RIVER WATER QUALITY MONITORING

LEWIS PUBLISHERS, INC.

This document is copyrighted material.

Alaska Resources Library and Information Services (ARLIS) is providing this excerpt in an attempt to identify and post all documents from the Susitna Hydroelectric Project.

This book is identified as APA no. 3069 in the Susitna Hydroelectric Project Document Index (1988), compiled by the Alaska Power Authority.

It is unable to be posted online in its entirety. Selected pages are displayed here to identify the published work.

The book is available at call number TD370.C38 1985 in the ARLIS Susitna collection.

RIVER WATER QUALITY MONITORING

By Larry W. Canter

LEWIS PUBLISHERS, INC.

CONTENTS

Chapter

1	INTRODUCTION.	1
	Basic Information on Water Pollution and Quality.	1
	Typical Limitations of Water Quality Study Plans.	2
	Organization of Book.	3
	Selected Reference.	3
2	PRINCIPLES FOR PLANNING AND CONDUCTING WATER QUALITY STUDIES	5
	General Framework for Water Quality Studies	5
	Representative Sampling	8
	Analytical Quality Control.	10
	Delineation of Objectives	10
	Case Studies.	11
	Selected References	12
3	PRELIMINARY FIELD WORK.	15
	Field Reconnaissance.	15
	Uses of River Water	16
	Wastewater Sources.	21
	Preliminary Flow Balance.	21
	Selected References	21
4	SELECTION OF PARAMETERS TO BE MONITORED	23
	Hydraulic Parameters.	23
	Water Quality Parameters.	28

Chapter

	Biological Parameters	42
	Selected References	57
5	LOCATION OF SAMPLING STATIONS AND FREQUENCY OF SAMPLING . .	63
	Desirability of Representative Sampling	63
	Site Selection.	64
	Biological Stations	65
	Basic and Auxiliary Stations.	66
	Principles for Determining Sampling Frequency	67
	Number of Samples	67
	Selected References	68
6	SAMPLE COLLECTION AND ANALYSES.	69
	Sampling Equipment.	69
	Sampling Depth.	75
	Field Notes	77
	Safety Precautions.	77
	General Laboratory Planning	78
	Mobile Laboratory Planning.	79
	Laboratory Safety	80
	Selected References	80
7	DATA ANALYSIS AND PRESENTATION.	83
	Data Storage and Processing Systems	83
	Data Interpretation	83
	Water Quality Indices	84
	Report Outline.	93
	General Report Writing Considerations	94

Chapter

Selected References	95
APPENDIX A--SUMMARY OF NETWORK DESIGN PROCEDURES (Abstracted from Sanders, 1980).	97
APPENDIX B--GENERAL MONITORING PLANNING CONSIDERATIONS	109
APPENDIX C--QUALITY ASSURANCE PROGRAM PLANNING (Abstracted from U.S. Environmental Protection Agency, 1980).	117
APPENDIX D--CASE STUDIES OF WATER QUALITY MONITORING	123
APPENDIX E--ANALYTICAL TECHNIQUES FOR WATER QUALITY PARAMETERS	127
APPENDIX F--BACTERIOLOGICAL WATER QUALITY MONITORING	139
APPENDIX G--BIOLOGICAL MONITORING.	145
APPENDIX H--LOCATION OF WATER QUALITY MONITORING STATIONS (Abstracted from Sanders, 1980).	151
APPENDIX I--AUTOMATIC SAMPLING AND REMOTE SENSING.	157
APPENDIX J--WATER QUALITY AND BIOLOGICAL INDICES	165

LIST OF TABLES

Table

1	Steps Related to Sampling Network Design (Sanders, 1980) . .	8
2	References on General Monitoring Planning Considerations . .	9
3	Objectives for Studying Water Quality at a Single Point (Kittrell, 1969)	11
4	Objectives for Studying Water Quality at Related Points (Kittrell, 1969)	11
5	References on Case Studies of Water Quality Monitoring . .	12
6	Stream Quality Requirements for Public and Private Drinking Water Supplies (Oklahoma Water Resources Board, 1979)	17
7	Summary of Specific Quality Characteristics of Surface Water that Have Been Used as Sources for Industrial Water Supplies (Canter, 1977)	20
8	Categories of Water Use (Kittrell, 1969)	20
9	Selection of Parameters for River Water Quality Surveys (IHD-WHO Working Group on the Quality of Water, 1978)	30
10	Concentrations of Conventional Pollutants Found During a Screening Study in Petroleum Refining Wastewater (Canter, 1981)	29
11	Concentrations of Toxic Pollutants Found During a Screening Study in Petroleum Refining Wastewater (Canter, 1981)	31
12	Physical Water Quality Parameters	34
13	Inorganic Water Quality Parameters	35
14	Nutrient Water Quality Parameters	36
15	Organic Water Quality Parameters	36
16	Additional Organics Which May Be Found in Petroleum Refinery Effluents (Canter, 1981)	37

