **A Yes, there is**  
 (21) **Q And can you explain how that might have developed?**  
 (22) **A Over time, the blood tubes inside the box and blood**  
 (23) **tubes,**  
 (24) **collected for any purposes, will crack and they'll be some**  
 (25) **blood leakage out of those tubes because of the freezing**  
 (26) **and**  
 (27) **thawing that goes on for handling the specimens over a**  
 (28) **long**

Vol 13 1748

- (1) **period of time**  
 (2) Q All right  
 (3) MR JAMIN Your Honor may I approach the jury with  
 (4) these two photographs as well?  
 (5) THE COURT You may  
 (6) BY MR JAMIN  
 (7) Q All right Doctor I have a fourth photograph And this  
 (8) one has been marked Did you check the back is it 3807?  
 (9) A Yes, it is  
 (10) Q Can you explain to us what this is?  
 (11) A This is a picture of two blood tubes that actually have  
 (12) been stuck together because there s been leakage of blood  
 (13) one so they've stuck together The one that s pointing up  
 (14) can  
 (15) be seen as a gray stopper tube with evidence tape around  
 (16) that  
 (17) tube Also wrapped around the top of the tube is a white  
 (18) label  
 (19) which you can see the letters H-a-z e-l w from You can see  
 (20) the initials M J D and may count something that begins with  
 (21) an  
 (22) S and ends with a C  
 (23) Q An S and a C  
 (24) A And then you can see the time 10 50 The lower end of  
 (25) that  
 (26) tube you can see seven eight eight, and M  
 (27) Q All right And is the tube that you can see more readily  
 (28) have the top broken at all?  
 (29) A No, this seal is intact  
 (30) Q All right And to your recollection were both of those

Vol 13 1749

- (1) test tubes intact as far as testing went in the lab?  
 (2) A Yes Both these test tubes, the seal is still intact  
 (3) Q Very well  
 (4) Sir may I publish this to the jury as well?  
 (5) Now Doctor finally as far as exhibits go I have 3799  
 (6) which has been pre admitted and I d like to put that on the  
 (7) screen with the zoom We ll get the whole and then we ll come  
 (8) in and focus a little bit better What is this document sir?  
 (9) A It s a copy of a memo for record prepared by Karen  
 (10) Metcalf  
 (11) on July 24th, 1990, that relates to CW 78 89 and the chain of  
 (12) custody of Joseph Hazelwood  
 (13) Q All right And was this a document that was prepared as  
 (14) part of the official records of the company?  
 (15) A Yes, it was  
 (16) Q All right Now I m going to focus this in so that you can  
 (17) read it to us if you would  
 (18) Is that adequate for reading sir?  
 (19) A Yes  
 (20) Q Please go ahead  
 (21) A 3/28/89, we received three ten milliliter tubes of blood on  
 (22) Joseph Hazelwood as well as the other specimens collected  
 (23) regarding the incident Upon initial inspection of Joseph  
 (24) Hazelwood s specimens, reference CW 78 89, I found all  
 (25) tubes of  
 (26) blood had red evidence tape covering the stoppers as well  
 (27) as  
 (28) the Coast Guard integrity seal which was - ran completely

Vol 13 1750

- (1) around the tubes including the sides of the stoppers  
 (2) Because of the red tape all three tubes appeared to be red  
 (3) stoppers May 1st, 1989 it was discovered that an error had  
 (4) been made on my part during the initial receipt, only one of  
 (5) the tubes was a red stoppered tube, the other tubes were  
 (6) gray  
 (7) Q Little anticipation go ahead  
 (8) A Gray stoppered This was found by cutting out a small  
 (9) section of the evidence tape on the top portion of the  
 (10) stopper On discovery of this error, the initial description  
 (11) of the stoppers on the chain of custody was changed to  
 (12) reflect  
 (13) the correct -  
 (14) Q All right go over to page 2  
 (15) A - information, dated and initialed Only one tube of  
 (16) blood was aliquotted from, it was a gray stoppered tube, the  
 (17) other two tubes remain sealed On May 2nd, 1989 an  
 (18) aliquot was  
 (19) sent to the Center for Human Toxicology in Salt Lake City,  
 (20) Utah This aliquot was removed from the same tube we had  
 (21) tested  
 (22) Q All right  
 (23) And then is Ms Metcalf certain that the statement she has  
 (24) given is true and accurate?  
 (25) A Yes  
 (26) Q And does she swear that statement in front of a notary?  
 (27) A She does  
 (28) Q Is Ms Metcalf s statement that you just read to us

Vol 13 1751

- (1) consistent with your own knowledge of the event?  
 (2) A Yes, it is  
 (3) Q All right And is there any question in your mind  
 (4) regarding ChemWest receiving anything other than two gray  
 (5) and  
 (6) one red stoppered tubes?  
 (7) A There is no question in my mind that we received two  
 (8) gray  
 (9) and one red stoppered tubes  
 (10) Q Is there any question in your mind that procedures that  
 (11) ChemWest effected in any way affect the validity of the test?  
 (12) A No, the testing results were valid  
 (13) Q If there was any question with your experience with the  
 (14) test would the testing have gone forward sir?  
 (15) A No, they would not Testing would not have been  
 (16) initiated  
 (17) if there had been any question of the sealed - of the blood  
 (18) tubes  
 (19) Q Occasionally are there questions that may affect the  
 (20) integrity of a test presented by receipt of the samples?  
 (21) A Yes, they are  
 (22) Q And what is done in that situation sir?  
 (23) A Normally in that situation the client or the requesting  
 (24) agency is contacted with regard to the discrepancy  
 (25) Q All right And the testing that was done by or excuse me  
 (26) the sample that was taken that was tested by the lab did the  
 (27) documents indicate it was taken about 10 30 in the morning of  
 (28) the 24th?

Vol 13 1752

- (1) **A The first document that we looked at today indicated a**  
 (2) **collection time, I believe, of 10 35 a m**  
 (3) **Q All right And did it indicate sample - for which sample?**  
 (4) **A For the sample Joseph Hazelwood**  
 (5) **Q And did it indicate an incident time shortly after**  
 (6) **midnight?**  
 (7) **A Yes, it did**  
 (8) **Q And coming up with the analysis 06 When ChemWest was**  
 (9) **doing the blood analysis is it performing an analysis of the**  
 (10) **blood as it existed at 10 30 in the morning on the 24th?**  
 (11) **A Yes**  
 (12) **MR JAMIN I have nothing further thank you Oh I**  
 (13) **may not have offered 3797 and counsel points out probably**  
 (14) **that**  
 (15) **I should**  
 (16) **(Exhibit 3797 offered)**  
 (17) **THE COURT I was going to point that out**  
 (18) **is there objection to 3797?**  
 (19) **MR CHALOS No objection Your Honor**  
 (20) **MR JAMIN Thank you Dr Peat**  
 (21) **THE COURT Admitted**  
 (22) **(Exhibit 3797 received)**  
 (23) **THE COURT You may cross examine**  
 (24) **MR CHALOS Good morning Your Honor**  
 (25) **THE COURT Good morning**  
 (26) **CROSS EXAMINATION OF MICHAEL PEAT**

Vol 13 1753

- (1) **BY MR CHALOS**  
 (2) **Q If it may please the Court Dr Peat I m Michael Chalos**  
 (3) **A Good morning**  
 (4) **Q How are you? I represent Captain Joseph Hazelwood Dr**  
 (5) **Peat when you told us that your lab was certified by the NIDA**  
 (6) **do you remember that?**  
 (7) **A Correct**  
 (8) **Q Your lab s not certified for blood alcohol testing is it?**  
 (9) **A No I indicated that was for urine and drugs abuse**  
 (10) **Q But not for blood alcohol?**  
 (11) **A That is correct That program does not cover blood**  
 (12) **alcohol**  
 (13) **Q Now you were in charge of ChemWest during March of 89**  
 (14) **right on through you said until August of 90?**  
 (15) **A Yes**  
 (16) **Q And at that time in March of 89 you had less than ten**  
 (17) **people working for you?**  
 (18) **A Yes**  
 (19) **Q Now let me just go back to the time that you got the two**  
 (20) **call from the Coast Guard That was on March 26 was it?**  
 (21) **A I did not receive a call on that particular day To the**  
 (22) **best of my recollection my first contact with the Coast**  
 (23) **Guard**  
 (24) **was on Monday the 27th**  
 (25) **Q The 27th And you spoke to Lieutenant Stock?**  
 (26) **A To the best of my recollection, yes**

Vol 13 1754

- (1) **Q And he told you that he was sending to you samples blood**  
 (2) **samples from the crew of the Exxon Valdez?**  
 (3) **A To the best of my recollection, yes**  
 (4) **Q And you knew at that time that the Exxon Valdez had run**  
 (5) **aground**  
 (6) **A Yes**  
 (7) **Q And did Lieutenant Stock tell you to be very careful with**  
 (8) **these samples it s an important matter?**  
 (9) **A I cannot recollect the conversation with Lieutenant Stock**  
 (10) **Q Did you understand that the grounding of the Exxon Valdez**  
 (11) **and the testing of the samples would be an important matter?**  
 (12) **A Yes, I did**  
 (13) **Q And did you understand that those samples had to be**  
 (14) **handled**  
 (15) **with care to make sure that the chain of custody was preserved?**  
 (16) **A As with every specimen**  
 (17) **Q And did you also understand that whatever came in had to**  
 (18) **be**  
 (19) **logged in properly?**  
 (20) **A Yes**  
 (21) **Q Did you convey that to Ms Metcalf?**  
 (22) **A I m sure I told Ms Metcalf that we were to receive**  
 (23) **specimens from the Exxon Valdez and appropriate care and**  
 (24) **attention should be paid to them**  
 (25) **Q In fact you told her to be very careful with them?**  
 (26) **A That s possible**  
 (27) **Q Now you don t have any knowledge sitting here today how**

Vol 13 1755

- (1) **these samples were handled before they came to your lab do**  
 (2) **you?**  
 (3) **A No, I do not**  
 (4) **Q And if they had been tampered with prior to your receiving**  
 (5) **them you have no knowledge of that do you?**  
 (6) **A That s correct**  
 (7) **Q Now on Exhibit 3793 that you were shown do you remember**  
 (8) **where it said Mr Delozier signed below Captain**  
 (9) **Hazelwood s - do you have that in front of you?**  
 (10) **A No Could you -**  
 (11) **MR CHALOS Your Honor may I approach the witness?**  
 (12) **THE COURT Yes**  
 (13) **BY MR CHALOS**  
 (14) **Q I m going to do two things I m going to give you a set of**  
 (15) **my exhibits**  
 (16) **A Thank you**  
 (17) **Q Which now 3793 was this document do you remember this?**  
 (18) **A Yes, I did**  
 (19) **Q You told us about Mr Delozier s signature?**  
 (20) **A Yes**  
 (21) **Q Okay Let me put this - what do you call this machine**  
 (22) **again?**  
 (23) **MR SANDERS Elmo**  
 (24) **MR CHALOS I ve been relegated to low tech Your**  
 (25) **Honor**

Vol 13 1756

- (1) Okay Here we are  
 (2) BY MR CHALOS  
 (3) Q This is the Delozier signature you re talking about?  
 (4) **A That s what it appears to be**  
 (5) Q And there s also a Delozier signature over here?  
 (6) **A Yes**  
 (7) Q Okay Does that signature indicate to you that  
 (8) Mr Delozier witnessed the drawing of the blood from Captain  
 (9) Hazelwood?  
 (10) **A Certainly the signature is below I believe on the left**  
 (11) **side of this, if we can move it this way**  
 (12) Q Okay Sorry let me try something now How do you like  
 (13) this? There you go  
 (14) Can you see it now?  
 (15) **A Yes**  
 (16) Q All right It says here I hereby assert that I have  
 (17) witnessed the actual withdrawal of blood and collection of  
 (18) urine - wait a minute sorry I m reading - let me read it  
 (19) again  
 (20) I hereby assert that I have witnessed the actual withdrawal  
 (21) of blood from the above subject by the person whose signature  
 (22) appears above Do you see that?  
 (23) **A Yes, I do see that**  
 (24) Q Okay Were you here during Mr Delozier s testimony?  
 (25) **A No, I was not**

Vol 13 1757

- (1) Q Let me represent to you that on the trial transcript page  
 (2) 365 and 366 Mr Delozier said that he witnessed three  
 (3) red stoppered tubes of blood being taken from Captain  
 (4) Hazelwood I m going to represent that to you  
 (5) Can you explain to me then if that s what Mr Delozier  
 (6) said and he was right there witnessing it why you say today  
 (7) that you saw two gray stoppers?  
 (8) **A We received two gray stoppers and one red stopper tube**  
 (9) **of**  
 (10) **blood**  
 (11) Q Let me ask you something sir When was the first time  
 (12) that you saw the samples?  
 (13) **A I believe in May of 1989**  
 (14) Q That s after May 1st Isn t it? Isn t that correct?  
 (15) **A I cannot recollect the exact day in May I saw the**  
 (16) **specimen**  
 (17) Q So you don t know you don t know what was received by  
 (18) your  
 (19) lab until after your wife changed the records isn t that  
 (20) correct?  
 (21) **A My wife performed - asked Karen to perform a collection**  
 (22) **on**  
 (23) **the -**  
 (24) Q Is the answer yes or no sir you don t know what was  
 (25) received by your lab until after your wife changed the  
 (26) records? Is that a yes or a no?  
 (27) **A It s a yes or a no**  
 (28) Q Now you say - were you here for Ms Metcalf s testimony?  
 (29) **A Yes, I was**

Vol 13 1758

- (1) Q Do you remember Ms Metcalf saying how she handled the  
 (2) samples when they came in?  
 (3) **A Generally, yes**  
 (4) Q And do you remember her testifying under oath that she  
 (5) looked at the samples very carefully because you told her to  
 (6) look at them very carefully?  
 (7) **A Generally yes**  
 (8) Q And do you remember her saying that she looked for the size  
 (9) of the tube that was part of her job and also for the color  
 (10) of the stoppers?  
 (11) **A Yes**  
 (12) Q And do you remember her also saying that she didn t believe  
 (13) she made a mistake on Captain Hazelwood s samples do you  
 (14) remember her testifying?  
 (15) **A I do not recollect that statement**  
 (16) Q Uh huh Do you remember her saying that other than that  
 (17) exhibit that we saw that memo that we re going to get to in a  
 (18) second that she made no mistake on any other sample of any  
 (19) other crew member other than the what you say now is Captain  
 (20) Hazelwood s samples? Isn t that correct?  
 (21) **A I remember that statement**  
 (22) Q And do you remember her testifying that she was able to  
 (23) distinguish between gray and red for everybody else?  
 (24) **A Yes**  
 (25) Q And do you remember her saying that she did someone else  
 a

Vol 13 1759

- (1) Mr Weidman before she did Captain Hazelwood s sample do  
 (2) you  
 (3) remember that?  
 (4) **A Yes**  
 (5) Q And do you remember that she was able to distinguish  
 (6) between gray and red on Mr Weidman?  
 (7) **A I remember that she did that, yes**  
 (8) Q Now sir when you saw the samples after May 1st were they  
 (9) all packed up the same way?  
 (10) **A They were in the white polystyrene box, yes**  
 (11) Q Did they all have this red tape that you re talking about?  
 (12) **A They all had the red tape around the stopper together**  
 (13) **with**  
 (14) **the white seal that was covering the red seal on the side of**  
 (15) **the stopper**  
 (16) Q So Captain Hazelwood s looked no different than the other  
 (17) samples did they?  
 (18) **A They were generally the same appearance**  
 (19) Q Let s talk about your wife for a second if we may  
 (20) please  
 (21) MR CHALOS Can I have Your Honor while we re  
 (22) waiting I would like to offer into evidence - here I am  
 (23) Exhibits DX9102 and through DX9112 so that would be 9102  
 (24) 3  
 (25) 4 5 6 and so on until we get to 9112  
 (26) (Exhibits 9102 9103 9104 9105 9106 9107 9108 9109  
 (27) 9110 9111 9112 offered)  
 (28) THE COURT Mr O Neill

Vol 13 1760

Vol 13 1762

- (1) MR JAMIN No there is none  
 (2) THE COURT Exhibits DX9102 through 9112 both  
 (3) inclusive are admitted  
 (4) (Exhibit 9102 9103 9104 9105 9106 9107 9108 9109  
 9110 9111 9112 received)  
 (5) BY MR CHALOS  
 (6) Q Now can you see this?  
 (7) A Yes, I can  
 (8) Q All right okay Up until your wife changed the records  
 (9) or caused the records to be changed this is how the front  
 (10) portion of the chain of custody read wasn't it?  
 (11) A Yes  
 (12) Q It said three ten milliliter red stoppered tubes for  
 (13) Captain Joseph Hazelwood's isn't that correct?  
 (14) A Yes  
 (15) Q Now you said you've looked at the records before you came  
 (16) here today?  
 (17) A Yes  
 (18) Q How many times was Captain Hazelwood's blood sample  
 (19) handled  
 (20) by your lab people before your wife handled it May 1st?  
 (21) A I would have to refresh my memory  
 (22) Q Well let me show you  
 (23) May I approach Your Honor  
 (24) THE COURT Yes  
 (25) BY MR CHALOS

- (1) A Correct  
 (2) Q And he logs the times he returns the specimens?  
 (3) A Yes  
 (4) Q On this chain of custody form?  
 (5) A Yes  
 (6) Q Okay Now we'll go to the - here we go the samples were  
 (7) handled again on March 30th by Ms Metcalf for a half hour  
 (8) right?  
 (9) A Yes  
 (10) Q And again they were handled on April 17th by Ms Metcalf?  
 (11) A Yes  
 (12) Q And again -  
 (13) A Well, on April 17th, it's more than likely that only the  
 (14) boxes were handled because there was a transfer from  
 (15) temporary  
 (16) to long term storage  
 (17) Q Now let me ask you this  
 (18) It was during this period of time that we're talking about  
 (19) before May 1st that the samples were tested right?  
 (20) A Yes  
 (21) Q When we say samples were tested not all the samples were  
 (22) tested just one tube was tested isn't that correct?  
 (23) A That is correct  
 (24) Q You took a little bit of aliquot from one tube and that was  
 (25) what was tested?  
 (26) A Yes

Vol 13 1761

Vol 13 1763

- (1) Q Exhibit 3468 which is already in evidence and I ask you  
 (2) to count on that sheet how many times that particular sample  
 (3) was handled before May 1st  
 (4) A There were four incidents five if you include the original  
 (5) receipt  
 (6) Q Okay So at least - may I have that back so I can - let  
 (7) me take this - or let's move this back I'll put this down for  
 (8) a second All right  
 (9) So Ms Metcalf handled it on March 28th right?  
 (10) A Yes  
 (11) Q All right The second one is a Matt Noedel handled it on  
 (12) the same date?  
 (13) A Yes  
 (14) Q And then he handled it later in that day as well?  
 (15) A No, he had possession of the specimens from 11 55 to  
 (16) three  
 (17) o'clock  
 (18) Q So he had it for a period of about three hours?  
 (19) A Approximately  
 (20) Q When he takes control he takes the specimen all right  
 (21) He's also got this chain of custody form with him doesn't he?  
 (22) A The chain of custody remains in the original receiving  
 (23) area  
 (24) and does not accompany the specimens He logs the  
 (25) specimens  
 (26) out of that chain of custody  
 (27) Q All right But Matt Noedel he logs the times that he's  
 (28) taking the specimens?

- (1) Q You weren't involved in that test were you?  
 (2) A That's correct  
 (3) Q Now aside from these particular handlings there were  
 (4) other handlings weren't there when you were using different  
 (5) batches?  
 (6) A Yes  
 (7) Q Okay  
 (8) A Of the aliquots  
 (9) Q Okay And that's logged on some other sheet but these  
 (10) samples themselves were handled by Mr Noedel and Ms  
 (11) Metcalf  
 (12) on other occasions besides the ones shown here am I correct?  
 (13) A No  
 (14) Q This is the only time they were handled?  
 (15) A Yes  
 (16) Q But the aliquots were handled?  
 (17) A The aliquots were handled the time of - the only tests  
 (18) that were performed on the blood specimen was the alcohol  
 (19) test  
 (20) performed by Mr Noedel, and there was another further test  
 (21) performed on the 30th  
 (22) Q Now the first time your wife's name appears on this is May  
 (23) 1st 1989 am I correct?  
 (24) A Yes  
 (25) Q And her name appears only once in all the time that you had  
 (26) Captain Hazelwood's blood samples am I correct on the chain  
 (27) of custody?

Vol 13 1764

- (1) **A I believe so**  
 (2) **Q That s that one day May 1st 1989 right?**  
 (3) **A Correct**  
 (4) **Q And according to this document she had the samples for a**  
 (5) **minute?**  
 (6) **A She transferred the specimens from long term storage**  
 (7) **freezer storage, to short term refrigerator storage**  
 (8) **Q She picked them up at 9 25 and she deposited them at 9 25**  
 (9) **am I correct?**  
 (10) **A Yes**  
 (11) **Q Incidentally you said that you had personal knowledge of -**  
 (12) **let me strike that and ask another question**  
 (13) **It s your understanding that at that point your wife went**  
 (14) **to Karen Metcalf and told her to change the records so now**  
 (15) **instead of reading - instead of reading three ten milliliter**  
 (16) **red stoppered tubes now the records read one ten milliliter**  
 (17) **red stopper tube and two ten milliliter gray stopper tubes**  
 (18) **right?**  
 (19) **A Yes**  
 (20) **Q That s what your wife told Karen Metcalf to change?**  
 (21) **A Correct**  
 (22) **Q You say you have some personal knowledge of that? The**  
 (23) **fact**  
 (24) **of the matter is this you didn t find out about this until**  
 (25) **after it was done isn t that correct?**  
**A That s correct**

Vol 13 1765

- (1) **Q So you don t have any personal knowledge as to what your**  
 (2) **wife was looking at what Karen Metcalf was looking at what**  
 (3) **your wife told Karen Metcalf to do and how these records were**  
 (4) **changed?**  
 (5) **A From how -**  
 (6) **Q You don t have any personal knowledge?**  
 (7) **A Well from conversations with both Karen and my wife I**  
 (8) **did**  
 (9) **Q That was the point of the objection Let me ask you this**  
 (10) **When something is moved from long term is it - long term**  
 (11) **storage to short term storage is that what your wife said she**  
 (12) **did? Let me take this down so you can see again**  
 (13) **Right your wife says she took it from long term storage**  
 (14) **and put it in short term right?**  
 (15) **A Yes**  
 (16) **Q Sir when you do that aren t you just taking the box and**  
 (17) **moving it from one place to the other?**  
 (18) **A That s normally what you do**  
 (19) **Q And that s the box that s covered - isn t that that white**  
 (20) **box?**  
 (21) **A It would be the white box Sometimes people would look**  
 (22) **at**  
 (23) **the specimens inside the box**  
 (24) **Q You don t know if your wife looked at all -**  
 (25) **A That s correct**  
**Q Now you were originally - your lab was originally hired**  
**by the Coast Guard right?**

Vol 13 1766

- (1) **A Yes originally**  
 (2) **Q And you sent them what you say your lab sent them the**  
 (3) **results of what s purported to be Captain Hazelwood s blood**  
 (4) **sample is that correct?**  
 (5) **A That s correct**  
 (6) **Q And at some point the National Transportation Safety Board**  
 (7) **got involved is that correct?**  
 (8) **A Yes**  
 (9) **Q And then you started dealing with them almost exclusively**  
 (10) **right?**  
 (11) **A Yes**  
 (12) **Q And you dealt with the Dr Burkey (ph)?**  
 (13) **A Yes**  
 (14) **Q Okay Now on you also sent them a report of what s**  
 (15) **purported to be Captain Hazelwood s sample?**  
 (16) **A Yes, I did**  
 (17) **Q And in addition to that some time around April 30th you**  
 (18) **sent to the NTSB documents relating to Captain Hazelwood s**  
 (19) **chain of custody forms did you not?**  
 (20) **A I believe it was on or about April 20th, yes**  
 (21) **Q Okay And then subsequently you sent them 36 pages of**  
 (22) **everybody s chain of custody including Captain Hazelwood am**  
 (23) **I**  
 (24) **correct?**  
 (25) **A I believe that I sent one package which included Captain**  
**Hazelwood s and the others**

Vol 13 1767

- (1) **Q Okay I want to show you what s been marked as DX 9042**  
 (2) **You have that in front of you?**  
 (3) **A Yes, I do**  
 (4) **Q Okay Good That s the package you sent?**  
 (5) **A Yes, it is**  
 (6) **Q Okay And according to this you sent it on April 25th**  
 (7) **1989 but it s your recollection that you had sent them a**  
 (8) **smaller package container just Captain Hazelwood?**  
 (9) **A No that is not my recollection**  
 (10) **Q We re going to get to it in a second but let s do something**  
 (11) **here Let me see if I can this is your signature?**  
 (12) **A Yes it is**  
 (13) **Q Okay You re telling the National Transportation Safety**  
 (14) **Board on April 25th 1989 that I hereby certify that the**  
 (15) **following 36 pages - which included Captain Hazelwood s**  
 (16) **chain**  
 (17) **of custody forms right?**  
 (18) **A Yes**  
 (19) **Q - are true and accurate copies of the chain of custody**  
 (20) **forms relating to the specimens received on March 28th 1989**  
 (21) **from Federal Express Right?**  
 (22) **A Yes True and accurate copies as of April 25th, 1989**  
 (23) **Q Right And then you have the fancy stamp and you re**  
 (24) **certifying it**  
 (25) **What you sent to them on April 25th and you represented to**  
 (26) **them was a true and accurate copy was this form wasn t it?**

Vol 13 1768

- (1) **A Yes, it was**  
 (2) **Q That said three ten milliliter red stoppered tubes of**  
 (3) **blood isn't that right?**  
 (4) **A Yes**  
 (5) **Q Did you look at them before you sent them?**  
 (6) **A No, I did not**  
 (7) **Q Well how did you certify them that they were true and**  
 (8) **accurate if you didn't look at them?**  
 (9) **A I certificated it true and accurate copies**  
 (10) **Q Did you look at the copies?**  
 (11) **A Did I look at the chain of custody copies? Yes**  
 (12) **Q You did?**  
 (13) **A Yes**  
 (14) **Q And saw this didn't you?**  
 (15) **A Yes**  
 (16) **Q Now sir after this date but prior to May 1st 1989 you**  
 (17) **received a call from the NTSB didn't you?**  
 (18) **A There was several calls through April of 1989**  
 (19) **Q You received a call from Mr Birky didn't you? Dr**  
 (20) **Burkey?**  
 (21) **A As I said, there was several calls from the NTSB, and my**  
 (22) **primary contact if not sole contact was Dr Birky**  
 (23) **Q And Dr Birky told you didn't he that they had interviewed**  
 (24) **Scott Conner and his description of what he sent - that is**  
 (25) **two gray stoppered tubes of blood and one red stoppered**  
**tubes**

Vol 13 1769

- (1) **of blood didn't match what you sent to them on the chain of**  
 (2) **custody? Didn't he tell you that?**  
 (3) **A I don't recollect that conversation**  
 (4) **Q You don't recollect that it happened or you don't have a**  
 (5) **recollection?**  
 (6) **A It could possibly have happened but I don't recollect it**  
 (7) **Q Okay Now I want to you taking a look at Exhibit 9104?**  
 (8) **A Is that a DX exhibit?**  
 (9) **Q Yes sir DX exhibit**  
 (10) **Do you have it?**  
 (11) **A Yes**  
 (12) **Q Incidentally did your wife speak to Dr Birky at all during**  
 (13) **this time?**  
 (14) **A I do not know**  
 (15) **Q Did you tell your wife that you had received a call from**  
 (16) **Dr Birky along the lines that we just discussed?**  
 (17) **A I do not recollect that**  
 (18) **Q Could have happened though?**  
 (19) **A Certainly**  
 (20) **Q You have 31 - sorry 9104 in front of you?**  
 (21) **A Yes**  
 (22) **Q Okay This is a letter dated May 1st from the National**  
 (23) **Transportation Safety Board right?**  
 (24) **A Yes**  
 (25) **Q And it's to you Dr Peat It says here as we discussed**

Vol 13 1770

- (1) **in a phone conversation previously the Safety Board may wish**  
 (2) **to have the alcohol measurements on the blood specimens**  
 (3) **taken**  
 (4) **from the captain of the Exxon Valdez confirmed by a second**  
 (5) **laboratory**  
 (6) **Do you see that?**  
 (7) **A Yes, I do**  
 (8) **Q Let me see if I can zoom in a little more all right?**  
 (9) **The decision has been made to go forward with this**  
 (10) **confirmation even though there is no reason whatsoever to**  
 (11) **question the findings**  
 (12) **You see that?**  
 (13) **A Yes**  
 (14) **Q That's May 1st 1989 I suppose it's a coincidence that's**  
 (15) **the date your wife changed the records is that right?**  
 (16) **A That's the date the correction was made to the records**  
 (17) **Q Now and of course the NTSB according to what they say**  
 (18) **had no reason to tell you to send it to another lab for**  
 (19) **confirmation is that what you understood?**  
 (20) **A That is certainly the inference from the letter**  
 (21) **Q Okay Now look here**  
 (22) **By the way this letter is from Mr Birky the fellow that**  
 (23) **you said you were speaking to So he says here let me - I'm**  
 (24) **getting good at this It says Subsequently I am requesting**  
 (25) **that you ship the gray stoppered tube of blood to the Center**  
**for Human Toxicology for confirmation of ethanol**  
**measurements**

Vol 13 1771

- (1) **Do you see that?**  
 (2) **A Yes**  
 (3) **Q He told you take a gray stoppered tube and send it to**  
 (4) **Utah right?**  
 (5) **A That's the message from the letter yes**  
 (6) **Q Did you do that?**  
 (7) **A No, we actually shipped an aliquot of the gray stoppered**  
 (8) **tube we had tested**  
 (9) **Q You didn't obey the NTSB orders?**  
 (10) **A If I remember correctly, I had some discussions with**  
 (11) **Dr Birky and it was decided that would be the course of**  
 (12) **action**  
 (13) **and leave the sealed gray stoppered tube for further testing**  
 (14) **if**  
 (15) **requested**  
 (16) **Q So what you did then was you took a little portion of the**  
 (17) **tube you had already tested right?**  
 (18) **A Yes**  
 (19) **Q And you sent it on to where Utah?**  
 (20) **A To the Center for Human Toxicology**  
 (21) **Q Now this place was a place that you used to work at**  
 (22) **wasn't it?**  
 (23) **A Yes it was**  
 (24) **Q And your wife used to work for these people in Utah right?**  
 (25) **A Yes**  
 (26) **Q And the person you sent it to was a guy named Crouch?**  
 (27) **A Mr Dennis Crouch**

Vol 13 1772

- (1) Q And you used to work for him and your wife used to work for  
 (2) him?  
 (3) **A We used to work with him**  
 (4) Q Now when you sent this little sample of what s purported  
 (5) to be Captain Hazelwood s blood?  
 (6) **A Yes**  
 (7) Q I m over here  
 (8) When you sent the sample it didn t have any of the indicia  
 (9) of whose blood it was or how it was sealed or anything like  
 (10) that of the original tubes right?  
 (11) **A That s correct**  
 (12) Q It was just put into another tube and sent on?  
 (13) **A Yes**  
 (14) Q Before I move on to another topic I want to ask you  
 (15) something  
 (16) You tested - in addition to Captain Hazelwood s blood you  
 (17) tested Gregory Cousins blood did you not?  
 (18) **A Yes**  
 (19) Q And Gregory Cousins s blood indicated presence of acetone  
 (20) and isopropanol is that right?  
 (21) **A There was some indications on the chromatographs to**  
 (22) **the best of my recollection, of trace or small amounts of those**  
 (23) **two materials**  
 (24) Q Well is acetone something that s normally in people s  
 (25) blood?

Vol 13 1773

- (1) **A No, it s not**  
 (2) Q How about isopropanol?  
 (3) **A Again, it is not normally in people s blood**  
 (4) Q So that particular sample to the extent it contained  
 (5) acetones and isopropanol was contaminated wasn t it?  
 (6) **A That s not necessarily the inference I would draw it s**  
 (7) **certainly a possibility**  
 (8) Q And that what you tested for Gregory Cousins was a  
 (9) gray stoppered tube isn t that true?  
 (10) **A Yes, I believe so**  
 (11) Q Now what is isopropanol?  
 (12) **A Isopropanol is rubbing alcohol and is used as a cleaning**  
 (13) **solution on skin**  
 (14) Q And sometimes it s used when you get a shot to sterilize  
 (15) the area?  
 (16) **A Yes**  
 (17) Q Now that s not supposed to be done when you take blood is  
 (18) it?  
 (19) **A For alcohol measurement**  
 (20) Q Yes?  
 (21) **A No**  
 (22) Q It s not?  
 (23) **A Correct**  
 (24) Q Incidentally you found these what you call traces of  
 (25) acetone and isopropanol but you didn t report that did you?

Vol 13 1774

- (1) **A No There was only very small amounts We did not**  
 (2) **report**  
 (3) Q But you didn t report it in any event?  
 (4) **A That s correct**  
 (5) Q Did you ever tell the Coast Guard or the NTSB that your  
 (6) wife directed Ms Metcalf to change the form?  
 (7) **A I believe that the first time those discussions came up**  
 (8) **were in 1990**  
 (9) Q And that would be around July of 1990?  
 (10) **A Yes**  
 (11) Q Right around the time that Ms Metcalf wrote that memo that  
 (12) you talked about this morning?  
 (13) **A Yes**  
 (14) Q So that was the first time you told them?  
 (15) **A Correct**  
 (16) Q Is there a federal regulation that requires you to report  
 (17) any changes in the chain of custody forms?  
 (18) **A No, there is not And again I would refer to this as a**  
 (19) **correction not a change**  
 (20) Q Did you tell anyone besides - well strike that  
 (21) Did anyone besides you Ms Metcalf and your wife know  
 (22) that these records were changed prior to July of 1990?  
 (23) **A To the best of my recollection, those three individuals**  
 (24) **including myself were aware of the correction**  
 (25) Q Just those three?

Vol 13 1775

- (1) **A I believe so**  
 (2) Q You testified at a proceeding involving Captain Hazelwood  
 (3) in February of 1990 did you not?  
 (4) **A Yes, I did**  
 (5) Q And at that time you testified under oath didn t you that  
 (6) there was no problem with the chain of custody on Captain  
 (7) Hazelwood s samples?  
 (8) **A That s correct**  
 (9) Q You didn t tell anybody at that hearing you were under  
 (10) oath you didn t tell anybody well what happened was we  
 (11) logged  
 (12) it in at three ten milliliter but really it was two gray- and  
 (13) one red you didn t tell anybody that?  
 (14) **A That s correct I could say correction was made in the**  
 (15) **normal course of business**  
 (16) Q Did you testify to that?  
 (17) **A No, I didn t**  
 (18) Q As a matter of fact let me read you what you testified -  
 (19) this is on page 4319 And you know what I m going to give  
 (20) you a copy so you can follow along  
 (21) **A Thank you**  
 (22) Q Mr Chalos Question And were there any problems with the  
 (23) condition of the packages that you received on that date?  
 (24) Answer Can I consult?  
 (25) Question Sure  
 Answer Each of the packages were received on that - on

Vol 13 1776

- (1) that day indicate – let me put it here so the jury can follow  
 (2) along as well  
 (3) **Okay** Your answer is Each of the packages were received  
 (4) on that day indicate that the shipment containers themselves  
 (5) were sealed and that the specimen containers were both sealed  
 (6) and labeled No problems were noted on the initial chain of  
 (7) custodies for any of those specimens  
 (8) isn t that what you say?  
 (9) **A That's what I said**  
 (10) **Q That wasn t a true statement in light of the change that**  
 (11) **you knew about and nobody else did isn t that correct?**  
 (12) **A I still believe that s a true statement**  
 (13) **Q Now Mr Peat you mentioned July – let me ask you this**  
 (14) **before I go to July**  
 (15) **You had a chance to look at the samples some time after May**  
 (16) **1st?**  
 (17) **A Yes**  
 (18) **Q Okay When you looked at those samples did the tubes**  
 (19) **appear to you to be hemolyzed?**  
 (20) **A Well, yes The blood was a dark red color**  
 (21) **Q We re talking about Captain Hazelwood s blood?**  
 (22) **A Yes**  
 (23) **Q Okay Could you tell all of us what hemolyzed means?**  
 (24) **A Hemolysis is the breakdown of the red blood cells of the**  
 (25) **blood and that adds a red color to blood over time**

R.

Vol 13 1777

- (1) **Q What happens in layman s terms is the red blood cells**  
 (2) **burst isn t that what happens?**  
 (3) **A Yes**  
 (4) **Q Okay**  
 (5) **All right Let s talk now about July 1990 What caused**  
 (6) **you in July of 1990 to ask Ms Metcalf to write a memo relating**  
 (7) **to this change of the records?**  
 (8) **A In July of 1990, there was some press coverage of a**  
 (9) **hearing**  
 (10) **In which the chain of custody documents were challenged**  
 (11) **Q Challenged by who?**  
 (12) **A By, I believe, yourselves**  
 (13) **Q And so what happened?**  
 (14) **A At that particular time as we were closing the lab for**  
 (15) **economic reasons, we were closing the lab I requested that**  
 (16) **Karen document on a memo for record her recollection of**  
 (17) **the**  
 (18) **events of May and March 1989**  
 (19) **Q That s Exhibit 3799 Plaintiffs Exhibit 3799**  
 (20) **What did you tell her to do just that?**  
 (21) **A That s exactly what I told her to do**  
 (22) **Q And what Ms Metcalf did was she wrote longhand what she**  
 (23) **said was the version of what happened right?**  
 (24) **A Yes**  
 (25) **Q And then she submitted that longhand memo that she wrote**  
 (26) **to**  
 (27) **you?**  
 (28) **A Correct and I made some grammatical changes to the**

Vol 13 1778

- (1) **longhand then it was typed up and signed by Karen**  
 (2) **Q You made grammatical changes and then gave it back to**  
 (3) **her?**  
 (4) **A Yes**  
 (5) **Q And then it was typed?**  
 (6) **A Correct**  
 (7) **Q And you reviewed it?**  
 (8) **A Yes I cannot remember if I reviewed it before or after**  
 (9) **Karen had signed it**  
 (10) **Q Sir you have that document in front of you?**  
 (11) **A No, I do not**  
 (12) **Q You don t have it in front of you there Do you have a**  
 (13) **copy? Okay why don t you read the screen?**  
 (14) **This document was prepared – let me see one year and**  
 (15) **about three months one year and two months after the event**  
 (16) **right?**  
 (17) **A Approximately**  
 (18) **Q Okay And it was done at your request?**  
 (19) **A Yes**  
 (20) **Q Reading this document okay is there any mention at all of**  
 (21) **your wife s involvement in the changing of the records?**  
 (22) **A No, there was not**  
 (23) **Q None whatsoever right?**  
 (24) **A No, there is no mention of my wife in that document**  
 (25) **Q Did you tell your wife since she was involved in the change**  
 (26) **to write a memo also?**

Vol 13 1779

- (1) **A No, I did not**  
 (2) **Q You didn t?**  
 (3) **A Correct**  
 (4) **Q At the time that Ms Metcalf wrote this memo you had**  
 (5) **received telephone calls from the NTSB about it?**  
 (6) **A We have received –**  
 (7) **Q About the change?**  
 (8) **A We had received telephone calls from the questions I**  
 (9) **don t know if one was from the NTSB or not**  
 (10) **Q And you knew at this time did you not that the Department**  
 (11) **of Justice through Mr Linsin whose name came up yesterday**  
 (12) **who was doing an investigation as to what happened?**  
 (13) **A I believe that investigation began after this memo after**  
 (14) **this time**  
 (15) **Q Uh huh Did you have a conversation with Mr Linsin about**  
 (16) **this time?**  
 (17) **A On – sometime in the summer of 1990, yes**  
 (18) **Q Okay Would that have been around August of 1990?**  
 (19) **A I would believe so**  
 (20) **Q And is that about the time that your lab closed down?**  
 (21) **A Yes**  
 (22) **Q Another coincidence?**  
 (23) **A As I indicated earlier it closed for economic reasons**  
 (24) **That decision had been made several weeks prior to July**  
 (25) **1990**  
 (26) **THE COURT Mr Chalos you ll save those kind of**

Vol 13 1780

- (1) remarks -  
 (2) MR CHALOS Yes I m sorry I withdraw that remark  
 (3) BY MR CHALOS  
 (4) Q Mr - Dr Peat you mentioned by the way that my firm  
 (5) was involved in the in the publicity surrounding this change  
 (6) Remember that?  
 (7) **A I m not sure that your firm was involved in the publicity**  
 (8) **but certainly you were involved, your firm was involved in**  
 (9) **several of the litigations**  
 (10) Q I want to show you what we marked as Defendant s Exhibit  
 (11) 9110 okay? This is a letter that we wrote to you on July  
 (12) 18th 1990 You see that?  
 (13) **A Yes**  
 (14) Q Okay And in that letter we enclosed a subpoena Do you  
 (15) remember that?  
 (16) **A Yes**  
 (17) Q You see that?  
 (18) **A Correct**  
 (19) Q And what we wanted was all the records relating to Captain  
 (20) Hazelwood s blood tests we wanted the chain of custody we  
 (21) wanted the records relating to the tests - you see all that?  
 (22) **A Yes I do**  
 (23) Q Okay You didn t respond to the subpoena did you?  
 (24) **A No, I contacted Lieutenant - If I can refer to another**  
 (25) **document that you gave me**

Vol 13 1781

- (1) Q Go ahead  
 (2) **A I contacted Lieutenant Campos of the U S Coast Guard**  
 (3) **who**  
 (4) **indicated this could be ignored**  
 (5) Q A subpoena could be ignored?  
 (6) **A That s what Lieutenant Campos told me**  
 (7) Q So you went ahead and you just ignored the subpoena?  
 (8) **A Correct**  
 (9) Q Even though it was issued by an administrative law judge?  
 (10) **A Yes**  
 (11) Q And you didn t provide anything to Captain Hazelwood for  
 (12) his use in determining whether his blood alcohol tests were  
 (13) done properly whether the chain of custody was proper? You  
 (14) didn t give them any information at all?  
 (15) **A We had previously supplied that information to the U S**  
 (16) **Coast Guard**  
 (17) Q You didn t respond to this subpoena?  
 (18) **A That s correct**  
 (19) Q Now you told us earlier today that one of the samples that  
 (20) you kept was for the donor s use in case he wanted to retest  
 (21) it didn t you?  
 (22) **A Yes**  
 (23) Q Well how is that - why don t you tell me how the donor is  
 (24) supposed to get that if you won t answer a subpoena?  
 (25) **A If the donor had subpoenaed or requested a retest of his**  
**own and then that would specimen would have been**  
**provided to**

Vol 13 1782

- (1) him  
 (2) Q You didn t supply the records that he was asking for is  
 (3) that correct pursuant to a subpoena?  
 (4) **A That s correct**  
 (5) Q Now at some point sir you went to the west - to the  
 (6) East Coast right?  
 (7) **A Yes**  
 (8) Q And you had the sample sent to you on the East Coast?  
 (9) **A Yes**  
 (10) Q And when you received those samples you wrote a memo on  
 (11) August 9th 1990?  
 (12) **A Correct**  
 (13) Q That s Exhibit 9108?  
 (14) **A Yes**  
 (15) Q Okay You see this Here you go  
 (16) This is a memo you wrote to file?  
 (17) **A Yes**  
 (18) Q Okay All right Let me read the first paragraph  
 (19) On August 8th 1990 I received from Airborne a brown box  
 (20) sealed with tape Inside the brown box was a white box sealed  
 (21) with tape and containing dry ice You see that?  
 (22) **A Yes**  
 (23) Q The dry ice was to keep the samples frozen isn t that  
 (24) correct?  
 (25) **A Correct**

Vol 13 1783

- (1) Q And that s the normal and customary way of sending  
 (2) samples  
 (3) through Federal Express blood samples?  
 (4) **A Not necessarily But those specimens that had been**  
 (5) **frozen**  
 (6) **and stored certainly recommended to do it this way**  
 (7) Q Okay Now look here You re describing Captain  
 (8) Hazelwood s samples right and you go ahead and you say two  
 (9) gray stoppered tubes one red stoppered tubes of blood - you  
 (10) see that?  
 (11) **A Yes**  
 (12) Q But look down here at C when you re describing  
 (13) Mr Kagan s you re describing it by size Is there a  
 (14) particular reason why you didn t put any size on Captain  
 (15) Hazelwood s blood samples?  
 (16) **A No, there s no particular reason**  
 (17) Q An oversight or something?  
 (18) **A There s no particular reason that I can recollect**  
 (19) Q I want to talk to you now about the pictures  
 (20) MR CHALOS Your Honor may I approach the witness  
 (21) please?  
 (22) THE COURT Yes  
 (23) MR CHALOS Thank you  
 (24) BY MR CHALOS  
 (25) Q I want to show you what s been marked as 3805 okay You  
 (26) see this?  
 (27) **A Yes**

Vol 13 1784

- (1) Q I m going to ask you some questions about it so go ahead  
 (2) and study it for a second particularly this area  
 (3) **A That s fine**  
 (4) Q Okay Now incidentally these pictures were taken you  
 (5) said in August or - August through October of 1990 right?  
 (6) **A Yes**  
 (7) Q That s about a year and a half after the samples were  
 (8) initially received?  
 (9) **A Yes**  
 (10) Q Okay Now what I m focusing in now is right here this  
 (11) area here okay? Are you with me?  
 (12) **A Yes**  
 (13) Q Okay Now there was a seal there before wasn t it?  
 (14) **A Yes, there appears to have been an off white seal, as I**  
 (15) **indicated earlier**  
 (16) Q That seal was ripped off? Doesn t it appear it was ripped?  
 (17) **A Certainly appears from that photograph to be ripped**  
 (18) Q Is that standard lab practice when they receive a  
 (19) specimen to rip a seal like that?  
 (20) **A No, it's to cut the seal**  
 (21) Q What you do is you take a knife and you cut along the edge  
 (22) here is that right?  
 (23) **A That s correct**  
 (24) Q That s not when what happened in this case?  
 (25) **A It appears to have been ripped**

Vol 13 1785

- (1) Q Does that indicate to you that that box was opened at some  
 (2) time before your lab received it - I m going to give you the  
 (3) benefit of the doubt that your lab didn t do that?  
 (4) **A I would believe my lab did not do that and that was done**  
 (5) **at**  
 (6) **some prior time**  
 (7) Q Now I want to put on here Exhibit 3808 okay? You  
 (8) identified that as a gray stoppered tube has a red - you see  
 (9) here where it s been nicked?  
 (10) **A Yes**  
 (11) Q Right And that s how you see the gray stopper?  
 (12) **A I cannot see that on that projection, but -**  
 (13) Q Okay Well you want me to hand it to you?  
 (14) **A I would appreciate that**  
 (15) MR CHALOS Your Honor with your permission I d like  
 (16) to give this back to the jury  
 (17) BY MR CHALOS  
 (18) Q I m going to hand it to you and then I ll go back Go  
 (19) ahead and study -  
 (20) Thanks Okay To the best of your recollection does this  
 (21) wrapping that you see on here comport with what you saw  
 (22) around  
 (23) May 1st 1989?  
 (24) **A Yes**  
 (25) Q It does Were you here for Mr Conner s testimony?  
 (26) **A Some of it, yes**  
 (27) Q Do you remember Mr Connors saying that when he sealed

Vol 13 1786

- (1) these tubes he put an orange seal from one side of the tube  
 (2) over the other side and then he pinched it? Do you remember  
 (3) that?  
 (4) **A Yes**  
 (5) Q He didn t say anything about any white tape going around  
 (6) like that did he?  
 (7) **A Not that I recollect**  
 (8) Q And you were here for Mr Stocks testimony were you not?  
 (9) **A Generally, yes**  
 (10) Q And Mr Stock said he put a thin - a thin white seal from  
 (11) one side of the tube over the top of the stopper and then down  
 (12) to the other side?  
 (13) **A Yes**  
 (14) Q And he put a red tape around the outside or at least  
 (15) that s how he recalled the thing Do you remember that?  
 (16) **A I remember the thin white seal I don t remember the red**  
 (17) Q That doesn t look like a thin white tape to me does it  
 (18) look to you -  
 (19) **A No, it does not**  
 (20) Q You said one of the tubes contained Captain Hazelwood s  
 (21) blood was cracked?  
 (22) **A At this juncture, yes Not cracked upon receipt**  
 (23) Q Let me ask you something There was a request that was  
 (24) made of your company some time in 1990 91 I think by Exxon  
 (25) for - let me not mix these up Put these over here

Vol 13 1787

- (1) There was a request by Exxon for these samples Do you  
 (2) remember that?  
 (3) **A I don t recollect the exact letter from Exxon I do have**  
 (4) **in my file a letter in response to that, references that**  
 (5) Q Okay I m going to show you that letter This is a letter  
 (6) from Compuchem dated September 23rd 1991 and it indicates  
 (7) up  
 (8) here on the right hand corner that a copy was given to you for  
 (9) your information?  
 (10) **A Yes**  
 (11) Q This is Exhibit 9111 Your Honor  
 (12) You see that?  
 (13) **A Yes**  
 (14) Q Okay And this was written by your boss?  
 (15) **A Correct**  
 (16) Q And according to your boss your lab was taking the  
 (17) position that they could not release anything because they were  
 (18) trying to protect the way I read it Captain Hazelwood s  
 (19) confidentiality and privacy right?  
 (20) **A You can certainly read it that way**  
 (21) Q Okay Earlier this year you got a letter from one of the  
 (22) lawyers who is a plaintiff s lawyer in this case right a  
 (23) Mr McCallion (ph)?  
 (24) **A I received a copy of a letter that was addressed to a**  
 (25) **Mr Erwin (ph)**  
 (26) Q Okay That s DX9112

Vol 13 1788

- (1) You saw this letter right?  
 (2) **A Yes**  
 (3) Q And they re asking you - they re asking Compuchem right  
 (4) or the successor of Compuchem -  
 (5) **A Well, Rocheby (ph) Chemical Labs bought ChemWest in 1992,**  
 (6) **February of 1992**  
 (7) Q To voluntarily turn over the information relating to  
 (8) Captain Hazelwood s samples You see that?  
 (9) **A Yes**  
 (10) Q They didn t issue a subpoena did they?  
 (11) **A No, they did not**  
 (12) Q And in fact you complied?  
 (13) **A Excuse me To the best of my knowledge they did not, I should say**  
 (14) **Q Okay In any event you complied with their request did you not?**  
 (15) **A After discussion I agreed and after consulting with Rocheby Medical attorneys, I agreed to testify as to the custodian of business records**  
 (16) **Q To bring the business records and to bring photographs?**  
 (17) **A Yes**  
 (18) **Q Okay So let me see if I got this right now**  
 (19) **You ignored Captain Hazelwood s subpoena right? You took the position with Exxon that this stuff was confidential you were going to protect Captain Hazelwood s confidentiality and**

Vol 13 1789

- (1) privacy but yet you voluntarily turn it over to the  
 (2) plaintiffs Is that a fair statement?  
 (3) **A That s the statement if you wish to make it in that manner**  
 (4) **that there was certainly various players involved beyond me in**  
 (5) **fact way beyond me in those decisions**  
 (6) Q It couldn t be could it Doctor that you did that because  
 (7) you re getting paid to come up here and testify?  
 (8) **A That is not by any means the reason**  
 (9) Q You are getting paid?  
 (10) **A Yes I am I m getting reimbursed for my time**  
 (11) Q And your expenses?  
 (12) **A Correct**  
 (13) Q And your time is worth I think you told us  
 (14) 1 000-something or something?  
 (15) **A 1,250 per day**  
 (16) Q Okay Doctor thanks a lot  
 (17) I have no further questions  
 (18) THE WITNESS Thank you  
 (19) MR JAMIN I have some very brief redirect Your  
 (20) Honor  
 (21) REDIRECT EXAMINATION OF MICHAEL PEAT  
 (22) BY MR JAMIN  
 (23) Q Dr Peat with respect to the subpoena that came from  
 (24) Mr Chalos s firm was that in connection with a Coast Guard  
 (25) proceeding?

Vol 13 1790

- (1) **A Yes, it was**  
 (2) Q And did either you or an attorney for your company call the  
 (3) Coast Guard?  
 (4) **A I - to the best of my recollection I believe I talked to**  
 (5) **Lieutenant Campos**  
 (6) Q Okay And after talking with the Coast Guard authorities  
 (7) was it only then that you made the decision not to follow the  
 (8) subpoena?  
 (9) **A Yes**  
 (10) Q And if the Coast Guard had said follow the subpoena would  
 (11) you have done so?  
 (12) **A Certainly**  
 (13) Q Because it was a Coast Guard proceeding?  
 (14) **A Correct**  
 (15) Q With respect to this suggestion about the isopropanol and  
 (16) the acetone was that in Mr Cousins sample?  
 (17) **A That was the only specimen that was present**  
 (18) Q All right And is your report on Mr Cousins sample that  
 (19) it is negative for alcohol sir?  
 (20) **A Yes, it is**  
 (21) Q All right So there s - there s no alcohol in  
 (22) Mr Cousins sample?  
 (23) **A Correct**  
 (24) Q It s just Captain Hazelwood s sample?  
 (25) **A That s correct**

Vol 13 1791

- (1) Q And there was no suggestion about any isopropanol or  
 (2) acetone in Captain Hazelwood s sample?  
 (3) **A Correct**  
 (4) Q All right  
 (5) Now with respect to the series of questions Mr Chalos has  
 (6) raised of you is there anything you have heard sir which  
 (7) suggested to you that the test results you did were  
 (8) compromised  
 (9) in any way with the samples that were in your custody?  
 (10) **A No The test results that we reported to the Coast Guard and to the NTSB were accurate**  
 (11) MR JAMIN Thank you sir I have nothing further  
 (12) Your Honor  
 (13) THE COURT Thank you sir you may step down  
 (14) (The Witness was Excused )  
 (15) THE COURT Will you call your next witness?  
 (16) MR MONTAGUE Your Honor Plaintiffs call Dr David  
 (17) Smith as an expert witness  
 (18) (The Witness Is Sworn)  
 (19) THE CLERK Please be seated  
 (20) For the record sir state your full name give your  
 (21) address and spell your last name please  
 (22) THE WITNESS David Smith S m i t h 409 Clayton  
 (23) street San Francisco 94117  
 (24) THE CLERK Thank you sir  
 (25) DIRECT EXAMINATION OF DR DAVID SMITH

Vol 13 1792

- (1) BY MR MONTAGUE  
 (2) Q Good morning Dr Smith  
 (3) A Morning  
 (4) Q Could you please state for us your educational background?  
 (5) A I graduated in 1960 with a bachelor of science in zoology  
 (6) from the University of California at Berkeley  
 (7) Between 1960 and '64, I attended University of California  
 (8) San Francisco medical school I was also enrolled in  
 graduate  
 (9) school in pharmacology which is the study of the effects of  
 (10) drugs  
 (11) 1964 to '65 I interned at San Francisco General Hospital  
 (12) 1965 to '76 I did a post doctoral fellowship in clinical  
 (13) toxicology  
 (14) In 1967 I started the Haight Ashbury free clinics in San  
 (15) Francisco and went on the faculty of UC San Francisco  
 (16) Q Okay So you are a medical doctor?  
 (17) A Yes I'm a physician licensed to practice in the state of  
 (18) California  
 (19) Q Thank you And could you tell us now what your current  
 (20) present - your current professional positions are?  
 (21) A I am the medical director of the Haight Ashbury free  
 (22) clinics in San Francisco which is a community based health  
 care  
 (23) and drug abuse treatment facility I am research director at  
 (24) Merritt Peralta chemical dependency recovery hospital and  
 I am  
 (25) an associate clinical professor of occupational medicine  
 and

Vol 13 1793

- (1) clinical toxicology at UC San Francisco  
 (2) Q Okay Do you currently hold any teaching positions?  
 (3) A Yes As I indicated, I am associate clinical professor at  
 (4) UC San Francisco I'm a visiting professor of the behavioral  
 (5) pharmacology at the University of Nevada medical school  
 (6) Q Do you do any consulting work have you done any  
 consulting  
 (7) work?  
 (8) A Yes, I've consulted with a wide variety of government  
 (9) agencies, including the Veterans Administration the  
 National  
 (10) Institute on Drug Abuse I've served as a consultant for the  
 (11) Department of Transportation in the alcohol testing area  
 and  
 (12) I've testified in front of the Department of Transportation  
 (13) alcohol testing committee relative to the alcohol testing  
 (14) regulations under the ombudsman transportation bill  
 (15) Q Are you a certified medical review officer?  
 (16) A Yes  
 (17) Q Could you tell us what that is?  
 (18) A A medical review officer was created by statute as a  
 result  
 (19) of the Drug Free Workplace Act to review specimens, to  
 evaluate  
 (20) their reliability and to make judgments I am certified in  
 (21) addiction medicine and certified as a medical review officer  
 (22) and practice in the medical review officer arena for three  
 (23) large utilities in the San Francisco Bay area including  
 PG&E  
 (24) and the Bay Area Rapid Transit system  
 (25) Q Who certified you Doctor?

Vol 13 1794

- (1) A There is a certification process through the American  
 (2) Society of Addiction Medicine  
 (3) Q Is that a national certification?  
 (4) A Yes  
 (5) Q Have you held any positions relating to government  
 (6) governmental positions or agency governmental agency  
 (7) positions?  
 (8) A I've interacted and served in a variety of capacities with  
 (9) government positions, including being on the U S Olympic  
 drug  
 (10) testing team, 1976, 1984, and I've served as a consultant on  
 (11) various health care reform substance abuse prescription  
 drug  
 (12) issue for a wide variety of government agencies, including  
 the  
 (13) Food and Drug Administration, where I served on the  
 controlled  
 (14) substance advisory committee in which we evaluated the  
 abuse  
 (15) potential of drugs  
 (16) Q Okay Have you written any articles or books?  
 (17) A Yes, I have authored or co authored approximately 300  
 (18) scientific articles dealing with a wide variety of alcohol and  
 (19) drugs topics, including alcohol and the interaction with  
 (20) alcohol and other drugs, including dependencies pain,  
 drugs  
 (21) like Librium and Valium, alcohol and cocaine, various types  
 of  
 (22) drug interactions in that capacity And then I've also  
 (23) authored articles on alcohol and substance abuse disorders  
 in  
 (24) the various textbooks of psychiatry including the Lang  
 (25) textbook on psychiatry in the recent American Psychiatric

Vol 13 1795

- (1) Association textbook on substance abuse disorders  
 (2) I've also written an article entitled Identifying and  
 (3) Responding to Drug Abuse in the Workplace as part of a  
 national  
 (4) conference that we had on therapeutic drugs and drugs of  
 abuse  
 (5) in the area of the drug-free workplace  
 (6) Q Now do you have experience and expertise as to the  
 (7) studying of the results of blood alcohol concentration tests?  
 (8) A Yes, I worked in this area for many years and as a medical  
 (9) review officer I've served as a medical review officer for  
 (10) approximately 500 cases, some of whom include alcohol  
 testing  
 (11) where I've had to go into arbitration hearings and present  
 my  
 (12) evaluation of the alcohol result and use techniques of  
 (13) retrograde extrapolation to interpret the results under the  
 (14) guidelines established by that company  
 (15) Q Could you can you tell us basically unless you already  
 (16) have covered it what you really do as a medical review  
 (17) officer when it comes to blood alcohol concentration tests?  
 (18) A The primary focus of a medical review officer is to an  
 (19) individual who is tested in the workplace for whatever  
 reason  
 (20) it might be for cost testing because there's an accident, an  
 (21) individual might have suspected of being involved with  
 alcohol  
 (22) because they have alcohol on their breath There may be  
 (23) behaviors that the supervisor identifies as being associated  
 (24) with some form of substance abuse, alcohol or the illicit  
 (25) drugs

Vol 13 1796

can

- (1) The company has regulations by which testing can occur  
 (2) Those regulations are implemented the biological appropriate  
 (3) biological specimen is collected it is sent to a certified lab  
 (4) where it is analyzed, and verified by the certifying  
 (5) scientists The medical review officer must evaluate that drug  
 (6) test, review all of the chain of custody documents in the  
 (7) laboratory procedure interact with the certifying scientists  
 (8) in the lab and then certify that specimen as a medical review  
 (9) officer  
 (10) Different specimens have different regulations For  
 (11) example the illicit banned drugs such as cocaine marijuana,  
 (12) opiates, amphetamines PCP are much more strictly regulated  
 (13) until very recently than were the testing of alcohol  
 (14) specimens  
 (15) So it is the medical review officer it is required to know  
 (16) the regulations that impact on that particular industry, the  
 (17) impact on that particular employee and what the company  
 (18) regulations are  
 (19) Different companies have different regulations For  
 (20) example, some companies did alcohol testing and involved the  
 (21) medical review officer whereas other companies only do testing  
 (22) for illicit drugs, not testing for alcohol Some companies  
 (23) involve the medical review officer in all aspects of testing,  
 (24) both alcohol and the illicit drugs  
 (25) Once I judge the specimen as reliable I report that to the

Vol 13 1797

- (1) company say this is a reliable specimen that the company  
 can  
 (2) act upon and then I implement whatever procedures are  
 indicated  
 (3) under company regulations And the company that I work  
 with  
 (4) one of the functions of the medical review officer is to  
 (5) participate in what we call the first time offender policy  
 (6) which means that if they come up positive in the workplace  
 the  
 (7) first time they have the option of treatment I evaluate the  
 (8) employee along with the employee assistance program  
 and the  
 (9) treatment program that we select  
 (10) The individual is entered into treatment Consistent with  
 (11) the company guidelines, I evaluate the treatment and then  
 (12) monitor the employee for five years in association with the  
 (13) employee assistance program counselor, the treatment  
 program  
 (14) and what monitoring guidelines exist by the company  
 (15) Q Now you mentioned amongst all those things you do as a  
 (16) medical review officer that one of the things you are concerned  
 (17) with is determining the reliability of the chain of custody of  
 (18) the blood sampling?  
 (19) A Yes, that is a responsibility the medical review officer we  
 (20) receive training in our medical review officer training as to  
 (21) chain of custody and we are required to check chain of  
 custody  
 (22) because like any medical test we must judge it reliable and  
 we  
 (23) must certify it adds a medical review officer In certain  
 (24) sense we put our medical certification and license behind  
 that,  
 (25) saying this is a reliable specimen upon which the company

Vol 13 1798

Vol 13 1800

- (1) **act**  
 (2) **Q Okay And you also do an analysis and tell and determine**  
 (3) **what the meaning of the results of the blood test is is that**  
 (4) **correct?**  
 (5) **A Yes**  
 (6) **Q Okay**  
 (7) **A Once the test is judged to be reliable, then we interpret**  
 (8) **it relative to the clinical meaning of the test and different**  
 (9) **tests might have different clinical meanings or**  
**ramifications**  
 (10) **Q Now when you make these determinations are you required**  
 (11) **as a medical review officer to support it support your**  
 (12) **conclusions in proceedings or is it just made for textbook**  
 (13) **reasons?**  
 (14) **A No, I m required to defend that result in front of**  
 (15) **arbitration hearings The usual arbitration hearing that I**  
 (16) **participate is that the employee is on one side trying to**  
 (17) **invalidate the test, and the employer is on the other side**  
 (18) **trying to validate the test and implement whatever**  
**disciplinary**  
 (19) **reasons**  
 (20) **The medical review officer is to be an objective arbitrator**  
 (21) **reaching independent judgments dictated by our own**  
**standards**  
 (22) **of practice of objectivity and appropriate clinical practice**  
 (23) **Q Now as a medical review officer are you considered a**  
 (24) **neutral expert or are you hired by either the employer or the**  
 (25) **employee?**

Vol 13 1799

- (1) **A By the standard of practice of the medical review officer**  
 (2) **we are required to be neutral We may be contracted with**  
**the**  
 (3) **company and be paid by the company but our own**  
**standards of**  
 (4) **practice require that we be neutral and have no conflict of**  
 (5) **interest**  
 (6) **For example, under our code of ethics as a medical review**  
 (7) **officer we cannot refer our patients to any treatment**  
**program**  
 (8) **that we may be affiliated with So for example in my**  
 (9) **evaluation I might say inpatient treatment but there has to**  
**be**  
 (10) **a completely separate evaluation relative to what inpatient**  
 (11) **program that go into or the patient the employee goes into**  
**We**  
 (12) **have a code of ethics that require that we be neutral and**  
 (13) **objective**  
 (14) **Q Okay**  
 (15) **Your Honor the plaintiffs offer Dr Smith as an expert in**  
 (16) **substance abuse testing and medical review of substance**  
**abuse**  
 (17) **evidence including chain of custody documentation clinical**  
 (18) **toxicology and laboratory test results**  
 (19) **MR SANDERS Your Honor might I voir dire in the**  
 (20) **medical review officer area?**  
 (21) **THE COURT You may**  
 (22) **VOIR DIRE EXAMINATION OF DR DAVID SMITH**  
 (23) **BY MR SANDERS**  
 (24) **Q Good morning my name is Mr Sanders I don t think we ve**  
 (25) **ever met before**

- (1) **A Good morning**  
 (2) **Q The medical review officer function that you were just**  
 (3) **describing for the jury you started in that as the result of**  
 (4) **the enactment of the drug in the workplace act?**  
 (5) **A Correct**  
 (6) **Q When was that enacted?**  
 (7) **A 1989**  
 (8) **Q So how long have you been being a medical review officer**  
 (9) **since 90 or 1989?**  
 (10) **A About 1990**  
 (11) **Q And I take it from your description that some of the cases**  
 (12) **in which you have been involved in since 1990 perhaps 89 do**  
 (13) **involve blood alcohol tests?**  
 (14) **A Yes**  
 (15) **Q What percentage of the cases that you have heard or**  
 (16) **participated in as a medical review officer involve blood**  
 (17) **alcohol tests as compared with the other types of tests?**  
 (18) **A It would be somewhat hard for me to recall, because I ve**  
 (19) **been involved as a toxicologist, an addiction medicine**  
 (20) **specialist in blood alcohol for 25 years but I would say,**  
 (21) **strictly as a medical review officer in arbitration hearings,**  
 (22) **five or ten**  
 (23) **Q That would be a real small percentage then of these 500**  
 (24) **cases?**  
 (25) **A As a medical review officer yes**

Vol 13 1801

- (1) **Q And I believe if I understood you correctly when you were**  
 (2) **talking about how you went about doing your function and you**  
 (3) **told about looking over chain of custody forms and other things**  
 (4) **that you did you included the fact that you interacted with a**  
 (5) **person that did the testing the drug - the chemical testing**  
 (6) **right?**  
 (7) **A Yes**  
 (8) **Q Did you say that?**  
 (9) **A As part of our process, I will - I have questions or**  
 (10) **issues I call the certifying scientists at the NIDA certified**  
 (11) **lab that I use and interact with**  
 (12) **Q Now in the case here that you re getting ready to testify**  
 (13) **about you didn t interact with a man named Noedel did you?**  
 (14) **A No Who I interacted with was Dr Michael Peat**  
 (15) **Q And you heard - you were sitting right over there when Dr**  
 (16) **Peat testified he didn t do the test?**  
 (17) **A No I interacted with Dr Michael Pete in the past, last**  
 (18) **week and I ve interacted with him before**  
 (19) **Q But the question was Doctor Dr Peat didn t do the test**  
 (20) **on Captain Hazelwood s blood did he?**  
 (21) **A That s an incorrect characterization The certifying**  
 (22) **scientist is not the person that does the test The**  
**laboratory**  
 (23) **designated a certifying scientist, it s usually the head of the**  
 (24) **lab or some position - a person in the position of authority**  
 (25) **And a medical review officer is required to interact with the**

Vol 13 1802

- (1) **certifying scientist**  
 (2) **I can, if I so choose - and I have on occasion done that,**  
 (3) **actually contacted the person that did the test but that is -**  
 (4) **the person that did the test and the certifying scientist are**  
 (5) **not synonymous**  
 (6) Q All right In any event Doctor you didn't have any  
 (7) interaction with Mr Matt Noedel did you?  
 (8) **A I did not have any interaction with Mr Matt Noedel**  
 (9) Q And then I believe you said you had an interaction with Dr  
 (10) Peat but -  
 (11) **A Correct**  
 (12) Q But that was last week?  
 (13) **A Correct**  
 (14) Q You had already formed your opinion in this case before you  
 (15) ever talked to Dr Peat hadn't you?  
 (16) **A I interacted with Dr Peat following my usual procedures**  
 (17) **of**  
 (18) **going through all the forms and chain of custody with Dr**  
 (19) **Peat**  
 (20) **as the certifying scientist**  
 (21) Q I beg your pardon Doctor The question was hadn't you  
 (22) already formed your opinion and reported it to counsel and had  
 (23) your deposition taken and stated your opinion before you ever  
 (24) met Dr Peat?  
 (25) **A My interaction with Dr Peat verified my opinion, but I**  
 (26) **already presented my opinion in deposition**  
 (27) Q So the answer to my question is yes you had already formed

Vol 13 1803

- (1) your opinion?  
 (2) **A Well, I stick by my answer**  
 (3) Q Yes or no Doctor?  
 (4) **A I had an opinion I would not characterize it that way I**  
 (5) **had an opinion I presented it in deposition I went through**  
 (6) **the record with Dr Peat and verified that my opinion was**  
 (7) **reliable**  
 (8) Q That was afterwards?  
 (9) **A Correct**  
 (10) MR SANDERS No further questions  
 (11) Just a minute Your Honor Your Honor I would request a  
 (12) brief side bar and maybe we could do it at the break on the  
 (13) question of expertise and how far -  
 (14) THE COURT We're right at break time Let's take our  
 (15) recess ladies and gentlemen and I'll hear counsel  
 (16) (Jury out at 10 00 a m )  
 (17) THE COURT I assume due to the nature of this you  
 (18) probably wanted it on the record  
 (19) MR SANDERS I think that's a good idea  
 (20) THE COURT Go ahead  
 (21) MR SANDERS May it please the Court the problem I  
 (22) have with this is that I think that the plaintiffs are trying  
 (23) to have this man qualified as an expert on the question of  
 (24) evaluating the chain of custody And it strikes me as  
 (25) something not within the expertise certainly this person or

Vol 13 1804

- (1) anybody else to be an expert in the chain of custody I mean  
 (2) what one does with the chain of custody to determine whether  
 (3) it's valid or not is no different from what this jury is going  
 (4) to be asked to do with respect to that and I don't think there  
 (5) is any qualification possible to be an expert in that And  
 (6) second if there is this foundation hasn't been laid with this  
 (7) man  
 (8) Moreover it is - from the voir dire it is clear that the  
 (9) function that he performs as a medical review officer is  
 (10) different from what he's been asked to do here and what he's  
 (11) going to be asked to do here  
 (12) So I think there's serious questions about I think the man  
 (13) is an expert in his field My question is can there be and is  
 (14) he an expert as a medical review officer  
 (15) MR O NEILL In brief response Your Honor  
 (16) As a medical review officer he does review questions of  
 (17) chain of custody The fact that a jury in this case ultimately  
 (18) has to pass on chain of custody that line of argument we  
 (19) abolished years ago when we regularly started to use expert  
 (20) witnesses on questions that juries address - the purpose of  
 (21) his testimony is to aid the jury into coming to a conclusion  
 (22) about the chain of custody and as a medical review officer he  
 (23) has that experience for four or five years Indeed the  
 (24) experiences is unusual  
 (25) Now the fact that when he is a medical review officer he

Vol 13 1805

- (1) juries these things as opposed to appearing here as an expert  
 (2) witness doesn't strike me as germane one way or the other We  
 (3) do intend to offer him as an expert on the chain of custody in  
 (4) addition to retrograde extrapolation and some testimony on the  
 (5) physiological - the mechanical effects of alcohol on motor  
 (6) skills and the nerves in the nervous system But this is what  
 (7) we've done for years on these kind of issues  
 (8) MR SANDERS I have no quarrel with the -  
 (9) MR O NEILL I might just add -  
 (10) THE COURT We're not going to double team this wing  
 (11) Mr O Neill took up the ball but with him start and finish  
 (12) with him  
 (13) MR O NEILL I might add that he testified that he  
 (14) was trained to become a juror as a certified medical whatever  
 (15) the heck he is  
 (16) THE COURT Mr Sanders  
 (17) MR SANDERS I'm getting some help too Your Honor  
 (18) MR NEAL I'm not speaking though  
 (19) MR SANDERS May it please the Court I have no  
 (20) problem with this man testifying as to the retrograde  
 (21) extrapolation and some of these effects What concerns me is  
 (22) that - that he's being put forward as an expert in making  
 (23) factual judgments and that's exactly what they're going to do  
 (24) I think and while he may be able to testify about what he  
 (25) thinks about the chain of custody I don't think he's an expert

Vol 13 1806

- (1) in it I don't think we have such things as experts in  
 (2) judgments  
 (3) THE COURT Gentlemen it's a rut that I think we all  
 (4) tend to fall into that experts have to deal with things  
 (5) scientific and I think that's just not necessarily so Rule  
 (6) 702 speaks especially to the possibility of expert opinion  
 (7) testimony coming in on such things as the generalized category  
 (8) of quote specialized knowledge I think what I have heard in  
 (9) the voir dire and before that suggests that this doctor has  
 (10) specialized knowledge in an area that may be helpful and I so  
 (11) find to the jury in evaluating the evidence in this case and I  
 (12) will allow him to testify  
 (13) We'll be in recess for 15 minutes  
 (14) (Recess at 10 05 a m )  
 (15) (Jury in at 10 20 a m )  
 (16) THE CLERK All rise  
 (17) THE COURT Ladies and gentlemen I have ruled that  
 (18) Dr Smith has specialized knowledge about drug testing  
 (19) procedures and pharmacology matters as to which he may offer  
 (20) opinions You may inquire  
 (21) BY MR MONTAGUE  
 (22) Q Dr Smith I'd like to ask you some questions about the  
 (23) handling of the blood samples of Captain Hazelwood in this  
 (24) case Okay Have you - have you studied any information  
 (25) concerning the handling of those samples?

Vol 13 1807

- (1) A Yes  
 (2) Q And could you tell the jury what it is that you looked at?  
 (3) A I studied the chain of custody forms, the analytical  
 (4) procedures from both CompuChem and the Center for  
 Human  
 (5) Toxicology I looked at the depositions of Conner, Stock,  
 and  
 (6) Metcalf and discussed and reviewed the documents with the  
 (7) certifying scientists of CompuChem Laboratory Dr Peat  
 and I  
 (8) also reviewed the material with a consultant certifying  
 (9) scientist who had the record for the State of Alaska Dick  
 (10) Prouty  
 (11) Q And did you hear Dr Peat testify this morning? Were you  
 (12) here for that?  
 (13) A Yes  
 (14) Q And did you see the photographs that were used with  
 (15) Dr Peat -  
 (16) A Yes  
 (17) Q - this morning? And had you seen those before?  
 (18) A No  
 (19) Q Okay  
 (20) A Pardon me I did see them this morning Today was the  
 (21) first time I had actually seen the photographs  
 (22) Q Okay And have you reviewed the actual test reports -  
 (23) A Yes  
 (24) Q - that came out of the CompuChem Laboratory?  
 (25) A Yes

Vol 13 1808

- (1) MR MONTAGUE May I approach the witness Your  
 (2) Honor?  
 (3) THE COURT You may  
 (4) BY MR MONTAGUE  
 (5) Q I'd like to show you a copy of Plaintiff's Exhibit 3797  
 (6) which has already been admitted and ask you if that - that  
 (7) represents the test results of CompuChem that you previously  
 (8) seen?  
 (9) A Yes  
 (10) Q Okay Now what does NIDA stand for?  
 (11) A The National Institute of Drug Abuse  
 (12) Q And what is a NIDA certified laboratory?  
 (13) A The National Institute of Drug Abuse, using specific  
 (14) proficiency testing techniques, certifies a laboratory may  
 be a  
 (15) NIDA certified lab A medical review officer is required to  
 (16) have the specimen analyzed by a NIDA certified laboratory  
 (17) Q Now are you finished?  
 (18) A Yes  
 (19) Q Now does NIDA certify laboratories for blood alcohol  
 (20) testing?  
 (21) A Yes The NIDA certification applies to the testing of  
 (22) illicit drugs, but in general, forensic testing of illicit  
 (23) drugs, they have a forensic capability for doing alcohol  
 blood  
 (24) testing Not all NIDA certified labs do alcohol blood testing  
 (25) but they do have the capability in terms of technique

Vol 13 1809

- (1) Q All right As a medical review officer and as someone  
 (2) experienced in the area of toxicology for 25 years does - is  
 (3) there any significance to you when you received a blood  
 alcohol  
 (4) concentration test from a NIDA certified laboratory?  
 (5) A Yes Receiving it from a NIDA certified laboratory is a  
 (6) stamp of approval that they have met certain standards and  
 (7) proficiency testing And as I indicated, we're only to have  
 (8) our specimens tested at a NIDA certified lab, because it is a  
 (9) quality assurance measure that is required when you re  
 working  
 (10) in this area  
 (11) Q Okay Now you have reviewed the chain of custody in  
 (12) approximately 500 cases involving alcohol and/or drug abuse  
 (13) cases?  
 (14) A Yes  
 (15) Q And is there a difference in the chain of custody in  
 (16) those - those type of testings whether it's for drugs or for  
 (17) alcohol?  
 (18) A The medical review officer process of reviewing the chain  
 (19) of custody is the same, but there are much stricter  
 standards  
 (20) for chain of custody for illicit banned drugs They call them  
 (21) the NIDA five I've already reviewed them These would be  
 (22) cocaine, marijuana, opiates, PCP, amphetamines The  
 alcohol  
 (23) testing area was much less regulated, although that  
 increase in  
 (24) regulation is occurring now with the recent passage of the  
 (25) Omnibus Transportation Act and the alcohol testing  
 measures

Vol 13 1810

- (1) **that I ve previously alluded to**  
 (2) **Q Well in each of those cases the drug cases and I think**  
 (3) **you said there were ten alcohol cases that you re involved?**  
 (4) **A Approximately, yes**  
 (5) **Q In each of those cases were you?**  
 (6) **THE COURT Excuse me I think he said five or ten**  
 (7) **percent if I understood him**  
 (8) **THE WITNESS That s correct Your Honor**  
 (9) **BY MR MONTAGUE**  
 (10) **Q I m sorry five or ten percent In the cases that included**  
 (11) **both alcohol testing and drug abuse testing were you required**  
 (12) **as a medical review officer to reach a conclusion as to the**  
 (13) **reliability of the chain of custody leading up to the actual**  
 (14) **testing?**  
 (15) **A Yes**  
 (16) **Q And have you done that in this case?**  
 (17) **A Yes**  
 (18) **Q And what is your conclusion?**  
 (19) **A In my opinion this chain of custody is intact All**  
 (20) **procedures were properly followed There was no what we**  
 (21) **call**  
 (22) **a fatal flaw, which would be a reason to reject a specimen,**  
 (23) **and**  
 (24) **this is a reliable specimen that can be acted upon**  
 (25) **Q Is the fact that the seals around the tube were intact on**  
 (26) **the Hazelwood tubes does that have a significance to you in**  
 (27) **reaching your result?**

Vol 13 1811

- (1) **A Yes The most critical element is that the integrity of**  
 (2) **the specimen must be intact There can be other issues, but**  
 (3) **these relative evaluations of chain of custody are**  
 (4) **considered**  
 (5) **relatively minor in relationship to what we call fatal flaw**  
 (6) **If the integrity of the specimen is intact the evidence**  
 (7) **seal is intact, it s properly initialed, then this meets the**  
 (8) **chain of custody standards and is a specimen that I not only**  
 (9) **do but must judge reliable If I rejected this specimen I**  
 (10) **would be medically negligent and subject to legal action**  
 (11) **Q Have you ever heard of the term no test report?**  
 (12) **A Yes**  
 (13) **Q What is that?**  
 (14) **A What happens is that the laboratory received a specimen**  
 (15) **and**  
 (16) **determines that there has been a fatal flaw, the evidence**  
 (17) **seal**  
 (18) **has been violated, the integrity of the specimen has been**  
 (19) **invaded, and again that s the seal over the tube that has the**  
 (20) **blood in it That s the critical one That, because the**  
 (21) **integrity of the specimen has been violated, there is the**  
 (22) **potential for tampering and they no test it and what is**  
 (23) **reported to the medical review officer, depending on the**  
 (24) **reporting procedures In the companies that I work with no**  
 (25) **test is reported to the medical review officer, and we take**  
 (26) **clinical action For example, we may increase the**  
 (27) **frequency of**  
 (28) **testing, have the individuals see the employee counselor,**  
 (29) **something of this nature because it s usually the employee**

Vol 13 1812

- (1) **that tampers with the specimen but I cannot act on a no test**  
 (2) **by any procedure I can have a clinical response to a no**  
 (3) **test,**  
 (4) **but not a legal or regulatory response**  
 (5) **Q Okay And if there was any evidence of tampering at all**  
 (6) **with the seal around the tube would you expect to receive a no**  
 (7) **test from the laboratory?**  
 (8) **A Yes The lab is required to no test the specimen, and**  
 (9) **then**  
 (10) **whatever reporting requirements are in effect, the**  
 (11) **regulations**  
 (12) **vary depending on the different specimens being tested**  
 (13) **They re much stricter, for example, with the illicit drugs**  
 (14) **Q Okay Now there s been talk about red stoppers and gray**  
 (15) **stoppers and the difference between what is supposed to be**  
 (16) **put**  
 (17) **in those tubes**  
 (18) **A Yes**  
 (19) **Q Am I correct one has serum and - the red stopper is**  
 (20) **supposed to have serum in it and the gray stopper blood**  
 (21) **whole**  
 (22) **blood?**  
 (23) **A What happens is that in the gray stoppered tubes they**  
 (24) **have**  
 (25) **a preservative and anticoagulant that prevents the blood**  
 (26) **from**  
 (27) **clotting The red stoppered tube does not have the**  
 (28) **preservative and anticoagulant, and therefore it can clot,**  
 (29) **which is the red - the clot of the blood separates from the**  
 (30) **serum and the serum is clear**  
 (31) **In general the test is serum for the banned drugs, and**  
 (32) **they test the whole blood for alcohol And the standards**  
 (33) **that**

Vol 13 1813

- (1) **are reported are whole blood standards For example if in**  
 (2) **the**  
 (3) **state of Alaska your drunk driving level is 08 or 10, then**  
 (4) **that is a whole blood standard**  
 (5) **The technician knows when they pick up the gray stoppered**  
 (6) **tube and look in it that it s whole blood and it hasn t**  
 (7) **separated into the clot with serum The serum is a**  
 (8) **straw colored liquid that s easily discernible when you pick**  
 (9) **up**  
 (10) **the tube**  
 (11) **Q And in fact the difference between the serum and the whole**  
 (12) **blood is easily discernible Is that another safeguard as far**  
 (13) **as you re concerned that these tests were done?**  
 (14) **A In a NIDA lab, skilled lab, they have done thousands of**  
 (15) **these specimens They know what is appropriate**  
 (16) **procedure And**  
 (17) **laboratory - if a technician picks up what s supposed to be**  
 (18) **a**  
 (19) **whole blood sample, they re going to see that is, in fact,**  
 (20) **serum and then whatever reporting procedures are**  
 (21) **implemented**  
 (22) **would be implemented**  
 (23) **Q Now I handed you earlier exhibit - was it 3797 I**  
 (24) **believe?**  
 (25) **A Yes**  
 (26) **Q And that is the CompuChem test results?**  
 (27) **A Yes**  
 (28) **Q Do you have - do you have an understanding of what time**  
 (29) **the blood samples were taken from Captain Hazelwood?**  
 (30) **A Yes**

Vol 13 1814

- (1) Q And on what date?  
 (2) A 10 50 a m , March 24th 1989?  
 (3) Q Now what does that - what does the test report from  
 (4) CompuChem show as to the blood alcohol concentration of  
 Captain  
 (5) Hazelwood s and the blood sample taken 10 50 a m on March  
 24  
 (6) 1989?  
 (7) A 061 percent  
 (8) Q May I borrow that please since we don t have a spare one  
 (9) so I can put it on the machine?  
 (10) Dr Smith I m showing the first page of 3797 Is that the  
 (11) report that you were referring to?  
 (12) A Yes  
 (13) Q Okay And that is the report for Captain Hazelwood?  
 (14) A Yes  
 (15) Q All right Now I would like to call your attention to the  
 (16) part under - where it says ethanol parenthesis WV and then  
 (17) blood 061 percent Do you see that?  
 (18) A Yes  
 (19) Q Could you tell us what that represents - strike that Let  
 (20) me ask you another question  
 (21) Does that indicate that at the time the - this blood  
 (22) sample was drawn there was alcohol in the blood of Captain  
 (23) Hazelwood?  
 (24) A Yes  
 (25) Q Okay And what does that number at that point 061

Vol 13 1815

- (1) percent mean?  
 (2) A 061 percent weight by volume is the standard way a  
 (3) laboratory reports a specimen to in this case for purposes  
 of  
 (4) our discussion, to the clinician myself in this context, or  
 (5) whoever they report it to  
 (6) Q Okay Now this blood was the blood sample was drawn at  
 (7) 10 50 a m and were you asked to make a determination as to  
 (8) what Captain Hazelwood s blood alcohol concentration was at  
 a  
 (9) time earlier than 10 50 a m on March 24th 1989?  
 (10) A Yes  
 (11) Q And can you tell us what method or technique you use to do  
 (12) that?  
 (13) A The method that I used is a technique called retrograde  
 (14) extrapolation which is a standard clinical technique that is  
 (15) acceptable, for instance, particularly in terms of calculating  
 (16) what the level of blood alcohol is at some time prior to when  
 (17) the specimen was analyzed The technique of retrograde  
 (18) extrapolation is part of our training as a medical review  
 (19) officer and is generally accepted by laboratories and clinics  
 (20) to answer certain questions that might be posed whether it  
 be  
 (21) in a company situation, which is where I work mostly or a  
 (22) drunk driving situation Things of that nature  
 (23) Q Okay And that s an accepted method methodology?  
 (24) A Yes  
 (25) Q Okay Now were you asked to form an opinion as to what

Vol 13 1816

- (1) Captain Hazelwood s blood alcohol concentration was at or  
 about  
 (2) the time of the grounding of the Exxon Valdez on - around  
 (3) midnight? I don t know whether it s midnight the 23rd or  
 (4) midnight the 24th the evening morning midnight between the  
 (5) 23rd and the 24th?  
 (6) A Yes  
 (7) Q Okay And did you make any such calculation?  
 (8) A Yes  
 (9) Q Could you just tell us the result of that calculation?  
 (10) A Using the method of retrograde extrapolation and taking  
 (11) into consideration the variables that we were trained to  
 (12) include, my professional opinion is that his blood alcohol at  
 (13) the time of the grounding was 226  
 (14) Q That s 226 percent?  
 (15) A Yes  
 (16) Q Okay  
 (17) A 226 percent weight by volume  
 (18) Q And did we ask you also to make a similar calculation  
 (19) for - for an earlier time?  
 (20) A Yes  
 (21) Q And what time - and actually you selected the time?  
 (22) A One hour earlier  
 (23) Q Okay That would be 11 00 p m ?  
 (24) A Yes  
 (25) Q On the 23rd of March?

Vol 13 1817

- (1) A Yes  
 (2) Q Okay And did you make such a calculation?  
 (3) A Yes  
 (4) Q What was the result?  
 (5) A Using the same method, taking into consideration the  
 same  
 (6) variables, my opinion my professional opinion is that the  
 (7) blood alcohol at the 11 00 p m area was approximately  
 241  
 (8) Q Okay Now could you tell us the significance of those  
 (9) numbers?  
 (10) A Again you have certain standards For example, in the  
 (11) transportation industry for individuals that transport  
 (12) commercial vessels, other than recreational vehicles,  
 (13) recreational vessels, the acceptable level is 04, so this  
 (14) would be approximately six times the acceptable 04 level  
 (15) Drunk driving in different states it might be either 08  
 (16) or 10 but this would be two and a half times the drunk  
 (17) driving level  
 (18) Q Okay To reach those numbers you used this retrograde  
 (19) extrapolation technique?  
 (20) A Yes  
 (21) Q And can that - you ve gone back approximately 11 or 12  
 (22) hours isn t that correct?  
 (23) A Yes  
 (24) Q And is it possible - is it proper to use that retrograde  
 (25) extrapolation technique to go back so far?

Vol 13 1818

- (1) **A Yes** You have to assume a number of variables which I  
 (2) will present the variables that we assume in using  
 retrograde  
 (3) extrapolation  
 (4) First of all, when alcohol gets into the body it's  
 (5) absorbed into the gastrointestinal tract into the blood  
 (6) stream and then into after an equilibrium throughout the  
 (7) body, it's absorbed into the brain. The brain is the target  
 (8) organ, because that's the organ that produces the  
 intoxication  
 (9) and impairment  
 (10) Blood is the closest approximation that we can have of the  
 (11) brain level. So the focus is on blood and in this case for  
 (12) each ounce of alcohol that the individual drinks, we use an  
 (13) average of .03 up. This absorption rate is influenced by a  
 (14) variety of factors. For example, if there's no food in the  
 (15) stomach - the stomach empties in about an hour - if there is  
 (16) food in the stomach, it might take up to four hours. So one  
 of  
 (17) the key assumptions is that you have to select a time in  
 which  
 (18) you believe all the alcohol has been absorbed from the  
 stomach  
 (19) into the blood stream  
 (20) Retrograde extrapolation is a valid technique only when  
 (21) you're on the descending curve of the metabolism of  
 alcohol  
 (22) Alcohol elimination and the way had alcohol is eliminated  
 is  
 (23) it passes through the liver and the liver enzymes break it  
 down  
 (24) and then it is excreted. And alcohol metabolism is a steady  
 (25) state elimination with the average elimination rate

Vol 13 1819

- (1) being .015  
 (2) So in retrograde extrapolation we are trained and use an  
 (3) elimination of .015 on the descending curve. Therefore if I  
 (4) can have the screen I can show how I made the calculation  
 (5) MR MONTAGUE Okay. Can we put the flag screen up  
 (6) and the stylus  
 (7) BY MR MONTAGUE  
 (8) Q Before you do that I would like to just ask you one  
 (9) question though. You said you used the term in order to do  
 (10) the retrograde extrapolation you have to be on the down  
 curve?  
 (11) **A Yes**  
 (12) Q Does that mean that you can only go back up to the - up to  
 (13) the - you can only go back to the time where the alcohol level  
 (14) has already peaked?  
 (15) **A Yes**  
 (16) Q You can't go past the peak time? Is that what you're  
 (17) saying?  
 (18) **A Correct** You have to make an assumption and you can  
 (19) entertain different scenarios and assumptions, but when  
 you're  
 (20) asked to render a professional opinion you must select a  
 (21) particular assumption in order to give a response. And the  
 (22) assumption would be at the time you believe that all of the  
 (23) alcohol is absorbed into - from the stomach into the blood  
 (24) stream and you're on the descending curve of the  
 elimination  
 (25) rate

Vol 13 1820

- (1) Q Okay Now could you show the jury how you reach - how  
 (2) you reached the numbers 226 percent at midnight and 241  
 (3) percent at 11:00 from the .061 percent that came out of the  
 (4) blood samples taken at 10:50 that following morning? Could  
 you  
 (5) do that on the screen?  
 (6) **A Yes** Again what you do is you take the hours times the  
 (7) elimination rate. You come up with a figure. And then you  
 add  
 (8) the known level that you have from the test result, in this  
 (9) case .061. So if you have an 11 hour retrograde  
 extrapolation,  
 (10) which is the first question that I was asked, it would be 11  
 (11) times .015, equals 165. You add .061 and you come up  
 (12) with 226  
 (13) Q And that's the number for midnight?  
 (14) **A That's the 11 hour -**  
 (15) Q Okay That's the midnight number?  
 (16) **A That is correct**  
 (17) Q Okay Now could you do the same calculation for 11:00?  
 (18) **A In the 11:00 it would be 12 times .015 equals 180. Add the**  
 (19) **.061 and you get a 241 at the 12 hour rate which is the**  
 (20) **11:00 p.m. time period**  
 (21) Q Okay And that's - those - that's the mathematical  
 (22) calculations of how you reached those figures?  
 (23) **A Yes**  
 (24) MR MONTAGUE Could we get a printout of that  
 (25) please?

Vol 13 1821

- (1) BY MR MONTAGUE  
 (2) Q Now in picking the 11:00 figure did you make any  
 (3) assumptions?  
 (4) **A Yes** As I've indicated, you need to make a - an  
 (5) assumption that best fits your perception of the information  
 (6) that you're provided. And the key assumption here is that  
 you  
 (7) must assume that all of the alcohol has been absorbed from  
 the  
 (8) stomach and that you're on the descending limb of the  
 (9) elimination curve. I made the assumption that all of the  
 (10) alcohol had been absorbed by 11:00 p.m. and that he was on  
 the  
 (11) descending limb of the elimination curve  
 (12) Q Okay And are you - by the way is there any margin of  
 (13) error for those calculations?  
 (14) **A Yes** There is substantial biological variability in  
 (15) elimination rates producing a substantial range. However  
 the  
 (16) figure of .015 is accepted and is part of our training, and the  
 (17) error rate would be plus or minus ten percent, so that with  
 (18) great reliability I can say this figure plus or minus ten  
 (19) percent in the sense that a majority of individuals will have  
 (20) an elimination rate, absorption rate, all the other variables  
 (21) that you have to consider, and that we're required to  
 consider  
 (22) as part of our training and education in this area, so that a  
 (23) majority of individuals, the vast majority of individuals,  
 (24) would be within plus or minus ten percent of this figure  
 (25) There's a few that will scatter out on either side, either

Vol 13 1822

- (1) **be higher or lower, but given the assumptions and the**  
 (2) **elimination rates and understanding of biological variables**  
 in  
 (3) **absorption and metabolism, I believe this is a reliable figure**  
 (4) **plus or minus ten percent**  
 (5) Q Okay Now let's get back to the original figure of 061  
 (6) Did you - excuse me  
 (7) Did you see any other tests from any other labs that  
 (8) confirm that number for you?  
 (9) MR SANDERS Your Honor we're going to object to the  
 (10) other tests No foundation  
 (11) MR MONTAGUE This is something relied on as an  
 (12) accurate period of time or I'll establish I'm not offering it  
 (13) into evidence  
 (14) THE COURT I'll allow you to proceed  
 (15) BY MR MONTAGUE  
 (16) Q Are there any other tests that you viewed?  
 (17) A Other lab -  
 (18) Q Yes  
 (19) A Yes The standard procedure, particularly if there's  
 (20) appeal or some forensic issue  
 (21) MR SANDERS I'll object to this as being  
 (22) non responsive Your Honor  
 (23) THE COURT Try the question again  
 (24) BY MR MONTAGUE  
 (25) Q Was there any other test results from another lab upon

Vol 13 1823

- (1) which you relied?  
 (2) A Yes  
 (3) Q And what was that lab report?  
 (4) A Center for Human Toxicology  
 (5) Q Do you recall what the result was that they had from their  
 (6) blood test?  
 (7) A 06  
 (8) Q Okay And was that consistent with what the CompuChem  
 test  
 (9) was?  
 (10) A Yes The verifying lab Center for Human Toxicology  
 (11) verified the CompuChem lab  
 (12) Q Okay Now Doctor I want to ask you some questions  
 (13) strictly from a - I hope I'm using the right word -  
 (14) physiological point of view  
 (15) A Yes  
 (16) Q A medical point of view?  
 (17) A Yes  
 (18) Q If a person has a blood alcohol concentration of let's  
 (19) take the higher number the 1100 241 do you have an  
 (20) opinion again from a physiological point of view as to  
 (21) whether that blood alcohol concentration would have impaired  
 (22) that person's cognitive functions?  
 (23) A Yes  
 (24) Q Now that I've asked the question can you tell the jury  
 (25) what cognitive functions are?

Vol 13 1824

- (1) A Cognitive functions are the higher cerebral cortex  
 (2) functions that involve judgment analysis, ability to react to  
 (3) new situations  
 (4) Q Okay Now at that same level the blood alcohol  
 (5) concentration of 0 241 is it possible again from a  
 (6) physiologic point of view that a person's motor controls would  
 (7) not be affected?  
 (8) A Yes An individual can have substantial tolerance to the  
 (9) motor effects of alcohol, but not the cognitive effects, and I  
 (10) would like to diagram this to better explain my presentation  
 (11) Q Okay Before that's removed has that been printed out?  
 (12) Okay  
 (13) A This is the blood which is the specimen that you're  
 (14) measuring with a blood alcohol concentration As you have  
 (15) increasing blood alcohol, you will have increasing  
 impairment  
 (16) because the brain is affected differently by an increasing  
 (17) blood alcohol We call this progressive CNS depression  
 (18) At the lower levels, the higher thinking levels of the  
 (19) brain, this is a schematic representation of the brain This  
 (20) is the cerebral cortex, which is the higher levels Then this  
 (21) is the mid brain which deals with more basic vegetative  
 (22) functions, and the spinal cord which deals with reflex action  
 (23) and the cerebellum that deals with coordination So the  
 (24) initial impact of alcohol is on the cerebral cortex, or the  
 (25) higher thinking centers

Vol 13 1825

- (1) As the blood alcohol level goes up, you then have  
 (2) progressive CNS depression of the mid brain, which can  
 produce  
 (3) a variety of different responses It can produce, for  
 example,  
 (4) a sensation of the vomiting center in the mid brain, and the  
 (5) individual will vomit This is actually a protective  
 mechanism  
 (6) of the brain to rid the body of the toxic alcohol You can  
 (7) produce motor impairment so that you can have an  
 individual  
 (8) that has tolerance, impairment of cognitive function, which  
 (9) involves the judgment and the ability to analyze, without  
 (10) impairment of motor coordination  
 (11) There is substantial tolerance to this motor impairment  
 (12) The tolerance is determined by genetic factors There are  
 (13) certain individuals that have a past or family history of  
 (14) alcoholism that have what we call an inborn tolerance  
 They  
 (15) will take more of the drug without having impairment and  
 that  
 (16) will be demonstrated with the first drink  
 (17) Then there is pharmacological tolerance, which the  
 (18) individual repeatedly administers higher doses of the drug  
 (19) There is a neuroadaptation that occurs in the brain and the  
 (20) body, and this is called pharmacological tolerance meaning  
 that  
 (21) it requires more of a drug to achieve the same effect  
 (22) And finally there is behavioral tolerance, which is the  
 (23) experienced drinker, who will learn to moderate their  
 behavior  
 (24) in part to escape detection so that they may be able to walk  
 (25) and function in a motor fashion at a level that to the

Vol 13 1826

- (1) **inexperienced drinker would produce great motor impairment**
- (2) **However this tolerance does not occur to the cognitive or judgmental areas and of course if the blood alcohol goes high**
- (4) **enough, you can actually die of acute alcohol poisoning**
- This**
- (5) **is why we call it progressive CNS depression, of which the effects of the alcohol start at the higher centers As blood alcohol goes up, the CNS depression goes down through the**
- (8) **higher centers down through the mid brain and impairment goes**
- (9) **up**
- (10) **Q Doctor during that discourse you used the word sometimes drug instead of alcohol Were you referring to the same are they interchangeable?**
- (12) **they interchangeable?**
- (13) **A Alcohol is a drug**
- (14) **Q Could we have a printout please?**
- (15) **MR MONTAGUE Doctor thank you very much Your Honor I would like to offer these two created exhibits by the doctor The first being the calculations which I understand will be Exhibit PX3812 and the sketch of the brain which would be PX3813 I d like to offer them into evidence**
- (19) **be PX3813 I d like to offer them into evidence**
- (20) **(Exhibit PX3812 and PX3813 offered)**
- (21) **MR SANDERS No objection Your Honor**
- (22) **MR MONTAGUE I need stickers**
- (23) **THE COURT Plaintiffs 3812 and 3813 are admitted**
- (24) **(Exhibit 3812 and 3813 received)**
- (25) **THE COURT You may cross examine**

Vol 13 1827

- (1) **MR SANDERS Thank you Your Honor**
- (2) **MR SANDERS May it please the Court?**
- (3) **THE COURT Mr Sanders**
- (4) **CROSS EXAMINATION OF DAVID E SMITH**
- (5) **BY MR SANDERS**
- (6) **Q Dr Smith you have done quite a bit of writing as you testified earlier today correct?**
- (8) **A Yes**
- (9) **Q And did you have occasion to write a chapter in a book called The Review of General Psychiatry?**
- (10) **called The Review of General Psychiatry?**
- (11) **A Yes**
- (12) **Q And was that chapter 18?**
- (13) **A Yes**
- (14) **Q And you wrote that along with another doctor I assume?**
- (15) **A Yes**
- (16) **Q Dr Landry?**
- (17) **A Yes**
- (18) **Q And I believe the edition I have in front of you and this is Defendant s Exhibit 9093 Your Honor if you would look at page 176 of Exhibit 9093 there s a chart that appears in the bottom right hand corner May I have the Elmo please?**
- (20) **page 176 of Exhibit 9093 there s a chart that appears in the bottom right hand corner May I have the Elmo please?**
- (21) **bottom right hand corner May I have the Elmo please?**
- (22) **That s a chart that you included within the chapter that you co wrote is that right?**
- (23) **you co wrote is that right?**
- (24) **A Yes**
- (25) **Q Now that chart is a description I assume for a normal**

Vol 13 1828

- (1) **person -**
- (2) **A Yes**
- (3) **Q - of the different stages of blood alcohol content and what kinds of signs of intoxication there are is that correct?**
- (4) **what kinds of signs of intoxication there are is that correct?**
- (5) **A Yes**
- (6) **Q That s from your chapter from this book?**
- (7) **A Yes**
- (8) **Q When did you publish this chapter? Was it about 1988?**
- (9) **A Yes**
- (10) **Q And then it s been - there s been another edition since then in 1993?**
- (11) **then in 1993?**
- (12) **A Yes**
- (13) **Q And does this chart appear in that book?**
- (14) **A Yes**
- (15) **Q Now these numbers over here on the left hand side these that I m pointing to with the pen**
- (16) **that I m pointing to with the pen**
- (17) **A Yes**
- (18) **Q For our purposes here we ve been talking about 061 and 10 This is a different measure but if we just considered this to be 020 to 099 and then 100 to 199 that would put us in the right framework for what we ve been talking about correct?**
- (22) **correct?**
- (23) **A That is correct**
- (24) **Q Now from - you re going to have to help me with some of the reading here I m not familiar with these terms I can do**

Vol 13 1829

- (1) **okay from 100 to 199**
- (2) **A Yeah**
- (3) **Q The signs are marked mental impairment?**
- (4) **A Yes**
- (5) **Q And coordination?**
- (6) **A Yes**
- (7) **Q What s that?**
- (8) **A That s impairment of gross motor performance with impairment of coordination**
- (9) **impairment of coordination**
- (10) **Q Okay Those are the motor skills you were talking about?**
- (11) **A Correct**
- (12) **Q And then there s prolonged reaction time That s pretty self explanatory**
- (13) **self explanatory**
- (14) **A Yes**
- (15) **Q And then there s a phrase here Ataxia?**
- (16) **A Yes**
- (17) **Q What s ataxia?**
- (18) **A Ataxia would be, ilke in balance staggering gait**
- (19) **Q Stumbling staggering?**
- (20) **A Yes**
- (21) **Q And then from 200 to 299 there s nausea and vomiting first?**
- (22) **first?**
- (23) **A Yes**
- (24) **Q What s this next one?**
- (25) **A Diplopia would be blurred vision**

Vol 13 1830

- (1) Q Would be what? I m sorry  
 (2) A Blurred vision  
 (3) Q And then the next one is marked ataxia?  
 (4) A Yes  
 (5) Q What is the difference between regular old ataxia and  
 (6) marked ataxia?  
 (7) A You stumble more  
 (8) Q It s a pronounced state of staggering stumbling?  
 (9) A Right  
 (10) Q In balance?  
 (11) A Yes  
 (12) Q And then when you get to 30 to 399 there are severe  
 (13) symptoms correct?  
 (14) A Yes  
 (15) Q Hypothermia?  
 (16) A Yes  
 (17) Q What s the next one?  
 (18) A Severe dysarthria  
 (19) Q What s that?  
 (20) A That s slurred speech, very slurred speech  
 (21) Q Easily recognizable?  
 (22) A Yes  
 (23) Q Amnesia?  
 (24) A Yes That would be the alcohol black out  
 (25) Q And stage one anesthesia What s that?

Vol 13 1831

- (1) A Comatose You pass out There s a difference between a  
 (2) black out and a pass out  
 (3) Q Okay This is a pass out as opposed to a black out?  
 (4) A Yes  
 (5) Q And then when you get from 400 above you can even have  
 (6) death can t you?  
 (7) A Yes  
 (8) Q If i might I think i ll go to the retrograde extrapolation  
 (9) first and i m going to - i m not going to compete with you on  
 (10) drawing or figuring but i m going to try to - i thought -  
 (11) can i use these?  
 (12) MR O NEILL That s my exhibit  
 (13) MR SANDERS I m just using the back of it  
 (14) MR O NEILL This is the Graves report  
 (15) MR SANDERS I just wanted the back of it  
 (16) MR O NEILL I object  
 (17) MR SANDERS Quit being so picky  
 (18) THE COURT Your objection is being cured I think  
 (19) BY MR SANDERS  
 (20) Q Now first i want to make sure Doctor that we all  
 (21) understand the assumptions that go into this extrapolation  
 (22) back And the first assumption is and you correctly  
 (23) identified this as a key assumption that you re assuming that  
 (24) the alcohol has been absorbed?  
 (25) A Yes

Vol 13 1832

- (1) Q And that you are on the downward curve?  
 (2) A Yes  
 (3) Q In other words remembering your little chart the blood  
 (4) alcohol not going up the elimination is starting and  
 (5) therefore the blood alcohol is going down?  
 (6) A Yes  
 (7) Q And in fact when you made this analysis for counsel you  
 (8) were asked to assume then that there was no drinking by  
 (9) Captain Hazelwood certainly after 11 00 p m correct?  
 (10) A Wasn t asked by counsel I made that assumption after  
 (11) analyzing all the facts and reviewing all the scenarios That  
 (12) was the assumption i arrived at as the most reliable  
 (13) assumption  
 (14) Q So you re assuming - as the most reliable assumption  
 (15) you re assuming no drinking at least after 11 00?  
 (16) A Yes  
 (17) Q Okay And as a matter of fact it goes back a little  
 (18) further than that doesn t it because you ve got at least an  
 (19) hour with an empty stomach it takes for alcohol to be absorbed  
 (20) after you drink it so the time of no drinking moves on back  
 (21) some more doesn t it?  
 (22) A Yes At least an hour, because an empty stomach, you ll  
 (23) have all the alcohol absorbing in an hour Food in the  
 (24) stomach, it may be as long as four hours  
 (25) Q So your assumption of no drinking by Captain Hazelwood

Vol 13 1833

- (1) perhaps goes as far back as before going to the security gate  
 (2) at 8 30 in the evening and boarding the ship?  
 (3) A My assumption is no drinking after 11, and then all  
 (4) alcohol  
 (5) absorbed by 11  
 (6) Q But the assumption of no drinking has to go back before  
 (7) 11 00 right?  
 (8) A That is correct  
 (9) Q At least an hour?  
 (10) A At least an hour  
 (11) Q All right Now let s start at the bottom There s no  
 (12) telling how this is going to look Let s say if the time that  
 (13) the consent form was signed which is before you take the  
 (14) blood  
 (15) sample was 10 35 and the time at which the blood sample was  
 (16) taken at about 10 55 can we use 10 45 as our time for the  
 (17) taking of the sample?  
 (18) A Depends on the question you re going to ask, but let me  
 (19) accept that depending on the question you re asking  
 (20) Q Well let s have a working hypothesis 10 45 And we know  
 (21) from the test results that you say are reliable that the  
 (22) figure for 10 45 is 061?  
 (23) A Yes  
 (24) Q And you using your standard elimination rate and your  
 (25) expertise you say that when you go back to approximately  
 (26) midnight is that correct?  
 (27) A Yes

Vol 13 1834

- (1) Q - the blood alcohol content of Captain Hazelwood s blood  
 (2) if this is reliable was 226?  
 (3) **A Yes**  
 (4) Q And then at 11 00 it was 241?  
 (5) **A Yes**  
 (6) Q I put that down correctly?  
 (7) **A Yes**  
 (8) Q And you arrive at that that s not - that s a calculation  
 (9) even I can do You just take the number of hours you use the  
 (10) basic elimination rate and you get a sum then you add it to  
 (11) the 061 and there you have it?  
 (12) **A Yes I even demonstrated how I arrived at that**  
 (13) **calculation**  
 (14) Q Let s fill in another time here Let s fill in the time  
 (15) that the United States Coast Guard came on board and just to  
 (16) make it easy for me at least let s say it was 3 45  
 (17) approximately And if you take that as seven hours seven  
 (18) times 015 plus 061 comes up to 166 Does that sound right  
 (19) to you?  
 (20) **A Yes**  
 (21) Q Now if we compare those readings using your method of  
 (22) retrograde extrapolation with what s on this chart Exhibit  
 (23) 9064 what we have at the time that the Coast Guard comes  
 (24) on board according to this chart there is marked mental  
 (25) impairment in coordination prolonged reaction time and ataxia

Vol 13 1835

- (1) correct?  
 (2) **A No that s not correct As you ve indicated, and as I**  
 (3) **indicated, this is a standard chart that relies and focuses on**  
 (4) **the average clinical response in social drinkers This all**  
 (5) **has**  
 (6) **to be modified when you re applying it to a specific case**  
 (7) **particularly if that specific individual has a history of**  
 (8) **alcohol problems because these figures, particularly the**  
 (9) **motor**  
 (10) **impairment figures would not apply So you ve gone from**  
 (11) **the**  
 (12) **general to the specific, and I wouldn t want to agree with**  
 (13) **that**  
 (14) **characterization**  
 (15) Q So are you assuming there is this alcohol history here or  
 (16) are you just saying I can t assume that so therefore I can t  
 (17) tell you?  
 (18) MR MONTAGUE Your Honor the questions that were  
 (19) posed to Dr Smith were hypothetical and I think the cross  
 (20) exam should be kept in that way and not have him apply it to a  
 (21) specific person  
 (22) MR SANDERS I m seeking a clarification what he is  
 (23) saying  
 (24) THE COURT I think the question is proper and you may  
 (25) proceed  
 (26) BY MR SANDERS  
 (27) Q Do you have the question?  
 (28) THE COURT Give it again  
 (29) BY MR SANDERS

Vol 13 1836

- (1) Q Are you assuming this kind of alcohol history here for your  
 (2) calculations and for your testimony or are you simply saying  
 (3) I m not so therefore I can t compare?  
 (4) **A That would be difficult, Your Honor I need your guidance**  
 (5) **on this I listened to Captain Hazelwood s testimony last**  
 (6) **week**  
 (7) **with the history of the alcohol problems, and I ve indicated**  
 (8) **in**  
 (9) **my presentation if you have a history of alcohol problems,**  
 (10) **you**  
 (11) **have increased tolerance and for me to respond to that**  
 (12) **specific question, I have to take into account the**  
 (13) **information**  
 (14) **that I have heard in the testimony in the depositions so I -**  
 (15) **move from a general to a specific question So before I can**  
 (16) **respond, I need guidance**  
 (17) THE COURT Well I think you re going to have to look  
 (18) for it from the examiner I think he s given a partial answer  
 (19) to the question and why don t you pose another question  
 (20) MR SANDERS Well let me go at it this way first  
 (21) BY MR SANDERS  
 (22) Q It is true at least for a normal person and without regard  
 (23) to these other factors which may or may not be present that  
 (24) those conditions that I read to you would apply to a 166?  
 (25) **A Yes This chart which correlates with the 166 applies to**  
 (26) **a normal person that has no evidence of tolerance, which**  
 (27) **would**  
 (28) **include no evidence of genetic tolerance, pharmacological**  
 (29) **tolerance as indicated by past alcohol exposure or**  
 (30) **behavioral**  
 (31) **tolerance But I do not believe that you can take a general**

Vol 13 1837

- (1) **chart for the average person that has no evidence of**  
 (2) **tolerance**  
 (3) **and apply it to specific signs and symptoms of a specific**  
 (4) **individual and ask for an opinion on my part unless I am**  
 (5) **allowed to take into consideration facts that are known**  
 (6) **about**  
 (7) **that individual which is the fact that he does have a past**  
 (8) **history of alcohol problems and therefore would have**  
 (9) **tolerance So if I can t take that into consideration I have**  
 (10) **to say no opinion**  
 (11) Q Let s just - so I understand doctor we re talking about  
 (12) what you heard in the court room the other day?  
 (13) **A Correct**  
 (14) Q Or the other days when you were here?  
 (15) **A Correct**  
 (16) Q That s it right?  
 (17) **A I have listened to Captain Hazelwood s testimony last**  
 (18) **week,**  
 (19) **and I ve reviewed his deposition and that information**  
 (20) **influences me relative to his tolerance to alcohol**  
 (21) MR SANDERS Your Honor I think we need a minute  
 (22) please  
 (23) (At side bar off the Record)  
 (24) BY MR SANDERS  
 (25) Q Dr Smith we re going to leave it to the jury to determine  
 (26) from the testimony of Captain Hazelwood and the other  
 (27) information exactly whether he falls within one of your  
 (28) exceptions or not but let me ask you specifically Let s just

Vol 13 1838

- (1) assume a normal person a normal person at 166 this morning of
- (2) March the 24th 1989 would be exhibiting those characteristics that you listed in your chapter in the book for the range of
- (3) 100 to 199 correct?
- (4) **A Yes**
- (5) **Q** And then at this level that hypothetical normal person would be exhibiting nausea and vomiting diplopia is that right? Did I say it right?
- (6) **A Yes**
- (7) **Q** Is that blurred or double vision?
- (8) **A Blurred and double, same thing**
- (9) **Q** Both?
- (10) **A Yeah**
- (11) **Q** As well as marked ataxia at this level?
- (12) **A Yes**
- (13) **Q** Stumbling and staggering?
- (14) **A Yes**
- (15) **Q** Now you understand based on your review of the testimony that when the Coast Guard came aboard at this time that they were investigating the grounding? You understand that do you not?
- (16) **A Yes**
- (17) **Q** And you also understand that they had the power and the duty to remove Captain Hazelwood from the command of that ship
- (18) if they saw grounds for it? You understand that?

Vol 13 1839

- (1) **A Yes**
- (2) **Q** And you also know that when they made the decision they made not to remove him they also were putting their lives or safety on the line when they did that You understand that?
- (3) **A I have no opinion on that**
- (4) **Q** Well you do understand that they're more than casual observers there at 3:30 or 3:45 in the morning?
- (5) **A My understanding, based on my review of the record is that they have the authority to remove him Why they didn't I have no opinion on that It's outside of my area of expertise**
- (6) **Q** Now you mentioned other factors Who is Dr Worlett (ph)?
- (7) **A Worlett? Dr Worlett is our medical review, officer training, which I also teach in the same course He presents the alcohol testing and to keep the medical review officers updated on the latest science and testing in alcohol**
- (8) **Q** And as I understand you then as a matter of fact you've attended some of his training sessions?
- (9) **A** On a regular basis, and I also ask him specific questions, Dr Worlett keeps us, all the people that participate in our American Society of addiction medical courses and the medical review officer up to date on alcohol testing So he presents the material that is in our syllabus, and we ask him questions
- (10) **Q** And in the training you've attended and the training materials you've gotten as being a part of this isn't it a fact that Dr Worlett says that if you have a person who is a

Vol 13 1840

- (1) smoker that you should add another 40 percent to the elimination rate?
- (2) **A That would be an inaccurate characterization What - in the alcohol testing, what Dr Worlett did is present certain scientific factors that could produce alteration of metabolism Smoking increases metabolism in certain individuals, alcoholism does So that was information presented in the medical review officer manual by Dr Worlett**
- (3) **Q** Well isn't it a fact - well first you understand from Captain Hazelwood's testimony that he's a smoker?
- (4) **A Yes**
- (5) **Q** And isn't it a fact that Dr Worlett said that for smokers you would increase this standard rate of zero - 0.15 by 40 percent?
- (6) **A** I believe that's a mischaracterization of the training In fact, at the end of the training manual, Dr Worlett indicated that that - what you presented was in the scientific part of the training
- (7) **And at the end he presented the rate of 0.15 is the one used, and even has a case example We are given specific cases of an employee by which we use the 0.15 So he presented evidence that smokers can have an increased metabolic rate, but the 0.15 figure was not altered, and in fact, in the case example that we were given in the alcohol testing schedule they used a 0.15**

Vol 13 1841

- (1) **Q** Would you look please at the exhibit I have in front of you up there exhibit - defense Exhibit 9048?
- (2) **A** I'll need some help from you They're a little out of order
- (3) **Q** If I can approach I might help This is a big volume of materials that's in that - there's the page Now I'll represent to you Dr Smith that that page comes from this big thing right here
- (4) **A** That is correct Now all I have to have is my copy
- (5) **Q** Now this page says alcohol metabolism does it not?
- (6) **A** That is correct
- (7) **Q** And at the bottom there let me zoom in on it It says smokers have a 40 percent increased metabolism?
- (8) **A** That is correct
- (9) **Q** Now metabolism is the same thing as elimination?
- (10) **A** That is correct
- (11) **Q** Now let's assume for just a minute with me Doctor that you do increase the rate of elimination of 0.15 by 40 percent and let's see what kind of numbers that gives us
- (12) **A** I cannot accept that assumption based on the document that you presented and I have evidence in the same document that directly contradicts what you've just said
- (13) **Q** What is that evidence?
- (14) **A** Under the alcohol elimination, which is the next page you have referred to the page of alcohol metabolism smokers 40

Vol 13 1842

- (1) **percent increased metabolism** But on the next page it says
- (2) **saturated kinetics, 015 grams per deciliter per hour**
- (3) **Given all of that scientific information, Dr Worlett still**
- (4) **says 015, and in the final paragraph of that same manual page**
- (5) **nine, it gives us the case example that we train on** But it
- (6) **says, in the employment setting there have been concerns**
- (7) **regarding alcohol tests** If one considers that the average
- (8) **rate of alcohol elimination is about 015 percent 15**
- (9) **milligrams per deciliter per hour, and then it goes on to give**
- (10) **an example of retrograde extrapolation with the final case**
- (11) **It**
- (12) **is reasonable for an employer not to want an employee in a**
- (13) **safety sensitive task that day** An employer could use a
- (14) **cutoff**
- (15) **level above 04 percent when there s documented evidence**
- (16) **of**
- (17) **current impairment** So you have taken one scientific fact
- (18) **that**
- (19) **is used as the introduction to suggest that our elimination**
- (20) **rate is to be changed for the purpose of retrograde**
- (21) **extrapolation and that is inaccurate**
- (22) **After you receive all of that scientific information the**
- (23) **015 still holds and the case example holds** So as I ve said
- (24) **here, I do not change the 015 even taking into**
- (25) **consideration**
- (26) **these other scientific facts**
- (27) **Q All right** And I understand You re saying that you don t
- (28) **accept that** but assume hypothetically for a moment that it is
- (29) **increased by 40 percent** the numbers and you can check my
- (30) **math**
- (31) **on this** that would come from increasing 015 by 40 percent

Vol 13 1843

- (1) **and I ll just round it** it actually comes to 021 and I ll
- (2) **just use 02** You get a reading of 200 at 3 45 and a little
- (3) **15 minutes beyond 12 00 you would get 280** and if you went
- (4) **on**
- (5) **back to 7 45 you would get 360**
- (6) **Now** if the assumption - you re forced to make this
- (7) **assumption** I know you don t want to but if you re forced to
- (8) **do those numbers look reasonable to you?**
- (9) **A Based on your assumption you ve made the**
- (10) **mathematical**
- (11) **calculations correctly** but I do not accept the assumption
- (12) **and**
- (13) **therefore cannot say that this is my opinion**
- (14) **Q Doctor** who is Dr Donna Smith?
- (15) **A Dr Donna Smith is the individual at the Department of**
- (16) **Transportation that teaches in our course and that we**
- (17) **interact**
- (18) **with relative to medical review officer guidelines** alcohol
- (19) **testing regulations, things of this nature**
- (20) **MR SANDERS** Your Honor might I put a number on this
- (21) **as we use this** and then I can take it down can we put the
- (22) **number on later?**
- (23) **Q Let me go to the** - one of the other areas that you ve
- (24) **testified about** and that is your - the basis for your opinion
- (25) **concerning the chain of custody**
- (26) **You ve testified that in making** or giving this opinion to
- (27) **the ladies and gentlemen of the jury** what you did was you
- (28) **reviewed the chain of custody documents?**
- (29) **A Yes**

Vol 13 1844

- (1) **Q And you reviewed certain deposition testimony?**
- (2) **A Yes**
- (3) **Q And then you ve talked to Dr Peat?**
- (4) **A Yes**
- (5) **Q A week ago?**
- (6) **A Yes**
- (7) **Q And I believe you talked to somebody else?**
- (8) **A Dr Richard Prouty**
- (9) **Q Dr Prouty?**
- (10) **A Yes**
- (11) **Q When did you talk to him?**
- (12) **A Talked with him three times** I think the first time was in
- (13) **October and the last time was last week**
- (14) **Q I believe you ve also talked to Dr O Conner (ph)?**
- (15) **A Yes not about this matter** but I have talked with
- (16) **Dr O Conner**
- (17) **Q You ve talked to him about this case and his testimony in**
- (18) **this case** haven t you?
- (19) **A Not in any great depth, because his area of testimony will**
- (20) **be very different than this** The individuals that I have
- (21) **talked to about this** my specific portion of my testimony,
- (22) **relative to alcohol testing** have been Drs Peat and Richard
- (23) **Prouty**
- (24) **Q Well** did you have a conversation with Dr O Conner and
- (25) **perhaps others in Mill Valley** where you suggested that they

Vol 13 1845

- (1) **could use an expanded definition of alcoholism that you had**
- (2) **kind of been involved in expanding that definition?**
- (3) **A Yes**
- (4) **Q And I want to ask you a couple of questions about that**
- (5) **The field in which you are involved in addictive medicine**
- (6) **generally and alcohol definition** diagnose - diagnoses and
- (7) **criteria is an area that has seen a great deal of evolution and**
- (8) **change in the very recent past** hasn t it?
- (9) **A That is correct** The specialty of addiction medicine has
- (10) **been recently, in the last several years recognized by the**
- (11) **A M A** in our American Society of Addiction section of
- (12) **which**
- (13) **I m president elect, is one of the newer specialties** so that
- (14) **would be a correct characterization**
- (15) **Q And as almost in any other field** I think a science that
- (16) **grows like this has grown** there are areas where there are lots
- (17) **of disputes among reasonable** qualified professions as to what
- (18) **is the proper definition** what is the proper diagnosis what is
- (19) **the proper elimination rate** those kinds of things?
- (20) **A That is correct**
- (21) **Q And there are legitimate differences** then are there not
- (22) **into all these areas?**
- (23) **A That s the nature of science, is to have good faith debate**
- (24) **and peer review**
- (25) **Q Now science** which is your major area of expertise being
- (26) **a doctor** being in addictive medicine and having all of this

Vol 13 1846

- (1) experience science didn't play much of a role in your  
 (2) assessment of the chain of custody did it?  
 (3) **A I followed the chain of custody procedures that I use in  
 my**  
 (4) **practice as a medical review officer and the guidelines as I**  
 (5) **understood them from the training So I believe it is a**  
 (6) **clinical practice that's a valid clinical practice**  
 (7) **Q I'm not disparaging the clinical practice I'm asking you**  
 (8) **about your review of the chain of custody in this particular**  
 (9) **case Your review of your the documents your review of the**  
 (10) **deposition testimony that these ladies and gentlemen have**  
 (11) **heard and talking to Dr Peat You didn't do any tests did**  
 (12) **you scientific tests?**  
 (13) **A No**  
 (14) **Q You didn't do any scientific measurements?**  
 (15) **A No**  
 (16) **Q And did you ever go to the lab?**  
 (17) **A That particular lab?**  
 (18) **Q ChemWest Sacramento?**  
 (19) **A Actually physically visited?**  
 (20) **Q Right**  
 (21) **A No**  
 (22) **Q Did you ever see the testing facilities?**  
 (23) **A That I can't recall We've referred specimens there,**  
 (24) **sometime in the past totally unrelated to this matter I don't**  
 (25) **think I've ever seen the lab in Sacramento**

Vol 13 1847

- (1) **Q It's closed now isn't it?**  
 (2) **A That's correct**  
 (3) **Q And you didn't talk to the guy who actually did the**  
 (4) **testing physically did the testing Mr Noedel - or**  
 (5) **Dr Noedel?**  
 (6) **A In this case I didn't Who I talked to was the certifying**  
 (7) **scientist Dr Michael Pete of ChemWest**  
 (8) **Q Right And you heard him testify he had - he had never**  
 (9) **seen the samples until some time after May 1st correct?**  
 (10) **That's your understanding?**  
 (11) **A That is my recollection of his testimony**  
 (12) **Q All right And what you're telling us is that from your**  
 (13) **review of the chain of custody in your opinion there's no**  
 (14) **fatal flaw? Right?**  
 (15) **A Correct**  
 (16) **Q That's your words?**  
 (17) **A Correct**  
 (18) **Q And second that you see no evidence of tampering?**  
 (19) **A That is correct**  
 (20) **Q All right And those two may be synonymous right?**  
 (21) **A The fatal flaw is basically if you have violation of the**  
 (22) **actual integrity of the specimen to demonstrate that there**  
 (23) **might be adulteration of the specimen It doesn't mean the**  
 (24) **bottle or anything of that nature You have to have the**  
 (25) **direct**  
 (25) **evidence of the violation of the integrity of the specimen**

Vol 13 1848

- (1) **Q All right What you have is no testimony that you saw and**  
 (2) **nothing in the records that say there was tampering right?**  
 (3) **A That's correct**  
 (4) **Q You just don't have that you didn't see it anywhere?**  
 (5) **A That is correct**  
 (6) **Q But you didn't physically examine these tubes to look at**  
 (7) **those seals did you?**  
 (8) **A The only thing I have seen has been the photographs of**  
 (9) **the**  
 (9) **tubes**  
 (10) **Q Well those were taken a year and a half afterwards after**  
 (11) **the seals had been broken so that they could do the testing and**  
 (12) **checking two or three different times right?**  
 (13) **A I did not actually see the tubes**  
 (14) **Q You don't know whether the seals were intact do you**  
 (15) **except as if somebody said somewhere No they weren't**  
 (16) **right? That's what you're relying on?**  
 (17) **A I think that mischaracterized my process My process is**  
 (18) **reliance on clinical information and certified custodians**  
 (19) **that**  
 (19) **document this, which is the same procedure I use with any**  
 (20) **specimen**  
 (21) **Q Well but let me ask you about that Doctor What you're**  
 (22) **really saying is this lab was a certified lab and you would**  
 (23) **assume that a certified lab would act like a certified lab all**  
 (24) **the time particularly with respect to this particular set of**  
 (25) **samples and tests and handling Isn't that what you're saying?**

Vol 13 1849

- (1) **A NIDA certified lab has certain standards and ethics, and if**  
 (2) **they don't conduct themselves based on these standards**  
 (3) **and**  
 (3) **ethics, they could you know, lose their license and**  
 (4) **certification, and so when they put that - when the**  
 (5) **certifying**  
 (5) **scientist puts his signature and verifies that, that is**  
 (6) **extremely important Now, I independently check it as I do**  
 (7) **all**  
 (7) **the specimens, but I don't - I'm not the one that does the**  
 (8) **test**  
 (9) **Q But you didn't independently check these specimens did**  
 (10) **you the ones in the Hazelwood case?**  
 (11) **A I used my standard procedure of the chain of custody,**  
 (12) **analyzing the results and talking to the certifying scientists**  
 (13) **Q We're going to be here a long time Doctor My question is**  
 (14) **did you independently check these specimens in the Hazelwood**  
 (15) **case That's the question**  
 (16) **A Well, if I -**  
 (17) **Q Would you answer that question?**  
 (18) **A You must I think I've already answered it I did not in**  
 (19) **this case or any case actually see the tube and the test**  
 (20) **That's if this is what you're asking, of course, the answer is**  
 (21) **no, I'm not the analyzing toxicologist**  
 (22) **Q You're saying since I know this is a NIDA certified lab**  
 (23) **that I assume these guys did what they're supposed to do and**  
 (24) **there's no evidence that you see from any of these documents**  
 (25) **that they didn't but you're just assuming they did what they**

Vol 13 1850

- (1) were supposed to do?  
 (2) **A I have no evidence to the contrary but I m assuming that**  
 (3) **they followed the procedures that they ve outlined**  
 (4) **Q Right**  
 (5) **A But I didn t do the test myself**  
 (6) **Q And you didn t see it done?**  
 (7) **A No**  
 (8) **Q And in part you re relying on the truthfulness of Dr Peat**  
 (9) **that he s telling you the truth and he s telling these ladies**  
 (10) **and gentlemen the truth?**  
 (11) **A I believe Dr Peat is telling the truth and conforming to**  
 (12) **professional standards and ethics**  
 (13) **Q That s based on his talking to you and the fact that at one**  
 (14) **time he was running a NIDA certified lab?**  
 (15) **A That s a mischaracterization Dr Peat has an**  
 (16) **outstanding**  
 (17) **reputation in the field I ve heard him lecture He s been in**  
 (18) **this area for a long period of time It s not just those**  
 (19) **particular issues It s his reputation and experience in the**  
 (20) **field I - a person wouldn t risk their entire career to do**  
 (21) **what you re suggesting**  
 (22) **Q I m not suggesting anything I m asking you questions**  
 (23) **I m asking you did you know what he did or didn t do or what**  
 (24) **his people did or didn t do?**  
 (25) **A Based on the material that I ve reviewed which I ve**  
**already stated and my interaction with Dr Peat and my**

Vol 13 1851

- (1) **consultation with Dick Prouty, I arrived at that decision But**  
 (2) **as I ve said several times I did not do the test I am not**  
 (3) **the analytical toxicologist**  
 (4) **Q And in addition then looking at the records not knowing**  
 (5) **what you can t know and don t know you resolved some**  
 (6) **disparities among witnesses and between witnesses and the**  
 (7) **records correct?**  
 (8) **A Yes**  
 (9) **Q That s what you essentially did?**  
 (10) **A Yes**  
 (11) **Q And I want to talk to you about that a second Do you**  
 (12) **understand that this styrofoam container that contained the**  
 (13) **samples of Captain Hazelwood was according to Ms Metcalf**  
 (14) **sealed when she received it and logged it in that very first**  
 (15) **day March the 28th 1989?**  
 (16) **A That is my recollection of her deposition, yes**  
 (17) **Q All right And well in - and her trial testimony her**  
 (18) **deposition was played in the trial so trial testimony?**  
 (19) **A It s my understanding that a deposition is like a trial**  
 (20) **testimony under the same oath**  
 (21) **Q And you further understand that Lieutenant Stock s**  
 (22) **testimony was that he himself opened up that styrofoam**  
 (23) **container so he could look in and see what these vials looked**  
 (24) **like and he opened it up in Anchorage Alaska on the 25th of**  
 (25) **March 1989 and went through it looked at the vials Do you**

Vol 13 1852

- (1) understand that?  
 (2) **A That is my recollection of his deposition**  
 (3) **Q But that doesn t affect your opinion that the chain of**  
 (4) **custody is that right?**  
 (5) **A There was no violation of the integrity of the actual**  
 (6) **specimen itself That does not, in my opinion, represent a**  
 (7) **fatal flaw**  
 (8) **Q Well if the chain of custody is broken and the box itself**  
 (9) **and containers does Dr Donna Smith say you should reject**  
 (10) **that?**  
 (11) **A Dr Donna Smith in her guidelines was for drug testing,**  
 (12) **not**  
 (13) **alcohol testing The standards are much stricter for drug**  
 (14) **testing Those standards apply to drug testing, not alcohol**  
 (15) **testing, and were not in application at this particular time**  
 (16) **Q All right So what you re saying is that you would agree**  
 (17) **with me that Dr Donna Smith says if this box was opened up by**  
 (18) **Lieutenant Stock and this was for a drug test it should be**  
 (19) **rejected?**  
 (20) **A No, I would not I think you mischaracterize the Donna**  
 (21) **Smith s presentation because Mr Stock was an authorized**  
 (22) **custodian These guidelines are for unauthorized**  
 (23) **custodians**  
 (24) **The employee breaking in or an unauthorized individual, if**  
 (25) **an**  
 (26) **authorized individual opens it to check it this is not**  
 (27) **applicable in my opinion to the portion that you re talking**  
 (28) **about for either drug testing or alcohol testing**

Vol 13 1853

- (1) **Q All right Let s go then to the next step Do you**  
 (2) **understand the chain of custody was broken when Mr Conner**  
 (3) **went**  
 (4) **to the galley in Valdez and put this styrofoam box in an**  
 (5) **unlocked refrigerator that nobody signed for And then the**  
 (6) **next morning comes back and gets it It sat there all night in**  
 (7) **an open refrigerator in an open galley I don t mean open I**  
 (8) **mean unlocked Unlocked refrigerator and open galley and**  
 (9) **there s a break there in the chain of custody Do you agree**  
 (10) **with that? Do you understand that?**  
 (11) **A I believe that you mischaracterized what happened The**  
 (12) **authorized custodian put it in a refrigerator The**  
 (13) **refrigerator is supposed to be locked, but the actual tube**  
 (14) **itself that had the appropriate initials and social security**  
 (15) **number wasn t violated, and the integrity of the specimen**  
 (16) **was**  
 (17) **not violated**  
 (18) **Q And you know that from what?**  
 (19) **A Based on the testimony and depositions that I ve**  
 (20) **reviewed**  
 (21) **Q You didn t see it?**  
 (22) **A No**  
 (23) **Q Now you also understand that Scott Conner describes**  
 (24) **shipping - well strike that**  
 (25) **Do you understand from being here in court this morning and**  
 (26) **perhaps from meeting Ms Metcalf that just before Ms Metcalf**  
 (27) **was to log in these samples from the Valdez crew that she was**  
 (28) **specifically told be extra special careful? Do you understand**

Vol 13 1854

- (1) that was told that by Dr Peat?  
 (2) **A I don't recall that specific statement, but in general the**  
 (3) **technician should exercise appropriate care for forensic**  
 (4) **sample**  
 (5) **Q Well of course they should My point is do you understand**  
 (6) **that at this particular instance she was given a specific**  
 (7) **special instruction just before she logged in these to be extra**  
 (8) **careful Do you understand that?**  
 (9) **A I'm not disputing what you're saying What I'm saying is**  
 (10) **that I did not recall that in my deposition review**  
 (11) **Q And do you further understand that what she logged in that**  
 (12) **day March the 28th 1989 was three red stopper tubes? You**  
 (13) **understand that?**  
 (14) **A Yes**  
 (15) **Q You further understand that Mr Delozier testified that**  
 (16) **that's what was put in the styrofoam box in the first place**  
 (17) **three red stoppered tubes?**  
 (18) **A Yes**  
 (19) **Q And you further understand that Mr Conner first time he**  
 (20) **gave sworn testimony testified that those tubes were different**  
 (21) **sizes?**  
 (22) **A Yes**  
 (23) **Q And then after a visit from his Department of Justice he**  
 (24) **changed his testimony and he said they were all the same size**  
 (25) **right?**

Vol 13 1855

- (1) **A Well I think that mischaracterizes it In the deposition**  
 (2) **he indicated that his memory was that they were different**  
 (3) **sizes, but that was based on his past training He refreshed**  
 (4) **his memory again what happens in these situations is that**  
 (5) **you**  
 (6) **have many, many specimens, and then you're required to**  
 (7) **recall**  
 (8) **the size and this that and the other time and - and at a later**  
 (9) **time so**  
 (10) **Q So you disagree with what I've said is the testimony? We**  
 (11) **just disagree on that right?**  
 (12) **A I - my recollection of the testimony is that it had a very**  
 (13) **different flavor than what you've just described**  
 (14) **Q To you it had a different flavor?**  
 (15) **A Correct**  
 (16) **Q And these different flavors that you get they go into your**  
 (17) **judgments that you're making about how good this line of**  
 (18) **custody is?**  
 (19) **A Oh yes if I felt - if I felt that the specimen had been**  
 (20) **tampered with my reputation and license is on the line and**  
 (21) **I**  
 (22) **would reject it So in reading the record I have to believe,**  
 (23) **based on my professional analysis, that this specimen was**  
 (24) **not**  
 (25) **tampered with or otherwise I would not give such a**  
 (26) **professional opinion**  
 (27) **Q Well as I go through this any of these others if you get**  
 (28) **a different flavor you tell us about that we need to know**  
 (29) **about your different flavor**

Vol 13 1856

- (1) Now do you also understand that when Ms Metcalf changed  
 (2) this chain of custody form she did so at the direction of the  
 (3) wife of the director of the lab?  
 (4) **A That is correct But when the specimens were received**  
 (5) **they were wrapped in red evidence tape, and she**  
 (6) **miscalculated**  
 (7) **that they were red stoppered tubes**  
 (8) **Q Do you also understand Dr Smith that all the other**  
 (9) **samples that she got that morning on March the 28th were**  
 (10) **likewise wrapped with red evidence tape?**  
 (11) **A That would be my assumption The only specimens that I**  
 (12) **have seen were the photographs of the Hazelwood, and in**  
 (13) **trying**  
 (14) **to validate my own opinion when I called our own lab and**  
 (15) **just**  
 (16) **checked this out Many times what happens when they are**  
 (17) **first**  
 (18) **received, and they're covered with red evidence tape,**  
 (19) **they're**  
 (20) **logged in as red stoppered, but when they were opened up,**  
 (21) **they**  
 (22) **see it gray stoppered, and they change it So in my opinion**  
 (23) **it's a correction rather than any sort of fatal flaw in the**  
 (24) **chain of custody**  
 (25) **Q Doctor the question was do you understand that the other**  
 (26) **vials from the other crew members likewise were sealed with red**  
 (27) **evidence tape? Do you understand that? Yes or no**  
 (28) **A That is my recollection of the testimony**  
 (29) **Q And do you further understand that before logging in**  
 (30) **Captain Hazelwood's files and after logging in Captain**  
 (31) **Hazelwood's files that Ms Metcalf was able to distinguish**

Vol 13 1857

- (1) between gray stoppered and red stoppered tubes for example  
 (2) before Mr Weidman and after Mr Kagan Mr Cousins Ms  
 (3) Jones? Do you understand that?  
 (4) **A That would be my recollection, but none of the other**  
 (5) **specimens were sent off for clear verification to another lab**  
 (6) **because they weren't positive**  
 (7) **Q Well let me ask you about that verification to the other**  
 (8) **lab Do you understand that what was done for this so called**  
 (9) **verification was to take the vial that had been used in the**  
 (10) **very first instance out of refrigeration and - of a freezer**  
 (11) **and simply take another drop out of the very same vial an**  
 (12) **aliquot put it in another to be and send it off for**  
 (13) **verification?**  
 (14) **A Yes That's standard procedure**  
 (15) **Q Well wouldn't it have been standard to send the sealed one**  
 (16) **that hadn't been broken yet that was also has the blood that**  
 (17) **was supposed to be in a gray stoppered tube?**  
 (18) **A That's a decision made at the laboratory level, but**  
 (19) **aliquotting the same specimen there's support for doing**  
 (20) **that**  
 (21) **too**  
 (22) **Q Well let's get back to Ms Metcalf Do you understand**  
 (23) **from Ms Metcalf testimony and indeed affidavit that she**  
 (24) **didn't individually go and say I better go look and make sure**  
 (25) **that what I'm correcting here is correct She didn't even go**  
 (26) **back and look at the vial? She just simply did what she was**

Vol 13 1858

- (1) told?
- (2) **A My recollection of the testimony was because Judy Peat was the one that pulled them out to send them to the verification lab, and that s when she saw that it was two gray, one red**
- (3) **Checked the record and had it corrected So she was the one that noticed the clerical error, and you are had it corrected**
- (4) **Q Do you understand Doctor that Ms Metcalf didn t go confirm that she simply made the correction based on the word of Ms Peat?**
- (5) **A I don t recall anything in the record where Karen Metcalf actually went and looked at the tubes themselves**
- (6) **Q But none of all that effects your opinion anyway does it?**
- (7) **A I do not believe that the integrity of the specimen was violated, nor do I believe these were fatal flaws in the chain of custody**
- (8) **Q What s a fatal flaw?**
- (9) **A Fatal flaw is the documented evidence of tampering, the basis of which the specimen would be rejected**
- (10) **Q Okay So in other words your opinion in this case is that you find no evidence of tampering with the vials of Captain Hazelwood That s what it really is isn t it?**
- (11) **A Correct**
- (12) **Q That s all it is?**
- (13) **A Well that s a very important professional opinion**
- (14) **Q All right Well there s more to this gray stoppered red**

Vol 13 1859

- (1) **stoppered tube than just colors isn t there? You ve testified a little bit about this on direct There is a question with any sample is there not whether or not the alcohol of the blood - let me strike that start again**
- (2) **Is there not a question that you haven t reached in this case that has to do with whether the blood has broken down because of some processor contaminates that makes the result unreliable even if it hadn t been tampered with?**
- (3) **A That has been raised, but I don t find any scientific validity with that**
- (4) **Q Well there s no evidence in the chain of custody is there one way or the other?**
- (5) **A You ll need to rephrase the point that you re driving at Maybe I m not understanding the question**
- (6) **Q I m asking you - you say there is no evidence that this blood was contaminated?**
- (7) **A Correct**
- (8) **Q And the chain of custody doesn t tell you that one way or the other does it?**
- (9) **A No You have to have intact chain of custody and you have to have validation that the integrity of the specimen was not violated**
- (10) **Q And even if it s not there can be - there can be mistakes made with respect to preservatives and anticoagulants putting it in the wrong tube where the blood will break down and**

Vol 13 1860

- (1) **therefore not be a reliable sample for a test isn t that - can t that happen?**
- (2) **A I think what you re trying to say is when you separate the serum from the clot, there can be the hemolysis of the red blood cells of the clot and the content of the red blood cells leaked up into the serum**
- (3) **Q Maybe this would be a good time to break Your Honor**
- (4) **THE COURT Let s take our secondary recess ladies and gentlemen We ll be in recess for 15 minutes**
- (5) **THE CLERK This court will be in recess for 15 minutes**
- (6) **(Jury out at 12 00 noon)**
- (7) **(Recess at 12 00 noon)**
- (8) **(Jury in at 12 15 p m )**
- (9) **THE CLERK All rise**
- (10) **MR SANDERS May it please the Court may I move in the admission of 9093 and if we could substitute that one page with the chart on it for the whole exhibit**
- (11) **MR MONTAGUE No objection**
- (12) **THE COURT It was 9093**
- (13) **MR SANDERS Yes Your Honor it s page 176 of chapter 18**
- (14) **THE COURT What is being admitted is the simply the one page**
- (15) **MR SANDERS Yes Your Honor with the chart**

Vol 13 1861

- (1) **THE COURT Thank you**
- (2) **(Exhibit 9093 received)**
- (3) **BY MR SANDERS**
- (4) **Q With respect to this I wanted to ask you one more question about this With respect to this disparity between the original log in of the Hazelwood blood tubes and the correction that was made as Doctor Peat called it a correction that was made on May the 1st 1989 Don t you agree that it would have been good clinical practice to have reported that?**
- (5) **A There is no regulatory requirement covering alcohol testing, to report it, but in general if there is an issue like this, as an MRO I d like to hear about it for me to make a judgment on it And therefore it s not required, it s not a fatal flaw, but I think it is good clinical practice to report alterations in the paperwork so there can be a decision made**
- (6) **Had I received word of this, my decision would have still been the same This was just a correction**
- (7) **Q At least you say as an MRO you would like to have heard about it?**
- (8) **A I like to hear about issues on the paperwork, yes**
- (9) **Q What is neogenesis of alcohol?**
- (10) **A Neogenesis of alcohol is a phenomenon in which there is spontaneous generation of alcohol It usually occurs in certain biological specimens in which, for example, a diabetic might secrete glucose into urine and then there is organisms**

Vol 13 1862

- (1) that get in there that produce this spontaneous neogenesis  
 (2) that's where the issue comes up the most It requires the  
 (3) glucose in the biological fluid that usually comes about  
 (4) because the person is a diabetic and then it requires  
 (5) organisms like candidiasis to get in there and it -  
 (6) Q Ferments?  
 (7) A - ferments, correct  
 (8) Q So what you need is sugar glucose?  
 (9) A Correct  
 (10) Q Some sort of microorganism contaminant?  
 (11) A Correct  
 (12) Q And the process of those microorganisms working on the  
 (13) sugar will produce or generate alcohol?  
 (14) A Correct  
 (15) Q And if that occurs - can it occur in blood?  
 (16) A It is my understanding in review of the literature, that  
 (17) it cannot occur when the blood is in a sealed vacuumed  
 tube,  
 (18) because the reaction cannot occur And there is much less  
 (19) evidence of this in the literature that we are presented  
 (20) relative to blood It is primarily an issue relative to  
 (21) hearing  
 (22) Q Are you familiar with the work of Dr Rosalki?  
 (23) A In general yes but you'd have to show me the specific  
 (24) citation  
 (25) Q Let me ask you to turn to Exhibit 9074

Vol 13 1863

- (1) A It's about midway through that stack  
 (2) Q May I approach maybe I could speed it up a little bit  
 (3) A Yes Clinical Biochemistry of Alcoholism  
 (4) Q Yes  
 (5) A Okay  
 (6) Q Would you turn over to page 52  
 (7) MR MONTAGUE What page?  
 (8) MR SANDERS Page 52  
 (9) BY MR SANDERS  
 (10) Q And at the bottom of the page just above the new  
 (11) classification subheading methods for measuring alcohol  
 (12) there's a paragraph concerning this process of problems with  
 (13) neogenesis in the blood caused by strings of yeast or other  
 (14) things?  
 (15) A Are you referring to the paragraph that begins with  
 (16) preservation of samples?  
 (17) Q Yes  
 (18) A Okay These slides were studied by Corry in '91 Some  
 (19) strings of yeast however are capable of increasing the  
 (20) concentration of ethanol even in the presence of  
 preservatives  
 (21) Q Correct  
 (22) A Yes  
 (23) Q And the last two sentences of that paragraph?  
 (24) A The next paragraph or the paragraph -  
 (25) Q Bottom of that paragraph the last two sentences in the

Vol 13 1864

- (1) paragraph from which you were just reading  
 (2) A Preservation of samples which have to be stored prior to  
 (3) analysis is essential and great variations can occur in  
 ethanol  
 (4) levels if this is not done Some strings of yeast however th  
 (5) capable of increasing the concentration of ethanol even in  
 the  
 (6) presence of preservatives  
 (7) Q In other words this study that he's citing in this work by  
 (8) Doctor Rosalki if you got preservatives you can have this  
 (9) process of blood breaking down and producing alcohol from  
 (10) sugar correct?  
 (11) A Yeah, this is mostly focused on -  
 (12) Q Well correct or not Doctor?  
 (13) A Well, it is - there is - some literature that he cites  
 (14) that relates to blood  
 (15) Q And then at the bottom of the next paragraph there are two  
 (16) sentences concerning what should be done in order to avoid  
 this  
 (17) problem correct could you read those for us?  
 (18) A Classification of methods for measuring alcohol, very  
 wide  
 (19) range  
 (20) Q I'm sorry I'm sorry Let me show you I think that's  
 (21) another new paragraph that starts right under what I asked you  
 (22) to read And I want you to read these last two sentences  
 (23) A Starts with confidence?  
 (24) Q Yes sir  
 (25) A Okay Confidence in the integrity of samples and the

Vol 13 1865

- (1) analytical values obtained can only be established if the  
 (2) essential features of preservation and refrigeration are  
 (3) adhered to Failure to do this must inevitably open the door  
 (4) to speculation on the validity of the analytical results  
 (5) Q Now pressure separation in part goes to the question of  
 (6) whether it's a gray stoppered tube or red stoppered tube  
 (7) right that's one part of the issue correct?  
 (8) A The gray stoppered tube has the preservative and the  
 (9) anticoagulant  
 (10) Q And you produced or yourself with Doctor Peat some  
 (11) evidence of how much sodium fluoride which is the  
 preservative  
 (12) in the stoppers the gray stoppered tube from the Exxon  
 Valdez?  
 (13) A Yes  
 (14) Q You don't know how much preservative was in the gray  
 (15) stoppered tubes from the Valdez Community Hospital?  
 (16) A No  
 (17) Q And the second part of the issue is refrigeration Now  
 (18) are you aware in this case that from the time that the blood  
 (19) was taken roughly 10:50 on the morning of the 24th until  
 (20) some time in the afternoon the blood wasn't refrigerated  
 (21) correct the samples weren't refrigerated?  
 (22) A Say that again  
 (23) Q Are you aware of the fact that from 10:00 - 10:50 in the  
 (24) morning to some time in the late afternoon let's say 4:00 or  
 (25) you can be more precise if you recall from your review that

Vol 13 1866

Vol 13 1868

(1) this blood was not - these blood samples of Captain Hazelwood  
 (2) were not refrigerated?  
 (3) **A My recollection of the record is that there were periods of**  
 (4) **time in which they were not refrigerated I know there was**  
 (5) **Q Well let s take them one at a time I m asking you do**  
 (6) **you realize that they weren t refrigerated that first day?**  
 (7) **A I took into consideration periods of lack of refrigeration**  
 (8) **in my opinion yes**  
 (9) **Q And part of the time they were walking around with Scott**  
 (10) **Conner part of the time they were checking into the hotel and**  
 (11) **part of the time they were on the windowsill in his room and**  
 (12) **part of the time they were walking back over to MSO and the**  
 (13) **galley correct?**  
 (14) **A Window sill in March on a cold Arctic March afternoon**  
 (15) **Q What was the temperature of that cold Arctic March**  
 (16) **afternoon?**  
 (17) **A My assumption**  
 (18) **Q Do you know what it was?**  
 (19) **A No**  
 (20) **Q How do you know it was a cold Arctic afternoon?**  
 (21) **A That s my assumption**  
 (22) **Q Right Well let s not - I m not asking you for what your**  
 (23) **assumption was now Do you know what the temperature of**  
 (24) **that**  
 (25) **blood was from 10 50 in the morning until it went into that**  
**refrigerator?**

(1) **my opinion**  
 (2) **Q And then from the time that it was taken out of the**  
 (3) **refrigerator and taken to the ship and you are shipped down to**  
 (4) **Sacramento California it was not refrigerated is that your**  
 (5) **understanding?**  
 (6) **A Correct**  
 (7) **Q So there s about 24 hours right there where this blood was**  
 (8) **not refrigerated correct?**  
 (9) **A There were periods of time that approximate that figure of**  
 (10) **periods of lack of refrigeration**  
 (11) **Q You don t know what temperature that blood vial - those**  
 (12) **blood vials saw during that 24 hours without refrigeration?**  
 (13) **A No**  
 (14) **Q And you don t know as a matter of fact Doctor Smith**  
 (15) **whether that blood had any sugar in it or not do you when it**  
 (16) **was collected?**  
 (17) **A There is no evidence of sugar in the blood but -**  
 (18) **Q Well there s no evidence that there was not any sugar in**  
 (19) **the blood either is there?**  
 (20) **A I saw no medical report**  
 (21) **Q Either way?**  
 (22) **A Correct**  
 (23) **Q So you don t know?**  
 (24) **A No**  
 (25) **Q And you don t know whether this lack of refrigeration -**

Vol 13 1867

Vol 13 1869

(1) **A No**  
 (2) **Q When it was taken out of the refrigerator on the next**  
 (3) **morning on March the 25th it was then flown in Mr Conner s**  
 (4) **lap to Anchorage?**  
 (5) **A Correct**  
 (6) **Q Do you know how long that flight was do you know how long**  
 (7) **it was not refrigerated in that period of time?**  
 (8) **A There was a period of lack of refrigeration I don t know**  
 (9) **exactly how long it was**  
 (10) **Q Right And you don t know the temperature that blood saw**  
 (11) **in that period do you?**  
 (12) **A No**  
 (13) **Q And I think there s testimony that he may have put it in**  
 (14) **the refrigerator in his house until he went down to the office**  
 (15) **to meet with Lieutenant Stock?**  
 (16) **A Correct**  
 (17) **Q And during the time that it was out of the refrigerator**  
 (18) **before it ends back up in the refrigerator that evening on**  
 (19) **March the 25th you don t know how long that was do you?**  
 (20) **A No, there was a period of lack of refrigeration**  
 (21) **Q You don t know how long it was?**  
 (22) **A No**  
 (23) **Q And you don t know what temperature that blood vials saw**  
 (24) **that afternoon?**  
 (25) **A No but I took all that information into consideration for**

(1) **you don t know whether there was any kind of contamination**  
 (2) **microorganism in mind because there s no report one way or**  
 (3) **the**  
 (4) **other?**  
 (5) **A No I very much disagree It s in some of the literature**  
 (6) **including some of the literature you gave me, clearly states**  
 (7) **red vacuum tube with sealed evidence tape you can have**  
 (8) **neither**  
 (9) **contamination nor spontaneous generation**  
 (10) **Q Well Cousins had contamination in it do you understand**  
 (11) **that it was in a vac tube?**  
 (12) **A If you have a sealed vac tube you cannot have organisms**  
 (13) **spontaneous generation glucose because they can t live**  
 (14) **The**  
 (15) **fermentation reaction cannot occur in a vacuum**  
 (16) **Q You think Doctor Rosalki and what was the other doctor s**  
 (17) **name Corry they weren t using vacu tubes?**  
 (18) **A It is my opinion and it is stated in the literature**  
 (19) **including some of the literature that you have cited, that if**  
 (20) **it s in a red sealed vac tube the spontaneous generation**  
 (21) **cannot**  
 (22) **occur**  
 (23) **Q What literature is that?**  
 (24) **A It s on the literature that I was reading in my experience**  
 (25) **in this arena**  
 (26) **Q Well what is?**  
 (27) **A It's in my professional opinion -**  
 (28) **Q Excuse me a minute Excuse me what literature what**  
 (29) **article?**

Vol 13 1870

- (1) **A I can't make - I can't recall the exact citation without**  
 (2) **having to go back to my material. But it is my professional**  
 (3) **opinion, based on my knowledge of the field and the**  
 (4) **literature**  
 (5) **that I reviewed and I cannot give you the exact citation right**  
 (6) **now, that spontaneous generation does not occur in a**  
 (7) **vacuum, in**  
 (8) **a sealed vacutainer tube**  
 (9) **Q Do you concede Doctor that that might be another one of**  
 (10) **these areas where there's a difference of opinion between some**  
 (11) **of you alcohol experts?**  
 (12) **A Yes**  
 (13) **Q And isn't it a fact Doctor that one of the reasons that**  
 (14) **refrigeration is absolutely required under certain regulations**  
 (15) **and under certain procedures is because of this very problem**  
 (16) **that's why you refrigerate blood?**  
 (17) **A Yes, but refrigeration of blood alcohol specimens is not**  
 (18) **required in fact, the evidence is for example, one**  
 (19) **experience by Dick Prouty is he put a tube of blood on his**  
 (20) **bench for a month and did saline serum alcohol testing, and**  
 (21) **it**  
 (22) **didn't change one bit. So because a blood alcohol**  
 (23) **specimen is**  
 (24) **not refrigerated is in no way a basis for rejection or even**  
 (25) **periods of lack of refrigeration**  
 (26) **Q Doctor doesn't Doctor Prouty refrigerate his blood**  
 (27) **samples?**  
 (28) **A In general, we all try to refrigerate**  
 (29) **Q And you do that in order that you can't have the kind of**

Vol 13 1871

- (1) **problems that I'm asking you about here that's a reason isn't**  
 (2) **it?**  
 (3) **A In good clinical practice we try to refrigerate whenever**  
 (4) **possible**  
 (5) **Q Other than your assumptions about the sealing you have**  
 (6) **about the sealing you have no idea about whether there was**  
 (7) **because of this long time and the lack of refrigeration**  
 (8) **whether this neogenesis this fermentation occurred or not do**  
 (9) **you just can't know that?**  
 (10) **A I disagree with that I think the possibility is so**  
 (11) **unlikely as to be out of the realm of any medical probability**  
 (12) **Q And that's your opinion and you admit other people could**  
 (13) **disagree with you on that?**  
 (14) **A Yes**  
 (15) **MR SANDERS Could I have just a moment? I have**  
 (16) **nothing further right now Your Honor**  
 (17) **MR MONTAGUE No redirect Your Honor**  
 (18) **THE COURT Thank you sir that concludes your**  
 (19) **examination**  
 (20) **MR O NEILL Plaintiffs call Doctor Hunter Montgomery**  
 (21) **as an adverse witness for cross examination**  
 (22) **THE CLERK Raise your right hand**  
 (23) **(The Witness Is Sworn)**  
 (24) **THE WITNESS I do**  
 (25) **THE CLERK For the record state your name state**

Vol 13 1872

- (1) **your full name your address and spell your last name please**  
 (2) **THE WITNESS Charles Hunter Montgomery 6134 Doliver**  
 (3) **Houston Texas 77057**  
 (4) **THE CLERK Spell your last name please**  
 (5) **THE WITNESS M-o n t g o m e r y**  
 (6) **THE CLERK Thank you sir**  
 (7) **DIRECT EXAMINATION OF CHARLES HUNTER**  
 (8) **MONTGOMERY**  
 (9) **BY MR O NEILL**  
 (10) **Q Sir we've never met My name is Brian O Neill and I**  
 (11) **represent the fisherman and the Natives who are plaintiffs in**  
 (12) **this case Just so we know who you are you're the one that**  
 (13) **did the fitness determination for Captain Hazelwood in 1985**  
 (14) **isn't that correct?**  
 (15) **A I was involved in that decision, yes**  
 (16) **Q From '60 to - 1960 to 1992 you were employed by Exxon**  
 (17) **Corporation?**  
 (18) **A That is correct**  
 (19) **Q And you were in the medical department of Exxon U S A**  
 (20) **A That's correct**  
 (21) **Q And would it be fair to say that Exxon Shipping Company**  
 (22) **didn't have its own medical department so Exxon Shipping**  
 (23) **Company had to use the medical department at Exxon U S A**  
 (24) **A I think that's basically correct**  
 (25) **Q And you worked with the Doctor Nealy and a Doctor Gould?**  
 (26) **A Yes I did**

Vol 13 1873

- (1) **Q In and around 1985?**  
 (2) **A Yes**  
 (3) **Q And Doctor Nealy reported to you and then you reported to**  
 (4) **Doctor Gould?**  
 (5) **A Yes at one time frame that's true**  
 (6) **Q How about '85 time frame is that a fair statement?**  
 (7) **A No I think it was more '86 and later a little later**  
 (8) **than '85**  
 (9) **Q Were all three of you there in '85 that's the important**  
 (10) **thing?**  
 (11) **A No, Doctor Nealy was still in Baton Rouge at that time**  
 (12) **Q Was he working for Exxon Corporation?**  
 (13) **A Yes**  
 (14) **Q So we have three doctors that we're going to hear from**  
 (15) **you Doctor Nealy Doctor Gould and all three of you are**  
 (16) **medical doctors?**  
 (17) **A That's correct**  
 (18) **Q And you all worked for Exxon Corporation?**  
 (19) **A That's correct**  
 (20) **Q This is now - sir would it be fair to say that you had no**  
 (21) **specialized training at all with regard to addiction medicine?**  
 (22) **A No, that would not entirely be true I did get some**  
 (23) **training in medical school I got some during my internship**  
 (24) **and I would say I got some on the job training during my**  
 (25) **period**  
 (26) **with Exxon**

Vol 13 1874

- (1) Q My question was do you have any specific training in  
 (2) alcohol and drug addiction?  
 (3) A I guess the answer - could you re - could you define  
 (4) specific for me?  
 (5) Q Let's go back to your transcript and let's go to page 18  
 (6) of your transcript And at line 20 of your transcript are you  
 (7) there?  
 (8) A Yes  
 (9) Q You were asked the question okay do you have any training  
 (10) in the area of alcohol and drug addiction and on line 22 you  
 (11) answered Not specifically  
 (12) Was that the question asked and was that the answer given  
 (13) at your deposition?  
 (14) A I did not take any specialized training in this area I  
 (15) think is what I meant at that time  
 (16) Q My question was were you asked that question and did you  
 (17) give that answer?  
 (18) A Yes  
 (19) Q Thank you Now there was at least one instance in your  
 (20) duties at Exxon in which in your own department you had a  
 (21) situation with someone who had an alcohol problem Is that a  
 (22) correct statement?  
 (23) A Yes at least one  
 (24) Q And at least one occasion you took it upon yourself to  
 (25) essentially monitor that problem Isn't that a correct

Vol 13 1875

- (1) statement?  
 (2) A Yes I continued to meet with that employee on occasion  
 (3) It was a case in Houston in the building where I was  
 (4) working,  
 (5) and I did do that  
 (6) Q And when you met with him you talked with him about his  
 (7) alcohol problem that's a correct statement?  
 (8) A That's correct  
 (9) Q You talked with him directly about his alcohol problem?  
 (10) A That's correct  
 (11) Q And you checked into his aftercare and his AA Isn't that a  
 (12) correct statement?  
 (13) A I talked to him about them I didn't do any checking that  
 (14) I can recall with the institution  
 (15) Q I know but at least you called the man in and you said  
 (16) how's your aftercare coming how's your AA coming that kind  
 (17) of  
 (18) thing?  
 (19) A That's right  
 (20) Q And even despite the man had problems with a relapse Isn't  
 (21) that a correct statement?  
 (22) A That's correct  
 (23) Q Do you recall about when that was?  
 (24) A I have to estimate but I would say it might have been  
 (25) mid- 70s  
 (26) Q So at least by 1985 you had at least gone through the  
 (27) situation one time where in your opinion at least you thought

Vol 13 1876

- (1) you did it right?  
 (2) A Well let me put it this way In this instance that you re  
 (3) talking about I was requested by management to do this and  
 (4) we  
 (5) did this for a period of time  
 (6) Q And you dealt with the individual honestly and openly and  
 (7) directly?  
 (8) A Right  
 (9) Q And there was no sneaking around behind his back it was  
 (10) call him in how are you doing?  
 (11) A Right  
 (12) Q Now with regard to Exxon Corporation would it be fair to  
 (13) say that in 1985 Exxon Corporation had no policy with regard to  
 (14) screening for medically unfit sea going personnel?  
 (15) A No that would not be correct if I understood the  
 (16) question  
 (17) Q Did Exxon Corporation in 1985 have any procedure or  
 (18) requirement with regard to the physical - medical physicals  
 (19) for masters on a regular basis or an irregular basis?  
 (20) A No  
 (21) Q And at some point in time in the 80s was there a  
 (22) significant problem on the West Coast with regard to  
 (23) depression  
 (24) and/or the mental fitness of Exxon seafarers?  
 (25) A I don't recall that particular problem I think you may be  
 (26) referring to the problem that occurred on the Exxon New  
 (27) Orleans  
 (28) that's in the deposition

Vol 13 1877

- (1) Q Yeah  
 (2) A That was not a depression problem That is as I best can  
 (3) recall it, was a problem of an individual who, if anything, had  
 (4) the reverse but more of a manic behavior who is  
 (5) concerned a  
 (6) threat to the people on the ship, and they were concerned  
 (7) about  
 (8) how they could safely get that individual removed from the  
 (9) ship  
 (10) Q Would you go to page 273 of your transcript What's  
 (11) EHAP?  
 (12) A What's excuse me  
 (13) Q EHAP?  
 (14) A Employee Health Advisory Program  
 (15) Q On page 273 in your transcript line nine the question  
 (16) reads were any of EHAP activities directed towards safety  
 (17) issues such as whether vessels might be jeopardized if  
 (18) individuals had problems And your answer was No I don't -  
 (19) didn't really think don't think so I have to say no I  
 (20) don't think that was the issue  
 (21) The question then becomes And that was not something that  
 (22) you were involved with in with EHAP Answer no  
 (23) And the question is what does the strike that -  
 (24) Why would there be concern about depression and the mental  
 (25) fitness of seafarers And your answer is If my memory has  
 (26) it there had been a significant problem on the West Coast and  
 (27) I think this was written for - I think Harvey Morgan was out

Vol 13 1878

Vol 13 1880

(1) on the West Coast at the time he wrote this as the manager out  
 (2) there  
 (3) My question was Was there a significant problem with  
 (4) regard to depression and the mental fitness of seafarers on the  
 (5) West Coast?  
 (6) A I would state at this time that I ve reflected more on that  
 (7) particular issue than I was in that letter, and my recollection  
 (8) at this point was that it was not a depression problem but  
 (9) more of a manic problem that was considered a concern to  
 the  
 (10) ship rather than depression  
 (11) Q Is your testimony today different than your testimony at  
 (12) the time of your deposition?  
 (13) A On that particular issue yes  
 (14) Q Yes it is And at the time of your deposition do you  
 (15) recall raising your hand and taking the same oath that you took  
 (16) here today in the courtroom?  
 (17) A Yes, sir  
 (18) Q Now would you agree with the assumption that updated  
 (19) medical records are important it was important for Exxon  
 (20) medical to have updated medical records?  
 (21) A It had some relative importance yes We tried to keep  
 our  
 (22) records as up to date as we could  
 (23) Q And in 1985 you had a problem with that didn t you?  
 (24) A Not just 1985 It s always been a problem because you  
 do  
 (25) not know every time anyone goes to see a physician You  
 don t

(1) bring the individual in and examine him?  
 (2) A No  
 (3) Q Was there a specific individual - was there a specific  
 (4) policy that required the medical department to play a role in  
 (5) for example whether he would be reassigned to a safety  
 (6) sensitive position?  
 (7) A No  
 (8) Q What is a safety sensitive position?  
 (9) A Well, in my opinion many of the positions, most of the  
 (10) positions really within Exxon were safety sensitive  
 (11) Q Is a tanker captain a safety sensitive position?  
 (12) A Yes in my opinion  
 (13) Q But a tanker captain the fellow who is in charge of a 125  
 (14) million dollar supertanker has a lot of responsibility doesn t  
 (15) he?  
 (16) A Yes, sir  
 (17) Q Now some time in 1985 someone from Exxon Shipping  
 Company  
 (18) asked you for a clarification with regard to Hazelwood s need  
 (19) for treatment that s a correct statement isn t it?  
 (20) A That s correct.  
 (21) Q And at some point in time you got what we referred to as  
 (22) the IDR which is in front of you as Exhibit 10 Not in the  
 (23) volume it s a clean sheet of paper up there  
 (24) A Correct  
 (25) Q You ve seen the IDR before?

