

JAY S. HAMMOND, GOVERNOR

WATER RESOURCES BOARD

323 E. 4TH AVENUE
ANCHORAGE, ALASKA 99501

279-5577

December 18, 1980

Dr. Ross Schaff, Director
Division of Geological and Geophysical Surveys
3001 Porcupine Drive
Anchorage, AK 99501

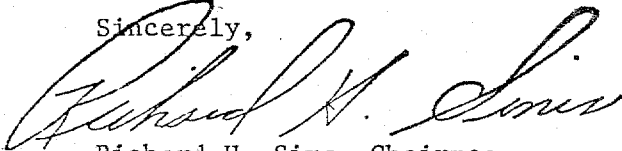

Dear Ross:

Thank you for your presentation detailing the activities of the Division of Geological and Geophysical Surveys. Of particular interest to the Board was the Five Year Capital Improvement Program for hydrological data collection. We feel the concept has much merit.

At the meeting, we heard the program described in only general terms. Could you please send us a more specific description of the data collection program identifying how the program will be split between surface and ground water and, under the surface water program, which rivers and streams will be included.

We appreciate your attention to this matter and again, thank you for your presentation.

Sincerely,

A handwritten signature in dark ink, appearing to read "Richard H. Sims", written in a cursive style.

Richard H. Sims, Chairman