Table

17	References on Analytical Techniques for Water Quality Parameters.	39
18	References on Bacteriological Water Quality Monitoring. . .	41
19	Classification of Clean Water and Pollution Algae (Nemerow, 1974)	46
20	Organism Associations in Clean and Polluted Waters (Nemerow, 1974)	48
21	Characteristics of Stream Zones (Jackson, 1963a).	50
22	References on Biological Monitoring	54
23	Accuracy of Automatic Water Quality Monitors (IHD-WHO Working Group on the Quality of Water, 1978)	71
24	References on Automatic Sampling and Remote Sensing	72
25	Common Fish Collecting Techniques (Jackson, 1963b).	76
26	Significance Ratings and Weights for Nine Pollutant Variables WQI (Ott, 1978b).	90
27	Calculations for Water Quality Index.	91
28	Stream Classification Based on WQI _g (Ott, 1978b).	92
29	References on Water Quality and Biological Indices.	92
30	Report Outline for Water Quality Study (IHD-WHO Working Group on the Quality of Water, 1978).	93

LIST OF FIGURES

Figure

1	General Systems Analysis Framework (NUS Corporation, 1970)	6
2	Channel Subdivision by the Mid-Section Method (Butler, 1957)	26
3	Channel Subdivision by the Mean-Section Method (Butler, 1957)	26
4	Example of Drought Frequency Analysis (IHD-WHO Working Group on the Quality of Water, 1978).	27
5	Material and Energy Flows in an Aquatic Ecosystem (Canter, 1979).	42
6	Pollutional Effects on Aquatic Animals (Nemerow, 1974).	43
7	Effects of Organic Pollution on Dissolved Oxygen (Bartsch and Ingram, 1959).	44
8	Effects of Organic Pollution on Aquatic Plants (Bartsch and Ingram, 1959).	45
9	Effects of Organic Pollution on Selected Aquatic Biota (Bartsch and Ingram, 1959).	47
10	Effects of Organic Pollution on Higher Aquatic Fauna (Bartsch and Ingram, 1959).	48
11	Succession of Organisms in the Degradation of Organic Matter (IHD-WHO Working Group on the Quality of Water, 1979)	49
12	Representative Bottom-Dwelling Macro-animals (Keup, Ingram and Mackenthun, 1966).	56
13	Sample Bottle Holder for Manual Sampling (IHD-WHO Working Group on the Quality of Water, 1978).	70
14	Kemmerer Sampler (IHD-WHO Working Group on the Quality of Water, 1978)	70
15	Juday Plankton Trap (IHD-WHO Working Group on the Quality of Water, 1978)	74

Figure

16	Eckman Dredge (IHD-WHO Working Group on the Quality of Water, 1978)	74
17	Petersen Dredge (IHD-WHO Working Group on the Quality of Water, 1978)	75
18	Surber Sampler (IHD-WHO Working Group on the Quality of Water, 1978)	75
19	Example of Two-Module Laboratory (IHD-WHO Working Group on the Quality of Water, 1978).	78
20	Layout of a Mobile Laboratory (IHD-WHO Working Group on the Quality of Water, 1978).	79
21	Functional Relationship for Dissolved Oxygen (Ott, 1978b).	86
22	Functional Relationship for Fecal Coliforms (Ott, 1978b).	86
23	Functional Relationship for pH (Ott, 1978b)	87
24	Functional Relationship for BOD (Ott, 1978b).	87
25	Functional Relationship for Nitrates (Ott, 1978b)	88
26	Functional Relationship for Total Phosphates (Ott, 1978b).	88
27	Functional Relationship for Temperature Deviation from Equilibrium (Ott, 1978b)	89
28	Functional Relationship for Turbidity (Jackson Turbidity Units) (Ott, 1978b)	89
29	Functional Relationship for Total Solids (Ott, 1978b)	90
30	Macrolocation of Sampling Stations within a River Basin using the Percent Areal Coverage as the Criteria Specifying Location	100
31	A Plot of Number of Samples per Year of the Expected Half-width of the Confidence Interval of Mean Log Flow, R, versus Number of Samples for Several Rivers in the Connecticut River Basin	104