Vol 13 1879

Vol 13 1881

(1) get a report on every instance that occurred We did have a  
 (2) program of doing preplacement exams on all the seaman  
 we did  
 (3) have a program of offering periodic exams throughout their  
 (4) career in order to obtain some information but if a man got  
 (5) off sick unless it was something of some magnitude we did  
 not  
 (6) necessarily hear about it or had a blood pressure change,  
 we  
 (7) didn t necessarily change, so not everything was always up  
 to  
 (8) date  
 (9) Q Are you finished sir?  
 (10) A Yes  
 (11) Q In 1985 with regard to Captain Hazelwood s medical records  
 (12) let s take a specific example would it be fair to say that  
 (13) Captain Hazelwood s medical records in 1985 were 12 years  
 out  
 (14) of date?  
 (15) A I don t know whether they were - you could say they were  
 (16) out of date There had been no entries into his medical  
 record  
 (17) In 12 years  
 (18) Q Thank you sir Now at the time someone let s take a  
 (19) hypothetical someone coming back from treatment from  
 alcohol  
 (20) treatment was there a specific written policy at Exxon  
 (21) Corporation or Exxon U S A or Exxon Shipping Company that  
 (22) required you to bring the individual in and talk to him about  
 (23) it?  
 (24) A No  
 (25) Q Was there a specific written policy that required you to

(1) A Yes, I have  
 (2) Q You saw it in 1985?  
 (3) A Yes I did  
 (4) Q And you studied it before your deposition?  
 (5) A Yes  
 (6) Q And you studied it before coming in here today?  
 (7) A Yes  
 (8) Q I want to go over the IDR if we could Up on the top -  
 (9) this is an Exxon form isn t it an Exxon Shipping Company  
 (10) form  
 (11) A Yes, sir  
 (12) Q And up on the top there s a check mark there that says Mr  
 (13) Hazelwood was in a sea going position?  
 (14) A Yes it did  
 (15) Q Is that what it indicates? And then your initials are on  
 (16) the bottom of the IDR?  
 (17) A That is correct  
 (18) Q And you got this IDR in May of 1985?  
 (19) A That s correct  
 (20) Q And you read it?  
 (21) A Yes  
 (22) Q And you called or have a faint recollection of calling a  
 (23) Doctor Vallury?  
 (24) A That is correct  
 (25) Q And you had or may have had a five minute telephone

Vol 13 1882

- (1) conversation with Doctor Vallury -  
 (2) **A That is correct**  
 (3) Q - in May of 1985 And your recollection with regard to  
 (4) the telephone conversation is faint?  
 (5) **A The details of the call are faint let s put it that way**  
 (6) **I could not give any quotations from what I heard**  
 (7) Q Now with regard to the Vallury conversation would it be  
 (8) fair to say that you didn t document it?  
 (9) **A Well as you said, my initials are at the bottom of the**  
 (10) **sheet I did not make a specific documentation I must**  
 (11) **admit**  
 (12) Q In point of fact I think I m not arguing that you didn t  
 (13) call him or not his phone call is on the bottom?  
 (14) **A Right**  
 (15) Q My point is with regard to what you and he talked about  
 (16) there s no memo for the file?  
 (17) **A That is correct We've been unable to find any memos**  
 (18) **Q And you ve looked?**  
 (19) **A And we ve looked**  
 (20) Q With regard to a specific written fitness for duty  
 (21) determination we can t find a memo or a fitness for duty  
 (22) determination either can we a written one?  
 (23) **A Not within the medical department**  
 (24) Q So we have in the medical department the IDR and a  
 (25) conversation with Doctor Vallury and on the basis of the IDR  
 and the one five minute phone call for Doctor Vallury you made

Vol 13 1883

- (1) a fitness determination?  
 (2) **A Let me rephrase that If I may Doctor Vallury made the**  
 (3) **fitness determination I tended to agree with it, accepted it**  
 (4) **but I felt it was his determination I had not seen**  
**Hazelwood**  
 (5) **I had not talked to Captain Hazelwood I had to rely on his**  
 (6) **individual physician who had been treating him for at least a**  
 (7) **month we know in the hospital**  
 (8) Q We ll talk about that  
 (9) **A Okay**  
 (10) Q But in point of fact you had one five minute phone call  
 (11) and this piece of paper and at least with regard to Exxon was  
 (12) concerned you made the fitness determination You were the  
 (13) person in Exxon to clear the fitness determination?  
 (14) **A That would be true**  
 (15) Q And you re a medical doctor?  
 (16) **A That s right**  
 (17) Q Now let s talk for a minute about what the IDR told you  
 (18) about Captain Hazelwood It told you that at some point in  
 (19) time he had or was going to have individual psychotherapy  
 (20) treatment?  
 (21) **A Right**  
 (22) Q And he had or was going to have group therapy treatment?  
 (23) **A Uh huh**  
 (24) Q That s a correct statement?  
 (25) **A That s right**

Vol 13 1884

- (1) Q And he had or was going to have marital therapy That s a  
 (2) correct statement?  
 (3) **A Right**  
 (4) Q And there was a prescription for AA Alcoholics Anonymous  
 (5) that s a correct statement?  
 (6) **A That s correct**  
 (7) Q And he was to either attend in the future or had attended  
 (8) lectures seminars workshops pertaining to alcoholism?  
 (9) **A Right**  
 (10) Q You see that? And there was a diagnosis on it from the DSM  
 (11) that was 300 40 and 300 52 do you see that on the form?  
 (12) **A That s correct**  
 (13) Q And the first is for dysthymia?  
 (14) **A That s right**  
 (15) Q And with regard to dysthymia that s a form of depression?  
 (16) **A It s a subtle mild depression it s on a wave, comes and**  
 (17) **goes**  
 (18) Q Comes and goes but lasts a lifetime doesn t it?  
 (19) **A It lasts pretty much a lifetime**  
 (20) Q And episodic alcohol abuse is the only one -  
 (21) **A That s correct**  
 (22) Q That s a correct statement And on the bottom of the form  
 (23) you were advised Mr Hazelwood will complete our 28 day  
 (24) program do you see that?  
 (25) **A Yes**

Vol 13 1885

- (1) Q Are you aware of the fact that at least in the alcohol  
 (2) rehabilitation business a 28 day program is a term of art?  
 (3) There is such a thing as a 28 day program and people who are  
 (4) in  
 (5) the business refer to it as that?  
 (6) **A Yes, I would say that s correct**  
 (7) Q And it s an alcohol rehabilitation program isn t it  
 (8) **A That s correct**  
 (9) Q And it was recommended given the nature of his job that  
 (10) after discharge Mr Hazelwood be given leave of absence to get  
 (11) involved with AA and aftercare And that recommendation was  
 (12) made on the IDR and -  
 (13) **A That s correct**  
 (14) Q And you reviewed that recommendation?  
 (15) **A That s right**  
 (16) Q And he was in fact given a 90-day leave of absence that s  
 (17) a correct statement?  
 (18) **A To the best of my knowledge, that s correct**  
 (19) Q And he wasn t paid during that leave of absence?  
 (20) **A I don t know**  
 (21) Q Okay Now let s talk about the things that you may or may  
 (22) not have done with regard to the fitness for duty  
 (23) determination Did you look at his job evaluations?  
 (24) **A No, they were not available to me**  
 (25) Q Did you have an updated medical file on Captain  
 Hazelwood?  
 (26) **A As I ve indicated earlier, there had not been an entry in**

Vol 13 1886

- (1) **the file in 12 years**
- (2) Q Did you talk to Captain Hazelwood?
- (3) **A No, I didn't**
- (4) Q Did you evaluate Captain Hazelwood?
- (5) **A No, sir**
- (6) Q Did you allow for or direct an examination of Captain Hazelwood?
- (7) **A Say that again**
- (9) Q Did you say to a bunch your colleagues or to an outside person let's get an independent evaluation of Captain Hazelwood?
- (11) **A No, I did not**
- (13) Q And indeed up to the time of your deposition you'd never even met Captain Hazelwood?
- (14) **A Not to my knowledge I might have visited with him in a group meeting when captains might have come to Houston and I might have been invited, but I do not recall having met him**
- (18) Q Now at the same time that the individual disability report was in your office we have what we refer to as the Graves report over at Exxon Shipping Company and you're aware of that aren't you?
- (22) **A I'm aware of it now I was not aware of it at that time**
- (23) Q Okay I understand that and I'm not trying to trick you
- (24) My question was that is over in your office this is over at the shipping company?
- (25)

Vol 13 1887

- (1) **A Okay**
- (2) Q That's a fair statement isn't it you're aware of that?
- (3) **A That would be true**
- (4) Q And in the Graves report there is a report that Mr Hazelwood occasionally drank aboard ship and that he came back to the ship from port drunk on several occasions?
- (7) **A That's what the exhibit says**
- (8) Q Would it be fair to say that in 1985 if you had known about the Graves report you would have had further misgivings with regard to Captain Hazelwood's fitness for duty determination?
- (11) **MR NEAL** Objection to the form of the question Your Honor further misgiving
- (13) **THE COURT** Change the wording around a little bit
- (14) **BY MR O NEILL**
- (15) Q Would you have - would it be fair to say you would have been concerned more concerned about Captain Hazelwood's fitness duty determination it was a relevant piece of information?
- (19) **A Yes**
- (21) Q And putting the two together may very well have resulted in a different fitness determination?
- (22) **A I guess that's possible**
- (24) Q In 1985 if an employee at Exxon Corporation was caught as opposed to self-identifying with regard to alcohol that was
- (25)

Vol 13 1888

- (1) grounds for termination wasn't it?
- (2) **A I believe that's correct I think the wording of the policy was that it was grounds for discipline up to and including termination**
- (4) **Q** But the policy draws a distinction between those who self identify that come in and say I have a problem and those whom the company goes to and says either we're investigating you or you have a problem there's a distinction between the two?
- (9) **A Right the distinction was there**
- (10) Q Did I state the distinction fairly?
- (11) **A I think so**
- (12) Q Thank you Now let's talk a little bit about Alcoholics Anonymous In 1985 you knew that alcoholism was a disease a continuing disease that like dysthymia may last a lifetime?
- (15) **A Yeah, may**
- (17) Q And you'd read literature while you hadn't had any specialized training you had read the literature you were a medical doctor and you kept yourself up to date?
- (18) **A Certainly tried to**
- (20) Q And you were aware of Alcoholics Anonymous?
- (21) **A Yes**
- (22) Q And its successes with regard to the treatment of alcoholics?
- (23) **A Yes**
- (24)
- (25)

Vol 13 1889

- (1) Q And that those who attended Alcoholics Anonymous had a better chance of success than those who didn't?
- (2) **A Yes**
- (3) Q And that Alcoholics Anonymous believed that people who have the problem of alcoholism or the disease of alcoholism should go to Alcoholics Anonymous for life?
- (5) **A By large that's the belief of the organization**
- (7) Q And they shouldn't drink?
- (8) **A They shouldn't drink**
- (9) Q And that family support was important to recovery?
- (10) **A That's correct**
- (11) Q And at the time you made the fitness for duty determination you knew it had recommended that Captain Hazelwood participate in Alcoholics Anonymous?
- (12) **A That's right**
- (13) Q And you did not discuss with anybody at Exxon Shipping Company the recommendation that he participate in Alcoholics Anonymous?
- (14) **A No that would not be correct I think I did**
- (15) Q Let me ask it this way You didn't think that if Captain Hazelwood stopped going to AA that would have any impact whether or not he remained fit for duty?
- (16) **A I don't recall saying that but actually I supported strongly the recommendation that he be given the leave of absence to attend AA I thought was my testimony**
- (17)
- (18)
- (19)
- (20)
- (21)
- (22)
- (23)
- (24)
- (25)

Vol 13 1890

Vol 13 1892

- (1) Q Okay Let s go to page 447 of your deposition transcript  
 (2) Beginning at line 12 the question was I m sorry you didn t  
 (3) think that if Captain Hazelwood stopped going to AA that that  
 (4) would have an impact on whether or not he remained fit for  
 (5) duty  
 (6) And your answer was At that point in 1985 I didn t That  
 (7) was not really the custom that was taking place nor that was  
 (8) carried out Do you see that?  
 (9) A Yes I don t think that I felt that his continued  
 (10) attending AA was a criteria on which he would be judged as  
 to  
 (11) whether he was fit for duty  
 (12) Q It was even worse than that wasn t it In point of fact  
 (13) you knew in 1985 that because Captain Hazelwood was being  
 (14) reassigned to sea duty that he couldn t attend AA?  
 (15) A That was the reason I was supporting the leave of  
 absence  
 (16) was to allow him to opportunity to get an enhancement to  
 the  
 (17) program he had received while in the hospital  
 (18) Q So he could go to AA for 90 days and then return to sea and  
 (19) not go to AA?  
 (20) A Well -  
 (21) Q Is that a correct statement?  
 (22) A He would have had - he has leaves of absence, or leaves  
 -  
 (23) paid leave I guess what I mean to say after between sea  
 duty  
 (24) There might have been occasions when he arrived in port  
 where  
 (25) he might have been able to attended AA I do not know for

- (1) Q That was what you did some years earlier when you had an  
 (2) employee that had a drinking problem isn t it?  
 (3) A That was done at that time at the request of management  
 (4) that I do so I had no such request in this case  
 (5) Q It wasn t your problem it wasn t your watch?  
 (6) MR NEAL Objection argumentative  
 (7) THE COURT Sustained  
 (8) MR O NEILL I will move on  
 (9) BY MR O NEILL  
 (10) Q Now would it be fair to say that in 1985 there was no good  
 (11) reason that you could think of not to give him a shoreside  
 (12) assignment so he d have the opportunity to go to AA isn t that  
 (13) right You could not think of a good reason not to give him a  
 (14) shore side assignment? You want me to re ask it so there  
 (15) aren t two negatives?  
 (16) A Re-ask it so I don't get those notes in there  
 (17) Q Let me re ask it  
 (18) Have you ever said quote there was no good reason not to  
 (19) give him a shoreside assignment  
 (20) MR NEAL What page  
 (21) THE WITNESS I would say he could have been given a  
 (22) shoreside assignment let s put it that way  
 (23) BY MR O NEILL  
 (24) Q Would you go to page 461 of your deposition transcript and  
 (25) we ll go to line 24 and I ll read the question and answer and

Vol 13 1891

Vol 13 1893

- (1) sure It would have depended on the port perhaps  
 (2) Q Have you ever made the statement that the nature of the  
 (3) occupation does not allow for AA? You made that statement in  
 (4) your deposition?  
 (5) A I think that s in the deposition yes  
 (6) Q That was a statement you made the nature of the occupation  
 (7) does not allow for AA?  
 (8) A If I may?  
 (9) Q Did you make the statement?  
 (10) A Yes I made the statement  
 (11) Q And you knew that AA was part of his treatment plan?  
 (12) A That s right  
 (13) Q And you knew that AA recommended that people go on a  
 (14) lifetime basis?  
 (15) A That s correct  
 (16) Q And you knew that AA was part of recovery?  
 (17) A That is correct  
 (18) Q Did you make any provision with Exxon Shipping Company  
 to  
 (19) insure that Captain Hazelwood attended aftercare other than  
 (20) the 90 day leave of absence?  
 (21) A No, not other than the 90 day leave of absence  
 (22) Q Did you make any provision with Exxon Shipping Company  
 to  
 (23) meet with Captain Hazelwood face to face and talk about his  
 (24) recovery his AA his aftercare?  
 (25) A No sir

- (1) if you could follow me and make sure I read the question and  
 (2) answer correctly  
 (3) A Wait a minute  
 (4) Q 461 It s in volume two You got two volumes up here  
 (5) A Yeah  
 (6) Q Line 24 question by Mr Nolting As you sit here today  
 (7) can you think of any good reason why Joe Hazelwood was not  
 (8) given a shoreside assignment in 1985 when he returned to  
 work?  
 (9) Your answer was I don t know You see that?  
 (10) A Yes  
 (11) Q Now after May of 1985 you had no discussions with anyone  
 (12) concerning drinking reports?  
 (13) A You mean referable to Captain Hazelwood?  
 (14) Q Yes sir  
 (15) A I don t recall any  
 (16) Q The medical department in fact had the power to yank  
 (17) somebody off of a ship didn t they?  
 (18) A I m sure we had the authority, but whenever I had asked,  
 (19) you know literally, but whenever I had suggested or  
 (20) recommended that someone be taken off the ship, they took  
 -  
 (21) they were off the ship  
 (22) Q After you made the fitness determination in May of 1985  
 (23) did you take any other further action with respect to Captain  
 (24) Hazelwood or this particular claim or situation?  
 (25) A I don t recall that I did And shortly thereafter,

Vol 13 1894

- (1) probably early 86 actually I no longer had direct  
 (2) responsibility for the shipping company, Doctor Nealy then  
 took  
 (3) it on  
 (4) Q Okay and would it be fair to say that other than the one  
 (5) conversation with Doctor Vallury that we talked about you had  
 (6) no further conversations with Doctor Vallury?  
 (7) A It s possible I only recall the one  
 (8) Q And you were not aware of yourself with regard to Captain  
 (9) Hazelwood the installation of any monitoring program no one  
 (10) talked to you about it at that time?  
 (11) A You mean referable to Hazelwood  
 (12) Q Hazelwood?  
 (13) A No, I did not recall any  
 (14) Q And you didn t have any conversations from May of 85  
 (15) thereon with regard to Exxon Shipping Company with regard to  
 (16) monitoring Hazelwood?  
 (17) A I do not recall any  
 (18) Q And from May of 85 thereon until - was it Doctor Nealy  
 (19) took over in 86?  
 (20) A I think it was early 86 I could be off a little  
 (21) Q Nobody from Exxon Shipping Company came to you with  
 any  
 (22) reports of or rumors of Captain Hazelwood drinking?  
 (23) A I do not recall any at all no  
 (24) Q Now if there had been reports of drinking such as ordering  
 (25) beer over a walkie talkie or that he was allegedly drunk or

Vol 13 1895

- (1) that he was loud or abusive and that had been reported to you  
 (2) at a minimum you would have brought him in and evaluated  
 him  
 (3) is that a correct statement?  
 (4) MR NEAL I ll object to that Your Honor if he s  
 (5) asking a hypothetical I object to mischaracterizing the  
 (6) record He s not -  
 (7) MR O NEILL If that resolves the objection I will  
 (8) ask the hypothetical  
 (9) BY MR O NEILL  
 (10) Q Let s assume hypothetically that a port steward comes in  
 (11) and reports he s fallen off the wagon he s drinking again the  
 (12) cure didn t take because of what the port steward says are  
 (13) drinking incidents At a minimum hypothetically you d bring  
 (14) the man in and interview him and possibly evaluate him  
 (15) wouldn t you?  
 (16) A That s a possibility Another possibility under those  
 (17) circumstances would be my judgment as to the nature of  
 what I  
 (18) had heard You made it sound fairly severe if that was the  
 (19) case I think I would have gone back to someone in  
 management  
 (20) who was aware of the problem and called it to their  
 attention  
 (21) what I had heard  
 (22) Q How about calling the man in and talking to him and just  
 (23) getting his side of the story?  
 (24) A That s a possibility I could have done  
 (25) Q That s a decent thing to do?

Vol 13 1896

- (1) A That s a decent thing to do One of those two would  
 (2) probably have happened But if I brought him in and it was  
 as  
 (3) severe as you claim I think I still would have wanted to talk  
 (4) to someone in management who was aware that this  
 problem  
 (5) occurred  
 (6) Q The rumors may indicate a serious problem?  
 (7) A That s correct  
 (8) Q Let s assume we had a second hypothetical situation in  
 (9) which a port steward comes in and says I was on a launch with  
 (10) him I was on a launch with him and he was loud and abusive  
 (11) and smelled of alcohol so now we have cumulative a second  
 (12) situation problem s more serious isn t it?  
 (13) A Yes, and I think the answer would probably be pretty  
 much  
 (14) the same as on the first instance  
 (15) Q And let s throw a third instance on top of that to where  
 (16) you get a report that A management knows he s drinking  
 again  
 (17) and B he orders beer over a walkie talkie from a company  
 (18) ship  
 (19) MR NEAL Objection unless it s a hypothetical  
 (20) MR O NEILL Hypothetical  
 (21) THE WITNESS I think in that instance we re talking  
 (22) about a violation of company policy and I would probably have  
 (23) called it to management s attention that I felt there had been  
 (24) a violation of company policy  
 (25) BY MR O NEILL

Vol 13 1897

- (1) Q Now with regard to somebody who s been through  
 treatment  
 (2) and who has had a recommendation for Alcoholics Anonymous  
 a  
 (3) recommendation to go through individual psychotherapy  
 group  
 (4) therapy marital therapy all of these things his off duty  
 (5) drinking is a concern isn t it?  
 (6) A Well yes It might be of concern  
 (7) Q You need to know whether the cure takes don t you?  
 (8) A Can you rephrase that?  
 (9) Q You need to know whether the cure takes don t you?  
 (10) A I d have to keep in mind here that this man, if we re  
 (11) talking about Hazelwood has really not been diagnosed as  
 (12) alcoholic diagnosis was alcohol abuse episodic  
 (13) Q Episodic?  
 (14) A Which means it periodically you know it might even be  
 (15) years between the periods I don t know  
 (16) Q It s kind of interesting that you pointed that out  
 (17) MR NEAL Let him finish his answer Mr O Neill  
 (18) BY MR O NEILL  
 (19) Q Do you have any more to say Doctor?  
 (20) A No, I think that pretty well said it  
 (21) Q Let s talk about that for just a minute I was going to sit  
 (22) down but you raised a question and it - these questions are  
 (23) your fault sir  
 (24) Let s see if I can find my notes on this topic You re  
 (25) talking about now his diagnosis as being episodic alcohol  
 abuse

Vol 13 1898

1 or alcohol abuse episodic At the time that you reviewed these  
 (2) documents you interpreted this entire piece of paper here not  
 (3) quite so carefully But you thought in reading this that it  
 (4) was just one episode of alcohol abuse didn't you?  
 (5) **A There was one episode of treatment of which I was aware**  
 (6) **That's all the record had**  
 (7) **Q So you certified the captain is fit for duty a sea going**  
 (8) **master is fit for duty on the basis of this red flag and a**  
 (9) **five minute phone conversation that you can't remember the**  
 (10) **details of?**  
 (11) **MR NEAL Objection asked and answered**  
 (12) **THE COURT I'll allow it**  
 (13) **BY MR O NEILL**  
 (14) **Q And a minimization of the fact that you thought there was**  
 (15) **just one episodic instance of alcohol abuse is that a fair**  
 (16) **statement?**  
 (17) **A The fact that it was said to be episodic I would have**  
 (18) **assumed there was more than one I don't think you would**  
 (19) **get**  
 (20) **that diagnosis with just one But I had evidence of only one**  
 (21) **treatment of anything and that even in that the primary**  
 (22) **diagnosis was dysthymia and the secondary diagnosis was**  
 (23) **the**  
 (24) **alcohol abuse episodic**  
 (25) **MR O NEILL Thank you sir Thank you Judge**  
 (26) **THE COURT You may cross**  
 (27) **CROSS EXAMINATION OF CHARLES HUNTER**  
 (28) **MONTGOMERY**

Vol 13 1899

(1) **BY MR NEAL**  
 (2) **Q Doctor I will be hopefully and mercifully brief but I do**  
 (3) **want to know something about your background How old are**  
 (4) **you**  
 (5) **A 66**  
 (6) **Q And what we heard the other day once you reach 65 with**  
 (7) **Exxon you are retired?**  
 (8) **A That's correct**  
 (9) **Q And so are you retired from Exxon now?**  
 (10) **A Yes**  
 (11) **Q Quickly how long were you employed by Exxon**  
 (12) **Corporation?**  
 (13) **A 32 years five months**  
 (14) **Q 32 years five months Let's see when did you start your**  
 (15) **employment then? Will you count it up for me?**  
 (16) **A July 1st, 1960**  
 (17) **Q And retired this year or last year?**  
 (18) **A December the 1st 1992**  
 (19) **Q 1992 Where did you receive your - I don't want to go**  
 (20) **through all of it but you are a medical doctor?**  
 (21) **A That right**  
 (22) **Q Where did you receive your medical training?**  
 (23) **A At the University of Virginia I graduated from the**  
 (24) **University of Virginia in 1953 M D Degree I did an**  
 (25) **internship at the University of Virginia Hospital continued**  
 (26) **two additional years in internal medicine at the University of**

Vol 13 1900

(1) **Virginia went into the United States Public Health Service**  
 (2) **where I stayed for two and a half years and during that**  
 (3) **time**  
 (4) **frame served a chief residency in internal medicine at the**  
 (5) **Baylor University College**  
 (6) **Q In Waco?**  
 (7) **A No Houston**  
 (8) **Q The medical college of Baylor is in Houston?**  
 (9) **A Yes**  
 (10) **Q The regular college is in Waco?**  
 (11) **A The regular college is in Waco**  
 (12) **Q All right Now then I want to go right to the**  
 (13) **conversation that Mr O Neill brought up and he said that some**  
 (14) **time in 1985 you had a conversation with an Exxon Shipping**  
 (15) **Company official regarding Captain Hazelwood is that correct?**  
 (16) **A That's correct**  
 (17) **Q And would you tell us approximately when that conversation**  
 (18) **was and with whom you had the conversation if you**  
 (19) **remember?**  
 (20) **A Well let me cover that subject Within the Exxon**  
 (21) **Shipping**  
 (22) **Company, there was a disability management section -**  
 (23) **Q Okay**  
 (24) **A - who tried to keep up with the disabilities of the**  
 (25) **seaman They were strayed all over the country They had**  
 (26) **no**  
 (27) **regular supervisor because they joined different ships at**  
 (28) **different times And we had close contact with them**  
 (29) **regarding**  
 (30) **disability management Reports such as the individual**

Vol 13 1901

(1) **disability report form which you saw a few moments ago**  
 (2) **comes**  
 (3) **into that section from the physician and they look at it to**  
 (4) **determine what they need from it and then send it into the**  
 (5) **medical department from this individual disability report**  
 (6) **Q We'll put that up so it will be easy to fix it up here and**  
 (7) **I'll put it up here**  
 (8) **A Oh it's over here**  
 (9) **Q Oh okay Thank you Mr O Neill**  
 (10) **A I as best I can recall remind you nine years later and**  
 (11) **four years before this even came up, I think an individual in**  
 (12) **that section probably -**  
 (13) **Q Excuse me let me put this up on the screen because this is**  
 (14) **only part of it except for a little card Would you flash**  
 (15) **that up here okay Now -**  
 (16) **A This form as I say came into shipping and then it's sent**  
 (17) **to medical The medical department received the form on**  
 (18) **May**  
 (19) **the 14th 1985 and following that stamp it was sent to me**  
 (20) **for**  
 (21) **review**  
 (22) **After that I believe that a woman by the name of Gabby**  
 (23) **Guerra as best I can recall, was the one who called and**  
 (24) **asked**  
 (25) **me if I would call and talk to Doctor Vallury I'm busy and**  
 (26) **that wasn't the prime thing one likes to have to do on the**  
 (27) **spur**  
 (28) **of the moment I said fine, I will but I have some concern**  
 (29) **because actually this form has more detail completed on it**  
 (30) **than**  
 (31) **I generally got on this type of form And she explained to**  
 (32) **me**

Vol 13 1902

- (1) that there was a special reason they had that I needed to make
- (2) this call to Doctor Vallury
- (3) If you look at the form it says, the beginning date of
- (4) Captain Hazelwood's disability was April the first, which was
- (5) the date he went in the hospital
- (6) Q Okay
- (7) A The form was completed on April the 16th at a time when he
- (8) was still in the hospital I was receiving the form a month
- (9) later I do not know why it was such a delay, I cannot answer
- (10) that The problem they had in that disability section revolved
- (11) around the fit for duty status The form indicates that
- (12) Captain Hazelwood was not fit for duty Well, obviously on
- (13) April the 16th he was not fit for duty, he was in the
- (14) hospital Okay
- (15) There is a benefit plan arrangement with regard to leaves
- (16) of absence, that one really cannot grant a leave of absence
- (17) unless one is not disabled, or in other words is not - is fit
- (18) for duty, so that this question needed to be resolved before
- (19) they could grant the leave of absence
- (20) Myself or anyone that I know of at least in the shipping
- (21) company, took no exception to the leave of absence
- (22) because they
- (23) needed to clarify this issue They also wanted to know how
- (24) he
- (25) was doing, if I could get the information So I placed a call
- (26) to Doctor Vallury
- (27) Q While we were on that let me see if I can - you've got

Vol 13 1903

- (1) this form in front of you right?
- (2) A Right
- (3) Q And it's received on May the 14th?
- (4) A Right
- (5) Q The date of the form is May 1?
- (6) A The date of the form is May 1 Where do you see that?
- (7) Q The date that he's entering the hospital
- (8) A April 1
- (9) Q I'm sorry And he's to be there you can tell by the
- (10) writing for 28 days is that correct?
- (11) A That's correct
- (12) Q The date that Doctor Vallury signed this form is April
- (13) 16th?
- (14) A That's correct
- (15) Q So when he signs this form and presumably sends it to Exxon
- (16) Shipping Company Captain Hazelwood is in the middle of his
- (17) South Oak stay is that correct?
- (18) A That would be correct
- (19) Q However by the time you get it on May 14 presumably he
- (20) has completed that stay of 28 days?
- (21) A That's correct
- (22) Q All right Now you're asked to call Doctor Vallury You
- (23) have this form in front of you What do you do?
- (24) A I call Doctor Vallury and talk to him I can't - you
- (25) know it's been a long time but the gist of the conversation

Vol 13 1904

- (1) the best I can recall it is that he indicates that Captain
- (2) Hazelwood had done well in the program that he had
- (3) entered it
- (4) voluntarily of his own free will, that he had participated well
- (5) in the program, he felt his outlook or his prognosis, if you
- (6) want, was good but that because of the nature of his job
- (7) meaning that he could not get to AA meetings, not attend
- (8) the
- (9) things that - the aftercare program that he wanted him to
- (10) attend, that he had recommended that he take the leave of
- (11) absence
- (12) Q Now at that time did he say - did he tell you that he was
- (13) fit for sea duty?
- (14) A At that time we discussed the fit for duty, and he
- (15) indicated to me that he was fit for duty And I in turn then
- (16) called back, I assume Gabby Guerra, as I'm not sure which
- (17) person it might have been, and advised them that on the
- (18) basis
- (19) of that, that I agreed with that determination and that I
- (20) recommended that he get the leave - they grant the leave of
- (21) absence And I remember this better than average, I guess
- (22) because when I did get to them, and I'm not sure of the
- (23) exact
- (24) time, how long it took to do this but I think it was the
- (25) latter part of May, when I got back to them
- (26) Q To them you mean back to Exxon Shipping Ms Guerra?
- (27) A Back to Exxon Shipping They'd already granted the
- (28) leave
- (29) of absence which sort of hacked me a little bit which is why
- (30) I
- (31) remember this call as well as I do

Vol 13 1905

- (1) Q All right So then Doctor Vallury called you as I
- (2) understand it he says Captain Hazelwood is fit for duty?
- (3) A That's right
- (4) Q But I recommend that he be given a leave of absence so that
- (5) he can have the AA and aftercare is that correct?
- (6) A That's correct
- (7) Q All right Did you understand that AA and aftercare was a
- (8) condition to be fit for duty or he was fit for duty but it was
- (9) a recommendation that he continue that?
- (10) A I thought he was fit for duty and that it was a
- (11) recommendation that he be given this leave of absence so
- (12) that
- (13) he could stay shoreside and get that AA and other aftercare
- (14) Q Now Doctor Montgomery Mr O'Neill kept saying you
- (15) determined that he was fit for duty that's that a fair
- (16) statement or did Doctor Vallury determine - his physician
- (17) determine that he was fit for duty?
- (18) A His physician determined he was fit for duty, and I
- (19) accepted that as adequate for Exxon's purposes to allow
- (20) him to
- (21) be declared fit for duty
- (22) Q All right And then you called Ms Guerra of Exxon
- (23) Shipping Company and told her that you - in effect that his
- (24) doctor says he's fit for duty his doctor recommends this leave
- (25) of absence and you endorse that?
- (26) A That's right
- (27) Q Doctor Mr O'Neill said that pulled up an Exhibit 160

Vol 13 1906

- (1) I'll try it again here and said that this information was over  
 (2) at Exxon was over in the offices of Exxon Shipping Company  
 (3) Do you recollect that exhibit?  
 (4) **A Yes**  
 (5) **Q All right Captain Hazelwood according to your testimony**  
 (6) **voluntarily entered South Oaks on April 1 1985 correct?**  
 (7) **A That's correct**  
 (8) **Q Would you look at the date up here that's dated May 19 or**  
 (9) **May 28 1985 Was that the date that the information was**  
 (10) **received by the Exxon Shipping Company to your knowledge**  
 (11) **or do**  
 (12) **you know?**  
 (13) **A I don't know**  
 (14) **Q All right If Exxon Shipping Company had received this**  
 (15) **information after Captain Hazelwood went into or sought**  
 (16) **voluntarily sought treatment are you with me?**  
 (17) **A Uh-huh**  
 (18) **Q Then he would be a voluntary declare or self identifier**  
 (19) **even though they later learned out - learned that he had**  
 (20) **violated the policy prior to seeking help is that correct?**  
 (21) **A I think that is correct**  
 (22) **Q Doctor Exxon Shipping Company employees I suppose like**  
 (23) **all employees are entitled to have their own doctor correct?**  
 (24) **A Encouraged**  
 (25) **Q Encouraged to have their own doctor And the medical**  
 (26) **department is there for - to aid but not as a substitute for**

Vol 13 1907

- (1) **their own doctors?**  
 (2) **A That is correct**  
 (3) **Q All right Is there anything - if a person - if an Exxon**  
 (4) **Shipping Company employee had some kind of medical**  
 (5) **problem and**  
 (6) **went to his doctor and then his doctor - you talked to his**  
 (7) **doctor and his personal doctor said he's fit for duty would**  
 (8) **you be inclined to accept that?**  
 (9) **A Yes I would Unless I saw some reason to really take**  
 (10) **exception to it That was generally the accepted program**  
 (11) **Q Now Mr O Neill asked you to assume certain things and he**  
 (12) **told you some things like this Mr Shaw said and so forth**  
 (13) **Let's assume you know that you have this diagnosis of Captain**  
 (14) **Hazelwood correct?**  
 (15) **A Right**  
 (16) **Q And the primary diagnosis is dysthymia correct?**  
 (17) **A That's right**  
 (18) **Q And only the secondary diagnosis is some sort of alcohol**  
 (19) **abuse episodically?**  
 (20) **A That's right**  
 (21) **Q You've testified that dysthymia is a mild form - mild form**  
 (22) **of depression?**  
 (23) **A That is correct**  
 (24) **Q All right If you go to - if you go to a doctor and you**  
 (25) **ask him what's wrong with you and the doctor makes a**  
 (26) **diagnosis do they - do they find out determine that - and**

Vol 13 1908

- (1) give you an order of diagnoses that is the major problem and  
 (2) the less major problem and they do it in that order?  
 (3) **A Not always**  
 (4) **Q Okay But did you understand that this was the primary**  
 (5) **diagnosis of dysthymia in this case and the secondary**  
 (6) **diagnosis**  
 (7) **of alcohol abuse episodically?**  
 (8) **A Yes**  
 (9) **Q Mr O Neill asked you to assume that you had - stroke**  
 (10) **that**  
 (11) **I think I'm going to have no further questions Doctor**  
 (12) **Montgomery**  
 (13) **THE COURT Redirect Mr O Neill**  
 (14) **REDIRECT EXAMINATION OF CHARLES HUNTER**  
 (15) **MONTGOMERY**  
 (16) **BY MR O NEILL**  
 (17) **Q Do you want me to ask you questions or not ask you**  
 (18) **questions Doctor? I'll give you a choice**  
 (19) **MR SANDERS Can I vote?**  
 (20) **BY MR O NEILL**  
 (21) **Q You have to answer the question**  
 (22) **A Excuse me Phrase that again**  
 (23) **Q Do you want me to ask you some more questions or not ask**  
 (24) **you any more questions?**  
 (25) **A I'd just as soon you not ask any more questions**  
 (26) **MR O NEILL I have no further questions**  
 (27) **MR NEAL Man I hope we can do that for everybody**

Vol 13 1909

- (1) I'd like to see everyone do that  
 (2) **THE COURT You may call your next witness**  
 (3) **MR O NEILL The plaintiff calls Kenneth G Gould as**  
 (4) **an adverse witness for cross examination and on a videotape**  
 (5) **DIRECT EXAMINATION OF KENNETH D GOULD**  
 (6) **BY VIDEO EXAMINER**  
 (7) **Q You've stated your full name for the record already It's**  
 (8) **Doctor Kenneth G Gould Junior?**  
 (9) **A Correct**  
 (10) **Q Could you tell us where you presently reside?**  
 (11) **A I currently reside in Houston Texas**  
 (12) **Q Are you currently employed by Exxon Corporation?**  
 (13) **A No I'm employed by Exxon Company USA, which is a**  
 (14) **company**  
 (15) **of the Exxon Corporation**  
 (16) **Q In what capacity are you employed by Exxon Company USA?**  
 (17) **A My current title is director of health services**  
 (18) **Q How long have you held that position?**  
 (19) **A Since December 1st, 1985**  
 (20) **Q I'd like to now turn to the matter of an employee who was**  
 (21) **entering rehabilitation for alcohol dependency My question**  
 (22) **is what are the different ways in which the medical department**  
 (23) **might learn that an employee was in or about to begin**  
 (24) **rehabilitation for alcohol dependency? Well let me refer you**  
 (25) **to the time period of 1985**  
 (26) **A We might learn if the employee tells us We might learn if**

Vol 13 1910

- (1) the employee through the individual disability report has his
- (2) physician send us a report of his having been disabled for a
- (3) period of time, and that that may or may not be listed on that
- (4) particular sheet Or we may be told by management if they've
- (5) learned about it in some way
- (6) We will not be told about such a rehabilitation if the
- (7) employee has instructed the folks in the rehabilitation not to
- (8) tell us
- (9) Q What was the medical department's routine procedure if
- (10) there was one with respect to an employee who it had learned
- (11) had been newly admitted to alcohol rehabilitation and again
- (12) with regard to the time period 1985?
- (13) A Perhaps it would be better to state in a generic fashion
- (14) when we learn that anyone is in a hospital situation, we would
- (15) generally, unless requested to perform some service, merely
- (16) make a note in the record if the time that we heard about that,
- (17) I would think at that time Probably not deal with the
- (18) rehabilitation any differently than we dealt with the
- (19) notification of any other sort of hospitalization unless there
- (20) was some specific restriction of duty which were indicated in
- (21) some way by the notification that we got that it was necessary
- (22) Q You had referred to a disability report What is an
- (23) individual disability report?
- (24) A They go by different names, and it's sometimes called an
- (25) ER-5, sometimes referred to as an IDR or individual disability

Vol 13 1911

- (1) report When an employee is absent from work for five or more
- (2) days, the employee's supervisor will initiate a form in which
- (3) he sends the form to the employee at the top stating that
- (4) before the employee should come back to work, that the employee
- (5) should sign the middle part of the form which is essentially
- (6) release of information and give that to his physician to
- (7) provide two things
- (8) it's a form with, essentially two pages to it In the
- (9) first page, then, the physician would indicate that the
- (10) employee - he had first seen the employee on a certain date
- (11) and may be the last date that he saw the employee And he
- (12) would also indicate the duration of any disability which he
- (13) expected to occur, that the person would not be able, for
- (14) instance, return to work, fit to return to work, not fit to
- (15) return to work, and any short explanation in that form, then
- (16) would wind up in the personnel records
- (17) This underneath form which is a carbon copy of the top
- (18) material provides some additional room for the physician to
- (19) fill out data regarding history and physical examination and
- (20) results and so on which the physician would then forward to
- (21) the medical department
- (22) Now, much of the time we get the same information that the
- (23) employee relations department gets with regard to the length of
- (24) the disability and with regard to the generic fit to work or
- (25) not fit to work without any specific medical data and doctors

Vol 13 1912

- (1) have become more and more chary about giving us any
- (2) information, even though they have a release on that form
- (3) Q Let me step back for a moment What were the general ways
- (4) that the medical department in 1985 may have learned about an
- (5) employee coming out of a rehabilitation program for alcohol?
- (6) A I may have been confused earlier when I answered with
- (7) regard to the three days that I said I thought the department
- (8) might have learned about it when they went in And because I'm
- (9) not usually used to hearing about it at that point, but when
- (10) they come out, and I may have misspoke in that regard - but I
- (11) think we said that the employee would tell us, we would get a
- (12) note from the doctor or we might hear about it from management
- (13) Q Are you referring now - you say - are you saying that
- (14) that's the way you might learn about - are you saying that
- (15) those are the three ways that the medical department might
- (16) typically learn about an employee emerging from an alcohol
- (17) rehabilitation program?
- (18) A Yes
- (19) Q Are you saying that it's very possible that the medical
- (20) department would not even learn about the fact that an employee
- (21) had been admitted himself to a rehabilitation program until
- (22) after he completed the program?
- (23) A Yes and I'm not excluding the fact that we might not have
- (24) learned about it at all
- (25) Q Now assuming an employee has been admitted to an alcohol

Vol 13 1913

- (1) rehabilitation program and has now emerged from the
- (2) rehabilitation program and has been absent from work during
- (3) that period of time and is returning to his place of
- (4) employment what procedure would the medical department
- (5) undertake at that time?
- (6) A 1985?
- (7) Q Yes
- (8) A The procedure is as previously described when somebody is
- (9) absent from work, his supervisor will send or give the absent
- (10) employee the form for the absent employee to sign the release
- (11) and for the doctor then to complete it and send it back I
- (12) told you about the ways we would learn about it There's no
- (13) other mysterious way I would know about it
- (14) Q Would the medical department in the instance of an
- (15) employee who had undergone rehabilitation for alcohol have
- (16) conducted its own examination to ascertain whether that
- (17) employee had successfully completed his alcohol rehabilitation
- (18) before allowing him to return to his job in 1985?
- (19) A I think that the forms that we get are subscribed to by the
- (20) physician an M D Our general process whether it's related
- (21) to alcohol or a hernia or something else is to take the word
- (22) of the physician and his description of fitness to work The
- (23) one major exception to that is when we have someone who has
- (24) seen a chiropractor we may in fact refer people who have been
- (25) treated by chiropractors for another opinion by a physician

Vol 13 1914

- (1) with an estimate of potential disability  
 (2) Q In 1985?  
 (3) A Right  
 (4) Q Was it necessary that - that there be a determination of  
 (5) fitness for work before an employee who had undergone  
 alcohol  
 (6) rehabilitation could return to his job?  
 (7) A Not if the physician said he was fit to return to his  
 (8) position You got to remember we have five doctors  
 (9) essentially reviewing all the absences for the company of  
 (10) 20 000 plus people And we cannot see everybody who  
 comes back  
 (11) for something  
 (12) Now if management decides that they want to have that  
 (13) person further evaluated, they may contact the medical  
 (14) department and say Please evaluate so and so for his  
 fitness  
 (15) to work  
 (16) Q My question was literally was there no requirement that  
 (17) the medical department itself make a determination of fitness  
 (18) before an employee who had been rehabilitated for alcoholism  
 (19) could return to his job?  
 (20) A Not that I m aware of  
 (21) Q One should look at that answer in the light of the fact  
 (22) that where we found out about it through the process of an  
 (23) individual disability report or ER 5 that we would have on  
 (24) record a physician s signature which the physician said he was  
 (25) fit to return to work or not fit to return to work And if the

Vol 13 1915

- (1) physician said that he was not fit to return to work and he  
 (2) shows up to work then we might get involved  
 (3) Is that a clarification which helps?  
 (4) A I suppose  
 (5) Q My question is then -  
 (6) A But see management would know that at that time  
 because  
 (7) they would have had their part of the form which the  
 physician  
 (8) would say he s fit to work or not fit to work  
 (9) Q Where the medical department had received notice of an  
 (10) employee s determination of his fitness to return to work in  
 (11) the instance of his having completed alcohol rehabilitation  
 (12) would the medical department ever speak to that employee s  
 (13) private physician about his determination?  
 (14) A Unless there was some unusual facet, probably not  
 (15) Q My question is simply did the medical department  
 (16) independently have a requirement about the level of detail that  
 (17) it would have wanted to receive or needed to receive in terms  
 (18) of that determination of fitness for work by that employee s  
 (19) private physician?  
 (20) A I think practicing law or medicine or driving a bus or  
 (21) whatever you're doing, there s a certain degree of judgment  
 (22) which enters the picture And if one lays down restrictive  
 (23) criteria or instructive criteria one frequently misses the  
 (24) essence of the problem  
 (25) We try to stay alert to unusual situations but there were

Vol 13 1916

- (1) no jot and tittle requirements on each and every person  
 who  
 (2) comes back to work  
 (3) Again I reiterate that if there was some unusual facet  
 (4) mentioned in the diagnosis or in the information we were  
 given  
 (5) we may or we may not choose to try to get in touch with a  
 (6) physician or get in touch with the employee and to clarify  
 that  
 (7) depending on the judgment of the individual reviewing  
 health  
 (8) practitioner  
 (9) Q In 1985 did the medical department consider that it was  
 (10) important in terms of successful rehabilitation of alcoholism  
 (11) employees that they receive counseling after their return to  
 (12) employment?  
 (13) A I think as a general rule we would have felt that  
 (14) counseling would be wise after such a visit but then you  
 have  
 (15) to describe what you mean by counseling In a certain  
 (16) celebrated case I recall that, you know what is usually -  
 (17) what was usually the recommendation of - of rehabilitation  
 (18) programs was that someone participate after that  
 rehabilitation  
 (19) in a 90-and 90, which is 90 visits to Alcoholics Anonymous  
 (20) chapter in the next 90 days in order to solidify the gains  
 made  
 (21) with regard to the individual s thinking during the  
 (22) rehabilitation process  
 (23) I don t think anybody considered even in 1985 the  
 (24) rehabilitation was complete complete when you stop the  
 (25) hospitalization or the outpatient phase of the rehabilitation

Vol 13 1917

- (1) treatment, that this was an ongoing life situation in which  
 one  
 (2) needed to continue to strengthen one s resolve not to  
 return to  
 (3) the bottle or the pills  
 (4) Q Did the medical department in 1985 have any system in place  
 (5) to determine for itself that an employee who had undergone  
 (6) alcohol rehabilitation on an outpatient basis had followed his  
 (7) program before returning to work?  
 (8) A No I don t know how you can determine that today  
 (9) Q Doctor Gould after reassignment of an employee who had  
 (10) completed alcohol rehabilitation did anyone within the medical  
 (11) department have a responsibility to monitor that employee to  
 (12) detect relapse possible signs of relapse? And I m talking  
 (13) about the period 1985 to 1988  
 (14) A No  
 (15) Q Do you have an understanding about whether or not anyone  
 (16) else within the Exxon organization other than the medical  
 (17) department had such a responsibility - and again I m  
 (18) referring to that period of time 1985 to 1988?  
 (19) A It is the responsibility of the first-line supervisor to  
 (20) determine the fitness of his employees to do the job that  
 (21) they re supposed to be doing In the sense that he s with  
 them  
 (22) and he s observing them If he has a problem, he s  
 supposed to  
 (23) get in touch with the medical department or with his  
 (24) supervisor in order to determine if any other procedure  
 needs  
 (25) to be followed

Vol 13 1918

- (1) Q With regard to that situation is it important in your  
 (2) opinion that the supervisor have knowledge that the employee  
 (3) that he is monitoring is a rehabilitated alcoholic?  
 (4) A I think it would be useful if the first line supervisor  
 (5) knew that somebody had been to rehabilitation that he then  
 was  
 (6) able to have that information in order to attempt to  
 understand  
 (7) what action his employee was taking  
 (8) Q In terms of the medical department evaluating an employee  
 (9) who had returned to the job but undergone alcohol  
 (10) rehabilitation is it correct based on your testimony that the  
 (11) medical department was essentially relying on the non medical  
 (12) supervisors to alert it to the problem concerning use of  
 (13) alcoholism - alcohol?  
 (14) A I believe this was the tact that management had decided  
 to  
 (15) take  
 (16) Q In the period between 1985 and prior to the time of the  
 (17) spill did the medical department have any policy or  
 (18) requirement that an employee who had undergone  
 rehabilitation  
 (19) for alcohol be abstinent and refrain totally from use of  
 (20) alcohol when he returned to his position?  
 (21) A No  
 (22) Q Did the medical department in this same time period  
 (23) between 1985 and up until the time of the spill have any  
 (24) requirement of its own that an employee who had undergone  
 (25) rehabilitation for alcoholism attend Alcoholics Anonymous or

Vol 13 1919

- (1) similar meetings before being returned to his job?  
 (2) A No  
 (3) Q Do you have an opinion about whether or not an alcoholic  
 (4) can suffer a loss of cognitive efficiency but at the same time  
 (5) not exhibit any overt signs of gross motor impairment?  
 (6) A Yes I have an opinion  
 (7) Q Would you please explain it?  
 (8) A I believe it can happen I also believe that the other  
 (9) half of that is true that you can suffer motor inabilities and  
 (10) not be able to show any cognitive difficulties And I don't  
 (11) know which one is dominant in an individual - given  
 (12) individual, because of the variation within individuals  
 (13) Q Doctor do you have an opinion about whether or not the  
 (14) greater number of drinks that a rehabilitated alcoholic  
 (15) consumes following rehabilitation the greater likelihood of  
 (16) relapse?  
 (17) A I know about the arguments that have gone on in some of  
 the  
 (18) literature with regard to this kind of thinking There are  
 (19) some folks some experts who believe that any amount of  
 (20) alcohol in fact indicates a relapse and others who feel that  
 (21) after rehabilitation is complete that some small amount of  
 (22) alcohol can be periodically drunk by someone who s  
 previously  
 (23) been designated as an alcoholic I don't know what the  
 (24) long term outcome of these academic deliberations will be  
 but  
 (25) it seems to me that from the standpoint of operational

Vol 13 1920

- (1) efficiency within the corporate setting, that abstinence is to  
 (2) be desired  
 (3) Q Could you tell me what role if any the medical department  
 (4) played in the development of the alcohol and drug policy that  
 (5) came into effect in 1985?  
 (6) A We were asked our opinion on various parts of the  
 proposed  
 (7) policy and provided that opinion Principally through the  
 (8) manager of the human resources department  
 (9) Q Do you recall the opinions that you offered at that time in  
 (10) terms of the development of the policy?  
 (11) A Without having my notes in front of me I m really unable  
 to  
 (12) state with clarity the individual comments that I offered  
 (13) Q Do you have any recollection about whether or not your  
 (14) opinion was solicited with regard to institution of an  
 (15) aftercare or follow up program for rehabilitated alcoholics who  
 (16) have been returned to the job?  
 (17) A I don't believe in 1987 that our concept of aftercare  
 (18) within the medical department was well enough developed  
 for us  
 (19) to have provided any particular input with that - with regard  
 (20) to that subject  
 (21) MR NEAL Can we cut him off here sir?  
 (22) THE COURT Fine  
 (23) MR O NEILL Thank you  
 (24) THE COURT Please remember my instructions about not  
 (25) listening to your reading anything about this case? We will

Vol 13 1921

- (1) adjourn at this time until 8 00 The jury is excused  
 (2) If counsel would stay for just a moment sir  
 (3) (Jury out at 2 00 p m )  
 (4) THE COURT Just a couple of administrative things  
 (5) I ve received notification from the defendants or certification  
 (6) from the defendants that they ve destroyed the copies of the  
 (7) jury questionnaires that they had  
 (8) MR SERDAHELY That s correct  
 (9) THE COURT Have the plaintiffs taken care of that?  
 (10) MR OESTING We delivered them to Mr Murtiashaw  
 (11) before we got note that we destroyed them We were  
 previously  
 (12) told to deliver them all back here  
 (13) I ll give them to the clerk  
 (14) THE COURT Thank you very much The second thing is  
 (15) that I think both sides have offered exhibits that run past the  
 (16) end of any exhibit list that I ve got from you  
 (17) MR O NEILL Well Mr Jamin will take care of  
 (18) getting exhibit lists for those exhibits by tomorrow morning  
 (19) MR LYNCH Every morning we gave Mr Murtiashaw an  
 (20) update we gave you this morning a new list that had all of our  
 (21) lists and I think what happened was that Mr Sanders created  
 (22) an exhibit that didn't exist until he recreated it  
 (23) THE COURT More than just one There s a half dozen  
 (24) of them I think that run past the end of the list I had It  
 (25) would be helpful to me if I had a complete set

Vol 13 1922

Vol 13 1924

- (1) That s all I have
- (2) MR O NEILL We have nothing else Judge
- (3) THE COURT We will be in recess until tomorrow
- (4) morning
- (5) THE CLERK Court is in recess until 8 00 a m
- (6) tomorrow

Vol 14 1929

- (1) PROCEEDINGS
- (2) (Jury in at 8:00 a.m.)
- (3) THE CLERK All rise
- (4) (Call to Order of the Court)
- (5) THE COURT Good morning ladies and gentlemen This
- (6) is the continuation of trial in case A89 0095 civil In re
- (7) The Exxon Valdez When we left off I don't remember whether
- (8) we were in the middle of something or not
- (9) MS WAGNER Yes we were Your Honor We'll continue
- (10) with the deposition videotape of Kenneth Gould
- (11) CONTINUED DIRECT EXAMINATION OF KENNETH G. GOULD
- (12) (Video)
- (13) BY VIDEO EXAMINER
- (14) Q Okay
- (15) A To the best of my remembrance
- (16) Q Do you recall that topic coming up in discussion with you
- (17) with the medical department at any time between 1985 and
- (18) prior
- (19) to the oil spill?
- (20) A No - are you talking about between me and upper level
- (21) management?
- (22) Q Yes
- (23) A As opposed to me and between Dr. Stockman or HAI or a
- (24) discussion I might have had an academic discussion
- (25) Q Let's break it down I was asking first between you and
- (26) management in terms of any such discussion
- (27) A I don't recall a discussion with management with regard
- (28) to

Vol 14 1930

- (1) aftercare before the Valdez spill
- (2) Q Do you have an understanding about whether or not the
- (3) 1987
- (4) alcohol and drug policy prohibited testing of employees who
- (5) are
- (6) rehabilitated alcoholics and had returned to their positions?
- (7) A Doesn't say anything about that
- (8) Q Is it correct then that because the policy in your
- (9) opinion - that because the policy is silent with regard to
- (10) testing after rehabilitation that it was permissible under the
- (11) policy?
- (12) A I don't think the policy in my own view does not prohibit
- (13) testing of somebody in a rehabilitation program, but it also
- (14) doesn't speak to it
- (15) Q Let me refer you to document number 18 which should be a
- (16) memorandum dated October 5th 1988 from J.C. Bowen to a
- (17) number
- (18) of individuals attaching the then latest revision of the drug
- (19) and alcohol use package
- (20) A Uh huh
- (21) Q You're noted as being a recipient on that document?
- (22) A That's right
- (23) Q Do you recall receiving this?
- (24) A Yes indeed
- (25) Q In terms of your understanding today about the treatment of
- (26) alcoholism how important is in your opinion is aftercare
- (27) follow up in terms of a successful recovery process?
- (28) A From alcohol'

Vol 14 1931

- (1) Q Yes
- (2) A I think it's exceedingly important I think that's one of
- (3) the things we learned in the middle '80s We learned a
- (4) lesson
- (5) and we brought it
- (6) Q Did you testify earlier today about a conversation with
- (7) Mr Iarossi after the oil spill?
- (8) A That's correct
- (9) Q What did the discussion concern?
- (10) A I can't remember the details of the discussion but I can
- (11) remember that Captain Hazelwood entered into the
- (12) discussion
- (13) Q Do you recall whether or not you discussed with
- (14) Mr Iarossi after the time of the spill whether or not the
- (15) alcohol and drug policy in effect at the time of the spill had
- (16) mandated that an employee who had undergone rehabilitation
- (17) for
- (18) alcoholism be returned to the exact position that employee had
- (19) held before rehabilitation?
- (20) A I don't think I ever had that conversation
- (21) Q Did Mr Iarossi if you recall as part of these
- (22) discussions ever express concern to you that Exxon Shipping
- (23) Company had believed that the medical department was in
- (24) some
- (25) fashion conducting continuous monitoring of employees who
- (26) had
- (27) been returned to employment after undergoing alcohol
- (28) rehabilitation?
- (29) A No
- (30) Q Do you recall having any discussion with anyone in

Vol 14 1932

- (1) management in either Exxon Company USA or Exxon Shipping
- (2) Company concerning that last topic?
- (3) A In the medical department? I think there probably were
- (4) some discussions around that issue with others
- (5) Q Do you recall what their reaction may have been after you
- (6) shared information about the fact that the medical department
- (7) does not undertake to perform continuous monitoring of
- (8) employees that are returned to their positions after alcohol
- (9) rehabilitation?
- (10) A Well I think that the general appreciation was that they
- (11) knew that we were not but they were just verifying with us
- (12) that we were not and in fact that was a management
- (13) responsibility
- (14) Q Have you looked at any documents to prepare for this
- (15) continued deposition today?
- (16) A Yes
- (17) Q What have you looked at?
- (18) A I looked at the IDR relating to Captain Hazelwood's
- (19) hospitalization in 1985
- (20) Q Would you like to look at the IDR?
- (21) A Yeah
- (22) Q Let me show you a marked copy rather than have you pull
- (23) your copy I think that will work better - actually I was
- (24) going to get to this later but since we are on the topic I
- (25) thought it would make sense to mark this now

Vol 14 1933

- (1) Are there references that you mentioned earlier under the
- (2) column entitled diagnosis and that then is indicated 300 40 and
- (3) 305 02 DSM Roman three closed paren?
- (4) A That's correct
- (5) Q And do you recall what those diagnoses refer to?
- (6) A In general terms the 300 40 is dysthymia and the 305 02
- (7) is
- (8) substance abuse alcohol intermittent
- (9) Q Is there another diagnosis in DSM III that involves
- (10) alcohol?
- (11) A I think that there are a number of items in the DSM-III
- (12) that relate to substance abuse to alcohol use and that one
- (13) would need to understand specifically what that question
- (14) referred to
- (15) Q Would you equate the diagnosis of 305 02 in DSM III to
- (16) alcoholism?
- (17) A It's not what it says
- (18) Q You would not use the term alcoholism and whatever the
- (19) diagnosis is -
- (20) A It says alcohol abuse
- (21) Q That does not to you equate to alcoholism? You can
- (22) answer
- (23) A The term alcoholism is an indefinite one It refers to
- (24) different things for different people at different times and
- (25) even in various legal jurisdictions it has a different
- (26) meaning
- (27) Q Okay

Vol 14 1934

- (1) A It's an inaccurate term from the standpoint of saying that
- (2) generically one would entitle something, I think, to be
- (3) alcoholism when in fact one can be more specific which is
- (4) what
- (5) the DSM III tends to do
- (6) Q Would in your view someone who was subject to a
- (7) diagnosis
- (8) of 305 02 be suffering from alcoholism?
- (9) You can answer
- (10) A I think it's possible that some people might consider that
- (11) to be true
- (12) Q Would a diagnosis of 305 02 in DSM III mean that someone
- (13) was an alcoholic?
- (14) A I think that some people might consider that to be so
- (15) Q Incidentally Doctor have you seen this document 64416
- (16) at any time before you looked at it when your lawyer showed it
- (17) to you?
- (18) A Yes
- (19) Q When did you first see it?
- (20) A I cannot give you an exact date, but it was several years
- (21) ago, probably in 1989 that Dr Montgomery showed me a
- (22) copy of
- (23) our fiche record We have our medical records on fiche and
- (24) he
- (25) showed me the fact that he had put his initials in one corner
- (26) of this document
- (27) Q Okay But this was after the oil spill?
- (28) A After the oil spill
- (29) Q And in the normal day to day practice of the head services

Vol 14 1935

- (1) department for the time you have been there is it the custom  
 (2) for physicians in the department to be in contact with  
 (3) hospitals or facilities who are treating Exxon employees?  
 (4) **A Yes**  
 (5) **Q** What would be the circumstances under which this contact  
 (6) would be made?  
 (7) **A** To clarify a medical matter return to work  
 (8) **Q** Would that type of conversation normally be noted in a  
 (9) medical file?  
 (10) **A** It's not always noted, but sometimes it is noted  
 (11) **Q** Would it be good medical procedure to note it in a medical  
 (12) file?  
 (13) **A** Yes, I would think so  
 (14) **Q** By noted in the medical file I mean a notation or a record  
 (15) of a conversation along the lines we discussed  
 (16) **A** I would put it in terms it's preferred to have interactions  
 (17) which relate to an individual in some way entered into a  
 (18) medical file, so additional files from time to time can  
 (19) understand what went on  
 (20) **Q** In the conversation or the discussion that you had with Dr  
 (21) Montgomery when you first saw 64416 after the grounding did  
 (22) you ask Dr Montgomery or did he indicate to you that he being  
 (23) Dr Montgomery had ever followed up with anyone not just Dr  
 (24) Vallury to ascertain whether the recommendations set forth in  
 (25) 64416 had been followed?

Vol 14 1936

- (1) **A** No  
 (2) **Q** Would it have been appropriate procedure for the Exxon  
 (3) medical department or health services department to conduct  
 (4) that type of follow up?  
 (5) **A** You mean to make a phone call to the doctor who was the  
 (6) **Q** To take some action to insure that in a situation where  
 (7) aftercare such as that described in 64416 was recommended  
 (8) that that recommendation was followed?  
 (9) **A** I think he acted appropriately  
 (10) **Q** Okay But you didn't answer my question which is whether  
 (11) it would be appropriate procedure in your department to do that  
 (12) follow up  
 (13) **A** I would think so  
 (14) **Q** Okay Your testimony that Exxon was reviewing possible  
 (15) modifications of its alcohol policy with respect to aftercare  
 (16) before the oil spill?  
 (17) **A** Yes  
 (18) **Q** And were you directly involved in those discussions or  
 (19) review?  
 (20) **A** Not directly involved but I was advising some of those  
 (21) who  
 (22) were directly involved and I was - I was working back and  
 (23) forth with the information shall we say as consultants and  
 (24) things like that  
 (25) **Q** What - what was being considered to be changed in the  
 (26) policy with respect to aftercare?

Vol 14 1937

- (1) **A** Well the addition of a company sponsored aftercare  
 (2) portion  
 (3) of the program a very formal one I would consider for  
 (4) instance that Captain Hazelwood had an aftercare program  
 (5) of a  
 (6) type where he was given time off from duty to go to AA and  
 (7) that  
 (8) in fact was an aftercare program as it was conceptualized in  
 (9) the '80s  
 (10) There may have been others that would have held different  
 (11) opinion at that time that that was not the most advanced  
 (12) program but then on the other hand, there were a lot of  
 (13) places  
 (14) where there would have been no consideration for that as  
 (15) well  
 (16) so -  
 (17) **Q** Did the discussions that you have referred to culminate in  
 (18) any change of policy prior to the oil spill?  
 (19) **A** No  
 (20) **Q** I assume though it was appropriate that the IDR and the  
 (21) information provided in the IDR was submitted to your  
 (22) department?  
 (23) **A** At that point what you're talking about is an interface  
 (24) which is then created to summarize to codify and to provide  
 (25) subsequent direction I think that is in an appropriate  
 (26) interface and I would tell you that in all honesty it is  
 (27) unusual for us to get that much data from somebody who's  
 (28) been  
 (29) in the psychiatric institution We generally don't get  
 (30) diagnoses, we generally get recommendations without  
 (31) diagnosis  
 (32) **Q** So it's really that that's the case that Captain

Vol 14 1938

- (1) Hazelwood - about more than information about the captain's  
 (2) condition in 1985?  
 (3) **A** I'm talking about psychiatric consultants in general  
 (4) **Q** Well in the specific case of Captain Hazelwood based on  
 (5) what you've now seen is it your view that Exxon medical had an  
 (6) unusual amount of information about Captain Hazelwood in this  
 (7) context in his medical situation in 1985?  
 (8) **A** I think it was appropriate for our ability to understand  
 (9) and to -  
 (10) **Q** I'm not asking whether it was appropriate I'm trying to  
 (11) follow up on your previous question I think you said it was  
 (12) not that usual or rather infrequent -  
 (13) **A** I accept - I put myself into and I agree that it is more  
 (14) than we generally get  
 (15) **MS STEWART** Your Honor defendants have no cross for  
 (16) Dr Gould  
 (17) **THE COURT** That completes Dr Gould's testimony  
 (18) **MS WAGNER** Plaintiffs call Dr Wendell Nealy by  
 (19) deposition  
 (20) **DIRECT EXAMINATION OF WRENDELL NEALY (Video)**  
 (21) **BY VIDEO EXAMINER**  
 (22) **Q** Good morning Dr Nealy  
 (23) **A** Good morning  
 (24) **Q** Can you state your name for the record and home residence  
 (25) for the record please?

Vol 14 1939

- (1) **A Wrendell Nealy Senior Home address is 795 Leeward Drive**
- (2) **Baton Rouge Louisiana 70808**
- (3) **Q Why don't we first review your educational background starting with college please Please tell me the college you attended the years that you attended and your major**
- (4) **A The first B S degree in 19 - well I began school at**
- (5) **LSU Louisiana State University in 1951 through about the middle of '54 and came back to LSU in '58 through '60 and got**
- (6) **a B S degree**
- (7) **Then proceeded to LSU Medical School in New Orleans got my**
- (8) **M D degree in 1963 And you want to go further than that?**
- (9) **Q Can you please describe briefly your educational history since UCSF?**
- (10) **A In 1980 - 1980, I joined Exxon Company USA as a plant physician at Baton Rouge refinery One to two years later was**
- (11) **promoted to medical director of that refinery**
- (12) **Q Did you in your family practice or in your practice prior to 1980 did you have any experience treating an alcoholic?**
- (13) **A Well yes I did I was the medical director for a treatment center in Salem Oregon, rehabilitation center I forget the name of the center but I held that position as a part time job probably I would guess three years Other than**
- (14) **that, treating alcoholics in my practice**
- (15) **Q Did you at Dammasch and then at the rehabilitation center in Oregon come to any conclusions with respect to the rate of**

Vol 14 1940

- (1) **recidivism of alcoholics?**
- (2) **A Only that it was high**
- (3) **Q At that time what was your position with Exxon?**
- (4) **A When I went to Houston in 1986 I was associate - assistant medical director of Exxon Company USA and I remained**
- (5) **that title through until I resigned so that was my primary title I was also medical director for Exxon Shipping Company**
- (6) **at that time and that was more a contact for Exxon Shipping on**
- (7) **medical issues**
- (8) **Q In 1986 when you went to Houston did you take over Dr Montgomery's duties and responsibilities?**
- (9) **A With regard to?**
- (10) **Q To the role of contact for refining and shipping**
- (11) **A Yes and then I - and initially I reported to him At some point in time that reporting relation changed where I reported directly to Dr Gould I don't remember exactly when**
- (12) **that was Certainly by the time I was - by the time I was full time contact for Exxon Shipping Company my recollection**
- (13) **is that that reporting relationship changed to Dr Gould**
- (14) **Q Upon discharge of your patients at Dallas and at the Salem center and I'm talking about your patients who were inpatients with respect to alcoholism did you recommend or recommend that**
- (15) **they remain abstinent thereafter?**
- (16) **A Certainly**
- (17) **Q Why did you make that recommendation? As a preliminary**

Vol 14 1941

- (1) **question and I say abstinent as opposed to would it be sufficient that they just drank in moderation thereafter as**
- (2) **opposed to remaining abstinent?**
- (3) **A No**
- (4) **Q Why should they not drink in moderation?**
- (5) **A Even - well we say in general that an alcoholic or substance abuser is not ever cured that they're always in recovery, those words taken broadly to mean that one can be**
- (6) **cured of all the medical symptomatology, all the affects and effects-of alcoholism but never escapes the susceptibility**
- (7) **unique susceptibility to the addictive substance again**
- (8) **Is that clear enough?**
- (9) **Q Why don't we be more specific and talk about a - alcoholism**
- (10) **A Okay**
- (11) **Q From your time at Exxon which I guess is from - for the decade almost 1980 to 19 -**
- (12) **A '90**
- (13) **Q 1990 a little beyond there were I understand a number of alcohol policies promulgated by Exxon USA Is that correct?**
- (14) **A I think so**
- (15) **Q Okay**
- (16) **A I know there were more than -**
- (17) **Q There was more than one?**
- (18) **A I guess it's more or less a gradual evolution of a policy**

Vol 14 1942

- (1) **that continually changed and when it was - at some point it became so different that it was, you know some major change**
- (2) **was made to call it a different policy but it was a state of gradual evolution from the early '80s**
- (3) **Q Just as a definition do you have a definition of what an alcoholic what does it mean to be an alcoholic?**
- (4) **A Yes my own opinion based on - and you asked me where I read it and where I got it that would be hard to say Over time it's - it's a disease a primary kind of disease, not as a result of other things I mean by primary, comma, it has its**
- (5) **own symptomatology It is usually chronic and accelerating if**
- (6) **treatment is not sought, and one of the - one of the many addictive processes that follows the same line, the addictive**
- (7) **substance being alcohol instead of some other addictive substance but in every other way pretty much the same as having**
- (8) **chronic and physical mental and societal effects And ultimately unchecked, leading to death**
- (9) **Q How do you determine that an individual is in fact an alcoholic?**
- (10) **A That's very difficult Let me say that the surest way to determine, the only real sure way probably, to determine that**
- (11) **an alcoholic is an alcoholic in the stages other than the end skid-row stages, are based on an intervention, and the employee**
- (12) **admits that he is an alcoholic Breaking through the denial of**
- (13) **alcoholism or addiction to the point where the patient**

admits

Vol 14 1943

- (1) themselves that they are
- (2) Q Without the admission of the individual that he or she is
- (3) an alcoholic can you define or identify somebody as being
- (4) addicted based on certain behaviors of that individual?
- (5) A Well, we say it's more characteristic of them You know
- (6) these behaviors are more characteristic of but they may not be
- (7) an alcoholic The person may not be an alcoholic Drinking,
- (8) heavy drinking is one of these heavy constant drinking, but
- (9) then there are alcoholics who don't drink heavily only -
- (10) episodically They may go for long periods of time no
- (11) drinking, and then binge be a binge drinker They begin to
- (12) get into all kind of difficulties through behavioral acting out
- (13) problems while under the influence and so they have social
- (14) problems and family problems and tend to lose important
- (15) supportive structure
- (16) I'm not going in any directive way with this, I'm just -
- (17) any one of the things that you attribute - you know liver
- (18) disease or any of the other things that you - that may be
- (19) characteristic of an alcoholic may be present and the person
- (20) not being an alcoholic
- (21) Q You use the phrase they would lose important supportive
- (22) structure What does the supportive structure provide to the
- (23) alcoholic and why is it important? It's a compound question
- (24) but if you could answer why is it important that he retain that
- (25) structure?

Vol 14 1944

- (1) A Some of the things that promote or make it more likely that
- (2) an alcoholic in recovery will relapse are being alone
- (3) boredom
- (4) being with people who are old buddies who were alcoholics or
- (5) girl friends who were alcoholics and having nothing to do but
- (6) drink or having no stress reliever other than drinking so they
- (7) go back to that activity
- (8) And so the opposite of that is the support structure that
- (9) you want which promotes - a strong support from a wife who is
- (10) not an enabler and friends who aren't and change of friends and
- (11) change of activities and so that they're not easily sucked back
- (12) into the - go - you know going to a lot of AA meetings
- (13) where you have the support group of other alcoholics
- (14) AA is not - the main purpose of AA is not to - how should
- (15) I say, to get you to quit drinking, it's mostly to keep you
- (16) from going back to it to help you and support you in
- (17) recovering
- (18) Q What is the medical department's routine procedure with
- (19) respect to an employee newly emerged from alcohol
- (20) rehabilitation?
- (21) A You said what is?
- (22) Q Yes
- (23) A You mean currently now?
- (24) Q Well prior to the grounding All of these questions now
- (25) will relate to the grounding
- (26) A Okay

Vol 14 1945

- (1) Q I'll limit my questions to Exxon Shipping
- (2) A And it's due to the remoteness not of the job but of where
- (3) the people live from me as the doctor, so people going into a
- (4) rehabilitation facility I might not even know about it It
- (5) was - in fact there are probably more people going into
- (6) rehabilitation facilities that I medical, would never know
- (7) about than the opposite case And on occasion I would refer
- (8) someone to a therapist who recommended and they
- (9) accepted
- (10) treatment but when upon returning from rehabilitation they
- (11) didn't have to come through Exxon medical so I would not see
- (12) them Usually if they presented again if management had
- (13) no
- (14) problem with their - the fact of whether or not they were fit
- (15) for duty, they had the option to have them come see me for
- (16) assessment and for me to be involved in calling a doctor for
- (17) treatment and seeing whether they had completed a course or
- (18) not But it was totally up to management
- (19) Q So it was management's option to determine whether a
- (20) rehabilitated alcoholic should see medical upon return from
- (21) rehabilitation?
- (22) A It was medical's option of whether they needed the
- (23) medical
- (24) department's assistance in determining fit for duty
- (25) Q Were you aware of the criteria management used to determine
- (26) whether to refer the rehabbed alcoholic to medical?
- (27) A No
- (28) Q Did you have any discussions with Exxon Shipping Company

Vol 14 1946

- (1) management on the types of rehabbed alcoholics you would
- (2) like
- (3) to see upon return from rehab?
- (4) A No
- (5) Q Did you have an understanding as to which rehabbed
- (6) alcoholics what categories of rehabbed alcoholics were
- (7) referred to medical subsequent to rehab?
- (8) A No
- (9) Q Who at Exxon Shipping and I'm referring from let's say
- (10) 1984 to 1989 made this determination that is to refer the
- (11) rehabbed alcoholic to medical for re evaluation?
- (12) A I don't know I mean I don't know that they did
- (13) Q Have you ever seen a rehabbed alcoholic referred to you by
- (14) Exxon Shipping - again in the time period 84 to the
- (15) grounding in 89?
- (16) A I don't believe
- (17) Q You don't believe you -
- (18) A That I have ever seen an alcoholic who had been
- (19) rehabbed
- (20) returning I don't believe that I had seen him on their return
- (21) from rehabilitation, that's the context in which I view this
- (22) Q Earlier you testified that you were responsible for
- (23) determining fitness for duty?
- (24) A When asked by management
- (25) Q When you got to headquarters that was approximately
- (26) 1985?
- (27) A No that was August of 86
- (28) Q 86 Did you in fact make a strong recommendation to get

Vol 14 1947

- (1) an aftercare or follow up program so that you'd give employees  
 (2) more help in remaining abstinent in 1986 or thereafter?  
 (3) **A To my boss Dr Gould on the way to the cafeteria I**  
 (4) **remember saying one of my goals is to get an aftercare**  
**program**  
 (5) **started And he said what do you mean by this And I said**  
 (6) **some kind of program so that people returning from rehab**  
 (7) **centers would be followed up, there would be some**  
**structured**  
 (8) **follow up and suggested that probably the EHAP counselor**  
**would**  
 (9) **be the people to do that**  
 (10) **Q What if anything did Dr Gould say to you or suggest to**  
 (11) **you?**  
 (12) **A My recollection then was he said that's not our job we're**  
 (13) **not - that's not the medical department's job That's about**  
 (14) **as strongly as it was presented and as far as it went**  
 (15) **Q Did he indicate to you why it was not medical department's**  
 (16) **job?**  
 (17) **A I don't recall I think the brunt of that the gist of**  
 (18) **what his opposition was that medical department can't be**  
 (19) **checking into everybody to find out what kind of therapy**  
 (20) **they're in and if they're going to their AA meetings or if**  
 (21) **they're going to groups, and you know relatively the**  
 (22) **policeman function That's a line management function**  
 (23) **more or**  
 (24) **less**  
 (25) **Q Did you disagree with Dr Gould?**  
 (26) **A Yes I disagree and did disagree that but I don't recall**

Vol 14 1948

- (1) **that I disagreed with him verbally or certainly wrote no**  
**memo**  
 (2) **to the effect It was my feeling that there was a need to put**  
 (3) **together a program to more closely follow and give added**  
 (4) **motivation and support to people in recovery**  
 (5) **Q Why did you feel there was that need?**  
 (6) **A Well almost - all the treatment centers that I had been**  
 (7) **connected with very closely - here in Baton Rouge for**  
 (8) **example - have an aftercare policy and some range from**  
 (9) **six**  
 (10) **months to two years in which they have regular groups that**  
**meet**  
 (11) **and people at discharge are required to sign up for that**  
 (12) **program and that helps them maintain their sobriety**  
 (13) **However there is no - there's no way to check to see and**  
 (14) **there's nobody checking to see that people comply with**  
**those**  
 (15) **programs And to my - in my view since the cost of the**  
 (16) **inpatient therapy covers the cost of the outpatient**  
**follow up**  
 (17) **they get no more money whether the follow-up is completed**  
**or**  
 (18) **not, and so nobody has much of a motivation to go back**  
 (19) **It's left up - it's provided the employee can do it or**  
 (20) **not and I thought we needed something a little more**  
**structured**  
 (21) **so that -**  
 (22) **Q By something more structured do you mean that**  
**attendance**  
 (23) **would be required or mandated by the employer?**  
 (24) **A Right**  
 (25) **Q And that there would be some sort of if you want to call**  
 (26) **it police function to -**

Vol 14 1949

- (1) **A Right**  
 (2) **Q - understand that an employee did or did not attend?**  
 (3) **A Yeah bring a note from the AA meeting that he did attend**  
 (4) **for example if he was recommended to have 90 days and 90**  
 (5) **visits he had to produce some kind of documentation that**  
**he**  
 (6) **could It's not very practical but I was trying to work with**  
 (7) **some way to achieve some sort of order and structure to**  
**that**  
 (8) **Q Have you ever met Joseph Hazelwood?**  
 (9) **A Not to my knowledge**  
 (10) **Q Prior to the grounding had you ever heard of Joseph**  
 (11) **Hazelwood?**  
 (12) **A No, I don't think so**  
 (13) **Q Subsequent to the grounding did you have conversations**  
 (14) **with other doctors at Exxon USA's medical unit with respect to**  
 (15) **Joseph Hazelwood?**  
 (16) **A Yes**  
 (17) **Q Who did you speak to?**  
 (18) **A Spoke with Dr Montgomery and probably - I can't think**  
**of**  
 (19) **any of the doctors specifically excluded Surely Dr**  
**Douglas**  
 (20) **and Dr Montgomery, and probably Dr Gould but I can't - I**  
 (21) **don't remember the - it would have been infrequent but it**  
 (22) **would have been possible that Dr Gould was in the**  
 (23) **conversations**  
 (24) **Q Did Dr Douglas have knowledge of Joseph Hazelwood's**  
 (25) **rehabilitation prior to the grounding?**

Vol 14 1950

- (1) **A No not - well I don't know if he did or not**  
 (2) **Q Did you ever learn that he did?**  
 (3) **A No**  
 (4) **Q Okay Is it your testimony that Dr Montgomery told you**  
 (5) **and Dr Douglas at the same time in the same room that he had**  
 (6) **knowledge of Joseph Hazelwood's rehabilitation prior to the**  
 (7) **grounding?**  
 (8) **A Yeah That's what I think I said**  
 (9) **Q In the course of this conversation with Dr Montgomery**  
 (10) **about the rehab program did he mention the fact to the best of**  
 (11) **your recollection that it was alcohol rehabilitation?**  
 (12) **A Yes**  
 (13) **Q Have you ever consulted with any Exxon manager with**  
**respect**  
 (14) **to the monitoring of a rehabilitated Exxon Shipping Company**  
 (15) **employee?**  
 (16) **COLLOQUY Prior to 1989**  
 (17) **Q Prior to 1989**  
 (18) **A No not that I recall**  
 (19) **Q Did Exxon USA's medical department provide any**  
**information**  
 (20) **hold any seminars hold discussions with respect to how a**  
 (21) **manager should supervise an employee of Exxon Shipping**  
**Company**  
 (22) **that had been rehabilitated?**  
 (23) **A Not that I'm aware**  
 (24) **Q Do you agree with the statement that post rehabilitation**  
 (25) **testing aids successful rehabilitation?**

Vol 14 1951

- (1) A Yes
- (2) Q Are there schools of thought that say that part of any
- (3) rehabilitation can be - making that particular person a social
- (4) drinker rather than a person who drinks to excess?
- (5) A I've never heard of any rehabilitation program s goals
- that
- (6) would make them a social drinker
- (7) Q Maybe I phrased that wrong In the other schools of
- (8) thought that you spoke about is there a view that you can take
- (9) an alcoholic and they can drink again and they can do it in a
- (10) moderate way where they become social drinkers and not
- (11) necessarily alcoholics?
- (12) A I don't know that there's not some people that hold that
- (13) view I've never heard it I would disagree with it You
- (14) know, you don't ever - having been an alcoholic you don't
- (15) ever go back - we can cure pretty much the pathology and a
- lot
- (16) of the social ills and the financial problem we get that all
- (17) straight and we can even get to the point in my view in my
- (18) belief that the person never wants a drink any more but I
- (19) don't believe that you ever overcome the susceptibility to if
- (20) you do have a drink to the high risk of getting the full blown
- (21) addiction back again
- (22) Q You re not suggesting that someone who has been through
- (23) alcohol rehab cannot ever become a social drinker?
- (24) A I am suggesting that I don't believe that's really so
- (25) Q Are you suggesting that someone who s been through

Vol 14 1952

- (1) alcoholic rehab cannot stop and have one or two drinks?
- (2) A Excuse me
- (3) Q That s what I m talking about social drinkers
- (4) A That's not entirely true what I said When you limit it
- (5) to people that have been through rehab in my view there
- are
- (6) people who have been through rehab who are not
- alcoholics I
- (7) believe that a person who is a full blown alcoholic cannot go
- (8) back to being a social drinker
- (9) Q I see So you re making a distinction -
- (10) A Between rehab and alcoholism
- (11) Q If you had known that Captain Hazelwood had been in
- (12) rehabilitation and heard subsequent to his return as a captain
- (13) that he had been drinking what would you have done?
- (14) A Nothing
- (15) Q Why do you say that?
- (16) A I would have no responsibility to do anything I would
- (17) base that on similar kinds of things that I had heard about
- (18) other people and I don't have any responsibility to do
- (19) anything in that - in that area
- (20) Q So did you mean by I you personally or did you mean your
- (21) department or did you mean both?
- (22) A I mean in general that's not my job It's not covered in
- (23) my job description at all When asked to evaluate someone
- I
- (24) do that and otherwise we have no call in people for - or
- (25) responsibility stated to do anything

Vol 14 1953

- (1) Q Okay and whose job would that have been at the time?
- (2) A Whose responsibility would it have been? My - I'm not
- (3) sure but I would assume that my assumption has always
- been it
- (4) was his supervisor's job
- (5) Q Do you recall any written procedure that defined the
- (6) responsibility for either monitoring or reacting or responding
- (7) in the event that someone back from rehabilitation began
- (8) drinking again in the mid 80s while you were at Exxon from
- (9) 1985 on?
- (10) A The short answer is no There was some policy that we
- had
- (11) in Baton Rouge at the Exxon refinery that described a
- (12) supervisor's responsibility if he perceived someone at work
- who
- (13) seemed to be behaviorally impaired Other than that very
- (14) narrow instance I don't recall
- (15) Q Did you ever discuss Captain Hazelwood with Dr
- Montgomery?
- (16) A Yes
- (17) Q And could you tell me the nature of those discussions?
- (18) A Dr Montgomery mentioned to me that - that Joe
- Hazelwood
- (19) had been into a treatment facility
- (20) Q Was there more than one conversation?
- (21) A I'm sure there was more than one Surely two or three
- (22) times the subject came up
- (23) The only thing that I recall Dr Montgomery's discussion or
- (24) comments about was the fact that he didn't see in the
- medical
- (25) chart a release a fit for duty release That was a concern

Vol 14 1954

- (1) and he was somewhat concerned about that because he -
- he
- (2) recalled that and by - not specifically but by general
- (3) process he would have gotten or assured himself that there
- was
- (4) a release for return to duty before Captain Hazelwood had
- (5) returned to duty and that's the gist and sum and substance
- of
- (6) it
- (7) Q Is there a form that Exxon medical used that you would -
- (8) would be the equipment what you just referred to was fit for
- (9) duty release or determination?
- (10) A Well there are many forms probably much more than
- Exxon
- (11) Exxon USA or Exxon Shipping would use There are many
- forms
- (12) and releases to duty come in many shapes and forms from
- the
- (13) treating physician usually on their own forms rather than
- (14) Exxon's all of which are usually acceptable, something to
- write
- (15) saying, that they are released fit for duty or they're not
- (16) released fit for duty and if they're released with or without
- (17) restrictions That's what I recall
- (18) Q Now this is something that would be an Exxon generated
- (19) document or form?
- (20) A No These would almost always come to the medical
- (21) department from outside the medical department and from
- outside
- (22) the company
- (23) Q Is Exhibit 66142 such a form?
- (24) A I think it is
- (25) Q Did this document - strike that

Vol 14 1955

- (1) This document was in the medical file kept on Captain  
 (2) Hazelwood correct?  
 (3) A Yes  
 (4) Q This document has been referred to as an IDR Does that  
 (5) term mean anything to you?  
 (6) A Yes  
 (7) Q What does it stand for?  
 (8) A Individual Disability Report  
 (9) Q If Dr Montgomery had already consulted the medical file  
 (10) prior to this conversation with you could you then conclude  
 (11) that he did not believe that Exhibit 66142 was a fitness for  
 (12) duty release form?  
 (13) A Well I believe his concern was not over whether this  
 (14) document was a release fit for duty but whether he had - he  
 (15) had given something to Exxon Shipping Company or  
 (16) reviewing this  
 (17) document had been written something himself saying fit for  
 (18) duty  
 (19) Q Would it have been normal procedure in the medical  
 (20) department for an Exxon doctor to have done that in other  
 (21) words to have written something himself with respect to  
 (22) fitness for duty in the time frame we're talking about?  
 (23) COLLOQUY The question is -  
 (24) Q In the time frame we're talking about  
 (25) A It carries all kind of answers to that It would have been  
 (26) very normal for an Exxon doctor Sometimes people return

Vol 14 1956

- (1) for - from lack of fitness for duty back to duty with no  
 (2) consultation at all with the medical department or any  
 (3) Exxon  
 (4) physician although it - a document like this coming into the  
 (5) medical department would usually flow to the doctor that's  
 (6) the  
 (7) contact for that function, Dr Montgomery in this case It  
 (8) would be certainly normal for him to either communicate  
 (9) with  
 (10) shipping verbally depending on the nature of the question  
 (11) from  
 (12) the shipping company or to make some mark on the form  
 (13) itself  
 (14) if he had any question about the physician's - the treating  
 (15) physician's fitness for duty release  
 (16) If he had any question of that, it would be totally normal  
 (17) for him to clarify that question and make some note of it  
 (18) Q And in that context to the best of your recollection what  
 (19) was Dr Montgomery's concern with respect to Captain  
 (20) Hazelwood?  
 (21) A That he hadn't made a clearer note in saying I have  
 (22) called  
 (23) the treating physician and I release this patient fit for duty  
 (24) Q Did he express any concern that - as to whether or not  
 (25) there had been a determination of release for fitness for duty?  
 (26) A I don't believe that was his concern It was just the -  
 (27) the documentation of that  
 (28) MS WAGNER Nothing further Your Honor  
 (29) MS STEWART Your Honor defendants would like to  
 (30) present their examination by videotape  
 (31) CROSS EXAMINATION OF WRENDELL NEALY (Video)  
 (32) BY VIDEO EXAMINER

Vol 14 1957

- (1) Q Are you currently employed Dr Nealy?  
 (2) A Yes  
 (3) Q By whom are you employed?  
 (4) A Ethyl Corporation  
 (5) Q Could you spell that please?  
 (6) A E t h y l  
 (7) Q When were you first employed by Ethyl Corporation?  
 (8) A May 1 '91  
 (9) Q What is your current title with Ethyl Corporation?  
 (10) A I'm a corporate medical director  
 (11) Q Is that the title that you've held since May 1 1991?  
 (12) A Yes  
 (13) Q Pre grounding were you employed in drug testing of Exxon  
 (14) Shipping Company employees - I will be more explicit drug or  
 (15) alcohol testing?  
 (16) A Yes  
 (17) Q Did you have an ongoing concern about the mental and  
 (18) emotional fitness of the seagoing personnel?  
 (19) A The way I take that question to mean did I have some  
 (20) knowledge that made me concerned about other than a  
 (21) general  
 (22) concern that I would have for anyone's fitness emotional or  
 (23) physical to do whatever job, but no, no more concerned  
 (24) about  
 (25) the fleet or seagoing personnel than shore duty personnel  
 (26) or  
 (27) refinery workers or anything else and nothing else that  
 (28) overall  
 (29) fitness for duty unless asked specifically by management to

Vol 14 1958

- (1) evaluate one individual employee on an individual  
 (2) case-by-case  
 (3) basis  
 (4) Q Well you would agree that the seagoing personnel in  
 (5) contrast to shore personnel were out of their let's say  
 (6) day to day work home environment for substantial periods of  
 (7) time Was this a concern of yours?  
 (8) A Well as it relates to - we tended to have - some people  
 (9) shall - let's say that some employee who could work in a  
 (10) refinery situation where we would have accessed medical  
 (11) care  
 (12) rapid access could do that job and could not do the job on a  
 (13) seagoing vessel where he may be at sea even though his  
 (14) tour of  
 (15) duty may be to 20 to 45 days he was rarely away from port  
 (16) over  
 (17) two days, two and a half days Most trips were, you know  
 (18) from  
 (19) San Francisco to Valdez is about five hours, and so you're  
 (20) away  
 (21) from shore adequate medical care is not - you know  
 (22) usually  
 (23) over about two hours if the need is there  
 (24) Q You previously mentioned -  
 (25) A I think of the case of diabetics taken as a  
 (26) representative  
 (27) Go ahead  
 (28) Q I was referring more to emotional and mental fitness of  
 (29) seagoing personnel?  
 (30) A Never had any concern that it was less or that it was there  
 (31) was any restriction - I don't recall any restricting anybody  
 (32) from mental reasons for not sailing because of remoteness

Vol 14 1959

- (1) Q You did mention previously I thought you were going to  
 (2) say - and correct me if I'm misinterpreting your testimony  
 (3) that there was a concern for substance abuse individuals and  
 (4) the remoteness issue?  
 (5) A I'd like to address that by saying in both mental and  
 (6) physician actual, physical mental and emotional stability  
 (7) requirements I never had any concern that there was any  
 greater  
 (8) concern among seagoing fleet than refinery worker  
 population  
 (9) for example  
 (10) Q What about for those individuals who had been an alcohol  
 (11) rehab program?  
 (12) A No, I didn't have any more than I would have had in a  
 (13) refinery population, either  
 (14) Q Is remoteness an issue?  
 (15) A No  
 (16) Q More central to a seagoing personnel rather than a refinery  
 (17) personnel?  
 (18) A But remoteness is not central to alcoholism which a  
 (19) rehabilitated alcoholic who is in recovery I don't believe  
 (20) Q Isn't it environmental?  
 (21) A Environmental is what I was going to respond to  
 (22) Environmental always has a lot of other meaning to me so I  
 (23) need to be specific what you mean by environmental  
 (24) Q You earlier testified that through boredom or perhaps even  
 (25) lack of stress an individual could turn back towards drinking

( 5) one man to try to come see me you know once a month  
 would be

Vol 14 1960

- (1) Is it the - isn't this then a concern of yours for an ongoing  
 (2) for seagoing employees?  
 (3) A The issue of remoteness of the vessel is not synonymous  
 (4) with boredom of the employee on the vessel It's not a very  
 (5) boring job I've sailed ten days and worked as an A B  
 aboard a  
 (6) vessel and time is pretty well taken up They have the  
 (7) usual - it's a more home environment in fact and you have  
 the  
 (8) remoteness can be taken as an advantage because you  
 can't go  
 (9) down to the local bar and if you can't take alcohol on board  
 (10) with you, you're in a pretty controlled environment for a  
 bunch  
 (11) of days  
 (12) Q Did you have any role in reviewing the legitimacy of the  
 (13) rehabilitation program the legitimacy of the leave itself?  
 (14) A In some - in some cases when employees were referred  
 by  
 (15) supervision particularly, supervision wanted me to manage  
 (16) interface with the treatment facility and one of the stated  
 (17) purposes were to make sure that the person was in and  
 getting  
 (18) the required treatment and that I would take broadly to  
 mean  
 (19) they wouldn't get the disability if they weren't complying  
 with  
 (20) medical treatment  
 (21) Q What procedures did you take with respect to the remaining  
 (22) employees newly emerged from alcohol rehab?  
 (23) A Welcome them back encouraged them to come to see me  
 if  
 (24) they had any continuing problems On occasion I recall  
 telling

Vol 14 1961

- (1) appropriate to come check in more often if you have problems
- (2) Q Did you conduct a full medical examination of these individuals?
- (3) A No
- (4) Q When you say welcome them back what did welcoming these employees back entail -
- (5) A Encouragement and support that they had gone through the rehabilitation process and had achieved sobriety and were on the path and encourage them that they had every capability to overcome this and continue to be sober and encourage them to do that, and offering them any support that I could in that regard
- (6) Q You indicated that approximately five refinery rehabbed employees were referred to you
- (7) A No I said the total amount that I saw was five Some of those were not referred to me by management Two of them at least were people who I had referred into rehab and they came back to see me after they got out of rehab
- (8) It wasn't the best of management
- (9) Q The ones that were referred to you at management did you have an understanding as to why management referred these post rehab employees to you?
- (10) A This is again - you skip back to the pre
- (11) Q Yes that's right
- (12) A Okay At the refinery I think more of an administrative

Vol 14 1962

- (1) go by and you know would you see them and more of a perfunctory thing on management's part saying go back through medical and make sure Dr Nealy thinks you're okay
- (2) Q Were you asked to perform a fitness for duty on these individuals?
- (3) A Not specifically no Some of it was to document that I agreed with their return to duty and that didn't require an examination It might have just required talking to them what they had done I recall a particular individual who had been in rehabilitation and when I asked him how many - how long they had been in the rehab facility, it was five days, and I asked why he was out in five days and he said the counselor said he didn't need any more intensive therapy than that and he was okay to be released and I said oh wait a minute let's check that out who was the counselor
- (4) I called him and he said well that's a totally different story than really transpired We told him we absolutely recommended that he not leave the facility, that he wasn't at all ready to go back to work and but that if he - it was his choice and if he did leave the facility we would support him best as an outpatient
- (5) I said no you're not going back to work until you go back and satisfy the counselor that you you know jump through all the hoops and done all the requirements of the program
- (6) And 30 days later he came back and expressed how - what a great

Vol 14 1963

- (1) impact that made on him that he was glad I done that
- (2) Q You have that in front of you?
- (3) A Yes
- (4) Q Specifically I'm referring to the third full paragraph where it says employees - you see this?
- (5) A Yes
- (6) Q That reiterates the policy in fact the confidentiality aspect of the policy?
- (7) A Yes
- (8) Q HAI is the human affairs Were they part of that sir?
- (9) A No-
- (10) Q Who were they?
- (11) A They are the company contracted by Exxon to administer and be the employee health advisory program Our employee assistance program was run by them and their counselors
- (12) Q What could an employee expect once he identified himself to you as having a problem?
- (13) A He could if he - if he accepted the be supported in a rehabilitation program to not lose seniority and not lose his job and he returned to the job without a future career development being threatened by having gone in for rehabilitation
- (14) Q And did that -
- (15) A And/or treatment
- (16) Q Could that employee also expect that whatever medical

Vol 14 1964

- (1) diagnosis may have been relayed to the medical department would be kept confidential?
- (2) A Yes
- (3) Q Now is it true then that even the mere fact that someone was undergoing rehab would be kept confidential itself?
- (4) A Yes As far as the medical department is concerned
- (5) Q Yes
- (6) A We had - our knowledge would not be divulged He may - his supervisor may know that from other places but not from us, and usually I mean obviously the goals in the treatment, in the 12 steps are to admit you have a problem and to admit it to anybody and that you need help including gods, et cetera
- (7) and to be not so confidential but that had to come from the employee but from the medical
- (8) MS STEWART Your Honor due to the miracles of modern technology we've managed to skip part of the disk If you'll bear with us for just a moment we'll go back to the part of the disk that we skipped in this cross examination and take just a moment to fast forward to the spot
- (9) MR SANDERS And we didn't skip that much Your Honor
- (10) MS STEWART Just a moment or two
- (11) MR SANDERS Just to add could we just read it it's just a page
- (12) MR O NEILL Just read it Do you want me to be the

Vol 14 1965

Vol 14 1967

- (1) witness?
- (2) MR SANDERS Sure I'll read you the questions
- (3) MR O NEILL No thanks He's too mean for me
- (4) MS STEWART And when technology fails -
- (5) (The Witness Is Sworn)
- (6) THE WITNESS I do
- (7) THE CLERK Please take a seat and would you state
- (8) your full name?
- (9) THE READER My name is Jim F Sanders
- (10) CONTINUED CROSS EXAMINATION OF WRENDELL NEALY (Read)
- (11) BY MS STEWART
- (12) Q Dr Nealy had any of those employees requested confidence
- (13) when they spoke to you vis a vis their supervisors?
- (14) A They - nobody specifically requested, however, that was
- (15) assumed, I would think, it's my assumption they all
- (16) knew that it was confidential
- (17) Q Do you have this understanding that an individual who
- (18) self-identifies and enters a rehabilitation program will not be
- (19) penalized or punished at Exxon Shipping for entering that
- (20) program?
- (21) A Well I was trying to clarify Self identification
- (22) broadly meaning an employee could decide without telling
- (23) anyone
- (24) they want - they need help and go to a rehabilitation facility
- (25) and come back to work and it's at least possible no one
- (26) would
- (27) ever know that they went into a rehab facility So if that's

- (1) (The Reader Is Sworn)
- (2) THE WITNESS I do
- (3) THE CLERK Please take the stand Would you state
- (4) your full name address and spell your last name please
- (5) THE READER Michael Woerner 1629 204th Avenue
- (6) Northeast Redmond W o e r n e r
- (7) DIRECT EXAMINATION OF MICHAEL EMEL (read)
- (8) BY MR COHEN
- (9) Q Would you state and spell your name for the record?
- (10) A My name is Michael M Emel E m e l
- (11) Q And where is your home?
- (12) A 3626 211th Place Northeast Redmond Washington 98053
- (13) Q Now what's the first vessel you ever worked at?
- (14) A First vessel was the Galveston
- (15) Q So you never worked for any other vessels for any other
- (16) companies other than Exxon?
- (17) A Before I got hired with Exxon I was a chief engineer on a
- (18) private yacht
- (19) Q In 1982 then was the first time you went to work for
- (20) Exxon is that right on the Galveston?
- (21) A Right That would be on the discharge slip, would be the
- (22) specific date
- (23) Q Now did you ever see anyone drinking on an Exxon vessel
- (24) ever?
- (25) A Yes

Vol 14 1966

Vol 14 1968

- (1) what's covered under self identification and if that's what
- (2) you're talking about -
- (3) Q Well in the context of self identifying that I spoke of
- (4) nobody would know it - excuse me That's your answer?
- (5) A You're right In that context of self identifying that I
- (6) spoke of nobody would know it so there wouldn't be
- (7) anything,
- (8) but even if prior to the grounding even if they had identified
- (9) to the company and said I need help and/or the company
- (10) referred
- (11) them to EHAP and on into a rehabilitation facility or if the
- (12) company or supervisor or self or wife referred that person
- (13) because they had quote self identified referred them to
- (14) the
- (15) medical department and the medical department referred
- (16) them to
- (17) a rehab facility in any of those instances would anybody
- (18) receive any punishment for that act alone
- (19) MS STEWART Thank you
- (20) MR SANDERS Thanks Your Honor
- (21) MS WAGNER Is that the end?
- (22) MS STEWART That concludes our cross
- (23) (The reader stepped down )
- (24) THE COURT Thank you Next witness
- (25) MR COHEN Next witness Your Honor will be the
- (26) deposition upon oral examination of Michael Emel
- (27) THE COURT Last name again was -
- (28) MR COHEN Emel E m e l
- (29) THE CLERK Would you raise your right hand please

- (1) Q And when is the last time you ever saw someone drinking on
- (2) an Exxon vessel?
- (3) A A couple of years ago
- (4) Q And which vessel was that?
- (5) A Exxon San Francisco
- (6) Q And who did you see drinking on that vessel?
- (7) A Pump man
- (8) Q The pump man?
- (9) A Yes
- (10) Q You remember his name?
- (11) A No
- (12) Q Was he ever discharged?
- (13) A For drinking?
- (14) Q Yes
- (15) A No
- (16) Q And when did you see him drinking?
- (17) A In his room
- (18) Q Was there anyone else in his room with this pump man at the
- (19) time?
- (20) A Me
- (21) Q Were you drinking?
- (22) A Yes
- (23) Q Now were there ever any occasions on any Exxon vessels
- (24) where in the evenings when all the work was all done you guys
- (25) would get on the fantail or something and you guys would have
- (26) a

Vol 14 1969

- (1) couple of beers?  
 (2) A No  
 (3) Q Generally people if they did drink they just drank in  
 (4) their rooms?  
 (5) A I can't state one way or the other I don't know who  
 (6) you're talking about there but not as a general thing  
 (7) Q You're just not aware of that?  
 (8) A I'm not aware of it  
 (9) Q How often did you drink on vessels?  
 (10) A Occasionally  
 (11) Q Occasionally on every vessel you've worked on?  
 (12) A No, not every vessel  
 (13) Q Most of them?  
 (14) A Maybe half of them  
 (15) Q Did a lot of other people do that?  
 (16) A Not that I was aware of  
 (17) Q Did you usually drink alone?  
 (18) A Yes  
 (19) Q Now other than this pump man on the San Francisco you  
 (20) don't recall ever having a drink with any other individual on  
 (21) an Exxon vessel?  
 (22) A No  
 (23) Q Now the last time we spoke here before the break we were  
 (24) talking about drinking on board and you said that you have on  
 (25) occasions had a drink Now did that ever happen when you  
 were

Vol 14 1970

- (1) in Valdez?  
 (2) A Yes  
 (3) Q On the vessels in Valdez?  
 (4) A Yes  
 (5) Q Did you ever bring any alcohol on board the vessel from the  
 (6) Port of Valdez?  
 (7) A Never  
 (8) Q You know of anyone who ever has?  
 (9) A No  
 (10) Q So when you brought something aboard it was in San  
 (11) Francisco say?  
 (12) A Yes  
 (13) Q Now I think we established previously that you started  
 (14) sailing with Captain Hazelwood on the Valdez let's just call  
 (15) it January of 1989 Do you recall an incident following that  
 (16) time that you went to see Captain Hazelwood about a pay  
 (17) voucher?  
 (18) A Yes  
 (19) Q And where did you see him?  
 (20) A In his office  
 (21) Q Was there anyone else anybody else there?  
 (22) A No  
 (23) Q What was the question about the pay voucher?  
 (24) A I was asking to get a draw on a check to probably go to  
 (25) shore or something, an advancement

Vol 14 1971

- (1) Q And do you remember the time of day?  
 (2) A Probably it was in the evening - no it very possibly  
 (3) could have been around noon or something If I knew I was  
 (4) going to go to shore that afternoon or evening or  
 something I  
 (5) would probably try to get it taken care of before I left So  
 (6) it would probably be around noon or something, afternoon  
 maybe  
 (7) Q Now do you recall during the course of that meeting  
 (8) concluding that Captain Hazelwood had been drinking?  
 (9) A I can't conclude that  
 (10) Q I'm not asking you if you can conclude it now I'm asking  
 (11) you if you at any time or at the time at the time concluded  
 (12) that Captain Hazelwood had been drinking?  
 (13) A I may have thought that he had been drinking  
 (14) Q You did think he had been drinking at the time didn't you?  
 (15) A Yes  
 (16) Q Mr Emel on what did you base that conclusion at that  
 (17) time?  
 (18) A His mannerisms  
 (19) Q Could you be more specific what mannerisms?  
 (20) A His movement  
 (21) Q What kind of movement?  
 (22) A It just seemed slow  
 (23) Q Did his ability to walk seem impaired?  
 (24) Mr Thomas Well I object to the extent it assumes  
 (25) assumes the witness saw the captain walking

Vol 14 1972

- (1) Mr Sherman You can answer the question?  
 (2) A He walked a little different not a lot of bounce in his  
 (3) steps so to speak  
 (4) Q Was your conclusion based in part on his speech?  
 (5) A No just on the way he moved  
 (6) Q Now without wanting to put words in your mouth would it  
 (7) be fair to say that at the time you concluded that he just  
 (8) looked like he'd been drinking?  
 (9) A Yes  
 (10) Q Has your conclusion changed since then?  
 (11) A No  
 (12) Q So you still think as we sit here today back then he  
 (13) looked like he'd been drinking?  
 (14) A Yeah  
 (15) Q Now what is the Westar Terminal?  
 (16) A That's a terminal down in San Francisco where the motor  
 (17) launch comes out and ferries you from the ship to the shore  
 (18) Q Is the launch operated by Westar?  
 (19) A Yes  
 (20) Q It's not an Exxon operation then as far as you know?  
 (21) A As far as I know no  
 (22) Q Now when entering the Westar Terminal at any time prior to  
 (23) getting in the launch is there any security are there any  
 (24) security measures in effect in terms of searches or looking for  
 (25) contraband?

Vol 14 1973

- (1) A No  
 (2) Q To your knowledge were there any such security measures  
 (3) during the time that you sailed on the Valdez starting in  
 (4) January of 1989?  
 (5) A No  
 (6) Q Were there any security checks or searches in place at the  
 (7) Valdez terminal that people had to pass through on returning to  
 (8) the vessel?  
 (9) A Yes  
 (10) Q Do you know why there was such a system in Valdez but not  
 (11) in San Francisco?  
 (12) A No  
 (13) Q You know whether or not there is such a security system in  
 (14) place in San Francisco now?  
 (15) A I have no idea  
 (16) Q In regard to the Valdez run on which you served on those  
 (17) occasions in which you brought alcohol on board where did you  
 (18) bring it on board?  
 (19) A It would be San Francisco  
 (20) Q In all occasions?  
 (21) A Yes if I was in that port  
 (22) Q Sure You don't recall bringing any alcohol anywhere else  
 (23) in any other port in other words?  
 (24) A If the ship went to say maybe Long Beach or something  
 (25) like that or possibly there

Vol 14 1974

- (1) Q Would it be accurate to say that between the time you  
 (2) signed on the Valdez in January of 1989 and the time of the  
 (3) grounding that you consumed roughly a gallon of alcohol?  
 (4) A Yes  
 (5) Q Would you at any time share any of that alcohol with  
 (6) anybody?  
 (7) A No  
 (8) Q And in the same time frame on how many separate occasions  
 (9) did you bring alcohol on board the vessel?  
 (10) A Maybe twice  
 (11) Q Half a gallon at a time?  
 (12) A Yes  
 (13) Q Now just a couple more questions Mr Emel The alcohol  
 (14) that you drank on board the Exxon Valdez was that vodka?  
 (15) A Yes  
 (16) Q Anything but vodka?  
 (17) A No  
 (18) MR COHEN Your witness  
 (19) CROSS EXAMINATION OF MICHAEL EMEL (read)  
 (20) BY MR SANDERS  
 (21) Q Do you ever recall anytime anyone ever getting fired for  
 (22) drinking that worked for Exxon?  
 (23) A Yes  
 (24) Q Who?  
 (25) A I can't recollect any names but I know that there were

Vol 14 1975

- (1) people that were fired  
 (2) Q Any vessels that you were on?  
 (3) A Yes  
 (4) Q Can you think of the vessel?  
 (5) A Exxon Princeton  
 (6) Q Roughly when was that?  
 (7) A I would have to look at my discharge slips to see when I  
 (8) was on the vessel, but there was an individual on that ship  
 (9) that was fired taken off in cuffs for drinking and marijuana  
 (10) Q Do you remember where this happened?  
 (11) A He was taken off in New York I believe He was an older  
 (12) Q You say he was caught with marijuana and with alcohol?  
 (13) A Yes  
 (14) Q Who took him off in cuffs?  
 (15) A The authorities the Coast Guard, I believe Exxon - I  
 (16) don't know who I wasn't -  
 (17) Q Do you recall any other situation where someone was fired  
 (18) for drinking?  
 (19) A I heard of occasions of people being fired for drinking  
 (20) Q What did you hear of?  
 (21) A I heard that a man got fired because of drinking  
 (22) Q Just once or more than once?  
 (23) A A couple of times different people maybe in the same  
 (24) incident or other people, maybe three different occasions  
 (25) where  
 (26) I've heard that people were - that was public knowledge

Vol 14 1976

- (1) through the ESA and through Exxon  
 (2) Q Did you ever hear any of rumors of the Exxon Valdez of  
 (3) people drinking on the vessel?  
 (4) A No  
 (5) Q Did you ever hear of any rumors of any captains or officers  
 (6) having drinks on any other Exxon vessels?  
 (7) A Rumors of it no  
 (8) Q You never saw Captain Hazelwood have a drink on the  
 (9) vessel  
 (10) then I take it?  
 (11) A No  
 (12) Q Not counting yourself during your employment with Exxon  
 (13) how many times approximately do you estimate that you've  
 (14) witnessed other persons drinking on board vessels drinking  
 (15) alcohol?  
 (16) A How many times in an eight year period did I witness  
 (17) somebody else drinking?  
 (18) Q Correct  
 (19) A I can't - a few times  
 (20) Q Does that mean more than ten less than ten?  
 (21) A A few Two three four maybe  
 (22) Q Did you ever witness an officer drinking alcohol on board  
 (23) an Exxon vessel?  
 (24) A No  
 (25) Q Did you ever see any licensed member of the crew drinking  
 (26) on board an Exxon vessel?

Vol 14 1977

- (1) A No  
 (2) Q Did you ever receive either directly or through the mail  
 (3) written copies of Exxon alcohol policies?  
 (4) A I believe when I first started with Exxon we received  
 (5) information along those lines and I've received more than  
 (6) one  
 (7) thing pertaining to those things, yes I think that I have  
 (8) another letter I can recall another letter at some point in  
 (9) time restating the drug and alcohol/substance-abuse-type  
 (10) things  
 (11) on Exxon vessels  
 (12) Q Restating? Did you say restating or reinstating?  
 (13) A Restating, just in case you forgot  
 (14) Q Let me back up a little bit Mr Emel I want to refer  
 (15) again to the time you went to Captain Hazelwood's quarters in  
 (16) regard to the pay voucher question After reaching the  
 (17) conclusion about which you've testified already did you report  
 (18) that to any other person employed by or associated with Exxon?  
 (19) A No  
 (20) Q Did you ever subsequent to that time have any discussions  
 (21) with Exxon management about that issue?  
 (22) A No One thing when I observed the captain I'm no  
 (23) expert  
 (24) on the condition of a person you know I don't know one  
 (25) way or  
 (26) the other with just an observation I'm no expert in saying a  
 (27) man is one way or the other It may have been his natural  
 (28) habits I don't know It was an observation I made He may  
 (29) have been just fine, he may or may not have been It was an

Vol 14 1978

- (1) observation I can't conclude one way or the other on that if  
 (2) he was or wasn't or if he had or had not been drinking  
 (3) Q But you concluded at the time that he had been drinking  
 (4) correct?  
 (5) A Yeah  
 (6) MR SANDERS That's all we have Your Honor  
 (7) (The Reader stepped down)  
 (8) MS WAGNER Your Honor plaintiffs call William  
 (9) Masciarelli by witness and the witness is coming to the  
 (10) stand I'm going to get Plaintiffs Exhibit 847 it's the chart  
 (11) of Prince William Sound  
 (12) THE CLERK Will you raise your right hand?  
 (13) (The Reader Is Sworn)  
 (14) THE CLERK Please be seated  
 (15) For the record state your full name address and spell  
 (16) your last name  
 (17) THE READER Barry Klinkhardt 100 North Broadway  
 (18) St Louis Missouri It s K l i n k h a r d t  
 (19) DIRECT EXAMINATION OF WILLIAM MASCIARELLI (read)  
 (20) BY MS WAGNER  
 (21) Q Please state your name and your home address?  
 (22) A William Masciarelli 1409 Northeast Boat Boat Street  
 (23) Seattle 98105  
 (24) Q What age are you?  
 (25) A 47

Vol 14 1979

- (1) Q Can you describe the license you have for the record?  
 (2) A Well it's a third mate's license issued by the Coast  
 (3) Guard It was issued in 1986 It is my first third mate's  
 (4) license  
 (5) Q Can you start with your education and bring us up to - in  
 (6) other words could you start with high school? You graduated  
 (7) from high school?  
 (8) A I graduated from high school attended a four-year  
 (9) college  
 (10) graduated from college  
 (11) Q What college?  
 (12) A Fordham University Fordham College in New York  
 (13) Q Now from 1981 to the present can you run through your  
 (14) employment?  
 (15) A Exxon Shipping Company until - I have to get the right  
 (16) date I guess October 10th of 1990  
 (17) Q Are you employed by Exxon today?  
 (18) A No I'm not  
 (19) Q Have you been employed by Exxon since October 10 1990?  
 (20) A No I haven't  
 (21) Q Do you still hold your third mate's license?  
 (22) A Yes I do  
 (23) Q Did you pass celestial the second time? What was the time  
 (24) period there - I don't know whether you told us before when  
 (25) did you get your third mate's license?  
 (26) A '86 I believe

Vol 14 1980

- (1) Q You sailed with Captain Hazelwood?  
 (2) A I sailed with Captain Hazelwood  
 (3) Q Is that the only time you sailed with Hazelwood?  
 (4) A No I was with him for I think about three days in San  
 (5) Francisco We have to look at the discharges, but -  
 (6) Q What year?  
 (7) A Just a month before the Valdez went aground, so January  
 (8) of  
 (9) 1989  
 (10) Q You say you were with him for three days Was that in  
 (11) port?  
 (12) A It was in port I was the third mate on the Valdez for -  
 (13) I think about a month and then was transferred from the  
 (14) Valdez  
 (15) to the Exxon Baton Rouge and Greg Cousins came on board  
 (16) to  
 (17) relieve me on the Valdez, and it was Captain Hazelwood  
 (18) came on  
 (19) the ship after the Valdez had arrived in San Francisco and I  
 (20) was with him - it might have been only been two days It  
 (21) might have been three days before I was transferred also in  
 (22) San  
 (23) Francisco to the Baton Rouge  
 (24) Q Do you remember what month that was?  
 (25) A I can tell you the exact date if you want  
 (26) Q Mr Gerry January 20 to February 20?  
 (27) A Well the date I got off the Valdez was February 20th  
 (28) Captain Hazelwood I don't know when Captain Hazelwood  
 (29) joined  
 (30) It might have been February 18th or 19th So we had two  
 (31) days  
 (32) together

Vol 14 1981

- (1) Q So it was in February?
- (2) A In San Francisco in February, yeah
- (3) Q Did you have occasion to see him during that three day period?
- (4) A I did I did I saw him every day
- (5) Q More than one time a day?
- (6) A Yes
- (7) Q Did you see him aboard the vessel or ashore or both?
- (8) A Only aboard the vessel
- (9) Q Did you see him in his cabin?
- (10) A No, I didn't Well, not that I remember I remember specifically seeing him at dinner on the bridge, in the officer's lounge I don't know if he was in his cabin
- (11) Q Was there any time during this period that you made a judgment that he was impaired Hazelwood?
- (12) A Well, Captain Hazelwood was ashore for part of the time and had come back to the ship It seemed to me that he had been drinking I don't know about impaired I never saw him his work so -
- (13) Q Maybe it's what -
- (14) A So I didn't have any standard to say was he impaired to walk down the corridor or to drive a car or to pilot a ship
- (15) Q When you made the judgment you said it seemed to you that he had been drinking What factors were involved that you reached that conclusion?

Vol 14 1982

- (1) A Gee I'm trying to picture him He looked like somebody who had been drinking
- (2) Q Did you ever during this three day period see any alcohol or beer aboard the vessel?
- (3) A Well I did And that was the only - that - and that was the one time I had alcohol myself on the ship Captain Hazelwood offered me a glass of wine and I took it and drank a glass of wine with him
- (4) Q And what were the circumstances of this offering you a glass of wine where did it take place?
- (5) A We were in the chart room In the back of the bridge I should say the ship was at anchor there was nothing going on on the ship at that time
- (6) Q You were at anchor outside San Francisco or in San Francisco Bay?
- (7) A In San Francisco Bay
- (8) Q When you went in the chart room were you in there by yourself with Hazelwood?
- (9) A Yes
- (10) Q Did Hazelwood have a bottle of wine there in the chart room so that he could offer you a drink?
- (11) A I don't remember if he had two glasses of wine that he had brought up, say, to the bridge or whether he had two empty glasses and a bottle I don't remember
- (12) Q Did you accept?

Vol 14 1983

- (1) A I did
- (2) Q And did you have just the one drink with him?
- (3) A I did
- (4) Q How long did that session take place roughly a few minutes or -
- (5) A It could have been a half hour We were just talking and -
- (6) Q Now did Hazelwood have more than one glass of wine during that half hour period?
- (7) A He didn't
- (8) Q Did you other than this wine during the three day period see any beer or any alcohol aboard the vessel?
- (9) A I didn't
- (10) Q When Hazelwood offered you this glass of wine did he indicate to you what were the circumstances of why he was doing this just to be social or for what?
- (11) A He didn't indicate, but Captain Hazelwood and I liked one another very much and from my point of view it might have been a friendly gesture
- (12) Q Was there any indication to you when he offered this to you that he had been drinking before this?
- (13) A Not at all
- (14) Q Let's talk about Prince William Sound and Valdez Arm
- (15) When you were standing the third mate watch in Valdez was it ever going into Valdez?

Vol 14 1984

- (1) A Yes
- (2) Q And what about coming out?
- (3) A Also
- (4) Q Now how many times in your career did you go into Valdez and come out of Valdez with Exxon on any vessels?
- (5) A As third mate or able seaman also
- (6) Q Let's just stay with third mate for a while then we'll get all the rest
- (7) A Let me just take a look
- (8) Q Just approximately
- (9) A Somewhere between seven and ten times
- (10) Q That would be trips there?
- (11) A One way, either in or out
- (12) Q I see That you actually stood a watch either in or out?
- (13) A That's right So we could say 14 times in and out
- (14) Q And now that's as of third mate Whatever overall [sic] in your experience into Valdez not as a third mate? Had you been up there numerous times?
- (15) A Many times Probably 20 or 30 times
- (16) Q When you were in Valdez and you came out and the pilot was dropped at Rocky Point from that point while you were still in the traffic separation scheme - you would still be in the traffic separation scheme is that correct?
- (17) A Yeah there were a couple times when we might not have been because of ice

Vol 14 1985

- (1) Q Just take in general from that point to past Bligh Reef  
(2) down in this sector here Was the captain always on the bridge  
(3) while you were serving as third mate on watch?  
(4) A To the best of my recollection he was  
(5) Q That is Watch Type C as far as Exxon is concerned?  
(6) A Yes  
(7) Q So coming in and going out while you were in the traffic  
(8) separation scheme in the area we re describing would you  
(9) agree  
(10) that Exxon s policy is there should be two officers on the  
(11) bridge?  
(12) A Yes I would  
(13) Q In addition to the pilot when the pilot comes aboard too  
(14) is that correct it s Watch Type C - let me rephrase it  
(15) Watch type C might embrace a period of time when the pilot  
(16) is aboard and when he s not aboard isn t that correct? You  
(17) could still be coming into the port before you picked the pilot  
(18) up?  
(19) A Yes it's true The Exxon manual as far as I remember  
(20) and  
(21) as I see here doesn't mention whether or not the pilot's on  
(22) board  
(23) Q But in your opinion as a third mate do you think it s  
(24) proper for the captain to be on the bridge except for when he  
(25) has to go to the bathroom or get binoculars for a brief period  
(26) of time for the period he s coming in or going out of the  
(27) Valdez for the brief period when I ve been describing?

Vol 14 1986

- (1) A Yes  
(2) Q Have you ever as a third mate with Exxon on the Exxon  
(3) Valdez or any other vessel even when you were sailing A B  
(4) have you ever seen the captain leave the bridge for a  
(5) substantial period of time meaning for over an hour during  
(6) this passage that we ve been describing with the pilot on the  
(7) bridge?  
(8) A Not that I can recall  
(9) Q Would you agree with me for that to happen that would be  
(10) unusual?  
(11) A In my experience it would have been unusual  
(12) Q Well what I simply wanted to know is the situation of  
(13) having a third mate up here by himself with no senior officer  
(14) there number one required by Watch Condition C which you  
(15) agreed to and without the captain there would you agree that  
(16) that s unusual?  
(17) A I would agree it's unusual although as I said there might  
(18) have been circumstances where a captain might have  
(19) stepped off  
(20) the bridge to go down to his office to get his binoculars or  
(21) something So if I were on the bridge and that circumstance  
(22) had happened I might have been surprised but it wouldn't  
(23) have  
(24) been unprecedented  
(25) However and I have to say given the conditions that  
(26) might, I would have been very surprised  
(27) Q And then if we add the fact to it that you re not only left

Vol 14 1987

- (1) up there by yourself but I want you to assume what about the  
(2) condition if you re left up there by yourself and then you  
(3) were instructed to maneuver while the captain was not on the  
(4) bridge in that same area where Watch Condition C is supposed  
(5) to  
(6) be in effect?  
(7) A Even in those circumstances if it was a clear night and  
(8) no  
(9) ice in the traffic lanes it would have been very, very  
(10) unusual and I would have scratched my head and say - and  
(11) said gee what's going on But I wouldn't have been  
(12) shocked  
(13) at the circumstance  
(14) Q Now if you re going to leave the entire scheme - you  
(15) never did that is that correct?  
(16) A Never did  
(17) Q Would it be your understanding you would have to report  
(18) that to the vessel traffic center?  
(19) A Yeah Actually on the way in We did leave the entire  
(20) scheme at one time south of Bligh Reef because of ice that  
(21) had  
(22) drifts south and we were out of the scheme to the east  
(23) instead  
(24) of the separation scheme and we notified them about that  
(25) Q Are you familiar with the load up program of the engine?  
(26) A Yes  
(27) Q And can you just describe briefly for the record what is  
(28) the load up program?  
(29) A Well it's a computer driven speed increase on the diesel  
(30) designed to put least wear and tear on the diesel as it  
(31) comes

Vol 14 1988

- (1) to sea speed  
(2) Q And it s done automatically as soon as you set the vessel  
(3) [sic] in force?  
(4) A Yes  
(5) Q In your experience going into Valdez and coming out of  
(6) Valdez - let s narrow it down Ever on your trips coming out  
(7) of Valdez while you were on watch was the load up program  
(8) put  
(9) in place while you were still up in an area above Bligh Reef?  
(10) A I don't remember  
(11) Q You don't know whether that would be unusual or not?  
(12) A My sense is that it would not that on other ships that I  
(13) was on they would start to come up to sea speed as soon as  
(14) they  
(15) could as soon as the pilot was dropped  
(16) Q How about the ice conditions? Would that change it if I  
(17) asked you the same question with ice conditions putting the  
(18) vessel into load up program into place when the pilot is  
(19) dropped?  
(20) A I don't remember ever seeing that happened  
(21) Q Do you remember whether you felt overworked?  
(22) A I often felt tired  
(23) Q Is that because you had worked more than say an  
(24) eight hour day?  
(25) A Yes  
(26) Q And can you give me any idea within a 24 hour period of how  
(27) many hours you might work?

Vol 14 1989

- (1) **A It's difficult to say because it depended on upon - it**  
 (2) **depended on where on my watch or where my watch fell and**  
 (3) **the**  
 (4) **time the ship arrived in Valdez If I was on watch on the**  
 (5) **bridge and the tying up took place during a normal work**  
 (6) **period**  
 (7) **for me and the strain of being in port wouldn't be as great**  
 (8) **If I was asleep and was called out to go on watch and then**  
 (9) **sent**  
 (10) **back to sleep and then called to go on my cargo watch and**  
 (11) **then**  
 (12) **back to sleep and then called at a sleep break to help let the**  
 (13) **ship go, then it could get to be quite a strain**  
 (14) **Q What about the chief mate the hours he worked as you**  
 (15) **observed when you were in Valdez when the vessel was in port?**  
 (16) **Can you give me an idea of the hours he worked?**  
 (17) **A Well I can't He was the man responsible for everything**  
 (18) **Ultimately he had to be on deck when cargo was started,**  
 (19) **when it**  
 (20) **ended, any problems that came up So he worked harder**  
 (21) **than I**  
 (22) **did I can't tell you exactly**  
 (23) **Q Would you agree that of the officers on turn around the**  
 (24) **chief mate was - probably works the longest hours?**  
 (25) **A Without question**  
 (26) **Q Do they juggle his watch at all his sea watch because of**  
 (27) **this knowledge that he's going to have to work long hours on**  
 (28) **the turn around in port?**  
 (29) **A Well as I said on the way out the captain often stood his**  
 (30) **sea watch on the way out to make up for the fact that he had**  
 (31) **been exhausted in the port turn around As far as on the**  
 (32) **way**

Vol 14 1990

- (1) **in I don't recall any instances which he was given more**  
 (2) **sleep**  
 (3) **where they tried to prepare him**  
 (4) **Q While we were on the subject of juggling watches in your**  
 (5) **experience with Exxon on any of their vessels was there any**  
 (6) **juggling of watches done other than what you've described with**  
 (7) **the chief mate because of overworked conditions of the officers**  
 (8) **involved?**  
 (9) **A Yeah It wasn't at all unusual for someone who had an**  
 (10) **easy**  
 (11) **turn around - for example if I had been the one who had the**  
 (12) **easy turn around in Valdez - to stay on the bridge longer to**  
 (13) **allow my relief whether it was the chief mate or the second**  
 (14) **mate to get some more sleep if I knew he had [sic] had a lot**  
 (15) **of sleep, so I might hold over a couple of hours into the**  
 (16) **departure**  
 (17) **Q Was that a common practice would you say?**  
 (18) **A Yeah It wasn't unusual**  
 (19) **Q Was that individually done so that the - or in other**  
 (20) **words what sort of arrangement is made on that just between**  
 (21) **the two officers themselves the one who's to be relieved and**  
 (22) **the one who is relieved?**  
 (23) **A Yeah Often there's no arrangement at all just the**  
 (24) **officer on the bridge doesn't bother to call his relief**  
 (25) **because**  
 (26) **he knows his relief has had a hard turn around**  
 (27) **Q Would the captain be advised of this to see if he arrived?**  
 (28) **A In all of my experience the captain was on the bridge at**

Vol 14 1991

- (1) **the time**  
 (2) **Q Let me talk about fatigue a little bit In your opinion**  
 (3) **was fatigue among deck crew a problem on Exxon oil tankers?**  
 (4) **A What do you mean by "deck crew"?**  
 (5) **Q Let me first limit it to deck officers**  
 (6) **A Yes**  
 (7) **Q Was fatigue in your opinion a problem with regard to deck**  
 (8) **officers?**  
 (9) **A Yes**  
 (10) **Q Just for clarity when we talk about deck and crew - when**  
 (11) **we talk about deck crew and deck officers the deck officers**  
 (12) **would be who the first second and third mates?**  
 (13) **A Chief mate second mate third mate**  
 (14) **Q The deck crew would be constituted as who?**  
 (15) **A The six A B's**  
 (16) **Q In your opinion did deck officers experience fatigue from**  
 (17) **overwork?**  
 (18) **A In some circumstances yes In other circumstances -**  
 (19) **well**  
 (20) **always from overwork, yes**  
 (21) **Q When you say that you feel fatigue among deck officer crew**  
 (22) **[sic] was a problem in what way was it a problem?**  
 (23) **A Well, that led to lower - I don't know how to say it**  
 (24) **Lessened people's ability to work safely I guess is the thing**  
 (25) **to say**  
 (26) **Q In your view was it primarily a safety issue?**

Vol 14 1992

- (1) **A Yes**  
 (2) **Q You may have answered this Was it your testimony that you**  
 (3) **don't recall the autopilot ever being utilized in Prince**  
 (4) **William Sound when you were on board?**  
 (5) **A That's correct**  
 (6) **Q But based on your experience in transiting Prince William**  
 (7) **Sound the Exxon vessels involved in those transits utilized**  
 (8) **the vessel traffic center on the VTS?**  
 (9) **A I don't know what you mean by "utilized"**  
 (10) **Q Did they rely on them to get information?**  
 (11) **A The only information we had relied on them for was ice**  
 (12) **conditions**  
 (13) **Q Was there ever any time that an Exxon vessel relied on the**  
 (14) **vessel traffic center for information about where they were in**  
 (15) **the Sound?**  
 (16) **A Never**  
 (17) **Q Let's factor in your observation yesterday that Kagan**  
 (18) **needed supervision and your observation that in the normal**  
 (19) **course of your changeover with Cousins you would have told**  
 (20) **Cousins that can you still imagine Cousins had he done things**  
 (21) **properly would not have picked up on the fact that Kagan**  
 (22) **failed to make a course change in six minutes?**  
 (23) **A I'll tell you that I can imagine the circumstances Kagan**  
 (24) **and Greg hadn't been together very long at that point as far**  
 (25) **as I can tell And let me say that I'm not simply trying to**

Vol 14 1993

(1) defend a fellow third mate, I can imagine the fact that the  
 (2) concern with the ice was so overwhelming that he would not  
 have  
 (3) checked that rudder angle indicator  
 (4) Now in my trips into and out of and I did a lot of trips  
 (5) in the two months prior to the grounding on both the Valdez  
 and  
 (6) the Baton Rouge the captain was the guy who watched the  
 ice  
 (7) and I got to do everything else which included looking at  
 that  
 (8) rudder angle indicator The third mate's job is to do that  
 (9) when the captain is taking care of conning the ship or  
 making  
 (10) sure the ship isn't running into anything  
 (11) When the captain or pilot is not on board and the third  
 (12) mate has to do everything else it's very conceivable to me  
 (13) that that is one of the things that the third mate wouldn't  
 (14) follow up on  
 (15) Q Are you saying Cousins had too much to do on board the  
 (16) bridge that night?  
 (17) A Yes yes  
 (18) Q One of the reasons let's assume that he did not realize -  
 (19) let's assume first of all that the course command that he gave  
 (20) was not carried out by Kagan and let's assume he didn't pick  
 (21) it up - pick that up for six minutes What I asked him I think  
 (22) was is one of the reasons he didn't pick it up because he was  
 (23) too busy with other tasks?  
 (24) A I believe that's the case  
 (25) Q And is the reason that he was too busy with other tasks

Vol 14 1994

(1) because Captain Hazelwood was not on the bridge?  
 (2) Do you remember the question now or do you want it read  
 (3) back again?  
 (4) A Well I think you're asking was the reason that I think the  
 (5) third mate was overworked the fact that the captain was not  
 on  
 (6) the bridge I can only say that if I had been on the bridge  
 (7) in those circumstances and I was five or six times in the two  
 (8) months prior with that much ice if my captain had left the  
 (9) bridge because he - in both cases with two captains they  
 had  
 (10) been looking at the radar while I did everything else If the  
 (11) captain had not been on the bridge I would have felt  
 (12) overwhelmed  
 (13) Q Under those circumstances as you understand them?  
 (14) A Yes  
 (15) Q Based on your experience as a third mate and based on the  
 (16) knowledge that you have of the facts and circumstances that  
 (17) took place that night could fatigue have been a factor in  
 (18) Cousin's performance?  
 (19) A I can imagine that it would have been yes Might have  
 (20) been  
 (21) MS WAGNER Nothing further Your Honor  
 (22) THE COURT Cross?  
 (23) MR SANDERS Just briefly Your Honor  
 (24) CROSS EXAMINATION OF WILLIAM MASCIARELLI (read)  
 (25) BY MR SANDERS

Vol 14 1995

(1) Q When you were a crew man sailing with Hazelwood did you  
 (2) ever observe him to be impaired within four hours of leaving  
 (3) port when he was standing watch?  
 (4) A No I never did  
 (5) Q Did you ever drink ashore with Hazelwood?  
 (6) A Never did  
 (7) Q Did you ever see him drinking ashore?  
 (8) A No  
 (9) Q And the only time you drank with him was the one you have  
 (10) testified to the wine?  
 (11) A Yes  
 (12) Q Did you ever hear from the other officers or crew members  
 (13) any rumors or any statements concerning Hazelwood being  
 (14) impaired?  
 (15) A Never  
 (16) Q Did you have any knowledge when you spent those three  
 days  
 (17) with him that Hazelwood had been in a rehab program?  
 (18) A No  
 (19) Q What is Exxon's policy as you understand it concerning  
 (20) drinking on board?  
 (21) A That there is none  
 (22) Q Would you mind reading that again I think the accent is on  
 (23) the last word?  
 (24) A That there is none  
 (25) Q And it was Greg Cousins that replaced you on the 20th of

Vol 14 1996

(1) February?  
 (2) A That's correct  
 (3) Q Where did that replacement take place?  
 (4) A San Francisco Bay at anchor  
 (5) Q Did you meet Mr Cousins at the time?  
 (6) A Yes  
 (7) Q Did you have any conversations with him?  
 (8) A Yes  
 (9) Q What was the nature of the conversation?  
 (10) A Oh what the assignment had been like let's see let me  
 (11) think a second There's a standard conversation that takes  
 (12) place between officers when they're relieving one another  
 (13) Anything special in the equipment on the bring, anything  
 not  
 (14) functioning, anything I should know about in the cargo  
 system  
 (15) anything special about the crew that I should know about,  
 so  
 (16) just basically turning over the job  
 (17) Q There's a standard conversation when one officer replaces  
 (18) another on the vessel?  
 (19) A When I say "standard conversation" there are areas that  
 you  
 (20) could have been yeah  
 (21) Q So we're not talking about just watch changes  
 (22) A No I'm talking about replacing  
 (23) Q Do you remember any particular concerns that Mr Cousins  
 (24) passed on to you during the course of that conversation?  
 (25) A No

Vol 14 1997

Vol 14 1999

- (1) Q Do you remember any particular specifics about the
- (2) conversation?
- (3) A No
- (4) Q Mr Cousins has testified on a couple of occasions
- (5) previously that he let the second mate Lloyd LeCain sleep
- (6) in Have you ever been in the times that you have left the
- (7) Port of Valdez has it ever been during the 8 to 12 watch?
- (8) A Oh, yes
- (9) Q So you were the watch officer on the bridge?
- (10) A Yes
- (11) Q Had you ever left your relief - had you ever let your
- (12) relief sleep in late?
- (13) A I have
- (14) Q Would you say that is uncommon or common?
- (15) A I would say that it's not uncommon
- (16) Q Why did you leave Exxon?
- (17) A I was terminated by Exxon Shipping Company
- (18) Q So your leaving was not voluntary?
- (19) A That's correct
- (20) Q Does that mean you were fired?
- (21) A Yes
- (22) MR SANDERS No further questions
- (23) THE COURT You may call your next witness
- (24) (The Witness Stepped Down)
- (25) MR MONTAGUE Your Honor plaintiffs call as their

- (1) A We've been in existence as a firm like this since 1975
- (2) Q Okay And what is your position in that firm?
- (3) A I'm the vice-president and general manager
- (4) Q Okay Could you please give us sort of a rundown of your
- (5) formal education?
- (6) A I went to college in - I started going to college in
- (7) 1977 I went to Virginia Tech which is in Lakesburg (ph),
- (8) Virginia I studied aerospace engineering While I was
- (9) going
- (10) to college, I was also in co op program, work study program
- (11) and I worked for alternating quarters I worked for a
- (12) company
- (13) named MAR Incorporated a firm that dealt with the
- (14) analysis of
- (15) and design in ocean related problems mostly for U S Navy
- (16) I
- (17) graduated in 1982
- (18) In 1982 I started working for the American Bureau of
- (19) Shipping The American Bureau of Shipping is sort of like
- (20) the
- (21) FAA, the Federal Aircraft Administration, for shipping, but
- (22) they set standards for the construction of ships I worked
- (23) for
- (24) the American Bureau of Shipping until 1984
- (25) In 1984 I moved to Newport Rhode Island where I started
- (26) working for a firm named Johan Valentju Incorporated
- (27) Johan
- (28) Valentju Incorporated was a design firm and they were - at
- (29) that time they were involved with the design of American
- (30) Cup
- (31) sailboats and I worked for that firm as an engineer too
- (32) And
- (33) when the America s Cup was over in 1988 I started working
- (34) for
- (35) Martin - at that time Francis Martin, Ottaway and Van
- (36) Hemmen

Vol 14 1998

Vol 14 2000

- (1) next witness as an expert Mr Rick Van Hemmen
- (2) THE CLERK Would you raise your right hand?
- (3) (The Witness Is Sworn)
- (4) THE CLERK Please be seated
- (5) For the record sir state your full name and your address
- (6) THE WITNESS My name is Hendrik Van Hemmen My
- (7) address is 50 Statestur (ph) Place Middletown New Jersey
- (8) The zip code is 07701 and my last name is spelled V a n s p a c e
- (9) H e m m e n
- (10) THE CLERK Thank you sir
- (11) DIRECT EXAMINATION OF HENDRIK VAN HEMMEN
- (12) BY MR MONTAGUE
- (13) Q Good morning Mr Van Hemmen?
- (14) A Good morning sir
- (15) Q Could you tell the jury a little bit about your employment?
- (16) A I work for Martin Ottaway and Van Hemmen I am an
- (17) engineer
- (18) and our firm deals with marine transportation problems
- (19) Q Could you be more explicit as to what your firm does?
- (20) A Yes we're a marine consulting firm We work for
- (21) underwriters and for attorneys for ships owners and for
- (22) investors and we get engaged to analyze problems in
- (23) marine
- (24) transportation They could be collisions or they could be
- (25) groundings They could be structural failures They could
- (26) be
- (27) problems relating to the operation of ships
- (28) Q And how long has that firm been in existence?

