Representative Sam Cotten  
Chairman, Rules Committee  
House of Representatives  
Pouch "V"  
Juneau, Ak 99811

Dear Sir:

Enclosed is Alaska Water Resources Board Resolution 79-2, stating our opposition to committee substitute for House Bill 172 which gives local governments pollution disposal control without creating minimum standards. As stated in the resolution, in general the Board favors local control but feels that at this time local governments are not prepared to administer pollution control programs without some minimum standards.

We respectfully request that Resolution 79-2 be included in the legislative record. Thank you for your attention.

Sincerely,

Richard Sims, Chairman

Dear Sir:

Enclosed is Alaska Water Resources Board Resolution 79-3 stating our opposition to House Bill 68 which transfers the responsibilities of the Village Safe Water Act from ADEC to ADOT & PF. The Board feels that because ADEC has a working program and ADOT & PF is not prepared nor desires to take over the duties of the Village Safe Water Act, the goals and objectives of the Act would be better fulfilled by letting ADEC remain the administering agency.

We respectfully request that Resolution 79-3 be included in the legislative record. Thank you for your attention.

Sincerely,

Richard Sims, Chairman
