Dear Mr. Yould:

I was pleased to receive a phone call today from Mr. Robert Mohn, calling in your behalf, to respond to my inquire of you on October 10, 1981, about the need for a face to face meeting to discuss your concerns about timely reports from the Susitna Hydroelectric Project Aquatic and Big Game Studies this Department is conducting. My inquire of you was prompted by your September 2, 1981, letter wherein you asked for the personal attention of Commissioner Skoog in "insuring timely deliverables". In our conversation of October 10, 1981 I asked if you thought there were any problems remaining regarding project reporting schedules etc., or if agreeable solutions had been worked out with Mr. Tom Trent. You said that you had just returned to the office after a period of absence and would have to check out the situation and get back to me.

Mr. Mohn did respond today and I was most pleased to hear from Mr. Mohn that all is well and that quality reports are being received on schedule and that your earlier expressed concerns have been alleviated by recent events.

Sincerely,

Don W. Collinsworth
Deputy Commissioner
