PERSONNEL COMMUNICATION REPORT

PERSON CONTACTED:

Charles D. Craddock  
Engineering Operations Manager  
Harza-Ebasco Susitna Joint Venture  
711 H Street  
Anchorage, AK.

DATE 9-84

Contacted By: Charles Elliott

SUBJECT: Projected traffic volumes on the project access roads. Conversation in regard to Wildlife Issue Paper W-10.

Craddock reported the peak construction season would be about mid-April to mid-October. During the first 2 years of the project (not peak construction year) traffic flows will probably be 10% of peak construction year flows. After the first 2 years, underground work will start and traffic flows should be about 40% of peak construction year traffic.