- (1) Q Are you a registered professional engineer?
- (2) A Yes, sir
- (3) Q In what venue?
- (4) A I'm registered as a professional engineer in the state of
- (5) New York
- (6) Q Now again could you tell us since you have joined the
- (7) Martin Ottaway firm what is it - do you have a specialty?
- (8) A Within the firm the firm consists of many different
- (9) specialties and we have people that have experience in
- (10) operating ships, both on board the ship and from the shore,
- (11) and
- (12) we have people that deal with regulations construction
- (13) regulations or safety regulations And within the firm I deal
- (14) with analytic issues that is investigation calculations
- (15) point of view
- (16) Q Are you a forensic engineer?
- (17) A Yes sir
- (18) Q And could you tell the jury what sort of things that a
- (19) forensic engineer is called upon to do?
- (20) A Well a forensic engineer - as a member of the National
- (21) Academy of Forensic Engineers which is an organization
- (22) which
- (23) has certain requirements for a member to be able to join
- (24) which
- (25) includes having prepared cases for court testimony actual
- (26) court testimony and certain academic background
- (27) requirements
- (28) the - most of that is to be a registered professional
- (29) engineer

Vol 14 2001

- (1) **And forensic engineer investigates disasters investigates**  
 (2) **problems that take place in engineering systems**  
 (3) **Q As part of that do you try to simultaneous problems or**  
 (4) **recreate problems or the movement of vessels?**  
 (5) **A Yes sir**  
 (6) **Q And have you done that as part of your duties in the past?**  
 (7) **A Yes sir**  
 (8) **Q Okay Have you testified as an expert before?**  
 (9) **A Yes sir**  
 (10) **Q And can you tell us on what subject?**  
 (11) **A Collisions sinkings capsizings structural failure**  
 (12) **Q And in so testifying were you using those skills of a**  
 (13) **forensic engineer as you just described them?**  
 (14) **A Yes sir**  
 (15) **Q Could you tell us some of the - some of the examples of**  
 (16) **the work that you do as it relates to specific incidents or**  
 (17) **specific vessels?**  
 (18) **A We sit in our office and we get called by a client and the**  
 (19) **client says, well might have a ship that has hit an iceberg, I**  
 (20) **would like you to go - this might be a ship owner - would**  
 (21) **like you to go out and investigate the cause and if you**  
 (22) **properly document the damage so we can make a**  
 (23) **presentation to**  
 (24) **underwriters or we can deal with subsequent actions that**  
 (25) **might**  
 (26) **be related to his problem**  
 (27) **Or I might be asked by an underwriter to go on board a ship**

Vol 14 2002

- (1) **that has run aground to make sure the ship comes off the**  
 (2) **obstacle that it ran onto That would require engineering -**  
 (3) **you know engineering skills investigations as to how the**  
 (4) **ship**  
 (5) **was off ground what type of flotation a ship has what would**  
 (6) **be a proper route for getting the ship off the rocks**  
 (7) **Q Have you ever been a salvage master?**  
 (8) **A Yes sir**  
 (9) **Q Could you tell us what a salvage master is?**  
 (10) **A A salvage master is a semi official term What happens**  
 (11) **ship is on the rocks and many people interested in getting**  
 (12) **the**  
 (13) **ship off the rocks, and quite often there's somebody will**  
 (14) **say,**  
 (15) **I want somebody to be in charge and then there's a general**  
 (16) **agreement as to who will be the person in charge and that is**  
 (17) **called the salvage master**  
 (18) **Q And that is somebody other than the master of the vessel?**  
 (19) **A Yes sir It is the person who directs the salvage effort**  
 (20) **Q By the way you're not a licensed mariner are you?**  
 (21) **A No, sir**  
 (22) **Q Okay Have you ever heard the term discharge**  
 (23) **calculations ?**  
 (24) **A Yes sir**  
 (25) **Q Do you do discharge calculations?**  
 (26) **A Not on a regular basis as like on board a ship, but we do**  
 (27) **the discharge calculation when a ship has a problem**  
 (28) **Q Could you tell the jury what discharge calculations are?**

Vol 14 2003

- (1) **A A ship is - only has limited strength When a ship is**  
 (2) **being loaded with cargo you cannot put the cargo all on one**  
 (3) **tank and ignore the rest of the ship The ship gets**  
 (4) **overstressed then It's important that the cargo gets**  
 (5) **brought**  
 (6) **in in the right place at the right time so you don't overstress**  
 (7) **the ship And these calculations organizing this type of**  
 (8) **discharge or loading is called loading or discharge**  
 (9) **calculations**  
 (10) **Q Now Mr Van Hemmen do you teach?**  
 (11) **A-Yes sir**  
 (12) **Q Could you tell us where you teach and what you teach?**  
 (13) **A I teach marine surveying at the College of Insurance in**  
 (14) **New**  
 (15) **York City**  
 (16) **Q Okay And what is marine surveying?**  
 (17) **A Marine surveying marine surveying is the inspection of**  
 (18) **ships for - with regard to their condition or with regard to a**  
 (19) **certain amount of damage they have**  
 (20) **Q Okay At our request in this case have you undertaken a**  
 (21) **study of the use of the Exxon Valdez's engine and its**  
 (22) **movements**  
 (23) **after it ran aground at Bligh Reef?**  
 (24) **A Yes sir**  
 (25) **Q And in doing so did you use the skills and the expertise**  
 (26) **that you've described?**  
 (27) **A Yes sir**  
 (28) **MR MONTAGUE Your Honor I would offer Mr Van**

Vol 14 2004

- (1) **Hemmen as an expert naval architect and engineer as a**  
 (2) **forensic**  
 (3) **engineer for the purposes that I just described in the last**  
 (4) **question**  
 (5) **MR CHALOS Your Honor we have a serious doubt about**  
 (6) **his expertise and qualifications but I would like to save that**  
 (7) **for cross I'll let him in at that point**  
 (8) **VOIR DIRE EXAMINATION OF HENDRIK VAN HEMMEN**  
 (9) **BY THE COURT**  
 (10) **Q Mr Van Hemmen what is your degree?**  
 (11) **A It's a bachelor of science degree in aerospace and ocean**  
 (12) **engineering**  
 (13) **Q Do you have any advanced degrees?**  
 (14) **A No sir**  
 (15) **Q Tell me something about your experience in the area of**  
 (16) **marine architecture**  
 (17) **A I presume you mean the term "naval architecture"**  
 (18) **Q If that's the word yes**  
 (19) **A My experience is that I am - I in my aerospace and ocean**  
 (20) **engineering training, I dealt with naval architecture on a**  
 (21) **daily basis The course that I took is really a vehicle design**  
 (22) **course and it deals in the vehicle in the air below, the**  
 (23) **ocean or the interface So the - so that's my training and**  
 (24) **then working for MAR, Incorporated I dealt with naval**  
 (25) **architectural issues almost daily Working for the American**  
 (26) **Bureau of Shipping those two years I would say this wasn't**

Vol 14 2005

- (1) necessarily the case daily Naval architecture they were a  
 (2) little more disconnected because it dealt with more  
 machinery  
 (3) items  
 (4) With Johan Valentju, Incorporated I dealt with naval  
 (5) architecture issues on almost a daily basis In other words  
 I  
 (6) designed ships, I dealt with calculations, hydrostatic  
 (7) calculations, discussions with classification societies  
 (8) construction supervision the welding of ships and things  
 like  
 (9) that  
 (10) Then I started working for Martin & Ottaway and again I  
 (11) deal with naval architecture almost daily  
 (12) THE COURT Okay I will accept the witness  
 (13) qualifications as a naval architect  
 (14) MR MONTAGUE Thank you Your Honor  
 (15) RESUMED DIRECT EXAMINATION OF HENDRIK VAN  
 HEMMEN  
 (16) BY MR MONTAGUE  
 (17) Q Now Mr Van Hemmen let's go back again What is it that  
 (18) the plaintiffs asked you to do in this case?  
 (19) A They asked me to take a look at the course recording  
 deep  
 (20) tape and the bell tape testimony general arrangement of  
 the  
 (21) vessel and to bell log and to investigate what type of actions  
 (22) were taken by Captain Hazelwood while the ship was off  
 ground  
 (23) Q Okay And did you do that?  
 (24) A Yes sir  
 (25) Q And were you able to find all of the materials that you

Vol 14 2006

- (1) needed to do that?  
 (2) A Yes to the extent they were available  
 (3) Q Okay Was there anything missing that you felt you had to  
 (4) see?  
 (5) A Well, I would have liked to have seen some record of the  
 (6) rudder excursions of the vessel rudder movements on the  
 (7) vessel but I understand there's no such record  
 (8) Q Now as a result of your studying those materials that you  
 (9) just identified were you able to recreate the movement of the  
 (10) Exxon Valdez once it was aground Bligh Reef?  
 (11) A Yes sir within a reasonable extent  
 (12) Q And with the help of a videographer were you able to put  
 (13) that recreation on a videotape simulation?  
 (14) A Yes sir  
 (15) Q And have you viewed that simulation?  
 (16) A Yes sir  
 (17) Q And are you satisfied that it's accurate?  
 (18) A To an again fair and reasonable degree yes sir  
 (19) MR MONTAGUE May we make the request put that  
 (20) videotape on but if you could put the controls so that Mr Van  
 (21) Hemmen can start and stop - you can't do that You have -  
 (22) I'll try to give you signals then or Mr Van Hemmen if you  
 (23) want the video stopped at any point why what I would like you  
 (24) to do is when the picture first goes on stop it so we can  
 (25) have a still okay

Vol 14 2007

- (1) THE WITNESS Stopped on the first frame  
 (2) BY MR MONTAGUE  
 (3) Q It's a little trembly but could you explain what this  
 (4) depicts?  
 (5) A This is a top view of the Exxon Valdez just like the model  
 (6) is over there If you look from the top, you would see about  
 (7) the same thing  
 (8) Q This would be looking down on the top?  
 (9) A Yes, sir  
 (10) Q Okay  
 (11) A And the deck of the ship is the dark red area, the deck  
 (12) house the accommodation is the white area with the little  
 (13) black squares Maybe I can stand over there and point at  
 the  
 (14) video That would be easier  
 (15) THE COURT Pointer on there that he can use  
 (16) THE WITNESS Does this work?  
 (17) THE COURT Give him a pointer That should work  
 (18) MR MONTAGUE I don't know what this is  
 (19) THE COURT Isn't there an electronic pointer?  
 (20) MR MONTAGUE You can't put the - no he can't do  
 (21) that  
 (22) THE COURT Somebody was doing it the other day  
 (23) MR MONTAGUE Your Honor you're asking the wrong  
 (24) person  
 (25) MR LYNCH Your Honor the - when the information is

Vol 14 2008

- (1) stored inside the computer you can do that When it's - this  
 (2) is a videotape it's just like a videotape player and the  
 (3) computer can't do that  
 (4) THE COURT Sorry  
 (5) MR MONTAGUE We have this the next best thing Your  
 (6) Honor  
 (7) THE WITNESS My hand has to be steady here Let me  
 (8) see if I can get this lined up again Can you see the little  
 (9) red dot? That's the stack the deck that's the back that's  
 (10) the stern that's the bow the black area is what is basically  
 (11) the tunnel that - what's forced into the ship when the ship  
 (12) ran aground when she ran aground there was a large area of  
 (13) damage It ended up to going to about that spot over there  
 (14) The white lines the ones that look dashed and the ones that  
 (15) are going across are the outlines of the various tanks in the  
 (16) ship the cargo tanks and then the yellow line which I think  
 (17) was yellow it looks a little white over here is the  
 (18) centerline of the ship  
 (19) On the bottom over there - don't want to shine - that's  
 (20) the rpm which is the tachometer the revolution counter of the  
 (21) ship the register the speed of the engine Then that is the  
 (22) time which is 12:30 at this stage and that's compass rose  
 (23) north southeast and that says 270 that's 270 degrees  
 (24) BY MR MONTAGUE  
 (25) Q As the vessel grounded on the reef it was facing

Vol 14 2009

- (1) approximately 270 degrees?  
 (2) A No it was facing a bit further north than that It was  
 (3) facing about 290  
 (4) Q Okay Now without - have you described what - does this  
 (5) mean anything?  
 (6) A The little white dot is what we assume is the rotational  
 (7) point of the ship the ship that - the point of the ship is  
 (8) rotating about That point is the afterpoint of the damage  
 (9) about the middle of the damage and it also corresponds to  
 (10) Captain Hazelwood's testimony where he says they felt the  
 ship  
 (11) was rotating about its normal rotation point  
 (12) Q Now could you tell us before we run this what is the  
 (13) purpose of this videotape?  
 (14) A This videotape shows that once the Exxon Valdez was  
 (15) aground the engines were started again and Captain  
 Hazelwood  
 (16) undertook some maneuvers on the ship that made the ship  
 move  
 (17) side to side made it swing back and forth around the  
 (18) obstruction  
 (19) Q All right And was there any - and this depicts that  
 (20) movement is that what this simulation does?  
 (21) A Yes sir from the top view of the movement  
 (22) Q And was there any cause of that ship moving as it is  
 (23) depicted in this simulation as we'll see than the engine  
 (24) running and the movement of the rudder?  
 (25) A There might have been some tidal movement The ship  
 might

Vol 14 2010

- (1) have moved due to the tide It goes back and forth  
 (2) Q Now does this videotape when we run it will that show  
 (3) any actual rudder movement?  
 (4) A No sir  
 (5) Q And is that because you said you couldn't get an accurate  
 (6) source for -  
 (7) A Well there was no accurate source for a rudder  
 movement  
 (8) In my opinion there was rudder movement but there was no  
 (9) accurate source that depicted how far the rudder went to at  
 (10) each time  
 (11) Q And how did you determine the movement of the vessel?  
 (12) A From the bell loader and from the course to course plot  
 (13) Q And are you satisfied it was accurate?  
 (14) A These two instruments and they just record what goes  
 on  
 (15) They're not particularly subject to any type of mistake  
 (16) Q I'd like to run this and I'd like Mr Van Hemmen anytime  
 (17) you want it stopped just signal over there and we'll -  
 (18) A Before we start maybe we can run it just once The  
 yellow  
 (19) line that goes down the centerline of the ship we use that to  
 (20) kind of show the range that the ship rotated through So  
 (21) you'll see the line swing up and it stays there and it comes  
 (22) down and it you end up with a wedge that - the angle ship  
 (23) rotated through  
 (24) Also at the stern of the ship you'll start to see a little  
 (25) white wedge that is a depiction of the weight coming off the

Vol 14 2011

- (1) propeller That wedge will get bigger when the rpm's  
 increase  
 (2) on the ship In real life the wedge moves back and forth  
 (3) because you would use the rudder  
 (4) In this video it doesn't show In this particular  
 (5) video - go ahead At this stage the ship she's not moving  
 (6) She's still rotating probably probably from the tide here  
 (7) The engine starts and she's going slow rpm right now 25  
 rpm  
 (8) The speed goes up to 31 but now 12 45 the time This is  
 sped  
 (9) up of course This is an hour and a half process and we  
 sped  
 (10) it up to slightly more than an hour We sped it up to a  
 minute  
 (11) and a half  
 (12) Now you can see this is the extreme port and the start of  
 (13) the vessel's swing at the time the engine is being used  
 Right  
 (14) now 55 rpm This is full maneuvering speed You see the  
 (15) vessel goes back and forth one side the other side one  
 side  
 (16) the other side In real life the swinging back and forth goes  
 (17) very slow of course  
 (18) Q Now is that every time there's a swing back and forth does  
 (19) that mean there was a change in the rudder?  
 (20) A Yes It would have had to be a change in the rudder  
 angle  
 (21) Q And again is there any other explanation for that ship  
 (22) moving that far?  
 (23) A No sir  
 (24) Q How many degrees do you estimate that swing is?  
 (25) A That is best measured from the actual voice recorded  
 tape

Vol 14 2012

- (1) and that comes to about 14 degrees  
 (2) Q Okay Now it's shut off?  
 (3) A That's the end The engineer stopped and the ship has  
 come  
 (4) to rest a little bit further south than when she started with  
 (5) Q Can you tell what if it - if it's important I don't know  
 (6) that it is what degree it's facing what course it's facing?  
 (7) A I think it was something like 280 degrees  
 (8) Q Okay thank you Now you recall that when the - when  
 (9) Exxon when the Exxon Valdez first went aground that the  
 (10) engines ran for a little while and then they were shut off?  
 (11) A Yes sir  
 (12) Q At that point when the engines were shut off do you have  
 (13) an opinion from the materials that you studied as to whether  
 (14) the Exxon Valdez at that point was solidly aground?  
 (15) A From what I studied I would conclude that she was  
 solidly  
 (16) aground  
 (17) Q And why do you say that?  
 (18) A Because she was not moving any way by herself  
 (19) Q And that's a pretty simple answer What does that mean?  
 (20) A Well, a ship's either afloat or either aground And if  
 (21) she's afloat when the engine is stopped, she can float in  
 (22) whatever direction she wants to float or whatever direction  
 the  
 (23) wind and tide takes her When she's aground, she doesn't  
 move  
 (24) anywhere and that appeared to be the situation  
 (25) Q Okay Now let's - the question I'm going to ask you now

Vol 14 2013

- (1) relates to the movement that we've just seen on the simulation?  
 (2) A Sure  
 (3) Q Was there a chance that if the Exxon Valdez was not  
 (4) steadily aground that that movement that we've just seen could  
 (5) have - would have caused the vessel to come off the reef?  
 (6) A Well, that maneuvering would have taken her off if she  
 (7) wouldn't have been solidly off the ground  
 (8) Q That confirms also solidly off the ground?  
 (9) A Yes, sir  
 (10) Q In your - now you weren't on the bridge that night?  
 (11) A No sir  
 (12) Q So all you've been able to do is reconstruct?  
 (13) A Yes, sir  
 (14) Q And Captain Hazelwood was - after the grounding he was  
 (15) on  
 (16) the bridge?  
 (17) A Yes sir  
 (18) Q Okay In your opinion did Captain Hazelwood being on the  
 (19) bridge after the grounding did he know any more about the  
 (20) condition of the Exxon Valdez as it rests - as it was on Bligh  
 (21) Reef than you know by looking back at everything that was  
 (22) available?  
 (23) MR CHALOS Your Honor I object He has no basis  
 (24) for answering that question  
 (25) THE COURT Well I will allow an expert witness to  
 answer that question

Vol 14 2014

- (1) MR MONTAGUE Thank you Your Honor  
 (2) THE WITNESS If I remember your question correctly  
 (3) at that - maybe I should recreate what Captain Hazelwood - or  
 (4) try to recreate what Captain Hazelwood knew from what was  
 (5) discussed and from testimony and from evidence we have that  
 (6) is as an engineer Captain Hazelwood knew that oil cargo  
 (7) tanks all the way back his cargo tanks were ruptured on one  
 (8) side and also the centerline He knew that he was moving He  
 (9) knew there was oil coming out of the ship and he knew he still  
 (10) had some tide coming up The tide wasn't quite all the way to  
 (11) high tide yet That I think is all the information he had  
 (12) and that's all the information we have right now He also  
 (13) could have measured the heel line and the heading he had and  
 (14) on  
 (15) the standard he felt he had one degree heel to port side  
 (16) Q You said the tide hadn't reached its height yet?  
 (17) A That's what I said yet  
 (18) Q And he knew that?  
 (19) A He knew that  
 (20) Q You made a determination of how much higher the tide was  
 (21) going to get?  
 (22) A Again through the best of what's around everybody  
 (23) agrees  
 (24) it was a foot and a half or two feet of tide left  
 (25) Q That was still too -  
 (26) A Yes that was still going to lift the ship up higher  
 (27) Q Okay Now you heard Captain Hazelwood describe a one

Vol 14 2015

- (1) degree list to the port side of the vessel after the grounding?  
 (2) A Yes sir  
 (3) Q As an engineer is it surprising to you that upon the Exxon  
 (4) Valdez going up on Bligh Reef that there was a list to the port  
 (5) side and the list was one degree?  
 (6) A No, sir  
 (7) Q Why not?  
 (8) A Well, if you run a ship aground, part of the ship gets  
 (9) punctured It leans on the structure The other side of the  
 (10) ship is afloat It would be very unusual exact even keel  
 (11) Q Is a one degree list significant?  
 (12) A No, sir You can consider yourself lucky if the ship runs  
 (13) aground with only one degree list  
 (14) Q Is it something to be concerned about?  
 (15) A No, sir  
 (16) Q Is it something that would cause one to do the maneuvering  
 (17) that was depicted on the videotape?  
 (18) A If a ship ran aground there was only one degree list,  
 (19) there wouldn't be any reason to take any action at all  
 (20) Q Now tell us if you can and again from a forensic  
 (21) engineering or an engineering point of view what are the  
 (22) benefits of moving the vessel in the manner shown on the  
 (23) simulation once it ran aground on Bligh Reef?  
 (24) A Well there are no benefits to it really  
 (25) Q Okay What about assuring that the vessel was hard

Vol 14 2016

- (1) aground?  
 (2) A Well if you're aground you're aground There's no  
 (3) reason  
 (4) to do anything else  
 (5) Q What about changing the one degree port side list to a one  
 (6) degree starboard list?  
 (7) A It wouldn't help either way You just one degree list  
 (8) stay there and do nothing If you do anything else, you  
 (9) might  
 (10) disturb the situation as it is which is at that stage, from a  
 (11) grounding point of view pretty good  
 (12) MR MONTAGUE Okay Your Honor I didn't realize  
 (13) it - should I keep going?  
 (14) THE COURT Oh Let's get back on schedule a little  
 (15) bit We'll take our first recess at this point for 15 minutes  
 (16) (Jury out at 10 15 a m )  
 (17) (Recess at 10 15 a m )  
 (18) (Jury in at 10 30 a m )  
 (19) THE CLERK Please be seated  
 (20) BY MR MONTAGUE  
 (21) Q Mr Van Hemmen again referring to the movement depicted  
 (22) on the simulation in your opinion were there any risks were  
 (23) there any risks in maneuvering the vessel as it was shown on  
 (24) that simulation?  
 (25) A Yes sir  
 (26) Q And what kind of risks in your opinion were there?  
 (27) A Well at that stage the situation was stable prior to the

Vol 14 2017

(1) maneuvering and when the maneuvering started the maneuvering  
 (2) of the vessel basically caused it to grind on the reef and the  
 (3) grinding on the reef caused additional damage to the ship  
 and  
 (4) therefore additional pollution or it could have in an extreme  
 (5) case caused the ship to fracture and the fracturing could  
 (6) result in the ship breaking apart capsizing or whatever takes  
 (7) place and also the ship could actually come free it could  
 (8) work its way free from the reef and the ship could actually  
 (9) sink or capsize  
 (10) Q And is that a something that should -- are those risks that  
 (11) should be considered at the time those maneuvers were taken?  
 (12) A Yes sir  
 (13) Q And were those possibilities of things that could really  
 (14) happen?  
 (15) A They were all possibilities Especially because the damage  
 (16) situation was not all that clear at that stage so you start to  
 (17) take an action after that You don't have that much  
 (18) information You take an action basically shooting in the  
 (19) dark  
 (20) Q May I have Elmo? I'd like to show you Mr Van Hemmen  
 (21) some testimony given in this court room by Captain Hazelwood  
 (22) And I'd like you to -- can you see that okay?  
 (23) A Yes sir  
 (24) Q Can you see this is at page 633 of the trial transcript  
 (25) Captain Hazelwood was asked the following questions and gives

Vol 14 2018

(1) the following answers What would you have done if you wanted  
 (2) to get her off the reef And the answer if I wanted to  
 (3) attempt to get off I could have pushed two buttons and gone  
 (4) sea speed full astern in about two minutes You didn't do  
 (5) that No  
 (6) Do you have any opinion about that statement by Captain  
 (7) Hazelwood?  
 (8) A Yes sir  
 (9) Q Could you tell us what your opinion is?  
 (10) A Well the two things that are not entirely realistic first  
 (11) of all the vessel at this stage the stage that you were  
 (12) stopped was pointing towards a channel she was not  
 (13) pointing  
 (14) towards a reef she was pointing to its channel And also at  
 (15) that stage Captain Hazelwood must have thought that he  
 (16) was hung  
 (17) up somewhere further out because he had damage so far  
 out all  
 (18) the way to the last cargo tank To back her up he would go  
 (19) backwards and he would have worked his way backwards  
 (20) through  
 (21) the entire reef before he could get to the water go to the  
 (22) reef turn around get back to deep water so it was quite a  
 (23) lengthy course to take  
 (24) The other thing that I find is not entirely realistic is  
 (25) that Captain Hazelwood states that he could have gone sea  
 speed  
 (26) full astern in about two minutes When the ship is aground  
 (27) when a commercial ship or tanker like that is aground it is  
 (28) impossible for the propeller to come up to full revolutions

Vol 14 2019

(1) It's like taking your car putting it in drive putting foot on  
 (2) the brake and the other foot hit the throttle If the you hit  
 (3) the throttle engine speed up but never to full speed and  
 (4) that's the same thing with the tanker you can't get to full  
 (5) speed Full maneuver is about the max you can get without  
 (6) getting overload or overheating conditions and you can  
 push a  
 (7) little bit beyond that but to get full speed is it's just not  
 (8) possible  
 (9) Q So could you tell us in your opinion based on what you  
 (10) said -- the statement I could have pushed two buttons and  
 (11) gone sea speed full astern in about two minutes is that a  
 (12) correct or an incorrect statement?  
 (13) A That's incorrect technically incorrect  
 (14) Q Now you have -- based on the simulation and the movement  
 (15) of the vessel at 55 rpm and side to side did that cause any  
 (16) stresses on the vessel?  
 (17) A Yes sir  
 (18) Q And could you explain what they are?  
 (19) A They're -- well it's -- if you just go ahead just push  
 (20) ahead against the rock -- say, this is a rock and the ship is  
 (21) around the rock and you just push you're just pushing, you  
 (22) can bring up as much propeller rpm as the ship can bring It  
 (23) doesn't bother it too much It's a very long ship, as you can  
 (24) see over there and you see -- take this reef it's like a  
 (25) wrench and that causes the grinding motion which can put a lot

Vol 14 - 2020

(1) of stress on the vessel  
 (2) Q And what kind of stress on the frame of the vessel?  
 (3) A On the structure of the vessel stress on the steel The  
 (4) ship's built out of steel and the steel could break away and  
 (5) fracture and bend distort it  
 (6) Q Now you heard -- have you read the communications  
 between  
 (7) Captain Hazelwood and the VTS after the grounding?  
 (8) A Yes sir  
 (9) Q And you're familiar with those communications where he  
 (10) referred to extracting the vessel from the rock?  
 (11) A Yes sir  
 (12) Q Okay I want to ask you if the actions which Captain  
 (13) Hazelwood took as depicted on that simulator are they  
 (14) inconsistent with trying to get the vessel off the rock?  
 (15) A They --  
 (16) Q Do you understand that question?  
 (17) A There's two sides to that question Maybe if you could  
 (18) restate it maybe I can give a clearer answer to it  
 (19) Q All right If Captain Hazelwood -- the movements that the  
 (20) ship took as shown on the simulation is that inconsistent with  
 (21) telling -- with trying to get the vessel off of Bligh Reef?  
 (22) A No If you look at what actually exists, that is the  
 (23) course of quarter to VTS transcript where Captain  
 Hazelwood  
 (24) says I'm trying to get it off That type of maneuvering could  
 (25) be -- somebody would make would try to get the vessel off  
 not

Vol 14 2021

- (1) realizing what the actual risk of doing that is  
 (2) Q Well could you explain how that would get the vessel off  
 (3) the reef?  
 (4) A Well, it was pointing in the direction of the channel and  
 (5) the moving back and forth that sawing back and forth is not  
 an  
 (6) uncommon way of getting ships off obstructions  
 (7) MR CHALOS Your Honor I would like to move to  
 (8) strike his testimony I think this is going way beyond his  
 (9) forensic engineering expertise he was qualified for Now he s  
 (10) talking about maneuvering this ship This man doesn t hold any  
 (11) licenses for that  
 (12) THE COURT Sounds to me like it s passed naval  
 (13) architecture  
 (14) MR MONTAGUE It s not architecture Your Honor it s  
 (15) engineering as to whether that movement could result in the  
 (16) ship going off the rock  
 (17) MR CHALOS That sounds to me like that s navigation  
 (18) and ship handling  
 (19) THE COURT Sounds to me like ship handling  
 (20) MR MONTAGUE Okay In that case Your Honor I have  
 (21) no further questions  
 (22) THE COURT You may cross  
 (23) MR CHALOS Thank you Your Honor  
 (24) CROSS EXAMINATION OF RIK F VAN HEMMEN  
 (25) BY MR CHALOS

Vol 14 2022

- (1) Q Well they ve taken the snakes away here Your Honor Now  
 (2) they ve given me a ledge to fall off of  
 (3) Good morning Mr Van Hemmen  
 (4) A Good morning, Mr Chalos  
 (5) Q The Van Hemmen and the Francis - what is it Francis  
 (6) Martin Ottaway Van Hemmen?  
 (7) A Today it's Martin Ottaway & Van Hemmen  
 (8) Q That Van Hemmen is your dad right?  
 (9) A Yes sir  
 (10) Q By the way say hello for me when you get back  
 (11) A I'll do that  
 (12) Q Thank you Just one question You said in your office you  
 (13) sit around and people call you up and say my ship just hit an  
 (14) iceberg will you come down and take a look do you remember  
 (15) that?  
 (16) A Yes, sir  
 (17) Q You never got that kind of a call did you?  
 (18) A Yes I did  
 (19) Q You did for an iceberg?  
 (20) A Yes, sir  
 (21) Q Where?  
 (22) A The Oversea Sohio last January  
 (23) Q Up here?  
 (24) A Yes in the Valdez terminal  
 (25) Q Did you go to that ship?

Vol 14 2023

- (1) A Yes sir  
 (2) Q You yourself?  
 (3) A Yes, sir  
 (4) Q Now let me ask you this The engineering license that you  
 (5) hold right that s a stationary engineer s license?  
 (6) A No sir  
 (7) Q What kind of an engineering license?  
 (8) A It's a design engineering license It's a license that  
 (9) allows you to design structures that could cause harm to  
 (10) people In other words, if I have to build a building and I  
 (11) put a steel structure in that an engineer like me has to  
 (12) approve that particular structure before it can be built  
 (13) Q That s what I meant by stationary we re talking about  
 (14) building?  
 (15) A I thought you meant stationary operators license  
 (16) Q I meant building design right?  
 (17) A It's not stationary the Coast Guard now requires BE  
 (18) licenses now for designing ships  
 (19) Q Let me ask you this You do not hold a seagoing engineers  
 (20) license do you?  
 (21) A Absolutely not  
 (22) Q As a matter of fact you ve never sailed as a crew member  
 (23) on any commercial vessel have you?  
 (24) A That's right, sir  
 (25) Q And you ve never sailed on a tanker as a crew member have

Vol 14 2024

- (1) you?  
 (2) A I've never sailed on a tanker as a crew member no  
 (3) Q Okay And you ve never been an officer on a ship that s  
 (4) run aground have you?  
 (5) A I'm not sure I have never been an officer on a ship, so  
 (6) therefore I have never been an officer on a ship that ran  
 (7) aground  
 (8) Q And you ve never been on the Exxon Valdez have you?  
 (9) A No sir  
 (10) Q You have no idea how the Exxon Valdez plant worked on that  
 (11) ship do you?  
 (12) A I'm not sure what you're talking about  
 (13) Q You never heard the term plant?  
 (14) A I'm not sure what you re talking about I have no idea  
 how  
 (15) the plant worked To what extent are we talking about?  
 (16) Q You ve never seen the Exxon Valdez engines have you?  
 (17) A I've never seen the Exxon Valdez engines  
 (18) Q You never worked the engines did you?  
 (19) A No sir  
 (20) Q You haven t been up in the bridge to find out how you push  
 (21) a button to get the engine working have you?  
 (22) A No sir  
 (23) Q Let s talk about your extensive experience as a salvage  
 (24) master Shall we?  
 (25) A Okay

Vol 14 2025

Vol 14 2027

- (1) Q Okay That was on one ship?
- (2) A As than official salvage master one ship yes sir
- (3) Q And you were on there when the ship ran aground or after?
- (4) A After the ship ran aground
- (5) Q The ship had already been aground when you got there?
- (6) A Yes it had been aground for two or three hours
- (7) Q And you don't know what maneuvers the captain made before
- (8) you got up there did you?
- (9) A Up to what stage?
- (10) Q Before you got on the vessel you don't know what maneuvers
- (11) were made by the captain after you ran aground?
- (12) A After it ran aground made no maneuvers whatsoever
- (13) Q You weren't there though?
- (14) A No Sufficient people around to make sure that nothing
- (15) happened
- (16) Q Okay Now you went on board for a different reason you
- (17) didn't go on board as a salvage master you went on board on
- (18) behalf of the insurance company right?
- (19) A That's right
- (20) Q And then while you were there they said why don't you
- (21) become the salvage master?
- (22) A No that's not the way it went
- (23) Q Tell us how it went
- (24) A The United States Coast Guard officer on board of the
- (25) ship
- (26) said no action gets taken until the salvage master gets

Vol 14 2026

- (1) appointed then the owner said who had made salvage
- (2) master
- (3) and the underwriters said -
- (4) I let me start from the beginning Ran aground the Coast
- (5) Guard came on board the vessel and the Coast Guard said
- (6) nothing gets done until salvage master gets appointed
- (7) Which
- (8) is not always the case I mean many groundings that
- (9) salvage
- (10) master never gets appointed Then the owner said well
- (11) who
- (12) should we appoint as the salvage master, and they talked to
- (13) the
- (14) underwriters and the underwriter said well Mr Van
- (15) Hemmen
- (16) whose on board the ship, who has sufficient experience to
- (17) act
- (18) as salvage master and that's how I became the salvage
- (19) master
- (20) Q Okay In that particular case the vessel had run aground
- (21) in Rhode Island right?
- (22) A Yes sir
- (23) Q Okay And after you got on board the vessel was refloated
- (24) within a couple hours?
- (25) A Yeah I think it was maybe five six hours or so
- (26) Q Okay So you were on board the tide came up right you
- (27) got a couple tugs alongside she came right off right?
- (28) A No
- (29) Q That's not what happened?
- (30) A No
- (31) Q What happened?
- (32) A The ship was on the rocks she had run into a - part way
- (33) on the rocks part way on a jetty a stone jetty and we had to

- (1) reballast the ship We had to move ballast from one side to
- (2) another side We had to do some pumping take some water
- (3) up so
- (4) when the tide came up we could tow her
- (5) Q The ballast done by the crew?
- (6) A Under my direction yes
- (7) Q And then the ship just floated off and was taken off?
- (8) A That's the best way to do it
- (9) Q And as a matter of fact you waited for the tide to come up
- (10) to high tide and then you pulled her off?
- (11) A Yes sir
- (12) Q And the damage that that ship suffered was minor wasn't
- (13) it?
- (14) A It was a gash in the side that was about I think about
- (15) 150 feet long and it was damaged to the bottom And the
- (16) how I
- (17) wouldn't call it minor we had to make temporary repairs
- (18) before
- (19) ship moved
- (20) Q Then sailed on to the next port?
- (21) A We made a huge cement box
- (22) Q Okay So that was the only time we were ever a salvage
- (23) master right?
- (24) A Officially appointed as salvage master yes sir
- (25) Q Now let's talk about the Exxon Valdez Could I have that
- (26) tape played You went over something real quick and I want to
- (27) slow it down because I want to ask you some questions about
- (28) it Is that?

Vol 14 2028

- (1) A Maybe go ahead you have just a little bit It will stop
- (2) Q Does it go back any further? Is that where it starts at
- (3) 12 30?
- (4) Now Mr Van Hemmen you know from the testimony do you
- (5) not that the engine on this ship was shut down the first time
- (6) at 12 20 you remember that?
- (7) A Yes
- (8) Q Okay I noticed here that you don't show anything from
- (9) 12 20 to 12 30 In other words you didn't do an analysis of
- (10) what the ship was doing between 12 20 and 12 30 right?
- (11) A Obviously it starts at 12 30
- (12) Q Okay But the fact of the matter is you didn't analyze
- (13) whether the ship was moving at all due to tide?
- (14) A Oh, she hit the rocks and she kept swinging right through
- (15) there
- (16) Q So that ten minutes that we're talking about the ship was
- (17) swinging?
- (18) A Yes
- (19) Q Let's start it up here because I want to ask you some
- (20) questions
- (21) Now before I ask you hold on a second At this point
- (22) there's no engine and there's no rudder being used?
- (23) A She's just stopped that right
- (24) Q Go ahead and start her up Let me get out of your way I'm
- (25) sorry Okay Stop Stop That ship is moving, wasn't it?

Vol 14 2029

Vol 14 2031

- (1) A Yes sir
- (2) Q And it was moving for about two minutes wasn't it?
- (3) A Yes
- (4) Q And the two minutes you were talking about before that you said she was swinging still?
- (5) A Yes
- (6) Q Now when you said she was hard aground and Captain Hazelwood should have known it was hard aground what Captain
- (7) Hazelwood was seeing at that time for about 15 minutes before he started up his engine again was this ship moving wasn't it?
- (8) A Yes it was the ship was still moving but it was not moving across the ground it was hung up on something
- (9) Q But the ship was moving I mean he's standing on the bridge?
- (10) A It was rotating, yeah
- (11) Q But it was moving?
- (12) A Yes
- (13) Q By the way you said that Captain Hazelwood knew certain things that night right?
- (14) A Uh huh
- (15) Q One of the things that you left out that he knew was that you weren't on the bridge that night right?
- (16) A Yeah obviously
- (17) Q All right But he was?
- (18) A Yes he was

- (1) Hazelwood if he wanted to go full ahead maneuvering?
- (2) A If he wanted to go full ahead maneuvering
- (3) Q Let me take that back How much horsepower would have been available if he wanted to go full ahead emergency?
- (4) A I would say that the engine -
- (5) Q Well do you know Do you know?
- (6) A Nobody knows
- (7) Q What do you mean nobody knows? Isn't this ship rated to go 33 000 horsepower at full emergency?
- (8) A No, sir Only when she's steaming She could be rated anything you want to but she can't develop that horsepower
- (9) Q Develop something pretty close to it once full ahead emergency?
- (10) A Once she's steaming on the way and running, you can drive past the normal full speed setting and you can go faster but also you end up in a condition, depending whether the ship is in ballast or fully loaded you get conditions overheat situations overheat exhaust gas temperature And it's just not the way to do it
- (11) Q The reason that engines are rated to certain horsepowers because that the max horsepower depends if you go to situation you get in a situation not even normal operating speed?
- (12) A Anything can happen anything is possible
- (13) Q But what I'm asking you what is the rating of this ship at full ahead emergency do you know?

Vol 14 2030

Vol 14 2032

- (1) Q And as between you someone who doesn't have a merchant marine license who's never been to sea as a crew member who's never really been aground on a ship that's run aground and Captain Hazelwood who's the master of that ship who was in a better position to judge the best course of action you or him?
- (2) A Once you're talking aground I think I have a lot more experience
- (3) Q That one time that you were on the ship in Rhode Island?
- (4) A Many ships that were aground
- (5) Q Mr Van Hemmen at the moment that that ship ran aground and decisions had to be made and information had been gathered who was in the better position to evaluate that position? I don't mean in a courtroom five years later as a paid consultant At that moment?
- (6) A Captain Hazelwood is the only person on board the ship to evaluate information on board the ship
- (7) Q Now you talked about the use of the rudder and the engine by the captain?
- (8) A Yes sir
- (9) Q Okay Did you do any analysis of the power curves of this vessel?
- (10) A No
- (11) Q You did not?
- (12) A No
- (13) Q Well how much horsepower was available to Captain

- (1) A Captain Hazelwood testified 33 000 horsepower
- (2) Q Do you have any reason to dispute that?
- (3) A No
- (4) Q Do you have rated horsepower as full ahead maneuvering?
- (5) A Captain Hazelwood testified 8500 horsepower
- (6) Q This is a diesel engine right?
- (7) A Yes sir
- (8) Q So the point is that Captain Hazelwood at no time during the time that he was using his engines right exceeded 25 percent of what he believed was his available horsepower isn't that correct?
- (9) A No if you say what he believes was his available horsepower I have that's perfectly correct
- (10) Q Now let me ask you this You heard Captain Hazelwood? Were you here for Captain Hazelwood's testimony?
- (11) A Yes sir
- (12) Q So you heard him say that when he was maneuvering the vessel at starting at 12 I think it was what did we say 12 36?
- (13) A Yes might have been 12 40
- (14) Q When he started maneuvering the vessel at that point he used five degrees and ten degrees of rudder is that right?
- (15) A Yes sir
- (16) Q He had available to him did he not 35 degrees either way if he wanted?

Vol 14 2033

Vol 14 2035

- (1) A Yes sir
- (2) Q Hard over 35 degrees to go to one side and 35 degrees to
- (3) go to the other side right?
- (4) A Yes
- (5) Q So he used 15 percent 20 percent of his available rudder
- (6) isn't that right?
- (7) A I listened to Captain Hazelwood's testimony and that's
- (8) what
- (9) he said that's what he said yes
- (10) Q Do you have reason to doubt that?
- (11) A Yes I do
- (12) Q You do based on what?
- (13) A Well first of all there was also testimony about a
- (14) helmsman who testified rudder all the way over The other
- (15) thing is that if you put only five to ten degree rudder but at
- (16) the same time you go full ahead that doesn't seem to make
- (17) a
- (18) lot of sense Well that seems to be saying I use a blow
- (19) torch
- (20) to light my stove or something like that
- (21) Q Let's you and I -
- (22) MR MONTAGUE Excuse me Mr Chalos has been cutting
- (23) off Mr Van Hemmen
- (24) MR CHALOS I apologize
- (25) BY MR CHALOS
- (26) Q Go ahead Mr Van Hemmen
- (27) A The rudder is the device you use in conjunction with the
- (28) propeller and the rudder is more sensitive than a propeller

Vol 14 2034

- (1) To start the engine takes a while to get up to speed takes a
- (2) while to slow down To say I first do 25 rpm and I only do
- (3) five to ten degree rudder but then I don't do anything else
- (4) but then I go to a higher speed and I only use five to ten
- (5) degree rudder it doesn't make my sense
- (6) MR CHALOS Did I cut him off?
- (7) MR MONTAGUE Restrain yourself
- (8) THE WITNESS I'm not sure what completes my answer to
- (9) your question I am not a mariner I am a naval architect I'm
- (10) very experienced in grounded situations And I know what kind
- (11) of force it takes to move a vessel a certain way and what kind
- (12) type of rudder angle you use for that Based on that it's my
- (13) opinion more rudder angle was used
- (14) BY MR CHALOS
- (15) Q You don't have any evidence of that?
- (16) A No just my opinion
- (17) Q You didn't do any calculations did you?
- (18) A It doesn't take calculations
- (19) Q You say you're a naval architect but in fact you don't
- (20) have a degree in naval architecture do you?
- (21) A If you add up all the numbers
- (22) Q It's either a yes or no Do you have a degree?
- (23) A No I don't have a naval architecture degree
- (24) Q And the naval architectural experience that you had when
- (25) you worked for Valentine that you told us about?

Vol 14 2036

- (1) were relatively slow in real life I think you said that?
- (2) A Yes
- (3) Q Is that right?
- (4) A Yes sir
- (5) Q Now you listened to Captain Hazelwood's testimony did
- (6) you
- (7) not about what he perceived to be his concerns at that
- (8) particular moment immediately after running aground?
- (9) A Yes sir
- (10) Q Okay And you remember his saying that he was concerned
- (11) based on what he was seeing about a one degree list port
- (12) right?
- (13) A Yes sir
- (14) Q Do you remember him saying that?
- (15) A Yes sir
- (16) Q He was concerned about his ship sliding off the reef?
- (17) A Yes sir
- (18) Q Right he was concerned about the tide coming up?
- (19) A Yes sir
- (20) Q Lifting him off the reef do you remember all that?
- (21) A That's what he said
- (22) Q And do you remember him saying that what he wanted to do
- (23) was try use the ship's engines and use the ship's rudder
- (24) traditionally to try to get the ship to attain a starboard
- (25) attitude that is come to the right side instead of leaning to
- (26) the left do you remember that?

Vol 14 2037

Vol 14 2039

- (1) A Yes sir  
 (2) Q And do you remember him also saying to the chief mate get ready to ballast down do you remember that?  
 (3) A Yes, sir  
 (4) Q And do you remember him telling the chief mate get ready to drop the anchors because we re staying right here?  
 (5) A That's what he said  
 (6) Q It was right in the middle of all this maneuvering that was going on do you remember?  
 (7) A I don't think that was entirely clear from the testimony  
 (8) If you can help me out I mean check it but I don't remember that  
 (9) Q I appreciate the invite It was right in the middle of all that maneuvering?  
 (10) A If that's what it says that's what it said  
 (11) Q And do you remember Captain Hazelwood and the chief mate  
 (12) saying that at some point after they were maneuvering the  
 (13) vessel she settled down to starboard?  
 (14) A Yes, sir  
 (15) Q And came down on the reef  
 (16) A Yes, sir  
 (17) Q And then everything was shut down do you remember all that?  
 (18) A Yes sir  
 (19) Q Now and I take it you also remember the testimony of Chief

- (1) A Yes sir  
 (2) Q Okay What that means is if a ship is aground to get her  
 (3) off the ground you ve got to come back right?  
 (4) A Yes sir  
 (5) Q Okay Look at this data logger In all the time that this  
 (6) engine was on from 12 36, right here you see it?  
 (7) A Yeah I can see it now  
 (8) Q Right up to 1 41 when it was finally stopped did Captain  
 (9) Hazelwood ever put the engine in reverse?  
 (10) A No, sir  
 (11) Q In fact at no time after the grounding did Captain  
 (12) Hazelwood ever put the engine in reverse isn't that right?  
 (13) A That's right  
 (14) Q Now you say that the use of the rudder and the engine by  
 (15) Captain Hazelwood could have resulted in additional damage?  
 (16) A Yes  
 (17) Q Do you remember that? Do you recall telling me at the  
 (18) deposition that there was no additional damage caused by the  
 (19) use of the rudder and the engine?  
 (20) A I don't think I told you that  
 (21) Q Well why don't we just read so we re clear as to what you  
 (22) said about that  
 (23) A Sure  
 (24) Q Can I have in my book - I m sorry I am going to show it  
 (25) to him and I m going to let it you know I got so excited

Vol 14 2038

Vol 14 2040

- (1) Mate Kunkel who said that the captain had to use in his  
 (2) testimony he s a chief mate a licensed captain sailing as a  
 (3) chief mate the captain had to use the engine and the rudder to  
 (4) try and evaluate and assess the situation do you remember  
 (5) that?  
 (6) A I don't remember that no  
 (7) Q You don't remember him saying it Okay Let me ask you  
 (8) this You had an opportunity to read the bell logger on this  
 (9) vessel?  
 (10) A Yes sir  
 (11) Q Let me get it  
 (12) A Well I read  
 (13) Q I want to show it to you I m not trying to trick you  
 (14) A Okay  
 (15) Q I don't want your father getting mad at me  
 (16) A Okay  
 (17) Q I m going to show you the bell logger which has been  
 (18) previously marked as plaintiffs exhibit 81 in evidence This  
 (19) is actually a blowup of the bell logger  
 (20) A Uh huh  
 (21) Q You see that? Do you remember in your deposition and in  
 (22) your report to the plaintiffs making a statement as follows  
 (23) First in refloating unless there is a compelling technical  
 (24) reason a vessel should be refloated along the same path that  
 (25) the vessel grounded do you remember saying that?

- (1) about examining you I left half my things behind Here I am  
 (2) I m going to tell you what page Let me make sure I got the  
 (3) right pages Okay That s it  
 (4) Would you go to page 224 please Okay Are you there?  
 (5) A Yes sir  
 (6) Q So I was reading from your report let s go to line five  
 (7) A Yes  
 (8) Q I m sorry we have to really go back to page 223 line 24  
 (9) Are you there with me?  
 (10) A Yes  
 (11) Q Okay The question was did you express any opinion to  
 (12) Mr Blank who is an attorney for the plaintiffs as to whether  
 (13) the vessel incurred additional damage as a result of the use of  
 (14) the rudder or engine after the grounding? Your answer was  
 (15) yes  
 (16) I did It s listed in my letter  
 (17) Question What is your opinion  
 (18) Answer It s on the second page The second paragraph  
 (19) from the bottom From a structural point of view especially  
 (20) the change in heading under power as can be noted from the  
 (21) course recorder puts great strain on the vessel structure and  
 (22) it might have resulted in additional damage to the vessel s  
 (23) bottom and tank  
 (24) Question So I take it you don't know whether it caused  
 (25) any damage or not  
 (26) Answer No I don't

Vol 14 2041

- (1) Is that a fair reading?  
 (2) A That's perfect  
 (3) Q Okay So you don't know if the use of the engines and the  
 (4) rudder caused any additional damage?  
 (5) A As to that question I agree yes  
 (6) Q But Mr Blank told you did he not that he had hired  
 (7) another expert by the name of Mr Harrison who went to see the  
 (8) vessel when it was in dry dock in San Diego right?  
 (9) A Yes sir  
 (10) Q And he told you that Mr Harrison told his expert told him  
 (11) that there was no additional damage done as a result of the use  
 (12) of the engine and rudder do you remember that?  
 (13) A Just a couple times he told -  
 (14) Q Mr Blank - let me start again I don't want to lose  
 (15) this Mr Blank told you that Mr Harrison his other expert  
 (16) who had been on the ship in San Diego when the ship was up in  
 (17) dry dock after the damage?  
 (18) A Uh huh  
 (19) Q And who had looked at the ship?  
 (20) A Uh huh  
 (21) Q Had told Mr Blank that there was no additional damage  
 (22) caused by the use of the rudder and the engine isn't that  
 (23) correct?  
 (24) A Well it's correct but at the time Mr Harrison saw it  
 (25) there was 100 tons of steel

Vol 14 2042

- (1) Q You didn't see the ship at San Diego?  
 (2) A I didn't see the ship  
 (3) Q Mr Harrison did see the ship?  
 (4) A Mr Harrison did see the ship  
 (5) Q He expressed an opinion?  
 (6) A But it's from his inspection That's what I want to make  
 (7) sure He expressed an opinion that the damage was done  
 (8) Q An inspection that you didn't make?  
 (9) A Absolutely not  
 (10) Q Now you said that one of the other things that might have  
 (11) happened by the use of the rudder and the engine was that  
 (12) there  
 (13) would be additional stresses put on there I'm talking about  
 (14) your testimony here  
 (15) A I see yes  
 (16) Q Do you remember that?  
 (17) A Yes sir  
 (18) Q Did you do any calculations to determine where the stresses  
 (19) were put on?  
 (20) A It's impossible to do The obstruction the shape of the  
 (21) obstruction is unknown You don't know where the forces  
 (22) actually hook up  
 (23) Q So it follows then that you don't know without doing any  
 (24) calculations whether in fact any stresses were put on at all?  
 (25) A That's exactly why I say it might have put additional  
 stresses

Vol 14 2043

- (1) Q But you don't know?  
 (2) A I know for sure that it might have done it I don't know  
 (3) exactly what stresses were put on the vessel  
 (4) Q Now you mentioned that the American Bureau of Shipping is  
 (5) like I think you said the Federal Aviation Agency in that  
 (6) they supervise ship building design and things like that?  
 (7) A Very simplified version that's correct It has absolutely  
 (8) no requirement that a ship has to be inspected by American  
 (9) Bureau of Shipping while you are required to have airplanes  
 (10) inspected by the FAA but the functioning is similar yes  
 (11) Q Do you know who Mr Larossi is?  
 (12) A Yes sir  
 (13) Q Isn't he the president now of American Bureau of Shipping?  
 (14) A Yes after he stopped working for Exxon he became the  
 (15) president of ABS  
 (16) Q He used to be the president of Exxon Shipping right?  
 (17) A Yes sir  
 (18) MR CHALOS Mr Van Hemmen thank you very much I  
 (19) have no further questions  
 (20) THE COURT Redirect?  
 (21) MR MONTAGUE I have no further questions Your  
 (22) Honor Thank you  
 (23) THE COURT Thank you sir You may step down  
 (24) Before we move on I didn't pick up an exhibit number for your  
 (25) simulation

Vol 14 2044

- (1) MR JAMIN 122 That has been pre admitted, on I  
 (2) believe that was on the original list on May 9th Your Honor  
 (3) at this time we have three additional exhibits to offer into  
 (4) evidence we believe without objection 154 155 and 1793  
 (5) (Exhibit 154 1793 offered)  
 (6) MR LYNCH 155 is for identification only  
 (7) MR JAMIN That's correct Your Honor I would like  
 (8) to confirm that the court's records indicate that number 3 was  
 (9) admitted There was some ambiguity in the transcript  
 (10) THE COURT I have a note in my registry of exhibits  
 (11) that says the second section admitted  
 (12) MR JAMIN Two sections yes sir  
 (13) THE COURT Two sections admitted  
 (14) MR JAMIN What happens the Court indicated we will  
 (15) be publishing that next week through an agreement with the  
 (16) defendants thank you Your Honor  
 (17) THE COURT Let's get straight where we are on these  
 (18) three exhibits 154 is admitted without objection  
 (19) MR LYNCH Yes sir  
 (20) THE COURT 1793 is admitted without objection  
 (21) MR LYNCH Right  
 (22) (Exhibits 154 & 1793 received)  
 (23) THE COURT 155 is merely identified  
 (24) MR LYNCH Identification only The same arrangement  
 (25) that Mr O Neill has to some of the other exhibits

Vol 14 2045

- (1) MR JAMIN Thank you Your Honor  
 (2) MR O NEILL The plaintiffs call as an adverse  
 (3) witness and for cross examine Mr Dan Paul  
 (4) THE CLERK Would you raise your right hand  
 (5) (The Witness Is Sworn)  
 (6) THE WITNESS I do  
 (7) THE CLERK Please be seated Would you for the  
 (8) record sir state your full name your address and spell your  
 (9) last name  
 (10) THE WITNESS My name is Daniel John Paul Junior  
 (11) P a u l 5414 Windy Lake Drive Kingwood Texas  
 (12) DIRECT EXAMINATION OF DANIEL JOHN PAUL JR  
 (13) BY MR O NEILL  
 (14) Q Sir we ve never met before my name is Brian O Neill and  
 (15) I represent fisherman and Natives who are the plaintiffs in  
 (16) this case against Exxon Corporation You work for Exxon  
 (17) Shipping Company?  
 (18) A I worked for the shipping company in that period yes  
 (19) Q Do you work for Exxon now?  
 (20) A Yes, I do  
 (21) Q What do you do now?  
 (22) A I'm with Sea River Maritime now  
 (23) Q Sea River Maritime is what Exxon Shipping Company is now  
 (24) called?  
 (25) A That's correct, yes sir

Vol 14 2046

- (1) Q And let's just sort of put you in a couple of jobs in  
 (2) context so we know what role you have to play in this case.  
 (3) Let's take 1985 What was your job in 1985?  
 (4) A I was fleet services manager for Exxon Shipping  
 (5) Q And at some point in time did your job position change?  
 (6) A Yes it did  
 (7) Q And it changed to director of the human resources  
 (8) department?  
 (9) A Human resources manager yes  
 (10) Q What is a human resources manager?  
 (11) A I was responsible for manning the ocean ships for  
 (12) benefits  
 (13) and compensation training labor relations and some  
 (14) administrative duties  
 (15) Q And that was from 1986 until when?  
 (16) A Until 1990  
 (17) Q Did that include responsibility with regard to alcohol  
 (18) policy and those kind of things?  
 (19) A Yes it did  
 (20) Q For the shipping company?  
 (21) A For the shipping company yes  
 (22) Q Now I put in front - I've put in front of you the tools  
 (23) of the trade which are some exhibits and a deposition  
 (24) transcript and that's the big stack over there is your  
 (25) deposition transcript three volumes So if you want to use  
 any of the tools of the trade that you've got up there you just

Vol 14 2047

- (1) tell me and we'll go ahead and dig them out for you Okay?  
 (2) A All right  
 (3) Q The first thing I want to talk about are two exhibits that  
 (4) should be in that stack up there One of them is plaintiffs  
 (5) exhibit number 1024 and the next one is plaintiffs exhibit  
 (6) number 154 And they both have to do with the rating of  
 (7) masters and they look so you can pull them out of the stack  
 (8) like this You got them?  
 (9) A Yes I have them  
 (10) Q And what is Exhibit 104?  
 (11) A 104 is a 1987 rank list for ocean fleet officers  
 (12) Q And that includes masters or ship captains?  
 (13) A Yes, it does  
 (14) Q And what is exhibit 154?  
 (15) A It's a ~~seriatim~~ rating summary of Joseph Hazelwood  
 (16) Q And would it be fair to say that using these two documents  
 (17) one could put together these two Exxon documents one could  
 (18) put together where Captain Hazelwood ranked vis a vis other  
 (19) masters in the fleet from 1981 to 1988? Is that a fair  
 (20) statement?  
 (21) A Yes it is  
 (22) Q And we've attempted to put these two documents in a  
 (23) graphic  
 (24) form So we have nowhere to put it on the chart Idiot lines  
 (25) there  
 THE COURT See if you can make it work

Vol 14 2048

- BY MR O NEILL  
 Q And does this chart fairly reflect where his rankings were  
 from '81 to '87?  
 A Not exactly no  
 Q What are we missing?  
 A I think the 1981 data on Exhibit 154 is 25 of 39  
 Q Oh so it should be this green bar should be down here a  
 little bit farther?  
 A That's correct And another problem is 1987 This  
 exhibit  
 says 24 of 29  
 Q 1987 24 of 29? So this should go down to here Like  
 that?  
 A Yes  
 Q And then this is 24 of 29 so we ought to cut it off right  
 about here?  
 A That would make it consistent with this exhibit yes  
 Q Okay Would it be fair to say that he generally ranked in  
 the bottom half?  
 A Yes it would during that time period  
 Q Now in going through these documents I was unable to find  
 a ranking for harbor master in 1985 Do you know why that  
 could  
 be?  
 A Yes We didn't have a ranking that year  
 Q Okay You testify in court rooms on behalf of Exxon  
 Shipping Company in a variety of matters don't you because

Vol 14 2049

- (1) you re human resources director?  
 (2) A I wouldn't characterize it that way no  
 (3) Q Have you testified in court rooms on occasion on behalf of  
 (4) Exxon Shipping Company or Exxon Corporation?  
 (5) A Yes, I have  
 (6) Q Do you know how many times?  
 (7) A Twice I believe  
 (8) Q How about in arbitrations?  
 (9) A I don't recall ever testifying in an arbitration no  
 (10) Q Okay At some point in time - would it be fair to say  
 (11) that if someone in management gets a tip that a master of a  
 (12) vessel is drinking aboard a company vessel that that is  
 (13) something that management cannot afford to take lightly?  
 (14) A That's a fair statement yes  
 (15) Q And if a fleet manager gets a rumor or a tip that one of  
 (16) his masters is drinking that it would be a prudent thing to do  
 (17) to investigate that rumor?  
 (18) A That's correct  
 (19) Q That s just common sense and sound business practice?  
 (20) A It's prudent yes uh huh  
 (21) Q And would it be fair to say that you can think of no  
 (22) circumstances in your judgment that would excuse a fleet  
 (23) manager who has received some sort of rumor regarding one of  
 (24) his masters drinking you can t think of a circumstance that  
 (25) would excuse him from conducting an investigation can you?

Vol 14 2050

- (1) A I think that s what my deposition said yes that s  
 (2) correct  
 (3) Q But the matter of a ship master because of his  
 (4) responsibility using alcohol is a serious topic isn t it?  
 (5) A It certainly is yes  
 (6) Q Now at some point in time you became aware of the Graves  
 (7) report and I m going to put it up here I assume that when  
 (8) you became aware of it it wasn t in this heavy form But at  
 (9) some point in time you became aware of the Graves report?  
 (10) A Yes I did  
 (11) Q And about when was that?  
 (12) A It was some time the late spring early summer of 1985  
 (13) Q And you had learned that Captain Hazelwood had consumed  
 (14) alcohol prior to the date of the Graves report?  
 (15) A Yes  
 (16) Q And when you became aware of the Graves report and the  
 (17) substance of the Graves report that was in about 1986 is  
 (18) that about right?  
 (19) MR LYNCH I think he just answered the summer  
 (20) of 85  
 (21) BY MR O NEILL  
 (22) Q The summer of 85?  
 (23) A Yes  
 (24) Q In the summer of 85 when you became aware of the Graves  
 (25) report the thought crossed your mind with regard to Captain

Vol 14 2051

- (1) Hazelwood that he was able Captain Hazelwood was able to  
 (2) allude monitoring didn t it?  
 (3) A I'm sorry ask that again  
 (4) Q Let me try again When you saw the Graves report you  
 (5) became aware of or at that point in time knew that Captain  
 (6) Hazelwood specifically and - you had had prior dealings with  
 (7) Captain Hazelwood was able to avoid monitoring for alcohol  
 (8) use?  
 (9) A It appeared that that was the case yes  
 (10) Q And that was the thought you had at that point in time?  
 (11) A I don't recall today whether I had that thought then or  
 (12) not  
 (13) Q It s apparent isn t it?  
 (14) A It's not apparent no  
 (15) Q At some point in time did you form a conclusion in your own  
 (16) mind some time after 1985 did you form a conclusion that  
 (17) Captain Hazelwood had lied to you about his drinking?  
 (18) A No, I didn't  
 (19) Q You didn't?  
 (20) A No  
 (21) Q Let s go to your deposition transcript and little go to  
 (22) page 614 lines one through five And why don t you just read  
 (23) that to yourself and refresh your recollection go back to -  
 (24) A I see the answer  
 (25) Q Okay At some point in time you formed a conclusion in

Vol 14 2052

- (1) your own mind that Captain Hazelwood had been less than  
 (2) truthful with you in the past about his drinking is that a  
 (3) fair statement?  
 (4) A I said that in my deposition I did  
 (5) Q Okay  
 (6) A Upon further reflection the time period was not clear  
 (7) Q So at the time of your deposition you told the examiner my  
 (8) partner Mr Nolting that you formed the conclusion that Captain  
 (9) Hazelwood had lied to you about drinking in the past and today  
 (10) you have a different version?  
 (11) A I have a different reflection of that because the time  
 (12) period that we're talking about here was not clear  
 (13) Q Would it be fair to say that when you read Mr Graves  
 (14) report that you knew that Captain Hazelwood had alluded your  
 (15) particular personal efforts to monitor him?  
 (16) A It was not clear to me when he reported that he was  
 (17) drinking  
 (18) Q At your deposition?  
 (19) A He might have been drinking after the time I was  
 (20) monitoring  
 (21) him he may have been drinking before It wasn't clear  
 (22) Q I m going to ask one more question and I m going to move on  
 (23) to a new subject Would it be fair to say that at your  
 (24) deposition you testified that Captain Hazelwood in your view  
 (25) when you saw the Graves report you formed the conclusion that  
 (26) Captain Hazelwood had alluded your prior efforts to monitor

Vol 14 2053

- (1) him?
- (2) **A Yes**
- (3) **Q** Thank you And let s talk for a minute about what
- (4) documents the company had at about this point in time We know
- (5) we have the Graves report You re aware of the existence of
- (6) the Graves report because you reviewed it in the summer
- (7) of 85?
- (8) **A I was in a meeting when it was discussed**
- (9) **Q** And we have what everybody refers to as the IDR which is
- (10) Exhibit 20 - this version of it is Exhibit 208 and the IDR is
- (11) Exhibit 10 And you re aware of the existence of the IDR in
- (12) the company files?
- (13) **MR LYNCH** This question is as of today?
- (14) **MR O NEILL** Yes
- (15) **THE WITNESS** I m sorry repeat the question
- (16) **BY MR O NEILL**
- (17) **Q** You re aware of that existence back in 1985 at some point
- (18) in the company files You didn t know in 85 but now you know
- (19) it was in the company files?
- (20) **A That's correct yes**
- (21) **Q** Third time is the charm
- (22) **A Got you**
- (23) **Q** And there s one other document I want to ask you about and
- (24) I have it up there And it s in the form of a document that s
- (25) got a seal on the front of it NTSB seal and it s Exhibit 745

Vol 14 2054

- (1) **A Yes I see it**
- (2) **Q** And this is a document which we got from the National
- (3) Transportation Safety Board and the page the first page after
- (4) the certificate from the transportation safety board is a
- (5) letter that you wrote to a Dr Birky in August of 1989
- (6) enclosing a benefit record sickness report of Joseph
- Hazelwood**
- (7) do you see that?
- (8) **A Yes I do**
- (9) **Q** And the next page is the benefit record sickness report
- (10) Do you see that?
- (11) **A Yes**
- (12) **Q** Let me see if I can actually - let s switch back and see
- (13) if I can pull this up
- (14) I m going to put it up on the T V screen and see if we can
- (15) get a good look at you Now where did this benefit record
- (16) sickness report come from?
- (17) **A I believe it came from our benefits administrator file**
- (18) **Q** And in the upper left hand corner there is an entry that
- (19) says has Joseph Hazelwood and it has got a diagnosis ALC
- (20) treatment do you see that?
- (21) **A Yes**
- (22) **Q** And then right over here it has got an entry 4/16/85 hos
- (23) through 4/29 then LOA for group something else marilax
- (24) therapy AA lectures et cetera do you see that?
- (25) **A I see something like that yeah it's hard to read it**

Vol 14 2055

- (1) **Q** Do you know what LOA means?
- (2) **A Leave of absence**
- (3) **Q** How about marilax do you know what that is?
- (4) **A I have no idea**
- (5) **Q** Oh the marital therapy I m sorry What a dummy
- (6) Jesus Okay marital therapy So would it be fair to say that
- (7) this entry 4/16/85 hospital through 4/29 then leave of
- (8) absence group whatever the next word is marital therapy that
- (9) was in the Exxon Shipping Company files in the benefits -
- (10) **A That is my understanding**
- (11) **Q** Did you actually have somebody pull this file out of the
- (12) benefits department so you can send it over to the national
- (13) safety transportation board?
- (14) **A Yes**
- (15) **Q** At the time we now have three documents that we ve seen
- (16) from the records of the company we have the Graves report
- (17) we
- (18) have Exhibit 10 which is the IDR and we have this document
- (19) that we just talked about With regard to Captain Hazelwood
- (20) and his treatment are these the only three documents you
- (21) know
- (22) of that come out of the company files with regard to his
- (23) treatment?
- (24) **A That's all I'm aware of yes**
- (25) **Q** And at some point in time you did some kind of a search so
- (26) that you could respond to the National Transportation Safety
- (27) Board?

Vol 14 2056

- (1) **A Yes**
- (2) **Q** And would it be fair to say that in doing your search you
- (3) turned up no documents in the Exxon Shipping Company files
- (4) or
- (5) for that case in any Exxon Corporation files that formally
- (6) reflected a determination that he was fit for duty?
- (7) **A I believe I was responding to a specific request here from**
- (8) **Admiral - or from Mr Birky**
- (9) **Q** Let me ask another question then Do you know of any
- (10) documents that formally reflect a fitness for duty
- (11) determination?
- (12) **A I'm not - I don't recall any no**
- (13) **Q** And do you know any documents that formally reflect any
- (14) monitoring of Captain Hazelwood after 1985?
- (15) **A The documents'**
- (16) **Q** Yes sir
- (17) **A I'm not aware of any**
- (18) **Q** And?
- (19) **A C in I add to that statement'**
- (20) **Q** Sure
- (21) **Q** Other than the general performance evaluations of any of
- (22) our employees
- (23) **Q** So we have the performance evaluations in the file too?
- (24) **A Yes**
- (25) **Q** And in 1986 the year after treatment Captain Hazelwood s
- (26) performance was such that he was ranked 35 out of 37 masters

Vol 14 2057

- (1) isn't that correct? You want to check?
- (2) **A In 1986?**
- (3) **Q Yes sir**
- (4) **A 35 of 37 that's correct**
- (5) **Q So with regard to the issue of what we have in the files**
- (6) **that concern Captain Hazelwood drinking alcoholism**
- (7) **treatment that core set of facts we've covered the universe**
- (8) **of documents?**
- (9) **A We may have**
- (10) **Q That you know of?**
- (11) **A The ones I'm aware of**
- (12) **Q Thank you sir**
- (13) **A Could I add another -**
- (14) **Q Sure**
- (15) **A - to my statement Other than the underlying**  
**evaluations**
- (16) **of course on Captain Hazelwood**
- (17) **Q And the performance evaluations don't talk one way or the**
- (18) **other about alcoholism recovery AA treatment return to**
- (19) **fitness fitness for duty do they what?**
- (20) **MR CHALOS Your Honor I move to strike any**
- (21) **reference to alcoholism There's been no records and there's**
- (22) **been no testimony of that**
- (23) **THE COURT I'm not going to strike the reference**
- (24) **We've had testimony on that subject and the jury will have to**
- (25) **decide what the issues are and what the answers are I will**

Vol 14 2058

- (1) **decide what the issues are the jury will decide what the facts**
- (2) **are**
- (3) **THE WITNESS Could you repeat the question please**
- (4) **BY MR O NEILL**
- (5) **Q Other than the document the performance evaluations don't**
- (6) **address this subject do they?**
- (7) **A They address the employee's performance on the job**  
**and**
- (8) **part of his performance on the job is being able to perform**  
**the**
- (9) **job in a fit manner**
- (10) **Q Is there anything on any of the performance evaluations**
- (11) **that says I talked to the captain about his recovery**
- (12) **treatment problems with alcohol I followed up with them about**
- (13) **any of those things is there anything in any of those**
- (14) **documents in that tone or tenor that you're aware of?**
- (15) **A Not that I'm aware of**
- (16) **Q As the human resources manager of Exxon Shipping and**  
**now**
- (17) **what is -**
- (18) **A Sea River Maritime**
- (19) **Q - you have a responsibility for issues dealing with the**
- (20) **subject of alcoholism don't you?**
- (21) **A I'm not currently the human resources manager**
- (22) **Q When you were?**
- (23) **A When I was yes I had that responsibility**
- (24) **Q Had you realized that people who have a problem with**
- (25) **alcohol in the workplace don't always fit the stereotype of a**

Vol 14 2059

- (1) **skid row hump or falling down drunk that's a correct**  
**statement?**
- (2) **A I'm aware of that statement**
- (3) **Q And indeed such stereotypes really don't help our solutions**
- (4) **with those problems a heck of a lot do they?**
- (5) **A No they don't**
- (6) **Q And your understanding of the disease of alcoholism is that**
- (7) **you're always recovering and you must abstain from alcohol**  
**use?**
- (8) **A That's my understanding of alcoholism yes**
- (9) **Q Now would it be fair to say that Exxon medical department**
- (10) **in your view was responsible for determining whether Captain**
- (11) **Hazelwood successfully completed his alcoholism**  
**rehabilitation?**
- (12) **A Yes we rely when there's a question of - from the**
- (13) **benefits group If there's a question about the individual**
- (14) **doctor's concern or you know diagnosis then we refer that**  
**to**
- (15) **the medical department and rely ultimately on their**  
**judgment**
- (16) **Q And at no time after Captain Hazelwood left alcohol**
- (17) **rehabilitation did you as the human resources manager ask**  
**him**
- (18) **whether he completed any aftercare program?**
- (19) **A That's correct**
- (20) **Q And as the human resources manager of Exxon Shipping**
- (21) **Company and prior to the grounding you're not aware of**  
**anyone**
- (22) **from Exxon Shipping Company who spoke to the medical**  
**department**
- (23) **about what type of aftercare Captain Hazelwood should have?**
- (24) **A I'm not aware of any no**

Vol 14 2060

- (1) **Q And at no time in fact at no time prior to the grounding**
- (2) **did you know whether Captain Hazelwood was in any kind of**
- (3) **aftercare program at all?**
- (4) **A Yes**
- (5) **Q But you had heard at some point in time a rumor about AA**
- (6) **that he might have attended AA?**
- (7) **A I might have**
- (8) **Q So that was something you had in your mind prior to this**
- (9) **grounding that this captain might be going to AA?**
- (10) **A I believe that's correct yeah**
- (11) **Q And would it be fair to say that you never discussed with**
- (12) **Captain Hazelwood whether he was attending AA on a regular**
- (13) **basis?**
- (14) **A No I never discussed that with him**
- (15) **Q In fact you never discussed the subject of AA with Captain**
- (16) **Hazelwood at all did you?**
- (17) **A No I didn't**
- (18) **Q At some point in time after leaving alcohol rehabilitation**
- (19) **Captain Hazelwood was assigned to the Exxon Yorktown is that**  
**a**
- (20) **correct statement?**
- (21) **A Yes**
- (22) **Q Was it your understanding that the fleet manager that**
- (23) **Captain Hazelwood worked for was responsible for monitoring**  
**his**
- (24) **performance and abstinence?**
- (25) **A For his performance and he monitors the abstinence of**

Vol 14 2061

- (1) everybody that's working on board a ship while they're working  
 (2) on the ship  
 (3) Q While they were he working on the ship?  
 (4) A Yes  
 (5) Q That's a qualification to the answer you gave in your deposition isn't it?  
 (6) A I don't recall exactly what I said in the deposition  
 (7) Q Would you go to page 164 of your deposition transcript Go to page 163 I'm sorry sir Line 16 to line 20 and I'll read the question and answer and if you could follow along and make sure that I get it right  
 (8) And the question was referring to Captain Hazelwood and the question was Were you aware of his monitoring while he was on the job  
 (9) Answer I was aware that the fleet manager that he worked for was responsible for monitoring his performance and abstinence Do you see that?  
 (10) A Yes, I do  
 (11) Q Did I read the question and answer fairly?  
 (12) A You did  
 (13) Q I think I said the same thing And a recovering alcoholic is supposed to be abstinent in your view?  
 (14) A The question was aware of his monitoring while he was on the job, and that's the way I answered the question  
 (15) Q Would it be fair to say that you assume that the medical

Vol 14 2062

- (1) department evaluated Joe Hazelwood after his rehabilitation program?  
 (2) A I assumed that I think yes  
 (3) Q And in fact you assumed that was the normal procedure didn't you?  
 (4) A Where it was requested by our people it was yes  
 (5) Q Now you were the human resources manager from '86 to '87?  
 (6) A Yes during that period of time from fall of '86  
 (7) Q And Dwight Koops was in what position during that period of time?  
 (8) A '86 to '87  
 (9) Q Yes sir  
 (10) A Dwight would have been the gulf coast fleet manager at that time  
 (11) Q And that's where Captain Hazelwood was?  
 (12) A Yes I believe - I believe he was in that for part of '87  
 (13) Q And at that point in time you were the director of human resources for Exxon Shipping Company?  
 (14) A Human resources manager  
 (15) Q I keep on getting that wrong don't I? Is that a promotion or a demotion?  
 (16) A I have no idea  
 (17) Q And would it be fair to say that you don't recall ever discussing Captain Hazelwood's alcohol rehabilitation with Dwight Koops?

Vol 14 2063

- (1) A True  
 (2) Q And you never discussed monitoring Captain Hazelwood's drinking with Dwight Koops?  
 (3) A That's correct  
 (4) Q Did you ever tell Dwight Koops about your concerns about the problems in monitoring Captain Hazelwood at all?  
 (5) A Not that I recall  
 (6) Q Did the Exxon Shipping Company officers who reassigned Captain Hazelwood to the Exxon Valdez in 1987 consult with you about that reassignment?  
 (7) A Not that I recall, no  
 (8) Q Do you recall if they consulted the medical department about that reassignment?  
 (9) A I don't know  
 (10) Q Now there was one instance in which you did get involved in monitoring Captain Hazelwood?  
 (11) A Yes uh huh  
 (12) Q And that was at the 1988 fleet conference?  
 (13) A Fleet officer conference yes I was asked to monitor him  
 (14) Q And that was by Mr. Larossi and he asked you and Harvey Borgen to monitor him just at the fleet conference?  
 (15) A We were attending the fleet conference together, yes  
 (16) Q And did you tell Mr. Borgen that you had had reservations about your ability to successfully monitor Captain Hazelwood at or about this 1988 fleet conference time? Do you understand

Vol 14 2064

- (1) the question?  
 (2) A I'm not sure that I do  
 (3) Q Are there too many words in that question?  
 (4) A I'm not sure of the time frame you're talking about  
 (5) Q You and Borgen are going to monitor Hazelwood pursuant to Larossi's request at this conference in 1988?  
 (6) A Yes  
 (7) Q Did you tell Harvey I tried to monitor this guy before I had problems it didn't work out or words to that effect?  
 (8) A No I don't believe I did uh uh  
 (9) Q Now how long was this fleet conference?  
 (10) A About a week  
 (11) Q And other than this request from Larossi and this one week fleet conference that's the sum and substance of your knowledge with regard to monitoring Captain Hazelwood?  
 (12) A I did on my own without mentioning it to anybody monitor him in the 1987 officer conference as well which I attended, also held in Houston about a week long conference and because of the knowledge I had I did observe him more carefully and was aware of his past problem  
 (13) Q And you weren't monitoring him for mild depression were you you were monitoring for alcohol use?  
 (14) A That's correct uh huh  
 (15) Q And that was sort of done on your own?  
 (16) A Yes

Vol 14 2065

Vol 14 2067

(1) Q Nobody asked you to do it?  
 (2) A No  
 (3) Q It was common sense because we had a potential problem  
 (4) here?  
 (5) A I just felt that it would be prudent for me to do it  
 (6) Q Because a drinking ship captain is a dangerous thing isn't  
 (7) that right?  
 (8) A Can be  
 (9) Q Now let me ask a little bit as the human resources  
 (10) manager you never told anyone that Captain Hazelwood - up  
 to  
 (11) the time of the grounding you never told Captain Hazelwood -  
 (12) you never told anyone that Captain Hazelwood had alluded  
 your  
 (13) attempts to monitor his use of alcohol did you?  
 (14) A Well, I wasn't sure that he alluded my attempts  
 (15) Q You had concerns didn't you?  
 (16) A I had concerns  
 (17) Q And after Captain Hazelwood returned from alcohol  
 (18) rehabilitation you never asked him if he had resumed drinking  
 (19) did you?  
 (20) A No just observed when I could  
 (21) Q You didn't go in and say Joe how's your recovery doing  
 (22) how's AA how's aftercare have you resumed drinking you  
 (23) didn't do that did you?  
 (24) A No I sure didn't  
 (25) Q And indeed you're not aware of anyone from Exxon who  
 asked

(1) describe to us all what the memo discusses?  
 (2) A It discusses the proposal to enhance the professionalism  
 of  
 (3) our masters by allowing them to receive compensation for  
 using  
 (4) pilotage in certain cases  
 (5) Q So that if a master had a pilotage endorsement for Prince  
 (6) William Sound he could use that pilotage endorsement it  
 (7) would - the policy would encourage him to go out and get the  
 (8) pilotage endorsement that kind of thing were the ones that  
 (9) already had the pilotage endorsement would use it this would  
 (10) compensate them for that and encourage others to go out and  
 do  
 (11) this same kind of professional thing?  
 (12) A Yes  
 (13) Q And indeed the company by using or qualifying its captains  
 (14) as pilots could not only enhance their professionalism but  
 (15) could save some money?  
 (16) A In that period of time that's correct  
 (17) Q And how much?  
 (18) A It depended on the port and how often it was used  
 (19) Q Let's talk about Valdez  
 (20) A I don't have any specific recollection right now  
 (21) Q Thousands of dollars?  
 (22) A It was a fairly you know several hundred thousand a  
 year  
 (23) I think Or a few hundred thousand  
 (24) Q Would it be fair to say that two of the disadvantages or  
 (25) limitations on the utilization of employee pilots were that it

Vol 14 2066

Vol 14 2068

(1) Captain Hazelwood after he got out of rehabilitation whether  
 (2) he had resumed drinking?  
 (3) A I'm not aware of anyone no  
 (4) Q Was turn around time one of the criteria used in evaluating  
 (5) masters?  
 (6) A It was a very minor part of an overall performance  
 (7) evaluation of all of our officers that were involved in running  
 (8) a ship  
 (9) Q That's because turn around time is related to profit isn't  
 (10) it?  
 (11) A It's one of many factors yes  
 (12) Q Now I want to go exhibit 1793 It's a memo of yours or  
 (13) appears to be a memo of yours dated 3/27/1980 on the subject  
 (14) of the employee pilot proposal Do you have that?  
 (15) A Which exhibit again please?  
 (16) Q It's 1793?  
 (17) A Yes, I see that  
 (18) Q And what is 1793?  
 (19) A It's a memorandum I wrote to Jim Swartz on an employee  
 (20) pilot proposal in 1980  
 (21) Q And did it deal with among other things the subject of  
 (22) pilotage in Prince William Sound?  
 (23) A Yes, it did  
 (24) Q Put the first page of the exhibit up on the screen twice  
 (25) Now basically what does the memo discuss if you could

(1) would result in the loss of an extra advisor in the master on  
 (2) the bridge that's a disadvantage?  
 (3) A That was a potential disadvantage  
 (4) Q And media criticism for not taking a local pilot in the  
 (5) event of a serious casualty?  
 (6) A That was mentioned as a down side  
 (7) Q You mention that as a down side?  
 (8) A I did yes uh huh  
 (9) Q At some point in time you consulted with Frank Larossi  
 (10) president of Exxon Shipping Company regarding the decision  
 to  
 (11) terminate Captain Hazelwood Is that a correct statement?  
 (12) A Yes I did  
 (13) Q Did you review the press release?  
 (14) A No, I did not  
 (15) Q Did you approve his termination?  
 (16) A I didn't - wasn't in a position to approve it, no  
 (17) Q Did you see the press release?  
 (18) A Not before it was sent out no  
 (19) Q Did you see it after it was sent out?  
 (20) A I've seen it recently  
 (21) Q This is a terrible copy but I think it says Frank the  
 (22) middle paragraph reads Frank Larossi president of Exxon  
 (23) Shipping Company said that the decision to terminate the  
 (24) employee was made because he violated company policy  
 concerning  
 (25) alcohol Do you see that?

Vol 14 2069

- (1) **A That's on Exhibit 173?**  
 (2) **Q Yes sir**  
 (3) **A Yes I see that uh huh**  
 (4) **Q Is it your understanding that this press release was issued**  
 (5) **to the press the world and that in fact was a statement made**  
 (6) **in the press release?**  
 (7) **A I don't have an understanding about that All I see is**  
 (8) **that this says it was a press release from shipping company**  
 (9) **Q This is in evidence and I want to read the next paragraph**  
 (10) **and I want to ask you whether you agree with the paragraph or**  
 (11) **not I m going to read the last paragraph and I m going to**  
 (12) **say do you agree or do you not**  
 (13) **We are all extremely disappointed and outraged that an**  
 (14) **officer in such a critical position would have jeopardized his**  
 (15) **ship crew and the environment through such actions Our**  
 (16) **policies in this area are very clear Larossi explained do you**  
 (17) **see the statement?**  
 (18) **A I see the statement**  
 (19) **Q Do you agree with the statement or disagree with the**  
 (20) **statement?**  
 (21) **A I don't except the predicate to the statement so I can't**  
 (22) **agree with the statement**  
 (23) **MR O NEILL Nothing further Judge thank you**  
 (24) **THE COURT Cross**  
 (25) **MR LYNCH Your Honor at your convenience I d like**

Vol 14 2070

- (1) **to have a short side bar at your convenience It doesn't have**  
 (2) **to be right away**  
 (3) **THE COURT Go ahead and we'll take care of it when we**  
 (4) **take our recess at noon**  
 (5) **MR LYNCH Thank you**  
 (6) **CROSS EXAMINATION OF DANIEL JOHN PAUL JR**  
 (7) **BY MR LYNCH**  
 (8) **Q Mr Paul I represent the shareholders of Exxon and we have**  
 (9) **met probably more than you wish?**  
 (10) **A Yes sir**  
 (11) **Q I d like to ask you first of all just to fill out your**  
 (12) **work history at Exxon a little further Mr O Neill began with**  
 (13) **you in 1985 Prior to that time was it true that you had been**  
 (14) **for a while the West Coast fleet manager?**  
 (15) **A That's true yes**  
 (16) **Q And what period of time did that cover?**  
 (17) **A That was from 1977 the start up of the operation on the**  
 (18) **West Coast until the summer of 1982**  
 (19) **Q And at the time that you wrote the memorandum about**  
 (20) **pilotage that Mr O Neill showed you Toward the end you were**  
 (21) **the West Coast fleet manager?**  
 (22) **A That's true**  
 (23) **Q For a period of time did Captain Hazelwood report directly**  
 (24) **to you?**  
 (25) **A Yes he did**

Vol 14 2071

- (1) **Q Did he report directly to you during the 1985 1989 period**  
 (2) **that Mr O Neill was asking you about?**  
 (3) **A No**  
 (4) **Q Now I m going to address my questions at this point to**  
 (5) **that period that Mr O Neill was asking you about basically**  
 (6) **1985 through March 23 or March 24 1989**  
 (7) **Your Honor may I approach the witness**  
 (8) **THE COURT Uh huh**  
 (9) **BY MR LYNCH**  
 (10) **Q I d like to hand you what I believe is marked as DX170**  
 (11) **Would you identify that for the record?**  
 (12) **A Yes This is the Exxon Shipping Company safety credo**  
 (13) **Q And was that an credo adopted by the company about 1984?**  
 (14) **A Yes, it was**  
 (15) **Q Do you recognize that plaque?**  
 (16) **A This is a plaque that is posted on each of the vessels in**  
 (17) **our fleet**  
 (18) **Q And was that - does that plaque basically state the**  
 (19) **management position on the role that safety should play in**  
 (20) **running the ships and running the company?**  
 (21) **A Yes, this is kind of our bible**  
 (22) **MR LYNCH I'll offer DX170 Your Honor I don't**  
 (23) **believe there's an objection**  
 (24) **(Exhibit DX170 offered)**  
 (25) **MR O NEILL No objection**

Vol 14 2072

- (1) **THE COURT DX170 is admitted**  
 (2) **(Exhibit DX170 received)**  
 (3) **BY MR LYNCH**  
 (4) **Q Now in connection with carrying out the Exxon Shipping**  
 (5) **Company safety credo what steps did Exxon Shipping**  
 (6) **Company**  
 (7) **take to promote consciousness of safety within its fleet and**  
 (8) **among it's people?**  
 (9) **A The credo was just the next step we took in a long, long,**  
 (10) **history of trying to promote safety in our fleet but with the**  
 (11) **credo we did announce it to all the employees put it in our**  
 (12) **company newspaper we visited ships and had meetings**  
 (13) **with**  
 (14) **employees and encouraged them to discuss it in their safety**  
 (15) **meetings when it was first announced And then in 1987 we**  
 (16) **had**  
 (17) **a safety initiative as another step in trying to reinforce our**  
 (18) **commitment to safety and keep it foremost in people's**  
 (19) **minds**  
 (20) **Q What was the safety initiative?**  
 (21) **A Safety initiative was a program we had We sent our**  
 (22) **senior**  
 (23) **marine advisor Bill Duncan to each of the ships in the fleet**  
 (24) **with another group of people from our company We**  
 (25) **stopped the**  
 (26) **operation of each vessel for about a day**  
 (27) **Q When you say you stopped the operation dropped the**  
 (28) **anchor**  
 (29) **and tied it up somewhere?**  
 (30) **A Well the vessels were in port at a dock typically maybe at**  
 (31) **anchor and we shut down the operation the cargo**  
 (32) **operations**  
 (33) **left just a safety watch on the bridge and brought the rest of**

Vol 14 2073

- (1) the crew in to a lengthy meeting to describe the reinforcement
- (2) of the safety program we have to reinforce the safety credo
- (3) and to implement some new programs that we were sponsoring
- (4) under this safety initiative
- (5) Q Did - was there an ongoing effort to promote consciousness and awareness of safety?
- (6) A Yes there was
- (7) Q And what form did that take? How do you keep people alert to the concept of safety?
- (8) A We use every means available to us basically to try to do that Our supervisors enforce the safe acts concept As they
- (9) assign work to people we have job hazard analysis steps that we
- (10) take in the beginning of each significant job to walk through the safety aspects of potential problems We have a lot of
- (11) postures and bulletin boards and themes of the month and things
- (12) like that we put on the ships and just to try to keep safety foremost in everybody's mind
- (13) Q And do you give awards and recognize to people for safety performance?
- (14) A Yes we do
- (15) Q And let me direct your attention to what I believe is marked as DX9118 This is a Mr Murtiashaw tells me a montage
- (16) of photos of awards issued to various ships and people Is that correct sir?
- (17) A That's correct yeah

Vol 14 2074

- (1) Q And is that - that's the type of award that the company offers and bestows on ships or crews or people?
- (2) A That's an example of them There are other awards beyond
- (3) that too
- (4) Q Okay And are those awards taken seriously?
- (5) A I think they are yes
- (6) Q Are they important to the people who are working on the ships do they have career and pay and rating significance to people?
- (7) A Well the awards themselves I think just represent recognition There are other ways to recognize them as well
- (8) through pay
- (9) MR LYNCH May I offer Exhibit 9118 Your Honor (Exhibit 9118 offered)
- (10) MR O NEILL Oh objection
- (11) THE COURT Admitted
- (12) (Exhibit 9118 received)
- (13) BY MR LYNCH
- (14) Q Has Exxon Shipping been recognized by any outside agency?
- (15) A Yes we have a reputation of probably being the premiere operator in the industry
- (16) Q Let me ask you to look at Exhibit 9117 for identification at the moment Could you describe that for the record
- (17) Mr Paul?
- (18) A Yes That's a three different kinds of awards that

Vol 14 2075

- (1) shipping company receives for participation in safety programs
- (2) and for safety excellence
- (3) Q And are those issued by outside agencies or by Exxon Shipping Company?
- (4) A These are outside agencies Two of them are jointly issued
- (5) each year awarded each year by the American Institute of Merchant Shipping and the National Safety Counsel
- (6) Q What award is that?
- (7) A The Jones Devlyn award which is on the left hand - top left hand side
- (8) Q These awards here?
- (9) A Yes
- (10) Q What are those for?
- (11) A Those are awarded to a vessel for having no disabling injuries for a period of either one two four or five years we have one ship there that shows I think didn't have a disabling injury for a period of five years
- (12) Q And how does Exxon Shipping performance for the Jones Devlyn award compare with other U S flag companies?
- (13) A Any shipping company that wants to participate in that program can nominate vessels for it and we typically bring a
- (14) large majority of those awards back to our fleet, a large percentage of the ones that are awarded
- (15) MR LYNCH Offer 9117 Your Honor
- (16) (Exhibit 9117 offered)

Vol 14 2076

- (1) MR O NEILL No objection
- (2) THE COURT Admitted
- (3) (Exhibit 9117 received)
- (4) MR LYNCH If this is a good time I could stop here
- (5) THE COURT We'll be in recess for 15 minutes and counsel standby for a minute take up the matter We'll break at this time
- (6) THE COURT Does this need to be on the record for off?
- (7) MR LYNCH No Your Honor
- (8) THE COURT We're off the record
- (9) (Jury out at 12 00 p m)
- (10) (Recess at 12 00 p m)
- (11) (Jury in at 12 17 p m)
- (12) MR LYNCH May I proceed Your Honor
- (13) THE COURT You may
- (14) BY MR LYNCH
- (15) Q Mr Paul you said that when you were made I hope I get it right manager of human resources in 1986 was it?
- (16) A Yes
- (17) Q That your responsibility was for manning or seeing that Exxon Shipping ocean vessels had proper crews is that correct?
- (18) A That's correct yes
- (19) Q And how did Exxon Shipping go about doing that?
- (20) A We have unlike a lot of companies in our industry who draw

Vol 14 2077

(1) their employees out of union hauls by seniority we have the  
 (2) benefit of having the company employees running our ships  
 so we  
 (3) can really hand pick each one of them and train them and  
 put  
 (4) them on the same vessels and have much better continuity  
 and  
 (5) therefore we think a safer operation  
 (6) Q So other U S flagships don't have permanent full time  
 employees on their crews?  
 (7) A Most companies in the industry have contracts with  
 national  
 (8) unions that represent most of the employees When they  
 when a  
 (9) company needs a seafarer they go to the union hall and the  
 union assigns an employee to fill their billet  
 (10) Q What is the advantage of Exxon Shipping of having full time  
 permanent employees as opposed to going to an union hall?  
 (11) A I think we maintain better quality control over our people  
 (12) that way we can hand pick them We can select maritime  
 academies We can license people in independent union  
 they're  
 (13) still company employees and we can pick them each one  
 individually  
 (14) We can train the people on our programs and policies and  
 (15) best in training them because we know that they're here for  
 a  
 (16) career basically We're hiring the employees for a career  
 and  
 (17) we can assign them to the same vessels so they can get to  
 know  
 (18) the vessel get to know each other is a team and we think  
 that  
 (19) provides us a better operation

~~(20) Q Just a couple quick points Did I hear you say it's your~~

Vol 14 2078

(1) policy to keep the same people on the same ships on a regular  
 basis?  
 (2) A Yes particularly the officers and on few key people  
 (3) Q To keep the same crews together generally speaking from  
 trip to trip?  
 (4) A Yes We don't have a blue team and a gold team they all  
 get off at once They stagger their rotations but the same  
 people share the same assignment on a ship  
 (5) Q Now for deck officers - first of all what is a deck  
 officer could you just clear that up for the record?  
 (6) A A deck officer is a master a chief mate second mate or  
 third mate and they're responsible for the navigation of the  
 vessel and for cargo handling  
 (7) Q What other kind of officer is there?  
 (8) A There's an engineering officer and there are four of them  
 or five of them on a ship, depending on the design They're  
 responsible for the propulsion system on the ship  
 (9) Q The deck officers are they supposed to work in the  
 propulsion area?  
 (10) A No they can't by Coast Guard regulations  
 (11) Q The deck officers may only be involved in deck duties?  
 (12) A Deck and cargo  
 (13) Q And the engineering officers may also have propulsion  
 duties?  
 (14) A Propulsion and cargo They can't navigate the ship

Vol 14 2079

(1) Q There's been good evidence that training - do you - let  
 me ask you to look at Exhibit 3439 At my request did you pull  
 (2) together a list of some training courses that Exxon provided to  
 (3) its people?  
 (4) A Yes I did  
 (5) Q And are these courses that were provided by Exxon itself  
 (6) inhouse?  
 (7) A Some of these were inhouse most of the ones on this  
 page,  
 (8) though, are from third party providers other companies that  
 (9) provide these services  
 (10) Q Some school or some other agency to provide teaching?  
 (11) A Yes  
 (12) MR LYNCH I will offer 3439  
 (13) (Exhibit 3439 offered)  
 (14) MR O NEILL No objection  
 (15) THE COURT Defendants 3439 is admitted  
 (16) (Exhibit 3439 received)  
 (17) BY MR LYNCH  
 (18) Q Now with reference to the people you were talking about  
 (19) the full time employees who are aboard ships is there  
 (20) something called industrial due process in the human  
 resources  
 (21) field?  
 (22) A Yes there is  
 (23) Q Could you explain for the jury what you mean by that  
 phrase?

Vol 14 2080

(1) A It provides a framework legal framework under which we  
 (2) must deal with our employees Deal with things like  
 respecting  
 (3) their rights of privacy certain labor laws that dictate how we  
 (4) must handle people's disputes or handicap laws there's a  
 lot  
 (5) of laws we have to abide by and under that framework  
 (6) Q Specifically - is it manager of human resources or human  
 (7) resources management?  
 (8) A Whichever is easier for you to say  
 (9) Q Did you have to take into account the rehabilitation act in  
 (10) your staffing of Exxon Shipping Company ships?  
 (11) A Yes we did  
 (12) Q And how did that act affect treatment of people who had a  
 (13) history of alcohol treatment?  
 (14) A Well it required you not to discriminate against those  
 (15) people and to keep their problems confidential  
 (16) Q Were people in that category classified as handicap people?  
 (17) A They were classified as that handicap  
 (18) Q Was Exxon Shipping Company required to make jobs  
 available  
 (19) to them if they were up to doing those jobs?  
 (20) A Yes if they were otherwise qualified  
 (21) Q Was that a factor that affected the way you implemented as  
 human resources manager the operation of the manning of the  
 (22) fleet overall?  
 (23) A Yes it is  
 (24) Q What other restrictions or what other effects did

Vol 14 2081

- (1) industrial due process have on how Exxon Shipping could man  
and  
(2) operate its fleets?  
(3) **A Well there were privacy rules that we had to abide by that**  
(4) **basically limited how much information we could know**  
**about an**  
(5) **individual**  
(6) **Q And did those rules also affect what you – what you could**  
(7) **use as a basis for job action?**  
(8) **A Other rules not the privacy rules but other rules did I**  
(9) **think yes**  
(10) **Q Mr O Neill for example asked you whether checking people**  
(11) **went to AA programs is that something that an employee is**  
(12) **typically entitled to take into account in a job related**  
(13) **arrangement?**  
(14) **A No**  
(15) **Q Now with reference to the deck complement what types of**  
(16) **tankers did Exxon Shipping operate?**  
(17) **A We operate both crude and product tankers**  
(18) **Q Now could you explain the difference between those two?**  
(19) **A A product tanker is a tanker that carries refined products**  
(20) **or intermediate feed stocks or chemicals like gasoline**  
(21) **heating oil jet fuel from refineries typically to marketing**  
(22) **terminals where they're further distributed to the customer**  
(23) **Q And a crude tanker carried only crude oil?**  
(24) **A Instead of having several grades of cargo on a ship you**  
(25) **would typically only have one grade Valdez**

Vol 14 2082

- (1) **Q And that is?**  
(2) **A That's crude oil**  
(3) **Q Exxon Valdez was a crude oil tanker?**  
(4) **A That's correct yes**  
(5) **Q In connection with your West Coast fleet manager**  
(6) **experience**  
(7) **and your experience as manager of human resources did you**  
(8) **become acquainted with the way that companies other than**  
(9) **Exxon**  
(10) **Shipping staff those ships as far as deck officers were**  
(11) **concerned?**  
(12) **A Yes I did**  
(13) **Q And what was the industry standard staff arrangement for a**  
(14) **crude oil tanker?**  
(15) **A A master and three mates**  
(16) **Q And what did Exxon Shipping use?**  
(17) **A A master and three mates**  
(18) **Q Now were there statistics available to you published by**  
(19) **the government relating to the shipments that call at Valdez**  
(20) **Alaska?**  
(21) **A Yes there are**  
(22) **Q And at my request did you examine those statistics as they**  
(23) **relate to the year 1988?**  
(24) **A Yes, I did**  
(25) **Q And did you determine from those government sources what**  
(26) **the staffing was of the typical crude oil tanker calling at**  
(27) **Valdez Alaska?**

Vol 14 2083

- (1) **A I did yes**  
(2) **MR LYNCH I believe you have no objection but let**  
(3) **me know you Exhibit 3431B as in haker**  
(4) **(Exhibit 3431B offered)**  
(5) **MR O NEILL No objection**  
(6) **MR LYNCH I'll offer it Your Honor**  
(7) **THE COURT 3431B is admitted**  
(8) **(Exhibit 3431B received)**  
(9) **BY MR LYNCH**  
(10) **Q Could you just explain briefly what this chart illustrates?**  
(11) **A-Yes it states in 1988 there were 55 tankers that were**  
(12) **called at Valdez and based on the government reports 50 of**  
(13) **those tankers were manned with master and three mates**  
(14) **and five**  
(15) **of them were manned with a master and four mates**  
(16) **Q So the names of the various ships that had the three mate**  
(17) **and master complements are in the blue?**  
(18) **A That's correct**  
(19) **Q And the five ships that had four mates in addition to a**  
(20) **master in red is that correct?**  
(21) **A That's correct**  
(22) **Q Were you acquainted with both of the job capacities I**  
(23) **referred with a Coast Guard regulation that is commonly**  
(24) **called the six hour rule?**  
(25) **A Yes I am**  
(26) **Q And that rule requires that there be six hours off duty**

Vol 14 2084

- (1) **time for mates who are going to assume a watch at the time of**  
(2) **leaving port?**  
(3) **A That's correct six hours**  
(4) **Q To your knowledge did Exxon Shipping Company take any**  
(5) **steps to assure that its shipments and its crews were in**  
(6) **compliance with that regulation?**  
(7) **A Yes we did**  
(8) **Q What actions did Exxon Shipping take to assure compliance**  
(9) **with that regulation?**  
(10) **A We had a number of discussions with our senior officers**  
(11) **in**  
(12) **the fleet at these officer conferences that I mentioned**  
(13) **earlier A number of those conferences we talked about six**  
(14) **hour rule and other rules that the masters must comply**  
(15) **with**  
(16) **We told them that it was their responsibility for assuring**  
(17) **that**  
(18) **the six hour rule was complied with as any other law that**  
(19) **they're supposed to be operating under We also did an**  
(20) **analysis with regard to the ability of our company to meet**  
(21) **the**  
(22) **six hour requirements at Valdez**  
(23) **Q Did you have any policy for should a case arise where for**  
(24) **some reason the normal complement wasn't able to comply**  
(25) **with**  
(26) **the six hour rule?**  
(27) **A There was a lot of flexibility in the master's discretion**  
(28) **to rearrange the work schedule of the people or to stop the**  
(29) **ship at the dock or to do whatever he thinks is prudent to**  
(30) **comply with the law**

Vol 14 2085

- (1) Q What was your understanding of how a – the off duty time  
 (2) was to be calculated? How did one determine whether you  
 were  
 (3) on or off duty for purposes of that statute as you understood  
 (4) it?  
 (5) A If work was assigned to an individual to do during that  
 (6) period of time, it was considered to be work  
 (7) Q What if an individual had the discretion either to do it in  
 (8) that time or some other different time and chose to do it that  
 (9) time?  
 (10) A Then that would not be considered as duty time  
 (11) Q Beyond the question of application of the six hour rule  
 (12) did you as manager of human resources in Exxon Shipping  
 (13) Company evaluate whether the – whether fatigue overworked  
 (14) tiredness was a problem returning ships on the three mate –  
 (15) one captain master three mate complement for crude oil traffic?  
 (16) A Yes, I did  
 (17) Q And what steps did you take to evaluate that question?  
 (18) A We did a study in 1984 on work load redistribution within  
 (19) the officer group We also talked a good bit through our  
 (20) operations managers as they visited vessels and talked to  
 (21) masters and other officers about fatigue levels and work  
 load  
 (22) on the vessel for officers and unlicensed for that matter  
 and  
 (23) made it clear that we expected the senior officers on the  
 vessel by the master to insure that the people were not  
 (24) fatigued when they were doing their job  
 (25)

Vol 14 2086

- (1) Q I think you mentioned fleet officers conferences Could  
 (2) you tell the jury what a fleet officer conference was how it  
 (3) was done?  
 (4) A Yes Fleet officer conference is an – it's a conference  
 (5) that we typically held every year to invite all of all of our  
 (6) senior officers into the fleet into Houston and to meet for  
 (7) about a week with our management group and we covered  
 a broad  
 (8) range of topics in those meetings Some of them were –  
 some  
 (9) of the topics were to – to review with the officers the  
 (10) overall state of the business other purposes were to  
 introduce  
 (11) them to new policies and rules that we were implementing,  
 and to  
 (12) describe to them what their roles were as supervisors on  
 the  
 (13) ship We also provided training of them on how to carry out  
 (14) those duties and to provide an opportunity for them to talk  
 (15) about professional topics that they were interested in as  
 senior We asked for their input on what that agenda would  
 be  
 (16) Q Professional topics what are you talking about?  
 (17) A We talked about things ranging from fatigue or how to run  
 (18) an engine room to typically – we had our admiralty attorney  
 (19) come out and talk to them about navigation and bring  
 (20) organization issues and laws and how they should comply  
 with  
 (21) them  
 (22) Q Now you mentioned a study that you did to balance the work  
 (23) load What did that study indicate to you?  
 (24) A The study indicated to us that the work hours that our

Vol 14 2087

- (1) officers were working were not unreasonable and gave us  
 no  
 (2) concern about fatigue It also indicated however that  
 when  
 (3) our officers were immediately removed from rested status  
 in the  
 (4) early '80s that there was some imbalance in the work load  
 (5) between the engine department the deck department and  
 between  
 (6) some of the senior officer responsibilities and the junior  
 officer responsibilities  
 (7) Q And what was done about that imbalance?  
 (8) A We took steps to redistribute the work load as best we could  
 (9) given the Coast Guard restrictions on who can do what on a  
 (10) ship, and tried to balance out the work load more evenly to  
 (11) assist in the fatigue situation  
 (12) Q Now let's just talk about the working conditions aboard  
 (13) these tankers and particularly a tanker like the Exxon  
 (14) Valdez Obviously the people who worked there didn't have  
 any  
 (15) commute time  
 (16) A Right  
 (17) Q What did they have to do about food?  
 (18) A Their food was prepared by the steward department on  
 board  
 (19) the ship  
 (20) Q There was some suggestion by another witness that if you  
 (21) came off watch or at a certain time of the day you had to be  
 (22) there at a certain time to eat meals is that a true statement?  
 (23) A Well the formal meals are served at certain times of the  
 (24) day but there's food available throughout the night for  
 (25)

Vol 14 2088

- (1) anybody that wants it  
 (2) Q And we say food available Suppose I came off watch or  
 (3) didn't want to go to dinner at the prescribed time What kind  
 (4) of an arrangement could I make to eat at whatever time suits  
 (5) me?  
 (6) A We have what we call a night lunch and there's food  
 (7) prepared in the refrigerator or a chull box and you can get  
 the  
 (8) food there We have microwaves to heat it up if you want  
 (9) It's very broad variety of food on board  
 (10) Q What about housecleaning?  
 (11) A Housecleaning is done by the steward department  
 (12) Q Now from the studies that you did did that indicate that  
 (13) the typical mate or the typical master worked in excess of  
 (14) eight hours a day when on duty  
 (15) A Typically they did yes  
 (16) Q What was the normal tour of duty?  
 (17) A About 60 days on the ship  
 (18) Q And how was that decided? In other words if it went more  
 (19) than 60 or less than 60 what factors accounted for whether  
 (20) someone would stay on the ship less than or more than 60  
 days?  
 (21) A Well there are a number of factors Our senior officers  
 (22) in particular since they were paired up and shared a job,  
 (23) because of the contingency that I mentioned earlier we're  
 free  
 (24) to work with counterparts within reasonable limits Other  
 (25) things that were affected work schedule would be whether the

Vol 14 2089

Vol 14 2091

(1) ship was in port or not Obviously you can't get off at sea  
 (2) even though 60 days are up  
 (3) Q There's been a suggestion in 1985 in the gulf coast when  
 (4) Captain Hazelwood returned to the Exxon Yorktown that there  
 (5) was  
 (6) a shortage of masters and a shortage of captains Have you  
 (7) looked into that question?  
 (8) A Yes I have  
 (9) Q And at that time was there a shortage of captains available  
 (10) to Exxon?  
 (11) A From the study I did I saw no reason to suspect that at  
 (12) all  
 (13) Q And by that you mean that if somebody if somebody wants  
 (14) to  
 (15) cut their tour short or limit themselves to 60 days that there  
 (16) was a captain available to assign?  
 (17) A Yes  
 (18) Q Now what would be you said that you know people might  
 (19) especially the two alternating captains might change their  
 (20) schedules what kinds of things would lead to that in your  
 (21) experience?  
 (22) A Sometimes they wanted to alternate holidays at home  
 (23) with  
 (24) their family and they would rotate adjust their schedule  
 (25) One  
 (26) person could be home at Christmas morning or the next  
 (27) year  
 (28) someone had a family event a birth or birthday that they  
 (29) wanted to go to a number of things like that  
 (30) Q Suppose somebody for whatever stayed longer than 60

(1) A That's correct  
 (2) Q And then gradually that changed?  
 (3) A Yes  
 (4) Q Okay Was that done so you could figure out some way to  
 (5) get overtime out of these people without paying for it?  
 (6) A No  
 (7) Q What was the reason for going to a straight salary system?  
 (8) A Provide a framework where the officers could feel they  
 (9) could work more efficiently and be rewarded for their work  
 (10) Q Under the previously existing system how did the hourly  
 (11) rate get set?  
 (12) A The hourly rate was set based on our survey of  
 (13) competition  
 (14) and when they were represented then we guaranteed that  
 (15) rate  
 (16) with their union  
 (17) THE COURT Mr Lynch  
 (18) MR LYNCH Yes sir  
 (19) THE COURT There's a naturalization ceremony going on  
 (20) next door and I could see everybody's wondering what they're  
 (21) hearing that and it was distracting a little bit It won't  
 (22) last the singing won't last but a few minutes and I think you  
 (23) can probably tune it out now that you know what it is  
 (24) MR LYNCH I didn't even hear it Your Honor  
 (25) THE COURT You were busy listening  
 (26) MR LYNCH I saw you smiling and I thought maybe it  
 (27) was my question

Vol 14 2090

Vol 14 2092

(1) days How would that affect their vacation days or off days?  
 (2) A They earned approximately one day of paid leave for  
 (3) every  
 (4) day that they worked on a ship So if they worked five days  
 (5) they'd earn an extra five days of paid leave  
 (6) Q 65 days on supposed to be entitled to 65 days off?  
 (7) A Approximately yes  
 (8) Q Just approximately what kind of salary range would people  
 (9) masters for example make?  
 (10) A Well in the 100 000 range  
 (11) Q Now how did the work schedule you have occasion to know  
 (12) from the union and contract negotiation work you did the  
 (13) salary administration work you did how Exxon's work hours  
 (14) compared with work hours in other tanker operators in the U S  
 (15) fleet?  
 (16) A Best I can tell they were comparable  
 (17) Q Now we've also heard indeed heard a lot this mention  
 (18) about with a I think is call the forced ranking system Can I  
 (19) just put this back up I'll promise not to write on the back  
 (20) of it so you know where it goes on the easel In 1985 you  
 (21) didn't have a forced ranking system?  
 (22) A That's correct  
 (23) Q I guess I should go back for a minute?  
 (24) A We had a system we didn't have the ranking  
 (25) Q At one point in time Exxon Shipping did not have a straight  
 (26) salary system for its deck officers is that correct?

(1) THE WITNESS I thought the angels were coming  
 (2) BY MR LYNCH  
 (3) Q I may be repeating myself but in the -- under the previous  
 (4) system you paid the masters and mates by the hour?  
 (5) A We paid them a flat rate or daily rate for their eight  
 (6) hours and we paid them a rate for each overtime hour they  
 (7) worked  
 (8) Q And within say the group of masters did everybody get the  
 (9) same no matter they were both the best or the poorest?  
 (10) A The masters did not get overtime They were on a flat  
 (11) salary but their individual contribution was not  
 (12) differentiated at that time  
 (13) Q That was at that time before you went to the salary system?  
 (14) A Right  
 (15) Q The mates got overtime?  
 (16) A The mates got overtime  
 (17) Q How was that overtime kept?  
 (18) A Well we again we did a competitive survey to see what  
 (19) the  
 (20) rates would be  
 (21) Q I guess what I'm asking among rates did they all get the  
 (22) same rates?  
 (23) A They all got the same rates  
 (24) Q When you went to the merit salary system did everybody get  
 (25) the same?  
 (26) A No

Vol 14 2093

- (1) Q How did you differentiate between people?
- (2) A Well we evaluated their performance and then we force
- (3) rank the people on a particular classification like the
- (4) masters list or the mate one of the mate list, and we put the
- (5) top performers, the guys that did the best job in our
- judgment**
- (6) at the top of the list and we ranked them down to the person
- (7) that made the least contribution or did the poorest job
- (8) Q When you say forced ranking there could be no ties?
- (9) A We forced ourselves to put one person behind another
- (10) Q Somebody had to be one?
- (11) A Somebody had to be one
- (12) Q And somebody had to be ten?
- (13) A That's correct
- (14) Q So if you had Captain Cook and Captain Nelson and all the
- (15) greatest mariners in the world somebody would have to end up
- (16) as ten?
- (17) A Somebody would have to end up as ten
- (18) Q Even if Captain Hazelwood was in that group?
- (19) A Even if Hazelwood was there, that's right, no matter how
- (20) good they were somebody had to be at the bottom of the
- list**
- (21) Q In making up that list what factors did you take into
- (22) account?
- (23) A Well we took into account a broad range of factors but
- (24) including their professional skills their ability to manage
- (25) the vessel their ability to manage the people on the ship

Vol 14 2094

- (1) Q I'm referring now to Plaintiff's Exhibit 155 is it? These
- (2) indicate that Captain Hazelwood was below half in the second
- (3) half of Exxon captains in essentially all the years we're
- (4) talking about correct?
- (5) A Yes it does
- (6) Q Have you had occasion - plaintiffs send over as a possible
- (7) exhibit Captain Hazelwood's personnel file?
- (8) A Yes
- (9) Q Did you have occasion to review that?
- (10) A Yes I did
- (11) Q Now if you were ranking Captain Hazelwood if these yellow
- (12) tapes were going to be based on the basis of the appraisal of
- (13) Captain Hazelwood for a ship operating that is his seamanship
- (14) and his ship handling and his knowledge of ships how would
- (15) you
- (16) expect him to be ranked in terms of a forced rank list?
- (17) A He would be very close to the top of that list
- (18) Q What was it that pulled him down into the lower half of
- (19) that list?
- (20) A His attitude towards assuming a broader management
- responsibilities on the ship**
- (21) Q Broader management responsibilities meaning like
- (22) paperwork
- (23) and things like that?
- (24) A Yeah paperwork controlling the costs and managing the
- overall operation of the ship**
- (25) Q Now are you acquainted with suggestions that were made
- from

Vol 14 2095

- (1) time to time to give Captain Hazelwood a shore based job like
- (2) port captain or something of that kind?
- (3) A Proposals were made yes
- (4) Q And what was the basis for making those proposals as you
- (5) understand them?
- (6) A They were to try to give Joe a closer view of the shoreside
- (7) management challenges in the organization so that he
- could take**
- (8) those back to the ship and be a better overall manager
- (9) Q You were hoping he'd catch the corporate scent and follow
- (10) that aroma off?
- (11) A We helped make him a corporate guy, that's right
- (12) Q And what was - Captain Hazelwood worked directly for you
- (13) for a while is that right?
- (14) A Yes, he did
- (15) Q What was your impression of Captain Hazelwood's interest in
- (16) having that chance to come ashore and spend more of his time
- (17) on
- (18) paperwork?
- (19) A I'd say it was pretty much slim to none from his point of
- view**
- (20) Q Let's if I may just try to verify what the arrangements
- (21) were with the port captain if Captain Hazelwood had come
- (22) ashore to be a port captain would he work 60 days off and then
- (23) 60 days on rather and then have 60 days off to go home?
- (24) A No our shoreside organization is much like you know I'd
- (25) like to say a nine to five job but it's a lot more than that

Vol 14 2096

- (1) But it is typically a five six day a week job We have our
- (2) offices in Houston and Benicia California just outside of
- San**
- (3) Francisco
- (4) Q Or Baton Rouge or whatever Gulf coast?
- (5) A Were in Baytown which is a suburb of Houston for
- somebody**
- (6) to take that kind of a job they would have to and they're
- (7) typically two to three year jobs they would have to either
- (8) relocate their family to Houston or San Francisco area or
- come**
- (9) by themselves without their family
- (10) Q By the way over the span of time that we're talking about
- (11) was that a continuing negative factor in Captain Hazelwood's
- (12) ranking under the forced ranking was it consistently a question
- (13) of his paperwork that was causing ranking to be pulled down?
- (14) A Yes
- (15) Q I note there's a fairly significant jump in Captain
- (16) Hazelwood's ranking between 1986 and 1987 as indicated on
- (17) this
- (18) chart Were you a part of the process that led to the forced
- (19) ranking of the masters?
- (20) A No At that time I did not know the masters' performance
- (21) well enough to contribute
- (22) Q And were you involved in reviewing the forced ranking
- (23) process at the - at the end of the day in setting up the
- (24) salary system?
- (25) A Yes
- (26) Q And was it your understanding and impression that Captain

Vol 14 2097

- (1) Hazelwood's job performance was improving as indicated by the relatively higher ranking in 1987?
- (2) **A It was improving but as I indicated earlier that last line on the chart is an error. It's really 24 out of I think we said 29. So there was some improvement but not as much indicated there.**
- (3) **Q** But he had gone from basically being second to last on the list, he moved quite a way up the list in the meantime, is that correct?
- (4) **A That's correct.**
- (5) **Q** And that reflected that even his paperwork was getting better, is that right?
- (6) **A Yes.**
- (7) **Q** Enough, you indicated that you - since we're on this topic that during that point in time you had kept an eye on Captain Hazelwood when you had occasion to see him at fleet officer conferences?
- (8) **A Yes.**
- (9) **Q** When you kept an eye on him, what were you looking for?
- (10) **A I was seeing if he showed any signs of having been drinking.**
- (11) **Q** And where - when he showed any signs of having been drinking, were there things going on at the ship officers conference that gave you a chance to watch for that?
- (12) **A Yes, there were. We had cocktail hour in the evening.**

Vol 14 2098

- (1) **Occasionally after one of the sessions you can watch for people coming in late, see how attentive they are in the morning and things like that.**
- (2) **Q** Okay. So you were watching for any signs that indicated to you that Captain Hazelwood might be drinking, period, is that correct?
- (3) **A Yes.**
- (4) **Q** And what did you observe?
- (5) **A I didn't observe any signs at all.**
- (6) **Q** In the public occasions when you had cocktails, you did offer cocktails, is that correct?
- (7) **A Yes, we did.**
- (8) **Q** As I understand it, the people attending this conference were the senior officers?
- (9) **A Yes.**
- (10) **Q** So at least a high percentage of them were themselves, masters?
- (11) **A Anywhere from a half to a fourth of them, yes.**
- (12) **Q** If you looked around you would see a number of drinking captains, is that correct?
- (13) **A We would.**
- (14) **Q** Were you hurried when you saw that?
- (15) **A No.**
- (16) **Q** Did you think I'm seeing a drinking captain that's a dangerous thing?

Vol 14 2099

- (1) **A No, they weren't working, they weren't on the bridge of a ship.**
- (2) **Q** When Mr. O'Neill asked you if it was a dangerous thing, do you think it's dangerous to force a person who has the job of tanker captain to drink socially?
- (3) **A No.**
- (4) **Q** At these conferences Exxon sponsored serving drinks to masters, is that correct?
- (5) **A Yes.**
- (6) **Q** Is it unusual for people in the seagoing trades to drink socially or at dinner?
- (7) **A No, it's not.**
- (8) **Q** At other times when the rest of us exercise that privilege?
- (9) **A No, it's not.**
- (10) **Q** Now, you didn't actually see the so-called - could I see PX10, please, I'm going to try this once, I'm going to try this then, when I fail you can - you didn't actually see the IDR which has been marked as PX10, you see these numbers?
- (11) **A Yes, I do see them.**
- (12) **Q** Do they mean anything to you?
- (13) **A Not a thing.**
- (14) **Q** Does DSM III mean anything to you?
- (15) **A No.**
- (16) **Q** You're not a doctor, are you?
- (17) **A No.**

Vol 14 2100

- (1) **Q** You gave some testimony I think about what a recovering alcoholic can do. Do you have any training on what a recovering alcoholic can do?
- (2) **A No, I don't know.**
- (3) **Q** Would it be fair to say that you were repeating what you've heard, whether it's valid or invalid?
- (4) **A That's true, true.**
- (5) **Q** And you don't have any information to indicate that Captain Hazelwood is an alcoholic, do you?
- (6) **A No, I don't.**
- (7) **Q** Recovering or otherwise, right?
- (8) **A No, that's true.**
- (9) **Q** Would you have any reason to dispute Dr. Vallury's diagnosis of Captain Hazelwood?
- (10) **A No.**
- (11) **Q** Now, you indicated I think that you had - at your deposition, you had some concern, you felt some concern that at a prior time when you were monitoring Captain Hazelwood, he'd evaded your monitoring, do you remember that line of questioning from Mr. O'Neill?
- (12) **A Yes, I remember that.**
- (13) **Q** Now, first of all, the prior time would have been the 1980 time frame?
- (14) **A '81 and '82, yes.**
- (15) **Q** That's when you were west coast fleet manager?

Vol 14 2101

- (1) **A That's correct**
- (2) **Q** At that time Captain Hazelwood sailed under your direct supervision?
- (3) **A That's correct**
- (4) **Q** And as his direct supervisor you were responsible for monitoring his performance?
- (5) **A Yes**
- (6) **Q** You monitored him as you would other employees to assure that he was not violating company policy about drinking?
- (7) **A That's right**
- (8) **Q** Is that a true statement?
- (9) **A That's true**
- (10) **Q** And on one occasion you had - you specifically asked Captain Hazelwood about a rumor that he might have been drinking and he told you he had not been?
- (11) **A That's right**
- (12) **Q** Now then at your deposition when you were shown the Graves report you saw that he had made a statement to Mr Graves that at some unspecified prior time he had come back to the ship drunk or he might have had a drink aboard the ship is that right?
- (13) **A That's true**
- (14) **Q** Could you explain to the jury what you meant by saying you were concerned that he evaded your monitoring?
- (15) **A** If the drinking that he had talked about to Graves

Vol 14 2102

- (1) occurred during the period of time that I was monitoring him,
- (2) then you know clearly he would not have been truthful with me. If it occurred after that time period then he could have been truthful with me at the time and still have had a drink afterwards
- (3) **Q** So at the time of the deposition you what assumed that Graves was referring to while he was working on the west coast under your supervision?
- (4) **A** I didn't think about the timing well enough to answer that question accurately
- (5) **Q** But you answered that you were concerned is that correct?
- (6) **A** I would have been concerned yes
- (7) **Q** And your concern was that comment referred to a time working directly for you?
- (8) **A** Yes
- (9) **Q** And during that time you did exactly what you told Mr O Neill you thought a person supervising Captain Hazelwood should do?
- (10) **A** That's correct
- (11) **Q** You monitored him?
- (12) **A** Right
- (13) **Q** You heard any indication that he was violating your alcohol rules you checked into it?
- (14) **A** That's correct
- (15) **Q** And on one occasion you did?

Vol 14 2103

- (1) **A** Yes
- (2) **Q** Could you look at - this is going back to this forced ranking thing But could you look at Plaintiff's Exhibit 154 for a second
- (3) **A** Okay
- (4) **Q** Mr Chalos reminds me that has one further year on it than I see on this chart I believe If I'm reading this chart
- (5) **This chart ends in 1987?**
- (6) **A** That's correct
- (7) **Q** Does PX154 have a column for 1988?
- (8) **A** Yes, it does
- (9) **Q** What does that show?
- (10) **A** It shows he was 23 of 38 in 1988
- (11) **Q** Okay So this was a larger number?
- (12) **A** Right
- (13) **Q** And this was a larger number so he had gone up another notch in 1988?
- (14) **A** That's correct
- (15) **Q** On a longer team?
- (16) **A** Two notches right
- (17) **Q** Now just to be clear from your experience with the quality of people at Exxon Shipping Company what do you think of the guy who's 37 of 37 is he a bad captain?
- (18) **A** No If he was bad he wouldn't be there
- (19) **Q** So everybody on that chart is in your judgment a well

Vol 14 2104

- (1) qualified seaman?
- (2) **A** Yes
- (3) **Q** But Captain Hazelwood over the period between 1986 and 1988 was making constant improvement in his job performance?
- (4) **A** Yes he was
- (5) **Q** I'd like to ask you if you would to take a look at a page out of DX4471 I'll just put it on this so called Elmo This is the form that - I apologize for the legibility of this - you want a copy Mr Paul?
- (6) **A** I'm going to need some help
- (7) **Q** Well I'm not sure I can?
- (8) **A** This isn't a whole lot better
- (9) **Q** I'm not sure I can offer you much help on that I wanted to ask you - this is the form that was used for ranking mates is that correct?
- (10) **A** Evaluating mates this was input to that process
- (11) **Q** This was in fact the particular form that was used with Greg Cousins is that right?
- (12) **A** Yes it is
- (13) **Q** And I want to see if we can try to get to the point where we can - I'm looking for - the item I'm looking for I don't find here Excuse me one second
- (14) **MR LYNCH** Your Honor I'm going to ask Mr Justice to get me a different document In the meantime I'm on to another subject I got Mr Justice's name in the record so he

Vol 14 2105

Vol 14 2107

(1) can send a transcript home to his wife and family Fivnn  
 (2) Justice  
 (3) BY MR LYNCH  
 (4) Q Let s go to the Exxon drug and alcohol policy You told  
 (5) Mr O Neill you were responsible for administering that policy  
 (6) is that correct?  
 (7) A Yes when I was human resources manager  
 (8) Q I d like to show you Exhibit 3619 I ll bring you a copy  
 (9) if I may Your Honor and put a copy on the -  
 (10) MR LYNCH I ll offer 3619  
 (11) (Exhibit 3619 offered)  
 (12) MR O NEILL No objection  
 (13) THE COURT That s defendant 3619?  
 (14) MR LYNCH Yes Your Honor  
 (15) (Exhibit 3619 received)  
 (16) BY MR LYNCH  
 (17) Q First of all Mr Paul could you tell the jury just  
 (18) basically what this document is and why as you understand it  
 (19) was written?  
 (20) A It's a revision to our 1984 alcoholism policy  
 (21) Q And why what was the occasion of making that revision?  
 (22) A There were a couple reasons for it One was we wanted  
 (23) to expand the scope of the Exxon policy to include drugs as a  
 (24) treatment illness and under the policy we wanted to  
 (25) formally  
 (26) introduce a search program unannounced search program  
 (27) that we

(1) concept?  
 (2) A That's correct  
 (3) Q In other words you found someone in possession of alcohol  
 (4) or drugs you told them they were fired demoted They said we  
 (5) disagree with you?  
 (6) A That's correct  
 (7) Q Basically you didn t have a right to search us?  
 (8) A They were disputing at that time on the basis that we had  
 (9) not notified them that we were going to search and what the  
 (10) consequences would be  
 (11) Q Okay And so what happened?  
 (12) A Once the items finally got to arbitration which is the last  
 (13) step in the dispute process the arbitrator ruled in the favor  
 (14) of the employee and said in fact we had not given due  
 (15) notice  
 (16) Q Okay So this letter was designed to cure that so that  
 (17) from then on nobody could say they hadn t gotten notices is  
 (18) that correct?  
 (19) A That's true  
 (20) Q And otherwise in other respects did it continue the policy  
 (21) that it had as existed before?  
 (22) A Yes it did  
 (23) Q I wonder if you would read the first paragraph for the  
 (24) record down to the sub part two there  
 (25) A The potential danger to employees and facilities resulting  
 (26) from the use of drugs or alcohol in the workplace has  
 (27) become a

Vol 14 2106

Vol 14 2108

(1) had in place on our vessels since 1982 but had not formally  
 (2) notified employees that we were doing that  
 (3) Q Now let me take that one step at a time You had an  
 (4) unannounced search program Could you tell the jury what that  
 (5) was?  
 (6) A Yes We from time to time would show up unannounced  
 (7) to a  
 (8) ship in port and we would bring investigators with us and  
 (9) dog  
 (10) team and we would search the vessel for drugs or alcohol  
 (11) and we  
 (12) would search without touching anybody we would search  
 (13) the  
 (14) individuals as well and their procession  
 (15) Q So this began in 1982?  
 (16) A Yes it did  
 (17) Q And this was random I mean did you have -  
 (18) A They were unannounced They would pick a ship for a  
 (19) variety of reasons and go unannounced  
 (20) Q As a result of this search program did you catch anybody  
 (21) in possession of items that were contrary to Exxon policy?  
 (22) A We did on a few occasions yes  
 (23) Q And did you take action when you caught those individuals?  
 (24) A Yes we did  
 (25) Q Okay And what happened when you took those actions?  
 (26) A The individuals if they were unlicensed employees would  
 (27) typically dispute the action we took and carry it forward  
 (28) through their union  
 (29) Q And I mean this is part of the industrial due process

(1) major concern of companies Exxon Corporation including  
 (2) Exxon  
 (3) Shipping Company is one of the many employers that have  
 (4) programs to deal with this potential problem Within the  
 (5) shipping company this program has two basic concepts  
 (6) One  
 (7) company sponsored medical support available on a  
 (8) confidential  
 (9) basis for individuals who request help in combating drug or  
 (10) alcohol dependency And two workplace guidelines which  
 (11) permit  
 (12) on the job - prohibit excuse me workplace guidelines  
 (13) which  
 (14) prohibit on the job possession or use of drugs or alcohol  
 (15) Q Maybe that s where your notice problem came up You said  
 (16) permit and you meant prohibit The prohibition that you had on  
 (17) the job possession of alcohol and drugs how far did that go  
 (18) back?  
 (19) A Oh it went back well before I ever joined the shipping  
 (20) company  
 (21) Q Was there any doubt about the fact that all the employees  
 (22) had been notified of that fact?  
 (23) A No doubt at all  
 (24) Q Let me show you Exhibit 9113 ask you if you can identify  
 (25) that for the record?  
 (26) A Yes I can  
 (27) Q What is it?  
 (28) A It's a list of posted offenses that are on each of the  
 (29) ships  
 (30) MR LYNCH Offer 9113 Your Honor that s defendants

Vol 14 2109

- (1) (Exhibit 9113 offered)  
 (2) MR O NEILL No objection  
 (3) THE COURT Defendants 9113 is admitted  
 (4) (Exhibit 9113 received)  
 (5) BY MR LYNCH  
 (6) Q And would you read item 14 of DX9113?  
 (7) A Introduction, possession or use on the property of the  
 (8) company of intoxicating liquors or habit forming drugs  
 (9) Q Is it prohibited?  
 (10) A It is an offense for which members of the unlicensed  
 (11) personnel may be discharged without further notice  
 (12) Q Did this prohibition also apply to officers and mates?  
 (13) A Yes it did  
 (14) Q That prohibition that Exxon had was that something that  
 (15) was required by law by the Coast Guard  
 (16) A No this was a company policy  
 (17) Q Was it something that was uniform in other U S flag  
 (18) competitors of Exxon Shipping Company?  
 (19) A No, we were the exception  
 (20) Q When you say that what do you mean?  
 (21) A Most other companies allowed social drinking on board  
 (22) their  
 (23) ships  
 (23) Q How long had that been Exxon Shipping companies policy?  
 (24) A Again for as long as I can remember  
 (25) Q I gather from some of the testimony we heard this morning

Vol 14 2110

- (1) that every once in a while someone must have gotten away with  
 (2) sneaking a bottle or some beer aboard the ship When you  
 (3) were  
 (4) responsible for supervising Exxon Shipping Company ships  
 (5) what  
 (6) did you do to try to make that rule stick?  
 (7) A Well we as part of a supervisors normal job  
 (8) responsibilities he's always alert to the fitness of the  
 (9) people that he supervises to see if they're able to do the job  
 (10) and do it safely So we had that ongoing supervisory  
 (11) oversight We also visited the ships and as I mentioned  
 (12) earlier we had this unannounced search program underway  
 (13) Q How often did those ships come into port? How often did  
 (14) the chance -  
 (15) A It varied The Valdez traders as we called them call  
 (16) them go to California or back in California about every two  
 (17) weeks a round trip  
 (18) Q And did you have other people who went out for other  
 (19) reasons who were responsible to keep their eye open for any  
 (20) sign?  
 (21) A Yes  
 (22) Q That alcohol was aboard the ship?  
 (23) A Yes  
 (24) Q What kind of contact would you have with a ship in that  
 (25) connection?  
 (26) A Well when I was on the west coast I had port captain and  
 (27) a  
 (28) port engineer who were my senior advisors professional

Vol 14 2111

- (1) advisors on how to run the fleet, and they were on board the  
 (2) ship an awful lot as well talking to the officers about  
 (3) professional topics  
 (4) Q Was it a part of their responsibility to be on the watch  
 (5) for any sign that people had alcohol or were using alcohol  
 (6) aboard ships?  
 (7) A Yes  
 (8) Q And did you if you caught people what did you do?  
 (9) A We would discipline them  
 (10) Q Now the other aspect of the policy that is described in  
 (11) this letter is company sponsored medical support available on a  
 (12) confidential basis for individuals who request help in  
 (13) combatting drug or alcohol dependency Was that new with the  
 (14) April 1985 letter?  
 (15) A No it wasn't  
 (16) Q And what was - how far back did that go to your  
 (17) knowledge?  
 (18) A The alcohol support went back to 1977, and the drug  
 (19) support  
 (20) went back to I think the fall of 1984 when we had  
 (21) implemented  
 (22) a pilot employee assistance program  
 (23) Q Now those - that program included a provision which I'm  
 (24) pointing to let me highlight it no employee - woops no  
 (25) wonder you can't see it there Suffering from alcoholism or  
 (26) drug dependency will jeopardize his or her job security if help  
 (27) is requested or if an individual enrolls to rehabilitation

Vol 14 2112

- (1) program prior to being involved in an incident which violates  
 (2) company policy  
 (3) I'd like to ask you about that aspect of the program  
 (4) First of all from the standpoint of the safety credo running  
 (5) the safest company in its industry?  
 (6) A Uh huh  
 (7) Q - was it your view that this provision contributed to the  
 (8) safe operation -  
 (9) A Yes  
 (10) Q - of Exxon Shipping Company?  
 (11) A Yes it did  
 (12) Q And how did it do that?  
 (13) A Well it provided an employee help to solve a problem  
 (14) before it resulted in an incident on board the ship safety  
 (15) incident  
 (16) Q By promising or at least giving assurance that an  
 (17) individual could get his job back did you recognize that there  
 (18) would be people coming back to Exxon ships who if they took  
 (19) advantage of this provision had been through rehabilitation  
 (20) for an alcohol problem?  
 (21) A Yes we did  
 (22) Q And did you consider that allowing those people back on the  
 (23) ship was nevertheless consistent with safety?  
 (24) A Yes we did  
 (25) Q How did you draw that conclusion?

Vol 14 2113

- (1) **A Assuming they successfully completed the program they would**  
 (2) **come back as a better employee and not have the problem**  
 (3) **have**  
 (4) **it put behind them or under control and from that**  
 (5) **standpoint**  
 (6) **they would be a safer employee than they been - had they**  
 (7) **continued to drink or have the abuse problem on board the**  
 (8) **vessel**  
 (9) **Q Did you recognize however that there was some chance that**  
 (10) **there might be a relapse?**  
 (11) **A Some chance yes**  
 (12) **Q And how did you - what about the risk of relapse how did**  
 (13) **you reconcile that with your safety credo?**  
 (14) **A Well the risk of relapse would be less after treatment**  
 (15) **than the risk of an accident caused by drinking if a person**  
 (16) **never went to seek help to begin with**  
 (17) **Q Let me ask you a few questions about how this process**  
 (18) **worked Is that process what's been referred to as self**  
 (19) **identification?**  
 (20) **A The process of an employee going**  
 (21) **Q Employee seeking before - yes**  
 (22) **Q Have you heard the term self referral?**  
 (23) **A Yes**  
 (24) **Q Are those different or the same or?**  
 (25) **A They're the same to me**  
 (26) **Q Okay What is the identification or what is the referral**  
 (27) **that that's talking about?**

Vol 14 2114

- (1) **A It's an employee recognizing that he needs help with a**  
 (2) **problem and going to medical assistants for help**  
 (3) **Q Does this policy mean in order for an employee to take the**  
 (4) **benefit of this policy that he has to come to the company and**  
 (5) **say Dan or Mr Larossi or somebody at Exxon Shipping I'm**  
 (6) **identifying myself as a person who has problems with alcohol?**  
 (7) **A No they don't have to identify themselves to us they can**  
 (8) **go to a private provider of those services**  
 (9) **Q To be a self identifier you don't have to identify yourself**  
 (10) **to the company?**  
 (11) **A You have to identify the problem in yourself**  
 (12) **Q Were there other kinds of referrals or identification other**  
 (13) **than self identification?**  
 (14) **A There were supervisory referrals yes**  
 (15) **Q What is a supervisory referral?**  
 (16) **A Well there is really two kinds One kind of supervisory**  
 (17) **referral would be a supervisor counseling with an individual**  
 (18) **before he had a work performance problem to say that you**  
 (19) **know as a friend you looked at me like you may need some**  
 (20) **help**  
 (21) **with a personal problem of some kind and we have this**  
 (22) **service**  
 (23) **available to you we'd like to remind you about and I think it**  
 (24) **would be a good idea if you go to it but still the employees**  
 (25) **choice to go**  
 (26) **Q So like a Dutch uncle?**  
 (27) **A Right**

Vol 14 2115

- (1) **Q You don't have to do this it's just my advice to you as a**  
 (2) **person to person?**  
 (3) **A Right**  
 (4) **Q What other kind of supervisory -**  
 (5) **A The other kind is when the supervisor has identified a**  
 (6) **problem with work performance that he expects as a result**  
 (7) **of**  
 (8) **drug or alcohol abuse and refers the employee to EHAP for**  
 (9) **medical evaluation Again the supervisor is not trying to**  
 (10) **play**  
 (11) **doctor he's just saying you know your performance isn't**  
 (12) **good**  
 (13) **and I suspect for whatever reason that it may be related to**  
 (14) **drugs or alcohol So I want you to go see a doctor and let**  
 (15) **him**  
 (16) **evaluate whether or not you have a problem**  
 (17) **Q Okay Now in that case what rights does the employee**  
 (18) **have or what expectation does the employee have regarding his**  
 (19) **ability to return to work and let's assume he goes to the**  
 (20) **medical department or wherever he's referred to and they say**  
 (21) **yeah you should go get some professional help and he does**  
 (22) **go**  
 (23) **to rehab?**  
 (24) **A He goes to rehab and completes the program comes**  
 (25) **back to**  
 (26) **work and the supervisor judges that he's okay to come back**  
 (27) **into**  
 (28) **that job then he comes back to the job**  
 (29) **Q So in that instance the employee would also be entitled to**  
 (30) **this provision of the policy?**  
 (31) **A Yes he would be**  
 (32) **Q That assures him job - is he guaranteed that he goes back**

Vol 14 2116

- (1) **in the very same job position?**  
 (2) **A That's been our practice**  
 (3) **Q When a person comes back how do you make the decision?**  
 (4) **A The - from a supervisory referral?**  
 (5) **Q From any referral In other words a person comes back and**  
 (6) **you're faced with whether they are entitled to get their job**  
 (7) **back what factors do you take into account or do you just**  
 (8) **automatically put him back in the job?**  
 (9) **A The supervisor would discuss with the employee his**  
 (10) **ability**  
 (11) **to handle a job and when he was satisfied that the**  
 (12) **employee**  
 (13) **could then he'd let him back on the job**  
 (14) **Q Now Mr O'Neill showed you the Graves report -**  
 (15) **A Yes**  
 (16) **Q - earlier today?**  
 (17) **A Uh huh**  
 (18) **Q And you understood that Captain Hazelwood went to a**  
 (19) **private**  
 (20) **hospital and received therapy You also saw some other**  
 (21) **documents about that How would you classify his case was**  
 (22) **he**  
 (23) **a self referral or a supervisory referral?**  
 (24) **A He was a self referral**  
 (25) **Q Okay I want to go into one more sort of technicality**  
 (26) **here but to try to clear up this terminology Have you ever**  
 (27) **heard of EHAP?**  
 (28) **A Yes**  
 (29) **Q What is EHAP?**

Vol 14 2117

- (1) **A It's an employee assistance program**  
 (2) **Q What is an employee assistance program?**  
 (3) **A It's within Exxon it's a contract service that we have**  
 (4) **hired to - that employees can go to a confidential basis to**  
 (5) **receive help for a broad range of personal problems drug**  
 (6) **and**  
 (7) **alcohol financial planning concerns problems with kids**  
 (8) **things that would detract his attention from operating safely**  
 (9) **in his job**  
 (10) **Q Let me show you Exhibit 9122**  
 (11) **MR LYNCH Your Honor I will offer 9122**  
 (12) **(Exhibit 9122 offered)**  
 (13) **MR O NEILL No objection**  
 (14) **THE COURT Admitted**  
 (15) **(Exhibit 9122 received)**  
 (16) **BY MR LYNCH**  
 (17) **Q Is this a letter that announces in 1985 the availability of**  
 (18) **an employee health assistance program?**  
 (19) **A Yes, it is**  
 (20) **Q The employee health assistance program as contemplated**  
 (21) **by**  
 (22) **the Exxon drug and alcohol policy does it have to be involved**  
 (23) **in any way in the employees decision to go out and seek help?**  
 (24) **A No**  
 (25) **Q Can it be?**  
 (26) **A Can be yes**  
 (27) **Q Who makes that decision?**

Vol 14 2118

- (1) **A The employee**  
 (2) **Q Okay Was it available as a resource for the employee?**  
 (3) **A Yes it is**  
 (4) **Q Was it ever mandatory for the employee to go to EHAP?**  
 (5) **A No it was strictly voluntarily**  
 (6) **Q What about when the employee returns is EHAP available to**  
 (7) **the employee if he feels that would be helpful to him?**  
 (8) **A Yes it is**  
 (9) **Q Is he required to go to EHAP for his aftercare?**  
 (10) **A No**  
 (11) **Q Is he required by - to go to the medical care for his**  
 (12) **aftercare?**  
 (13) **A No**  
 (14) **Q What's the theory behind that?**  
 (15) **A Well, within our company we believe that the employee**  
 (16) **has**  
 (17) **responsibility for his own health care and our focus is how**  
 (18) **well he performs his work on the job**  
 (19) **Q Do you - apart from responsibility do you think that the**  
 (20) **employee - that Exxon could consistent with the restrictions**  
 (21) **on an employer get involved in prescribing medical care for an**  
 (22) **employee who's voluntarily gone for medical treatment?**  
 (23) **A I think that would be a matter of medical confidentiality**  
 (24) **between the employee and his doctor**  
 (25) **Q Now just some side questions here**  
 (26) **We talked about the fact that there's prohibition against**

Vol 14 2119

- (1) **alcohol on company vessels?**  
 (2) **A Yes**  
 (3) **Q Do you remember that that was Exxon's policy but not**  
 (4) **everybody else's policy?**  
 (5) **A Right**  
 (6) **Q For a period of time I gather you served wine once in a**  
 (7) **while to employees?**  
 (8) **A Yes we called it a holiday wine policy**  
 (9) **Q Could you just describe that policy quickly?**  
 (10) **A Well three times a year Thanksgiving Christmas and**  
 (11) **New**  
 (12) **Years we did provide wine on a limited basis to our**  
 (13) **employees**  
 (14) **to help them celebrate the holiday since away from family**  
 (15) **Q I take it you tried to provide good wine on those**  
 (16) **occasions?**  
 (17) **A We did have a taste testing committee**  
 (18) **Q You didn't intentionally get interior wine?**  
 (19) **A Right**  
 (20) **Q I can always recommend Gallo myself but was that policy**  
 (21) **continued?**  
 (22) **A It was continued until 1988**  
 (23) **Q What was the last holiday on which wine was served?**  
 (24) **A It was New Years of '88**  
 (25) **Q New Year's Day 1988?**  
 (26) **A Yes**  
 (27) **Q It was discontinued at that time?**

Vol 14 2120

- (1) **A It wasn't discontinued officially at that time but there**  
 (2) **were no holidays between then and when it was**  
 (3) **discontinued**  
 (4) **Q So after January 1 1988 Exxon no longer offered holiday**  
 (5) **wine is that correct?**  
 (6) **A That's correct**  
 (7) **Q Now there's also been some testimony about a mysterious**  
 (8) **brew called Moussy which I happen to know from trying to find**  
 (9) **a bottle for my opening statement is very hard to find in the**  
 (10) **market today What is Moussy?**  
 (11) **A It's a non alcoholic beer**  
 (12) **Q What does non alcoholic mean?**  
 (13) **A Federal government sets maximum alcohol content**  
 (14) **limitations**  
 (15) **on it and I believe it's no more than .5 or .05 I believe**  
 (16) **alcohol content**  
 (17) **Q Meaning that it is a soft drink?**  
 (18) **A Yes**  
 (19) **Q Now I'd like to just quickly move forward from**  
 (20) **Mr. Larossi's letter 1985 letter up to March of 1989 Could**  
 (21) **you give because we're running out of time and I'd like to**  
 (22) **get you out of here could you give us just a quick survey of**  
 (23) **what if anything transpired over that time in terms of**  
 (24) **changes to Exxon - the policy that Mr. Larossi stated in his**  
 (25) **April 24th letter?**  
 (26) **A In 1987 we expanded the policy to include for cause**  
 (27) **search**  
 (28) **on the vessels and also to include the coverage of**  
 (29) **contractors**

Vol 14 2121

Vol 14 2123

(1) coming on the ship in the search provisions and the prohibition

(2) provisions and in 1988 we -

(3) Q Let me stop you for a second

(4) MR LYNCH Your Honor could I offer DX3614 which is the statement of the 1987 policy

(5) (Exhibit DX3614 offered)

(6) MR O NEILL No objection

(7) THE COURT Defendant s DX3614 is admitted

(8) (Exhibit DX3614 received)

(9) BY MR LYNCH

(10) Q I interrupted you

(11) A We also in 1988 voluntarily signed an agreement with the U S Custom Service to enhance our searching capability on vessels coming into the U S from foreign ports

(12) Q Was that called the Sea Carrier Initiative?

(13) A Yes yes it was

(14) Q And it had to do with the governments efforts to prevent importation of drugs since you had ships?

(15) A Yes zero tolerance policy implemented we cooperated

(16) MR LYNCH I offer DX3609 which is a contract entered pursuant to the Sea Carrier Initiative

(17) (Exhibit DX3609 offered)

(18) MR O NEILL No objection

(19) THE COURT Exhibited 3609 is admitted

(20) (Exhibit DX3609 received)

Vol 14 2122

(1) BY MR LYNCH

(2) Q Did there come a time when the Coast Guard issues recommendations related alcohol use aboard or around vessel?

(3) A Yes it did

(4) Q And what steps did Exxon take to comply with that regulation?

(5) A We notified our employees on our ships about the new regulations and assigned the masters to enforce him them on board the ships

(6) Q And did you provide equipment and materials for testing aboard ship if there was a violation?

(7) A We had the testing equipment required at that time on board the ship as a result of our 1987 for cause testing policy

(8) MR LYNCH And Your Honor I offer DX3618 as notice to the fleet of the Coast Guard regulations

(9) (Exhibit DX3618 offered)

(10) MR O NEILL No objection

(11) THE COURT Defendants 3618 is admitted

(12) (Exhibit DX3618 received)

(13) BY MR LYNCH

(14) Q Now let s go back to - to the 87 policy for a second Exhibit DX3614 I m showing you a page from the written guidelines for supervisors Can you see that I want to focus on paragraph D there

(15) A Okay

Vol 14 2124

(1) Q And would with Mr O Neill s permission I ll lead into this There were written guidelines prepared and given to supervisors?

(2) A Yes

(3) Q And those guidelines related in part to the supervisors role in monitoring for alcohol?

(4) A Yes

(5) Q And could you just give in a summary what the guidelines that you gave to your managers were with regard to what the supervisors role was?

(6) A They were to look for unsatisfactory performance of the employees on the job as an indication of non-compliance

(7) Q Did the policy have a reason for focusing on job performance as opposed to calling people and asking them about their personal habits at home?

(8) A Yes There was - some of the limitations we had imposed on us we mentioned earlier but our interest was trying to provide a safe workplace and that involved contacting the employee at work

(9) Q There were those guidelines developed?

(10) A In Exxon USA

(11) Q By whom?

(12) A By the employee relations department

(13) Q And was that staff larger than your own staff?

(14) A Yes

(1) Q And they engaged in a study to develop what the appropriate guidelines would be to implement this policy?

(2) A Yes

(3) Q Now under this policy what was the responsibility of Exxon Shipping Company people in the case of an employee who took advantage of the opportunity to return to his job after alcohol rehabilitation what was the company supposed to do in that case carry out the policy?

(4) A We were supposed to evaluate the employee s performance on the job

(5) Q And what about relapse what about the risk that you know you d have Mr O Neill talk to you about you know the person whose got an alcohol problem is not necessarily a falling down drunk Was there any step taken to watch out for that risk of relapse?

(6) A Well we monitor the employees performance

(7) Q And in that monitoring did you just monitor that look at that employee the same as any other employee?

(8) A If we knew he had come back from rehab we would look more carefully for signs of drugs and alcohol abuse

(9) Q Were your people trained to do that?

(10) A Yes they were

(11) Q Where did they get that training?

(12) A In 1984 in one of the fleet officer conferences that we had almost yearly we did offer a drug awareness training

Vol 14 2125

- (1) program to better familiarize our officers of what to look for
- (2) drug and alcohol abuse in the workplace and we also had
- (3) training in 1987 with the implementation of this policy
- (4) Q Now I d like to go back to that subject that I started
- (5) with you on This is exhibit 4471 That s the appraisal form
- (6) that was used for mates is that correct?
- (7) A That's correct, yes
- (8) Q And can you read it - try your screen there Are you able
- (9) to read that?
- (10) A This is real, that's good willing to assume additional
- (11) responsibilities beyond normal job requirements
- (12) Q First of all were you involved in the development and use
- (13) of these forms?
- (14) A Yes, I was
- (15) Q Were supervisors instructed as to what the form was suppose
- (16) to mean? Let me take this down I guess I m kind of defeating
- (17) my purpose
- (18) THE COURT Has 4471 been admitted
- (19) MR LYNCH Yes that s the one I had the wrong page
- (20) to show but I did move its admission
- (21) MR O NEILL Offer it?
- (22) MR LYNCH Offer it
- (23) (Exhibit 4471 offered)
- (24) MR O NEILL No objection
- (25) THE COURT It s admitted

Vol 14 2126

- (1) (Exhibit 4471 received)
- (2) MR LYNCH Thank you Your Honor
- (3) BY MR LYNCH
- (4) Q What was that - what was this factor designed to take
- (5) account of?
- (6) A It was intended to take into account the employee's
- (7) initiative and willingness to go beyond the narrow focus of
- (8) his
- (9) job and look for more creative ways to get the job done to
- (10) basically improve the quality of the job to look around him
- (11) what other things are going around on the ship
- (12) Q Was this a sneaky way to encourage people to work
- (13) overtime?
- (14) A No
- (15) Q Would you look at the first item What is that?
- (16) A Maintains a high level of safety awareness
- (17) Q Was that - was that made first for a reason?
- (18) A Yes it was That particular one was made first to
- (19) re-emphasize the role of safety
- (20) Q In the evaluation of a mate or an employee was it a
- (21) master s duty to consider whether the employee was in good
- (22) shape and was getting proper rest and appropriate rest?
- (23) A Yes it was
- (24) Q Was there - was there specific facts for measuring the
- (25) mates performance in that regard?
- (26) A The third line item is always in fit condition alert
- (27) vigilant on watch and at work

Vol 14 2127

- (1) Q Would a mate who regularly worked to excess be entitled to
- (2) a high rating under this form?
- (3) A No
- (4) Q Did the captain have a responsibility to evaluate his
- (5) people for their completing or their keeping proper rest
- (6) opportunities or managing their time to insure they got proper
- (7) rest?
- (8) A Yes, he was
- (9) Q Now I d like to refer you to Plaintiff's Exhibit 1793
- (10) Could you put that up Is that coming up? This is a real old
- (11) document yes or no it will take a long time to dig it up
- (12) I think you may have that right there in front of you
- (13) Mr Paul This is your memo of March 27 1980 to Mr Shartz?
- (14) A Okay, yes I have that
- (15) Q Now this document was written by you in 1980 when you
- (16) were west coast fleet manager is that correct?
- (17) A Yes
- (18) Q And at that time there were certain pilotage federal
- (19) pilotage requirements in force in Prince William Sound
- (20) A Yes
- (21) Q Even at that time it was Exxon s practice to have its
- (22) captains if possible obtain or some officer on the ship
- (23) obtain a pilotage endorsement from the United States Coast
- (24) Guard is that correct?
- (25) A Yes

Vol 14 2128

- (1) Q Could you read the last paragraph of your recommendation
- (2) well the one we re getting indented paragraphing beginning
- (3) personnel and vessel safety are the two most important items?
- (4) A Which page are you on?
- (5) Q The first page advantages and disadvantages?
- (6) A Okay Personnel and vessel safety are the two most
- (7) important items considered while weighing the advantages
- (8) and
- (9) disadvantages in utilizing employee pilots Based on
- (10) operating
- (11) experience utilizing competence employee pilots will
- (12) result
- (13) in equal or greater safety for our vessels than the use of
- (14) local pilots
- (15) Q So your recommendation for having employees obtain this
- (16) certification was driven by your view that that would be a
- (17) safety promoting move?
- (18) A Yes
- (19) Q And by the way the decision as to whether or not there
- (20) should be pilotage in those water was not made by Exxon
- (21) Shipping Company?
- (22) A That s correct
- (23) Q It was made by the United States Coast Guard
- (24) A Yes
- (25) Q Were you aware that later in the 1980s the United States
- (26) Coast Guard recommended elimination of the pilotage
- (27) requirements?
- (28) A I had heard that yes

Vol 14 2129

Vol 14 2131

(1) Q And based on the conclusion and operating experience that  
 (2) pilotage as far as down as Hinchinbrook was not required for  
 (3) safety reasons?  
 (4) A Yes  
 (5) Q Now could you look at the second page sir and I'd  
 (6) like - may I approach just for - let me direct your attention  
 (7) to this paragraph here Would you read the second paragraph  
 (8) the paragraph beginning because of the unavailability?  
 (9) A Because of the unavailability of local federal pilots  
 (10) vessels have been forced to use state pilot service for  
 (11) Hinchinbrook to Rocky Point pilotage whenever employed  
 (12) pilots  
 (13) are not on board This is a three hour run which costs  
 (14) approximately \$4500 round trip including a \$3 000 launch  
 (15) fee  
 (16) During severe weather conditions a follow me approach  
 (17) should  
 (18) be - has been utilized to minimize vessel delay However  
 (19) recently the charter boat Blue Moon which was used by the  
 (20) local pilots to board vessels at Cape Hinchinbrook  
 (21) foundered  
 (22) and sank As a result the USCG has issued certain rules  
 (23) under  
 (24) which vessels may enter and transit Prince William Sound  
 (25) to the  
 (26) state pilot station without a pilot It says without a  
 (27) pilot -  
 (28) Q This is in 1980 correct?  
 (29) A That's correct  
 (30) Q And even at that time the Coast Guard had issued rules  
 (31) which permits ships to operate from Hinchinbrook up to the

(1) Q The captain did not self identify did he?  
 (2) A Which captain?  
 (3) Q Hazelwood?  
 (4) A Yes he did  
 (5) Q Let's talk about that You're aware that while the Graves  
 (6) investigation was going on that a Mr Tompkins who is  
 (7) Mr Sheehy's boss was directed to let the captain know he was  
 (8) being investigated?  
 (9) A I'm aware of that  
 (10) Q The captain didn't come in and say I drank aboard the  
 (11) ship - came back from ship drunk There was an investigation  
 (12) ongoing and Mr Tompkins went to Mr Sheehy and said tell  
 (13) the  
 (14) man we're investigating him You're aware of that fact aren't  
 (15) you?  
 (16) A I'm not aware of how he - how he communicated to Joe  
 (17) no  
 (18) Q Mr Tompkins was told to tell the captain he was under  
 (19) investigation that's a correct statement isn't it?  
 (20) A As far as I know yes  
 (21) Q He was caught wasn't he?  
 (22) A No  
 (23) Q And Captain Hazelwood has testified that before he went  
 (24) into treatment indeed before he made the decision to go into  
 (25) treatment he was contacted by Mr Sheehy and informed by  
 (26) Mr Sheehy that something was wrong?  
 (27) A MR NEAL Not Mr Sheehy Captain Pierce

Vol 14 2130

Vol 14 2132

(1) state pilot station without a federal pilot aboard is that  
 (2) correct sir?  
 (3) A Yes  
 (4) Q If I can just be one quick moment sir  
 (5) MR LYNCH I have no further questions  
 (6) MR O NEILL I may not finish  
 (7) REDIRECT EXAMINATION OF DANIEL JOHN PAUL JR  
 (8) BY MR O NEILL  
 (9) Q We've talked both about safety and about the Graves  
 (10) report?  
 (11) A Yes  
 (12) Q And what does it say right above safety is for everyone  
 (13) every year in the Graves report? I asked Joe if he ever drank  
 (14) aboard the ship he commented that he occasionally drank  
 (15) aboard  
 (16) the ship but not frequently He also indicated that he came  
 (17) back to the ship from port drunk on several occasions?  
 (18) A Uh huh  
 (19) Q That's right over safety is for everyone every year do you  
 (20) see that?  
 (21) A Yes  
 (22) Q That's a firing offense isn't it?  
 (23) A Which is a firing? Offense  
 (24) Q Coming back to ship from port drunk?  
 (25) A Depending on what time of year you talked - what time  
 (26) period you're talking about, it could be

(1) BY MR O NEILL  
 (2) Q That something was wrong that something was affecting his  
 (3) job performance and that he better do something about it He  
 (4) was caught wasn't he?  
 (5) A No he wasn't caught I wouldn't consider that being  
 (6) caught  
 (7) Q Did he walk in the door and say I have an alcohol problem?  
 (8) A No he didn't  
 (9) Q It is in Exxon's interest as you sit here today to be  
 (10) able to pigeon hole him into self identification isn't it?  
 (11) A I'm not trying to pigeon hole him into anything  
 (12) Q With regard to returning him from duty returning him to  
 (13) duty there was no company requirement when he returned to  
 (14) duty  
 (15) that he be reinstated immediately as a ship captain was there?  
 (16) A Our practice had been to return people to the job they  
 (17) came  
 (18) from when they completed rehabilitation  
 (19) Q I want you to listen to the question I didn't ask you  
 (20) what your practice was I said there was no company  
 (21) requirement to return him to the safety sensitive position as a  
 (22) ship captain when he returned from his treatment was there?  
 (23) A I think there was, yes  
 (24) Q Is it in any of the policies written?  
 (25) A It's inferred in the policies  
 (26) Q Is it written in any of the policies?  
 (27) A Not in direct words

Vol 14 2133

Vol 14 2135

- (1) Q It is in Exxon's interest as you sit here today for you
- (2) to take that position isn't it?
- (3) A Yes, it is
- (4) Q We talked about you started with the safety awards your
- (5) statement that you made when you started with the safety awards
- (6) was we have a reputation we have a reputation as the premiere
- (7) safety operator in the industry do you see that?
- (8) A Yes
- (9) Q Exxon Shipping Company changed its name between the date of
- (10) the Valdez and today to what?
- (11) A Sea River Maritime
- (12) Q You talk about industrial due process and the legal
- (13) framework of industrial due process Industrial due process
- (14) does not keep you from firing a drinking alcoholic in a safety
- (15) sensitive position does it?
- (16) A If he's not performing his job duties it does not prohibit
- (17) you from firing them
- (18) Q And indeed in the '85/'86 time frame you fired people for
- (19) violating the alcohol policy isn't that a correct statement?
- (20) A That's true
- (21) Q And the Americans with Disabilities Act on a variety of
- (22) occasions didn't keep you from firing him did it?
- (23) A That's true
- (24) Q The rehabilitation act - I'm sorry The rehabilitation
- (25) act doesn't keep you from firing them does it?

