Notes Re: Bird References (Sanger)

The following bird references were added to final EIS:

Day, R.H., K.L. Oakley, and D.R. Barnard. 1983. Nest sites and eggs of Kittlitz's and marbled murrelets. Condor 85:265-273.

Ecological Consulting, Inc. 1991. Assessment of direct seabird mortality in Prince William Sound and the western Gulf of Alaska: results from the Exxon Valdez oil spill.
Ecological Consulting, Inc., Portland, Oregon

Simons, T.R. 1980. Discovery of a ground-nesting marbled murrelet. Condor 82:1-9.

Unable to locate following references, or other "circumstances":

Carter, H.R. and M.L. Morrison, Eds. 1992. Status and conservation of the marbled murrelet in North America. Proc. Western Found. Vert. Zool. 5 (1):1-133 *Entire vol avail through Foundation. OSPIC requesting entire vol.*

Cody, Fadely and T. Gehrlach. 1993. Pigeon guillemot colony locations along the northern and southwestern coast of Afognak Island, Ak. *As of 9-8-94 still in draft review form according to Tom Gerlach, FWS, Realty Div*

Ecological Consulting, Inc. 1991. Assessment of direct seabird mortality in Prince William Sound and the western Gulf of Alaska: results from the Exxon Valdez oil spill.
Ecological Consulting, Inc., Portland, Oregon. *Same as Ford, Bonnell, et al ???* *yes*

Forsell, D.J. and P. J. Gould. 1981. Distribution and abundance of marine birds, etc, etc
Key pages provided, but discussion and tables may be helpful, too. Pat Gould (786-3382) may have cc's ?

Kessel, B. and D. D. Gibson.. 1978. Status and distribution of Alaska birds.

Key pages provided for marbled murrelet, the only species referred to, but maybe useful to have??

Gould, P. J and .D. J. Forsel. 1982. Pelagic distribution and abundance of seabirds, etc, etc

This is a LARGE folio volume. Pat Gould (786-3382) may have cc's.

Tuck, L>M>. 1960. The Murres. *Cover, TOC provided. Avali from Canada?? Perhaps out of print??* *How much of book was used?*

USDOI, Fish and Wildlife Service. 1993. Ak Seabird Colony Catalog and colony database.

This is a computer database. Parts, or entire database can be obtained as needed from Dr. Vivian Mendenhall, FWS, Migratory Birds, 786-3517

Restoration EIS Bibliography Archives For EVOS Library

Notes Re: Bird References (Sanger) 333-8209

The following bird references were added to final EIS, and cc's were given OSPIC:

✓ Day, R.H., K.L. Oakley, and D.R. Barnard. 1983. Nest sites and eggs of Kittlitz's and marbled murrelets. Condor 85:265-273. *Copy provided.*

Simons, T.R. 1980. Discovery of a ground-nesting marbled murrelet. Condor 82:1-9.

Unable to locate following references, or other "circumstances." Some will be available through the FWS library when the dust settles on the FWS office move:

Stock request Ainley, D.G. and R.J. Boekelheide. 1990. Seabirds of the Farallon Islands. Stanford U. Press
Family big (long) book...

*[?] Bengston, S.A. 1966. Field studies of the harlequin duck in Iceland. Wildfowl Trust, 17th, pp. 79-94.

* Birkhead, T.R. 1974. The movement and mortality rates of British guillemots. Bird Study 21:245-254.

* Campbell, R. W. 1977. Use of man-made structures as nest sites by pigeon guillemots. Canadian Field Naturalist 91:193-194. *FWS, or Ak Nat Resources library probably has.*

Stock request Carter, H.R. and M.L. Morrison, Eds. 1992. Status and conservation of the marbled murrelet in North America. Proc. Western Found. Vert. Zool. 5 (1):1-133 *Entire vol avail through Foundation.*

Cody, Fadely and T. Gehrlach. 1993. Pigeon guillemot colony locations along the northern and southwestern coast of Afognak Island, Ak. *As of 9-8-94 still in draft review form according to Tom Gerlach, FWS, Realty Div*

* Drent, R, G.F. Van Tets, F. Tompa, and K. Vermeer. 1964. The breeding birds of Mandarte Island, British Columbia. Can. Field Naturalist 78:208-263.

