My draft chapter for Draft Restoration Plan - sent to John, ~~Jan~~ Dec. 17 I believe.

Also included cover of FAX to Marty.

I assume this should be reviewed by Marty before final use?

Ray - do you want me to bring this on a diskette on Monday??

MESSAGE:

October 30, 1992

John Strand  
Chair  
Restoration Planning Work Group

John;

Here's my outline. L. J. Evans is reviewing it today and may suggest changes.

One of the problems I had in writing this is that it should reflect some decisions that are yet to be made on how public information and participation will be done. Both the Public Participation Working Group and the Restoration Team will have to meet, make some decisions, and review the section I write before it can be proposed.

The other clarification I need is from you - what is the real date by which you want a section from me. I realize this is not the most critical chapter - does that bump the due date into December? It does not make a big difference to me if we can get the review mentioned in the previous paragraph done.

Thanks, John.

Peg Kehrer

## OUTLINE - Peg Kehrer, 10/30/92

## Restoration Plan section on Public Participation/Public Education

## I. Introduction

A. How public information and public education programs and public participation efforts are related

B. Goals of public information and public education efforts

1. As first step to public involvement

2. To inform the public so that public input will be "meaningful", defined as timely and clear to decisionmakers.

3. To inform the public of changes needed in their use of recovering resources. (Needs short sections which refer to particular alternatives - may need to be written after alternatives are finalized.)

C. Goals of public participation

1.

2.

3.

II. Public participation is being guided by these documents:

A. settlement document - cite the lines

B. NEPA

C. Federal Advisory Committee Act

D. Alaska "Open Meetings Act"

E. Americans with Disabilities Act

F. Some decisions by the Trustee Council

. list major decisions which relate

III. Major Strategies for public information and participation and their brief histories:

A. Public Information Programs

1. DOL/DOJ restrictions and past history, current status

Peg Kehrer - Restoration Plan Outline 10/30/92

2

2. OSPIC

- a. history of work
- b. description of collection
- c. commitment to continued access to collection, to national access, to ADA

3. Natural resource damage reports

- a. Current status
- b. Schedule of future final reports

4. Administrative record of trustee, restoration program actions

- a. Contents
- b. How to access

5. Periodic newsletters

6. Educational efforts linked to particular restoration projects, e.g. public service announcements or instructional videos informing resource users how to reduce impact on a particular recovering resource

7. ADA compliance

- a. Written and non-written materials
- b. Procedure for requesting accommodation and for complaints

B. Formal solicitation of written comments from the public

1. Past comment periods:

- a. Yearly Work Plans - 1989 through 1993
- b. Restoration Framework document
- c. Occasional documents:

1. Supplement to Restoration Framework document

2. Plan for nomination and selection of members of the Public Advisory Group

2. Future opportunities for comment

(This will follow what is outlined in sections which come before this section in the Plan - emphasis on how public comment periods fit in timelines and on what mechanisms will be used.)

(Should EIS process be mentioned here in Draft Restoration Plan? - I am unsure of timing, exactly.)

a. Annual work plans

- solicit ideas from public
- take comments on proposed draft plans

b. Decisions on funding mechanisms, e.g. endowments, multi-year funding, contracting v. in-house work

c. Annual reports on restoration progress and results of monitoring

d. Amendments to the Restoration Plan

e. Decision to end restoration program

C. Other methods for public participation

1. Direct communication with Trustee Council (and RT??) members. How letters will be responded to.

2. Public meetings

1. Trustee Council meetings - public comment periods
2. Public Advisory Group meetings
3. Meetings in oil spill-affected communities
4. Use of teleconference system