- (1) was - a theme was fatigue at sea?
- (2) A We had in 1988 we had a professional topic that dealt
- (3) with fatigue That was not a theme of the conference trying
- (4) to
- (5) educate our supervisors about how to identify fatigue and
- (6) how
- (7) to manage it
- (8) Q You talked a little bit about the straight salary system
- (9) and you talked a little bit about Captain Hazelwood and Captain
- (10) Hazelwood's ratings And in both of these the subject of
- (11) management came up and that he was a poor manager Under
- (12) Mr. Iarossi's vision of the Exxon Shipping Company Mr. Iarossi
- (13) implemented a number of management initiatives The purpose
- (14) of
- (15) which was to turn the captains from driving the vessels into
- (16) the managers of the vessel's business units isn't that a
- (17) correct statement?
- (18) A I wouldn't characterize it that way no
- (19) Q Did he ever do that? Did you ever read his speech on that
- (20) topic? Do you recall that speech?
- (21) A Surrendering Memory
- (22) Q Do you recall that speech?
- (23) A I do
- (24) Q That's one of the things he talked about in that speech
- (25) isn't it?
- (26) A It is not turning them from - he was turning - he was
- (27) adding to their professional responsibility
- (28) Q He was adding to their professional responsibilities so

Vol 14 2134

Vol 14 2136

- (1) A They were not handicapped
- (2) Q You talked for a minute about the six on/six off rule Do
- (3) you recall that?
- (4) A Yes
- (5) Q That is an important safety requirement isn't it?
- (6) A It's a Coast Guard regulation that was implemented
- (7) presumably for safety yes
- (8) Q It goes into the early part of the century isn't that
- (9) correct?
- (10) A I don't know how far back it goes
- (11) Q And would it be fair to say that in Exxon Corporation
- (12) Exxon Shipping Company in 1988 1989 there was no way the
- (13) company could monitor through recordkeeping the work hours of
- (14) the deck mates?
- (15) A That's correct yes We didn't see a need to do that
- (16) Q You talked a little bit about fatigue And fatigue is a
- (17) problem with regard to ocean going vessel isn't it?
- (18) A It is a potential concern I wouldn't call it a problem
- (19) Q More than a potential concern what was the theme of the
- (20) 1988 fleet officer conference?
- (21) A Future manning was one of the themes Safety was
- (22) another
- (23) There were a number of themes to that conference
- (24) Q How about fatigue at sea was that a theme?
- (25) A I don't recall that
- (26) Q Have you had a fleet officer conference where the theme

- (1) that they would assume responsibility for the management of
- (2) the
- (3) ship essentially as a business entity?
- (4) A Right but not to the degradation of their professional
- (5) responsibilities
- (6) Q It was a way to enhance their professional esteem so they
- (7) were in essence a professional manager and a seagoing
- (8) captain?
- (9) A They were a supervisor of the unit
- (10) Q Did Mr. Iarossi in Surrounding the Memories describe them
- (11) as a manager of this business unit? You were there -
- (12) A I think he may have
- (13) Q He did didn't he? You were there for that speech?
- (14) A He may have I don't recall his exact words
- (15) Q Now you talked a little bit about your monitoring of
- (16) Captain Hazelwood on your own We have two instances We
- (17) have
- (18) the '88 fleet conference but when Mr. Lynch was talking to
- (19) you you talked a little bit about the incident where you
- (20) watched him Do you recall that?
- (21) A I also said I monitored him at the '87 conference
- (22) Q His drinking was of such concern to you that you went out
- (23) of your way to monitor him isn't that a correct statement?
- (24) A His drinking was of no more a concern to me than any
- (25) other
- (26) rumor of a master that I would hear but I did monitor him
- (27) which I thought was prudent right
- (28) Q And with regard to your concerns about the ability to
- (29) monitor him you never past them on to any other members of
- (30) the

Vol 14 2137

- (1) management team did you?  
 (2) **A Not that I recall**  
 (3) **Q** Now in response to Mr Lynch's question your answer was  
 (4) something that puzzles me You said I had no training with  
 (5) regard to recovering alcoholics or alcoholism Do you recall  
 (6) saving that?  
 (7) **A Yes**  
 (8) **Q** You were the director of human resources for Exxon  
 Shipping  
 (9) Company and that subject matter was within your  
 (10) responsibilities wasn't it?  
 (11) **A That's right**  
 (12) **Q** I want to talk for a minute about the safety credo the  
 (13) plaque  
 (14) **A Uh huh**  
 (15) **Q** The first item in the safety credo is accidents and  
 (16) injuries are preventable Do you see that?  
 (17) **A Sure do**  
 (18) **Q** Accidents and injuries are preventable and one of the ways  
 (19) that we prevent accidents and injuries is through the careful  
 (20) selection and evaluation of seagoing masters is that a correct  
 (21) statement?  
 (22) **A One of many ways yes**  
 (23) **Q** That's a very very important subject isn't it?  
 (24) **A Certainly is**  
 (25) **MR O NEILL** I have no further questions

Vol 14 2138

- (1) **THE COURT** Thank you sir You may step down  
 (2) **MR LYNCH** Your Honor could I -  
 (3) **MR O NEILL** I forgot to offer exhibits I will  
 (4) offer them for him The defendants offer 3487  
 (5) **THE COURT** This is defendants 3487?  
 (6) **MR LYNCH** Let me take one second with Mr O'Neill I  
 (7) want to make sure that he understands  
 (8) **MR O NEILL** Wants to put more paper in I don't  
 (9) care  
 (10) **THE COURT** Defendants exhibit -  
 (11) **MR O NEILL** 3587 and 3509 and we have no  
 (12) objection  
 (13) (Exhibit 3587 & 3509 offered)  
 (14) **THE COURT** Defendants 3487 and 3589 - no 3509 are  
 (15) admitted Thank you sir  
 (16) (Exhibit 3587 & 3509 received)  
 (17) **MR O NEILL** Thank you sir  
 (18) **THE COURT** Call your next witness  
 (19) **MS WAGNER** Your Honor plaintiffs call Mary  
 (20) Williamson by deposition  
 (21) **THE CLERK** Raise your right hand  
 (22) (The Witness Is Sworn)  
 (23) **THE CLERK** For the record would you state your name  
 (24) address and spell your last name please  
 (25) **THE READER** Sarah Armstrong A r m s t r o n g

Vol 14 2139

- (1) Minneapolis Minnesota  
 (2) **THE CLERK** Thank you  
 (3) **DIRECT EXAMINATION OF MARY WILLIAMSON (Read)**  
 (4) **BY MS WAGNER**  
 (5) **Q** Could you please state your name for the record  
 (6) **A Mary Robin Williamson**  
 (7) **Q** Where do you presently reside Ms Williamson?  
 (8) **A Houston Texas**  
 (9) **Q** By whom are you presently employed?  
 (10) **A Exxon Shipping Company**  
 (11) **Q** In what capacity?  
 (12) **A Catering buyer**  
 (13) **Q** By whom were you employed in 1980?  
 (14) **A Exxon Shipping Company**  
 (15) **Q** In what capacity?  
 (16) **A 1980 I believe I was on the utility mess utility list**  
 (17) **Q** How long have you been employed by Exxon Shipping?  
 (18) **A Since 1978**  
 (19) **Q** What job positions did you hold with Exxon Shipping from  
 (20) 1978 until 1990?  
 (21) **A I held a job as mess man mess utility person ship's  
 cook**  
 (22) **fleet chef those are the job titles**  
 (23) **Q** In any of these assignments Miss Williamson were you on  
 (24) board a vessel?  
 (25) **A Yes**

Vol 14 2140

- (1) **Q** Were you on board a vessel at any time which was captained  
 (2) by Joseph Hazelwood?  
 (3) **A I didn't sail on the vessel but I was aboard on temporary  
 (4) vessel assignment**  
 (5) **Q** Can you please explain that please when that was and what  
 (6) vessel?  
 (7) **A The vessel was on the west coast and it was one of the  
 big**  
 (8) **ones I'll say the Valdez It may have been the Long Beach**  
 (9) **but I think the Valdez I'm not real sure But Captain**  
 (10) **Stalzer was the other captain so it was the Valdez I**  
 (11) **relieved in the west coast office for the port steward**  
 (12) **Q** You relieved?  
 (13) **A Yes Temporary shore assignment temporary special  
 (14) assignment is what we call it**  
 (15) **Q** At any time that you were fleet chef or on temporary  
 (16) special assignment as port steward did you receive any reports  
 (17) of intoxication by any captains on board any Exxon vessel  
 (18) shipping vessel  
 (19) **A No ma'am the one incident that I perceived as alcohol  
 (20) being involved was on the launch in San Francisco**  
 (21) **Q** And could you explain that please in terms of when?  
 (22) **A You want a date? Somewhere there is a date on this**  
 (23) **Q** Even just a year  
 (24) **A A year okay It had to be - it was March I think, March  
 (25) or April March of '89 and I was on board the Exxon**

Vol 14 2141

(1) Galveston And I took a launch ashore it was at night and I  
 (2) had not heard any comments about the Exxon Valdez crew  
 or  
 (3) Captain Hazelwood up to that time  
 (4) I came back on what is called a midnight launch It gets  
 (5) back to the ship about midnight I think it leaves at about  
 (6) 11 30 At that point I met Captain Hazelwood at the  
 Weststar  
 (7) launch  
 (8) Q What happened?  
 (9) A He came up and he spoke to me and they - a  
 conversation  
 (10) ensued I - we were inside the building We later went  
 (11) outside I stepped back toward the door so it was fairly - by  
 (12) then there was a group of people but it's my perception that  
 I  
 (13) smelled alcohol on his breath  
 (14) Q On whose breath?  
 (15) A Captain Hazelwood's I don't know for sure but that's  
 (16) only my perception And we had a conversation and we  
 stepped  
 (17) outside and we got on the launch And that conversation  
 (18) continued briefly not long because he was out on the open  
 (19) deck area and I went in the cabin  
 (20) Q Of the launch?  
 (21) A Yes ma'am  
 (22) Q And that was your only contact with Captain Hazelwood at  
 (23) that time?  
 (24) A That was my only contact with Captain Hazelwood  
 inside a  
 (25) building by the door of a building and the conversation  
 was

Vol 14 2142

(1) finished up on the deck of a launch  
 (2) Q Now is Weststar launch the same as Weststar terminals?  
 (3) A I know it as Weststar Marine Services and Weststar  
 launch  
 (4) is the same thing It is at Pier 46 in San Francisco So is  
 (5) that what you're talking about?  
 (6) Q And at this time did you advise Captain Hazelwood that you  
 (7) thought that he was intoxicated?  
 (8) A I didn't say to Joe Hazelwood I think you're drunk no  
 (9) ma'am I said something to the effect - he wanted he to  
 relay  
 (10) a message to the captain of the Galveston and I said well  
 (11) Captain I don't think I can do that I think maybe in the  
 (12) morning if you feel better you can relay that message  
 (13) Q What message did he want you to relay to the captain of the  
 (14) Galveston?  
 (15) A It wasn't entirely clear and I wasn't entirely letting him  
 (16) finish his statements because he seemed to be upset with  
 (17) Captain Reeder and that was the master of the Galveston at  
 (18) that time and wanted me to tell Captain Reeder that he was  
 (19) upset with him and I didn't think that was my place to do  
 (20) that  
 (21) Q Now at this time that you smelled alcohol on the breath of  
 (22) Captain Hazelwood in March or April of 19 -  
 (23) A I think it was March I got off the ship in April It was  
 (24) March  
 (25) Q Did you feel that you had a duty to report Captain

Vol 14 2143

(1) Hazelwood to other authorities in Exxon?  
 (2) A It was my impression that I smelled alcohol It was my  
 (3) impression that I thought he had been drinking I got back  
 to  
 (4) the Galveston that night and I'm aware of Exxon Shipping  
 (5) Company policy I gave it a lot of thought that night I  
 (6) didn't talk to anyone else on the vessel about it I was  
 (7) deciding what to do in the - and the next morning there was  
 (8) some A B's talking about something that had happened  
 during the  
 (9) night which I slept through when the ship let go from the  
 (10) Valdez And I was wondering what I should do or if I should  
 do  
 (11) anything And I still didn't go to anybody But we were at  
 (12) anchor doing some repairs and a gentleman by the name of  
 Steve  
 (13) Day, who worked in the west coast office whom I know  
 came on  
 (14) board and - well and I didn't want anybody violating  
 company  
 (15) policy I couldn't prove the man had been drinking, but I  
 (16) thought something should be said So I took Steve Day  
 aside  
 (17) alone in the officer's room on the Exxon Galveston in the  
 (18) afternoon I'm not sure of the date I think it was the  
 (19) second day of repairs I said when you get some time I  
 need  
 (20) to talk to you confidentiality about something And I went in  
 (21) and said it is my impression I was ashore the other night  
 and  
 (22) this is what I think and I think that Joe Hazelwood was  
 (23) drinking Now I don't know any more about that and I didn't  
 (24) pull anybody to see if he had been drinking but it's my  
 (25) impression And Steve if you think anything should be done

Vol 14 2144

(1) about this would you take it back and talk to somebody  
 And I  
 (2) didn't tell him who to go talk to but I felt - whether  
 (3) anybody agrees with me I felt like I did what I had to do and  
 (4) I trusted Steve Day to address or at least see if the issue  
 was  
 (5) checked out  
 (6) Q Was the issue checked out?  
 (7) A I did not talk to Steve Day after that I assumed it was  
 (8) Q And you said nothing to anyone that night?  
 (9) A No, ma'am I did not  
 (10) Q Do you know anyone else who saw Captain Hazelwood the  
 night  
 (11) he left the launch in March 1989 from San Francisco and  
 boarded  
 (12) the vessel?  
 (13) A There were crew members and some licensed from the  
 Exxon  
 (14) Valdez on that launch that went back on the ship with him  
 and  
 (15) there was another crew member from the Exxon Galveston  
 on board  
 (16) that launch  
 (17) Q Did you discuss your beliefs regarding Captain Hazelwood's  
 (18) possible state of drunkenness with any of the Exxon Valdez  
 (19) members?  
 (20) A No I didn't  
 (21) Q Did you board the Exxon Valdez that night?  
 (22) A No ma'am  
 (23) Q Along with Captain Hazelwood?  
 (24) A No ma'am It went to the Exxon Galveston the launch  
 went  
 (25) to the Galveston prior to going to the Exxon Valdez I went

Vol 14 2145

Vol 14 2147

1 out  
 (2) Q As a port steward would you have expected someone on board  
 (3) a vessel to report someone else on board the vessel as a crew  
 (4) member being drunk?  
 (5) A I would think some people would and I would think some  
 (6) people wouldn't  
 (7) Q Why wouldn't some people do that and why would some  
 (8) people  
 (9) do it?  
 (10) A This is my opinion  
 (11) Q I know I'm asking for it please  
 (12) A Okay Some people would do it because company policy  
 (13) you  
 (14) should follow And some would do it because they probably  
 (15) thought there was another way and - you don't want to turn  
 (16) somebody in And if they were drinking and not drunk and  
 (17) there was no harm done even though it was a violation of  
 (18) company policy it's not - I didn't say anything that first  
 (19) night because I'm not a hundred percent convinced Joe  
 (20) Hazelwood  
 (21) was drunk I thought he was drinking Then I had to debate  
 (22) company policy is a serious thing and to go to somebody  
 (23) and  
 (24) say, hey by the way I think your captain over there was  
 (25) drinking I had to think long and hard about that And I  
 (26) think there are other people that probably have to think long  
 (27) and hard whether it is a captain or somebody else but in  
 (28) the  
 (29) end we try to do the right thing in most cases and what I did  
 (30) I feel like I was in the wrong place at the wrong time and I

Vol 14 2146

(1) tried to do the right thing And maybe I didn't do it in a  
 (2) timely fashion but I think I'm just like most other people out  
 (3) there Sometimes you may take too long but you don't  
 (4) deliberately violate company policy If I had seen the man  
 (5) stumbling falling down drunk yes ma'am I would have  
 (6) made a  
 (7) fuss over it But that's not what I saw  
 (8) Q And you said Captain Reeder was the master of the Exxon  
 (9) Galveston at this time?  
 (10) A Yes ma'am  
 (11) Q Were you made aware at any time as to whether or not  
 (12) Captain Hazelwood and Captain Reeder had a verbal  
 (13) altercation  
 (14) on the radio at about this time?  
 (15) A The morning after I came back on the launch ride that  
 (16) night that next morning at breakfast I heard people talking  
 (17) about when the Galveston and the Valdez had let go And  
 (18) this  
 (19) is talk because the chef didn't have to get up for those  
 (20) things so I wasn't up for that that there had been profanity  
 (21) used on the radio  
 (22) Q Well when you became aware of this cursing between  
 (23) Captain  
 (24) Reeder who is the master of the vessel you were on -  
 (25) A Yes ma'am  
 (26) Q - and Captain Hazelwood did you in any way feel any  
 (27) obligation to tell captain Reeder of your observations or  
 (28) perceptions the night before?  
 (29) A I won't say the thought didn't cross my mind We were

(1) underway Captain Reeder was on the bridge Captain  
 (2) Reeder  
 (3) was busy and I still hadn't made up my mind what to do  
 (4) about  
 (5) it So I didn't tell Captain Reeder maybe I should have  
 (6) hindsight is always better than foresight but no I did not  
 (7) tell Captain Reeder  
 (8) Q If you can - and I appreciate the difficulty in doing so  
 (9) - internally what was going through your mind when you  
 (10) judged whether you shouldn't or you should tell Captain  
 (11) Reeder—  
 (12) about your perception with regard to Captain Hazelwood?  
 (13) A It's perception I can't tell you the man was falling down  
 (14) drunk He got on the launch just fine And if there was an  
 (15) incident with profanity or cursing over the radio then that is  
 (16) between Captain Reeder and Captain Hazelwood and that's  
 (17) up to  
 (18) them to settle I don't know if I was right or wrong in doing  
 (19) what I did I'm telling you what I did If I had thought the  
 (20) man was totally incompetently drunk I would have handled  
 (21) it  
 (22) different I thought he had been drinking And I had a hard  
 (23) time deciding what to do about it and, yes, ma'am I was  
 (24) fully  
 (25) aware of the company's policies  
 (26) Q Well the company policy doesn't make a distinction between  
 (27) drinking and falling down drunk do they?  
 (28) A No ma'am  
 (29) Q It prohibits drinking am I correct?  
 (30) A You're right  
 (31) Q Well what was the company policy? Did it allow crew

Vol 14 2148

(1) members to have one drink as you understood it?  
 (2) A As I understood it you could not come back to a ship  
 (3) inebriated You could not have alcohol aboard a vessel  
 (4) You  
 (5) could not drink aboard a vessel If you went ashore and had  
 (6) dinner and had a beer or a glass of wine and you didn't have  
 (7) to  
 (8) go on watch for several hours then you could do that That  
 (9) was my interpretation of it  
 (10) Q Yes At the point of the launch in March of 1989 was there  
 (11) any person representing Exxon Shipping who if they perceived  
 (12) a  
 (13) crew member might be drunk could administer a test to  
 (14) determine whether or not that crew member was drunk or how  
 (15) drunk they were?  
 (16) A That night that I went to the Weststar launch, there was a  
 (17) Weststar lunch driver and there were people going back to  
 (18) ships And I don't know about any breathalyzer test, but  
 (19) nobody said anything about any breathalyzer test and only  
 (20) Exxon  
 (21) people that were there were people that were A going to  
 (22) the  
 (23) Valdez, B going to the Galveston I didn't see anybody else  
 (24) who worked for Exxon Shipping  
 (25) Q Were you aware of any company policy in effect at that time  
 (26) which would have stationed some Exxon Shipping  
 (27) representative  
 (28) at the site of a launch to determine whether or not returning  
 (29) crew members were drunk and/or how drunk they may have  
 (30) been?  
 (31) A I don't know of one There might have been but I don't  
 (32) know of one

Vol 14 2149

(1) Q Was there any Exxon Shipping representative on board a  
 (2) vessel whose function was to determine whether or not  
 returning  
 (3) crew members were drunk or how drunk they were?  
 (4) A I assumed it was the mate on watch or if you were on -  
 (5) you know, if somebody saw you they would tell the mate or  
 the  
 (6) captain or a chef if you were an oiler or an engineer  
 (7) Q And that's all you were aware of that's the only procedure  
 (8) you were aware of?  
 (9) A That's the only procedure I was aware of There might  
 have  
 (10) been more but you're asking me what I knew  
 (11) Q Miss Williamson let me ask it directly then At the time  
 (12) you were on the launch with Captain Hazelwood in March of  
 1989  
 (13) and you perceived he had been drinking did you also perceive  
 (14) that his drinking may have been in violation of company policy?  
 (15) A I know you want a clear-cut answer but I didn't think  
 (16) about it that way  
 (17) Q Why not?  
 (18) A I don't know how to explain this I didn't perceive Joe  
 (19) Hazelwood was a danger to his vessel or anybody else And  
 I  
 (20) didn't discuss with him if he had been drinking I didn't see  
 (21) him take a drink Now in the back of my mind yeah I knew  
 (22) what company policy was and how precise or how right I  
 was or  
 (23) how wrong I was and I gave it a lot of thought And maybe if  
 (24) I hadn't of heard there had been an incident with profanity  
 on  
 (25) the radio maybe I would have never said a word to anybody  
 I

Vol 14 2150

(1) don't know that That played a part in it and then I still  
 (2) didn't say it to the captain Then I waited for someone to  
 (3) come show up from the office that I trusted that I thought  
 (4) would just take this and pass it on and that's an assumption  
 (5) on my part that he passed it on  
 (6) Q You said that the incidence of profanity somehow connected  
 (7) in your mind to -  
 (8) A Our captains don't normally use profanity on the radios  
 (9) Q In your mind did you associate the use of profanity by  
 (10) Captain Hazelwood with regard to your perceptions the night  
 (11) before?  
 (12) A Something was wrong I didn't know if he had been  
 drinking  
 (13) or not But something - captains don't use profane - I m  
 not  
 (14) saying a captain never used a dirty word on the radio I'm  
 (15) saying our captains don't pick up radios and use - and  
 curse  
 (16) other people out another captain or a line handler or  
 (17) whatever They don't do that That is not normal  
 (18) Q I'm just trying to find out honestly what you were thinking  
 (19) at the time and if I can ask maybe directly then when you  
 (20) heard of the incident of Captain Hazelwood using profanity in  
 (21) your mind did that raise another question as to whether or not  
 (22) he might be drunk?  
 (23) A It raised a question of this is odd and I wonder if I  
 (24) know something that impacts any of this And I wonder  
 what I  
 (25) should do about it It raised -

Vol 14 2151

(1) Q Mr Thomas interjects I believe she's finished  
 (2) It raised it internally?  
 (3) A It raised it internally for me I didn't assume - I mean  
 (4) you can get angry I don't say profanity is not used on Exxon  
 (5) Shipping ships and I don't say that everybody didn't use it  
 (6) time and again I'm saying on the radio that's just not  
 (7) routine That's not normal That doesn't mean somebody is  
 (8) drunk, that means somebody is annoyed or upset If I had  
 (9) really been concerned, I guess I would have gone to Captain  
 (10) Reeder and I didn't do that I just kept thinking about it,  
 (11) and that was strictly - I don't know how to explain to you  
 what  
 (12) I felt or how I thought, and maybe you don't understand it  
 but  
 (13) I didn't assume Joseph Hazelwood was drunk I assumed  
 (14) something was wrong with him concerning - and I assumed  
 that  
 (15) - well I knew what my perception was and maybe I had  
 better  
 (16) say something And the best thing maybe to do would be to  
 say  
 (17) something to somebody in the office if I could get off the  
 ship  
 (18) and go to a telephone I didn't get off the ship We were at  
 (19) anchor And then Steve Day showed up and I thought well  
 (20) Steve Day's here and I'll just tell him  
 (21) MS WAGNER There's about two more pages left finish  
 (22) it up?  
 (23) THE COURT Finish it up  
 (24) Q I'm just trying to understand -  
 (25) A In effect I passed the problem on whether I was right or

Vol 14 2152

(1) not And it was only my perception of the problem  
 (2) Q What was the problem you understood you were passing on?  
 (3) A That I thought he had been drinking I didn't know if  
 (4) this - I didn't know how this played into profanity on the  
 (5) radio or anything else but you know here Steve I don't  
 (6) know what it means or if it means anything, and I did it  
 (7) confidentially and I did it to him alone and I said if you  
 (8) would take it out back and see if anybody in the office wants  
 (9) to check it out He told me he would take care of it He  
 (10) didn't get real specific but he said he'd take the information  
 and I assumed he did  
 (11) Q Can you tell me to the best that you can recall what you  
 (12) said to Mr Day and what Mr Day said to you?  
 (13) A I told Steve Day that I had been ashore that I had come  
 (14) back It was the Weststar it was the launch, I had a  
 (15) conversation with Joe Hazelwood It was my impression  
 that Joe  
 (16) Hazelwood was drinking And I didn't see him falling down  
 (17) drunk or anything and I didn't - you know I don't know what  
 (18) this meant but I had heard of an incident of profanity on the  
 (19) radio and I didn't know if Steve knew about and that if he  
 (20) wanted to know about that he could go ask some crew  
 members or  
 (21) go ask a captain I wasn't a witness to that And that I  
 (22) would be more comfortable if he would just pass it on to  
 (23) somebody in the office and check it out or have somebody  
 check  
 (24) it out I don't think I asked Steve to check it out

Vol 14 2153

Vol 14 2155

(1) Q Check what out?  
 (2) A To check to see if the profanity or anything else if Joe  
 (3) Hazelwood had been drinking or if it was all linked together  
 or  
 (4) what was going on I mean they could have - they could  
 call  
 (5) the ship up they could do something So he told me he  
 would  
 (6) take that back to the west coast office and I don't - I don't  
 (7) specifically remember him telling me who he would tell I  
 just  
 (8) remember he said he would do it and I - I believed he would  
 (9) do it So I didn't - I didn't run after him to see if he  
 (10) really did it I just assumed he would take it back to whoever  
 (11) he thought was appropriate in the west coast office It  
 would  
 (12) be checked out  
 (13) Q At the time you observed Captain Hazelwood on this launch  
 (14) outside San Francisco did you hear any retaliation from Exxon  
 (15) Shipping if you - or Captain Hazelwood if you actually  
 (16) officially reported the incident?  
 (17) A Official retaliation no ma'am  
 (18) Q Well even unofficial retaliation?  
 (19) A If I had been wrong and reported him I thought they  
 would  
 (20) there would - thought there would probably be some  
 unofficial  
 (21) and not from top down from the people you sail with Being  
 (22) ostracized but that's human nature and I could be wrong  
 about  
 (23) that Everybody wants to get along with who they sail with  
 (24) Q Why did you feel there would be this peer pressure if you  
 (25) reported -

Vol 14 2154

(1) A Joe Hazelwood was a nice - probably is a nice man and  
 he  
 (2) was liked by people out there I never sailed with him but I  
 (3) always heard people liked Joe Hazelwood And I liked Joe  
 (4) Hazelwood He was always very nice when he dealt with me  
 in  
 (5) the office I had nothing against this man so why are you  
 (6) going to take this nice person and say well I think you are  
 (7) but I'm not sure and I want to make a big mess of this  
 Maybe  
 (8) somebody else would have I didn't Maybe I should have  
 I  
 (9) didn't  
 (10) MS WAGNER That's all Your Honor  
 (11) MR SANDERS Fast Eddie one page  
 (12) THE COURT Let's keep it together  
 (13) CROSS EXAMINATION OF MARY WILLIAMSON  
 (14) BY MR SANDERS  
 (15) Q Ms Williamson just briefly I think you said you first  
 (16) encountered Joseph Hazelwood in the office where exactly did  
 (17) you encounter him?  
 (18) A In the open warehouse building itself There is little  
 (19) glassed in office and I had been in there It's warmer than  
 (20) the big open - I had come out of here and there were several  
 (21) people out there We were saying hello and I encountered  
 him  
 (22) in the warehouse itself  
 (23) Q Who all was there that you presently recall in the open  
 (24) warehouse area at the time and specifically - well never  
 (25) mind Whoever was there?

(1) A Did you skip somewhere?  
 (2) Q Yeah Read line 19 the answer  
 (3) A Sever it people Okay I remember second mate Nate  
 Carr  
 (4) because I knew him I remember a Melanie Wright from the  
 (5) steward's department coming in I was introduced to an A B  
 who  
 (6) was female I forget her name Chief mate Guy Kless was  
 (7) there There was a tall guy I had never met I think he was  
 (8) in the engine department I mean they said hello and they  
 (9) said his name but I don't remember I never sailed with  
 him  
 (10) There was several people, there was Betsy, there was  
 someone  
 (11) else an engineer A female engineer I don't know her I  
 (12) don't remember her name But people said hello and  
 people  
 (13) introduced each other  
 (14) Q At the time in March 1989 that you were on board the launch  
 (15) in San Francisco with Captain Hazelwood did you perceive that  
 (16) Captain Hazelwood had had more than just a beer or glass of  
 (17) wine at dinner? I'm asking you only your perception  
 (18) A My perception was I smelled alcohol on this man's  
 breath  
 (19) He could have had a beer five minutes before he showed up  
 for  
 (20) the launch He didn't slur his words he didn't stumble he  
 (21) wasn't as nice as he had always been on the phone with me,  
 but  
 (22) I didn't take that directed at me that's what I perceived I  
 (23) didn't perceive this fumbling person going back to the ship  
 (24) MR SANDERS That's all we have Your Honor  
 (25) THE COURT Ladies and gentlemen I have a note from

Vol 14 2156

(1) earlier telling me something about pictures having been taken  
 (2) out in front of the courthouse this morning I don't know what  
 (3) was going on this morning what was going on out there I don't  
 (4) have much control over what goes on  
 (5) I wish you would keep me posted though I think I have an  
 (6) understanding with the local press that your names - and we  
 (7) can talk about it specifically but I think I have an  
 (8) understanding with the press is not going to identify you in  
 (9) the paper So if that's a concern I have some hope that  
 (10) that's not going to happen Beyond that I don't know what was  
 (11) going on out there this morning If you perceive any problem  
 (12) let me know about it  
 (13) We will be adjourning for the day in just a second Please  
 (14) remember my instructions about not listening to or not reading  
 (15) anything about this case Don't go off on your own  
 (16) investigating or reading up about anything  
 (17) We'll see you at 8:00 Monday morning  
 (18) Counsel will stay for a minute  
 (19) (Jury out at 2:10 p.m.)  
 (20) THE COURT Somebody has left their notebook there  
 (21) Would you haul that back to the jury room It's in that first  
 (22) chair isn't it? I'm seeing something  
 (23) MR O'NEILL They all left them Judge I think Tom  
 (24) takes care of them  
 (25) THE COURT I will have Mr. Murtiashaw take care of

Vol 14 2157

(1) that I thought they were carrying them out  
 (2) Just a couple of administrative things We've had some  
 (3) paper exchange about the instruction I gave concerning the  
 role  
 (4) and responsibility whatever of the Coast Guard in this  
 (5) matter I've been asked to give an additional instruction on  
 (6) that subject I don't intend to give any further instruction  
 (7) on that subject at this time I will consider a request for  
 (8) something specific on that in connection with the final  
 (9) instructions  
 (10) We have pending a Motion for Summary Judgment that has to  
 (11) do with certain landowners having what I've referred to as  
 (12) quote unestablished end quote claims That's related to an  
 (13) earlier motion that frankly I'm still sitting on because it's  
 (14) a really tough nut to crack  
 (15) I would like to see counsel who are involved in this motion  
 (16) having to do with unestablished claims in chambers Tuesday at  
 (17) 2:00 I want to discuss that with the people that are directly  
 (18) involved with it informally to see if we can figure out somehow  
 (19) to break the problems down and deal with them  
 (20) Third thing I guess is how are we doing timewise Mr  
 (21) O'Neill?  
 (22) MR O NEILL We're on my schedule I think much to  
 (23) Mr Lynch's surprise  
 (24) THE COURT Are we on my schedule?  
 (25) MR O NEILL Yes sir It looks like we're going to

Vol 14 2158

(1) rest on Tuesday and that's within a couple hours of where I  
 (2) thought we'd be And in addition we've allowed them to get  
 (3) some witnesses in during our case That ought to help the  
 (4) time  
 (5) MR NEAL I think that we will - well we'll be able  
 (6) to start the conclusion of their case I guess that I would  
 (7) request if they - if they conclude their case at 12:00 or  
 (8) something like that I might ask for the rest of that day but  
 (9) start the next day But we'll be ready if Your Honor says you  
 (10) start immediately we'll start immediately And I think we can  
 (11) conclude our case in - certainly in ten trial days  
 (12) THE COURT Thank you sir  
 (13) Anything else?  
 (14) MR LYNCH That's all Your Honor  
 (15) MR O NEILL No sir  
 (16) THE COURT Have a good weekend  
 (17) We're in recess until Monday at 8:00 a.m.

(1) PROCEEDINGS  
 (2) (Jury in at 8 00 a m )  
 (3) THE CLERK All rise  
 (4) (Call to Order of the Court)  
 (5) THE COURT Good morning ladies and gentlemen This  
 (6) is the continuation of trial in case A89 0095 Civil in re the  
 (7) Exxon Valdez  
 (8) Mr O Neill will you call your next witness?  
 (9) MR O NEILL Thank you Judge The plaintiffs call  
 (10) by videotape, Steve Day  
 (11) DIRECT EXAMINATION OF STEVE DAY (Video)  
 (12) BY VIDEO EXAMINER  
 (13) Q Mr Day for the record would you state your full name  
 (14) please?  
 (15) A Steven Morgan Day  
 (16) Q And where do you currently reside sir?  
 (17) A At 2920 Sombrosa Street in Carlsbad, California  
 (18) Q By whom are you currently employed?  
 (19) A Exxon Shipping Company  
 (20) Q What is your current position with Exxon Shipping Company?  
 (21) A I'm a first assistant engineer  
 (22) Q When you were initially hired in November of '84 by Exxon  
 (23) Shipping Company what position did you hold?  
 (24) A Second assistant engineer  
 (25) Q And were you assigned to any particular vessel at that

Vol 15 2167

(1) time?  
 (2) A Just briefly, not to a permanent vessel, just to the Exxon  
 (3) Baytown  
 (4) Q Were you subsequently assigned to a different vessel?  
 (5) A No I was sent - after that assignment I was moved  
 (6) ashore as machinery inspector for the construction of the  
 Exxon  
 (7) Valdez and the Exxon Long Beach, spent four months in  
 Houston  
 (8) in the headquarters office, and about, oh 18 months here in  
 (9) San Diego on-site, as on site inspector  
 (10) Q What was the next position you held then with Exxon  
 (11) Shipping Company?  
 (12) A When the ships were completed I sailed the Exxon Long  
 (13) Beach as first assistant engineer for approximately one  
 year  
 (14) Q Who was the master at that time?  
 (15) A Marshal Price was one Bill Deppe and Tom Calle were  
 the  
 (16) three masters that I sailed with on that ship  
 (17) Q And was the Exxon Long Beach involved in the Valdez run?  
 (18) A Yes  
 (19) Q You did that for about a year?  
 (20) A Yes  
 (21) Q So does that bring us up to sometime in late '85?  
 (22) A No, actually '88 ship was completed in April of '87 May  
 (23) of '88 I came ashore once again as a repair superintendent  
 on a  
 (24) temporary shore assignment  
 (25) Q Where was that shore assignment?

Vol 15 2168

- (1) **A Benicia California, west coast fleet office**  
 (2) **Q And as a repair superintendent what were your duties?**  
 (3) **A To assist the vessel with voyage repairs in port to**  
 (4) **coordinate and essentially run the shipyard repairs when**  
 (5) **the**  
 (6) **vessels enter the shipyard and then assist the chief**  
 (7) **engineer**  
 (8) **and the captain as required you know as far as getting**  
 (9) **parts**  
 (10) **or labor to accomplish different tasks on the vessel**  
 (11) **Q Was Harvey Borgen assigned to the west coast fleet office**  
 (12) **during the time you were there in 1988?**  
 (13) **A Yes**  
 (14) **Q What was his position at that time?**  
 (15) **A He was the west coast fleet manager**  
 (16) **Q Would you report to him?**  
 (17) **A It was my recollection that I reported to the ship group**  
 (18) **coordinator for the individual vessel that I was working on**  
 (19) **Q Okay And that would be either Stuart McRobbie or Bill**  
 (20) **Deppe?**  
 (21) **A Yes**  
 (22) **Q Would they report to Harvey Borgen?**  
 (23) **A Yes**  
 (24) **Q How long were you the repair superintendent at Benicia**  
 (25) **California?**  
 (26) **A From April of '88 until approximately August of 1989**  
 (27) **Q And what position did you take in August of '89?**  
 (28) **A At that time I was assigned as repair superintendent for**

Vol 15 2169

- (1) **the repair of the Exxon Valdez here in San Diego**  
 (2) **Q From April - excuse me from November of '84 when you**  
 (3) **first were hired by Exxon Shipping Company until the present**  
 (4) **have you been informed of the existence of an alcohol policy**  
 (5) **that the company had?**  
 (6) **A Yes**  
 (7) **Q Now has it been reminded you attended the fleet**  
 (8) **management conference in March of 1988 and there was a**  
 (9) **discussion during that conference regarding the alcohol**  
 (10) **policy?**  
 (11) **A Yes, I believe that was part of the presentation**  
 (12) **Q Do you recall who gave the presentation in regards to the**  
 (13) **alcohol policy during that conference?**  
 (14) **A No, I don't**  
 (15) **Q Who attended - to your knowledge, who was to attend the**  
 (16) **fleet management conference?**  
 (17) **A Senior officers first assistants chief engineers chief**  
 (18) **mates and captains**  
 (19) **Q Did captains attend this management conference as well?**  
 (20) **A Yes**  
 (21) **Q Do you recall which captains were there?**  
 (22) **A Some of them I don't remember everyone that was there**  
 (23) **Q Okay Do you recall any names?**  
 (24) **A Captain Hazelwood was there**  
 (25) **Q What vessel was Captain Hazelwood sailing at that time if**

Vol 15 2170

- (1) **you know?**  
 (2) **A I believe he was assigned the Exxon Valdez That's my -**  
 (3) **Q You talked about a group of conference attendees in the**  
 (4) **hotel room in March of 1988 Can you recall - other than**  
 (5) **Captain Hazelwood can you recall the names of anyone else**  
 (6) **who**  
 (7) **was present in that room?**  
 (8) **A Andy Dunn**  
 (9) **Q Anyone else you can recall?**  
 (10) **A No**  
 (11) **Q Is there any particular reason over five years after the**  
 (12) **conference you can recall Captain Hazelwood and Andy Dunn**  
 (13) **being**  
 (14) **present in the room?**  
 (15) **A I've been asked about this conference a lot by various**  
 (16) **attorneys you know in the last five years**  
 (17) **Q Is that the only reason you recall Captain Hazelwood and**  
 (18) **Andy Dunn drinking Perrier?**  
 (19) **A No From my recollection they were the only ones not**  
 (20) **drinking alcohol**  
 (21) **Q After the management conference when was the next time**  
 (22) **you**  
 (23) **would have had occasion to see or hear of Captain Hazelwood?**  
 (24) **A May of '88**  
 (25) **Q Okay In May of 1988 you came across Captain**  
 (26) **Hazelwood s**  
 (27) **name again or you heard about him again?**  
 (28) **A I worked with him**  
 (29) **Q Where was this?**

Vol 15 2171

- (1) **A In West State Shipyard in Portland Oregon**  
 (2) **Q You were the repair superintendent at that time?**  
 (3) **A I was an assistant to Jack King**  
 (4) **Q And at that time was Captain Hazelwood the master of the**  
 (5) **Exxon Valdez?**  
 (6) **A Yes**  
 (7) **Q You say you worked with him What exactly did you do with**  
 (8) **Captain Hazelwood or how did your duties coincide with**  
 (9) **Captain**  
 (10) **Hazelwood s?**  
 (11) **A Well it was - it was in both of our interests to get the**  
 (12) **vessel back into service, you know**  
 (13) **Q Let me - the Exxon Valdez was in dry dock?**  
 (14) **A Yes undergoing repair**  
 (15) **Q Do you recall specifically how long the Exxon Valdez**  
 (16) **dry docking lasted in May of 1988?**  
 (17) **A I believe it was about eight weeks**  
 (18) **Q Was there any reason it was longer than the general?**  
 (19) **A Because there was this guarantee dry docking, as I**  
 (20) **mentioned, the scope of work was larger, a lot of guarantee**  
 (21) **related items were repaired or altered**  
 (22) **Q Could you tell us what kind of contact you had with Captain**  
 (23) **Hazelwood during this time?**  
 (24) **A Primarily working the - my responsibility was to monitor**  
 (25) **the repairs and then work with him coordinate with him to**  
 (26) **be**  
 (27) **sure that he was satisfied that repairs were complete and**  
 (28) **then**

Vol 15 2172

- (1) get the vessel back into service, you know
- (2) Q Did you see Captain Hazelwood on a daily basis?
- (3) A Yes, I would - I would say that's how I remember it
- (4) Q Did you socialize with Captain Hazelwood at all during this time?
- (5) time?
- (6) A No
- (7) Q During the time of the Exxon Valdez dry docking did anything happen concerning Captain Hazelwood which you subsequently reported to a superior of yours?
- (8) A Yes
- (9) Q Okay Could you tell us what occurred?
- (10) A I overheard on the walkie-talkie radio someone call the ship superintendent for the vessel, yard person, indicating that we're out of Henry's up here " It was my impression that the voice calling was Captain Hazelwood
- (11) Q You heard Captain Hazelwood's voice before?
- (12) A Yes
- (13) Q Okay You said that you heard this voice which you believed to be Captain Hazelwood saying we're out of Henry's up here ?
- (14) A Yes
- (15) Q What does that phrase mean to you?
- (16) A It sounded to me like he was referring to Henry Weinhart's beer
- (17) Q You identified the position before I think but to whom

Vol 15 2173

- (1) was Captain Hazelwood speaking at this time?
- (2) A The ship superintendent
- (3) Q And who was that?
- (4) A Person named Bill Timmons
- (5) Q Do you recall what Mr Timmons' response was?
- (6) A I believe it was something to the effect Roger - Roger captain I'll see what I can do about that Something like that
- (7) Q How was it that you happened to overhear this conversation?
- (8) A I was in the shipyard office - the port engineer's office and it was my habit to leave the radio on in case the shipyard needed me or people on the ship needed to ask me something
- (9) Q Did this exchange cause you any concern?
- (10) A Yes
- (11) Q And why did it cause you concern?
- (12) A I was concerned that others might draw the conclusions I had drawn
- (13) Q You had drawn some conclusions from this exchange?
- (14) A That Henry's meant Henry Weinhart's I was concerned the way it sounded over the radio
- (15) Q Why did that concern you the way it sounded?
- (16) A Well we try to keep the radio conversation to work related business and it didn't sound work related to me
- (17) Q Did it concern you that an Exxon Shipping Company captain was ordering beer over the radio?

Vol 15 2174

- (1) A I would have to say I was concerned that that might be the case
- (2) Q Did you do anything to follow up on your concerns?
- (3) A Yes, I spoke to Herb Leyendecker
- (4) Q Who is Herb Leyendecker?
- (5) A At that time, he was the repair manager I believe was his title He was my boss, essentially, as repair superintendent overseeing the repairs of the vessel
- (6) Q What did you tell Herb Leyendecker?
- (7) A From my recollection, I told him essentially what we've just - what I've just told you
- (8) Q Where was Herb Leyendecker?
- (9) A He was in the office with me
- (10) Q So he overheard the conversation as well?
- (11) A It's very possible that he did
- (12) Q Did he indicate to you that he'd overheard the conversation?
- (13) A My recollection is that I didn't have to do much explaining, so he was in an office that was just a few feet away and probably could have heard the same radio that I heard, or even had one on in that adjacent office
- (14) Q Was there anybody else in the office besides you and Mr Leyendecker?
- (15) A Not that I recall no
- (16) Q Can you tell us what it was you discussed with

Vol 15 2175

- (1) Mr Leyendecker?
- (2) A As I stated earlier, you know, we like to keep the radio for the business of the repair And that there might be a possibility that what we heard was ordering beer
- (3) Q What did Herb Leyendecker say in response to your concerns?
- (4) A My recollection is that he said that he would speak to Captain Hazelwood about what I had heard or we had heard And he didn't really want me to get involved I think being a fleet - fleet person
- (5) Q I didn't understand what you meant being a fleet person
- (6) A This - the job that I was doing in Portland and the entire two years I was ashore, still essentially a first assistant engineer who was working temporarily as a repair superintendent or new construction inspector but eventually as we've seen in my bio I do have to go back to sea and work with the rest of the fleet as a peer or as a junior officer to some of these people It was his desire to keep me out of any potential conflicts or discussions of that nature
- (7) Q Did he tell you that that was his desire?
- (8) A Yes that's my recollection that -
- (9) Q He said don't get - don't get involved you're going to be sailing with these people I'll handle it?
- (10) A That's my recollection
- (11) Q Okay As a result of the concerns that you told us about

Vol 15 2176

- (1) any action that you took in regards to this incident after you  
 (2) spoke with Herb Leyendecker using that understanding of  
 follow  
 (3) up did you do anything to follow up on your concerns?  
 (4) A Well, I spoke to Herb about - as I said and I believe he  
 (5) did speak with Captain Hazelwood at some point I can't  
 recall  
 (6) whether it was that day or the following day  
 (7) Q Okay Let me ask you did you speak with Mr Leyendecker  
 (8) about his conversation with Captain Hazelwood?  
 (9) A Yes  
 (10) Q What did he tell you about that conversation?  
 (11) A From what I recall he indicated he - he asked Captain  
 (12) Hazelwood if there was drinking going on on the ship, and  
 (13) Captain Hazelwood said there wasn't This is from what I  
 (14) remember of him debriefing me afterwards He asked  
 Captain  
 (15) Hazelwood if he was drinking again, and from what I recall  
 his  
 (16) reply was no  
 (17) And then I believe Herb indicated that if there was any  
 (18) drinking going on on the ship, that he wanted it stopped  
 And  
 (19) if there was any booze on the ship, he wanted it off, you  
 know  
 (20) kind of - kind of a warning or a - some guidance that if this  
 (21) was some kind of indication of a problem that he expected  
 the  
 (22) captain to take care of it  
 (23) Q Anything else you can recall about what Herb Leyendecker  
 (24) told you in regards to his conversation with Captain  
 (25) Hazelwood?

Vol 15 2177

- (1) A No that's - that's all I can -  
 (2) Q You said that Herb Leyendecker asked Captain Hazelwood if  
 (3) he was drinking again?  
 (4) A That's - that's my recollection yes  
 (5) Q Did you have an understanding as to why Herb Leyendecker  
 (6) would ask him if he was drinking again?  
 (7) A My understanding was that you know possibly at some  
 time  
 (8) in the past Captain Hazelwood had an alcohol problem or  
 been a  
 (9) heavy drinker and as - you know as I stated earlier the only  
 (10) time I had met him, he was not drinking  
 (11) Q Prior to this incident had someone told you or had you  
 (12) learned from some source that Captain Hazelwood had had an  
 (13) alcohol problem or was a heavy drinker?  
 (14) A Nothing specific  
 (15) Q Mr Day did you want to clarify that answer?  
 (16) A Yes I would say the impression that I had regarding you  
 (17) know what I said previously, possibly being a heavy  
 drinker,  
 (18) probably came from Herb, you know in, you know  
 discussing the  
 (19) incident or in his decision to speak to Captain Hazelwood  
 (20) That's my recollection, that that's where I kind of became  
 (21) aware that, you know, there might be something in his past  
 (22) Q Was this an indication that you'd received from Herb prior  
 (23) to this incident?  
 (24) A No, I think kind of during Yeah Prior, I would have to  
 (25) state, you know say the same as I did just a few minutes  
 ago,

Vol 15 2178

- (1) there was nothing specific to indicate that  
 (2) Q Okay  
 (3) A You know the only other thing I can add is you know I  
 (4) did attend this conference and with a group of sea going  
 (5) people and did notice that he wasn't drinking So maybe  
 (6) here's a guy who had realized it was in his best interest not  
 (7) to You know that's probably the only other place I could  
 (8) have drawn that conclusion  
 (9) Q Do you recall thinking that at the time that maybe here's  
 (10) a guy who doesn't want to drink?  
 (11) A Yes He and Andy, both you know They'd made a  
 choice of  
 (12) some - you know  
 (13) Q Do you know whether Herb Leyendecker spoke with anyone  
 else  
 (14) regarding this incident?  
 (15) A No I do not  
 (16) Q Do you want to clarify?  
 (17) A Well there's a time frame involved  
 (18) Q Okay And I had limited my question to -  
 (19) A Right So it's wide open and in that time frame you know  
 (20) no But -  
 (21) Q It's your understanding that sometime later Herb  
 (22) Leyendecker spoke with someone else about this incident?  
 (23) A Yes  
 (24) Q Do you recall when that was that Herb would have had that  
 (25) conversation?

Vol 15 2179

- (1) A I don't know exactly when he had the conversation I do  
 (2) know when he told me that he had had the conversation  
 (3) Q Okay And when was that?  
 (4) A After the grounding  
 (5) Q Okay But when he told you about the conversation he  
 (6) didn't indicate when it was he had had - had discussed this  
 (7) incident with anyone?  
 (8) A Not specifically, no  
 (9) Q Did he indicate to you that this subsequent conversation he  
 (10) had had was - occurred prior to the grounding?  
 (11) A Yes, that was my - that was my impression  
 (12) Q Did he tell you who he spoke with?  
 (13) A Yes  
 (14) Q Who did he speak with?  
 (15) A Harvey Borgen  
 (16) Q Did he tell you what he told Harvey Borgen?  
 (17) A No, not specifically, just gave him a description of - of  
 (18) essentially what I've testified here  
 (19) Q Okay And did he tell you what Harvey Borgen's response  
 (20) was?  
 (21) A No, he didn't  
 (22) Q Now you've told us that you spoke with Herb Leyendecker  
 (23) about this incident Have you spoken with anyone else about  
 (24) this incident excluding the lawyers - well excluding your  
 (25) lawyer and Exxon Shipping Company counsel have you  
 spoken with

Vol 15 2180

- (1) anyone else about this incident?  
 (2) **A Yes**  
 (3) **Q And who have you spoken to?**  
 (4) **A Paul Myers**  
 (5) **Q Let's go back to the conversation you can recall with Paul Myers -**  
 (6) **A Yes**  
 (7) **Q - regarding this incident When did that conversation occur?**  
 (8) **A My best recollection is that when I - when I returned to Benecia after the vessel sailed from Portland, I remember discussing this incident with him It's also very possible prior to the ship sailing from Portland in speaking with Paul regarding preparations to complete the repairs and go to sea that I mentioned it as well**  
 (9) **Q Okay You told us the ship was dry docked in Portland for approximately eight weeks?**  
 (10) **A Yes**  
 (11) **Q So in the May or June 1988 period you think it's possible you spoke to Paul Myers regarding this incident?**  
 (12) **A Yes**  
 (13) **Q And then you say when you went back to Benecia you had a conversation with Paul Myers?**  
 (14) **A Yes**  
 (15) **Q And when would that have been?**

Vol 15 2181

- (1) **A Approximately May 23rd**  
 (2) **Q So we can be a little more specific you think you may have had a conversation with Paul Myers between May 20th and May 22nd while you were still in Portland and you recall a conversation on May 23rd 1988 when you returned to Benecia with Paul Myers**  
 (3) **A The telephone conversation that I don't really recall you know that vividly probably occurred sometime between May 11th and 20th That would be the proper time frame for that**  
 (4) **Q What was Paul Myers position with Exxon Shipping Company in May of 1988?**  
 (5) **A He was ship group coordinator**  
 (6) **Q He was not your immediate boss?**  
 (7) **A No Well not normally In his capacity as ship group coordinator for the Exxon Valdez I as repair superintendent was obligated to keep him informed and so solely for the purposes of that 20 days or so that I was involved in the Valdez repair, he was a supervisor on the operation site**  
 (8) **Q Do you recall what you told Mr Myers regarding this incident during the telephone conversation that you believe occurred sometime between May 11 and May 20 1988?**  
 (9) **A What I recall is essentially informing him what I've told you today, what occurred Herb was involved Herb followed up on the vessel, spoke to the captain**  
 (10) **Q Did you tell Paul Myers that you heard Captain Hazelwood**

Vol 15 2182

- (1) ordering beer over the radio?  
 (2) **A I can't recall my specific words Probably the best is to say I relayed to him what I've told you today**  
 (3) **Q Do you recall what Paul Myers response was to the information that you were telling him?**  
 (4) **A No, I don't**  
 (5) **Q Did Paul Myers indicate to you that he would take any action based upon what you told him?**  
 (6) **A No, he didn't**  
 (7) **Q Was there something that specifically concerned you about that incident that led you to discuss this with Paul Myers?**  
 (8) **A It was Paul's policy to request feedback on all of the people on the vessel from the repair superintendent, so I felt this was part of giving him that feedback, you know, regarding events or people and their performance**  
 (9) **Q You mentioned before that Herb had told you to stay out of this because you're not - may have to sail with these people Was that a concern that you had when you were discussing this with Paul Myers on the telephone conversation?**  
 (10) **A Yes**  
 (11) **Q Did you discuss that with Paul Myers?**  
 (12) **A I would say yes**  
 (13) **Q What did you tell him in that regard?**  
 (14) **A I would say discussion - I mean - my recollection is that Paul understood the position I was in and that - I kind of -**

Vol 15 2183

- (1) **I got the impression - or my feeling after talking was that he agreed with what Herb had done, to keep me out of it and take the issue himself**  
 (2) **Q In May of 1988 were you aware of any instances where Exxon Shipping Company employees suffered consequences even informally from their fellow employees or from the company for reporting violations of company policy alcohol or otherwise?**  
 (3) **A In that - at that time, no**  
 (4) **Q Subsequent to that time have you become aware of such?**  
 (5) **A Nothing specific Our promotion system within the shipping company including the sea going employees is based upon performance only and that performance is evaluated by senior officers on the vessel, so it's easy to understand how crossing a certain group or - or sea officer could come back to haunt you or prevent you from being promoted or getting, you know salary increases or whatever It's something everyone's pretty conscious of**  
 (6) **Q Whether or not you discussed it with Paul Myers was that a concern - was that a concern that you held that your reporting this incident could cause certain negative ramifications to you in future evaluations?**  
 (7) **A Yes**  
 (8) **Q I may have asked you this already and I apologize Did Paul Myers indicate to you whether he was going to take any action as a result of your report during the telephone**

Vol 15 2184

- (1) conversation?  
 (2) **A Not that I recall**  
 (3) **Q You said you had another conversation with Paul Myers on**  
 (4) **May 23rd or 24th when you returned to Benecia?**  
 (5) **A Yes**  
 (6) **Q Was that a conversation that you initiated?**  
 (7) **A I can't recall whether he did or I did**  
 (8) **Q What was the subject of that conversation? Was it this**  
 (9) **incident?**  
 (10) **A No, actually most of it was updating him on the -- how the**  
 (11) **repair finished up, kind of nuts and bolts of how the repair**  
 (12) **was completed This was just part of that general**  
 (13) **conversation**  
 (14) **Q Now you say you recall this in person conversation better**  
 (15) **than you do the telephonic conversation you had with**  
 (16) **Mr Myers What do you recall about your conversation with**  
 (17) **Paul Myers on May 23 or 24 1988 as it relates to this**  
 (18) **incident?**  
 (19) **A What I recall is pretty much just restating the**  
 (20) **circumstances and Herb's involvement and his debriefing**  
 (21) **to me**  
 (22) **That's pretty much it**  
 (23) **Q I understand Other than this incident did you report**  
 (24) **anything else to Paul Myers during this conversation regarding**  
 (25) **Captain Hazelwood's performance during the dry docking of the**  
**Exxon Valdez?**

Vol 15 2185

- (1) **A I reported his performance generally was quite -- we had**  
 (2) **quite a good relationship, very cooperative seemed to work**  
 (3) **well together to get the repair completed**  
 (4) **Q Did you have any heightened concerns about this incident**  
 (5) **because it was Captain Hazelwood involved as opposed to**  
 (6) **John**  
 (7) **Doc involved?**  
 (8) **A I would say no You know the problem I had was using**  
 (9) **the**  
 (10) **radio for some purpose such as that where it could be heard**  
 (11) **by**  
 (12) **all the shipyard employees as well as the ship's crew**  
 (13) **Q Did you have any further conversation with Paul Myers**  
 (14) **regarding this incident?**  
 (15) **A What time frame?**  
 (16) **Q Well since the May 23 24 1988 conversation?**  
 (17) **A Yes**  
 (18) **Q When did that conversation occur?**  
 (19) **A It was in 1989 approximately two months after the**  
 (20) **grounding**  
 (21) **Q Where did that conversation occur?**  
 (22) **A In my office in the west coast fleet office in Benecia**  
 (23) **Q Who initiated that conversation?**  
 (24) **A Mr Myers**  
 (25) **Q Was your report of this incident the subject of that**  
**conversation?**  
 (26) **A Not -- not really**  
 (27) **Q What was the subject?**

Vol 15 2186

- (1) **A It was more the incident itself not my report of it**  
 (2) **Q What was said at that time with regards to the incident by**  
 (3) **Mr Myers?**  
 (4) **A He indicated that he had passed on that information that I**  
 (5) **had told him to Harvey Borgen**  
 (6) **Q During this conversation what else did he say?**  
 (7) **A He said that there had been another incident in which --**  
 (8) **that he did not remember**  
 (9) **Q Now you have confused me He told you that there was**  
 (10) **another incident? What type of incident?**  
 (11) **A We're going to get to it I'm sure It's in all the other**  
 (12) **depos**  
 (13) **Q That's the Mary Williamson incident?**  
 (14) **A Yes He mentioned there was an incident reported**  
 (15) **apparently reported to him that he did not remember He**  
 (16) **didn't**  
 (17) **remember that occurring**  
 (18) **Q He didn't recall having received a report of that is that**  
 (19) **correct?**  
 (20) **A That's correct**  
 (21) **Q Anything else that Paul Myers said during this conversation**  
 (22) **that you can recall?**  
 (23) **A No it was very short**  
 (24) **Q Whether Mr Myers told you or otherwise are you aware**  
 (25) **whether Mr Myers took any steps other than reporting to**  
**Mr Borgen in response to your report of this incident?**

Vol 15 2187

- (1) **A No I'm not aware of any steps**  
 (2) **Q And do you have any knowledge as to what Mr Borgen did**  
 (3) **if**  
 (4) **anything in response to Paul Myers report of this incident to**  
 (5) **him?**  
 (6) **A No I'm not**  
 (7) **Q Are you aware of any other Exxon Shipping Company**  
 (8) **employee**  
 (9) **having knowledge of this incident other than those that you've**  
 (10) **told us about today?**  
 (11) **A Just -- just Herb and myself**  
 (12) **Q And Harvey Borgen and Paul Myers?**  
 (13) **A Yes**  
 (14) **Q Okay Your discussion with Herb Leyendecker --**  
 (15) **Leyendecker excuse me did you discuss whether there had**  
 (16) **been**  
 (17) **beer on board the vessel?**  
 (18) **A Yes**  
 (19) **Q And what was discussed in that regard?**  
 (20) **A Herb asked if I had seen any beer on the vessel My reply**  
 (21) **was that I had seen beer bottles, empty beer bottles on**  
 (22) **board**  
 (23) **the vessel**  
 (24) **Q Where were these empty beer bottles that you had seen on**  
 (25) **board the vessel?**  
 (26) **A In the dumpster or garbage can in the computer control**  
 (27) **room which was kind of public areas**  
 (28) **Q What kind of beer bottles had you seen?**  
 (29) **A Henry Weinbart's**

Vol 15 2188

- (1) Q When had you seen those beer bottles?
- (2) A My recollection is that it was - it was sometime between
- (3) the time I arrived there May 2nd or 3rd whenever that was
- (4) and the time of the radio call, sometime in that first week,
- (5) ten days
- (6) Q Okay Had you seen the beer bottles on more than one
- (7) occasion?
- (8) A I can't say I specifically recall I saw them in two
- (9) different locations that I mentioned, which had to be a little
- (10) bit apart, you know, it was - saw them in the dumpster, saw
- (11) them in the chart controller room, so I don't know
- (12) specifically
- (13) if it was, you know, successive days or every day or once
- (14) Q Do you recall how many beer bottles you saw?
- (15) A Best recollection is possibly four to six total in both
- (16) locations That's the best I can think or remember
- (17) UNIDENTIFIED SPEAKER I m sorry Four to six in each
- (18) of the locations?
- (19) THE WITNESS No total Maybe two in one four in
- (20) the other or two and two
- (21) BY VIDEO EXAMINER
- (22) Q Did you see any other alcohol containers aboard the
- (23) vessel?
- (24) A No
- (25) Q When you discussed this incident with Paul Myers did you
- (26) tell Paul Myers that you had seen beer bottles aboard the

Vol 15 2189

- (1) vessel?
- (2) A My recollection is that I would have - I would have told
- (3) him that or I did tell him that during that discussion
- (4) Q Was Captain Hazelwood on board the Exxon Valdez on a
- (5) regular basis during the time it was in dry dock and you were
- (6) there?
- (7) A Yes
- (8) Q When was the next time that you would have come in contact
- (9) with him or his name would have come up?
- (10) A March of '89
- (11) Q Where were you at that time?
- (12) A On the Exxon Galveston
- (13) Q Who was the captain of the Exxon Galveston at that time?
- (14) A Captain Craig Reeder
- (15) Q And what type of vessel was the Exxon Galveston?
- (16) A It's a small 25 000 dead weight ton lightering vessel
- (17) Stayed in San Francisco Bay
- (18) Q Stayed in San Francisco Bay for the purpose of lightering
- (19) other vessels?
- (20) A Yes
- (21) Q What were your duties at that time?
- (22) A I was still repair superintendent working out of the west
- (23) coast fleet office
- (24) Q Could you tell us about the circumstances surrounding your
- (25) either contact or Captain Hazelwood coming out in March of

Vol 15 2190

- (1) 1989?
- (2) A I didn't meet Captain Hazelwood at that time I was
- (3) involved in a conversation about him
- (4) Q When did this conversation occur?
- (5) A I'm going to say it was approximately March 13th or 14th
- (6) 1989
- (7) Q What time of day do you recall?
- (8) A Oh, about 11 00 in the morning, 11 a m
- (9) Q Were you a direct participant in the conversation or did
- (10) you overhear a conversation?
- (11) A I was a direct participant
- (12) Q Who was the conversation with?
- (13) A Mary Williamson
- (14) Q This is a conversation you initiated or had Mary
- (15) Williamson come to you?
- (16) A Mary had come to me
- (17) Q What did she say to you?
- (18) A She said she had something she needed to talk to me
- (19) about
- (20) Q Okay And what was your response?
- (21) A We were both very busy at the time I said, okay, when I
- (22) get a chance I'll stop by, or we'll get together and she could
- (23) pass on this information
- (24) Q Did you make time during that initial contact to speak with
- (25) Mary Williamson?
- (26) A Actually, my recollection is the initial contact was - I'm

Vol 15 2191

- (1) going to say it was the - a Monday or the first day of my
- (2) involvement with the Galveston on that repair, and I - I
- (3) didn't really get a chance to speak with her that day I had
- (4) been on a ship all night, a different ship, and just came out
- (5) in the morning and then went home It was the following
- (6) day,
- (7) so it was about say, a 24 hour time period from the initial -
- (8) well, when she said she had something she wanted to tell
- (9) me and
- (10) when we actually got together
- (11) Q And just so I m clear at that initial contact she didn't
- (12) mention Captain Hazelwood's name?
- (13) A No
- (14) Q What was the next occasion when Captain Hazelwood's
- (15) name
- (16) came up or you had contact with her?
- (17) A After speaking with Mary'
- (18) Q Well let me ask you have you told us everything you can
- (19) recall in regards to your conversation with Mary Williamson
- (20) that initial contact?
- (21) A Oh yes yes Initial contact was just Steve I need to
- (22) tell you something when you get a chance Okay She went
- (23) her
- (24) way I went mine We had lots to do
- (25) Q You didn't speak with her again?
- (26) A Until about 24 hours later the following day at lunch
- (27) Q What was the next occasion after that initial contact that
- (28) you had with Mary Williamson where Captain Hazelwood was
- (29) discussed?

Vol 15 2192

(1) A I believe it would have been the 11 00 conversation that we had That's my recollection I don't remember it coming up at all in the interim

(4) Q Could you tell us the circumstances around your subsequent conversation with Mary Williamson?

(6) A I finally had the time to - to break away went up to the - she was the fleet chef on the Galveston the cook and she pulled me aside into a private area one of the lounges adjacent to the galley and told me you know what she had to say

(11) Q What did she have to say?

(12) A As best I can recall, she had been on a launch from Westar going out to the Galveston At the time she was on that launch, the Galveston was alongside the Exxon Valdez and the Valdez was discharging cargo to the Galveston And she said she had met Captain Hazelwood on that launch and had a conversation with him on the launch on the way back to the ship She said that in her opinion that he might have been drinking and that he was being kind of loud and directing most of his comments toward her and so she you know continued the conversation with him out on the deck of the launch to try and minimize the number of people who would overhear what was being spoken about And she thought this might be a problem you know, that maybe someone should be made aware of the circumstances that she had described

(25) Q Did - you said that Mary Williamson indicated that she believed Captain Hazelwood may have been drinking?

(3) A Yes

(4) Q Was she any more specific than that? Did she give you any indication as to what it was what was said or appearance or demeanor that led her to believe that Captain Hazelwood may have been drinking?

(8) A I'm trying to be sure I distinguish between what I've read in designated documents and you know from what I was told at the time Takes a little while to sift it through Certainly I think the loudness was - I think my impression was that was an indication of something, being very vocal and I believe that she also indicated that she smelled alcohol And I believe the substance of the conversation was regarding Captain Reeder who was Mary's captain on the Galveston, that's the main reason she tried to you know move away from the rest of the group on the launch It wasn't very favorable That's - that's all I can remember right now

(19) Q Do you recall any - did Mary Williamson give you any of the specifics of what Captain Hazelwood was saying?

(21) A I - I don't recall very many specifics, just Captain Reeder's name and Dan Paul as two people who were objects of his anger or displeasure, or whatever he was vocalizing, just the individual stuff more than any description as to what the complaint was I just seem to remember the - the names

Vol 15 2194

(1) Q Did you report what Mary Williamson had told you to anyone?

(3) A Yes

(4) Q And who did you report it to?

(5) A Paul Myers

(6) Q When did you make that report?

(7) A It would have been the following day one day after my conversation with Mary

(9) Q What did you tell Paul Myers?

(10) A From what I recall I - I initiated the conversation went into Paul's office in Benecia shut the door and related to him essentially what I've - what I've told you here what Mary observed and thought he should know about it

(13) Q Do you recall what if anything Paul Myers said in response to your report?

(16) A He didn't - didn't say very much my recollection anyway I vaguely remember some you know questions of when what day and you know but that's about - that's about all it was very short actually

(20) Q At the time that you were making this report to Paul Myers did you have the same concerns that you had discussed previously about reporting activity of a senior officer and how that may impact upon your subsequent evaluations?

(24) A Yes

(25) Q Do you know whether Paul Myers did anything in response to

Vol 15 2195

(1) your report?

(2) A No, I don't know

(3) Q At the time that you had had the conversation with Mary Williamson on March 13 or 14 was the Exxon Valdez still in port or had it departed?

(6) A We were still in port

(7) Q At the time that you had the conversation with Paul Myers was the Exxon Valdez still in port or had it departed?

(9) A They were still in port

(10) Q When you had the conversation with Mary Williamson had you been informed of any verbal altercation that Captain Reeder and Captain Hazelwood had had?

(13) A At the time that I spoke with Mary?

(14) Q Right

(15) A It's kind of tough to sort out you know, because as you know there's a lot of testimony about that

(17) Q Right

(18) A My best recollection is that there was some indication that some kind of altercation had taken place over the radio It kind of all runs together, you know, it's - there's the grounding, it was all within a week's time Very busy time I would say in answer to the question, yes, I think somewhere either from Mary in our conversation by inference or somebody telling me on the launch or the launch driver telling me on the way to or from the ship, you know somehow I got some kind of

Vol 15 2196

- (1) feel that there was some kind of friction there between these
- (2) two people
- (3) Q You said that Mary Williamson had reported to you that
- (4) Captain Hazelwood had said less than kind things about Captain
- (5) Reeder and Dan Paul?
- (6) A I believe so, yes
- (7) Q What led you to report the information that Mary Williamson
- (8) had told you to Paul Myers?
- (9) A Well Paul was his supervisor
- (10) Q Paul was not your immediate supervisor though is that
- (11) right?
- (12) A No
- (13) Q Who was your immediate supervisor at that time?
- (14) A Depended which vessels I was responsible for At that
- (15) time I believe for most of the time I was in that office it
- (16) was Stuart McRobbie and Bill Deppe maybe three shifts with
- (17) one two with the other it kind of shifted around That's why
- (18) I reported it to Paul
- (19) Q Did you report it to Paul Myers because you had made the
- (20) previous reports to Paul Myers as well about Captain
- (21) Hazelwood?
- (22) A Not really He was - he was Captain Hazelwood's
- (23) supervisor at the time of the shipyard repair also so I
- (24) would - I would say that the reason for telling Mr Myers is
- (25) he was Mister - Captain Hazelwood's supervisor in both cases

Vol 15 2197

- (1) Q When you made the report to Paul Myers did he indicate to
- (2) you that he would do anything with the report?
- (3) A Not that I recall no
- (4) Q At this time on March 13th or 14th of 1989 were you
- (5) concerned that Captain Hazelwood had a drinking problem?
- (6) A I would say that my feelings were that you know something
- (7) was going on with this individual that his supervisor ought to
- (8) be made aware of if I can do that and as I said I chose to
- (9) do that I don't know that I m qualified to hear a secondhand
- (10) report and determine if someone has a drinking problem or not
- (11) So it's kind of hard to come out and say that
- (12) Q Do you believe that you did all that you could to inform
- (13) Paul Myers Captain Hazelwood s supervisor of the concerns that
- (14) you have stated that you had about Captain Hazelwood?
- (15) A Yes
- (16) Q And those concerns were that something was going on with
- (17) this individual?
- (18) A Yes
- (19) Q Was that something in your mind a potential alcohol
- (20) problem?
- (21) A Could have been - could have been a lot of things Could
- (22) have been you know family problems Could have been a number
- (23) of things that were bothering this guy But I just felt that
- (24) what I was hearing from others he should be made aware of as
- (25) his supervisor so if he needed to speak with him or

Vol 15 2198

- (1) investigate he could
- (2) Q After your conversation with Paul Myers when was the next
- (3) time that Captain Hazelwood s name came up or that you had
- (4) contact with him?
- (5) A March 24th, the grounding was the next time really I
- (6) heard
- (7) his name
- (8) Q Was there any problem with the Exxon Valdez when it was in
- (9) port in San Francisco any mechanical problem?
- (10) A We were having some problems with the turbo chargers
- (11) on the
- (12) main engines
- (13) Q Okay And what was that problem?
- (14) A I believe it was surging
- (15) Q What was your first thought when you heard the Exxon
- (16) Valdez
- (17) had gone aground?
- (18) A Thought it was a mistake
- (19) Q Why did you think it was a mistake?
- (20) A I just didn't feel that with, you know one of the newest
- (21) and most modern ships, well maintained ship, that our
- (22) company
- (23) would have a problem like that You know, with the care that
- (24) we took in our operation that we would be the ones to hit
- (25) Bligh Reef Frankly I thought it would be somebody else you
- (26) know, a fly by night operation
- (27) Q When you heard that the vessel had been grounded did it
- (28) cross your mind that Captain Hazelwood might have been
- (29) drinking?

Vol 15 2199

- (1) A No Initially - to answer your question, initially, no
- (2) Q Okay
- (3) A Could have been a mechanical problem you know
- (4) Q You say initially no At some subsequent point in time
- (5) did it cross your mind?
- (6) A Heard an awful lot of media reports that immediately
- (7) brought that to the forefront you know News we got in the
- (8) office
- (9) Q So that morning -
- (10) A Yes
- (11) Q - when you got to the office?
- (12) A Yeah
- (13) Q And that thought was as a result of the media reports you
- (14) heard?
- (15) A I believe so yes
- (16) Q When those media reports started coming across did you
- (17) discuss with anybody either the Mary Williamson report to you
- (18) or the ordering of the beer in Portland shipyard?
- (19) A That day?
- (20) Q We can begin with that day
- (21) A Any time - yeah Not that I can specifically recall on
- (22) that day you know we were kind of busy with getting
- (23) drawings
- (24) of the ship, getting people prepared to go up there
- (25) Q Okay Subsequent to that day did you discuss either of
- (26) the incidents the Mary Williamson report or the ordering beer

Vol 15 2200

- (1) in the Portland shipyard as it related to the media speculation  
 (2) that alcohol had been involved in the grounding of the Exxon  
 (3) Valdez?  
 (4) A Every neighbor on my street that wanted to know the real  
 (5) story There was an awful lot of hallway talk as you can  
 (6) imagine about every -- all different theories on what  
 (7) happened Then there were the media reports that may or  
 (8) may  
 (9) not have been correct, you know  
 (10) I do remember, you know talking to -- it's kind of hazv  
 (11) but I do remember talking to Stuart McRobbie about it He  
 (12) was  
 (13) running the office after the grounding I also may have  
 (14) mentioned you know these incidents to Tom Shearer who  
 (15) worked  
 (16) in our office  
 (17) Q Anyone else you can recall?  
 (18) A Those are the -- the only people that I really have any  
 (19) recollection of Like I said there was an awful lot of  
 (20) hallway talk and I heard about you know everything you  
 (21) can  
 (22) imagine  
 (23) Q You said that you had a conversation with Stuart McRobbie  
 (24) but it was kind of fuzzy Do you recall anything about your  
 (25) conversation with Stuart McRobbie?  
 (26) A Not -- not too much Essentially as I said he was  
 (27) running the office and he was I'm sure being asked for  
 (28) information by the company if there was any information out  
 (29) there So what I recall is just, you know meeting with him

Vol 15 2201

- (1) briefly and relating to him what we've talked about here  
 (2) today  
 (3) Q Do you recall any comments he made?  
 (4) A No I believe he was just a messenger He was a conduit  
 (5) to  
 (6) pass information on to someone else  
 (7) Q How about your conversation with Tom Shearer do you  
 (8) recall  
 (9) any specifics of that?  
 (10) A Say it was pretty -- pretty much the same as the  
 (11) conversation with Stuart maybe a little less formal Tom  
 (12) was  
 (13) just more of a peer than an individual in the office I would  
 (14) say the same facts  
 (15) Q Did you express to either of these two individuals or to  
 (16) anyone other than your lawyers any concern you had that you  
 (17) had  
 (18) made reports to Paul Myers about Captain Hazelwood's  
 (19) activities and yet to your understanding nothing was done in  
 (20) regards to those reports?  
 (21) A Well, first I'd like to say, you know something very well  
 (22) may have been done with the information that I passed  
 (23) along I  
 (24) just was not aware of it I also, you know, after the  
 (25) grounding, I think there -- you've spoken to most of the --  
 (26) most of the people involved I think everyone had some  
 (27) feelings that gee what could I have done to have prevented  
 (28) this thing? And I was no different than anybody else in that  
 (29) regard And in hindsight I think I tried to do what -- what I  
 (30) could, you know by informing Mr Myers of what I told him

Vol 15 2202

- (1) Q Paul Myers would he be considered Exxon Shipping  
 Company  
 (2) management?  
 (3) UNIDENTIFIED SPEAKER By whom?  
 (4) VIDEO EXAMINER By this witness  
 (5) THE WITNESS Yes  
 (6) BY VIDEO EXAMINER  
 (7) Q Do you believe that Paul Myers should have taken some  
 (8) measures to investigate the reports you gave him?  
 (9) A Yeah As I said I think he very well could have that I  
 (10) was not aware of I think by virtue of the fact that I  
 (11) reported the information to him that I felt it was important  
 (12) enough to be looked into  
 (13) Q What did you -- was there a message you were trying to get  
 (14) across to Mr Myers that perhaps was not expressed in what you  
 (15) were telling him?  
 (16) A Sometimes, Mr Myers -- I don't know if you've met him --  
 (17) tends to have a very flat affect And when you speak to him,  
 (18) you can't determine whether it bounced off or sunk in  
 (19) sometimes you know Whether he's preoccupied with  
 (20) something  
 (21) else he just -- as Mr Klinckhardt asked what was his  
 (22) response and there really wasn't much of a response and  
 (23) that's why I said you know in thinking about it and trying to  
 (24) answer truthfully can I really be sure that he heard me or  
 (25) was  
 (26) he thinking so much about something else that was going  
 (27) on that  
 (28) day that, you know he maybe didn't

Vol 15 2203

- (1) Q So then perhaps --  
 (2) A I was speaking that you know I'm fairly certain he heard  
 (3) the spoken words the words that I enunciated but they may  
 (4) not  
 (5) have registered or sunk in He may have been -- as an  
 (6) example  
 (7) when -- when I reported the Mary Williamson/Westar  
 (8) incident he  
 (9) was at that time very involved with trying to get the turbo  
 (10) chargers repaired satisfactorily on the ship so that the ship  
 (11) could sail We'd been delayed a couple days already and he  
 (12) --  
 (13) so it's very possible that's one -- I think that's kind of the  
 (14) conversation that you know sparked me to make that  
 (15) statement  
 (16) to you is that I know on that particular day he was very busy  
 (17) and I was very busy as well And maybe in the -- all the other  
 (18) things that were going on in his mind at that time trying to  
 (19) get the ship out of port that didn't register  
 (20) Q Why was he concerned about getting those turbo chargers  
 (21) operational?  
 (22) A So that the ship could sail and pick up its next cargo  
 (23) Q Was it costing you money for the vessel to be at the yard?  
 (24) A The ship was in service in -- at the time of the Westar  
 (25) incident in March of '89, so every day that it sat in San  
 (26) Francisco without heading towards Valdez was a day off  
 (27) hire for  
 (28) the vessel which costs a lot of money  
 (29) Q You testified earlier that in your -- one of your  
 (30) discussions with Mr Leyendecker -- Leyendecker?  
 (31) A Leyendecker

Vol 15 2204

- (1) Q Leyendecker that there might be repercussions to your  
 (2) career if you reported a concern about alcohol abuse of an  
 (3) officer such as Captain Hazelwood do you recall that  
 (4) testimony?  
 (5) A Yes  
 (6) Q Notwithstanding that concern you reported what you  
 learned  
 (7) on several occasions to Mr Myers correct?  
 (8) A Yes  
 (9) Q Why did you do that notwithstanding the fact that you knew  
 (10) there might be repercussions on your career?  
 (11) A I felt it was information that - that Paul should have  
 (12) you know, as his supervisor And I also felt that Paul would  
 (13) be discreet enough not to reveal his sources, you know,  
 having  
 (14) known him for a while  
 (15) Q Mr Day the Exxon Valdez when it left San Francisco Bay  
 (16) how many days behind schedule was it do you know?  
 (17) A My recollection is that they sailed on Saturday, whatever  
 (18) day that was, probably the 18th somewhere in there and  
 that  
 (19) they were probably - had they not been experiencing these  
 (20) turbocharger problems probably could have left possibly I  
 (21) think the 14th so it was probably four days  
 (22) Q You believe they were four days behind schedule?  
 (23) A Yeah four or five best I can recall  
 (24) Q Were you aware of a telex that Captain Martineau had sent  
 (25) down during the week prior to the grounding warning of the ice

Vol 15 2205

- (1) conditions and advising only daylight transit?  
 (2) A I believe I did hear that telex yes  
 (3) Q You believe you heard about that telex?  
 (4) A Yes I can't - I'm not sure whether I heard about it when  
 (5) it came in or after the grounding There was an awful lot of  
 (6) talk about that telex after the grounding, I'm sure you can  
 (7) imagine  
 (8) Q And was there any discussion as to why that - the  
 (9) information in that telex had not been conveyed to the Exxon  
 (10) Valdez prior to the grounding?  
 (11) A I didn't - I wasn't aware that was the case I'm not sure  
 (12) what kind of distribution it received  
 (13) Q You had no knowledge that that information was in fact  
 (14) conveyed to the Exxon Valdez prior to the grounding is that  
 (15) correct?  
 (16) A That's correct  
 (17) Q And as you sit here today do you have any sort of  
 (18) understanding at all as to what happened to that telex when it  
 (19) came in the week before the grounding?  
 (20) A I don't have any specific knowledge of what happened to  
 (21) that specific telex I can tell you how the normal telex  
 (22) routing in that office worked, if that's helpful  
 (23) Q How does it typically work Mr Day?  
 (24) A There's a central kind of a telex file room where there's  
 (25) a copy machine a telex machine and files that are used by

Vol 15 2206

- (1) everyone in the office So the messages come in and  
 they're  
 (2) printed out on a long sheet that the secretaries would tear  
 (3) off And then each individual had a box you know, all the  
 (4) ship group coordinators, such as Paul Myers myself, the  
 repair  
 (5) people Harvey Borgen and then depending on the vessel  
 that  
 (6) the message came from or - or what the nature of the  
 message  
 (7) was, the message would then be put in the appropriate  
 person's  
 (8) box and they would - when they came in in the morning or a  
 (9) couple times a day wander through and pick up the  
 messages that  
 (10) were in there  
 (11) Q Were there discussions any time the week before the  
 (12) grounding regarding limiting transit in and out of Valdez to  
 (13) daylight transit?  
 (14) A Not that I'm aware of, no  
 (15) Q Typically would that be something that you would be  
 (16) involved in or not?  
 (17) A No I was primarily mechanical type you know, taking  
 (18) after - looking after the repair of the vessels the  
 (19) navigation aspects would be handled probably by the  
 agency  
 (20) group and the SGCs with maybe Harvey Wouldn't have  
 involved  
 (21) the repair group  
 (22) Q Would that typically involve Mr Borgen and people like  
 (23) Mr Myers?  
 (24) A Yes  
 (25) Q They'd be involved in discussions like that?

Vol 15 2207

- (1) A Yes  
 (2) Q Now did Exxon Shipping Company management ever do  
 anything  
 (3) to encourage reporting violations of the alcohol policy?  
 (4) A Not that I'm aware of  
 (5) Q You believe it's realistic to expect a junior officer  
 (6) someone like yourself to report violations of the alcohol  
 (7) policy to superior officers? Are you aware of anyone else  
 (8) Mr Day other than you any junior officer ever reporting  
 (9) violations of a senior officer?  
 (10) A No, not that I'm aware of  
 (11) Q Now you testified earlier today that you had no knowledge  
 (12) that Hazelwood was monitored regarding his use of alcohol  
 Do  
 (13) you remember that testimony?  
 (14) A Yes  
 (15) Q Okay  
 (16) A Up until the time of the grounding and everything became  
 (17) public and there was a lot of public -  
 (18) Q Well are you aware of Captain Hazelwood being treated  
 (19) differently in any way by Exxon Shipping Company  
 management?  
 (20) A Up to the time of the grounding?  
 (21) Q Yes  
 (22) A Not that I could discern  
 (23) Q The contention that Captain Hazelwood was the most closely  
 (24) monitored man in the fleet do you have any information or any  
 (25) evidence that would support that contention?

Vol 15 2208

- (1) A The only thing I think I could add on that is that  
 (2) Mr Myers who is the SGC for the Exxon Valdez was very  
 (3) diligent in visiting the vessel He was - of the SGCs that I  
 (4) saw work in that office spent much more time on the ships  
 (5) talking to the people What he was doing there I really  
 (6) couldn't, you know, couldn't say  
 (7) Q How long was Hazelwood in Portland during April and May  
 (8) of  
 (9) 1988?  
 (10) A I really - I'm not aware of when he joined the vessel I  
 (11) know when I arrived on the second or third day of May, he  
 (12) was  
 (13) there as captain  
 (14) Q Okay And how long did he remain before you went back?  
 (15) A He sailed with the vessel In the first voyage I  
 (16) believe  
 (17) Q So how long a period of time would that have been that he  
 (18) was there and you were there before he sailed?  
 (19) A Probably 20 days 18 days somewhere in there  
 (20) Q And during that 18 to 20 days you had daily contact with  
 (21) Hazelwood did you?  
 (22) A Yes for the most part  
 (23) Q Okay And you're saying that no one ever told you to  
 (24) monitor or check on his drinking during that period of time is  
 (25) that true?  
 (26) A That's correct  
 (27) Q Did Harvey Borgen ever come to the Portland shipyard  
 (28) during

Vol 15 2209

- (1) that 18 to 20 day period of time?  
 (2) A No not in the period I was there no  
 (3) Q Did Paul Myers?  
 (4) A No  
 (5) Q My question is you had - in March of '88 it was your  
 (6) belief that Hazelwood had stopped drinking is that right?  
 (7) A Yes  
 (8) Q And after either the incident in May of '88 or Mary  
 (9) Williamson's report a week before the grounding did you  
 (10) consider the fact that Hazelwood had relapsed and he'd started  
 (11) drinking again?  
 (12) A I thought that might be a possibility, yes  
 (13) Q That's why you reported it to Exxon Shipping Company  
 (14) management true?  
 (15) A The way I put it earlier was that I reported the  
 (16) information to Paul Myers because I felt as - as his  
 (17) supervisor, he should be aware of - of this information I  
 (18) believe that's the way I put it Certainly as his supervisor  
 (19) hopefully he had a lot more information about this  
 (20) individual  
 (21) than I did I didn't know Joe Hazelwood very well and he  
 (22) could  
 (23) draw those conclusions as to what that information - what  
 (24) you  
 (25) know, what that meant to him or to his - in his job as his  
 (26) supervisor more than myself As I said, I felt that could  
 (27) have  
 (28) been a possibility  
 (29) Q Okay And it was on each occasion when you went to Paul

Vol 15 2210

- (1) Myers it was your hope or your belief that Mr Myers was going  
 (2) to act on your report and do something true?  
 (3) A Yes he - you know, I passed the information to him so  
 (4) that he could take that information into account in  
 (5) supervising  
 (6) this individual however he chose to do it  
 (7) Q Mr Myers Paul Myers in March of 1989 when you made that  
 (8) report to him the Exxon Valdez was still sitting there in San  
 (9) Francisco Bay wasn't it?  
 (10) A That's correct  
 (11) Q It hadn't taken off?  
 (12) A That's correct  
 (13) Q How many days did it continue to sit there before it took  
 (14) off?  
 (15) A I believe I told him on Wednesday afternoon, ship sailed  
 (16) Saturday  
 (17) Q So it sat there for what three or four days?  
 (18) A At least two full days, yeah  
 (19) Q Okay And had Mr Myers chosen to remove Hazelwood as  
 (20) master he had at least two or three days to do that didn't  
 (21) he?  
 (22) A Yes  
 (23) MR O NEILL That concludes our examination  
 (24) MS STEWART Your Honor defendants would like to  
 (25) present Mr Day's cross-examination by videotape  
 (26) CROSS EXAMINATION OF STEVEN DAY (Video)

Vol 15 2211

- (1) BY VIDEO EXAMINER  
 (2) Q From November of '84 when you first were hired by Exxon  
 (3) Shipping Company until the present have you been informed  
 (4) of  
 (5) the existence of an alcohol policy that the company had?  
 (6) A Yes  
 (7) Q When did you first become aware of that alcohol policy?  
 (8) A I believe it - as best I can recall it was possibly  
 (9) during the interview process for employment which took  
 (10) place  
 (11) in August of '84 August September  
 (12) Q So on those occasions that you were informed of the alcohol  
 (13) policy as we previously discussed you also were informed that  
 (14) if someone went through rehabilitation that would be kept  
 (15) confidential?  
 (16) A Yes I believe that was my understanding of it  
 (17) Q Do you recall specifically any names of people who told you  
 (18) that rehabilitation would be confidential?  
 (19) A No  
 (20) Q You had mentioned previously that the policy was posted on  
 (21) some of the vessels if not all of the vessels you were on  
 (22) Was the confidentiality of rehab an element that was also in  
 (23) this posting?  
 (24) A As I recall it, yes, it was part of the policy  
 (25) Q Do you recall specifically what was to be kept  
 (26) confidential?  
 (27) A My understanding was that the person's identity and any

Vol 15 2212

- (1) details of their problem would be completely confidential
- (2) Q Did anyone ever inform you as to why that information was kept confidential?
- (3) A I don't recall anyone specifically informing me My understanding was that it was personal in nature and wasn't to be - wasn't company information to be distributed
- (4) Q So from the time of your initial interview up to - we re in March of '88 or 1988 period now - your understanding of part of the Exxon Shipping Company alcohol policy was that alcohol or drug use was considered an illness?
- (5) A I think they used the word "problem"
- (6) Q Were you informed during that time frame as to how Exxon Shipping Company would treat that illness?
- (7) A Yes I'm not sure where I was informed or how My understanding was that the person would be treated for their illness and with the idea that they could then return to their normal position with the company after being treated -
- (8) Q Okay
- (9) A - on the job
- (10) Q Was there any discussion as to how a person with an alcohol problem would be identified?
- (11) A Not that I can recall You were encouraged to kind of identify yourself You know that was one of the parts of the program was to come forward we'll help you and we'll return you you know back to the work place in a better condition

Vol 15 2213

- (1) MS STEWART The next part of this examination is going to deal with Mr Day's previous testimony regarding the radio message he heard in Portland shipyard
- (2) Q Mr Day do you understand my - Mr Day do you understand my question -
- (3) A Just -
- (4) Q - that the ordering of the beer for possession aboard the vessel do you believe that that violated company policy subject to the objection?
- (5) A What type of policy? Drug and alcohol policy or -
- (6) Q Yes sir
- (7) A Just normal operating policy
- (8) Q Let's start with drug and alcohol policy
- (9) A My opinion just ordering it, having it - having it not physically be aboard or be brought aboard I would say no it wouldn't violate the drug and alcohol policy
- (10) Q Okay If the -
- (11) A As I understood it in other words as I understood then
- (12) Q If the alcohol had in fact been brought aboard pursuant to Captain Hazelwood ordering it over the radio would that have violated company policy alcohol policy?
- (13) A I'm not - I'm not sure that that would either because it had not been consumed you know on the vessel Maybe it was going to be taken back to an apartment or something after work or something So my opinion on that would also be no at least

Vol 15 2214

- (1) my opinion or my understanding of it
- (2) Q Who else was aboard the vessel on a regular basis during that time frame? And just so I'm clear you first came onto the scene on May 2nd 1988 is that right?
- (3) A Approximately, 2nd or 3rd
- (4) Q And you believe this incident happened within the first seven days - seven to ten days?
- (5) UNIDENTIFIED SPEAKER What incident? His discovery of the empty beer bottles?
- (6) VIDEO EXAMINER Correct
- (7) THE WITNESS It was sometime between the time I arrived and the walkie talkie incident which was probably the second weekend I was there
- (8) BY VIDEO EXAMINER
- (9) Q Okay
- (10) A So sometime in that time period
- (11) Q During that time frame do you recall who else was aboard the Exxon Valdez on a regular basis?
- (12) A Assigned Exxon employees?
- (13) Q Yes sir
- (14) A The chief engineer was Chuck Kuntus, chief mate was George Dowdle There were other personnel on our repair team, shipping company employees and contract employees Jack King was the repair superintendent Dave Ian was a contract coating professional who was overseeing the - overseeing the paint

Vol 15 2215

- (1) application Bob Kaneely (ph) was a machinery contract inspector also not a shipping company employee Nathan Carr
- (2) was the second mate I didn't see too much of him, he was on swing shift
- (3) That's - that's about all I can remember at the moment that - you know, crew that were assigned and repair people
- (4) UNIDENTIFIED SPEAKER Excuse me did you mean to exclude the yard workers themselves? I mean how many of the yard workers were on board?
- (5) BY VIDEO EXAMINER
- (6) Q No I didn't mean to
- (7) A Oh, okay At any time during the repair there were probably working at least two shifts, 50 to 100 yard workers both on day shift and evenings It might end up being, you know 75 on days 50 on nights They tend to slow down a little bit at night
- (8) MS STEWART Your Honor that concludes defendants cross examination of Mr Day
- (9) THE COURT Call your next witness
- (10) MR JAMIN Your Honor at this time the plaintiffs would call Ronald Lunt to testify
- (11) THE CLERK Raise your right hand please sir
- (12) (The Witness Is Sworn)
- (13) THE CLERK Please be seated for the record sir
- (14) State your full name Give us your address and spell your last

Vol 15 2216

- (1) name please  
 (2) **THE WITNESS** Ronald Scott Lunt 155 Gulkana Street  
 (3) Valdez Alaska L U N T  
 (4) **THE CLERK** Thank you  
 (5) **DIRECT EXAMINATION OF RONALD SCOTT LUNT**  
 (6) **BY MR JAMIN**  
 (7) Q Mr Lunt when and where were you born sir?  
 (8) A I was born in Topeka Kansas, October 22 1959  
 (9) Q How old are you now?  
 (10) A 34  
 (11) Q And where did you live as a kid?  
 (12) A We bounced around quite a bit My father was in the Air Force  
 (13) **Force**  
 (14) Q How about high school where did you go?  
 (15) A I attended Meade High School in Spokane Washington  
 (16) Q When did you graduate sir?  
 (17) A 1978  
 (18) Q And when did you move to Alaska?  
 (19) A I believe it was in '82  
 (20) Q All right And where have you lived here in Alaska?  
 (21) A Spent the whole time in Valdez  
 (22) Q Are you married sir?  
 (23) A Yes, I am  
 (24) Q Have children?  
 (25) A Three

Vol 15 2217

- (1) Q How old are they?  
 (2) A Ten six and two  
 (3) Q What sort of work have you been involved with since you've been up here in Alaska and Valdez specifically?  
 (4) A Specifically either been a cook or shipping agent  
 (5) Q Okay And for whom have you cooked?  
 (6) A Valdez City Schools and Harborview Developmental Center  
 (7) **Center**  
 (8) Q All right And are you currently at Harborview?  
 (9) A Yes I am  
 (10) Q What is that sir?  
 (11) A It's a state facility for people who are mentally impaired  
 (12) **impaired**  
 (13) Q And you serve as a cook there?  
 (14) A Yes  
 (15) Q All right Now was there a period that you worked for an outfit called Alamar?  
 (16) A Yes there was  
 (17) Q And is Alamar shorthand for something else?  
 (18) A It's short for Alaska Maritime Agencies  
 (19) **Agencies**  
 (20) Q And what was the period sir that you worked at Alamar?  
 (21) A It was - I can't remember the exact month but from '86 till - till the end of April about of '89  
 (22) **till - till the end of April about of '89**  
 (23) Q And what was Alamar's general purpose?  
 (24) A General purpose was to assist the ships and the captains who came into port that were hired by their companies  
 (25) **companies**

Vol 15 2218

- (1) Q All right And were these the ships and captains that were in the Valdez crude trade?  
 (2) A Yes  
 (3) **Yes**  
 (4) Q And the vessels would come up with ballast and leave Valdez with crude?  
 (5) A Correct  
 (6) **Correct**  
 (7) Q Now within Alamar was there a particular person who was the boss?  
 (8) A Yes Bob Arts was the manager of the officers  
 (9) **managers**  
 (10) Q How many employees were there?  
 (11) A Six total  
 (12) **Six total**  
 (13) Q And what was your - what was your job title if you had one?  
 (14) A I was titled an operations agent  
 (15) **agent**  
 (16) Q How many operations agents were there?  
 (17) A There were four of us  
 (18) Q So if Mr Arts is the boss and there's four agents what were the other two people?  
 (19) A Secretaries  
 (20) **Secretaries**  
 (21) Q All right Now as an agent what kind of workday would you have? What kind of workweek would you have?  
 (22) A Basically depended on which type of ships we had coming  
 (23) **coming**  
 (24) in Normal day would be a couple three ships in port If there weren't any requests from the captains or generally it was just maybe somebody to the doctor or securing stores for

Vol 15 2219

- (1) the steward's department or basically like that would be a basic day  
 (2) **basic day**  
 (3) Q All right So would it be fair to say you were a support person for the vessels as they came in?  
 (4) A That would be a good description  
 (5) **description**  
 (6) Q All right Would you meet ships when they docked sir?  
 (7) A Yes  
 (8) Q Was that part of the job?  
 (9) A Yes Every time one of our ships came in, we'd meet them  
 (10) **them**  
 (11) as soon as they got gangway on board  
 (12) Q All right Were you there shortly prior to their departure as well?  
 (13) A Yes We'd come on board and get any last minute mail that had to come off and collect copies of oil reports from the gaugers  
 (14) **gaugers**  
 (15) Q I think we've talked a little bit about ullage reports but that's how much room is left in the vessel after it's filled up with oil?  
 (16) A Well, how much is left and how much crude oil is actually in each particular tank  
 (17) **in each particular tank**  
 (18) Q All right Now was - was Exxon one of Alamar's clients?  
 (19) A Exxon was the largest principal Alamar had  
 (20) **largest principal Alamar had**  
 (21) Q So you would deal with the various Exxon vessels as they came into port?  
 (22) A Correct  
 (23) **Correct**

Vol 15 2220

- (1) Q During the course of your work at Alamar did you come to  
 (2) meet Joe Hazelwood?  
 (3) A Yes  
 (4) Q All right And can you estimate for us how many times you  
 (5) might have interacted with Mr Hazelwood during that period  
 (6) that you were at Alamar?  
 (7) A I'd estimate 15 times maybe  
 (8) Q All right Now this may seem a little strange but how do  
 (9) you know you were interacting with Joe Hazelwood? How do  
 you  
 (10) know it was Joe?  
 (11) A He was the captain of the ship That was who I dealt with  
 (12) when I went on board, or he was the first person I'd go see  
 (13) Q All right So as I asked you some questions about Joe  
 (14) Hazelwood you re sure it was Joe when you re talking about?  
 (15) A Yes  
 (16) Q All right Now did you have an opportunity sir to go to  
 (17) Mr Hazelwood's cabin at all?  
 (18) A When you say exactly his cabin his office was outside of  
 (19) his cabin and that's where we would conduct business  
 (20) Q So you had an opportunity to go to the office part of his  
 (21) suite then?  
 (22) A Yes  
 (23) Q All right And what brought you there sir?  
 (24) A Oh, Exxon shipped all their mail to our office for the crew  
 (25) members and whatnot, and we'd always take that on board  
 And

Vol 15 2221

- (1) then I'd sit down with the captain and discuss any  
 requirements  
 (2) he had of myself or our office when the ship was in port  
 (3) Q So you actually got to know him a bit?  
 (4) A Yes  
 (5) Q Let me talk just a bit about your responsibilities if any  
 (6) at Alamar for crew people Would you - and this is with  
 (7) respect to the Valdez your time in Valdez and talking about  
 (8) crew members from the vessels  
 (9) Would you on occasion take crew members to bars?  
 (10) A Yes  
 (11) Q And on occasion would you pick crew members back up  
 from  
 (12) bars?  
 (13) A Yes  
 (14) Q And did you ever see crew members from Exxon vessels  
 return  
 (15) to ships noticeably drunk?  
 (16) A Yes  
 (17) Q And how could you tell sir?  
 (18) A Just - it was about a 15 20 minute ride from town to  
 (19) Alyeska and just being loud boisterous having fun or  
 (20) whatever I mean just a different attitude than when I  
 brought  
 (21) them to town  
 (22) Q All right And were those crew members that you found  
 (23) noticeably drunk or determined were noticeably drunk were  
 they  
 (24) able to get through the security gate at Alyeska?  
 (25) A Yes

Vol 15 2222

- (1) Q And were they able to walk back to the vessels?  
 (2) A Yes  
 (3) Q Now are you familiar with how one had to go from shore  
 (4) over some sort of apparatus to get to the vessel?  
 (5) A Yes  
 (6) Q All right Was there a name for that sir?  
 (7) A Oh there's four berths there and each one had a  
 walkway  
 (8) down to the ship And then there was a gangway once you  
 got to  
 (9) the end of the - end of the berth onto the ship  
 (10) Q So gangway is the right word then?  
 (11) A Yes  
 (12) Q All right And were these men that you had seen as  
 (13) noticeably drunk able to make it over the gangway?  
 (14) A Yes  
 (15) Q Did you ever see anyone actually pass out once they had  
 (16) gone through security?  
 (17) A Yeah, one - one time, but it was not a - an Exxon  
 (18) employee  
 (19) Q Not an Exxon employee but that person had been able to  
 get  
 (20) through security?  
 (21) A Yes  
 (22) Q Let's just talk about some of your contacts with Captain  
 (23) Hazelwood What sorts of contacts would you have with the  
 (24) captain? What kinds of things would you do?  
 (25) A Oh I'd go on board like I said, and deliver the mail and

Vol 15 2223

- (1) usually - or most of the time, if it was still business hours  
 (2) in town, he'd ask for a ride to town And a couple of the  
 crew  
 (3) members would come and I'd drop them off downtown and  
 more  
 (4) times than not, we'd set up a range of time for me to pick  
 them  
 (5) back up take them back to the ship after a few hours  
 (6) Q All right Were there particular locations to which they  
 (7) were dropped off when you would bring them downtown?  
 (8) A Yeah I'd say most of the time it was either in the  
 (9) parking lot of the Pipeline Club or the parking lot of the  
 (10) grocery store directly across the street from there  
 (11) Q All right And were you also involved in picking up when  
 (12) vessels would leave?  
 (13) A Yes  
 (14) Q All right And from where if there was a normal place  
 (15) from where would you pick him up sir?  
 (16) A Best I can recall, it was either at the Pipeline Club or  
 (17) there's another business in town called The Pizza Club  
 where  
 (18) sometimes they'd pick up pizzas for the crew members and  
 take  
 (19) them back  
 (20) Q All right And on such occasions when you were picking  
 (21) Captain Hazelwood up to return him to the vessel did you ever  
 (22) go actually into the bar to pick him up?  
 (23) A Yes  
 (24) Q And can you explain how that would happen?  
 (25) A Well, like I stated earlier, we'd just arrange a time for

Vol 15 2224

- (1) me to pick him up and I'd just pull up go in and see if he  
 (2) was ready to go  
 (3) Q All right And were there times when he would tell you  
 (4) that he wanted you to pick him up at a certain time at a bar?  
 (5) A Yeah  
 (6) Q All right Now did you ever actually see Joe Hazelwood  
 (7) drinking alcoholic beverages in Valdez?  
 (8) A Yes  
 (9) Q And can you explain the circumstances as to how you would  
 (10) see that?  
 (11) A Well I'd just locate him inside the bar and walk up to  
 (12) him whether he's sitting at a table or at the bar and ask him  
 (13) if he was ready to go  
 (14) Q All right Now how do you know that it was alcohol that  
 (15) he was drinking sir?  
 (16) A Well I don't know for a fact but just - like I say I've  
 (17) lived there for 12 years and frequented the Pipeline Club,  
 (18) seen  
 (19) what's called like a rocks glass in front of him and I just  
 (20) assumed that that's what was in the glass  
 (21) Q How many times do you think that you saw Joe Hazelwood  
 (22) drinking in these circumstances where you'd pick him up before  
 (23) he went back to the vessel?  
 (24) A Four or five maybe  
 (25) Q And can you estimate how many times that you picked up  
 (26) Mr Hazelwood from the Pipeline Club to bring him back to the

Vol 15 2225

- (1) vessel during this period?  
 (2) A I thought that was what you just asked, four or five times  
 (3) I mean  
 (4) Q Okay Now would you also get other materials to bring  
 (5) back to the vessel at Mr Hazelwood's request?  
 (6) A Yes  
 (7) Q What sorts of things were they?  
 (8) A Oh what sticks out most in my mind is during the summer  
 (9) months we would get fresh seafood that was available in  
 (10) town  
 (11) and take that back on board  
 (12) Q And were there other stores you'd bring back as well?  
 (13) A Occasionally they'd run out of bacon or something like  
 (14) that  
 (15) Q Now during the period prior to the shipwreck do you know  
 (16) whether it was possible to bring alcoholic beverages through  
 (17) the Alyeska security gate?  
 (18) A Yes, it was possible  
 (19) Q And how do you know that sir?  
 (20) A I've seen it happen  
 (21) Q What were the circumstances?  
 (22) A Guys I'd take back they had arrived would have a bottle  
 (23) on them and they would just put it inside a - inside coat  
 (24) pocket or put it in a boot or something and just hide it from  
 (25) the security people  
 (26) Q Now other than the crews of the vessels - and I want to

Vol 15 2226

- (1) focus exclusively on Exxon right now Exxon vessels other than  
 (2) the crews of the vessels by which I mean the masters and the  
 (3) mates and the seamen the engineers the radio people the  
 (4) crew did you ever see other Exxon people from shore side  
 (5) management in Valdez?  
 (6) A There was only one occasion that I can remember where  
 (7) a  
 (8) couple of people came up that were interested in the  
 (9) steward's  
 (10) department They stayed in town for two or three days and  
 (11) boarded several ships to check out their facilities in the  
 (12) kitchen  
 (13) Q All right Besides them did you see any other Exxon  
 (14) management in Valdez?  
 (15) A No  
 (16) Q All right Were you ever aware that there was any program  
 (17) to monitor or keep an eye on Joseph Hazelwood while he was in  
 (18) Valdez?  
 (19) A Not to my knowledge, there wasn't  
 (20) Q All right Now did you have contacts other than in person  
 (21) with Exxon people on a regular basis?  
 (22) A Pardon?  
 (23) Q Did you have contacts other than personal contacts where  
 (24) you would actually interact with someone and other than crew  
 (25) with shore side management?  
 (26) A Strictly through telephone conversations yes  
 (27) Q And what was the nature of those telephone conversations?

Vol 15 2227

- (1) A Generally it was due to a sick crew member who was  
 (2) unfit  
 (3) for duty or if there was an emergency to get somebody off  
 (4) the  
 (5) ship or somebody that was meeting the ship in Valdez  
 (6) Q And how often would you - would you have these contacts  
 (7) or perhaps how many contacts did you have over the time that  
 (8) you were in Valdez?  
 (9) A Several hundred times maybe I'd talk to somebody in  
 (10) Benecia  
 (11) Q In Benecia sir?  
 (12) A Yeah  
 (13) Q And did you understand that was near San Francisco and it  
 (14) was the west coast office?  
 (15) A Right west coast fleet office  
 (16) Q During those conversations did anyone ever ask you to keep  
 (17) an eye on Joseph Hazelwood and/or his drinking?  
 (18) A Never  
 (19) Q Did Hazelwood have a reputation among Alamar people for  
 (20) being a sailor who liked to drink?  
 (21) A Most of them  
 (22) MR CHALOS Your Honor I object Hearsay  
 (23) MR JAMIN I think Your Honor it's relevant as to  
 (24) whether or not it would have been possible to monitor Joseph  
 (25) Hazelwood and if Exxon was interested what they would have  
 (26) found out if they explored it for drinking in Valdez  
 (27) THE COURT I'll allow the testimony as to

Vol 15 2228

- (1) reputation  
 (2) MR JAMIN Sir let me repeat the question as I  
 (3) recognize that may be a little bit disquieting  
 (4) BY MR JAMIN  
 (5) Q Did Joseph Hazelwood have a reputation among Alamar  
 people  
 (6) as a sailor who liked to drink?  
 (7) A Yes  
 (8) MR JAMIN I have nothing further  
 (9) Thank you Your Honor  
 (10) CROSS EXAMINATION OF RONALD SCOTT LUNT  
 (11) BY MR NEAL  
 (12) Q Mr Lunt I'm Jim Neal I don't think we've ever met  
 (13) A No we haven't  
 (14) Q Is that right?  
 (15) A That's correct  
 (16) Q Although I have asked somebody to interview you Do you  
 (17) know a Mr Brian Dougherty (ph)?  
 (18) A Yes, I spoke with him, to him on the phone two times  
 (19) Q And he talked to you about asking you about your proposed  
 (20) testimony here?  
 (21) A Correct  
 (22) Q Was he polite to you?  
 (23) A Yes sir  
 (24) Q Did he try to intimidate you in any way?  
 (25) A No sir

Vol 15 2229

- (1) Q He simply asked you to tell him what you knew about this  
 (2) matter correct?  
 (3) A Correct  
 (4) Q Now then you said you interacted with Captain Hazelwood  
 (5) some 15 times am I correct about that?  
 (6) A Yes  
 (7) Q I would assume that when you - when you say interaction  
 (8) you mean when he'd come in on a trip you'd interact with him  
 (9) is that one interaction?  
 (10) A Yes  
 (11) Q When did these interactions start?  
 (12) A I couldn't give you an exact date  
 (13) Q Well to make it 15 trips it would have to start back in  
 (14) what '86 I guess would it not?  
 (15) A '80 - I - I don't know When I say 15 times I'm saying  
 (16) maybe they were in port seven times then I interacted with  
 (17) him when the ship came in and then I interacted with him  
 (18) when the ship sailed  
 (19) Q You call that - then that's two separate occasions?  
 (20) A Two separate ones yes  
 (21) Q So it would be - when you say 15 interactions you're  
 (22) talking about that would be seven voyages?  
 (23) A Yes  
 (24) Q When did these voyages start do you know?  
 (25) A I have no idea

Vol 15 2230

- (1) Q As a matter of fact you're pretty foggy about the times  
 (2) are you not?  
 (3) A I couldn't give you consistent dates on when any ship  
 came  
 (4) to port  
 (5) Q Could you give us even the year of these events?  
 (6) A Just between my time of employment  
 (7) Q Which was when in '86?  
 (8) A I couldn't give you the exact date then either  
 (9) Q Well could you tell me was it winter spring, fall or  
 (10) summer when you started work there?  
 (11) A I couldn't tell you for sure  
 (12) Q You couldn't even tell me the period the season of the  
 (13) year?  
 (14) A No  
 (15) Q You couldn't tell me whether it was the last half of '86  
 (16) you started working there or the first half of '86?  
 (17) A I'll say it was the first half of '86  
 (18) Q First half of '86 okay Let's say - can you tell me  
 (19) whether it was between January the 1st and March 31st?  
 (20) A No, I couldn't  
 (21) Q Well was it between March 31st and June the 30th?  
 (22) A It was between January and July, is about as close as I  
 can  
 (23) get  
 (24) Q Between January - okay Between January and July, you  
 (25) started working at Alamar is that correct?

Vol 15 2231

- (1) A I believe so  
 (2) Q And that's the best you can tell us?  
 (3) A Yes  
 (4) Q All right And how long was it after that that you  
 (5) interacted as you say with Captain Hazelwood?  
 (6) A I couldn't even come close to telling you  
 (7) Q Well was it a month?  
 (8) A I couldn't even come close to telling you  
 (9) Q Was it two months?  
 (10) A I couldn't even come close to telling you a date on the  
 (11) first time I saw Captain Hazelwood  
 (12) MR JAMIN Your Honor I object to continuing  
 (13) questions I think they've been asked and answered  
 (14) MR NEAL Your Honor this is cross examination  
 (15) THE COURT You may proceed Mr Neal  
 (16) BY MR NEAL  
 (17) Q Let's say you went there in sometime between January of '86  
 (18) and - and the first of July of '87 okay?  
 (19) A That I met Captain Hazelwood?  
 (20) Q Well no I was going to say - I was going to say you've  
 (21) placed your time of going to work for Alamar as sometime  
 (22) between January 1 '86 and July 1 - July 1 '86 am I  
 (23) correct?  
 (24) A Yeah  
 (25) Q Okay Now then would it have been six months before you

Vol 15 2232

- (1) met Captain Hazelwood?  
 (2) A I have no idea  
 (3) Q Would it have been a year before you met Captain Hazelwood?  
 (4) A I have no idea It's like asking me eight years from now  
 (5) when I met you I couldn't remember  
 (6) Q Well truth of the matter is you don't know whether you  
 (7) met Captain Hazelwood in the first half of '86 the first half  
 (8) of '87 the second half of '87 is that correct?  
 (9) A That's correct  
 (10) Q Or the first half of '88 or the first half of '89?  
 (11) A Like I said I could not give you an exact date of when I  
 (12) met Captain Hazelwood for the first time  
 (13) Q Isn't it a fact Mr Lunt that - let me - let's ask this  
 (14) right away Do you remember the trip that resulted in the  
 (15) grounding?  
 (16) A Do I remember the trip?  
 (17) Q Yes sir  
 (18) A No I don't I was on vacation at the time of the  
 (19) grounding  
 (20) Q Okay You do remember it was in '89 don't you?  
 (21) A Yes  
 (22) Q You weren't in Valdez - you weren't in Valdez around the  
 (23) grounding trip were you?  
 (24) A No I was in Washington State  
 (25) Q So how long were you in Washington State?

Vol 15 2233

- (1) A It was maybe ten days, thereabouts Couple days either  
 (2) way  
 (3) Q When did you come back to Valdez?  
 (4) A I believe I got back two days after the spill had  
 (5) occurred  
 (6) Q Okay All right So you had been - you were out of  
 (7) Valdez from eight days before the spill occurred and you didn't  
 (8) get back until after the spill occurred is that correct?  
 (9) A That's correct  
 (10) Q Mr Lunt how many other companies did you work for as an  
 (11) agent during this period of time?  
 (12) A There was only one other maritime outfit I worked for  
 (13) That was Valdez maritime, and that's - I believe I started in  
 (14) about November of '89 there  
 (15) Q Mr Lunt you would never take an Exxon captain or officer  
 (16) back to the vessel just before sailing time would you?  
 (17) A There was a couple of occasions where that occurred  
 (18) Q How often - how soon before sailing time did you take an  
 (19) Exxon captain master or officer back to the vessel?  
 (20) A It just depended on when the ship sailed If it sailed at  
 (21) noon in the daytime sometimes they'd come into port that  
 (22) morning for an hour or two make some calls and go back  
 (23) Q My question was when prior to sailing When was the  
 (24) latest prior to sailing that you ever took a master or an  
 (25) officer of Exxon back to the vessel?

Vol 15 2234

- (1) A Maybe an hour before sailing time  
 (2) Q You're sure of that?  
 (3) A Yes  
 (4) Q All right Would you ever take Captain Hazelwood back that  
 (5) late?  
 (6) A There could have been an occasion I did  
 (7) Q Do you remember being interviewed by Mr Dougherty and  
 (8) being asked how late it was or how - how soon before sailing  
 (9) you ever took an Exxon captain or officer back to the vessel?  
 (10) A Yes  
 (11) Q Let me say one that you say had been drinking?  
 (12) A Pardon me?  
 (13) Q One that had been drinking?  
 (14) A No I couldn't - I don't think I could ever say I ever  
 (15) took one back an hour before sailing that was drinking  
 (16) Q So when you're saying you took them back an hour - as  
 (17) much  
 (18) as or as late as an hour before sailing it would be one that  
 (19) hadn't been drinking is that correct?  
 (20) A That's correct  
 (21) Q All right Let's say you said that some of them would be  
 (22) drinking How soon before sailing did you ever take one of  
 (23) those people back to an Exxon vessel?  
 (24) A Any of the captains that I'd ever picked up in a bar that  
 (25) were - had a beer or drink in front of them I don't think I  
 (26) ever took one back that way - well I know I never took one

Vol 15 2235

- (1) back just prior to sailing  
 (2) Q How far - how soon prior to sailing?  
 (3) A Oh that's tough to say I'd say on the average from  
 (4) anywhere from eight to 12 hours  
 (5) Q In each case if somebody'd been drinking right?  
 (6) A Yes  
 (7) Q Now did you ever see Captain Hazelwood take any liquor  
 (8) aboard a vessel?  
 (9) A Never  
 (10) Q Did you ever see any Exxon master or officer take any  
 (11) liquor aboard a vessel?  
 (12) A Never  
 (13) Q As a matter of fact you were being paid by a company that  
 (14) was being paid for efforts by Exxon weren't you?  
 (15) A Correct  
 (16) Q All right And you were aware Mr Lunt that Exxon had a  
 (17) very rigid alcohol policy weren't you?  
 (18) A On board yes  
 (19) Q As a matter of fact you were aware at the time that Exxon  
 (20) absolutely prohibited the - the possession or drinking of  
 (21) alcoholic beverages aboard one of its vessels weren't you?  
 (22) A On board their ships yes  
 (23) Q Did you ever see then an officer master officer or a  
 (24) member of the crew of Exxon take any alcoholic beverages  
 (25) aboard  
 (26) vessel?

Vol 15 2236

- (1) A Not on board no  
 (2) Q Did you ever see them - well now wait a minute Did you  
 (3) ever see them heading back towards the vessel and take  
 anything  
 (4) through security?  
 (5) A I've seen crew members do it before, yes  
 (6) Q Exxon crew members?  
 (7) A I can't exactly say that, but as many times as I've seen it  
 (8) happen, I'd have to say there was a time when an Exxon  
 crew  
 (9) member did, yes  
 (10) Q I see You've seen others you're sure of but because  
 (11) you've seen others employed by other companies you've seen  
 a  
 (12) lot of that, right?  
 (13) A Right  
 (14) Q You're assuming because you've seen so much of that some  
 of  
 (15) it must have been Exxon crew members is that correct?  
 (16) A Seeing how those were most of the ships we handled  
 were  
 (17) Exxon, yes  
 (18) Q So you're saying that you did see Exxon crew members take  
 (19) alcoholic beverages through security headed to the vessel  
 (20) right?  
 (21) A Correct  
 (22) Q Did you ever - and you were aware of the alcohol policy  
 (23) right?  
 (24) A Yes  
 (25) Q And you were being paid by Exxon is that correct?

Vol 15 2237

- (1) A Correct  
 (2) Q Did you ever report that to anybody at Exxon?  
 (3) A At Exxon, no  
 (4) Q Now as I understand your testimony then you would have  
 (5) seen Captain Hazelwood at the Pipeline Club on four or five  
 (6) occasions between whenever you started the work and March  
 of  
 (7) 89 is that correct?  
 (8) A Correct  
 (9) Q And in none of those - and you don't know whether that was  
 (10) 86 87 or 88?  
 (11) A Not a clue  
 (12) Q But it was four or five times during all those years  
 (13) correct?  
 (14) A Correct  
 (15) Q And in each and every occasion when you've taken him back  
 to  
 (16) the vessel it was many hours before sailing time?  
 (17) A Yes nine times out of ten definitely  
 (18) Q Pardon me?  
 (19) A Nine times out of ten yes  
 (20) Q Wait a minute What do you mean nine times out of ten?  
 (21) Was it nine times out of ten or ten times out of ten?  
 (22) A Well I can remember one occasion taking the captain  
 back  
 (23) on board at sailing time gathering mail and getting the  
 ullage  
 (24) report and leaving  
 (25) Q Was that an occasion when you picked him up at the Pipeline

Vol 15 2238

- (1) Club?  
 (2) A No, it wasn't  
 (3) Q Oh where did you pick him up?  
 (4) A I believe on that occasion we were dealing with a sick or  
 (5) injured crew member  
 (6) Q A sick or an injured crew member?  
 (7) A Right  
 (8) Q As a matter of fact on that occasion he came in  
 (9) delivered the sick - or came in with the sick or injured crew  
 (10) member and turned around went back to the vessel isn't that  
 (11) correct?  
 (12) A Yeah I believe what he did was come to the office and  
 (13) spoke to somebody on the shore side about this matter, and  
 we  
 (14) returned to the ship  
 (15) Q And never went to the Pipeline Club or anything else?  
 (16) A No  
 (17) Q All right Let's leave that one alone At any other time  
 (18) when you picked up - that means there are three or four times  
 (19) then you picked him up at the Pipeline Club then right?  
 (20) A No, there's four or five times, I'd say, at the Pipeline  
 (21) Club  
 (22) Q Okay Let's say four or five times over these years  
 (23) A Um hum  
 (24) Q Any of those four or five times did you ever take him back  
 (25) to the vessel shortly before sailing?

Vol 15 2239

- (1) A No  
 (2) Q It was always a number of hours before sailing wasn't it?  
 (3) A Correct  
 (4) THE COURT Are we at a good stopping point  
 (5) Mr Neal?  
 (6) MR NEAL Sure Your Honor and that'll help me  
 (7) THE COURT We'll take our first recess ladies and  
 (8) gentlemen  
 (9) We'll be in recess for 15 minutes  
 (10) (Jury out at 10:01 a.m.)  
 (11) (Jury in at 10:17 a.m.)  
 (12) THE CLERK All rise His Honor the Court this  
 (13) United States District Court is again in session  
 (14) Please be seated  
 (15) MR NEAL May I proceed Your Honor?  
 (16) BY MR NEAL  
 (17) Q Mr Lunt you talk about how foggy your memory is and I  
 (18) appreciate that Isn't it a fact - and you've talked about  
 (19) the four or five times that you may have picked up - or picked  
 (20) up Captain Hazelwood at the Pipeline Club and brought him  
 back  
 (21) to the vessel long before sailing time and these occurred  
 (22) between January 1 1986 and March of '89 is that a fair  
 (23) statement?  
 (24) A Yes it is  
 (25) Q All right Isn't it a fact that on these occasions when

Vol 15 2240

- (1) you picked up a -- an Exxon master or officer at the Pipeline Club and took them back to the vessel you don't know whether this was before January '88 or after January of '88?
- (4) **A That's correct**
- (5) **MR NEAL** Thank you Mr Lunt
- (6) **MR JAMIN** I have no redirect Your Honor
- (7) Thank you sir
- (8) **THE COURT** Thank you sir You may step down
- (9) Call your next witness
- (10) **MR MONTAGUE** Your Honor the plaintiffs call
- (11) **Dr Garrett O Connor** as an expert witness
- (12) **THE CLERK** Would you raise your right hand please
- (13) sir
- (14) **(The Witness Is Sworn)**
- (15) **THE CLERK** Please be seated For the record sir state your name give us your address and spell your last name please
- (16) **THE WITNESS** Garrett O Connor O C O N N O R 9100 South Sepulveda Boulevard Los Angeles California 90045
- (17) **THE CLERK** Thank you sir
- (18) **DIRECT EXAMINATION OF GARRETT O CONNOR M D (Live)**
- (19) **BY MR MONTAGUE**
- (20) **Q** Good morning Dr O Connor
- (21) **A** Good morning
- (22) **Q** Could you give us a little background of your education

Vol 15 2241

- (1) please?
- (2) **A** Yes I -- my medical school education was in Dublin Ireland at the Royal College of Surgeons in Ireland where I received my medical degree in 1960 I then came to the United States from Ireland and did an internship in the Union Memorial Hospital in Baltimore Maryland one year And I then attended John Hopkins University School of Medicine for a residency training in psychiatry for three years from 1961 through '64
- (3) **Q** So is it correct that you're both a medical doctor and a psychiatrist?
- (4) **A** That's correct
- (5) **Q** What is your current practice?
- (6) **A** Well, my current practice -- I perhaps should add that prior to getting to my current practice there's about 25 years intervening in which I was first of all on the faculty of John Hopkins University from 1964 through 1972 as an instructor and professor of psychiatry in the department of psychiatry and in the school of public health
- (7) During that time I directed the psychiatric emergency service at John Hopkins and also between 1969 and '72 the John Hopkins Drug Abuse Center in Baltimore I was also the chief of the Acute Treatment Clinic and taught community psychiatry in Baltimore
- (8) I then moved to Los Angeles in 1972 where I joined the faculty of UCLA And I taught psychiatry on the faculty of

Vol 15 2242

- (1) UCI A from 1972 until 1976 And for a period of one year there
- (2) was the medical director of the UCLA VA Drug Abuse Center at the hospital in Los Angeles
- (3) **Q** Are you still affiliated with UCLA?
- (4) **A** Yes I am Not full time anymore since 1976 but I am an associate clinical professor at UCLA where I teach courses regularly to medical students and residents on alcoholism and drug-abuse
- (5) **Q** Does that bring us now up to your current practice?
- (6) **A** I think so
- (7) **Q** Okay And could you tell the jury what you do today?
- (8) **A** Yes I am in the private practice of psychiatry and addiction medicine and in that role I see -- I am referred and I evaluate patients for possible alcoholism drug abuse or other forms of chemical dependence And I evaluate them make a diagnosis, if a diagnosis is to be made and then make recommendations for treatment
- (9) **Q** And do you have anything to do with these patients after treatment?
- (10) **A** Well I do Sometimes I participate in their continuing evaluation and extended care over a two or three year period as they are recovering from -- they continue to recover from their alcoholism or their other forms of chemical dependence
- (11) **Q** And sometimes are you consulted to evaluate persons who have been through -- who have already been through alcoholic

Vol 15 2243

- (1) treatment?
- (2) **A** Yes The patients come to me at different times Sometimes they come before they're gone to treatment They may be referred by a company by the FAA for example I do a lot of work with pilots and so the FAA or the airlines will refer me patients about whom they have a question employees about whom they have a question refer them to me to evaluate their status to see if there is a diagnosis of chemical dependence and if so what to do about it
- (3) So then I will make a diagnosis, make a recommendation, perhaps for inpatient treatment, for outpatient treatment, plus a program of on going care
- (4) Then in the case of -- most of the patients I see, I should say are people in safety sensitive positions Pilots are the -- not the bulk of my practice but 50 percent of my practice I also see air traffic controllers I also see physicians including surgeons and thoracic surgeons I also see attorneys, and an occasional judge
- (5) **THE COURT** Whoa
- (6) **THE WITNESS** It's true Your Honor
- (7) Occasional judge I also see firefighters from the Los Angeles Fire Department consult members of the police officers most of the people -- flight attendants from all of the airlines
- (8) So most of the people I see are in fact in safety

Vol 15 2244

- (1) sensitive positions I myself am a pilot so that also gives  
 (2) me a little bit of an edge with the airline pilots  
 (3) particularly  
 (4) And so after they come - if they go for treatment then  
 (5) they re sent back to me after their treatment to see if the  
 (6) treatment took as it were if the vaccination took and they re  
 (7) in recovery, and I make an assessment of their recovery status  
 (8) and then make recommendations to the company or the FAA  
 or  
 (9) the Board of Medical Quality of California if it s a doctor  
 (10) or the state bar association if it s an attorney  
 (11) I deal with these regulatory agencies a good deal around  
 (12) issues of safety and fitness  
 (13) Q Is that your specialty doctor?  
 (14) A That's the bulk of my practice is in that area and that's  
 (15) what I think I'm -  
 (16) Q And how long have you been doing that that specific  
 (17) specialty?  
 (18) A Since 19 - the early '80s, since about 1982 '83  
 (19) Q Do you have any licenses?  
 (20) A Yes, I do  
 (21) Q Other than a pilot s license?  
 (22) A Yes, I do  
 (23) Q Could you tell us?  
 (24) A I - I'm licensed by the Educational Council on Foreign  
 (25) Medical Graduates anyone who goes to medical school at a

Vol 15 2245

- (1) foreign country has to - in order to practice in America has  
 (2) to do a special exam, so I did that exam when I came here  
 (3) I also have a Maryland license to practice medicine which  
 (4) I got in 1965 I am a specialist in psychiatry, it's called  
 (5) board certified in psychiatry by the American Board of  
 (6) Psychiatry and Neurology which I received in 1970  
 (7) I also have a California license to practice medicine  
 (8) which I received when I - after I went to California in 1980  
 (9) and in addition I have been certified in addiction medicine  
 (10) by the American Society of Addiction Medicine in 1986 by  
 (11) examination  
 (12) I think that covers the licenses as far as I remember  
 (13) Q Okay Have you authored any publications?  
 (14) A Yes I have  
 (15) Q Any to do with the - your specialty?  
 (16) A Yes several One was called A Drug Abuse Industry  
 which  
 (17) was published in the early '70s which showed that the  
 heroin  
 (18) addiction and particularly other forms of drug addiction  
 were a  
 (19) pillar of the nation's economy and there was a whole  
 economic  
 (20) substrate connected to addiction and that was published in  
 a  
 (21) variety of different places  
 (22) Then there was another one in the early '80s that I  
 (23) published, was published of mine It was in a book about  
 (24) training in alcoholism and drug dependence university  
 (25) training, and I wrote the chapter on training psychiatrists  
 and

Vol 15 2246

- (1) psychiatric residents I think that's any of note that I  
 (2) published with respect to the field  
 (3) Q Have you been involved at all in any educational - or  
 (4) preparing any educational or training materials?  
 (5) A Yes Films I've been always interested in films, and  
 (6) I've prepared a number of training films in the area of  
 (7) alcoholism and also was fortunate enough to be able to  
 have  
 (8) some influence on some network television shows where we  
 were  
 (9) able to put material in about alcoholism, how to treat it, how  
 (10) to recognize it And shows like Archie Bunker's Place, for  
 (11) example, which had millions of people looking at it and  
 where  
 (12) we could, in a sense make some educational message to  
 people  
 (13) Oh, there was also a show on public television about  
 (14) doctors and pilots and lawyers and policemen in which I  
 (15) participated and was the medical advisor for  
 (16) Q In describing your specialty does that include evaluating  
 (17) persons who have gone through treatment for return to their  
 (18) jobs?  
 (19) A Yes  
 (20) Q Do you do that?  
 (21) A Yes  
 (22) Q On a regular basis?  
 (23) A On a very regular basis Most of my work is indeed  
 (24) either sending them for treatment or deciding if they should  
 go  
 (25) for treatment and then after treatment seeing, as I said if

Vol 15 2247

- (1) the treatment took  
 (2) Sometimes people go for treatment and it doesn't take  
 (3) Sometimes people do - you want to be able to evaluate their  
 (4) recovery status to see what they've learned, to see have  
 they  
 (5) accepted the fact that there is a problem are they still in  
 (6) denial  
 (7) Q How many of those have you done Doctor? How many of  
 (8) those?  
 (9) A How many of those?  
 (10) Q The evaluations for fitness?  
 (11) A Oh at least 500, I should say Up to - I do about, oh,  
 (12) 50 or 75 a year Over a ten year period I would say a  
 minimum  
 (13) of 500  
 (14) Q How do these people come to you?  
 (15) A Well, they're referred to me Some of them come on their  
 (16) own because they're worried about themselves There are  
 very  
 (17) few Most of them come because they were referred by  
 somebody  
 (18) else by management As I said by the FAA by the Medical  
 (19) Board of Quality by the fire department by the union,  
 airline  
 (20) pilots association I conduct and maintain relationships  
 with  
 (21) all of those groups  
 (22) Q Doctor are you yourself an alcoholic?  
 (23) A Yes, I am  
 (24) Q Are you what you refer to in recovery?  
 (25) A Yes I am a recovering alcoholic

Vol 15 2248

- (1) Q And from what period have you been in recovery?  
 (2) A My sobriety date is March 6th 1977  
 (3) Q And have you been sober since?  
 (4) A Yes I have been abstinent and sober from all alcohol and  
 (5) other mind altering drugs since that time  
 (6) Q Are you a member of Alcoholics Anonymous?  
 (7) A Yes I am  
 (8) Q Do you still attend Alcoholics Anonymous meetings?  
 (9) A Yes, I do  
 (10) Q Approximately how many Alcoholics Anonymous AA  
 meetings  
 (11) have you attended in your lifetime?  
 (12) A I just - more than 3000  
 (13) Q And have you ever spoken at AA conventions?  
 (14) A Yes I have  
 (15) MR MONTAGUE Your Honor I -  
 (16) THE WITNESS I was just going to say I've spoken at  
 (17) quite a number of AA conventions including the - several  
 (18) times at the annual convention of Birds of a Feather which is  
 (19) AA for pilots And this August I will be one off the speakers  
 (20) at International Doctors in AA in Atlanta  
 (21) MR MONTAGUE Your Honor I would offer Dr O Connor  
 (22) as an expert in psychiatry and addiction medicine and  
 (23) specifically diagnosis and treatment of alcohol abuse problems  
 (24) evaluation for fitness for duty interventions and substance  
 (25) abuse education

Vol 15 2249

- (1) MR SANDERS We have no objection  
 (2) THE COURT Thank you Court accepts Dr O Connor's  
 (3) qualifications  
 (4) BY MR MONTAGUE  
 (5) Q Let's get down to basics Doctor What is alcoholism?  
 (6) A Oh well there are many definitions for alcoholism and I  
 (7) will try to make it clear to you what some of the most recent  
 (8) ones are Alcoholism first of all is a disease It's a  
 (9) biological disease a psychological disease and a social  
 (10) disease And that means that it is a disease which affects  
 (11) your body, your mind your emotions and your  
 relationships  
 (12) wherever they - at home, or work or wherever they may be  
 (13) Now, because there are so many definitions of alcoholism  
 (14) everybody in a sense has their own way of thinking about it  
 (15) Our society, the American Society of Addiction Medicine  
 and  
 (16) this is the definition I'm going to give you because I think  
 (17) it's a very good one spent two years assembling all of the  
 (18) information on definitions, and we came up with - I was a  
 (19) board member of the society at the time We came up with a  
 (20) 1990, a definition which that was later published in the  
 (21) Journal of American Medical Association, very prestigious  
 (22) journal  
 (23) That definition, I'll go through it with you, is as  
 (24) follows Alcoholism is a primary disease of its own  
 (25) Biological psychological and social And its major

Vol 15 2250

- (1) characterizations are - or manifestations are episodic or  
 (2) impaired loss of control over drinking So the impaired  
 (3) control over your drinking can be episodic or continuous  
 (4) Preoccupation with alcohol is the next thing Alcoholics  
 (5) naturally think a lot about alcohol, and alcohol is a central  
 (6) part of their life experience The third thing is continuing  
 (7) to drink despite adverse consequences Continuing to  
 drink  
 (8) despite adverse consequences That means an alcoholic  
 will no  
 (9) matter if he gets - say something happens at home or  
 (10) disasters in his life or her life as there often are he  
 (11) continues to drink any way even though they know the  
 drinking  
 (12) is causing a problem  
 (13) And the fourth thing is distorted patterns of thinking In  
 (14) other words mental disease as well as everything else  
 (15) Distorted patterns of thinking Most notably denial  
 (16) You heard Mr O'Neill talk about denial is not a river in  
 (17) Egypt, that's a common phrase that came out of AA As a  
 matter  
 (18) of fact it's a good one because denial is one of a central  
 (19) mental components of alcoholism The alcoholic is last to  
 (20) know he or she is an alcoholic Everybody else knows  
 they're  
 (21) an alcoholic first  
 (22) So episodic or impaired - episodic or continuing, impaired  
 (23) control continuing to drink despite adverse consequences  
 (24) preoccupation with alcohol and mental patterns, distorted  
 (25) mental thinking, most notably denial

Vol 15 2251

- (1) Q Is it a progressive disease?  
 (2) A Yes it's most often progressive In that it gets worse  
 (3) the longer it goes and the more you drink basically and  
 very  
 (4) frequently fatal if not treated It's a very serious disorder  
 (5) Q Is it chronic?  
 (6) A Yes chronic in that it tends to go on most times for a  
 (7) lifetime, if not treated so yes it goes on over a long period  
 (8) of time  
 (9) Q Is there a way to stop it or arrest it?  
 (10) A Well, it's a closely guarded secret that alcoholism is  
 (11) caused by alcohol That's the most important thing to  
 (12) remember Some people say it's caused by unhappiness or  
 bad  
 (13) childhood, in fact it's caused by alcohol So the way to  
 (14) arrest alcoholism - you can't cure alcoholism Once an  
 (15) alcoholic always an alcoholic But you can arrest it and in  
 (16) my opinion the best way to arrest alcoholism is to stop  
 (17) drinking  
 (18) Q Total abstinence?  
 (19) A Total abstinence That's just the drinking part of the  
 (20) disease And following that, of course, you'll have to  
 (21) institute treatment and support and so on, and perhaps  
 we'll  
 (22) talk about that later for the other part of the disease the  
 (23) physical parts, the psychological parts and so on  
 (24) Q Is there another school of thought other than total  
 (25) abstinence?

Vol 15 2252

- (1) A Yes, there is There's a controversy in the field There are a lot of people, mostly psychologists some physicians, but
- (2) mostly psychologists who believe that many alcoholics can return to social or controlled drinking, and that controversy has been raging for, oh, some 20 years
- (3) The other side of the controversy is that with alcoholics, the proper treatment and the safest possible treatment and most
- (4) conservative treatment and most successful treatment is abstinence, and that is the position that's taken by AA
- (5) The group of people in research who expose controlled drinking would maintain that, as I said it's possible for alcoholics to go back to drinking, and the other side of the controversy says it isn't, and that abstinence is what you have
- (6) to achieve and maintain
- (7) Q Is that an accepted position?
- (8) A Which one, Mr. Montague?
- (9) Q Social drinking for an alcoholic?
- (10) A No it's not generally accepted in the main stream of medicine, and certainly in the field of addiction medicine and
- (11) generally in psychiatry it's not widely accepted at all In fact, may we say this at the beginning Doctor -
- (12) MR SANDERS Your Honor I'm going to object to the
- (13) continuing narratives If Mr. Montague could interrupt every now and then with a question
- (14) THE COURT I think we're doing all right

Vol 15 2253

- (1) You may continue Mr. Montague.
- (2) MR MONTAGUE Thank you
- (3) THE WITNESS Well just to reiterate that the problem with the controlled drinking issue is that even if you can show that some very few maybe one two three four percent of alcoholics could go back to controlled drinking how do you know in advance which ones they're going to be? If 96 percent of them can't - and Dr. Mark Shockerd (ph) one of the world's greatest authorities in alcoholism says there is no data - although some alcoholics may be able to go back to controlled drinking there is no data that permits us to tell in advance which ones they will be so that a recommendation or prescription of an alcoholic to go back to controlled drinking can under certain circumstances in my opinion be tantamount to a death sentence because you give the alcoholic the idea he or she can go back to controlled drinking they try the disease takes them over and continues on the inexorably fatal destructive process of alcoholism So that's the problem with that
- (10) Q You used the figure of three or four percent may - three or four percent of alcoholics in recovery may be able to go back to social drinking Where did that number come from?
- (11) A Well, there's a major study called the Rand report which came out in the 1970s which has been actually widely criticized I do not subscribe to the findings of the Rand

Vol 15 2254

- (1) report, but I can tell you that when corrected down for errors
- (2) of various times, the final distillation of their results was that about four percent of their alcoholics could go back to some sort of controlled drinking
- (3) A better study conducted in 1985 by a man called Helsler (ph), and his group showed that only 1.6 percent of their alcoholics could resume moderate, stable drinking And let me tell you what moderate stable drinking was by them They said that moderate stable drinking was six drinks a day plus three episodes of intoxication per month That was what they called
- (11) moderate stable drinking, the 1.6 percent of alcoholics who they said could return to drinking So that's where those figures come from
- (12) Q Is the social drinking concept an accepted premise for persons in sensitive - in safety sensitive positions?
- (13) A Not anywhere that I know of Obviously, it's a risky business and I don't know in any of the groups that I work with who would accept social drinking as an outcome
- (14) Q Now you treat people every day?
- (15) A Yes
- (16) Q And what do you recommend?
- (17) A I recommend total abstinence And if a person is not willing to commit to total abstinence and show that they can maintain it I will not recommend them for a return to a safety sensitive position
- (25) sensitive position

Vol 15 2255

- (1) Q Are there symptoms - I guess that's the right word not being a medical person Are there symptoms of alcoholism?
- (2) A Yes there are
- (3) Q And are they susceptible to description?
- (4) A I'll try I'll give a fairly abbreviated version here as they, I think apply to this particular case that we're in
- (5) And, before I do let me say that the symptoms of alcoholism -
- (6) alcoholics are just human beings like me and everybody else so
- (7) the behavioral symptoms that we'll describe everybody has had
- (8) them to some degree or another But in an alcoholic, they are
- (9) clustered and they're more severe, and they're severe enough
- (10) their ordinary human conflicts and behaviors They're clustered in such a way as to cause pain and suffering and dysfunction so they're exaggerations of what everybody here
- (11) has felt I'm sure, at one time or another
- (12) The first symptom of alcoholism is, of course drinking, abnormal drinking, heavy drinking, binge drinking, and there
- (13) are different kinds of drinking Drinking that's enough to cause a problem in marriage, in family, in your own self, relationship with yourself or relationships at work That's the first as I said alcoholism cause of - alcohol is the cause of alcoholism
- (14) Then there is low self esteem depression Alcoholism is a depressing disease You lose things, not only your memory but
- (15) sometimes your job and your dignity, and so people are often

Vol 15 2256

(1) depressed Resentment - Bill Wilson the founder of  
 (2) Alcoholics Anonymous said resentment was the greatest  
 enemy of  
 (3) all alcoholics Tolerance - tolerance is something that  
 (4) develops over time in an alcoholic and that means that  
 when a  
 (5) disease is progressing the alcoholic has to drink more over  
 (6) time to get the same effect  
 (7) Most alcoholics looking back in their lives would be able  
 (8) to say I remember I used to be - I was the one that could  
 (9) drink people under the table I could drive people home  
 when  
 (10) everybody else was drunk I could drink a lot hold my  
 liquor  
 (11) whole syndrome  
 (12) What else - oh denial as I mentioned before which is a  
 (13) whole range of psychological mechanisms We'll talk about  
 that  
 (14) for a minute because it's so important  
 (15) Denial helps the alcoholic to reduce awareness of the fact  
 (16) that alcohol is the cause of his or her problems rather than  
 (17) the solution An alcoholic, when they're drinking, thinks  
 that  
 (18) alcohol is going to solve problems when in fact it really is  
 (19) the cause of them So denial keeps the alcoholic drinking  
 by  
 (20) preventing him or her from knowing that alcohol is the  
 cause  
 (21) And denial is an integral part of the disease the mental  
 (22) disease of alcoholism and it becomes inevitably an  
 obstacle to  
 (23) recovery because the alcoholic isn't in touch with the fact  
 (24) that I am an alcoholic That's what the whole treatment is  
 (25) about

Vol 15 2257

(1) Explosive behavior impulsive behaviors of all kinds  
 (2) Lying about drinking, about your drinking is part of the  
 (3) denial Alcoholics like to deceive or not like to - they  
 (4) have to deceive people in order to cover up how much  
 they're  
 (5) drinking So alcoholics live a double life really, a life  
 (6) that they know about and a life we let you know about as it  
 (7) were  
 (8) I remember my own if I may digress here because I think  
 (9) in trying to explain to the jury these symptoms, it's very  
 (10) important to be in a sense as specific as we can But in my  
 (11) own alcoholism, I used to be like a spy I knew that I was an  
 (12) alcoholic and I knew that I had all of these problems, but I  
 (13) wouldn't let you know about it, and I could pretend and I  
 could  
 (14) create an image of function whether in my work or with my  
 (15) family but in order to do so I had to lie tell lies about my  
 (16) drinking and pretend And eventually like any alcoholic I  
 (17) moved from telling a lie to living a lie when it becomes part  
 (18) of your whole system part of your whole character  
 (19) So they're the main things Of course I was also -  
 (20) alcoholics also are full of shame and guilt because of the  
 (21) things they know they did and that they're hiding from you  
 so  
 (22) that you don't know what it is we did, and that leads to  
 (23) anxiety and a state of generally poor morale Again, you  
 cover  
 (24) up with pseudo image of function and good fellowship But  
 (25) beyond that there's an enormous amount of loneliness and

Vol 15 2258

- (1) alienation in the sense of despair and feeling of not belonging
- (2) to anything
- (3) Q Once an alcoholic does drinking have any effect on your
- (4) cognitive functions or your thinking powers?
- (5) A Yes
- (6) Q And does one have to be drunk for that adverse reaction to
- (7) take place?
- (8) A Cognitive functions, I think - thanks for bringing that
- (9) up, because I had - I didn't mention it in my list of
- (10) symptoms
- (11) Cognitive functions are when the alcohol affects your
- (12) brain, and the ones we would be most concerned with would
- (13) be
- (14) poor judgment, effects on judgment effects on memory,
- (15) faulty
- (16) memory blackouts, for example, that alcoholics get from
- (17) drinking too much And there are many studies that show
- (18) that
- (19) these cognitive effects are not just associated with drinking
- (20) or being drunk or using intoxication, but because of the
- (21) chronic effect of alcohol on the brain they persist even at
- (22) times when the alcoholic is sober
- (23) And when we're evaluating - I'm evaluating pilots or
- (24) doctors or police officers or others after treatment one of
- (25) the things that I do is evaluate their cognitive functions
- (1) They may have been sober for two or three months by this
- (2) time
- (3) but they still may have cognitive deficits from the chronic
- (4) effects of drinking which have to be evaluated

Vol 15 2259

- (1) Q Is someone - in medical terms is someone who is suffering
- (2) from alcoholism an alcoholic? Is there a difference between
- (3) the disease of alcoholism and labeling somebody an alcoholic?
- (4) A No People with alcoholism in my opinion and in medical
- (5) terms are alcoholics yes
- (6) Q And I know we've all seen various movies which depict
- (7) alcoholics does one have to be alcohol dependent to be an
- (8) alcoholic?
- (9) A No not in my opinion These days, the term alcohol
- (10) dependent alcohol abuse are used interchangeably and we
- (11) would
- (12) call anybody with any of those problems an alcoholic
- (13) Q Does one have to be a continuous heavy drinker to suffer
- (14) from alcoholism?
- (15) A No Most alcoholics - vast majority of alcoholics are not
- (16) continuous heavy drinkers The pattern of drinking is more
- (17) usually episodic Alcoholics can stop drinking for periods
- (18) give up for Lent Many people say I can't be an alcoholic I
- (19) give up drinking every year for Lent 40 days
- (20) Q Does being an alcoholic mean that you reach for the bottle
- (21) first thing in the morning?
- (22) A No Only a very small - that's part of the stereotype of
- (23) the sort of gamut alcoholic The Last Weekend Alcoholic
- (24) wonderful film with Ray Miland (ph) Days of Wine and
- (25) Roses
- (1) with Jack Lemon These are very serious films with end
- (2) stage
- (3) gamut alcoholics type of people just about to become skid
- (4) row

Vol 15 2260

- (1) bums in an advanced stage where they have to because
- (2) they're
- (3) shaking and want to take a drink early in the morning just to
- (4) get going for the day
- (5) I had to do that literally, sometimes I'd shake a little in
- (6) the morning, but I never had to take a drink for it But that
- (7) is the very severe kind of alcoholic that you're talking about
- (8) there
- (9) Q Now in your opinion can someone who is a - an episodic
- (10) alcohol abuser - by the way what does that term mean to you
- (11) episodic alcohol abuser?
- (12) A Well, episodic alcohol abuse, that means that a person
- (13) abuses alcohol on an episodic basis, which means that
- (14) there
- (15) would be periods of sobriety between periods of abuse, and
- (16) it's
- (17) a very - it's a term in the diagnostic manuals that in a sense
- (18) has gone out of favor It was used more in the early '80s
- (19) than
- (20) it is now But you still would see episodic alcohol abusers,
- (21) but now they would be called something else in the
- (22) diagnosis
- (23) Q Well can a quote episodic alcohol abuser end quote be
- (24) an alcoholic?
- (25) A Yes I think Dr Gould as I sat here in the Court last
- (1) week said that people with alcohol abuse, some people
- (2) would
- (3) call them alcoholics, some people with that diagnosis and
- (4) alcohol abuse, some people would call it alcoholism, and I
- (5) happen to be one of those "some" people
- (6) Q Which do you call it?

Vol 15 2261

- (1) A Well, I call it alcoholism, yes
- (2) Q Now you mentioned in describing yourself that you have
- (3) been in recovery since 1976 I think it was?
- (4) A '77
- (5) Q '77?
- (6) A Yeah
- (7) Q What does that term mean in recovery?
- (8) A In recovery means basically that a person is clean and
- (9) sober from all mind altering drugs, including alcohol And
- (10) that in addition to that, they are participating in a program
- (11) of activities designed to help them to stay sober It's one
- (12) thing to stay sober To get sober, it's much more harder
- (13) thing
- (14) to stay sober because alcoholism is a relapsing disease
- (15) You
- (16) tend to go back to it You need a program of recovery that's
- (17) specifically designed to keep you sober to prevent relapse,
- (18) so
- (19) that can be - of course most commonly, AA, with 17 million
- (20) people in AA worldwide It can be other programs, such as
- (21) rationale recovery, which is a non spiritual form of AA Or it
- (22) can be other forms of support groups that help a person to
- (23) stay
- (24) sober but they ought to be focused on precisely that so that
- (25) they understand the process of alcoholism and relapse and
- (1) can
- (2) provide a person with the tools that they need to stay sober
- (3) Recovery, so that's what being in recovery really means
- (4) Q Doctor excuse me are there observable signs that - so
- (5) that one trained such as yourself or any trained professional

Vol 15 2262

(1) can determine whether someone who has gone through alcohol  
 (2) treatment has achieved a successful recovery at the time  
 (3) they re evaluated has achieved a successful recovery?  
 (4) A Yes Well maybe the best way to explain that would be to  
 (5) say what it is I look for when I'm evaluating say a pilot or  
 (6) a police officer or air traffic controller somebody like that  
 (7) who's been through treatment and they will be sent back to  
 me  
 (8) prior to - to get my recommendation to see if they're fit for  
 (9) duty in the safety sensitive position That means are they  
 (10) in my terms in recovery  
 (11) So in order to do that, what I - I have a procedure  
 (12) First of all I will have a face-to face meeting with the  
 (13) individual, but not only with the individual but with his  
 (14) family, and I will have his or her permission to talk to their  
 (15) colleagues at work their managers their supervisors as  
 well  
 (16) as talk to the people in the hospital the rehabilitation  
 (17) center where they've been as well as have all of their  
 (18) hospital records for me to look at Because you really need  
 to  
 (19) make sure that a person is in fact clean and sober And  
 not  
 (20) only that but enthusiastically and sincerely committed to a  
 (21) program to stay that way  
 (22) So what I look for in a person I look for is he or she  
 (23) number one sober Number two are they committed to  
 (24) sobriety Number three, what are they doing to  
 demonstrate  
 (25) that commitment? Is their family behind them? Do they  
 have a

Vol 15 2263

(1) support group? Are they going to AA? Or, if they don't like  
 (2) AA, are they going to another group, such as rationale  
 (3) recovery? If so what is the quality of their participation in  
 (4) those groups? And I know how to ask the questions to find  
 out  
 (5) if they really are indeed participating actively in AA and  
 (6) doing the 12 steps and if they have a sponsor I want to talk  
 (7) to the sponsor to see what the - it's a really thorough  
 (8) evaluation here I want to see that they're if not happy in  
 (9) their sobriety at least relieved and grateful for the  
 (10) opportunity to be sober and return to work and not be fired  
 or  
 (11) terminated or something like that  
 (12) I want to see that they're willing to comply with whatever  
 (13) company or government regulations may be facing them  
 Because  
 (14) often alcoholics feel that they're constricted and they have  
 to  
 (15) do this and they have to go to meetings and they have to  
 (16) report they have to document their attendance Well  
 (17) alcoholics are kind off free spirits when they're drinking  
 you  
 (18) know, and they don't like to be pinned in And I need to  
 (19) evaluate the extent to which they're willing to comply and  
 (20) whether they're enthusiastic about complying because they  
 know  
 (21) this is the best treatment for their disease  
 (22) I want to know if they're being open and candid about their  
 (23) drinking, no longer lying about it Willing to talk about the  
 (24) shameful episodes openly willing to make amends to  
 people If  
 (25) not then sometime later be prepared to make amends to  
 people

Vol 15 2264

(1) they've hurt Their families their work friends friends and  
 (2) foes  
 (3) I need to also inspect their cognitive functions And I  
 (4) don't do that myself except in a cursory clinical evaluation  
 (5) but I refer them to a psychologist for that who does an  
 (6) extensive battery of tests to make sure the thinking  
 judgment  
 (7) perception memory all of those things are back to normal  
 (8) And I can tell you often we don't send people back to work  
 (9) yet We have to wait If their program isn't in good shape, I  
 (10) will delay my recommendation to send them back to work  
 and will  
 (11) give them instructions to tighten it up to increase it to  
 (12) wait until their brain functions settle down come back in  
 (13) three months six months communicate that to the agency  
 or the  
 (14) work people and then send them back  
 (15) Q Doctor are those signs that you were talking about what  
 (16) you look for?  
 (17) A Yes  
 (18) Q Were those signs that were recognized by your profession  
 (19) back in 1985?  
 (20) A Yes  
 (21) Q You mentioned - I think you used the word relapse?  
 (22) A Yes I did  
 (23) Q What does that mean?  
 (24) A Well relapse really means a return to the previous  
 pattern  
 (25) of abnormal drinking People - essentially what it means -

Vol 15 2265

(1) Q Are there studies made or is it known in your profession  
 (2) basically what the relapse rate is or the parameters of the  
 (3) relapse rate for an alcoholic?  
 (4) A Well Mr Montague that question really can't be  
 answered  
 (5) very simply but I could answer it briefly in the following  
 (6) way That untreated relapse rates for alcoholics tend to be  
 (7) very high up to 60 or 70 percent if you don't treat people  
 (8) However - and of course it depends on age and amount of  
 (9) drinking and type of alcoholism and whether or not a person  
 has  
 (10) a social support group whether they're jobless, whether  
 (11) they - all of those things come into play in assessing  
 relapse  
 (12) rates but in general they're very high However with  
 proper  
 (13) treatment they can be reduced substantially  
 (14) Q Okay Now are there - just as there were signs for  
 (15) successful recovery being successful in this recovery are  
 (16) there specific recognized signs for relapse?  
 (17) A Yes  
 (18) Q And could you tell us briefly what they are?  
 (19) A Well I don't seem to be able to tell anything briefly, but  
 (20) I'll do my best They're in a way the opposite to the  
 (21) successful signs as you might imagine There is a  
 syndrome  
 (22) called a protracted abstinence syndrome it's a technical  
 term  
 (23) for negative thinking, irritability, sober alcoholic, an  
 (24) alcohol who's dry rather is kind off uptight, doesn't like  
 (25) it, negative thinking, unwilling to deal with his or her

Vol 15 2266

- (1) **drinking, really not in any sense of recovery, that sort of**  
 (2) **resentful, bitter angry attitude that you sometimes see**  
**That**  
 (3) **would be a major sign of impending relapse**  
 (4) **Of course any kind of drinking controlled or otherwise as**  
 (5) **the alcoholic might say, is a sign of relapse Alcoholics**  
 (6) **believe that they, you know have an obsession with the**  
**idea**  
 (7) **that they can return - can return to drinking like a normal**  
 (8) **person, we can't, so that any kind of going back to drinking**  
**is**  
 (9) **a sign of relapse**  
 (10) **Failure to follow up with recommended prescriptions for**  
 (11) **aftercare, for treatment, for counseling, that kind of thing**  
 (12) **Willingness, unwillingness to deal with the aftermath of**  
**damage**  
 (13) **in the family All of those things are signs of a person who**  
 (14) **is not in recovery**  
 (15) **Q Are all these signs things that you relied on in your**  
 (16) **evaluation of patients over the past - since the early 80s?**  
 (17) **A Yes And continuing denial of course is the principle**  
 (18) **one Person may be through treatment and still says**  
**they're**  
 (19) **not alcoholic even though all the signs and symptoms are**  
 (20) **available for inspection**  
 (21) **Q Now the fact that a person suffering from alcoholism self**  
 (22) **identifies rather than being involuntarily given treatment or**  
 (23) **introduced to treatment the fact that a person self**  
 (24) **identifies does that change the signs that you look for in**  
 (25) **evaluating the success or failure of someone in recovery?**

Vol 15 2267

- (1) **A No How a person gets to treatment and subsequently is**  
**not**  
 (2) **relevant to - that doesn't change how I would see or how I**  
 (3) **would look for the signs of recovery or what prescriptions**  
 (4) **recommendations I might give for extended treatment**  
 (5) **Q Now Doctor let's - we've got a background and that's**  
 (6) **what I was hoping we could get to give to the jury Let's turn**  
 (7) **to this case now**  
 (8) **A Yes sir**  
 (9) **Q Have you reviewed any materials specific to this case?**  
 (10) **A I have**  
 (11) **Q And could you tell us what you've reviewed?**  
 (12) **A Summarize I read all I think of the Exxon policies with**  
**respect to alcohol alcoholic behavior and employees back**  
**to**  
 (14) **1977 I think And I read a lot of - number of letters and**  
 (15) **other memoranda internal to Exxon and between Exxon and**  
**the**  
 (16) **government after the oil spill**  
 (17) **I also read some documents of the NTSB National Training**  
 (18) **and Safety Board - Transport and Safety Board after the oil**  
 (19) **spill I then read a lot of testimony I won't go through it**  
 (20) **all but it was testimony of various Exxon managers**  
**Captain**  
 (21) **Sheehy Captain Tompkins Captain Pierce Mr Iarossi,**  
 (22) **Mr Myers Mr Steve Day and of course all of the 2400**  
**pages**  
 (23) **of Captain Hazelwood's testimony as well**  
 (24) **In addition I have been sitting in this courtroom since**  
 (25) **last Monday and have heard all of the testimony that you**  
**have**

Vol 15 2268

- (1) **heard So I won't go through all of the names You know**  
 (2) **ourselves what else**  
 (3) **Q Have you ever been to Valdez?**  
 (4) **A Oh, yes, I did Last Sunday, I rented a plane and I flew**  
 (5) **myself to Valdez because I was just curious it was a**  
**gorgeous**  
 (6) **day and I was curious to see what it was like there**  
 (7) **Naturally, having a particular interest, I retraced Captain**  
 (8) **Hazelwood's steps as I understood them from the testimony**  
**on**  
 (9) **March 23rd, 1989, and it was very helpful to me in**  
 (10) **understanding the circumstances of this case to walk**  
**around**  
 (11) **Valdez, see the various places, and then fly over the**  
**Alyeska**  
 (12) **terminal and see the walkways and gantries that Mr Lunt**  
**was**  
 (13) **talking about see the ships parked there, see the distances**  
 (14) **and then fly the course of the - of the Exxon Valdez that**  
 (15) **night and see Busby Island and the reef and Reef Island and**  
 (16) **Goose Island It was really very helpful to me in putting it**  
 (17) **altogether in my own mind**  
 (18) **Q And from the materials that you've just described by the**  
 (19) **way did they - have you seen the - what's called the IDR?**  
 (20) **A Oh yes the IDR**  
 (21) **Q Individual Disability Report have you seen that?**  
 (22) **A Yes I have seen that**  
 (23) **Q Have you seen the Sickness Benefits Report?**  
 (24) **A Yes, I have seen that, too**  
 (25) **Q And have you seen what we've been referring here as the**

Vol 15 2269

- (1) **Graves report or Graves memo?**  
 (2) **A Thank you Also the Graves report I've seen that**  
 (3) **Q From all of the materials you've described have you been**  
 (4) **able to form certain opinions?**  
 (5) **A I have**  
 (6) **Q Let's get them Do you have sufficient information to form**  
 (7) **an opinion as to whether Captain Hazelwood suffered from the**  
 (8) **disease of alcoholism as of 1985?**  
 (9) **A I do**  
 (10) **Q And have you formed such an opinion?**  
 (11) **A I have**  
 (12) **Q And can you tell us what that opinion is?**  
 (13) **A Yes In my belief Captain Hazelwood suffered from the**  
 (14) **disease of alcoholism since 1985**  
 (15) **Q Could you tell the jury the basis for that opinion?**  
 (16) **A Yes The basis of my opinion is largely based on the**  
 (17) **materials that we just reviewed and perhaps the best way**  
**to**  
 (18) **talk about it is to divide it up into three time periods,**  
 (19) **really The signs and - that were apparent prior to Captain**  
 (20) **Hazelwood's entry into South Oaks Hospital, and then**  
 (21) **hospitalization itself, and the period after his**  
 (22) **hospitalization and then, finally, the period towards the end**  
 (23) **of his employment with Exxon prior to the oil spill**  
 (24) **Prior to the hospitalization, what - what did he have?**  
 (25) **Well he himself complained that he and his wife had been**

Vol 15 2270

- (1) talking about getting some help for eight months prior to his  
 (2) going into the hospital He also complained of moodiness  
 and a  
 (3) mid life crisis There was an investigation going on into  
 (4) Captain Hazelwood's drinking by Exxon in the early part of  
 (5) 1985 Captain Pierce called him said there's an  
 undercurrent  
 (6) of some kind going on here and maybe you better do  
 something  
 (7) about it  
 (8) The Graves report which indicated that Captain  
 (9) Hazelwood - of course Exxon didn't know about that until a  
 (10) little later but looking back on it Captain Hazelwood had  
 (11) come back drunk to the ship on - I think intoxicated on  
 (12) several occasions and had also been drinking on board So  
 they  
 (13) were the main things I think prior to - in addition to of  
 (14) course the principal thing Of course Captain  
 Hazelwood's  
 (15) own account of as he said abusive drinking for four years  
 (16) once a week with his wife at home heavy drinking, we would  
 (17) say four to five doubles before dinner wine with dinner  
 two  
 (18) to three doubles after that Which would make him as he  
 said  
 (19) in his testimony and his deposition testimony giddy or  
 jokey  
 (20) or a little clumsy So there was that and this obviously as  
 (21) he indicated did not help his relationship with his wife And  
 (22) led to subsequent treatment  
 (23) Q If I may divert for a minute Did you notice any change in  
 (24) Captain Hazelwood's testimony with respect to the time of what  
 (25) he said in his deposition and what he said here in court?