Ecological Consulting, Inc. 1991. Assessment of direct seabird mortality in Prince William Sound and the western Gulf of Alaska: results from the Exxon Valdez oil spill. Ecological Consulting, Inc., Portland, Oregon. *Same as Ford, Bonnell, et al ??? Karen Oakley, FWS Oil Spill Coordinator may have extra cc. (786-3579)*

Emms, SK and KH Morgan. 1989. The breeding biology, etc..... *I requested cc. of the entire volume from Kees Vermeer, and will pass it on to OSPIC when I get it*

Forsell, D.J. and P. J. Gould. 1981. Distribution and abundance of marine birds, etc, etc

Key pages provided. Pat Gould (786-3382) has no cc's. - Gerry feels pertinent info. for writing of EIS is included.

FRY, DM and Addiego. 1988. Effects of oil exposure and stress . . *UAF library may have??*

Kessel, B. and D. D. Gibson.. 1978. Status and distribution of Alaska birds.

Key pages provided for marbled murrelet, the only species referred to.

Scott, JM 1973. Resource allocation among four spp *I have a personal cc of this somewhere in boxes I haven't unpacked for 6 years . . . From OSU on micrifische??*

Vermeer, Morgan, Butler, Smith 1989. *In entire vol Vermeer is sending; see Emms above*

Tuck, L.M. 1960. The Murres. *Cover, TOC provided. Avail from Canada?? Out of print??*

USDOJ, Fish and Wildlife Service. 1993. Ak Seabird Colony Catalog and colony database.

This is a computer database. Parts, or entire database can be obtained as needed from Dr. Vivian Mendenhall, FWS, Migratory Birds, 786-3517

ALASKA DEPARTMENT OF FISH AND GAME**

ORDERING INFORMATION

Direct inquiries and orders to:

Amy Paige, CPDB Coordinator
Division of Subsistence
Alaska Department of Fish and Game
P.O. Box 25528
Juneau, Alaska 99802-5528

Phone: (907) 485-6192, 485-4147
FAX: (907) 485-2066

The Community Profile Database (CPDB) is a large, interactive computerized system designed for continuous updates. These unique characteristics affect duplication procedures. There are essentially three ways for the public to obtain copies of the database in whole or part. First, the best way to obtain the database is on computer diskette for use on a personal computer with the RBASE software program. Second, each Division of Subsistence regional office, and two libraries in Anchorage, have a printed version of the database that may be looked at by the public free of charge. Third, the printed version of the database may be borrowed from the Division of Subsistence Anchorage or Juneau Headquarters offices for duplication at the user's expense (typically, private duplicating services charge from \$.08 - \$.10 per page). The Division of Subsistence can duplicate up to 20 pages at no charge.

Of these three methods, the first (computer diskette version) is by far the least expensive method for reproduction, as shown below. As a computer diskette version, the database can be used efficiently and effectively. It also can be updated relatively inexpensively. The second method (looking at the database in the regional office) is good if there are a few select communities or areas that a person is interested in. However, it is less desirable if large portions of the database are to be used. The third method requires considerable costs for duplication. Because the database is continually updated, the Division of Subsistence does not produce large numbers of printed copies, as the version becomes quickly superseded. Consequently, reproduction costs of single printed copies are necessarily greater and more time consuming to make, particularly because of the large number of pages of the database in the printed version. For users who feel they must have a printed version, we recommend the third method, borrowing a copy for duplication, or selecting a local Juneau or Anchorage copying service to who we supply a copy master. Each of these methods is described below in more detail. Also included is ordering and cost information on CPDB related products, the CPDB Supplement and the User's Guide to the CPDB.

Method 1. Computer Diskette Version

This is the best method for obtaining the database. To use the diskette version, you will need to have the R:BASE software program, and 19.9 MB hard drive space (23.7 MB of hard drive space are required during installation of the database). The user provides the Division of Subsistence with four high density diskettes for the database, and one diskette for the Technical Documentation, and we will copy it for free. Or you may choose to obtain a diskette version of the database itself, and a print version of the Technical Documentation, using Method 3 described below.

