

OIL SPILL FOOTAGE  
TAPE FORMAT

## Using and Copying Oil Spill Video Footage

The collection of video footage in this index is in VHS format and may be checked out, used in the library, or obtained through interlibrary loan.

Most tapes, but not all, are public domain footage and may be copied without violating copyright. *Copyright compliance is the responsibility of the user, not the library.*

When using footage copied from these VHS tapes, please provide the following credit line:

"Footage provided courtesy of  
Alaska Resources Library & Information Services."

Broadcast quality copies of this footage are available in a variety of formats for a fee at the Alaska State Archives. When requesting footage from the archives, please provide the Tape Number of the video, NOT the VID number. The VID number is the ARLIS call number and means nothing to the archives staff. When using footage obtained from the Alaska State Archives, please credit the archives as the source. Contact the archives at:

Alaska State Archives  
111 Willoughby Avenue  
Juneau, AK 99811  
907.465.2270  
908.465.2465 fax  
[archives@eed.state.ak.us](mailto:archives@eed.state.ak.us)

For further assistance,  
please see an ARLIS reference librarian.

Tape Number: 0002 VID-~~000~~42  
Subject Detail: [Tape 1 of 2] VHS footage Shot by ADEC employee, Dan Lawn, of the Exxon Valdez tanker aground on Bligh Reef. Night boarding of tanker, on board tanker during daylight hours, oil bubbling up from side of vessel, Exxon Baton Rouge arriving - pumping oily ballast into open water, dispersant test, booming tanker, and high winds spread oil.
