

JAY S. HAMMOND, GOVERNOR

WATER RESOURCES BOARD

323 E. 4TH AVENUE
ANCHORAGE, ALASKA 99501

March 13, 1981

Geron Bruce
United Fishermen of Alaska
197 S. Franklin
Juneau, Alaska 99801

Dear Geron:

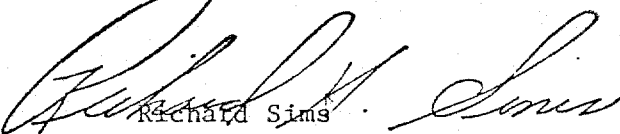

Thank you for the presentation you made at the March meeting of the Alaska Water Resources Board.

The Board was particularly interested in your discussion of U. S. Borax's plans for a molybdenum mine close to Ketchikan. We would appreciate you staying in touch with us as the mining plans progress to let us know whether your concerns are being realized.

We will be meeting again on July 15, 16 and 17 in Sitka. If you are available at that time we would be pleased to talk with you again. Otherwise, we will notify you of future meeting dates.

We look forward to working with you and your organization more in the future.

Sincerely,

Richard Sims
Chairman
