AFFILIATION Alaska Dept. Fish & Game 745-5015 DATE 7-24-84
HARZA-EBASCO REPRESENTATIVE Charles Elliott PHONE NUMBER ext. 327

COPIES TO _____

SUBJECT Number of moose involved in auto collisions on the Parks Highway.

NOTES The number of moose involved with vehicle collisions will vary with the severity of the winter. Last winter (1983-84) 25-30 moose were killed in Game Mgt. Unit 14B (highway from Willow to Talkeetna), this was considered a below normal estimate due to mild winter conditions. In the severe winter of 1978-79, 171 moose were killed by autos in unit 14B, during the mild winter of 1982-83 22 moose were killed.

35-50 moose were estimated to be the average number of animals killed due to moose-auto collisions in the course of a year in unit 14B.

Must note along highway in 14B area get intensive moose use due to wintering concentrations of animals that gather along the Susitna River.
