Dear Mr. Heimbuch:

On behalf of the Water Resources Board, I'd like to thank you for your informative description of aquaculture activities. We welcome information such as that you presented during our public hearing.

We were interested in your discussion of water flow rate and needs in relation to the planned Eklutna hatchery. We try to act as a coordinating body in ensuring that various water needs are compatible. We suggest you discuss your future requirements with any agencies involved in water allocation to determine whether your goals are compatible.

If we can be of any further assistance, please don't hesitate to contact us.

Sincerely,

Richard H. Sims  
Chair
