Richard F. Dworsky
Bureau of Land Management
701 C Street, Box 13
Anchorage, Alaska 99513

Dear Mr. Dworsky:

At a recent Alaska Water Resources Board meeting in Soldotna, Linda Dwight made a request for the Board to review a draft of a Summary of Alaska Water Resource Research Needs that is being developed by a committee of the Alaska Council of Science and Technology.

The Water Resources Board would be pleased to review your summary.

We will be meeting again on April 14, 15 and 16 in Juneau; however, Linda stated the summary may not be finished by then. We will meet again in September. You may wish to submit a copy for our review prior to our September meeting. Our staff in the Water Management Section will be able to assist you in getting copies to the Board members.

Thank you for this opportunity to be of service to your Council.

Sincerely,

RICHARD H. SIMS, Chairman
Alaska Water Resources Board