Community Profile Database, September 1993 Release

Requires four (4) high density diskettes, (supplied by requester)

No Charge

Technical Documentation requires one high density diskette, (supplied by requester)

No Charge

CPDB Supplement: Tables and Charts:

Requires two (2) high density diskettes , (supplied by requester)

No Charge

Method 2. Looking at the Print Catalog Version

The print catalog version of the database may be looked at without charge at each of the Division of Subsistence regional offices, and the two Anchorage area libraries:

Juneau Headquarters, 1255 West 8th Street, Juneau, AK 465-4147

Juneau Regional Office, 802 3rd Street, Douglas, AK 465-2628

Anchorage Regional Office, 333 Raspberry Road, Anchorage, AK 267-2353

Dillingham Regional Office Alaska Street, Dillingham, AK 842-5925

Fairbanks Regional Office, 3180 Peger Road, Fairbanks, AK 479-6211

Nome Regional Office

Bethel Regional Office, Bethel Native Corporation Business Complex, Bethel, AK 543-3100

ADFG Habitat Library 333 Raspberry Road, Anchorage, AK 267-2314

BLM Alaska Resources Library 222 West 7th Avenue, Anchorage

Method 3. Borrowing and Copying the Print Catalog Version

The printed version of the CPDB may be borrowed from the Division of Subsistence Anchorage and Juneau Headquarters offices and duplicated at the user's own expense. If you are not located in Juneau or Anchorage, or need the services of a copying or duplicating business, we will deliver copy to the Juneau or Anchorage duplicating service you select. Typically, private duplicated services in Juneau charge from \$.08 - \$.10 per page, plus charges for binders, drilling, handling and postage. For your convenience, we have calculated the costs you might expect assuming a charge of \$.10 per page. Charges for drilling, handling and postage have not been included.

Community Profile Database (July 1992/September 1993 Update):

Volume 1. Southeast Region (7/92) (818pp @ .10) plus \$7.15 binder	\$88.95

with sound management of public lands.

Amount of Public Land Necessary to Accomplish the Proposed Action

All alternatives consider all of the shoreline oiled by the spill, severely affected communities, and uplands adjacent to the watershed divide. None of the alternatives would change subsistence laws or regulations.

Reasonable Measures to Minimize Adverse Impacts on Subsistence Uses and Resources

None of the alternatives would have adverse impacts on subsistence uses and resources. Therefore, no measures are required to minimize adverse impacts on subsistence uses and resources.

Bill Hauser
Karen Klinge
Rod Kuhn
Gerry Sanger

✓ FROM: Beverly Hayes, OSPIC

COPY: Carrie Holba

DATE: September 1, 1994

SUBJECT: Update on DEIS References for the Administrative Record

Attached is the revised bibliography of documents that have been referenced in the DEIS from the EVOS Restoration Plan. Those documents marked by a checkmark are already retained in house at the OSPIC. Documents marked by an asterisk are not on site. It is important that all physical documents (original or photocopy), used as a reference source in an EIS, be housed on site as part of the administrative record.

To avoid possible copyright infringement, please see me about requesting permission from private publishers to photocopy 50+ pages. There are no copyright restrictions on state or federal documents. An alternative (and, perhaps, a more cost effective one!) is to purchase the document. I am in the process of compiling a list of books which I recommend be purchased, so check with Rod or me if your document falls in this category.

Again, your help and cooperation in obtaining these asterisked documents is greatly appreciated. If you have any questions, my extension is 251. Thanks.

SUBJECT: DEIS References for the Administrative Record

Attached is the bibliography (includes literature cited in Appendix C) of documents that have been referenced in the DEIS for the EVOS Restoration Plan. Those documents marked by a checkmark are already retained in house at the OSPIC. The few documents highlighted by a question mark are most likely retained at the OSPIC. After further review, I may ask for clarification on these documents.

Documents marked by an asterisk are not on site. To avoid possible legal ramifications, it is important that all physical documents (original or photocopy), used as a reference source in an EIS, be housed on site as part of the administrative record. Your help and cooperation in obtaining these asterisked documents is greatly appreciated. If you have any questions, my extension is 251. Thanks.

MEMORANDUM

TO: Rod Kuhn

FROM: Beverly Hayes *BH*

COPY: Molly McCammon
Carrie Holba

DATE: July 12, 1994

SUBJECT: Inclusion of DEIS references in the Administrative Record

On July 11, I spoke with Cherie Shelley, acting regional NEPA and Appeals Coordinator, at the Forest Service about their retention policy for documents that have been referenced in an EIS. According to Cherie, the physical document (original or photocopy) used as a reference source in an EIS, needs to be housed on site as part of the administrative record.

The references cited in the DEIS warrant careful consideration to avoid possible legal ramifications. Cherie cited a case where they were sued because a number of University of Washington archaeological reports were housed in Ketchikan instead of on site. Documents housed off site also pose a potential problem if the document in question is missing from the shelf or is checked out of the collection.