Vol 15 2271

- (1) MR SANDERS Objection Your Honor as to relevance  
 (2) MR MONTAGUE Well Your Honor the witness just said  
 (3) that he relied in forming his opinion on his deposition  
 (4) testimony  
 (5) THE COURT Mr Sanders anything else?  
 (6) MR SANDERS Your Honor I question the relevance of  
 (7) a comparison  
 (8) THE COURT Well I'll allow the witness to testify as  
 (9) to the comparison and you may cross examine as to whether  
 (10) there's any basis for it if it isn't brought out  
 (11) You may testify  
 (12) MR MONTAGUE Thank you Your Honor  
 (13) THE WITNESS Well yes there were - I think a  
 (14) couple or three different versions of Captain Hazelwood's  
 (15) account of his drinking with his wife In his first - in his  
 (16) deposition testimony he said in response to the questions that  
 (17) it was once a week for three to four years Then I think in  
 (18) two different parts of his trial testimony he said on one  
 (19) occasion that it was sometimes weekly and sometimes kind of  
 (20) every three weeks Now a different pattern given And then  
 (21) on another occasion he said that the time interval between his  
 (22) heavy drinking at home was I think several months Several  
 (23) weeks or several months Any way there was again a third  
 (24) version of the same account  
 (25) BY MR MONTAGUE

Vol 15 2272

- (1) Q Is that - I'm sorry  
 (2) A Yes go ahead  
 (3) Q Does that have a significance to you the fact that that  
 (4) story would change from his deposition in January of this year  
 (5) and at the trial?  
 (6) A Yes it does It makes it difficult to rely upon Captain  
 (7) Hazelwood for accounts of his drinking for me in trying to  
 (8) think about the significance of Captain Hazelwood's  
 drinking,  
 (9) what it means the vitality of it the centrality of it in this  
 (10) case when you get a person giving three different versions  
 (11) under oath in a two or three month period It makes it  
 (12) difficult to rely upon whatever he says about his drinking,  
 (13) especially is he - also basic to that opinion is his own  
 (14) admission in his deposition testimony that he lied about his  
 (15) drinking several times and there was other information  
 which  
 (16) perhaps we'll generate here that he lied about his drinking  
 on  
 (17) other occasions throughout this time  
 (18) MR SANDERS May it please the Court I renew my  
 (19) objection move to strike the comparison of testimony  
 (20) THE COURT I'll allow the testimony to stand  
 (21) MR MONTAGUE Thank you Your Honor  
 (22) BY MR MONTAGUE  
 (23) Q Let's get back from my diversion You were giving the  
 (24) basis for your opinion as to why you had concluded that  
 Captain  
 (25) Hazelwood was suffering from alcoholism or was an alcoholic  
 as

Vol 15 2273

- (1) of 1985 and I believe you had finished his - the events - or  
 (2) had you finished the pre events before he entered South Oaks  
 (3) Hospital?  
 (4) A Yes Oh one more I forgot about that he didn't tell his  
 (5) doctor about any of this Why is that significant?  
 (6) MR SANDERS Your Honor may we have a side bar?  
 (7) (At side bar off the Record)  
 (8) THE COURT Ladies and gentlemen you will please  
 (9) ignore and disregard totally the last question and answer that  
 (10) was given  
 (11) Dr O Connor at this stage of your testimony we need to  
 (12) tighten things up a little bit and do it more in a specific  
 (13) question and a specific answer When you're giving the broad  
 (14) background material I've allowed you to give narrative broad  
 (15) answers but we're into the case specific part of your  
 (16) testimony now and we need to tighten it up some  
 (17) THE WITNESS Yes Your Honor  
 (18) BY MR MONTAGUE  
 (19) Q Dr O Connor in reaching your opinion on whether Captain  
 (20) Hazelwood that he was an alcoholic and suffered from  
 (21) alcoholism in 1985 did you consider the fact that he attended  
 (22) a 28 day inpatient alcohol rehabilitation program?  
 (23) A Yes I did  
 (24) Q And what is the significance of that?  
 (25) A Well it was in an alcoholism rehabilitation center and he

Vol 15 2274

- (1) was admitted to that for treatment  
 (2) Q Okay Did you consider the information that was on the  
 (3) IDR which is Plaintiff's Exhibit 10?  
 (4) A Yes, I did  
 (5) Q And the statements on that made by Dr Vallury?  
 (6) A I'm sorry The statements made on it by Dr Vallury, yes  
 (7) MR MONTAGUE That's not facing too good Thank  
 (8) you Can you see that?  
 (9) THE WITNESS Yes I can  
 (10) BY MR MONTAGUE  
 (11) Q And what is it on that report which supports your opinion  
 (12) or from which you formed your opinion or contributed to your  
 (13) opinion that Captain Hazelwood was an alcoholic in 1985?  
 (14) A Well, the - do you want me to -  
 (15) Q By the way -  
 (16) A This IDR or this abbreviation of that  
 (17) Q You look at Exhibit 10 if you want and if you could put  
 (18) Exhibit 10 on the - I guess we can't get - PX10?  
 (19) MR SANDERS Don't we have a blow up of that  
 (20) somewhere?  
 (21) MR MONTAGUE Can everybody see the screen?  
 (22) BY MR MONTAGUE  
 (23) Q You want to tell us what we're going to refer to and I'll  
 (24) try to make it more legible for everybody  
 (25) A Yes I was going to refer at some point to the code

Vol 15 2275

- (1) numbers at the top of the diagnosis section  
 (2) Q Is that what you're referring to?  
 (3) A Yes Where it says 300 40 and 305 42 They are typed  
 (4) Q What is it about those that you relied upon in reaching  
 (5) your -  
 (6) A Well one of them is the code number for dysthymic  
 (7) disorder and the other is the code number for alcohol  
 (8) abuse  
 (9) Q Yes And what is the significance of that to you?  
 (10) A Well alcohol abuse episodic is a diagnosis which  
 (11) indicates  
 (12) a form of alcoholism Furthermore the handwritten  
 (13) information  
 (14) below individual psychotherapy group therapy marital  
 (15) therapy, AA and lectures seminars and workshops  
 (16) pertaining to  
 (17) alcoholism is a classical description of the treatment in an  
 (18) inpatient 28 day program for alcoholism following what is  
 (19) called a Minnesota model which was the traditional form of  
 (20) treatment for alcoholism at that time And indeed today as  
 (21) well So that the - what is described for treatment is the  
 (22) treatment for alcoholism  
 (23) And then further down Dr Vallury looks like his writing,  
 (24) has said that Mr Hazelwood will complete our 28 day  
 (25) program  
 (26) that's the - the only thing - alcoholism is the only thing  
 (27) for which a 28 day program exists It is recommended  
 (28) given  
 (29) the nature of his job that after discharge Mr Hazelwood  
 (30) will  
 (31) be given a leave of absence to get involved in AA and

Vol 15 2276

- (1) aftercare  
 (2) Again, that is an absolutely classical prescription for  
 (3) extended care and aftercare for somebody with a diagnosis  
 (4) of  
 (5) alcoholism We note in item five there that workshops  
 (6) pertaining to alcoholism is what's used And going back to  
 (7) the  
 (8) diagnosis part there it's typed, and that's probably Captain  
 (9) Hazelwood It indicates at the top, was admitted on the 1st  
 (10) of  
 (11) April, and this form is the 16th of April, just 16 days, so  
 (12) this diagnosis is no doubt provisional And it's typed here  
 (13) MR SANDERS Objection Objection to the  
 (14) speculation  
 (15) THE COURT Sustain the objection  
 (16) The jury will disregard the comment about the nature of the  
 (17) diagnosis  
 (18) BY MR MONTAGUE  
 (19) Q Doctor in your opinion would any trained practicing  
 (20) professional in your area know that Captain Hazelwood was  
 (21) treated for alcoholism by looking at that document?  
 (22) A Yes, in my opinion, would know  
 (23) Q Is there a treatment for dysthymia - dysthymia which is  
 (24) it? Dysthymia dysthymia which is it?  
 (25) A Dysthymia I think is how it's pronounced Yes, there is a  
 (26) treatment for dysthymia and that is individual  
 (27) psychotherapy  
 (28) for 18 months to two years with what's called cognitively  
 (29) based  
 (30) behavioral psychotherapy, which helps a person recognize the

Vol 15 2277

- (1) signs and symptoms of their depression and helps them do  
 (2) something about it to engage in behaviors that will prevent  
 (3) it  
 (4) Q And from that exhibit the IDR can you determine whether  
 (5) Dr Vallury prescribed that type of treatment for dysthymia?  
 (6) A There is no evidence to - no, there is no prescription for  
 (7) that type of treatment  
 (8) Q Are there any other bases for your conclusion that in 1985  
 (9) Captain Hazelwood suffered from alcoholism?  
 (10) A Well Dr Vallury's deposition, we heard in the Court here  
 (11) where he indicated that the - with respect that he - he  
 (12) advocated, any cases of alcoholism, he said, that  
 (13) abstinence  
 (14) should be the recommended treatment, as he has indicated  
 (15) here  
 (16) by recommending AA and aftercare  
 (17) He also said that the - in this instance the treatment  
 (18) for dysthymia and alcoholism would be the same He  
 (19) recommended as did the hospital recommend a - as  
 (20) Captain  
 (21) Hazelwood said in his testimony, too there was a general  
 (22) recommendation not to drink and he had committed himself  
 (23) not to  
 (24) drink for a while  
 (25) Q Okay So your opinion is that in 1985 Captain Hazelwood  
 (26) was an alcoholic?  
 (27) A That is my opinion  
 (28) Q Do you have any doubt about that conclusion?  
 (29) MR SANDERS Objection Your Honor  
 (30) THE COURT Sustain the objection

Vol 15 2278

Vol 15 2280

(1) MR MONTAGUE Okay

(2) BY MR MONTAGUE

(3) Q Do you have - in the materials you've reviewed and what

(4) you've heard in this court have you found that you have

(5) sufficient information to form an opinion of Joe Captain Joe

(6) Hazelwood's status in recovery from alcoholism after his

(7) inpatient treatment and up to the time of the grounding of the

(8) Exxon Valdez in March of 1989?

(9) A Yes I do

(10) Q And have you formed such an opinion?

(11) A I have

(12) Q And what is that opinion?

(13) A It is my opinion that Captain Hazelwood never really got

(14) into a state of recovery and therefore that he did not

(15) achieve a state of stable recovery following his discharge

(16) from South Oaks between that and the time of the oil spill

(17) Q Okay And could you tell us - well let me ask you some

(18) specifics so maybe we can shorten things

(19) The fact that Captain Hazelwood left his aftercare program

(20) after two months did that have any significance?

(21) A Yes it does

(22) Q And what is that significance?

(23) A Well he was prescribed to attend extended and aftercare

(24) sessions and he told us that he had dropped out of those in

(25) late June or early July about six weeks after his

Vol 15 2279

(1) prescription and he didn't tell anybody about that Except

(2) dropping out of treatment dropping out of recommended

(3) treatment without telling anybody is often a sign of the

(4) beginning of the end of an alcoholic who will sometimes

(5) return to drinking because they have cut themselves off from

(6) professional contact and support

(7) Q Does the fact that after finishing treatment he had no

(8) further contact with an alcohol abuse professional have a

(9) significance?

(10) A To my - to my knowledge that's the case

(11) Q And why? Why does that have a significance?

(12) A Well, again the treatment had been prescribed by

(13) Dr Vallury, and one of the symptoms of a return or an

(14) eventual return to drinking or poor recovery status is the alcoholic's

(15) belief that they can do it on their own and that they have a

(16) better way of going about recovery than professionals or

(17) other people who know what they're doing

(18) Q What about Captain Hazelwood's attendance at AA meetings

(19) and his description of participation at those meetings?

(20) A When Captain Hazelwood began he says he attended AA

(21) meetings for - 90 meetings in 90 days but his description of

(22) his attendance in AA I have found very difficult to

(23) understand For example he has said that he has never

(24) shared in an AA meeting in four years He has said that despite the

(25) fact that he does not now or then ever thought of himself as an

(1) alcoholic he has been attending closed meetings of AA

(2) and

(3) closed meetings of AA are for alcoholics only He says that

(4) he

(5) has had three temporary sponsors The concept of a

(6) temporary

(7) sponsor that I'm familiar with is one that you meet in a

(8) hospital who helps you get established in AA and then you

(9) get

(10) a permanent sponsor I've never heard of somebody having

(11) three - -

(12) temporary sponsors for three years even though sponsors

(13) may

(14) move you get another one but they're permanent response

(15) source And then finally the only requirement for

(16) membership

(17) in AA is a desire to stop drinking Doesn't mean everybody

(18) who

(19) joins AA stops drinking but they have a desire to stop

(20) drinking and when they go back to drinking, they generally

(21) talk about it in AA with their sponsor but as he didn't share

(22) ever in AA he apparently didn't talk about it in AA

(23) So persons who continue to drink in AA and particularly

(24) who

(25) come to closed meetings and don't display any desire to

(26) stop

(27) drinking in AA are not generally well accepted because

(28) everybody in AA has a desire to stop drinking and wants to

(29) stay

(30) sober so people who don't demonstrate that in my

(31) experience

(32) are frequently not terribly welcome So that's why his

(33) description of his membership in AA is puzzling to me

(34) Q Does his description of his participation in AA meetings

(35) comport with your experience in attending over 3,000

(36) meetings?

(37) A No, it does not

(38) Q I'm sorry, could you say that again?

(39) A Yes, and you mentioned he resumed drinking Did that have a

(40) Q Yes his resumed drinking

(41) A Yes his resumed drinking He - he did resume drinking

(42) after a statement that he would remain abstinent and it was

(43) about a year later that he did so And the way he did so is

(44) very typical of how any alcoholics go back to drinking just

(45) sitting there at dinner suddenly it seems like a good idea to

(46) have a drink No - nothing major going on in his life just

(47) had a drink and to me that means that the denial process

(48) had

(49) begun to set in again and the vigilance that he may have

(50) been

(51) taught at the treatment center about returning to drinking,

(52) the

(53) consequences of drinking the knowledge that he had about

(54) what

(55) would happen if he violated policy because of his meetings

(56) with

(57) Captain Tompkins and others all of that information was

(58) not

(59) there as he just took up the first drink It just happened

(60) like that

(61) And from there on out his resumption of drinking over the

(62) next two and a half years between then and the oil spill it

(63) seems to me we can detect a pattern or a progression of

(64) just

(65) having one drink, which is a lapse or a slip, but then over

(66) time relapse - just like recovery, relapse is a process not

(67) an event, it goes on over time And he continued to drink, it

(68) was wine and beer and Bloody Mary's on planes and

(69) drinking with

(70) colleagues And then by September 1988 he had a period

(71) of

Vol 15 2282

(1) heavy drinking in which he drank a lot of - I think ten drinks  
 (2) and then drove a car afterwards which might suggest again  
 a  
 (3) return - or the development of what I talked about  
 tolerance,  
 (4) be able to drive a car after drinking ten drinks in a short  
 (5) period of time  
 (6) Then the pattern continued He began to violate alcohol  
 (7) policy even knowing that that would result in termination of  
 (8) his job, and at Portland where Mr Carr talked about having  
 a  
 (9) drink on board with Captain Hazelwood We heard about  
 the  
 (10) walkie-talkie episode this morning for Mr Day We also  
 then  
 (11) heard about the Captain Reeder episode, Ms Wilhamson's  
 (12) report, all of these things were contributing to my  
 conviction  
 (13) that Captain Hazelwood had by that time returned to an  
 abnormal  
 (14) pattern of drinking, under the circumstances, given his  
 (15) treatment and given what was known In addition, he was  
 (16) leading a double life Heavy drinking after work for a while,  
 (17) but he concealed that from his wife who herself was in  
 Al Anon  
 (18) and who had been in marital therapy with him in the  
 hospital,  
 (19) which most of these things were to be talked about which  
 you do  
 (20) in marital therapy, he didn't drink at home for all this period  
 (21) of time and yet he was drinking on the road on board, with  
 (22) colleagues and so on  
 (23) And then finally, on March 23rd, 1989 there was his  
 (24) drinking in Valdez prior to the oil spill with the violation of  
 (25) the Coast Guard rule

Vol 15 2283

(1) Q Okay Now have you formed an opinion Doctor as to  
 (2) whether Captain Hazelwood's alcoholism was the cause of his  
 (3) leaving the bridge on the Exxon Valdez on March 23 1989  
 while  
 (4) the vessel was outside of the traffic lanes diverting ice and  
 (5) heading towards Bligh Reef?  
 (6) A I have  
 (7) MR SANDERS Objection Your Honor I think this is a  
 (8) little far outside the expertise that he's stated here in this  
 (9) courtroom  
 (10) THE COURT Mr Montague it strikes me that it goes  
 (11) beyond  
 (12) MR MONTAGUE Let me ask it a different way if I  
 (13) might  
 (14) THE COURT All right  
 (15) BY MR MONTAGUE  
 (16) Q Doctor have you formed an opinion as to whether Captain  
 (17) Hazelwood's alcoholism impaired his judgment on the night of  
 (18) March 23 1989?  
 (19) MR SANDERS It's closer Your Honor but -  
 (20) THE COURT I'm going to let him try it  
 (21) BY MR MONTAGUE  
 (22) Q Have you formed an opinion first?  
 (23) A About whether alcoholism impaired -  
 (24) Q No impaired his judgment?  
 (25) A I have

Vol 15 2284

- (1) Q And what is your opinion?  
 (2) A I believe it did  
 (3) Q And can you tell us in succinct terms how you reached that  
 (4) opinion?  
 (5) A Well it - obviously basic to that opinion is the fact  
 (6) that I think that Captain Hazelwood had returned to an  
 abnormal  
 (7) pattern of drinking by that time and that he was actively  
 (8) alcoholic and in full relapse of his drinking, for all the  
 (9) reasons that I've given On the afternoon - and was  
 (10) exercising poor judgment both with respect to his drinking  
 and  
 (11) with respect to his activities  
 (12) On the afternoon of March 23rd he drank an unknown  
 amount  
 (13) of alcohol in Valdez in the company of his chief radio  
 operator  
 (14) and his chief engineer and led them in a violation of the  
 Coast  
 (15) Guard rule It seems to me that for -  
 (16) MR SANDERS Now we're far afield now It's not his  
 (17) field of expertise as to whether there's a violation of the  
 (18) four hour rule and those kind of things and I think he's  
 (19) answered the question  
 (20) MR MONTAGUE He's stating his basis  
 (21) THE COURT He's stating his basis  
 (22) Ladies and gentlemen you are the deciders of the facts in  
 (23) this case and you all have a dispute in the evidence that  
 (24) you're going to have to deal with as to whether or not the  
 (25) Coast Guard rules were violated That's a decision you're

Vol 15 2285

- (1) going to have to make at some point  
 (2) This witness is going to offer some testimony about that  
 (3) but whether or not - he isn't the one who's going to decide  
 (4) whether those rules were violated You're the ones that are  
 (5) going to do that  
 (6) Go ahead Mr Montague  
 (7) THE WITNESS Perhaps I could say by drinking within  
 (8) four hours of going back on the ship And then coming back on  
 (9) the ship Captain Hazelwood is - his behavior in leaving the  
 (10) bridge that night was so uncharacteristic he is known as a -  
 (11) MR SANDERS Objection again Now he's  
 (12) testifying over in the area of seamanship  
 (13) MR MONTAGUE Okay Okay  
 (14) BY MR MONTAGUE  
 (15) Q Apart from - we've heard all kinds of testimony about what  
 (16) happened on the ship that night and I'm asking you Doctor if  
 (17) you can - as on the basis of his behavior leading up to that  
 (18) night not what happened once he got on the bridge but his  
 (19) behavior leading up to the night he boarded the vessel if  
 (20) that's sufficient for you to form an opinion as to whether his  
 (21) judgment was impaired that evening?  
 (22) A Yes  
 (23) Q Okay Can you do that and can you tell us?  
 (24) A I can try yes  
 (25) Q Thank you

Vol 15 2286

- (1) A Well I would be repeating myself to say that I think his  
 (2) judgment was impaired by the way that I have heard the  
 accounts  
 (3) of - the various accounts of his drinking that afternoon  
 And  
 (4) so that in itself under the circumstances of his  
 backgrounds  
 (5) treatment development of his disease progression of it  
 would  
 (6) indicate to me that his judgment that afternoon was indeed  
 (7) impaired  
 (8) Q Now the fact that he was able to walk up the gangplank  
 (9) when he boarded the ship does that have an effect on your  
 (10) judgment?  
 (11) A No  
 (12) Q And the fact that persons on the vessel will testify that  
 (13) they saw him and he looked perfectly fine does that have an  
 (14) effect on your opinion?  
 (15) A No  
 (16) Q Captain - Dr O Connor have you formed an opinion as to  
 (17) whether Exxon's - Exxon contributed in Captain Hazelwood's  
 (18) failure in recovery?  
 (19) MR SANDERS I object to that question  
 (20) Contributed?  
 (21) THE COURT Try the question another way There may  
 (22) be a way that you could get at this from a medical standpoint  
 (23) but that's where your focus needs to be  
 (24) MR MONTAGUE That's correct  
 (25) BY MR MONTAGUE

Vol 15 2287

- (1) Q Dr O Connor have you reviewed Exxon's reactions to  
 (2) Captain Hazelwood from 1985 up to March 23 1989?  
 (3) A Yes I have  
 (4) Q And do you have an opinion as to how those actions affected  
 (5) Captain Hazelwood in his alcoholism?  
 (6) A Yes I do  
 (7) Q Could you tell us that briefly?  
 (8) A It goes back initially to the return to work of Captain  
 (9) Hazelwood in August of 1985 when the criteria for return to  
 (10) work was successful completion of treatment for his  
 (11) alcoholism And Captain Hazelwood has himself said that he  
 (12) dropped out of treatment after six weeks and therefore, in  
 my  
 (13) opinion -  
 (14) MR SANDERS Object to this as the  
 (15) mischaracterization of the testimony Again I - maybe the  
 (16) jury should -  
 (17) THE COURT The jury will have to decide what the  
 (18) facts are but I'm going to allow the Doctor to testify as to  
 (19) his opinion but if his recitation of the facts does not  
 (20) comport with yours you will have to ignore the opinion  
 (21) You may go ahead  
 (22) THE WITNESS Yes sir That he had dropped out of  
 (23) treatment at the end of June or the beginning of July and that  
 (24) he had indicated to Captain Mark Pierce that his medical  
 (25) treatment had been curtailed over the summer And that

Vol 15 2288

- (1) indicates to me that he had not in fact successfully  
 (2) completed -  
 (3) **MR SANDERS** Objection Your Honor That s not only  
 (4) a mischaracterization of the evidence it s a making up of  
 (5) evidence  
 (6) Can we approach the bench Your Honor?  
 (7) **THE COURT** No I m going to allow him to testify  
 (8) But I say again if his recollection or recitation of the facts  
 (9) does not comport with yours you will ignore his opinion on  
 (10) this subject  
 (11) Why don t you ask another question Mr Montague and help  
 (12) focus this  
 (13) **MR MONTAGUE** Okay  
 (14) **BY MR MONTAGUE**  
 (15) Q Specifically let me ask you this question Based on your  
 (16) experience if Captain Hazelwood had been properly evaluated  
 (17) before being assigned to the Yorktown in 1985 could Exxon  
 have  
 (18) discovered the signs of his failure in recovery?  
 (19) A I believe so  
 (20) Q And do you have an opinion as to whether there were  
 (21) sufficient signs available to Exxon to detect Captain  
 (22) Hazelwood s failure to recover when Exxon reassigned the  
 (23) captain to the Exxon Valdez in 1987?  
 (24) A I believe there were  
 (25) Q And had Exxon looked properly could they have found  
 those

Vol 15 2289

- (1) signs?  
 (2) A I believe they could  
 (3) Q By the way is it accepted professional conduct in your  
 (4) field to require an evaluation of someone who has gone  
 through  
 (5) alcohol treatment on the basis of rumor?  
 (6) A Yes  
 (7) Q Particularly with when that person is in a safety sensitive  
 (8) position?  
 (9) A That s correct  
 (10) Q Is that normal in your experience?  
 (11) A Yes it is normal Aggressive investigation of rumors  
 (12) about drinking ought to, under circumstances of a person  
 after  
 (13) evaluation trigger a medical evaluation of their recovery  
 (14) status at the time  
 (15) Q Okay Now one last question Based upon all of your  
 (16) testimony today and what you ve heard in this courtroom and  
 (17) based on the signs that were available to Exxon do you have an  
 (18) opinion as to whether Exxon should have allowed Captain  
 (19) Hazelwood to be the master on the Exxon Valdez as it left San  
 (20) Francisco in March of 1989?  
 (21) A I do  
 (22) Q And what is your opinion?  
 (23) A I believe that Exxon should not have permitted him to  
 leave  
 (24) San Francisco as master of the Exxon Valdez on that date  
 (25) **MR MONTAGUE** Thank you very much Doctor

Vol 15 2290

- (1) **THE COURT** You may cross examine  
 (2) **MR SANDERS** Your Honor I ll need a second to  
 (3) collect things  
 (4) **THE COURT** Sure  
 (5) **MR SANDERS** May I approach the witness Your Honor?  
 (6) **THE COURT** You may  
 (7) **MR SANDERS** I have here a copy of your deposition  
 (8) transcript You might need that I would also like  
 (9) to have handy a copy of Exhibit 10 to put up on the screen at  
 (10) some point  
 (11) **CROSS EXAMINATION OF GARRETT O CONNOR M D**  
 (12) **BY MR SANDERS**  
 (13) Q Dr O Connor I was watching you while you testified and I  
 (14) remember your testimony about being involved in the  
 production  
 (15) of some films and I was watching you look over talking to the  
 (16) jury You re an actor aren t you?  
 (17) A I have been an actor in the past, yes I m not doing  
 (18) acting these days  
 (19) Q Well is there any treatment for getting over the disease  
 (20) of acting? Do you relapse into acting?  
 (21) A I am not familiar with acting as a disease That s a new  
 (22) concept to me  
 (23) Q As a matter of fact you were an actor in certain  
 (24) television shows?  
 (25) A That s true

Vol 15 2291

- (1) Q You were an actor on the stage?  
 (2) A That s true  
 (3) Q You were an actor in the movies?  
 (4) A That s true  
 (5) Q And as a matter of fact you re a member of the Actors  
 (6) Equity?  
 (7) A That s correct  
 (8) Q Still a member?  
 (9) A That s correct  
 (10) Q And the Actors Equity is what?  
 (11) A The Actors Equity is an associate - professional  
 (12) association of actors in the United States  
 (13) Q Does that include actors who have speaking roles as well  
 (14) as just actors who don t speak?  
 (15) A Yes it does  
 (16) Q Is the Actors Equity is that just for actors with speaking  
 (17) roles?  
 (18) A I m not sure of that but it certainly is for actors with  
 (19) speaking roles  
 (20) Q Now you have - you have had - you are a paid expert here  
 (21) for the - for the plaintiffs and these lawyers here right?  
 (22) A That s correct  
 (23) Q And in addition to that you have also attended other  
 (24) depositions of other people in the case correct?  
 (25) A Yes I have

Vol 15 2292

- (1) Q And at times you've suggested questions for the lawyers to ask at these depositions have you not?
- (2) A Well I've attended depositions and - of Dr Mendelsohn an expert witness in the case and I have advised the lawyers during - as an expert during those depositions about topic material that might be coming up
- (3) Q Did you suggest any questions that was my question
- (4) A Passed notes to my - the attorney taking the deposition about areas that might be coming up topic areas and I think I did probably suggest a question from time to time about what might lead to further clarification of the facts
- (5) Q From time to time right?
- (6) A From time to time
- (7) Q And you also participated did you not in some - shall we call them strategy sessions with the lawyers for the plaintiffs?
- (8) A I did not
- (9) Q You did not? Did you help select Dr Smith who testified here the other day?
- (10) A The - yes I did
- (11) Q And did you help -
- (12) A Well I did not help select Dr Smith
- (13) Q Well you suggested his name?
- (14) A I recommended Dr Smith when I was asked if I knew experts in the field Yes I recommended his name

Vol 15 2293

- (1) Q And you also suggested Dr Masters who may testify here tomorrow?
- (2) A The same reason knowing him to be an expert in that particular area I suggested his name I also suggested the names of others
- (3) Q And so you're - are you a - could we also call you a consultant in - as well as an expert in this case?
- (4) A Well I called myself a consultant at one point in this case in a deposition when asked because I had made these recommendations
- (5) Q Do you get paid differently for being a consultant than from an expert?
- (6) A No, sir
- (7) Q Now your practice that you were talking about your current practice and I'm talking about your medical practice now that's - that's a one man practice in Los Angeles right?
- (8) A Yes it is
- (9) Q And you've been up here since what first of May?
- (10) A No I arrived here on I think the 9th of May
- (11) Q Been up here since then?
- (12) A Yes
- (13) Q Who's minding the store?
- (14) A Sorry?
- (15) Q Back in L A
- (16) A I have two people who are standing in for me two

Vol 15 2294

- (1) colleagues for emergencies as my practice is essentially an evaluation and referral practice I have no on-going treatment
- (2) responsibilities and so these physicians are standing in for me to take care of any emergencies that might arise That's routine practice when a physician is away from the office
- (3) MR SANDERS Could I have a picture of Plaintiffs Exhibit 10 please sir?
- (4) BY MR SANDERS
- (5) Q Doctor I'm going to ask that they bring up on the screen Plaintiffs Exhibit Number 10 which we've all started to refer to as the IDR And if you could if someone with know how would blow up the typed portion there in the middle of the page
- (6) MR CHALOS You need my help?
- (7) MR SANDERS No thank you Mr Chalos Thank you I can operate this
- (8) BY MR SANDERS
- (9) Q This refers right after these code numbers that you talked about in your direct to DSM III?
- (10) A Yes
- (11) Q You are familiar with what DSM III is are you not Doctor?
- (12) A I am
- (13) Q And what is - what does DSM stand for?
- (14) A Diagnostic and Statistical Manual

Vol 15 2295

- (1) Q And is that a publication that is put out for doctors for diagnosis and guidance and to put - well just tell us
- (2) What's the purpose of DSM?
- (3) A The Diagnostic and Statistical Manuals, it's a series of manuals that are put out by the American Psychiatric Association for - as guides to diagnosis of psychiatric disorders They are specifically for the use of doctors, clinicians therapists insurance companies and anybody else concerned with these matters
- (4) Q And is one of the purposes of this so everybody knows what doctors are talking about when they say that somebody is diagnosed as this or that or something else?
- (5) A They are guides to diagnosis
- (6) Q And they're also guides to understanding what a diagnosis is once the doctor has made the diagnosis aren't they?
- (7) A They have a symptom - they set out signs and symptoms and set out parameters boundaries for making a diagnosis of behavior in patients yes
- (8) Q But my question to you is people like government and insurance companies and maybe even lawyers every now and then will - can use this to determine what a doctor meant when he said this patient is diagnosed as a so and so right?
- (9) A Yes
- (10) Q Have some uniformity of definition correct?
- (11) A An attempt to achieve uniformity of definition would be a

Vol 15 2296

- (1) better way to put it  
 (2) Q And DSM III has - has undergone changes has it not?  
 (3) A Yes, it has  
 (4) Q And in 1985 DSM III was the - the bible correct?  
 (5) A That is not the way any - I've ever heard it described  
 (6) before In fact, it is specifically not described as the  
 (7) bible It is an attempt to achieve and approximate some  
 kind  
 (8) of way of understanding these very complex issues which,  
 as Dr  
 (9) Gould said in his testimony are indeed complex and  
 (10) indefinite  
 (11) Q The Diagnostic and Statistical Manual the only one of  
 (12) these DSMs that was in existence in 1985 in the areas that  
 (13) we ll dealing with was DSM III right?  
 (14) A Of the DSMs There were other diagnostic manuals in  
 (15) existence and used widely elsewhere yes  
 (16) Q The only one of the DSMs was DSM III right?  
 (17) A At that time in 1985  
 (18) Q Right And then later on in I think 1987 there was a  
 (19) revision to DSM III and that was DSM III R right?  
 (20) A That's correct  
 (21) Q Now under DSM III which was in existence in 1985 did  
 (22) DSM III refer to alcohol dependence and alcoholism as  
 (23) synonymous terms?  
 (24) A As I recall from DSM III in 1985 what it said was that  
 (25) alcohol dependence was sometimes called alcoholism

Vol 15 2297

- (1) Q All right In other words as you ve testified in your  
 (2) deposition those were used synonymously in DSM III?  
 (3) A Just said what the DSM III said yes  
 (4) Q Did you testify Doctor at your deposition that they re  
 (5) used synonymously?  
 (6) A Oh I beg your pardon in my deposition you'd have to  
 show  
 (7) me my deposition to -  
 (8) Q Well look at page 197 lines like two and a half to first  
 (9) word in line five '  
 (10) A Page 197?  
 (11) Q Yes sir And I ll ask you if you didn t say in there -  
 (12) well let me give you a chance to get there first Are you at  
 (13) page 197?  
 (14) A Yes  
 (15) Q And looking on about halfway down line two in DSM III the  
 (16) term alcoholism it is noted that the term alcoholism and  
 (17) alcohol dependence are often used synonymously right? Isn t  
 (18) that what you said?  
 (19) A May I just look at the context here?  
 (20) Q It was kind of a side comment you made in describing  
 (21) something else Didn t you use those words that I just read?  
 (22) A Well I was talking about -  
 (23) Q Well Doctor I m not asking you what you were talking  
 (24) about  
 (25) A Well I need to put it in context Mr Sanders

Vol 15 2298

- (1) MR SANDERS Well you can ask the Court s permission  
 (2) for that but I would like to stick this witness particularly  
 (3) Your Honor to what he actually said  
 (4) MR MONTAGUE I think he s entitled to put his answer  
 (5) in context  
 (6) THE COURT He s entitled to have the entire answer  
 (7) put in if there s more to the answer than just what was cited  
 (8) Is there more to the answer?  
 (9) MR SANDERS Well it s - he can read it if you -  
 (10) the Court wishes I will need to be careful about this in  
 (11) other areas But there s no problem with him reading - I ll  
 (12) read the whole answer if the Court wishes  
 (13) THE COURT All right  
 (14) MR MONTAGUE Your Honor maybe we ought to have a  
 (15) side bar because I see that this is one of those troubled  
 (16) areas we were talking about  
 (17) THE COURT Well if it gets into an area that I ve  
 (18) ruled out it s going to have to stay out  
 (19) Doctor review your entire answer and then tell us whether  
 (20) or not you -  
 (21) THE WITNESS I could not answer the question without  
 (22) getting into one of those areas Your Honor It is  
 (23) specifically mentioned here in the answer  
 (24) MR SANDERS I ll move on  
 (25) THE COURT Thank you sir

Vol 15 2299

- (1) BY MR SANDERS  
 (2) Q Well you can t - you can t go into the context without  
 (3) getting into these other areas You could answer the question  
 (4) did you say those words?  
 (5) A The context is in the same sentence Mr Sanders  
 (6) Q Okay okay  
 (7) A Not the same paragraph or page same sentence  
 (8) Q Now isn t it a fact Doctor that Captain Hazelwood did  
 (9) not meet the definition of alcohol dependence alcoholism in  
 (10) the 1985 DSM III? Isn t that a fact?  
 (11) A I have no idea as to whether it's a fact or not  
 (12) Q Well didn t you say that about three or four times in your  
 (13) deposition that he did not meet that definition?  
 (14) A You'd have to show me where I said that and let me  
 inspect  
 (15) the context  
 (16) MR SANDERS Can we have a side bar?  
 (17) (At side bar off the Record)  
 (18) THE COURT We re going to take our second break now  
 (19) ladies and gentlemen I think we have this matter sorted out  
 (20) but we re going to take our break now any way to make sure  
 (21) Please don t have any discussions about the case during our  
 (22) recess and we ll reconvene in 15 minutes  
 (23) THE CLERK This court is in recess for 15 minutes  
 (24) (Jury out at 11 55 a m )  
 (25) (Jury in at 12 12 p m )

Vol 15 2300

(1) **THE CLERK** All rise His Honor the Court this  
 (2) United States District Court is again in session  
 (3) Please be seated  
 (4) **BY MR SANDERS**  
 (5) Q Dr O Connor let me attempt to repeat my last question to  
 (6) you Didn t you in fact say at your deposition on the 22nd of  
 (7) April 1994 that Captain Hazelwood did not in my opinion meet  
 (8) the criteria under alcohol dependency DSM III at that time  
 (9) referring to 1985?  
 (10) A Yes, I did as you showed me  
 (11) Q Now I think it s obvious but I want to make sure  
 (12) DSM III R was not in existence in 1985 when Captain  
 Hazelwood  
 (13) sought treatment was diagnosed and treated by Dr Vallury?  
 (14) A That's correct  
 (15) Q All right And then you also mentioned another definition  
 (16) or basis for your definition of alcoholism and that was one  
 (17) that your society worked two years on right?  
 (18) A That's correct  
 (19) Q And that wasn t published until 1992 was it?  
 (20) A I think it was earlier than that but certainly in the  
 (21) '90s yes  
 (22) Q Wasn t it published by the Journal of American Medicine in  
 (23) 1992?  
 (24) A No it was published originally by the American Society of  
 (25) Addiction Medicine in 1990 and it was commented upon  
 and

Vol 15 2301

(1) **republished in the Journal of the American Medical  
 Association**  
 (2) **in 1992**  
 (3) Q In any event whether it was five or seven years it was  
 (4) long after 1985 correct?  
 (5) A It was 1990 yeah  
 (6) Q And certainly after the grounding?  
 (7) A Yes  
 (8) Q Now you mentioned during your direct that you recognized  
 (9) that there were - on the question of whether someone who has  
 (10) had an alcohol problem can return to social drinking or  
 (11) controlled drinking there were two schools of thought right?  
 (12) A Actually, I said that alcoholics - I was talking about  
 (13) alcoholics being able to return to social or controlled  
 (14) drinking, yes  
 (15) Q Be even more true for people that had a drinking problem  
 (16) that didn t reach the level of alcoholism wouldn t it I would  
 (17) assume?  
 (18) A What would be more true that they could return to social  
 (19) drinking?  
 (20) Q Right  
 (21) A Well, in my belief there is no good evidence to suggest  
 (22) as I said that you can tell in advance who can return to  
 (23) social drinking and who can't  
 (24) Q I understand what your position is but I m only asking you  
 (25) if you recognize that there is a school of thought that is not

Vol 15 2302

(1) like yours?  
 (2) A Well of course there is  
 (3) Q Yeah  
 (4) A But in response to your question -  
 (5) Q That was my question There is one isn t there? And you  
 (6) said most of the people in it are psychologists but there are  
 (7) psychiatrists in that school of thought aren t they?  
 (8) A I mentioned them too  
 (9) Q And those psychiatrists in that school of thought are in  
 (10) fact well respected well educated highly trained doctors?  
 (11) A-That's true  
 (12) Q And you mentioned the Rand report Now the Rand report  
 (13) was a study of only alcoholics primary diagnosis of  
 (14) alcoholics right that s all they studied?  
 (15) A The Rand report, the subjects were mostly alcoholics,  
 (16) that's true  
 (17) Q Mostly weren t they all alcoholics primary diagnosis of  
 (18) alcoholic ?  
 (19) A Of alcohol dependence  
 (20) Q So the answer to my question is yes?  
 (21) A Yes  
 (22) Q All of them were correct?  
 (23) A That's true  
 (24) Q Now you have told us an awful lot about AA in connection  
 (25) with your various and sundry opinions and you talk about

Vol 15 2303

(1) membership in AA Is there a membership right for AA? Do you  
 (2) get a card?  
 (3) A No  
 (4) Q Membership in AA is going to AA meetings correct?  
 (5) A And participating in the program  
 (6) Q Right?  
 (7) A The other aspects of AA yes  
 (8) Q But there s no formal thing as a membership in AA?  
 (9) A There is no rule for membership no  
 (10) Q And the fact that -  
 (11) A Except the desire to stop drinking  
 (12) Q And as a matter of fact people can go to AA for whatever  
 (13) purpose they wish do they not?  
 (14) A That's true  
 (15) Q Matter of fact there are people with problems which have  
 (16) nothing to do with alcohol that regularly go to AA?  
 (17) A I don't know that to be a fact  
 (18) Q Do you know it to be a fact that there are people who do go  
 (19) to AA who do not have any alcohol problem whatsoever?  
 (20) A I don't - I don't know anybody of that sort  
 (21) Q Well when someone goes to AA AA does not ask them why  
 (22) they are there does it?  
 (23) A AA does not have the capacity to ask anybody AA is  
 simply  
 (24) an organization of people It has no official position to ask  
 (25) anybody anything

Vol 15 2304

- (1) Q Well is it a principle of AA that goes all the way back to  
 (2) the gentleman that you referred to earlier that you  
 (3) shouldn't - people in AA shouldn't ask people why they are  
 (4) there?  
 (5) A I do not know of such a principle  
 (6) MR SANDERS If you'd indulge me just a moment Your  
 (7) Honor  
 (8) BY MR SANDERS  
 (9) Q Let me ask you to refer to your deposition page 1372?  
 (10) A 1372?  
 (11) Q 1372 The date - it is the last volume about a month  
 (12) ago Are you having trouble locating it?  
 (13) A I have it here I had the wrong package Yes  
 (14) Q Let me ask you if the following question was asked and the  
 (15) following answer given by you after some discussion between  
 (16) the  
 (17) lawyers  
 (18) Question What if a person goes to AA and has a desire to  
 (19) cut down drinking, that's why he goes to cut down not to stop  
 (20) completely and as a result of going to AA does in fact cut  
 (21) down on drinking would he meet the criteria under this  
 (22) diagnostic criteria if that were the case  
 (23) Answer Well the answer to that question the best I can  
 (24) do is that people go to AA for their own purposes One of the  
 (25) things about AA it never asks why a person is there Bill  
 (26) Wilson the founder of AA said that what kind of an

Vol 15 2305

- (1) organization do we have that a person can be a member just  
 (2) because they say they are  
 (3) Was that question asked and did you give that answer on  
 (4) April the 22nd 1994?  
 (5) A I did but I would - I did give that answer as you read  
 (6) it but in the context of what comes before and afterwards I  
 (7) think there would be some illumination of that answer, but  
 (8) that  
 (9) is certainly what Bill Wilson said but it couldn't affect what  
 (10) I've already said I believe  
 (11) Q You said that didn't you?  
 (12) A I did say that yes and Bill Wilson said it too  
 (13) Q Now you've also mentioned denial Well let me back up  
 (14) I got one more question on AA The fact that a person goes to  
 (15) AA or the fact that a person is referred to AA is certainly not  
 (16) the equivalent of a diagnosis of alcohol dependence is it?  
 (17) A No it is not  
 (18) Q All right Let me go to denial In fact Doctor denial  
 (19) is universal in the psychology of almost all individuals that  
 (20) you're familiar with?  
 (21) A Yes it is  
 (22) Q All of us have denial?  
 (23) A That's true  
 (24) Q All of us experience denial?  
 (25) A That's true  
 (26) Q It's a defense mechanism isn't it?

Vol 15 2306

- (1) A As I said it was yes  
 (2) Q And it's by no means a condition specific to alcohol  
 (3) problems is it?  
 (4) A No It exists in other problems as well  
 (5) Q Now let me understand let all of us understand what  
 (6) you're doing here What you've testified to  
 (7) Captain Hazelwood went to treatment at a psychiatric  
 (8) hospital is that correct is that a fair characterization of  
 (9) South Oaks?  
 (10) A An alcoholism treatment unit in a psychiatric hospital  
 (11) It's a comprehensive psychological treatment center  
 (12) Q Comprehensive alcohol treatment center diagnostic alcohol  
 (13) treatment center?  
 (14) A Correct  
 (15) Q Did that in 1985?  
 (16) A That's correct  
 (17) Q And when he went in there he was seen treated for 28  
 (18) days?  
 (19) A In a 28 day alcoholism rehabilitation program  
 (20) Q Stayed there for 28 days?  
 (21) A Yes  
 (22) Q And his treating physician Dr Vallury - can I have PX10  
 (23) again - made a diagnosis correct?  
 (24) A That's correct  
 (25) Q And that doctor's diagnosis was right up here on this IDR

Vol 15 2307

- (1) right?  
 (2) A That's where it is, yes  
 (3) Q And 300 40, as you've said in your earlier testimony is  
 (4) dysthymic disorder?  
 (5) A Dysthymic disorder and mild depression yes  
 (6) Q And 305 02 is alcohol abuse episodic?  
 (7) A That's correct  
 (8) Q Which is different under DSM III than alcohol dependence or  
 (9) alcoholism is it not?  
 (10) A Under DSM III, yes, it is  
 (11) Q That's what Dr Vallury was using isn't it?  
 (12) A That's true  
 (13) Q Quite obviously?  
 (14) A That's true  
 (15) Q Couldn't have used DSM III yet because it wasn't there yet?  
 (16) A That's correct  
 (17) Q Couldn't use your societies definition because it wasn't  
 (18) there yet?  
 (19) A That's correct  
 (20) Q So what you're doing is you're coming in here now nine  
 (21) years later and saying you disagree with that diagnosis  
 (22) correct?  
 (23) A That is a - in my opinion because it is a diagnosis that  
 (24) exists only 16 days after Captain Hazelwood's admission to  
 (25) the  
 (26) hospital is at this point and two weeks before his  
 discharge

Vol 15 2308

- (1) still a provisional diagnosis  
 (2) Q As far as that IDR is concerned?  
 (3) A As far as the IDR's concerned yes  
 (4) Q Now you have never had Captain Hazelwood as a patient  
 (5) have you?  
 (6) A No I have not  
 (7) Q And you have never seen him except in this courtroom or  
 (8) maybe out there in the hallway have you?  
 (9) A That's true  
 (10) Q And moreover you're using a definition that wasn't even in  
 (11) existence in the DSM III at the time the doctor made the  
 (12) diagnosis isn't that a fact?  
 (13) A In the DSM III the diagnosis of alcohol abuse episodic  
 (14) was  
 (15) in existence as also dependence And as I said earlier on  
 (16) Dr Gould - the terms alcoholism alcohol abuse were in  
 (17) general use clinical use widely used interchangeably, even  
 (18) though the parameters in the DSM III were as they - are as  
 (19) we're discussing but the terms alcoholism alcoholic and  
 (20) so on  
 (21) were even then very widely used interchangeably In fact  
 (22) the  
 (23) reference here on the IDR is indeed to alcoholism on the  
 (24) IDR  
 (25) lectures for alcoholism  
 (26) Q Doctor let me try it again The definition that you gave  
 (27) this jury just this morning was a definition that you said came  
 (28) from your society that worked on it in 1990 isn't that  
 (29) correct?

Vol 15 2309

- (1) A That's correct  
 (2) Q And that definition quite obviously was not in existence  
 (3) in 1985?  
 (4) A That's correct but as I -  
 (5) Q And in fact Doctor DSM III which was in existence in  
 (6) 1985 made a distinction between alcohol dependence and  
 (7) alcohol  
 (8) abuse episodic did it not?  
 (9) A It did and the connection between the definition I gave  
 (10) today and the definitions in DSM III R was because of  
 (11) dissatisfaction with that distinction in DSM III and the  
 (12) definition I gave today takes that into account and updates  
 (13) the  
 (14) signs and symptoms and the clinical situation to make it  
 (15) more  
 (16) understandable  
 (17) Q Well you have no idea whatsoever whether Dr Vallury was  
 (18) dissatisfied with that definition or not do you?  
 (19) A I do not know  
 (20) Q Now -  
 (21) A Dr Vallury said as a matter of fact in his deposition  
 (22) that any alcoholism - and he used the word any alcoholism  
 (23) -  
 (24) in his view would merit treatment, a prescription as he  
 (25) gave,  
 (26) which is classical for alcoholism And he also said that, in  
 (27) his view lifetime abstinence was indicated for any  
 (28) alcoholism  
 (29) and to him it didn't seem to make any difference  
 (30) Q Well the jury has heard Dr Vallury's testimony and if  
 (31) you'll recall Doctor after he said that he said I'm just

Vol 15 2310

- (1) being general now I'm not being specific because I don't  
 (2) recall Captain Hazelwood or his treatment or what I told him  
 (3) Do you remember that?  
 (4) A Well he said he would say to anybody that they should  
 (5) have  
 (6) lifetime abstinence a day at a time and he said he would say  
 (7) that generally but he said it would indeed apply to Captain  
 (8) Hazelwood He didn't use him by name but he implied that  
 (9) Q You inferred it he didn't comply it?  
 (10) A No he complies it through his IDA His prescription here  
 (11) is for AA which is obviously for abstinence aftercare and  
 (12) his  
 (13) prescription for lectures on alcoholism and he  
 (14) recommends  
 (15) lifetime abstinence for people with that diagnosis  
 (16) Q Are you finished Doctor?  
 (17) A Yes I am  
 (18) Q Let me ask you about your testimony about Exxon Now do  
 (19) you believe it is good for a company to have an alcohol  
 (20) (17) policy?  
 (21) A Yes I do  
 (22) Q And do you believe it is good for a company to prohibit the  
 (23) use of alcohol on company property like a ship?  
 (24) A Yes I do  
 (25) Q You agree with that don't you? And do you believe that  
 (26) it is good for a company to encourage people who think they  
 (27) may  
 (28) have a problem to come forward for treatment to get help?  
 (29) A Yes I do

Vol 15 2311

- (1) Q And do you believe it is good for that company which has  
 (2) encouraged those people to come forward to treat the fact that  
 (3) they came forward the fact of whatever the problem is and  
 (4) whatever treatment they get as a matter of confidentiality?  
 (5) That's good isn't it?  
 (6) A When they come forward and are describing their  
 (7) problems in  
 (8) a medical sense and in the therapeutic sense of the  
 (9) employee  
 (10) assistance program confidentiality should be maintained  
 (11) Q And it also is good is it not for a company to say to a  
 (12) person who came forward that the fact that you're coming  
 (13) forward is not going to jeopardize your job security or your  
 (14) job future that mere fact that you came forward and sought  
 (15) help for a problem isn't that good?  
 (16) A Well that depends  
 (17) Q Well did you say it depended in your deposition or did  
 (18) you say that it was good for no employee - for no employee to  
 (19) have job security or future job opportunities jeopardized  
 (20) because of treatment?  
 (21) A Yes In general I think that's the case, but I say it  
 (22) depends because there are some small exceptions to that  
 (23) But  
 (24) in general it is the case  
 (25) Q It is the case?  
 (26) A Yes  
 (27) Q And it's also good is it not for supervisors of employees  
 (28) who have had problems and had treatment and had aftercare  
 (29) for

Vol 15 2312

- (1) those supervisors to look only at job performance and not get  
 (2) into the business of trying to diagnose people for which they  
 (3) are absolutely unqualified?  
 (4) A Well, again, I said that in my deposition and, in general,  
 (5) supervisors should oversee performance. It's slightly  
 (6) different after known treatment when supervisors who may  
 be  
 (7) looking for not only just performance on the job but  
 (8) performance in recovery when they know that an individual  
 has  
 (9) been in rehabilitation and part of his responsibility as a  
 (10) professional is to comply with the recovery requirements,  
 as  
 (11) well as the ordinary requirements of his job. In that case,  
 (12) people who are working with him ought to know of course  
 (13) about his rehabilitation and ought to be in a position not to  
 (14) make a diagnosis, because that's a medical function, but  
 (15) certainly to oversee and supervise not only his strict job  
 (16) performance, part of his job performance after  
 rehabilitation  
 (17) becomes responsible performance in recovery, which must  
 be then  
 (18) supervised  
 (19) Q In light of that and in light of your testimony that you  
 (20) gave about what Exxon could have seen - by the way, did you  
 (21) ever talk to any Exxon people about what they saw?  
 (22) A I beg your pardon?  
 (23) Q Did you ever talk to any of these Exxon people?  
 (24) A No, I did not.  
 (25) Q But in light of what you've said about those people that

Vol 15 2313

- (1) you never talked to or met and in light of what you just said  
 (2) let me ask you about your own experience. Now you - you  
 (3) diagnosed yourself as an alcoholic in 1977, that's your  
 (4) testimony?  
 (5) A 1976  
 (6) Q 76-77, whatever, 76 now?  
 (7) A Well, I diagnosed myself as an alcoholic and left my job at  
 (8) UCLA because of that diagnosis and in the period between  
 (9) November 1976 when I resigned my faculty position at  
 UCLA  
 (10) because of the trouble in my life because of my alcoholism  
 I  
 (11) then - it was two or three months before I joined AA but by  
 (12) that time I had diagnosed myself as an alcoholic. My  
 sobriety  
 (13) date was 1977  
 (14) Q 77?  
 (15) A Yeah  
 (16) Q That's what caused me to wonder about that  
 (17) A I understand  
 (18) Q You didn't go into any treatment, did you?  
 (19) A No, I did not. I went straight to Alcoholics Anonymous  
 (20) Q And -  
 (21) A At that time I had treatment later on  
 (22) Q And in 1980 I believe you applied for a medical license  
 (23) in California?  
 (24) A That's true  
 (25) Q And at the time that you applied, you didn't tell them you

Vol 15 2314

- (1) were an alcoholic, did you?  
 (2) A Nobody asked me  
 (3) Q But you didn't tell them, did you?  
 (4) A There was no way to do so  
 (5) Q Just absolutely impossible for you to have communicated  
 (6) that fact to the authorities in California?  
 (7) A I was a recovering alcoholic with three years of sobriety  
 (8) at the time, and there was no particular reason to tell  
 anybody  
 (9) about that  
 (10) Q And I believe also in 1980 you applied for a pilot's  
 (11) license?  
 (12) A That's true  
 (13) Q All right. Now would you agree with me, Doctor, that a  
 (14) physician who has the authority, the power, the privilege to  
 (15) prescribe medication to patients and to see patients who have  
 (16) trouble in their lives is a safety sensitive job?  
 (17) A Yes, indeed  
 (18) Q And I assume you would likewise agree with me that a pilot  
 (19) of an airplane of whatever size, is in a safety sensitive job  
 (20) correct?  
 (21) A That's correct  
 (22) Q And when you applied for your FAA license, you didn't tell  
 (23) them you were an alcoholic, did you?  
 (24) A There was no requirement that I should do so. I told them  
 (25) later on in 1983. There was no requirement in 1980 that I

Vol 15 2315

- (1) should do so  
 (2) Q Doctor, did you tell them? Did you tell them?  
 (3) A There was no requirement that I should do so  
 (4) Q Yes or no?  
 (5) A I did not. There was no way I could have told them  
 (6) Q Now, after you became a doctor - well, at some point you  
 (7) did tell the California authorities that you were a recovering  
 (8) alcoholic, right?  
 (9) A That's correct  
 (10) Q And that's the medical authorities, within a year or so  
 (11) when you - they were hiring you to do some of this work with  
 (12) treatment at that point, you did tell them?  
 (13) A They were not hiring me. I was doing voluntary work at  
 (14) that time for the California State Diversion Program  
 (15) Q All right. You eventually told the FAA, too, when they  
 (16) hired you to be a consultant, that you were a recovering  
 (17) alcoholic?  
 (18) A That's not true. I told the FAA that I was an alcoholic  
 (19) when I was first asked to see pilots, and I felt that because  
 (20) of the integrity of my position that I should not see any pilot  
 (21) for an evaluation in a safety sensitive position without  
 (22) divulging by alcoholism to the FAA. At that time there was  
 no  
 (23) requirement that a self-diagnosed alcoholic should report  
 (24) anything to the FAA. The requirement was if you've had a  
 (25) diagnosis of alcoholism in a medical chart. And when I was

Vol 15 2316

- (1) asked to see the first alcoholic pilot who was paying his fees
- (2) not hired by the FAA I first of all asked - went to the medical director of the FAA and said I'm a recovering alcoholic with now five years of sobriety, what should I do?
- (3) Should I have a letter of authority in order to confirm my professional integrity? And I was given a sanction by the FAA
- (4) to perform that particular evaluation And since then I have worked closely with the FAA with full knowledge of my recovery, and they asked me to demonstrate as a matter of fact to them the reality of my successful recovery at that time before they said go ahead
- (5) Q Isn't it a fact Doctor that the FAA never monitored you?
- (6) A Monitoring was decided - it was decided that monitoring was not necessary because of my demonstrated five years of successful recovery in Alcoholics Anonymous
- (7) Q And isn't it a fact Doctor that the State of California the medical authority never monitored you?
- (8) A Medical authority hired me because I was a recovering alcoholic and in other areas at least permitted me to work voluntarily for them because I was a recovering alcoholic who
- (9) did not require monitoring because of demonstrated recovery in Alcoholics Anonymous
- (10) Q They didn't monitor you did they?
- (11) A There was no witness for them to do so and they didn't
- (12) MR SANDERS Can I have just a moment Your Honor?

Vol 15 2317

- (1) BY MR SANDERS
- (2) Q There's one piece of confusion here Didn't I understand you to say that an alcoholic is never cured?
- (3) A Once an alcoholic always an alcoholic yes
- (4) MR SANDERS No further questions
- (5) THE COURT Redirect?
- (6) MR MONTAGUE No questions Your Honor
- (7) THE COURT Thank you Dr O Connor You may step down
- (8) MR O NEILL Your Honor we're going to play the videotaped deposition of Ben Graves and just so that there's no confusion or tumult in the courtroom the deposition goes on for a while and then the witness looks different to an extent to where you don't think it's the same guy It is the same person Mr Graves was deposed in one setting and then three weeks later he was deposed again and his physical appearance
- (9) is different so just so that when you see it you don't say they goofed up on this tape I didn't goof up on the tape
- (10) THE COURT Okay
- (11) MR O NEILL I didn't goof up
- (12) DIRECT EXAMINATION OF BENJAMIN GRAVES (Video)
- (13) BY VIDEO EXAMINER
- (14) Q Mr Graves, for the record would you state your full name please?
- (15) A Benjamin Carter Graves Jr

Vol 15 2318

- (1) Q Sir where do you currently reside?
- (2) A I reside in Kingwood Texas
- (3) Q Could you tell us by whom you're currently employed?
- (4) A Exxon Company U S A
- (5) Q And in 1984 you were transferred to Exxon Shipping Company
- (6) here in Houston?
- (7) A Yes
- (8) Q Did you request that transfer?
- (9) A No It was -
- (10) Q Was that considered a promotion demotion any change in status at all?
- (11) A It wasn't a demotion It was either a lateral move or a promotion I don't remember
- (12) Q And what was the title you were to assume in 1984 with Exxon Shipping Company?
- (13) A Administrative manager
- (14) Q What were your duties as administrative manager with Exxon Shipping Company in 1984 through 1986?
- (15) A I was basically the human resource organization for Exxon Shipping Company
- (16) Q Can you be a little more specific as far as what your duties with human resource would entail at that time?
- (17) A Well it involved the labor relations activities compensation benefit administration general personnel activity manpower accounts let's see there was a personal

Vol 15 2319

- (1) staff I was involved in some safety and environmental issues
- (2) I think that's about it
- (3) Q Within the parameters of your duties during that time frame were you concerned with the safety and prevention of oil spills and safety of vessels and their crew?
- (4) A Oh well I guess everyone in the company is concerned about those types of things It wasn't one of our primary functions
- (5) Q Not a primary function but certainly something that you were of course cognizant of and concerned about?
- (6) A I'm sure
- (7) Q And then in July of 1986 you went back to Exxon U S A ?
- (8) A Yes
- (9) Q Since '86 - you might have already told me this I apologize if you have Since 1986 have you held the same position?
- (10) A Yes
- (11) Q Have your duties changed at all?
- (12) A Well, the organization's expanded quite a bit, but the essential duties are the same
- (13) Q While you were administrative manager with Exxon Shipping Company did you work with the drug and alcohol policy in existence for the company at that time?
- (14) A What do you mean work with?
- (15) Q Well were you familiar with the policy?

Vol 15 2320

- (1) A Yes yes  
 (2) Q Mr Graves let me hand you what we just had marked as  
 (3) Exhibit 31876 and ask you if that s a copy of the drug and  
 (4) alcohol policy in existence for Exxon Shipping Company as of  
 (5) September 28 1984?  
 (6) A That's what it says yes  
 (7) Q Do you recognize this exhibit to be that drug and alcohol  
 (8) policy?  
 (9) A Yes  
 (10) Q Do you recall whether this particular policy Exhibit  
 (11) 31876 issued September 28 1986 contained any what you  
 would  
 (12) consider material changes for the drug and alcohol policy  
 (13) existing for Exxon Shipping Company prior to the issuance of  
 (14) this document?  
 (15) A I really don't know My recollection is that the policy  
 (16) from 1979 through this duration was essentially the same  
 kind  
 (17) of policy  
 (18) Q If you would for the record would you read the first  
 (19) sentence on the complete policy underneath the heading  
 number  
 (20) one policy?  
 (21) A The company recognizes alcoholism as a treatable  
 illness,  
 (22) characterized by an inability to control the repeated  
 (23) consumption of alcohol causing impairment of job  
 performance  
 (24) Q Is that the - is that your understanding of the company s  
 (25) definition of alcoholism throughout your time as administrative

Vol 15 2321

- (1) manager with Exxon Shipping Company?  
 (2) A Yes, I suppose so  
 (3) Q Is it your understanding that this drug and alcohol policy  
 (4) prohibited the possession and use of alcohol on board vessels?  
 (5) A Yes  
 (6) Q And has it always been the intent of Exxon Shipping  
 Company  
 (7) drug and alcohol policies to prohibit employees from reporting  
 (8) to work in an intoxicated condition?  
 (9) A I would assume that to be the case yes  
 (10) Q What I m trying - what I m trying to ask you is whether  
 (11) this particular policy encouraged Exxon Shipping Company  
 (12) employees to report violations of the drug and alcohol policy  
 (13) that those employees were aware of?  
 (14) A I don't know that it specifically said that it encourages  
 (15) employees who suspect they have a problem to take some  
 action  
 (16) Q Do you know if that - if that fact reporting of a  
 (17) violation of a drug and alcohol policy to a supervisor if  
 (18) that s a normal situation if that fact was made aware to - to  
 (19) Exxon Shipping Company employees?  
 (20) A I m not sure whether it was or not  
 (21) Q Well I m specifically referencing whether or not there was  
 (22) a formal mechanism an established mechanism for an  
 unlicensed  
 (23) person to report what he or she perceived to be misconduct on  
 (24) the part of a licensed officer?  
 (25) A I don't recall anything written in terms of formality but

Vol 15 2322

- (1) it was generally understood through Exxon Shipping  
 Company and  
 (2) other Exxon organizations that the company operates on an  
 open  
 (3) door policy If you've got a problem talk to somebody  
 about  
 (4) it  
 (5) Q And are you aware of whether the licensed officers or crew  
 (6) people were informed of these opportunities to report masters  
 (7) who had violated the Exxon Shipping Company drug and  
 alcohol  
 (8) policy?  
 (9) A I don't know that they were informed My - my  
 assumption  
 (10) is that they knew they could  
 (11) Q You don t base that assumption on any particular facts?  
 (12) A No  
 (13) Q During your time as administrative manager are you aware  
 (14) of any crew members or licensed officers reporting alcohol  
 (15) abuse by a master of a vessel to management?  
 (16) A Well, that was - I was aware of one case where there was  
 (17) an allegation  
 (18) Q Mr Graves let me hand you what s been marked as Exhibit  
 (19) 31880 and ask if you can identify that document?  
 (20) A Yes, I can  
 (21) Q And what is that sir?  
 (22) A It's a report that I issued -  
 (23) Q This document Exhibit 31880 is a document you created?  
 (24) A Yes  
 (25) Q And the last paragraph in this memo does deal with Captain

Vol 15 2323

- (1) Hazelwood s use of alcohol on board a vessel?  
 (2) A That's right  
 (3) Q Would you read that last paragraph for the record please?  
 (4) A I asked Joe if he ever drank aboard the ship He  
 commented  
 (5) that he occasionally drank aboard the ship but not  
 frequently  
 (6) He also indicated that he came back to the ship from port  
 drunk  
 (7) on several occasions  
 (8) Q Let me ask you Mr Graves did Captain Hazelwood say to  
 (9) you that he Captain Hazelwood had come back to the ship from  
 (10) port drunk on several occasions?  
 (11) A Yes  
 (12) Q Let me ask the question again then Do you recall whether  
 (13) Captain Hazelwood said anything to you regarding alcohol  
 other  
 (14) than that he drank aboard the ship and that he came back to the  
 (15) ship from port drunk on several occasions?  
 (16) A Nothing specific no  
 (17) Q Did you ask Captain Hazelwood what time frame it was that  
 (18) he would have either drank aboard the ship or come back to the  
 (19) ship from port drunk?  
 (20) A Trying to think And I can't be sure, but generally  
 (21) speaking, my impression from Joe was that this was - when  
 I  
 (22) say historical I mean not necessarily current day  
 situations,  
 (23) but back several years back in his earlier career in the '70s,  
 (24) early '80s kind of thing  
 (25) Q Was he able to tell you which ports it was that he would

Vol 15 2324

- (1) come back to the ship in an intoxicated condition?
- (2) A I didn't ask him that
- (3) Q How is it determined that your report would be directed to
- (4) these three individuals W J Davis law department Frank
- (5) Iarossi and Paul Revere?
- (6) A Just seemed logical Iarossi is the president of the
- (7) company Revere is the vice-president of the company Bill
- (8) Davis was the attorney involved both our - some of our
- labor
- (9) relation activities as well as any personnel type issues we
- had
- (10) to deal with including harassment disability and et cetera
- (11) Q During the same time frame did you have any conversations
- (12) with Frank Iarossi regarding Captain Hazelwood's alcohol
- (13) rehabilitation?
- (14) A Well I think - I think shortly after the May 28th letter
- (15) I think Frank asked me to reconfirm again what the company
- (16) policy was on employees completing rehabilitation And -
- and
- (17) I think as a result of that request of Frank's and the ordinary
- (18) follow up, what you do in a situation like this I contacted
- (19) the HR department and contacted the medical department
- to give
- (20) Frank back a complete story
- (21) Q And would you just tell us generally what the substance
- (22) of the conversation was with Dr Montgomery?
- (23) A Well generally the substance was was the medical
- (24) department aware that Hazelwood had been in
- rehabilitation and
- (25) the answer was yes to that and that he told me that
- Hazelwood

Vol 15 2325

- (1) had completed his rehabilitation successfully And that Joe
- (2) was attending AA meetings on a regular basis I don't
- remember,
- (3) I think he said three times a week or something like that I
- (4) think I said he'd successfully completed the program and
- that
- (5) was about the sum and substance of the conversation
- (6) Q Did Mr Iarossi ask you to do anything else in regards to
- (7) follow up on the issue of Captain Hazelwood's alcohol
- (8) rehabilitation?
- (9) A I don't know whether it was at that particular time or
- (10) subsequent to that but Frank asked me to ensure that John
- (11) Tompkins the gulf coast fleet manager counsel with Joe
- before
- (12) he went back aboard a ship as a master
- (13) Q Let me ask it again Was it your understanding that
- (14) Captain Hazelwood attending the AA meetings was a part of his
- (15) alcohol rehabilitation program?
- (16) A Yes
- (17) Q For instance was there anyone at Exxon Shipping Company
- (18) who was assigned to your knowledge assigned the duty to
- make
- (19) sure that Captain Hazelwood was attending his AA meetings?
- (20) A Not to my knowledge
- (21) Q Was there anyone within Exxon Shipping Company who was
- (22) assigned the task of monitoring Captain Hazelwood during his
- (23) leave of absence time to determine whether he was drinking or
- (24) not?
- (25) A Not that I'm aware of

Vol 15 2326

- (1) Q Was there a concern?
- (2) A Well again it's hard to answer that question in today's
- (3) environment Probably not
- (4) Q After Exxon Shipping Company had learned through Captain
- (5) Hazelwood's own admission that he had drank while aboard the
- (6) vessels and that he had gone through alcohol rehabilitation
- (7) was it a concern at any time after that that Captain Hazelwood
- (8) may be drinking whether it is on board the vessel or at home?
- (9) A Oh I'm sure that some of Captain Hazelwood's
- supervisors
- (10) were interested and concerned about that
- (11) Q Okay
- (12) A I certainly would have assumed that they were any way
- (13) Q Did you have any conversations with Frank Iarossi regarding
- (14) that topic?
- (15) A Only to the extent that Frank asked me to be sure that
- John
- (16) Tompkins counseled with Hazelwood before he was
- reassigned to a
- (17) vessel That his assignment travel plans routed him
- through
- (18) Houston so that he in fact could talk with John before being
- (19) assigned to the vessel and John was to counsel with
- Captain
- (20) Hazelwood about maintaining his non drinking status and
- to be a
- (21) solid employee and manager of the ship
- (22) Q You say non drinking status Does that mean non drinking
- (23) status both on board the vessel and off the vessel?
- (24) A I presume from an alcoholic standpoint once you are
- you
- (25) can't pick up a drink thereafter I don't know That's just

Vol 15 2327

- (1) what I hear But John was to advise him that any infractions
- (2) that the company became aware of would subject Captain
- (3) Hazelwood and subject him to discipline up to and including
- (4) termination
- (5) Q Did your conversations with Frank Iarossi regarding this
- (6) topic include conversations that once you're an alcoholic you
- (7) can't pick up another drink -
- (8) A No
- (9) Q - that abstinence was important?
- (10) A No
- (11) Q Did you ever have any conversations like that with
- (12) Mr Iarossi?
- (13) A No
- (14) Q Did you take any steps to attempt to determine the extent
- (15) of Captain Hazelwood's alcoholism?
- (16) A No, that would have been the medical department, if they
- 
- (17) I mean wouldn't be something I would be able to evaluate
- (18) Q Do you know whether they attempted to evaluate that?
- (19) A I have no idea what conversations took place between
- our
- (20) medical department and his facility
- (21) Q Did you speak with anyone in an attempt to discover
- (22) generally what's involved with alcohol rehabilitation?
- (23) A No Again, I don't consider myself an expert in that
- (24) It's like whether I know whether the ship is being navigated
- (25) properly or not It mean it's a doctor's prerogative as far

Vol 15 2328

- (1) as I'm concerned
- (2) Q Did you speak with anyone in an attempt to determine
- (3) information regarding how from a human resources perspective
- a
- (4) company should deal with an alcoholic?
- (5) A Not that I can recall
- (6) Q Did you speak with either Frank Iarossi or Paul Revere
- (7) regarding how the company should deal with Captain
- Hazelwood
- (8) having gone through alcohol rehabilitation and reporting back
- (9) to work?
- (10) A I don't recall speaking specifically to them about it I
- (11) mean it's - alcoholism as a - as the company viewed it is a
- (12) treatable illness, is kind of a job performance issue as much
- (13) as anything else and you know, how a person's illness
- affects
- (14) their ability to do their job is part of the on going
- (15) supervisory responsibilities that any supervisor in the
- company
- (16) would have, stay close, you know, close to observe the
- employee
- (17) as possibly and determine what their performance levels
- are
- (18) Q Did you discuss with either Mr Iarossi or Mr Revere that
- (19) it would be necessary to closely observe Captain Hazelwood as
- (20) much as possible and evaluate his performance?
- (21) A I didn't but I think that was clearly Frank's intent of
- (22) having John Tompkins talk to Hazelwood before he went
- back
- (23) aboard the vessel to let him know that his performance was
- (24) going to be watched and the company wished him well and
- (25) expected him to have a full and total rehabilitation

Vol 15 2329

- (1) Q Do you know what background if any John Tompkins has in
- (2) regard to problems associated with alcoholism?
- (3) A No I don't
- (4) Q Do you know whether John Tompkins sought the advice of
- (5) anyone to determine generally the problems associated with
- (6) alcoholism or how a company generally should deal with an
- (7) alcoholic employee?
- (8) A I don't know You'd have to ask Mr Tompkins that
- (9) Q Was there any discussion that you were a party to with
- (10) either Mr Iarossi or Mr Revere where it was discussed whether
- (11) Captain Hazelwood should have a shore side assignment at
- least
- (12) initially?
- (13) A No
- (14) Q Is it your testimony that you believe a shore side
- (15) assignment would have been punitive in nature?
- (16) A No I do not believe it would have been punitive in nature
- (17) Q Do you believe a shore side assignment would have violated
- (18) the alcohol policy?
- (19) A No
- (20) Q It's just a subject that never came up as far as you know?
- (21) A As far as I know
- (22) Q After your May 19 1985 conversation with Joe Hazelwood
- (23) did you have any further conversations with him regarding
- (24) either his rehabilitation or his use of alcohol on vessels?
- (25) A Not that I recall I guess it's possible but the only

Vol 15 2330

- (1) significant conversation I remember with Joe was the
- interview
- (2) that I did with him on May 19th
- (3) Q From the summer of 1985 until you left Exxon Shipping
- (4) Company did you have any involvement whatsoever regarding
- (5) follow up on Captain Hazelwood and his alcohol rehabilitation?
- (6) A Did I? No
- (7) Q And did you ever ask Captain Hazelwood any questions
- about
- (8) his home life?
- (9) A No
- (10) Q And do you have any knowledge of either Mr Tompkins or
- (11) Mr Sheehy or anyone who was watching Captain Hazelwood
- asking
- (12) him questions about his home life?
- (13) A No
- (14) Q Do you have any knowledge of anyone ever from the time
- (15) Captain Hazelwood returned from his leave of absence up to
- the
- (16) time of the grounding, of anyone asking Captain Hazelwood
- (17) whether he had resumed drinking?
- (18) A I have no knowledge of that
- (19) Q Did Captain Hazelwood tell you that he had come back to the
- (20) ship drunk on several occasions?
- (21) A Yes
- (22) Q Did you ask him on how many occasions he was referring to
- (23) whether it was five times ten times 20 times?
- (24) A No, I did not
- (25) Q And did you ask him when these occasions had occurred?

Vol 15 2331

- (1) A I don't recall asking him specifically, no
- (2) Q And did he tell you specifically when these occasions had
- (3) occurred?
- (4) A Not that I recall
- (5) Q And did you - was it your understanding that attendance at
- (6) AA meetings was - by a recovering alcoholic was an important
- (7) element in the rehabilitation program?
- (8) A Our presumption is that that would be a reasonable thing
- (9) for any substance abuse person to be involved in, some
- (10) continuing support activity
- (11) Q Between mid May and August did anyone monitor whether
- he
- (12) was going to AA meetings three times a week?
- (13) A I don't know
- (14) Q As he had indicated?
- (15) A I don't know that they did or did not
- (16) Q Did you suggest to anyone that that might be a good idea?
- (17) A I personally did not no
- (18) Q Was that matter discussed by anyone to your knowledge?
- (19) A Not to my knowledge
- (20) Q Now did you understand that that outside doctor would be
- (21) making a decision as to whether or not Captain Hazelwood was
- (22) fit to return to duty as a master of an Exxon vessel?
- (23) A Well, my memory's a little fuzzy on the disability
- (24) situations but I think the outside doctor may be able to take
- (25) a position that the person is fit for duty, but generally

Vol 15 2332

- (1) speaking someone in our medical department may have the  
(2) authority to approve overrule or say yes or no to that  
(3) Q All right Now no one at Exxon Shipping to your  
(4) knowledge had any contact with the – the outside doctor who  
(5) was treating Captain Hazelwood is that correct?  
(6) A Not to my knowledge  
(7) Q To your knowledge however someone in the medical staff  
(8) of  
(9) Exxon U S A did have contact with this outside physician is  
(10) that correct?  
(11) A That was my understanding yes  
(12) Q And was it your understanding that that intermediate  
(13) from – that person from the Exxon U S A medical staff was  
(14) Dr Montgomery or someone else?  
(15) A As I recall I was unclear as to whether that person was  
(16) Dr Montgomery or someone on the medical staff Dr  
(17) Montgomery  
(18) was the person I talked to  
(19) Q And Dr Montgomery is the person who said to you that in my  
(20) judgment Captain Hazelwood is fit to return to duty?  
(21) A I guess he told me that he had completed his program in  
(22) the  
(23) hospital he was continuing to go to the AA sessions and  
(24) had  
(25) done what he should do relative to the rehabilitation effort  
(26) Q Did Dr Montgomery indicate to you that anyone from Exxon  
(27) U S A s medical staff had interviewed Captain Hazelwood since  
(28) he had undertaken this rehab course?  
(29) A No he did not

Vol 15 2333

- (1) Q Were you ever laboring under the impression that anyone  
(2) from Exxon U S A s medical staff had any contact with Captain  
(3) Hazelwood concerning his medical treatment after he entered  
(4) the  
(5) rehab clinic?  
(6) A No  
(7) Q Do you know if any system was set up at that juncture to  
(8) advise others what to do in the event Captain Hazelwood  
(9) relapsed into drinking?  
(10) A No I'm not sure what system was or was not in place  
(11) Q What system was implemented to closely monitor Captain  
(12) Hazelwood while he – while he was out at sea?  
(13) A I do not know  
(14) Q Was any system of closely monitoring Captain Hazelwood at  
(15) sea ever discussed with you?  
(16) A Not with me  
(17) Q Did you ever hear of any discussion that anyone had with  
(18) regard to establishing a monitoring system for Captain  
(19) Hazelwood while he was at sea?  
(20) A No  
(21) Q How about shore side was any monitoring system discussed  
(22) concerning Captain Hazelwood s behavior and performance  
(23) while  
(24) he was not at sea?  
(25) A Not with me It may have been discussed in the  
(26) operations  
(27) group, but not – I don't recall anything about it  
(28) MR SERDAHELY Your Honor we have no cross of this

Vol 15 2334

- (1) witness  
(2) THE COURT All right  
(3) MR O NEILL I get to do the videotapes today  
(4) Something I m able to handle The plaintiffs call William  
(5) Deppe by videotape deposition  
(6) DIRECT EXAMINATION OF WILLIAM DEPPE (Video)  
(7) BY VIDEO EXAMINER  
(8) Q Captain Deppe what is your first recollection of hearing  
(9) about the Exxon Valdez on March 24th 1989?  
(10) A I got a phone call from Paul Myers early that morning  
(11) telling me that the vessel had gone aground near Bligh  
(12) Reef  
(13) Q And who s Paul Myers?  
(14) A Paul Myers is a ship group coordinator and in the west  
(15) coast fleet office  
(16) Q What happened after that?  
(17) A I helped arrange for flights up to Alaska for Harvey  
(18) Borgen Paul Myers and myself We – we – I packed a bag  
(19) and  
(20) shortly after that drove to Oakland Airport and met them at  
(21) Oakland and we flew up to Alaska  
(22) Q Okay And was it Harvey or Dave Borgen?  
(23) A Harvey  
(24) Q Harvey Borgen And what was his position at the time?  
(25) A He was the west coast fleet manager  
(26) Q And what position did you have at that time with Exxon?  
(27) A I was a ship group coordinator

Vol 15 2335

- (1) Q Before we get to your conversation with the senior  
(2) officers what positions have you held with Exxon from the time  
(3) you started just to the best of your recollection?  
(4) A I've been third mate through master on different vessels  
(5) that Exxon s had I've been an analyst in the west coast  
(6) office I've also been a port captain and a ship group  
(7) coordinator in the west coast office  
(8) Q Now during 1982 and 1989 March what other duties did  
(9) you  
(10) have other than being a master on a ship?  
(11) A 1987 I was assigned as port captain in the west coast  
(12) fleet office From 1988 –  
(13) Q Was port captain what?  
(14) A Port captain in the west coast fleet office  
(15) Q Let me stop you there for a second What were your duties  
(16) as port – port captain in the west coast office?  
(17) A Port captain was somewhat as an advisor type position  
(18) It's someone who would handle professional topics and  
(19) operational type topics for the fleet manager and deal with  
(20) the  
(21) deck operations on board the vessel, things that relate to  
(22) navigation the cargo operations with our vessels on the  
(23) west  
(24) coast  
(25) Q In that job do you have to – or did you interact with  
(26) other captains other masters?  
(27) A Yes  
(28) Q In what way did you interact with them?

Vol 15 2336

- (1) A I'd go aboard and talk to them about company policies  
 (2) instruct them on what - what the latest directives might be  
 (3) from the company or information that they might want to  
 (4) disseminate throughout the fleet I would go on board and  
 do  
 (5) stewardship reviews with the - with the senior personnel on  
 (6) board for end of the year reviews and mid year reviews If  
 (7) there were any operational type problems or incidents that  
 (8) might have occurred, I would - I would go do an  
 investigation  
 (9) on - or I might be asked to do an investigation on those  
 types  
 (10) of things If there are any personnel type problems on  
 board,  
 (11) I might be asked to get involved in trying to find out what  
 (12) happened and settle these types of things  
 (13) Q How long did you hold that position?  
 (14) A Until early 1988  
 (15) Q And then what happened in 1988?  
 (16) A The - the job was changed to a different concept and the  
 (17) port captains became ship group coordinators  
 (18) Q Ship group -  
 (19) A Coordinators  
 (20) Q And did you take on the job then as -  
 (21) A Yes  
 (22) Q - ship group coordinator?  
 (23) A I did  
 (24) Q To what extent did the duties change with the job if at  
 (25) all?

Vol 15 2337

- (1) A As a ship group coordinator the - the captains and chief  
 (2) engineers reported to the ship group coordinator at that  
 point  
 (3) became more of a line position than a staff position so  
 (4) instead of the senior officers reporting to the fleet manager  
 (5) they reported to the ship group coordinator for the ship so  
 (6) instead as port captain I didn't have captains reporting to  
 me  
 (7) directly as ship group coordinator I did I also got more  
 (8) involved in engineering type operations Previously the  
 chief  
 (9) engineers reported to port engineer or at least dealt with  
 the  
 (10) port engineer for engineering type problems and the ship  
 group  
 (11) coordinator handled both deck and engine type problems  
 on board  
 (12) the vessel  
 (13) Q You held that job for how long?  
 (14) A Let me see Until January 1991  
 (15) Q And what job did you take on in '91?  
 (16) A I went back to sea was captain of the Exxon Long Beach  
 (17) Well actually I was captain of the Exxon Mediterranean  
 first  
 (18) and then I went to the Long Beach after that  
 (19) Q What was your alcohol policy in 1987 by your I mean  
 (20) Exxon?  
 (21) A Are you talking about the corporate policy?  
 (22) Q Corporate policy yes  
 (23) A From what I understand, the policy the way it applied to  
 (24) the shipping company was that anyone who was caught  
 drunk or -  
 (25) or with alcohol on board on board the vessel would be

Vol 15 2338

- (1) terminated from the vessel At that point it would - the  
 (2) case would be referred to a - a review type board and they -  
 (3) in I think Houston here and a decision would be made about  
 (4) disciplining that person  
 (5) Q In doing the reviews that you referred to as a port  
 (6) captain it was part of your job to keep an eye on the captains  
 (7) and the masters to make sure they didn't drink on board or have  
 (8) alcohol on board ship?  
 (9) A Well, it - that was - that would be part of the job,  
 (10) yes  
 (11) Q And would part of your job be to monitor any captains or  
 (12) masters who might be suspected of having a drinking problem?  
 (13) A Part of the job is to monitor all the masters and chief  
 (14) engineers to - if anyone is having a problem with anything  
 to  
 (15) do something about it  
 (16) Q In any time did anyone or anything make you aware that  
 (17) Captain Hazelwood might have a drinking problem?  
 (18) A I knew that Captain Hazelwood had been through a  
 (19) rehabilitation program  
 (20) Q Did you know what the rehabilitation program was for?  
 (21) A Yeah, it seemed to be pretty common knowledge in the  
 fleet  
 (22) that Captain Hazelwood had been through a rehabilitation  
 (23) program for alcohol  
 (24) Q What was the basis for your knowledge that Captain  
 (25) Hazelwood had been through an alcohol rehabilitation  
 program?

Vol 15 2339

- (1) A I don't know how I found out I just knew  
 (2) Q That would be back - do you remember the time that was?  
 (3) A It was - it was before I got in the office as port  
 (4) captain  
 (5) Q Now during the time that you were either port captain or  
 (6) shipping group coordinator were you given any instructions  
 (7) regarding the monitoring of Captain Hazelwood?  
 (8) A Not that I can recall  
 (9) Q I don't mean this in an argumentative way but when you say  
 (10) not that I can recall you've had a long time to think of  
 (11) this Can you - does any situation at all occur to you where  
 (12) somebody in Exxon Shipping or Exxon or Exxon U S A asked  
 you  
 (13) or asked anyone else about whom you have knowledge to keep  
 an  
 (14) eye on Captain Hazelwood in regard to his - regard to his  
 (15) drinking?  
 (16) A I knew that he had been through rehabilitation How I  
 (17) found out about it I'm not sure If a conversation took place  
 (18) in the office with anyone about it I - it didn't stand out in  
 (19) my mind because I knew already but I - I was aware of  
 (20) Hazelwood's problem and I would have been aware of him  
 (21) drinking if I was in a situation with him and he was drinking  
 (22) I would have - that would have been something that would  
 have  
 (23) stood out in my mind  
 (24) Q At the time that the alcohol policy was issued which you  
 (25) described earlier was there any discussion on monitoring any

Vol 15 2340

- (1) employees or officers who were thought to have an alcoholic problem?  
 (2) A No  
 (3) Q In the various meetings that you attended in 19 - in 1987 up to the time of the grounding do you recall any discussions about monitoring persons that were thought or known to have alcoholic problems?  
 (4) A No  
 (5) Q Did any of your superiors ever ask you to keep - to monitor or keep your eye on Captain Hazelwood in regard to any drinking problems?  
 (6) A Not that I can recall  
 (7) Q During the same period of time have you - did anyone ever bring to your attention any complaint regarding Captain Hazelwood?  
 (8) A From 1987 -  
 (9) Q To the time of -  
 (10) A - to the time of the spill?  
 (11) Q Yeah  
 (12) A In a disciplinary nature?  
 (13) Q Any nature  
 (14) A Well there was some complaints about some of his management style but those were - those were in ranking type situations But as far as any disciplinary type things there was nothing brought to my attention during that period

Vol 15 2341

- (1) Q If you know during the same period of time 87 through the spill was anyone Exxon Exxon Shipping or Exxon U S A given an assignment to keep an eye on Captain Hazelwood relating to drinking problems?  
 (2) A No I wasn't aware of anyone  
 (3) Q Now you have - you have taken vessels through the Valdez Narrows is that correct?  
 (4) A Yes  
 (5) Q Have you ever taken vessels through the Valdez Narrows when you weren't on deck at the time?  
 (6) UNIDENTIFIED SPEAKER On deck?  
 (7) THE WITNESS On the bridge  
 (8) BY VIDEO EXAMINER  
 (9) Q On the bridge I'm sorry  
 (10) A No  
 (11) Q Did you consider it to be your obligation or your duty to be on the bridge during the time that you - during the times that you trans - that you've taken a ship through Valdez Narrows?  
 (12) A Yes  
 (13) Q The question was when you were - you were in a supervisory capacity did - would not you expect any reasonably prudent captain to be on the bridge during such a transit?  
 (14) A I would expect most captains would be on the bridge during

Vol 15 2342

- (1) those transits yes  
 (2) Q Since - I'm going to read a question and answer and ask you if this is still your opinion I'm looking at the hearings page 1096 Question is could you tell me what Exxon does to ensure that six hours of rest are given to ship's personnel to the deck watch officer prior to getting underway  
 (3) Answer we don't have any program to give six hours of rest to any dock - deck hand or officer before we get underway On the ships that I've been on we make sure that - or I've been made sure that once we have taken departure if no one has had rest then I'll stay up on the bridge and I'll stand the watch until someone who has had enough rest to come and take the watch and meet the law  
 (4) Still believe that's a correct answer?  
 (5) A Yes  
 (6) Q You still stand by that answer right?  
 (7) A Yes I'll elaborate a little bit on that  
 (8) Q Sure  
 (9) A The master and the individual officer is responsible to make sure that he's getting that rest also  
 (10) Q Let me turn to our designation Number 32 which is a letter - no it's not it's a memo dated July 15th 1986 and called west coast fleet letter 10/86 vessel physical and operating condition report and it's addressed to masters of

Vol 15 2343

- (1) Exxon Shipping Company west coast fleet owned vessels and it's signed by A P Martineau Have you seen this? That is now Exhibit 39606 I believe  
 (2) A Yes I've seen this  
 (3) Q Do you have pilotage license?  
 (4) A No I don't  
 (5) Q For the Valdez Narrows?  
 (6) A No  
 (7) Q Who on your ship had one when you were taking ships or taking vessels up to - I'm sorry through the Valdez area Prince William Sound?  
 (8) A Before the accident?  
 (9) Q Yeah  
 (10) A The - there were several cases where the chief mate had pilotage and there were a couple of cases where no one had pilotage on board  
 (11) Q And when no one had pilotage what rules if any did you follow?  
 (12) A When we made our pre call or our check in there was an extended list of questions that was asked that we had to answer compared to vessels that did have pilotage Between Cape Hinchinbrook and Montague Island we were required to check in every ten minutes where a vessel with pilotage was not required to do that  
 (13) We were also not allowed to enter I believe if the

Vol 15 2344

- (1) visibility was less than two miles and we had to pick up the  
 (2) pilot at Bligh Reef instead of at Rocky Point I think those  
 (3) were the differences  
 (4) Q And what were the regulations leaving Valdez or without  
 (5) anyone on board with pilotage who met the pilotage  
 (6) requirements?  
 (7) A The pilot would - the Alaska state pilot would stay on  
 (8) board till Bligh Reef and we would make the check in every  
 ten  
 (9) minutes between Montague Island and Cape Hinchinbrook  
 and I  
 (10) believe those are the only two differences  
 (11) Q Now you testified earlier that it was common knowledge in  
 (12) the fleet that Hazelwood had been through alcohol  
 (13) rehabilitation do you recall that?  
 (14) A Yes  
 (15) Q When you made that statement when do you believe it was  
 (16) common knowledge?  
 (17) A In 1986 and 1987  
 (18) Q So it was well known within the fleet at least by the time  
 (19) of the meeting in 1988 that you were present at where he was  
 (20) ranked?  
 (21) A Yes  
 (22) Q Was the subject of Hazelwood's having been through  
 alcohol  
 (23) rehabilitation mentioned in any way in the 1988 ranking  
 (24) meeting?  
 (25) A I don't think so

Vol 15 2345

- (1) Q Captain Hazelwood had never told you that he had been  
 (2) through rehab had he?  
 (3) A No  
 (4) Q And you spoke about common knowledge are you talking  
 about  
 (5) yourself that you know about it?  
 (6) A Yes  
 (7) Q And I take it you didn't have conversations with other  
 (8) people about the fact that Captain Hazelwood had been  
 through  
 (9) rehab?  
 (10) A No  
 (11) Q You gave a presentation did you not in November 1989  
 (12) regarding the Exxon Valdez incident?  
 (13) A Yes  
 (14) Q And what was the occasion of that?  
 (15) A There was a meeting of our - of some of our senior  
 (16) officers in New Jersey to go over the - the facts that were  
 (17) known about the Exxon Valdez up to that point to just  
 (18) communicate with those people what we knew  
 (19) Q In the course of your presentations did you express any  
 (20) opinions with respect to the cause of the grounding?  
 (21) A No I kept away from expressing opinions  
 (22) Q Wasn't the subject of the cause of the grounding an area of  
 (23) concern to the people at that meeting?  
 (24) A My job was just to present the facts that occurred that  
 (25) night and not - and keep away from expressing opinions

Vol 15 2346

- (1) Q Were you instructed -  
 (2) A Yes  
 (3) Q - that you were to stay away from opinions?  
 (4) A That's right  
 (5) Q Who instructed you to stay away from opinions?  
 (6) A Legal counsel  
 (7) Q Did you have any other relationship at all with Captain  
 (8) Hazelwood either professionally or socially?  
 (9) A In 1987, when I first became port captain, I took him out  
 (10) to supper one night  
 (11) Q And where was that?  
 (12) A In Long Beach  
 (13) Q Any other social things that you did with Hazelwood?  
 (14) A No  
 (15) Q I take it that Hazelwood did not have anything to drink at  
 (16) that dinner glass of wine or anything?  
 (17) A He did not  
 (18) Q Did you talk to him at all about his alcohol  
 (19) rehabilitation?  
 (20) A No It stood out in my mind that he didn't drink, though,  
 (21) that night The other three people there were drinking and  
 he  
 (22) did not drink He drank Coca Cola  
 (23) Q After you became port captain in 1987 at any time did you  
 (24) personally do anything to monitor Captain Hazelwood to see  
 (25) whether the alcohol rehabilitation he'd gone through was

Vol 15 2347

- (1) holding?  
 (2) A I visited the vessel I would have noticed if he had been  
 (3) drinking aboard the vessel If he was drinking aboard the  
 (4) vessel I would have seen that, but that's the extent of what I  
 (5) did to monitor him  
 (6) Q You were never instructed that you should do that?  
 (7) A Not that I can recall  
 (8) Q Now how many times did you actually board the vessel?  
 (9) A At least twice  
 (10) Q And that would be in the course of the time period 1987  
 (11) until March of 1989?  
 (12) A No, 1987 through early '88  
 (13) Q Okay and what you're saying is that on those two occasions  
 (14) you simply didn't observe visible drinking?  
 (15) A That's right  
 (16) Q And apart from that you have no other observations or  
 (17) reports to make with respect to monitoring of Hazelwood after  
 (18) his alcohol rehabilitation correct?  
 (19) A That's correct  
 (20) MR SERDAHELY Your Honor again no  
 (21) cross examination  
 (22) THE COURT All right  
 (23) MR O NEILL Great Plaintiffs call Gregory Cousins  
 (24) by his deposition  
 (25) DIRECT EXAMINATION OF GREGORY COUSINS (Video)

Vol 15 2348

- (1) BY VIDEO EXAMINER  
 (2) Q Please state your full name and home address?  
 (3) A Gregory Thomas Cousins reside at 13966 Fletcher's Mill  
 (4) Drive Tampa Florida  
 (5) Q And you were with Exxon from 1980 up through 1990 is that  
 (6) correct?  
 (7) A Correct  
 (8) Q When you were sailing as a third mate which you ve  
 (9) testified to on the four vessels with Exxon did you go do  
 (10) Valdez?  
 (11) A Yes  
 (12) Q Now on the - these vessels the North Slope and the New  
 (13) Orleans and the Exxon Valdez what was the total number of  
 (14) trips you made to the Port of Valdez approximately? I think  
 (15) you previously have testified about a dozen would that be  
 (16) about right?  
 (17) A That would be yes fair I think  
 (18) Q About how many of the trips that you made to Valdez were  
 (19) you a watch stander in Prince William Sound? Of say of the  
 (20) approximate dozen?  
 (21) A How many transits did I make on the bridge?  
 (22) Q Yeah that you were actually watch standing going in or  
 (23) coming out?  
 (24) A Well I would say a portion of all of the times but at  
 (25) least - at least half

Vol 15 2349

- (1) Q How many trips did you make with - on the Exxon Valdez  
 (2) prior to the - not counting the grounding trip in or out?  
 (3) Did you make a trip prior to that trip?  
 (4) A Yes  
 (5) Q How many trips did you make prior to that trip do you  
 (6) recall?  
 (7) A I believe there were three or four total  
 (8) Q How many trips prior to that trip the grounding trip we'll  
 (9) call it the grounding trip in and out did you make with  
 (10) Captain Hazelwood?  
 (11) A One or two  
 (12) Q Now in your experience in going into Valdez and coming  
 (13) out again the same parameters I gave you before and we're  
 (14) always talking about Hinchinbrook to Valdez and from Valdez to  
 (15) Hinchinbrook what type steering was used on the vessels you  
 (16) served on?  
 (17) A Hand steering  
 (18) Q Did you ever in any of your trips while you were a watch  
 (19) officer see the steering put in any type of auto mode in those  
 (20) waters?  
 (21) A Well the - one time  
 (22) Q When was that?  
 (23) A That was the evening of - or the morning of the  
 (24) grounding  
 (25) Q Now you had no pilotage endorsement on your license or  
 you

Vol 15 2350

- (1) have none today?  
 (2) A No  
 (3) Q For Prince William Sound?  
 (4) A No  
 (5) Q Are you familiar with the requirements for a pilotage  
 (6) endorsement on a license in Prince William Sound?  
 (7) A No  
 (8) Q What I'm trying to do is really save time Mr Cousins  
 (9) Instead of asking you take me through your day you have the  
 (10) eight to twelve that morning is that correct?  
 (11) A Yes  
 (12) Q This is on the 23rd of March?  
 (13) A Right  
 (14) Q In essence what I'm concerned with is when you're working  
 (15) when you're not working So you're on duty from 0800 to 1200  
 (16) is that a correct statement?  
 (17) A Correct  
 (18) Q What did you do your recollection between 12 and 1300 do  
 (19) you remember on March 23rd?  
 (20) A Well I had lunch then I did the salinity test and I  
 (21) returned to - I went to my room  
 (22) Q How long did you take for lunch do you recall about a  
 (23) half hour?  
 (24) A No Well 10 15 minutes  
 (25) Q All right

Vol 15 2351

- (1) A Actually the - the twelve is the watch I'm relieved  
 (2) actually at 10 minutes before  
 (3) Q You also relieve 10 minutes before eight do you not?  
 (4) A Correct  
 (5) Q So you stand a full four hour watch?  
 (6) A Yes  
 (7) Q So you do this salinity test after lunch?  
 (8) A Yes  
 (9) Q And does that take you up to about 1300 would that be  
 (10) about right?  
 (11) A Just a little bit - around 1300 Actually a little bit  
 (12) before 1 00  
 (13) Q What is a salinity test?  
 (14) A Measuring water density  
 (15) Q And is that the density of the sea water around the  
 (16) vessel?  
 (17) A Yes sir  
 (18) Q And what's the purpose of that?  
 (19) A That is used by the chief mate to calculate what - what  
 (20) drafts we'll be able to load to  
 (21) Q How do you get sea water to take the test?  
 (22) A On the Valdez, we - we would go down into the engine  
 (23) room  
 (24) and take water from a small spigot that was fitted into one of  
 (25) the sea suction  
 (25) Q So is that part of your normal - your normal operation of

Vol 15 2352

- (1) the vessel?
- (2) A What taking a salinity?
- (3) Q Yes
- (4) A Yes, when you're loading um hum
- (5) Q It s needed information in order to put a proper load
- (6) aboard the vessel?
- (7) A Yes
- (8) Q This paperwork you did in your office?
- (9) A Yes
- (10) Q In your room?
- (11) A Yes
- (12) Q That paperwork was paperwork which you connected with
- (13) the
- (14) vessel right? You weren t writing love notes to your wife or
- (15) anything?
- (16) A Well actually, it may have been, but there was some
- (17) paperwork that was connected with the vessel's safety
- (18) Q All right and you were the safety officer aboard?
- (19) A Yes
- (20) Q Do you have a good estimate of how much time you spent
- (21) with
- (22) that paperwork?
- (23) A It wasn't long I'd usually -- well sit down work on it
- (24) 10 or 15 minutes and set it aside and do something else
- (25) Q So it may have been 10 or 15 minutes?
- (26) A Yes
- (27) Q So let s pick it up from 1315 -- okay -- 1315 on you slept

Vol 15 2353

- (1) until about when? You can look at the testimony and notes?
- (2) A Whenever they called me for supper relief A few minutes
- (3) before 1700
- (4) Q All right and you then did what?
- (5) A Relieved the chief mate for supper
- (6) Q When you relieved the chief mate where did you go?
- (7) A Cargo control
- (8) Q And then you had to observe gauges or whatever?
- (9) A Yes monitor the load
- (10) Q Okay do you agree that 1730 was about the time the chief
- (11) mate relieved you in the cargo control room?
- (12) A Approximately Jim -- Jim was like the rest of us pretty
- (13) quick eater but generally
- (14) Q That s about right?
- (15) A Well the normal normal the normal supper hour lasts 20
- (16) minutes
- (17) Q All right And then what did you do?
- (18) A I went back do bed as far as I -- I can remember I
- (19) returned to --
- (20) Q According to Delozier s -- I ll let you look at the
- (21) document -- 1745 he says cargo control room Does that
- (22) refresh your --
- (23) A You're referring to his report?
- (24) Q His notes yes You see 1745 he has cargo control room?
- (25) Does that refresh your recollection?

Vol 15 2354

- (1) A Probably yes I remember sticking my head in the
- (2) control
- (3) room and spoke to Jim Kunkel chief mate briefly about the
- (4) topping off and that's when he told me that I would be
- (5) assisting him
- (6) Q And you stay in the cargo control room?
- (7) A No, I went to my room
- (8) Q Before you give me an answer let me ask you can you try
- (9) and place times on these different events that you re giving
- (10) us?
- (11) A I will attempt to Can I -- I'll begin with I relieved the
- (12) chief officer at approximately 1700
- (13) Q Okay
- (14) A He had supper I remained in the cargo control room
- (15) monitoring the load while he ate After he returned, I had
- (16) my
- (17) meal I returned briefly to the cargo control room and I
- (18) guess
- (19) this Delozier has almost a log entry type thing here of 1745
- (20) I don't know where he got that Maybe it's in the testimony,
- (21) but I don't recall, but I don't think that it is
- (22) I spoke briefly with the chief officer and that's when he
- (23) told me that he will use me to assist him in the topping off
- (24) I left I did not remain in the cargo control room from
- (25) that brief conversation on, because the topping off didn't
- (26) begin until sometime later
- (27) Q What time?
- (28) A Much later Almost -- well, I don't know

Vol 15 2355

- (1) Q Finished cargo was 1924 does that help you?
- (2) A Correct So Mr Delozier has a 1900, chief mate called
- (3) cargo control room for topping off So at 1900, this -- the
- (4) chief mate called me in my room
- (5) Q Let me just go on and then I ll get back to that Your
- (6) testimony is for a brief time you had this conversation with
- (7) the chief mate and then you went to your room?
- (8) A Yes
- (9) Q And what did you do in your room?
- (10) A I don't recall I normally don't sleep that time of day
- (11) I may have read a book sat down in the recliner and
- (12) digested
- (13) my meal
- (14) Q Up to this point of 1900 when you start working again
- (15) does that -- approximately 1900 did you agree with that?
- (16) A Right
- (17) Q Chief mate called you for cargo for topping off?
- (18) A Yes
- (19) Q Was this period that we ve been going over up till 1900
- (20) was this sort of typical for a turn around period in Valdez?
- (21) A Yes Yes I would say that
- (22) Q Now from 1900 which we took you up to up to the time of
- (23) grounding you were doing work up on the bridge and/or on
- (24) watch is that correct?
- (25) A From 1900 on, yes
- (26) Q When the vessel got underway and you ultimately returned

Vol 15 2356

- (1) from your docking station to the bridge?  
 (2) A Yes  
 (3) Q When you returned to the bridge who was on the bridge?  
 (4) A The pilot I believe the captain I relieved the chief  
 (5) mate Jim Kunkel and I don't right offhand recall who the  
 (6) helmsman was  
 (7) Q Well without reading your testimony Radtke you testified  
 (8) in the Hazelwood trial does that refresh your recollection?  
 (9) A Yes  
 (10) Q You relieved Kunkel and he went below?  
 (11) A Yes  
 (12) Q And you are now the watch officer?  
 (13) A Yes  
 (14) Q Now after you returned to the bridge did Captain  
 (15) Hazelwood leave the bridge?  
 (16) A At - yes at some time later he did  
 (17) Q When he left the bridge was it prior to the Narrows?  
 (18) A Yes  
 (19) Q And when he left the bridge did he say anything to you  
 (20) about he was going to leave the bridge or why he was going to  
 (21) leave the bridge?  
 (22) A Yes he - he told me he was leaving the bridge and he told  
 (23) me why but I don't remember why  
 (24) Q All right Now my question to you today thinking back on  
 (25) it are you saying he did give you a reason?

Vol 15 2357

- (1) A The reason - the reason was he - was that he needed to  
 (2) discuss something that was bothering the chief engineer  
 (3) Q That's why he told you he was leaving the bridge?  
 (4) A Yes  
 (5) Q Did the captain tell - tell you or did you hear him  
 (6) announce when he was going to return?  
 (7) A I don't recall  
 (8) Q Prior to the Narrows ultimately isn't it correct that you  
 (9) were asked by the pilot to call the captain because the pilot  
 (10) was going to leave the vessel?  
 (11) A I called the captain on my own before we entered the  
 (12) Narrows I said he was almost finished doing what he  
 (13) needed to  
 (14) do that he'd be up directly and later sometime later after  
 (15) we had transited the Narrows, and I can't say exactly when I  
 (16) think the pilot mentioned said you ought to have the  
 (17) captain  
 (18) up here for debarking the pilot  
 (19) Q So it's correct that the pilot ultimately asked you to have  
 (20) the captain come to the bridge isn't that correct?  
 (21) A Yes  
 (22) Q So you're saying you had a conversation with Captain  
 (23) Hazelwood in the interim?  
 (24) A Yes  
 (25) Q And that conversation tell me again what did you say and  
 (26) what did the captain say?  
 (27) A I informed the captain that we were approaching the  
 (28) Narrows

Vol 15 2358

- (1) and he asked if there was any problems any traffic and of  
 (2) course there wasn't and he said that he'll be up as soon as  
 (3) he  
 (4) finishes doing whatever he was doing and I don't recall  
 (5) what  
 (6) he said as far as what he was doing  
 (7) Q In any event as you recollect it back as you're sitting  
 (8) here right now the period of time Captain Hazelwood was off  
 (9) the bridge would you agree was not a short time?  
 (10) A I would say it was longer than - than I was used to  
 (11) Q In your experience on these other vessels in Valdez did  
 (12) you ever experience when you had that same watch let's say  
 (13) coming through the Narrows as you're going out -  
 (14) A Um hum  
 (15) Q - did you ever experience a captain walking off the bridge  
 (16) and staying off the bridge through the Narrows?  
 (17) A I can't recall no  
 (18) Q You say you can't recall you mean no you do not?  
 (19) A I can't recall having been on the bridge with - without a  
 (20) master present through the Narrows  
 (21) Q Now when you called Captain Hazelwood to come back to  
 (22) the  
 (23) bridge you remember what you said to him?  
 (24) A Yes  
 (25) Q After the pilot the pilot said to get the captain you  
 (26) telephoned Captain Hazelwood?  
 (27) A Yes  
 (28) Q And what did you say to him the pilot wants you back or -

Vol 15 2359

- (1) A I told him that we're getting close to the pilot station  
 (2) that we need him on the bridge and he said I'm on my way  
 (3) Q Okay From the time you - of that telephone call about  
 (4) what was the interval of time between that call and Captain  
 (5) Hazelwood arriving on the bridge?  
 (6) A I don't recall  
 (7) Q Now you took Cousins - you took LeCain's watch that  
 (8) evening the mid watch at least the beginning of it?  
 (9) A Yeah  
 (10) Q After you stood your watch?  
 (11) A I was standing part of his watch yes  
 (12) Q Why did you do that?  
 (13) A Because he didn't get called when you normally call the -  
 (14) the relieving watch  
 (15) Q Maybe you didn't understand my question Did LeCain ask  
 (16) you to take his watch for him because he was tired?  
 (17) A No  
 (18) Q Why did you take LeCain's watch?  
 (19) A Because when I returned to the bridge he wasn't there  
 (20) So  
 (21) I had no choice I can't just leave the bridge without being  
 (22) relieved  
 (23) Q When you returned to the bridge you mean after dropping  
 (24) the pilot off?  
 (25) A Correct yes sir  
 (26) Q But isn't it normal for you to send someone down to wake

Vol 15 2360

- (1) the watch officer?  
 (2) A No, the - the watch is called from the bridge  
 (3) Q Well who calls it from the bridge?  
 (4) A Normally I would  
 (5) Q You didn't though did you that evening?  
 (6) A Well I didn't have a telephone with me out on deck I was  
 (7) out on deck during the time that - the relieving watch would  
 (8) be called The A Bs called their relief No one called my  
 (9) relief  
 (10) Q All right but then you got back do the bridge did you  
 (11) not?  
 (12) A Yes  
 (13) Q And you could have called LeCain when you returned to the  
 (14) bridge could you not?  
 (15) A I could have yes  
 (16) Q But you didn't?  
 (17) A I did not  
 (18) Q Why didn't you?  
 (19) A Because I was busy  
 (20) Q Now getting back to where we were on the document the  
 (21) next document I have which they call it the bridge rough log  
 (22) and then in parentheses bell book Better name for it is the  
 (23) bell book?  
 (24) A Yes  
 (25) Q This is the document you were just referring to is it not

Vol 15 2361

- (1) that you said the chief mate would have put entries in when he  
 (2) was on the bridge?  
 (3) A Yes  
 (4) Q When you make the entries in the bell book here like the  
 (5) pilot aboard and you're up on the bridge would you make it in  
 (6) the bell book and then make it in the log at the same time?  
 (7) A Not at the same time no Later  
 (8) Q You make your entries in the log later?  
 (9) A At the end of the watch  
 (10) Q Okay so did you make all your entries for the 20 to 2400  
 (11) watch that were in the bridge log after the grounding?  
 (12) A Yes  
 (13) Q You copied them from the bell book were you looking at?  
 (14) A Yes sir  
 (15) Q Now from 2220 down through what entry is your  
 handwriting?  
 (16) A 2253  
 (17) Q Potato Point abeam?  
 (18) A Yes  
 (19) Q Whose entry is the next entry 2314 slow ahead symbol?  
 (20) A I don't know I assume it was the captain's  
 (21) Q 2324 pilot off full ahead the entry for pilot off would  
 normally be made when the pilot gets into his boat' Is that  
 (23) when it's made?  
 (24) A Yes  
 (25) Q And you were down there with him at that time were you

Vol 15 2362

- (1) not?  
 (2) A Yes  
 (3) Q And can you tell from the handwriting that's not your  
 (4) writing?  
 (5) A That's not my writing  
 (6) Q What about the next entry indicating 2352 LPU?  
 (7) A That is not mine  
 (8) Q At that time 2352 what officers were on the bridge just  
 (9) you and Captain Hazelwood?  
 (10) A Correct  
 (11) Q So that would be Captain Hazelwood as far as you know?  
 (12) A Yes  
 (13) Q Did you see him put the entry in the book?  
 (14) A No  
 (15) Q And in fact you didn't know it had been put in Load Program  
 (16) Up did you?  
 (17) A No  
 (18) Q Tell us what Load Program Up is?  
 (19) A It's a computer controlled system bringing - bringing the  
 (20) rpm engine rpms up gradually to prevent damage to the  
 engine  
 (21) It's just a - a program to - bringing the engine up to full  
 (22) sea speed  
 (23) Q So you were at that time based on your recollection you  
 (24) were full ahead maneuvering speed is that correct at 2352?  
 (25) A When I returned to the bridge, I had no idea where we -

Vol 15 2363

- (1) what was going on I didn't know what was going on with  
 the  
 (2) engines  
 (3) Q When you first returned to the bridge you didn't know it  
 (4) was in Load Program Up but the captain told you it was in Load  
 (5) Program Up is that what you're saying?  
 (6) A Yes yes  
 (7) Q Now the next document I'd like to show you in the sequence  
 (8) of events here we want to refer to is this VHF radio  
 (9) communication transfer Did you ever see this before?  
 (10) A Parts of it I have  
 (11) Q This is pre-designated Number 16 and I'd like to have this  
 (12) marked as the next Exhibit Number  
 (13) UNIDENTIFIED SPEAKER That would be 48792  
 (14) BY VIDEO EXAMINER  
 (15) Q Okay now turning to the 2330 and 54 second transmission  
 (16) that's recorded there it's on - it's on Page 4 I think  
 (17) of - their numbered Page 4 do you see up there the entry on  
 (18) the top of the page is 2326 They go in sequence  
 (19) A 2326 is the top  
 (20) Q The first yeah and if you look a little down from there  
 (21) you see a 2330 54?  
 (22) A Yes  
 (23) Q And it's from the Exxon Valdez?  
 (24) A Yes  
 (25) Q And it says at the present time I'm going to alter my

Vol 15 2364

- (1) course to 200 and reduce speed to about 12 knots to ah wind  
 (2) my way through the ice ah Naked Island and ETA might be a  
 (3) little out of whack but ah once we re clear of the ice out of  
 (4) Columbia Gla - just has G l a with some dots - Bav we ll  
 (5) give you another shout over you see that transmission?  
 (6) A Yes  
 (7) Q Did you hear Captain Hazelwood make this transmission?  
 (8) A No no I did not  
 (9) Q In connection with his advising he s going to reduce speed  
 (10) I want you to look at the previously - we looked at the bell  
 (11) logger can you put that exhibit out there?  
 (12) A Yes  
 (13) Q Do you see any speed reduction that Captain Hazelwood is  
 (14) advising vessel traffic of in his 2330 and 54 second  
 (15) transmission reflected on the bell logger?  
 (16) A No  
 (17) Q And in fact while we re on this subject isn t it a fact  
 (18) and we ve already covered this that at 2352 according to the  
 (19) log entry Captain Hazelwood put the engine in Load Program  
 (20) Up isn t that correct?  
 (21) A Correct  
 (22) Q He did that on his own and then told you about it isn t  
 (23) that correct?  
 (24) A Yes  
 (25) Q And you ve already described what Load Program Up is and

Vol 15 2365

- (1) Load Program Up was increasing speed was it not?  
 (2) A Yes  
 (3) Q When you returned do the bridge after dropping the pilot  
 (4) off did you know what course the vessel was on once you made  
 (5) this 200 course change or not?  
 (6) A When I first returned to the bridge no I did not know  
 (7) what the course was  
 (8) Q Did you subsequently find out what the course was?  
 (9) A Yes  
 (10) Q What was it?  
 (11) A I don't recall I can tell you that when I returned to the  
 (12) bridge and fixed the - took a fix off of - I don't even  
 (13) recall the time that as I was plotting that the vessel was  
 (14) beginning to turn to course whether it was the course of  
 (15) 200,  
 (16) I don't recall  
 (17) Q Do you recall a course change to 180 that followed after  
 (18) that after the 200 course change?  
 (19) A Yes I do  
 (20) Q You were on the bridge then and you remember that course  
 (21) change?  
 (22) A Yes  
 (23) Q Did the captain order that course change?  
 (24) A Yes, he did  
 (25) Q Now looking at the transcript again which we have marked  
 (26) didn t we mark it? Did I mark that transcript? Yeah 48792

Vol 15 2366

- (1) do you see any transmission from Captain Hazelwood advising  
 (2) Vessel Traffic Center that the vessel has changed course after  
 (3) the 2330 54 advises about the 200 course change?  
 (4) A No  
 (5) Q Advising them about the 180 course change?  
 (6) A I don't see it anywhere in here  
 (7) Q And based on your knowledge of the regulations for Vessel  
 (8) Traffic Center that course change should have been recorded  
 (9) is that correct?  
 (10) A I assume that it already - that it had been  
 (11) Q ~~Yes~~ but in answer to my question based on your  
 (12) understanding of the regulation which I read to you before the  
 (13) course change to 180 should have been reported?  
 (14) A Yes  
 (15) Q Is that your understanding? Now when Captain Hazelwood  
 (16) changed course to 180 up to that time had he said anything to  
 (17) you about his intention to give you the con turn the con over  
 (18) to you or was it after the course change to 180?  
 (19) A First mention of that was after the course change  
 (20) Q Okay And tell us what the captain said to you  
 (21) A When?  
 (22) Q This first mention after the course change the first  
 (23) indication that you have that Captain Hazelwood intends to  
 (24) leave the bridge and turn the con over to you What did he say  
 (25) to you first that you remember?

Vol 15 2367

- (1) A As far as turning the con over to me we had - we had  
 (2) discussed what - what he had intended asked me if I was  
 (3) comfortable with that I told him what I thought and what I  
 (4) saw and how much room we had between the reef and the  
 (5) ice had - I don't want to characterize it as being surprised  
 (6) but I had not seen the ice on radar up until the time that I  
 (7) returned to the bridge from dropping the pilot off So we  
 (8) had  
 (9) some discussion about that He asked me again if I was  
 (10) comfortable with that our attempt to get around the ice and  
 (11) that he wanted to leave the bridge for just a few minutes did  
 (12) I feel comfortable and I said yes  
 (13) Q Okay would you be able to indicate on this chart -  
 (14) MR O NEILL That s a good place to stop in the tape  
 (15) sir  
 (16) THE COURT Ladies and gentlemen please remember my  
 (17) oft repeated instruction that you not read or listen to  
 (18) anything about the case We ll be in recess now until 8 00  
 (19) tomorrow morning  
 (20) MR LYNCH Your Honor -  
 (21) MR SANDERS Your Honor Mr Lynch is trying to  
 (22) communicate  
 (23) MR LYNCH I just have a minor administrative matter  
 (24) one sentence matter  
 (25) THE COURT Jury is excused at this time and I ll see  
 (26) counsel

Vol 15 2368

- (1) (Jury out at 2 00 p m )
- (2) THE COURT Is it something we need on the record?
- (3) MR LYNCH I misidentified an exhibit Your Honor I
- (4) just wanted to recite it
- (5) MR LYNCH Your Honor I m advised that I identified
- (6) Exhibit 3451B as 3431B and I d like to ask that the record be
- (7) corrected to reflect admission of 3451B as offered with Mr
- (8) Bell
- (9) THE COURT You re going to have to say that again I
- (10) confused the numbers in listening to you The correct number
- (11) is 3451?
- (12) MR LYNCH 51
- (13) THE COURT And you called it -
- (14) MR LYNCH 31 3431 Baker in both cases
- (15) THE COURT Okay
- (16) MR O NEILL We have no objection
- (17) THE COURT We ll make that change thank you
- (18) MR O NEILL I have one minor thing We have about
- (19) five minutes of slides tomorrow of the Valdez on the rock with
- (20) the oil coming out and we re going to put them on with a slide
- (21) projector Could we with your permission turn down the
- (22) lights for those five minutes so that the slides - is that
- ( 3) okay sir?
- ( 4) THE COURT We can handle that
- (25) MR NEAL Could Mr O Neill and I have a word with

Vol 15 2370

(1) INDEX

Vol 15 2369

- (1) you just as you re going out? It s purc housekeeping
- (2) THE COURT Sure We re in recess now
- (3) THE CLERK This court is in recess until eight a m
- (4) tomorrow morning
- (5) (Recess at 2 02 p m )

(1) PROCEEDINGS  
 (2) (Jury in at 8 00 a m )  
 (3) (Call to Order of the Court )  
 (4) THE COURT Good morning, ladies and gentlemen This  
 (5) is the continuation of trial in case A89 0095 Civil in re The  
 (6) Exxon Valdez  
 (7) We re ready for another witness  
 (8) MS WAGNER Actually Your Honor we were in the  
 (9) middle of Greg Cousins deposition and the following question  
 (10) had been posed I believe  
 (11) Question Would you be able to indicate on this chart  
 (12) 16708 which we previously marked where you saw the ice on  
 the  
 (13) radar  
 (14) CONTINUED DIRECT EXAMINATION OF GREGORY COUSIN  
 (Video)  
 (15) BY VIDEO EXAMINER  
 (16) Q Would you be able to indicate on this chart 16708 which we  
 (17) previously marked where you saw the ice on the radar?  
 (18) A Approximately, not with any degree of accuracy, no I  
 (19) think it was - I drew the best picture that I could draw on  
 (20) the original chart that was produced in the NTSB hearings  
 (21) Q Can you give us an idea on this chart your recollection of  
 (22) where that ice was?  
 (23) A Vague  
 (24) Q Can you take a pencil and draw where the leading edge of  
 (25) the ice was as you recollect it when Captain Hazelwood was up

Vol 16 2376

(1) there and in the process of turning the con over to you?  
 (2) A Wait a minute now As I saw it on the radar '  
 (3) Q Well before you mark the chart what I m interested in  
 (4) you have just testified that in this discussion with Captain  
 (5) Hazelwood -  
 (6) A Yes  
 (7) Q - your testimony was that you told him about the ice and  
 (8) where you saw it?  
 (9) A Yes, yes  
 (10) Q And that s what I want you to tell me now and to mark on  
 (11) the chart if you can where you saw the ice as you were  
 (12) describing it to Captain Hazelwood the leading edge  
 (13) A I'm not measuring any distances here  
 (14) Q No I understand you re doing this free hand on the chart  
 (15) A Something like that  
 (16) Q Could you make that line a little darker so we can see  
 (17) where the leading edge of the ice was?  
 (18) A Actually it kind of fell off more like this  
 (19) Q And the ice is so we all understand is south of that  
 (20) line southrly of that line? Is that the leading edge towards  
 (21) your vessel - westerly? It s across the channel?  
 (22) A Across  
 (23) Q So maybe you could draw some hash lines on that to indicate  
 (24) ice  
 (25) Thank you As you saw the ice then when Captain

Vol 16 2377

- (1) Hazelwood was about to turn the con over to you - I m going to  
 (2) hold this up so that the camera can pick up what was drawn -  
 (3) is it correct then that you saw the ice extending out the  
 (4) easterly limit of the traffic separation scheme as you ve  
 (5) drawn it and going all across the entire traffic separation  
 (6) scheme in the area you ve drawn it is that correct?  
 (7) A It's approximate I don't know that it was across the  
 (8) entire scheme but - today I didn't even measure what is  
 (9) this distance here I thought I said it was less than -  
 (10) approximately a mile We had a mile clearance to get  
 between  
 (11) Bligh Reef light or something like that  
 (12) Q You had a mile clearance between the buoy?  
 (13) A That's kind of what I recall now  
 (14) Q Now when the captain was going to leave to go below he  
 (15) just before leaving put it on load program up which you ve  
 (16) told us about?  
 (17) A Right  
 (18) Q So in other words Captain Hazelwood left the bridge and  
 (19) correct me if I m wrong two minutes before your vessel was  
 (20) going to be abeam of the position that you re testifying to  
 (21) that he told you to make the turn in?  
 (22) A Yes  
 (23) Q Is that correct?  
 (24) A Yes  
 (25) Q 120 seconds?

Vol 16 2378

- (1) A Right  
 (2) Q What was the urgency as you understood it in what Captain  
 (3) Hazelwood told you why he left the bridge at this time two  
 (4) minutes before the turn that you ve testified he told you to  
 (5) make at Busby Island light?  
 (6) A I don't know that I ever understood the urgency, but I  
 (7) understood that he needed to gather figures to pass on to  
 (8) Alyeska or whatever the name of our agent is up there  
 (9) Q Did he use the word messages to you when he said I got to  
 (10) send some messages or do you recall the term he used?  
 (11) A I don't recall specifically if he used that term  
 (12) Q And you just testified just a minute ago you said you  
 (13) weren't sure if you ever understood the urgency of it What  
 (14) did you mean by that? Is it that you questioned the urgency?  
 (15) A In comparison to what we were doing Who cares about  
 cargo  
 (16) figures? I mean that's my opinion, but evidently he felt  
 (17) comfortable I indicated to him that it's not a  
 (18) particularly - should not have been a particularly tricky  
 (19) maneuver  
 (20) Q On that evening when you were thinking of your mind set  
 (21) right then did you question the necessity of Captain Hazelwood  
 (22) leaving the bridge for the reason that he gave to you in the  
 (23) circumstances the vessel was in which you ve testified to  
 (24) outside the traffic separation scheme?  
 (25) A I didn't really have time to - I didn't really have - I

Vol 16 2379

- (1) was a bit busy with navigating the vessel to concern myself  
 (2) with whether it was unusual or not It was just that's the  
 (3) captain that s what he's doing  
 (4) Q Now your prior testimony that you just gave as you  
 (5) reflect on it now you find it to have been unusual is that  
 (6) what you re saying?  
 (7) A Yes I'm sure he does too  
 (8) Q I show you 32504 This is a photograph taken at night in  
 (9) the wheelhouse of the Exxon Valdez Do you recognize the  
 (10) photograph as being somewhat representative of what you had  
 on  
 (11) the evening of March 23 24?  
 (12) A Somewhat The lights are a little bit too bright but  
 (13) Q You like them dimmer than that?  
 (14) A Yes it was quite a dark evening  
 (15) Q Okay And this photograph shows this overhead rudder  
 angle  
 (16) indicator is illuminated?  
 (17) A Yes  
 (18) Q So you can readily see that can you not?  
 (19) A Yes  
 (20) Q You already testified that Captain Hazelwood knew because  
 (21) you discussed it with him that you were outside the traffic  
 (22) separation scheme when he was turning the con over to you?  
 (23) A Yes  
 (24) Q He further knew the vessel was on a course of 180?  
 (25) A Yes

Vol 16 2380

- (1) Q He also knew that the vessel s course of 180 was heading if  
 (2) continued down toward the Bligh Reef area?  
 (3) A Yes  
 (4) Q He also knew that there was ice in the channel which you  
 (5) previously discussed and have marked on the chart?  
 (6) A Yes  
 (7) Q Across the traffic separation scheme?  
 (8) A Yes  
 (9) Q He knew that you were a Navy third mate had come up from  
 a  
 (10) seaman up to a third mate about when you had made your third  
 (11) mate?  
 (12) A Yes  
 (13) Q Got your third mate license?  
 (14) A Yes  
 (15) Q He further knew that when he was turning the con over to  
 (16) you that it was Second Mate LeCain s watch?  
 (17) A Yes, he did  
 (18) Q He further knew that the steering was on auto gyro because  
 (19) he had put it in auto gyro?  
 (20) A Yes  
 (21) Q And by the way did Captain Hazelwood before he left the  
 (22) bridge tell you it was auto gyro?  
 (23) A I only knew when the watch was changing out Mr Carr  
 (24) informed me that it had been put on  
 (25) Q Did you find it unusual that Captain Hazelwood had ordered

Vol 16 2381

- (1) the engines to be put in load program up under the conditions  
 (2) that existed that evening where the vessel was located outside  
 (3) the traffic separation scheme and with ice in the traffic  
 (4) separation scheme ahead of you?  
 (5) A Yeah Yes I did  
 (6) Q After he departed can you tell us what you did next?  
 (7) A I went to the steering console and put the steering into  
 (8) hand mode helm mode  
 (9) Q Did you do that yourself?  
 (10) A Yes  
 (11) Q And you've already testified that you confirmed by looking  
 (12) at the indicators on the SRP 2000 that that switch had been  
 (13) made?  
 (14) A Yes  
 (15) Q Then what did you do next?  
 (16) A I - I believe that's when I took the fix or shortly  
 (17) thereafter, I was headed out to the port bridge wing, took a  
 (18) visual bearing of Busby light  
 (19) Q Okay And what did you use for the time that you were  
 (20) doing this? Did you use your wristwatch?  
 (21) A Yes  
 (22) Q And had you previously synchronized your wristwatch with  
 (23) the bridge watch?  
 (24) A Yes  
 (25) Q You do that as a matter of routine when you come on watch?

Vol 16 2382

- (1) A Yes And also the gear test requires that  
 (2) Q The first thing you did was take a bearing with an azimuth?  
 (3) A Yes  
 (4) Q I'm going to ask you prior to that and in your sailing  
 (5) experience have you ever utilized any other method to  
 (6) determine when a navigational aid was abeam when you  
 (7) needed to  
 (8) do it rapidly?  
 (9) A Yes  
 (10) Q What method did you use?  
 (11) A I've used radar for that purpose I've also just in  
 (12) conjunction with the radar placed an azimuth circle set up  
 (13) on - with the vanes set so I could actually take a rough sight  
 (14) of it from inside the wheelhouse  
 (15) Q Why did you in this situation take the time to take an  
 (16) azimuth bearing to make it precise as opposed to doing it in a  
 (17) rougher manner like I described?  
 (18) A I can't give you a satisfactory answer for that It  
 (19) puzzles me also  
 (20) Q Now after you took the azimuth bearing you then walked  
 (21) into the wheelhouse from the port wing?  
 (22) A Yes  
 (23) Q And what did you do next?  
 (24) A I read the range radar range off of Busby Island the  
 (25) point - the point  
 (26) Q And then what did you do after you got that distance?

Vol 16 2383

- (1) A I plotted the fix  
 (2) Q So you walked back into the chart room and while you were  
 (3) in this position we mentioned yesterday that you couldn't see  
 (4) anything up ahead?  
 (5) A Correct  
 (6) Q Okay Now you have plotted the fix and tell me from the  
 (7) time you walked out on the port wing of the bridge to take the  
 (8) azimuth bearing that time at that time was 55 the time you  
 (9) started this process?  
 (10) A Yes  
 (11) Q Can you tell us when did you receive a first report from  
 (12) the lookout?  
 (13) A I had just finished plotting position at the 2355 fix as  
 (14) the lookout came into the chart room and reported Bligh  
 (15) Reef light She gave the color and characteristics of the light  
 (16) Q Did she tell you where the light was in bearing with  
 (17) reference to your heading?  
 (18) A Yes  
 (19) Q What did she say?  
 (20) A I believe she said it was a point on the port bow - a  
 (21) point on the starboard bow, excuse me  
 (22) Q And the point in nautical terms for those that don't know  
 (23) is how many degrees?  
 (24) A 11 and a quarter degrees  
 (25) Q Now when she made that report to you did you reach a

Vol 16 2384

- (1) conclusion as to what light she was reporting?  
 (2) A I - I knew what light it was I'd seen it before she had,  
 (3) actually  
 (4) Q Okay And did she make a subsequent report to you?  
 (5) A She - yes Some moments later and I can't say how  
 (6) much  
 (7) later she corrected her initial report and the characteristic  
 (8) of the light  
 (9) Q Do you remember what the correction was or -  
 (10) A I think she'd reported it as six or seven second light and  
 (11) then she corrected hers to a five second light  
 (12) Q To what it actually was on the chart?  
 (13) A Yeah yeah  
 (14) Q Where were you when she made that second report? Had  
 (15) you  
 (16) come out of the chart room or were you still in the chart room?  
 (17) A I was in the wheelhouse  
 (18) Q You plotted the position she had made the first report  
 (19) while you were in the chart room?  
 (20) A Yes  
 (21) Q You walked out of the chart room now what did you do  
 (22) next?  
 (23) A That's when I approached the radar It was giving the  
 (24) command - I was giving the command when she made her  
 (25) second  
 (26) report as I recall  
 (27) Q Giving what command?  
 (28) A The rudder order the ten degree right rudder

Vol 16 2385

- (1) Q I see Okay So you gave that order then you went – you  
 (2) went to the telephone?  
 (3) A I went to a bulkhead  
 (4) Q Got the light?  
 (5) A Right, flashlight went to the telephone It's on the  
 (6) bulkhead separating the chart room and the wheelhouse  
 and  
 (7) called the captain's office  
 (8) Q Were you in the wheelhouse when you were making that call  
 (9) or were you in the chart room?  
 (10) A I was in the wheelhouse  
 (11) Q And then I think we talked about before you turned around  
 (12) to make the telephone call to Captain Hazelwood and you  
 didn't  
 (13) watch the – you didn't watch the helmsman?  
 (14) A I turned to take a flashlight from a holder that was on an  
 (15) opposite bulkhead and I called Captain Hazelwood as he  
 had  
 (16) instructed me to do  
 (17) Q Okay And again you agree you did not watch I think you  
 (18) testified you did not watch Kagan to see if he executed the  
 (19) order?  
 (20) A No, I did not  
 (21) Q You got on the phone with Captain Hazelwood Can you tell  
 (22) us to the best of your recollection what did you say and what  
 (23) did he say?  
 (24) A I told Captain Hazelwood that we had initiated our turn  
 (25) back to the traffic lanes and that it appeared to me that we

Vol 16 2386

- (1) may still get into some of the ice And he said do you think  
 (2) that – are they real big? Well I couldn't see them And he  
 (3) said do you think there's any problem? And I said I – I  
 (4) didn't know That was the gist of the conversation This is  
 (5) not verbatim I don't recall  
 (6) Q Okay Now you have testified you're having this  
 (7) conversation with Captain Hazelwood About how long would  
 you  
 (8) estimate you were on the telephone with him?  
 (9) A Quite frankly, I think I lost track of time  
 (10) Q Mr Cousins just focusing on Kagan when you ordered  
 Kagan  
 (11) to go right ten degrees rudder you then turned around and  
 went  
 (12) to the telephone?  
 (13) A Yes  
 (14) Q You did not watch to see if he executed the order and  
 (15) you –  
 (16) A Right  
 (17) Q – you did not watch the rudder angle indicator Would you  
 (18) have done things differently in that respect just those few  
 (19) moments with respect to that order?  
 (20) A I would never make that mistake again with any  
 helmsman,  
 (21) not just Mr Kagan But I –  
 (22) Q All right With any helmsman but if you had had that  
 (23) knowledge it would have motivated you to watch him is that  
 (24) correct?  
 (25) A I would not have bothered to turn my back on the – the

Vol 16 2387

- (1) whole process in piloting the vessel which is essentially  
 what  
 (2) I did when I turned to make the telephone call  
 (3) Q After you make the call to Captain Hazelwood then tell us  
 (4) what you did?  
 (5) A After the call?  
 (6) Q Yes You hang up?  
 (7) A I hang up and the sequence of my movements from then  
 on are  
 (8) not clear  
 (9) Q Did you?  
 (10) A I – I approached – I recall going to the radar From  
 (11) then on I can – I can tell you what I did I don't know that  
 (12) the sequence is correct That's as I recall the first moment  
 (13) of great concern that I had –  
 (14) Q When you looked at the radar?  
 (15) A – when I returned  
 (16) Q What gave you great concern?  
 (17) A Well nothing had happened as far as a heading change  
 (18) Q How did you –  
 (19) A Or not much  
 (20) Q How did you make the judgment that nothing had happened  
 as  
 (21) far as a heading change?  
 (22) A Well, looking at the radar, the heading flasher the  
 (23) bearing of Bligh Reef light in relation to the heading there's  
 (24) a heading readout display from the radar  
 (25) Q All right Can you tell us what did you do next?

Vol 16 2388

- (1) A As I recall I told the helmsman to get the rudder over to  
 (2) ten right and immediately I turned and looked out went out  
 to  
 (3) the port bridge wing and looked back at Busby Island light  
 (4) Q And where did you see Busby Island light?  
 (5) A It was –  
 (6) Q Do you want to look at this chart?  
 (7) A – abaft the port beam  
 (8) Q Abaft the port beam?  
 (9) A Abaft the port beam Perhaps broad on the port quarter,  
 as  
 (10) I recall  
 (11) Q Were you able to tell from looking at the light whether you  
 (12) were in the white sector or the red sector just from looking  
 (13) at it?  
 (14) A It observed a white light  
 (15) Q You're out on the port wing and you looked back at Busby  
 (16) light what did you do next?  
 (17) A I entered the wheelhouse I'm not real clear on this I  
 (18) approached the three centimeter radar I don't know  
 whether  
 (19) when I went into the chart room I don't recall it For some  
 (20) reason at some point I thought that I had gone back to the –  
 (21) the chart just briefly, but I'm not sure about that at all  
 (22) There's the 20 degree rudder command also was given at  
 about  
 (23) that time when I re-entered the wheelhouse  
 (24) Q Okay You gave a 20 degree right rudder order to Kagan  
 (25) and can you tell me what did you do then? Did you – in

Vol 16 2389

- (1) connection with did you observe - what did you observe right  
 (2) after you gave him the order? Did you watch him?  
 (3) **A I'm afraid that I - this is where I may have returned to  
 (4) the chart room**  
 (5) **Q So is it correct that when you gave him the 20 degree right  
 (6) rudder order you did not observe whether he put the wheel  
 (7) further to starboard?**  
 (8) **A Correct**  
 (9) **Q And you did not observe the rudder angle indicator to see  
 (10) if it increased from its position you last saw it at at six?**  
 (11) **A No I observed it moving from six towards ten and I didn't  
 (12) stand there and watch it I don't recall watching it until it  
 (13) stopped on ten I returned my attention to either the rock or  
 (14) the radar or I would imagine the radar**  
 (15) **Q And you may have gone in the chart room you said is that  
 (16) correct?**  
 (17) **A It - to the best of my - my recollect - I actually don't  
 (18) remember going back into the chart room but I - I have a  
 (19) sense that I did and I just don't recall it because the  
 (20) circumstances that I found myself in That I may have  
 (21) neglected observing the swing from ten to twenty also**  
 (22) **Q On the rudder angle indicator is what you're saying?**  
 (23) **A Correct yes**  
 (24) **Q All right So after the hard right did you then make a  
 (25) telephone call to Captain Hazelwood that you just mentioned?**

Vol 16 2390

- (1) **A Yes**  
 (2) **Q And what did you say to him?**  
 (3) **A I told the captain that we're in serious trouble And he  
 (4) says what do you mean? I said we're in very serious  
 (5) trouble  
 (6) that we are probably going to ground or something to that  
 (7) effect**  
 (8) **Q What did he say?**  
 (9) **A And he said well where's the rudder? And I said it's  
 (10) hard right rudder And then I looked at the rudder angle  
 (11) indicator and it was still at 20 and I told the helmsman to  
 (12) get the rudder over to hard hard right That's probably the  
 (13) only time I watched him that evening**  
 (14) **Q And then you hung up or did you actually feel or hear the  
 (15) grounding while you still had the telephone in your hand?**  
 (16) **A We were making - there are a series of - of shocks to the  
 (17) vessel It felt as I recall three - it was - gave me the  
 (18) sensation on the bridge of having run over speed humps  
 (19) That's  
 (20) exactly what it felt like and I - actually the captain was  
 (21) still on the phone and I said we're going aground and I just  
 (22) hung up and he was on the bridge -**  
 (23) **Q Okay**  
 (24) **A - immediately thereafter**  
 (25) **Q Did you give any further orders to Kagan after the hard  
 (26) right?**  
 (27) **A Yes I did The picture I had in my mind of where the -**

Vol 16 2391

- (1) **the position of the vessel was the - that the north -  
 (2) northernmost point of the reef My fear was that as the  
 (3) vessel  
 (4) continued to swing, and we were still - seemed to be making  
 (5) way through over the reef My concern was that the vessel  
 (6) if  
 (7) it continued to swing as it was was going to hole the engine  
 (8) room and I ordered a hard left As I did that, the captain  
 (9) was right there, and after that he really took control of  
 (10) anything that went on**  
 (11) **Q I'm just asking do you have any explanation why the course  
 (12) recorder does not indicate any change off of 180 shortly after  
 (13) your 2356 or 2357 ten degree right rudder order? Based on  
 (14) your  
 (15) testimony those were the times that you would have given the  
 (16) order but it indicates the turn commencing at sometime by  
 (17) your estimate at 002 or 003 which is a gap of five to six  
 (18) minutes?**  
 (19) **A Yes**  
 (20) **Q Do you have any explanation for that?**  
 (21) **A It appears that we were just - we were still steering  
 (22) 180**  
 (23) **Q Now turning to the bell logger can you tell us what was  
 (24) the first time that there was any reduction of speed ordered by  
 (25) Captain Hazelwood as shown on the bell logger at least  
 (26) reflected there after the grounding?**  
 (27) **A That's half ahead at 18 minutes after midnight 18 54  
 (28) Q 18 and 54 seconds is that correct?**

Vol 16 2392

- (1) **A Um hum**  
 (2) **Q So the bell logger shows that it's almost at 19 is that  
 (3) correct?**  
 (4) **A Correct**  
 (5) **Q And if the grounding occurred at 008 just based on your  
 (6) best estimate before that first bump on the course recorder  
 (7) just assuming that to be the initial grounding there was an  
 (8) interval of about nine minutes after the initial grounding that  
 (9) the engine was put to half ahead?**  
 (10) **A Yes**  
 (11) **Q Now who ordered the engines ultimately stopped which is  
 (12) indicated on the bell logger at time 19 and 49 seconds which  
 (13) is 19 minutes after midnight and 45 seconds is that correct?**  
 (14) **A Yes**  
 (15) **Q Who gave that order you or Captain Hazelwood do you  
 (16) recall?**  
 (17) **A I don't recall Somebody up there the captain or myself  
 (18) regained some composure and realized that we needed to  
 (19) do  
 (20) something to the engine I believe it was probably the  
 (21) captain He instructed me to call the engine room I may  
 (22) have  
 (23) called the engine room before or I just - I don't remember  
 (24) I remember being on the phone with them twice**  
 (25) **The captain as I recall gave the commands for engine  
 (26) speed reduction**  
 (27) **Q Did you at any time after the grounding smell crude oil**

Vol 16 2393

Vol 16 2395

- (1) vapors?
- (2) **A Yes They were very strong**
- (3) **Q And what was the interval of time between the grounding and**
- (4) **your smelling this?**
- (5) **A Almost immediately**
- (6) **Q And in your mind did you make a judgment that there was**
- (7) **danger of a fire?**
- (8) **A Yes, that possibility crossed my mind**
- (9) **Q Now were you on the bridge when Captain Hazelwood**  
started
- (10) **maneuvering the vessel's engines?**
- (11) **A Yes**
- (12) **Q After the grounding?**
- (13) **A Yes**
- (14) **Q And on the bell logger it indicates that the first engine**
- (15) **maneuver was at time 0935 and 57 seconds when the vessel's**
- (16) **engine was put dead slow ahead Do you see that number**  
towards
- (17) **the top of the second column? It's about six entries down**
- (18) **It's this one right here**
- (19) **A The dead -**
- (20) **Q The dead slow ahead you see that?**
- (21) **A Slow ahead that's at 0935 57**
- (22) **Q Yes**
- (23) **A Yes**
- (24) **Q And to bring that to local time that's 0935 and 57**  
seconds is that correct?
- (25) **seconds is that correct?**

- (1) **A Yes**
- (2) **Q And do you see where he is twice in that transmission he**  
says we are working our way off the reef and then a little
- (3) **below that he says again we're trying to just get her off the**  
reef Do you see that?
- (4) **A Yes**
- (5) **Q What does that indicate to you he was trying to do?**
- (6) **A Could be meaning he was trying to get her off the reef**
- (7) **Q Were you on the bridge when Captain Hazelwood ultimately**  
stopped the engine after this commencement of the maneuvers
- (8) **at**
- (9) **about 0036 and the maneuvers -**
- (10) **A Yes**
- (11) **Q You were on the bridge?**
- (12) **A Yes**
- (13) **Q The maneuvers continued did they not from 0036 to time**  
1040 and 50 seconds where there's a stop and we're indicating
- (14) **the left hand column on that page can you look at that about**  
midway below the center Do you see that?
- (15) **A Yes**
- (16) **Q And is that correct then that the maneuvers continued for**  
about an hour and four or five minutes?
- (17) **A Yes**
- (18) **Q And is it also correct if you look down a little bit in**  
that column that on three occasions there's entries of full
- (19) **ahead on the engine?**

Vol 16 2394

Vol 16 2396

- (1) **A Yes**
- (2) **Q Did Captain Hazelwood did you hear him say anything that**  
indicated to you what he was trying to do while he put his
- (3) **engines ahead?**
- (4) **A I heard part of a radio transmission And I assume it was**  
with vessel traffic that he thought perhaps there was a
- (5) **chance**
- (6) **to extricate the vessel from the reef**
- (7) **Q When you say extricate you mean free the vessel from your**  
strand?
- (8) **A Yes correct**
- (9) **Q I'm going to read you transmissions here that he gave and**  
then ask you your interpretation It was your understanding he
- (10) **was trying to get underway?**
- (11) **A I really didn't know what he was trying to do**
- (12) **Q But you did mention that you had heard part -**
- (13) **A I mean the - the definition of extricate is to pull**  
something out right?
- (14) **Q Yeah I want you to turn over to page nine on this same**  
exhibit
- (15) **A Um hum The transmissions'**
- (16) **Q Yes And I want you to look at the transmission that was**  
of 0107 29 when he's talking to the captain of the port?
- (17) **A Yes**
- (18) **Q Were you on the bridge when Captain Hazelwood had this**  
transmission with the captain of the port?
- (19) **transmission with the captain of the port?**

- (1) **A I see full ahead yes**
- (2) **Q Did you hear Captain Hazelwood during this hour and four or**  
five minutes giving orders to the helmsman?
- (3) **A Yes**
- (4) **Q And what orders did you hear that were given?**
- (5) **A I don't recall**
- (6) **Q During any of your studies did they ever teach you about**  
proper maneuvers when your vessel goes aground if you're
- (7) **going**
- (8) **to attempt to free your vessel from a strand?**
- (9) **A Yes**
- (10) **Q And what were you taught?**
- (11) **A Stay aground**
- (12) **Q And what - were you ever taught anything that if you were**  
going to risk trying to free yourself from a strand did you
- (13) **ever receive any instruction as to what steps you should take**  
to try and do that?
- (14) **A I can't recall having read anything recommending pulling a**  
grounded vessel in the condition that we were in from a
- (15) **ground,**
- (16) **but any - any text that I've read on those matters suggest**  
extreme caution and number of safety precautions
- (17) **Q And in connection with use of the engines if you go**  
forward - if you go aground in the forward part of your vessel
- (18) **forward of your engine room aft would it be more prudent to**  
back your engines rather than try and go ahead to free your
- (19) **vessel from a stern strand?**

Vol 16 2397

- (1) A If someone was trying to pull the ship off the reef?  
 (2) Q Yes  
 (3) A I remember - regardless of whether he thought that was a  
 (4) good thing to do or not you would back the engines  
 (5) Q And by going forward on the engines in the situation you  
 (6) were in if the vessel were able to have been freed from the  
 (7) strand might you not endanger tearing your engine room  
 apart?  
 (8) A Yes  
 (9) Q Now just directing your attention a moment to the course  
 (10) recorder tape again Do you have a copy of that over there in  
 (11) front of you? It's on that same page we were looking at  
 (12) before Just look and I want to direct your attention to time  
 (13) Greenwich time 936 approximately which is local time 0036  
 (14) Do you see that?  
 (15) A Yes  
 (16) Q And you see the heading of the vessel there at that time  
 (17) the heading was about 255? In the 180 to 170 quadrant?  
 (18) A Yes  
 (19) Q Now taking that time and the time that Captain Hazelwood  
 (20) was maneuvering the engine for the next hour and four minutes  
 (21) approximately the heading of the vessel changed while he was  
 (22) maneuvering the vessel did it not?  
 (23) A Yes  
 (24) Q And if we watch the swing of the vessel from the 255  
 (25) position she swings both port and starboard numerous times

Vol 16 2398

- (1) does she not?  
 (2) A Yes  
 (3) Q And the range of the swing the furthest it swings to  
 (4) starboard is over about 263 degrees 264 degrees do you see  
 (5) that?  
 (6) A Yes  
 (7) Q And the furthest she swings to port is over about up on  
 (8) top I guess it's about 249 degrees?  
 (9) A Yes  
 (10) Q So during this period of time that Captain Hazelwood was  
 (11) maneuvering the vessel in effect that was taking place and  
 (12) also using the helm was the vessel's heading was actually  
 (13) changing while she was on the reef between those -  
 (14) A Yes  
 (15) Q - degrees we just discussed?  
 (16) A Yes  
 (17) Q When the master turned the con over to you just before the  
 (18) grounding you said you were - you said you were busy?  
 (19) A Certainly  
 (20) Q Okay You were still - you still had the duty to navigate  
 (21) the vessel even though the master was aboard right?  
 (22) A Correct  
 (23) Q I mean was on the bridge?  
 (24) A Right  
 (25) Q And you were carrying out those duties?

Vol 16 2399

- (1) A Yes  
 (2) Q All right At the time that the master turned the con over  
 (3) to you and told you to - what did he actually say about the  
 (4) next course other than the one you were on? You were on 180  
 (5) is that right?  
 (6) A Yes  
 (7) Q Did he give you a next course to steer?  
 (8) A No  
 (9) Q Isn't that somewhat unusual?  
 (10) A Not in this circumstance no  
 (11) Q So he just told you when you came abeam of Busby Island  
 (12) what do what?  
 (13) A Start bringing the ship back into the lanes  
 (14) Q And left it to your discretion as to what courses to steer  
 (15) and what helm orders to give?  
 (16) A Yes  
 (17) Q Did he - had you ever been in that situation before where  
 (18) the master left you headed directly at a reef and left to your  
 (19) discretion what courses to steer and how much helm to use?  
 (20) A No  
 (21) Q Do you have an opinion about whether or not that's good  
 (22) maritime practice?  
 (23) A I wouldn't do it  
 (24) Q Did you have in mind the time he turned the con over to you  
 (25) and told you to make the turn at Busby Island what course you

Vol 16 2400

- (1) would steer to bring it back into the lanes?  
 (2) A Yes I had already formulated my approach to this - our  
 (3) passage between the reef and the ice back into the lanes  
 (4) Q What course did you in your mind - you didn't mark it on  
 (5) the chart?  
 (6) A No  
 (7) Q And what course did you have in your mind that you would  
 (8) steer to go from abeam of Busby Island between the ice and  
 (9) the reef?  
 (10) A It was not so much a course It was a series of headings  
 (11) Q And did you have those plotted out in your mind?  
 (12) A In my mind yes  
 (13) Q What were they?  
 (14) A I cannot recall My intent was because of the extent of  
 (15) the ice and how it appeared on radar that the reason for me  
 (16) not using more rudder angle more rudder initially was that I  
 (17) wanted a somewhat more gradual rate of change, heading  
 change  
 (18) so I didn't end up in the midst of the ice  
 (19) Q Okay Now where the ice was did not encroach on the red  
 (20) sector of Busby Island did it?  
 (21) A No  
 (22) Q So that there was room between the red sector and the front  
 (23) edge of the ice for the vessel to go through?  
 (24) A Yes there was plenty of room  
 (25) Q Did the master tell you before leaving the bridge anything

Vol 16 2401

- (1) about how you should – should steer the vessel or order the  
 (2) vessel steered to do that to avoid the ice?  
 (3) A As far as courses or rudder orders no  
 (4) Q He told you he was leaving for a few minutes did you  
 (5) expect him to be back on the bridge during these maneuvers?  
 (6) A Well I wasn't sure When he – when he first asked if I  
 (7) felt comfortable that he wanted to – would like to leave the  
 (8) bridge for a few minutes said if I'm not back in a few  
 (9) minutes give me a call So it was somewhat vague as to  
 (10) whether he was going to come up on his own or if he wanted  
 (11) me  
 (12) to give him a call when we were abeam Busby Which was  
 (13) only a  
 (14) couple of minutes, anyway  
 (15) Q Why didn't you turn when you were abeam Busby?  
 (16) A I thought I was That was the intent  
 (17) Q Well my understanding –  
 (18) A Oh okay  
 (19) Q – was that some time had passed from abeam Busby to your  
 (20) first helm order?  
 (21) A I can't give you a good explanation That was just poor  
 (22) seamanship on my part Lack of experience perhaps, in  
 (23) that  
 (24) situation I don't know But in situations where I  
 (25) maneuvered  
 (1) a vessel before I had never done anything like that  
 (2) Q The master was aware of your experience wasn't he?  
 (3) A I don't know  
 (4) Q He had evaluated you on a number of occasions at least

Vol 16 2402

- (1) two?  
 (2) A Yes  
 (3) Q Now you mentioned I believe Mr Cousins it was  
 (4) Tuesday You said looking back there a number of things you  
 (5) would have done differently and I think it was in response to  
 (6) a question about making sure that Kagan in fact followed your  
 (7) order to turn Could you describe for me sitting here in  
 (8) hindsight what things you would have done differently on the  
 (9) evening of the 23rd and early on the 24th?  
 (10) A I would never have bothered to go out and take a visual  
 (11) bearing from a repeater I would not have left the three  
 (12) centimeter radar I would not even have bothered to go  
 (13) back  
 (14) into the chart room I already knew where I was I would not  
 (15) have left the helmsman unattended as I did I would have  
 (16) taken  
 (17) a visual bearing but I wouldn't have – would not have  
 (18) walked  
 (19) out to the repeater and sighted it It was not necessary  
 (20) Q Why did you do it that evening?  
 (21) A I can't answer that  
 (22) Q You said you would have stayed at the radar?  
 (23) A I would have maintained the radar watch and right there  
 (24) where I can watch the helmsman the rudder angle  
 (25) indicator I  
 (1) can watch – I had fairly decent visibility, as far as viewing  
 (2) the lights the navigation lanes, Bligh Reef light I could see  
 (3) that I saw that before the lookout did  
 (4) There was just no reason for me to do what I did that

Vol 16 2403

- (1) evening as far as plotting the fix going out and sighting it  
 (2) turning my back on the helmsman calling the captain If he  
 (3) wasn't there who cares I mean obviously he had  
 (4) something  
 (5) else to do I should not have allowed myself to become  
 (6) inattentive to more serious –  
 (7) Q Mr Cousins you were telling us a number of things that  
 (8) weren't necessary on hindsight such as going out and taking a  
 (9) visual bearing and going in the chart room?  
 (10) A Correct  
 (11) Q Do you believe as you sit here today that one of the  
 (12) reasons you may have been doing that is because you were  
 (13) nervous at the time?  
 (14) A No  
 (15) Q Had you ever been in a situation that you were in at that  
 (16) time where you were conning a vessel by yourself outside of the  
 (17) traffic separation scheme?  
 (18) A Not in that particular situation Maybe briefly headed  
 (19) towards an anchorage somewhere approaching Long Beach  
 (20) or  
 (21) approaching the dock down – or the port in Panama but  
 (22) those  
 (23) are fairly straightforward approaches but certainly nothing  
 (24) like this  
 (25) Q Did that concern you that you were put into a situation  
 (1) that you had never had any experience in before?  
 (2) A I would have to say that I was – I was too busy with  
 (3) trying to navigate the – the vessel to experience concern If

Vol 16 2404

- (1) there was concern it was buried quite deeply under  
 (2) everything,  
 (3) other thought processes that were necessary to do the job  
 (4) Q All right Now the fact is one of the reasons you were so  
 (5) busy was because you were the only officer on the bridge is  
 (6) that right?  
 (7) A The workload increases somewhat when you find  
 (8) yourself in  
 (9) this type of situation I'm not used to being a pilot I have  
 (10) never seen a pilot for example in the Mississippi River  
 (11) have  
 (12) to walk back into the chart room to look at a chart So  
 (13) perhaps I was not accustomed although I knew or I should  
 (14) have  
 (15) known better than to take my attention away from the  
 (16) progress  
 (17) of the vessel, instead of plotting the progress of the vessel  
 (18) Q Now had Hazelwood been on the bridge I take it that some  
 (19) of these responsibilities would have been spread out?  
 (20) A He would not have walked back into the chart room He  
 (21) would not have left what I'll call the conning station He  
 (22) would not have left the – I would not say that he would have  
 (23) left the wheelhouse I observed Captain Hazelwood  
 (24) maneuver a  
 (25) vessel before and I don't recall him ever taking his attention  
 (1) away from piloting a piloting profile is how you might  
 (2) describe it  
 (3) Q If he had wanted those things done he would have had you  
 (4) do them?  
 (5) A Correct  
 (6) Q But since you were the only person there you had to do

Vol 16 2405

Vol 16 2407

- (1) everything right?
- (2) **A I didn't have to - I did not have to do what I did Or in**
- (3) **walking out taking visual bearing It was not necessary It**
- (4) **really was not necessary As a matter of fact it was**
- (5) **considering the number of people on the bridge it was poor**
- (6) **practice**
- (7) **Q At that time though you had to do - you had to do what**
- (8) **in your judgment was necessary right?**
- (9) **A Obviously my judgment was flawed**
- (10) **Q Well I m not talking about looking at it today I m**
- (11) **talking about at that time when Hazelwood left the bridge you**
- (12) **had to do what you thought was necessary right?**
- (13) **A Correct**
- (14) **Q And at that time you did what you thought was necessary**
- (15) **right?**
- (16) **A Correct**
- (17) **Q And it wasn't Captain Hazelwood up there to question you or**
- (18) **tell you that you were doing something wrong was it?**
- (19) **A Correct**
- (20) **Q And on no occasion did Hazelwood call you to see how you**
- (21) **were doing did he?**
- (22) **A No he didn't**
- (23) **Q How long does it take to get from the captain's quarters to**
- (24) **the bridge?**
- (25) **A I don't know An estimate of - I would say if you were in**

- (1) **A Correct**
- (2) **Q And the pilot was on the bridge before Captain Hazelwood**
- (3) **and Captain Hazelwood came up later?**
- (4) **A Correct**
- (5) **Q Is that correct?**
- (6) **A Correct**
- (7) **Q Okay Let's go to the next thing You testified that**
- (8) **Captain Hazelwood after getting underway at some period of**
- (9) **time before the Narrows left the bridge?**
- (10) **A Yes**
- (11) **Q And you further testified that in your experience your**
- (12) **experience in Valdez you have never seen a captain who had**
- (13) **not**
- (14) **been on the bridge through the Narrows do you recall that?**
- (15) **A Correct**
- (16) **Q You further testified that you have never seen load program**
- (17) **up used before when there was ice in the traffic separation**
- (18) **scheme do you recall that?**
- (19) **A Correct**
- (20) **Q You further testified that the con was turned over to you**
- (21) **by Captain Hazelwood at a time in which the vessel was outside**
- (22) **the traffic separation scheme in which the vessel's heading was**
- (23) **in the general area of Bligh Reef that the vessel's steering**
- (24) **was in auto gyro the vessel's engine was in load program up**
- (25) **and that you had no pilotage?**
- (26) **A Correct**

Vol 16 2406

Vol 16 2408

- (1) **a hurry you could do it in ten or 15 seconds**
- (2) **Q In the circumstances in which Captain Hazelwood had**
- (3) **placed**
- (4) **auto gyro I think I went over this with you and after going**
- (5) **to 180 with the vessel heading out of the channel and indeed**
- (6) **still on auto gyro when the vessel was out of the channel and**
- (7) **he turned the con over to you -**
- (8) **A Yes**
- (9) **Q - in your judgment should the vessel have been in auto**
- (10) **gyro at that time?**
- (11) **A In my opinion no**
- (12) **Q Now is one of the reasons that you say no because you were**
- (13) **instructed by him as you testified that you were going to**
- (14) **make a course change in about two minutes after he was**
- (15) **walking**
- (16) **off the bridge and he walked off the bridge with the steering**
- (17) **still in auto gyro which would require it to have been put in**
- (18) **helm is that one of the reasons?**
- (19) **A That's part of it As a matter of practice even though**
- (20) **there's a - in some portions of the Sound a lot of room to**
- (21) **maneuver just as - as a normal practice I would not ever**
- (22) **put**
- (23) **it in - put a vessel in auto - auto steering**
- (24) **Q Mr Cousins you can tell me but in summarizing quickly**
- (25) **what you testified to on these different points starting out**
- (26) **Captain Hazelwood returned to the vessel and you didn't know**
- (27) **whether he would return before or after the pilot was aboard**
- (28) **is that correct?**

- (1) **Q In violation of your vessel organization manual the**
- (2) **requirement for two officers to be on the bridge?**
- (3) **A Assuming the Watch Condition C?**
- (4) **Q Yes**
- (5) **A Yes**
- (6) **Q With which you said in your judgment existed?**
- (7) **A In my judgment yes**
- (8) **Q You further testified that the captain went below to his**
- (9) **cabin and remained there until about the time of the grounding,**
- (10) **which was a period of - we had about 15 minutes I believe**
- (11) **from 2353 to 0008 or thereabouts?**
- (12) **A Correct**
- (13) **Q Now do you have an explanation knowing Captain**
- (14) **Hazelwood**
- (15) **and knowing what you knew of him before the grounding and**
- (16) **reflecting back on this what caused this captain - you**
- (17) **believed him to be a competent captain did you not I gather?**
- (18) **A Yes**
- (19) **Q What caused this competent captain in a sequence of acts**
- (20) **over a period of few hours to be performing acts which you have**
- (21) **given - the record speaks for itself - a description of? Do**
- (22) **you have any answer to that?**
- (23) **A I have no idea**
- (24) **Q Did you ever see Captain Hazelwood drinking ashore?**
- (25) **A One time yes**
- (26) **Q And when was that?**

Vol 16 2409

- (1) **A I couldn't give you the date** It was - the vessel was in  
 (2) **a shipyard and I'd stopped by his apartment briefly, he and**  
 (3) **myself and one of the other officers and I think we had a**  
 (4) **beer**  
 (5) **together**  
 (6) **Q Do you recall what shipyard?**  
 (7) **A Portland** But I don't - WSI I think was the contract  
 (8) **Q Do you recall what year that was?**  
 (9) **A I guess it must have been sometime in 1988**  
 (10) **Q Do you recall who the other officer was?**  
 (11) **A No I don't**  
 (12) **Q Did you have anything other than a beer as you described?**  
 (13) **A No**  
 (14) **MS WAGNER** Nothing further Your Honor  
 (15) **MR SANDERS** May it please the Court We have  
 (16) **cross examination or examination of Mr Cousins by video**  
 (17) **With the Court's permission and to save time we can start**  
 (18) **it up I have some charts to bring up and I'll do that while**  
 (19) **it's playing**  
 (20) **CROSS EXAMINATION OF GREGORY COUSINS**  
 (21) **BY VIDEO EXAMINER**  
 (22) **Q Did you bring any documents with you?**  
 (23) **A My license**  
 (24) **Q Could I see that? This is a second mate's license of ocean**  
 (25) **steam or motor vessels of any gross tons radar observer**  
 (26) **unlimited and it's dated January 12 1992 is that correct?**

Vol 16 2410

- (1) **A That's correct**  
 (2) **Q When did you get this license?**  
 (3) **A February of 1990 I believe or '89**  
 (4) **Q '89 that was your first issue of the second mate's**  
 (5) **license?**  
 (6) **A Yes**  
 (7) **Q When did you take the exam for the second mate's license?**  
 (8) **A In February**  
 (9) **Q The year was what again?**  
 (10) **A I believe it was '89**  
 (11) **Q Now just to put it in perspective was that a month**  
 (12) **before the grounding of the Exxon Valdez -**  
 (13) **A Right**  
 (14) **Q - you took the exam What age are you sir?**  
 (15) **A 42**  
 (16) **Q So as of March of '89 you were 39?**  
 (17) **A 39**  
 (18) **Q Now between high school and Page Navigation that you**  
 (19) **went to which we'll get to did you have any formal education?**  
 (20) **A Through Litton Industries I attended**  
 (21) **Q I'm sorry strike that because you said college I meant**  
 (22) **between college and Page Navigation I should say Did you**  
 (23) **have any formal education?**  
 (24) **A I attended courses that were offered by Litton Industry**  
 (25) **Engineers That was in context with my - my employment**  
 (26) **with**

Vol 16 2411

- (1) **them**  
 (2) **Q What did those courses relate to?**  
 (3) **A Mechanical engineering**  
 (4) **Q Okay Now Page Navigation school tell us about that**  
 (5) **Where is the school located that you went to?**  
 (6) **A It's - when I attended he was located in the City of New**  
 (7) **Orleans It has since moved**  
 (8) **Q Okay And how long did you attend that school?**  
 (9) **A I spent less than a month actually in the classrooms He**  
 (10) **prepares videotaped lectures and home study packages**  
 (11) **because - -**  
 (12) **my home is in Tampa that suited my needs**  
 (13) **Q And so you do the video study at home?**  
 (14) **A Yes**  
 (15) **Q When did you start at that school? What month do you**  
 (16) **remember?**  
 (17) **A I don't recall**  
 (18) **Q Well do you remember what is the length of the course**  
 (19) **including this home session and the less than a month you had**  
 (20) **at Page?**  
 (21) **A They usually recommend a minimum of a year study**  
 (22) **Q Did you do that?**  
 (23) **A Oh yes I studied on my own for sometime**  
 (24) **Q Well if you started Page in '86 is that correct did you?**  
 (25) **A Um hum yes**  
 (26) **Q Do you remember the time of year spring fall summer?**

Vol 16 2412

- (1) **A What I'm saying is that I can - my studies began long**  
 (2) **before I contacted Page Navigation I had my own**  
 (3) **textbooks I**  
 (4) **pursued my studies on my own I attended Page so that the**  
 (5) **instructors there could help me focus on exactly what I**  
 (6) **needed**  
 (7) **for the third mate exam instead of studying everything that**  
 (8) **I**  
 (9) **may need later on instead of right now**  
 (10) **Q So you didn't do the home study that Page recommended**  
 (11) **after**  
 (12) **the Page?**  
 (13) **A Yes I did**  
 (14) **Q Well let me just finish my question that Page recommended**  
 (15) **be done through its tapes and its studies you did it on your**  
 (16) **own before you went to Page is that what you're saying?**  
 (17) **A I really did it twice yes I did my own studies for**  
 (18) **probably more than a year I would estimate two years on**  
 (19) **my**  
 (20) **own before I even contacted Page When I went to Page I**  
 (21) **reviewed all of his material and at an accelerated rate**  
 (22) **because**  
 (23) **I was already quite familiar with most of the material**  
 (24) **anyway**  
 (25) **because I had studied it**  
 (26) **Q The material that you studied before you contacted Page**  
 (27) **was it Page's material?**  
 (28) **A No it was standard maritime textbooks**  
 (29) **Q Geared for a third mate study and for third mate license?**  
 (30) **A Well no it wasn't**  
 (31) **Q Well tell me what textbooks did you study then that you**  
 (32) **did this studying for about two years before any contact with**

Vol 16 2413

- (1) Page?
- (2) A Well standard marine text such as Bowditch Dutton's many of the Cornell maritime naval publications
- (3) Q Okay Then when you - you went to Page do you remember what time of the year that was that you actually came to New Orleans and went to the school?
- (4) A No I don't
- (5) Q Do you remember after you left the schooling and they gave you the videotapes and home study how long did you do that before you took your third mate's exam?
- (6) A Several months
- (7) Q Okay And then you took your third mate's exam?
- (8) A Yes
- (9) Q Did you pass it?
- (10) A Yes
- (11) Q And that was sometime in 1986? Is that correct?
- (12) A As I recall, yes, sir
- (13) Q And during that period you were a seaman what vessels did you sail on when you were a seaman a number of vessels?
- (14) A A number of them
- (15) Q And all tankers?
- (16) A All tankers
- (17) Q What was the overall length?
- (18) A I think they were close to 900 feet
- (19) Q About almost the same size as the Valdez?

