

ALASKA - 11 AAC 93.040(d) – Standard water use quantities

- (1) single-family home, fully plumbed: 500 gpd;
- (2) single-family home, partially plumbed: 250 gpd;
- (3) single-family home, unplumbed: 75 gpd;
- (4) duplex or triplex: 1,000 gpd;
- (5) four-plex and larger housing: 250 gpd per unit;
- (6) mobile home park: 250 gpd per trailer;
- (7) motel or resort: 150 gpd per room;
- (8) work camps: 50 gpd per person;
- (9) cattle, other than dairy cows: 12 gpd per animal;
- (10) dairy cows: 35 gpd per animal;
- (11) horses: 15 gpd per animal;
- (12) sheep: 2 gpd per animal;
- (13) goats: 3 gpd per animal;
- (14) hogs: 4 gpd per animal;
- (15) poultry or rabbits: 0.5 gpd per animal;
- (16) dog (kennels): 1.0 gpd per animal;
- (17) domestic irrigation: 250 gpd per 10,000 sq.ft.; and
- (18) commercial irrigation: 0.5 acre feet per acre per year

NOTE: These are standard, suggested use quantities. DNR will work with an applicant to determine an appropriate amount of water to claim. For instance, the quantity of water for a visitor use facility might depend not only on the number of visitors daily, but what kinds of services are provided (showers, kitchens, outside lawn irrigation, etc.).