Acquisition of this documentation for inclusion in the administrative record is a labor intensive and, perhaps, costly task. The bibliography (including the references cited at the end of Appendix C) has to be checked to determine which documents are currently housed at the OSPIC. Reproduction of journal articles may have to be obtained by reporting the photocopies and paying the publishers' fees through the Copyright Clearance Center. In some cases, permission to retain a portion of documentation may have to be granted by the author. In other cases, if an entire journal or book has been cited, purchase of the issue or book may be the best alternative.

The potential large volume of material generated from these documents may also necessitate the need for additional filing cabinets to be placed in the OSPIC.

Individuals involved in the planning and writing of the DEIS, may have retained copies or may be able to easily acquire some of the referenced documents. In addition, your budget may cover any necessary reproduction costs. Your help and cooperation in obtaining these documents is greatly appreciated. With your

assistance, this process will move forward in a timely and efficient manner. If you have any questions, my extension is 251. Thanks.

COMMENTS: Hi Geneen - Enclosed is a draft letter requesting
permission to photocopy pages from documents
which have been referenced in an EIS. Copy-
right Clearance Center info. is also included.
Let me know if you have comments or
suggestions - Thanks! Beverly

Dear (Publisher's Name/Author),

The Oil Spill Public Information Center, a public library whose primary collection focuses on Exxon Valdez oil spill materials, is in the process of locating documents that have been referenced in the Draft Environmental Impact Statement for the Exxon Valdez Oil Spill Restoration Plan, published in June 1994. These referenced documents are to be housed on site as part of the Administrative Record, a file of indexed documents which record the activities of the Exxon Valdez Oil Spill Trustee Council.

The document, (Name), is a cited reference in the bibliography of the Draft Environmental Impact Statement. The Oil Spill Public Information Center requests permission to photocopy (Page Numbers) of this document for inclusion in the Administrative Record. All documents in the Administrative Record are available for public view.

I may be reached at the following address or telephone numbers:

Beverly Hayes
Oil Spill Public Information Center
645 G Street
Anchorage, Alaska 99501-3451

800-478-7745 (Inside Alaska)
800-283-7745 (Outside Alaska)
(907)278-8008

I may also be reached at the following e-mail address:
ospic@muskox.alaska.edu

Thank you for your consideration.

Sincerely,

Beverly T. Hayes
Technical Services Librarian

INTRODUCTION

Copyright Clearance Center, Inc. (CCC) is a not-for-profit clearinghouse which provides one-stop shopping for photocopy permissions to a wide range of users. *TITLES and FEES* is the guide to the over 1.5 million titles that are registered with CCC and is used by those who report and pay for photocopying through the Transactional Reporting Service (TRS) as well as those organizations who have an Annual Authorizations Service (AAS) license with CCC. Over 4,500 corporate entities and their employees are licensed with CCC, and over 1,300 organizations use the TRS. This edition of *TITLES and FEES* reflects CCC's database of authorized titles through May 13, 1994 and replaces the *COPI* and *Schedule A* catalogs you may be accustomed to using. A User's Guide has been added to help you follow the changes in format.

If your employer has a Transactional Reporting Service (TRS) account, you should read all the appropriate instructions and information referenced in the Table of Contents. A TRS account requires that all photocopies be reported transactionally using the information specified in this catalog. Photocopying is recorded either electronically or on a log sheet and reported to CCC monthly or quarterly. Complete instructions and log sheets are provided. (If you have been using *COPI*, please note that the arrangement of the sections has been changed.)

If your employer has signed or renewed an Annual Authorizations Service (AAS) license, you should reference this catalog to verify that the item you wish to copy is authorized. See the User's Guide for assistance.

If you are unsure about which service your employer is using, we suggest checking with your library, legal or administration staff.

ARRANGEMENT

Please note that the arrangement of sections differs slightly from that of previously published issues of *COPI* and *Schedule A*.

SECTION I: PHOTOCOPY INFORMATION LISTED BY PUBLISHER

This section lists publishers that have granted permissions for copying from all their titles within a certain publication category (e.g., all serials, all books, etc.), as well as the corresponding royalty fees.

SECTION II: PHOTOCOPY INFORMATION LISTED BY TITLE

This section lists over 61,000 individual titles registered with the CCC.

SECTION III: PHOTOCOPY INFORMATION LISTED BY COUNTRY

This section lists the international Reproduction Rights Organizations (RROs) which have authorized CCC to collect royalties for copying from all works published in their respective countries, as well as the corresponding royalty fees.