Vol 16 2414

- (1) A Almost
- (2) Q And when you sailed just as an A B now before you were an officer did you ever go to Valdez the Port of Valdez?
- (3) A Yes many times
- (4) Q When you were issued your license did you immediately start sailing with Exxon as a third mate or was there some lapse in there where you were sailing as a seaman?
- (5) A I believe there was one assignment that I sailed in an unlicensed capacity and then I - as I recall it may have been the next assignment that I was stepped up
- (6) Q Do you remember would that have been in about 1987?
- (7) We'll
- (8) get to your service record later and maybe you can refresh your recollection This is just general right now that might have been around 1987 would that be about right?
- (9) A Perhaps the end of '86 beginning of '87
- (10) Q Do you remember any of the vessels you served on as a third mate?
- (11) A Yes
- (12) Q Do you remember all of them?
- (13) A Yes there weren't that many The Exxon Galveston Exxon -
- (14) Q Tell me the size of each as you're going along
- (15) A I couldn't
- (16) Q What was the overall length of the Galveston do you remember?

Vol 16 2415

- (1) A I have no idea It's probably - it was a converted tug barge lighter vessel so it's relatively small
- (2) Q Okay And then the next one?
- (3) A The Exxon Charleston
- (4) Q All right
- (5) A It was a private carrier approximately 600 feet long
- (6) Q Okay
- (7) A The Exxon New Orleans
- (8) Q All right
- (9) A Let's see
- (10) Q What was her size the New Orleans?
- (11) A 700 feet
- (12) Q Okay And the next one?
- (13) A The Exxon Valdez
- (14) Q Okay There's a total of four up through the grounding would that be correct as an officer?
- (15) A Right
- (16) Q All as a third mate?
- (17) A Yes, sir
- (18) Q When you sailed as an A B did you have occasion to go up to Prince William Sound?
- (19) A Yes
- (20) Q How many occasions?
- (21) A I think the estimate was perhaps 26 voyages or so, like that

Vol 16 2416

- (1) Q During the course of your service as an A B in Prince William Sound did you have occasion to steer up there?
- (2) A Yes
- (3) Q Did you stand the lookout watch during those -
- (4) A Yes
- (5) Q - those trips as well?
- (6) A Yes
- (7) Q You had a chance to observe the topography of the area?
- (8) A Yes
- (9) Q You knew where Bligh Reef was?
- (10) A Yes
- (11) Q You knew where the Bligh Reef buoy was?
- (12) A Yes
- (13) Q You knew where Busby Island was?
- (14) A Yes
- (15) Q You knew where Naked Island was?
- (16) A Yes
- (17) Q How about Rocky Point?
- (18) A Yes
- (19) Q Potato Point?
- (20) A Yes
- (21) Q The Narrows?
- (22) A Yes
- (23) Q Little Rock?
- (24) A Yes

Vol 16 2417

- (1) Q Now can you recall who the captains were that you sailed with into Valdez while you were an officer?
- (2) A Yes
- (3) Q Tell me who they were
- (4) A Captain Grove Captain Wallace Captain Hazelwood Captain
- (5) Stalzer Captain Hoye Captain Witty
- (6) Q Now when you sailed as an officer where did you pick up and drop off the pilot?
- (7) A Rocky Point
- (8) Q Was that on every single trip that you were involved with dropping off and picking up the pilot?
- (9) Let me rephrase that That was a bad question
- (10) When you were involved in the picking up or dropping off of the pilot did you always pick him up at Rocky Point and drop him off at Rocky Point?
- (11) A Yes
- (12) Q When you - when you acted as a lookout when you were an A B in Prince William Sound did you report the various navigation aids that you spotted?
- (13) A Yes
- (14) Q Now I'd like to focus on your service record for a second Can we have that put in front of the witness please?
- (15) A That's Exhibit 48786
- (16) UNIDENTIFIED SPEAKER What is the predesignation number?

Vol 16 2418

- (1) BY VIDEO EXAMINER
- (2) Q Number 11 I know you guys are trying to confuse me but I'm ready Could you turn to the service record covering the period February 13th 1987 to April 7th 1987 under Captain Wallace
- (3) A Yes
- (4) Q You have it in front of you?
- (5) A Yes
- (6) Q Is it correct that under the category maintains cooperative working relationship - sorry sorry Strike that Under the category willingness to assume additional responsibilities beyond normal job requirements Captain Wallace gave you what? A strong point performs very well?
- (7) A Correct
- (8) Q Under the category carries out thoroughly the commitments and duties of position with attention to necessary details what did Captain Wallace give you? What kind of rating?
- (9) A Strong point performs very well
- (10) Q Is that the highest you could have gotten highest rating you could have gotten?
- (11) A On this form yes
- (12) Q Under the category is always fit - sorry is always in fit condition alert and vigilant on watch what did Captain Wallace give you?
- (13) A Same rating

Vol 16 2419

- (1) Q The highest rating?
- (2) A Yes
- (3) Q Under the category acts quickly and effectively in emergencies or pressure situations what did Captain Wallace say about that?
- (4) A No opportunity to observe
- (5) Q Okay And under the category going down to deck officers only you see that?
- (6) A Yes
- (7) Q The second category under navigates in an accurate reliable manner making optimum use of all available navigation equipment and aids what did Captain Wallace say?
- (8) A Moderately strong point performs well
- (9) Q Okay Was this the first time you were rated as a third mate?
- (10) A Yes
- (11) Q Let's go to the next one which covers the period of June 19th 1987 to August 19th 1987 You have it? This is Captain Wallace grading you again?
- (12) A Yes
- (13) Q Okay Again he gave you the highest mark under the category willingness to assume additional responsibilities beyond normal job requirements is that correct?
- (14) A Yes
- (15) Q And he also gave you the highest mark under carries out

Vol 16 2420

- (1) thoroughly the commitments and duties of position with attention to necessary details?
- (2) A Yes
- (3) Q And under the category is always in fit condition alert and vigilant on watch again he gave you the highest mark?
- (4) A Yes
- (5) Q And he gave you the highest mark on maintains a high level of safety awareness i.e. cargo work emergency drills?
- (6) A Yes
- (7) Q And now this time he had an opportunity to observe you with respect to - or at least he rated you with respect to the category of acts quickly and effectively in emergencies or pressure situations What did Captain Wallace grade you on that?
- (8) A Strong point
- (9) Q Okay And again with respect to navigates in an accurate reliable manner making optimum use of all available navigation equipment and aids Captain Wallace said that it is a moderately strong point performs very well?
- (10) A Correct
- (11) Q Second highest category am I correct?
- (12) A Correct
- (13) Q All right Can we go to the performance evaluation that Captain Hazelwood gave you during the period of December 11th
- (14) 1987 and January 12th 1988?

Vol 16 2421

- (1) A Yes  
 (2) Q The form changed a little bit now did it not?  
 (3) A Yes  
 (4) Q Okay With respect to the category is always in fit  
 (5) condition alert and vigilant on watch and on board what did  
 (6) Captain Hazelwood give you?  
 (7) A I don't know what line you're on  
 (8) Q It's the third line down  
 (9) A Yes  
 (10) Q You have it? Captain Hazelwood gave you generally  
 exceeds  
 (11) requirements am I correct? No sorry?  
 (12) A No, there's two Xs there major - oh job profile  
 (13) major - and I can't read my copy  
 (14) Q Okay Well let me read you what I have here There are  
 (15) two different categories There's a check with respect to job  
 (16) profile and says it's a major which I take it as a major part  
 (17) of your - of your job am I correct?  
 (18) A Yes  
 (19) Q And as far as the category as far as Captain Hazelwood's  
 (20) evaluation he says here generally exceeds requirements am I  
 (21) correct?  
 (22) A Yes  
 (23) Q Okay Going down you see about this far down to the  
 (24) category of seeks advice or guidance at the appropriate time  
 (25) and informs supervisors when appropriate that's also a major

Vol 16 2422

- (1) part of your job?  
 (2) A Yes  
 (3) Q And Captain Hazelwood gave you an exceptional rating for  
 (4) it?  
 (5) A Yes  
 (6) Q And with respect to the navigates portion that's the deck  
 (7) officer's portion a little bit further down?  
 (8) A Yes  
 (9) Q It says navigates in an accurate reliable manner making  
 (10) optimum use of all available navigational equipment and aids  
 (11) that's also a major part of your job?  
 (12) A Yes  
 (13) Q And Captain Hazelwood gave you an exceptional on that as  
 (14) well?  
 (15) A Yes  
 (16) Q Did you have any discussions with either Captain Wallace or  
 (17) Captain Hazelwood about your navigation abilities?  
 (18) A With Captain Wallace  
 (19) Q What did Captain Wallace tell you about your ability to  
 (20) navigate?  
 (21) A I don't recall the conversation specifically I questioned  
 (22) the captain on his evaluation of my abilities as a navigator  
 (23) asked him if he saw any major problems with my routine my  
 (24) ability to evaluate information Generally that was the  
 (25) context of the conversation

Vol 16 2423

- (1) Q Did you receive a generally favorable reply?  
 (2) A As I recall yes  
 (3) Q As of March 23rd 1989 were you confident in your  
 (4) abilities to navigate in an accurate reliable manner?  
 (5) A Yes  
 (6) Q And in making optimum use of all available navigation  
 (7) equipment and aids?  
 (8) A Yes  
 (9) Q As an officer aboard the Exxon Valdez had you had  
 occasion  
 (10) to observe the maneuvering characteristics of the vessel under  
 (11) various speeds and loads?  
 (12) A By maneuvering characteristics you mean what?  
 (13) Q Well for instance -  
 (14) A Was I ever up there when we made a course change or -  
 (15) Q Yes right  
 (16) A Yes  
 (17) Q So you had a chance to observe the - how the vessel  
 (18) handled when course change was made using a certain amount  
 of  
 (19) rudder?  
 (20) A Correct  
 (21) Q Have you had occasion to observe how the vessel handled  
 (22) using ten degrees of rudder?  
 (23) A Probably  
 (24) Q Have you had occasion to observe how the vessel reacted  
 and  
 (25) handled using ten degrees of rudder with almost a full load?

Vol 16 2424

- (1) A Probably  
 (2) Q Did you ever see anyone from management come aboard?  
 (3) A Frequently Yes  
 (4) Q Who?  
 (5) A I forget the fellow's name He was the ship group  
 (6) coordinator, Paul something or other One of those guys  
 from  
 (7) the office It's routine for them to come on board the  
 vessels  
 (8) when we make a port call in the L A or San Francisco area  
 (9) Q You said in answer to Mr Noltings question that you were  
 (10) confused about the pilotage regulations up there in March of  
 (11) 1989?  
 (12) A Yes  
 (13) Q Had you ever seen a letter from Alamar agencies to -  
 (14) addressed to various steamship companies?  
 (15) A Yes I recall  
 (16) Q Or addressed to whom it may concern dated September  
 (17) 19th 1986?  
 (18) A I recall having seen that letter yes  
 (19) Q Okay Let me put the letter in front of you I put before  
 (20) you the letter dated September 19th 1986 from Alaska Maritime  
 (21) Agencies to whom it may concern?  
 (22) A Yes  
 (23) Q Had you read this letter prior to March 23rd 1989?  
 (24) A Yes  
 (25) Q Were you aware prior to that date that there were

Vol 16 2425

- (1) proposals made by the Coast Guard to change the pilotage regulations in Prince William Sound?
- (2) **A Yes**
- (3) **Q** And did you understand that they wanted to waive pilotage from Rocky Point down to Cape Hinchinbrook?
- (4) **A Well I probably did at the time** yes
- (5) **Q** When you received this letter – when you read this letter did you have any understanding as to whether this letter was advising its recipients that the pilotage requirements had been waived?
- (6) **A That was my understanding of the – the letter**
- (7) **Q** When you took the con of the vessel after Captain Hazelwood left the bridge just north of Busby?
- (8) **A Yes**
- (9) **Q** And south of Rocky Point?
- (10) **A Yes**
- (11) **Q** Did you believe that you were qualified to con the vessel in those waters without a pilotage endorsement?
- (12) **A Yes**
- (13) **Q** On the night of the grounding when you had Kagan up there and we'll get to the details later but just on Kagan did it concern you at all that Kagan is not your regular helmsman when Captain Hazelwood left you with the con?
- (14) **A No it did not**
- (15) **Q** Let's talk about your workday your normal workday as you

Vol 16 2426

- (1) look back on it As an officer when you were at sea can you – can you take me through a workday what it was like?
- (2) **A For the Valdez? I had different watches on different ships so the – the watch schedule on the Valdez was a little bit easier for me just because the – the eight to twelve is a nice time to be up and working**
- (3) **Q** And the 20 to 24 in the evening?
- (4) **A Yes**
- (5) **Q** And on the other ships you have what watches?
- (6) **A Twelve to four**
- (7) **Q** You had the mid watch huh?
- (8) **A It's a miserable watch, yeah**
- (9) **Q** You were on – you were on a total of five ships I think you gave us including the North Slope?
- (10) **A Yes**
- (11) **Q** So the other four ships you had the midnight to four in the morning and – I'm sorry let's see the noon to four in the afternoon is that correct?
- (12) **A Yes but I'm trying to recall what watches I had on the Exxon Charleston I believe that was the – the eight to twelve**
- (13) **Q** On the Charleston?
- (14) **A On the Charleston It's – it had been a custom to sail third mates on the eight to twelve because those are what we would call normal working hours the captain is up, the chief**

Vol 16 2427

- (1) mate is usually up and third mates usually are the ones with the least experience so if there are problems he needs the captain captain doesn't have to be woken up
- (2) **Q** And that's – that requirement you just said is not just Exxon is it as far as you know? That's pretty standard throughout the maritime world in the United States that third mates are given the eight to twelve watch?
- (3) **A No**
- (4) **Q** The other companies you sailed with you have had different watches?
- (5) **A Yes-**
- (6) **Q** This is on the 23rd of March?
- (7) **A Right**
- (8) **Q** If you add up these roughly four four and a half hours you were off we're adding another half hour on for your nap period would you say that's about right ten of eight in the morning up until 1900 I'm talking about would that be approximately correct? Is it approximately correct four to four and a half hours?
- (9) **A Well you know I sat down and added up the times and I came up with a bit more rest so I – I don't – I wouldn't say that's just right no**
- (10) **Q** Well do you want to add up the times sir take a sheet of paper and show me how you're adding up the time up to – from ten of eight in the morning take a sheet of paper and you do

Vol 16 2428

- (1) your own calculations with everything you have in front of you?
- (2) **A This is how I do it**
- (3) **Q** Now can you tell us what this means?
- (4) **A From – from noontime twelve o'clock until 1700 I am off duty off work That's my free time From 1745 after I finished my meal until I was called out that's my personal time that's my – my rest time I was not required or requested to do anything else That's my rest period How I rest is how I rest**
- (5) **Q** Okay Now Mr Cousins you – I don't want to belabor this whole point I want to just ask you one other thing This is your interpretation of your free time?
- (6) **A Correct**
- (7) **Q** It's correct that during this period of time is it not that you've testified that you had this 1200 to –
- (8) **A 17**
- (9) **Q** – 1700 that you took a salinity test is that correct?
- (10) **A That's correct**
- (11) **Q** The first thing I would like to ask you about is you remember the little yellow piece of paper that you wrote on which is Exhibit 4878?
- (12) **A Yes**
- (13) **Q** That is your description of the time that you were off duty on the day of the 23rd correct?

Vol 16 2429

- (1) A Yes sir
- (2) Q And I believe on there you said you were off duty from 12
- (3) to 1700?
- (4) A Yes
- (5) Q Which is from noon to five o'clock p.m.?
- (6) A Right
- (7) Q And in fact I believe you testified at one point that you
- (8) had gotten off probably about ten minutes till 12?
- (9) A Yes
- (10) MR SANDERS Now the next part of the testimony goes
- (11) to the time Mr Cousins is on the bridge before getting
- (12) underway
- (13) BY VIDEO EXAMINER
- (14) Q And I want to know at that point in time had you made any
- (15) arrangement with LeCain that you were going to let him sleep
- (16) in?
- (17) A No
- (18) Q So as far as you're concerned it was going to be a normal
- (19) watch change?
- (20) A Yes
- (21) Q Did you see Chief Mate Kunkel come to the bridge?
- (22) A Yes, he relieved me
- (23) Q Did you hear Chief Mate Kunkel and Captain Hazelwood
- (24) having
- (25) a discussion concerning Captain Hazelwood agreeing to take
- (26) Chief Mate Kunkel's morning watch?

Vol 16 2430

- (1) A No I was not - party to that
- (2) Q I was just focusing on that point taking it as a fact that
- (3) there's been testimony by Chief Mate Kunkel that Captain
- (4) Hazelwood told him he would - that he Captain Hazelwood
- (5) would take Kunkel's watch would that be normal?
- (6) A It would be kind I don't know that it's normal no
- (7) Q Well because of the long hours that Chief Mate Kunkel
- (8) works in port what I'm asking for some arrangement for this to
- (9) have been made is that normal have you seen that done
- (10) before?
- (11) A Some captains would be kind enough to do that Most
- (12) captains would not
- (13) MR SANDERS Your Honor this next part is - goes to
- (14) the subject of Captain Hazelwood's condition on the bridge just
- (15) before the Valdez got underway the night of March 23rd
- (16) BY VIDEO EXAMINER
- (17) Q Did you observe any staggering?
- (18) A No
- (19) Q Did you believe Captain Hazelwood was impaired or
- (20) intoxicated in any way?
- (21) A No
- (22) Q Now he left before you went through the Narrows and do
- (23) you know whether he said anything to the pilot about his
- (24) leaving the bridge?
- (25) A I recall some conversation with the - with the pilot yes
- (26) Q Are you aware - pardon me are you finished?

Vol 16 2431

- (1) A I don't know what context of the conversation was but
- (2) that
- (3) he - there was mention that he was leaving When he
- (4) announced
- (5) that he was leaving, it was loud enough spoken loud
- (6) enough
- (7) where the pilot as well as myself could hear
- (8) Q Do you recall when you came back you said that Captain
- (9) Hazelwood was on the bridge the chief mate was there the
- (10) pilot was there and the helmsman was there as well?
- (11) A Correct
- (12) Q Okay Do you remember when Captain Hazelwood left after
- (13) 2151?
- (14) A I couldn't give you a specific time Somewhere in the
- (15) transit of the arm before the Narrows, that's all I can -
- (16) specific as I can be
- (17) Q Okay In your testimony you - in your trial testimony
- (18) you said approximately 10 to 15 minutes thereafter Does
- (19) that -
- (20) A Okay
- (21) Q - jibe with what you just said?
- (22) A Probably, yes
- (23) Q Okay After Captain Hazelwood left what were you doing
- (24) specifically?
- (25) A Monitoring the vessel progress taking any engine orders
- (26) that may have been given and observing the actions of the
- (27) helmsman in regards to commands and steering
- (28) Q Were you standing in one particular spot while you were

Vol 16 2432

- (1) doing this?
- (2) A Yes
- (3) Q Where were you standing?
- (4) A By the ten centimeter radar
- (5) Q And were you facing forward at that point?
- (6) A Yes
- (7) Q If someone were to come up into the chart room for
- (8) instance unless you knew he was there you wouldn't -
- (9) A No
- (10) Q - necessarily look back to see if they were there?
- (11) A No correct
- (12) Q Now do you remember what time Captain Hazelwood came
- (13) back
- (14) to the bridge?
- (15) A I do not recall a time no
- (16) Q You mentioned in your trial testimony that it was - that
- (17) the pilot had told you to call him as you were approaching
- (18) Potato Point?
- (19) A Yes
- (20) Q Do you recall that?
- (21) A Yes He didn't tell me to call him As I - as I recall
- (22) it he - his words were to the effect that we ought to get the
- (23) captain back up here pretty soon
- (24) Q Was that as you were approaching Potato Point?
- (25) A Yes
- (26) Q What time according to the bell book did you - did you

Vol 16 2433

- (1) get to Potato Point?  
 (2) A 2253 Potato Point abeam  
 (3) Q Is it your recollection that the captain was back on the  
 (4) bridge by the time you – you got to Potato Point?  
 (5) A I'm not sure It was shortly after I called him the second  
 (6) time  
 (7) Q You testified that you received – you made the call to the  
 (8) captain?  
 (9) A Right  
 (10) Q Sorry I stand corrected You called the captain and told  
 (11) him that you were in the Narrows is that correct?  
 (12) A Yes  
 (13) Q And what did the captain say to you?  
 (14) A He – he asked me if there was any inbound traffic was I  
 (15) having any problems everything look okay that he he'd be  
 (16) up  
 (17) on the bridge shortly  
 (18) Q And the captain had previously told you he had to go down  
 (19) because of some problem or he indicated that the chief  
 (20) engineer  
 (21) was having some problem?  
 (22) A Correct  
 (23) Q And how did you answer the captain's questions?  
 (24) A The phone – on the phone –  
 (25) Q Yes  
 (26) A – I told him that we had the escort tug everything was  
 (27) proceeding along pretty smoothly we'd reduced speed no

Vol 16 2434

- (1) traffic that's it  
 (2) Q And no problems?  
 (3) A No problems  
 (4) Q Was the passage through the Narrows a routine passage?  
 (5) A Yes  
 (6) Q No problems at all?  
 (7) A No problems  
 (8) UNIDENTIFIED SPEAKER This is on what date?  
 (9) VIDEO EXAMINER This is on the 23rd going out  
 (10) UNIDENTIFIED SPEAKER Outbound passage  
 (11) BY VIDEO EXAMINER  
 (12) Q The outbound passage yes that's the one I'm referring to  
 (13) Mr Cousins  
 (14) A Yes  
 (15) Q You understood that?  
 (16) A Yes  
 (17) Q I'd like to focus now on the period of time after you came  
 (18) back to the bridge after you had dropped off the pilot Are  
 (19) you with me?  
 (20) A Um-hum  
 (21) Q Okay When you came back to the bridge what did you do?  
 (22) A Well, it was a better recollection that I could get at  
 (23) reading my previous testimony I – you want me to just  
 (24) generalize today?  
 (25) Q Well –

Vol 16 2435

- (1) A I approached the radar observed what I determined to be  
 (2) ice There was a few words exchanged with the captain as I  
 (3) recall He was standing over the console I don't know the  
 (4) chronology of this is –  
 (5) Q I don't want to make this a memory test I'm just trying to  
 (6) put everybody in the –  
 (7) A I was familiarizing myself with the position of the vessel  
 (8) the targets that were on radar that sort of thing  
 (9) Q Okay Do you have a recollection of about what time you  
 (10) got back to the bridge?  
 (11) A Not really I'd have to look at past testimony  
 (12) Q All right Let me see if I can help you While I'm  
 (13) looking for that let me ask you this at which radar did you  
 (14) go to when you observed the radar?  
 (15) A Ten centimeter  
 (16) Q That's over on the starboard side?  
 (17) A Yes  
 (18) Q Where was the captain?  
 (19) A When I first re entered the wheelhouse –  
 (20) Q Yes  
 (21) A – from dropping the pilot off? I believe he was at the  
 (22) console bridge console I'm not absolutely positive He  
 (23) may  
 (24) have been in front of the console  
 (25) Q Did there come a time when the captain came over and stood  
 (26) next to you?

Vol 16 2436

- (1) A Yes  
 (2) Q Did that occur shortly after you got back to the bridge?  
 (3) A Some minutes later yes  
 (4) Q When you say some minutes later do you –  
 (5) A I had plotted a position  
 (6) Q You did?  
 (7) A Yes  
 (8) Q Which position did you plot by then?  
 (9) A I guess it – what was it the 2339 or something like that  
 (10) Q Okay May we have the original chart Mr Blank?  
 (11) Mr Cousins I'm putting in front of you – what's the  
 (12) Exhibit Number?  
 (13) UNIDENTIFIED SPEAKER On the back blue tag right  
 (14) there  
 (15) BY VIDEO EXAMINER  
 (16) Q Can you tell?  
 (17) A 1614  
 (18) Q Now 1614 which is the original chart off the Exxon Valdez  
 (19) and you mentioned that you laid the 2339 fix which is on here?  
 (20) A Yes  
 (21) Q Okay So in terms of the time that we're talking does  
 (22) this refresh your recollection that at least you were on the  
 (23) bridge before 2339?  
 (24) A Yes  
 (25) Q Okay And you told us yesterday how you obtained that fix

Vol 16 2437

- (1) you said you took a range and a bearing?
- (2) A Yes
- (3) Q Was that off this buoy right here?
- (4) A It was a visual bearing I believe that I may have taken
- (5) a - a radar bearing and range
- (6) Q Also?
- (7) A Yes
- (8) Q I'm sorry and what did you use for that?
- (9) A I don't - this looks like a range off of this Rocky Point light here
- (10) Q Okay It also looks to me like you may have taken a bearing off Busby Island light?
- (11) A Yes
- (12) Q Does that look to you -
- (13) A Yes sir
- (14) Q Okay So at this point you knew the position of the vessel?
- (15) A Yes
- (16) Q Okay After you took this 2339 bearing is that when Captain Hazelwood came over to the radar scope with you?
- (17) A Yes
- (18) Q Both of you were standing over at the ten centimeter radar?
- (19) A Yes
- (20) Q Close to each other?
- (21) A Just about shoulder to shoulder yes

Vol 16 2438

- (1) Q Okay Now did you - you discussed with Captain Hazelwood
- (2) this ice condition was he in agreement with you as to where you saw the ice? You say you discussed with him when he was turning the con over the situation with the ice?
- (3) A I don't - I can't really answer that question He - he saw the ice The conversation as I recall it was that this is - if we're going to avoid the ice we're going to be out of the scheme altogether and he said yeah we'll - we'll just start bringing it back when we get down abeam Busby and swing it back into the lanes
- (4) Q Okay And what did you take those directions to mean as to where you were to make the turn? You said you'd go down around abeam of Busby?
- (5) A Get abeam of Busby Abeam of Busby alter course to get back to the traffic lanes
- (6) Q Yes What I'm asking you he said abeam of Busby he used that general term what was your general understanding that he meant Busby is an island?
- (7) A Yes Busby Island light
- (8) Q You say when he left he said he was only going to go for a few minutes he used the word fewer minutes?
- (9) A Yes
- (10) Q You actually used that expression didn't you?
- (11) A Yes
- (12) Q Now I believe your testimony is that you had two meetings

Vol 16 2439

- (1) at the radar two separate meetings is that correct?
- (2) A Yes
- (3) Q Was this the first meeting that you had?
- (4) A I believe it was
- (5) Q Tell me what you and Captain Hazelwood discussed at that meeting the first meeting
- (6) A He explained to me what he had intended as far as the deviation out of the traffic scheme to avoid the ice That was the first that he spoke of coming abeam Busby Island and then begin the turn back into the lanes
- (7) Q Okay He told you that was his intention?
- (8) A Yes
- (9) Q At this point were you able to see any of the ice on the radar?
- (10) A Yes
- (11) Q Did you see it in the form that you drew on Exhibit 48785 at that point?
- (12) A No, that was a bit later The targets that we had identified as ice, the radar was picking up the chunks of ice that were to the north and not all of the - not -
- (13) Q Okay - don't get anything - can we have a blue marker or red one red one's even better
- (14) Would you mind marking on Exhibit 48785 in red pen what you observed during your first conference at the radar -
- (15) A At -

Vol 16 2440

- (1) Q - with respect to the ice?
- (2) A Okay Fairly large targets like this standing down into here, down into the southern lane, something like that Right
- (3) here
- (4) Q Okay Would you just - all right Would you initial in the area that you made those?
- (5) A (Witness complies)
- (6) Q Okay Good
- (7) UNIDENTIFIED SPEAKER I think we should either hold that up to the camera or let the record show that he put on numerous red circles
- (8) VIDEO EXAMINER Let the record show do you see that? Yeah that the witness put a series of red circles representing the ice -
- (9) MR SANDERS Your Honor we apologize We thought we had a blowup of that over here with the red circles and we didn't We'll just have to show it a little bit later and I apologize I know you can't see it on the screen
- (10) VIDEO EXAMINER - that they observed the first time that they stood at the radar okay
- (11) BY VIDEO EXAMINER
- (12) Q Now you said there was a second meeting at the radar
- (13) When did that occur in relation to the first meeting?
- (14) A Minutes later I returned to the chart room I don't know if there was - if I actually put a fix down I had taken some

Vol 16 2441

- (1) ranges to determine exactly how far the ice was across the  
 (2) lanes if it was in fact across all of the lanes or whether we  
 (3) really needed to go out of the lanes to give me a better idea  
 (4) as to what the captain was talking about I just - I hadn't  
 (5) been on the bridge that long So I returned to the chart  
 room  
 (6) briefly, picked off some distances that I had gotten from the  
 (7) radar went back to the radar and I believe that's when  
 (8) Captain Hazelwood and I spoke again He was standing on  
 the  
 (9) forward side of the radar That's when I said it looks like  
 (10) we're going to be - the ice is all across both of the lanes  
 (11) and that we're going all the way out of the lanes He said  
 (12) yeah that's the point we have to go out of the lanes to get  
 (13) around the ice  
 (14) Q Okay You had made a determination by taking bearings  
 and  
 (15) ranges?  
 (16) A Ranges yeah  
 (17) Q Oh sorry ranges that in fact the ice that you observed  
 (18) on the radar extended across both lanes inbound and the  
 (19) outbound?  
 (20) A Yes Yes  
 (21) Q And in terms of when Captain Hazelwood left can you place  
 (22) the time that the second meeting took place?  
 (23) A Terms of when he left?  
 (24) Q Yes  
 (25) A It was shortly before he left

Vol 16 2442

- (1) Q Okay Now you said that Captain Hazelwood was standing  
 in  
 (2) front of the console and you were standing behind it?  
 (3) A No  
 (4) Q I'm sorry  
 (5) A I was standing facing the radar at the radar looking at  
 (6) the scope and -  
 (7) Q Yes  
 (8) A - and he was standing in front of the radar  
 (9) Q Near the - the front windows of the bridge?  
 (10) A Actually he was bent over the radar looking at  
 (11) presentation as I was  
 (12) Q Oh okay All right tell me as best as you can recall  
 (13) what you two discussed at that point?  
 (14) A I reiterated his commands or his idea of passage around  
 (15) the ice I said well you know, here's Bligh Reef, Bligh Reef  
 (16) buoy was a nice target and he said yes, very nasty spot  
 (17) Q You pointed to it on the radar?  
 (18) A Um hum  
 (19) Q You could see it on the radar at that point?  
 (20) A Yes  
 (21) Q All right What else did you discuss?  
 (22) A He said - he asked me how I felt about it and I said that  
 (23) it's the only way around the ice as I see it I said it's  
 (24) going to take us well out of the lanes He says yes I know  
 (25) I said as I see it the ice is across both of the lanes and he

Vol 16 2443

- (1) said he agreed and he reiterated his instructions and he  
 said  
 (2) how do you feel about that and I said that's the best that  
 we  
 (3) can do right now  
 (4) Q Okay Let's slow down here a second The instructions  
 (5) that he reiterated were that he wanted you to come to Busby  
 and  
 (6) then start easing her back into the lanes?  
 (7) A He said come back to - when we get abeam Busby Island  
 you  
 (8) have to - you'll have to start bringing the vessel back  
 (9) towards the lanes  
 (10) Q Okay Did you know by the second meeting what course you  
 (11) were steering?  
 (12) A I did at the time I don't now But I - we were on 180  
 (13) as I recall  
 (14) Q Did you concur with the course of 180 to accomplish the  
 (15) maneuver that you wanted to accomplish?  
 (16) A Yes  
 (17) Q As a matter of fact 180 is a cardinal course is it not?  
 (18) A Yes  
 (19) Q It's on the cardinal point?  
 (20) A Yes  
 (21) Q Which makes it easier to figure out your bearings?  
 (22) A Yes  
 (23) Q When you want to take a bearing?  
 (24) A Certainly beam bearings yeah very easy  
 (25) Q When Captain Hazelwood told you the entire plan which is

Vol 16 2444

- (1) to come down abeam of Busby and then turn back into the  
 lanes  
 (2) in order to avoid the ice did you concur with that plan?  
 (3) A Yes  
 (4) Q Did you in fact feel comfortable with it?  
 (5) A Yes  
 (6) Q When you looked at the radar you could see - you could  
 (7) see Busby Island light?  
 (8) A Yes  
 (9) Q Could you see it visually at that point?  
 (10) A Yes  
 (11) Q You could see Bligh Reef light on the radar?  
 (12) A On the radar, yes  
 (13) Q You could see the ice as you told us about?  
 (14) A I could - I observed targets of the ice I never visually  
 (15) saw the ice until after the grounding  
 (16) Q Okay You could - were you able to make out the land  
 (17) presentation of - of Rocky Point the Tatitlik Narrows Bligh  
 (18) Island?  
 (19) A Yes  
 (20) Q Did you understand the orders and the discussion that you  
 (21) had with Captain Hazelwood as to what he wanted you to do?  
 (22) A Yes  
 (23) Q What I wanted to ask you was that when you originally  
 (24) heard from Captain Hazelwood what his plan was for departing  
 (25) the lanes and skirting the ice he told - or he asked you or

Vol 16 2445

- (1) told you to take a fix is that correct?  
 (2) **A Correct**  
 (3) **Q** And in the course of preparing yourself though for the  
 (4) plan itself you went and did some other things didn't you?  
 (5) **A Yes**  
 (6) **Q** And he didn't tell you to do that did he?  
 (7) **A No**  
 (8) **Q** But one of the other things included attempting a visual  
 (9) sighting of the ice?  
 (10) **A Yes**  
 (11) **Q** You even tried to use binoculars to do that didn't you?  
 (12) **A Yes**  
 (13) **Q** And you also looked at the radar to try to determine how  
 (14) much room there was to maneuver?  
 (15) **A Yes**  
 (16) **Q** Those kind of things?  
 (17) **A Yes**  
 (18) **Q** Got some ranges on how far the ice was from the reef and  
 (19) how far it was from you and those kinds of things?  
 (20) **A Correct**  
 (21) **Q** And the purpose of all that was what?  
 (22) **A** To ascertain whether the maneuver was going to be  
 (23) successful or if there was any danger that we weren't going  
 (24) to  
 (25) be able to safely pass between the reef and the ice  
 (26) **Q** When you had your second conversation well after you had

Vol 16 2446

- (1) completed your work to prepare you to - to give input to the  
 (2) captain?  
 (3) **A Yes**  
 (4) **Q** You knew that the plan called for the Valdez to go outside  
 (5) the traffic separation scheme correct?  
 (6) **A Yes** after - well not - not until after I had completed  
 (7) my attempts at positioning the ice in relation to the reef  
 (8) after the initial instructions by the captain You could be  
 (9) abeam you can be abeam Busby Island and still be in the  
 (10) lanes Once I went back into the chart room with the  
 (11) information that I'd gathered that's - that's when I  
 (12) recognized the - where the track line was going to take us in  
 (13) relation to everything else  
 (14) **Q** And this is before you had your second conversation with  
 (15) him though?  
 (16) **A That's correct**  
 (17) **Q** So at that point you know you were going outside the  
 (18) lanes?  
 (19) **A Yes**  
 (20) **Q** And indeed that's one thing you said to him when you had  
 (21) the second conversation we're going to be outside the lanes?  
 (22) **A Yes**  
 (23) **Q** And indeed when you took your fix at 2250 - 2355 that  
 (24) was in fact outside the lanes wasn't it?  
 (25) **A Yes**

Vol 16 2447

- (1) **Q** So you didn't have any problem during this period of time  
 (2) knowing where you were in relation to the lanes?  
 (3) **A Correct**  
 (4) **Q** Now at the time of the last two conversations with Captain  
 (5) Hazelwood before he left the bridge did you know what the  
 (6) speed of the vessel was? Approximately?  
 (7) **A I knew the approximate speed yes**  
 (8) **Q** All right At what point did you know that it was in load  
 (9) program up? Was it between the two conversations or before  
 (10) both of them or - the two that I'm now talking about the last  
 (11) two before he left the bridge if you know?  
 (12) **A I knew at the time I don't know now**  
 (13) **Q** Okay All right And load program up calls for the engine  
 (14) to be increased gradually over a period of time?  
 (15) **A Correct**  
 (16) **Q** And that period of time is how much?  
 (17) **A Between 40, 42 to 48 minutes in that time frame**  
 (18) **Q** And in that time range approximately what knots to what  
 (19) knots does that encompass approximately?  
 (20) **A I really don't recall what the maneuvering speeds of the**  
 (21) **Valdez were I believe full maneuvering may have been 11**  
 (22) **knots It could have been more Our top designed speed I**  
 (23) **believe was 16 I'm not real clear on that**  
 (24) **Q** Okay Well let's - using those numbers then your  
 (25) understanding as you now recall it was that the load program up

Vol 16 2448

- (1) would take the vessel from a speed of around 11 knots?  
 (2) **A Correct**  
 (3) **Q** To 16 knots in a period of 40 some minutes?  
 (4) **A Yes**  
 (5) **Q** Does that do that on a straight line or is it more at the  
 (6) beginning or more at the end or can you - can you recall  
 (7) that? Where do you get more of the increase in speed?  
 (8) **A I don't recall It is not a - a linear increase as I**  
 (9) **recall That there is a critical range where the rpm may be**  
 (10) **slowed or advanced in rate but I - I really don't recall the**  
 (11) **specifics**  
 (12) **Q** Did you have when you - at what - at that time that you  
 (13) learned that the vessel was going to be in load program up and  
 (14) knowing approximately what your speed was at that time did you  
 (15) think that the speed at which you were going to do this  
 (16) maneuver was appropriate or imprudent or prudent?  
 (17) **A If you asked me that question that evening, I would have**  
 (18) **responded that I took the - the increase in speed to**  
 (19) **facilitate maneuvering**  
 (20) **Q** And did you think that was a good idea that was an  
 (21) appropriate plan a prudent thing to do?  
 (22) **UNIDENTIFIED SPEAKER** At that time that night or -  
 (23) **BY VIDEO EXAMINER**  
 (24) **Q** At that - that night  
 (25) **A I would have reserved that judgment to the captain He**  
**was**

Vol 16 2449

- (1) **certainly a more skilled navigator and ship handler with the vessel knew the vessel characteristics more - in more detail**
- (3) **than I did I did not question the increase in speed**
- (4) **Q Stated another way you didn't think it was imprudent at the time he told you what you were going to do and knowing what you were going to do?**
- (7) **A Um hum**
- (8) **Q Is that correct?**
- (9) **A Correct**
- (10) **Q Is one effect of increasing the speed to tighten the radius of the circle for the turn?**
- (11) **A Correct**
- (13) **Q I'd like to ask you about Captain Hazelwood's management style How would you describe it?**
- (15) **A Captain Hazelwood was a very relaxed easy individual to work for I did not know him well We didn't have many conversations The - in the professional vein I had met only two other individuals that could explain and define situations and/or questions as thoroughly as - as he did I mean if - if encountered a problem or encountered something that was unusual that we had not experienced or that I had not experienced he is the type of individual that was willing to share his knowledge and the manner in which he shared his knowledge was on a level that you don't often find**
- (25) **Q When you stood at the radar with Captain Hazelwood those**

Vol 16 2450

- (1) **both times did you feel that he was asking you for input as to the maneuver that was being proposed?**
- (3) **A I don't know if he was asking but I was giving it to him**
- (4) **Q You were?**
- (5) **A It's expected That's part of my job That's why I'm there**
- (7) **Q If you felt uncomfortable with the situation and told Captain Hazelwood you were uncomfortable do you believe he would have stayed on the bridge?**
- (10) **A Yes**
- (11) **Q I'd like to talk to you -**
- (12) **A He intimated that if I had not felt comfortable that he would indeed remain**
- (14) **Q He told you that?**
- (15) **A In a sense not those direct words but he said if I minded In other words if I - if I did mind that he left the bridge, he would have stayed**
- (18) **MR SANDERS Your Honor I think that's a good point to have the break If that's all right**
- (20) **THE COURT Thank you We'll take our first recess ladies and gentlemen**
- (22) **We'll reconvene in 15 minutes please**
- (23) **THE CLERK This court is in recess for 15 minutes**
- (24) **(Jury out at 10:00 a.m.)**
- (25) **(Jury in at 10:17 a.m.)**

Vol 16 2451

- (1) **THE CLERK All rise**
- (2) **MR SANDERS May it please the Court before we start anew I have - I haven't somebody better than I am has retrieved the exhibit that I am responsible for having over here and this is the exhibit with the - the red dots or the red circles that were drawn on the chart**
- (7) **Let me turn it a little bit so Your Honor can see it**
- (8) **THE COURT I don't need to see it They need to see it**
- (10) **MR SANDERS These are the circles that Mr Cousins drew at the point where Mr Chalos was asking him to draw in red on the original chart and this is obviously a blowup of that chart and these are the circles that were filled in in red so they'd be easier to see representing the ice he saw at the radar at that point**
- (16) **Thank you Your Honor and again I apologize**
- (17) **BY VIDEO EXAMINER**
- (18) **Q Let's talk a little bit about the vessel being on autopilot in this particular situation**
- (20) **A Yes**
- (21) **Q Do you know at what time the automatic pilot was put on?**
- (22) **A No I do not**
- (23) **Q Do you have a general knowledge of when it was put on?**
- (24) **A When the ship was steadied up on 180**
- (25) **Q I think there was some testimony that that was around 2345**

Vol 16 2452

- (1) **or so?**
- (2) **A Okay**
- (3) **Q When you took the vessel off the gyro when you pushed the gyro button how soon after Captain Hazelwood left the bridge did you do that?**
- (6) **A I don't think that he was - he wasn't visible he was walking out As he was leaving I was approaching the steering console telling the helmsman that we were putting in hand steering**
- (9) **Q Would you say it's within five to ten seconds after he started to walk away?**
- (12) **A Yes**
- (13) **Q Okay Mr Cousins sitting here today did the fact that the vessel was on gyro for a period of time approximately eight to ten minutes did that have anything to do with the grounding of this vessel?**
- (17) **A No**
- (18) **Q Okay Now you testified that you took your 2355 fix by doing the things that you already told us about Now is it your belief that had the maneuver the ten degrees right rudder been used at the time you gave the order which was about a minute or two after you took the fix is it your belief that the vessel would have cleared Bligh Reef comfortably?**
- (24) **A Yes**
- (25) **Q Is - under the circumstances did you believe going around**

Vol 16 2453

- (1) the ice was a prudent move to make? As opposed to going  
 (2) through the ice?  
 (3) A Yes  
 (4) Q Is - based on your experience - is a command to turn the  
 (5) wheel ten degrees right - is that a fairly simple command?  
 (6) A Yes it is  
 (7) Q Is it a fairly simple order to carry out?  
 (8) A Yes it is  
 (9) Q Now - when you gave the order to the helmsman - did you feel  
 (10) comfortable with the situation at that point?  
 (11) A Yes  
 (12) Q Did you also feel at that time that it -  
 (13) A Perhaps rephrase that - instead of comfortable, maybe  
 (14) confident  
 (15) Q I'll accept that - Did you feel confident?  
 (16) A I don't know that - the comfort thing, came out of - out  
 (17) of Captain Hazelwood's, that's language he used - I would  
 have  
 (18) to say that I felt confident, not so - I don't know if I've  
 (19) ever been comfortable  
 (20) Q All right - Did you also feel that if you were unconfident  
 (21) that you could call Captain Hazelwood and tell him you felt  
 (22) unconfident?  
 (23) A Sure  
 (24) Q And you felt that he would return to the bridge at that  
 (25) point?

Vol 16 2454

- (1) A Yes  
 (2) Q When Captain Hazelwood left the bridge - did you - did you  
 (3) have any doubt as to where the vessel was?  
 (4) A No  
 (5) Q Okay - I'd like to ask you now about the famous 38 fathom  
 (6) mark  
 (7) A Yes  
 (8) Q Did Captain Hazelwood tell you to start your turn at the 38  
 (9) fathom mark?  
 (10) A No  
 (11) Q Did you tell Delozier that you started your turn at the 38  
 (12) fathom mark?  
 (13) A No  
 (14) Q In your experience - have you ever received an order to make  
 (15) a course change at a - at a fathom mark?  
 (16) A No  
 (17) Q You mentioned that when you came back and laid down the  
 (18) 2355 fix as you were walking back to give the order to the  
 (19) helmsman - Maureen Jones came in and reported a light to you?  
 (20) A Yes  
 (21) Q And at that time she reported it with the wrong  
 (22) characteristics - am I correct - the first time?  
 (23) A I don't know what time it was  
 (24) Q But you know what light she was referring to?  
 (25) A Yes

Vol 16 2455

- (1) Q Because you had seen it before?  
 (2) A Yes, I expected it and I visually observed the light  
 (3) Q You saw it with your own eye?  
 (4) A Yes  
 (5) Q And what light was that?  
 (6) A Bligh Reef light  
 (7) Q So you knew where that light was in relation to your vessel  
 (8) at that time?  
 (9) A Yes  
 (10) Q So when she came back the second time and corrected it  
 you-  
 (11) knew what she was talking about again?  
 (12) A Yes  
 (13) Q Did you expect that light at that point in time to be on  
 (14) your starboard bow?  
 (15) A Yes  
 (16) Q Was it where you expected it to be?  
 (17) A Yes  
 (18) Q All right - Now - you mentioned that you got on the phone  
 (19) with Captain Hazelwood?  
 (20) A Yes  
 (21) Q And you told him that - well - strike that - Can you tell  
 (22) me what he said to you and what you said to him?  
 (23) A Which time?  
 (24) Q This is the first time - right after the 2355 fix and after  
 (25) you had given the order for ten degrees right rudder?

Vol 16 2456

- (1) A I couldn't give you verbatim - but the general context of  
 (2) the conversation, I informed him that - him being Mister - or  
 (3) Captain Hazelwood - that we were beginning our turn back  
 towards  
 (4) the lane - that I had seen more targets that I identified as ice  
 (5) further across - actually out of the - the easternmost  
 boundary  
 (6) of the northbound lane - and that perhaps we might - we  
 might  
 (7) judge a piece of ice or two, and he said - he queried me as  
 to  
 (8) whether I thought that we were going to be okay - I said well,  
 (9) we're going to be okay - I don't know how large these  
 chunks of  
 (10) ice are - You cannot tell by the return alone - It's very  
 (11) unreliable to try to judge the size of an object - especially  
 (12) ice - by the -  
 (13) Q This is what you were telling Captain Hazelwood or is this  
 (14) what you're telling us?  
 (15) A No - this is what I'm telling you - I'm explaining - but he  
 (16) understood that  
 (17) Q Okay  
 (18) A But I explained to him that there was more ice than I had  
 (19) seen earlier  
 (20) Q Okay  
 (21) A And that's the reason that - that I thought that we might  
 (22) get into a little bit of ice  
 (23) Q Did he ask you at that point if you thought it would be any  
 (24) problem?  
 (25) A Yes

Vol 16 2457

- (1) Q And what did you tell him?  
 (2) A I said that well we might nudge a piece of ice or two  
 (3) And he said okay do you think that's going to be a problem?  
 (4) I said well I don't know I don't think that it is But at  
 (5) that point it didn't really make any difference whether the  
 (6) ice was going to be a problem If it was going to be a  
 (7) problem it just had to be a problem  
 (8) Q Were you still confident at that point that you would be  
 (9) able to carry out your maneuver?  
 (10) A At that point I thought we were - we were carrying out  
 (11) the maneuver  
 (12) Q Okay Were you confident that you would be able to get  
 (13) around the ice and into the lanes with no problems?  
 (14) A Other than what I just stated that we - that I expressed  
 (15) to Captain Hazelwood that we might - we might actually  
 (16) encounter a chunk or two  
 (17) Q When you were telling Captain Hazelwood what you just told  
 (18) him was there any anxiousness in your voice?  
 (19) A No  
 (20) Q You were calm about it?  
 (21) A Yes  
 (22) Q I'm not quite sure but at what point in time did you first  
 (23) become concerned that things weren't going as you - you had  
 (24) planned?  
 (25) A Shortly after the telephone conversation

Vol 16 2458

- (1) Q That's when you went over to the radar and you saw the -  
 (2) the heading flasher and the heading weren't changing?  
 (3) A Correct  
 (4) Q Did you at that point consider calling Captain Hazelwood to  
 (5) come back to the bridge?  
 (6) A I don't know that I thought about it I - as I recall I  
 (7) was concerned with trying to - to figure out the source of  
 (8) my anxiety and that being where is - where are we in relation to  
 (9) the reef and I - the chronology is not correct it's - but  
 (10) at some time in this - within this time after the  
 (11) conversation, I stepped out onto the bridge make another  
 (12) real quick check turned to the radar I believe that's when I  
 (13) finally looked at the rudder angle indicator indicated a  
 (14) number of degrees less than - the ten right Gave the ten  
 (15) right, and after that I'm not sure of my movement I  
 (16) suspect - I really believe that that is when I returned to the  
 (17) chart room  
 (18) Q For a second time? Or a third time?  
 (19) A I cannot - I cannot be absolutely beyond a doubt positive  
 (20) about that but I - I strongly suspect that I did  
 (21) Q How much time elapsed between that of the - I know you re-  
 (22) not going to be able to tell me but I have to ask the  
 (23) question between that - that event that you just described  
 (24) and the second call to Captain Hazelwood?  
 (25) A I don't know Probably a minute or two I really don't

Vol 16 2459

- (1) know Maybe perhaps less than two minutes no longer  
 (2) than  
 (3) that  
 (4) Q Okay Did I understand you correctly that when you were on  
 (5) the phone with Captain Hazelwood you felt the first jolt of the  
 (6) running aground?  
 (7) A In the second conversation?  
 (8) Q Yes  
 (9) A While we were still on the phone?  
 (10) Q Yes  
 (11) A Yes  
 (12) Q And did Captain Hazelwood come up immediately?  
 (13) A He didn't feel it It wasn't - I don't think anyone else  
 (14) did feel it  
 (15) Q But yourself?  
 (16) A Well I think the people on the bridge did  
 (17) Q Did you tell him to come up right away? Or did he just do  
 (18) that on his own?  
 (19) A He just did that on his own I told him that we're in  
 (20) serious trouble and the question was what's - what's  
 (21) wrong  
 (22) and I said we're about to go aground And he said well  
 (23) what  
 (24) did you do with the rudder where's the rudder at? And I  
 (25) said  
 (26) it's at - it's hard right, and I looked up, we skipped a  
 (27) rudder order in here and it was still at 20 degrees right  
 (28) Q You had previously given a 20 degrees right?  
 (29) A Yes

Vol 16 2460

- (1) Q After you felt concerned?  
 (2) A Yes  
 (3) Q Did Captain Hazelwood come up to the bridge immediately  
 (4) after you hung up the phone?  
 (5) A Yes  
 (6) Q I'd like to ask you just a few questions peripheral  
 (7) questions You mentioned that you didn't think the fathometer  
 (8) alarm was of great use in Prince William Sound Do you  
 (9) remember that?  
 (10) A Yes  
 (11) Q Is that because the bottom in Prince William Sound is a  
 (12) rocky jagged bottom?  
 (13) A It's because our transit is through relatively deep water  
 (14) even at the extremes of the traffic system it's very deep  
 (15) water By the time an alarm would sound in the areas that  
 (16) we  
 (17) transit you'd already be aground It's a very -  
 (18) Q By the time it grounded?  
 (19) A It's steep, it's steep too Yes  
 (20) Q When Captain Hazelwood came back up on bridge after you  
 (21) made the call to him did he take command of the vessel at that  
 (22) point?  
 (23) A Yes  
 (24) Q Did he start giving orders?  
 (25) A Yes  
 (26) Q Do you remember him giving you an order to take a fix?

Vol 16 2461

Vol 16 2463

- (1) A Yes  
 (2) Q Did you in fact take the fix?  
 (3) A Yes  
 (4) Q Do you remember him telling the helmsman to put the rudder  
 (5) amid ships?  
 (6) A No, I don't recall that  
 (7) Q Did he tell you to call the chief mate on the phone?  
 (8) A He may have I don't recall  
 (9) Q He did give you an order to take Maureen Jones and go  
 down  
 (10) and wake up the crew?  
 (11) A Yes  
 (12) Q Were his orders clear?  
 (13) A Yes  
 (14) Q Were they concise?  
 (15) A Yes  
 (16) Q Were they given with authority?  
 (17) A Yes  
 (18) Q Now with respect to the - to the engine and helm  
 (19) maneuvers that Captain Hazelwood was making after the  
 (20) grounding did he discuss those with you?  
 (21) A No  
 (22) Q Did he tell you what was in his mind at that point?  
 (23) A No  
 (24) Q Did he tell you what he was trying to do?  
 (25) A No

- (1) A Yes  
 (2) Q That he'd been standing there when nothing was  
 happening?  
 (3) A Yes  
 (4) Q Now going back to the - to the amount of time you had off  
 (5) duty and on duty or while you were resting or not resting at  
 (6) the time that you stood your watch the night of the grounding  
 (7) starting sometime before 8 00 that night?  
 (8) A Right  
 (9) Q Did you feel like you were affected by any fatigue?  
 (10) A No  
 (11) Q At the time that you took over the con some eight or nine  
 (12) minutes before midnight did you feel fatigued?  
 (13) A No  
 (14) Q Did you feel like fatigue had anything to do with your  
 (15) performance that evening? That night or that morning?  
 (16) A No I don't think it did  
 (17) Q Now at any time in the next three four or six or seven  
 (18) hours did you ever have the opportunity to be able to sit down  
 (19) and collect your thoughts and try to jot down what you had  
 done  
 (20) and when you had done it?  
 (21) A No  
 (22) Q At some point fairly early on after the grounding people  
 (23) started coming to the ship correct? Coast Guard  
 (24) investigators?  
 (25) A Yes

Vol 16 2462

Vol 16 2464

- (1) Q Did you believe the captain was after the grounding trying  
 (2) to ascertain how much damage was done and where the  
 damage  
 (3) was?  
 (4) A He directed the chief officer to do a stability survey  
 (5) Q You heard him tell him that?  
 (6) A Yes  
 (7) Q And you knew - and you understood that to mean he wanted  
 (8) to know how badly he was damaged?  
 (9) A Yes  
 (10) Q And where?  
 (11) A Yes  
 (12) Q Now you were asked some questions both yesterday and  
 (13) today I believe about a comment that you overheard Mr  
 Kagan  
 (14) get from Captain Hazelwood after the grounding  
 (15) A Yes  
 (16) Q And I think at one point you mentioned you were kind of  
 (17) frustrated at the way the questions were coming about that?  
 (18) A Yes  
 (19) Q Is it correct that this comment by Captain Hazelwood came  
 (20) after a period in which Mr Kagan was standing at the helm?  
 (21) A Yes  
 (22) Q And during that period of time after the grounding there  
 (23) was nothing going on?  
 (24) A Correct  
 (25) Q Did you understand the sarcasm to be directed at that fact?

- (1) Q And there were drug and alcohol tests and questions asked  
 (2) correct?  
 (3) A Yes  
 (4) Q And then the next day and thereafter there was a great deal  
 (5) of pressure and publicity was there not?  
 (6) A Yes  
 (7) Q And within a little over a month you were subjected to  
 (8) testimony before the NTSB?  
 (9) A Yes  
 (10) Q And at some point in this time interval you were requested  
 (11) or summoned to talk to the attorneys for the Department of  
 (12) Justice?  
 (13) A Correct  
 (14) Q And did you understand they were conducting a criminal  
 (15) investigation?  
 (16) A Yes  
 (17) Q Did you also understand that there was a state criminal  
 (18) investigation on going?  
 (19) A Yes  
 (20) Q And did you ultimately testify before a federal grand jury?  
 (21) A Yes I did  
 (22) Q Was that in Anchorage?  
 (23) A Yes  
 (24) Q Did you also testify in front of a state grand jury if you  
 (25) recall?

Vol 16 2465

Vol 16 2467

- (1) **A I did not**  
 (2) **Q And on the occasions – and you of course testified in the next year in – early in the next year in the Hazelwood trial?**  
 (3) **A Correct**  
 (4) **Q Which was a criminal trial?**  
 (5) **A Yes**  
 (6) **Q Now on all of these occasions you've been asked many many**  
 (7) **times about at what time certain things occurred?**  
 (8) **A Yes**  
 (9) **Q Just prior to the grounding and after the grounding**  
 (10) **correct?**  
 (11) **A Um hum yes**  
 (12) **Q You've been asked how long it took to do a certain thing**  
 (13) **correct?**  
 (14) **A Yes**  
 (15) **Q And how long it took to go from this thing to the next**  
 (16) **thing?**  
 (17) **A Yes**  
 (18) **Q Have you not?**  
 (19) **A Yes**  
 (20) **Q And you've also asked to try to put the things in order?**  
 (21) **A Yes**  
 (22) **Q What happened first second third fourth and fifth isn't**  
 (23) **that correct?**  
 (24) **A Correct**

- (1) **A Yes**  
 (2) **Q For example the time that you took the fix at 2355 you**  
 (3) **know that time don't you?**  
 (4) **A Yes**  
 (5) **Q Why?**  
 (6) **A Because I logged it That's a landmark time certain of –**  
 (7) **certain events in a time span would stand out more than**  
 (8) **others**  
 (9) **just because of their relative importance to me**  
 (10) **Q Well also didn't you look at your watch?**  
 (11) **A Yes–**  
 (12) **Q When you did that?**  
 (13) **A Yes put it on the chart**  
 (14) **Q And as a matter of fact isn't that the only time from the**  
 (15) **time the captain left the bridge till sometime after the**  
 (16) **grounding that you ever had a chance to look at your watch?**  
 (17) **Or you ever looked at your watch?**  
 (18) **A Yes**  
 (19) **Q That night do you recall what kind of watch you had?**  
 (20) **A It was a digital display lighted display**  
 (21) **Q Did it show hours and minutes or hours minutes and**  
 (22) **seconds?**  
 (23) **A Hours minutes and seconds**  
 (24) **Q Did you have to punch it to show seconds?**  
 (25) **A No**  
 (26) **Q When you arrived were out there on the wing when you**

Vol 16 2466

Vol 16 2468

- (1) **Q And have you attempted to do that?**  
 (2) **A I have attempted**  
 (3) **Q Do you have as you sit here today having – you have I**  
 (4) **assume had the opportunity over the past months to look at**  
 (5) **your NTSB testimony?**  
 (6) **A I've had the opportunity I haven't done it**  
 (7) **Q But at some point did you ever read your NTSB testimony?**  
 (8) **A Yes**  
 (9) **Q And did you ever read your Hazelwood trial testimony or**  
 (10) **parts of it?**  
 (11) **A Parts of it**  
 (12) **Q And do you realize there are differences between those?**  
 (13) **A Yes**  
 (14) **Q As to the sequence and the times and everything?**  
 (15) **A Yes**  
 (16) **Q Is it a fair statement that you've had a great deal of**  
 (17) **difficulty under these particular circumstances as we've**  
 (18) **described them remembering the times at which things**  
 (19) **occurred?**  
 (20) **A Correct**  
 (21) **Q All right And that is in no small part due to what you**  
 (22) **had to go through that night the grounding and the aftermath?**  
 (23) **A Correct**  
 (24) **Q Now there are some times that are pretty clear in your**  
 (25) **mind though aren't there?**

- (1) **looked at your watch could you see how many seconds there**  
 (2) **were**  
 (3) **on it or did you remember how many seconds there were on it?**  
 (4) **A I would have been able to see it but with difficulty**  
 (5) **Q Do you remember seeing how many seconds it was after**  
 (6) **2355?**  
 (7) **A No**  
 (8) **Q As you sit here today do you have an independent**  
 (9) **recollection that you can sit here and recall the order in**  
 (10) **which all these things were done?**  
 (11) **A Not an exact chronology no**  
 (12) **Q And is it possible that certain things in the way you**  
 (13) **recite them here today or at the NTSB or at the Hazelwood trial**  
 (14) **were out of order from where they actually occurred?**  
 (15) **A Yes**  
 (16) **Q And is it also possible that your estimates of the time it**  
 (17) **took to do things could be inaccurate?**  
 (18) **A Certainly I – I wish I'd made that more clear in my**  
 (19) **previous testimonies, that I really was not sure, that they**  
 (20) **were purely estimates**  
 (21) **Q When you were testifying before the NTSB?**  
 (22) **A Yes**  
 (23) **Q Were you attempting to give them an estimate about how**  
 (24) **long**  
 (25) **the tasks took or were you actually giving them from**  
 (26) **recollection the time it actually took you?**  
 (27) **A Those were my best estimates of – of time intervals other**  
 (28) **than – placed within times that I could verify from – from**

Vol 16 2469

Vol 16 2471

- (1) fixes or important events such as the beginning of a the load
- (2) program up, and I tried to fix everything within those - those
- (3) landmark times
- (4) Q Doing the best you would put them in there?
- (5) A Yes
- (6) Q Between the landmark times that you know of?
- (7) A Correct
- (8) Q And as a matter of fact at the time you testified in front of the NTSB did you still think the time of the grounding was approximately 0004 on the 24th of March?
- (9) A I thought it was - that also to be an approximation
- (10) Q Mr Cousins do you recall testifying to the NTSB in May of 1989 that after you ordered the 20 degree right rudder and witnessed the rudder angle indicator changing that you observed it go to right 20 and then stop reading from the top of page 66 question is after you put on the right 20 degrees rudder and witnessed the rudder indicator changing did you observe it go to right 20 and stop?
- (11) Answer yes I believe I did I can't specifically recall but - that it did but I would have looked at the rudder angle indicator at that time yes
- (12) Question you would have looked at it?
- (13) Answer yes
- (14) Question that would have been your practice?
- (15) Answer yes

- (1) Q And you -
- (2) A After - after the conversations with Captain Hazelwood and
- (3) my return to the chart during the first and second conversation
- (4) with the captain
- (5) Q Am I correct in reading this chart and I am not a mariner
- (6) that - that right south of the 2355 the spot that you fixed
- (7) at 2355 you were about to enter water that was about 29
- (8) fathoms in depth?
- (9) A Right here? Yes I see 29 fathom mark there
- (10) MR SANDERS Your Honor that concludes the examination of Mr Cousins
- (11) THE COURT Thank you
- (12) MR O NEILL The plaintiffs call William Sheehy
- (13) THE CLERK Raise your right hand please
- (14) (The Witness Is Sworn)
- (15) THE CLERK For the record sir state your full name
- (16) your address and spell your last name please
- (17) THE WITNESS My name is William Sheehy I live at
- (18) 1301 Berging Road Hastings Nebraska 68901 Last name is
- (19) S H E E H Y
- (20) THE CLERK Thank you sir
- (21) MR O NEILL Your Honor we offer Plaintiffs
- (22) Exhibits 224 and 355 I understand there is no objection 224
- (23) and 355
- (24) MR SANDERS No objection Your Honor

Vol 16 2470

Vol 16 2472

- (1) Do you recall those questions and answers?
- (2) A Vaguely yes
- (3) Q And then later on the next page on page 67 at line 9 the
- (4) question was asked now about how long was the vessel on
- (5) right
- (6) 20 degrees before you did something else?
- (7) And the answer was I estimate two minutes
- (8) Do you recall that?
- (9) A Yes
- (10) Q At the time that you talked to Captain Hazelwood about the
- (11) maneuver you were going to make you fully expected that you
- (12) would be traveling through water that might be 50 fathoms or
- (13) less isn't that true?
- (14) A Yes
- (15) Q And isn't it true that if you look at the 2355 plot that
- (16) even after giving a ten degree right rudder command you
- (17) almost
- (18) certainly would have passed over areas that were less than 50
- (19) fathoms?
- (20) A Yes
- (21) Q And you would have had a fathometer alarm going off on -
- (22) A Yes
- (23) Q And would that - would the addition of that alarm with the
- (24) other things that you were doing have been of assistance to
- (25) you?
- (26) A In that perspective no Not really I mean I knew the
- (27) depths of water that we were going to traverse anyway

- (1) THE COURT Thank you Plaintiffs Exhibits 224 and
- (2) 355 are admitted
- (3) MR O NEILL I'm sorry it's 3551 I misspoke
- (4) (Exhibits 224 and 3551 offered)
- (5) MR SANDERS No objection to that one either Your
- (6) Honor
- (7) THE COURT 3551 and 224 are admitted
- (8) (Exhibits 224 and 3551 received)
- (9) MR O NEILL Your Honor we're calling - excuse me
- (10) We're calling Mr Sheehy for cross examination That means I
- (11) get to ask leading questions And we'll use your deposition
- (12) transcript
- (13) CROSS EXAMINATION OF WILLIAM SHEEHY (Live)
- (14) BY MR O NEILL
- (15) Q Could you tell us where you work
- (16) A Right now I work for Sea River Maritime
- (17) Q That's the old Exxon Shipping Company?
- (18) A Exxon Shipping correct
- (19) Q And when did you start with them?
- (20) A I started with them in I believe it was July of 1974
- (21) Q And was that after graduation from some maritime academy?
- (22) A Yes
- (23) Q And what academy was that?
- (24) A The Federal Maritime Academy, Kings Point New York
- (25) Q And that's the sort of top of the line maritime academy

Vol 16 2473

- (1) isn't it?
- (2) **A Some people think that**
- (3) **Q Do people who graduate from Kings Point wear their rings on**
- (4) **their left hand like they do at West Point?**
- (5) **A I don't know I don't have one**
- (6) **Q I asked that I'm a West Pointer and in the years since**
- (7) **I've graduated I've put on so much weight that I can't get my**
- (8) **ring on anymore**
- (9) **You were the port captain of the gulf coast fleet at some**
- (10) **point in time weren't you?**
- (11) **A Yes sir**
- (12) **Q And about when was that?**
- (13) **A I started I believe in June of '85**
- (14) **Q And the primary job of the port captain was to act as the**
- (15) **liaison between ships masters and shore side management?**
- (16) **A That's correct when I started the job yes**
- (17) **Q At some point in time were the responsibilities enhanced?**
- (18) **A Yes, during the time that I was there I actually held**
- (19) **three different jobs**
- (20) **Q Could you tell us what the three different jobs were and**
- (21) **when you held them?**
- (22) **A Well the first one when I started I was port captain for**
- (23) **all 12 of the vessels there I'm going to say somewhere**
- (24) **around**
- (25) **the first of '87 we changed the structure a little bit and**
- (26) **added a second port captain so I had half as many vessels**

Vol 16 2474

- (1) **after that time and the job description changed a little bit**
- (2) **Not a lot And then in the - I think the first of '88 that**
- (3) **structure was changed and we - I went from being port**
- (4) **captain**
- (5) **to ship group coordinator and that was the biggest change**
- (6) **in**
- (7) **job descriptions was going from port captain to ship group**
- (8) **coordinator**
- (9) **Q Now at the same time that these management changes were**
- (10) **taking place shore side would it be fair to say that**
- (11) **Mr. Larossi who was the president of Exxon Shipping Company**
- (12) **was implementing management changes with regard to the**
- (13) **responsibilities of tanker masters?**
- (14) **A I do not recall any real changes with regards to the**
- (15) **masters on the ships**
- (16) **Q Have you ever heard him or seen his speech surrendering**
- (17) **the**
- (18) **memories?**
- (19) **A Yes**
- (20) **Q And in that speech doesn't he talk about how he at least**
- (21) **through the 1980s created a shipboard management team with**
- (22) **regard to these vessels?**
- (23) **A Well what he discussed was ideas for the future and**
- (24) **possibilities for changing I don't recall that he**
- (25) **specifically changed anything in that time period**
- (26) **Q Do you recall him when he made the speech saying - or**
- (27) **when you read the speech - did you hear it or read it or both?**
- (28) **A Both I think**

Vol 16 2475

- (1) **Q The latest and perhaps most significant step in the**
- (2) **evolution to the new fleet officer involved the development of**
- (3) **the shipboard management team and the concept of business**
- (4) **unit**
- (5) **stewardship do you recall him saying that?**
- (6) **A Not specifically but -**
- (7) **Q Did you attend the 1988 fleet management conference?**
- (8) **A Yes I probably did**
- (9) **Q Was a topic of discussion at the 1988 fleet management**
- (10) **conference fatigue at sea?**
- (11) **A I don't remember if that was or not**
- (12) **Q Do you recall a topic at fleet management - at a fleet**
- (13) **management conference prior to the grounding being fatigue at**
- (14) **sea?**
- (15) **A No**
- (16) **Q Let me show you 224 which has been admitted Have you**
- (17) **ever seen a handout like Exhibit 224?**
- (18) **You've got a screen right there sir You got your own**
- (19) **private screen**
- (20) **A Okay I don't really remember this but I may have seen it**
- (21) **and not -**
- (22) **Q Does this -**
- (23) **A And I generally remember I guess the subject but -**
- (24) **Q Does this at all refresh your recollection that in 1988 a**
- (25) **topic at the fleet management conference may have been**
- (26) **fatigue**
- (27) **at sea?**

Vol 16 2476

- (1) **A It may have been yes**
- (2) **Q In August of 1985 when you were the - you were then the**
- (3) **gulf coast fleet manager?**
- (4) **A No I was the port captain**
- (5) **Q Gulf coast - the port captain?**
- (6) **A Yes**
- (7) **Q Someone in personnel told you that Captain Hazelwood**
- (8) **would**
- (9) **be returning to duty as the master of the Yorktown is that a**
- (10) **correct statement?**
- (11) **A That's correct**
- (12) **Q And you were later told by your boss who was John**
- (13) **Tompkins to meet with Captain Hazelwood?**
- (14) **A Yes**
- (15) **Q And Tompkins told you that Hazelwood had been**
- (16) **determined to**
- (17) **be fit for duty in a medical sense?**
- (18) **A Yes Tompkins told me that he was returning to sea Yes**
- (19) **I**
- (20) **believe he said that**
- (21) **Q And he was going to be assigned to the Exxon Yorktown?**
- (22) **A Yes**
- (23) **Q And the sum and substance of this conversation was about**
- (24) **two minutes?**
- (25) **A Approximately**
- (26) **Q And Tompkins never told you the reason for Captain**
- (27) **Hazelwood's leave of absence?**
- (28) **A When - when Tompkins and I had that conversation we**
- (29) **were**

Vol 16 2477

Vol 16 2479

(1) both going to the same meeting We were driving up north  
of  
(2) town I don't believe that he told me any reason then  
(3) Q And you didn't ask him about the nature of Captain  
(4) Hazelwood's medical leave?  
(5) A No  
(6) Q And you learned later on that Mr Tompkins was in fact  
(7) aware of the reason for Captain Hazelwood's medical leave?  
(8) A I - I assumed that he was aware of it, yes  
(9) Q Now after your discussion with Mr Tompkins and before  
(10) your meeting with Captain Hazelwood you called a Mark Pierce  
(11) to find out what the situation was with Captain Hazelwood you  
(12) were curious?  
(13) A Yes I called Mark Pierce because I had just relieved  
(14) Captain Pierce and so I decided to - before I left for the  
(15) meeting, to call Captain Pierce and just probe the issue a  
(16) little bit  
(17) Q And Pierce told you that Captain Hazelwood had been in  
some  
(18) kind of alcohol rehabilitation?  
(19) A Yes  
(20) Q And that he described Captain Hazelwood's problem as  
(21) drinking problems?  
(22) A I can't recall for sure - I believe he said that yes  
(23) Q And Captain Pierce was of the opinion that Captain  
(24) Hazelwood's drinking may have been interfering with Captain  
(25) Hazelwood's job?

Vol 16 2478

(1) A No I believe that what Captain Pierce told me was that -  
(2) something along the lines that Captain Hazelwood went  
(3) voluntarily to a rehabilitation program before it interfered  
(4) with his job performance  
(5) Q Did he at some subsequent time tell you that Joseph  
(6) Hazelwood's drinking problems interfered with the performance  
(7) of Captain Hazelwood's job?  
(8) A I believe that Mark did not tell me that that he said  
(9) there may have been a potential for it but I don't believe he  
(10) ever said that there were any performance problems  
(11) Q Okay sir would you go to page 116 of your deposition  
(12) transcript? And on page 116 of your deposition transcript at  
(13) line 21 through page 117 line 5 would you read that?  
(14) A Starting on which line line -  
(15) Q Line 21 there's a question on line 21  
(16) MR SANDERS Your Honor I'd ask that question go  
(17) back to 116 line 5 Make it complete  
(18) MR O NEILL This is my examination Judge If he  
(19) wants to redirect him -  
(20) THE COURT Well I think the rule says that you need  
(21) to pick the relevant part Take a look at it and see see if  
(22) you're getting all that's relevant  
(23) MR O NEILL The top of page 116 deals with the first  
(24) Pierce conversation I believe my question was at any time  
(25) after 1985 Did Mark Pierce at any time after 1985 tell you

(1) how Joseph Hazelwood's drinking problem interfered with the  
(2) performance of Hazelwood's job  
(3) BY MR O NEILL  
(4) Q Sir Mr Sheehy Captain Sheehy when I asked you the  
(5) question I want you to know I read it out of the transcript  
(6) A Oh, I'm sure you did  
(7) Q That's how I do it I don't have the confidence to ask  
(8) questions I don't know the answer to  
(9) A Well, the thing that's relevant is he asks up on line 5  
(10) about problems interfering with Joe's job, and I said no, I  
(11) don't think there were any problems interfering with Joe's  
job  
(12) and I believe this - this is down -  
(13) Q Let's read the questions and answers out loud I'll read  
(14) the question an answer out loud  
(15) A Okay  
(16) Q And you tell me whether I read it out loud right or not  
(17) A Okay  
(18) Q Question, did Mark Pierce at any time after 1985 tell you  
(19) how Joseph Hazelwood's drinking problems interfered with the  
(20) performance of Hazelwood's job?  
(21) Answer I believe that a subsequent time he did tell me  
(22) something about it  
(23) Question what did he tell you?  
(24) Answer seems to me like he told me something about some  
(25) problems on one of the vessels Joe was on and that was what

Vol 16 2480

(1) actually precipitated his involvement with Joe and  
(2) encouragement to go to a program  
(3) Were those questions asked and were those answers given?  
(4) A Yes  
(5) Q And indeed Captain Pierce told you that he was  
(6) instrumental in getting Captain Hazelwood to seek help for his  
(7) drinking problem?  
(8) A Captain Pierce said that he had some involvement with  
(9) Captain Hazelwood going into a program I don't believe he  
(10) said he was instrumental but he did say that he had some  
(11) involvement with that due to some problems that he had  
seen  
(12) that I don't think were job related  
(13) Q Are you at all aware of the Graves report?  
(14) A First time I saw that was when it was one of the  
(15) predesignated documents  
(16) Q It would appear from the Graves report that Captain  
(17) Hazelwood's drinking was job related wouldn't it?  
(18) A Maybe at some point I don't know  
(19) Q Would you go to page 113 of your deposition transcript  
(20) line 19 and with regard to the word instrumental was the  
(21) question asked - let's start on line 20 There are a variety  
(22) of questions and you eventually answer  
(23) The question is yes but the answer is I believe that Mark  
(24) said that he - he was involved in Joe's drinking problem and  
(25) that he had told or that he had been instrumental in Joe

Vol 16 2481

- (1) seeking help and that it was a good thing that he did and  
 (2) that you know he needed to seek this help and successfully  
 (3) complete this program in order to remain employed with the  
 (4) company something along those lines that in the context of  
 (5) this last chance thing came in  
 (6) Did you say that?  
 (7) A Yes I believe so  
 (8) Q And the word instrumental was your word wasn't it?  
 (9) A Yes  
 (10) Q Did Mr. Pierce or Captain Pierce tell you that he hoped  
 (11) that Captain Hazelwood had been rehabilitated?  
 (12) A I believe he made a comment something like that  
 (13) Q And did he tell you that it was a good thing that Captain  
 (14) Hazelwood had stopped drinking because that Captain  
 Hazelwood  
 (15) wouldn't remain an employee if he continued the way that he  
 (16) was?  
 (17) A Captain Pierce may have been speculating that there was  
 (18) potential for problems if - if Captain Hazelwood was not  
 (19) rehabilitated I recall something like that  
 (20) Q And did he tell you that Captain Hazelwood needed to seek  
 (21) this help and successfully complete the alcohol rehabilitation  
 (22) program in order to remain employed?  
 (23) A He told me that if he didn't seek some sort of  
 (24) rehabilitation that - that there was a potential for him to  
 (25) do something that may jeopardize his employment

Vol 16 2482

- (1) Q Indeed Captain Pierce told you that this would probably be  
 (2) Captain Hazelwood's last chance?  
 (3) A He made some comment like that  
 (4) Q And this was in 1985 this last chance comment was in  
 (5) 1985?  
 (6) A Yes  
 (7) Q So you had - at this point in time in 1985 prior to your  
 (8) meeting with Captain Hazelwood you had had a telephone  
 (9) conversation with or a conversation with Tompkins may have  
 (10) been in the car?  
 (11) A No it was in my office  
 (12) Q It was in your office and then you had this follow up  
 (13) conversation with Captain Pierce?  
 (14) A Yes  
 (15) Q And then you met with Captain Hazelwood at a - at the  
 (16) Windham Hotel in where?  
 (17) A That's the Windham Hotel near the airport Houston  
 (18) Q In Houston?  
 (19) A Intercontinental yes sir  
 (20) Q And Captain Hazelwood was going to come in for this  
 meeting  
 (21) and then the next day he was going to be reassigned to the  
 (22) Exxon Yorktown?  
 (23) A That's correct  
 (24) Q And the meeting has been described as having taken place  
 in  
 (25) a variety of different environments Would you - would it be

Vol 16 2483

- (1) fair to say that it was in the open lobby of the Windham Hotel?  
 (2) A The way I recall that meeting was I met Captain  
 Hazelwood  
 (3) right by the entrance and we sat down at the closest  
 (4) available - I believe it was a couch and a table in the lobby  
 (5) there  
 (6) Q And that's - you could describe it as the lobby bar an  
 (7) open lobby bar would that be fair?  
 (8) A Yeah You could get beverages sitting there yes  
 (9) Q Captain Hazelwood testified that you had a beer there?  
 (10) A I may or may not have had a beer I don't really recall  
 (11) what I had  
 (12) Q But it's one of those places that we all know in hotel  
 (13) lobbies where the tables out there and there's a bar set up  
 (14) and it's out in the atrium?  
 (15) A It's in the atrium  
 (16) Q Is that a fair statement?  
 (17) A Yes that's correct  
 (18) Q Now Captain Hazelwood has testified that in his  
 (19) conversation with you the subject of drinking did not come  
 (20) up Okay? Your recollection of that is different isn't it?  
 (21) A Yes  
 (22) Q So we have two versions as to what took place We have  
 (23) whatever he testified to here in the courtroom and your  
 (24) recollection is that Captain Hazelwood told you that he was no  
 (25) longer drinking?

Vol 16 2484

- (1) A That's correct  
 (2) Q And you told Captain Hazelwood that this was your last  
 (3) chance?  
 (4) A When we were sitting there at the table and I can't recall  
 (5) for sure what precipitated the comment but I believe  
 Captain  
 (6) Hazelwood proffered that to me that he was not drinking  
 and I  
 (7) said good I understand that - that this - that you  
 (8) shouldn't be or this is your last chance or something along  
 (9) those lines  
 (10) Q So that in 1985 at least as you and I are talking and your  
 (11) recollection of the conversation goes Captain Hazelwood was  
 (12) told that this was his last chance?  
 (13) A I don't think I ever said Captain Hazelwood was told it  
 was  
 (14) his last chance  
 (15) Q Did you say I understand that this is your last chance this  
 (16) time?  
 (17) A I may have said that yes sir  
 (18) Q You're careful in your speech and if I overstate feel free  
 (19) to come back and -  
 (20) A Okay  
 (21) Q All right?  
 (22) A Okay  
 (23) Q You did not ask Captain Hazelwood anything about his  
 (24) aftercare AA mental or emotional help family support  
 (25) structure those kinds of things did you?

Vol 16 2485

(1) A No My understanding was that Mr Tompkins had already met  
 (2) with him As a matter of fact that was the agreement that I  
 (3) had with John Tompkins was that I was really only to meet with  
 (4) Captain Hazelwood if he did not make it to the Windham  
 (5) I did know that Mr Tompkins did meet with Joe so in  
 (6) actuality, my meeting with Captain Hazelwood was redundant at  
 (7) that point  
 (8) Q Would it be fair to say that in the summer of 1985 you  
 (9) were on notice of a potential problem that is Captain  
 (10) Hazelwood alcohol rehabilitation and what Captain Pierce had  
 (11) told you?  
 (12) A Captain Pierce - yes Captain Pierce had - when - I  
 (13) believe that perhaps also when I relieved Captain Pierce in  
 (14) June, several months before the Windham meeting I believe that  
 (15) Captain Pierce said something to me about Captain Hazelwood  
 (16) being on medical leave We didn't get down to the details of  
 (17) any of it nor did we discuss when he would be back  
 (18) Q And you understood during the period of time that you  
 (19) worked with Captain Hazelwood on the gulf coast that there was  
 (20) a fairly high likelihood that someone with an alcohol problem  
 (21) would start drinking again?  
 (22) A I don't know if I was aware of what that likelihood was  
 (23) I'm not sure if I could assign a percentage to it but I  
 (24) certainly recognized that it was something to be concerned  
 (25) about

Vol 16 2486

(1) Q The term fairly high the reason that I used that is that  
 (2) was the phrase that you used in your deposition Would you  
 (3) take issue with that now?  
 (4) A I'd have to read that  
 (5) Q Let's find it  
 (6) A Okay  
 (7) Q Let's go to page 285 line 16 The question was and what  
 (8) was your understanding as to the rate of recidivism? And your  
 (9) answer was that it was fairly high Do you see that?  
 (10) A Yes That refreshes my memory the discussion about  
 (11) recidivism a little bit  
 (12) Q We can take - we can take our time We can go back here  
 (13) and take a look at what you need to look at because there  
 (14) are - there's like 400 or 500 pages of transcript there  
 (15) A Yeah  
 (16) Q And you knew that a follow up program was a necessary part  
 (17) of Captain Hazelwood's alcohol rehabilitation?  
 (18) A The details to my knowledge about Captain Hazelwood's  
 (19) program were very limited because it was a confidential  
 (20) matter  
 (21) that really only a supervisor would be privy to so the details  
 (22) of his program and of his aftercare situation I was not privy  
 (23) to  
 (24) Q You know as a general proposition that a follow up program  
 (25) was a necessary part of an alcohol rehabilitation program?  
 (26) A I know in - yes in most cases it is yes

Vol 16 2487

(1) Q And that was your belief at the time that Captain Hazelwood  
 (2) was under your watch?  
 (3) A Yes, I believe that he was in some sort of program, yes  
 (4) Q And you made no attempt to determine if Captain Hazelwood  
 (5) could attend AA or aftercare meetings during his tours at sea  
 (6) did you?  
 (7) A The details of Captain Hazelwood's aftercare program as I  
 (8) said, were not - not matters that I was privy to I was still  
 (9) on the peer level with Captain Hazelwood What his  
 (10) program  
 (11) was, how frequently, what - I didn't even know what group  
 (12) he  
 (13) was going to, whether it was AA or rapid recovery or any of  
 (14) those  
 (15) Q That's - that's fine In fact let's take that one step  
 (16) further Would it be fair to say that no one ever told you to  
 (17) monitor Captain Hazelwood regarding his use of alcohol?  
 (18) A Well, the fact of the matter is is that I don't recall  
 (19) specifically being told and I think it's probably because I  
 (20) recognize that such monitoring of like that that you speak  
 (21) was  
 (22) part of my job in the base case I did not recall of  
 (23) specifically being told to do anything other than what I felt  
 (24) like I was doing already  
 (25) Q Well my statement is correct you were never told by  
 (26) anyone at Exxon to monitor Joseph Hazelwood regarding the  
 (27) use  
 (28) of alcohol?  
 (29) A I - I may or may not have been told that I don't recall

Vol 16 2488

(1) being told that I may have been  
 (2) Q Okay Would you go to page 218 of your deposition  
 (3) transcript and I'm going to read from line 2 to line 5 and you  
 (4) can follow along with me  
 (5) Okay were you ever told by anyone at Exxon to monitor  
 (6) Joseph Hazelwood regarding use of alcohol and your answer  
 (7) was  
 (8) no  
 (9) Do you see that?  
 (10) A Yes But then on the same page I specifically say that I  
 (11) wouldn't necessarily be told that because it was part of my  
 (12) job  
 (13) to monitor that  
 (14) Q Well you were concerned about this man weren't you just  
 (15) on your own? Your own investigation without being told to  
 (16) monitor him puts you on notice of a potential problem didn't  
 (17) it?  
 (18) A I felt like it was my job to - to monitor him yes  
 (19) Q And would it be fair to say that you don't know whether  
 (20) anybody else specifically monitored Joseph Hazelwood  
 (21) regarding  
 (22) his use of alcohol?  
 (23) A I don't know specifically what other monitoring plans or  
 (24) programs were  
 (25) Q Now at some point in time a Mr Jim Shaw comes to you with  
 (26) regard to Captain Hazelwood?  
 (27) A Yeah  
 (28) Q Is that a correct statement?

Vol 16 2489

Vol 16 2491

(1) **A Yes**  
 (2) **Q** And he was a port steward while you were the port captain  
 (3) of the gulf coast fleet?  
 (4) **A That's correct**  
 (5) **Q** And you view Mr. Shaw as being an honest man?  
 (6) **A I believe my testimony was that he is - he's honest and**  
 (7) **well intentioned but he also is prone to gossip to**  
 (8) **exaggerate**  
 (9) **things rather - he lacks in credibility sometimes simply**  
 (10) **because of his gossiping and exaggeration**  
 (11) **Q** He had never - are you finished?  
 (12) **A Yes**  
 (13) **Q** He had never before or after reported any out of school  
 (14) drinking problems that he had. This is the only drinking  
 (15) report that Mr. Shaw ever brought to you, isn't it?  
 (16) **A I had had a lot of contact with Jim Shaw over the years**  
 (17) **and I think he - he talked about all aspects of people's**  
 (18) **private lives over the years. I think I may have - I don't**  
 (19) **think I, while port captain, ever heard any other rumors from**  
 (20) **Jim, but I think perhaps when I sailed with him I had**  
 (21) **Q** When you were port captain Mr. Shaw didn't come in and  
 (22) tell you any other out of school drinking stories, did he?  
 (23) **A I can't positively say that he didn't but I don't recall**  
 (24) **that he did**  
 (25) **Q** And Mr. Shaw told you that Captain Hazelwood was acting  
 (26) funny?

(1) Jim Shaw expressed concern that a lot of people saw Joseph  
 (2) Hazelwood drunk. question. And your answer was I believe he  
 (3) said something like hey this man - this isn't too cool. I  
 (4) mean we have all the people storing the vessel and Joe was he  
 (5) said misbehaving or I can't remember exactly what  
 (6) terminology  
 (7) he used but something like that. Like I say it was somewhat  
 (8) cryptic and I may have said what do you mean you mean he  
 (9) was  
 (10) drunk and he said yes or I can't remember how it went but  
 (11) that ended up being the bottom line so to speak. Jim alleging  
 (12) that  
 (13) Is that a - does that fairly state what happened?  
 (14) **A I think so yes**  
 (15) **Q** It's a touchy thing for a port steward to report a master  
 (16) being drunk, isn't it?  
 (17) **A I don't think it's so touchy for Jim Shaw because he**  
 (18) **regularly gossips about people's personal lives and things**  
 (19) **like**  
 (20) **that. I don't think that he felt uncomfortable about doing**  
 (21) **that at all**  
 (22) **Q** At the time that Mr. Shaw brought this information to you  
 (23) you had - you knew that Captain Hazelwood had been through  
 (24) the  
 (25) program and you, according to your testimony, had told him  
 (26) this  
 (27) was his last chance?  
 (28) **A I told him that I understood it was his last chance yes**  
 (29) **Q** Now let's talk about the things that you didn't do after  
 (30) the Shaw report. You didn't go and interview anybody else on

Vol 16 2490

Vol 16 2492

(1) **A Yes**  
 (2) **Q** And you had to press him to get the story up, didn't you?  
 (3) **A Yes**  
 (4) **Q** And you did press him?  
 (5) **A Yes**  
 (6) **Q** And Mr. Shaw told you that Captain Hazelwood was drunk  
 (7) over  
 (8) in Baton Rouge when Mr. Shaw was on the ship?  
 (9) **A I believe that he alluded to that fact that my discussion**  
 (10) **with Mr. Shaw - he was being so cryptic and so ambiguous**  
 (11) **in**  
 (12) **what he was saying. I can't recall that he specifically said**  
 (13) **he was drunk. I think he said that he thought Captain**  
 (14) **Hazelwood had fallen off the wagon or something like that.**  
 (15) **I**  
 (16) **continued to question him about what he meant by that.**  
 (17) **Q** Did Mr. Shaw tell you that Captain Hazelwood was drunk?  
 (18) **A** Like I say as - as near as I can recall right now he  
 (19) **said that he had fallen off the wagon or that he was acting**  
 (20) **funny.**  
 (21) **Q** The cure didn't work?  
 (22) **A** May have said that  
 (23) **Q** And did he tell you that he was concerned about Captain  
 (24) Hazelwood being drunk on board ship?  
 (25) **A I don't know if he said that he was concerned**  
 (26) **Q** Would you go to page 156 of your deposition transcript  
 (27) line 16 and I'm going to read the 157 line 2 and why don't  
 (28) you follow along

(1) the ship, did you?  
 (2) **A** By the time I got the Shaw report the ship had left  
 (3) **Q** At no time after that did you go and did you talk to the  
 (4) people that were on the ship and ask them about the Shaw  
 (5) allegations, did you?  
 (6) **A** Subsequent to the Shaw allegations I did go over to the  
 (7) vessel, talked to Captain Hazelwood and I made myself  
 (8) available  
 (9) to other crew members  
 (10) **Q** You made yourself available. Did you go and ask any of the  
 (11) other crew members anything specifically about the Shaw  
 (12) allegations?  
 (13) **A I did not specifically ask anybody if they had seen**  
 (14) **Captain**  
 (15) **Hazelwood drunk or anything like that.**  
 (16) **Q** And anything to the potential witnesses, crew members  
 (17) there were a variety of other potential witnesses, the  
 (18) stevedores, isn't that right?  
 (19) **A** Well, there were some stevedores on there but my  
 (20) feelings  
 (21) about that whole report, due to Mr. Shaw's lack of  
 (22) credibility  
 (23) I thought that it would be inappropriate to launch into an  
 (24) investigation that could possibly undermine Captain  
 (25) Hazelwood's  
 (26) authority based on such a scurrilous report from basically a  
 (27) non-credible source. So I felt that it was prudent to take  
 (28) other avenues before I did anything that I thought might  
 (29) have  
 (30) been an overreaction  
 (31) **Q** Would it be fair to say that with regard to the potential

Vol 16 2493

- (1) witnesses with regard to the Shaw event that is the other  
 (2) crew members and the stevedores you didn't go and interview  
 (3) them?  
 (4) **A I did not interview the stevedores, no**  
 (5) **Q Now Captain Hazelwood - you took this seriously enough**  
 (6) **the situation seriously enough to call Mark Pierce didn't**  
 (7) **you?**  
 (8) **A Yes I called Captain Pierce Probably immediately after**  
 (9) **Jim Shaw told me the - the story**  
 (10) **Q And Pierce told you that if Captain Hazelwood was drinking**  
 (11) **again he was going to be in big trouble?**  
 (12) **A He said something like that Yes I'm not sure what the**  
 (13) **trouble was referring to if it was a professional or a**  
 (14) **personal sense**  
 (15) **Q Well let's talk about that because during that same phone**  
 (16) **call didn't Captain Pierce tell you that Captain Hazelwood's**  
 (17) **drinking problems had interfered with his job performance at**  
 (18) **another time?**  
 (19) **MR SANDERS Your Honor this has been asked and**  
 (20) **answered We've spent quite a bit of time on it**  
 (21) **MR O NEILL It's another time**  
 (22) **THE COURT My sense of it is this is another time**  
 (23) **but the jury will have to make that call for themselves based**  
 (24) **on the testimony**  
 (25) **BY MR O NEILL**

Vol 16 2494

- (1) **Q Did he inform you of that in that telephone conversation?**  
 (2) **A I believe that in that telephone conversation here again**  
 (3) **there was the one at this time and the one in August of '85 I**  
 (4) **don't believe that he ever said that there were any**  
 (5) **professional problems that - that has at yet affected**  
 (6) **Captain**  
 (7) **Hazelwood's job performance He may have alluded to**  
 (8) **personal**  
 (9) **problems or problems in general but I don't believe that he**  
 (10) **ever specifically told me that - he may have said there were**  
 (11) **some problems maybe even problems on the ship but - but**  
 (12) **nothing that had really negatively impacted performance at**  
 (13) **that**  
 (14) **point**  
 (15) **Q Did he tell you that there had been drinking problems that**  
 (16) **interfered with the performance of Hazelwood's job?**  
 (17) **A I don't recall if he said that for sure**  
 (18) **Q Let's go to page 116 of your deposition transcript**  
 (19) **MR SANDERS Your Honor this is exactly what we did**  
 (20) **before exact same page exact same line**  
 (21) **THE COURT Is that the same page?**  
 (22) **MR O NEILL It is the same page but the man is -**  
 (23) **MR SANDERS Same question there were two**  
 (24) **conversations The answer to the first one is on line 5 and**  
 (25) **this one is where he's referring to again It's the very same**  
 (26) **thing**  
 (27) **THE COURT If we've been over it Mr O'Neill let's**  
 (28) **don't do it again**

Vol 16 2495

- (1) **MR O NEILL I'll move on Judge I'll move on**  
 (2) **BY MR O NEILL**  
 (3) **Q At some time you also talked to an Ivan Mihajlovic?**  
 (4) **A Correct**  
 (5) **Q And he is a friend of Captain Hazelwood's?**  
 (6) **A Yes, I think I think they live near each other I'm not**  
 (7) **sure how close they are**  
 (8) **Q And it crossed your mind that Captain Hazelwood would**  
 (9) **tip - that Captain Mihajlovic would tip off Captain Hazelwood**  
 (10) **about your investigation wouldn't it?**  
 (11) **A Captain Mihajlovic was a classmate of mine through all**  
 (12) **four**  
 (13) **years of school and I believe that I could trust Captain**  
 (14) **Mihajlovic to discuss an issue with him if I wanted to I may**  
 (15) **have had some concern about that, but I believe that I felt**  
 (16) **that over all, it would be better to - to discuss this with**  
 (17) **Captain Mihajlovic**  
 (18) **Q But it did cross your mind didn't it?**  
 (19) **A It may have crossed my mind, yes**  
 (20) **Q Then you testified that you went to see Captain Hazelwood**  
 (21) **isn't that right about the Shaw incident?**  
 (22) **A This was the same time, that you were talking about, with**  
 (23) **the stevedores**  
 (24) **Q About the same time?**  
 (25) **A It was exactly the same time**  
 (26) **Q Now Captain Hazelwood doesn't recall this conversation?**

Vol 16 2496

- (1) **A Well, about eight years ago**  
 (2) **Q And you can't really remember who said what to whom can**  
 (3) **you in the conversation?**  
 (4) **A I can't really remember what was said I can remember**  
 (5) **after I called Pierce after I called Mihajlovic I can**  
 (6) **remember I got a great deal of satisfaction from Mihajlovic**  
 (7) **on**  
 (8) **a very personal level that Captain Hazelwood was not**  
 (9) **drinking**  
 (10) **and that was my chief reason for calling Mihajlovic because**  
 (11) **I**  
 (12) **knew they lived close to each other and that - that Captain**  
 (13) **Mihajlovic would certainly know that**  
 (14) **I - with that background, I did go over to the vessel I**  
 (15) **think I spent about six or eight hours on the ship First**  
 (16) **place I went was Captain Hazelwood's office What I said to**  
 (17) **Captain Hazelwood as near as I can recollect was I informed**  
 (18) **him**  
 (19) **that I had heard these allegations I don't believe I told him**  
 (20) **who made them regarding his last port call**  
 (21) **My recollection is that we did not have a lengthy**  
 (22) **conversation about it but I told him that this had come up I**  
 (23) **don't know if I talked to him or not about any of the other**  
 (24) **things I did but I was comfortable at the end of my**  
 (25) **conversation with Captain Hazelwood that the allegations**  
 (26) **were**  
 (27) **untrue based on - on everything else**  
 (28) **Q Did you know that Captain Hazelwood had resumed drinking**  
 (29) **in**  
 (30) **1986?**  
 (31) **A No**

Vol 16 2497

- (1) Q And you reported all of this to the gulf coast fleet  
 (2) manager Dwight Koops?  
 (3) A That's correct  
 (4) Q And you had never talked to Mr Koops before about  
 (5) Hazelwood's alcohol rehabilitation?  
 (6) A I'm a little unclear about the temporal sequence of all  
 (7) this I - I don't recall specifically talking to Dwight about  
 (8) Captain Hazelwood's rehabilitation but as I had said this -  
 (9) this was a confidential matter that I would have made the  
 (10) assumption that whatever arrangements that Captain  
 Hazelwood  
 (11) had would have been with Mr Koops and it would have been  
 in a  
 (12) confidential status  
 (13) Q Would it be fair to say that you had never talked to  
 (14) Mr Koops before about Hazelwood's alcohol rehabilitation?  
 (15) A Before?  
 (16) Q This report  
 (17) A Before this report, I - I may have talked to Dwight about  
 (18) it I - I don't specifically recall discussing anything about  
 (19) Joe's aftercare or his rehabilitation program with Dwight  
 (20) Q And you made this report that s - to Mr Koops?  
 (21) A Yes  
 (22) Q And after you told Mr Koops about the Shaw report you  
 (23) assumed that the ball was in Mr Koops' court?  
 (24) A I assumed that as far as further action on this specific  
 (25) allegation that the ball was then in Mr Koops' court yes

Vol 16 2498

- (1) Q And he was the gulf coast fleet manager?  
 (2) A Yes  
 (3) Q And he reported directly to the company president?  
 (4) A Yes  
 (5) Q And after Mr Shaw's report about Captain Hazelwood you  
 (6) can't recall doing anything different yourself in terms of  
 (7) watching Captain Hazelwood can you?  
 (8) A Well I think from the very beginning when you know  
 (9) subsequent to my first conversation with Captain Pierce  
 you  
 (10) know I probably had a heightened awareness or recognized  
 the  
 (11) need to be more alert I think it would be fair to say that  
 (12) with Captain Hazelwood's incident with Jim Shaw if that  
 would  
 (13) have maybe been some other person that Jim Shaw was -  
 was  
 (14) saying that about I may not have - have even reacted as  
 (15) strongly as I did with that  
 (16) So I don't think it's a fair characterization to say that I  
 (17) never did anything different with Captain Hazelwood,  
 because I  
 (18) always subconsciously knew of his background  
 (19) Q You knew that he was an accident waiting to happen didn't  
 (20) you?  
 (21) A No  
 (22) Q Let's go to Page 323 of your deposition transcript line 8  
 (23) and I'll read from line 8 to line 13  
 (24) A Which page was that sir?  
 (25) Q 323 sir

Vol 16 2499

- (1) MR SANDERS Give us a second counsel  
 (2) BY MR O NEILL  
 (3) Q Question did you do anything different - did you do  
 (4) anything differently after the Shaw report in terms of  
 (5) monitoring or watching Hazelwood?  
 (6) Answer here again I may have but I don't recall of  
 (7) anything that significant that I can specifically tell you that  
 (8) I did do something different  
 (9) Do you see that?  
 (10) A Yes  
 (11) Q And would it be fair to say that Mr Koops you're unaware  
 (12) as to whether Mr Koops did anything differently? After the  
 (13) Shaw report?  
 (14) A I'm not sure what Mr Koops did no  
 (15) Q And you don't recall ever discussing with Mr Koops about  
 (16) whether you and he should watch Captain Hazelwood more  
 closely?  
 (17) A The - typically when I would visit the ships, Dwight or  
 (18) Mr Koops required us to make a report back to him That  
 was a  
 (19) one page written form that covered a number of issues I  
 know  
 (20) that I - they were called vessel visitation reports and I'm  
 (21) sure I wrote those when I visited the Yorktown Dwight and I  
 (22) may have talked about it or we may not I can't specifically  
 (23) remember  
 (24) Q Okay Let's go to the same page 323 of your deposition  
 (25) transcript and I'll read from line 17 to line 21 and you see

Vol 16 2500

- (1) if I get it right  
 (2) Question I take it you never discussed with Koops sat  
 (3) down and said maybe we ought to watch him a little more  
 (4) closely  
 (5) or something like that?  
 (6) And your answer was I can't remember having a conversation  
 (7) like that  
 (8) Did I get it right?  
 (9) A Yes  
 (10) Q And indeed this was the only discussion that you had with  
 (11) Mr Koops about Hazelwood and alcohol this one discussion?  
 (12) A Well, as I say, I know that I discussed a lot of issues  
 (13) with Dwight especially each time I - I visited the vessel  
 (14) I'm sure I discussed Captain Hazelwood with Dwight I'm  
 sure  
 (15) Dwight asked me how Captain Hazelwood was doing and I  
 reported  
 (16) on that I think that Mr Koops and I had an understanding  
 (17) between the two of us what that meant but specifically, I  
 can't remember a date and a time when I discussed that  
 (18) specific  
 (19) issue with him  
 (20) Q Now sometime in 1987 the issue of Captain Hazelwood  
 being  
 (21) reassigned to the west coast fleet comes up do you recall  
 (22) that?  
 (23) A Yes  
 (24) Q And you had a conversation with a Mr Andy Martineau?  
 (25) A Yes  
 (26) Q And Mr Martineau was in the course of this conversation

Vol 16 2501

- (1) at least concerned enough about Captain Hazelwood to ask the
- (2) question whether Joe was drinking?
- (3) A Yes He - he initiated this conversation with me
- (4) regarding Captain Hazelwood's transfer to the Exxon
- (5) Valdez We
- (6) discussed some of the - as well as some other
- (7) reassignments
- (8) that were being made at that time and I believe after we
- (9) discussed some of the other aspects of assigning Captain
- (10) Hazelwood to the Valdez he asked me if we had had any
- (11) problems
- (12) with Captain Hazelwood drinking
- (13) Q Wasn't the question he asked you whether Joe was drinking
- (14) over there?
- (15) A Something like that
- (16) Q And you told Captain Martineau that he wasn't drinking?
- (17) A I told Captain Martineau that his performance had been
- (18) in
- (19) my opinion, above average, and in all respects that I saw no
- (20) signs of him drinking I may or may not have said there was
- (21) one incident that we investigated we found no substance to
- (22) it
- (23) and I believe Captain Martineau was satisfied with - with
- (24) what
- (25) I had told him
- (26) Q Did you know that by 1987 Captain Hazelwood had in fact
- (27) resumed drinking?
- (28) A No I had no reason to suspect that at all as I said his
- (29) job performance was above average I felt
- (30) Q His ratings weren't were they?
- (31) A No

Vol 16 2502

- (1) Q In fact in 1986 the year prior to this 1987 conversation
- (2) his ratings were the worst that they had ever been weren't
- (3) they 35 out of 37?
- (4) A I was not privy to the list exactly I - I understand
- (5) that he was in the final outcome of the seriatim he was
- (6) quite
- (7) low on it
- (8) Q So now would it be fair to say that Captain Martineau was
- (9) on notice that there was this incident?
- (10) A No I don't think that would be fair to say I - I said
- (11) that I may or may not have mentioned the Jim Shaw incident
- (12) to
- (13) Captain Martineau As a matter of fact I may have said
- (14) well,
- (15) we had one incident which we investigated we found it not
- (16) to
- (17) be factual and so in my opinion everything with Captain
- (18) Hazelwood was fine and that there would be no problems
- (19) transferring him
- (20) Q In point of fact over the one year period prior to that
- (21) conversation you had never asked Captain Hazelwood are you
- (22) drinking are you in AA how's your rehabilitation going how's
- (23) your family going is that a fair statement?
- (24) A During that time period I had numerous conversations
- (25) with
- (26) Captain Hazelwood I'm not sure that - I think we may have
- (27) discussed his family we may have discussed how he was
- (28) doing in
- (29) general
- (30) I do not specifically remember talking about his aftercare
- (31) or his rehabilitation program I - I felt that I had somewhat

Vol 16 2503

- (1) of a rapport with Joe but I also felt that that was a
- (2) confidential matter and that in my opinion his performance
- (3) was
- (4) such that it didn't warrant delving into his personal life
- (5) Q It was a confidential matter You know about it isn't
- (6) that right?
- (7) A Yes
- (8) Q Pierce knew about it?
- (9) A Yes
- (10) Q Koops knew about it?
- (11) A Well, Koops knew about it because he was his supervisor
- (12) I
- (13) knew about it
- (14) Q Did Koops know?
- (15) A I knew about it on a more personal level
- (16) Q You found out about it from Pierce Andy Martineau knew
- (17) about it didn't he?
- (18) A I think he may have, yes
- (19) Q Are you aware that it was a rumor in the fleet?
- (20) A I'm aware that there's not a lot of secrets in the fleet,
- (21) so -
- (22) Q So it wasn't as confidential as one might think by just
- (23) saying it was a confidential matter isn't that right?
- (24) A Well you know I think you know most individuals
- (25) especially Captain Hazelwood's peers his colleagues
- (26) would take
- (27) the rumors for what they were worth I always felt that that
- (28) was a personal matter If Captain Hazelwood wanted to
- (29) dispel

Vol 16 2504

- (1) or discuss these - these rumors, that was his business I -
- (2) I felt that from my point of view, Captain Hazelwood was
- (3) doing
- (4) an excellent job and that there were no signs of any
- (5) problems
- (6) associated with anything
- (7) Q I want to - so then Captain Hazelwood gets transferred to
- (8) the west coast that's a correct statement?
- (9) A Eventually, yes
- (10) Q And you didn't tell Andy Martineau that he needed to
- (11) monitor Captain Hazelwood did you?
- (12) A Well -
- (13) Q Did you?
- (14) A I made the assumption that Captain Martineau knew what
- (15) his
- (16) job was and it's very explicit in the written job description
- (17) that we monitor activities of the vessels and the masters
- (18) and
- (19) we also ensure that they comply with all the company and
- (20) statutory type regulations so I assumed that he knew that
- (21) Q You assume that but you didn't say he had been through
- (22) rehabilitation we'd had a drinking report you better keep an
- (23) eye on him did you?
- (24) A I told him that we had one report
- (25) Q I want to go to a conference that you attended in 1989
- (26) after the grounding of the Valdez
- (27) A Okay
- (28) Q At which Mr Frank Larossi spoke and Frank Larossi was at
- (29) that point in time the president of Exxon Shipping Company is

Vol 16 2505

- (1) that a correct statement?  
 (2) **A That's correct**  
 (3) **Q And who was at the conference?**  
 (4) **A Probably about half the -- the masters in the fleet a**  
 (5) **bunch of the managers more senior managers There were**  
 (6) **a**  
 (7) **couple of -- kind of ex Coast Guard captains that were going**  
 (8) **to**  
 (9) **be on contract for Exxon That's about it**  
 (10) **Q Those are the guys essentially?**  
 (11) **A That's the guys**  
 (12) **Q The guys who were running the company?**  
 (13) **A I guess yeah**  
 (14) **Q And at this meeting of the guys who were running the**  
 (15) **company would it be fair to say that Mr Iarossi said that**  
 (16) **Captain Hazelwood -- Mr Iarossi couldn't believe that Captain**  
 (17) **Hazelwood went ashore so soon after the vessel tied up?**  
 (18) **A I believe that Mr Iarossi said something like that I**  
 (19) **know he discussed a lot of the events surrounding or**  
 (20) **leading up**  
 (21) **to the grounding**  
 (22) **Q Okay I want to focus on three of them Mr Iarossi said**  
 (23) **that he couldn't believe that Hazelwood left the ship as soon**  
 (24) **as it tied up?**  
 (25) **A I believe he said that yes**  
 (26) **Q Mr Iarossi said that they had been ashore in Valdez all**  
 (27) **day and at several different bars during the day of March 23rd**  
 (28) **to 24th and that he couldn't believe he did this?**

Vol 16 2506

- (1) **A Mr Iarossi was -- was giving a speech about that I -- I**  
 (2) **can't recall now what all he said, but eventually it was**  
 (3) **something along those lines**  
 (4) **Q And he couldn't believe Mr Iarossi the president of**  
 (5) **Exxon Shipping Company couldn't believe that they came back**  
 (6) **so**  
 (7) **close to sailing time?**  
 (8) **A I believe he said something like that**  
 (9) **MR O NEILL Thank you sir**  
 (10) **You got to stay there and he's going to ask you some**  
 (11) **questions**  
 (12) **THE WITNESS I was just about ready to run off here**  
 (13) **THE COURT Don't do that yet**  
 (14) **DIRECT EXAMINATION OF WILLIAM SHEEHY**  
 (15) **BY MR SANDERS**  
 (16) **Q Good morning Captain Sheehy**  
 (17) **A Good morning counselor**  
 (18) **Q Let me start if I may with the summer of 1985 You were**  
 (19) **transferred and I'll lead a little here with the Court's and**  
 (20) **counsel's indulgence**  
 (21) **You were transferred from being a ship captain with Exxon**  
 (22) **Shipping Company to a port captain in the summer of 1985?**  
 (23) **A Correct**  
 (24) **Q You took over for Captain Mark Pierce who had been the port**  
 (25) **captain before that?**  
 (26) **A That's correct**

Vol 16 2507

- (1) **Q What was your ship before that?**  
 (2) **A My ship was --**  
 (3) **Q Or ships?**  
 (4) **A My most immediate prior ship was the Exxon Lexington**  
 (5) **Q Was the assignment to the port captain's job considered a**  
 (6) **good thing by you or a bad thing by you or was it a mixed**  
 (7) **bag?**  
 (8) **A Really the job was a mixed bag The -- it was not an**  
 (9) **increase in my level within the company You did have to**  
 (10) **uproot your family and move them somewhere temporarily**  
 (11) **for a**  
 (12) **couple years but yet it was a change It was something**  
 (13) **different so I think it would depend on the individual how it**  
 (14) **suted his particular stage in life whether it was a plus or a**  
 (15) **minus**  
 (16) **Q You considered it a plus didn't you?**  
 (17) **A Yes**  
 (18) **Q At the time?**  
 (19) **A At the time**  
 (20) **Q All right Now when you took over that job there was**  
 (21) **some transition period in which you spoke with Captain Pierce**  
 (22) **about the job and the people that you would be liaison with and**  
 (23) **what your responsibilities would be is that right?**  
 (24) **A Yes**  
 (25) **Q And at the time you were -- was there one port captain for**  
 (26) **the gulf coast?**

Vol 16 2508

- (1) **A At that time there was just one port captain and I**  
 (2) **believe that lasted for a year maybe a little longer**  
 (3) **Q All right And when that stopped what was the change?**  
 (4) **A When -- when that stopped we actually got another port**  
 (5) **captain and another port engineer and divided up the ships**  
 (6) **that**  
 (7) **we had so one person didn't have all of the ships that**  
 (8) **responsibility**  
 (9) **Q Did this other group the port engineer and the port**  
 (10) **captain go to the west coast fleet is that what happened or**  
 (11) **did you divide up a fleet that was in the gulf coast?**  
 (12) **A Well at that time we had about 12 ships in the gulf coast**  
 (13) **and only about half as many on the west coast, so -- so there**  
 (14) **were two of each in Baytown and one of each on the west**  
 (15) **coast,**  
 (16) **which would have been in the west coast fleet**  
 (17) **Q I'm not doing a very good job of drawing the distinctions**  
 (18) **here When you first started in the gulf coast there was a**  
 (19) **west coast fleet office?**  
 (20) **A Yes**  
 (21) **Q With a port captain and a port engineer?**  
 (22) **A Yes**  
 (23) **Q And then the gulf coast had a port captain and port**  
 (24) **engineer?**  
 (25) **A Correct**  
 (26) **Q And then a year or so later you divided that gulf coast**  
 (27) **port captain's job and created another section the river fleet**

Vol 16 2509

- (1) or something like that? What was it called?
- (2) **A Well, the river fleet was a different section No**
- (3) **actually it was because we had twice as many ships on the gulf**
- (4) **coast as we did on the west coast the decision was made to add**
- (5) **a port captain and port engineer just for the ocean going**
- (6) **ships So myself and the port engineer were - prior to that**
- (7) **change, we'd each had a dozen ships, now we only had six**
- (8) **but**
- (9) **we didn't add any Still the inland and the river fleet was a**
- (10) **separate -**
- (11) **Q Okay I don't know whether I clarified it or not**
- (12) **A I'm not sure if you did either**
- (13) **Q Captain when you - when you were in the office on a**
- (14) **summer day in August in Baytown Texas you mentioned that**
- (15) **you**
- (16) **had this conversation with John Tompkins?**
- (17) **A Correct**
- (18) **Q And he was what?**
- (19) **A At that time, John Tompkins was my boss and also the**
- (20) **immediate supervisor of the captains on the ships He was the**
- (21) **gulf coast fleet manager**
- (22) **Q He was the fleet manager there?**
- (23) **A Yes**
- (24) **Q And you had a brief conversation with him about meeting,**
- (25) **with Captain Hazelwood?**
- (26) **A Yes my - my understanding when we separated that**
- (27) **conversation was basically what Mr Tompkins told me was**
- (28) **that**

Vol 16 2510

- (1) **Captain Hazelwood was rejoining the fleet he's going to be**
- (2) **joining the Yorktown the next day that he was going to try to**
- (3) **talk to Captain Hazelwood and he had every intention of**
- (4) **talking**
- (5) **to Captain Hazelwood but he would either like me to go**
- (6) **along or**
- (7) **be a back up in case he didn't make it We were both going**
- (8) **up**
- (9) **to the Woodlands (pb) and that was the way we left it was**
- (10) **that I would meet with Captain Hazelwood at the Windham**
- (11) **Hotel**
- (12) **Q All right Before - that was the day you were going to**
- (13) **meet with him you and Mr Tompkins or just Mr Tompkins**
- (14) **correct?**
- (15) **A Correct**
- (16) **Q But during that day you made that call to Captain Pierce**
- (17) **correct?**
- (18) **A Immediately after the discussion with Mr Tompkins yes**
- (19) **Q And based on your call with Captain Pierce what did you**
- (20) **know about Captain Hazelwood and what did you know your**
- (21) **responsibilities were going to be if any?**
- (22) **A Well based on that conversation and here again I did**
- (23) **talk to Captain Pierce when I relieved him a little bit about**
- (24) **the situation with the masters but after that conversation I**
- (25) **became aware of the fact that Captain Hazelwood had been**
- (26) **to**
- (27) **some sort of alcohol rehabilitation program so in effect**
- (28) **Captain Pierce was informing me of another issue on my**
- (29) **plate**
- (30) **that I should be aware of and I should take responsibility for**
- (31) **watching this potential issue or whatever so - so Captain**

Vol 16 2511

- (1) **Pierce basically told me in a little bit more detail where**
- (2) **Captain Hazelwood had been**
- (3) **Q Did you believe it was your responsibility to watch Captain**
- (4) **Hazelwood in regard to the alcohol issue?**
- (5) **A Yes**
- (6) **Q Did you do that?**
- (7) **A Yes**
- (8) **Q All right Now let's find out what you were looking for**
- (9) **What did you believe right or wrong was the disease or the**
- (10) **condition that Captain Hazelwood had based on this brief**
- (11) **conversation with Captain Pierce?**
- (12) **A Based on this conversation with Captain Pierce I - I**
- (13) **believed that Captain Hazelwood was just, I guess, the**
- (14) **classic**
- (15) **alcoholic in that he had to abstain from drinking**
- (16) **Q All right That was the assumption that you made about**
- (17) **Captain Hazelwood?**
- (18) **A Right, based on what I had got from Captain Pierce, yes**
- (19) **Q All right Did you have any assumption about what would**
- (20) **happen in the event that Captain Hazelwood started to drink?**
- (21) **A Well, here again, we had - we had some training on that,**
- (22) **but basically, I felt that Captain Hazelwood had to be**
- (23) **abstinent**
- (24) **Q All right But I'm asking you -**
- (25) **A In other words I felt that perhaps if he started drinking**
- (26) **at all that it might become uncontrolled**

Vol 16 2512

- (1) **Q All right now and what was your - as port captain now**
- (2) **what was your thought about that situation?**
- (3) **A Well my thought about that was that it could cause a lot**
- (4) **of problems for me that - you know as far as my**
- (5) **management**
- (6) **of the operations of the vessel I had to make sure that they**
- (7) **operated safely and efficiently, and that I didn't want**
- (8) **anything to interfere with that**
- (9) **Q All right So what you were looking for was any sign of**
- (10) **drinking by Captain Hazelwood?**
- (11) **A Yes**
- (12) **Q And did you do that?**
- (13) **A As much as I looked in those years there was only one**
- (14) **incident and that was -**
- (15) **Q Well now wait a minute Stay with me here Did you do**
- (16) **that? Did you do that job?**
- (17) **A I believe so yes**
- (18) **Q At least you did to the best of your ability?**
- (19) **A Yes**
- (20) **Q And did you do it throughout the time that Captain**
- (21) **Hazelwood sailed as a captain in the gulf coast fleet for Exxon**
- (22) **Shipping Company?**
- (23) **A Right from 1985 through 1980 - middle of '87**
- (24) **Q All right Now after you talked to Captain Pierce is**
- (25) **that when you went to meet with Captain Hazelwood?**
- (26) **A I talked to Captain Pierce pretty early in the morning,**

Vol 16 2513

(1) maybe 8 00 in the morning even 7 30 then I left to go to the  
 (2) meeting and it was early evening before I talked to Captain  
 (3) Hazelwood  
 (4) Q Okay But it is that day that you went out there?  
 (5) A Same day yes just later on the same day  
 (6) Q Now my friend Mr O Neill has said in his opening  
 (7) statement that the first meeting he has with the representative  
 (8) of Exxon Shipping Company is where? It is in a bar The first  
 (9) meeting he has on return from his disability leave is in a  
 (10) bar Let me ask you I have a couple pictures here  
 (11) Start with this one Your Honor this is Defendants  
 (12) Exhibit 9127  
 (13) Captain Sheehy do you recognize what is portrayed in  
 (14) Defendants 9127?  
 (15) A Yes that's the lobby of the Windham Hotel  
 (16) Q Is that the lobby where you met Captain Hazelwood?  
 (17) A I believe so Yes  
 (18) Q With the Court's permission would you come down here and  
 (19) point to various things on here so you can show the Ladies and  
 (20) Gentlemen of the Jury where you had this meeting?  
 (21) MR SANDERS Is that all right Your Honor? Give you  
 (22) my handy dandy pointer  
 (23) BY MR SANDERS  
 (24) Q Would you first point out where the front entrance is?  
 (25) A Oh kind of right in between these two pillars here As

Vol 16 2514

(1) you can see it sort of goes on out of the picture but this is  
 (2) the main entrance right in here and when I came in that  
 (3) evening -  
 (4) Q Wait just a minute Let me get you to tell a few more  
 (5) things Above that on the picture as we're looking at it  
 (6) where is the registration desk?  
 (7) A All in here is the registration  
 (8) Q All right And you've pointed out the front entrance  
 (9) Would you point out please sir where was Captain Hazelwood  
 (10) standing when you first came in? Did you meet him there in the  
 (11) lobby?  
 (12) A Yes  
 (13) Q Where was he standing?  
 (14) A I believe when I came in through these doors here where I  
 (15) first saw him was right in here And as soon as I scanned the  
 (16) lobby I saw him standing right here  
 (17) Q Okay And where did you go and sit down and talk with  
 (18) Captain Hazelwood?  
 (19) A Well we may have talked a minute or two standing right  
 (20) there and then he just walked right around the corner and sat  
 (21) down right here  
 (22) Q There?  
 (23) A At that table Actually, where the people are here at that  
 (24) table I can't remember which of us were in which seats but  
 (25) it was at that table It was actually the closest table to

Vol 16 2515

(1) where we were standing  
 (2) Q There's something kind of yellowish or goldish there Is  
 (3) that a railing?  
 (4) A This thing here? Yeah it's a brass railing  
 (5) Q Are there stairs there?  
 (6) A Yes  
 (7) Q And is that where you sat with Captain Hazelwood?  
 (8) A Yes  
 (9) Q And that's where you met him?  
 (10) A Yes  
 (11) MR SANDERS Move the admission of this exhibit Your  
 (12) Honor  
 (13) (Exhibit 9127 offered)  
 (14) MR O NEILL No objection  
 (15) THE COURT Defendants Exhibit 9127 is admitted  
 (16) (Exhibit 9127 received)  
 (17) MR SANDERS Just a couple more questions Your Honor  
 (18) and it will be break time if that's all right  
 (19) THE COURT Sure  
 (20) BY MR SANDERS  
 (21) Q Captain Sheehy in fact also when you got there did you  
 (22) understand - well did you understand whether or not Captain  
 (23) Hazelwood had met with Mr Tompkins already?  
 (24) A I understood that Captain Hazelwood had met with  
 (25) Mr Tompkins just as Mr Tompkins had told me he would

Vol 16 2516

(1) probably do  
 (2) Q Who told you that?  
 (3) A Captain Hazelwood did  
 (4) Q Did he tell you where he met him?  
 (5) A I don't think he told me that no  
 (6) MR SANDERS Your Honor this is a good time for a  
 (7) break  
 (8) THE COURT We'll take our second recess ladies and  
 (9) gentlemen  
 (10) We'll reconvene in 15 minutes please  
 (11) THE CLERK Court is in recess for 15 minutes  
 (12) (Jury out at 12 00 p m )  
 (13) (Jury in at 12 16 p m )  
 (14) THE COURT Mr Sanders  
 (15) MR SANDERS May I proceed Your Honor?  
 (16) BY MR SANDERS  
 (17) Q Captain Sheehy before we leave this subject do you  
 (18) recognize this picture which is Defendants Exhibit 9126 as a  
 (19) closer up view of the area we were talking about in your  
 (20) testimony?  
 (21) A I think so yes  
 (22) Q All right Now this area right here this is a place  
 (23) where one could order a drink correct?  
 (24) A Yes  
 (25) Q And has a piano there?

Vol 16 2517

- (1) A Well actually a waitress goes up there so you don't  
 (2) really go up there but -  
 (3) Q Okay But alcoholic beverages and other beverages are  
 (4) obtainable right here?  
 (5) A Yes  
 (6) MR SANDERS I move the admission of Defendants  
 (7) Exhibit 9126  
 (8) (Exhibit 9126 offered)  
 (9) MR O NEILL I wish I would have moved its  
 (10) admission No objection  
 (11) THE COURT Defendants 9126 is admitted  
 (12) (Exhibit 9126 received)  
 (13) BY MR SANDERS  
 (14) Q Now Captain Sheehy when you met with Captain Hazelwood  
 (15) there seated in the lobby of the hotel did you ask him if he  
 (16) was drinking or not?  
 (17) A I believe the way it came up was Captain Hazelwood  
 (18) volunteered that to me I didn't ask him Matter of fact  
 (19) we - he may have ordered a coke or a seltzer water or  
 (20) something, and that may have precipitated him telling me  
 (21) that  
 (22) I can't recall for sure  
 (23) Q Now between the time that you had this meeting with the  
 (24) captain - well let s put it in perspective Let me strike  
 (25) that and go back  
 (26) Is it your understanding that after these meetings that he

Vol 16 2518

- (1) had with you and Mr Tompkins that he was then going to get on  
 (2) his ship at some other port?  
 (3) A I believe he was going to Tampa the next day  
 (4) Q All right And do you know how long it was from the time  
 (5) you had this meeting to the time you had this conversation  
 (6) about which you've testified with Mr Jim Shaw?  
 (7) A I would say it was probably a year at least  
 (8) Q Okay How good is your recollection on that? Is that an  
 (9) estimate?  
 (10) A That's purely an estimate  
 (11) Q You don't know the date or the time?  
 (12) A No  
 (13) Q And of course you didn't write this down?  
 (14) A No  
 (15) Q All right Let me go into that business just a tiny bit  
 (16) because it's already been covered but you had this  
 (17) conversation with Mr Shaw?  
 (18) A Yes  
 (19) Q And he was very cryptic correct?  
 (20) A Correct  
 (21) Q All right When you got into it and pressed him what was  
 (22) your concern?  
 (23) A My concern first of all was that if in fact what he was  
 (24) saying was true my concern was that - that Joe may have  
 (25) fallen off the wagon or may - may have started drinking  
 again

Vol 16 2519

- (1) so my concern was how that would affect the operation of  
 the  
 (2) vessel  
 (3) Q All right Did you think you had any duty or obligation to  
 (4) do something about that?  
 (5) A Well, yeah, obviously I did because I did And I felt  
 (6) that that was squarely within my job responsibilities to  
 (7) investigate that  
 (8) Q All right And did you investigate it?  
 (9) A Yes  
 (10) Q All right And as part of this investigation you called  
 (11) Captain Pierce and Captain Mihajlovic?  
 (12) A Yes  
 (13) Q Now let me ask you Mr O Neill asked you a question about  
 (14) calling Captain Mihajlovic and knowing that he was a friend of  
 (15) Captain Hazelwood's and that it entered your mind that he  
 (16) would  
 (17) tip - he might tip Captain Hazelwood off Is that why you  
 (18) called Captain Mihajlovic so he would tip off Captain  
 (19) Hazelwood?  
 (20) A No, that's not it at all The reason I called Captain  
 (21) Mihajlovic was because I, too, know Mihajlovic very well  
 Like  
 (22) I say, I went to school with him I felt that Captain  
 (23) Mihajlovic would tell me the truth Part of it was on a  
 (24) personal level and I felt that on that personal level Captain  
 (25) Mihajlovic would not do anything that would jeopardize a  
 ship  
 (26) or jeopardize any of the operations and I felt like Captain

Vol 16 2520

- (1) Mihajlovic would - would level with me  
 (2) Q All right What did he tell you specifically as best you  
 (3) can recall?  
 (4) A He told me that he was good friends with Joe, spent a lot  
 (5) of time with him at home and that he was definitely not  
 (6) drinking and that - that there was no question in his mind  
 (7) that he was in some sort of aftercare or that he was still  
 (8) dry  
 (9) Q All right Now we'll get to Captain Mihajlovic again in a  
 (10) minute After talking with Captain Mihajlovic and Captain  
 (11) Pierce you've testified that you went to Baton Rouge?  
 (12) A Yes  
 (13) Q Why did you go to Baton Rouge?  
 (14) A I went to Baton Rouge because the vessel was on that  
 (15) run  
 (16) it went down to Chiriqui Grande and back and I knew that  
 (17) would  
 (18) be the next U S port that it would be in I went there  
 (19) because of what I heard and I wanted to ask Captain  
 (20) Hazelwood  
 (21) about these allegations and make him -  
 (22) Q All right Now -  
 (23) A - make him aware that these had been presented to me  
 (24) Q When you met with Captain Hazelwood did you ask him if he  
 (25) had been drinking or if these allegations from Shaw were true?  
 (26) A I told Captain Hazelwood what the allegations were, just  
 as  
 (27) Mr Shaw had told me and Captain Hazelwood said that -  
 (28) that  
 (29) basically it was all fabricated, it was not true

Vol 16 2521

- (1) Q What did he say? Don't tell us basically. If you can call  
(2) any specifics.
- (3) A I can't really recall what he said, but I know I was very  
(4) comfortable with the fact that he was telling me the truth  
(5) and  
(6) that what Jim Shaw had told me was basically not true. I felt  
(7) comfortable with that as I left the vessel some six or seven  
(8) hours later.
- (9) Q Did you spend six or seven hours on the vessel?  
(10) A Yes.
- (11) Q And you've already testified as to what you didn't ask  
(12) What was the purpose of staying on the vessel for six or seven  
(13) hours?  
(14) A Well, I probably talked to the chief engineer, chief mate  
(15) Probably ate lunch on the ship. Probably talked to some of  
(16) the  
(17) unlicensed crew members. I can't recall specifically what  
(18) any  
(19) of the issues were, but I probably saw most of the people on  
(20) the ship during that time.
- (21) Q Captain Sheehy, is it realistic, your view in 1985 or '86  
(22) whenever this happened, is it realistic or was it realistic in  
(23) your view to expect that if there had been a drinking problem  
(24) with Captain Hazelwood on board that ship that somebody on  
(25) board the ship would have told you?
- (1) A I think that rumors like that always fly pretty fast, yes.
- (2) Q All right. Now you came back after this and I believe you  
(3) testified you met with Mr. Dwight Koops?

Vol 16 2522

- (1) A Yes.
- (2) Q Let me ask you first, before you get into that, Mr. Koops  
(3) was at that time the Gulf Coast fleet manager, he had by that  
(4) time taken over Mr. Tompkins' job?  
(5) A Yes.
- (6) Q Matter of fact, he had stepped in about a month after you  
(7) got in as port captain? Two months?  
(8) A Little longer than that, yeah, couple months.
- (9) Q Did you tell Mr. Koops what you were investigating, and what  
(10) your conclusion was?  
(11) A Yes, I pretty much discussed everything with him. I  
(12) believe that Jim Shaw came in and sat in with us when I had  
(13) that discussion with Koops. I can't remember for sure, but I  
(14) think that Jim Shaw came in, too, and added whatever he  
(15) felt  
(16) appropriate.
- (17) Q What was that?  
(18) A He basically, when we got done, he said that he was  
(19) comfortable with what - you know, what we had done.
- (20) Q All right. Did you later hear on this issue? Did you  
(21) later hear again from Captain Mihajlovic?  
(22) A Yes, somewhere along the way, and I can't remember  
(23) exactly  
(24) what point in time it was, if it might have been before I went  
(25) over to Baton Rouge - as a matter of fact, I think it was  
(1) captain -
- (2) Q But it was after the Shaw - after you called Mihajlovic?

Vol 16 2523

- (1) A After the Shaw report, after I called Mihajlovic, but I  
(2) think prior to me going over to the vessel, Captain  
(3) Mihajlovic  
(4) called me back and I believe that Captain Mihajlovic was on  
(5) the  
(6) Exxon San Francisco at the time, and that they were  
(7) anchored  
(8) together when they left the dock in Baton Rouge and they  
(9) went  
(10) down, they were both anchored in Chiriqui Grande, waiting  
(11) to - --
- (12) Q Excuse me just a minute. Could you tell the ladies and  
(13) gentlemen of the jury what Chiriqui Grande is?  
(14) A That's the port they loaded down in Panama. It's about a  
(15) five day trip, five and a half day trip, and the ships wait in  
(16) this lagoon to go and load from a pipeline down there.
- (17) Q Sorry for the interruption. They were together there near  
(18) the lagoon in Panama. Go ahead.  
(19) A They were probably - might have been within a half a mile  
(20) of each other, actually. But Captain Mihajlovic told me he  
(21) went over to Captain Hazelwood's ship and searched  
(22) through his  
(23) room and that he felt that everything he had told me over  
(24) the  
(25) phone still held and that there was - that he found no  
(1) alcohol  
(2) in Captain Hazelwood's room.
- (3) Q All right. Did you pass that along, that information  
(4) along?  
(5) A Yes. Mr. Koops and I discussed every aspect of all this.
- (6) Q All right. Now, and I believe you've testified and made it  
(7) clear, but let me ask you so that it is clear. After this time  
(8) that you got this report and did this investigation, did you

Vol 16 2524

- (1) receive any report concerning Captain Hazelwood drinking?  
(2) A I did not ever receive any more reports about Captain  
(3) Hazelwood.
- (4) Q Did you receive any sort of an indication or a sign that  
(5) Captain Hazelwood was drinking? -  
(6) A No.
- (7) Q - while on the Gulf Coast?  
(8) A No. As a matter of fact, it was just the contrary.
- (9) Q All right. What do you mean by that?  
(10) A I felt that Captain Hazelwood did an above average job in  
(11) the professional and technical aspects of being a ship  
(12) master.  
(13) You know, over the years, he had - he maybe had some  
(14) problems  
(15) with being too outspoken with management or perhaps  
(16) being  
(17) critical of some of the policies or something like that, but he  
(18) was always, as far as the professional and technical  
(19) aspects of  
(20) running a ship, I felt that he was above average - matter of  
(21) fact, considerably above average and that was always what  
(22) my  
(23) input was in the rating process, and Mr. Koops and I  
(24) discussed  
(25) that before when we did the ratings, and it was - it was told  
(1) to me that most of management recognized Joe's  
(2) professional  
(3) ability but - but he needed to polish his image a little bit  
(4) so to speak.
- (5) Q And that image was his corporate image?  
(6) A Or lack of.
- (7) Q Right. And is that your understanding of why he was ranked

Vol 16 2525

(1) 35th out of 37 in 1986?  
 (2) A Yeah I - I didn't really recall that till I saw this  
 (3) sheet they gave me here but I knew it was down there  
 (4) somewhere '86 and then it went up - well by '88 quite a  
 (5) bit, but yes, that was - that was my understanding  
 (6) Q As a matter of fact Captain Sheehy did you recommend in  
 (7) your suggested ranking that he be ranked higher than that in  
 (8) 1986?  
 (9) A The - my recollection of when Mr Koops asked me to  
 (10) rank  
 (11) the masters he asked me to give him a penciled list of the -  
 (12) in that year, I think there were 29 and I gave him that list  
 (13) and he says well, we're going to the ranking session where  
 (14) he  
 (15) would typically meet with the other managers at his level  
 (16) and  
 (17) also the president, Mr Larossi, and that he would take my  
 (18) list  
 (19) into consideration, and that they would have to work out a  
 (20) seriatim that was agreeable to all parties there  
 (21) A few days passed, four or five, maybe, and Mr Koops then  
 (22) came back to me with my penciled list and told me that it  
 (23) was  
 (24) exactly as I had given to him other than that he had taken  
 (25) Captain Hazelwood's name he had a circle around it and it  
 (26) was  
 (27) put from maybe the - oh the top 25 percent or top 30<sup>pc</sup>  
 (28) percent  
 (29) down to - I can't remember how far down there and he said  
 (30) that where I had him would not fly with the other managers  
 (31) Q You had ranked him without regard to his perception by  
 (32) other managers right?

Vol 16 2526

(1) A I suppose that would be fair to say  
 (2) Q Now Captain did you try to put some sort of white wash on  
 (3) this report that you got from Jim Shaw in your investigation of  
 (4) it?  
 (5) A White wash?  
 (6) Q Yeah Sweep it under the rug?  
 (7) A No I - initially I felt because of my personal knowledge  
 (8) with Jim both in the office and on the ships that you know  
 (9) he  
 (10) was prone to grossly exaggerating things, whether it be  
 (11) operationally on a vessel or personal matters that once he  
 (12) had  
 (13) given me enough information about what he was trying to  
 (14) do and  
 (15) that did take some coaxing I said well Jim let me take the  
 (16) lead on this issue I'll investigate it as I see fit and I  
 (17) don't really think that - that you should be involved with it  
 (18) anymore because this is a touchy and a confidential matter  
 (19) and  
 (20) that I certainly didn't want Captain Hazelwood's authority  
 (21) undermined by these rumors being spread further by  
 (22) somebody in  
 (23) the office without investigation  
 (24) But I never - I actually encouraged Jim to tell me all he  
 (25) knew about it and I never discouraged him from going  
 (26) directly  
 (27) to Mr Koops but I told him he shouldn't be telling the  
 (28) secretaries or ever listen to them in the hall  
 (29) Q Why did you not ask questions of Captain Hazelwood during  
 (30) the period of - from 1985 summer of '85 to late spring or  
 (31) summer of 1987 why didn't you go up and ask him about  
 (32) whether

Vol 16 2527

(1) he was drinking?  
 (2) A Well the knowledge that I had of Captain Hazelwood's  
 (3) rehabilitation was that - that number one that he self  
 (4) identified and it was voluntary, that there were no  
 (5) performance  
 (6) problems that dictated he go to it so it was strictly  
 (7) voluntary And number two that it was - like any other  
 (8) medical records that it should have been confidential, that  
 (9) situation  
 (10) Q Let me stop you there for a second Did you know what his  
 (11) diagnosis was in fact?  
 (12) A In fact, I did not know what his diagnosis was I had an  
 (13) idea I made an assumption When Captain Pierce told me  
 (14) he  
 (15) had been in alcohol rehab, I assumed that he was  
 (16) diagnosed as  
 (17) an alcoholic  
 (18) So you know, getting back to your question, I felt that  
 (19) because Captain Hazelwood had self identified before and  
 (20) it was  
 (21) a confidential matter, that the operation of the ship would  
 (22) best be served by me doing my job of watching for  
 (23) operational  
 (24) problems or operational concerns or anything that would  
 (25) affect  
 (26) or compromise that but I saw no need to breach this  
 (27) confidentiality, to query Captain Hazelwood about  
 (28) something  
 (29) that could have been a touchy matter that should have been  
 (30) reserved for fewer high level people and physicians I saw -  
 (31) there were no incidents that would have prompted me to  
 (32) launch  
 (33) into anything like that other than Mr Shaw's incident

Vol 16 2528

(1) Q All right And when Mr O Neill asked you did you do  
 (2) anything any different other than the Shaw investigation, was  
 (3) there ever a time when you were called upon to do anything?  
 (4) A No There - I never had any reason to do anything  
 (5) different with Captain Hazelwood I believe that in my mind  
 (6) I  
 (7) was aware of his situation  
 (8) Q Did you watch him?  
 (9) A Yes I had that awareness in my mind I tried my best to  
 (10) visit him as much as I could I think it might have been a  
 (11) little bit more than other ships I'm not sure I couldn't  
 (12) say that specifically, but I think it might have been a little  
 (13) bit more I had seen Captain Hazelwood on quite a number  
 (14) of  
 (15) occasions both on the ships and in other functions  
 (16) I know one time I drove him to the airport from Texas  
 (17) City All this time I never saw any signs of - of any  
 (18) recidivism  
 (19) Q All right I have - I have one other little area of  
 (20) questions and then I'm through  
 (21) When Captain Hazelwood was transferred to the - to the  
 (22) Exxon Valdez let me just ask you straight out did you want to  
 (23) get rid of him?  
 (24) A No I - and to me I had no desire to move Captain  
 (25) Hazelwood The issue of transferring him was - was  
 (26) initiated  
 (27) by Captain Martineau He called and told me that Captain  
 (28) Deppe  
 (29) was coming into the office I believe from the Exxon Valdez

Vol 16 2529

- (1) **and that he needed somebody that would be qualified for that**
- (2) **ship or that would fit in well and Captain Hazelwood had you**
- (3) **know experience on the North Slope with his big ship Prince**
- (4) **William Sound pilotage lot of experience running in the heavy**
- (5) **Gulf of Alaska weather so it was a very natural thing for**
- (6) **Captain Hazelwood to go to the Exxon Valdez Matter of fact**
- (7) **Captain Martneau really wanted him**
- (8) **Q All right Now when you - when you - excuse me when**
- (9) **Captain Hazelwood was in fact transferred to the Exxon Valdez**
- (10) **in 1987 under whose jurisdiction did he come as far as fleet**
- (11) **offices port captains et cetera?**
- (12) **A Well typically with the captains myself and Martneau**
- (13) **would work the details of the assignments but they would be**
- (14) **fully discussed and it would be under the auspices of the fleet**
- (15) **manager**
- (16) **Q I m sorry let me interrupt you because that s not the**
- (17) **question I intended to ask**
- (18) **As far as watching Captain Hazelwood or as people have used**
- (19) **the word monitoring under whose jurisdiction would Captain**
- (20) **Hazelwood come when he transferred to the Exxon Valdez?**
- (21) **A When he was transferred to the Exxon Valdez he would have**
- (22) **come under Harvey Borgen's jurisdiction**
- (23) **Q And where was Harvey Borgen?**
- (24) **A Harvey Borgen was the west coast fleet manager**
- (25) **Q That was in Benecia?**

Vol 16 2530

- (1) **A Benecia**
- (2) **Q And when that occurred you were in the gulf coast in**
- (3) **Baytown Texas weren t you?**
- (4) **A Yes**
- (5) **Q You stayed in Baytown Texas from that time to the time**
- (6) **you went back to sea?**
- (7) **A Yes**
- (8) **Q And when you went back to sea was when?**
- (9) **A The winter of '88**
- (10) **Q And what ship did you sail on?**
- (11) **A The Exxon Baytown**
- (12) **Q All right Did you have any occasion or any opportunity to**
- (13) **ask or learn about any monitoring that was done after Captain**
- (14) **Hazelwood left you?**
- (15) **A After Captain Hazelwood left me, I really had no occasion**
- (16) **to learn of any monitoring I made the assumption that**
- (17) **Captain Martneau and Mr Borgen knew the issues**
- (18) **Q Why did you think - why did you make the assumption that**
- (19) **Captain Martneau knew?**
- (20) **A Well I made the assumption that Captain Martneau knew**
- (21) **because he asked me if Joe was drinking anymore**
- (22) **MR SANDERS Could I have just a moment Your Honor?**
- (23) **No further questions Your Honor**
- (24) **THE COURT Redirect Mr O Neill?**
- (25) **MR O NEILL Thank you Judge**

Vol 16 2531

- (1) **RE CROSS EXAMINATION OF WILLIAM SHEEHY**
- (2) **BY MR O NEILL**
- (3) **Q With regard to all of this talk about Captain Hazelwood**
- (4) **would it be fair to say that you re not aware of one piece of**
- (5) **paper in the entire world that reflects any monitoring of**
- (6) **Captain Hazelwood?**
- (7) **A Any monitoring regarding -**
- (8) **Q Alcohol?**
- (9) **A Alcohol? As far as the paperwork on that I would not have**
- (10) **the opportunity to see that I would not be privy to that**
- (11) **Q Well you would have had the opportunity to write up a memo**
- (12) **with regard to Mr Shaw and you didn t did you?**
- (13) **A I did not write a memo regarding the Shaw report no**
- (14) **Q Now you were - the chain of command was Frank Jarossi**
- (15) **the president then who was your boss?**
- (16) **A It changed a little bit from time to time**
- (17) **Q Let s talk about the day of the Shaw incident that Mr Shaw**
- (18) **comes in**
- (19) **A The day of the Shaw incident it went straight from Jarossi**
- (20) **to Koops to the ship masters and myself**
- (21) **Q And you?**
- (22) **A Yes**
- (23) **Q So you were three steps removed the day of the Shaw**
- (24) **incident from the top of the structure?**
- (25) **A Well really one step removed**

Vol 16 2532

- (1) **Q One step removed And you were on notice of the fact it**
- (2) **was your opinion that the man suffered from the disease of**
- (3) **alcoholism? At that point in time that was your opinion?**
- (4) **That s a correct statement isn t it?**
- (5) **A Oh I assume that he had been diagnosed as an alcoholic**
- (6) **because he had been to a rehabilitation program**
- (7) **Q And you knew that alcoholics could cause a lot of problems**
- (8) **for you? You testified to that a couple minutes ago?**
- (9) **A I knew that an alcoholic could cause a problem if he**
- (10) **resumed drinking yes**
- (11) **Q That he could cause a problem for the vessel that he was in**
- (12) **charge of?**
- (13) **A He could, yes**
- (14) **Q And the environment surrounding the vessel?**
- (15) **A Whatever associated with it, yes**
- (16) **Q Now let s talk for a minute about - is this the picture**
- (17) **of the joint? I never -**
- (18) **MR SANDERS Now it s a joint?**
- (19) **MR O NEILL I have a real good question about it I**
- (20) **want to ask - I don t like it when people take potshots at**
- (21) **me**
- (22) **BY MR O NEILL**
- (23) **Q Is this area right here like - you see what I m pointing**
- (24) **to? Is this like where you pick up your macaroni and cheese?**
- (25) **It isn t is it?**

Vol 16 2533

- (1) A That's a waitress station there  
 (2) Q It's a bar isn't it?  
 (3) A Yeah  
 (4) Q And there is a cocktail lounge isn't it?  
 (5) A I don't know The people conduct all kinds OF business in  
 (6) that area  
 (7) Q I understand that and you did too and you had a beer  
 (8) when you were conducting business with Captain Hazelwood  
 (9) didn't you?  
 (10) A I don't believe I had a beer  
 (11) Q So he's wrong and you're right?  
 (12) A Yes  
 (13) Q And you - right here is where you sat where these people  
 (14) are sitting?  
 (15) A Yes  
 (16) Q Right next to this bar?  
 (17) A Yes  
 (18) Q And you were careful when you referred to the waitress as a  
 (19) waitress When I go to a place like this I refer to her as a  
 (20) cocktail waitress Have you ever heard that expression?  
 (21) A Jeez I don't know I might have  
 (22) Q You knew did you not sir when you sat down right next to  
 (23) this bar right here with Captain Hazelwood that he had just  
 (24) come out of alcohol rehabilitation didn't you?  
 (25) A Yes

Vol 16 2534

- (1) Q Would you agree with me that that is a relatively  
 (2) insensitive thing for you to do?  
 (3) A Not at all Not at all  
 (4) Q Okay That's fine  
 (5) A You have to remember Captain Hazelwood was being  
 (6) assigned  
 (7) as master of a merchant vessel the next day I would have  
 (8) had  
 (9) a lot of alarm if he would become skittish over sitting in a  
 (10) bar He was going to take command of the vessel be on his  
 (11) own At that point he - I felt that if he had any problem  
 (12) with that it might just as well come out in the open now I  
 (13) don't think he did  
 (14) Q So your approach to sensitivity with regard to this man who  
 (15) had just gotten out of an alcohol rehabilitation program was to  
 (16) bring him into a bar and test him?  
 (17) A I didn't bring him into the bar  
 (18) Q Could have met him in a conference room or hotel room?  
 (19) A Well I could have but the fact of the matter was as soon  
 (20) as I talked to Captain Hazelwood he informed me that the  
 (21) meeting was not necessary because John Tompkins had  
 (22) already  
 (23) covered the - the subject matter that he wanted to cover  
 (24) with  
 (25) him and that we had no reason to meet  
 (26) Q Okay I have a little problem with that because Captain  
 (27) Hazelwood when he testified here under oath testified that he  
 (28) met with you first and with Tompkins second Now who's  
 (29) right? Or is anybody right?

Vol 16 2535

- (1) A Well one of us has to be right  
 (2) Q That's right Now you talk about this being confidential  
 (3) and when I was talking with you we - we ran over a list of  
 (4) names who knew about it Pierce Koops and Martineau and  
 (5) you  
 (6) and then in listening to your testimony and response to the  
 (7) Exxon lawyers we add Mihajlovic to that he knows about it  
 (8) right?  
 (9) A He probably knew about it more on a human or personal  
 (10) sense  
 (11) because they were neighbors  
 (12) Q You knew about it on a professional basis?  
 (13) A I knew about it more on a personal basis because I was  
 (14) friends with Captain Pierce  
 (15) Q And the other person who had notice of this that you know  
 (16) about it - now I've got it up to five we know that Jim Shaw  
 (17) had notice of it too don't we?  
 (18) A I don't think Jim Shaw had any real notice of it I think  
 (19) he was just speculating like he so often did  
 (20) Q Didn't Jim Shaw tell you that Joe had quote fallen off  
 (21) the wagon?  
 (22) A He may have said that but I don't think that he had any  
 (23) details regarding Captain Hazelwood's rehab or how the  
 (24) company  
 (25) had dealt with that  
 (26) Q And we talk about Andy Martineau you've now said that  
 (27) Andy  
 (28) Martineau - you assume that Andy Martineau's boss Borgen  
 (29) knew about it?

