TABLE A-1.3

Type of Variable Indicator

Indicator	Definition	
A	Capacity (housing units and capacity of facilities and services in impact area communities)	
B	Baseline Scenario	
C	Construction Phase	(D+E)
D	Direct Effects of Construction Phase	
E	Indirect and Induced Effects of Construction Phase	
F	Operations Phase	(G+H)
G	Direct Effects of Operations Phase	
H	Indirect and Induced Effects of Operations Phase	
I	Direct Effects of Project including both the	
J	Direct Total	(I+B)
K	% Change of Direct Total over Baseline	(I/B*100)
L	Vacant Units or Excess (Insufficient) Capacity (under Direct Total Demand)	(A-J)
M	Vacancy Rate (under Direct Total Demand)	(L/A*100)
N	Indirect Effects of Project including both the Construction and Operations Phases	(E+H)
O	Indirect Total	(N+B)
P	Total Effects of Project including both the Construction and Operations PHases	(C+F)
Q	Gravity Model Statistics and Variables	
R	% Change of Indirect Total Over Baseline	(N/B*100)
S	Not used at this time	
T	Total Baseline + Project	(B+P)
U	% Change of Total over Baseline	(P/B*100)
V	Vacant Units (under with-project demand)	(A-T)
W	Vacancy Rate (under with-project demand)	(V/A*100)
Z	Statistics or Assumptions

Table A-1.4

Three Character Variable List
Economic-Demographic Module*

Variable Characters	Definition
ADJ	Adjustment factors for ISER control totals
AEM	Adjusted enclave multiplier for operations workers
AHO	Households before adjustment for control total
AMH	Out-Migrating households for married relocaters
ANR	Secondary employment before adjustment for control total
AOM	Out-migrating population associated with married workers adjusted for retention
AOS	Out-migrating population associated with single workers adjusted for retention
APO	Population before adjustment for control total
ARE	Constrained number of relocaters
ASA	Adjusted nonlocal share of construction work force that are admin./engineers
ASH	Out-migrating households for single relocaters
ASL	Adjusted nonlocal share of construction work force that are laborers
ASS	Adjusted nonlocal share of construction work force that are semi-skilled/skilled workers
ATC	Gravity model attraction factor for commercial services
ATH	Gravity model attraction factor for housing availability
ATL	Gravity model attraction factor for land availability
ATP	Gravity model attraction factor for diversity of public facilities and services
ATR	Gravity model attraction factor for recreation opportunities
ATS	Gravity model attraction factor for school quality
AWV	Family village units adjusted for units going to operations workers
BAM	Scaling factor calculation for Anch. married relocaters
BAS	Scaling factor calculation for Anch. single relocaters
BEX	Exponent for scaling factor calculation
BFM	Scaling factor calculation for Fair. married relocaters
BFS	Scaling factor calculation for Fair. single relocaters
BOM	Scaling factor calculation for Out-of-State married relocaters
BOS	Scaling factor calculation for Out-of-State single relocaters
BSF	Scaling factor in gravity model

Table A-1.4 (continued)

Three Character Variable List
Economic-Demographic Module*

Variable Characters	Definition
BSM	Scaling factor calculation for other Alaska married relocaters
BSS	Scaling factor calculation for other Alaska single relocaters
CON	Gravity model capacity constraint
DCE	Devil Canyon employment
DEL	Laborers by original residence for aggregated areas
DES	SS/S workers by original residence for aggregated areas
DEA	Adm./Eng. workers by original residence for aggregated areas
DIF	Difference variables for comparing Susitna Socio-economic model totals to ISER MAP model control totals
DIM	Direct married in-migrating construction workers
DIN	Direct in-migrating construction workers
DIS	Travel time
DMP	Married direct in-migrating construction workers
DNR	Number of nonrelocaters by area
DPW	Dependents per operations worker
DRC	Number of relocaters
DSI	% of income that is disposable
DSP	Single direct in-migrating construction workers
EAA	Number of nonlocal Adm./Eng. workers after 1st adjustment for relocation
EAE	Total professional workers
EAL	Number of nonlocal construction laborers after 1st adjustment for relocation
EAO	Total Adm./Eng. from out-of-state
EAR	Total Adm./Eng. from Railbelt
EAS	Number of nonlocal SS/S workers after 1st adjustment for relocation
EAS	Total Adm./Eng. from other Alaska
EAT	Admin./Eng. worker by trade
EAV	Number of Adm./Eng. workers residing in village
ECT	Employment control total from ISER MAP model
EHA	Employment hiring assumption
ELB	Total construction laborers
ELO	Total laborers from out-of-state
ELR	Total laborers from Railbelt
ELS	Total laborers from other Alaska
ELT	Laborers by trade
ELV	Number of laborers residing in village
EMP	Employment
ENR	Employment by new residence
EOR	Employment by original residence
EPT	Total direct employment