For easiest use, always refer to Section I first and search by publisher rather than title. If you do not find the publisher listed, refer to the title in Section II. Check Section III for publications from the following countries: Canada, Commonwealth of Independent States (former Soviet Union), Germany, New Zealand, Norway, and Spain.

SECTION I: PHOTOCOPY INFORMATION LISTED BY PUBLISHER

EXAMPLE

PUBLISHER	CLASS OF WORKS	ISBN PREFIX	A T	YEAR	BASE FEE	+PER PAGE	NR CA
1 Abson Books Acad de Cienci Med de Bilbao	2 All Works Books Serials	3 0-902920	4	5 All All	6 2.00	7 1.00 .20	8 5% 0% 0%

- 1 PUBLISHER.** An alphabetical listing of publishers that have granted authorization for an entire class of works (e.g., all works, etc.). Publisher names are listed in strict alphabetical order including first names and initials.
- 2 CLASS OF WORKS.** Classes of works that the publisher has registered. (Options are Books, Serials, or All Works.)
- 3 ISBN PREFIX.** A publisher's books are often uniquely identified by a single ISBN prefix.
- 4 A or T.** An "A" indicates authorization, for the year(s) and at the fee(s) indicated, under an Annual Authorizations Service (AAS) license only, and a "T" indicates authorization in the Transactional Reporting Service (TRS) only.
- 5 YEAR.** The publication year or years authorized. The following examples are offered:

"All"	The title is authorized, at the indicated fee(s) for all publication years.
"1987"	The title is authorized, at the indicated fee(s), for the publication year 1987 only.
"1985-1990"	The title is authorized, at the indicated fee(s), for the publication years 1985 through 1990.
- 6 BASE FEE.** If just a Base Fee is listed (+Per-Page column is blank), that is the fee for each copy of an article or chapter regardless of the number of pages.
No Chg.: indicates the publisher has granted authorization to photocopy at no charge. When reporting under the TRS, please report photocopying from No Chg. publications. Such a report creates a record of your compliance with the publisher's permission policy.
See Publication: In some cases publishers have set different fees for different articles within a journal. The article fee code, on the first page of each article, shows the fee.
- 7 +PER-PAGE FEE.** If just a +Per-Page fee is listed, count the number of pages in the article or chapter and multiply that number by the +Per-Page fee. That is the fee for each copy. **If the title lists a Base Fee and a +Per-Page fee, count the number of pages in the article or chapter, multiply that number by the +Per-Page fee and add the resulting amount to the Base Fee. This is the total royalty fee for each copy.**
- 8 NRCA.** (Applicable to AAS only, for license calculation purposes.) A "Non-Reportable Copying Allowance" is specified by some publishers to **discount** for copies which might be considered fair use or otherwise royalty free under U.S. Law.

SECTION II: PHOTOCOPY INFORMATION LISTED BY TITLE

CCC ID	PUBLICATION TITLE	STANDARD NUMBER	A T	YEAR	BASE FEE	+PER PAGE	PUBLISHER	NR CA
1	2	3	4	5	6	7	8	9
82796	Sensor Trends International	0950-2653	A T	-A -A	1.00 1.00	.10 .20	I F S Intl Ltd	6%
82786	Sociolinguistics Newsletter	0049-1217		-1982	.25	0.00	Foris Publications	0%

- 1 CCC ID.** Each title is identified by a unique CCC ID number, assigned to expedite processing in the Transactional Reporting Service.
- 2 PUBLICATION TITLE.** An alphabetical listing of publication titles authorized for photocopying.
- 3 STANDARD NUMBER.** The full standard number is the publication's ISSN, ISBN, or STRN. Where a standard number is not available, CCC has used the Library of Congress (LC) number. Where an LC number was not available, CCC has assigned a unique 8-digit number always beginning with "7".
- 4 A or T.** If this column is **blank**, the title is authorized, for the year(s) and at the fee(s) indicated, under both an Annual Authorizations Service (AAS) license and the Transactional Reporting Service (TRS). A "A" indicates authorization under an Annual Authorizations Service license only and a "T" indicates authorization in the Transactional Reporting Service only.
- 5 YEAR.** The publication year or years authorized at the indicated fee(s). The following examples are offered:
 - "1987-1991" The title is authorized, at the indicated fee(s), for publication years 1987 through 1991.
 - "1987-A" The title is authorized, at the indicated fee(s), from publication year 1987 through the current (or "Active") year of the publication.
 - "-1985" The title is authorized, at the indicated fee(s), for all publication years through 1985.
 - "-A" The title is authorized, at the indicated fee(s), for all publication years through the current (or "Active") year, with the exception of any other years specifically listed for which the fees may differ.
 - "1990" The title is authorized, at the indicated fee(s), for the publication year 1990 only.
- 6 BASE FEE.** If just a Base Fee is listed (+Per-Page column is blank), that is the fee for each copy of an article or chapter regardless of the number of pages.

