

***Exxon Valdez* Oil Spill Video Collection**

Index

Index created by Alaska Resources Library and Information Services using information on tapes, information from log sheets distributed with tapes, and the index provided by the Alaska State Archives.

Using and copying oil spill video footage:

Most, but not all, tapes in this collection are public domain footage and may be copied without violating copyright. *Copyright compliance is the responsibility of the user, not the library.*

Many of these tapes have been digitized and are available through ARLIS in DVD format. They are located in the EVOS Special Collection under call numbers beginning with "EVOS DVD VID" for in-library use.

When using footage copied from these VHS tapes, please provide the following credit line:

"Footage provided courtesy of Alaska Resources Library & Information Services."

Broadcast quality copies of much of this footage are available in a variety of formats for a fee at the Alaska State Archives. When requesting footage from the archives, please provide the Tape Number of the video, NOT the VID number. The VID number is the ARLIS call number and is not used by the State Archives. Contact the archives at:

Alaska State Archives