Vol 16 2536

- (1) A Yes  
 (2) Q So everybody we - have you Mihajlovic Koops Martineau  
 (3) Shaw Borgen all knew about this problem is that a correct  
 (4) statement?  
 (5) A They all knew about it at different levels I would say  
 (6) the level that Martineau and Shaw knew about it was purely  
 (7) based on rumor or sketchy information that they may have  
 (8) picked  
 (9) up at the water cooler or something I don't know  
 (10) Q You mentioned in response to the Exxon lawyer's questions  
 (11) that you had received some training by the company with  
 (12) regard  
 (13) to alcoholism?  
 (14) A Yes  
 (15) Q Did you see a movie?  
 (16) A No it was I think almost every year the senior officers  
 (17) took a - a day long course on identification of substance  
 (18) abuse alcohol abuse  
 (19) Q Yeah but did you ever see a movie on it?  
 (20) A I may have - a movie may have been part of one of those  
 (21) courses  
 (22) Q Do you recall what the name of the movie was?  
 (23) A Yes  
 (24) Q What is the name of the movie?  
 (25) A Everything Looks So Normal  
 (26) Q I'm sorry I didn't hear you  
 (27) A Everything Looks So Normal

Vol 16 2537

- (1) Q And you saw this movie Everything Looks So Normal and you
- (2) knew that alcoholics hide their drinking didn't you? At the
- (3) time you talked with Captain Hazelwood you knew that
- (4) alcoholics hide their problems didn't you?
- (5) A Some alcoholics do
- (6) Q And at the time you met with Captain Hazelwood knowing that alcoholics hide their problems and having seen the movie
- (7) Everything Looks So Normal you disregarded Mr Shaw who had
- (8) no reason to lie and you took Captain Hazelwood's version of the story?
- (9) A I didn't I didn't
- (10) MR SANDERS Object to that
- (11) THE WITNESS I didn't
- (12) THE COURT Mr Sheehy
- (13) MR SANDERS Object to that Mischaracterizes the testimony evidence and his testimony with regard to Mr Shaw
- (14) MR O NEILL I don't think it does
- (15) THE COURT I think it was pretty close to the line
- (16) Try the question again
- (17) BY MR O NEILL
- (18) Q At the time you met with Captain Hazelwood you'd seen the movie Everything Looks So Normal you knew that alcoholics
- (19) hide their problems you'd gotten a report from Mr Shaw about drinking that's all correct isn't it?
- (20) A That movie probably spent just as much time talking about

Vol 16 2538

- (1) alcoholics crying out for help as it did talking about alcoholics hiding it I don't think that - that alcoholics
- (2) hiding it was any more specific to Captain Hazelwood than - than the normal averages And that's not correct that I
- (3) ignored the Shaw report
- (4) Q At the end of your testimony I wrote down what you said but you said in response to your activities after the Shaw
- (5) report you said I never had any reason to do anything different with regard to Captain Hazelwood That was in
- (6) response to Mr Sanders questions
- (7) A I said that I never had any reasons to - for increased alarm or increased - I never saw any problems was what I
- (8) told
- (9) Mr Sanders I saw no -
- (10) Q I wrote it down says I never had any reason to do anything different with Captain Hazelwood?
- (11) A I think I said I didn't ever have any problems with Captain Hazelwood
- (12) Q And you were never told to monitor Captain Hazelwood weren't you - you were never told to monitor him?
- (13) MR SANDERS Objection This has been asked and answered
- (14) MR O NEILL He raised the question again I'm about done I'll -
- (15) THE COURT Once more and then we're through with it
- (16) MR O NEILL Well I can -

Vol 16 2539

- (1) THE WITNESS Well my testimony about being told to monitor was that I understood that to be a basic part of my
- (2) job I cannot recall specifically of discussing that with Mr Koops but I feel like he probably did tell me but I just
- (3) don't remember
- (4) BY MR O NEILL
- (5) Q You don't know?
- (6) A I don't recall him telling me that
- (7) Q And indeed as you sit here today you'd sort of like to have it both ways wouldn't you? You'd like to have it so that
- (8) you monitored him but you'd like to have it so that you didn't monitor him so he wouldn't be an alcoholic you'd like to have
- (9) it both ways?
- (10) MR SANDERS Objection
- (11) MR CHALOS Objection
- (12) THE WITNESS I don't understand that at all
- (13) MR O NEILL I have one more question
- (14) THE COURT I'll allow the question and the answer
- (15) BY MR O NEILL
- (16) Q Isn't that right?
- (17) A No that's not right
- (18) MR O NEILL Well I won't even ask anymore
- (19) questions
- (20) THE COURT Thank you Captain you may step down
- (21) Call your next witness

Vol 16 2540

- (1) MR O NEILL Plaintiffs call Paul Myers as an adverse witness
- (2) THE CLERK Would you raise your right hand sir
- (3) (The Witness Is Sworn)
- (4) THE CLERK Please be seated For the record sir state your full name your address and spell your last name
- (5) THE WITNESS My name is Paul Myers M Y E R S I live at 219 Roy Street in Houston Texas
- (6) DIRECT EXAMINATION OF PAUL MYERS (Live)
- (7) BY MR O NEILL
- (8) Q How are you sir?
- (9) A Fine Thank you
- (10) Q Tell us who you are if you would?
- (11) A My name is Paul Myers
- (12) Q And where do you work?
- (13) A I live - work for Sea River Maritime formerly Exxon Shipping Company
- (14) Q And when did you first go to work for any member of the Exxon family of companies?
- (15) A May 25th 1970
- (16) Q And from 1970 to today have you worked for one Exxon entity or another?
- (17) A Yes sir
- (18) Q Let's - to put it in context why you're here what was your job in 1987?

Vol 16 2541

- (1) A I finished up a job in San Diego California as  
 (2) superintendent engineer during the construction of the  
 Exxon  
 (3) Long Beach and Exxon Valdez And about mid year I was  
 (4) assigned to the west coast fleet office in Benecia  
 California,  
 (5) as port engineer  
 (6) Q Did you supervise the construction of the Exxon Valdez?  
 (7) A I was in charge of the inspection team  
 (8) Q And were there captains that were involved in the  
 (9) construction of - what is it - the Valdez and the Long  
 (10) Beach? Were there captains assigned to the construction of  
 (11) those vessels?  
 (12) A There came a period of time, about May 1986 when you  
 got to  
 (13) the point in construction where you were doing significant  
 (14) amount of operational testing At that point in time officers  
 (15) and some of them were captains were brought down to the  
 (16) shipyard number one, to get - to - I guess you'd call it  
 (17) on the-job training to familiarize themselves with the ship,  
 as  
 (18) well as to participate in the work intensive effort of  
 (19) operational testing  
 (20) Q When you finished working with regard to the building of  
 (21) these ships then you were assigned to where?  
 (22) A The west coast fleet office in Benecia California  
 (23) Q And you were the - the what?  
 (24) A Port engineer  
 (25) Q Port engineer?

Vol 16 2542

- (1) A Yes sir  
 (2) Q And then you eventually became ship group coordinator?  
 (3) A Yes sir  
 (4) Q And your boss was Harvey Bergen?  
 (5) A Yes, sir  
 (6) Q And Captain Hazelwood was the master of the Exxon Valdez  
 (7) when you became the ship group coordinator?  
 (8) A That is correct  
 (9) Q And you became Captain Hazelwood's supervisor did you  
 (10) not?  
 (11) A That is correct  
 (12) Q You kept notebooks with regard to your duties?  
 (13) A Yes sir  
 (14) Q Is that a correct statement? And at some point after the  
 (15) grounding of the Exxon Valdez you entrusted those notebooks  
 to  
 (16) your personal lawyer?  
 (17) A Yes sir  
 (18) Q And after some litigation the notebooks were produced in  
 (19) discovery that's a correct statement?  
 (20) A I believe it is  
 (21) Q And you had a notebook that you kept generally up to about  
 (22) the time of the grounding?  
 (23) A Yes sir  
 (24) Q And you had a second notebook that you essentially started  
 (25) at or about a day or two after the grounding?

Vol 16 2543

- (1) A Yes sir  
 (2) Q And immediately after the grounding you received a call  
 (3) from Captain Hazelwood?  
 (4) A No sir  
 (5) Q Okay What was the first - did you call Captain  
 (6) Hazelwood?  
 (7) A Yes, sir  
 (8) Q So you called Captain Hazelwood on the vessel and you  
 (9) talked to him?  
 (10) A Yes, sir  
 (11) Q And did you keep notes of that conversation?  
 (12) A Yes, sir  
 (13) Q And you kept the notes in your notebook?  
 (14) A Yes, sir  
 (15) Q And would it be fair to say and I've got it up on the  
 (16) monitor you've got a monitor there if you want to - can you  
 (17) see that?  
 (18) A Yes, sir  
 (19) Q That this is the copy of your notes of that telephone  
 (20) conversation?  
 (21) A That's correct  
 (22) Q And in taking these notes you tried to be accurate?  
 (23) A Is that a question or a statement?  
 (24) Q Yes sir it is  
 (25) A When I was on the telephone with Captain Hazelwood I  
 kept

Vol 16 2544

- (1) notes on a - what you might call these sticky things post it  
 (2) notes and by the time the conversation was over they were  
 all  
 (3) over the kitchen table  
 (4) Q So -  
 (5) A And this is transcribed from them not necessarily in the  
 (6) order that it was actually spoken  
 (7) Q But these subjects were discussed?  
 (8) A Yes  
 (9) Q And at least with regard to the entries for each of these  
 (10) subjects you tried to be accurate?  
 (11) A Yes sir  
 (12) Q And Captain Hazelwood reported to you - well you spoke to  
 (13) him personally?  
 (14) A Yes sir  
 (15) Q And let's just take a section of this if we can We'll do  
 (16) it in parts  
 (17) A Oh, now I can see it  
 (18) Q Just stick with me and I'll help you out a little bit It  
 (19) says here right here where the arrow is spoke to Joe  
 (20) Hazelwood do you see that?  
 (21) A Yes sir  
 (22) Q And he told you that he was hung up aground?  
 (23) A Yes sir  
 (24) Q On Bligh Reef?  
 (25) A Yes

Vol 16 2545

- (1) Q And it says here zig for ice third mate Joe just went  
(2) below do you see that?  
(3) A Yes  
(4) Q Is that what he told you?  
(5) A Yes sir  
(6) Q And says Joe just went below to do paperwork Is that what  
(7) he told you?  
(8) A That's correct  
(9) Q And Joe my fault I m the blame and then I can t read  
(10) that  
(11) A Neither can I  
(12) Q With regard to Joe my fault I m the blame is that what  
(13) Captain Hazelwood told you?  
(14) A Yes sir He indicated that he'd just gone down below to  
(15) do paperwork when this happened and my impression was  
(16) the third mate made an error and he said he should have been  
(17) on the  
(18) bridge  
(19) Q Thank you And there is a comment right here concerned  
(20) about stability?  
(21) A Yes sir  
(22) Q Is that a comment he made to you?  
(23) A Yes sir  
(24) Q And what is the should keep yap shut?  
(25) A At one point in time he indicated that he perhaps had  
(26) said  
(27) too much and perhaps needs a lawyer

Vol 16 2546

- (1) Q Okay And did he tell you that he thinks he can get it  
(2) off?  
(3) A That was really the last thing that was said and certainly  
(4) in retrospect that was a - from where I'm standing a  
(5) pleasant way of ending the conversation There was no -  
(6) that  
(7) was the last thing he said it was don't worry we'll get it  
(8) off it's not the end of the world type that was the last  
(9) thing he said before we hung up  
(10) Q Have you ever heard the expression you can t change the  
(11) written word?  
(12) A No I haven't  
(13) Q Your notes at least reflect the fact that he said thinks  
(14) he can get it off do you see that?  
(15) A Yes  
(16) Q And then he also said right below that after departure  
(17) programming up to full speed do you see that?  
(18) A Yes  
(19) Q Is that what he told you?  
(20) A I had asked how fast were you going and his response  
(21) were - was that we were programming up so I knew the ship  
(22) had  
(23) to be going more than 55 rpm  
(24) Q And you transcribed these notes at some later point to  
(25) start your second notebook?  
(26) A Yes sir  
(27) Q And with regard to your transcription the second time is

Vol 16 2547

- (1) it fair to say that the transcription of your notes the second  
(2) time is essentially - you had time to reflect and the entries  
(3) are essentially the same?  
(4) A With one exception I think I wrote down twice that  
(5) Captain  
(6) Hazelwood mentioned the - the third mate twice something  
(7) about I can't let the third mate take all this by himself I'm  
(8) partially to blame something to that effect  
(9) Q Doesn't say at least in your notes I m partially to blame  
(10) does he?  
(11) A No -  
(12) Q He says my fault I m the blame?  
(13) A Yeah there's another entry lower somewhere as well  
(14) Q Okay My fault  
(15) A My fault can't pin on - let s see can't pin on third  
(16) mate normal operation  
(17) Q Says my fault can t pin on third mate normal operation  
(18) should keep yap shut?  
(19) A Um hum  
(20) Q Okay And on both of those entries there is an indication  
(21) that he was - think he can get it off?  
(22) A Those were the words that I wrote down and I just  
(23) transcribed as I said  
(24) Q Now you talked to him over the phone?  
(25) A That's correct  
(26) Q And how did he sound?

Vol 16 2548

- (1) A Just as we're talking now  
(2) Q Okay  
(3) A Calm  
(4) Q I want to play another conversation that he had at about  
(5) the same time and ask you whether the tone intonation pacing  
(6) speech style is the same as when he talked to you okay?  
(7) A Yes sir  
(8) MR O NEILL Can you play that?  
(9) (Audiotape Played)  
(10) BY MR O NEILL  
(11) Q Can you compare his tone intonation pace diction and the  
(12) phone call with you and what we just heard there?  
(13) A They sound completely different  
(14) Q Thank you You were of the view that the grounding  
(15) wouldn't have happened if Captain Hazelwood would have  
(16) been on  
(17) the bridge aren't you?  
(18) A Yes sir  
(19) Q You became Captain Hazelwood's supervisor in early 1988?  
(20) A Took effect March 1st 1988 but I was preparing for it in  
(21) January and February  
(22) Q And would it be fair to say that you got had vibes from  
(23) Captain Hazelwood?  
(24) A Yes sir  
(25) Q And you thought that there might be a problem down the  
(26) road  
(27) with regard to Captain Hazelwood because of these had vibes?

Vol 16 2549

- (1) A Once the – as I met Captain Hazelwood sometime in the  
 (2) summer or fall of 1988 in my capacity as port engineer on  
 the  
 (3) Exxon Valdez, and during the period of time from then up  
 until  
 (4) I think my February visit I found him to be very interested in  
 (5) the ship and very knowledgeable. And at that point in time  
 (6) which is after the announcement of the new organization I  
 felt  
 (7) that he was somewhat put off by the fact that Number one  
 I  
 (8) have an engineering background number two I am from  
 outside  
 (9) of then Exxon Shipping Company, I'm an outsider, and  
 number  
 (10) three, I was in a peer position and now I'm going to be in a  
 (11) supervisory position  
 (12) Q But all of that being taken into consideration you've got  
 (13) these bad vibes and they were sufficient enough to where you  
 (14) went to Mr Borgen your boss to discuss the subject the bad  
 (15) vibes subject with him?  
 (16) A That is correct  
 (17) Q As Clint Eastwood would say you wanted to discuss an  
 (18) attitude problem?  
 (19) A Oh this was a concern that was discussed with the other  
 (20) ship group coordinators as well as Mr Borgen and  
 although  
 (21) this was the highest level if you will there was some of  
 (22) this – I could feel some of this from some of the other  
 (23) masters but it wasn't as extreme  
 (24) Q And Mr Borgen told you that Captain Hazelwood had gone  
 (25) through alcohol rehabilitation?

Vol 16 2550

- (1) A During the conversation when I related what I just related  
 (2) to you he indicated that – or told me that Captain  
 Hazelwood  
 (3) had undergone some sort of rehabilitation relative to  
 alcohol  
 (4) as well as some emotional concerns  
 (5) Q Okay Now I'm interested in the way you just put that  
 (6) Because you used the words indicated and told  
 (7) A Um hum  
 (8) Q He whispered it to you didn't he?  
 (9) A Well the door – actually when I went into his office and  
 (10) started speaking to him the door was open and when he got  
 to  
 (11) the point where he discussed this he looked at the door  
 (12) because it is a confidential matter and spoke in a low voice  
 (13) Q He whispered it didn't he?  
 (14) A Spoke in a low voice  
 (15) Q Whose term is whispered?  
 (16) A I – I've used that term  
 (17) Q So we have two full grown Exxon executives whispering  
 about  
 (18) alcohol rehabilitation?  
 (19) A I wasn't whispering  
 (20) Q He was?  
 (21) A He spoke in a low voice  
 (22) Q And you may have had one other discussion with Mr Borgen  
 (23) about Hazelwood and drinking is that right?  
 (24) A About actual drinking?  
 (25) Q Yeah

Vol 16 2551

- (1) A I don't think the discussion had to do with actual  
 (2) drinking  
 (3) Q In the whole time between the time you became member of  
 the  
 (4) management team and the time of the grounding how many  
 (5) discussions did you have with Harvey Borgen about Joe  
 Hazelwood  
 (6) and alcohol drinking?  
 (7) A I would monitor Captain Hazelwood and I would come  
 back to  
 (8) Mr Borgen each time I visited the ship, and in essence  
 report  
 (9) to him my observations so that he was aware of them If  
 that's  
 (10) what you're referring to  
 (11) Q My – did you come back repeatedly and say to Harvey  
 (12) Borgen I checked on Joe and he isn't drinking? You didn't do  
 (13) that did you?  
 (14) A Not in those words, no, sir  
 (15) Q You – your understanding was that Captain Hazelwood was  
 (16) alcohol dependent?  
 (17) A That is correct  
 (18) Q And he couldn't drink?  
 (19) A Or if he did he would be – he would be addicted to it  
 (20) yes  
 (21) Q And he had emotional problems?  
 (22) A Yes  
 (23) Q And he was supposed to abstain from drinking whether on or  
 (24) off duty? That's a correct statement?  
 (25) A Well if you – yeah if you're an alcoholic in essence

Vol 16 2552

- (1) you have to abstain  
 (2) Q Okay And you – let's – do you know of anybody else who  
 (3) was monitoring him other than you or Harvey Borgen? You  
 don't  
 (4) do you?  
 (5) A No, sir  
 (6) Q And you didn't document any of the monitoring did you?  
 (7) A There wasn't really anything to document  
 (8) Q Okay We'll come to that in just a minute But there is  
 (9) no document is there?  
 (10) A Not to my knowledge  
 (11) Q Not one piece of paper that you're aware of in the Exxon  
 (12) Corporation that reflects any monitoring?  
 (13) A No sir  
 (14) Q Okay And you never visited the Exxon Valdez in the Port  
 (15) of Valdez did you?  
 (16) A Not in the port no  
 (17) Q And did you ever ask of the Alamar people we had a fellow  
 (18) from Alamar here yesterday did you ever ask anybody at  
 Alamar  
 (19) whether Hazelwood had a reputation for drinking or was  
 (20) drinking?  
 (21) A No sir  
 (22) Q How about anybody at Alyeska did you ask anybody at  
 (23) Alyeska?  
 (24) A No sir  
 (25) Q And there were never any random searches of Hazelwood's

Vol 16 2553

- (1) quarters?  
 (2) A Not when he was master of the Exxon Valdez that I'm aware  
 (3) of  
 (4) Q And you never asked anyone at Exxon about past incidents?  
 (5) A No sir  
 (6) Q And you never asked any other supervisors of the west coast  
 (7) office about Hazelwood and alcohol did you? Other than  
 (8) Borgen?  
 (9) A That is correct My understanding of this whole rehab  
 (10) situation is that the procedures that I have read indicated  
 (11) that there'll be no discussion on rehab or the details of it or  
 (12) any such thing and such as that unless the employee  
 (13) chooses to  
 (14) do so himself  
 (15) Q So it's top secret is that right?  
 (16) A That's my impression  
 (17) Q You never told Captain Hazelwood or you never asked  
 (18) Captain  
 (19) Hazelwood if he was in treatment Alcoholics Anonymous how  
 (20) his  
 (21) recovery was did you?  
 (22) A No But I did - not in those words but I did ask Captain  
 (23) Hazelwood if he had any personal problems and he said no  
 (24) I  
 (25) asked him if he had any problems at all and he said no And I  
 (26) believe that Captain Hazelwood knew that I was talking  
 (27) about  
 (28) alcohol  
 (29) Q So it's sort of kind of a thing that you'd understand or  
 (30) whisper?

Vol 16 2554

- (1) A Well as I said there's this confidentiality issue about  
 (2) rehab and I didn't feel it appropriate to go down and say  
 (3) well Joe, how's rehab going, how was the last AAA [sic]  
 (4) Meeting I chose not to be a bull in a china shop but to  
 (5) handle it a little bit differently  
 (6) Q And in May of 1988 you got a call from Steve Day who told  
 (7) you that he heard Hazelwood order beer over the ship  
 (8) walkie talkie?  
 (9) A I did not receive to my recollection a call from Steve  
 (10) Day that addressed that issue There was however a  
 (11) conversation in late May of 1988 where Steve did tell me  
 (12) that  
 (13) Q There was a call in May of 1988 where Steve Day told you he  
 (14) heard Hazelwood order beer over a ship walkie talkie?  
 (15) A Not a telephone call no sir, there was a conversation  
 (16) Q Conversation?  
 (17) A In Mr Day's office where he related that to me  
 (18) Q Did he tell you he found empty Henry Weinhard's bottles on  
 (19) the vessel?  
 (20) A No sir  
 (21) Q Did he tell you that the walkie talkie incident had to do  
 (22) with Henry Weinhard's beer?  
 (23) A No sir  
 (24) Q Mr Day testified that he came in and reported this to you  
 (25) did he?  
 (26) A He - he reported to me that he heard Captain Hazelwood

Vol 16 2555

- (1) over the walkie-talkie asking for beer And at that point in  
 (2) time I said did you go over and investigate? He said no I  
 (3) asked him a series of other questions and I can't remember  
 (4) specifically what was said but the last question I said is  
 (5) did you see anybody drinking and he said no  
 (6) Q So for - does that allow you to wash your hands?  
 (7) A No I went in to Mr Borgen after this this conversation  
 (8) and - and spoke to him about the possibility that Captain  
 (9) Hazelwood might be drinking  
 (10) Q And Mr Borgen already knew about it didn't he?  
 (11) A That is correct  
 (12) Q And you were shocked weren't you?  
 (13) A I was sort of surprised that I didn't know about it  
 (14) Q Everybody knew about it?  
 (15) MR NEAL Objection  
 (16) THE COURT Sustained Jury will disregard that  
 (17) BY MR O NEILL  
 (18) Q The word shocked is your word isn't it?  
 (19) A Yeah I was surprised Here I am three months on the  
 (20) job  
 (21) I find this information out go to my boss and he is already  
 (22) aware of it so yeah I was a little surprised  
 (23) Q So would it be fair to say that at this point in time you  
 (24) knew that captain - you were of the view that Captain  
 (25) Hazelwood was an alcoholic he had to abstain he ordered  
 (26) beer  
 (27) over a walkie talkie in the Portland shipyard and that you and

Vol 16 2556

- (1) your boss both knew about it?  
 (2) A Well when I left the conversation with Mr Borgen my  
 (3) understanding was that he had done - or some sort of  
 (4) investigation was done and there was nothing to tie Captain  
 (5) Hazelwood with drinking during that incident  
 (6) Q So you -  
 (7) A And one other thing that I would continue to watch  
 (8) Captain  
 (9) Hazelwood closely  
 (10) Q And then at some point in time you talked to Messrs  
 (11) Kimtis and Glowacki isn't that right?  
 (12) A Separately, yes  
 (13) Q And did you know that Mr Kimtis was the one that Captain  
 (14) Hazelwood was drinking beer with in Portland?  
 (15) A No I did not know that  
 (16) Q Did you know that Mr Glowacki - at that point in time you  
 (17) wouldn't know that Glowacki was in Valdez drinking before the  
 (18) grounding Did you know that Hazelwood and Glowacki drank  
 (19) on  
 (20) occasion?  
 (21) A Not until the - after the incident  
 (22) Q Now Captain Hazelwood said in his testimony we talked at  
 (23) great length about his conversation with you?  
 (24) A Which conversation?  
 (25) Q The one in May or June of 1988?  
 (26) A I talked to Captain Hazelwood I think in May he called me  
 (27) from the shipyard and in June I was on board the ship for  
 (28) the

Vol 16 2557

- (1) **stewardship review and to give him performance feedback**  
 (2) **Q Okay** And he says that you and he talked at least at one  
 (3) **point in time in his testimony** he said that you and he talked  
 (4) **and he told you that he was drinking beer with Chuck Kimtis**  
 (5) **back at his apartment?**  
 (6) **A That -**  
 (7) **MR NEAL** Objection to that unless Mr O Neill  
 (8) **brings out the fact that makes that misleading** really  
 (9) **Mr O Neill** knows what that story is I'll get to it never  
 (10) **mind** I withdraw my objection  
 (11) **THE COURT** Thank you sir  
 (12) **MR O NEILL** So we can get it clearly in mind  
 (13) **(Portion of video of Captain Hazelwood played as follows)**  
 (14) **BY VIDEO EXAMINER**  
 (15) **Q Did Mr Myers** discuss this event with you?  
 (16) **A I think it was the subsequent voyage** We left Portland  
 (17) **loaded, dropped a bunch of people off that had ridden with**  
 (18) **us**  
 (19) **in Long Beach** Went to Panama and returned I think it was  
 (20) **our last run to Panama**  
 (21) **Q And where did the discussion take place?**  
 (22) **A As I recall,** Anchorage and San Francisco  
 (23) **Q And what did he say to you and what did you say to him?**  
 (24) **A He was - it was part of a general commentary on how did**  
 (25) **things go to the yard and, you know** it basically was a  
 (1) **shakedown voyage for all this repair work that had been**  
 (2) **done**

Vol 16 2558

- (1) **and I don't know if it was the beginning or the end - I have a**  
 (2) **feeling it was the middle of this discussion** went on for  
 (3) **about**  
 (4) **five or six hours** about all the concerns in the yard and he  
 (5) **says** I got a report from Herb Leyendecker about some beer  
 (6) **being ordered or referred to on the walkie-talkie** and in sum  
 (7) **and substance** I told him the same thing I've testified to  
 (8) **today** what happened said okay  
 (9) **Q Did he say anything else besides okay** when you gave him  
 (10) **the -**  
 (11) **A No** He just said I just wanted to be sure there was no  
 (12) **violation of the alcohol policy** and I said as to my way of  
 (13) **thinking,** there was none  
 (14) **Q Did he - at this point** did you tell him that you had  
 (15) **consumed some of that beer later?**  
 (16) **A I believe I did** I said Chuck Kimtis and I went and  
 (17) **watched the Bruins play** whoever they were playing in the  
 (18) **Stanley Cup finals** I think it was I explained the whole  
 (19) **scenario to him**  
 (20) **Q You explained the scenario** including the fact that you  
 (21) **subsequently drank some of the beer while watching the**  
 (22) **football**  
 (23) **game?**  
 (24) **A Hockey game**  
 (25) **Q Hockey game?**  
 (1) **A I believe I did** yeah  
 (2) **Q You refer to Mr Timmons** I forget he was on the other end

Vol 16 2559

- (1) **of the walkie talkie during the - during the conversation?**  
 (2) **A Summons Timmons** something like that I've forgotten  
 (3) **Q Who was he again** remind me?  
 (4) **A I think he was a rigger foreman** He was in charge of the  
 (5) **riggers for the day shift at that time**  
 (6) **Q Did you tell Mr Myers** how much beer you drank during the  
 (7) **hockey game?**  
 (8) **A I don't think specifically** I think it was a six pack of  
 (9) **beer and I think we indicated to him that we finished it or**  
 (10) **drank it**  
 (11) **(Portion of video of Captain Hazelwood concluded)**  
 (12) **BY MR O NEILL**  
 (13) **Q Have you ever seen that before?**  
 (14) **A No, sir**  
 (15) **Q In the conversation** would it be fair to say that he does  
 (16) **say that he related to you the fact that he drank beer with**  
 (17) **Kimtis back in his apartment?**  
 (18) **A Well, that's what he said, but-**  
 (19) **Q That's what he says?**  
 (20) **A That's what he said, but -**  
 (21) **Q I'm going to let you - I'll give you a chance** Go  
 (22) **A Number one, I never had a conversation with Mr**  
 (23) **Leyendecker**  
 (24) **in relationship to this and I think Captain Hazelwood is**  
 (25) **mistaken because that discussion never took place** With  
 (1) **Captain Hazelwood** It just didn't take place

Vol 16 2560

- (1) **Q Okay** That's fine Would it be fair to say as you sit  
 (2) **here today** you thought he was an alcoholic you knew he  
 (3) **wouldn't be - he shouldn't be drinking** those are correct  
 (4) **statements?**  
 (5) **A Yes**  
 (6) **Q And you knew that a drinking alcoholic captain** master of a  
 (7) **vessel** presented a risk to the vessel and the environment  
 (8) **around it** okay? Is that all fair so far?  
 (9) **A Yes**  
 (10) **Q If Captain Hazelwood's version of this facts is correct**  
 (11) **assume it is - may or may not be** but let's assume it is -  
 (12) **your not doing something about that would have been**  
 (13) **reckless?**  
 (14) **A Well first off** it wasn't It didn't happen  
 (15) **Q I'm asking you to assume it was**  
 (16) **A Well, since it didn't happen** it's sort of difficult  
 (17) **Q Let's say it's somebody else** say it's Mr X same context  
 (18) **that we're talking about** knowledge of alcoholism knowledge  
 (19) **with regard to shouldn't be drinking** knowledge with regard to  
 (20) **tanker risks** and Mr X gets a report as we saw Captain  
 (21) **Hazelwood give him a report** if Mr X didn't take action  
 (22) **wouldn't it be fair to describe that conduct as reckless?**  
 (23) **A Well in Captain Hazelwood's situation, I do not believe**  
 (24) **perhaps**  
 (25) **he wasn't an alcoholic** Because I was on the ship all the  
 (1) **time** Every time it came in the ship came into Northern

Vol 16 2561

- (1) California or Long Beach I was in there for extended periods
- (2) of time and I know what to look for and I ensured that every time I came on board the ship I got close enough to him to smell his breath I talked to him I made myself available to other members of the crew And I got a number of unsolicited positive comments more than I had for anyone else And it didn't -
- (8) Q Let me ask the question a different way
- (9) A Okay
- (10) Q If we assume Captain Hazelwood's version of the facts which we all just looked at
- (12) MR NEAL Your Honor this is too much Can we approach the - approach the side bar?
- (13) approach the - approach the side bar?
- (14) THE COURT Not at this point Let's see what the next question is
- (16) MR NEAL Then I'll have to set up the video again where Mr. Hazelwood comes back and corrects this Apparently
- (18) Mr. O'Neill is not going to do that
- (19) THE COURT You'll have your chance
- (20) MR O NEILL Thank you Judge
- (21) BY MR O NEILL
- (22) Q If we assume Captain Hazelwood's - that version of Captain Hazelwood's testimony and I'm happy to admit that there are at least four versions okay there are four versions two in which he says that two in which he says the conversation

Vol 16 2562

- (1) didn't take place happy to admit that We've got four versions of the same conversation but let's assume the version that we just looked at If we assume that that version is the one that took place you're partially responsible for the Exxon Valdez aren't you?
- (6) A No
- (7) Q Okay Now at some point in 1988 you attempted to get Captain Hazelwood transferred didn't you?
- (9) A No
- (10) Q You didn't?
- (11) A No
- (12) MR NEAL Page Mr. O'Neill
- (13) MR O NEILL 169
- (14) BY MR O NEILL
- (15) Q Would it be fair to say that there was a meeting in August of 1988?
- (17) A That's correct
- (18) Q And there were ship group coordinators there including Deppe McRobbie and Sheehy?
- (20) A That's correct
- (21) Q And you were talking personnel matters because people were being promoted at that point in time?
- (23) A Right There was the ranking and rating in June and as a result of the ranking and rating, there were people that were promoted and the object was to even out the personnel on the

Vol 16 2563

- (1) fleet so there was a meeting and Captain Deppe said that he needed somebody for the - I think it's the Yorktown that was working for I think PRI which is a customer of ours and he indicated that - or said that he needed a good ship handler and everybody's told me that Captain Hazelwood is the best probably the best ship handler Exxon Shipping Company had so I said do you want to take him on that ship It wasn't - it was more like looking at the general interest of the company rather than saying get this guy off my ship
- (10) Q Did you suggest that he go to another vessel?
- (11) A Other than that conversation no
- (12) Q That conversation did you discuss that he go to another vessel?
- (14) A I suggested that if Mr. Deppe wanted him for the Yorktown that would be okay Because of the requirements he had
- (16) Q And Captain Deppe didn't want Captain Hazelwood did he?
- (17) A No Because he's not politic
- (18) Q He's a wise guy?
- (19) A Not a wise guy
- (20) Q Now at some point in time you get a report do you not with regard to a second incident concerning Captain Hazelwood in San Francisco Bay concerning Captain Reeder and Mary Williamson?
- (24) A Captain Reeder I - I had a conversation in March of 1989 where Steve Day said officers busting Reeder's chops To my

Vol 16 2564

- (1) knowledge and recollection there was nothing said about Captain Hazelwood
- (3) Q So it's your testimony as you sit here today - well let's see what Steve Day said and then you can deny it not deny it okay?
- (6) A Um hum
- (7) (Portion of video of Steve Day played as follows)
- (8) BY VIDEO EXAMINER
- (9) Q What did you tell Paul Myers?
- (10) A From what I recall I - I initiated the conversation went into Paul's office in Benecia shut the door and related to him essentially what I've - what I've told you here what Mary observed and thought he as - he should know about it
- (14) Q Do you recall what if anything Paul Myers said in response to your report?
- (16) A He didn't say very much, from my recollection Vaguely remember some, you know, questions of when, what day and you know, but that's about - yeah, that's about all It was very short actually
- (20) (Portion of Video of Steve Day concluded)
- (21) BY MR O NEILL
- (22) Q The Mary Williamson incident is the incident Mr. Day had previously talked about concerning whether Captain Hazelwood had been drinking aboard a launch that evening, and here he reports that he reported it to you or testifies that E reported

Vol 16 2565

- (1) it to you My question is simply did he?
- (2) A He did not mention Captain Hazelwood My recollection is
- (3) that during that time frame we had a turbocharger problem and
- (4) I'm sure you're aware that the Exxon Valdez was delayed from
- (5) the Monday I guess that would be the 13th through Saturday
- (6) the 18th because of a turbocharger problem and I was dealing
- (7) with this, which I normally wouldn't have done and Steve is a
- (8) hot shot engineer, diesel engineer and I went into Steve's
- (9) room and asked him some questions about if he could help me
- (10) with the turbocharger or if he had any ideas because I had
- (11) three different firms, one Sulzer, one our own people and one
- (12) the turbocharger manufacturer all saying that they were
- (13) different things, trying to find out which one it was so
- (14) things were a little tense for me
- (15) And Steve was busy and he really didn't have anything to
- (16) offer and there was a lull in the conversation and I remember
- (17) him saying after that officer's busting Reeder's chops, and
- (18) someone else came into the room and I left and got back on the
- (19) turbocharger case
- (20) Q So just so the record is clear you deny that Mr Day told
- (21) you about what we - about Mary Williamson observing Captain
- (22) Hazelwood in a possibly inebriated state?
- (23) MR NEAL Objection Your Honor to total
- (24) misquotation of the record
- (25) MR O NEILL Well I think that

Vol 16 2566

- (1) MR NEAL Possibly inebriated state she said she
- (2) couldn't say that-
- (3) THE COURT Mr O Neill - Mr Neal - I knew I did do
- (4) that sooner or later - just take it a little bit easy
- (5) please The jury will decide for themselves what the testimony
- (6) of these various witnesses were
- (7) You may continue Mr O Neill
- (8) MR O NEILL Thank you Judge
- (9) BY MR O NEILL
- (10) Q Mary Williamson describes an incident aboard a launch
- (11) with - right before the Valdez leaves north to go on the
- (12) fateful voyage And she reports it to Mr Day whatever the
- (13) characterization of it is Mr Day has testified that he
- (14) reported both the Williamson incident to you and a heated
- (15) conversation between Captain Hazelwood and Captain Reeder in
- (16) which profanity was used Mr Day's testified that he reported
- (17) that to you My question for you sir is did he?
- (18) A You said just before the ship left I was on board the
- (19) ship the 17th overnight to the 18th
- (20) Q My question is did Mr Day report that to you?
- (21) A Not that - not that I'm aware of no sir
- (22) Q Why would Mr Day lie about that if you know?
- (23) A Certainly on the surface I have - I have no explanation
- (24) on why he would
- (25) Q Now knowing what your state of mind then was with regard

Vol 16 2567

- (1) to Captain Hazelwood and his treatment and his alcoholism and
- (2) the fact that he wouldn't be drinking if indeed Mr Day made
- (3) this report to you and you didn't act on it that would be
- (4) reckless wouldn't it?
- (5) A Well yeah, I think if he said that to me and I didn't,
- (6) yeah, I would be a bad boy, so to speak
- (7) Q Reckless?
- (8) A No question
- (9) Q No question?
- (10) A It would have been - it would have been wrong But I do
- (11) not remember him saying anything about Captain Hazelwood I
- (12) don't remember anything about profanity All I remember saying
- (13) is officer's busting Reeder's chops, and this was old news
- (14) MR O NEILL Sir I'm not going to argue with you
- (15) about it
- (16) THE WITNESS Fine
- (17) MR O NEILL Okay thank you
- (18) THE COURT You may cross examine
- (19) MR NEAL Mr Myers I'm Jim Neal I represent Exxon
- (20) defendants Let me start with one of the latter things that
- (21) Mr O Neill asked you about
- (22) CROSS EXAMINATION OF PAUL MYERS
- (23) BY MR NEAL
- (24) Q He said that you recommended a transfer of Captain
- (25) Hazelwood from the Valdez do you remember that?

Vol 16 2568

- (1) A Yes sir
- (2) Q And you said he did - you did and he said and Captain
- (3) Deppe wouldn't take him isn't that correct?
- (4) A That's correct
- (5) Q And he dropped it there?
- (6) A Yes, sir
- (7) Q Let me ask you this if you didn't testify Captain Deppe
- (8) did not want Captain Hazelwood on that run primarily because
- (9) Captain Hazelwood is quite outspoken and I think he was
- (10) looking for someone that was a bit more diplomatic because you
- (11) had - it was - you had to deal with the third party
- (12) occasionally?
- (13) A That's correct
- (14) Q Mr O Neill didn't bring that out did he?
- (15) A No sir
- (16) Q He tried to make it appear that Captain Deppe rejected
- (17) Captain Hazelwood because there was something extraordinarily
- (18) wrong about Captain Hazelwood or he was drinking or something
- (19) like that correct?
- (20) A That's correct
- (21) Q Isn't that right below where Mr O Neill could not have
- (22) missed it when he asked you that question?
- (23) A I believe so sir
- (24) Q Now and isn't it a fact - well let me ask you have you
- (25) seen - Mr O Neill played for you what Captain Hazelwood said

Vol 16 2569

- (1) at one time about telling you about the Henry s and that he and  
 (2) Mr - chief mate somebody had consumed that six pack back -  
 (3) six pack back at the apartment while watching a hockey game  
 do  
 (4) you remember that?  
 (5) A Yes sir  
 (6) Q All right Did he tell you that shortly within a few  
 (7) minutes after that Captain Hazelwood continued in his  
 (8) deposition to come back in and say you know I think I better  
 (9) correct something I don't believe I had that conversation or  
 (10) told Mr Myers that I consumed those beers He didn't show  
 you  
 (11) that did he?  
 (12) A No sir  
 (13) Q We'll try to show that before we conclude this case Now  
 (14) you said that you understood that Captain Hazelwood was an  
 (15) alcoholic or alcohol dependent or something like that Where  
 (16) did you get that information?  
 (17) A That's the impression that I got from the discussion I had  
 (18) with Mr Harvey Borgen I'd say it was in February of 1988  
 (19) when Harvey had told me that Joe had undergone some sort  
 of  
 (20) rehabilitation for alcohol  
 (21) Q So you assumed that he had been diagnosed as an alcoholic  
 or alcohol dependent because you were told by Mr Borgen that  
 (23) he had gone through some sort of alcohol rehabilitation is  
 (24) that correct?  
 (25) A That is correct

Vol 16 2570

- (1) Q Pardon me?  
 (2) A Yes, that is correct  
 (3) Q And that is all you knew at the time correct?  
 (4) A Yes sir  
 (5) Q All right Have you seen plaintiffs Exhibit Number 10 in  
 (6) this case which is a diagnosis of Captain Hazelwood?  
 (7) A No sir  
 (8) Q You were not aware that his physician after attending him  
 (9) for 28 days diagnosed him as suffering or having a case of  
 (10) dysthymia which is a mild depression we talked about and  
 (11) secondary alcohol abuse episodic you were not aware of that?  
 (12) A No sir  
 (13) Q Now you also testified under questioning by Mr O Neill  
 (14) that the captain says he thinks he can get it off is that  
 (15) correct?  
 (16) A That's correct that's correct  
 (17) Q That was a conversation that was a part of a conversation  
 (18) you had with Captain Hazelwood sometime after the grounding  
 is  
 (19) that correct?  
 (20) A Yes sir  
 (21) MR NEAL Could you bring that back up that portion  
 (22) of Mr Myers notebook Exhibit Number - well I'll give you  
 (23) this It doesn't have an exhibit number on it Matter of  
 (24) fact I don't think they were ever introduced into evidence  
 (25) but I will give you what I've got

Vol 16 2571

- (1) Okay let me see if I can zoom in if I can even see that  
 (2) thing  
 (3) BY MR NEAL  
 (4) Q Okay it says USCC or USCG?  
 (5) A USCG on board soon  
 (6) Q On board soon they're on their way out?  
 (7) A Tugs on way out  
 (8) Q Pardon me?  
 (9) A Tugs on way out  
 (10) Q Tug on way out?  
 (11) A Tug on way out  
 (12) Q Think he can get it off?  
 (13) A Right  
 (14) Q Did you think that he - did you take from that that he was  
 (15) going to try to rock the boat off?  
 (16) A No sir  
 (17) Q This comes after him telling you that the Coast Guard was  
 (18) on the way out tugs were on the way out and they think they  
 (19) can get it off correct?  
 (20) A Right and that - those words are verbatim words from -  
 (21) from what I wrote and I was certainly not the calmest in the  
 (22) world during this conversation and that was what he said  
 and  
 (23) the inflection and everything else was the last thing, it was  
 (24) like the last thing he said before we're leaving, like keep  
 (25) your chin up type of thing It was a bad situation it's not

Vol 16 2572

- (1) the end of the world but -  
 (2) Q You didn't take that to mean that he was going to alone try  
 (3) to get the boat off the rock?  
 (4) A No he had - he had already told me in so many words  
 that  
 (5) he's concerned about stability He's telling me that half the  
 (6) bottom of the ship is torn away and you got water in the  
 (7) forepeak of the ballast tanks and if it wasn't supported it  
 (8) would have sank  
 (9) Q Thank you I'll take that off I think Thank you  
 (10) Mr O Neill also - oh I'm sorry I'm going to get to that  
 (11) Mr O Neill also asked you to listen to a conversation that  
 (12) Captain Hazelwood had with the VTC immediately after the  
 (13) grounding you remember that?  
 (14) A Yes sir  
 (15) Q And then he asked you to compare that with what you  
 (16) remember of the conversation when you had a conversation  
 with  
 (17) Captain Hazelwood?  
 (18) A That's correct  
 (19) Q All right now let's assume that Captain Hazelwood had that  
 (20) conversation immediately after the grounding something a few  
 (21) minutes 15 17 minutes as I remember after midnight on  
 (22) March  
 (23) 24 When was your conversation with Captain Hazelwood?  
 (24) A Roughly an hour and a half later  
 (25) Q An hour and a half later?  
 (26) A Yes sir

Vol 16 2573

- (1) Q Would you - would you think that the circumstances under  
(2) which Captain Hazelwood was talking to the VCR - VCT (sic)  
(3) and  
(4) the circumstances under which he was talking to you would be  
(5) considerably different?  
(6) A Yeah, he had to be very upset right after that happened, I  
(7) would think  
(8) Q Now you said there were difference in the various things in  
(9) the conversation Would you believe that the difference in  
(10) circumstances at the time could account for those differences?  
(11) A I would think so It's possible  
(12) Q Now Mr Myers you've been employed for - by Exxon for  
(13) some almost 24 years now is that correct?  
(14) A Yes, sir  
(15) Q Would you just because you didn't go over this just  
(16) briefly tell us the jobs you had up to 1987?  
(17) A From 1970 to 1973, I was technical assistant, which was  
(18) really a training position From '73 to '77, I was repair  
(19) superintendent From '77 to '80, I was an operations  
(20) superintendent From '80 to '82, I was a repair planner  
(21) From  
(22) '82 to '84, I was superintendent engineer during the  
(23) construction of three vessels in Avondale shipyard for  
(24) Exxon  
(25) Shipping Company and from '84 to '87 I was  
(26) superintendent  
(27) engineer in San Diego California during the construction  
(28) of  
(29) the Exxon Valdez and Exxon Long Beach  
(30) Q Now to pass over this quickly and get to the point you

Vol 16 2574

- (1) joined the west coast fleet sometime in 1987 as port engineer?  
(2) A About mid year yes sir  
(3) Q And then you next took over the position of ship group  
(4) coordinator?  
(5) A Yes sir  
(6) Q What vessels did you have - oh by the way did you have  
(7) supervisory authority then over certain vessels?  
(8) A Yes sir  
(9) Q What vessels?  
(10) A The Exxon Benecia the Exxon Long Beach the Exxon  
(11) North  
(12) Slope, and the Exxon Valdez  
(13) Q Limit ourselves to the Valdez for a moment what trade was  
(14) it in when you became ship group coordinator?  
(15) A It would take cargo from Valdez Alaska and go to  
(16) Panama  
(17) and come back to Valdez with a stop in Long Beach where  
(18) they  
(19) pick up fuel provisions and spare parts  
(20) Q Did that type of trade change any during the time you were  
(21) ship group coordinator?  
(22) A Yes sir Toward the end of 1988 the trade changed  
(23) where  
(24) the ship was no longer going to Panama It would come into  
(25) San  
(26) Francisco Bay where the cargo was discharged into a  
(27) smaller  
(28) ship  
(29) Q Okay Let me go back for a moment to the - to Captain  
(30) Hazelwood You had occasion to meet Captain Hazelwood of  
(31) course?

Vol 16 2575

- (1) A Yes, sir  
(2) Q When did you first meet him?  
(3) A Late summer, early fall of 1987  
(4) Q All right Now from that time until February of 1988 when  
(5) you said you had occasion to have a conversation with  
(6) Mr Borgen did you work with Captain Hazelwood?  
(7) A Yes As port engineer, I was involved and responsible for  
(8) the guaranty administration and although the chief engineer  
(9) was  
(10) the person on board coordinating this it had been my  
(11) practice  
(12) in the past to bring in the captain in these discussions  
(13) because he's responsible for the ship, and I found Captain  
(14) Hazelwood more than cooperative and more than willing to  
(15) participate  
(16) Q In February, Mr O Neill asked you if you became upset with  
(17) Captain Hazelwood or Captain Hazelwood became upset with  
(18) you  
(19) Tell us about that  
(20) A I don't even remember the situation, all I can say is that  
(21) it was my feeling that he'd found out or it had been  
(22) announced  
(23) of the impending organizational change and he sort of  
(24) resented,  
(25) as I said before, the fact I'm an engineer I'm an outsider  
(26) and  
(27) I was a peer and now I'm going to be a supervisor  
(28) Q And following your belief that he had some irritation with  
(29) you as you described you had a conversation with Mr Harvey  
(30) Borgen the man you reported to?  
(31) A That's correct

Vol 16 2576

- (1) Q He told you that Captain Hazelwood had gone through some  
(2) sort of alcohol rehabilitation from which you assumed that he  
(3) was some sort of alcoholic or alcohol dependent?  
(4) A That's correct  
(5) Q From that point on from the time you had the conversation  
(6) with Mr Borgen did you consider yourself a monitor of Captain  
(7) Hazelwood?  
(8) A Yeah when I left the - the conversation with Harvey I  
(9) felt it was my responsibility to watch Captain Hazelwood  
(10) very  
(11) closely  
(12) Q Did you all discuss that?  
(13) A Yes, but I can't remember the details of the conversation  
(14) Q Now then did you monitor him?  
(15) A Yes, sir  
(16) Q Tell me how you went about that  
(17) A Well I went down to the ship every time it came to the  
(18) west coast And I would talk with Captain Hazelwood I  
(19) would  
(20) notice his behavior or I would see how he interacted with  
(21) other  
(22) people I would manage to get close enough to him where I  
(23) could smell his breath each time I'd make myself available  
(24) for you know to other crew members ask them how they  
(25) were  
(26) doing, and by the way, I did get a number of unsolicited  
(27) positive comments about him  
(28) I asked both chief engineers if he was drinking and they  
(29) had said no, and I'd also monitor the performance of the  
(30) ship

Vol 16 2577

- (1) and as we – as is a matter of record that ship with him on  
 (2) it won the fleet manager's award in 1987 as well as 1988  
 (3) Q I'll get to that Let's – let's flesh that out a little  
 (4) bit The vessel – where would you board the – where was your  
 (5) office during this period of time? Let's start early '88  
 (6) now when you were Captain Hazelwood's supervisor where  
 was  
 (7) your office?  
 (8) A In Benecia California  
 (9) Q Where would the vessel come to? You said you'd board it  
 (10) every time it came into port?  
 (11) A Right  
 (12) Q You're talking about a California port?  
 (13) A Yes sir either be –  
 (14) Q Where would it – where would it come to and let's talk  
 (15) about the early part of '88 when he was trading in Panama  
 (16) where would it come to?  
 (17) A Long Beach California to pick up fuel and supplies and  
 (18) spare parts  
 (19) Q And you were in Benecia where is Benecia? In San  
 (20) Francisco?  
 (21) A Yes sir  
 (22) Q How far is it from Benecia to Long Beach?  
 (23) A About what 500 miles  
 (24) Q Would you get on a plane and fly down to Long Beach?  
 (25) A Yes sir

Vol 16 2578

- (1) Q Every time the vessel came in?  
 (2) A To the best of my recollection yes sir  
 (3) Q All right and you'd board the vessel?  
 (4) A Yes sir  
 (5) Q How much time would you spend with Captain Hazelwood?  
 (6) A I'd say anywhere from two hours to the whole day  
 (7) Q Did you ever spend the night with him? I don't mean – I  
 (8) mean on the vessel with him  
 (9) MR CHALOS I'm going to object to that Your Honor  
 (10) MR NEAL I am too I withdraw it  
 (11) MR O NEILL That is not what this trial is about  
 (12) BY MR NEAL  
 (13) Q Somewhere on this big ship at night were you at one place  
 (14) and Captain Hazelwood another place over the night?  
 (15) A Yes sir  
 (16) MR NEAL Did that straighten it out all right  
 (17) Mr O'Neill  
 (18) MR O NEILL Yes sir  
 (19) MR NEAL Thank you  
 (20) BY MR NEAL  
 (21) Q Did you do this in these ways we talked about now from  
 (22) the time of early '88 until the grounding?  
 (23) A Yes, sir  
 (24) Q Captain Hazelwood testified in this case that you mother  
 (25) henned him shadowed him I believe he used the name  
 Lamont

Vol 16 2579

- (1) Cranston that some of us remember as being The Shadow?  
 (2) A I wouldn't exactly use those words but I do take my job  
 (3) seriously or I did take my job seriously and I saw him at  
 (4) every opportunity  
 (5) Q At any time during the period from early 1988 up until the  
 (6) time of the grounding did anybody ever report to you that  
 (7) Captain Hazelwood was drinking alcoholic beverages?  
 (8) A No sir  
 (9) Q Anybody?  
 (10) A No sir  
 (11) Q All right Let's talk about this Henry's incident or the  
 (12) beer incident I guess although you didn't hear the word  
 (13) Henry's you heard from Mr Day that he allegedly heard  
 Captain  
 (14) Hazelwood ordering beer?  
 (15) A That's correct  
 (16) Q And you say this occurred in a conversation that you had  
 (17) with Mr Day person to person?  
 (18) A That is correct  
 (19) Q In Benecia?  
 (20) A That is correct  
 (21) Q Wait a minute what did you say to Mr Day and what did he  
 (22) say to you in substance?  
 (23) A Well I asked him if he had gone – he was writing a  
 (24) specification for the next ship and he was not on the ship  
 and  
 (25) he'd heard this and I said well did you go over and see  
 what

Vol 16 2580

- (1) was going on and he said no and I know I asked him a  
 number  
 (2) of other questions and the last thing I can remember asking  
 him  
 (3) was did you see anybody drinking and his answer was no  
 (4) Q Now he testified at this trial that he also told you that  
 (5) Mr Leyendecker had told him that he had investigated had  
 gone  
 (6) aboard the vessel asked Captain Hazelwood if he was drinking  
 (7) Captain Hazelwood said no and that he – he Leyendecker told  
 (8) Mr Day and Mr Day allegedly told you that he saw no sign of  
 (9) drinking although he did see some empty beer cans  
 somewhere on  
 (10) the vessel  
 (11) Did Mr Day tell you about Mr Leyendecker's investigation  
 (12) to your recollection?  
 (13) A No, sir  
 (14) Q But he did tell you about ordering the beer?  
 (15) A Yes sir  
 (16) Q All right Did you do anything thereafter with respect to  
 (17) this incident?  
 (18) A Yes sir  
 (19) Q What?  
 (20) A I went down to speak to Mr Borgen  
 (21) Q You and Mr Borgen have a conversation about this ordering  
 (22) of beer?  
 (23) A Yes sir  
 (24) Q In substance what was that conversation?  
 (25) A Well in substance Harvey related that this had been

Vol 16 2581

- (1) looked at and nothing had been found to - to connect  
**Captain**  
 ( ) Hazelwood with drinking any beer and that I would continue  
 a  
 (3) close eye on him, meaning Captain Hazelwood  
 (4) Q So you concluded from this investigation that the matter -  
 (5) from this conversation that the matter had been investigated?  
 (6) A Yes, sir  
 (7) Q And it turned up not to be justified?  
 (8) A Right  
 (9) Q Or not to involve drinking by Captain Hazelwood?  
 (10) A That's correct  
 (11) Q Now then following this incident did you have a  
 (12) conversation to get with Captain Hazelwood on board the  
 vessel?  
 (13) A Several conversations, yes  
 (14) Q When was the next time after - by the way when was -  
 (15) when did you hear about this Henry's incident we've referred  
 (16) to?  
 (17) A It was the latter part of May 1988  
 (18) Q When was the next time you saw Captain Hazelwood?  
 (19) A It was roughly a month later  
 (20) Q And where did you see him and under what circumstances?  
 (21) A It was in Long Beach and it was the time of the - what you  
 (22) might call the mid year stewardship review and time that I  
 was  
 (23) going to give some feedback to both Captain Hazelwood  
 and Chief  
 (24) Engineer Kimtis on the performance of the -  
 (25) Q Was it aboard the Valdez?

Vol 16 2582

- (1) A Yes sir  
 (2) Q Now were you still - did you still have in your memory  
 (3) this recollection of ordering beer?  
 (4) A Yes sir  
 (5) MR NEAL Just two questions Your Honor  
 (6) BY MR NEAL  
 (7) Q You went aboard the vessel?  
 (8) A Yes sir  
 (9) Q What was the first thing you did?  
 (10) A I went to see the captain and said hello  
 (11) Q And what was the second thing you did?  
 (12) A After a few salutations and whatnot I went to see the  
 (13) chief engineer And -  
 (14) Q What did you say to him and what did he say to you?  
 (15) A Well, apart from hello how are you type of thing I asked  
 (16) him pointblank with the Henry's thing on my mind and if  
 (17) Hazelwood was drinking and he said no  
 (18) THE COURT We'll recess now for the day ladies and  
 (19) gentlemen Please remember my instructions that you not  
 listen  
 (20) to or read anything about this case and we'll resume tomorrow  
 (21) morning at 8:00  
 (22) Would counsel stay for just a moment  
 (23) (Jury out at 2:02 p.m.)  
 (24) THE COURT We're off the record now  
 (25) (Recess at 2:02 p.m.)

(1) Q As we concluded yesterday you d had a conversation with  
 (2) Mr Steve Day about what we ve come to call here as the  
 Henry s  
 (3) matter  
 (4) A Yes, sir  
 (5) Q And you d had a conversation with Mr Borgen following that  
 (6) when you concluded that that had been investigated and it  
 (7) turned up negative?  
 (8) A Yes sir  
 (9) Q And we ve gone to the - sometime after that the next time  
 (10) the vessel Valdez was in port you d gone aboard the vessel?  
 (11) A That s correct  
 (12) Q And you said hello to the captain I believe and you  
 (13) immediately went down and had a conversation with a chief  
 mate  
 (14) is that correct?  
 (15) A No, sir, that was the chief engineer  
 (16) Q Chief engineer? And you asked this chief engineer if  
 (17) Hazelwood had been drinking?  
 (18) A That is correct  
 (19) Q And his answer was?  
 (20) A No  
 (21) Q All right Now then tell me what you did next on the  
 (22) Valdez after having your conversation with the chief engineer?  
 (23) A We got together with the captain and the chief and we  
 went  
 (24) through what is called the stewardship review  
 (25) Q Let me stop you right there and for the benefit of myself

Vol 17 2590

- (1) and the Court and the Members of the Jury what is a  
 (2) stewardship review?  
 (3) **A It s really the way we take care of business and we look at**  
 (4) **various things that are under control of the ship compare**  
 (5) **them**  
 (6) **to what they had forecast, and the same criteria that is used**  
 (7) **during the stewardship review is also a criteria for the ship**  
 (8) **manager s award**  
 (9) Q All right How long did this stewardship review take  
 (10) place? How long did it take to have this?  
 (11) **A I d say at least all morning Might have gone into the**  
 (12) **afternoon I know I was on the ship all day**  
 (13) Q Some several hours then?  
 (14) **A Yes, sir**  
 (15) Q Thereafter - who was present by the way during this  
 (16) stewardship review?  
 (17) **A To my recollection, it was Captain Hazelwood Chuck**  
 (18) **Kimtis**  
 (19) **and myself**  
 (20) Q All right Thereafter did you have an occasion to speak  
 (21) with Captain Hazelwood alone?  
 (22) **A Yes, sir**  
 (23) Q All right Did you - what did you say to - let me - I  
 (24) know you said a lot of things but did you ask Captain  
 (25) Hazelwood if he d been drinking?  
 (26) **A Not in those words sir**  
 (27) Q What did you ask him?

Vol 17 2591

- (1) **A I asked him if he had any personal problems or any**  
 (2) **problems**  
 (3) **at all and he said no**  
 (4) Q What did you mean by that?  
 (5) **A I meant specifically when I said personal problems I was**  
 (6) **speaking of alcohol, and just so that there was no**  
 (7) **misunderstanding, I said any problems at all to cover**  
 (8) **anything**  
 (9) Q Did you think he understood that you were referring to  
 (10) include alcohol?  
 (11) **A I m sure he did**  
 (12) Q Now then Mr O Neill played something yesterday for you  
 (13) regarding what - I ll pick up his term and say a version of  
 (14) Captain Hazelwood s testimony regarding the Henry s do you  
 (15) remember that?  
 (16) **A Yes, sir**  
 (17) Q Let me play another version of that  
 (18) (Portion of Video Testimony of Captain Hazelwood played as  
 (19) follows)  
 (20) BY VIDEO EXAMINER  
 (21) Q You want to make a clarification Captain?  
 (22) **A Yeah I m trying to recall my answer It was t nearly**  
 (23) **as - my recounting of the event was not as specific as it was**  
 (24) **to Mr Leyendecker It was - you know, it was more part and**  
 (25) **parcel of out in the (video noise) type of exchange**  
 (26) Q Okay Captain I think the record s going to be a little

Vol 17 2592

- (1) confused Make sure you tell Mr Kende exactly what it is  
 (2) you re referring to that you re correcting  
 (3) **A In the sense that Mr Leyendecker in Portland the day**  
 (4) **after**  
 (5) **asking me I believe I told him that I d consumed the beer**  
 (6) **with**  
 (7) **Chief Engineer Kimtis and Mr Myers, when he questioned**  
 (8) **me**  
 (9) **about it a month or six weeks later, whenever that was in**  
 (10) **later**  
 (11) **June, I m not sure if I got that specific with my recounting of**  
 (12) **the Henry s alleged event And I m not sure how I answered**  
 (13) **it**  
 (14) UNIDENTIFIED SPEAKERS (Indiscernible)  
 (15) **A Well it was n t a specific question and answer about that**  
 (16) **specific event as it was with Mr Leyendecker**  
 (17) Q Well did you - did you indicate to him that you had  
 (18) consumed alcohol whether or not you were specific in your  
 (19) discussion?  
 (20) UNIDENTIFIED SPEAKER Objection insofar as the word  
 (21) indicate It is vague and ambiguous Did he tell him did he  
 (22) tell him if he consumed alcohol?  
 (23) BY VIDEO EXAMINER  
 (24) Q You understand what the word indicate means?  
 (25) **A Yes**  
 (26) Q Okay Thank you  
 (27) **A I don t recall specifically telling him that I told him**  
 (28) **that the beer I d gotten was in at Mr - Chief Engineer**  
 (29) **Kimtis behest, basically and there was no violation of the**

Vol 17 2593

- (1) **alcohol policy that I was aware of**  
 (2) Q What - did anything spark your recollection of that  
 (3) discussion over the lunch hour to change it from what it was  
 (4) this morning?  
 (5) **A Nothing sparked it except in the sense that thinking**  
 (6) **about**  
 (7) **It It was more that he was going down I think he had a**  
 (8) **checklist or something of all the repairs that were made in**  
 (9) **the**  
 (10) **yard, and this was on his checklist somewhere**  
 (11) (Portion of Video Testimony of Captain Hazelwood concluded)  
 (12) BY MR NEAL  
 (13) Q Now that testimony was not played for you yesterday?  
 (14) **A No, sir**  
 (15) Q When you had your separate conversation with Captain  
 (16) Hazelwood and you asked him if he had any personal problem  
 (17) or  
 (18) any problem at all as you phrase it did he tell you that he  
 (19) had consumed any of these Henry s beers?  
 (20) **A No sir I d like to add that the Henry s beer incident**  
 (21) **was not discussed at all**  
 (22) Q Now by the way later on you had another conversation with  
 (23) another - sometime later on not that day but several weeks  
 (24) later or some weeks later you had another conversation in  
 (25) which you asked another crew member if Captain Hazelwood  
 (26) was  
 (27) drinking didn t you?  
 (28) **A Yes, sir**  
 (29) Q Let me - I ll get to that Let me ask you back when you

Vol 17 2594

- (1) asked Chief Engineer Kimtis if Hazelwood had been drinking why
- (2) did you go to the chief engineer? Is there a reason you d go
- (3) to him?
- (4) **A Like the captain, he in essence is what you might call a**
- (5) **management representative on board He s head of the**
- (6) **engine**
- (7) **department In addition to that, Chuck Kimtis was with me**
- (8) **in**
- (9) **San Diego three or four months from out of six or seven**
- (10) **from**
- (11) **May 1986 through December when the ship was delivered**
- (12) **and I d**
- (13) **developed somewhat of a rapport with him having worked**
- (14) **with**
- (15) **him, and I felt I could speak to him in confidence**
- (16) **Q You re both engineers?**
- (17) **A Yes, sir**
- (18) **Q Now let s go to the meeting with Mr Day in March of**
- (19) **1989 Do you remember being examined about that?**
- (20) **A Yes, sir**
- (21) **Q Mr O Neill asked you yesterday a question - just so the**
- (22) **record is clear you deny that Mr Day told you about what**
- (23) **we - about Mary Williamson observing Captain Hazelwood in a**
- (24) **possibly inebriated state Do you remember that question?**
- (25) **A Yes sir**
- (26) **Q All right I m going to read you the testimony of - I**
- (27) **hope it s basically a summary of her testimony on this subject**
- (28) **that s presented to this jury**
- (29) **My perception - this is - I m reading Mary Williamson s**
- (30) **testimony My perception was I smelled alcohol on this man s**

Vol 17 2595

- (1) **breath He could have had a beer five minutes before he**
- (2) **showed**
- (3) **up for the launch He didn t slur his words he didn t**
- (4) **stumble He wasn t as nice to me as he d always been on the**
- (5) **phone with me but I didn t take that directed at me That s**
- (6) **what I perceived I didn t perceive a fumbling person going**
- (7) **back to the ship**
- (8) **Now did you hear anywhere in there about any inebriated**
- (9) **state or possibly inebriated state?**
- (10) **A No, sir**
- (11) **Q Now you were also played a portion of Mr Day s testimony**
- (12) **yesterday in which he recollects at that point telling you**
- (13) **about the - whatever Mary Williamson told him Do you**
- (14) **remember that?**
- (15) **A Yes sir**
- (16) **MR NEAL Let me play a portion that was not played**
- (17) **yesterday**
- (18) **(Portion of Video Testimony of Steve Day played as follows)**
- (19) **BY VIDEO EXAMINER**
- (20) **Q You said a few moments ago in response to one of Mr**
- (21) **Klinckhardt s questions that you didn t know whether Mr Myers**
- (22) **had heard or understood what you were telling him about**
- (23) **Captain**
- (24) **Hazelwood is that accurate summary of what you said**
- (25) **paraphrasing?**
- (26) **A Yeah I hope it agrees I hope it agrees with the record**
- (27) **but yeah**

Vol 17 2596

- (1) **Q Okay What I m interested in is what you meant by heard**
- (2) **I take it you didn t mean there was noise in the room and he**
- (3) **didn t hear the words?**
- (4) **A Right, no**
- (5) **Q What did you - was there a message you were trying to get**
- (6) **across to Mr Myers that perhaps was not expressed in what you**
- (7) **were telling him?**
- (8) **A Well, sometimes Mr Myers, I don t know if you ve met**
- (9) **him,**
- (10) **tends to have a very flat affect, and when you speak to him**
- (11) **you can t determine whether it bounced off or sunk in**
- (12) **sometimes, you know Whether he s preoccupied with**
- (13) **something**
- (14) **else you just - as Mr Klinckhardt asked, what was his**
- (15) **response and there really wasn t much of a response and**
- (16) **that s**
- (17) **why I said, you know, in thinking about it and trying to**
- (18) **answer**
- (19) **truthfully, can I really be sure that he heard me or was he**
- (20) **thinking so much about something else that was going on**
- (21) **that**
- (22) **day that you know he maybe (indicating) passed through**
- (23) **(Portion of Video Testimony of Steve Day concluded)**
- (24) **BY MR O NEILL**
- (25) **Q Mr Myers what was what was - did you have problems on**
- (26) **that day and surrounding that day?**
- (27) **A Yes, sir**
- (28) **Q Explain to the jury what you were working on?**
- (29) **A As I mentioned yesterday, the Exxon Valdez, I believe,**
- (30) **tried to leave San Francisco on the Monday - I think it was**

Vol 17 2597

- (1) **Monday the 13th of March and I got a call at 7 30 at night**
- (2) **and the chief engineer told me that they d had some**
- (3) **vibration**
- (4) **and we - the ship came back and we spent all week trying to**
- (5) **determine what the problem was and having to do with the**
- (6) **turbocharger and it surging and vibration**
- (7) **Q Were you working on that?**
- (8) **A Yes sir**
- (9) **Q Now I believe in answer to Mr O Neill s question**
- (10) **yesterday you said you didn t hear Mr Day say anything about**
- (11) **Captain Hazelwood is that correct?**
- (12) **A That s correct**
- (13) **Q You heard something would you explain what you heard?**
- (14) **A I heard the words officer s busting Reeder s chops**
- (15) **Q Officer s busting Reeder s chops What did that mean to**
- (16) **you?**
- (17) **A In the context of what was going on at that time, it meant**
- (18) **relatively little and it referred to what is old business I**
- (19) **don t know whether it s healthy competition between ships**
- (20) **but**
- (21) **this has been going on or had been reported to me for two**
- (22) **or**
- (23) **three months and I d also spoken to Mr McRobbie about it**
- (24) **as**
- (25) **well**
- (26) **Q What had been going on?**
- (27) **A A friction between the lightering vessel and, not only the**
- (28) **Valdez, but the other vessels that I dealt with that lightered**
- (29) **to the Galveston**
- (30) **to the Galveston**

Vol 17 2598

Vol 17 2600

- (1) Q Some of us and I guess up till a few months ago I was one  
 (2) of them didn't understand what lightering a vessel meant  
 (3) means. What does that mean?  
 (4) **A Well the - the larger ships that I dealt with were too**  
 (5) **big to go to a berth in the San Francisco Bay area so they**  
 (6) **would come in and anchor and then they would bring a**  
 (7) **smaller**  
 (8) **ship alongside and then they would attach hoses and they**  
 (9) **would**  
 (10) **fill that ship up. That ship would go away and discharge**  
 (11) **cargo, and then it would come back and they would do the**  
 (12) **same**  
 (13) **operation again. That's called lightering smaller ship**  
 (14) **taking**  
 (15) **cargo from a bigger one**  
 (16) Q Unlike the Port of Valdez where you can move your big ship  
 (17) right up to the berth and put it right beside the berth you  
 (18) can't do that in the port of San Francisco?  
 (19) **A That's correct**  
 (20) Q You have to anchor out in the bay and have smaller ships  
 (21) come out, unload your cargo into smaller ships and they take it  
 (22) into the berth?  
 (23) **A That's correct**  
 (24) Q All right. And Captain Reeder you referred to was the  
 (25) master of one of those smaller lightering vessels is that  
 correct?  
 (26) **A The Exxon Galveston that is correct**  
 (27) Q And the other officers or masters you talk about were the  
 (28) officers or people who had to leave San Francisco go various

- (1) right?  
 (2) **A Yes sir**  
 (3) Q And you had certain vessels under you. Were there other  
 (4) ship group coordinators in the west coast fleet?  
 (5) **A Yes sir**  
 (6) Q And they had certain vessels under their jurisdiction?  
 (7) **A Yes sir**  
 (8) Q Up until 1988 had you had anything to do with the ranking  
 (9) of masters of the Exxon west coast fleet or the gulf coast  
 (10) fleet?  
 (11) **A No, sir**  
 (12) Q Did you have anything to do with the ranking of masters for  
 (13) 1988?  
 (14) **A Yes sir**  
 (15) Q Let me show you Defense Exhibit 9123 and ask if you  
 (16) recognize that. Could we put that up? I'll try to bring this  
 (17) in but maybe I'll not be able to  
 (18) **A I can read it**  
 (19) Q Huh?  
 (20) **A I can read it. That's a - a ranking list of west coast**  
 (21) **fleet masters**  
 (22) Q For what year?  
 (23) **A 1988**  
 (24) Q All right. Do you see Captain Hazelwood on that?  
 (25) **A Yes sir**

Vol 17 2599

Vol 17 2601

- (1) places and come back?  
 (2) **A That is correct**  
 (3) Q The Galveston never left San Francisco Bay?  
 (4) **A Not in her role as lightering vessel. Occasionally, she**  
 (5) **would make specific cargo moves to other locations**  
 (6) Q Now Mr. Myers let me ask you this question had you -  
 (7) what would you have done - I have played you or read to you  
 (8) what Mrs. Williamson said about smelling alcohol on Captain  
 (9) Hazelwood's breath not slurring his words or anything like  
 (10) that but smelling alcohol and Mr. Day has testified that  
 (11) basically he had said to you whether you heard it or not what  
 (12) Mrs. Williamson had said to him  
 (13) What would you have done had you heard - assuming Mr. Day  
 (14) said it had you heard it what would you have done?  
 (15) **A I would have asked Mr. Day to accompany me to Mr**  
 (16) **Borgen's**  
 (17) **office and we would have got to the bottom of what he knew**  
 (18) **we**  
 (19) **would have, I'm sure, brought in Mary Williamson to find out**  
 (20) **exactly what she did know and what her story was. And**  
 (21) **depending upon what came out of that, I can see bringing**  
 (22) **Captain Hazelwood into the office and discussing to**  
 (23) **determine**  
 (24) **what exactly his side of the issue was**  
 (25) Q Let me move on to another subject Mr. Myers You  
 became - I guess you started working on the job in January  
 February of 1988 and you became on March 1 1988 the ship  
 group - effective March 1 the ship group coordinator is that

- (1) MR NEAL Your Honor if this trial lasts long  
 enough I might even get to be adequate on this  
 (2) BY MR NEAL  
 (3) Q That's Captain Hazelwood?  
 (4) **A Yes sir**  
 (5) Q Where is he - if I've counted that correct there are  
 (6) what 21 masters?  
 (7) **A I believe there's 21 there, yes sir**  
 (8) Q And Captain Hazelwood is ranked 13 on this?  
 (9) **A Yes, sir**  
 (10) Q Is that the way you ranked him?  
 (11) **A There's one difference here. Captain Deppe, who is on**  
 (12) **the**  
 (13) **list, was part of making up the list and I believe his**  
 (14) **placement was later given by Mr. Borgen, so with the**  
 (15) **exception**  
 (16) **of that, it would be like, I believe 12 out of 20**  
 (17) Q Okay if you leave out Captain Deppe who was shoreside  
 as far as you were concerned you didn't put him on the list?  
 (18) **A That's right**  
 (19) Q If you leave him out it's 12 out of 20?  
 (20) **A That's right**  
 (21) Q Mr. Myers following this ranking did you make any  
 (22) memorandum regarding the ranking as it pertained to Captain  
 (23) Hazelwood?  
 (24) **A Yes, sir**  
 (25) Q And did you send a copy to Captain Hazelwood?

Vol 17 2602

Vol 17 2604

- (1) **A Yes sir**  
 (2) **Q Let me show you what is Defense Exhibit 9128 and ask if you**  
 (3) **recognize that**  
 (4) **A Yes I do**  
 (5) **Q What is that?**  
 (6) **A It s a memo that I wrote to Captain Hazelwood that**  
**summed**  
 (7) **up the discussion that I had with him, the feedback**  
**discussion**  
 (8) **I had with him with his performance and the ranking that**  
**had**  
 (9) **just taken place**  
 (10) **Q Joe was complimented on his professional expertise**  
 (11) **leadership and interdepartmental cooperation?**  
 (12) **A Yes sir**  
 (13) **Q What did you mean interdepartmental cooperation?**  
 (14) **A Traditionally, you ve got a deck department and an**  
**engine**  
 (15) **department on board the ship, and also a steward**  
**department and**  
 (16) **In - on many ships, these departments really didn t work**  
**well**  
 (17) **together It was like a them and us the deckies against the**  
 (18) **engine guys My observation on board the Exxon Valdez is**  
**they**  
 (19) **worked as a team and there was very good cooperation and**  
 (20) **communication between the departments**  
 (21) **Q I believe you say here if I m correct that I indicated**  
 (22) **that Joe ranked in the lower half of the third quarter of the**  
 (23) **WCFM is that west coast fleet -**  
 (24) **A Yes sir**  
 (25) **Q - masters? And had the potential to be ranked higher?**

Vol 17 2603

- (1) **A That is correct**  
 (2) **Q This is what you communicated to Captain Hazelwood?**  
 (3) **A Yes sir**  
 (4) **Q Now bring it back up one more time and ask you about the**  
 (5) **last paragraph here**  
 (6) **Joe can improve his performance by directing his energy**  
 (7) **towards constructive activities within the framework of the**  
 (8) **organization as Joe has much to contribute What did you**  
**mean**  
 (9) **by that?**  
 (10) **A Well Joe s not politic He s a good seaman and a very**  
 (11) **good ship handler but he s got a little trouble or had a**  
 (12) **little trouble with shoreside management**  
 (13) **Q If you had been - if you had thought that - never mind**  
 (14) **Let me go to one last thing and I think we can - maybe two**  
 (15) **last things and we can wind this up**  
 (16) **During the time 1988 that you were ship group coordinator**  
 (17) **for certain vessels of the west coast fleet was there any**  
 (18) **company pressure for rapid turn around in the Port of Valdez?**  
 (19) **A No, sir**  
 (20) **Q You know what I mean by rapid turn around?**  
 (21) **A Yes sir**  
 (22) **Q What do I mean?**  
 (23) **A From the time the ship gets there to when it leaves to**  
 (24) **hurry up and let s go by a certain time or within a certain**  
 (25) **number of hours or -**

- (1) **Q All right I m going to show you - and I ask the Court s**  
 (2) **permission to approach the witness and hand them to you**  
**because**  
 (3) **they re a little more bulky than the others**  
 (4) **I m going to show you what is in evidence as Defendants**  
 (5) **Exhibit 3509 and 3487**  
 (6) **Do you recognize those?**  
 (7) **A Yes, sir**  
 (8) **Q All right Tell the ladies and gentlemen of the jury what**  
 (9) **this one shows**  
 (10) **A Well this is a Valdez position report which lists the**  
 (11) **vessels in various times and arriving at Hinchinbrook,**  
**berthing**  
 (12) **and unberthing, and this one says that the Exxon Valdez did**  
 (13) **leave berth 5 at 20 - at 9 00 in the evening on the 23rd, and**  
 (14) **what it says here is the next ship was due at that berth at**  
 (15) **1400 the next day, and that means to me that the Exxon**  
**Valdez**  
 (16) **could have stayed at least 12 to 15 more hours at berth**  
 (17) **number 5**  
 (18) **Q What I m circling here on the monitor is the Exxon Baton**  
 (19) **Rouge and it says arrives Hinchinbrook - arrive Hinch?**  
 (20) **A Yes that s correct**  
 (21) **Q And that s 240800 What does that mean?**  
 (22) **A That s 8 00 in the morning on the 24th**  
 (23) **Q And arrive berth at 2400 that means 2 00 in the afternoon**  
 (24) **on the 24th?**  
 (25) **A Yes that s correct**

Vol 17 2605

- (1) **Q And you re telling the jury that berth five - I think**  
 (2) **we ve already established this was the berth that had the**  
 (3) **Valdez right?**  
 (4) **A That is correct**  
 (5) **Q And so there was no vessel that would be needing that berth**  
 (6) **until two p m on the 14th?**  
 (7) **A That is correct**  
 (8) **Q The Exxon Valdez however left at approximately 9 20 on**  
 (9) **the 23rd 9 20 p m ?**  
 (10) **A Yes, sir**  
 (11) **Q Now let s go to the next vessel the next document Can**  
 (12) **you tell me what this is?**  
 (13) **A This shows all the ships on the west coast basically**  
**where**  
 (14) **they are, arrival date arrival time, estimated time at the**  
 (15) **next port and when it would depart the next port It s**  
 (16) **basically a position sheet on all ships in the west coast**  
 (17) **fleet**  
 (18) **Q Okay When was the - I m not sure I ve got this right**  
 (19) **Take it off and you ll put it up there? Okay You take care**  
 (20) **of it Would you go ahead and do the rest? I can t see this**  
 (21) **Tell me the Valdez could have remained at the berth until**  
 (22) **two p m on March 24 you say?**  
 (23) **A That is correct**  
 (24) **Q Some - oh gosh how many hours is that after nine p m**  
 (25) **the previous day?**

Vol 17 2606

- (1) **A At least 15**  
 (2) **Q Now my question to you is when was the Valdez due to arrive at its destination that is Long Beach California?**  
 (3) **A It says on this sheet the 31st of March**  
 (4) **Q If it had waited overnight and left the next day would it have plenty of time to reach its destination by March 31 1989?**  
 (5) **A If it had gone full speed it would have arrived the 30th a day earlier than that**  
 (6) **Q Even earlier?**  
 (7) **A The answer to your - that s right**  
 (8) **Q Leaving on the 24th?**  
 (9) **A That s correct**  
 (10) **Q What happens if a vessel like the Valdez with North Slope crude arrives at its destination in this case Long Beach before its scheduled date?**  
 (11) **A At Long Beach it would go to an anchorage and anchor and wait for the availability of a berth**  
 (12) **Q And just simply be out of operation?**  
 (13) **A That is correct**  
 (14) **MR NEAL Would Your Honor indulge me a moment?**  
 (15) **BY MR NEAL**  
 (16) **Q Just briefly did you - Mr Myers did you ever receive any information you yourself that you heard that Captain Hazelwood was drinking?**

Vol 17 2607

- (1) **A No, sir**  
 (2) **Q Whether on duty off duty whether you could have done anything about it or not?**  
 (3) **A No sir**  
 (4) **Q Had you tried your best to find out whether he was drinking?**  
 (5) **A Yes, sir**  
 (6) **Q Asking crew members?**  
 (7) **A Not specifically if he was drinking other than the two chief engineers but I certainly -**  
 (8) **Q But you did ask two chief engineers?**  
 (9) **A That's right and I asked other crew members how things were going**  
 (10) **Q March of 89 was approximately four years after Captain Hazelwood went through rehabilitation as has been discussed here is that correct?**  
 (11) **A Yes, sir**  
 (12) **Q Did you think even four years later that Captain Hazelwood was drinking or had started drinking?**  
 (13) **A No, sir**  
 (14) **Q As a matter of fact - as a matter of fact let me close by asking this you went to fleet officers conferences with Captain Hazelwood in 1988 did you not?**  
 (15) **A Yes, sir**  
 (16) **Q Several days?**

Vol 17 2608

- (1) **A Yeah it was a whole week**  
 (2) **Q Whole week And I assume you got to see him every day?**  
 (3) **A Yes sir**  
 (4) **Q Did you go to places where alcohol was being served?**  
 (5) **A Yes sir**  
 (6) **Q Did you have a drink?**  
 (7) **A Yes sir**  
 (8) **Q Did Captain Hazelwood have a drink?**  
 (9) **A Not alcohol**  
 (10) **Q What did he have?**  
 (11) **A I think bubbling water or sparkling water**  
 (12) **Q And as a matter of fact sometime in 1988 you had occasion to have a luncheon to celebrate some event with Captain Hazelwood did you not?**  
 (13) **A That is correct**  
 (14) **Q What was that event?**  
 (15) **A It was the event of his 20 years with the company**  
 (16) **Q And you all were celebrating his 20th year at this luncheon was there anything alcoholic served?**  
 (17) **A Yes, sir**  
 (18) **Q Did Captain Hazelwood drink alcohol?**  
 (19) **A No sir**  
 (20) **MR NEAL Thank you Thank you Mr Myers**  
 (21) **THE COURT Redirect?**  
 (22) **MR O NEILL Thank you Judge**

Vol 17 2609

- (1) **REDIRECT EXAMINATION OF PAUL MYERS**  
 (2) **BY MR O NEILL**  
 (3) **Q We started yesterday and the Exxon Corporation counsel came back to the phone call that you had with Captain Hazelwood**  
 (4) **after the vessel was aground and I played you an audio tape of a VTC conversation that was at about midnight Alaska time which would make it about 1 00 west coast time do you recall that?**  
 (5) **A Yes sir**  
 (6) **Q And the question and answer was well this isn t close to the time this VTC tape is not close to the time that you had your conversation with Captain Hazelwood do you recall that?**  
 (7) **A It s about an hour and a half difference, I believe**  
 (8) **Q Let s see if we can find the VTC tape Your notes indicate that the call took place at 2 30?**  
 (9) **A I believe that s when I woke up I think it was a little later than that but it s close enough**  
 (10) **Q Close enough Let s see if we can - there is a VTC transmission at 1 07 Alaska time which would make it 2 07 your time within a half an hour of the phone call that s a fair - the times are fair Let s listen to the transmission**  
 (11) **Can you play the transmission?**  
 (12) **MR NEAL Your Honor we re back to the problem area here I don t have a chance to get back up I don t recollect going into that in my - my examination I covered the - just**

Vol 17 2610

- (1) asked him the same questions that he d asked on direct  
 (2) MR O NEILL He went into the topic of his voice the  
 (3) voice on the tape being different than the voice in the phone  
 (4) call to explain it away So he went into the subject matter  
 (5) Now I have a tape at 2 07 within 23 minutes  
 (6) MR NEAL I thought he d gone into this is the  
 (7) reason I asked it  
 (8) MR O NEILL It s a separate transmission  
 (9) MR NEAL Oh I m sorry I m sorry  
 (10) MR O NEILL Can you play the transmission?  
 (11) (Audio played off record)  
 (12) BY MR O NEILL  
 (13) Q Now that s within about a half hour of your conversation  
 (14) with him Was the quality of his voice timber spacing  
 (15) speech mannerisms at that time about the same as when you  
 (16) talked to him?  
 (17) **A I d say no, that sounded still different than certainly the**  
 (18) **telephone line Certainly the telephone line was also**  
 (19) **clearer,**  
 (20) **but the – the pacing of our conversation was much –**  
 (21) **seemed to**  
 (22) **be much smoother than that I d ask a question he would**  
 (23) **answer it**  
 (24) Q So would it be fair to say that when you talked to him at  
 (25) 2 30 his voice his voice mannerisms his pacing were  
 distinctly different than when you talked to him the first time  
 and the second time?

Vol 17 2611

- (1) **A I only talked to him once**  
 (2) Q I mean from the first VTC transmission and the second VTC  
 (3) transmission we ve listened to?  
 (4) **A I certainly sounded different the pace was different and**  
 (5) **of course it was on a telephone line**  
 (6) MR O NEILL Could we have the Elmo please? I would  
 (7) like to offer exhibits 1805 page 180 and 1806 page 2 which  
 (8) are the two pages that we ve talked about from his notebook  
 (9) Is there any objection?  
 (10) (Exhibits 1805 and 1806 offered)  
 (11) MR NEAL The pages that you – that you showed  
 (12) yesterday?  
 (13) MR O NEILL Yes sir  
 (14) MR NEAL Were there two of them? I only remember  
 (15) one But we have no objection to the pages that were  
 (16) published  
 (17) yesterday  
 (18) THE COURT I understand those were exhibit –  
 (19) plaintiffs exhibit or defendants exhibit?  
 (20) MR O NEILL Plaintiffs Exhibit 1805 page 180 and  
 (21) 1806 page 2  
 (22) THE COURT All right I understand there are no  
 (23) objections to those two pages and they are admitted  
 (24) MR NEAL That is correct  
 (25) (Exhibits 1805 and 1806 received)  
 BY MR O NEILL

Vol 17 2612

- (1) Q Do you know when Mr Glowacki was assigned to the Exxon  
 (2) Valdez?  
 (3) **A He, I believe, left with the ship when it went on its**  
 (4) **maiden voyage That would be December I think 11th,**  
 (5) **1986**  
 (6) Q And his first tour with Captain Hazelwood was in February  
 (7) of 1989?  
 (8) **A If you say so**  
 (9) Q And I think that s what he indicated in his deposition  
 (10) that his first tour with Captain Hazelwood was in February  
 (11) of 89 and that causes me to ask something about your  
 (12) testimony yesterday  
 (13) You testified yesterday that as a follow up to the Henry s  
 (14) incident you talked to Kimtis and Glowacki do you recall  
 (15) that?  
 (16) **A Yes, sir**  
 (17) Q But Mr Glowacki wasn t serving with Captain Hazelwood  
 (18) until February of 1989?  
 (19) **A That s correct**  
 (20) Q Now you testified that when you talked to Mr Kimtis and  
 (21) Captain Hazelwood about this review that you talked to them  
 (22) because they were quote the management representatives on  
 (23) board do you recall saying that this morning?  
 (24) **A We re talking about captain – I mean Chief Engineer**  
 (25) **Kimtis**  
 Q And Hazelwood?

Vol 17 2613

- (1) **A Yes**  
 (2) Q And they were the management representatives on board?  
 (3) **A Yes, sir**  
 (4) Q Would you explain that to us?  
 (5) **A The captain and chief engineer are certainly responsible**  
 (6) **for their – their various departments and in relationship to**  
 (7) **this, if you will the stewardship or the management of the**  
 (8) **vessel the stewardship activity I believe started roughly**  
 (9) **ten years – no – yes – let s see About late 70s early**  
 (10) **80s when it was determined that the folks that ran the**  
 (11) **respective departments would be management on board the**  
 (12) **ship**  
 (13) **and the stewardship process started**  
 (14) Q To some extent that s what Mr Larossi talks about in his  
 (15) talk surrounding the memories have you ever heard that or  
 (16) read that?  
 (17) **A I ve read it, but I don t remember the details**  
 (18) Q But in any event the concept was to change the role the  
 (19) traditional role of the captain from someone who drove the boat  
 (20) to someone who managed the vessel and its activities as  
 (21) essentially an economic unit?  
 (22) **A I think that s what I was getting at when I mentioned that**  
 (23) **each individual fleet office for – since the late 70s or**  
 (24) **early 80s this is my understanding I wasn t there had**  
 (25) **specific stewardship activities I think the thing that**  
**changed in the time frame that I came into the organization**  
**is**

Vol 17 2614

- (1) that the stewardship requirements were going to be the same for
- (2) both fleets of ships, rather than a little different for one
- (3) fleet than the other, and the other aspect that was cranked
- (4) into this is the safety aspect that wasn't actually part of the
- (5) stewardship before. It was like a separate entity
- (6) Q So at least by the time by 1988 1989 the captain and the
- (7) chief engineer were the management of the company on board
- (8) the ship?
- (9) A I wouldn't - management of Exxon Shipping Company, is that
- (10) what you're saying?
- (11) Q The management representative on board the ship?
- (12) A Yeah I would say so
- (13) Q Now I want to talk to you for a minute about this Mr. Day
- (14) coming in to talk to you about the Mary Williamson incident and
- (15) the possibility that you may have been less than attentive
- (16) during the conversation if in fact the conversation took
- (17) place. Does that make sense?
- (18) A Yes, with the exception I was - I went to him on another
- (19) topic
- (20) Q Okay
- (21) A There's a little disagreement there
- (22) Q The issue of Captain Hazelwood and drinking was an
- (23) important issue in your mind wasn't it?
- (24) A I would say so
- (25) Q And the issue of a drinking captain who had gone through

Vol 17 2615

- (1) alcohol treatment was one that you knew could present dangers
- (2) to the vessel to the safety of the vessel to the environment
- (3) surrounding the vessel. You were aware of the risks?
- (4) A I was aware of the policy
- (5) Q You were aware of the risks too weren't you?
- (6) A I was also aware of the policy
- (7) Q Were you aware of the risks?
- (8) A What risks are we talking about?
- (9) Q That a captain who had an alcohol problem who suffered
- (10) from alcoholism of a supertanker presented a clear and present
- (11) danger to the vessel if he was drinking again to the vessel
- (12) and the environment -
- (13) A If he was drinking if anybody was drinking, actually
- (14) Q Now the rankings that you looked at today where you had
- (15) him in the middle those were not the final rankings were
- (16) they? Those were your recommendations?
- (17) A That was the - I believe the final ranking for the west
- (18) coast fleet
- (19) Q Was that the final Exxon Shipping Company ranking for that
- (20) year?
- (21) A I believe they were melded with the gulf coast masters
- (22) Q Would it be fair to say from your testimony today that on
- (23) the evening of the 23rd there was no need for the Valdez to go
- (24) out at night and there was no need for the Valdez to have run
- (25) the risk of that ice at night that it could have waited for

Vol 17 2616

- (1) another day?
- (2) A If there was a specific reason the ship could have stayed
- (3) Q Are you aware at all of the ice telex?
- (4) A Which ice telex?
- (5) Q Captain Martineau sending an ice telex on or about
- (6) March 16 1989 to some part of the west coast fleet
- (7) recommending that Exxon Shipping Company vessels only take
- (8) passage because of ice conditions during the day?
- (9) A I've heard about that but I don't remember seeing it
- (10) Q You've heard about it though?
- (11) A Yes, from counsel
- (12) Q You testified that you monitored Captain Hazelwood and I'm
- (13) just going to ask a series of questions that all have to do
- (14) with monitoring whether you did or didn't do it okay? Did
- (15) you ever talk to anybody in the medical department about
- (16) Captain Hazelwood?
- (17) A No sir
- (18) Q Did you ever talk to anybody in the - what is it human
- (19) resources section or department that Dan Paul heads up about
- (20) Captain Hazelwood and drinking?
- (21) A No, sir
- (22) Q Did you document any of the so called monitoring of Captain
- (23) Hazelwood?
- (24) A There's nothing to document
- (25) Q Okay Did you ever inquire of the Exxon Shipping Company

Vol 17 2617

- (1) agent Alamar in Valdez about Captain Hazelwood and
- (2) drinking?
- (3) A No sir
- (4) Q Did you ever do a random search of Captain Hazelwood's
- (5) quarters?
- (6) A No sir
- (7) Q Did you ever search the ship?
- (8) A No sir However the - all of the ships in the west
- (9) coast fleet in the - I believe in 1989, were going to be
- (10) randomly searched and one had been scheduled for the
- (11) Exxon
- (12) Long Beach and then canceled just prior to the incident
- (13) because
- (14) they couldn't get the dogs, but this was - this was planned
- (15) Q Would it be fair to say that during your tenure there were
- (16) no searches of the Exxon Valdez with regard to alcohol?
- (17) A That I am aware of that's correct
- (18) Q And you never asked anyone at Exxon Corporation other
- (19) than
- (20) the conversation you related with regard to Mr. Borgen about
- (21) Captain Hazelwood and drinking on duty did you about his
- (22) history?
- (23) A About his history?
- (24) Q Yes sir
- (25) A No, sir
- (26) Q And you never discussed Captain Hazelwood's - the issue of
- (27) Captain Hazelwood's alcohol problems with other supervisors
- (28) in
- (29) the west coast fleet office other than Mr. Borgen did you?
- (30) A My understanding was that Mr. Borgen told me that in

Vol 17 2618

- (1) **confidence and the policy is clear that the whole issue of**  
 (2) **rehab is not to be discussed unless the employee brings it**  
 (3) **up**  
 (4) **Q And you never discussed the issue of rehabilitation with**  
 (5) **Captain Hazelwood did you?**  
 (6) **MR NEAL Your Honor this is getting repetitive now**  
 (7) **from his examination yesterday Maybe I waste more time**  
 (8) **making**  
 (9) **the objection than letting him go ahead but I object on**  
 (10) **repetition covering the same ground**  
 (11) **THE COURT I'll allow it**  
 (12) **MR O NEILL Thank you Judge**  
 (13) **I'm sorry Could you read back that question?**  
 (14) **(Requested testimony read)**  
 (15) **THE WITNESS No sir I think I explained that**  
 (16) **yesterday**  
 (17) **BY MR O NEILL**  
 (18) **Q And you were provided with no professional training**  
 (19) **regarding how to monitor a recovering alcoholic were you?**  
 (20) **A Well, the thing is that during the 87 and 88 time frame**  
 (21) **the Exxon Shipping Company organization was inundated**  
 (22) **with**  
 (23) **documentation, much of it sent at home, about alcohol,**  
 (24) **alcohol**  
 (25) **policy actually what to look for what the criteria is It**  
 (26) **was covered in fleet conferences it was covered in**  
 (27) **seminars**  
 (28) **and finally, it was covered on board the ships with**  
 (29) **discussions with the ships They were requested as well to**  
 (30) **discuss the whole issue during their safety - safety**  
 (31) **meetings**

Vol 17 2619

- (1) **so that everybody would be aware of the issues**  
 (2) **Q Sir would you go to page 144 of your deposition**  
 (3) **transcript? It's right over there to the left It's in the**  
 (4) **big volumes**  
 (5) **A Hundred and what?**  
 (6) **Q 144**  
 (7) **A Yes sir**  
 (8) **Q And I'm going to read the question at line 18 and your**  
 (9) **answer The question at line -**  
 (10) **MR NEAL Excuse me just one moment May I have that**  
 (11) **page again?**  
 (12) **THE WITNESS 144**  
 (13) **BY MR O NEILL**  
 (14) **Q Why don't you read the question and answer from line 18 to**  
 (15) **line 21**  
 (16) **A Did you ever receive any kind of professional training by**  
 (17) **Exxon regarding how to monitor a recovering alcoholic I**  
 (18) **said**  
 (19) **no sir**  
 (20) **You want me to continue?**  
 (21) **Q No Well you can read - I mean if you want to**  
 (22) **A Asked if I went to an AA meeting**  
 (23) **Q It's another topic Have you ever been to an AA meeting?**  
 (24) **A No I think the point I'm getting at is I was looking at**  
 (25) **this -**  
 (26) **Q My point is were you asked the question and did you give**

Vol 17 2620

- (1) **the answer?**  
 (2) **A I mean a doctor did not discuss this with me but there**  
 (3) **was a tremendous amount of information that was**  
 (4) **disseminated,**  
 (5) **the issues were covered in fleet conferences, there were**  
 (6) **also**  
 (7) **seminars And as I also explained in and relevant to myself**  
 (8) **my father was as close to an alcoholic as you can get, and I**  
 (9) **have seen people that have had the problems that have**  
 (10) **actually**  
 (11) **been retired because of it in the early 70s where I worked**  
 (12) **So I've got a lot of information and, prior to this, I did not**  
 (13) **study the alcohol policy I was given certain things to study**  
 (14) **that were - that were called for and for this presentation I**  
 (15) **have this - I have gone back and looked at some of the**  
 (16) **documentation that I had seen, and that I certainly didn't**  
 (17) **remember at the time of the deposition**  
 (18) **Q What did you just call this?**  
 (19) **A The alcohol policy -**  
 (20) **Q No Didn't you just refer to your appearance here today as**  
 (21) **this presentation?**  
 (22) **A I beg your pardon?**  
 (23) **Q Did you just refer to your appearance here today as this**  
 (24) **presentation?**  
 (25) **A I was thinking of the presentations about alcohol I may**  
 (26) **have misspoke**  
 (27) **MR O NEILL I have nothing further**  
 (28) **MR NEAL I guess Your Honor wouldn't want me to ask**

Vol 17 2621

- (1) **one more - one question? I'm not pushing it Your Honor**  
 (2) **THE COURT Then let's go to another witness**  
 (3) **MR NEAL All right What would you say if I'd said**  
 (4) **I was pushing it let's go to another witness?**  
 (5) **THE COURT Right**  
 (6) **MR NEAL Okay Your Honor could I just move over**  
 (7) **here just one minute?**  
 (8) **THE COURT I'm sorry What do you want to do?**  
 (9) **MR NEAL Could I move over with Mr O'Neill to the**  
 (10) **side bar just one second while he's getting ready?**  
 (11) **(At side bar off the Record)**  
 (12) **THE WITNESS I can leave?**  
 (13) **MR SANDERS You can step down**  
 (14) **THE WITNESS Thank you**  
 (15) **THE COURT You're through sir Thank you**  
 (16) **Mr Montague?**  
 (17) **MR MONTAGUE Your Honor Plaintiffs call as their**  
 (18) **next witness Dr Richard Masters as an expert witness**  
 (19) **THE CLERK Raise your right hand please sir**  
 (20) **(The Witness Is Sworn)**  
 (21) **THE CLERK Please be seated For the record sir**  
 (22) **state your full name give us your address and spell your last**  
 (23) **name please**  
 (24) **THE WITNESS My name is Richard L Masters My**  
 (25) **address is 5299 DTC Boulevard Englewood Colorado And my**

Vol 17 2622

- (1) name is spelled M A S T E R S  
 (2) THE CLERK Thank you sir  
 (3) DIRECT EXAMINATION OF RICHARD L. MASTERS (Live)  
 (4) BY MR MONTAGUE  
 (5) Q Dr Masters could you please tell the jury your  
 (6) educational background?  
 (7) A I went to college at Wayne University in Detroit, Michigan,  
 (8) where I received a bachelor's degree in psychology I then  
 (9) started work on a master s degree and had a teaching  
 fellowship  
 (10) in psychology I did not complete the master s degree  
 because  
 (11) I had an opportunity, somewhat unexpected opportunity to  
 enter  
 (12) medical school and I went to the University of Michigan for  
 (13) four years and graduated from there  
 (14) Q Doctor could you keep your voice up a little bit? I think  
 (15) we re having trouble hearing you  
 (16) THE COURT Doctor that silver microphone will  
 (17) amplify If you get it over in front of you and speak into it  
 (18) it ll broadcast your voice  
 (19) THE WITNESS Thank you  
 (20) MR MONTAGUE Thank you very much  
 (21) THE WITNESS I graduated from the University of  
 (22) Michigan in 1957 with an M D degree took an internship then  
 (23) entered the United States Air Force  
 (24) I was in the Air Force for a total of nearly ten years  
 (25) During my work in the Air Force I took a master s degree in

Vol 17 2623

- (1) public health preventive medicine and occupational medicine  
 at  
 (2) Harvard University and completed my residency training for my  
 (3) board certification  
 (4) BY MR MONTAGUE  
 (5) Q What is occupational medicine Doctor?  
 (6) A That s the study of the diseases of work environments as  
 (7) they affect humans and the - and the effect of humans in  
 their  
 (8) work environment  
 (9) Q Okay And today do you have a specialty?  
 (10) A Yes  
 (11) Q Could you tell us what it is?  
 (12) A I m a special - I m board certified by the American Board  
 (13) of Preventive Medicine in aviation medicine, and my  
 specialty  
 (14) is preventive medicine, aviation and occupational medicine  
 (15) Q Do you have any special expertise in alcohol abuse  
 (16) programs?  
 (17) A Yes  
 (18) Q And does that include the monitoring of employees in safety  
 (19) sensitive positions?  
 (20) A Yes  
 (21) Q Could you tell us how you developed that expertise?  
 (22) A Well, skipping anything that I might have had contact with  
 (23) in the Air Force I start with my assignment or my work after  
 I  
 (24) left the Air Force at the Lovelace Foundation for Medical  
 (25) Education and Research At that organization I became the

Vol 17 2624

- (1) chairman of the department of preventive medicine and as  
 a  
 (2) part of that work there I was responsible for a number of  
 (3) consulting contracts with various organizations probably  
 the  
 (4) most significant being the - what we called then the atomic  
 energy commission  
 (5) Q And what did you do with respect to the atomic energy  
 (6) commission?  
 (7) A Well I had a number of roles there, but -  
 (8) Q I mean relating to an alcohol abuse program?  
 (9) A Yes sir relating to that I was a consultant to the  
 (10) commission in drawing up and enhancing the standards for  
 the  
 (11) selection for the continued duty and for special evaluations  
 of  
 (12) the persons who had hands on contact with nuclear  
 weapons, the  
 (13) couriers who transported those weapons and the methods  
 of  
 (14) transportation by land, sea and air  
 (15) Q Have you received any grants from the National Institute of  
 (16) Alcohol Abuse and Alcoholism?  
 (17) A Yes  
 (18) Q What is that what is that institute?  
 (19) A That s one of the national institutes of health that deals  
 (20) with, as the name says alcoholism and alcohol abuse  
 (21) Q And could you tell us if that grant included within it the  
 (22) area of monitoring of safety sensitive positions?  
 (23) A Yes it did  
 (24) Q And when did you get that grant?  
 (25)

Vol 17 2625

- (1) A The grant - the grant began on September 11th, 1974  
 (2) Q And when did you finish your work officially under that  
 (3) grant?  
 (4) A The official cessation of the grant was December 31st,  
 (5) 1982  
 (6) Q So that was approximately an eight year project?  
 (7) A Yes sir  
 (8) Q Okay Now can you tell us what you just - very briefly  
 (9) what you did under that grant?  
 (10) A Basically, we developed a program for the dealing of  
 (11) alcoholism in the safety sensitive positions in the airline  
 (12) industry  
 (13) Q And does that - the study that came out of that grant  
 (14) does that have a name?  
 (15) A Yes We called it the Human Intervention and Motivation  
 (16) Study, and the acronym for that is just HIMS, HIMS  
 (17) Q Okay And as a result of HIMS-Doctor have you had  
 (18) occasion to familiarize yourself with alcohol programs  
 (19) including monitoring programs in industries other than  
 (20) aviation?  
 (21) A Oh yes Before you get a grant for example you have to  
 (22) provide a very detailed written request detailing precisely  
 (23) what you re going to do and we did a great deal of study of  
 (24) programs that were in effect before the onset of the grant,  
 and  
 (25) then as a consequence of having the grant, we did a wide  
 study,

Vol 17 2626

- (1) collected hundreds of programs from major industries around the
- (2) country
- (3) Q Now with respect to your study of - which we'll call
- (4) HIMS have you had requests from other industries for copies of
- (5) that?
- (6) A Yes
- (7) Q I mean when I say other industries I mean industries
- (8) outside of the airline industry?
- (9) A Yes
- (10) Q And can you estimate how many?
- (11) A In a rough way, yes
- (12) Q Could you tell us?
- (13) A Well the National Institute of Alcohol Abuse and
- (14) Alcoholism provided our name to a number of industries who were
- (15) inquiring about these types of programs, so we really got some
- (16) inquiries before the completion of the program, but once we
- (17) completed the program we printed a thousand copies of the
- (18) report
- (19) And then I recall that we had to go back and do a second
- (20) printing of another 500 copies I would estimate that maybe
- (21) 500 copies went to the aviation industry in general so there
- (22) were probably about a thousand copies that got distributed
- (23) one way or the other including these numerous requests we have
- (24) various groups
- (25) Q Okay Now are you yourself involved in actual

Vol 17 2627

- (1) monitoring of employees in safety sensitive positions where
- (2) employees have returned from some form of alcohol treatment
- (3) program?
- (4) A You mean right now?
- (5) Q Yes
- (6) A Yes
- (7) Q And have you been doing that for a while?
- (8) A Yes a long time
- (9) Q For how long?
- (10) A For about 27 years - or 17 years, I'm sorry
- (11) Q 17 years? Okay And do the principles of monitoring that
- (12) you apply do they also apply to other industries involving
- (13) safety sensitive positions?
- (14) A Yes
- (15) MR MONTAGUE Your Honor I would offer Dr Masters
- (16) as an expert in occupational and preventive medicine and
- (17) specifically in monitoring procedures for employees in safety
- (18) sensitive positions with alcohol abuse problems and other
- (19) substance abuse problems
- (20) MR LYNCH Your Honor I'll reserve any questions I
- (21) have on that subject for cross
- (22) THE COURT Thank you The Court will accept Dr
- (23) Masters qualifications
- (24) MR MONTAGUE Thank you
- (25) BY MR MONTAGUE

Vol 17 2628

- (1) Q Doctor I'd like to now turn to monitoring We've heard a
- (2) lot about that the last couple of days and the questions -
- (3) I'd like you to understand that the questions I ask you are
- (4) going to not just relate to monitoring generally but to
- (5) monitoring of employees who return to a safety sensitive
- (6) position after having completed some form of alcohol treatment
- (7) program Okay?
- (8) A Yes
- (9) Q Can you keep that in mind? Okay By the way is the
- (10) captain of a large oil tanker considered a safety sensitive
- (11) position?
- (12) A I would consider him so yes
- (13) Q Okay Now in the context that I've placed this for
- (14) employees who return to safety sensitive positions after
- (15) completing some form of alcohol treatment in that context
- (16) could you tell us what the word monitoring means to you?
- (17) A Yes It has a rather specialized meaning because
- (18) monitoring really is the overall technique that you use to
- (19) prevent and deal with anything that might lead to a relapse
- (20) Q Okay And can you tell us does monitoring require some
- (21) kind of formal program to be effective?
- (22) A Yes We certainly believe that
- (23) Q And going back I want to go back now to 1985 and even
- (24) before then was monitoring for people returning to these
- (25) positions after treatment was that a recognized concept?

Vol 17 2629

- (1) A Yes I believe so
- (2) Q And in 1985 were there widely known methods for
- (3) monitoring
- (4) that were employed by corporations and other organizations?
- (5) A Yes
- (6) Q And if a corporation or an organization in 1985 wanted to
- (7) find out what those methods are were there sources that were
- (8) readily available?
- (9) A Yes
- (10) Q And could you tell us what some of those sources were?
- (11) A Well, I think the first place you would consider looking
- (12) would be to the National Institute of Alcohol Abuse and
- (13) Alcoholism, which had a very large occupational programs
- (14) division and an established clearinghouse for information
- (15) that
- (16) was available to any corporation or even the general public
- (17) Q Are there any other organizations that would have
- (18) information available as to methods of monitoring by
- (19) corporations or other organizations back in 1985?
- (20) A The National Council on Alcoholism would have some
- (21) information on that or would have had information on that
- (22) at
- (23) that time
- (24) Q Anything else that comes to mind?
- (25) A Yes. There is an organization called the Association of
- (26) Labor Management Consultants and Advisors in
- (27) Alcoholism an
- (28) acronym for that is ALMCAA and they would have had
- (29) information
- (30) available at that time In fact, actually, publications

Vol 17 2630

- (1) Q So back in '85 or before if a corporation wanted to have a  
(2) monitoring program especially for persons in safety sensitive  
(3) positions and especially where they've returned from some form  
(4) of alcohol treatment that information was readily available  
(5) is that a fair statement?  
(6) **A Yes From those organizations, as well as interchange of**  
(7) **information between corporations or organizations**  
(8) Q Is that the sort of information alcohol abuse programs and  
(9) ways to do it and monitoring is that the type of information  
(10) in your experience that large corporations are willing to  
(11) share amongst themselves?  
(12) **A I've rarely seen anyone refuse to share that information**  
(13) Q Okay Now can you describe for us as you understand it  
(14) and based on your experience the major features of a  
(15) monitoring program? And I'd like you to do that if you can  
(16) based on what was available in the early '80s or at least  
(17) 1985 And again relating to employees in safety sensitive  
(18) positions who have returned from some form of alcohol  
(19) treatment  
(20) **A Well monitoring is a concept that needs to be formalized**  
(21) **in a plan, and it needs to involve a relationship between the**  
(22) **operational supervisors and the medical department and the**  
(23) **individual or individuals being monitored**  
(24) Q And can you tell us - can you sort of tell us the roles  
(25) that each of those - well first of all when you say a

Vol 17 2631

- (1) formalized plan what's that supposed to set forth?  
(2) **A Well, it should be a written plan and it should be**  
(3) **explained very carefully the relationship between**  
(4) **supervisory**  
(5) **personnel and the medical department personnel and what their**  
(6) **specific roles are**  
(7) Q Okay Could you tell us for example what the - what the  
(8) role of the supervisor is and what - and its relation - and  
(9) the supervisor's relationship to the medical department?  
(10) **A Well, the supervisor is responsible for looking at the**  
(11) **overall behavior of an employee who has returned to work**  
(12) **and**  
(13) **for keeping in mind that you have to have a broad concept in**  
(14) **dealing with this He has to understand the employee as**  
(15) **well**  
(16) **as he can, he has to be concerned about the employee, and**  
(17) **he**  
(18) **has to be alert to any observations that he might make**  
(19) **about**  
(20) **changes in that employee's behavior, the way he**  
(21) **approaches his**  
(22) **job, that type of thing**  
(23) Q Okay And does the supervisor get any - should there be  
(24) interaction between the medical department and the supervisor  
(25) before the supervisor begins to watch that particular employee  
or keep an eye on him?  
(1) **A Yes The medical department would play a very key role**  
(2) **in**  
(3) **this, assuming for example that they would have made a**  
(4) **return**  
(5) **to work or fitness for duty determination after the person**  
(6) **comes out of the inpatient treatment program The medical**  
(7) **department would interact with the supervisor of a given**

Vol 17 2632

- (1) individual and together they would talk about what the  
 (2) monitoring program should be The medical department  
 should  
 (3) meet with the individual before he s returned to duty, and  
 then  
 (4) should have periodic meetings with him throughout the time  
 of  
 (5) his monitoring, as should supervisors  
 (6) Q Okay Now would it be fair to characterize the supervisor  
 (7) as the eyes and ears of the medical department?  
 (8) A That s a  
 (9) Q Is that a fair -  
 (10) A Yeah, that s a good term yeah  
 (11) Q Now when the supervisor sees something that is unusual or  
 (12) notices something in behavior or hears a report about behavior  
 (13) or drinking or whatever what - how does he then interact with  
 (14) the medical department?  
 (15) A I think the medical officer should be consulted by the  
 (16) supervisor They should have a conference discuss the -  
 the  
 (17) findings or observations of the supervisor We re certainly  
 (18) assuming that the supervisor will have done some  
 preliminary  
 (19) investigation of the problem and can give a fairly good  
 (20) description to the medical officer of what the problem might  
 (21) be  
 (22) Q Okay Now is it monitoring - is it monitoring if the  
 (23) supervisor never reports anything to the medical department?  
 (24) A No not under the plan that I ve described  
 (25) Q And why not?

Vol 17 2633

- (1) A Well, the - the whole monitoring program is aimed toward  
 (2) prevention What you re looking at is making sure that the  
 (3) person has continued in his progress and his aftercare  
 program  
 (4) is in continuing care and is being observed very closely in  
 (5) every way Medical department may have information  
 pertaining  
 (6) to this particular case which might cause them to have  
 reason  
 (7) to perform a formal professional evaluation for example  
 (8) Q And might that be information that is not available outside  
 (9) of the medical department?  
 (10) A Yes, they had - would have the records from the  
 treatment  
 (11) center They would have the frequent reports from the  
 (12) aftercare program all of those types of things  
 (13) Q And what if they didn t have those records?  
 (14) A Well I think they would have to have them I don t think  
 (15) it would be an adequate monitoring program if they didn t  
 (16) Q Does a - in a responsible monitoring program is the - is  
 (17) it proper for the medical department to require the employee  
 (18) who has been in treatment to make his records available? As a  
 (19) condition of returning to his safety sensitive position?  
 (20) A I believe it is I believe that it would be quite  
 (21) important I can t conceive of how the medical department  
 (22) could make judgments without having that information  
 available  
 (23) to them  
 (24) Q Would it at least be appropriate to ask for them?  
 (25) A More than appropriate

Vol 17 2634

- (1) Q Okay Now let s get back on the beat here Once the  
 (2) supervisor spots something and reports it to the medical  
 (3) department someone in the medical department - and I take it  
 (4) that s a doctor?  
 (5) A Yes  
 (6) Q Okay Then what s the next step?  
 (7) A Well -  
 (8) Q In this -  
 (9) A Let me interrupt you, if I may That could be the  
 (10) physician or he might have assigned a particular employee  
 (11) assistance person program person to accept the initial  
 (12) reports like that, but generally it would be the physician  
 himself, especially in the role of great responsibility  
 (13)  
 (14) Q Would it be fair to say it would be a physician or someone  
 (15) especially trained?  
 (16) A In all cases, yes  
 (17) Q Now let s assume that the report is made then to that -  
 (18) to the medical department and the person within it who should  
 (19) receive it What happens next in the medical department?  
 (20) A The medical officer should review the report carefully,  
 (21) discuss it carefully with the supervisor, make any  
 (22) determination that he feels able to make at that point in  
 time,  
 (23) but most likely should see the employee face to face  
 (24) Q And that s the person in the medical department?  
 (25) A Yes

Vol 17 2635

- (1) Q And after that then is it the person in the medical  
 (2) department that determines what steps should be taken with  
 (3) respect to the employee in that safety sensitive position?  
 (4) A Well it always has -  
 (5) Q Do you understand that?  
 (6) A I think I do It would always have - It would always have  
 (7) to be done in conjunction with the supervisor Medical  
 (8) department interactions involve the responsibility of  
 making  
 (9) recommendations  
 (10) Q Okay And then that s - the medical department would make  
 (11) its recommendation after it s interviewed the employee?  
 (12) A Well, it may do more than that You know the medical  
 (13) department would have to perform a professional  
 evaluation of  
 (14) this individual in their meeting with this individual, and  
 (15) there s a whole gamut of things that, you know, the medical  
 -  
 (16) you know the medical department might need to do The  
 outcome  
 (17) of this meeting in the medical department could be anything  
 (18) from go back to work, calling the supervisor saying look I  
 (19) don t think this is important I see no evidence of a problem  
 (20) here, or they might say well, look, he s having some  
 problems  
 (21) with - with one of his children, we re going to get some  
 (22) family counseling introduced Or he s got financial  
 problems,  
 (23) we re going to get one of our financial people, all of those  
 (24) types of things, or the medical department may wish to have  
 a  
 (25) more specialized professional evaluation on the individual  
 and

Vol 17 2636

- (1) **may call in other people or send the individual to - to**  
 (2) **another type of specialist maybe a psychiatrist, whatever**  
 (3) **call the aftercare monitoring counselor see if he s got any**  
 (4) **input what he thinks He might want to you know, increase**  
 (5) **the monitoring program He might want to enhance it so to**  
 (6) **speak He might say look let s, in conjunction, say with the**  
 (7) **counselor at the aftercare program he might say, well, let s**  
 (8) **go ahead**  
 (9) Q Might he pull him off the job say wait until we get the  
 (10) evaluation?  
 (11) **A I was talking about a gamut, and that s sort of the end of**  
 (12) **the road, but if he has to go that far yes, he would pull him**  
 (13) **off the job, do whatever is necessary have other**  
 (14) **evaluations**  
 (15) **and so forth, sure**  
 (16) Q Okay Now have you reviewed Exxon s alcohol policies and  
 (17) their supervisors guidelines with respect to those policies?  
 (18) **A Yes, I have**  
 (19) Q And have you heard the testimonies in this courtroom of  
 (20) Drs Montgomery Gould and Nealy?  
 (21) **A Yes, I have**  
 (22) Q And have you looked at their depositions?  
 (23) **A Yes**  
 (24) Q And have you heard the testimony of Mary Williamson last  
 (25) Friday and Steve Day?  
 (26) **A That was read**

Vol 17 2637

- (1) Q Yes  
 (2) **A Yes**  
 (3) Q And the video deposition of Steve Day on Monday?  
 (4) **A Yes, yes**  
 (5) Q And were you here to hear the testimony of Captain Sheehy  
 (6) and Paul Myers?  
 (7) **A Yes for both gentlemen**  
 (8) Q And on that based on that information in your opinion  
 (9) did Exxon - did Exxon s alcohol policy and program whatever  
 (10) it was provide for monitoring?  
 (11) **A I found nothing in the paperwork that I didn t find - I**  
 (12) **didn t find the word monitoring in any of the provisions so**  
 (13) **I would have to say no**  
 (14) Q All right  
 (15) In your opinion what captain Hazel - I m sorry what  
 (16) Exxon did as to Captain Hazelwood as described by Captain  
 (17) Sheehy and Paul Myers does that constitute monitoring?  
 (18) **A No, it does not**  
 (19) Q I d like to - I d like to take some notes this morning and  
 (20) you recall Mr Myers testifying that with respect to the  
 (21) Portland Shipyard incident he said I spoke to Hazelwood  
 (22) alone  
 (23) I asked Hazelwood if he had any personal problems or any  
 (24) problems at all and he said no  
 (25) Do you recall that testimony?  
 (26) **A Yes, sir**

Vol 17 2638

- (1) Q Is that what a professional in the medical department would  
 (2) do if he were interviewing Hazelwood Captain Hazelwood after  
 (3) that type of report?  
 (4) **A No It s not even what a supervisor should do**  
 (5) Q Okay And I also - Mr Myers was asked by Mr Neal what  
 (6) would you have done had you heard Steve Day when he - when  
 (7) he  
 (8) mentioned the San Francisco Bay Mary Williamson story and  
 (9) he  
 (10) said I would have asked Day to accompany me to Mr Borgen s  
 (11) office—we would have brought in Mary Williamson we would  
 (12) have  
 (13) brought Captain Hazelwood in Captain Hazelwood to hear his  
 (14) side of the story Is that what a medical department would do  
 (15) if it were reported that incident?  
 (16) **A No I don t - I don t - I wouldn t - I wouldn t take**  
 (17) **that type of action**  
 (18) Q Well is that what you would expect?  
 (19) **A No, it s not what I would expect**  
 (20) Q Is it correct that people in the medical department are  
 (21) trained to know how to determine if a person who has been  
 (22) through alcohol treatment and who is in a safety sensitive  
 (23) position that they re trained to be able to ferret out if  
 (24) someone is in denial or whether they re actually - they re  
 (25) more apt to be able to ferret out what s really going on?  
 (26) **A They should be if they re going to make monitoring work**  
 (27) **effectively**  
 (28) Q And is that normally the case?

Vol 17 2639

- (1) **A That, in my experience, yes**  
 (2) Q And monitoring as you ve described it is it effective?  
 (3) **A I think it s quite effective, yes**  
 (4) Q Okay Now I want to turn for a minute to job performance  
 (5) and you ve heard testimony that Exxon in their alcohol policy  
 (6) their supervisors were looking to job performance as the main  
 (7) criteria as to whether someone was okay and is that a proper  
 (8) criteria on which to base a monitoring program?  
 (9) **A No it s not It s - I would characterize it as even**  
 (10) **dangerous to base everything on that**  
 (11) Q Dangerous?  
 (12) **A Yes**  
 (13) Q Why would you say it s dangerous?  
 (14) **A Well first of all, it s not preventively oriented You**  
 (15) **need to take in all elements of the person s conduct and**  
 (16) **behavior and the way he approaches his work I feel that**  
 (17) **both**  
 (18) **performance and skill in professionals is one of the last**  
 (19) **things to go, and I really wouldn t want to have that happen**  
 (20) **when a safety sensitive person is driving a train controlling**  
 (21) **a ship, flying an airplane**  
 (22) Q In other words the first - the first mistake that  
 (23) manifests itself could be the big one is that what you mean?  
 (24) **A Yes I don t want to see that happen, you know, on**  
 (25) **approach to Kennedy airport with a load of passengers, for**  
 (26) **example**

Vol 17 2640

- (1) Q Okay Now I want to turn for a second to monitoring -  
 (2) monitoring program and paperwork and if a monitoring  
 program  
 (3) is in effect would you expect - you testified that there  
 (4) would be a written plan?  
 (5) A Yes, sir  
 (6) Q And would that include written guidelines as to what the  
 (7) medical department should do and what the supervisors should  
 do  
 (8) and how they interact?  
 (9) A Yes, sir  
 (10) Q That would be explicit?  
 (11) A Yes  
 (12) Q And did you find that in Exxon?  
 (13) A No  
 (14) Q And would you expect also to find paperwork documenting  
 the  
 (15) activities of the supervisors if they found anything or  
 (16) reported anything to the medical department?  
 (17) A Yes  
 (18) Q And would you expect to find anything when the - in the  
 (19) files of the employee in the safety sensitive position when the  
 (20) medical department made its evaluation of that report?  
 (21) A Yes the file would start with you know a  
 (22) fitness for duty and then make any further reports of any  
 (23) special evaluation conducted which were brought to their  
 (24) attention or that they found out in their interviews with the  
 (25) person But those reports would have to be handled in a  
 very

Vol 17 2641

- (1) confidential manner and the report itself merely would be a  
 (2) record of what was done That s all that would get to the  
 (3) personnel file I ve examined this person and I find him fit  
 (4) for duty, or this person was removed for duty for a period  
 and  
 (5) so forth  
 (6) Q And when there are no such records either a written plan  
 (7) or guidelines telling employees how to act both the medical  
 (8) department and the supervisor s department and where there s  
 (9) nothing in the files of the employee either the personnel  
 (10) files or the medical records or anything like that does that  
 (11) suggest to you that there s no effective monitoring program in  
 (12) place?  
 (13) A Yes  
 (14) MR MONTAGUE Thank you very much Dr Masters  
 (15) THE COURT You want to cross examine?  
 (16) MR LYNCH Let me have just a moment  
 (17) THE COURT Certainly  
 (18) MR LYNCH May I approach the witness Your Honor?  
 (19) Your Honor if I may I ll offer Defendants Exhibit 9147  
 (20) (Exhibit 9147 offered)  
 (21) MR MONTAGUE No objection  
 (22) THE COURT Defendants 9147 is admitted  
 (23) (Exhibit 9147 received)  
 (24) BY MR LYNCH  
 (25) Q I handed you Dr Masters a document marked as Exhibit

Vol 17 2642

- (1) 9147 now in evidence entitled An Employee Assistance  
 Program  
 (2) for Professional Pilots an Eight Year Review See that  
 (3) document sir?  
 (4) A I have that  
 (5) Q And is this the document that you referred to in your  
 (6) direct testimony as having printed first a thousand and then  
 (7) another 500 copies?  
 (8) A Yes, sir  
 (9) Q And this is the outcome of your grant from the National  
 (10) Institute of Alcohol Abuse and Alcoholism is that correct?  
 (11) A It s a final report There were a number of other reports  
 (12) submitted as interim reports that were required over the  
 eight  
 (13) years  
 (14) Q And -  
 (15) A More detailed  
 (16) Q This report relates does it not sir to a program that  
 (17) you developed as aeromedical consultant to the Airline Pilot s  
 (18) Association and would you say that when you spoke about  
 your  
 (19) view of monitoring and what would make a good monitoring  
 aspect  
 (20) of an alcohol policy for safety sensitive positions that this  
 (21) program as spelled out in this report reflects your views on  
 (22) that subject?  
 (23) A Well as I said, this is a general report There s not a  
 (24) great deal of detail in this report on the program of - for  
 (25) monitoring That was developed in the years from 1974 to  
 1975

Vol 17 2643

- (1) and 76 and those were years that were covered by the  
 interim  
 (2) reports detailed reports to the National Institute of Alcohol  
 (3) Abuse and Alcoholism The monitoring material would be -  
 (4) would be found more in those interim reports  
 (5) Q So is it your testimony that this 1982 document does not  
 (6) contain disclosure of your views on monitoring?  
 (7) A It has - it has comments on monitoring, yes, sir  
 (8) Q And is it fair when you talked about this document having  
 (9) been disseminated to other industries and so forth that you  
 (10) were referring to this document as a document which would  
 (11) disclose your views on the conduct of monitoring?  
 (12) A Yes it - it would do that and this is a document that  
 (13) was produced and then any special or specific questions  
 that  
 (14) may come up, we would handle as inquiries came in  
 (15) Q Okay now your own direct involvement in monitoring the 17  
 (16) or so years that you spoke about is that monitoring involved  
 (17) in the field of airline pilots and airline flight attendants?  
 (18) A Certainly for the first - no, I - did you say flight  
 (19) attendants?  
 (20) Q I did sir  
 (21) A Then the answer would be no  
 (22) Q The answer would be no it s not involving that field?  
 (23) A I have never monitored flight attendants  
 (24) Q Okay if I limit the question to airline pilots -  
 (25) A Yes, we - we certainly help the flight attendants develop

Vol 17 2644

- (1) **their monitoring programs but yes, my monitoring would be of**
- (2) **airline pilots**
- (3) Q So when you spoke of 17 years of experience in monitoring
- (4) people in safety sensitive position in the airline industry
- (5) you were talking about air monitoring airline pilots?
- (6) **A No, I d have to go back to my work with the Atomic Energy**
- (7) **Commission because we monitored there with possible**
- (8) **problems of**
- (9) **alcohol and drug abuse**
- (10) Q And you were directly involved in that?
- (11) **A Yes, sir**
- (12) Q So your experience involves airline pilots and couriers of
- (13) nuclear weapons?
- (14) **A Yes, and then in my work with the National Aeronautics**
- (15) **and**
- (16) **Space Administration, it involves monitoring of persons in**
- (17) **safety sensitive positions at NASA, at the flight research**
- (18) **facility**
- (19) Q Was that work before you joined ALPA or was that during the
- (20) time you were area medical advisor for ALPA?
- (21) **A Well both I guess I d have to explain to you that, when I**
- (22) **came to Lovelace out of the Air Force, I was then**
- (23) **responsible**
- (24) **for monitoring and other types of programs to assure**
- (25) **fitness**
- (26) **for duty in sensitive - safety sensitive positions for the**
- (27) **entire operations surrounding the test pilot work for NASA**
- (28) **development of new aircraft, modifications, development of**
- (29) **various systems and so on, and I was the supervisor of the**

Vol 17 2645

- (1) **clinic at the Dryden Flight Research Center for a number of**
- (2) **years while all the time I was at Lovelace and for two years**
- (3) **thereafter, and then I ceased interacting with that, because**
- (4) **the new chairman of the department after I left Lovelace**
- (5) **took**
- (6) **over that role gradually**
- (7) Then I got back into that work in, I believe 1986 I
- (8) wouldn't be quite positive on that without looking, but I got
- (9) into that role then in 1986 as the flight surgeon for the NASA
- (10) Ames Research Center and the facility at Dryden
- (11) Q Do you recall testifying at your deposition that the only
- (12) time you've been employed in the development of alcohol
- (13) monitoring policies is for airline pilots?
- (14) **A I very well may have, not thinking in terms of anything**
- (15) **else but my airline pilot's association work**
- (16) Q Is it fair to say the bulk of your experience and views
- (17) that you formed were formed with your work through the airline
- (18) pilot's association?
- (19) **A Within monitoring, sir or --**
- (20) Q I include monitoring in the broad topic of alcohol policy
- (21) but I don't limit it to that certainly
- (22) **A I developed a lot of my ideas about monitoring in my work**
- (23) **with the Atomic Energy Commission, carried that over to the**
- (24) **airline pilot's association and bulk of the work is with**
- (25) **airline pilot's, yes**
- (26) Q Now you would agree don't you that it's a good thing for

Vol 17 2646

- (1) a corporation to have a policy for dealing with employees who
- (2) have an alcohol problem?
- (3) **A Yes sir**
- (4) Q You generally agree that it's a bad thing to deal with the
- (5) problem of alcoholism or alcohol problems by simply I think
- (6) you called it the knee jerk reaction of firing people?
- (7) **A Yes**
- (8) Q And in fact that's what you've devoted your career to
- (9) isn't it sir - trying to save the career of pilots in
- (10) particular who otherwise would have a problem with alcohol?
- (11) **A Well I've - alcohol has not been my entire career, sir**
- (12) **You know I deal with all types of occupational problems**
- (13) **related to aviation I would say the alcohol cases would**
- (14) **involve about 10 percent of all of the medical cases that I've**
- (15) **had over the years involving pilots and associated people**
- (16) Q Well do you really disagree with the premise that one of
- (17) the things you sought to achieve as aeromedical advisor of the
- (18) airline pilot's association was to save the job and careers of
- (19) pilots who otherwise would not have a license?
- (20) **A That's correct**
- (21) Q And you've never been employed to develop an alcohol
- (22) policy
- (23) outside government or the airline industry is that correct?
- (24) **A Employed, no**
- (25) Q Now you're being paid today for your testimony is that
- (26) correct?

Vol 17 2647

- (1) **A Yes sir**
- (2) Q And your agreement to make yourself available to the
- (3) plaintiffs to testify is something that you did reluctantly is
- (4) that correct?
- (5) **A Yes In fact there is no written agreement at all**
- (6) Q Well but - but you were approached by Dr O Connor and
- (7) asked to testify or to -
- (8) **A Yes, sir**
- (9) Q - to cooperate with the plaintiffs in this case?
- (10) **A Yes, sir**
- (11) Q And your first reaction was that's something you didn't
- (12) want to do?
- (13) **A Yes, sir**
- (14) Q Did your prior association with air Captain - Captain
- (15) Hazelwood Captain Hazelwood of Pan American have anything
- (16) to
- (17) do with your decision to -
- (18) **A Absolutely not**
- (19) Q You did have a previous professional experience with
- (20) Captain Hazelwood's father did you not?
- (21) **A Not exactly a professional experience, I was involved in**
- (22) **the interchange of some communications He was never a**
- (23) **patient**
- (24) **of mine I didn't have any direct medical involvement with**
- (25) **him**
- (26) Q As a member of the airline pilots association he asked you
- (27) to support an application to change a FAA rule that related to

Vol 17 2648

- (1) mandatory retirement at age 60 is that correct?  
 (2) **A By letter yes**  
 (3) **Q And you refused to do that?**  
 (4) **A Well, the refusal was handled through -**  
 (5) **Q Could you answer the question Did you refuse to do it?**  
 (6) **A No, I did not refuse to do it I - there s -**  
 (7) **Q Excuse me sir Could you turn to page 668 of your**  
 (8) **deposition? It s in volume four sir**  
 (9) **A In this one here?**  
 (10) **Q I doubt if it s -**  
 (11) **A The green ones?**  
 (12) **Q Yes Let me - maybe this would speed it up**  
 (13) **A I have it, sir**  
 (14) **Q Okay Referring to air Captain Hazelwood s request to you**  
 (15) **what was his - the result of his request to you That was the**  
 (16) **question Could you read the answer?**  
 (17) **MR MONTAGUE Could you read the request?**  
 (18) **BY MR LYNCH**  
 (19) **Q Captain Hazelwood Pan Am Captain Hazelwood was an**  
 (20) **adamant**  
 (21) **supporter of the FAA age 60 rule Captain Hazelwood to my**  
 (22) **recollection -**  
 (23) **A That s not quite right Adequate supporter of the**  
 (24) **dissolution**  
 (25) **Q I thought I said that**  
 (26) **A I didn t hear it**

Vol 17 2649

- (1) **Q An adamant supporter of the dissolution - why don t you**  
 (2) **read it?**  
 (3) **A You read better than I do, but I ll be glad to Captain**  
 (4) **Hazelwood Pan Am Captain Hazelwood was an adamant**  
 (5) **supporter of**  
 (6) **the dissolution of the FAA age 60 rule Captain Hazelwood,**  
 (7) **to**  
 (8) **my recollection provided me with certain information**  
 (9) **pertaining to his good health and then asked that I petition**  
 (10) **the Federal Aviation Administration for an exemption from**  
 (11) **the**  
 (12) **age 60 rule that would apply to him**  
 (13) **Q Question And what was the result of his request to you?**  
 (14) **A I refused to do that to comply with his request**  
 (15) **Q So you did refuse?**  
 (16) **A That was my recollection at the time Subsequent to that,**  
 (17) **I was able to find the record on the original Captain**  
 (18) **Hazelwood - and I would have to elaborate on that a bit**  
 (19) **Q I guess my question is do you now say you didn t refuse**  
 (20) **the request?**  
 (21) **A No, I m not saying that I m saying there s a lot of**  
 (22) **involved reasons for -**  
 (23) **Q I m sure Mr Montague can bring it out if he wishes to but**  
 (24) **you did refuse that request is that correct?**  
 (25) **A No, the president of the airline pilots association refused**  
 (26) **the request**  
 (27) **Q Is that after Captain Hazelwood complained about your**  
 (28) **refusal?**

Vol 17 2650

- (1) **A I did not respond to Captain Hazelwood The legal**  
 (2) **department of the airline pilots association responded to**  
 (3) **Captain Hazelwood**  
 (4) **Q Well did your altercation with Captain Hazelwood -**  
 (5) **A I didn t have an altercation with Captain Hazelwood**  
 (6) **Q - have anything to do with your ultimate choice to -**  
 (7) **A Well, that s a mischaracterization I did not have an**  
 (8) **altercation This was not a face to face thing at all It was**  
 (9) **all correspondence**  
 (10) **Q You recall that or you ve now looked at correspondence**  
 (11) **which changed your memory?**  
 (12) **A Yes, it s changed my memory because I - now I m not**  
 (13) **saying I never met Captain Hazelwood I probably did I**  
 (14) **had**  
 (15) **no idea who he was I made no connection, but in - in the**  
 (16) **Exxon Captain Hazelwood s deposition, he said that his**  
 (17) **father**  
 (18) **had made some disparaging remarks about me that caused**  
 (19) **me to**  
 (20) **think back and I said my goodness there was a Hazelwood**  
 (21) **in**  
 (22) **the airline pilots association**  
 (23) **Q At your deposition did you testify that you told him he**  
 (24) **didn t have a right to demand that I do this so he took it to**  
 (25) **the president of the association wrote some derogatory**  
 (26) **comments about me to the president? Did that come from you**  
 (27) **or**  
 (28) **from the Exxon lawyer?**  
 (29) **A No that came from the legal department of the airline**  
 (30) **pilots association**

Vol 17 2651

- (1) **Q Could you look at page 669 and if you will will you look**  
 (2) **at lines 20 through 24?**  
 (3) **A Yes sir That was my recollection at the time before I**  
 (4) **consulted the records**  
 (5) **Q All right and was that your recollection when the**  
 (6) **plaintiffs approached you in this case?**  
 (7) **A I had nothing - I had no recollection at all I knew of**  
 (8) **no connection between the man who was -**  
 (9) **Q Captain Hazelwood at Pan Am had no involvement in your**  
 (10) **decision to take on this matter?**  
 (11) **A Oh, absolutely not**  
 (12) **Q Okay**  
 (13) **A I didn t even remember about it**  
 (14) **Q With reference to follow up on employees who have been**  
 (15) **treated for alcohol problems is it the case Dr Masters that**  
 (16) **you do not favor alcohol testing?**  
 (17) **A Yes sir that is the case**  
 (18) **Q Is it -**  
 (19) **A But that s related to alcohol testing of whole**  
 (20) **populations It would not necessarily be the case with**  
 (21) **safety sensitive positions if it were felt to be indicated by**  
 (22) **the medical officer at the time of a reported problem**  
 (23) **Q Okay let me - let me just go into that for a second**  
 (24) **Your view is that you re opposed to periodic or unannounced or**  
 (25) **random testing is that correct?**

Vol 17 2652

- (1) **A That has been my view for years especially of alcohol testing**
- (2) **testing**
- (3) Q Of alcohol testing in particular correct?
- (4) **A Yes, sir**
- (5) Q And you re also opposed to random testing for other drugs of abuse?
- (6)
- (7) **A Yes I d say my view may have moderated a bit on that but**
- (8) **yes**
- (9) Q Your former view was it could be called medical McCarthyism?
- (10) **McCarthyism?**
- (11) **A That wasn t my – I wish I could have claimed that term**
- (12) **It was a term I adopted from an article I read**
- (13) Q You did embrace it is that correct?
- (14) **A Yes sir**
- (15) Q As to testing for drugs other than alcohol?
- (16) **A Yes, sir**
- (17) Q In your view about testing for alcohol is that you didn t support it because testing for alcohol really measures an alcohol state at a moment in time isn t that correct?
- (18) **A Measures an – it measures an alcohol concentration at a point in time and most importantly, though, alcohol testing, I**
- (19) **have not felt was sustainable for large groups of people In**
- (20) **other words, random alcohol testing, just going out and**
- (21) **randomly alcohol testing I didn t think it was sustainable**
- (22) **for a large group of people as a type of screening evaluation**

Vol 17 2653

- (1) **because I – I would – I would not feel that – that breath**
- (2) **testing, which is the only reasonable mass screening, it would**
- (3) **be up to the standard that drug testing is**
- (4) Q Now with reference to backward extrapolation of alcohol tests it s your view that that s guesswork not science?
- (5) **A Of what kind of tests?**
- (6) Q Backward extrapolation of alcohol test?
- (7) **A What kind of alcohol –**
- (8) MR MONTAGUE Excuse me Your Honor this is far afield of from the direct examination
- (9) MR LYNCH I don t believe so Your Honor This relates to what is appropriate monitoring I mean the fact that – the fact that Dr Masters testified that he used certain procedures I m exploring with him the – whether this is –
- (10) THE COURT I ll allow the question
- (11) THE WITNESS Could you repeat it or have it read back?
- (12) BY MR LYNCH
- (13) Q Is it your view that backward extrapolation of alcohol tests is a matter of guesswork not science?
- (14) **A Again, I can t answer that unless you say what type of alcohol test**
- (15) Q Do you recall being asked this subject at your deposition sir?

Vol 17 2654

- (1) **A Not specifically I don t deny it was asked**
- (2) Q Could you please turn to page 612? You have that sir?
- (3) **A 612 yes**
- (4) Q Yes sir And the question to you was on page 612 at line 16 just before we broke you answered a question I asked you with respect to whether you had criticisms of Exxon s approach to drug testing during the 1980s In the course of your answer you said that one of the aspects that you might comment on was using alcohol tests What did you mean by that?
- (5) Then there s some interjection and your answer is at page 613 beginning at line 15 The criticisms that I was referring to were generic in nature even as related to the Exxon program They re just philosophical problems that I have with doing testing and which especially I think that would be that I believe that the levels of what is termed a positive test probably should have been brought into line with federal standards With regard to alcohol testing I am not a proponent of alcohol testing under any standard that would cause random testing or periodic testing The reason for that is that a positive alcohol test is a very nebulous thing that alcohol testing is not as standardized as the extremely accurate laboratory testing of drugs which are – where you use qualified laboratorones approved by the department of health education and welfare and so on Breathalyzers are there are a lot of pro and con arguments about the quality and

Vol 17 2655

- (1) standardization of breathalyzers Alcohol blood test s interesting but as opposed to blood testing alcohol testing is something that measures something at the instant you take that test it doesn t have any capability of being extrapolated back if your test comes off – comes out below a given level that is agreed to as a cutoff It comes out to a level above the cutoff then you maybe able to do some extrapolating back but that s more guesswork than science
- (2) Isn t that what you testified sir?
- (3) **A Yes And that was all related to the context of breathalyzers**
- (4) Q Did the question ask you about breathalyzers only?
- (5) **A No But the way I answered it, there's a –**
- (6) Q Your testimony –
- (7) **A There s comment that breathalyzers, is what I was thinking about**
- (8) Q So the testimony now say is you now think extrapolation back is something other than guesswork?
- (9) **A I still have a problem with breathalyzers, sir**
- (10) Q You don t have a problem with other kinds of alcohol tests is that your testimony today?
- (11) **A Blood alcohol tests are more accurate, far more accurate in my mind at least**
- (12) Q It s true in the airline program that you supervised the only type of alcohol testing that was pursued was for cause

Vol 17 2656

- (1) testing by whatever means Breathalyzer blood alcohol or  
 (2) anything else?  
 (3) **A Try that again?**  
 (4) Q In the airline pilot monitoring program that you  
 (5) supervised isn't it true that you absolutely did not test  
 (6) pilots with alcohol problems except for cause?  
 (7) **A Yes, that's true**  
 (8) THE COURT Stopping place Mr Lynch?  
 (9) MR LYNCH That would be fine Your Honor  
 (10) THE COURT We'll take our first recess ladies and  
 (11) gentlemen We'll be in recess for 15 minutes  
 (12) (Jury out at 10 00)  
 (13) (Recess )  
 (14) (Jury in at 10 16)  
 (15) THE COURT Mr Lynch  
 (16) BY MR LYNCH  
 (17) Q Dr Masters directing your attention to your testimony  
 (18) about what you would consider to be appropriate monitoring  
 (19) procedures for a company employing people who have  
 (20) safety sensitive jobs first of all is it your testimony that  
 (21) you know that the standards that you described are followed in  
 (22) industry generally?  
 (23) **A It is my testimony that I know of the wide dissemination of**  
 (24) **the information It is my testimony that I know**  
 (25) **organizations**  
**that use this technique and I don't - I don't know what you**

Vol 17 2657

- (1) mean by "widely disseminated"  
 (2) Q I said used in the industry generally  
 (3) **A Generally**  
 (4) Q Used in industry generally?  
 (5) **A I couldn't answer that because I don't know about all**  
 (6) **industry**  
 (7) Q You did a lot of work with United Airlines is that  
 (8) correct?  
 (9) **A Yes**  
 (10) Q And isn't it a fact that you don't know for sure that these  
 (11) procedures are followed for people for example who maintain  
 (12) 747s?  
 (13) **A I have only the assurance of that from the medical**  
 (14) **department**  
 (15) Q But you haven't seen any written program applicable to  
 (16) United Airlines employees other than pilots?  
 (17) **A I've seen their flight attendant program**  
 (18) Q And their flight attendant program both of those are  
 (19) covered by special FAA regulations are they not?  
 (20) **A There are no FAA regulations that apply to flight**  
 (21) **attendants having to do with this particular area, and there**  
 (22) **is**  
 (23) **no FAA regulation requiring monitoring of airline pilots by**  
 (24) **companies**  
 (25) Q There are FAA regulations that will not permit any pilot  
 who has ever been diagnosed to have - with alcoholism to - to

Vol 17 2658

- (1) resume flying without monitoring provisions isn't that  
 (2) correct sir?  
 (3) **A No, that's not correct**  
 (4) Q Isn't the FAA - well we'll get into that Is it your  
 (5) testimony that these procedures that you described should be  
 (6) followed for any alcohol related problem of any kind?  
 (7) **A In safety sensitive positions?**  
 (8) Q Yes sir  
 (9) **A Yes**  
 (10) Q Does it make a difference to you whether the diagnosis is  
 (11) alcoholism or alcohol abuse?  
 (12) **A No not if the - not if the condition is serious enough to**  
 (13) **have required treatment**  
 (14) Q So in your view even if the alcohol problem was secondary  
 (15) to some other matter you would - you believe that these  
 (16) monitoring procedures should be followed?  
 (17) **A Yes sir**  
 (18) Q Okay Is it your view - strike that  
 (19) Isn't it true that in the middle to late 80s there was a  
 (20) general school of thought that employers should be limited to  
 (21) evaluation of job performance of employees in determining  
 (22) whether an employee who had returned to work from alcohol  
 (23) treatment was subject to any job action by the employer  
 (24) including reassignment?  
 (25) **A That concept predated the late 80s by a long time**

Vol 17 2659

- (1) Q And it continued into the late 80s isn't that true sir?  
 (2) **A In safety sensitive positions, I believe that that concept**  
 (3) **was gradually replaced**  
 (4) Q Gradually replaced but in the mid to late 80s that was a  
 (5) concept that was broadly accepted in the industry isn't that  
 (6) true sir?  
 (7) **A For safety sensitive positions?**  
 (8) Q Yes sir  
 (9) **A No, I don't think so**  
 (10) Q What's the basis for your statement?  
 (11) **A Because most safety sensitive industries by that time**  
 (12) **were**  
 (13) **developing concepts of monitoring**  
 (14) Q Well isn't it true Dr Masters that you just told us  
 (15) that you don't have personal knowledge about what industries  
 (16) other than those with which you've been directly involved with  
 (17) were doing in the middle to late 80s?  
 (18) **A No, I'd have to modify that to the degree that I mentioned**  
 (19) **very early on in response to a question from Mr Montague**  
 (20) **that**  
 (21) **we developed first of all had on hand at the Lovelace**  
 (22) **Foundation It's a research institution had a large library**  
 (23) **and we developed a program to collect programs from all**  
 (24) **types**  
 (25) **of industry and it is my testimony that many types of**  
**industry**  
**involving safety sensitive positions had monitoring**  
**programs of**  
**one sort or another in effect by the mid 80s**  
 Q Would you look at page 588 of your deposition?

Vol 17 2660

- (1) Were you asked this question Would you agree that during  
 (2) the mid to late 80s 1980s there was a substantial school of  
 (3) thought in the employee assistance program field that job  
 (4) performance was a key component of the approach to  
 prevention  
 (5) and treatment of alcohol problems in the workplace? And  
 (6) there s a comment by counsel and this answer is given I would  
 (7) agree that is the case and also qualify the answer with my  
 (8) feeling that that is an extremely limited point of view and was  
 (9) rather narrow - was a rather narrow concept which I think has  
 (10) become outmoded  
 (11) Was that question asked and that answer given?  
 (12) **A Yes**  
 (13) **Q Did you say anything at that time to the examiner about**  
 (14) **your view that that didn t apply to safety sensitive**  
 (15) **positions?**  
 (16) **A Not in this testimony no**  
 (17) **Q Now you understood - let me - your direct involvement**  
 (18) **full time involvement at that time was with airline pilots**  
 (19) **correct?**  
 (20) **A Yes**  
 (21) **Q And the federal aviation regulations in effect specified**  
 (22) **that if an airline pilot had a diagnosis of alcoholism - key**  
 (23) **word alcoholism - that pilot could no longer hold his**  
 (24) **license isn t that correct?**  
 (25) **A An established clinical history - diagnosis or history**

Vol 17 2661

- (1) **Q Of alcoholism?**  
 (2) **A Alcoholism**  
 (3) **Q Correct?**  
 (4) **A Correct**  
 (5) **Q As opposed to alcohol abuse?**  
 (6) **A The term was alcoholism because that was the definition**  
 (7) **that they were using based on DSM II**  
 (8) **Q And in the federal -**  
 (9) **And the Federal Aviation Administration distinguished**  
 (10) **alcohol abuse from alcoholism did they not?**  
 (11) **A No, they didn t**  
 (12) **Q Could you turn -**  
 (13) **A They didn t distinguish it because they had a definition in**  
 (14) **DSM II that didn t distinguish it**  
 (15) **Q Could you turn to the appendix to your eight year report**  
 (16) **sir and specifically if you would to appendix page G 1**  
 (17) **A Yes**  
 (18) **Q Can you read that on that? Is that clear? See the**  
 (19) **language under diagnosis?**  
 (20) **A I have it right here on the screen, is that -**  
 (21) **Q Yes And would you look at the second paragraph some of**  
 (22) **which is highlighted there?**  
 (23) **A Yes**  
 (24) **Q It says Alcoholism is usually characterized by an**  
 (25) **evolutionary development preceded by a long period of**

Vol 17 2662

- (1) increasing abuse There may not be a precisely identifiable  
 (2) point in time beyond which an individual is clearly an quote  
 (3) alcoholic end quote As a consequence there is often some  
 (4) justifiable confusion in distinguishing between alcohol abuse  
 (5) and alcoholism  
 (6) That s an FAA document isn t it sir?  
 (7) **A Yes**  
 (8) **Q By the way when I asked you earlier about the FAA**  
 (9) **requiring monitoring for a pilot who wanted to return to duty**  
 (10) **in this memorandum the FAA set up standards in which it would**  
 (11) **grant exemptions to pilots who had a diagnosis of alcoholism**  
 (12) **did it not?**  
 (13) **A That s the general purpose of this document**  
 (14) **Q And that document specified that in order for a pilot to**  
 (15) **receive that exemption he would have to be subjected to**  
 (16) **monthly monitoring meetings of the type you described in your**  
 (17) **direct testimony isn t that true sir?**  
 (18) **A That s true**  
 (19) **Q By the way this document evolved from a grant you received**  
 (20) **from the National Institute for Alcohol Abuse and Alcoholism?**  
 (21) **A Yes**  
 (22) **Q Now with reference to the diagnosis of alcohol abuse**  
 (23) **if - if a pilot in 1982 had been diagnosed as having - as**  
 (24) **having a case of secondary alcohol abuse secondary to**  
 (25) **dysthymia that would not require his license to be revoked by**

Vol 17 2663

- (1) the FAA isn t that correct?  
 (2) **A No that s not correct He would have to report his**  
 (3) **inpatient treatment and the FAA would have probably**  
 (4) **required**  
 (5) **the documentation and would have reviewed the medical**  
 (6) **records**  
 (7) **In great detail and would have made an individual**  
 (8) **determination**  
 (9) **on that case**  
 (10) **Q Is it true that if the FAA determined that the diagnosis**  
 (11) **was alcohol abuse secondary to dysthymia that that would not**  
 (12) **require the pilot s license to be suspended or revoked?**  
 (13) **A If they determined that that was the exact diagnosis that**  
 (14) **could be the case But they would make an individual**  
 (15) **determination based on their review of all of the medical**  
 (16) **records**  
 (17) **Q So if they made the determination that a pilot was**  
 (18) **suffering from dysthymia primary problem alcohol abuse**  
 (19) **episodic secondary problem then that pilot could continue to**  
 (20) **fly isn t that correct?**  
 (21) **A That requires a lot of assumptions that you haven t given**  
 (22) **me**  
 (23) **Q It is true is it not Dr Masters that that is - that if**  
 (24) **the FAA concurred in a diagnosis of dysthymia and alcohol**  
 (25) **abuse**  
 (26) **episodic that the FAA regulations would not call for the**  
 (27) **cancellation of that pilot s license?**  
 (28) **A If the FAA concurred in that, yes**  
 (29) **Q And in this case you have no - you re offering no opinion**

Vol 17 2664

- (1) about the accuracy of the diagnosis of Captain Joseph  
 (2) Hazelwood are you?  
 (3) **A No sir**  
 (4) **Q Now talking about sea Captain Joseph Hazelwood**  
 (5) **A I understood it that way**  
 (6) **Q By the way from the fact that captain - air Captain**  
 (7) **Hazelwood was flying at or near age 60 under these**  
**regulations**  
 (8) **we can assume he didn't have a alcohol problem or history of**  
 (9) **diagnosis of alcoholism isn't that correct sir?**  
 (10) **A No you can't**  
 (11) **Q You can't?**  
 (12) **A No**  
 (13) **Q Isn't it true that it's required by law that a pilot report**  
 (14) **if he has any clinical history of alcohol history?**  
 (15) **A It's required He may not have reported it I have no**  
 (16) **idea I don't want to get into that captain situation at all**  
 (17) **But I'm saying it is possible**  
 (18) **Q So you would have to assume -**  
 (19) **A I would have to assume that he didn't report it**  
 (20) **Q For a period of 60 years?**  
 (21) **A That there was no diagnosis that there would be no**  
**problem**  
 (22) **Q That he had flown for a career running to mandatory**  
 (23) **retirement age correct?**  
 (24) **A Yes that's the mandatory**  
 (25) **Q And that under - that throughout that time he had not**

Vol 17 2665

- (1) **reported a clinical history of alcoholism is that what you're**  
 (2) **surmising?**  
 (3) **A I have absolutely no evidence that he did or didn't I**  
 (4) **mean, he might have reported it and -**  
 (5) **Q From the fact that he was flying?**  
 (6) **A He might have been reporting it and had a - an**  
**exemption**  
 (7) **I don't know that**  
 (8) **Q You don't know that one way or the other your problems**  
 (9) **with him had nothing to do with that?**  
 (10) **A Absolutely nothing, no**  
 (11) **Q Now you know of South Oaks Hospital don't you?**  
 (12) **A Yes, sir**  
 (13) **Q And indeed you have a high opinion of South Oaks Hospital**  
 (14) **is that correct?**  
 (15) **A In my experience during the time that we referred pilots**  
 (16) **there, we got good reports**  
 (17) **Q In a - in fact that's where you sent your tough cases?**  
 (18) **A There and a couple of other places**  
 (19) **Q And you knew Dr Vallury?**  
 (20) **A Yes, I met Dr Vallury I would not say that he was a**  
 (21) **personal friend of mine or anything like that I knew better**  
 (22) **the medical director and the executive director Drs**  
**Corrone**  
 (23) **(ph) and Crinsky (ph)**  
 (24) **Q And you had reports - in the course of your monitoring**  
 (25) **you received reports from Dr Vallury?**

Vol 17 2666

- (1) **A Oh not now no, not at all**  
 (2) **Q But in the past?**  
 (3) **A I don't have any direct recollection of that, no No**  
 (4) **Q Give me a second here**  
 (5) **A It's possible I did when I was - when I was with the**  
 (6) **airline pilots association as their aeromedical advisor, it's**  
 (7) **possible I did, but I don't have a direct specific**  
 (8) **recollection**  
 (9) **Q Let me see if I can refresh your recollection Could you**  
 (10) **turn to page 268 of your deposition? Were you asked the**  
 (11) **question Did you have - have you had any dealings whether it**  
 (12) **was reviewing reports or otherwise with Dr Vallury in the**  
 (13) **same sense that you had dealings with Dr Persh (ph) and**  
 (14) **Dr O Connor that we went over yesterday**  
 (15) **Answer I can't recall any instance in which I received a**  
 (16) **report from Dr Vallury that wasn't complete enough that I**  
 (17) **didn't need to call him [sic] I don't recall ever having had**  
 (18) **to raise questions with him His reports were well written**  
 (19) **Does that refresh your recollection?**  
 (20) **A Yes I don't believe I testified that I didn't have**  
 (21) **respect for Dr Vallury I just cannot tell you - I cannot**  
 (22) **bring up in my mind a specific case**  
 (23) **Q But generally you remember reviewing reports that he**  
 (24) **wrote?**  
 (25) **A Oh yes sir Yes sir**

Vol 17 2667

- (1) **Q And you remember that they were well written?**  
 (2) **A Oh, yes**  
 (3) **Q And that they were complete?**  
 (4) **A Yes**  
 (5) **Q And that you relied on them?**  
 (6) **A And they were reviewed, too, by people at South Oaks,**  
 (7) **generally**  
 (8) **Q At least that's your understanding from your knowledge of**  
 (9) **South Oaks?**  
 (10) **A Yes, sir**  
 (11) **Q But you relied on those reports correct?**  
 (12) **A Yes**  
 (13) **Q As a medical -**  
 (14) **A With regard to the treatment program, a report of the**  
 (15) **treatment program, they were always accurate and**  
 (16) **complete**  
 (17) **Q And you didn't need to call Dr Vallury the reports were**  
 (18) **adequate for you to rely on them?**  
 (19) **A Because of the very long association we had with that**  
 (20) **institution, he knew precisely what kinds of reports we**  
 (21) **required**  
 (22) **Q And by the way when did you give the deposition where you**  
 (23) **gave that answer?**  
 (24) **A January 28th**  
 (25) **Q Of what year?**  
 (26) **A Of this year 1994**

Vol 17 2668

- (1) Q Now you re acquainted with the fact are you not Dr  
 (2) Masters that for employers not subject to the federal air  
 (3) regulations the rehabilitation act forbids an employer from  
 (4) discriminating against an employee solely on the basis of a  
 (5) history for treatment of alcohol problems?  
 (6) **A Yes, but I wouldn't say it doesn't apply to the airline  
 (7) industry**  
 (8) Q I didn't say it didn't apply to the airlines industry I  
 (9) said for employees that don't have this federal air regulation  
 (10) they have to - they are not allowed to act on the basis of a  
 (11) mere clinical history of alcoholism isn't that true?  
 (12) **A You mean an employment application?**  
 (13) Q I mean in job assignments I mean in - in the treatment of  
 (14) that employee on the job?  
 (15) **A That's correct**  
 (16) Q But in the federal in the pilot area there is a  
 (17) regulation that says a pilot can't hold a license to fly with  
 (18) that unless he gets an exemption if he has a clinical history  
 (19) of alcoholism?  
 (20) **A I would merely state that they no longer give exemptions  
 (21) It's called special issuance Comes under paragraph 6719  
 (22) of**  
 (22) **the federal aviation regulations**  
 (23) Q I appreciate the -  
 (24) **A It's just a term of art**  
 (25) Q Terminology correction?