3. Symposia and workshops

1. February 1993 Oil Spill Symposium
2. Workshops on particular restoration issues

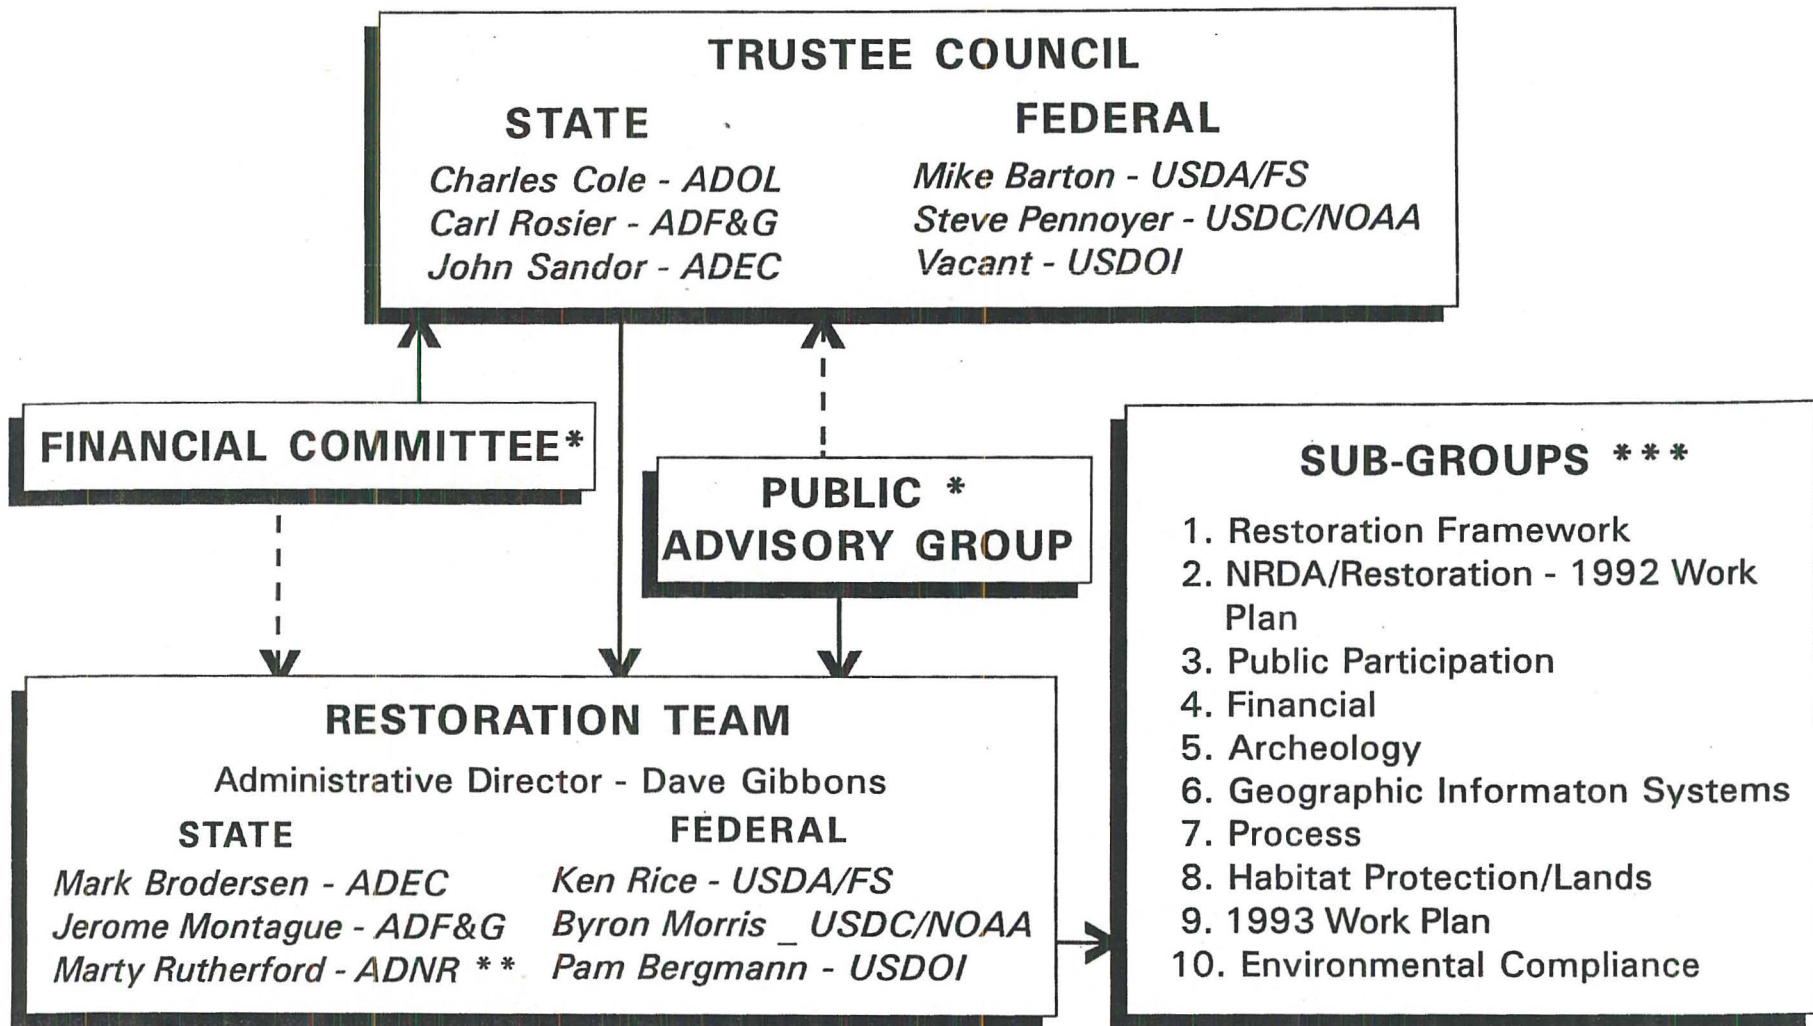

IV. Public Advisory Group

- A. Origins and history of formation
- B. Purpose as defined in charter
- C. Methods of operation
- D. Accomplishments to date
- E. Members selected in 1992 and their terms

# EXXON VALDEZ OIL SPILL

## TRUSTEE COUNCIL RESTORATION ORGANIZATION

\* Specific members have not been indentified yet.

\*\* Designee for the Department of Law.

\*\*\* Sub-Groups are established and disbanded as needed. Tasks and personnel listing are enclosed.