Table A-1.4 (continued)

Three Character Variable List
Economic-Demographic Module*

Variable Characters	Definition
EPW	Employment by place of work
ERA	Railhead Admin./Engineers
ERL	Railhead laborers
ERS	Railhead Semi-skilled/Skilled workers
ESK	Total Semi-skilled/Skilled workers
ESO	Total SS/S workers from out-of-state
ESR	Total SS/S workers from Railbelt
ESS	Total SS/S workers from other Alaska
EST	Semi-skilled/Skilled workers by trade
ESV	Number of SS/S workers residing in village
ETL	Number of nonlocal construction laborers after 2nd adjustment for relocation
ETS	Number of nonlocal SS/S workers after 2nd adjustment for relocation
ETA	Number of nonlocal Adm./Eng. workers after 2nd adjustment for relocation
EXP	Power function for travel time factor
HCT	Household control total from ISER MAP model
GEA	Operations workers residence assignment factor
HEA	Secondary operations workers residence assignment factors
HOH	Households
HSE	Housing Units
IMW	In-migrating jobs after adjustment for out-migration
IN1	Married Railbelt in-migrating workers adjusted for retention
IN2	Single Railbelt in-migrating workers adjusted for retention
IN3	Married in-migrating workers from outside Railbelt adjusted for retention
IN4	Single in-migrating workers from outside Railbelt adjusted for retention
INS	Income spent
INW	In-migrating Workers
IRM	Married Railbelt relocaters before adjustments for capacity constraints
JHH	Jobs per household for State
JRI	Jobs requiring in-migrants to fill
LCA	Local construction Adm./Eng. workers
LCL	Local construction laborers
LCS	Local construction SS/S workers
LRH	Local Cantwell railhead workers
LRN	Local railhead workers
LWA	Adm./Eng. workers by original residence
LWL	Laborers by orignal residence
LWS	SS/S workers by original residence

Table A-1.4 (continued)

Three Character Variable List
Economic-Demographic Module*

Variable Characters	Definition
MCT	Net population migration control total from ISER MAP model
MEN	Monthly employment
MES	Monthly share of construction employment
MIG	Net population migration
MPF	Railhead married proportion
MPN	Monthly payroll
MPO	Population associated with married relocaters
MRH	Married Cantwell railhead workers
MTL	Married transmission line workers
MTP	Married transmission line worker population at place of employment
MUL	Secondary employment multiplier
NRA	Number of nonrelocaters who are Adm./Eng. workers
NRH	Nonlocal Railhead workers
NRL	Number of nonrelocaters who are laborers
NRS	Number of nonrelocaters who are SS/3 workers
OCR	Occupancy rate
OFP	Overflow proportion
OJI	In-migrating jobs before adjustment for out-migration
OMP	Out-migrating population associated with married relocaters
OMR	Origin of married railhead workers
OMT	Origin of married transmission line workers
ORF	Retention rate (1 - outmigration rate) for secondary workers
ORH	Origin of Devil Canyon Railhead workers
OSP	Out-migrating population associated with single workers
OSR	Origin of single Railhead workers
OST	Origin of single transmission line workers
OTE	Other employment
OTL	Origin of transmission line workers
OVF	Overflow--number of relocaters that cannot be accommodated
PAE	Payroll for total professional workers
PCT	Population control total from ISER MAP model
PLB	Payroll for total laborers
PMH	Persons per household for married inmigrating construction workers
PNM	Peak married non-Railbelt relocaters
PNS	Peak single non-Railbelt relocaters
POJ	Peak number of jobs requiring in-migrants
POM	Peak out-migrating population associated with married workers
POP	Population

