Ronald G. Hansen. P.E.  
Senior Engineer  
Kramer, Chin & Mayo, Inc.  
124 West Fifth Street  
Juneau, Alaska 99801

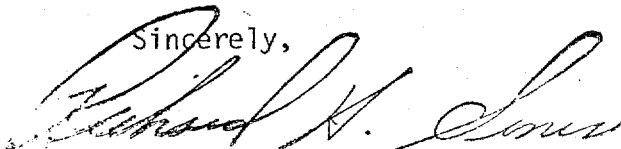

Dear Mr. Hansen:

On behalf of the Water Resources Board, I'd like to thank you for the suggestions you made regarding future meeting agenda items. We have a strong interest in hydropower development in the state and intend to explore the longer-term ramifications of hydroelectric development in relation to water quality.

We appreciate your listing of agencies involved in program coordination on hydroelectric projects. Our staff aides in the Department of Environmental Conservation and Natural Resources monitor the activities of the named agencies and advise us of developments affecting water quality.

Again, we thank you for your interest in the Water Resource Board transactions and hope you will not hesitate to make any suggestions you think would help us be most responsive to public need.

Sincerely,

Richard H. Sims  
Chairman