No Chg.: indicates the publisher has granted authorization to photocopy at no charge. When reporting under the TRS, please report photocopying from No Chg. publications. Such a report creates a record of your compliance with the publisher's permission policy.

See Publication: In some cases publishers have set different fees for different articles within a journal. The article fee code, on the first page of each article, shows the fee.

7 **+PER-PAGE FEE .** If just a +Per-Page fee is listed, count the number of pages in the article or chapter and multiply that number by the +Per-Page fee. That is the fee for each copy.
If the title lists a Base Fee and a +Per-Page fee, count the number of pages in the article or chapter, multiply that number by the +Per-Page fee and add the resulting amount to the Base Fee. This is the total royalty fee for each copy.

8 **PUBLISHER.**

9 **NRCA.** (Applicable to AAS only, for license calculation purposes.) A "Non-Reportable Copying Allowance" is specified by some publishers to **discount** for copies which might be considered fair use and are otherwise royalty free under U.S. Law.

TRS RIGHTS TO PHOTOCOPY

Individuals and organizations may reproduce articles* from the publications included in this catalog by reporting those copies and paying the publishers' fees through CCC. Authorizations are limited to personal or internal use or, unless otherwise indicated in the permissions policy statement printed in the publication, to the personal or internal use of specific clients. **Reproduction by photocopy and microform machine, as well as the facsimile transmission of copies ("faxing" or "telecopying"), is included in the system of authorizations.**

The TRS system of authorizations expressly does not include:

- input of works into computerized databases (or any other electronic/digital form)
- reproduction for the creation of new collective works, such as republishing**
- reproduction for public distribution, such as for advertising or promotion
- reproduction of an entire publication (cover-to-cover)
- reproduction for resale to the general public

Please obtain authorizations for the above uses directly from the publisher.

Many publications carry a *permissions policy statement*. The statement usually notifies readers that the publication is registered with CCC. These statements may incorporate "title specific" conditions established by publishers and their authors under which photocopying may be authorized.

Following is a sample statement which illustrates the scope of authorization for a specific title:

from FORBES, published by Forbes, Inc.

Where necessary, permission is granted by the copyright owner for those registered with the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, Mass. 01923 to photocopy articles owned by Forbes for a flat fee of \$1.50 per copy per article. Send payment to the CCC stating the ISSN (0015-6914), volume, and first and last page number of each article copied. Copying for other than personal use or internal reference or of articles or columns not owned by Forbes without express permission of Forbes or the copyright owner is expressly prohibited.

The responsibility rests with those making photocopies to determine the scope and limitations of each permissions policy statement. In those cases where a publication has no statement, readers can rely on the procedures in this catalog.

Photocopy Authorizations for Readers Outside the U.S.A.

CCC is one of twenty-five national Reproduction Rights Organizations (RROs) currently in operation throughout the world. Each RRO provides photocopy authorizations services similar to CCC's and copies made in these countries can be reported to the RRO. If there is no RRO in the country in which copying is being done, copying from titles in this catalog can be reported to CCC. For more information, contact CCC.

*The word "article" will be used in these pages to refer to any portion of a publication that is being copied (such as column, page, chapter, or any series of consecutive pages).

**CCC operates a separate Academic Permissions Service for collections of photocopies of copyrighted material for the academic community, often called "coursepacks." For information on titles and fees for the service, please contact CCC.

TRS REPORTING OPTIONS

The two log sheets provided on the following pages may be used for reporting photocopying activity under the TRS to CCC. These sheets may be removed and photocopied as needed.

The first log sheet is entitled "LOG SHEET FOR PHOTOCOPYING ACTIVITY FROM BLANKET PUBLISHERS AND RROs (Section I & III)". When specific publication titles reported from the Blanket and RRO publishers are not individually listed in Section II, CCC requires that specific title information be submitted. In these instances, CCC can only process permission and convey proper authorization when all required fields on the log sheet are complete.

When reporting specific titles from Section II, please verify that the year of publication of the title being reported is within the range of years listed. Also, verify the standard number, since it may change when a publication is sold. Instructions for reporting can be found on the reverse side of each log sheet.

