Environmental Impact of WATER RESOURCES PROJECTS

LARRY W. CANTER

LEWIS PUBLISHERS, INC.

This document is copyrighted material.

Alaska Resources Library and Information Services (ARLIS) is providing this excerpt in an attempt to identify and post all documents from the Susitna Hydroelectric Project.

This book is identified as APA no. 3068 in the Susitna Hydroelectric Project Document Index (1988), compiled by the Alaska Power Authority.

It is unable to be posted online in its entirety. Selected pages are displayed here to identify the published work.

The book is available at call number TK1425.S8A23 no.3068 in the ARLIS Susitna collection.

CONTENTS

Chapter

1	INTRODUCTION.	1
	Objective and Scope of This Book.	1
	Organization of This Book	2
	Impacts of Water Resources Projects and Operations.	3
	Impacts of Types of Pollutants.	17
	Describing the Affected Environment	21
	Impact Prediction and Assessment.	25
	Methodologies for Impact Assessment and Decision-making	34
	Additional Issues and Information	39
	Summary	42
	Selected References	43
2	ENVIRONMENTAL IMPACT STUDIES FOR DAMS AND RESERVOIRS.	77
	Impact Identification	77
	Baseline Studies.	84
	Impact Prediction	88
	Qualitative Approach	89
	Simple Quantitative Approach	91
	Quantitative Approach with Multi-factor Models	96
	Impact Assessment	99
	Methodologies for Trade-off Analyses and Decision-making.	100
	Summary	103
	Selected References	104

Chapter

3	ENVIRONMENTAL IMPACT STUDIES FOR CHANNELIZATION PROJECTS.	111
	Impact Identification	111
	Impacts on Stream Flows.	111
	Impacts on Water Quality	112
	Impacts on Aquatic Ecosystems.	112
	Impacts on Terrestrial Ecosystems.	115
	Baseline Studies.	116
	Impact Prediction	116
	Qualitative Approach	117
	Quantitative Mathematical Model Approach	117
	Quantitative Physical Model Approach	117
	Impact Assessment	118
	Methodologies for Trade-off Analyses and Decision-making.	118
	Summary	119
	Selected References	119
4	ENVIRONMENTAL IMPACT STUDIES FOR DREDGING PROJECTS.	121
	Impact Identification	121
	Dredging Technology.	121
	Impacts on the Area Being Dredged.	123
	Impacts from Open Water Disposal	124
	Impacts from Land Disposal	125
	Baseline Studies.	126
	Impact Prediction	127
	Qualitative Approach	127
	Quantitative Mathematical Model Approach	128
	Quantitative/Qualitative Approach Based on Laboratory/Field Studies	128
	Impact Assessment	129
	Methodologies for Trade-off Analyses and Decision-making.	130
	Summary	131
	Selected References	132

Chapter

5	ENVIRONMENTAL IMPACT STUDIES FOR OTHER WATER RESOURCES PROJECTS.	135
	Irrigation Projects	135
	Major Flow-altering Projects.	136
	Land Creation Projects.	138
	Shoreline Projects.	139
	Summary	140
	Selected References	141
	APPENDIX A -- IMPACTS OF IMPOUNDMENT PROJECTS.	143
	APPENDIX B -- IMPACTS OF CHANNELIZATION PROJECTS	173
	APPENDIX C -- IMPACTS OF DREDGING PROJECTS	183
	APPENDIX D -- IMPACTS OF OTHER WATER RESOURCES PROJECTS.	197
	APPENDIX E -- IMPACTS OF NONPOINT SOURCES OF POLLUTANTS ON WATER ENVIRONMENT.	211
	APPENDIX F -- TRANSPORT AND FATE OF POLLUTANTS IN THE WATER ENVIRONMENT.	227
	APPENDIX G -- BASELINE STUDIES OF THE WATER ENVIRONMENT.	233
	APPENDIX H -- ENVIRONMENTAL INDICES AND INDICATORS	247
	APPENDIX I -- WATER QUANTITY/QUALITY IMPACT PREDICTION AND ASSESSMENT	255
	APPENDIX J -- BIOLOGICAL IMPACT PREDICTION AND ASSESSMENT.	273
	APPENDIX K -- ESTUARINE IMPACT PREDICTION AND ASSESSMENT	285
	APPENDIX L -- GROUND WATER, NOISE, CULTURAL, VISUAL AND SOCIO-ECONOMIC IMPACT PREDICTION AND ASSESSMENT.	293
	APPENDIX M -- METHODOLOGIES FOR TRADE-OFF ANALYSES AND DECISION-MAKING.	303
	APPENDIX N -- PUBLIC PARTICIPATION IN WATER RESOURCES PLANNING	317
	APPENDIX O -- IMPACT MITIGATION MEASURES	325

Chapter

APPENDIX P -- RELATED ISSUES, AND INFORMATION (ACID RAIN,
POST-EIS AUDITS, AND GENERAL REFERENCES) 331

INDEX. 347

LIST OF TABLES

Table

1	Summary of Selected Reference Materials	4
2	Summary of References on the Impacts of Impoundment Projects.	6
3	Summary of References on the Impacts of Channelization Projects.	11
4	Summary of References on the Impacts of Dredging Projects.	13
5	Summary of References on the Impacts of Other Water Resources Projects.	15
6	Summary of References on the Impacts of Nonpoint Sources of Pollutants on Water Environment.	18
7	Summary of References on the Transport and Fate of Pollutants in the Water Environment	21
8	Summary of References on Baseline Studies of the Water Environment	22
9	Summary of References on Environmental Indices and Indicators.	24
10	Summary of References on Water Quantity/Quality Impact Prediction and Assessment	25
11	Summary of References on Biological Impact Prediction and Assessment.	29
12	Summary of References on Estuarine Impact Prediction and Assessment.	31
13	Summary of References on Ground Water, Noise, Cultural, Visual and Socio-economic Impact Prediction and Assessment.	32
14	Summary of References on Methodologies for Trade-off Analyses and Decision-making.	34
15	Summary of References on Public Participation in Water Resources Planning.	37

Table

16	Summary of References on Impact Mitigation Measures	39
17	Summary of References on Related Issues and Information . .	40
18	Checklist of Potential Impacts from Impoundment Projects (U.S. Environmental Protection Agency, 1976b)	78
19	Checklist of Biophysical and Cultural Environment Factors for Impoundment Project (Canter and Hill, 1979)	84
20	Steps Related to Sampling Network Design (Sanders, 1980). .	87
21	Representative Rates of Erosion from Various Land Uses (U.S. Environmental Protection Agency, 1973).	92
