

STATE OF ALASKA

JAY S. HAMMOND, GOVERNOR

WATER RESOURCES BOARD

323 E. 4TH AVENUE
ANCHORAGE, ALASKA 99501
PHONE: (907) 279-5577

August 7, 1981

Mr. Curtis McVee
State Director-Bureau of Land Management
U. S. Federal Building
700 C Street
Anchorage, Alaska 99510

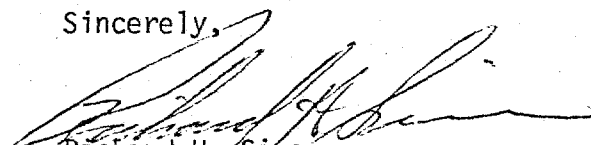

Dear Mr. McVee:

During the last two years, the Alaska State Water Resources Board has had the opportunity to hear from Mr. Richard Dworsky concerning the Southcentral Alaska Water Resources Study (Level B). His ability to pick up the project mid-show and see it through to completion is admirable. We were pleased with his briefings and status reports. This, along with his general observations, has been most useful to the Water Resources Board.

The Board would like to especially thank Dick for his time and effort to prepare papers that reflect the role and actions of this Board and State agencies dealing with water resources. For example, his preparation of some ideas on priority setting and coordination will be used by us in future planning activities.

The Board would like to take the opportunity to thank BLM as well as Dick and request that he continue to be available to the State Water Board. His candid observations and knowledge can certainly assist this Board and the State of Alaska.

Sincerely,

Richard H. Sims
Chairman