Vol 17 2669

- (1) **A Yes**  
 (2) Q I appreciate that Dr Masters With that clarification  
 (3) there is a federal air regulation that says to the airlines  
 (4) that the mere fact of a clinical history of alcoholism  
 (5) disqualifies a pilot from holding a license isn't that  
 (6) correct?  
 (7) **A Yes there - there are federal restrictions in the - in  
 (8) the air regulations and medical section air regulations for  
 (9) ten**  
 (9) **or 11 very serious disqualifying conditions**  
 (10) Q And that's one of them?  
 (11) **A Yes sir**  
 (12) Q So in the case of an airline the mere history for  
 (13) alcoholism disqualifies the pilot as a matter of federal law  
 (14) from having a license unless he gets a special issuance isn't  
 (15) that correct?  
 (16) **A Not quite**  
 (17) Q What's quite? What did I miss?  
 (18) **A Regulation itself allows for two contingencies First  
 (19) contingency is that the individual can present information  
 (20) satisfactory to the federal air surgeon, which allows the  
 (21) federal air surgeon to make a determination and provide for  
 (22) this thing that you have called an exemption which proper  
 (23) terminology years ago, special issuance we call it now**  
 (24) Q Right And I thought I put -  
 (25) **A Or he can wait for two years and provide evidence that he**

Vol 17 2670

- (1) **has two years of sobriety and does not need a special  
 (2) issuance**  
 (2) **or exemption**  
 (3) Q Let's take the first My question - my question included  
 (4) special issuances  
 (5) Unless there's a special issuance an airline has to report  
 (6) any - any employee it knows who has a history clinical  
 (7) history of alcoholism correct?  
 (8) **A No**  
 (9) Q Airline doesn't have to -  
 (10) **A Airline has no requirement under federal law to report  
 (11) that**  
 (11) **person**  
 (12) Q It is not required to advise the FAA Federal Aviation  
 (13) Administration if it becomes aware of information that the  
 (14) pilot?  
 (15) **A No sir absolutely not**  
 (16) Q Okay The pilot has that duty?  
 (17) **A Yes sir**  
 (18) Q It's a crime if he fails to do it?  
 (19) **A If he exercises his certificate and fails to do it under  
 (20) the provisions of the questionnaire he has to fill out  
 (21) every - - oh periodically at different airlines then that  
 (22) would be a - a crime**  
 (23) Q Do you know of any similar regulation that applies to  
 (24) holders of masters licenses?  
 (25) **A No, I don't**

Vol 17 2671

- (1) Q Okay Now you said at the end of two years if a pilot  
 (2) can show that he's remained sober - is that correct is that  
 (3) what you said?  
 (4) **A Yes the - the language pertains to documented evidence  
 (5) satisfactory to the federal air surgeon of a period of  
 (6) sobriety I think the word sobriety is important there of two  
 (7) years And we have a pilot going through that process right  
 (8) now**  
 (9) Q And the regulations specify that sobriety means total  
 (10) abstinence don't they?  
 (11) **A No they don't**  
 (12) Q Could you look at -  
 (13) **A That's not the regulation, Mr Kerry [sic], that's the  
 (14) problem I'm talking about the regulation And on the  
 (15) regulation, I know the regulation very well**  
 (16) Q Okay so is it your position just so we're not -  
 (17) **A If you're referring to 1976 letter**  
 (18) Q - we're not playing games -  
 (19) **A That's not the regulation**  
 (20) Q Let's not play games with each other  
 (21) Is it the fact that in interpreting the regulation and  
 (22) deciding whether evidence sufficient to satisfy the agency has  
 (23) been presented the agency takes the position that only total  
 (24) abstinence will satisfy?  
 (25) **A That is a decision that rests solely with the federal air**

Vol 17 2672

- (1) **surgeon and it s decided individually And I can tell you what**
- (2) **the current practice is If you d like to know that**
- (3) **Q Could you turn to page G 4 of appendix G of your eight year**
- (4) **report? Referring to the very last - this is a memorandum**
- (5) **from the Federal Aviation Administration describing how it is**
- (6) **going to interpret the regulations Isn t that correct?**
- (7) **A In general, yes That s a good explanation**
- (8) **Q And it says with regard to the person who wants a special**
- (9) **issuance the sine qua non for continued exemption -**
- (10) **old fashioned word - is total abstinence is that correct**
- (11) **sir?**
- (12) **A Yes It does**
- (13) **Q Is it your testimony that that position has changed?**
- (14) **A It is the sine qua non for a special issuance It is not**
- (15) **the sine qua non if the person has a demonstrated period of**
- (16) **sobriety of two years because he doesn t then get a special**
- (17) **issuance**
- (18) **Q So just so -**
- (19) **A He meets the standards**
- (20) **Q So just so I understand an airman who had had - a pilot**
- (21) **who had had his license to fly suspended or revoked because**
- (22) **of**
- (23) **a clinical history of alcoholism and remained sober for two**
- (24) **years could get his license reissued even if he told the**
- (25) **agency that he occasionally had wine with dinner is that accurate?**

4

Vol 17 2673

- (1) **A Yes Since he wouldn t get a special issuance, I believe**
- (2) **that would be accurate**
- (3) **Q Now going to the subject of how you would monitor you**
- (4) **assume in your program the plan that you ve set up you**
- (5) **assume**
- (6) **that the medical department would get access to the treatment**
- (7) **records of the individual?**
- (8) **A Yes, I do**
- (9) **Q Now you re aware are you not Dr Myers [sic] that there**
- (10) **are federal statutes that protect the confidentiality of those**
- (11) **records?**
- (12) **A I m aware of those**
- (13) **Q And are you aware that under those statutes the agency**
- (14) **the treating entity that holds those records may not release**
- (15) **them to an employer without the written and free consent of the**
- (16) **employee?**
- (17) **A I would agree with that**
- (18) **Q Okay And as of 1985 those regulations put a burden on**
- (19) **the entity to establish that the consent was freely given**
- (20) **Isn t that correct?**
- (21) **A I don t recall that at this moment but I wouldn t doubt**
- (22) **that**
- (23) **Q And one of the things that would vitiate the consent was if**
- (24) **the employer exacted consent to release of the records over**
- (25) **against the employee s free will as a condition of giving the**
- (26) **employee his job back Isn t that true?**

Vol 17 2674

- (1) **A All I can say about that is that you re getting into a**
- (2) **legal area that I don t think I m qualified in I know in the**
- (3) **airline pilots association that the department would not**
- (4) **view**
- (5) **it that way**
- (6) **Q In case of the airline pilots association the instances of**
- (7) **consent that you were familiar with involved pilots who were**
- (8) **seeking a special issuance Isn t that true?**
- (9) **A Yes**
- (10) **Q And in order to get their license back from the federal**
- (11) **government they had to meet - they had to give that consent**
- (12) **or they d do without their license Isn t that correct sir?**
- (13) **A That is correct**
- (14) **Q Now you also assume that the medical department of the**
- (15) **corporation would take over get involved in the aftercare of**
- (16) **the employee?**
- (17) **A That the medical department would be involved directly,**
- (18) **yes**
- (19) **Q There is a school of thought isn t there Dr Masters**
- (20) **that it is not the place of the employer to get involved in the**
- (21) **doctor patient or clinician patient relationship of the**
- (22) **employee and his aftercare provider?**
- (23) **A Yes A fairly outmoded school of thought, yes**
- (24) **Q And there was a substantial body of medical opposition to**
- (25) **any employer involvement in aftercare through the mid to late**
- (26) **80s that you now think is outmoded?**

Vol 17 2675

- (1) **A I would have no reason to say that were so**
- (2) **Q You think it was outmoded even then?**
- (3) **A Oh, yes**
- (4) **Q You d agree don t you wouldn t you that medical records**
- (5) **should not be provided to supervisors?**
- (6) **A Absolutely**
- (7) **Q Okay And you d agree would you not that supervisors**
- (8) **should not be expected to act as diagnosticians?**
- (9) **A Absolutely**
- (10) **Q Would you also agree that they should not be expected to**
- (11) **act as clinicians?**
- (12) **A That s correct**
- (13) **Q Or therapists?**
- (14) **A Of course not**
- (15) **Q You talked about supervisors being the eyes and ears of the**
- (16) **medical department as a part of monitoring?**
- (17) **A That was Mr Montague s characterization and, in a**
- (18) **sense**
- (19) **they can fill that role**
- (20) **Q In a sense they can fill that role?**
- (21) **A Yes**
- (22) **Q Okay now does that mean that you think that a good**
- (23) **monitoring program obligates a supervisor to pass on to the**
- (24) **medical department every rumor that they hear?**
- (25) **A No**
- (26) **Q You think it is fair to the employee who has been treated**

Vol 17 2676

- (1) for an alcohol problem to post his name on the bulletin board  
 (2) and ask people to call a 1 800 Exxon or 1 800 pilot or  
 (3) something?  
 (4) **A Did I say that was proper?**  
 (5) Q No I m asking you a question  
 (6) **A Of course not**  
 (7) Q That wouldn t be a very sensible way to try to help a  
 (8) person return to work would it?  
 (9) **A No that would be a terrible abuse of people s rights, and**  
 (10) **I would never agree to that**  
 (11) Q And with reference to rumors do you recognize and did you  
 (12) recognize in your experience that one of the problems with peer  
 (13) identification is the possibility that charges or allegations  
 (14) of improper conduct would be made because of recrimination  
 or  
 (15) personal animosities or things of that kind?  
 (16) **A Yes sir That s why you have professional evaluations to**  
 (17) **take care of that problem**  
 (18) Q Let me see if I understand this If a supervisor received  
 (19) a rumor from a notonous gossip and the supervisor didn t  
 (20) believe the rumor is it your testimony that that supervisor  
 (21) should call the medical department and drag this employee in  
 (22) for a medical evaluation?  
 (23) **A No, it s not my testimony**  
 (24) Q Okay  
 (25) **A And drag in I think that s rather strident**

Vol 17 2677

- (1) Q Oh I m sorry I didn t mean to be strident Invite the  
 (2) employee in for a medical evaluation?  
 (3) **A Yes**  
 (4) Q Now is it your view that the supervisor should do that?  
 (5) **A Under the circumstance you suggested?**  
 (6) Q Yes sir  
 (7) **A A rumor? No I suggest the supervisor investigate the**  
 (8) **rumor, if he doesn t think there s anything to it that s**  
 (9) **fine**  
 (10) Q I take it that one of the drawbacks you think of relying  
 (11) on supervisors is that to judge whether there is a recurrence  
 (12) of an alcohol problem is the difficulty of the supervisor  
 (13) detecting medical signs of reuse or relapse to using alcohol?  
 (14) **A Yes That s why they have to be extensively trained**  
 (15) Q And in particular you d consider relying on the smell of  
 (16) alcohol on the breath to be unreliable isn t that true?  
 (17) **A If the supervisor experienced it directly or if somebody**  
 (18) **reported it to him?**  
 (19) Q Either Don t you consider it to be an unreliable  
 (20) indicator of alcohol use?  
 (21) **A Well, a lot of people put a lot of stock in it I think it**  
 (22) **would certainly raise some question**  
 (23) Q But it is capable of being misused isn t that true sir?  
 (24) You don t advocate that?  
 (25) **A Capable of being misused Yes, it s capable of being**

Vol 17 2678

- (1) **misused yes**  
 (2) Q Excuse me a second Going to one of my folders for this  
 (3) one 636 Would you turn to 636 of your deposition? I m going  
 (4) to refer you to your testimony question begins at line 2 where  
 (5) you re referring about criticisms of supervisor - supervisor  
 (6) monitoring and you say - the question is any additional  
 (7) criticisms  
 (8) Answer Well the crying need for educational supervisory  
 (9) personnel is obvious because they put in here some very  
 (10) misleading and easily misunderstood information on how  
 you re -  
 (11) supposed to detect alcohol and drugs  
 (12) Question What are you referring to specifically?  
 (13) Answer Well specifically it talks about judgments that  
 (14) the supervisory personnel are and masters for example are  
 (15) supposed to make on persons to indicate that they might have  
 (16) alcohol or drug involvement and you know there could be  
 other  
 (17) reasons for some of those symptoms that they point out There  
 (18) could be another reason for maintaining - inability to  
 (19) maintain your normal balance or poor coordination slurred  
 (20) speech inability to understand and connect thoughts smell of  
 (21) alcohol on breath is even debatable and fairly easily covered  
 (22) these days by some mouth sprays that you can buy in almost  
 any  
 (23) bar and there s low alcohol beers -  
 (24) Question And there s low alcohol beer as well isn t  
 (25) there Doctor?

Vol 17 2679

- (1) Answer Oh yes there s low alcohol beer That s a good  
 (2) example  
 (3) You believe that reliance on those kinds of tests for  
 (4) monitoring by supervisors are ill advised do you not?  
 (5) **A This was in the context of the intensive and very careful**  
 (6) **training program that I was advocating for supervisors and**  
 (7) **those were examples of what s - of what Exxon put in their**  
 (8) **policy as advice to supervisors and I think that you can t**  
 just  
 (9) **lay that sort of thing on a policy and then not provide**  
 (10) **extensive training in order to expect them to understand the**  
 (11) **condition they re supposed to be observing**  
 (12) Q All right let s deal with that  
 (13) You were referring in that testimony to some written Exxon  
 (14) documentation that you had reviewed isn t that correct sir?  
 (15) **A Yes**  
 (16) Q Those were the guidelines those were the guidelines that  
 (17) supervisors were to use  
 (18) I can t see the doctor through my framework Your Honor  
 (19) Those were the guidelines that the supervisors were to use  
 (20) in implementing their part of the alcohol policy isn t that  
 (21) correct?  
 (22) **A I believe that s the case, yes**  
 (23) Q And those guidelines said that the supervisor s job was to  
 (24) judge by job performance isn t that correct sir?  
 (25) **A Yes**

Vol 17 2680

- (1) Q And that part of job performance was to look for signs
- (2) that - of on the job in the workplace signs of possible
- (3) misuse of alcohol such as slurred speech lack of balance
- (4) uncoordinated speech and the like correct?
- (5) **A Yes**
- (6) Q And you were saying that you thought those could be
- (7) misleading correct?
- (8) **A In the hands of a layman, yes**
- (9) Q And were you assuming that the only information that the
- (10) Exxon supervisors had was in what was in that written set of
- (11) guidelines?
- (12) **A No, I wouldn't assume that necessarily I'm just saying**
- (13) **that the guidelines seemed to be, you know not extensive**
- (14) **enough**
- (15) Q Well I understood your earlier statement to say that it
- (16) wasn't so much that you disagreed with using those tests as
- (17) that you thought the supervisor needed training on how to use
- (18) those tests? Did I misunderstand you?
- (19) **A Well, no, I just - I don't - tests? You know, they're**
- (20) **not - you're not giving them an exam This isn't, this isn't**
- (21) **a paper and-pencil written thing These are observations**
- (22) **that**
- (23) **supervisors can be trained to make and all that leads to is a**
- (24) **consultation with the medical department by the supervisor**
- (25) **Do**
- (24) **you think there is anything, Doc - should we do something**
- (25) **about it? Well let's talk about it back and forth well,**

Vol 17 2681

- (1) **send him in, let's talk to him directly**
- (2) Q Isn't it a fact Dr Masters that the guidelines you
- (3) looked at advise Exxon supervisors to do exactly that?
- (4) **A To refer the person to the medical department**
- (5) Q To the medical department or consult themselves with the
- (6) medical department?
- (7) **A Yes**
- (8) Q And you heard Mr Myers and while you've been in this
- (9) courtroom you've heard other people from Exxon say that
- (10) annually at the Exxon Shipping officers' conferences they were
- (11) given training on how to apply these guidelines didn't you?
- (12) **A I did**
- (13) Q And you don't have any knowledge about whether or not
- (14) those - that training that which you call the detailed
- (15) standards of training that you were advocating in your
- (16) deposition?
- (17) **A No I would not know that**
- (18) Q But you do agree that a good monitoring program would
- (19) involve advising the supervisor to watch and be the eyes and
- (20) ears of the medical department in the workplace correct?
- (21) **A Yes**
- (22) Q And that they should look for such things as slurred speech
- (23) or absenteeism or frequent injuries or other signs that the
- (24) profession has recognized as indicative of the possibility of
- (25) alcoholism isn't that true sir?

Vol 17 2682

- (1) **A Yes**
- (2) Q And rather than trying to diagnose it they should refer it
- (3) to the medical department?
- (4) **A By all means**
- (5) Q And the writings that you saw in Exxon recommended that
- (6) Exxon supervisors do exactly the - follow exactly those
- (7) standards isn't that true sir?
- (8) **A Yes**
- (9) MR LYNCH I have no further questions Your Honor
- (10) THE COURT Redirect?
- (11) MR MONTAGUE I have just a few questions Your
- (12) Honor
- (13) REDIRECT EXAMINATION OF RICHARD L MASTERS
- (14) BY MR MONTAGUE
- (15) Q Dr Masters you reviewed the guidelines for masters
- (16) captains and managers and supervisors is that one of the
- (17) things -
- (18) **A Yes, sir**
- (19) Q - for Exxon and their policy statement on employee alcohol
- (20) and drug abuse?
- (21) **A Yes, sir**
- (22) Q And those - there was nothing in those that related to
- (23) safety sensitive positions was there?
- (24) **A Nothing**
- (25) Q And there was nothing in there that related to monitoring

Vol 17 2683

- (1) was there?
- (2) **A Nothing**
- (3) Q And isn't what Mr Lynch is referring to in his last series
- (4) of questions didn't they relate to the general policy of
- (5) alcohol of when a supervisor sees something in the workplace
- (6) with respect to a person that then they should go to see the
- (7) medical department if they have a question about it?
- (8) **A Yes**
- (9) Q As an initial - as an initial matter?
- (10) **A Yes, sir**
- (11) Q Has nothing to do with monitoring?
- (12) **A No**
- (13) Q There were no guidelines in those papers with respect to
- (14) monitoring is that correct?
- (15) **A The word - I could not find the word**
- (16) Q Now with respect to - this will just be quick
- (17) The impression that I got from Mr Lynch's questions was an
- (18) implication that you never performed monitoring on a pilot who
- (19) had gone through a rehabilitation once he got his license back
- (20) is that a correct - is that a correct impression that we
- (21) should have?
- (22) **A No, not at all**
- (23) Q How long do you monitor pilots? Do you monitor pilots
- (24) after they get their license back?
- (25) **A Oh yes I've got about 20 I'm monitoring right at the**

Vol 17 2684

- (1) moment
- (2) Q And is that under the system that you ve described to us?
- (3) A Yes sir
- (4) Q One last question - one last series of questions
- (5) You were asked about Dr Vallury and getting reports from
- (6) him?
- (7) A Yes
- (8) Q What kind of reports - do you recall the type of reports
- (9) that you d get from Dr Vallury?
- (10) A Oh yes complete medical records with discharge
- (11) summary
- (12) and it s one of the characteristics of a good record It -
- (13) there s psychiatric reports, reports of psychological
- (14) testing,
- (15) frequently, if required, and in a case where that would be
- (16) indicated we d expect to get that Even down to the
- (17) progress
- (18) notes and sometimes the nursing notes
- (19) Q Okay And is that a report you received from Dr Vallury
- (20) after the inpatient treatment is finished?
- (21) A Well you couldn't produce it before then, no
- (22) MR MONTAGUE Thank you very much
- (23) THE COURT Thank you Doctor you may step down
- (24) (The Witness Stepped Down )
- (25) THE COURT Call your next witness?
- (26) MR O NEILL Your Honor I have some documents to
- (27) offer all by agreement Redacted copies of Plaintiffs
- (28) Exhibits 16 18 and 19 which are responses for request to

Vol 17 2685

- (1) admission Exhibit 795A 795 Alpha which is Surrendering the
- (2) Memories Exhibit 1705 Exhibits 827 828 and 829 Exhibit
- (3) 103 Exhibit 6000 for identification only - and one matter of
- (4) record clarification in our review of the transcript it
- (5) appears that an Exhibit 292 Alpha may have been admitted
- (6) That
- (7) should be 92 Alpha
- (8) (Exhibit 16 18 19 795A 1705 827 828 829 103
- (9) 92A offered)
- (10) MR SANDERS Your Honor I have no objection to those
- (11) that Mr O Neill listed and I agree to the clarification as to
- (12) Exhibit 92 Alpha
- (13) I too have a clarification that I have discussed with Mr
- (14) O Neill That clarification is that the - in Dr Smith s
- (15) cross examination I intended to offer the page from the
- (16) chapter that he wrote in the book and the chart that - a copy
- (17) of the chart that I wrote up as two independent exhibits and I
- (18) think the record probably through my fumbling around reflects
- (19) that they came in as one exhibit and I would like the record to
- (20) reflect that they are two separate exhibits
- (21) The numbers that I wrote up there on the backwards
- (22) extrapolation is Exhibit 9000 and the exhibit which was the
- (23) page from chapter 18 was Defendants Exhibit 9093
- (24) (Exhibit DX9093 offered)
- (25) MR O NEILL We have no objection and assume that
- (26) there s been bedtime reading

Vol 17 2686

- (1) THE COURT Let me play this back and see if we have
- (2) everyone on the same track
- (3) The plaintiffs are offering and defendants do not object to
- (4) redacted Plaintiffs 1618 and 1619
- (5) MR SANDERS No I think that s 16 18 and 19 isn t
- (6) that right?
- (7) MR O NEILL Yes sir 16 comma 18 comma and 19
- (8) THE COURT When you ve got so many exhibits -
- (9) MR O NEILL I goofed up and I should have put the
- (10) commas in
- (11) THE COURT It s a little hard Okay 16 comma 18
- (12) comma and 19 all redacted?
- (13) MR O NEILL Yes sir
- (14) THE COURT Are admitted okay
- (15) (Exhibit 16 18 and 19 received)
- (16) THE COURT Going on Plaintiffs 795 A 1705 827
- (17) 828 829 103 are all admitted by agreement
- (18) (Exhibit 795A 1705 827 828 829 103 received)
- (19) MR SANDERS Correct
- (20) THE COURT Exhibit 6000 has been identified but is
- (21) not being offered and is not being admitted
- (22) MR SANDERS Correct Your Honor
- (23) THE COURT As to Exhibit 292 Alpha I do not show
- (24) that as having been admitted
- (25) MR O NEILL Good

Vol 17 2687

- (1) THE COURT But I understand that 92 Alpha has been
- (2) admitted
- (3) (Exhibit 92A received)
- (4) MR SANDERS That s our understanding Your Honor
- (5) THE COURT As to the defendants exhibits
- (6) defendants 9000 and 9093 are admitted
- (7) (Exhibit 9000 and 9093 received)
- (8) MR SANDERS Thank you Your Honor
- (9) MR O NEILL Your Honor the plaintiffs would like to
- (10) offer pursuant to Rule 103 (a)(2) what has been marked as
- (11) Court Exhibit 1
- (12) (Exhibit Court 1 offered)
- (13) THE COURT That s the material that s being submitted
- (14) under seal?
- (15) MR O NEILL Yes sir
- (16) THE COURT That s being offered under seal It s
- (17) being received and will be held by the Court for possible use
- (18) as a part of the record in the case
- (19) MR O NEILL That s correct
- (20) THE COURT But it is not admitted
- (21) MR O NEILL It is not admitted It is being offered
- (22) pursuant to 103 (a)(2) which deals with offers of proof
- (23) MR LYNCH Those are federal rules of evidence
- (24) MR O NEILL Of the federal rules of evidence
- (25) MR LYNCH As opposed to the federal air regulations

Vol 17 2688

- (1) MR O NEILL Which we ve heard enough about in one  
 (2) day  
 (3) THE COURT Court will receive Plaintiffs Exhibit 1  
 (4) for part of the record  
 (5) (Exhibit Plaintiffs Exhibit 1 received)  
 (6) MR O NEILL Thank you Judge  
 (7) Your Honor Plaintiffs Exhibit 3 has previously been  
 (8) admitted without objection Pursuant to an agreement reached  
 (9) with the defendants the plaintiffs would like your authority  
 (10) to publish portions of the exhibit to the jury in conjunction  
 (11) with Defendants Exhibit 3902A May we publish the exhibits to  
 (12) the jury?  
 (13) THE COURT It s agreed?  
 (14) MR LYNCH So agreed Your Honor  
 (15) THE COURT Do it  
 (16) MR O NEILL Ladies and gentlemen Plaintiffs  
 (17) Exhibit 3 is a part of the oil spill contingency plan for  
 (18) Prince William Sound that was in effect at the time of the  
 (19) spill It had been promulgated by Alyeska Pipeline Service  
 (20) Company of which Exxon Pipeline Company a division of  
 Exxon  
 (21) is an approximate 20 percent owner The plan was approved  
 by  
 (22) the State of Alaska Department of Environmental Conservation  
 (23) and the federal government as required by law There are two  
 (24) portions in addition to the cover page which have been  
 (25) admitted The first two portions are pages 3 through 7<sup>1/2</sup> are

Vol 17 2689

- (1) pages 3 7 through 3 8 and 3 24 through 3 43 It describes the  
 (2) concept exclusion action under the contingency plan  
 (3) It contains a map of exclusion sites a map of Prince  
 (4) William Sound and the dots are sensitive areas listed and  
 (5) describes 136 exclusion sites listed on the map  
 (6) The second part of the plan is the 200 000 barrel spill  
 (7) scenario and contains paragraphs relating to assumptions  
 (8) conditions and immediate response actions And  
 environmental  
 (9) considerations  
 (10) Defendants Exhibit 3901A is a May 1 1986 letter from Paul  
 (11) O Brien manager for oil pollution control of the State of  
 (12) Alaska Department of Environmental Conservation to Alyeska  
 In  
 (13) the letter Mr O Brien asked Alyeska to develop three  
 (14) scenarios for its Prince William Sound contingency plan  
 (15) including that for a 200 000 barrel spill  
 (16) MR O NEILL Ladies and gentlemen you will have both  
 (17) exhibits with you in the jury room in their entirety This  
 (18) brief display has allowed us to introduce them to you Thank  
 (19) you  
 (20) Your Honor again with the agreement of the defendants we  
 (21) would like permission to publish Exhibit 268 to the jury It  
 (22) is a videotape If there s no objection Your Honor we d like  
 (23) to play seven and a half minutes of 268 and the seven and a  
 (24) half minutes have been agreed to with the defendants  
 (25) MR SANDERS That is correct No objection Your

Vol 17 2690

- (1) Honor  
 (2) THE COURT Fine proceed  
 (3) THE COURT Do you want it reported? Or - well it s  
 (4) an admitted exhibit It doesn t need to be reported  
 (5) MR O NEILL I don t think we need it reported do  
 (6) you?  
 (7) MR SANDERS I do not  
 (8) THE COURT It will not be reported  
 (9) (Videotape Played Exhibit 268)  
 (10) MR O NEILL Thank you Your Honor We have one last  
 (11) witness to call and she ll take about five minutes If we  
 (12) could take a stretch so we could set up the slide projector?  
 (13) Thank you Judge  
 (14) THE COURT We ll just stand in place but we ll be off  
 (15) the record for a moment  
 (16) THE CLERK Raise your right hand please  
 (17) (The Witness Is Sworn)  
 (18) THE CLERK Please be seated  
 (19) For the record state your full name give us your address  
 (20) and spell your last name please  
 (21) THE WITNESS My name is Natalie Fobes F o b e s  
 (22) I m from Seattle Washington  
 (23) THE CLERK Thank you  
 (24) DIRECT EXAMINATION OF NATALIE FOBES  
 (25) BY MR O NEILL

Vol 17 2691

- (1) Q And ma am what do you do for a living?  
 (2) A I m a freelance photographer  
 (3) Q And who do you sell your pictures to?  
 (4) A I work for a number of magazines including National  
 (5) Geographic Geo Newsweek U S News, Time, and a  
 number of  
 (6) other smaller magazines in addition to some companies  
 (7) Q At or about the time of the spill of the Exxon Valdez did  
 (8) you have occasion to take some photographs of the vessel?  
 (9) A Yes I did  
 (10) Q And when was that?  
 (11) A I arrived in Valdez on the -- the day after the spill,  
 (12) which was the 25th of March 1989, and I left about a month  
 (13) later, the first time And then I came back after about a  
 week  
 (14) break for about another month  
 (15) Q Exhibit 228 which have been admitted are your slides  
 (16) And rather than ask you a bunch of questions we d just like  
 (17) you to run the slide projector and tell us what the slides are  
 (18) and then that ll be the end of your testimony  
 (19) A Oh great I m a little nervous  
 (20) Q How can you cross examine a slide projector?  
 (21) A I been worrying about it  
 (22) MR O NEILL Tom could we get the lights down?  
 (23) THE WITNESS I guess we should probably turn it on  
 (24) sorry  
 (25) MR SANDERS Well I object to that Your Honor

Vol 17 2692

- (1) THE WITNESS This photograph was taken on the 26th  
 (2) which was Easter Sunday It shows of the Alyeska Terminal  
 (3) where my understanding is that they load the tankers with the  
 (4) oil  
 (5) This was taken the day after the spill which was the 25th  
 (6) and was taken in the afternoon I had chartered an aircraft  
 (7) fixed wing aircraft for a couple hours in the afternoon  
 (8) Let me focus that  
 (9) The larger tanker is the Exxon Valdez and there s a tanker  
 (10) next to it which is off loading or where the oil is being  
 (11) off loaded onto that tanker  
 (12) You also might want to take a look at the boat that is  
 (13) leaving a clean water wake through the oil and the  
 (14) discoloration on top of the water is all oil  
 (15) You ll notice quite a bit of photographs from just flying  
 (16) around and that s part of my job is to get as many different  
 (17) angles and as many different aspects of it so again looking  
 (18) back the first island there that kind of the long skinny one  
 (19) is Reef Island and then behind that is Bligh Island and  
 (20) again you can see that same boat leaving that wake through  
 (21) the  
 (22) oil And the thick - thickness of oil varies depending on  
 (23) where it is at that point Again this is the day after the  
 (24) spill  
 (25) The edge of Reef Island is that land over there and again  
 (26) that same boat going through the oil The oil one of the

Vol 17 2693

- (1) reasons that I take a lot of different photographs from  
 (2) different angles is so that I can really get an idea of what s  
 (3) going on where and in this photograph in particular you can  
 (4) see that the oil has hit the beach on Reef Island All of  
 (5) these photographs were taken above 1500 feet because Coast  
 (6) Guard had asked that - or I guess it wasn t - they weren t  
 (7) asking us the pilots they were actually telling the pilots  
 (8) not to go below 1500 feet and our pilot of course complied  
 (9) with that regulation But even at that altitude the fumes  
 (10) were nauseating and after a while I developed a headache  
 (11) MR SANDERS Your Honor can we just restrict this to  
 (12) her explaining what s in the picture?  
 (13) THE COURT I think probably that would be a good  
 (14) idea  
 (15) A (Continuing) Here again you can see the Reef Island with  
 (16) the oil coming off of the beach there and the various  
 (17) thicknesses of the oil, and again, that same boat going  
 (18) through  
 (19) the oil leaving the clean water wake behind  
 (20) Again, looking back toward Reef Island and Bligh Island  
 (21) and  
 (22) In this photograph, you can see that the oil is in between  
 (23) the - the islands at that point  
 (24) A little bit further back shot These were all taken,  
 (25) again, at 1500 feet, and using a wide angle lens trying to  
 (26) show  
 (27) as much of the spill as possible, but that wasn t possible for  
 (28) me to do I couldn t see the end of the spill

Vol 17 2694

- (1) And again, a little bit different angle looking back toward  
 (2) the ship the two tankers there and the clean water wake  
 (3) the  
 (4) boat is now out of the photograph  
 (5) The oil, the thickness of the oil varied on the top of the  
 (6) water and that gives the discoloration of it  
 (7) The clean water wakes kind of form a triangle and you can  
 (8) see that in the darker shade, which - right there that you  
 (9) can actually see the wake going through that dark spot  
 (10) indicating that it is oil  
 (11) And again, a little bit further back taking a little bit  
 (12) more of a look at it the oil continues on throughout the  
 (13) bottom of the frame and as I said before I could not see the  
 (14) end of the oil slick at that point  
 (15) This shows - this is taken with a more of a telephoto  
 (16) lens, like an 85 millimeter, and it shows the boom that was  
 (17) in  
 (18) place at that point around the two ships And you can see  
 (19) the  
 (20) oil at the - the down current end of the boom, but obviously  
 (21) the boom is not holding the oil in in place within itself  
 (22) A little bit further back showing the oil tendrils coming  
 (23) out from the boom and the oil continuing out throughout the  
 (24) frame, throughout the photograph  
 (25) This shows a little bit more of the way the off loading was  
 (26) happening and the thickness of the oil right around the  
 (27) tankers  
 (28) Again, a little bit further back

Vol 17 2695

- (1) There s that same clean water wake through the oil These  
 (2) tankers, I have no idea how big they are, but they are very  
 (3) very big, and in these photographs they may look a little  
 (4) small  
 (5) but again, that was because I was trying to show the scope  
 (6) of  
 (7) the oil  
 (8) This was taken on the next day It was a beautiful Easter  
 (9) Sunday, and I went out early in the morning, just crystal  
 (10) clear  
 (11) conditions, and you can see the difference in the coloration  
 (12) of  
 (13) the water and the thick, thick oil that s going from the  
 (14) tankers the same two tankers that were there Also the  
 (15) discoloration on top of the water is all oil at this point  
 (16) The white things there are pieces of ice and we re again  
 (17) looking back toward Bligh Reef - or, I m sorry, toward Bligh  
 (18) Island and Reef Island  
 (19) Sorry about the shakiness  
 (20) This shows a little bit more of the booming, the boom and  
 (21) how the oil has down stuck in the boom a little bit but also is  
 (22) traveling out throughout the boom The boom wasn t  
 (23) holding,  
 (24) wasn t containing the oil at this point  
 (25) And again, a little bit further view showing a little bit  
 (26) more of the scope of the oil with the tankers on the reef  
 (27) there And the dark oil leading from the tankers off into the  
 (28) dark blue, the bottom of the frame  
 (29) That s it  
 (30) MR SANDERS I have one question if you through

Vol 17 2696

- (1) MR O NEILL I m done go ahead  
 (2) CROSS EXAMINATION OF NATALIE FOBES  
 (3) BY MR SANDERS  
 (4) Q Do you happen to remember the name of the vessel the  
 (5) smaller vessel that was off loading the oil from the Valdez?  
 (6) **A I can t recall it right now I can look in my notes and**  
 (7) **see if it s in my notes**  
 (8) Q What about the Exxon Baton Rouge?  
 (9) **A Sounds familiar but again I d want to check my notes**  
 (10) MR SANDERS I have nothing further  
 (11) MR O NEILL I didn t either  
 (12) Thank you ma am  
 (13) THE COURT Thank you you may step down  
 (14) (The Witness Stepped Down )  
 (15) THE COURT Mr O Neill just before we started up  
 (16) Mr Murtiashaw asked me a question about Exhibit - I think  
 (17) it s 3902 A We aren t clear as to whether that one has been  
 (18) admitted or not  
 (19) MR O NEILL 3902 A?  
 (20) MR LYNCH Yes it is  
 (21) THE COURT I m assuming that that s a plaintiffs  
 (22) exhibit number  
 (23) MR O NEILL It is 3902 A  
 (24) MR LYNCH Such as they are Your Honor our records  
 (25) do not indicate that it has not been admitted

Vol 17 2697

- (1) THE CLERK This is the one in conjunction with  
 (2) Plaintiffs Exhibit 3 Didn t you indicate it was 39902 A  
 (3) Defendants Exhibit  
 (4) THE COURT No no No I understood it was a  
 (5) Plaintiffs exhibit  
 (6) MR JAMIN I think - I know what it is Your Honor  
 (7) MR O NEILL Oh the letter is Defendants Exhibit  
 (8) 3902 A  
 (9) MR JAMIN And that is admitted by agreement  
 (10) MR O NEILL That is admitted by agreement  
 (11) MR LYNCH Yes sir  
 (12) THE COURT If not before then now Defendants 3902 A  
 (13) is admitted  
 (14) (Exhibit Defendants 3902A received)  
 (15) MR O NEILL The Plaintiffs rest Your Honor  
 (16) MR LYNCH And we ll defer any motion and I think  
 (17) we re ready to call our first witness  
 (18) MR CHALOS It s nice to be back Your Honor  
 (19) THE COURT Mr Chalos nice to have you here  
 (20) MR CHALOS Defendants call for their first witness  
 (21) Jerzy Glowacki  
 (22) THE CLERK Raise your right hand sir  
 (23) (The Witness Is Sworn)  
 (24) THE CLERK Please be seated  
 (25) For the record state your full name your address and

Vol 17 2698

- (1) spell your last name please  
 (2) THE WITNESS My name is Jerzy Glowacki I reside in  
 (3) Raleigh North Carolina and the spelling is J e r z y  
 (4) G l o w a c k i  
 (5) THE CLERK Thank you sir  
 (6) DIRECT EXAMINATION OF JERZY GLOWACKI  
 (7) BY MR CHALOS  
 (8) Q Hello Mr Glowacki  
 (9) **A Good morning**  
 (10) Q What is your present occupation?  
 (11) **A I m presently self employed and I m also on the faculty of**  
 (12) **an engineering department at State University of New York**  
 (13) **Maritime College**  
 (14) Q What is your present employment?  
 (15) **A As self employed?**  
 (16) Q Yes  
 (17) **A Yes I do consulting work in the maritime engineering**  
 (18) **field**  
 (19) Q How long have you been doing that?  
 (20) **A Since 1990**  
 (21) Q And how long have you been in an instructor at Maritime  
 (22) College?  
 (23) **A Since about two years ago**  
 (24) Q Can you give us just briefly your educational background?  
 (25) **A I graduated from State University of New York maritime**

Vol 17 2699

- (1) **college in 1970 with a bachelor of engineering degree**  
 (2) Q That s Fort Schuyler is it not?  
 (3) **A Yes, it is**  
 (4) Q As opposed to Kings Point?  
 (5) **A That s correct**  
 (6) Q Mr O Neill said the other day that Kings Point was the top  
 (7) shelf - is that what you called it?  
 (8) MR O NEILL I hope so  
 (9) MR CHALOS Something like that  
 (10) BY MR CHALOS  
 (11) Q How do you feel about Fort Schuyler as a maritime college?  
 (12) **A Well Fort Schuyler is the only academy both federal and**  
 (13) **state that gives accredited degrees**  
 (14) Q College degrees?  
 (15) **A College degrees**  
 (16) Q So we re smarter than the Kings Pointers right?  
 (17) **A I hope so**  
 (18) Q Can you tell us a little bit about your employment  
 (19) background starting with after you graduated college?  
 (20) **A I was given employment by Exxon in 1970 following**  
 (21) **graduation and I joined Exxon the day after graduation**  
 (22) Q And you worked with Exxon until when December of 1990  
 (23) you  
 (24) said?  
 (25) **A That s correct**  
 (25) Q What did you do for Exxon in that period of 20 years?

Vol 17 2700

- (1) **A Most of the time I was involved in the fleet I sailed in engineering positions and out of the 20 years I spent perhaps five or more years in special office and shoreside assignments**
- (4) Q Let s start with your seagoing career I take it you started out as a third assistant engineer?
- (6) **A That s correct**
- (7) Q Is that a license that you received from the Coast Guard upon graduation from -
- (9) **A Upon graduation from any academy, graduates receive a third engineer s or third mate s license that s correct**
- (11) Q And in your case you received a third engineer s license?
- (12) **A That s correct**
- (13) Q Did there come a time when you advanced that license to a second engineer s license?
- (15) **A Perhaps two years later**
- (16) Q That would be 1972?
- (17) **A Correct**
- (18) Q You sailed for two years as a third assistant engineer?
- (19) **A That is correct**
- (20) Q And did there come a time when you advanced to the second engineer s license to a first engineer s license?
- (22) **A That s correct That took approximately three years**
- (23) Q That would be 1975?
- (24) **A In that ballpark, yes**
- (25) Q Did you sail for those three years?

Vol 17 2701

- (1) **A Yes, I did**
- (2) Q As a second assistant?
- (3) **A Both second and third**
- (4) Q Okay And did there come a time when you advanced that first assistant s license to a chief engineers?
- (6) **A Yes I did I received my chief engineer s license in the latter part of 77**
- (8) Q What is the - what is that license that you hold presently - strike that Let me back up
- (10) Do you still hold that license?
- (11) **A Yes, I do**
- (12) Q Same license since 1977?
- (13) **A That s correct**
- (14) Q And what is that license?
- (15) **A It s a chief engineer of motor vessels and steam vessels unlimited horsepower**
- (17) Q Is there a difference between steam and diesel?
- (18) **A Yes, Coast Guard differentiates between the two different types of propulsion and different tests are given to applicants for the licenses, that s correct**
- (21) Q And you hold both a chief engineer s license for steam vessels and chief engineer s license -
- (23) **A That s correct**
- (24) Q - for motor or diesel vessels?
- (25) **A That s correct**

Vol 17 2702

- (1) Q The Exxon Valdez was a diesel vessel was it not?
- (2) **A It was a diesel vessel yes**
- (3) Q Now you stated that you did - in addition to sailing for Exxon you did some special projects for them?
- (5) **A That s correct**
- (6) Q What kind of special projects?
- (7) **A I worked for six months in the shipping company s marine department at the time office in Baton Rouge as a so called transportation allocator That was in 1972 Then I was transferred for one year 81 through 82 to our office in Benicia as an engineering analyst I spent roughly a year in 82 83 in Louisiana and New Orleans when we were building three motor tankers there at the time Then I was involved in for about six months in a design - latter design stages of the Exxon Valdez, and then I was a machinery superintendent during construction of the Exxon Valdez and the sister ship, the Exxon Long Beach**
- (18) Q Let me ask you about the construction projects that you were involved with That s three different construction projects?
- (21) **A That s correct**
- (22) Q The first one involved the Exxon Benicia is that what you said?
- (24) **A Yes that was in 1979**
- (25) Q And the other one involved you said three diesel

Vol 17 2703

- (1) vessels Which vessels were those?
- (2) **A These were the Exxon Charleston Exxon Wilmington and Exxon Baytown**
- (4) Q And how much time did you spend during their construction working on the construction project?
- (6) **A In 1979 with the Exxon Benicia was only in the shipyard for maybe two three months prior to delivery of the vessel I was there in the position of the chief engineer In 82 83 I was also assigned as a - in a position of chief engineer to the Wilmington I was there approximately a year**
- (12) Q And you said you also worked in the construction of the Exxon Long Beach and Exxon Valdez?
- (14) **A That s correct**
- (15) Q How long were you in - what did you do in regards to that?
- (17) **A As I said I was in Houston late 84 for approximately six months I was involved in the latter stages of the machinery design, planning and then we moved to San Diego where the vessels were built when the construction started**
- (21) Q I see With respect to the machinery design you had a hand in designing the engine of this vessel?
- (22) **A No**
- (24) Q This auxiliary machinery?
- (25) **A I m sorry?**

Vol 17 2704

- (1) Q The auxiliary machinery is that what you're talking about?  
 (2) A Some, yes  
 (3) Q Now were you present during the construction of the vessel?  
 (4) A I was  
 (6) Q The entire time?  
 (7) A That's correct  
 (8) Q Let me ask you this. In the years that you worked for Exxon, did they ever send you to any courses?  
 (9) A I attended many courses, yes  
 (11) Q What type of courses were you sent to?  
 (12) A I attended several courses in Kings Point  
 (13) Q The other school?  
 (14) A That's correct  
 (15) Q That's right, okay  
 (16) A I also attended many courses given by different manufacturers of marine type equipment, engine manufacturers, that type of thing  
 (19) Q And this was - these were courses that Exxon sent you to at their expense?  
 (21) A That's correct  
 (22) Q These were intended to increase your knowledge of - of new products and how new products worked?  
 (24) A I wouldn't say new products. These are courses to further our professionalism basically

Vol 17 2705

- (1) Q Did Exxon do that for other chief engineers besides yourself?  
 (2) A Yes  
 (4) Q And first engineers as well?  
 (5) A Yes, I believe so  
 (6) Q Now once the Exxon Valdez was constructed, did you sail on her as a chief engineer?  
 (8) A Yes, I sailed on her from the maiden voyage on that's correct  
 (9) Q When did the vessel come out of the yard?  
 (11) A Mid December '86. I don't recall the exact date  
 (12) Q And you were the permanent chief engineer on that vessel from 1986 until the grounding?  
 (14) A One of the two, that's correct  
 (15) Q Who was the other chief engineer?  
 (16) A Chuck Kimtli  
 (17) Q Now when was the first time that you sailed with Captain Hazelwood?  
 (18) A About a month after I joined the vessel in 1989  
 (20) Q Well when did you join the vessel in 1989?  
 (21) A Sometime in January 1989  
 (22) Q So would mid February sound about right?  
 (23) A It's very possible, yes  
 (24) Q Was that the first time you sailed with Captain Hazelwood in your 20 year career?

Vol 17 2706

- (1) A That is correct  
 (2) Q You were already on board when Captain Hazelwood arrived?  
 (3) A That's correct  
 (4) Q Now between mid February when you first encountered Captain Hazelwood and the day of the grounding - let's say March 22nd so we're clear - from mid February to March 22nd, did you have occasion to interact with Captain Hazelwood on a daily basis?  
 (8) A Continuously  
 (10) Q Did you see him more than once a day?  
 (11) A Yes  
 (12) Q Did you ever drink with Captain Hazelwood during that period that we just talked about?  
 (14) A No, I did not  
 (15) Q Did you ever see Captain Hazelwood drink aboard the ship during that period of time?  
 (17) A I did not  
 (18) Q Did you ever see Captain Hazelwood impaired or intoxicated at all during that time?  
 (20) A I did not  
 (21) Q Did you have occasion during that period of time to go into his office?  
 (23) A Many times  
 (24) Q Did you ever see any evidence of alcohol use by Captain Hazelwood while you were in his office?

Vol 17 2707

- (1) A No, I did not  
 (2) Q Did you see any containers or - or liquor bottles or anything like that?  
 (4) A No, excuse me. I don't recall anything of that nature.  
 (5) Q Now you were in charge during that period of time of the engine department, were you not?  
 (7) A That's correct  
 (8) Q And under you was the first assistant. What was his name?  
 (9) A At that time, it was Ray Jones  
 (10) Q And who was the second assistant?  
 (11) A Graeme Oldham  
 (12) Q And who was the third assistant?  
 (13) A Katherine Haven  
 (14) Q There's been some testimony here by Ms. Haven that there were parties on board the Exxon Valdez during that period of time. Did you ever see any parties on the Exxon Valdez in the engineering department?  
 (18) A I did not  
 (19) Q Did you ever see any parties at all?  
 (20) A No, I didn't  
 (21) Q Did you ever see Mr. Oldham, Mr. Jones or Ms. Haven drinking on board the vessel?  
 (22) A No  
 (24) Q Did you ever see Captain Hazelwood socializing with those three in a drinking party?

Vol 17 2708

- (1) **A No**  
 (2) **Q Did you ever hear of anything like that?**  
 (3) **A No**  
 (4) **Q You have a chance to interact as the head of the**  
 (5) **engineering department with Mr Oldham Mr Jones and Ms**  
 (6) **Haven on a daily basis?**  
 (7) **A Continuously, yes**  
 (8) **Q Did you ever see any of them under the influence of**  
 (9) **alcohol?**  
 (10) **A Not that I could determine no**  
 (11) **Q You worked pretty closely with them in the engine room**  
 (12) **didn t you?**  
 (13) **A Worked very closely**  
 (14) **Q Okay I d like to go - Mr Glowacki I d like to direct**  
 (15) **your attention to say mid March of 1989 when the vessel was**  
 (16) **in San Francisco Do you remember that period?**  
 (17) **A Yes**  
 (18) **Q Okay you had some problems with the engine did you not?**  
 (19) **A I had a - we had problems with the main engine**  
 (20) **turbochargers, yes**  
 (21) **Q Tell us a little bit about that You re the chief**  
 (22) **engineer so you re in a position to tell us What happened?**  
 (23) **A Well, the sister vessel the Exxon Long Beach, had severe**  
 (24) **problems with the turbochargers prior, let s say couple**  
 (25) **months prior to that period and manufacturer of the turbochargers**

Vol 17 2709

- (1) **came back - as a result of these problems on the sister**  
**ship**  
 (2) **came back to Exxon with a proposed modification to the**  
 (3) **turbochargers and however the Exxon Valdez really had**  
**not had**  
 (4) **any of the same problems that the Long Beach had had**  
 (5) **After the modifications were made on the Exxon Long**  
**Beach,**  
 (6) **it was decided to perform the same modifications on Exxon**  
 (7) **Valdez whether we needed them or not, they were**  
**performing**  
 (8) **One turbocharger was completely overhauled and**  
 (9) **modifications were made I d say early February or**  
**something of**  
 (10) **that sort, so at that time we had - one turbocharger was**  
 (11) **overhauled and one as originally built, and then the period**  
**of**  
 (12) **time I assume you re talking about in San Francisco again**  
**was**  
 (13) **when the second turbocharger was modified And -**  
 (14) **Q Mr Glowacki?**  
 (15) **A Yes**  
 (16) **Q Sorry I know I went to that smart school but I don t**  
 (17) **know what turbochargers are Can you tell us?**  
 (18) **A Okay**  
 (19) **Q What do they do?**  
 (20) **A It s a exhaust -**  
 (21) **Q Do you know?**  
 (22) **A I m sorry?**  
 (23) **Q Do you know?**  
 (24) **A I hope so**  
 (25) **Q I hope so too**

Vol 17 2710

- (1) **A It s an exhaust gas driven turbine which also has a**  
 (2) **compressor or another turbine wheel attached on the other**  
**end**  
 (3) **of the shaft which compresses air which is used in a**  
**combustion**  
 (4) **process in the engine**  
 (5) **Q Sounds good to me**  
 (6) **So you fixed - you overhauled the turbochargers and then**  
 (7) **what happened?**  
 (8) **A After we finished discharging cargo, we were going to go**  
**to**  
 (9) **Valdez to - another voyage, pick up another load We left**  
 (10) **anchorage and after we got out the gate Golden Gate -**  
 (11) **Q Anchorage you re talking about the anchorage in San**  
 (12) **Francisco?**  
 (13) **A In San Francisco, that s right**  
 (14) **Q Not the Anchorage in Alaska?**  
 (15) **A Right**  
 (16) **Q Go ahead**  
 (17) **A Discharged the cargo in San Francisco all of the cargo**  
**was**  
 (18) **lightered we were proceeded to start our voyage to Valdez**  
 (19) **And after we dropped the pilot off in San Francisco, instead**  
**of**  
 (20) **speeding up to sea speed we started experiencing severe**  
 (21) **turbocharger vibrations**  
 (22) **Q Were you in the engine room at the time?**  
 (23) **A That s correct**  
 (24) **Q What did you do?**  
 (25) **A Well we investigated the situation and perhaps after -**

Vol 17 2711

- (1) **Initially I thought could be a transient a different rpm of**  
 (2) **the turbocharger or different conditions they might go**  
**away,**  
 (3) **and after a short period of time seeing that it wasn t going**  
 (4) **away I called the captain and told him that we re having**  
 (5) **problems and we have to go back in**  
 (6) **Q That s Captain Hazelwood?**  
 (7) **A That s correct**  
 (8) **Q What did Captain Hazelwood say to you?**  
 (9) **A Okay**  
 (10) **Q And did you in fact go in?**  
 (11) **A We turned the ship around we called the company and**  
**told**  
 (12) **them we re going back to anchorage**  
 (13) **Q You called the company?**  
 (14) **A We made contact I don t remember exactly whether it**  
**was**  
 (15) **Captain Hazelwood or both of us but we did notify the**  
**company**  
 (16) **that we were turning the ship around, we re going back to**  
 (17) **anchorage and that we will require representatives of the**  
 (18) **turbocharger and manufacturers to meet us in anchorage**  
**when we**  
 (19) **landed**  
 (20) **Q Did that happen? Did the representatives come down?**  
 (21) **A That is correct**  
 (22) **Q Okay Did there come a time when the problem was**  
 (23) **corrected?**  
 (24) **A Well, they performed some repairs, changed some parts**  
**You**  
 (25) **want me to go into specifics?**

Vol 17 2712

- (1) Q No no no it's okay I just want to move along I want to  
 (2) get on this voyage  
 (3) A Yes  
 (4) Yes, they changed some parts There was evidence of  
 severe  
 (5) wear on the bearings, and put new bearings in and after I  
 (6) don't know, perhaps 24 hours we decided to start our  
 voyage  
 (7) again  
 (8) Q Okay What happened then?  
 (9) A We left anchorage again, and this time we didn't get past  
 (10) Alcatraz Island until same thing, same thing occurred, so  
 (11) again we turned the ship back around, back to anchorage  
 Same  
 (12) scenario  
 (13) Q Okay And ultimately that problem was corrected?  
 (14) A Well, the second time we didn't just look at the bearings,  
 (15) we disassembled the entire turbochargers and the rotor to  
 shore  
 (16) up the balancing, and it was much lengthier a process  
 (17) Q How long did the entire process take of repairing whatever  
 (18) the problem was?  
 (19) A From the first - from the first attempt of trying to  
 (20) leave? From the first attempt of trying to leave San  
 Francisco  
 (21) to the time we finally did leave was approximately six days  
 (22) Q There's been some suggestion here that when your vessel  
 (23) sailed when the vessel sailed finally after the problems were  
 (24) corrected that she was running behind schedule Is that  
 (25) correct?

Vol 17 2713

- (1) A Not that I'm aware of it no  
 (2) Q Why do you say that?  
 (3) A I don't follow you I'm sorry  
 (4) Q In other words was the vessel five days or six days behind  
 (5) schedule at that point or had there been other arrangements  
 (6) made to send another vessel in your place?  
 (7) A There probably would have been yes because we were  
 out of  
 (8) service for six days, and if there was cargo consigned to us  
 (9) it was Exxon's obligation to provide the tonnage to lift it  
 (10) yes So some other arrangements would have to be made  
 that's  
 (11) true  
 (12) Q Is it your understanding that your vessel was taken out of  
 (13) rotation at that point and another ship was substituted for the  
 (14) Valdez?  
 (15) A It wasn't my understanding at the time, but that was the  
 (16) procedure one would have to follow if there was cargo  
 (17) available, that's correct  
 (18) Q So based on your understanding then when you left San  
 (19) Francisco you were in a different rotation for another load  
 (20) not the load that you were originally destined for?  
 (21) A That's a realistic assumption, yes  
 (22) Q Okay Mr Glowacki I'd like to go now to March 22nd  
 (23) 1989 The vessel arrived on the - in Valdez on the evening of  
 (24) March 22nd am I correct?  
 (25) A That's correct

Vol 17 2714

- (1) Q Okay And I take it once the vessel was tied up you went  
 (2) to bed?  
 (3) A Yes  
 (4) Q All right You woke up the next day I take it March  
 (5) 23rd?  
 (6) A That's correct  
 (7) Q Did you have any discussions with Captain Hazelwood about  
 (8) going ashore?  
 (9) A Yes, we discussed going ashore to the agent's office We  
 (10) had some business to take care of, communicate -  
 telephone  
 (11) calls - telephone calls to the office yes  
 (12) Q Did you have that discussion with Captain Hazelwood?  
 (13) A That's correct  
 (14) Q Did he indicate to you that he needed to go ashore to take  
 (15) care of some business?  
 (16) A That's correct  
 (17) Q And did you tell him that you had some business to take  
 (18) care of as well?  
 (19) A That's correct  
 (20) Q What was your plan at this point after you had this  
 (21) discussion?  
 (22) A We planned to leave the vessel somewhere between 10  
 11 00  
 (23) and go to the agent's office in Valdez  
 (24) Q Did that in fact happen?  
 (25) A That's correct

Vol 17 2715

- (1) Q Tell me what time did you physically leave the vessel?  
 (2) A We left the vessel somewhere around 10 30 in the  
 morning  
 (3) Q What we're talking about now is you stepping on the  
 (4) gangway the gantry?  
 (5) A Yes leaving the vessel yeah  
 (6) Q All right Was - before you left the vessel before you  
 (7) started going up the gangway did you happen to notice  
 whether  
 (8) there was a sailing board?  
 (9) A Yes there was  
 (10) Q There was a sailing board posted?  
 (11) A That's correct  
 (12) Q Could you tell please the ladies and gentlemen of the  
 (13) jury what a sailing board is?  
 (14) A A sailing board is a physical board on which there are  
 (15) certain legends, such as the name of the vessel, the date  
 the  
 (16) vessel will sail, the destination of the vessel, and what time  
 (17) the crew is to be back on board, and that's usually posted  
 by  
 (18) the gangway where one either comes on or off the vessel  
 (19) Q On the morning of March 23rd as you were about to depart  
 (20) the vessel did you happen to look at the sailing board?  
 (21) A Yes  
 (22) Q What was the sailing time that was shown on there?  
 (23) A It was 9 00 p m 2100  
 (24) Q Now after you got off the vessel you went up the gantry  
 (25) right came down on the other side? You walked down the long

Vol 17 2716

- (1) jetty?  
 (2) **A That s correct**  
 (3) Q Okay What happened when you got to the end of the jetty?  
 (4) **A Captain Hazelwood made arrangements with one of the pilots**  
 (5) **to give us a ride into town and I believe we waited for him for a little bit**  
 (7) Q At the end of the jetty?  
 (8) **A That s correct**  
 (9) Q Did anyone besides yourself and Captain Hazelwood decide to  
 (10) go to town?  
 (11) **A Yes the officer radio operator**  
 (12) Q That was Mr Roberson?  
 (13) **A That s correct**  
 (14) Q What was he going to do in town?  
 (15) **A He just came along with us and had opportunity to get a free ride into town**  
 (17) Q Now you say you were picked up by a pilot?  
 (18) **A That s correct**  
 (19) Q Do you remember his name?  
 (20) **A Bradford I never met him prior to that time**  
 (21) Q Let me suggest a name Bradley?  
 (22) **A Fine**  
 (23) Q That sound correct?  
 (24) **A Fine**  
 (25) Q Where did Mr Bradley take you after he picked you up in

Vol 17 2717

- (1) his car?  
 (2) **A He took us to - obviously out of the terminal into downtown Valdez to our agent s office Alaska Maritime Services**  
 (5) Q Before we get to the Alaska Maritime Office you checked out through the gate I take it?  
 (7) **A That s right**  
 (8) Q When you got to the gate did you have to log out?  
 (9) **A I don t recall physically signing out no Or individually signing out**  
 (11) Q Do you remember what time you left the gate?  
 (12) **A It had to be shortly before 11 00**  
 (13) Q We have evidence here and we put it up before that you left at 10 59 Does that comport with your recollection?  
 (15) **A It is with the sign out sheets, yes**  
 (16) Q Now you said you went to the Alamar office Did you go to the Alamar office directly?  
 (18) **A That s correct**  
 (19) Q You were driven by Pilot Bradley directly to the Alamar office?  
 (21) **A That is right**  
 (22) Q All three of you?  
 (23) **A That s right**  
 (24) Q What did you - what did you do when you got to the Alamar office?  
 (25)

Vol 17 2718

- (1) **A Their office on the second story, so we all went to their office and they provided us with a couple desks where we could**  
 (3) **use the phones and Captain Hazelwood proceeded to make his**  
 (4) **phone calls and I proceeded to make my phone calls, plus I had**  
 (5) **some lubricating oil samples from the turbochargers that I had**  
 (6) **to have Fed Ex d to San Francisco for analysis and that was basically the nature of the business what I had to do there**  
 (7) **Q Did Pilot Bradley go up to the Alamar offices with you?**  
 (9) **A I don t recall He didn t stay with us If that s what you mean**  
 (11) Q Yes that s what I was driving at  
 (12) **A No, I don t recall that**  
 (13) Q So the three of you got out of his car and walked upstairs to the Alamar office?  
 (14) **A That s correct**  
 (16) Q What time did you get to the Alamar office?  
 (17) **A Have to be about 11 30**  
 (18) Q And how long did you remain in the Alamar office?  
 (19) **A Approximately an hour**  
 (20) Q Till about 12 30?  
 (21) **A Correct**  
 (22) Q During that period of one hour did any of you leave the other site or to say it a different way did you all stay together?  
 (24) **A That s correct**  
 (25)

Vol 17 2719

- (1) Q You all stayed at the Alamar office?  
 (2) **A That s my recollection yes sir**  
 (3) Q Now you said you had to make some phone calls as well?  
 (4) **A That s correct**  
 (5) Q Who did you call?  
 (6) **A I called our repair superintendent out of the Benicia office, all regarded the turbochargers and I also called turbocharger manufacturer s representative And there might**  
 (9) **have been a couple others, I don t recall**  
 (10) Q And plus you made arrangements to send the samples by Federal Express?  
 (11) **A That s correct**  
 (13) Q So that whole thing took a period of time I take it and then you were waiting you said for Captain Hazelwood at this point to finish what he was doing?  
 (16) **A I was done with whatever I had to do earlier than Captain Hazelwood was yes**  
 (17) **Hazelwood was yes**  
 (18) MR CHALOS Your Honor this may be a good time  
 (19) THE COURT Take our second recess ladies and gentlemen We ll be in recess for 15 minutes  
 (20) gentlemen We ll be in recess for 15 minutes  
 (21) THE CLERK This court is in recess for 15 minutes  
 (22) (Jury out at 12 02 p m )  
 (23) (Recess)  
 (24) (Jury in at 12 17)  
 (25) THE COURT Mr Chalos

Vol 17 2720

- (1) MR CHALOS Thank you Your Honor  
 (2) BY MR CHALOS  
 (3) Q Mr Glowacki before we go back to the Alamar office I  
 (4) notice you speak with a slight brogue is that a Bronx accent?  
 (5) **A No, it s not a Bronx accents**  
 (6) Q Where were you born?  
 (7) **A I was born In Poland**  
 (8) Q You immigrated to the United States?  
 (9) **A I m sorry**  
 (10) Q Did you immigrate to the United States?  
 (11) **A That s correct I did**  
 (12) Q Just one more question When you left Exxon - in 1990  
 (13) you said?  
 (14) **A Yes I did**  
 (15) Q - was that a retirement on your part?  
 (16) **A I had the opportunity of taking 20 year retirement and I**  
 (17) **took it, yes**  
 (18) Q Okay back to the Alamar office when you were there for the  
 (19) one - one hour from 11 30 to 12 30 you said?  
 (20) **A Yes**  
 (21) Q Did there come a time when you overheard a radio  
 (22) transmission from the vessel regarding the sailing time?  
 (23) **A Yes, the vessel did get in touch with the agent and did**  
 (24) **notify the agent of a change in sailing time**  
 (25) Q From what to what?

Vol 17 2721

- (1) **A It was moved back one hour to 10 00**  
 (2) Q So when you left the Alamar office at 12 30 in the  
 (3) afternoon was it your understanding and Captain Hazelwood s  
 (4) understanding that the vessel s sailing time had been pushed  
 (5) back one hour to 10 00 from 9 00?  
 (6) **A Yes it was**  
 (7) Q Incidentally we spoke a little bit about the sailing  
 (8) board Is the sailing board the time that s listed on the  
 (9) sailing board for sailing is that something that people who  
 (10) are going ashore can rely on?  
 (11) **A It has been my experience that s correct**  
 (12) Q Okay So what happens that 12 30?  
 (13) **A Captain Hazelwood and Pilot Murphy made arrangements**  
 (14) **to**  
 (15) **have lunch together and myself and Mr Roberson were**  
 (16) **also**  
 (17) **invited to lunch**  
 (18) Q Did - Captain Murphy was a pilot up in Valdez was he not?  
 (19) **A Yes he was**  
 (20) Q Did there come a time when Captain Murphy picked you up  
 (21) the three of you up?  
 (22) **A After we got done with whatever we had to do at the**  
 (23) **agent s**  
 (24) **office, we went downstairs and we waited for Pilot Murphy**  
 (25) **to**  
 (26) **pick us up, that s correct**  
 (27) Q Where did you go downstairs?  
 (28) **A I m sorry**  
 (29) Q Where at the Alamar office?

Vol 17 2722

- (1) **A At the Alamar office**  
 (2) Q And did you wait in the parking lot?  
 (3) **A We waited in front of the office**  
 (4) Q Did you go anywhere else during that period of time while  
 (5) you were waiting for Pilot Murphy?  
 (6) **A No, we just stood outside the office downstairs**  
 (7) Q And did the three of you stay together?  
 (8) **A Yes, we did**  
 (9) Q And did Pilot Murphy come directly to pick you up at that  
 (10) point?  
 (11) **A I believe we waited a few minutes something of that**  
 (12) **order**  
 (13) **but yes, he did, did actually come and pick us up**  
 (14) Q And did he - did he drive you somewhere?  
 (15) **A We all - yes He drove us to the place where we was**  
 (16) **going**  
 (17) **to lunch**  
 (18) Q What was the name of that place?  
 (19) **A Pizza Palace**  
 (20) Q And did you in fact have lunch at the Pizza Palace?  
 (21) **A Yes we did**  
 (22) Q Did you drink anything at the Pizza Palace?  
 (23) **A Yes, I did**  
 (24) Q What did you drink?  
 (25) **A I had beer**  
 (26) Q How many beers?  
 (27) **A I believe two**

Vol 17 2723

- (1) Q How about Mr Roberson did he drink?  
 (2) **A I believe he also drank beer**  
 (3) Q How many beers?  
 (4) **A I don t know**  
 (5) Q Did Captain Hazelwood drink?  
 (6) **A Yes, he did**  
 (7) Q What did he drink?  
 (8) **A He had ice tea**  
 (9) Q Did he drink anything of an alcoholic nature?  
 (10) **A At the Pizza Palace?**  
 (11) Q Yes  
 (12) **A No he did not**  
 (13) Q How about Captain Murphy? Did he have any alcohol at the  
 (14) Pizza Palace?  
 (15) **A No he did not**  
 (16) Q How long did the lunch take?  
 (17) **A I would say slightly over an hour**  
 (18) Q Let me ask you this  
 (19) During this lunch that you said took slightly over an hour  
 (20) did any of the three of you get up and leave to go any place?  
 (21) **A No**  
 (22) Q You remained together?  
 (23) **A Yes, that s correct**  
 (24) Q All right After lunch was finished where did you go?  
 (25) **A Pilot Murphy took us back in his car to - back to the**

Vol 17 2724

- (1) **center of town**  
 (2) Q And all three of you?  
 (3) A That s correct  
 (4) Q Did he drop you off somewhere?  
 (5) A I believe there was a supermarket there in front of the  
 (6) supermarket, which is - to me is the center of town, Valdez  
 (7) Q To the best of your recollection about what time would  
 (8) that have been?  
 (9) A Around 2 00 or shortly after  
 (10) Q Now what did you do - did Pilot Murphy get out with you  
 (11) there or did he just drop the three of you?  
 (12) A I believe he just dropped us off  
 (13) Q What did the three of you do after you were dropped off?  
 (14) And I m talking now initially I don t want you to give me a  
 (15) long recitation We ll get into that  
 (16) A Seems I recall that we sort of hung loose there for a  
 (17) while, not knowing what to do, or to decide, and then  
**Captain**  
 (18) **said - Captain Hazelwood said he had something else to**  
**take**  
 (19) **care of, and I wanted to get some papers for the - I was**  
**asked**  
 (20) **prior to leaving the ship to get the newspapers for some of**  
**the**  
 (21) **other crew members, some of the engineers, and I don t**  
**recall**  
 (22) **Mr Roberson saying anything that he had to do**  
 (23) Q Okay How long did this discussion take?  
 (24) A Perhaps a few minutes  
 (25) Q Okay And did there come a time when you split up?

Vol 17 2725

- (1) A Then we decided to part, and we parted  
 (2) Q Did you have a general plan as to where you were going to  
 (3) meet up again?  
 (4) A Yeah prior to parting, we did say we d - we ll meet in  
 (5) the Pipeline Club  
 (6) Q Did you say about what time you would meet in the Pipeline  
 (7) Club?  
 (8) A Within a couple hours  
 (9) Q Was there any plan to meet there at any specific time?  
 (10) A I don t -  
 (11) Q Or around a specific time?  
 (12) A I m sorry?  
 (13) Q Or around a specific time?  
 (14) A I don t recall any specifics being talked about, no  
 (15) Q Now did you walk away from the other two at that point?  
 (16) A Yes, I did  
 (17) Q Where did you go?  
 (18) A I believe I went to the drugstore, which also sells  
 (19) newspapers They didn t have any So I bought some news  
 (20) magazines, and then I was told that the only place you can  
 (21) buy  
 (22) papers in Valdez is from an automatic dispensers, so at the  
 (23) drugstore, I believe they told me where a couple of them  
 (24) could  
 (25) be located, and I proceeded to look for papers  
 (26) Q How long did that walk take you from the drugstore to  
 (27) wherever the papers -

Vol 17 2726

- (1) A Well I also went to - there s a hotel in Valdez  
 (2) Westmark, I believe or something of that sort  
 (3) Q The one down by the small boat harbor?  
 (4) A By the yacht basin in the small harbor yes  
 (5) Q Why did you go there?  
 (6) A I couldn t find newspapers anywhere else all the  
 (7) machines  
 (8) were empty, so I went over there and I hung around the  
 (9) harbor  
 (10) for a little while, just taking in the sights  
 (11) Q Anything else?  
 (12) A That s about it  
 (13) Q Okay did you eventually make your way to the Pipeline  
 (14) Club?  
 (15) A Yes, I did  
 (16) Q What time did you arrive there?  
 (17) A Approximately four in the afternoon  
 (18) Q So you walked around town? Is it your testimony you walked  
 (19) around town for about two hours?  
 (20) A About an hour and a half plus yes  
 (21) Q When you arrived at the Pipeline Club - you said about  
 (22) 4 00?  
 (23) A Yes  
 (24) Q Was that the first time you were in the Pipeline Club that  
 (25) day?  
 (26) A That day, yes  
 (27) Q Was there - was Captain Hazelwood or Mr Roberson in the

Vol 17 2727

- (1) Pipeline Club when you arrived?  
 (2) A No, they were not  
 (3) Q Did there come a time when Captain Hazelwood joined you  
 (4) at  
 (5) the Pipeline Club?  
 (6) A Yes He joined me about 20 minutes to half an hour after I  
 (7) showed up, after I went to the Pipeline  
 (8) Club  
 (9) Q What time would you say he came in?  
 (10) A Approximately 4 30  
 (11) Q Had you already ordered a drink by the time Captain  
 (12) Hazelwood arrived?  
 (13) A I did yes  
 (14) Q What did you order?  
 (15) A Gin and tonic  
 (16) Q Did you get a gin and tonic?  
 (17) A Yes, I did  
 (18) Q When Captain Hazelwood came in did he come over to  
 (19) speak  
 (20) to you?  
 (21) A Yes, he came toward me, that s correct  
 (22) Q Okay What did he say to you and what did you say to him?  
 (23) A I don t believe we said anything other than How you  
 (24) doing,  
 (25) something like  
 (26) Q Did he ask you if you wanted a drink?  
 (27) A I m sorry  
 (28) Q Did he ask you if you wanted a drink?  
 (29) A No, I still had the drink I ordered

Vol 17 2728

- (1) Q So he didn't buy you a drink at this point?  
 (2) A No I don't recall anything of that sort no  
 (3) Q Did Captain Hazelwood go up and order a drink for himself?  
 (4) A Yes, I believe so  
 (5) Q Did you hear what he ordered?  
 (6) A I believe he ordered vodka yes  
 (7) Q And did he come back with the vodka?  
 (8) A That's right  
 (9) Q Now you said about 20 minutes later Mr Roberson arrived?  
 (10) A He did, yes About 20 minutes after Captain Hazelwood  
 (11) Q At that point did Mr Roberson come over and ask you if  
 (12) you wanted a drink?  
 (13) A He might have, yes  
 (14) Q Do you remember what you said to him?  
 (15) A I don't believe we got around for it because we still had  
 (16) our drinks  
 (17) Q You were still working on your first drink at that point?  
 (18) A I might have been working on the second one, I don't  
 know  
 (19) Q How about Captain Hazelwood?  
 (20) A I don't recall  
 (21) Q Now when Mr Roberson arrived did he go up and order  
 (22) something to drink?  
 (23) A Yes, he did  
 (24) Q What did he order?  
 (25) A He ordered a beer

Vol 17 2729

- (1) Q Now did there come a time when there was another drink  
 (2) bought by either yourself or Captain Hazelwood?  
 (3) A Yes  
 (4) Q Let me ask you this How many drinks did you have in the  
 (5) Pipeline Club that day?  
 (6) A I believe it was three  
 (7) Q Three what gin and tonics?  
 (8) A Three gin and tonics  
 (9) Q How many drinks did Captain Hazelwood have in the  
 Pipeline  
 (10) Club?  
 (11) A I also recall three  
 (12) Q Do you remember what Mr Roberson had?  
 (13) A I don't remember how many beers he had, no  
 (14) Q Okay How long did you remain in the Pipeline Club?  
 (15) A We left approximately 7:30 - I'm sorry, around 7:00  
 (16) Q Okay now when you said Captain Hazelwood had three  
 (17) drinks -  
 (18) A Yes  
 (19) Q - were they three vodkas?  
 (20) A I would believe so yes  
 (21) Q Three single vodkas as best as you can recall?  
 (22) A I have no reason to believe anything else  
 (23) Q You're familiar with what a double glass looks like - when  
 (24) you order doubles?  
 (25) A I assume it's larger than a single

Vol 17 2730

- (1) Q The glass that Captain Hazelwood was drinking from was  
 (2) that a single glass as best you recall?  
 (3) A It was the same size mine was, yes  
 (4) Q And you were drinking singles?  
 (5) A Yes, that's correct  
 (6) Q Now did any of you during that period of time that you  
 (7) were together in the Pipeline Club - that is you and Captain  
 (8) Hazelwood were together you said from about 4:30 to  
 (9) approximately 7:00? Do you remember that?  
 (10) A Yes  
 (11) Q Okay Did either one of you ever leave the other's sight?  
 (12) A No  
 (13) Q Did anybody leave that place and go somewhere else during  
 (14) that period of time?  
 (15) A No  
 (16) Q How about when Mr Roberson arrived did any of you leave  
 (17) any of the three of you leave?  
 (18) A No, we did not  
 (19) Q Okay what did you do at 7:00?  
 (20) A We left the Pipeline Club and we were going to go back to  
 (21) the ship  
 (22) Q Your plan was to go back to the ship at that point?  
 (23) A That's correct However I asked Captain Hazelwood and  
 Mr  
 (24) Roberson if they wouldn't mind if we stopped over at the  
 Pizza  
 (25) Palace so I could buy a couple pizzas and bring them back  
 to

Vol 17 2731

- (1) the ship for the other engineers  
 (2) Q That was your suggestion?  
 (3) A That's correct  
 (4) Q The other two were ready to go back?  
 (5) A Well we were all ready to go back  
 (6) Q When you left the Pipeline Club - at approximately 7:00  
 (7) you said - what did you believe at that point was the sailing  
 (8) time of this vessel?  
 (9) A 10:00  
 (10) Q All right  
 (11) Now how long did it take you to go from the Pipeline Club  
 (12) to the Pizza Palace?  
 (13) A About 20 minutes  
 (14) Q What was the condition of the road do you remember?  
 (15) A It was winter It was icy and packed snow  
 (16) Q You guys were walking I take it carefully?  
 (17) A As one does on uneven icy slippery surface, yes  
 (18) Q Did any of the three of you have any problem negotiating  
 (19) the icy road to walk from the Pipeline Club to the Pizza  
 (20) Palace?  
 (21) A I don't believe so no  
 (22) Q Anybody stumble?  
 (23) A No  
 (24) Q Anybody fall?  
 (25) A No I don't recall anything like that

Vol 17 2732

- (1) Q When you left the Pipeline Club did you feel impaired?  
 (2) A No  
 (3) Q Did Captain Hazelwood appear impaired to you?  
 (4) A No  
 (5) Q Did Mr Roberson appear impaired?  
 (6) A No  
 (7) Q In addition to three drinks that you had at the Pipeline  
 (8) Club you also had two beers earlier in the afternoon right?  
 (9) A That s correct  
 (10) Q Now what happened when you got to the Pizza Palace?  
 (11) A Well, we were going to go inside so I could order the  
 (12) pizza, and I seem to remember the - lot of people standing  
 (13) around in the cashier s area where I was going to order the  
 (14) pizza so Captain Hazelwood and Mr Roberson did not go  
 in,  
 (15) they decided not to go in, they stayed outside, and I went in  
 to order the pizza  
 (16) Q How long did that process take?  
 (17) A Few minutes  
 (18) Q Okay Then what happened?  
 (19) A Well, I - I guess the - prior to them leaving, it was -  
 (20) I believe it was starting to drizzle, drizzle outside so they  
 (21) decided that I ll meet them next door, which was a bar, while  
 (22) we were waiting for the pizza  
 (23) Q Let me see if I understand this right You went in to  
 (24) order the pizza they were standing outside?  
 (25)

Vol 17 2733

- (1) A Right  
 (2) Q And some point they went into the Club Bar?  
 (3) A That s correct  
 (4) Q And then you went in and joined them?  
 (5) A That s correct  
 (6) Q What happened in the Club Bar?  
 (7) A After I walked back in there?  
 (8) Q Yes  
 (9) A Captain Hazelwood and Mr Roberson was sitting there at  
 the  
 (10) bar, and I joined them there  
 (11) Q Did the three of you order drinks?  
 (12) A I ordered a drink, and they had already ordered a drink  
 (13) prior to me arriving, that s correct  
 (14) Q And three drinks were served to the three of you?  
 (15) A Yes  
 (16) Q What did you order?  
 (17) A Another gin and tonic  
 (18) Q What did Captain Hazelwood order?  
 (19) A I wasn t there when he ordered  
 (20) Q How about Mr Roberson do you know what he ordered?  
 (21) A I believe he had a beer in front of him, so -  
 (22) Q Now did you finish your drink?  
 (23) A Not that one, no  
 (24) Q What was the answer?  
 (25) A Not that one, no

Vol 17 2734

- (1) Q What do you mean not that one ?  
 (2) A The one we just ordered  
 (3) Q You only ordered one drink is that right?  
 (4) A That s correct  
 (5) Q And you didn t finish the drink?  
 (6) A That s correct  
 (7) Q Why did you not finish the drink?  
 (8) A Well by the time we got the drinks that took - by the  
 (9) time I got the drink, that took a few minutes and by that time  
 (10) was about 15 minutes or so after I ordered the pizza, I went  
 (11) back to the - next door to the Pizza Palace to find out  
 (12) whether the pizza was ready and also I wanted to call a cab  
 (13) for us to go back to the ship to take us back to the ship  
 (14) Q And did you do that?  
 (15) A Yes, I did  
 (16) Q What happened?  
 (17) A When I went back to the Pizza Palace yes indeed the  
 pizza  
 (18) was ready and I asked the cashier to also call us a cab  
 which  
 (19) she did and I have to assume that cabs were in radio  
 contact  
 (20) and she told me there was a cab waiting outside, there  
 happened  
 (21) to be a cab outside where we were  
 (22) Q So the pizza and the cab were all there at the same time?  
 (23) A Almost happened simultaneously, that s correct  
 (24) Q Okay What did you do then?  
 (25) A I went got the pizzas and went, paid for the pizzas and

Vol 17 2735

- (1) went next door and told Captain Hazelwood and the radio  
 officer  
 (2) that Cab is here let s go  
 (3) Q Do you know whether or not either one of them finished  
 (4) their drink?  
 (5) A I don t believe so I have no way of knowing  
 (6) Q Do you know whether either one of them even started their  
 (7) drink?  
 (8) A Again, I have no way of knowing  
 (9) Q But you know you didn t finish your drink?  
 (10) A Yes Yes I do know I did not finish my drink  
 (11) Q What happened when the taxi picked you up? Where d you  
 go  
 (12) next?  
 (13) A He had to pick up another passenger  
 (14) Q Where was that?  
 (15) A I believe it was Pipeline Club, but I wasn t sure at the  
 (16) time  
 (17) Q When you arrived the three of you were in the taxi - and  
 (18) you drove over to the Pipeline Club is that what you re  
 (19) saying?  
 (20) A That s correct  
 (21) Q And did you in fact pick up another passenger?  
 (22) A Yes  
 (23) Q Did any one of the three of you get out of the taxi at the  
 (24) Pipeline Club and go into the Pipeline Club?  
 (25) A No we did not

Vol 17 2736

- (1) Q Did you remain in the taxi the entire time that you were there?
- (2) **A That s correct**
- (4) Q Did there come a time when the taxi took you back to the terminal?
- (5) **A Yes**
- (7) Q How long was the taxi ride?
- (8) **A Approximately half an hour**
- (9) Q According to the gate log at Alyeska you and the other two - three gentlemen arrived there around 8 24 does that comport with your recollection?
- (11) **A It s in the ballpark yes**
- (13) Q Now when you arrived at the Alyeska gate check tell us what happened What s the procedure there?
- (15) **A The general procedure is that the cab -**
- (16) Q Excuse me don t tell us the general procedure tell me what happened on that particular night if you recall
- (17) **A Okay Well, the general procedure was followed which happens to be -**
- (20) Q You re - you re not only a good engineer but a better lawyer
- (21) **A Well, the cab driver generally collects everyone's I D s and passes them to security guard who takes them and checks**
- (22) **them off at the list of names that when people left and then**
- (23) **you re asked to get out of the car or the cab and go through**

Vol 17 2737

- (1) **security building where there s a metal detector and whatever**
- (2) **packages people have are also looked at**
- (3) Q Are you - are you being observed by the outside security guard as you re walking from the car around and into the security building?
- (5) **A I have to assume they re watching, yes**
- (7) Q And there are two security guards inside the security building?
- (8) **A That evening there were yes**
- (10) Q What s their job as you understand it?
- (11) **A Well, as I said they look through packages that people are**
- (12) **bringing in, and that s part of the security detail What**
- (13) **their specific functions orders are I really wouldn t know**
- (14) Q Do you know whether they re looking for alcohol?
- (15) **A It is - well, it s very possible because it is a policy that no alcohol can be brought into the terminal**
- (17) Q Did you have a conversation with these guards? Did they engage you in conversation?
- (18) **A I don t know who engaged whom but there were**
- (19) **pleasantries**
- (20) **exchanged that s all**
- (21) Q Are you fairly close to them as you re talking to them?
- (22) **A Yeah I d say so**
- (23) Q Now did - were you able to go - incidentally what packages did you have?
- (24) **A I had the magazines that I bought in the bag plus the two**

Vol 17 2738

- (1) pizza
- (2) Q In boxes?
- (3) **A Yes**
- (4) Q Like we know pizzas okay
- (5) What did Captain Hazelwood have? Did he have any packages?
- (6) **A I believe he had some sort of attache case that he brought**
- (7) **with him, with his papers**
- (8) Q After you came out of - now they didn t stop you at the security gate I mean they didn t hold you up or not permit you to come in did they?
- (10) **A No, we just went through the metal detectors and just went**
- (12) **through the normal security procedure**
- (13) Q Okay Where did you go next?
- (14) **A Back into the cab and the cab took us to the dock**
- (15) Q Did you drop off the other fellow first?
- (16) **A That I don t recall**
- (17) Q Okay You were at berth 5 that night am I correct?
- (18) **A That s correct**
- (19) Q And where does the cab drop you off at the foot of the jetty?
- (20) **A Yes**
- (22) Q And then you have to make that long walk Do we have that? Let me just - watch this here we go
- (23) Does that s accurately represent the jetty that you had to walk down that night?

Vol 17 2739

- (1) **A Yes it does**
- (2) Q Now what was the state of the weather do you remember?
- (3) **A I believe it was drizzling, light snow was beginning to fall**
- (4) **fall**
- (5) Q You were walking with the two two pizzas?
- (6) **A Yes**
- (7) Q And Captain Hazelwood has his attache case?
- (8) **A Yes**
- (9) Q All right Now when you get to the end the end in the case happens to be here you have to negotiate a gangway do you not a gantry?
- (11) **A Well, there s a structure from which the gangway is suspended yes**
- (13) **suspended yes**
- (14) Q All right Let me show you what we ve previously marked as - it s in evidence DX155 - no that s the video is that one 55 or am I wrong?
- (17) I want to show you a video that we have of the gangway and ask you if the video accurately represents the situation as it existed that night as you recall Shall -
- (19) Is this the one that shows - no just the nighttime one
- (20) I ve been relieved of all responsibility for working the electronics They don t trust me with it
- (22) **MR SANDERS Kind of the master of understatement**
- (24) **BY MR CHALOS**
- (25) Q Okay Mr Glowacki can you make it out from where you

Vol 17 2740

Vol 17 2742

- (1) are?  
 (2) **A Yes**  
 (3) Q You can look at your screen there  
 (4) **A No this is fine**  
 (5) Q This gentleman is walking down the catwalk at this point  
 (6) right the jetty that we've been talking about?  
 (7) **A Yes**  
 (8) Q Okay Now this is the beginning of the gangway?  
 (9) **A There are two sets of stairs actually two stories**  
 (10) Q This is the first story?  
 (11) **A One leading to a platform and then another to another platform**  
 (12) **platform**  
 (13) Q So far does it comport with your recollection of the  
 (14) situation as it existed that night?  
 (15) **A Yes That's correct**  
 (16) Q Now you're headed down?  
 (17) **A That is the gangway, that's correct**  
 (18) Q Were you also negotiating this with one hand?  
 (19) **A I was carrying the pizzas yes**  
 (20) Q Did you stumble or fall or anything like that?  
 (21) **A No**  
 (22) Q Did any of the other two gentlemen stumble or fall?  
 (23) **A No**  
 (24) Q Everybody was able to go up and go down the gangway  
 fairly  
 (25) easily?

- (1) **9 00**  
 (2) Q Did that surprise you?  
 (3) **A Yes, it surprised us that's correct**  
 (4) Q That's because you expected to sail at 10 00 based on what  
 (5) was told to you at the Alamar office?  
 (6) **A That's correct**  
 (7) Q Now Mr Glowacki you've sailed for approximately 20  
 (8) years It is usual or unusual that the sailing board would  
 (9) have been moved up from 10 00 to 9 00 once it was set at  
 (10) 10 00?  
 (11) **A It's highly unusual to move the board up It's generally**  
 (12) **moved back**  
 (13) Q To a later time?  
 (14) **A To a later time**  
 (15) Q Okay So you're on board Now you go to your room you  
 (16) call the first engineer Eventually you make your way down to  
 (17) the engine room?  
 (18) **A I asked him, you know - knowing we had to sail shortly, I**  
 (19) **asked him, Are we ready Is the engine ready to go, and are**  
**we**  
 (20) **ready, and I told him I'll be down there shortly**  
 (21) Q And did you in fact go down there?  
 (22) **A I went down after - right - not right away, but just as**  
 (23) **we started pulling away from the dock**  
 (24) Q Now did there come a time after the vessel departed from  
 (25) the Alyeska Terminal that you went up to the bridge to talk

Vol 17 2741

Vol 17 2743

- (1) **A That's right**  
 (2) Q Was it steep as you recall it?  
 (3) **A Well the ship was loaded**  
 (4) Q This kind of -  
 (5) **A Sorry?**  
 (6) Q Go ahead I'm sorry  
 (7) **A The ship was loaded at that time so the gangway had a**  
 (8) **sharp downward angle**  
 (9) Q Once you got on deck you had to negotiate over some -  
 some  
 (10) piping and some ropes as well?  
 (11) **A Yeah the mooring wires plus piping that's correct**  
 (12) Q Anybody trip or stumble or anything like that?  
 (13) **A I don't recall anybody tripping, no**  
 (14) Q Okay What did you do once you arrived on the vessel?  
 (15) **A I went to the galley to drop the pizzas off and then I went**  
 (16) **upstairs to my room and, first thing I did, called up the first**  
 (17) **engineer who was on watch in the engine room, told him I'm**  
 (18) **back**  
 (19) **on board, and when we came on board, we also found out**  
 (20) **that the**  
 (21) **sailing board has been moved up to - moved back to 9 00**  
 (22) Q Let me ask you about that  
 (23) When you came on board at about 8 30 or so what was going  
 (24) on on the ship at that time?  
 (25) **A Well at that time when we arrived, we found out that the**  
**loading had been finished that the pilot has been ordered**  
**and**  
**the tugs were ordered and the ship was supposed to leave**  
**at**

- (1) with Captain Hazelwood?  
 (2) **A Yes there was**  
 (3) Q What time was that?  
 (4) **A I'd say sometime after 10 00**  
 (5) Q Why did you go up to the bridge?  
 (6) **A We have a requirement to send certain information to the**  
 (7) **company after loading or after discharge, after any port**  
**visit,**  
 (8) **with certain information so I went and gave the captain the**  
 (9) **information that was required of me for him to include in his**  
 (10) **message**  
 (11) Q What type of information?  
 (12) **A How much fuel we have on board at departure what -**  
**how**  
 (13) **many lube oil - quantity of lube oil is on board, quantity of**  
 (14) **water on board**  
 (15) Q And the captain needs this information to put into a  
 (16) departure message to send to the company?  
 (17) **A That's correct**  
 (18) Q Now you say you got up there sometime after ten little  
 (19) bit after ten?  
 (20) **A That's correct**  
 (21) Q Was the captain on the bridge at that time?  
 (22) **A Yes, he was**  
 (23) Q How long did you remain on the bridge?  
 (24) **A Perhaps five minutes, ten minutes**  
 (25) Q Now did there come a time when you and Captain  
 Hazelwood

Vol 17 2744

- (1) left the bridge together?  
 (2) A Yes  
 (3) Q About what time was that?  
 (4) A Shortly after I came up and whatever time it was that I  
 (5) lingered on the bridge, the five or ten minutes, that's when  
 we  
 (6) left together  
 (7) Q Do you have a recollection of approximately what time it  
 (8) was when you left the bridge?  
 (9) A I would say somewhere between 10 15 to 10 30  
 (10) Q Where did you go?  
 (11) A I went back to my room to put the same information into  
 my  
 (12) records, same information I gave the captain into my  
 records  
 (13) Captain went to his room his office  
 (14) Q And you don't know what the captain was doing in his  
 (15) office?  
 (16) A No  
 (17) Q But he had the information you gave him?  
 (18) A That's correct  
 (19) Q All right Did you see the captain at all at any time  
 (20) after that prior to the grounding?  
 (21) A No, I did not  
 (22) Q Let's talk about the period of time around say eight  
 (23) minutes or ten minutes after midnight Tell us where you were  
 (24) and what you observed or what you felt  
 (25) A Well after the time that we just talked about previously,

Vol 17 2745

- (1) I went back to my office I probably spent about another ten  
 (2) minutes in my office or that - whatever the paperwork I had  
 (3) to finish, and I went back down to the engine room  
 (4) Q All right What did you do down there - I mean don't  
 (5) tell us everything you did I'm trying to focus you now at the  
 (6) moment of the grounding I know you didn't know that you  
 were  
 (7) aground initially but you felt something you observed  
 (8) something did you not?  
 (9) A Well prior, around midnight that's when the watch is  
 (10) changed, meaning that different engineer comes on duty, so  
 at  
 (11) that time both the first engineer who was going off and the  
 (12) third engineer who was coming on watch were in the engine  
 room,  
 (13) so there were actually three of us in the engine room at the  
 (14) time So I was in the control room and they were down on  
 the  
 (15) lowest level of the engine room performing some of the  
 routine  
 (16) tests we normally do on the way out of port and by the time  
 (17) that you're referring to which I assume is the grounding  
 (18) moment 12 08 -  
 (19) Q Incidentally did you know at that moment that you were  
 (20) aground?  
 (21) A No I did not  
 (22) Q Okay Tell us what you observed and what you felt  
 (23) A I heard some muffled rumbling noises in the control room  
 (24) emanating from the engine room, and the first thought that  
 came  
 (25) to my mind was that it was the turbochargers surging based  
 on

Vol 17 2746

- (1) our previous turbocharger problem So I went out of the  
 (2) control room and went toward the turbochargers, checked  
 certain  
 (3) things on the turbochargers left hand side to them, and it  
 (4) wasn't - the noises were not coming - at that time the noise  
 (5) had subsided and obviously they were not coming from the  
 (6) turbochargers  
 (7) I went back to the control room and very shortly after  
 (8) that, within a couple minutes the first engineer walked in the  
 (9) control room -  
 (10) Q That's Mr Jones?  
 (11) A That's correct  
 (12) Q Okay and -  
 (13) A When I - before Mr Jones walked into the control room  
 (14) and when I went back to the control room, I noticed that  
 main  
 (15) engine one of the instruments on the main engine was  
 reading  
 (16) something was unusual for that - for the speed that the  
 main  
 (17) engine was doing at the time And instinctively, the deck  
 (18) didn't feel right to me  
 (19) Q What do you mean by that?  
 (20) A Just didn't feel the same as it was when I walked out or  
 (21) feeling as before  
 (22) Q Yes  
 (23) A It just felt differently and it's instinctive I can't  
 (24) explain it any further  
 (25) Q Did you do any investigation trying to find out -

Vol 17 2747

- (1) A Well after that, looking at the - that instrument on main  
 (2) engine, the instinctive feeling that the deck didn't look right  
 (3) I looked at an inclinometer, and I noticed we had a, I believe  
 (4) it was one or two degree list  
 (5) Q What's an inclinometer?  
 (6) A It's an instrument made out of a glass tube shaped in an  
 (7) arc filled with fluid with an air bubble in the middle, so if  
 (8) you're tilted and which way, the bubble will tend to seek the  
 (9) center And there's a graduation in degrees so if there's a  
 (10) difference in attitude you can see what the angle of the list  
 (11) is  
 (12) Q You said you noticed a one or two degree list?  
 (13) A That's correct  
 (14) Q Which side of the ship?  
 (15) A Port  
 (16) Q So the ship was leaning to port?  
 (17) A Right  
 (18) Q What happened next?  
 (19) A Well, when - at that time I believe the first engineer  
 (20) Ray Jones walked in to the control room, and I - I said to  
 (21) him something to the effect that There's something wrong  
 I  
 (22) know we didn't leave port with a couple degree list  
 (23) Q Okay Did there come a time when you received a phone call  
 (24) from the bridge?  
 (25) A Very shortly after that the bridge called down that's

Vol 17 2748

- (1) correct
- (2) Q Do you remember who called you?
- (3) A It was the third mate Greg Cousins
- (4) Q And what did he say to you?
- (5) A He said that we re going to stop the engines
- (6) Q Say anything else?
- (7) A No not at the time
- (8) Q Did you question him?
- (9) A No
- (10) Q Why?
- (11) A The bridge is in control and if they have a reason to stop the engine I assume they have a good reason It s not the time to discuss things
- (12) Q Okay and what did you tell him?
- (13) A I said, Go ahead but do it slowly
- (14) Q Now did there come a time when you received a second call from the bridge?
- (15) A Yes
- (16) Q When was that?
- (17) A It was I d say perhaps five minutes later maybe between five and ten minutes later
- (18) Q Who was on the phone this time?
- (19) A It was Captain Hazelwood
- (20) Q What did Captain Hazelwood say to you and what did you say
- (21) to him?

Vol 17 2749

- (1) A Captain told me that We have a problem we re aground He
- (2) also asked me if he can use the engine to which at that time
- (3) from altercations and the information we had at our disposal
- (4) and on the console for the main engine I saw no reason why the
- (5) engine could not be used And he also asked whether everything
- (6) is all right down there
- (7) Q Did you discuss about getting the engine room crew alerted to the fact that you were aground?
- (8) A Yes We - we discussed the fact that I told him since we re aground I m going to have someone sound all the engine
- (9) room tanks to make sure there was no ingress of water at the -
- (10) that the levels were where they should have been, and that I will wake up all the engine department personnel
- (11) Q Okay When Captain Hazelwood called you on phone did his
- (12) voice sound impaired?
- (13) A No
- (14) Q Did he sound sad?
- (15) A He sounded to me like Captain Hazelwood
- (16) Q Did he slur his words at all?
- (17) A No
- (18) Q Did he - the discussion you had with him and the instructions he was giving you were they clear?
- (19) A Yes
- (20) Q Did he appear to be at least on the telephone appear to be in control of his faculties?

Vol 17 2750

- (1) A Yes I have to say that because he was concerned he asked
- (2) how things were in the engine room He was concerned about us
- (3) and the machinery and the crew
- (4) Q Okay You told Captain Hazelwood that based on what you
- (5) were reading on your control board that he could use the engines if he wanted?
- (6) A And I believe we also told - obviously told him that we will make thorough inspection rounds of machinery spaces and I
- (7) will let him know what we have
- (8) Q Did there come a time when you called him up and conveyed the information to him?
- (9) A Yes, there was
- (10) Q You gave him all the information relating to the condition of the engine?
- (11) A That's correct
- (12) Q Now with respect to starting up the engine again did there come a time when Captain Hazelwood started up the engine?
- (13) A Yes
- (14) Q At this point was the control of the engine still up with the bridge?
- (15) A It was
- (16) Q So they had control over how this engine worked?
- (17) A The bridge had control of the engine that s correct
- (18) Q There is a method by which the engine room can take over and run the engine from down there is that correct?

Vol 17 2751

- (1) A There are four methods of control ultimately but -
- (2) Q Tell us about those
- (3) A One which we use most of the time, which that s the way this being a highly automated vessel it was designed to be controlled from the bridge, that s what we use most of the -
- (4) practically all the time And the other was - another was from the engine control room and also in the engine site
- (5) There were two methods, locally, on the engine
- (6) Q But in this instance Captain Hazelwood had the control on the bridge?
- (7) A The control remained on bridge, that s correct
- (8) Q Let me ask you something about this engine
- (9) What is the maximum available horsepower on this engine if you wanted to run it you know -
- (10) A This engine was rated at 31 4 - 400 or 600 horsepower I don t know exactly which
- (11) Q What is the available horsepower at let s say full ahead maneuvering 55 rpms?
- (12) A I'd say somewhere between eight, 8,000 and 9,000 horsepower
- (13) Q What is the - the rpms if you were going full ahead sea speed as opposed to full maneuvering?
- (14) A It was 79 rpm
- (15) Q If you re running the engine at 55 rpm you re only using about 8500 horsepower and you have available to you

Vol 17 2752

- (1) approximately 31 400 you said?  
 (2) **A That s correct**  
 (3) MR CHALOS This is my able assistant You re much  
 (4) better at electronics than you are manual stuff  
 (5) BY MR CHALOS  
 (6) Q Mr Glowacki this is exhibit - Plaintiffs Exhibit 81 in  
 (7) evidence  
 (8) You recognize this as being the data logger or a copy of  
 (9) the data logger from your ship?  
 (10) **A That s correct**  
 (11) Q This information that we have here is printed down in the  
 (12) engine room is it not?  
 (13) **A Yes**  
 (14) Q You have a machine that prints this out?  
 (15) **A It s automatically printed on a roll of tape like on a**  
 (16) **calculator type thing**  
 (17) Q Okay  
 (18) You recognize this as being the data logger from the Exxon  
 (19) Valdez do you not - or a copy of it?  
 (20) **A Yes yes**  
 (21) Q All right Captain Hazelwood initially stopped the engine  
 (22) after you got that call you told us about at 12 20 and then he  
 (23) restarted the engine at 12 36?  
 (24) **A That s correct**  
 (25) Q Just so the jury understands what he was doing can you

Vol 17 2753

- (1) tell us what he did starting let s say at 12 36 and working  
 (2) its way up to 12 56? That s a period of about 20 minutes  
 (3) What did Captain Hazelwood do?  
 (4) **A Well, if you look at -**  
 (5) Q Excuse me one second  
 (6) Your Honor with your permission maybe we could have him  
 (7) come down it might be easier  
 (8) Mr Glowacki incidentally let me ask you something about  
 (9) diesel engines Do they thrust the same horsepower whether  
 (10) they re in the forward direction or the reverse direction?  
 (11) **A Yeah The characteristic of a diesel propulsion is such**  
 (12) **that you have the maximum horsepower available in both**  
 (13) **directions**  
 (14) Q Okay As opposed to a steam engine where you only have a  
 (15) percentage of your power if you go astern right?  
 (16) **A Steve driven propulsion only gives one - is designed to**  
 (17) **only give maybe 30 to 40 percent of max power in the stern**  
 (18) **direction It's not the same as on the motor ship**  
 (19) Q So on the stern - for instance if you wanted to go full  
 (20) astern - right not full astern maneuvering but full  
 (21) astern - you would have available to you 31 400 horsepower in  
 (22) the full maximum stern?  
 (23) **A That s correct**  
 (24) Q And if you were going full astern maneuvering that would  
 (25) be again 8400?

Vol 17 2754

- (1) **A It would be the same The engine doesn t really care**  
 which  
 (2) **way it s running**  
 (3) Q Okay all right  
 (4) So he starts the engine up at nine - at 12 36 What s he  
 (5) doing now?  
 (6) **A He s starting right here**  
 (7) Q Right okay  
 (8) **A And it s running, he started at dead slow at 9 35, 57**  
 (9) **seconds which is - I m sorry, this is Greenwich mean time**  
**So**  
 (10) **it s actually -**  
 (11) Q Convert it to 12?  
 (12) **A Actually midnight And then at 40 minutes after midnight,**  
 (13) **went to slow ahead**  
 (14) Q So for four minutes he s running in the dead slow ahead?  
 (15) **A That s correct**  
 (16) Q Is that proper procedure if you re bringing your engine up  
 (17) slowly?  
 (18) **A It s certainly wiser I mean more prudent than to just go**  
 (19) **in large increments, yes**  
 (20) Q What does he do then from 40 minutes after midnight to  
 (21) let s say -  
 (22) **A Okay, still slow ahead At midnight 48 minutes it s half**  
 (23) **ahead**  
 (24) Q Okay What does half ahead represent in rpms?  
 (25) **A I believe it was 45**

Vol 17 2755

- (1) Q Right here see this - well she s climbing at this point?  
 (2) **A She s climbing**  
 (3) Q So he s down around 32 and climbing up towards 45?  
 (4) **A From slow ahead to half ahead, that s correct**  
 (5) Q Then he s at full ahead at 12 56 and 19 seconds?  
 (6) **A Right Right**  
 (7) Q Now that full ahead maneuvering is that correct?  
 (8) **A That s 55 revolutions, that s correct**  
 (9) Q And then he continues on this full ahead maneuvering until  
 (10) 1 40 approximately?  
 (11) **A That s right**  
 (12) Q When he goes to slow slow ahead and then he stops the  
 (13) engine in that one minute at 1 41?  
 (14) **A That s correct**  
 (15) Q Okay Thank you very much  
 (16) Mr Glowacki based on what you just told us what was the  
 (17) maximum percentage of horsepower that Captain Hazelwood  
 used as  
 (18) opposed to what was available to him?  
 (19) **A Well I said before, 55 rpm is somewhere between 8,000**  
 (20) **9 000 horsepower, let s say 8500 horsepower**  
 (21) Q What was that in terms of percentage of what was available  
 (22) to him?  
 (23) **A Of 31 000**  
 (24) Q Yeah  
 (25) **A Roughly 26 27 percent**

Vol 17 2756

- (1) Q So in this whole period of time he didn't use any more  
 (2) than about 26-27 percent of the power available to him?  
 (3) **A That's correct**  
 (4) Q Did - reading this data logger did Captain Hazelwood at  
 (5) any time from the grounding over here which was - well they  
 (6) have it here as the grounding but assume it was at eight  
 (7) minutes after midnight  
 (8) From that moment until he stopped finally stopped the  
 (9) engine at 1:41 did he use any reverse on the engine at all?  
 (10) **A No All the speeds were in the ahead direction There**  
 (11) **were no astern calls**  
 (12) Q He never put the engine astern did he that whole time?  
 (13) **A No no**  
 (14) Q Have you had a chance to review Mr Van Hammen's  
 (15) testimony?  
 (16) **A I've read it, yes**  
 (17) Q Mr Van Hammen was an expert that was called by the  
 (18) plaintiffs And do you remember his testimony contrary to  
 (19) what Captain Hazelwood had said? Captain Hazelwood had  
 (20) said  
 (21) that if he wanted to get full maximum horsepower on this  
 (22) vessel all he had to do was press two buttons on the bridge  
 (23) and within two minutes he could get it up to the full maximum  
 (24) horsepower available all right?  
 (25) Now Mr Van Hammen testified that that wasn't possible  
 (26) You remember that testimony?  
 (27) **A Yes**

Vol 17 2757

- (1) Q Okay You also remember reading his testimony that he had  
 (2) never been on board the Exxon Valdez do you not?  
 (3) **A Yes**  
 (4) Q That he wasn't familiar with its engines?  
 (5) **A Yes**  
 (6) Q And that he did not hold a seagoing engineer's license?  
 (7) **A Yes**  
 (8) Q Based on your experience you - you were there when they  
 (9) built the ship you ran the ship for three years as its chief  
 (10) engineer Do you agree or disagree with Mr Van Hammen's  
 (11) testimony on this issue?  
 (12) **A I disagree**  
 (13) Q Tell us why  
 (14) **A Well, the captain had actually two means of going up to**  
 (15) **maximum horsepower as quickly as he wished to**  
 (16) Q Tell us about it  
 (17) **A Even though the engine was already speeding up to**  
 (18) **speed -**  
 (19) **sea speed was in the preprogrammed program so to**  
 (20) **speak, there**  
 (21) **is a button that you can hold, he could have held down**  
 (22) **which is**  
 (23) **called "find setting up and all you had to do was hold it**  
 (24) **down**  
 (25) **and the engine would have sped up in a couple two, three**  
 (26) **minutes to whatever - to ultimately maximum horsepower**  
 (27) **Or he could have thrown another switch and given a control**  
 (28) **to us in the engine room and we could have done it even**  
 (29) **faster,**  
 (30) **if he wanted to**

Vol 17 2758

- (1) Q How much faster?  
 (2) **A Perhaps half that time even less than that**  
 (3) Q Incidentally when Captain Hazelwood was using the engine  
 (4) for this approximately one hour and five minutes did you have  
 (5) any problems at all with the engine?  
 (6) **A There was some transient alarms but they were not**  
 (7) **outside**  
 (8) **of - they did not reach the limits where the engine was**  
 (9) **overloaded no**  
 (10) Q Was there any damage caused to the engine by the use of  
 (11) the  
 (12) engine at this point?  
 (13) **A No**  
 (14) Q Now Mr Van Hammen also testified that because the vessel  
 (15) was aground that the engine could not thrust its maximum  
 (16) horsepower Do you remember that testimony?  
 (17) **A Yes**  
 (18) Q Do you agree or disagree with that testimony?  
 (19) **A I disagree**  
 (20) Q Tell us why  
 (21) **A The engine doesn't care**  
 (22) Q But I do so tell us about it  
 (23) **A Well, let me put it this way The engine is a dumb**  
 (24) **obedient animal that wants to please and if you give it**  
 (25) **enough**  
 (26) **fuel and air it will run as fast as you allow it to until it**  
 (27) **could eventually self destruct**  
 (28) **So being a caring, loving master design engineer who**

Vol 17 2759

- (1) **designed - would incorporate in the engine design features**  
 (2) **to**  
 (3) **protect itself such as governors overspeed trips and limit**  
 (4) **it**  
 (5) **to certain parameters so it doesn't self destruct**  
 (6) **But no, certainly the maximum horsepower could certainly**  
 (7) **have been developed even though we were aground**  
 (8) Q Okay I have one more area -  
 (9) **A Engines like this I've testified ashore in shop trials**  
 (10) **where they're not going anywhere, not hooked up to**  
 (11) **propellers**  
 (12) **at first horsepower**  
 (13) Q That is when you're testing it you're not at sea?  
 (14) **A That's correct**  
 (15) Q And you're still developing the maximum horsepower?  
 (16) **A That's correct**  
 (17) Q Okay Mr Glowacki one more area I want to go back to  
 (18) that time when you were in San Francisco when you had the  
 (19) problem with the turbochargers  
 (20) **A Yes**  
 (21) Q You decided on two separate occasions to bring the ship  
 (22) back right? In other words you discussed it with Captain  
 (23) Hazelwood and you brought the ship back for further repairs?  
 (24) **A Yes**  
 (25) Q Did anyone from Exxon ever criticize you for that?  
 (26) **A Not for that no**  
 (27) Q Did you believe Exxon had given you the authority if you  
 (28) felt that there was something wrong with the engine to either

Vol 17 2760

- (1) stop the ship or bring her back to port and take whatever time  
 (2) was necessary and repair the problem?  
 (3) **A I ve never had that type of judgment questioned in my  
 (4) career, no**  
 (5) MR CHALOS Thank you Mr Glowacki Your witness  
 (6) CROSS EXAMINATION OF JERZY GLOWACKI  
 (7) BY MR O NEILL  
 (8) Q Sir my name is Brian O Neill and we ve never met before  
 (9) I want to ask you some questions follow up on some of the  
 (10) questions that you were asked by counsel And I ve put in  
 (11) front of you your deposition transcript some transcript in a  
 (12) state trial the transcript of your testimony before the  
 (13) National Transportation Safety Board and some interviews you  
 (14) gave to the FBI the state troopers - and we ll use those as  
 (15) we proceed okay?  
 (16) Now you graduated from New York Maritime Academy when in  
 (17) 1970?  
 (18) **A That s correct**  
 (19) Q And you knew Captain Hazelwood at the academy?  
 (20) **A He was at the school at the same time I was yes**  
 (21) Q And you and him go back 24 25 years?  
 (22) **A Yes**  
 (23) Q Did Kimtis go to that academy too?  
 (24) **A No he didn t, no**  
 (25) Q When did you first meet Mr Kimtis?

Vol 17 2761

- (1) **A While employed at Exxon**  
 (2) Q About what year?  
 (3) **A I have to say maybe late 80s mid to late 80s**  
 (4) Q Mid to late 80s And Captain Hazelwood was a friend of  
 (5) Mr Kimtis too wasn t he - you know that?  
 (6) **A What do you mean by friend versus acquaintance?**  
 (7) Q Drinking buddy  
 (8) **A I wouldn t know that**  
 (9) Q Were you at all aware of the fact that at some point in  
 (10) 1988 Captain Hazelwood and Mr Kimtis went out drinking one  
 (11) afternoon and Captain Hazelwood had eight to ten drinks and  
 (12) drove a car thereafter? Were you at all aware of that?  
 (13) **A No sir**  
 (14) MR CHALOS Your Honor I object That s a  
 (15) mischaracterization of the evidence Mr Kimtis had passed  
 (16) away by that time  
 (17) MR O NEILL I m sorry he wasn t with Mr Kimtis  
 (18) He was with - going to Mr - That s right going to Mr  
 (19) Kimtis funeral he had eight to ten drinks and drank - was  
 (20) he -  
 (21) Have you ever heard about that?  
 (22) **A No sir**  
 (23) Q You knew though that Captain Hazelwood had a reputation  
 (24) for partying didn t you?  
 (25) **A I wouldn t say that I knew, no**

Vol 17 2762

- (1) Q Had you heard rumors prior to the grounding that Hazelwood  
 (2) had a chemical dependency problem?  
 (3) **A No sir, first time I learned of that was after the -  
 (4) after the grounding and there were hearings and testimony  
 was**  
 (5) **given**  
 (6) Q Would you go to your NTSB testimony at page 865?  
 (7) **A 65? 865?**  
 (8) Q 865  
 (9) **A Yes**  
 (10) Q And let me read the questions and answers and you tell me  
 (11) if I read them right  
 (12) When did you become aware that Captain Hazelwood may  
 have  
 (13) had a chemical dependency problem? That was the question  
 (14) Answer I can t say exactly but being - working for a  
 (15) company for 19 years you hear certain rumors but these are  
 (16) innuendoes and rumors and I cannot exactly answer you  
 (17) Question When did you first hear a rumor to that effect?  
 (18) Answer I don t recall sir  
 (19) Question Was it prior to the grounding?  
 (20) Answer Yes It could have been a few years before that  
 (21) I can t tell you  
 (22) Question But you think it would have been before the  
 (23) grounding?  
 (24) Answer Oh yes certainly  
 (25) Were those the questions asked and the answers that you

Vol 17 2763

- (1) gave?  
 (2) **A Yes**  
 (3) Q Thank you  
 (4) Now you testified at the beginning of your testimony about  
 (5) the fact that the Valdez had to go back twice with regard to  
 (6) the turbocharger?  
 (7) **A That s correct**  
 (8) Q And there was some questions at that point in time about  
 (9) whether other arrangements had been made for another vessel  
 or  
 (10) whether it had been put on quote a different rotation Do  
 (11) you recall that?  
 (12) **A Yes**  
 (13) Q And I listened carefully to your answers as you tried to  
 (14) help counsel You don t know one way or the other do you?  
 (15) **A It certainly - all I know that all I knew at the time is  
 (16) that every oil company in the consortium of Alyeska has to  
 lift**  
 (17) **certain number of barrels in certain amount of time and in  
 (18) order to do that they have to provide the tonnage in Valdez  
 to**  
 (19) **do that, and since we were obviously delayed Exxon would  
 have**  
 (20) **to make some other arrangements That was the premise of  
 my**  
 (21) **answer yes, sir**  
 (22) Q It was an assumption about something you didn t know  
 about  
 (23) one way or the other you don t know whether they made the  
 (24) other arrangements do you?  
 (25) **A That s correct, right**

Vol 17 2764

- (1) Q And you ve socialized with Captain Hazelwood since the  
 (2) grounding haven t you?  
 (3) **A We ve seen each other, yes**  
 (4) Q Would socialized be a correct word?  
 (5) **A We ve had dinners together, yes**  
 (6) Q And let s talk a little bit about the day – the day spent  
 (7) in Valdez on the 23rd That s where I m going to go right  
 (8) now  
 (9) You left at 10 30 and you went to the agent s office  
 (10) That s a correct statement?  
 (11) **A Yes sir**  
 (12) Q And at some point in time you make it over to the Pizza  
 (13) Palace and your testimony is that you were at the Pizza Palace  
 (14) for slightly over an hour?  
 (15) **A From somewhere around 12 30 or after that**  
 (16) Q 12 30 to 1 30 or 1 40?  
 (17) **A About 2 00 or shortly thereafter**  
 (18) Q Or shortly there before you said about an hour little  
 (19) over an hour?  
 (20) **A I believe I also said that we stayed there till shortly –**  
 (21) **till approximately 2 00**  
 (22) Q Okay  
 (23) You had two beers there  
 (24) **A Yes**  
 (25) Q And then you walked around town?

Vol 17 2765

- (1) **A Yes**  
 (2) Q And one of the places you walked to was the Westmark?  
 (3) **A Right**  
 (4) Q They have a bar at the Westmark don t they?  
 (5) **A That s correct**  
 (6) Q And you arrived at the Pipeline Club sometime after 4 00?  
 (7) **A That s correct**  
 (8) Q And you believe that you had three gin and tonics while at  
 (9) the Pipeline Club?  
 (10) **A That s correct**  
 (11) Q And when the FBI asked you it was three or four gin or  
 (12) tonics is that a correct statement?  
 (13) **A I might have said that, yes**  
 (14) Q And had you ever been in the Pipeline Club before?  
 (15) **A Some time prior to that, yes**  
 (16) Q Why don t you describe the Pipeline Club to us  
 (17) **A It s a bar restaurant, and they have tables plus a bar**  
 (18) **seating**  
 (19) Q The restaurant is in another room?  
 (20) **A It s separated, yes There s a partition between the two**  
 (21) Q It s a pretty – it s a regular old dark bar?  
 (22) **A It s a dark place yes**  
 (23) Q And Mr Roberson was drinking beer is that a correct  
 (24) statement?  
 (25) **A Yes**

Vol 17 2766

- (1) Q And your testimony here today was I also recall three  
 (2) when you were talking about how much Captain Hazelwood  
 had to  
 (3) drink That s a fair statement of what your testimony was  
 (4) today isn t that correct?  
 (5) **A Yes**  
 (6) Q And in the past when you ve been asked questions about  
 (7) this including questions under oath you ve said you didn t  
 (8) know the total number of drinks Hazelwood had because you  
 were  
 (9) not counting  
 (10) **A That s correct, I was not counting but at the time –**  
 (11) **period of time that we both all of us had spent there and**  
 (12) **knowing – remembering what I had to drink leads me to**  
 believe  
 (13) **It was the same amount**  
 (14) Q So you re guessing?  
 (15) **A It leads me to believe that yes sir**  
 (16) Q And you were there for two hours more than two hours two  
 (17) and a half hours?  
 (18) **A That s right**  
 (19) Q So you were there for two and a half hours and you re  
 (20) guessing how much Captain Hazelwood had to drink?  
 (21) **A I believe that that s what he had yes**  
 (22) Q Now you also made a statement about or volunteered  
 (23) information about whether he was drinking singles or doubles  
 (24) And you said that your glass was the same size as his glass?  
 (25) **A I believe that yes**

Vol 17 2767

- (1) Q And I found that a very interesting comment because in  
 (2) your glass there was gin and tonic and in his glass  
 (3) according to you there was just vodka?  
 (4) **A Yes**  
 (5) Q Is that a correct statement?  
 (6) **A That s a correct statement**  
 (7) Q So that part of what was taken up in his glass – in your  
 (8) glass was the tonic?  
 (9) **A Yes, sir**  
 (10) Q And with regard to what was poured into his glass you  
 (11) really don t know one way or the other other than the fact you  
 (12) had the same size glasses his was vodka and yours was gin  
 and  
 (13) tonic?  
 (14) **A That s correct**  
 (15) Q And then you went to the Pipeline Club – I m sorry  
 (16) Then you left the Pipeline Club and went over to the Pizza  
 (17) Palace?  
 (18) **A Yes**  
 (19) Q And you ordered the pizza and then you went they had  
 (20) already gone next door?  
 (21) **A Yes**  
 (22) Q And you went next door and you ordered a gin and tonic?  
 (23) **A That s correct**  
 (24) Q And your testimony today is you don t – you didn t finish  
 (25) your drink?

Vol 17 2768

- (1) **A Yes**  
 (2) Q And when you were interviewed by the United States Coast  
 (3) Guard your testimony was you drank your drink?  
 (4) **A I drank some of it yes I did not finish it**  
 (5) Q And your testimony today is you were in there for 15  
 (6) minutes but your testimony before the National Transportation  
 (7) Safety Board was you waited for 20 to 25 minutes  
 (8) **A Sir, all of these times were always approximate**  
 (9) Q Then let s - I won t - if the times are approximate and  
 (10) you say they re approximate I ll move on I ll do you the  
 (11) courtesy of moving on to another subject  
 (12) **A Sir the point is we re really -**  
 (13) Q It s tough to remember isn t it?  
 (14) **A It certainly is**  
 (15) Q And indeed if it hadn t been for the grounding there  
 (16) would have been no reason to remember and it would have  
 (17) drifted  
 (18) away and -  
 (19) **A Certainly wouldn t be**  
 (20) Q I want to talk for a minute about whether Captain Hazelwood  
 (21) drank his drink over at the Harbor Club And what s your  
 (22) testimony today did he drink his drink at the Harbor Club or  
 (23) not?  
 (24) **A He drank some of it yes, but I know that none of us**  
 (25) **finished all of our drinks**  
 (26) Q Okay Were you sitting there monitoring him as he drank

Vol 17 2769

- (1) his drink?  
 (2) **A No, sir I wasn t**  
 (3) Q You really don t know whether he finished it off or not do  
 (4) you?  
 (5) **A No, I don t**  
 (6) Q And indeed when you talked to the Coast Guard  
 (7) investigators your description was he drank his drink  
 (8) **A Meaning past tense?**  
 (9) MR CHALOS Excuse me Mr O Neill May we have a  
 (10) reference of what you re referring to?  
 (11) MR O NEILL I wasn t referring to anything I asked  
 (12) him if that s what he told the Coast Guard investigators I  
 (13) hadn t yet made the decision to go to the transcript  
 (14) MR CHALOS Okay  
 (15) BY MR O NEILL  
 (16) Q And now I m going to ask you a question from the - the  
 (17) transcript of the interview by the state guys and when you  
 (18) were interviewed by the State troopers in answer to the  
 (19) question Would you have any idea whether it was one or two  
 (20) drinks over at the Harbor Club your answer was I couldn t  
 (21) tell you  
 (22) Is that a correct statement?  
 (23) **A That s what I had - that s what I said yes**  
 (24) Q In point of fact it s really - I mean let me cut through  
 (25) it and I ll move on to another topic But with regard to how

Vol 17 2770

- (1) much he drank at one joint or another joint as you sit here  
 (2) today all games aside it s tough to reconstruct isn t it?  
 (3) **A It certainly is, sir But I know I only ordered one drink**  
 (4) **and we weren t there long enough really to - knowing that I**  
 (5) **did not finish my drink, ergo we weren t there long enough**  
 (6) **to**  
 (7) **have two drinks**  
 (8) Q Let s talk about that for a minute You were there 15  
 (9) minutes to 25 minutes isn t that right?  
 (10) **A Yes, sir**  
 (11) Q Now my recollection in my better days was I could drink a  
 (12) drink or two drinks or three drinks in 15 to 25 minutes how  
 (13) about you?  
 (14) MR CHALOS Your Honor I object We don t know  
 (15) about Mr O Neill s drinking habits  
 (16) MR O NEILL I ll reask the question  
 (17) BY MR O NEILL  
 (18) Q Would it be fair to say sir that it isn t that hard in 15  
 (19) to 25 minutes to drink one drink or two drinks or three  
 (20) drinks?  
 (21) **A If one really wants to yes**  
 (22) Q And then one last topic  
 (23) When you went through the Alyeska Terminal just so we re  
 (24) clear and again I - I listened to your answers on the  
 (25) questions with regard to going through the Alyeska Terminal  
 (26) very very carefully You don t know one way or the other what

Vol 17 2771

- (1) they monitor for there do you you don t know?  
 (2) **A What the guards are trained for specifically, no I don t**  
 (3) **know**  
 (4) Q You don t know And then you were able to after having  
 (5) five or six or possibly more drinks you were able to carry two  
 (6) pizzas across the causeway up the gantry down the gantry  
 (7) and  
 (8) onto the ship?  
 (9) **A I did**  
 (10) MR O NEILL Thank you sir  
 (11) REDIRECT EXAMINATION OF JERZY GLOWACKI  
 (12) BY MR CHALOS  
 (13) Q Mr Glowacki Mr O Neill showed you some NTSB testimony  
 (14) where the question was asked you about some drug  
 (15) dependency?  
 (16) **A Yes**  
 (17) Q Did you understand that to be alcohol?  
 (18) **A I assumed that, yes**  
 (19) Q You don t know of and you never heard of any rumors that  
 (20) Captain Hazelwood had a drug dependency drugs as we  
 (21) understand  
 (22) drugs?  
 (23) **A No Not drugs, no**  
 (24) Q Now in answer to counsel s question you were talking  
 (25) about your own personal knowledge as opposed to rumors that  
 (26) you  
 (27) heard isn t that correct?  
 (28) **A That s correct**  
 (29) Q Let me ask you this

Vol 17 2772

- (1) When you were at the Pipeline Club with Captain Hazelwood  
 (2) and Mr Roberson describe to us how you - what you were  
 doing  
 (3) there besides having your drinks? Were you talking with each  
 (4) other?  
 (5) **A Yes**  
 (6) Q Were you drinking socially at that point?  
 (7) **A That s the only way I recall drinking yes,**  
 (8) Q I mean nobody was there throwing shots down their throat  
 (9) were they?  
 (10) **A No they were not**  
 (11) Q No quick drinking stuff?  
 (12) **A No, they were not**  
 (13) Q Now with respect to the times we spoke about you said  
 (14) they were estimates?  
 (15) **A Yes**  
 (16) Q You ve had a chance because of this grounding and  
 because  
 (17) of the publicity and because you ve been called upon to testify  
 (18) any number of times you ve had a chance to reflect haven t  
 (19) you?  
 (20) **A Certainly**  
 (21) Q You ve reconstructed the situation the day as best as you  
 (22) could?  
 (23) **A I hope so yes**  
 (24) Q And your recollection is after having a chance to  
 (25) reconstruct and think about it because you ve been asked  
 about

Vol 17 2773

- (1) it so many times your best recollection is that Captain  
 (2) Hazelwood had three drinks at the Pipeline Club am I correct?  
 (3) **A Yes**  
 (4) MR CHALOS Thank you no further questions  
 (5) THE COURT Thank you sir you may step down  
 (6) MR O NEILL I don t get another shot sir  
 (7) MR CHALOS No the reason I m standing here is I  
 (8) have the next witness  
 (9) THE COURT You re all through  
 (10) (The Witness Stepped Down )  
 (11) THE COURT You may call your next witness  
 (12) MR CHALOS Your Honor defendants call for reading  
 (13) of the deposition Ms Emily Kaiser  
 (14) THE CLERK She s going to be reading the deposition  
 (15) of Emily Kaiser?  
 (16) MR CHALOS Yes  
 (17) THE CLERK Would you raise your right hand please?  
 (18) (The Witness Is Sworn)  
 (19) THE CLERK Please be seated  
 (20) For the record state your full name address and spell  
 (21) your last name please  
 (22) MR CHALOS That s your real name  
 (23) THE WITNESS My real name Glenda Fair (ph) English  
 (24) E n g l i s h  
 (25) DIRECT EXAMINATION OF EMILY KAISER (Read)

Vol 17 2774

- (1) BY MR CHALOS  
 (2) Q Would you state full name for the record - this is your  
 (3) deposition name now  
 (4) **A My name is Emily Kaiser**  
 (5) Q Where do you currently work?  
 (6) **A I own the Hobby Hut and Kelly s Floral**  
 (7) Q Is the Hobby Hut and Kelly s Floral one place of business?  
 (8) **A Correct**  
 (9) Q And there are two aspects of the business that go on in the  
 (10) same place?  
 (11) **A Correct**  
 (12) Q Was that with what you were doing at the time - well let  
 (13) me just say March of 1989?  
 (14) **A Yes**  
 (15) Q And were you the owner at that time as well?  
 (16) **A That s correct**  
 (17) Q Now did there come a time in March of 1989 when a man  
 (18) named Hazelwood came into your place of business?  
 (19) **A That s correct But I didn't know who he was at the time**  
 (20) Q Okay what day or date was that that you recall?  
 (21) **A The spill was on the 24th?**  
 (22) Q Yes  
 (23) **A Then it was the day before**  
 (24) Q If the spill was on the 24th what day would it have been?  
 (25) **A It was in the daytime before the spill**

Vol 17 2775

- (1) Q So that would have been March 23 1989?  
 (2) **A Yeah right Right, the 23rd**  
 (3) Q What are you looking at ma am?  
 (4) **A I m looking at the telephone bill where I put his credit  
 (5) card through to make sure I m right**  
 (6) MR CHALOS I m showing DX - let me see if I have  
 (7) this yeah DX3456 And DX3457 Alpha  
 (8) Oh wait that s because I m fooling with the focus instead  
 (9) of the zoom  
 (10) MR SANDERS On the job training  
 (11) THE COURT We all got to learn sometime  
 (12) MR CHALOS Can you see? Is that clear? I thought I  
 (13) knew how to do this one  
 (14) BY MR CHALOS  
 (15) Q All right well before - well before we get into that  
 (16) let me ask you about Mr Hazelwood s visit  
 (17) A gentleman came into the store?  
 (18) **A Correct**  
 (19) Q What do you recall by his appearance how he was dressed?  
 (20) **A Very well dressed He was very pleasant, he looked  
 around**  
 (21) **the shop He walked around He came up to the counter  
 which**  
 (22) **was - I was closer to him than I was to you, you know like**  
 (23) **about one table away And he spoke to me, and the only  
 reason**  
 (24) **he stood out in my mind is I used to live in Long Island and**  
 (25) **when he sent flowers to Huntington, I tried to be congenial**

Vol 17 2776

- (1) with all my customers I asked him how Long Island was and we
- (2) discussed Huntington And I lived in Malverne which is in Long
- (3) Island and we discussed Long Island And if he d been drinking, I would have smelled it And he could not - and he
- (4) was not drinking at the time he was in my shop
- (5) Q In addition to talking about your respective homes in Long
- (6) Island did Captain Hazelwood buy anything from you?
- (7) A Yes He sent - he wired flowers and I put his credit card
- (8) through the machine
- (9) Q To where did he wire the flowers?
- (10) A To Huntington Long Island
- (11) Q All right Now let me show you another piece of paper
- (12) which is Exhibit 3456
- (13) Have you had a chance to look at it?
- (14) A Yes
- (15) Q Have you seen this before Ms Kaiser?
- (16) A Well, yes I wrote it
- (17) Q This is all your handwriting?
- (18) A All my handwriting
- (19) Q What is this form?
- (20) A Okay, every person that comes in, I write an order out for
- (21) them so I have a record \$45 was what he bought a dozen
- (22) long stem red roses What they cost in Long Island eight is
- (23) for the phone call and the delivery and it comes to \$53
- (24) Q A total of 53?
- (25)

Vol 17 2777

- (1) A Right
- (2) Q And the message in that section - let me start again
- (3) That telephone number is at the top is what what number
- (4) ma am?
- (5) A The number of the person that it s going to
- (6) Q That it s going to okay And they delivered to Mrs Susan
- (7) Hazelwood that s the person to whom it was sent is that
- (8) right?
- (9) A Right
- (10) Q And when you said you didn t know what the relationship
- (11) was you just knew it was a woman s name?
- (12) A Yeah I didn t know if it was his mother or his wife
- (13) Q And then the florist is listed there?
- (14) A Main Street Floral, and the lady I spoke to was Jean
- (15) Q And what did Captain Hazelwood order looking at this?
- (16) A A dozen long stem red roses arranged in a vase
- (17) Q What was the occasion for sending this do you know?
- (18) A I don t know if it was Easter or - I don t remember I
- (19) really don t remember I do so many
- (20) Q Do you recall that this was Easter weekend?
- (21) A I think it was over Easter weekend but I don t remember
- (22) I d be lying if I say I know definitely what he sent it for
- (23) Q Let me do this Ms Kaiser Let me go - before I get to
- (24) this telephone bill how long would you say Captain Hazelwood
- (25) spent in the store from the time he came in until the time -

Vol 17 2778

- (1) A He looked all around all the way around, up and down the
- (2) aisles And I would say he was there anywhere between
- (3) three quarters of an hour to an hour
- (4) I ve got a lot to see
- (5) Q Can you tell me approximately as best as you recall what
- (6) time of day this was?
- (7) A Sometime between - I guess it was around two and three
- (8) 2 30 and three, because I don t watch the clock when I m
- (9) working, you know
- (10) Q Two and three 2 30 and three something like that?
- (11) A In the afternoon
- (12) Q In the afternoon?
- (13) A Something like that In the afternoon
- (14) Q Okay let s go back to what you said about your being close
- (15) to him and having a considerable conversation with him
- (16) A We were face to face
- (17) Q And being face to face you smelled no alcohol on Captain
- (18) Hazelwood s breath?
- (19) A No, I did not
- (20) Q Was he sober ma am?
- (21) A Yes, he was sober And I know the difference because I
- (22) had
- (23) an alcoholic husband so I know the difference between -
- (24) and I
- (25) see a lot of people that drink in my shop and I can tell the
- (26) difference He hadn t been drinking I mean if he did he
- (27) was hiding it But he didn t reek from alcohol and when you

Vol 17 2779

- (1) talk to something that close, you can tell
- (2) Q There was no sign that he was intoxicated?
- (3) A No sign
- (4) Q And you just said a moment ago that there was no sign that
- (5) he had been drinking in any way at all?
- (6) A Correct
- (7) Q Now you said that you ve had people come into your shop
- (8) that had been drinking you had a family experience with it
- (9) What do you look for in trying to detect whether somebody s
- (10) been drinking or not?
- (11) A Well, at that particular moment, I wasn t looking for
- (12) anything He was just another customer
- (13) Q Right I m not - I m not even asking now about this
- (14) particular moment I m just asking you generally what are the
- (15) kind of things that you would see generally in somebody who
- (16) might come into your shop or you might otherwise run across
- (17) who
- (18) had been drinking?
- (19) A They don t usually - they re not usually able to carry on
- (20) a normal conversation, be polite sometimes
- (21) Q So it may affect their courtesy?
- (22) A Correct
- (23) Q Or their manner of speaking?
- (24) A That is correct
- (25) Q You saw nothing like that in Captain Hazelwood is that
- (26) right?

Vol 17 2780

- (1) **A Not a thing Nothing no**  
 (2) **Q You said a moment ago or a few minutes ago something about**  
 (3) **if he were he might have been hiding it You didn t see any**  
 (4) **sign that he was trying to hide that he had been drinking had**  
 (5) **you?**  
 (6) **A No he was doing everything every other customer comes in**  
 (7) **my shop does just looking around**  
 (8) **Q All right Let me get to the telephone charge with you -**  
 (9) **and let me mark one last piece of paper as an exhibit and have**  
 (10) **you look at this too Ms Kaiser And we ll mark this as 3457**  
 (11) **A**  
 (12) **Ms Kaiser you can see that this exhibit I just put in**  
 (13) **front of you has atop across the top Cooper [sic] Valley**  
 (14) **Telephone Cooperative - or that s the top printing on it?**  
 (15) **A Correct**  
 (16) **Q And there is a bill that you - you look down I think it s**  
 (17) **seven lines from the bottom?**  
 (18) **A Right**  
 (19) **Q There s a telephone charge for a call to Huntington?**  
 (20) **A Right**  
 (21) **Q All right Ms Kaiser let s look at the exhibit we ve**  
 (22) **marked for the deposition and one that was used at the**  
 (23) **Hazelwood trial**  
 (24) **This is a copy of some of your telephone calls in March of**  
 (25) **1989 is that right?**

Vol 17 2781

- (1) **A Correct**  
 (2) **Q And these are all calls made from the Hobby Hut Kelly s**  
 (3) **Floral?**  
 (4) **A Correct**  
 (5) **Q Now -**  
 (6) **A Excuse me can I tell you it s also my home phone**  
 (7) **number**  
 (8) **It s the same one**  
 (9) **Q All right Now let s go left to right across this bill**  
 (10) **and see what you can tell me about it**  
 (11) **Down the left hand column - we re going to look at the**  
 (12) **Huntington New York entry okay? Are you with me?**  
 (13) **A Right**  
 (14) **Q Let s look at the left hand come first where it says 03**  
 (15) **slash 23?**  
 (16) **A Correct**  
 (17) **Q What does that mean to you?**  
 (18) **A The date I put his credit card into my machine and made**  
 (19) **the**  
 (20) **call**  
 (21) **Q All right What is the second entry telephone number the**  
 (22) **835 4483?**  
 (23) **A That s my telephone number**  
 (24) **Q And the third entry says Huntington New York?**  
 (25) **A That s the place I called at the time**  
 (26) **Q And what s the telephone number next to Huntington New**  
 (27) **York the 516/271 0160?**

Vol 17 2782

- (1) **A The number of the shop that I called to order the flowers**  
 (2) **Q And then there s a column labeled MINS and there s a**  
 (3) **Number 2 in this Huntington New York entry You see that?**  
 (4) **A Yes**  
 (5) **Q Do you know what that stands for?**  
 (6) **A That it took two minutes to call**  
 (7) **Q All right The next one says time and the entry is 14 02?**  
 (8) **A Correct**  
 (9) **Q What does that mean to you?**  
 (10) **A The hour that it was placed**  
 (11) **Q All right So does that mean 14 hours into the day two**  
 (12) **minutes after the 14th hour of the day 1402? Is that what it**  
 (13) **means to you?**  
 (14) **A I guess that s what it means yes**  
 (15) **Q Would that be 2 02 p m ?**  
 (16) **A Correct**  
 (17) **Q And you said before this call - before this - wait a**  
 (18) **minute let me start again**  
 (19) **And you said before that this call represented your putting**  
 (20) **the card through Is that how you put it?**  
 (21) **A Yes**  
 (22) **Q What do you mean by that?**  
 (23) **A I have a machine that processes credit cards, and it went**  
 (24) **through the credit card machine plus my telephone bill**  
 (25) **Q And that s something you do routinely when you get a credit**

Vol 17 2783

- (1) **card charge?**  
 (2) **A Right I phone in as fast as I can**  
 (3) **Q Okay At the time that you go through this exercise of**  
 (4) **putting the card through and having the credit card charge**  
 (5) **verified I guess it was Captain Hazelwood was still in the**  
 (6) **store?**  
 (7) **A I m pretty sure he was yes I put it through right away**  
 (8) **yes**  
 (9) **Q You used the card physically to do it didn t you?**  
 (10) **A I used it physically, right, so he had to be there**  
 (11) **Q So he must have left sometime after this?**  
 (12) **A Right Correct**  
 (13) **MR CHALOS Your Honor that ends our direct**  
 (14) **examination of this witness**  
 (15) **MS HANSON Plaintiffs have a brief cross Your**  
 (16) **Honor**  
 (17) **CROSS EXAMINATION OF EMILY KAISER (Read)**  
 (18) **BY MS HANSON**  
 (19) **Q Now your store was quite busy that day?**  
 (20) **A We were really busy Because it was just -**  
 (21) **Q Just before a holiday?**  
 (22) **A Yes really busy**  
 (23) **Q When Mr Hazelwood came into your shop did you take note**  
 (24) **of him walking into the shop?**  
 (25) **A No I didn t even know who he was He was just another**

Vol 17 2784

Vol 17 2786

- (1) **customer**  
 (2) Q And at that time you had a conversation with him?  
 (3) **A Yeah a nice conversation**  
 (4) Q Do you know how long that conversation lasted?  
 (5) **A Well it was a little while it had to be at least ten**  
 (6) **minutes, 15 minutes, and then he gave me his order and I**  
 (7) **wrote that up And I was asking him questions while I was talking**  
 (8) **to him and trying to be friendly, as I try to be with most of my**  
 (9) **customers**  
 (10) Q But at the end of the conversation is when he gave you his  
 (11) credit card and paid for his purchase?  
 (12) **A Correct**  
 (13) Q And then after paying for his purchases he left?  
 (14) **A Yes**  
 (15) Q Okay and you didn't know where he went after that?  
 (16) **A Nope I don't follow them They walk out the door and**  
 (17) **they're gone I don't even ask them where they're going**  
 (18) MS HANSON That concludes the cross Your Honor  
 (19) (The Reader Stepped Down )  
 (20) MR SANDERS May it please the Court we call Mr Ron  
 (21) French by deposition  
 (22) THE CLERK Would you raise your right hand please  
 (23) sir?  
 (24) (The Witness Is Sworn)  
 (25) THE CLERK Please be seated

- (1) **A You mean what kind of work do I normally do?**  
 (2) Q Of what kind of work you did before that  
 (3) **A When I was in the military and for the first two years**  
 (4) **after I got out of the military let's say from 1960 to 1970 I**  
 (5) **was an institutional cook**  
 (6) Q Okay  
 (7) **A Eight years in the military and two years working for**  
 (8) **Universal Services, Incorporated and Boatel and those**  
 (9) **people that cater to the pipeline crews and stuff like that**  
 (10) Q All right And then from 70 until you started driving a  
 (11) cab again - I don't need to know everything but -  
 (12) **A I was a cook at the state hospital here in Valdez Well, I**  
 (13) **was from 1970 to 72 - or 69, the last few months of 69 to**  
 (14) **72 I was a Yellow Cab driver in Anchorage**  
 (15) **Around 1972 I moved to Valdez and I went to work at the**  
 (16) **hospital here, Harborview Working for the state of Alaska**  
 (17) **And I worked there six or seven years And -**  
 (18) Q Okay What did you do there at the hospital?  
 (19) **A I was a cook And then I went to college and learned you**  
 (20) **know, trade school I learned how to be an auto body repair**  
 (21) **man I got chemical pneumonia so I had to quit that, so I**  
 (22) **went back to driving a cab again**  
 (23) Q Did you make trips to the Alyeska Terminal on the evening  
 (24) of March 23 1989?  
 (25) **A Yes**

Vol 17 2785

Vol 17 2787

- (1) For the record sir state your full name address and  
 (2) spell your last name  
 (3) THE READER Howard Naughton N a u g h t o n  
 (4) Houston Texas  
 (5) THE CLERK Thank you  
 (6) DIRECT EXAMINATION OF RONALD FRENCH (Read)  
 (7) BY MR SANDERS  
 (8) Q Mr French would you state your full name for the record?  
 (9) **A My name is Ronald Lloyd L I o y d French F r e n c h**  
 (10) Q Where are you currently employed?  
 (11) **A I drive a Yellow Cab in Valdez**  
 (12) Q Was that your job in March of 1989?  
 (13) **A Yes, it was I been doing it for nine years**  
 (14) Q You said that you've been a cab driver for how long sir  
 (15) nine years?  
 (16) **A Nine years here in Valdez and three years in Anchorage**  
 (17) Q So -  
 (18) **A 12 years altogether**  
 (19) Q In the spring of 1989 March of 1989 how long had you been  
 (20) a cab driver?  
 (21) **A Counting the time in Anchorage?**  
 (22) Q Counting the time you drove in Anchorage  
 (23) **A Nine years**  
 (24) Q And what had you done - I don't want a complete  
 (25) recitation but can you give me a little bit of a description?

- (1) Q How many trips did you make?  
 (2) **A About three But I didn't pick them up at the Pizza**  
 (3) **Palace I picked them up at the Club Bar**  
 (4) Q Let's focus on that trip - let me rephrase it  
 (5) Was there a trip in which you took three passengers from  
 (6) the Club Bar next to the Pizza Palace and a fourth passenger  
 (7) from another location to the Alyeska Terminal?  
 (8) **A Yes It was the Pipeline Club**  
 (9) Q The Pipeline Club is where the fourth passenger came from?  
 (10) **A Yes sir**  
 (11) Q Did you see your passengers inside the Club Bar or in the  
 (12) Pizza Palace?  
 (13) **A I didn't pay any attention Paul said, They're down at the**  
 (14) **end down there, and I said Okay, fine And I went ahead**  
 (15) **and got my money from Terry I looked out the window and you**  
 (16) **could see out the windows of the bar there to the cab And the**  
 (17) **passengers were getting in the cab So I hurried out and**  
 (18) **got in the cab and took them across the bay**  
 (19) Q So you came out of the Club Bar and the passengers were  
 (20) already in your cab?  
 (21) **A They were getting in my cab, yes**  
 (22) Q And there were three passengers?  
 (23) **A Yes**  
 (24) Q Where did the three passengers sit? Were they all in the  
 (25) back or was one in the front or what was the arrangement?

Vol 17 2788

- (1) **A One of them was sitting in the front and two of them in the back**
- (2) **Q Did one of the passengers have the pizza on him?**
- (3) **A The one in the front seat had a large combination pizza**
- (4) **Q What about the passengers in the back? Did they have pizza also?**
- (5) **A No**
- (6) **Q And did you then go to the Pipeline Club directly to pick up the other passenger?**
- (7) **A Yes because I had another call at the Pipeline Club to go across the bay**
- (8) **Q So you went to the Pipeline Club and -**
- (9) **A I went inside and asked the bartender who the cab was for and she said That guy down on the end down there And I went over to the fellow and I says, Your cab s here, and I walked out and got in the cab and he came out And he was sitting in the back seat**
- (10) **Q In other words that passenger also got in the cab without your really talking to him inside?**
- (11) **A I knew him**
- (12) **Q Okay**
- (13) **A He s a steward off of the Arco one of - one of the - one of the Arco ships**
- (14) **Q How long were you stopped altogether at the Pipeline Club to the best of your recollection?**

Vol 17 2789

- (1) **A Well long enough for me to walk in ask the bartender who the cab was for go over and tell the guy his cab was there, walk back out and get in my cab About - about 45 seconds maybe 60 at the most**
- (2) **Q And then did you drive directly from the Pipeline Club over to the Alyeska Pipeline terminal?**
- (3) **A Yes I did**
- (4) **Q Did the three passengers not the - let me exclude from this question the man from the Arco ship?**
- (5) **A The man from the Arco ship**
- (6) **Q Right Did the three other passengers talk among themselves about anything while they were in your cab?**
- (7) **A Well something was said about some kind of shaft or something being ready rotated or some damn thing or something**
- (8) **I don t know I really wasn t paying much attention**
- (9) **There was a radio - we was busy that night and our radio was calling We was getting, you know sometimes two or three phone calls every five minutes**
- (10) **Q Okay**
- (11) **A You know**
- (12) **Q But it was some talk about business or something mechanical?**
- (13) **A Yeah They were - the guy in the front seat was talking to the guy right directly behind me and the other guy off the**

Vol 17 2790

- (1) **Exxon ship you know They were all three talking about something And it was going in one ear and out the other because I was listening to my cab radio I was listening to AM radio and I was trying to keep my mind off from that guy that was eating the pizza in the front seat you know and all that you know**
- (2) **I mean after all I m only human I m like a little puppy dog, you know what I mean? I mean it s - somebody sticks something in front of me and I m hungry, you know, I would like -**
- (3) **to have a piece of it but I m not going to beg for it, you know what I mean?**
- (4) **Q Right**
- (5) **MR SANDERS I m getting hungry up here Your Honor**
- (6) **THE COURT I m glad I had my sandwich**
- (7) **MR SANDERS This is a good time for a break**
- (8) **BY MR SANDERS**
- (9) **Q Again excluding the man from the Arco ship from this question did the three other passengers in any way appear intoxicated to you intoxicated with alcohol or any other substance that would do that?**
- (10) **A I m not really qualified to make such judgments or anything**
- (11) **else All I can say is I did not see them drink anything and I couldn t smell any alcohol because of the pizza And without being some kind of a doctor or something, I couldn t tell you whether they were just tired or whether they were drinking or**

Vol 17 2791

- (1) **what And I drink myself you know I have no idea whether they d been drinking or not**
- (2) **Q Did they act in any way like they were intoxicated?**
- (3) **A No, they didn t act any kind of unusual to me Of course there was no reason to pay any attention**
- (4) **Q Right**
- (5) **A There was nothing - you know nothing had happened nothing had happened I mean they didn t spill no oil out there in the bay yet or anything else and why should I pay - why should I have paid any attention to them I was just driving the cab minding my own business, whenever I got them from point A to B, they were to pay me and that was my job**
- (6) **Q While they were in the cab they didn t act unruly?**
- (7) **A No they were talking some kind of business between the three of them and I do remember something said about a shaft being rotated or something like that Maybe it was a shaft on a pump or something, you know that the pump man wanted done and asked the engineer for or something like that I don t really know**
- (8) **Q I understand They didn t act boisterous?**
- (9) **A No**
- (10) **Q And they didn t act in any way out of the ordinary you said is that right?**
- (11) **A Just acted like seamen**
- (12) **Q Now you said you did not smell alcohol because of the**

Vol 17 2792

- (1) pizza I think that s the way you put it?  
 (2) **A Right**  
 (3) **Q** And you spoke to the passenger behind you the man who  
 (4) asked about paying you and getting the receipt Did you turn  
 (5) around?  
 (6) **A I probably handed him the receipt over my shoulder like**  
 (7) **that (indicating), same way he handed me the money you**  
**know**  
 (8) **Q** Did you smell any alcohol when either of those things  
 (9) happened?  
 (10) **A No**  
 (11) **Q** Now when you got to the Alyeska Terminal gate would you  
 (12) describe for me what happened there?  
 (13) **A It was a normal routine, they all - all of them handed me**  
 (14) **their identification cards and they got out and they walked**  
 (15) **through the building I got out of the cab I handed the**  
 (16) **security guard my identification badge and handed him**  
 (17) **I D s and told him what berths they were off from and the**  
**guys**  
 (18) **went in and got - went through the metal detector got their**  
 (19) **bags checked and all that kind of stuff And he checked my**  
 (20) **cab, they searched the cab, underneath the seat in the**  
 (21) **box the back luggage compartment, inside and all that It s**  
**a**  
 (22) **station wagon, checked around the spare tire and**  
 (23) **everything**  
 (24) **else make sure they re not hauling any alcohol in and then**  
 (25) **they opened up the gate and they let me go through and I**  
**give**  
 (26) **the guys back their identification cards when they come**  
**back in**

Vol 17 2793

- (1) and I go on up to the berth  
 (2) **Q** They walked in and they walked right back out - I m sorry  
 (3) I just read your line  
 (4) **A They walked in and they walked right back out**  
 (5) **Q** Did you see them walk?  
 (6) **A Yeah**  
 (7) **Q** And any unsteadiness in their walk? And again I m  
 (8) excluding from this question the man from the Arco ship I  
 (9) want to know about the other three  
 (10) **A There was no problem**  
 (11) **Q** Where did you go from the gate?  
 (12) **A I stopped at berth 4 and let the man off from the Arco**  
 (13) **ship and he paid me**  
 (14) **Q** Okay  
 (15) **A I drove up to berth 5 and pulled up there and the guy**  
 (16) **behind me says How much do we owe you, and I told him**  
 (17) **and he**  
 (18) **went and asked me for a receipt so he could get it back from**  
 (19) **the old man**  
 (20) **Q** Mr French at berth 5 did you know on that evening what  
 (21) ship was berthed at berth 5?  
 (22) **A Yeah, it was the Exxon Valdez**  
 (23) **Q** In your experience as a cab driver and adding any of those  
 (24) other experiences including the hospital experiences - you ve  
 (25) had many opportunities I would think - to see people who were  
 (26) intoxicated or drunk haven t you?

Vol 17 2794

- (1) **A Yeah**  
 (2) **Q** Do they have a program in Valdez called a Safe Drive  
 (3) Program?  
 (4) **A Yes, they do**  
 (5) **Q** How long has that been in operation?  
 (6) **A Three four years something like that Three years four**  
 (7) **years at the most**  
 (8) **Q** What is that program Mr French?  
 (9) **A Well that s if a person drives his car to town and he goes**  
 (10) **to a bar or two and he gets all messed up and he has too**  
**much**  
 (11) **to drink to where he can t pass the Breathalyzer, all he has**  
 (12) **to do is call a cab and the cab comes and picks him up and the**  
 (13) **bartender signs a little card and we take him home The**  
 (14) **next**  
 (15) **morning, he calls the cab and says Well, I took a safe ride**  
 (16) **home He signs the little card we take him back to the bar**  
 (17) **so**  
 (18) **he can get his car That s to keep drunk drivers from driving**  
 (19) **drunk**  
 (20) **Q** And as a result of that program did you pick up additional  
 (21) business from people who had had something to drink?  
 (22) **A Yeah, yeah the ones that normally are hard core and**  
 (23) **would**  
 (24) **drive you know they drove anyway and got DWIs anyway**  
 (25) **yeah,**  
 (26) **but some of them that we would - could talk into it - and**  
 (27) **yes, I ve talked quite a few of them into it, you know Hey**  
 (28) **are you sure you re okay, let me take you home you know**  
 (29) **and**  
 (30) **all that yeah You know I ve done that I mean I m sure**

Vol 17 2795

- (1) that s what you're getting towards Can I tell whether  
 (2) somebody is drunk or not? **Yes**  
 (3) **Q** All right Now let me go back to their demeanor and  
 (4) behavior while in the cab That s all I m asking you did  
 (5) anybody appear to be intoxicated?  
 (6) **A No They did not appear to be drunk to me - drunk to me**  
 (7) **and I - no I did not see them drink anything and no they did**  
 (8) **not drink anything in my cab and the guy didn t drink a beer**  
 (9) **with his pizza in my front seat, no**  
 (10) **MR SANDERS** That concludes the direct Your Honor  
 (11) **MS HANSON** Plaintiffs have brief cross - has  
 (12) nothing to do with pizza  
 (13) **MR SANDERS** I object -  
 (14) **CROSS EXAMINATION OF RONALD FRENCH (Read)**  
 (15) **BY MS HANSON**  
 (16) **Q** All right Now let me ask you this about berth 5 Did  
 (17) you see any of the three Exxon Valdez passengers walking  
 (18) away  
 (19) from the cab or walking anywhere at that point?  
 (20) **A I wasn t paying any attention**  
 (21) **Q** Do you have any recollection of any of those three men  
 (22) walking in any way unsteadily at berth 5?  
 (23) **A I had no reason to pay attention to them**  
 (24) **Q** Now did you subsequently become aware of the identity of  
 (25) any of those - any of the passengers after the trip?  
 (26) **A Yeah - no because I already knew who the guy was off**  
**the**

Vol 17 2796

Vol 17 2798

(1) **Arco ship you know and no I didn't - well I don't know how**  
 (2) **to answer your question because no I did not find out who**  
**any**  
 (3) **of them were afterwards but I did find out who one of them**  
**was**  
 (4) **not**  
 (5) **Q All right You made some reference to this before we**  
 (6) **started What do you mean by that?**  
 (7) **A I found out later that I did not have Captain Hazelwood in**  
 (8) **my cab I was led to believe by the newspaper - by the Daily**  
 (9) **News okay - and I was led to believe by one of the TV**  
 (10) **channels I believe it was ESPN, that I had Captain**  
**Hazelwood**  
 (11) **In my cab, but nobody would show me a picture of Captain**  
 (12) **Hazelwood, okay until after they took interviews and stuff**  
**and**  
 (13) **all that and after they asked me questions about what I -**  
**you**  
 (14) **know what happened that night and Did you take - you**  
**know**  
 (15) **how did I know I said I took three people back to the ship,**  
 (16) **to the Exxon Valdez and I didn't know who they were**  
 (17) **Q You described for us in detail what they did on that night**  
 (18) **when you came up with your cab and you asked for**  
 (19) **identifications is that -**  
 (20) **A Before the oil spill, if a person didn't look overly**  
 (21) **intoxicated or anything like that there was no problem**  
**They**  
 (22) **let them on the ship, let him in the terminal and everything**  
 (23) **else**  
 (24) **Q When the three passengers went through the security gate**  
 (25) **and they were walking back from security to the cab did you**

(1) MS HANSON Nothing further thank you  
 (2) THE COURT We'll suspend for the day now  
 (3) Ladies and gentlemen please remember my instructions about  
 (4) not reading or listening to anything concerning this case We  
 (5) will reconvene at 8 00 tomorrow morning Court is in recess at  
 (6) this time  
 (7) THE CLERK This court is in recess until eight a m  
 (8) tomorrow  
 (9) (Jury out at 2 02 p m )  
 (10) (Recess at 2 02 p m )

Vol 17 2797

Vol 17 2799

(1) have much opportunity to observe them?  
 (2) **A Uh uh**  
 (3) **Q You'll have to say yes or no**  
 (4) **A No The guy from the Arco ship was already back in**  
 (5) **Q Now in your six years experience before the spill would**  
 (6) **it be out of the ordinary if you were to take a person you knew**  
 (7) **to be a - or take let's say someone back to one of the**  
 (8) **berths would it be out of the ordinary if that person was**  
 (9) **intoxicated?**  
 (10) **A Well that depends Depends whether I went into the bar**  
 (11) **and the guy had a beer in front of him and I says to him I**  
 (12) **says, Hey your cab's here and then I went outside or**  
**whether**  
 (13) **I pulled up in front of the bar and the guy was standing**  
 (14) **outside in front the bar with a newspaper in his hand and a**  
**bag**  
 (15) **full of stuff that he got at the market across the street, you**  
 (16) **know it would be - it wouldn't be - I guess it wouldn't**  
 (17) **be - if the guy was falling down drunk, yeah I would notice**  
 (18) **that But if the guy was - had, say he went in the bar and**  
 (19) **had a couple of drinks and he met me at the door, there**  
**would**  
 (20) **be no reason for me to pay any attention**  
 (21) **Q Have you ever taken an intoxicated individual back over**  
 (22) **to -**  
 (23) **A Yes**  
 (24) **Q - to get onto one of the vessels?**  
 (25) **A Yes**
