JAY S. HAMMOND, Governor

## WATER RESOURCES BOARD

August 21, 1979

Colonel Lee Nunn  
U.S. Army Corps of Engineers  
Alaska District  
P.O. Box 7002  
Anchorage, AK 99510

Dear Colonel Nunn:

At its August 8th meeting in Fairbanks the State Water Resources Board heard testimony from Ms. Terry Reichardt of the Fairbanks Environmental Center regarding the Susitna hydroelectric project. In addition to a variety of technical and economic concerns Ms. Reichardt voiced regarding the project, there was considerable concern expressed that the Fairbanks Environmental Center was not receiving timely notices or cover letters containing comment instructions for draft reports.

As a courtesy the Board pledged that we would convey this concern to your office as well as to the Alaska Power Authority so that appropriate action could be taken. I wish to add that the Board members do continue to receive a large amount of material on the Susitna project and I am not aware of any similar concerns on the part of Board members.

Very truly yours,

  
Richard H. Sims  
Chairman

cc: Ms. Terry Reichardt  
Fairbanks Environmental Center  
1895 Pioneer Way  
Fairbanks, AK 99701

Eric Yould, Director  
Alaska Power Authority