Table A-1.4 (continued)

Three Character Variable List
Economic-Demographic Module*

Variable Characters	Definition
POS	Peak out-migrating population associated with single workers
PPH	Person per household
PRA	Remaining nonlocal Adm./Eng. workers after village assignment
PRL	Remaining nonlocal laborers after village
PRM	Peak married Railbelt relocaters
PRS	Remaining nonlocal SS/S workers after village assignment
PRS	Peak single Railbelt relocaters
PSK	Payroll for total Semi-skilled /Skilled workers
PSH	Persons per household for Single in-migrating construction workers
PTS	Propensity to spend
QAM	Weights on attraction factors for Anch. married relocaters
QAS	Weights on attraction factors for Anch. single relocaters
QAT	Gravity model attraction factors by community
QFM	Weights on attraction factors for Fair. married relocaters
QFS	Weights on attraction factors for Fair. single relocaters
QOM	Weights on attraction factors for Out-of-State married relocaters
QOS	Weights on attraction factors for Out-of-State single relocaters
QSM	Weights on attraction factors for Other Alaska married relocaters
QSS	Weights on attraction factors for Other Alaska single relocaters
QWT	Gravity model weights by worker category
RAM	Relocaters-Anchorage married
RAS	Relocaters-Anchorage single
RCA	Number of relocaters who are Adm./Eng. workers
RCL	Number of relocaters who are laborers
RCS	Number of relocaters who are SS/S workers
RFM	Relocaters-Fairbanks married
RFS	Relocaters-Fairbanks single
RLA	Unique relocation multiplier for Adm./Eng. workers
RLC	Total relocaters by community
RLL	Unique relocation multiplier for laborers
RLM	Relocation Factors
RLS	Unique relocation multiplier for SS/S workers
RNM	Married non-Railbelt relocaters
RNS	Single non-Railbelt relocaters

Table A-1.4 (continued)

Three Character Variable List
Economic-Demographic Module*

Variable Characters	Definition
ROM	Relocaters out-of-state married
ROS	Relocaters out-of-state single
RRS	Single Railbelt relocaters
RRM	Married Railbelt relocaters
RSM	Relocaters-other Alaska married
RSS	Relocaters-other Alaska single
SAO	% Share of Adm./Eng. from out-of-state
SAR	% Share of Adm./Eng. from Railbelt
SAS	% Share of Adm./Eng. from other Alaska
SCF	Scaling factor sum
SEM	Percentage share of Anchorage or Fairbanks areas Employment; percentage share of Mat-Su Borough. Yukon-Koyukuk census area, or Valdez-Chitina-Whittier census division.
SLC	Percentage share of construction workers at census division level
SLO	Percentage share of laborers from out-of-state
SLR	Percentage share of laborers from Railbelt Region
SLS	Percentage share of laborers from other Alaska
SLW	% Share of construction workers at community level
SPF	Railhead single proportion
SPO	Population associated with single relocaters
SPP	Percentage share of Anchorage or Fairbanks subarea populations; percentage share of Mat-Su Borough, Yukon-Koyukuk census area, or Valdez-Chitina-Whittier census division
SRH	Single Cantwell railhead workers
SSE	Percentage share of secondary jobs going to in-migrants
SSO	Percentage share of SS/S workers from out-of-state
SSR	Percentage share of SS/S workers from Railbelt
SSS	Percentage share of SS/S workers from other Alaska
STL	Single transmission line workers
STP	Single transmission line Worker population at place of employment
TAM	Total attraction index for Anch. married relocaters
TAS	Total attraction index for Anch. single relocaters
TEM	Total direct employment
TFM	Total attraction index for Fair. married relocaters
TFS	Total attraction index for Fair. single relocaters
TLC	Transmission line workers
TLP	Transmission line worker residential alloc. factor
TMP	Transmission line worker married proportion
TOM	Total attraction index for out-of-state married relocaters
TOS	Total attraction index for out-of-state single relocaters

