Re: State Land Disposal

Dear Mo,

At our August 7th and 8th Board meeting, concern was expressed over water quantity, quality and disposal on these lands that are being sold to the public.

We are sure that you have considered this, but wish to pass on the Boards previous resolution regarding the land disposals:

In order to best protect the public, all known information concerning water or disposal should be included in the sale document. If no information is known, that should also be stated.

Thank you for your presentation in Fairbanks.

Please don't hesitate to call on us if we can be of any assistance.

Sincerely,

Richard H. Sims