The GROUP NAME field at the top of each log sheet is for your use. The field is optional, but you may find it useful in noting departmental, monthly, or other internal information.

The log sheets are provided for your convenience; however, photocopying can be reported in other ways. Many organizations use their own computerized log sheets. **It is also possible to report on electronic medium. Please contact your CCC account representative for information and specifications.**

For the upgraded status of publication titles and publishers not found in this catalog, contact CCC's TRS staff at (508) 750-8400.

NOTES:

1. Some publications registered with CCC still contain **fee codes**. The fee code may appear either at the front of the publication, below the permissions policy statement, or at the beginning of each article. It consists of the standard number, the last two digits of the publication year, and the per-copy fee. Fee codes appearing at the beginning of each article also contain article-specific data, such as the volume and issue date, the first-page number of the article, and the number of pages in the article. The fee code can be used for reporting photocopies to CCC.

2. A **service charge** of \$.25 will be applied to each transaction (not each copy) reported under the Transactional Reporting Service (TRS).

Environmental Impact Statements; Notice of Availability
Vol. 59, No. 189
59 FR 49925
Friday, September 30, 1994

AGENCY: ENVIRONMENTAL PROTECTION AGENCY (EPA)
DOC TYPE: Notices
NUMBER: ER-FRL-4715-7

WORD COUNT: 934

TEXT:

Responsible Agency: Office of Federal Activities, General Information (202) 260-5076 OR (202) 260-5075.

Weekly receipt of Environmental Impact Statements Filed September 19, 1994 Through September 23, 1994 Pursuant to 40 CFR 1506.9.

EIS No. 940388, Final EIS, FHW, NY, Long Island Expressway (I-495)/Seaford - Oyster Bay Expressway (NY-135) Interchange Project, {pg 49926} Improvements between Exit 43 South Oyster Bay Road to Exit 46 Sunnyside Boulevard, Funding and NPDES Permit, Town of Oyster Bay, Nassau County, NY, Due: October 31, 1994, Contact: Howard J. Brown (518) 472-3616

EIS No. 940395, Final EIS, AFS, CA, Hamm-Hasloe Reforestation Project, Implementation, Stanislaus National Forest, Groveland Ranger District, Tuolumne and Mariposa Counties, CA, Due: October 31, 1994, Contact: Herb Hahn (209) 962-7825

EIS No. 940396, Draft EIS, DOA, MD, Beltsville Agricultural Research Center, Construction of Office Complex, Site Selection, Prince George's County, MD, Due: November 14, 1994, Contact: Michael Sazonov (202) 720-2804

EIS No. 940397, Final Supplement, NOA, NC, VA, FL, Coral and Coral Reefs Fishery Management Plan, Updated Information, Amendment 2 of the Gulf of Mexico and South Atlantic, Due: October 31, 1994, Contact: Rolland A. Schmitten (301) 713-2239

EIS No. 940398, Draft EIS, FHA, WV, Spring Hills Subdivision Housing Project, Construction, Funding, Charlestown, WV, Due: November 14, 1994, Contact: Robert D. Lewis (304) 291-4248

EIS No. 940399, Draft EIS, FHW, MO, US 160 Improvements, US 60/Sunshine Street to the James River Freeway, Funding and COE Section 404 Permit, Greene County, MO, Due: November 14, 1994, Contact: Donald Newmann (314) 636-7104

EIS No. 940400, Final EIS, AFS/BLM/NOA, AK, Exxon Valdez Oil Spill Restoration Plan Programmatic EIS, Implementation, Prince William Sound, Gulf of Alaska, AK, Due: October 31, 1994, Contact: Rod Kuhn (907) 278-8012

The US Department of Agriculture's Forest Service, US Department of the Interior's, Bureau of Land Management and the US Department of Commerce's, National Oceanic and Atmospheric Administration are Joint Lead Agencies for this project.