Table A-1.4 (continued)

Three Character Variable List
Economic-Demographic Module*

Variable Characters	Definition
TPM	Transmission line worker population associated with married workers
TPS	Transmission line worker population associated with single workers
TSM	Total attraction index for other Alaska married relocaters
TSS	Total attraction index for other Alaska single relocaters
UMP	Employment rate
UWA to UGA	Family units left after each round in the 2nd assignment procedure
UWV	Undistributed family village units after 1st assignment procedure
VAH	Vacant housing units
VLJ	Vacated local jobs
W1E	Watana first phase employment
W2E	Watana 2nd phase employment
WCA	Work camp attractiveness factors
WTC	Gravity model weight on commercial services
WTH	Gravity model weight on housing availability
WTL	Gravity model weight on land availability
WTP	Gravity model weight on diversity of public facilities and services
WTR	Gravity model weight on recreation opportunities
WTS	Gravity model weight on school quality
WVA	Family village units
ZEA	Employment by professional occupations
ZEL	Employment by unskilled trades
ZES	Employment by Semi-skilled/Skilled trades
ZIA	Payroll by professional occupations
ZIL	Payroll by unskilled trades
ZIS	Payroll by Semi-skilled/Skilled trades
ZMP	Married proportion
ZPL	Payrate by unskilled trades
ZPS	Payrate by Semi-skilled/Skilled trades
ZPA	Payrate by professional occupations
ZRL	Relocation multipliers for origin, marital status, & labor category
ZSP	Single proportion

Three Character Variable List
Public Facilities and Services Module*

Variable Characters	Definition
ADC	Average daily census for patient-days
AHU	Average hospital use rate
AWA	Average water standard per capita
BDN	Hospital beds
CPK	Per capita community park standard
CSW	Cumulative solid waste requirements
MIN	Minimum occupancy rate
NPK	Per capita neighborhood park standard
(A)PCL	Number of primary classrooms
(Z)PCL	Primary school children per teacher
PLY	Per capita playground standard
POL	Per capita police standard
PSC	Primary school children as % of total
PWA	Peak water standard per capita
SBN	Share of hospital bed need
(A)SCL	Number of secondary classrooms
(Z)SCL	Secondary school children per teacher
SCP	% of school children in population
SCW	% of school children per in-migrating worker
SEW	Per capita sewage standard
SSC	Secondary school children as % of total
SWS	Per capita solid waste standard
TCL	Total classrooms
TSC	Total school children
URB	Urban occupancy rate for hospitals

PRH	Port per capita revenue
PRT	Port revenue
PTD	School proportion of local property tax collections
PTH	Port per capita expenditures
PTP	Pupil transportation percent share of expenditures
PTR	Pupil transportation expenditures
PZA	Planning and zoning per capita expenditures
PZG	Planning and zoning expenditures
RDR	School debt reimbursement ratio to bonded indebtedness
REC	Recreation per capita expenditure
REG	Regular instruction expenditures
REP	Regular instruction percent share of expenditures
RMH	Road maintenance per capita revenue
RMI	Road maintenance per capita expenditure
RMM	Road maintenance revenue
RMR	Road maintenance expenditure
SAF	Service area fund transfer revenues
SAH	Service area property tax per capita
SAT	Service area property tax
SBG	State block grants
SBH	State block grant per capita revenue
SCH	Shared revenue to service area per capita
SDR	School debt reimbursement
SED	Special education percent share of expenditures
SFC	Sewer charges
SFD	Sewer fund interest revenue multiplier
SFH	Sewer charges per capita revenue
SFI	Interest and miscellaneous in sewer fund
SFP	State foundation revenue
SFU	State foundation per instructional unit
SGH	State general revenue per capita
SGR	State general fund contract revenue
SLF	Sanitary landfill expenditures
SLG	State legislative grants
SLH	Sanitary landfill per capita expenditures
SLT	Property tax for education
