

FERC Administrative Record

None of these records are from FERC. They are all from the Federal Power Commission. They cover only the material from the hearings presided over by Federal Power Commission Administrative Law Judge, Nahum Litt. These hearings were to thoroughly explore all of the issues relevant to the proposed El Paso Alaska Project and Arctic Gas Project. After Alcan Pipeline Company submitted its application to Federal Power Commission and the National Energy Board in 1976, it was included in these hearings. (Hearings ended November 12, 1976)