EIS No. 940401, Draft EIS, BLM, AZ, Cypus Tohono Open Pit Mine Expansion Project, Plan of Operation Approval and Drilling Permit, Implementation, Tohono O'odham Nation, Papago Indian Reservation, Pinal County, AZ, Due: November 30, 1994, Contact: Paul J. Buff (602) 780-8090

EIS No. 940402, Draft EIS, AFS, MT, Running Wolf Timber Sales, Implementation, Lewis and Clark National Forest, Judith Ranger District, Stanford, Judith Basin County, MT, Due: November 14, 1994, Contact: Rick M. Abt (406) 566-2292

EIS No. 940403, Final EIS, FHW, WY, US 14/16/20 Highway Improvements, Cody to Yellowstone National Park Highway, Funding and COE Section 404 Permit, Shoshone National Forest, Park County, WY, Due: October 31, 1994, Contact: Galen Hesterberg (307) 772-2101

EIS No. 940404, Draft EIS, FHW, PA, PA-0322 (Section B01) Transportation Corridor, Improvements from PA-0655 to Mt. Pleasant, Funding and COE Section 404 Permit, Mifflin County, PA, Due: November 23, 1994, Contact: Manuel A. Mark (717) 782-3461

EIS No. 940405, Draft EIS, UAF, MA, Fort Devens Army Installation Disposal and Reuse, Implementation, Worcester and Middlesex Counties, MA, Due: November 14, 1994, Contact: Lewis Walker (703) 695-7824

EIS No. 940406, Final EIS, COE, LA, West Bank of the Mississippi River Hurricane Protection Plan, Implementation, east of the Harvey Canal, New Orleans, LA, Due: October 31, 1994, Contact: Brett Herr (504) 862-2495

EIS No. 940407, Draft EIS, FTA, CA, South Sacramento Corridor, Transit Improvements, Funding, Sacramento, Yolo, EL Dorado and Placer Counties, CA, Due: November 14, 1994, Contact: Walter W. Strakosch (415) 744-3116

EIS No. 940408, Final EIS, AFS, AK, Ushk Bay Timber Sale, Availability of Timber to the Alaska Pulp Long-Term Timber Sale Contract, Timber Sale and Road Construction, Implementation, Tongass National Forest, Chichagof Island, AK, Due: October 31, 1994, Contact: Michael J. Weber (907) 747-6671

EIS No. 940409, Final EIS, DOE, NV, Pinon Pine Coal-Fired Power Project, Construction, Operation and Maintenance, Funding, Tracy Power Station, Storey County, NV, Due: October 31, 1994, Contact: Suellen Van Ooteghem (304) 284-5443

Availability of the Final Environmental Impact Statement for the Exxon Valdez Oil Spill Restoration Plan

Vol. 59, No. 186

59 FR 49232

Tuesday, September 27, 1994

AGENCY: DEPARTMENT OF AGRICULTURE (USDA); Forest Service; DEPARTMENT OF THE INTERIOR (DOI); Office of the Secretary; DEPARTMENT OF COMMERCE (DOC); National Oceanic and Atmospheric Administration (NOAA); National Marine Fisheries Service

DOC TYPE: Notices

NUMBER: FES 94-30

DATES: It is anticipated that a decision will be made on the Restoration Program approximately 30 days after publication of the Notice of Availability by the Environmental Protection Agency in the Federal Register.

ADDRESSES: Copies of a Summary of the FEIS or copies of the FEIS itself are available on request from the Oil Spill Public Information Office, 645 G. Street, Anchorage, Alaska, 99501. Phone number (907) 278-8008 or within Alaska (800) 478-7745, outside Alaska (800) 283-7745. Copies also will be sent to public libraries in Anchorage, Juneau, Fairbanks, Valdez, Cordova, Kodiak, Homer, and Seward, Alaska.

ACTION: Notice of Availability of the Final Environmental Impact Statement for the Exxon Valdez Restoration Plan.

SUMMARY: On behalf of the Exxon Valdez Trustee Council, the Department of Agriculture, Forest Service announces the availability of the Final Environmental Impact Statement (FEIS) for the Exxon Valdez Oil Spill Restoration Plan. The responsible official for the preparation of the FEIS is the Regional Forester, Phil Janik. The Restoration Plan will establish management direction and guide all natural resource restoration activities covered by the civil settlement to the Exxon Valdez oil spill.

WORD COUNT: 661

TEXT:

SUPPLEMENTARY INFORMATION:

A. Introduction

On October 8, 1991, a federal court approved settlement between the State and Federal Governments and Exxon under which Exxon will pay \$1 billion in criminal restitution and civil damages to the governments. The State and Federal Trustees will receive \$900 million in civil damages from Exxon over the 10 years. The funds are to be used to restore to their pre-spill condition the natural resources and the services they provide, injured by the Exxon Valdez oil spill. This includes the restoration of any natural resources injured, lost or destroyed and the services provided by that resource or which replaces or substitutes for the injured, lost or destroyed resource and affected services. Restoration includes all phases of injury assessment, restoration, replacement, and enhancement of natural
