

## APPENDIX B

### Incubation Habitat:

Data collected within standpipes and  
at adjacent surface water locations.

Appendix B consists of raw data (Appendix Tables B-5 to B-8) and corresponding summary tables (Appendix Tables B-1 to B-4). Summary tables precede the raw data tables in this Appendix for ease of reference. These data were collected by ADF&G personnel during two sampling periods (April 15-18 and April 29-May 2) in spring, 1983. In the summary tables, sampling periods are referred to as "first" and "second", respectively.
